

## Super D. S 2201

Chapter 2201: plan

Those who had been regarded as an enemy by Ye Xuan, or those who had been too hostile to Ye Xuan, were all taken to the corner.

Even the third temple was taken away.

The reason is that Ye Xuan wants a clean rest.

In fact, isn't it just to exclude them?

So how can they have a chance to do it.

"Hey, Master Ye wakes up."

When the flying smog helped Ye Xuan out, everyone cheered.

Ye Xuan also smiled and faced.

However, when Ye Xuan came to the 100th floor of the landlord.

Suddenly I saw that the hundred-storey landlord suddenly fell in front of Ye Xuan.

"I have seen Master Ye, today, I am swearing by the gods on the 100th floor, I will follow the master of Ye for life, and I will not regret this life!"

Lying in the trough!

It's this guy, and it's a swear by God, and this time I'm going to follow myself, Ye Xuan's slight glimpse.

However, a hint of the system made Ye Xuan ecstatic.

"Hey, the system prompts, congratulations to the host to get a little faith value, the belief function is officially activated, and the reconstruction belief system is officially activated!"

Actually got a little faith value!

Ye Xuan called a happy, although a little belief value is useless, but after all, this is a good start.

"Fast, get up, get up, the landlord on the hundredth floor is too far."

Ye Xuan hearted the flowers, where the body still hurts, three steps and two steps to go up and help up the hundred floors.

"Master Ye, you can be considered awake. The bodies of the magical fish people we killed are all piled up into mountains. You don't wake up. I don't know how to deal with them. Now I am waiting for you. I am waiting for you. To deal with it."

At this time, another person came over.

The good news is just one after another.

The body of the magical fisherman who piled up into the mountain, that is not to say that this time Ye Xuan can upgrade once again.

"Okay, I will pass."

Ye Xuan's face with a big smile went straight.

Looking at the body of the magical fisherman who gathered in the mountains, Ye Xuan simply opened the flowers.

"The hand of devouring!"

With a wave of it, the pile of magical fish corpses was swallowed up by Ye Xuan.

"Hey, the host breaks through, and the current nine products are in the real world!"

"Hey, the system prompts, it detects the experience of the host's last runaway lock three levels, and expects to complete the unlock after one month."

Cool!

Haha, it's so cool!

Ye Xuan is cool, and the face is directly upgraded to the peak of the gods, but there are three levels of experience in the lock, that is, Ye Xuan does not do anything, after a month, he can also upgrade to three products Waiting for the spiritual state.

Can this be uncomfortable?

Ye Xuan's powerful recovery ability is not blown out, but after just a few hours, Ye Xuan has all recovered.

At this time, Ye Xuan has already walked toward the bridge. Because of Ye Xuan's reason, the base camp is still set in the original place. However, most of the ordinary disciples are guarding the bridge.

"Ye master has come over."

The lack of moon respectfully came to Ye Xuan's front, and I can see that at this time Lingxuange had some changes to Ye Xuan, although still not willing to surrender completely, but at least, there was no such rejection.

"Oh, Ye Xuan, you are coming, we are discussing how to attack the island. This \*\*\*\* magical fisherman island, we have shocked a few times, but unfortunately have failed, there is no ban on your arrogance. So those who are enchanted fish can be resurrected infinitely, but it is extremely tricky."

Seeing Ye Xuan, everyone does not hide, directly telling why they are gathered here.

Ye Xuan nodded, but his brow was wrinkled.

He is not willing to use the level to redeem a demon ban, the last time Ye Xuan is so miserable, Ye Xuan remembers clearly, once again? Ye Xuan said that he is not willing.

However, if there is no ban on the devil, it is a bit tricky.

There is hardly any possibility to rush over.

Of course, the magic fisherman can't even rush.

However, it is always impossible to stay deadlocked, and always try to eliminate those magical fish talents!

Ye Xuan fell into thought.

How to get it, can you break through!

"System, do you have any suggestions?"

It is good to improve the humanization of the system.

“Hey, the system suggests that there are currently two reasonable options for the host to refer to.”

Two?

This is to make Ye Xuan quite surprised.

"Hey, choose one, the resources in the hands of the host are enough to redeem the perpetual ban on the use of the ban, the host can choose to take people to rush, and then arrange the shackles to ban, step by step."

"Hey, choose two, the host can redeem a special magic weapon, 诛 magic charm, this magic weapon has the same effect as the scorpion ban, but it can be carried with you, and can effectively seal a single target."

诛 magic charm!

However, his resources are actually enough to ban the magic, it seems that these few gains are good.

Both options are required to be exchanged by Ye Xuan.

But, which one to choose.

It can be said that the two choices Ye Xuan can only choose one, and the advantages and disadvantages of these two choices are also very obvious. If it is converted into a permanent demon ban, Ye Xuan can step by step to kill the past, but I can imagine that The magic ban is never cheap.

The 诛 诛 符 is much cheaper, and can be reused, as long as Ye Xuan devours the enchanted fish corpses, the scorpion can be used again, which can be effectively utilized, and also saves a lot of cost. .

Of course, the corresponding, but also bear a lot of risks, after all, if you can not use the magic seal to seal the body of the magic fisher, then the magic will soon be revived.

However, after Ye Xuan thought for a while, he decided to use the 诛 magic charm.

To be honest, Ye Xuan's consumption of resources is very scary. Some time ago, Ye Xuan had already eaten enough losses without resource reserves. With the mirrored magical power, Ye Xuan could not be used until now, not because there are no resources. What?

Therefore, resources can still save a little bit.

"System, then, choose the second option, how many devils can I redeem?"

"Hey, the system prompts that the host can currently redeem five hundred devils."

Five hundred? There is no need to be so many, first one hundred, as long as Ye Xuan timely handles the body of the magic fisherman, it can be said that one hundred is absolutely enough.

"System, I can ask, if I redeem the permanent demon ban, how much resources do I need?"

"Hey, the system prompts, if the host is permanently banned, then you need to consume three levels of host lock, and all resources!"

really! I know that this permanent ban is not so cheap.

"Well, system, I have to redeem a hundred scorpions, which is enough for the time being."

"Hey, the redemption is successful!"

Of course, even if Ye Xuan is exchanged, it is impossible to take it out immediately. If it is taken out now, it will undoubtedly be suspected.

Ye Xuan is not afraid of doubt, but there is no need to make unnecessary troubles.

Chapter 2202: New conspiracy

"There are a few breaks in these days, I will refine some magic weapons for you." Ye Xuan said to the crowd.

Everyone smiled and looked at Ye Xuan.

"Okay, then you are troubled Ye Master."

In fact, the same system where to redeem the devil, but it is a blink of an eye, not to mention, at this time, the devil is already in the hands of Ye Xuan.

However, in order not to be suspected, Ye Xuan can only be taken out in a few days.

Ye Xuan stayed alone in the room these days.

Naturally, no one else will bother him, because everyone knows that Ye Xuan is making secret things and restraining the magic.

However, everyone is still curious, I don't know what Ye Xuan will do.

After about three days, Ye Xuan finally came out again.

Ye Xuan said to the crowd with some embarrassed expressions: "Forehead, everyone, I don't have enough resources, so I can only make one hundred devils."

"The use of the demon symbol is very simple. After you kill the demon fisherman, you will activate the demon symbol immediately. He will automatically form a small ban, guarding the fisherman's body, and then I will be the first. Time to deal with those bodies, then you can continue to use this magic charm."

Ye Xuan's words were simple and clear, and everyone nodded and understood.

After selecting one hundred elite disciples, the new wave of attacks will start again.

Ye Xuan was keenly aware that his master looked at his eyes and obviously had some other meanings.

He knew that the last time his master was quit by his singer, he was swallowed directly by him. If his master asked him now, he could not get it, so Ye Xuan naturally did not dare to look at his master. Directly follow the brigade to leave.

"What to do, the master will ask me if I want to stop." After all, it is the treasure of the fifth hall. It seems that I have to find a way to get some resources out. Although I can't find the same as before, it is good. There is also an account!"

Ye Xuan walked and thought of it in his heart.

However, in this magical fisherman island, Ye Xuan really can't find a good treasure resource.

If you magically fish people, there is no way to have a ring, and naturally there will be no resources. The magical person has a ring, but it will be taken away by others.

As for the Qiang Kun ring of the dead, Ye Xuan is also embarrassed to pick it up.

For a time, Ye Xuan couldn't think of any good way. In desperation, he could only ignore it for the time being.

With the help of the devil, this time, everyone quickly took the bridge. After Ye Xuan set up an invincible ban here, it became a temporary camp for everyone.

Once you break into this magical fisherman's island, the things behind you are much simpler. Just follow the rhythm and clean up the magic fish here.

The battle was exceptionally smooth, and it was even thought that once you gave everyone enough time, you could eliminate the hidden dangers of this magical fisherman island.

Unfortunately, is it really that simple?

Because the design wanted to frame Ye Xuan, which led to Ye Xuan's violent walk, which led to the defeat of the beachhead position that the magical fisherman insisted on, which undoubtedly made some people quite uneasy.

Now, when the people come over, those people have started new plans.

Some people think that as long as the bridge is broken, isn't that the easiest solution?

Unfortunately, I think I can think like this.

However, since it is said that no one has proposed it, can it not prove that the bridge is not ordinary?

Besides, everyone's goal is to destroy all the magical fishermen and find the ancient swordsmanship. Then, what is the bridge that is worth destroying for everyone?

.....

"According to this, I am afraid that this magical fisherman island will really be destroyed by these people. This is absolutely not allowed. The master's order is to use the magical fisherman's island to cause chaos. So, these magical fishermen on the Devil's Fish Island must go out."

It is the guy of the gods!

Ming Ming is the lowest, but when he speaks, no one dares to refute.

"In this case, then, we want a way to release the magic fisherman, can't it?"

The elder of the third temple said respectfully.

"Crap, I just want you to find ways to release the magic fisherman!"

"The magical fisherman's island is surrounded by special prohibitions. I want to let the magic fisherman leave, only through this bridge. However, the coalition guards at the bridgehead, and the \*\*\*\* Ye Xuan is placed here. Prohibition, this makes the magic fisherman have no chance to rush out from here. What should I do?"

.....

"You said that if you can directly anger the ancient sword, can you succeed?"

Directly angered the ancient sword!

The proposal came out, and everyone's eyes were on the person who spoke, because they all found the possible letter in this idea. "

"go on."

The guy in the gods looked at the speaker and said.

"Well, everyone knows that this ancient sword has been integrated with the beast and the beast has already possessed the entity, and he already has a certain sense of intelligence, and the combat power is even more incomparable.

It can be said that if the ancient swordsman directly shot, afraid of anyone here, there is no way to stop.

Well, we just have to bring out this ancient sword..."

These people look at each other and realize that this idea may actually work.

After the method was established, the plan on how to anger the ancient swords was naturally discussed.

On this day, Ye Xuan followed the crowd and continued to move forward as before. The goal is very clear, that is, killing the magic fisher as much as possible.

Ye Xuan remembers that the first time he came over, the number of magical fish people on the island was still very limited.

When I came up for the second time, I already occupied the majority.

However, this time, Ye Xuan discovered that there is only a magical fisherman on the entire island!

The number is huge, and the strength of these magical fishermen is so fast that it can even be said that they do not need to cultivate.

Some people have done experiments, and they have captured a magical fisherman. At first, they just wanted to see what special these magical fishermen have. However, they have detected that this magical fisherman can automatically raise the realm.

At the beginning of the capture, it was just a three-person goddess, but after a few days of detention, it has been promoted to the four people and other gods.

It can be said that this is simply better than the Ye Xuan upgrade.

Ye Xuan is also to be swallowed before it can be upgraded. As a result, the devilized fishermen do not even use it, saying that the upgrade will be upgraded.

The roots of all this have not yet been found by the public, but if this means can be applied to the Terran side, it is simply unimaginable.

Therefore, even in the days of fighting, everyone is full of enthusiasm.

Chapter 2203: Terrorist antiquity sword

In fact, Ye Xuan also guessed a certain possibility, I am afraid, the root cause of these magical fishermen upgrading so fast is because of the magical reason.

Of course, Ye Xuan is just guessing.

The speed of the team's advancement is extremely fast. As the people kill a lot of these magical fishermen, the magical fishermen are now learning and will not be surrounded by camps.

Moreover, within a certain distance from the camp, it is rare to find a magical fisherman.

However, if it is safe because of this, then I will think more. Once someone goes out alone, or even a small team to go out, then they will be immediately besieged by the demonized fishermen, and only the big team action like this can shock the fishermen.

Originally, there was not much difference between the action on this day and the usual, and the gathering place of the demonized fishermen was found, then annihilated, and then continued to search.

It seems that this day will be spent like this.

However, when everyone came to a mountain, a horrible atmosphere made everyone feel scared.

Lingbo Lake is very vast. It is said that this magical fisherman island is a small island, but it is not a small one.

Among them, on the island, there is a towering mountain, which can be clearly seen from any direction.

The previous search did not find anything special about this mountain, but today, this mountain is moving!

Yes, the mountain is moving!

"Booming!"

Deafening sounds spread throughout the island!

"defense!"

Someone shouted loudly, and soon everyone crowded out a round array and looked nervously at the front.

"what is that!"

Suddenly, someone shouted, and Ye Xuan, who was in the center of the array, also looked at the past.

"Hey, the system prompts, detects the ancient sword, the host please be careful!"

What, that is actually the ancient sword!

What the hell! Ye Xuan was surprised, because in front of him, it was a mountain of activity. This is actually the ancient sword.

"Booming!"

"Booming!"

The mountains are constantly moving.

Along with his movement, a piece of boulder fell from his top.

A burst of strong fluctuations caused everyone to be frightened.

"Roar!"

Suddenly, a loud snoring sounded, and in an instant, the stones above the entire mountain, the soil all flew.

It seems to be a wave of volatility, coming in the sky, and in a moment, falling like a rain.

Of course, such injuries are not enough to threaten everyone.

However, everyone has finally seen what is moving in the mountains.

A powerful beast that is hundreds of meters high appears in the eyes of everyone.

On top of his body, a giant sword with a height of a thousand meters is towering into the sky!

The size of horror!

The team of hundreds of people, in front of him, is like a group of ants!

Not to mention the other, just this size, enough to shock everyone!

So big, so high!

At this point, only one thought left in the hearts of the people.

"Roar!"

Another big bang, a sound wave directly crushed toward everyone.

In an instant, including Ye Xuan, many people turned out to be unstable.

"Retire, retreat!"

Lingxuan Pavilion was the first to stand up and shouted loudly.

The strength of this monster is too strong, so that everyone is not sure about hostility.

And Ye Xuan also asked the system.

"System, detect the strength of this monster!"

"Hey, the system prompts, specifies the target, the five gods and so on!"

What, true God!

Ye Xuan only feels that the scalp is numb, to know that the \*\*\*\* above is the spirit.

Above the spirit is the mysterious god!

Above the mysterious god, it is the true God!

In the midst of nothing, there is only one super-existence of true deities, and that is the sovereign of Mo Ge.

Others, even those who are even Lingxuan Pavilion, are only those who have cultivated Xuan Shen. As for the Bailou and others, only the finest spirits have been cultivated.

There is no way to resist, how can this be done.

Retreat!

The panic retreat, at this time, everyone knows that staying here is simply waiting for death.

Ye Xuan is no exception, so strong guys, they simply can't.

Ye Xuan still remembers that the system has said that this ancient sword is the material he upgraded to the sword.

However, this material seems to be a bit too aggressive.

"boom!"

A boulder is like a crowd, and three people were killed directly on the spot.

Among them, there is a strong person with a medium spiritual realm.

However, there is no use at all. In the face of the ancient swords of the true gods, even the spirits are nothing but ants.

Escape, only escape, no one dares to resist, because no one can resist.

"Stop, everyone wait!"

Suddenly, Ye Xuan shouted loudly at the crowd.

Ye Xuan has already gained the recognition of everyone with his own strength and ability. When he heard the voice of Ye Xuan, everyone stopped.

"Master Ye, what's wrong?"

"Look, that guy, there seems to be no way to move too far!"

Yes, because of the existence of the system, even if Ye Xuan is fleeing, he can always observe the actions of the ancient sword.

At this point, he found that the ancient swordsmanship should be trapped there, and he could not do without the center of the island.

Everyone looked at the past.

Sure enough, although the ancient swordsmanship was very angry, from time to time roaring, but could not advance.

"Really, the big guy seems to be trapped."

There are many people talking, of course, no one dares to go forward.

"Look, it's the magic, all the magic, it actually came out from that guy. It turned out that this ancient sword is the root of the magic!"

Some people are keenly aware that from the sword behind the ancient swords, there are always black magical exudations, so let them know that all the roots of the magic is the ancient sword.

Or, the fisherman of the entire island is his slave.

"Look, the magical fishermen seem to be destroying the seal of this ancient sword in some way!"

Ye Xuan also noticed that around the ancient swords, surrounded by countless demonized fish people, they constantly worked hard to destroy the seal around the ancient sword.

Of course, don't want to destroy it in a short time.

"No, you can't let them succeed, you can't let them destroy the seal. Once this big guy comes out, I'm afraid no one can resist it!"

Since the danger has been lifted, everyone has stopped.

The strong people gathered together to discuss countermeasures. Unfortunately, including Ye Xuan, everyone could not get a good suggestion.

As a last resort, Ye Xuan can only ask the system.

"System, how do you think about the current situation, can you crack it?"

"Hey, the system prompts, the host please note that the system can only provide simple advice, similar to this strategy tactical arrangement, etc., the system can do nothing."

There is no way for the system!

Since the humanization of the system has become more and more high, Ye Xuan has become accustomed to methods like system inquiry.

In the past, indeed, every time I can get systematic advice, but this time, finally, can't it?

Chapter 2204: New magic form

Also, the system is a system after all, even if the degree of humanization is improved, how could it be possible to replace Ye Xuan to come up with a solution.

Ye Xuan fell into thinking.

Magic!

Yes, the ancient sword is to use magic to control a large number of magic fish.

So, can you say that as long as you can crack that magic, you can consume the ancient sword?

At the very least, it is also possible to suppress the magic fish.

These magical spirits can not only revitalize the magical fishermen, but also constantly strengthen these magical fishermen.

Therefore, the magic must be removed, at least, it must be consumed.

What can I do?

Whether it is the Lingxuan cabinet owner or other people, they are caught in thinking.

Ye Xuan is no exception.

However, for a while, where can there be any good way?

That is the super existence of the true state of God.

That is, by the way, it can suppress the super existence of all of them.

What should I do?

Ye Xuan holds the sword and keeps thinking.

"If you can have a magic weapon that attracts magic, just attract the magic, and then refine it, can you weaken the strength of the ancient sword?"

I don't know who it is and whispered a word.

The speaker is unintentional, but the listener is intentional.

Ye Xuan heard this sentence, and his heart suddenly moved.

If Ye Xuan can re-open the magical form of Megatron, then is there a chance to gain magic weapon to attract magic?

At the thought of this, Ye Xuan immediately asked the system:

"System, I want to open Megatron's magic form, what can I do?"

"Hey, the system prompts that the host can open the Megatron method, which can be triggered by a hidden task or forced to unlock."

"Forced unlocking? How do you force the unlocking method?"

Ye Xuan asked the system.

He knew in his heart that since it is forced to unlock, it is certainly not that simple.

However, when the system raised seven or forty-nine kinds of special treasures in one breath, Ye Xuan was still dumbfounded!

Forty-nine kinds of special treasures!

Where does Ye Xuan go?

It is said that the flower spirit sword waits, only four materials can be synthesized, and the first three, Ye Xuan quickly collected, but the last one, Ye Xuan has no news yet.

What's more, now is a forty-nine special treasure in one breath!

It is a treasure, not a material!

In other words, these forty-nine kinds of treasures still need Ye Xuan to refine.

Horror is simply too horrible.

How to do?

Ye Xuan fell into thinking.

Ever since Ye Xuan fell into meditation, he has been noticed. At this time, many people are paying attention to Ye Xuan.

The Master of the Moon asked carefully: "Master Ye, do you think of something?"

Ye Xuan did not think much, and the subconscious replied: "I have a way to say that I can absorb the magic, but I need the forty-nine treasures to be merged..."

He only said it subconsciously. In fact, there is no other meaning.

However, when I heard Ye Xuan's words, everyone looked at each other, but said to Ye Xuan in unison: "Master Ye, what treasure do you need, you say it, maybe we can get it!"

Yes, there are so many strengths here, I can't say it, I can really give Ye Xuan the chance to get the forty-nine treasures.

Since they are all trying to suppress the \*\*\*\* antiquity swordsmanship, Ye Xuan is not hesitating, and lists these forty-nine kinds of treasures in an instant.

The special treasures that Ye Xuan needs, although the number is large, are actually not too powerful.

Not to mention, soon, everyone went straight to the 39th, and the other ten also got the material.

"Everyone gives me some time, I will start refining treasures now!"

Ye Xuan said to everyone.

Naturally, no one will object.

When materials are available, refining will naturally have no problems.

There is a system, the success rate of Ye Xuan refining is 100%, and the speed is extremely fast.

When the forty-nine special treasures were all ready, Ye Xuan finally said to the system:

"System, open it, I want to re-open the magic form of Megatron!"

“Hey, congratulations to the host, Megatron’s magic form is unlocked successfully!”

“Hey, the system prompts that Megatron’s magic form is automatically upgraded to an upgrade. Three magic weapons are randomly brushed out every day. If the host wants to fix a certain magic weapon, it needs to consume three points!”

The magical form of Megatron is finally unlocked again!

Ye Xuan's mouth is slightly upturned.

So now, it is to look at the magic form that Megatron randomly refreshed.

Not much more, Ye Xuan now has exactly three points to swallow, so that he can fix a magical form of Megatron.

It is a pity that Megatron's magic weapon is randomly brushed out every day. What will happen, Ye Xuan can't control it.

Even if Ye Xuan hopes in the heart to come to a magic weapon that absorbs magic, but it does not want to come.

This stay is forty days!

Also, everyone will not care about forty days, and no one will urge Ye Xuan.

In the hearts of everyone, Ye Xuan has long been an omnipotent super existence.

Today, Ye Xuan said that to refine special magic weapons, it is just to make those people slightly surprised, no one will doubt.

Forty days, a full 120 attempts, however, Ye Xuan did not encounter the treasure form he wanted! However, Ye Xuan still did not give up.

The forty-first day.

Ye Xuan took a slightly embarrassed mood and finally started a new attempt.

"Megatron, come on, let me see what magical form you have refreshed today."

In an instant, Megatron was stripped from the sacred sword and then changed rapidly.

"Nine Stars Sword! By using the power of the stars, the attack power is extremely powerful..."

Unfortunately, it is not what Ye Xuan wants.

"Slowing the shuttle! A special flying magic weapon that can quickly walk in the ground..."

Still useless!

Is it still impossible to fail today?

The last chance left, Ye Xuan said that he was really embarrassed.

"The Buddha's relic, the only function, to suppress the evil demon!"

Hey!

Ye Xuan swallowed.

He did not expect to actually come up with a Buddha relic, and the function is only a single suppression of the evil demon!

He hurriedly inquired and got the results, which made him happy.

Because this is the result that Ye Xuan wants, and I don't want to, I use the three-point swallowing point directly to fix the Buddha's relic form of Megatron.

"Haha, I don't want to try so many times, I finally succeeded!"

Ye Xuan took Wei Zhentian, the form of the Buddha's relic, and went straight out.

"Ye master is out!"

Everyone saw the ceremony. In the past few days, they waited for the results of Ye Xuan, killing the little scorpion, but because Ye Xuan was not there, many of the demon fish were resurrected by the ancient sword.

And now, finally Ye Xuan came out.

"How, success is not."

It is the master of Ye Xuan, the fifth temple master.

Chapter 2205: Buddha relic form

"The master is assured that the child has succeeded."

Ye Xuan took the Buddha's relics out.

The radiance of whiteness shines on everyone, making everyone's hearts quite quiet.

"This, what is the use of this thing?"

Someone asked whispered to Ye Xuan.

Ye Xuan did not answer, but directly threw it out.

Megatron automatically launched, and a faint white light dissipated around, and these white lights, once they saw the magic, would automatically encircle.

As if, by nature, there is a general role in restraining black magic.

The black magic is constantly refining, and the white light is constantly growing.

As this ray grew bigger and bigger, finally, the black magical fear, and actually retreated toward the ancient sword.

"Master Ye, what kind of magic weapon are you, how can it be so powerful, too powerful, it is too powerful, I have never seen such a magic weapon!"

One person said loudly to Ye Xuan.

Ye Xuan just smiled, but did not answer.

In fact, according to Ye Xuan's thoughts, this area is a Buddha \*\*\*\* relic, the function is still so single, it can be said that in Ye Xuan's heart, it is simply wasting his three points of swallowing.

If it is not because of the special circumstances of the present, what Ye Xuan said, it is impossible to say that it is necessary to use three points to swallow the temple, and to give this Buddha \*\*\*\* a relic to a fixed form!

"Megatron, continue to attack!"

Although Ye Xuan does not know whether this is an attack, but as long as it is Megatron who understands what he means, then it is enough.

At this time, the white light emitted by Megatron continued to expand on the magical fisherman island, and the black magical spirit of the ancient sword was constantly compressed.

It seems that the ancient sword is very afraid of Mega's relic form, even if this Buddha's relic form does not pose a direct threat to the ancient sword.

Time is passing, everyone is watching the battle between the black, the white and the two rays of light, but the battle between the people on the ground and the demonized fisherman is hardly happening.

At this time, everyone is simply admiring Ye Xuan.

They really want to know what Ye Xuan still can't do big things.

Forbidden master!

Enchanting genius!

Now, he shows his highest achievement in the refiner.

You know, this master of refining is even more rare than the master of the ban.

In just forty-one days, Ye Xuan was able to refine such powerful things and suppress the ancient swords that supernatural existence.

This makes everyone, how can they not accept?

Of course, in fact, Ye Xuan has no refining equipment at all. He is only a new magic weapon that has activated Megatron.

I don't know how long it has been because no one will pay attention to time.

At this time, in the sky, above the ground, a black, one hundred, an obvious dividing line, the island is divided into two sides.

Although Megatron's Buddha's relic form can suppress the magic.

However, the essence of the ancient swordsmanship is not leisurely, and there is constant magical addition. For a time, it is actually a state of being tied.

At this point, everyone gathered again.

"Everyone thinks that the current situation, what should I do?"

Ye Xuan's master spoke first, and the situation is already obvious. Ye Xuan's magic weapon and the ancient sword's magical spirit have become a tie.

Moreover, the magical spirit of the ancient swordsmanship is consumed by Ye Xuan, so naturally, there is not much care for the demonized fishermen, so this is undoubtedly a good opportunity.

"My suggestion is that we will organize a group of elite disciples to rush to kill those \*\*\*\* mermaid mermaids. Although the ancient swordsmanship is not for us, but as long as these magical mermaids are completely eliminated, then the ancient swordsmanship is also fundamental. I can't find a man to unlock the seal for him. In this way, the initiative is in our hands. What do you think?"

The Lingxuan Pavilion was standing out and said to the crowd.

Everyone nods, indeed, this may be a very good way.

"I agree!"

"I agree!"

"Yes, we can do this. Although the ancient swordsmanship is said to be incomparably strong, but he is restricted by the seal, there can be no extra action. We only need to kill those who are enchanted fish, then whether it is a way to slowly The death of the ancient sword, or the enhancement of the seal, the seal of the ancient sword, are just waiting for me!"

"Yes, anyway, you must not let this guy be born, and then continue to harm the world!"

Everyone said a word to me and soon reached a consensus.

Subsequently, a total of ten elite teams were formed.

Each squad is led by a strong team of at least five intermediate spirits, and the strength of the players is at least superior to the gods. It can be said that such a squad is already able to take out. The strongest combination.

Ye Xuan also joined one of the teams.

For Ye Xuan, killing the demon fisherman and getting the body of the demonized fisherman is a great opportunity for him to improve his strength, so he will not miss it.

However, because Ye Xuan is in this team, this team has always become the strongest team. The Lingxuan Pavilion, the 100th floor, and the Liu of the training camp are all in this team, even a little Ye Xuan. The master is also to join.

According to the opinions of everyone, Ye Xuan, absolutely can not do anything.

At least here, Ye Xuan's role is even stronger than the role of all of them.

This is not a question of strength and realm. It is only Ye Xuan that can arrange a strong ban, and only Ye Xuan can control the magic weapon and constantly kill the magical spirit of the ancient sword.

"Go, start!"

Ye Xuan, the squad, chose the target to be a gathering place for the devil.

Compared with other places, the magical fishermen here can be a lot stronger, and the number reaches nearly a thousand, and among them, there are hundreds of repairs above the gods! There are also several heads in the spiritual realm!

Can be regarded as the most powerful magic fishermen gathering point in the periphery.

Of course, the removal of this place has also become a top priority.

Everyone carefully lurked forward, because they understood that they are now making any movements, then they may cause the attention of the demonized fishermen. Once they are escaped, or they are set by ambush siege, they will let the leaves Xuan and others are in trouble.

Fortunately, things have not developed in a bad direction.

"Master Ye, do you do it?"

Finally, everyone came to the gathering point of this magical fisherman, and the hundred floors lowered their voices and asked Ye Xuan.

Ye Xuan looked at the densely enchanted fisherman in front and waved directly:

"kill!"

Before the action, Ye Xuan specially greeted Megatron, paying special attention to the assault squads, and must not let the smashed fishermen resurrected, and at the same time let everyone use the means to demonize those The body of the fisherman was taken away.

Chapter 2206: Clean up

Of course, this is to facilitate the devour of Ye Xuan, the so-called body of these magical fish.

Ye Xuan holds the sacred sword and directly rushes into the magical fisherman's gathering point. The sword light shines, there is no magic fisherman at all, and he can take a sword.

Coupled with the rest of the people, in an instant, the magical fisherman will kill the ghosts and cry, and the ancient swords naturally understand the intentions of Ye Xuan and others, constantly trying to resurrect those magical fishermen with magical power, but Megatron Always able to stop in time.

Ye Xuan is also welcome, he is the magic fisher who kills and kills, he will swallow it.

"Hey, the host breaks through, and the current four products are in the same spirit!"

Ye Xuan has already unlocked the seal level successfully, so at this moment, it will be upgraded directly to the four spirits.

At the beginning, it was better. Ye Xuan did not pay special attention to the ancient swordsmanship. Therefore, it was only fighting this group of magical fishermen.

But I don't know why, suddenly, the entire attention of the ancient swords was concentrated on Ye Xuan, their team.

Therefore, from all sides, there are constantly demonized fish people and even magical people rushing past, this posture, is simply the rhythm of Ye Xuan, their team.

From the time when the ancient swords noticed Ye Xuan's pair of people, Ye Xuan and others clearly felt the pressure.

"Damn, how come another team, this is simply not killing!"

"Hey, these magical fishermen are coming to die, then we will fulfill them."

Everyone uses their own magical powers to constantly kill the demonized fishermen. If they really develop as they are now, they may soon be able to kill all the magical fishermen.

However, when a pair of powerful support came, Ye Xuan and other people knew that they had been surrounded.

It's only a matter of moments. Around Ye Xuan and others, there is a large-scale demonized fisherman. This is not the key. The key point is that this time, it's no longer those who have a \*\*\*\* or a god. The shrimp team, but the real strong team.

Spirituality!

Actually, all of them are strong spiritual gods, as many as the magical fishermen in the hundreds of spirits, this is called Ye Xuan how to play?

I can't beat it at all, it's just no different from sending food.

"What to do, Master Ye, let's continue to kill?"

The hundredth floor came to Ye Xuan's side and whispered.

Looking at the magical fisherman who was in the sky, Ye Xuan turned his head directly.

"Get a fart, escape, fast, leave here!"

Isn't it, Ming knows that he can't stay but he is dead.

Ye Xuan and others quickly fled and fled in the direction of their own camp.

And those who are enchanted fish are crazy, chasing behind Ye Xuan and others, and Ye Xuan can clearly feel that the goal of these magical fishermen is his.

Damn it!

How is this going?

Ye Xuan did not understand why, these magical fish people will regard him as the biggest enemy, one by one is simply a fearless death to Ye Xuan launched a wave of shock.

If it is not the guards of Bailou and others, Ye Xuan will definitely be trapped.

Escape, only the escape of death, because those who are enchanted fish are simply crazy, even in order to be able to attack Ye Xuan once, not even life.

I saw a demonized fisherman who was demonized by two other fish, forced to increase speed with some magical power, and then burned life to Ye Xuan.

If it is not a timely reminder of the system, Ye Xuan even has no time to escape.

And Ye Xuan was just hiding his position, and the magic fisherman actually blew himself!

Use the means of self-explosion to attack Ye Xuan, how does Ye Xuan play?

Fortunately, although these magical fish people are extremely crazy, but Ye Xuan still has no way to return to the camp.

Megatron's Buddha's Relics form has a very high repression effect on those who are demonized. These magical fishermen are able to quickly improve their level because of the magic, but if they lose their magic, they The level has also dropped very fast.

Therefore, as long as Ye Xuan retreats into Megatron's defensive range, even if the fisherman is crazy, he can't help.

It seems that at this moment, the two black and white boundaries are divided into two distinct camps. The magical fishermen rely on the absolute number, so that once the team sent out, they will fall into the siege.

If it is hard resistance, it will only be killed!

Even if the number of magical fishermen is more, they will not easily rush into the scope of Megatron's defense.

Because once they enter, they will be directly suppressed.

The demonized fisherman of the spiritual realm enters, and within a few moments, it will be suppressed to the human condition.

This makes the magic fisherman also dare not step further.

What should I do, is it so consumed?

Ye Xuan does not have that patience.

"I still don't believe it, Megatron, move with me!"

Ye Xuan was stunned by the demonized fisherman, and his heart was stunned.

After a slight rectification, he directly commanded Megatron, and at the same time, he directly promoted all the way, all kinds of prohibitions.

I am afraid, only Ye Xuan can do the ban to open the way.

You should know that the general prohibition, for example, the master of the moon, if you want to arrange a lightning strike ban, then at least half a day.

In Ye Xuan, only one command is required to the system, and then it can be arranged in a short time. ‘

This is the gap, and this is the capital of Ye Xuan.

Everyone knows that Ye Xuan is a master of prohibition. However, they did not think that Ye Xuan's ban on manufacturing was so high. Looking at the cool-looking Ye Xuan, he used the ban to open the way. Everyone looked at each other and even suspected himself. Did you look at it?

Even if Ye Xuan is just some simple bans, but it is also a ban, it is a ban, and who has seen such awkward attacks?

And Ye Xuan has done this, the magic fish can be down to the mold.

Yes, these bans imposed by Ye Xuan can only cause damage to the magic fishermen who are repaired below the gods.

Although the influence on the spiritual environment and above is very small, how can the magical fishermen above the spiritual realm be too much.

Less dispatched, only to be killed by everyone.

More out?

It seems that there are not so many at all.

For a time, the magical fisherman was beaten back and forth, a group of magical fishermen were killed, the body was swallowed by Ye Xuan, and the entire magical fisherman island was quickly cleared.

"Hey, the host breaks through, and the current realm is under the seven realities!"

Ye Xuan, finally cleaned up the magical fishermen on the magical fisherman island.

It can be said that at this time, in addition to the part of the magical fisherman who was sheltered under his feet by the ancient sword, the other magical fishermen have been killed.

As for the remaining ones, the magical fisherman is not afraid.

However, everyone stopped the attack, because at this time, if they are moving forward, they will be attacked by the ancient sword.

Chapter 2207: Ready to fight

After solving the enemies of the surrounding fish, then, in front of Ye Xuan and others, only the last ancient sword is left.

It can be said that the ancient sword is simply a super existence, and it is not so simple to want to solve him.

According to Ye Xuan's thoughts, it is definitely necessary to kill them. However, don't say anything about killing now, even if it's going to him, it's a very difficult thing.

Therefore, Ye Xuan at this time, and everyone gathered again to discuss countermeasures.

"In my opinion, I am waiting for the current strength, it is not enough to kill this ancient sword, it is better to find ways to strengthen the seal, as long as this guy does not come out to blame!"

One person stood up and made his own opinion.

However, his words quickly provoked rebuttal.

"I don't think it's proper. This ancient sword means that as long as one day exists, then it is a great evil, and it will always be a threat to me. This time, he can use magic gas to control the magic fish, then, next time. Maybe he can still do something with magic."

"Then, strengthen the seal against him. If we are attacking, we are afraid that there is no chance of winning. Even if we all work together, we have no grasp of this ancient sword." After all, he is the realm of truth. presence."

.....

Everyone, you say a word, I am trying to eliminate this ancient sword, or find a way to strengthen the seal for the time being?

The two schemes can be said to have their own sufficient reasons, but what should be chosen, but people can not make up their minds for a while.

Because of this incident, everyone is noisy, but quarreling is not a solution.

"Well, everyone is quiet, it is better to see how Master Ye decides."

The Lingxuan Pavilion owner first stood up and said his thoughts, and he was ready to hand over the decision to Ye Xuan.

"Well, let's see how Master Ye decides. This time, the encirclement and enemies of the fisherman's island can be said that there is no master of the leaves. We can't even get the bridgehead position now. I think Ye Master must have a solution. "

The 100th floor also stood out, and the meaning was clear.

"Yes, Master Ye decides, Master Ye said what to do, we will do it!"

"Ye Xuan, come and get an idea."

After a while, everyone's eyes were gathered on Ye Xuan.

This time the encirclement, Ye Xuan's credit is definitely the biggest one, and it can be said that the key battles are all completed by Ye Xuan, so at this moment, everyone will pin their hopes on Ye Xuan.

And, they are also willing to believe that Ye Xuan, Ye Xuan made the decision, they will choose to believe.

Ye Xuan thought about it and stood up and said: "I feel that we can't let go of this opportunity. Everyone may think that the ancient sword is a super-powerful person. We have no choice but to admit it. It's the truth."

"However, if you think about it, we will be able to have today's results if we pay such a big price this time. If you give up now, are you willing?"

Sure enough, everyone shook their heads.

Yes!

This time the coffers, every force has paid a great price, and it is hard to get to the present situation. If you really give up, then who can be willing.

"Yeah, if I give up now, I am not reconciled anyway, but Master Ye, the ancient sword is the true God, how can we beat it?"

"It's one thing to fight or not, but it's another thing to fight. It's really strong."

"But don't forget, he was restricted by seals, and my magic weapon has been suppressed. The strength has been reduced to a minimum. If we miss this good opportunity, once I give him time to restore strength, I am afraid it will be more difficult to deal with next time. ""

"So, my opinion is that it is necessary to fight, and we must do our best, and we will make a battle!" Ye Xuan concluded.

After everyone heard Ye Xuan's words, I also thought that Ye Xuan said that he was not convinced now. Then, to restore the time to this ancient sword, I am afraid that no one can get him.

Of course, some people have never spoken. For example, the elders of the third hall and others, Ye Xuan's prestige, let these people understand that the open challenge is not at all useful.

Want to sing against Ye Xuan, it can only be carried out in secret.

With the final tone, everyone quickly acted again, and there was a constant support from others. For a time, this magical fisherman island gathered around 10,000 people.

And Ye Xuan, this time is not idle, on the one hand using Megatron to suppress the magic of the ancient sword, another convenient, but also constantly thinking about countermeasures.

Magic!

Yes, the reason why the ancient sword is so strong, the root cause is also because of the existence of the magical spirit. The ancient swordsmanship itself is only a sword meaning left by the strong in the ancient times, and occasionally the opportunity to merge with a powerful beast. With today's form.

But in any case, its ontological strength is very limited, and it is only magical to strengthen him.

According to Ye Xuan's speculation, this magical gas may be someone who deliberately left it to the ancient swords. Now, Ye Xuan's powerful anticipation of the ancient swords is the combination of the sword, the beast and the magic. .

Therefore, Ye Xuan wants to break through.

So, how can we achieve this plan?

Ye Xuan thought hard, until one day, Ye Xuan looked at Megatron's transformation of magic, and had an idea in his heart.

Magic is the root cause of this ancient sword's ability to be as powerful as it is now.

And since it is said that Megatron can transform the magic, then, is Ye Xuan able to do it?

Even through the system, redeem more things that can transform magic?

"System, I want to redeem a special magic weapon or a spell that can transform magic."

"Hey, the system prompts that the current host conditions are insufficient and cannot be redeemed."

Not enough conditions?

"System, if I want to redeem, what conditions do I need to meet?"

"Hey, the system prompts that if the host needs to redeem the specified method, the system needs to be reactivated."

"Hey, the system prompts, if the host needs to redeem the specified magic weapon, you need to improve the realm."

Promote the realm, or activate the Zongmen system! Ye Xuan frowned.

It seems that Ye Xuan needs to leave here for a while.

Fortunately, at this time, the magical fishermen around the ancient swordsmanship have been cleared, and this ancient sword is limited by the seal, and there is no big wave at all. Therefore, Ye Xuan's temporary departure will have no effect at all. .

Moreover, during this time, the magical spirit of the ancient swordsmanship also faded a lot, even if Ye Xuan took away Megatron, it would not have much impact.

The decisive battle, of course, is not to say that you can fight, and it is necessary to prepare for work.

Therefore, when Ye Xuan said that everyone needs to leave temporarily to find a way to completely eliminate the ancient swordsmanship, there is no objection. Instead, they give Ye Xuan a lot of resources, so that Ye Xuan can rest assured that before Ye Xuan returns, they Guarantee that even if you can't get results, it won't make the situation worse.

Chapter 2208: The first target, the Beast Valley

After Ye Xuan arranged a number of bans, this left.

This time, Ye Xuan's goal is clear, and the three secrets are the places where Ye Xuan will go this time.

The first secret, Wanniu Valley, the beasts of the Beast Valley are inhabited by countless powerful beasts. For a long time, it has also been the main place for hunting and killing the beasts and hunting for the beasts.

The second mystery, Yaoshen Mountain and Yaoshen Mountain was originally a resident of the ancient Dazhongmen. There are countless Jedi, but there are also many magical medicine fields, which makes many people who are looking for elixir enter it.

As for this third secret, strictly speaking, it is not a secret, but a secret portal. The direction he sent is the endless desert in the northwest!

The endless desert can be said to be a natural Jedi. No one can cross it safely, but because there are some treasures in other places that are not found in the endless desert, the portal is left behind.

Ye Xuan of the treasures did not know, but at the time of the inheritance of the ancient gods, Ye Xuan also knew the news of an ancient city built in this endless desert.

Therefore, this endless desert, Ye Xuan is also going to go sooner or later, this is after all the place that the ancient gods deliberately proposed, Ye Xuan believes that there will be extraordinary opportunities.

According to the difficulty and Ye Xuan's needs, Ye Xuan's first goal was chosen in the Beast Valley.

He needs to go to the Beast Valley to level up, only the realm is raised, it is the real strength guarantee.

The Valley of the Beasts is already on the edge of the mountains, and there are a lot of resources for the beasts. In general, as long as there is interest, then it is absolutely necessary to compete.

Here, there are a total of ten cities, which are generally synthesized into the ancient beasts of the beasts.

Every one of the ten cities has a strong man of Xuan Shenjing sitting in the town, so no one can say that they jointly control the few entrances into the Valley of the Beast.

At this time, Ye Xuan came to one of the cities.

Although Ye Xuan's goal is very clear, it is to kill the beast and then upgrade, but before that, Ye Xuan still has to do some preparatory work.

If it is a reckless direct rush in, I am afraid to suffer a big loss.

Therefore, Ye Xuan came to this to do the beast camp in the city!

The hunting battalion originally did not exist, but as more and more people entered the Beast Valley to hunt the beasts, this hunting battalion will follow.

.....

"Hello, what do you need?"

The Hunting Animal Camp offers a variety of simple magic weapons, banned, medicinal herbs sold, and also recycled animal materials, of course, there are some valuable news.

"Give me a map of the distribution of the gods and the spirits of the gods."

Ye Xuan is also unambiguous and said directly to the man.

"Okay, the map of the gods and gods is distributed, the accuracy is 70%, the price is 50,000 Shenjing, the map of the lower spirits and the beasts, the accuracy is 60%, the price is 100,000 Jingjing, a total of ten fifty thousand."

The reason why Ye Xuan wants to buy this map is precisely because the map shows the distribution area of the beasts. How big is the Beast Valley? I am afraid that no one knows, because this ghost place has a secret environment, if it is casually invaded, even It will be lost directly inside.

As for why there are such strange places, no one knows.

After getting the map, Ye Xuan went directly into the Valley of the Beasts.

At the beginning, Ye Xuan did not think so much. When he found a suitable place, he constantly smashed the beast and swallowed the body of the beast to upgrade his rank.

Unfortunately, Ye Xuan still underestimated the danger here.

In fact, among the Beast Valley, the most terrible thing is not the beast, but the person!

Among the entire Beast Valley, the most lacking is the robber.

On this day, Ye Xuan was leveling, suddenly and directly, the system alarm sounded.

"Hey, alert, alert, host is attacked!"

Suffered from an attack?

from where?

Ye Xuan slightly stunned, the figure retreated, and opened the distance from the beast, which began to observe the surrounding situation.

No need for Ye Xuan to waste any effort, he found someone who attacked him.

A total of five people, five faces look, and there are no special people.

However, Ye Xuan still did not speak, but heard the other party open.

"Hey, boy, the reaction is very fast, you know, here is our site?"

"Your territory? Hey, here is the Beast Valley. Why, isn't this beast valley, or your home?"

A good leveling trip, but was interrupted, Ye said that Ye Xuan is not angry, it is simply impossible.

"Haha, kid, you know that, yeah, this is the beast valley, it is my family, you killed my beast, is it compensation?"

The leader said, his face was full of smug looks.

However, Ye Xuan did not pay attention to them at all, but said to the system: "System, detect their strength!"

"Hey, the system prompts that the target is three spirits, the spirit of the six spirits, and the gods of Sanming."

Just so strong?

Actually dare to find Ye Xuan's trouble?

At this point, the leader of the group continued to say: "The kid, the acquaintance, leaving 500,000 Shenjing or equivalent value of the beast material as compensation, I can spare you not to die, and even allow you to continue hunting and killing the beast here, Otherwise..."

"Otherwise, what do you want?"

Knowing the strength of the opponent, Ye Xuan asked quite disdainfully.

"Oh, otherwise I will wait for the hot hands to be ruthless."

"A good hand is ruthless, I have to look at it, do you have that skill!"

Ye Xuan didn't want to waste time, holding the sword, and rushed straight up.

"Destroy the gods!"

A sword is thrown out, but what Ye Xuan can't think of is that these guys simply have no strength at all.

A sword!

With just one sword, Ye Xuan killed the guy who was in the spirit of the gods. At the same time, he also hit the guy in the middle of the spirit.

Just like this strength, I dare to start with Ye Xuan. Is this not looking for death?

However, the person who was flying was not afraid of it, but even a threat to Ye Xuan said:

"You, you dare to do it, you don't want to live, you know, who are we?"

Ye Xuan laughed and asked casually: "Who are you, what is the relationship with me."

"Kid, don't be too arrogant, we are the people of Senro, you dare to provoke us, you are looking for a dead end!"

Sen Luo God?

Not to mention the fact that Ye Xuan was really shocked.

Such a big name is not a super strong.

However, with this person, Ye Xuan understands what this is what Shen Luo Shen Wang is.

"Kid, I tell you, Senro God is sitting on three hundred mountains, and there are countless strong men. You dare to provoke us, you must not die!"

"Haha, it turned out to be a bunch of robbers!"

Ye Xuan laughed haha.

Chapter 2209: New swallowing beast

What is sitting on the Three Hundred Gods Mountain, isn't it just a robber who is king?

Is it true that Ye Xuan can still be afraid of the robbers!

"You dare to insult the king of Solo, you are dead, you are absolutely dead!"

The man saw Ye Xuan so despised the king of Senro, his face changed immediately.

"I don't need you to care if I die, but I know that you must be dead."

Ye Xuan also did not want to waste time, with a robber who wasted his tongue and waved, and Megatron directly controlled the sword and rushed toward the man.

There is no pressure to kill.

Although Ye Xuan does not understand why this guy has three qualities of medium spirituality, but it will be so vulnerable, but this will not become the reason why Ye Xuan let them go.

"Flee!"

The other three saw Ye Xuan's words and murders, which reminded me of the escape.

Unfortunately, it is already late.

Megatron didn't need Ye Xuan's order at all, and rushed straight up. The three swords went out and killed the three people directly.

Put away the three of the Qiankun Ring Ye Xuan casually looked at it, and there are no special treasures worth noting, so they swallowed directly.

"Hey, the host breaks through, and the current eight products are in the same spirit."

To kill these five people, for Ye Xuan, it was just an episode. Later, Ye Xuan continued to kill the beast.

With the improvement of Ye Xuan's realm, naturally he needs to swallow more beasts before he can upgrade. Fortunately, the number of beasts here is extremely large.

Three days later, Ye Xuan successfully upgraded to the spirit of the nine products.

But Ye Xuan did not know that when he killed the five people, he was already noticed.

"Damn, someone who dares to kill me, I have to see, who is so courageous."

Shen Luo Shen Wang, this is an elder in the Xuanyang Gate, but the war between the various forces in the Shifang City, the Xuanyang Gate was also destroyed in a conflict, so this guy fell to hide in the Valley of the Beasts The encirclement is king.

For thousands of years, he has been in the Valley of the Beasts, and he has gathered more than 300 desperate people. From time to time, he robs people who have entered the Beast Valley to hunt the beasts. The days are also good.

For a long time no one dared to challenge his pressure. For a long time, Shen Luo Shen Wang felt that he was really a \*\*\*\* king and did not put anything in his eyes.

Knowing that his men were killed, Sen Luo Shen Wang gathered people and directly killed Ye Xuan.

.....

"Adult, just in front, that guy is in this generation of activities, and the subordinates can sense it, he did not leave."

"Okay, then give me a rush, I have to see, what kind of guy, dare to be against me!"

In fact, Ye Xuan has already noticed these people. However, Ye Xuan has now discovered a swallowing beast, so Ye Xuan is willing to leave.

However, this time the swallowing beast is a little special.

"Little guy, I see where you are going this time!"

Ye Xuan is outside a cave. This is the third time that the devourer has been blocked. Unfortunately, the guy has escaped from the previous two times.

"System, what kind of beast is this, how fast is it."

"Hey, the system prompts, the host should pay attention, the specified target is a lightning mouse, has a special talent magic, positioning teleport, can move instantaneously between the positions arranged in advance."

After hearing the prompts from the system, Ye Xuan was not convinced.

This lightning mouse, obviously has no fighting power, and the realm is nothing but the \*\*\*\* of the inferior gods, but relying on his talents, he even escaped the pursuit of Ye Xuan twice.

"Little things, I see where you are hiding this time! Hands-on!"

In order to deal with this lightning rat, Ye Xuan even summoned the thousands of beasts.

Accompanied by Ye Xuan's order, the thousand-headed god-level mount rushed straight at the same time.

Just a little cave, as long as the lightning mouse did not use his talents for the first time, then Ye Xuan has full confidence to win.

Unfortunately, this time, Ye Xuan failed again.

Ye Xuan Ming Ming saw that one of the god-level mounts, the claws were waved, and the lightning mouse also destroyed any space to escape.

However, just in that moment, the lightning rat's body exudes a strange wave of volatility, and once again disappeared!

"I still don't believe, you can escape my palm!"

Ye Xuan immediately read the outside and looked up carefully.

"Do you hide here, then, this time, I can see if you can hide."

Hey!

Ye Xuan's figure flashed, and when he shot, it was an instant ban. This banned other uses, but it was only ten times gravity.

And the scope is still small.

The lightning rat was hiding in a tree hole at this time, and he was panicked. Suddenly, the ten times of gravity made his figure stay a little.

At this moment, Ye Xuan's hand has already come in.

Holding this lightning mouse in his hand, Ye Xuan did not dare to carelessly, directly pinched to death!

"Hey, the system prompts, the host kills the special swallowing beast, the new version of the swallowing beast automatically updates successfully, after which, the host kills the advanced swallowing beast, there will be a chance to have special attributes to swallow the beast."

"Hey, the system prompts, the host kills the advanced special swallowing beast and gains a three-point swallowing point."

"Hey, the system prompts, the host kills the special special swallowing beast, gets special materials, the heart of the lightning mouse."

The heart of the lightning mouse?

The new version of the swallowing beast?

Ye Xuan slightly stunned, did not expect to kill this swallowing beast actually activated the new ability to swallow the beast, this is simply an unexpected joy!

Ye Xuan quickly checked the heart of the lightning mouse, do not know what the use of this thing, if you can have the special magic of the lightning mouse, then it is good.

Heart of the Lightning Mouse: Devouring the material of the animal, the host can use this skill to blend with the skills of the phase to produce special effects. At present, the host has no space magical powers and cannot be used temporarily.

Looking at the description of the heart of the lightning mouse, Ye Xuan probably knows what it means.

There may be, this is very rare to devour the beast, Ye Xuan's swallowing point has not been much.

These times, it has been a very rare thing to explode the advanced swallowing beast continuously. However, the consumption of the swallowing point is very heavy.

For example, Megatron's magical form, fixed a magic weapon, now requires three points to swallow, and then, there are other places that need this point.

Devouring the beast and swallowing the beast, Ye Xuan can't wait to find a nest of swallowing animals in an instant.

Of course, this is simply not realistic.

However, although it is unrealistic to swallow a beast, it is still possible to send someone to the door to swallow the beast.

At this time, the gods and gods have found the location of Ye Xuan, and Ye Xuan, also noticed this group of people.

However, Ye Xuan's attention was all attracted by the mount of the Nassau.

"The violent thing! This guy, actually used to devour the beast as a mount, it is a violent thing, the key, this is still an intermediate swallowing beast, two points to swallow!"

Chapter 2210: Wanwan Pavilion

Ye Xuan is almost full of eyes, the desire for the swallowing point, not Ye Xuan, will not feel the mood.

Shen Luo Shen Wang did not speak, but found that the opposite of Ye Xuan, actually looked straight at the eyes, even he looked a little hairy.

"Kid, what are you looking at me?"

Shen Luo Shen Wang could not help but ask directly.

Ye Xuan looked up and asked him, "Who are you?"

"Haha, kid, don't even know what I don't know about..."

It is a pity that this guy hasn't finished talking yet, but he saw Ye Xuan's hand wave, and suddenly there was a legion.

The thousand-headed god-class mount is in front, and the thousands of beast swords are in the middle of the sword, and they rushed straight toward them.

what happened!

There was even a reaction between Senro and the king. He was the strongest of the Tang and Tang dynasties, and there were four elite spirits of the three or four, and a dozen of the spiritual realms. The strong, as for the embarrassment of the next spiritual world, there are hundreds of people.

However, what does this guy mean in front of him, and ask who he is, just do it directly?

Is it your own enemy?

Where does he know that Ye Xuan will not hesitate to start, it is simply that his mount is causing trouble.

"Thousand beasts feast!"

This time, Ye Xuan rarely launched a feast of thousands of beasts. In an instant, the speed and strength of the thousand-headed mounts were suddenly rising, and the combat power was even more incomparable.

The king of Sen Luo was stunned, and Ye Xuan said that it was a hands-on, and that the shot was a lore. Even the opportunity to talk to him was not left. This was too fierce.

Is this the trouble of finding Ye Xuan or the trouble of Ye Xuan coming to him?

"brush!"

The sacred sword suddenly burst into a ray of light, so that the gods of the sensation did not dare to delay, jumped off the mount directly, and then escaped far away.

Taking advantage of this opportunity, Ye Xuan suddenly jumped up, and the condescending rushed directly toward the swallowing beast. In the middle of the road, he took over the sacred sword and suddenly it was a glimpse.

"Hey, congratulations to the host to kill the swallowing beast and get two points to swallow."

"Haha, swallowing the spot!"

Ye Xuan smiled.

However, Shen Luo Shen Wang and others, all of them are paralyzed.

Is this guy making such a big battle, just to kill the mount of Senro?

.....

"You, kid, who are you?"

It was suddenly made by Ye Xuan, and there was still the momentum of the Senro God, which was already very messy.

Such an opponent, he has seen it.

It seems that at this time, Ye Xuan noticed these people in general, and turned around casually, watching Shen Luo Shen Wang, faintly said:

"Are you the robber who is king of the mountain? Then you can die!"

"kill!"

Accompanied by this sentence, under the leadership of the thousand beast swordsman and Megatron, the god-level mount once again rushed out.

In fact, Ye Xuan has always noticed a problem.

The realm of these people is very strange. The robber that Ye Xuan encountered at the beginning is like that. Although he has the cultivation of a medium spiritual god, the actual combat power is even an ordinary inferior spirit. Not as good.

Nowadays, these people are the same. Don't look at the fact that the \*\*\*\* of the gods has the finest spiritual refinement, but the actual combat power is afraid of being a medium-spirited god.

The realm of these people is very weird!

Accurately speaking, there is no realm, and there is no corresponding strength.

Sure enough, as Ye Xuan conjectured, the combat effectiveness of these people is not worth mentioning at all, and they will be completely defeated.

Just a few moments later, the Thousand Beast Swordsman took all the robbers except the Senro King with a god-level mount!

.....

"You are the king of Sen Luo? Ridiculous, a bandit who is king of the mountain, even dare to call himself a king!"

Ye Xuan looked at the Shen Luo Shen Wang, who was sitting on the ground, faintly said.

"You, who are you, how do you want to be?"

Shen Luo Shen Wang looked at Ye Xuan with fear. In a short while, the forces he had established were completely destroyed.

"Don't kill me, don't kill me, as long as you promise not to kill me, I can tell you a secret, a terrible secret about the Beast Valley!"

Senro God's eyes were horrified and he said to Ye Xuan.

"Secret? Just because of you, is there any secret that deserves my attention?"

Ye Xuan holds the sword and walks step by step toward the king of Senro. For his secret, Ye Xuan does not care very much.

"No, what I said is true. This beast valley hides a huge secret, a secret that only I know! As long as you don't kill me, then I will tell you what this secret is!"

"Yes, you tell me now, if I think your secret is valuable, then I can consider saving your life."

Ye Xuan wants to see what this guy really wants to say.

Nathan Luo's heart understands that he and Ye Xuan are not reciprocal negotiations at all. Therefore, Ye Xuan gave him the opportunity, he can only cherish.

"Well, I said, thousands of years ago, I fell here, hiding all day, in order to avoid the pursuit of the enemy, I went all the way to the secrets of the Valley of the Beasts, and inadvertently, five found a Special secrets..."

"Where, you can get the unexpected benefits. There are countless towers. Every tower can be rewarded as long as you can pass it. The reward may be a direct improvement of your realm. It is a peerless treasure, even a powerful warlord."

"There is the legend, the beastly pavilion. Yes, it is the beastly pavilion, the more powerful existence that once was compared to the monarch, the superpower that has already perished, I know there, as long as you don't kill me. I can take you there."

The more excited the Senro God said, Ye Xuan can see that he did not lie.

In the heart of Ye Xuan, the killing of the king of Sen Luo is not a big impact for Ye Xuan.

If there is such a genius, then the news of using this little life of Sentosa to exchange this sacred priest is also cost-effective for Ye Xuan.

"I am very interested in your message. Congratulations, don't die, hand over your godhead fragments, take me to this beast."

Although Ye Xuan spared the life of this Sen Luo, but it does not mean to let him free.

The face of Senluo's brow was slightly wrinkled, and then he handed over his own fragments of Godhead. Because he knew clearly and wanted to live, he only did it according to Ye Xuan's statement.

"Well, lead the way ahead, take me to this beast house, rest assured, I said that you will spare your life, then, you will not regret to kill you, then say, your \*\*\*\* fragments are in my hands, I do not have to kill you."

Ye Xuan said faintly.

Of course, Shen Luo Shen Wang understands this truth, so he did not hesitate to go straight ahead with Ye Xuan.

Although he is called the \*\*\*\* king, but it is not the real \*\*\*\* king, but only the six spirits and so on, how dare to rebut Ye Xuan?
