

## Super D. S 231

### Chapter 231: Eight desert sword

"It's useless, even if you know it, you can't find him. He left the continent many years ago." The elders shook their heads.

Ye Xuan was shocked to hear this.

The elders really know the whereabouts of Ye Chong.

That is to say, after leaving the Xuanyang Empire, Ye Chong came to Lingxiaofu and found a great elder.

"The one under our feet is called Tianshui Continent, and he has already gone to the \*\*\*\* rock continent. If you want to find him, you must at least reach the miraculous environment." The elders said slowly.

God is in the four realms!

When he heard such a word, Ye Xuan was also a shock to the tiger.

Now he is just a first-time entry into the country, and there are people who are small in the world, Dacheng Dacheng, and Didan and Tiandan.

If you want to break through to the gods, you need a heavenly treasure.

However, Ye Xuan still has confidence.

"Here is a ring of yours left by your father. Take it. If you want to find your father, come back to the gods and come to me."

The elders said, they turned and went into the door.

Ye Xuan took over the Qiankun ring and looked at it strangely.

Sure enough, his father came to the elders and left the ring.

Although the mood and look of the elders are unremarkable, Ye Xuan feels that she still has feelings for Ye Chong.

"Is the unlucky father not too loyal, why not accept the elders, and have nothing to do with the three wives, so I may have brothers and sisters."

Ye Xuan said helplessly in the heart, began to view this Qiankun ring.

There is only one sword in the Qiankun ring, and even he can't see the sword of the grade.

"The Eight Desert Sword, this is what the unlucky father left behind? What is the grade weapon?"

Ye Xuan directly took out the eight wild swords from the Qiankun ring.

This eight-year-old sword is very simple in shape, like an antique sword. However, Ye Xuan holds it, but feels like having the whole world.

Ye Xuan held the Eight-Day Sword and went straight to the sky, but suddenly found that the increase of the Eight-Year Sword against Dan Yuan was even higher than that of the next product.

"Impossible, leave a piece of the next product to me, this sword should have something special."

Ye Xuan thought as he walked out of the bamboo forest. He kept researching this eight-year-old sword, but he could not find out what was going on.

"At least the strongest person who is in a dilemma, at least will stay in the top of the product, is it necessary to shed blood to recognize the Lord?" Ye Xuan thought again, then it was poured out of Dan Yuan, this will be eight The desert sword is wrapped.

The next moment, he was stunned.

Behind the hilt of the Eight-Dangerous Sword, there is actually a very small hole, a small hole that can't be seen and can only be sensed by Dan Yuan.

Under normal circumstances, the warrior will only use energy to attach to the sword, and will not wrap the hilt into it. Ye Xuan is also hit by mistake.

However, what is the use of this small hole?

"Hey!"

Ye Xuan condensed Dan Yuan into a silk, and then stabbed it in. Then, the Eight-Year Sword was a crisp sound, and the whole sword was split and split into eight pieces.

"The trough, is this a toy?"

Ye Xuan was shocked and quickly picked up the eight-story sword that broke into eight sections, but at this time, he also found a small piece of paper mixed in the sword of the Eight-Dangered Sword.

This small piece of paper spreads only the size of the palm, but it records thousands of words, dense and dense, and sees that Ye Xuan has some dazzling eyes.

Fortunately, with Ye Xuan's eyesight, I can still see it clearly.

"The eight wild swords, the sword broke the eight wild, and the strong is strong."

"The Eight Dead Swordsman..."

"The Eight Storms..."

Ye Xuan thought silently, he did not expect that this small piece of paper actually recorded a supporting martial arts, and a supporting array.

"Hey, the Eight Swordsmanship method has been included successfully!"

"Hey, the Eight Storms has been included!"

"Hey, the host can spend 10 billion to swallow the points, learn the Eighth-Swords of the Eighth-Swords, and learn?"

"Hey, the host can spend 10 billion to swallow the points, learn the Eighths of the Eight Diagrams, and learn from it?"

Hearing this, Ye Xuan did not want to be directly determined.

"The host has learned eight wild earthquakes!"

"The host has learned eight wild winds to kill!"

This is a barren sword, it really is very unusual, the cost of learning skills alone spent 20 billion to swallow points, if it is the second heavy third, is it more expensive?

At this time, Ye Xuan had just walked to Zhulinkou. He couldn't wait to transport Danyuan, and then he used the formation method first.

At that time, the eight-cut swords all floated up, and then, with Ye Xuan as the center of the rapid rotation, the speed is fast, even Ye Xuan is somewhat blurred.

A piece of fallen leaves accidentally fell into the eight wild winds, and was instantly divided into countless pieces.

These eight wild winds killing, really is a big killer.

"Huh!"

The wind whistling, the Dan Yuan in Ye Xuan's body was quickly consumed, which almost didn't scare him.

After running this eight wild winds to kill a reincarnation, he actually consumed one-third of his Dan Yuan.

He quickly stopped it, otherwise the Dan Yuan in his body would not be enough.

After learning the eight winds and killing the wind, Ye Xuan was able to use the Dan Yuan to lift the eight sections of the Eight Desert Sword, and he could easily connect it and restore the shape of the Eight Desert Sword.

Then, Ye Xuan is using the Eight-Day Earth Sword.

This eight-day-shock Tianjian is very similar to a martial art he used before. It is a huge sword shadow attacking the enemy outside the Eight-Day Sword. However, there are other effects.

"Sound burst!"

Ye Xuan's eyes suddenly flashed a smattering of color. Suddenly, the huge sword shadow burst into bursts, and an impact moment swept open. At the same time, there was a loud noise, and the whole peak seemed to tremble. Three trembles.

"Booming!"

This loud noise almost shocked Ye Xuan himself.

"Mom, scared me, my ears are going fast."

Ye Xuan was scared to death, and some were dizzy. If it was an unprepared enemy, I am afraid that he was already a fool, and his head might be directly shocked.

Later, he felt it again and found that the Dan Yuan in his body was already squandered.

One of the eight wild winds to kill, one of the eight wild earthquakes, these two skills, is not a powerful move, but the consumption is too big.

Ye Xuan already regards these two skills as a card, and he will not use it unless it is necessary. After all, these two cards will increase as his level increases, and the consumption will multiply.

"Who did the eight wild swords come out? If it is strong, it will be strong, and it will increase with my strength. This is beyond my understanding."

Ye Xuan licked his ears, only then the loud noise, if not because of his physical strength, I am afraid that the eardrum will burst.
