

Super D. S 2281

Chapter 2281: Ten thousand blood

Moreover, Ye Xuan has a premonition. Perhaps, once they have arrived in Kunlun, they can have unintended benefits and discover a new god-level blood. It seems that it is not impossible.

Therefore, Ye Xuan is still ready to use the blood fusion stone.

"System, I want to use the blood-fusion stone, blending the blood of the gods of the gods and the blood of the **** of war."

"Hey, the host is fused with blood, the conditions are there, and the fusion begins!"

"Hey, in the blood fusion, the belief value that can be used for special reinforcement is detected, does the host join the believer in the fusion process?"

Ok?

Faith value Because Ye Xuan has the relationship of Lingbo City, it is increasing at any time, but now, the amount of increase has become less and less, Ye Xuan really does not know, now use such a belief value to fuse, what is the use.

"Fusion!"

However, since the system says it can be used, then Ye Xuan will not let it go! "

"Hey, the integration continues, detecting that the host has special resources, automatically added!"

"Hey, the system prompts, the host please note that the final process of integration is about to start, this process may bring some pain to the host, please prepare the host."

Ye Xuan nodded and waited for the beginning of the last step.

However, until the last step began, Ye Xuan knew what was called pain!

Can this be considered a little bit?

At this point, Ye Xuan even can't even breathe, but he doesn't even have pain in his mouth. He can't see his eyes in pain, and his mind is already unclear!

The pain, the incomparable pain, the whole body, and even the gods are shaking.

Because of this last step, it is necessary to withdraw the two half-level blood vessels in Ye Xuan's body, and then inject new blood, and must also redistribute the position of the eternal blood.

This kind of pain makes Ye Xuan almost a little unconscious!

I don't know how long it took, the system's prompts finally sounded again.

"Hey, the success of the fusion, congratulations to the host to get a new God-level blood, Wan Zhan blood!"

"Hey, the system prompts, the host should pay attention to this, in the process of fusion, the blood of the eternal blood resonates with the eternal blood, and the new ability of the eternal blood is unlocked!"

"Hey, congratulations to the host, the new ability of eternal blood is strengthened by the blood of the 10,000, the host acquires special skills, and the mind locks!"

The mind locks, the host will be able to lock the target with the idea, so that the target can be sensed at any time, no matter where, no matter how far away, this ability needs to use the belief value.

Ok?

Ye Xuan's brow slightly wrinkled, and in his eyes, this ability seems to have an effect with death killing.

However, since it is acquired, it is regarded as an unexpected joy.

At this time, Ye Xuan was focused on his new blood.

Wan Zhan blood: God level blood!

Wan Zun blood can automatically absorb the value of belief, and constantly improve, belongs to the blood of independent growth, but the current belief value of the host is insufficient, so this special ability is temporarily closed.

At the same time, Wanzun blood can strengthen the use of the belief value by the host. After that, some of the things that need to be exchanged for belief value will be cheaper, and the value of the host's blood value will be too low. This ability is temporarily closed.

Ye Xuan did not think that what he saw at first sight was two things related to the value of the faith.

Although these two abilities have no name, it is equivalent to the passive ability of the blood.

However, Ye Xuan understands this meaning. To put it bluntly, the blood of the people needs to strengthen the belief value and automatically grow, and grow to a certain extent, then Ye Xuan will increase the utilization of the belief value.

not bad!

Ye Xuan nodded, did not say anything, but continued to read.

"Million blood special magical one: a thousand beast swordsman! This blood fusion, the host has a thousand beast swords to keep the gods.

However, it has made some enhancements. The thousands of beasts are automatically bound to the god-level mounts. After that, the thousands of beasts will directly have the call of God-level mounts. "

Ye Xuan nodded, this means that after the call of the god-level mount, it will be able to play with the swordsmanship of the thousand beasts, instead of using Ye Xuan every time to control.

"Thousand beast swords call for God level mounts, you can choose the number of summons according to the degree of need, but the summoning limit is still a thousand heads per day, and the god-level mounts that die in battle will automatically join the common cooling time!"

"At the same time, the god-level mount is strengthened. After that, the host-sponsored god-level mount, the gold level of the guarantee, the strength to make adjustments, the gold-level god-level mount, equivalent to the lowest level of the current state of the host to the highest float, that is, gold Level-level mounts, there may be a true **** in the next class, or it may appear, nine products are in the real world!"

"The Platinum-class mounts will then be able to summon the gods of the gods, the rules are similar, and so on."

"In addition, the god-level mount will have a chance to appear with the title of the former crown!"

It is possible to have a beast with a front crown title!

Ye Xuan slightly stunned, this is not to say that the god-level mount skills have been greatly strengthened this time.

You must know that the system can be said that there is no limit to what must be called the title of the former title, then, is it not to say that the king level, the royal level, there are opportunities to appear!

Cool, it's so cool!

"Hey, the system prompts that the blood of the Lord retains the physique and recovery ability of the original host sword **** blood and the blood of the **** of war, and acquires new special abilities and recovers instantly!"

"Instant recovery, regardless of the host's heavy damage, can return to the peak state in an instant, this skill cooling time is uncertain, will determine the cooling time according to the damage suffered by the host before, it is recommended that the host not to use easily."

Hey, can you still do this?

Ye Xuan gave a slight glimpse, although the system told Ye Xuan not to use it at will, no, Ye Xuan still could not help, want to try this ability to recover instantly.

"System, I will use instant recovery now, try to test this ability!"

Ye Xuan said to the system.

The system will not reject Ye Xuan's order, so for a moment, all the injuries of Ye Xuan will come.

Cool, this ability is so cool!

However, Ye Xuan was unhappy after seeing the cooling time.

"Hey, restore the cooling time in an instant, two hundred and eighty-six days!"

Two hundred and eighty-six days!

Ye Xuan can be depressed now, obviously his injury, it only takes ten days or even a few days to fully recover, but he has to try this ability to recover in an instant, this is good, two hundred and eight Sixteen days of cooling time!

But fortunately, Ye Xuan at least knows what this moment of recovery is used for.

To put it bluntly, this is what gives Ye Xuan the equivalent of a second life.

Chapter 2282: Is it a pit or earning

If Ye Xuan encounters a super enemy, he will be seriously injured. Without this ability, Ye Xuan really has no way to fight again.

However, as long as Ye Xuan is not spiked, then use the instant recovery directly, and then cooperate with other abilities, such as the transmission of the wings of the gods, does it mean that he can escape immediately?

Or, if Ye Xuan faces a powerful enemy, Ye Xuan and the enemy lose both sides, and then Ye Xuan instantly recovers, then what happens?

It can be said that this skill is to give Ye Xuan life or special circumstances, not a common skill.

Ye Xuan continued to look at it, he would like to see, there is no special ability.

"Hey, the special ability of the blood, the blood phagocytosis, the host can strip any target blood, and then strengthen the blood of the thousand, for the upgrade of the blood."

Gone?

This is gone?

Ye Xuan frowned.

It seems that this blood is not so good.

"Hey, the system prompts, the eternal blood-capturing ability - Wan Zun, after the host is promoted to the realm of the Lord God, this ability will be turned on. The specific situation can not be queried now."

Well, there is a hidden ability, which is about the same.

However, it seems that this blood is not as good as imagined.

This time, is it true that Ye Xuan is losing money?

Of course, it is a loss or a profit. I am afraid that I can only find it step by step after waiting for the battle.

Blood devours, strengthens the thousand beast swordsman, instantly recovers, and hides the special ability.

Although there are only four attributes, but the loss is earning, I am afraid that it is only after I have to wait until later, Ye Xuan can know.

With a slightly confused mood, Ye Xuan breathed a sigh of relief!

It can be said that this time the fusion, Ye Xuan is indeed somewhat dissatisfied.

However, he will not regret it, and Ye Xuan does not have to regret it.

Because, Ye Xuan, any remedy can be refining, but this regrets medicine, he will not refine.

.....

Another month later, Kun, the language has finally recovered, and Ye Xuan has refining the remedy for him. His recovery is faster than many people expected.

Of course, if you want to recover completely, it is impossible. He is not Ye Xuan at all.

When Kun did not recover, then naturally, the three people also went to Kunlun. In order to wait for Ye Xuan and Kun to speak, but also to wait for the Princess, so in the Tianzhu school, there is still a Kunlun The messenger of the environment.

Kunlun is not allowed to bring any accompanying, even the princess.

Therefore, at this moment, Ye Xuan and other three people followed the messenger behind the Kunlun, and boarded a transfer station.

What Ye Xuan didn't think was that the transfer station was connected to a flying boat. When Ye Xuan arrived, the fly boat started quickly and moved forward with great power.

This Kunlun environment is said to be a separate secret, hidden deep, and the average person finds that it is impossible.

Specifically, no one knows where it is.

About three days later, Ye Xuan finally came to Kunlun. However, this Kunlun environment was not just tens of thousands of people who Ye Xuan thought before, but a city with nearly a million people.

"Oh, are you wondering why there are so many people in Kunlun, but there is nothing strange about it, because in our Kunlun, the highest is allowed to stay for 50,000 years, that is, as long as you like, you can Stayed here for 50,000 years. This has naturally been a large number."

"No, 30 years of recruiting a disciple, one hundred people, three hundred thousand one thousand people, three thousand years 10,000 people, even 300,000 years, only 100,000 people! According to what you said, stay up to 50,000 years. Even if everyone stays here, it is absolutely impossible to have as many as a million people in 50,000 years!"

"Not to mention, among these people, it is impossible to not fall, one does not leave!"

Kun said in amazement that in his heart he seemed to be shocked by the millions of geniuses.

Of course, Ye Xuan is also very shocked.

After all, Kunlun will only choose the most qualified person to join.

Millions of people, you are not a million genius.

However, a million, this number is big and big, and it is small and small.

There were a lot of powers in the past eight days and more than one million people, but if they accidentally provoked a super strong, then this power is likely to be destroyed overnight.

Then, this million, ten million people will be reduced in an instant.

This question was answered by the princess.

Now, Ye Xuan also knows the name of the princess, called Yu You!

Looking at Kun and Wu Xuan, he said faintly: "This Kunlun is nominally recruiting disciples for the three university schools, but in fact, if the genius in the army has been specially warfare, it will be recruited. There are also some places in the major families. Do you not know what you are?"

Kun did not speak a word, but their family has a special quota, and he as a child, actually do not know!

Fortunately, no one will entangle with them on this issue.

Under the guidance of the messenger, Ye Xuan initially had some understanding of this place.

In this Kunlun environment, it is equally impossible to achieve equal sharing of resources.

Therefore, Kunlun has set up three major assessment projects, rankings, winning charts, and standings!

The three lists are directly tied to each person's identity token, allowing them to view directly.

This ranking, the actual combat strength, who want to challenge, then go directly to the battle, win people, replace the ranking of the losers.

The lucky list is a large-scale assessment that is held every year. If you participate or do not participate, you can choose it yourself. However, once you participate, you will be born and borne, and killing your opponent and then plundering your opponent will be allowed. It is the most cruel.

As for the standings, you will pick up the task yourself and earn points.

The point system seems to be popular in every power, because the system is simple and clear, easy to manage, and convenient for everyone to know.

The rankings help the first three years of the year, and the top three in the standings each year is the one who qualified to understand the law that year.

It can be said that the rules of Kunlun are really simple.

It is also very straightforward. If you don't like killing, then you can do the task. Through the points, you can get the opportunity to understand the law.

If you want to solve it through battle, then go to the qualifying list and speak with strength.

Of course, if you like to kill and like to plunder, then there are also lucky charts waiting for you.

However, it is clear that the charter is not recognized, so it directly leads to this multi-game list and can not even enter the law of sentiment.

Ye Xuan will not care so much. Anyway, for him, no matter what method is adopted, as long as he can understand the law, then it is enough.

Suddenly, Kun did not ask another unexpected question.

"So, if there are rankings on both lists, is there any privilege?"

The messenger looked at the strange language and smiled and said: "If you have the ability to have two names, then you can have the opportunity to have two rules at the same time."

Kun nodded and did not speak.

Chapter 2283: First arrived in Kunlun

"However, it is very rare to be able to enter the top three on a list. It is almost impossible to have two names on the list!"

The messenger added another sentence.

However, the speaker is unintentional and the listener is interested.

At this time, Ye Xuan began to care about it in his heart. Since it is the top three on both lists, he can get two chances. Then why not cherish Ye Xuan?

What are the six rules?

Ye Xuan, I want to feel all!

However, as for now, perhaps more important is to enhance the strength.

Perhaps here, the true deities still occupy a large number, but Ye Xuan believes that the main deities also have a lot.

Suddenly, there was a ray of light in the distance, and the light could not be condensed, so that one can see at a glance that someone broke through.

"Hey, did someone break through to the king of God?"

The messenger said subconsciously.

God kingdom?

Ye Xuan had some doubts and asked the messenger: "Predecessors, is there a kingdom of God here?"

"Haha, Ye Xuan, is this really a little despised?"

"The main deity, is a big realm. The main deities include the five kingdoms of the gods, the gods, the emperors, the gods, and the gods. But they are collectively called the main deities. It is difficult, you think, the main deities. Is it a realm?"

It turned out to be the case!

Ye Xuan's heart was slightly shocked. It seems that sometimes, only when it reaches a certain level, can you understand the level of things.

And if you don't reach that height, even if you know it, it's not necessarily right!

In fact, Ye Xuan really thought that the main deity is just a realm, but he did not think that the king of the kingdom is actually the combined name of the five realms.

This time, the doubts in Ye Xuan's heart were all lifted.

He finally knows why it is also the main deity, but it has such a huge gap.

Finally, I know that the Kunming world is like a dozen or so main gods, but it is still only a family, even the big family can not count, let alone the ancient family!

Originally, the root cause is that in the division of the main divine, the main **** is not a realm, but a general term for five realms.

In the next month or so, Ye Xuan is in a state of study.

You are a princess, so no one does not know, and Kun is not a good disciple, but also some people who know, but Ye Xuan has no friends at all.

Except for Yu and Kun, other people rarely have contact with him.

This also makes Ye Xuan's leisure.

In the Kunlun environment, of course, it will also teach magical powers, or prohibition, deputy occupations such as charms.

However, Ye Xuan is not very concerned about these.

Deputy professional, Ye Xuan has a system, those ordinary Ye Xuan can not look up, but too powerful, Kunlun can not give.

The same is true of Shentong. Ordinary supernatural powers, for Ye Xuan, simply do not look up.

However, he is now of low strength and really wants to participate in the qualifying war. It is impossible to say that he has achieved very good results.

In contrast, Ye Xuan is better off performing the points task.

The points task is to be picked up at a special hall.

On this day, Ye Xuan came to the hall.

"Hello, I need to pick up the mission."

Ye Xuan said to the disciple.

"Which mission of true deity, go there and see it yourself, have a careful description, you have to pick it up, you can accept it directly with God."

Ye Xuan nodded and went directly to the place where the real mission was issued.

However, Ye Xuan saw those tasks, really, not very good.

Even there is another task, that is, to go to the dry sea to explore the last time the ancient giants and the thousand sea animals fight!

This is clearly the battle between Ye Xuan and the Thousand Seas Beasts. Moreover, it has been so long, and I did not expect Kunlun to have such a task.

It can be said that Ye Xuan has been watching dozens of tasks in a row and is very disappointed.

Just as he was going to look at the god-level mission, there was a mission that caught the attention of Ye Xuan.

The description of this task is generally about the fact that in the fringe of the Kunlun domain, hundreds of times have been annihilated because of the totem beast.

There is a mysterious force that constantly plunders the totem beast.

Totem Beast!

It is a totem beast!

You must know that when Ye Xuan was in a state of flux, he encountered a phenomenon in which the totem beast was plundered a lot. At that time, no one would pay attention to such a small place.

Thus, the resurrection of the organization successfully revived an ancient demon.

Even now, Ye Xuan still has no news.

It can be said that Ye Xuan is very clear in his heart, how powerless those who ask for help.

Just like the original, if not Ye Xuan, if not everyone is united, if not the sacrifice of countless people, the consequences can be imagined.

However, this task is in the Kunlun environment, but it is not taken seriously at all, just a hundred points!

Ye Xuan frowned!

Just like the original situation, then who would pay attention to a small place?

Such a move like the Kunlun Divine is the huge existence of a million-dollar territory, and it is still in a remote area. Who cares?

Who cares about what is happening there, where people live and die?

No, other people don't care, Ye Xuan cares.

He knows very well that letting the organization go down, it will become a huge scourge sooner or later, and don't forget that he has a terrible task punishment.

Therefore, this task, Ye Xuan did not hesitate to pick up.

From Kunlun, you can go out directly through the transmission array.

Moreover, Ye Xuan was directly transferred to a big city on the border.

Here, the small area that seeks support is only eight hundred miles away. It doesn't take long for Ye Xuan to use the carriage.

Lin Fengzong, under the jurisdiction of the sixty-seventh, is smaller than the original one, but the overall strength must be stronger.

Unlike Mo's cabinet, the original cabinet was already destroyed.

There is no Fenglin.

At this time, the people of Lin Fengzong, all the forces in the territory, are resisting the attack of an unknown organization.

This organization seems to be the main purpose of plundering the totem beast.

Of course, if this is the case, they may still be able to accept it.

But every time this organization is dispatched, it kills everyone in the target.

So far, in the area of Lin Fengzong, a total of 32 large and small ancestral gates and families have been attacked. With the exception of May 1st, these thirty-two forces, down to *, up to the old man who is about to dry up, have been slaughtered. .

It can be said that throughout the territory of Fengjing, everyone is in danger. Many Zongmen are even willing to give their totems to other large gates, or to drive away directly.

However, even then, it is impossible to completely escape the mysterious organization.

Ye Xuan was extremely fast and soon came to Lin Fengzong.

When Ye Xuan showed his identity, the people of Lin Fengzong were of course great.

Chapter 2284: First task

However, the strength of Ye Xuan has caused their concern.

Ye Xuan is now only a nine-piece medium true god, and even the lords of Lin Fengzong are already in the real world of the three products, which is how they do not worry.

"That, the ambassador, can you ask, when will the army of the gods come?"

Lin Fengzong asked carefully to Ye Xuan.

After all, although Ye Xuan is lower than him, he is the messenger of the gods. He can't offend.

"What army?"

Ye Xuan wondered, while looking at the information, he asked casually.

"Is it true that God sent you to come and support us?"

"Yes, I am alone!"

When I heard Ye Xuan's answer, many people mourned, no, just one person!

A small guy with a real realism in a district?

What can be used!

Is it true that God Lord is giving up on them?

Ye Xuan can guess the thoughts of these people, but Ye Xuan Qu is not angry. After all, it is true that Ye Xuan Ming has only a medium-realistic sanctification.

Well, these people will be somewhat disappointed and reasonable.

But for Ye Xuan, this time, there is no preparation for them to help.

"According to your current intelligence, then this Meigu Mountain Villa is likely to become the target of the next attack. Meigu Mountain Villa has hoarded more than 3,000 cast totem beasts, and the strength is not very strong, presumably, that mysterious Strength, will not let go, who can lead me, I want to go to Meigu Mountain Villa."

Ye Xuan said to these people.

An elder of Lin Fengzong stood up: "Let the adults, let the small lead you."

Ye Xuan nodded and followed the messenger directly to Meigu Mountain Villa.

In fact, Meigu Mountain Villa also knows that it is a very dangerous thing to collect so many totem beasts. Therefore, at this time, the entire mountain village has been heavily guarded, and even temporarily recruited some scattered repairs to prepare for the death. .

It turned out that the plan from the beginning of Meigu Mountain Villa was to fight against the mysterious forces.

Lin Fengzong only knows to ask for help, but he does not organize the forces in the country to make effective counterattacks. He gathers a lot of power, but only knows one defense. This has already disappointed the people in Meigu Villa to the extreme.

This is also why, in the territory of Lin Fengzong, it is still the root cause of scattered sand.

Because Lin Fengzong, he was too timid and afraid.

The arrival of Ye Xuan, some of the accidents of Meigu Mountain Villa, especially heard that Ye Xuan is also the messenger of the Divine, it is even more exciting for people in Meigu Mountain Villa.

Therefore, when Ye Xuan came over, the owner of Meigu Mountain Villa did not hesitate to hand over all the command.

.....

"Zhuang, you let all the old and weak are concentrated in the hall of the mountain, I will set up a ban there to prevent the enemy from attacking."

"Okay, Ambassador, I will arrange it immediately."

"Less Zhuang, you go to evacuate everyone to the Valley of the Beast, except for the necessary alert personnel, others, one does not stay."

"Ah, the messenger, are you ready to give up the rest of the hills?"

The question asked by the young masters, for them, the villa is their home, they are not willing to give up one step.

"Yes, give up all the places except the Beast Valley and the main hall. You have to know that the mysterious strength is not something that you can hard-hitting. So instead of giving up directly, concentrate all the power to guard one place, at least, Guarding a place can be the most powerful use of power, not innocent death."

"Well, the messenger, I understand."

According to Ye Xuan's instructions, the entire villa was quickly moved, and the abandonment of the abandonment, all that could be removed.

At the location of the main hall, Ye Xuan arranged a dozen large-scale defense bans including invincibility prohibition.

The Beast Valley was set up by Ye Xuan with hundreds of attacks.

Of course, there is also an invincible ban to take care of the wounded.

This time, the task belongs to the rescue mission, which is very troublesome. However, the score is only one hundred, which is why there is no one to care about.

You can be different from Ye Xuan, so when he is performing his tasks, he is more concerned with the task itself.

At the same time as Ye Xuan's arrangement, it was as expected.

That mysterious force has quietly begun to explore the realities of Meigu Mountain Villa.

Although they explored the layout of Meigu Mountain Villa, they also found the arrival of Ye Xuan, but they did not care.

Soon, a raid team of thousands of people rushed toward Meigu Mountain Villa.

They ran rampant all the way, without being blocked by the slightest, until they reached the Valley of the Beast.

"Haha, a Meigu Mountain Villa in this district actually wants to compete with us. It's just looking for death, brothers, let's kill it, enjoy it!"

Only when I rushed over, a guy in the real world, he shouted incomparably.

However, he soon ushered in retribution.

At this time, from the Valley of the Beast, a figure flew in the air and looked directly at those people.

"who are you?"

Ye Xuan asked in a plain tone.

"Haha, who are we, kid, you control who we are, you only need to know that you guys will not be able to live, haha!"

It is still the inferior true God who spoke before. At this moment, it is simply arrogant to the extreme.

The other people, laughing with the man, did not put Ye Xuan in their eyes.

Suddenly, Ye Xuan extended his hand and pointed to the bottom, then gently said in his mouth.

"Six-word mantra, die!"

"dead!"

"dead!"

Where is Ye Xuan's finger, then there will be immediately a place of death.

One after another, mysterious people have not even figured out what is going on, and they have died a lot. In the blink of an eye, nearly 100 people died directly.

terror!

It was only a moment that everyone felt a sense of horror in their hearts.

This guy, who is it, how can there be such a terrible strength.

With one finger, it is a piece of people falling down.

The inexplicable godhead was broken and died.

Moreover, even if it is a true god, it is no exception!

Among these fallen people, there are actually three medium true gods and five strong inferior true gods.

How can this be!

The five true gods are already enough to sweep the Meigu Mountain Villa, but now, even if they are not qualified to speak, they are murdered so casually.

"I am asking you once, who are you, and who is instructing you to plunder the totem beast?"

Ye Xuan is still so casual and proud of the air. At his side, the thirteen charms are constantly rotating, as if the next moment, it will fall in the opposite crowd.

The power of terror, the power of power.

At this time, Ye Xuan is so invincible, countless disciples of Meigu Mountain Villa looked at Ye Xuan, revealing the incomparable look.

Chapter 2285: Battle of the Beast Valley

"Hey, the system prompts, the host gets the faith value!"

Well, actually got the value of the faith. Ye Xuan's heart is slightly happy.

This is an unexpected gain.

Of course, some people are happy that some people are worried. At this time, all the mysterious people are all panicked, but no one still tells their belongings.

"If this is the case, then you can all die!"

Thirteen charms are launched directly, crushed!

This is basically a general battle. These people, where is Ye Xuan's opponent, not to mention, the thirteen prongs prepared by Ye Xuan are very powerful.

In an instant, the entire valley echoed with mourning, but unfortunately, Ye Xuan would not care.

Whether it's mourning or screaming, when these people slaughtered other people, have you ever thought about it today?

Why did Ye Xuan do this without hesitation?

The reason is very simple, because Ye Xuan knows that these thousands of people are simply the leading troops.

In the distance, there are actually a few people who have been silently observing the situation here. Obviously, it is necessary to report the situation here.

Ye Xuan, is to lead the snake out of the hole, is to let those mysterious people all come over.

The battle is much faster than the end of the imagination, and it is many times easier than imagined.

When Ye Xuan took away those people's Qiang Kun ring and landed on the ground, everyone in Meigu Mountain Villa had already bowed in front of Ye Xuan.

Perhaps the cultivation of Ye Xuan Zhongzheng God will be suspected at first, but when Ye Xuan shows a strong fighting power, these people have only worship.

Ye Xuan did not care too much about these people. After all, Ye Xuan knew that the real battle had not yet begun. The real battle is still behind.

"System, detect if there are any special resources, and not all of them will be swallowed."

"Hey, the host breaks through, and the current one is in the real world."

There are no special resources, thousands of pieces of Qiang Kun ring, but only let Ye Xuan upgrade a level.

It is indeed a lot hard to upgrade now!

Of course, Ye Xuan has already had psychological preparations.

The next three days, it is considered tranquil, but the fourth day, the coming, finally came!

A huge army of more than 50,000 people finally rushed toward Meigu.

Ye Xuan's plan was successful. He succeeded in arranging the mysterious army, all of them like Meigu Mountain Villa.

At this time, the direction of Meigu Mountain Villa has already become a place for everyone in Linfeng.

Many people know that the oracle messenger is the one who led the Meigu Mountain Villa in Meigu Mountain Villa.

Moreover, a victory has been achieved.

However, the fear of mysterious forces has left many people in a wait-and-see state.

Seriously, for such a person, Ye Xuan can only say that death is a deserved.

Where are they used to watch and what is the use?

Really think that they can be safe without participating in the war?

Ye Xuan is very clear about the means of destroying the organization. Therefore, Ye Xuan also understands that even if these people do not participate in the war, once the organization has seen the weakness of these people, they will kill them.

Waiting and seeing is actually waiting for death.

However, Ye Xuan simply did not want to pay attention to it. For Ye Xuan, the lives and deaths of these people have nothing to do with him. What about their love?

Ye Xuan, I can't look down on such a timid person.

When the mysterious army finally arrived, Meigu did not have the slightest panic, because Ye Xuan was still here, Ye Xuan, still leading them.

As long as there are Ye Xuan people in Meigu Mountain Village, they will not be afraid.

.....

"The **** Meigu Mountain Villa, I must step here and avenge our dead brethren! Brothers, rush, stepping into the Meigu Mountain Villa!"

A guy in the real world of truth shouted loudly.

However, he himself is hiding behind the crowd.

brothers?

Ye Xuan cares about this title, why is this guy calling someone else?

Ye Xuan subconsciously pays more attention to the guy.

Of course, at this moment, Ye Xuan is not in the mood to pay attention.

"Mei Valley Villa, I don't want to say anything extra. This is your home. You are not guarding your home. It's all your own business. Now, I will fight with you, as long as you don't stop. Fight, then, I won't stop!"

Ye Xuan does not have any impassioned combat mobilization, because for these people, there is no need to mobilize.

They know why they are fighting, maybe these totem beasts, they can not guard, but their family, they can not be guarded.

Behind them is their home.

A deadly battle is their only choice.

"kill!"

In an instant, both sides broke out with a very strong momentum. It can be said that the number of people on the side of Meigu Mountain Villa is not possessed. However, because of the arrangement of Ye Xuan, they need to defend, only the entrance to the Valley of the Beast.

If you are a mysterious person, you want to try some other places, whether it is Ye Xuan or the people of Meigu Mountain Villa are very welcome.

Because in addition to the entrance location, other places have already been banned by Ye Xuan.

Of course, the mysterious organization could not know about it at all, so they eventually sent a branch to try to circumvent the front of the valley.

Unfortunately, they soon ushered in destruction.

The people attacking from the ground are better. They are just trapped and forced to escape. As long as the reaction is fast enough, there is still a chance to escape.

But people who want to fly from the sky are not so lucky.

"boom!"

"boom!"

"boom!"

The continuous roaring sounds, those who are trying to get around the valley.

The frontal valley is out, but the killing is bloody.

Residual waste, broken arm.

Here, there is no reason to speak, only killing.

Ye Xuan quietly looked at all this, not Ye Xuan indifference, not Ye Xuan did not shoot.

But now, he can't shoot.

I told Ye Xuan about the experience in the world.

If these people are really people who are out of the organization, then among them, there will be strong!

Ye Xuan and so on is the emergence of the strong!

The battle has been going on. It can be said that the overall strength of Meigu Mountain Villa is still a lot weaker. Fortunately, because of its geographical advantage, it can maintain its advantage. However, such an advantage must not last long.

Is it that Ye Xuan guessed wrong, this time, people who have not destroyed the organization are involved?

Ye Xuan lifted his hand and the power of Xuan'ao suddenly started.

"Six-word mantra, raw!"

In an instant, hundreds of Meigu disciples who have already died in battle have once again resurrected.

Subsequently, in the hands of Ye Xuan, in a shining light, those who were seriously injured by the Meigu disciples, the surprise found that the wounds on them are healing quickly, even if it is internal injury, it is also quickly repaired!

Countless people look at Ye Xuan, and in addition to worship, it is fear.

However, Ye Xuan did not care at all. In Ye Xuan's mind, this is just a matter of convenience. His goal is to wait for the strong person who has destroyed the organization.

Suddenly, the system's alarm sounded.

"Hey, alarm, alarm, detection of powerful attacks!"

"boom!"

A ray of light went straight to Ye Xuan, but fortunately, Ye Xuan has always been wary, so this shot is empty.

Finally came out, Ye Xuan thought that these guys, really so tolerable, really not ready to be exposed!

Chapter 2286: Drooping retreat

Needless to say, Ye Xuan also knows that it is natural to destroy the organization.

After all, Ye Xuan's resurrection skills are too powerful, even beyond the limits of everyone's imagination.

No one knows how Ye Xuan did it, but everyone knows that if Ye Xuan continues this way, then the final result may only be that they are consumed alive.

"court death!"

Ye Xuan's figure has already rushed toward the man who attacked him.

Because she has always been vigilant, Ye Xuan has already discovered him at the moment when the man started.

This person dressed as a normal disciple mixed in the crowd, although Ye Xuan did not know why he would do this, but thought that this can avoid the detection of Ye Xuan, then, it is too naive.

"Destroy the gods!"

Ye Xuan holds the sword of the scorpion, and between the moments, it is a sword.

Jianguang was immediately dispersed in the air.

The seven swords light directly hit the crowd.

"boom!"

"boom!"

"boom!"

At least a few dozen people were directly killed, and the person who shot and attacked Ye Xuan was actually slammed with a hit and killed, and was directly killed.

"kill!"

Seeing that Ye Xuan was so powerful, those people were not scared, but suddenly rushed toward Ye Xuan.

Because they also know that Ye Xuan is the real conductor, killing Ye Xuan, will be able to win.

Ye Xuan's mouth is slightly tilted, and with a wave of his hand, dozens of telescopes appear directly.

Since these ants want to die, then Ye Xuan does not mind to fulfill them.

The charm, but the magic weapon used exclusively for attack, is a bit bigger than the power of the ban.

At this point, Ye Xuan suddenly shot, the dozens of gods, it immediately turned into a dance of death.

Engulf the enemy's entire camp.

In the sky, below the ground, one enemy after another was killed.

Even some people don't even know how to die.

"Six-word mantra, die!"

"Intelligence control!"

"It's killing each other!"

For these ordinary disciples who are only God's human beings or heavenly gods, there is no threat to Ye Xuan at all. With a wave of hands, dozens of people will fall.

Life at this moment seems so insignificant, even if these people are gods!

When Ye Xuan took the shot, the whole battle situation changed immediately, because Ye Xuan was too strong, so strong that he couldn't help the enemy, and his killing of the enemy was simply as simple as slaughtering a dog.

After a short while, those mysterious people have already retreated in horror.

No one, no one can stop Ye Xuan's footsteps.

Even the first person who shot the attack on Ye Xuan, once Ye Xuan shot, he can only retreat, and even may be killed by Ye Xuan at any time!

"kill!"

Under the stimulation of Ye Xuan, Meigu people fought a lot, and gave up the defense directly and changed to attack.

"Withdraw! Quick withdrawal!"

The enemy is finally unable to resist, and there are Ye Xuan in them. They can't even gather power at all. Even the strongest of the true gods can be easily killed by Ye Xuan, let alone other people.

It is very similar to what used to be.

The true state of God here is already the strongest existence.

So, how can someone threaten Ye Xuan?

The enemy retreats like a tide.

Although it is said that the Meigu disciples struggled to kill, but they are a lot less, so it is impossible to truly destroy the enemy.

Even with the deepening of the pursuit, it is very likely to fall into the siege.

"Remove! Go back to the valley."

Ye Xuan freely issued an order.

No one dared to violate Ye Xuan's orders. Ye Xuan conquered everyone with his own strength.

In the Battle of the Beast Valley, the mysterious person suffered a heavy loss, leaving at least 3,000 bodies.

However, this is acceptable for them.

However, the biggest significance of this battle is that after the war, in the territory of Lin Fengzong, the forces of both sides began to pay attention to the battle here, and even sent people to prepare for support.

The size of the Zongmen family in Linfengzong, after all, is not really all that does not want to resist the enemy, but no one has taken the lead.

The identity of the Ye Xuan Divine Messenger, in addition to the victory of the Beast Valley battle, let them see the opportunity.

Since it is said that they can defend their homes, since they are taking the lead, they naturally will not sit idly by.

In the following period of time, with the leadership of Ye Xuan, Meigu Mountain Villa won the victory again and again, and the large and small Zongmen also joined the coalition army of Meigu Mountain Villa. It can be said that the bigger the battle, the smoother the battle. .

Originally, Ye Xuan thought that this time, I am afraid that it will be a war of attrition and will last for a while.

However, what makes Ye Xuan wonder is that the mysterious power has disappeared inexplicably!

Yes, they retired without fighting, and even they could not find the figure directly.

Ye Xuan continued to search for a few days and still couldn't find anyone. He could only return to Kunlun and hand in the task.

This time, only a hundred points were provided to Ye Xuan. Of course, Ye Xuan did not care about the points of this task from the beginning. What he cares about is nothing but the news of the organization.

Of course, this is not all he got, the most important gain, fear is the value of faith!

Once again, at the mission release office, Ye Xuan carefully checked the mission, points, and Ye Xuan to earn, but he was not very anxious.

Now Ye Xuan wants to search all the suspicious places once and for all, as long as it is possible to destroy the organization of the message, then Ye Xuan will not let go.

Soon, Ye Xuan found a new task.

"God-level mission: mission requirements, explore mysterious secrets, mixed secrets."

It is said that this mixed-age secret has already been explored by people, and there are no noticeable treasures in it.

However, I don't know why, during this time, a large number of gods entered it, and many resources were also sent in.

Because no one knows what is going on, Kunlun has released this task and asked the disciples to check it out.

Although this task does not have any hints about the possible destruction of the organization, but Ye Xuan always feels not simple.

Therefore, Ye Xuan took over this task.

"Are you sure you want to pick up this mission?"

The disciple who was responsible for the release of the task, looked at Ye Xuan with astonishment, knowing that Ye Xuan is not a good god, but to perform a mission of the **** level, but it is very dangerous.

"yes, I'm sure!"

Ye Xuan nodded and replied.

"Well, since you made your own choices, then I can't say anything, to you, this is the magic weapon for recording. After you enter there, you will open this magic weapon, then you can record the situation inside, to Use this thing to give you the level of completion and reward points."

Ye Xuan nodded, no wonder this task did not directly say what kind of reward, the original, the reward of this task, was originally uncertain.

Soon, Ye Xuan once again dispatched.

This time, he still traveled alone.

Chapter 2287: See also black gas?

The mixed secrets are also in the fringe of the Kunlun domain.

Of course, if it is really an organization, I am afraid that they can only be active in the zone.

Perhaps some of the main gods have been completely controlled by the organization, but at least, this Kunlun domain has not yet.

Moreover, I don't know why, Ye Xuan's heart always feels that there seems to be something big to happen.

This is an unfounded guess, but Ye Xuan feels that way, and Ye Xuan has always believed in his instincts.

It's just that what happens, then you can only know when things happen.

With the transfer permission, Ye Xuan's forward speed is extremely fast, so, not too long, he came to this mixed secret.

In the field of the main gods, in general, the so-called border area can only be said to be too far from the city where the Lord is located, not the border in the true sense.

Because the border of the main **** field is the battlefield of the Lord God.

Every major **** field, no matter if it is bordered by several other main gods, will be set in the battlefield of the main **** without exception.

Even if there is no battle.

These battlefields of the Lord God are considered to be the real border areas.

As for other places, it is not a border.

Of course, such remote areas, many times, will not be taken seriously.

The mixed secret is located in such a place.

This is a slightly convex place. On his three sides, there are broken voids. There is no way to go, but only one side is the entrance.

If this is the only way to go, the key is the environment here, extremely sinister.

This is an area of dangerous level, and the laws of nature are lost, resulting in frequent chaos here, and there are many special beasts living here.

So, in fact, here, there is no such thing as the existence of any sect.

There are some people who come to hunt for the beast.

Of course, that's all. After all, even the mixed secrets have no resources, and there is still some attraction here.

However, I don't know why, during this time, there are a lot of people coming and going here.

Ye Xuan has already arrived at this place that the locals call the Devil's Peninsula. From the mouths of local people who are hunting for the beast, Ye Xuan has found a path through the inside of the Devil's Peninsula.

At this time, Ye Xuan walked on this small road.

It can be said that in this Devil's Peninsula, it is indeed very dangerous.

Ye Xuan had not gone far, and he encountered a beast that blocked the road.

"Hey, the system prompts, specifies the target, and waits for a god!"

"Hey, the system prompts, the host please pay attention, specify the target beast, slight variation, please pay attention to the host."

Slight variation?

What does it mean?

Ye Xuan is slightly wrong, natural, and attention has been concentrated on the beast and carefully observed.

On the surface, this beast does not seem to have anything too special. Even if Ye Xuan uses the system to detect it, he can't see anything special.

Since you can't see it, then go and try it yourself.

"Thousand beast swordsman!"

Ye Xuan summoned a thousand beast swordsman, let the thousand beast swords step by step to test the beast.

The thousand beast swordsman was extremely fast and rushed straight to the past. However, he did not start yet, but he saw the **** beast first.

"Roar!"

Just listen to the roar of the beast, then turn out dozens of bones from under the ground!

Yes, it is dead bones!

Ye Xuan synthesized the bones of the sword, but that is also synthetic.

But in front of this beast, you can exude a mysterious black breath from the body, and then re-given those dead bones!

This black gas is not the magic that Ye Xuan had encountered in the magic fish.

It is a new power.

"what is this!"

Ye Xuan asked the system.

"Hey, the system prompts, there is not enough data, can't detect!"

Is there enough information? That being said, this thing was never encountered by Ye Xuan before, but what is this breath, what is it?

At this point, the thousand beast swordsman has reached the attack position, only to see a thousand beast swordsman a hand.

Ten upgraded mounts have already appeared, and then, under the command of the Thousand Beasts, the stone upgraded the mount and rushed up.

This is how you want to test the healing power of those who have been resurrected.

What makes Ye Xuan somewhat strange is that this is a bad bone, but its strength is not very good. The ten-headed god-level mounts, even without spending too much power, will directly annihilate those dead bones.

Ye Xuan frowned and looked at all of this, and the thousands of beasts were still attacking constantly.

But I don't know why, although it is said that now the beast swordsman takes the initiative and suppresses the beast.

You can always feel very surprised in Ye Xuan's heart, always feel that things are not as simple as the surface.

Suddenly, when Ye Xuan was extremely confused, he saw something that she could not believe.

I saw those bones that were crushed by the god-level mounts, and they also gave off a faint black gas, and then directly eroded the minds of those god-level mounts.

Even after arriving, I tried to control the god-level mount.

Although it is said that these god-level mounts of Ye Xuan are absolutely loyal, it is not the black gas that can be controlled at all. Even if it is a last resort, this god-class mount prefers to disappear, and will not be willing to be controlled.

However, Ye Xuan was shocked between the moments.

Because, Ye Xuan may have been exposed to the secret here!

Ye Xuan, thought of a possibility, a very likely possibility!

That is, the beasts here, and people, perhaps, have all been under control, even including the one who first pointed to Ye Xuan!

It is very likely that all the creatures here are controlled by the black breath.

Why did Ye Xuan think so?

Just because the black breath tries to control the god-level mount?

Of course not, Ye Xuan guessed this, and had his own reasons, because Ye Xuan thought about it.

The man who gave him directions, his expression was very sluggish. At that time, Ye Xuan didn't think much, but now after seeing this scene, he found that the sluggishness was not normal!

Must leave here!

After Ye Xuan wanted to understand these things, he was shocked and went straight to the back and wanted to leave.

However, now that Ye Xuan wants to leave, it is as simple as saying that he can go.

When Ye Xuan's figure began to retire, he discovered that behind him, dozens of people stopped his way!

"Hey, the system prompts, specifies the target, the lowest realm, the next god!"

Are the lowest realms inferior?

That means that Ye Xuan could not hardly rush.

How to do?

Ye Xuan thought quickly in his heart. He really didn't think that it was all controlled by the black magic.

Chapter 2288: Mysterious lake water

So now, it is impossible for Ye Xuan to break through the blockade of those behind him. He can only escape to the side.

It can be said that this escape, Ye Xuan will fall into endless trouble.

Ye Xuan knows this in his heart, but knowing how it can be, even if he knows, can he still escape?

Do not escape, just wait for death!

"Flower God Swordsman!"

In an instant, Ye Xuan summoned the flower **** sword waiter, let the flower **** sword wait to delay the time.

And Ye Xuan himself has already plunged into the jungle next to him.

The transmission power of the wings of the gods requires energy to use!

Unfortunately, when Ye Xuan was fighting with Kun, he had already consumed energy.

Even now, Ye Xuan has a little regret.

That fight, it was cool, but now, in such a situation, it is not easy to get it.

"Megatron, the magic weapon!"

Ye Xuan shouted, he hoped that Megatron could change a magic weapon that is conducive to the current situation, such as flying boats!

Unfortunately, Ye Xuan also knows that there are not so many coincidences.

Sure enough, Megatron's three chances, even the flying magic weapon, failed to change.

"Damn, this time, I am miscalculated!"

Ye Xuan was a little annoyed, of course, no matter how annoyed, he did not dare to stay here.

I don't know how long it has been, Ye Xuan has been able to definitely ask for the pursuit of those people.

This stopped, but now he doesn't even know where he is.

This is a forest, and the ancient trees even cover the sun and can't see it at all. It seems a bit gloomy.

From time to time, there will be some strange poisonous insects. Of course, it is a threat to Ye Xuan.

"If you are trapped here, it is not a solution at all. I have to find a way to get out of here."

Ye Xuan walked carefully ahead, but he only walked out a few steps, and the system's alarm suddenly remembered.

"Hey, the system prompts, it detects that there is a strong beast in front of it, suggesting that the host change course!"

Ok?

There is a powerful beast in front?

Ye Xuan didn't know why the system remembered him now, but since the system said so, then Ye Xuan naturally has to change direction.

However, it didn't take long before the same system prompts, once again!

Next, Ye Xuan changed the direction several times in succession, and it was all like this!

The most important thing is that there is a special suppression here, and Ye Xuan's stealing function of launching the wings of the gods will not work.

It seems that there is a mysterious force that prevents any hidden ability!

Just now, Ye Xuan fled all the way, actually got into such a special beast!

Moreover, they are also powerful beasts!

How could this be?

Can make the system early warning, then, I am afraid that at least the beasts above the middle of the gods, how can there be so many powerful beasts here?

The system is impossible to make mistakes, so these beasts are really there.

Can Ye Xuan just want to understand, such a partial place, actually gathered so many powerful beasts?

what is this?

"Wan Xun Swordsman!"

Ye Xuan summoned the small Wan Xun swordsman. This guy has a strong ability to detect, and it is very small and very fast.

"Wan Wanjian waits, go, find a way out for me!"

Ye Xuan told the Wan Xing sword.

He is now afraid to act rashly.

In the sacred nest, it is not a wise choice to provoke the beast. If it is not careful, then Ye Xuan's provoke is not one or two powerful beasts.

Ye Xuan can't take risks. He carefully observes the surroundings, but the more he thinks, the more strange he is.

According to normal, the lowest is the **** of the middle gods, and the gods are equally good, then they can't find Ye Xuan.

In general, once the enemy has discovered the enemy, it will attack immediately.

However, Ye Xuan just rushed out several times. It is reasonable to say that even if those beasts have the consciousness of territory, then Ye Xuan has already infringed on their territory, and they should attack Ye Xuan.

However, why Ye Xuan has not been attacked.

Now Ye Xuan is surrounded by these powerful beasts, and those sacred beasts know his existence, but they are not coming forward.

How is this going?

This thing seems to be weird! Ye Xuan thought about it, but found that perhaps the only explanation lies in the place where he is now.

After the return of the Wanxiang sword, Ye Xuan made more certain things.

This place is weird.

"System, can you fully detect the surroundings and see what is strange around this!"

"Hey, the system prompts, turn on the scanning ability, you need 10,000 belief values, is the host confirmed?"

"Well, system, how many beliefs do I have now?"

"Hey, the system suggests that the host currently has a value of 163,000 points!"

One thousand six?

The last time Ye Xuan Ming Ming remembered that his belief value was running out.

Is Lingbo City providing itself with a value of 16,000 for so soon?

In truth, it's not so fast!

Suddenly, Ye Xuan thought of Meigu Mountain Villa!

Yes, at the Meigu Mountain Villa, Ye Xuan had received a belief value, but Ye Xuan did not feel that he could get much, so he did not care.

But now it seems that this is not the case at all!

Also, this time Ye Xuan is helping the Meigu Mountain Villa as a messenger of the gods. It can be said that it is simply to save the Meigu Mountain Villa. In the eyes of everyone in the Meigu Mountain Village, Ye Xuan is naturally different.

Therefore, after Ye Xuan left, there are still countless people who worship him and believe in him.

Since you have a belief value, then use it!

"System, use the belief value to scan here."

Ye Xuan said to the system.

"Hey, the host uses scanning capabilities."

"Hey, the scan is successful!"

"Hey, the host should pay attention, the mysterious area is found in front, and the host is recommended to view it."

Mysterious area?

Ye Xuan is going to have a look at what is mysterious.

Ye Xuan did not hesitate to go straight ahead.

After a while, appearing in front of Ye Xuan, is a lake, a black lake!

The lake is not big, it can be seen at a glance, and on the surface, there seems to be nothing special.

However, since the system says that this is a mysterious area, then there must be something special here!

Ye Xuan took a round around the lake, but did not find anything.

Ye Xuan slightly frowns, what is it strange to say, will the system say that this is a mysterious area?

With a wave of it, Ye Xuan is ready to take some lake water to see it carefully.

However, this time, he finally found something special!

That lake water, Ye Xuan actually could not salvage!

Yes, Ye Xuan exudes the power of the gods, and it is absorbed by the lake in an instant!

Chapter 2289: Ancient demon blood

However, this lake is not a drop of salvage!

How is this going?

Ye Xuan slightly frowned, this lake, there are weird!

"Hey, the system prompts, congratulations to the host to discover the ancient demon blood! It is recommended that the host collect immediately."

"Wait a minute, the system, you said the lake of this lake, what is the blood of the ancient demon god?"

Ye Xuan's heart is full of surprises, such a big lake, if it is really the blood of the ancient demon god, then how great the ancient demon god!

"Hey, the system suggests that the ancient demon blood can be used to directly strengthen the host blood, or to synthesize special blood."

"The key is, how is this charged?"

Yeah, Ye Xuan really can't think of any good way to collect the blood of this ancient demon god. You must know that Ye Xuan's usage treasure has also been tried. Any magic weapon that enters this lake will quickly lose its power. After leaving the lake, the power will be slowly restored.

In other words, this lake has a role in blocking the power of the gods.

"Devouring!"

Ye Xuan took a move and changed the way again.

He is ready to use the phagocytic space to absorb the lake into the near-swallowing space.

There was no reaction at the beginning.

But when Ye Xuan thought that he had failed, he suddenly rushed.

It turned out to be the attraction of the lake!

A force, a mysterious force, actually interacted with Ye Xuan's phagocytosis.

At this time, even if Ye Xuan wants to take back the devour, he can't do it at all!

"What is going on, system!"

Ye Xuan never encountered this situation, so I immediately asked the system.

"Hey, the system prompts that the blood properties of the ancient demon have changed."

"Hey, the system prompts, the information is insufficient, and the specific quality cannot be detected!"

"Hey, the system automatically enhances phagocytosis."

A series of tips, let Ye Xuan do not know, this time is a blessing or a curse.

From the system's tips, Ye Xuan has understood that this lake is not the blood of the ancient demon, but the more advanced things, but what is the specific, the system can not give the answer.

According to the truth, this is definitely a good thing for Ye Xuan. After all, is it more general than the blood of the ancient demon god?

However, the premise is that Ye Xuan can conquer this thing.

But now the situation is that Ye Xuan and the lake water are at a stalemate stage.

Two swallowing forces, stalemate in the air, the lake, and even want to engulf Ye Xuan!

Or to be precise, it is the engulfing space of Ye Xuan!

At this point, the system has continuously used the resources of Ye Xuan reserve to enhance the phagocytosis. However, the lake water seems to be able to strengthen the power of engulfing.

Even if Ye Xuan wants to leave, he can't do it at all, because the powerful power has made Ye Xuan unable to move.

"Damn, if you go on, it's not the way!"

Ye Xuan is in a hurry and continues to do so. Ye Xuan may have to suffer a big loss.

How to do!

I have to think of a way to come out!

"Wait, it seems that this lake can swallow the power of God. If I launch an attack now, will he give up some power to devour the power?"

Suddenly, Ye Xuan's flash of light flashed and thought of a possibility.

Although Ye Xuan can't move now, Megatron can move them all!

Thinking of this possibility, Ye Xuan will be hesitant.

"Thousand beast swordsman!"

"Flower God Swordsman!"

"Give me all out!"

The two swords appeared in the moment, and at the same time they appeared, Ye Xuan immediately ordered.

"All the god-level mounts and the flowers and flowers, I will jump into the lake!"

Get the order, all the god-level mounts and flowers and flowers, did not hesitate to jump directly toward the lake.

"Hey! Hey!"

Ye Xuan can clearly see that once he enters the water, whether it is a god-level mount or a flower, he is immediately melted and then swallowed.

However, Ye Xuan did not hesitate and could not hesitate.

"Megatron, control the sword, give me an attack!"

Ye Xuan once again reached an order against Megatron.

With a bang, the sacred sword flew directly from Ye Xuan's side.

Then from mid-air, constantly send out attacks once and for all!

"boom!"

"boom!"

"boom!"

However, the lake did not splash the slightest wave.

All the god-level mounts and the flower gods, as well as the attack of the sacred swords, can't even make the half-waves in the lake!

A terrible lake!

No, it should be said that it is a strong terrorist.

After all, this is the blood of a strong person, not a real lake.

What kind of power is this, his blood, even after such a long time, can maintain such a powerful force.

Fortunately, Ye Xuan's series of actions, it really has an effect.

At this point, the phagocytosis in the lake has been significantly reduced.

In this way, let Ye Xuan get an advantage here.

"Fast, system, swallow up! Then quickly get out!"

Yes, Ye Xuan will not miss such a good opportunity. Of course, it is impossible to completely devour this lake and lake water, but even if it is a little bit, Ye Xuan believes that it will definitely be useful.

However, even if it sacrificed all the god-level mounts and flowers, at the same time, Megatron also controlled the crazy attack of the sword, but it only gave Ye Xuan a little time.

In such a little time, the lake that Ye Xuan swallowed was less than a barrel...

Later, Ye Xuan was directly liberated from the devour, and then stood in the middle of the lake with amazement.

At this time, when I saw the lake again, Ye Xuan still couldn't help but shudder.

Fortunately, he eventually got a bucket.

Moreover, as long as Ye Xuan is willing to wait until the upgrade mount and the flower avatar refresh, then he can still get it slowly.

Ye Xuan knows that such a good thing can be met and can not be asked, so, the next time, Ye Xuan did not consider leaving things, but has been collecting the lake.

Ye Xuan is very patient, and, as time goes by, after mastering the skills, Ye Xuan can already swallow two barrels of water at a time.

These lakes are all engulfed by Ye Xuan.

The original Ye Xuan is only intended to be, since these are still good things, then save a little more, after all, this weird place, not Ye Xuan said that you can come over.

However, when he stored it in a hundred barrels.

The system's prompt sounded.

"Hey, the system prompts, the host can now consolidate the lake, whether the host chooses to concise!"

Condensed lake water?

What is the use of this?

But since the system says so, then it must be useful to consolidate.

"Okay, concise!"

Ye Xuan said to the system.

At the same time, along with the words of Ye Xuan, I saw that all the lakes were taken out by the system. Then, the lakes quickly condensed in the air and were constantly compressed by the power of the system.

Chapter 2290: Semi-domain ban

Almost at a speed visible to the naked eye, the lake is getting smaller and smaller, and the color is beginning to change slowly.

one day!

Throughout the day, this process has continued.

When the final condensate of the lake was completed, Ye Xuan was shocked.

Actually, it is a drop of purple blood!

Yes, with so many lakes, it only condenses a drop of purple blood.

Of course, even so, the blood contained in the lake is extremely horrible.

"System, what is this?"

"Hey, the system prompts that the host is currently under-level and cannot be viewed."

"Hey, the system prompts, the unknown blood, the usage is unknown, it is recommended that the host be stored."

Ok? After spending so much time and spending so much energy, what is actually getting a blood that I don't even know?

So, continue to collect?

Ye Xuan has some hesitation in his heart.

This thing, Ye Xuan currently does not know what the use of Ye Xuan, it is so difficult to collect, if you continue to collect, then, will it be a waste of time?

However, Ye Xuan's heart is sure that this blood is definitely not simple.

It is a dilemma!

.....

"Forget it, just collect nine drops, get a total of ten drops of this purple blood, and then leave, regardless of whether you can know the usefulness of this blood, at least, do not leave regret for yourself!"

Ye Xuan made a decision.

This collection is a full year and a half!

Even with the increasing skill of Ye Xuan's collection skills, the timing is getting better and better.

However, it still took a year and a half to collect 10 drops of purple blood!

This year and a half, perhaps because of Ye Xuan's reason at the lake, did not receive any threat from the beast. Of course, in the past year and a half, Ye Xuan could not say what it was. Upgrade.

In addition to the ten drops of purple blood, he never harvested anything else.

"It's time to leave!"

It's been a long time since I stayed here.

Staying here, there is no use at all.

However, how to leave is another problem.

There are many high-ranking beasts around here. It can be said that if Ye Xuan stays at the lake, it is safe, but once he leaves, he is afraid that those beasts will attack him immediately.

However, even so, Ye Xuan can not say that he has been staying here and not going.

"Millions of swordsmen, let me detect it and see which direction is the weakest."

Ye Xuan ordered the command of Wan Xun.

After the search of the Wan Xun swordsman, he finally found the relatively weakest beast.

Then, no suspense, Ye Xuan can only break through the direction of this beast.

Ye Xuan figured a move and rushed straight ahead. Soon, he came to the so-called weakest beast detected by Vanguard.

"Hey, the system prompts, specifies the target, four products in the middle of the king!"

Five products of the gods!

Does this have a fight?

Ye Xuan does not have the slightest grasp now. He must know that he is only a true god.

And these five products are in the middle of the kingdom, which is a difference between the two realms.

This gap is too big!

However, Ye Xuan has a choice?

Since there is no choice, then it can only be a battle.

If it can't be beaten, then Ye Xuan is withdrawing to the waters of the lake and waiting for the recovery of the energy of the wings of the gods.

After all, there is no other way right now.

"System, what is this beast?"

At this time, Ye Xuan looked at the beast from afar, and his heart was full of doubts. This beast was a type he had never seen before, and Ye Xuan could feel that the guy was watching him, but that The beast has no extra movements at all, and does not know what to do.

I saw the beast in front of Ye Xuan, which is very similar to the appearance of the lion. However, it has three tails and a one-horn on the forehead. The most special is his two nostrils.

A nose continually ejects a flame, but among the other nostrils, it is a cold frost.

The flame and the frost coexist in a body of a beast, which is quite strange.

"Hey, the system prompts, specifies the target, the fire cream lion!"

"Hey, fire cream lion, has special ability, control fire, control frost, can control fire and frost attack!"

"Hey, fire cream lion, with special skills, frost field!"

Ye Xuan slightly frowned.

field!

This time, he finally met a beast with a real field.

In order to overcome such a strong existence, Ye Xuan certainly cannot be blundered. Therefore, he needs to be well prepared. When the fire lion ignores his own time, Ye Xuan begins to arrange a ban, and at the same time, he must refine a large number. The charm of the god.

When collecting purple blood, Ye Xuan basically did not consume too much resources, so now he can also arrange some prohibitions.

However, this time, Ye Xuan is preparing to refine a special prohibition.

Combined with the special prohibition of the attack of the gods, it can be said that Ye Xuan has never refined such a ban before, but now, in order to deal with this fire lion, it has to do so.

Refining such a special prohibition requires a lot of time.

Ye Xuan knew in his heart that if the fire-cream lion attacked Ye Xuan before Ye Xuan completed the ban on refining, he was afraid that Ye Xuan had no chance to successfully refine the ban.

However, if Ye Xuan retreats and bans, the scope of the banned attack is not so wide, so he can only choose here.

Ye Xuan's movements are extremely fast, but it is not easy to refine this prohibition.

Fortunately, the Fire Frost Lion did not know what the reason was, and he did not leave the position where he was standing. He did not take the initiative to attack Ye Xuan, but gave Ye Xuan plenty of time.

"Hey, the system prompts, congratulations to the host, has successfully refining the Phantom Rune prohibition."

Ye Xuan looked at his masterpiece and was very satisfied.

This phantom charm is forbidden. It uses ninety-nine, nine, and nine eclipses. It is made up of ninety-nine illusions. Once it is launched, it will produce continuous attacks.

Moreover, the core of this phantom ban is not a rune, but a ban. When it is launched, this ban can form a unique banned half-field. Although it is only a half-field, its power is by no means idle.

This is the first time that Ye Xuan has used this fusion of the gods and the prohibition of the prohibition.

How powerful is it, then only know the actual combat.

"Okay, then, let's fight!"

Ye Xuan knows that this time the opponent is his unprecedented challenge, he is not afraid, but he also has to be cautious.

"Thousand beast swordsman!"

Ye Xuan sent a thousand beast swordsman, and the purpose of the thousand beast swordsman was only one, that is, the fire cream lion was brought over.
