

## Super D. S 233

### Chapter 233: Experience

Since the occurrence of Zhou Cang's thing, Ye Xuan has become less convinced of other people. He is afraid that this is too elder to have a bad thought. After all, are they surnamed Zhou?

Soon, he found the residence of the elders, and then found the Song Dynasty and the Song ruling.

"How come you, are you going to go out and practice?"

The Song Dynasty, who is practicing, saw Ye Xuan looking for it and couldn't help but ask.

"Well, so I will say hello to you before going out." Ye Xuan walked over and gently took the Song Dynasty into his arms.

"Why, this is the case." Song Congjing did not resist, and leaned his chin against Ye Xuan's shoulder and asked softly.

"Nothing, this is for you."

Ye Xuan suddenly changed another thing, a pair of crystal clear small earrings.

Song Chong Jing took it with joy and then put it on, some strangely said: "How come I suddenly give me jewelry, it is pretty good."

"This is not a general accessory. It is useful for cultivation. You will bring it." Ye Xuan explained it with a mouthful.

However, this pair of small earrings, but spent a lot of his engulfing points, this pair of small earrings but there is a special array, can save lives in times of crisis, twice. Not only that, but the earrings are consumed, and Ye Xuan can also get it.

This is just in case, after all, Ye Xuan does not know how long he has to go.

Song Chongjing did not have any doubts and whispered: "Although the master said that the Dongfu is not dangerous, you still have to be careful."

"I will." Ye Xuan said, suddenly slammed his head.

This action is already strange to the Song Dynasty. At the moment, she is tiptoe and then squats on Ye Xuan's side.

Now, Ye Xuan is also immersed in the world of two people. It is a lucky one to have a beautiful and lovely fiancée. However, he has to pay double efforts, not only to improve himself, but also to let the Song Dynasty.

"Well, I will practice here and wait for me to come back." Ye Xuan gently licked the head of the Song Dynasty.

"Ok."

Song Cong Jing was nodded.

To be honest, she really wants to go with Ye Xuan, but her strength is not enough.

I am afraid that I will be dragged down by Ye Xuan, so I can only stay in Lingxiaofu for cultivation.

.....

After saying goodbye to Song Dynasty, Ye Xuan is going back to the Heavenly House and then going to the door to meet.

At this time, there was already a Lingxiao Dapeng waiting at the gate of Tianzhifu. In addition, there were four figures.

These four figures, one is the elders of the elders Zhou Yan, one is the deputy leader of the Shenzhou Alliance, as for the other two, Ye Xuan has not seen.

When the elders of the elders saw Ye Xuan, they also shouted: "This time I personally sent you to the past, and then went to Zhongzhou, and the other three people are already set off. Come on."

Ye Xuan jumped to the back of Ling Xiao Dapeng.

"Introduction, he is Ye Xuan." Jiang Liu smiled and said: "Ye Xuan, this is Xiao An's younger brother, the third in the list of days. This is Xin Fei, the fourth in the list of days."

"I have seen two brothers." Ye Xuan hurry to hug his fist.

Jiangliu is the second in the list of the day, and now comes the third and fourth, plus his fifth, just four people.

"The younger brother of the younger brother is so strong, and will surely catch up with us in the future." The young man named Xiao An smiled.

As for Xin Fei, he nodded to Ye Xuan's politeness. He did not speak. He seemed to be a person who liked silence.

"Okay, don't talk nonsense, start on the road."

The elders of the elders said one thing, that is, Ling Xiao Dapeng at the foot of the command flew up and then flew in one direction.

Originally, this time to explore the experience of Dongfu was given to the disciples of the former four of the prefectures. However, the first of the Tianzhifu, the ally of the Shenzhou Alliance, went to

Zhongzhou and had not returned yet, and the fifth Zhou Dongfeng was also Xuan squeezed down, so it was the turn of Ye Xuan.

Ye Xuan's pressure is also somewhat large. Jiangliu, Xiao'an and Xinfei are all masters of Dacheng's Dacheng. They are only one step away from the land, and he has not even reached the small Chengdu.

However, in addition to these three people, there are people from the land, Xuan and Huang Sanfu, so the strength of Ye Xuan can also be ranked upstream in the ranks.

This time, Ling Xiao Dapeng flew for fifteen days, crossed countless mountains, and finally fell into a canyon.

"Nobody, it seems that the disciples of the other three houses have already entered. Ok, let's go in, this cave house.

The former head has personally probed it once. There are some threats inside, but for all four of you, it should not be a problem. "

The elders of the elders said.

"Taiwan elders, this cave house, where?" Xiao An, the third in the list of days, looked around in a circle and found nothing.

"Oh, this strong landlord is also famous in Central China 100 years ago. It is said that it was already dead more than ten years ago. His Dongfu, naturally, will not be built here, you see."

When the elders of the elders finished speaking, they raised their hands and took out a sniper, directly immersed in a stone wall.

However, this stone wall was not destroyed, but some distortion occurred.

"It turns out that there is a way to cover up the entrance." Xiao An immediately understood.

At this time, Jiangliu could not help but ask: "Master, here seems to be the boundary of Tianyuanzong?"

"Haha, yes, here is the site of Tianyuanzong, but unfortunately they did not find it, so it is cheaper for us."

The elders of the elders said, let Ling Xiao Dapeng fly and continue: "Well, I have to go to Zhongzhou and buy some forged materials. If you come back from experience, you can go to Tianyuanzong to borrow a day." Lei Ying."

"Yes!"

The four men nodded respectfully.

Then, the elders of the elders are driving away from the Dapeng.

"Well, let's go in. The other three brothers and sisters set off earlier than us. I must have arrived long ago. If we delay, I will have nothing." Among the stone walls of the magic array.

Ye Xuan three people also followed up.

This entrance is not big, only two or three people can walk side by side, and this canyon is boundless. It is a miracle that the elders of the Lingxiao House can find this place.

The four people walked for about ten minutes, and finally they saw the light. When they just walked out of the passage, they saw four ramps. In the middle of the ramp, there is also a huge sculpture with a sculpture of 30 meters high.

"Presumably, this is the predecessor." Jiang Liu said, after seeing the big characters at the foot of the sculpture, he also suddenly said: "The original generation was a famous refiner in the state of Hong Kong, a hundred years ago, and he loved it. Engraving, this large stone carving, I am afraid that this predecessor personally carved it, it is really good."
