

## Super D. S 2331

### Chapter 2331: Active challenge

But Ye Xuan's approach is indeed feasible. Kunlun is not the Kunlun environment where he left home. Even if he can buy one or two elders, can he still buy all the elders in Kunlun?

Ye Xuan takes the initiative to challenge, no doubt, it will make all the arrangements for leaving home reimbursed.

Of course, the premise is that Ye Xuan has the strength to challenge.

"You, is there a breakthrough?"

Kun did not speak to Ye Xuan.

"Well, I just broke through the second product and waited for the king!"

Ye Xuan nodded.

Kun did not speak his eyes, he suddenly found out that to ask Ye Xuan's realm is to take his own shame.

The speed of this guy's upgrade is almost unimaginable.

.....

When Kun did not speak and left, Ye Xuan went directly to sign up.

Leave home, now let you arrogant, but one day sooner or later, Ye Xuan will uproot them.

Ye Xuan has to launch a challenge again!

This news is not going away. Now Ye Xuan, no one dares to take a nap. The last time Ye Xuan lost several opponents, many people can remember very clearly.

Unexpectedly, it was not long before it was separated, and Ye Xuan actually had to open the challenge!

I don't know, this time it is so unlucky!

However, when the final news came out, people couldn't help but be shocked, because Ye Xuan, this time, actually jumped a thousand, directly challenged Mo!

Le Mo, less than the thirteenth home!

Regardless of identity or cultivation, it is absolutely impossible to ignore.

The reason why he has been in the nine thousand is not moving, just because this guy is ready to challenge the first place in the list!

Although he said that he does not have such strong strength, no one knows, but one thing is certain that the strength of this guy is hidden. At least one hundred in the top of the list is no problem!

What is his Ye Xuan?

However, it is just a newcomer. How long does it take to join Kunlun? I really want to challenge myself from a single breath?

I don't know how many years have not been challenged, is it a hundred years? Or a thousand years?

What is the current situation of Mo, what is the magnitude of the power, people do not know!

However, today someone has to challenge Mo!

If other ordinary people fall, but the key point is that this time, the challenge is not to be a general person!

He is Ye Xuan!

It is the most popular Ye Xuan in the Kunlun community!

Some people even came to the battle seat in advance for two days before the game, because they were afraid that it would be late, there would be no place.

On the day when the game started, it was clear that it could only accommodate 100,000 people, but it squeezed a full 150,000 people.

This time, no one dares to make a bet, because for Ye Xuan, no one can guarantee anything.

Ye Xuan is a person who can make a miracle!

On this day, there were countless people gathered around the space between Fujian and Taiwan. People are speculating about who can win this battle.

I came to the space of Fujian and Taiwan early in the morning, and the grievances between the family and Ye Xuan, how do you know?

In fact, Ye Xuan's slaying of the young master, not only knows, but the relationship is not bad.

Therefore, this time, I have already made up my mind to give Ye Xuan an unforgettable lesson!

However, before coming to Mo, Ye Xuan did not come at all. It was getting closer and closer to the start of the game. Some people have begun to doubt that Ye Xuan is afraid to come.

"It is said that Ye Xuan is a powerful person, but he is a newcomer after all. When he last challenged the list, it was only a true god. From the young master of Mo, but the strong man of the kingdom, Ye Xuan would not dare to come. What?"

"It should be impossible. Ye Xuan challenged the last time and lost several challengers. It is not like a timid person. On that day, he still has a sentence, but many people still remember it now!"

"Not necessarily, maybe Ye Xuan knows that this opponent is a god, so I am afraid if I am afraid."

There have been many discussions, and there are countless speculations about Ye Xuan's delay.

However, in fact, Ye Xuan is just too lazy to waste time before the game has started.

"Look, he is here!"

In an instant, everyone's eyes are concentrated on one person.

This person is not who Ye Xuan can have.

I saw Ye Xuan walking toward the space of the ring like a walk. He didn't even put his opponent in his eyes!

"No, you can see his cultivation. He has already broken through to the kingdom of the king! How is this possible? How long has it been, how long will he master the power of the law? How is this possible!"

However, the kingdom of the kingdom is the kingdom of the kingdom, which is not allowed to be faked.

When Ye Xuan walked in, he immediately caught people's attention. He was repaired by the king and directly shocked the audience!

Perhaps the kingdom of the kingdom is nothing at all. In the Kunlun environment, there are many people who are repaired to be more than or equal to the kingdom of the king.

However, the key is the speed of Ye Xuan's upgrade!

How long has it been, it has been promoted to the kingdom of the king!

"No, this Ye Xuan actually upgraded to the kingdom of the king. You must know that the kingdom of the kingdom is a big barrier. I don't know how many people are stuck in the peak of the true state of God. They can't be promoted at all. Moreover, the kingdom of the kingdom needs to master the law. The power is good! The combat power is several times higher!"

"Yeah, the power of the law, he actually mastered the power of the law, how is this possible? In the Kunlun environment, there are only six places where the law of understanding, the power of each law, unless it is a special chance, or the elders inherit, Otherwise, the idea of getting the power of the law is so difficult! Why Ye Xuan can get it!"

People have been talking about it. For Ye Xuan to upgrade the kingdom of the king so quickly, many people are hard to accept!

For them, this is simply unbelievable!

The kingdom of the king, also known as the king of the king, this represents Ye Xuan is already a god.

However, this is the truth.

Ye Xuan walked step by step toward the front, leaving behind countless arguments behind him.

Finally, Ye Xuan stood in the space of the ring!

"Kid, are you Ye Xuan?"

Looking at Ye Xuan from the faint, he was surprised at the speed of Ye Xuan's upgrade, but he was not scared.

After all, he is an old-fashioned god, and Ye Xuan, but he has just been promoted, he does not believe that Ye Xuan can master the law more than him!

Ye Xuan looked away from Mo, and his mouth suddenly turned slightly: "Are you a dog away from home?"

boom!

In an instant, everyone was shocked, and the audience was silent!

Ye Xuan is so directly insulting people away from home! Is he going to openly declare war on his home?

Perhaps most people don't know about the things in the main house of God, but how can the people of the big forces not know the things of the main house of God. They all know that Ye Xuan kills a young master from his home, and even makes a great price for leaving home.

It is impossible to leave Ye Xuan away from home. According to reason, Ye Xuan should have been away from home before, but he did not expect that he would openly insult the young master in the space of Fujian and Taiwan!

What does he want to do?

Chapter 2332: Lost method

Perhaps many people want to ask what Ye Xuan wants to do!

In fact, Ye Xuan has now been targeted by the organization, and it is not wise to take the initiative to offend the family!

However, Ye Xuan is Ye Xuan. He knows very well what he wants and knows why he is doing this.

This is not an irritating thing, but since Ye Xuan knows that some things can't be avoided, why should he hide?

What do you want to leave home, even if you come over, Ye Xuan is!

When I heard Ye Xuan's words, it was obviously distorted from the look of Mo, because Ye Xuan was too much in the eye, and it was really that he did not take his home away.

"Kid, you are very good! Today, I will teach you how to be a man!"

I don't look at Ye Xuan, and squeeze this sentence out of the teeth!

"Destroy the gods!"

However, what everyone did not think is that Ye Xuan's answer turned out to be a storm-like blow!

"boom!"

Although Mo has already made a defense, but under the defense, he was suddenly shot and flew out!

"You dare to attack!"

When Mo looked at Ye Xuan, he did not think that Ye Xuan actually attacked him!

Unfortunately, Ye Xuan is not ready to pay attention to his meaning, a move to retreat from Mo, Ye Xuan with a wave, a thousand beast swordsman, Huashen sword waiter, directly summoned.

The 弑Sword was also controlled by Megatron.

As for Ye Xuan himself, he summoned countless resources and started the refining prohibition and formation!

"Damn!"

It is natural to know that Ye Xuan is a banned master and a sacred master. But after all, it is only a rumor, and it is not seen by Mo, so it is not a matter of fact.

Moreover, Ye Xuan suddenly challenged him, so that he did not have time to prepare.

Therefore, at this moment, I saw that Ye Xuan was actually on the spot and refining the ban, and it was full of panic in the eyes.

"No, you must not let him refine a strong ban! Oh, you are only refining now, but I have a ban that I have already prepared!"

A sudden wave of hands, a ray of light appeared between the moment, then a giant directly condensed, this is one of the many treasures away from home, the giant banned!

Yes, it is a ban, not a rune.

The principle of the giant's ban is to use the power of the ban to condense a giant shadow, and then use the ban to constantly absorb the surrounding power, and constantly provide the power to the giant, so that this giant has the power of immortality.

Ye Xuan certainly sees this scene in his eyes.

"The giants banned, then, I also use the giant charm to accompany you to play!"

Yes, Ye Xuan chose the rune, the ban can condense the giant image, and the rune can be the same.

I saw Ye Xuan wave a hand, then refining half of the ban, even directly he was quickly eliminated!

You must know that refining and exquisiteness can be a delicate job. It is already difficult to refine it, and this kind of refining of half of the ban is broken down into materials, which is unheard of!

"This, how is this going, how Ye Xuan did it, how can he turn the refining of half of the ban into material! No, this is impossible, no one can do it, I don't believe it, I don't Believe!"

A guy who is also a banned singer looks at Ye Xuan's movements in abrupt manner, and his mouth keeps chanting, and his side, his good friend, and the other person who is also a banned master are also very surprised.

"Is it true that Ye Xuan has mastered the prohibition of the ancient times? According to legend, the prohibition of the ancient times can be rectified with his own wishes. It is also a ban and can even produce several different effects, but it is not to say Has this technique been broken?"

Inside the door to see the door, the layman to watch the fun.

Those who know the prohibition are shocked at all, but those who do not understand the ban, but began to laugh at Ye Xuan.

"Haha, look, the kid is afraid to continue to refine the ban. I see this Ye Xuan, that is, there is no name. He just didn't meet his opponent before. Now, when he meets the young master, he knows it is amazing. Let's go!"

"That is, just as he can bear this ability, actually want to challenge the young master, it is just to find yourself dead!"

Of course, the ignorance of these people will only make those who know how to despise them.

Ye Xuan lifted the refining of the ban, and between the waves, he used those resources to refine the rune. This scene is like a miracle. At least, in the eyes of those banned teachers and ecs, this is a miracle!

One piece of material quickly disappeared in the hands of the leaves, and after a while, a charm was refining.

I saw Ye Xuan's hand, and a giant appeared directly, fighting with the giant who was away from Mo!

"You, you actually have a giant ban! Kid, it seems that I underestimate you! Then, this time, how do you defend!"

"Ye Xuan, you should be thankful that this magic weapon was given to me by my family elders. Originally, I was prepared to stay in the first place when I challenged the top of the list. I did not expect that you let me use it in advance today. Let's enjoy it!"

There was a strange sculpture in Mo's hand. I saw that I was away from Mo, and the sculpture rushed toward Ye Xuan, and the volume was getting bigger and bigger!

"God, it's the Kowloon Tower that left home. It's such a treasure!"

"Kowloon Tower! What is that!"

"According to legend, there are countless treasures left from home, but there are not many famous ones. This Kowloon Tower is a treasure that is famous. There are more than one Kowloon Tower, but it is forged from special methods at home, but even so, Very rare. This magic weapon, its power and its huge!"

"What special is he?"

The man asked in confusion to his companion.

"Hey, special? The Kowloon Tower is special. The refining of the Kowloon Tower requires nine masters who are at least the master of the king. The use of force is the power to seal these laws in the Kowloon Tower through some mysterious means. Once launched, The Kowloon Tower will directly suppress the target person under the tower and use the power of nine kinds of rules to live and die!"

"And, this is not all. You must know that there are countless guards of the beasts in the Kowloon Tower. This magic weapon is simply a magic weapon at the secret level, because he is a separate secret!"

"The secret level magic weapon!"

Countless people breathe a sigh of relief, this magic weapon is simply a legendary thing.

In the consciousness of all people, the secrets are fixed in one place, and the thought is a mountain that does not move!

However, the magic weapon of the mystery is different. This is a secret that can be moved!

This thing only existed in the legend. I did not expect that the Kowloon Tower, which left home, turned out to be a magic weapon.

"Of course, the Kowloon Tower is not a complete magic weapon. It can only be regarded as a semi-secret magic weapon. Because among him, it is not a real secret, but a special space that is used by the usage force!"

Chapter 2333: Mysterious magic

After the person added it, the surrounding talents were relieved.

After all, the secret magic weapon, this legendary thing, how could it be so easy to appear!

Ye Xuan does not know this. Of course, even if Ye Xuan knows, I am afraid I will not care.

At this point, Ye Xuan is looking at the Kowloon Tower, slightly surprised, because now the system actually came to the tip.

"Hey, the system prompts, detects that the host can force the devour of the item, devour the item, the host can get the law fragments!"

Ye Xuan will certainly be surprised, because, this guy from Mo actually sent his own things, what is this?

"Forcibly swallowed!"

I saw Ye Xuan's hand lifted into the air, and a huge incomparable suction instantly launched. The Kowloon Tower, which is constantly growing, suddenly became smaller and was swallowed up by Ye Xuan.

Silence, everyone is silent, even that is away from Mo, is also dumbfounded to see Ye Xuan.

"He, did he take the Kowloon Tower?"

People don't know that Ye Xuan is swallowing up the Kowloon Tower, so I thought that Ye Xuan directly collected the Kowloon Tower.

"This, how is this possible? Although the Kowloon Tower is a masterless thing because it wants to combine the strength of the people, it has the power of nine laws. Unless there are special control methods, no one can Take him away, unless you have the power of the nine rules!"

"What you mean is that Ye Xuan has the power of nine rules!"

"Impossible, I don't believe it. Even if we are the first genius in Kunlun, we only have eight kinds of laws and strengths. He has nine rules of power!"

"Yes, it must be a coincidence, or Ye Xuan has just a special item to restrain the Kowloon Tower, a new person, with the power of nine rules, I don't believe it!"

They believe that they don't believe it. At this time, Ye Xuan is immersed in the prompts of the system.

"Hey, the system prompts, the host devours the Kowloon Tower, gets the time rule debris, the law rule debris, the prosperous law debris..."

Ye Xuan, harvested nine kinds of fragments in one breath, although some laws fragmented, Ye Xuan did not understand what is useful, for example, the law of prosperity, this is a rule, anyway, Ye Xuan is not understood!

"You, you still have my Kowloon Tower!"

The Kowloon Tower is a treasure away from home. It is absolutely not allowed to leak. Today, Ye Xuan actually lost his way to Kowloon. He is not afraid of it. You must know that it is a big crime to leave the Kowloon Tower when you are away from home!

Ye Xuan will pay attention to Mo, but continue to refine his own ban!

"Damn, \*\*\*\* Ye Xuan, I want to kill you, kill you! You forced me, today, I will let you know what is fear!"

"Mysterious magical powers, Tongtian seal!"

Mysterious magical power!

Well, the people watching the battle have already had some reactions, but I didn't expect that this young master, who still has a mysterious magical power.

The mysterious magical powers are more powerful than ordinary magical powers, and even more than the magical powers of the law.

Because the mystery is not only rare, but also can create unimaginable results according to its nature.

In an instant, with the young master away from home, a light curtain appears instantly!

Tongtian seal! It turned out to be a magical power to isolate all divine power!

You must know that all magic weapons, all supernatural powers, then, the most basic conditions used are divine power!

If you completely isolate the power, that is to say, let the people inside, there is no way to use any magical power!

terror! Unexpectedly, there is such a supernatural power from Mo Juran. At this time, even the referee elders can only blink, and no matter who they are, as long as they enter here, they are all isolated, even in powerful people. It can only rely on the physical display.

Ye Xuan's brow was slightly wrinkled, because he felt it at this time, and his power was directly shielded.

Thousand beast swordsman, god-level mounts, etc., disappeared directly, but fortunately, Megatron is still there, but Megatron did not dare to attack the sword, but returned directly to Ye Xuan's hand. .

The two giants who are fighting are also disappearing because they themselves rely on divine power to fight.

"Damn guy, I want to kill you, I must kill you!"

Mo Mo continued to scream there, and, with a wave of his hand, a group of sly soldiers wearing armor appeared directly in front of him.

Without the power of the gods, these ordinary soldiers, who seem to be inferior, are able to explode a powerful fighting force.

"Hey, the system prompts, it detects that the host is in a special space, and the power is shielded!"

"Hey, the system prompts, the system automatically starts the emergency plan, and the belief value is automatically converted into divine power!"

Ye Xuan smiled a little, well, as long as it has no effect on himself!

In the ancient times, as long as it was a bit of strength, it would find ways to collect the values of beliefs. Of course, there are reasons. The usefulness of the values of beliefs is by no means as simple as imagined.

In the ancient times, the environment was extremely abrupt, and the power of many places was so chaotic, even without direct power. Thus, the value of the faith would have a great effect.

I am afraid that people no longer collect the value of their beliefs, and now the world of the gods has stabilized, and there is no longer any influence on the power.

Those squatting soldiers rushed toward Ye Xuan, and I know that Ye Xuan actually waved afterwards, and it was a rune.

"boom!"

A loud noise, a huge fire group directly approached the soldiers, this is a moment, then all the soldiers are wiped out.

"Impossible, impossible, why can you use divine power, I have already launched the Tongtian Seal, there is no magic power here, how do you do it? I don't believe it, I don't believe it!"

Mo is like a madman, because Ye Xuan's means makes him desperate, and Ye Xuan's attack makes him terrible!

"stupid guy!"

Ye Xuan was even too lazy to get away from Mo, and then lost, Megatron controlled the scorpion sword and rushed up again.

The seal of the sky is to completely shield all the power of the gods.

At this moment, it is undoubtedly a self-restraint, no magic power, and what combat power he has.

"boom!"

A sword!

Just a sword, Mo Mo was blasted out.

That Tongtian seal disappeared instantly, because it was already half-destroyed by Mo!

Ye Xuan did not kill him. After all, this is the space of Kunlun. Therefore, Ye Xuan is only a half-destroyed god.

I am afraid that even if you can recover the godhead, you will never be close.

It can be said that Ye Xuan's sword is more painful than killing him.

Lost the cultivation, that, he can continue to live in the realm of God even if he can rely on leaving home, it is also like an ant!

Chapter 2334: Leave home

However, the key point is that there is still no way to convict Ye Xuan, because the competition in the Fujian-Taiwan space is only required to be unable to kill, but it is not said that it cannot be abolished. In general, unless it is a special supernatural power, it is generally defeated. It is impossible to simply abolish the other party's cultivation.

If it is not for Mo to open this seal of the day, to isolate the power, Ye Xuan is not likely to waste him. It can be said that he is self-sufficient and does not even have the pity of others.

Ye Xuan took the initiative to attack, first abandon a son who left home!

At this point, it is possible to say that you are not angry when you leave home. They are still planning  
\*\*\*\* Ye Xuan. If you don't want it, Ye Xuan will start first.

Of course, they don't believe that Ye Xuan can still avoid it. As long as he stops the challenge, then he can use the tactics of turn to challenge, dragging Ye Xuan, at least, let him no way to practice!

However, the plan of leaving home finally failed. What they did not expect was that the next day, Ye Xuan launched a new challenge. This time, it is above the list, a dependent family Core disciple.

It can be said that Ye Xuan Lian can easily overcome the Mo, so, there is no suspense in winning this person.

To challenge this person is simply a waste of time. If you change someone else, I am afraid that you will choose the most suitable opponent according to your own strength. This is the basic principle of the challenge.

However, Ye Xuan did not do this. He challenged him. As long as he was related to his family, he would challenge them one by one. Moreover, he would never be merciless, even if he did not kill his opponent, but it was absolutely Will make opponents hit hard.

In just a few months, Ye Xuan has already hit the core disciples of the family affiliated to the family to reach more than 30 people!

Such obvious provocation, who can not see, can say that Ye Xuan and leaving home, has reached an irreconcilable point!

On this day, Ye Xuan has issued a challenge. This time, he challenged the 6th and 3rd of the 8th!

There is no suspense, this person is a disciple of the affiliated forces away from home.

Moreover, this person is very clear in his heart, he has no chance to defeat Ye Xuan.

There are two choices in front of him, either Ye Xuan, and then seriously injured, or they will surrender!

However, the initiative to admit defeat is a very inconspicuous behavior in Kunlun. Once this is done, let's not say that other people will not be able to afford you from now on. The key point is that you will lose the challenge of Kunpeng and Lunbang forever!

Ye Xuan is forcing the man to make a tough choice!

"Big Brother, can't let Ye Xuan go so far, let's order, let's kill the kid directly!"

At this time, in a room, more than a dozen people gathered together, and the leader is the seven young masters who are away from home!

This person is the master of Kunpu ranked 172, the strength is unfathomable, and it is him, in charge of all actions against Ye Xuan.

"Do it, how to do it, this kid has been hiding in Kunlun, can't you go out, can we still kill him in Kunlun?"

"Big brother, who said that this kid will not go out, but I heard that he has a maid outside, but although it is a maid in name, I don't think it is so simple. There are ten mistresses around the maid. Hey, ten deities and a woman who cares about that kid, can't help, can't seduce him to go out?"

"Do you mean that those people are bait? No, those people I know, are the people of the gods. The gods are always short-sighted. If we do this, it is equal to offending the entire god-like family. This is absolutely impossible! "

"Who said that we must start with those miraculous teachers? We only need to send a message to go out, then, in the arrangement of traps, I do not believe that Ye Xuan can not hook!"

"What's the way, yes, then, let's arrange it!"

Ye Xuan still does not know that a plot against him is being planned.

I have to admit that these people are still very accurate. I know that Ye Xuan is extremely short-sighted, but they are also looking for their own death!

On this day, after Ye Xuan defeated his opponent, he was preparing to pick the next opponent, but a phonetic note came to Ye Xuan.

It can be said that there will be almost no use of the phonetic notes to find Ye Xuan, so Ye Xuan is quite surprised.

However, when Ye Xuan opened the notes, he immediately became angry.

Because the content in the notes says that the flying smoke they are now controlled, if Ye Xuan does not want them to die, then immediately go to the deserted mountains!

The ridiculous mountain is a very dangerous place, because there are all kinds of evil beasts, and there are all kinds of dangers. There are no treasure resources worthy of attention, so in general, few people will come. Go there.

After Ye Xuan got the news, he did not stop for a moment and rushed straight toward the deserted mountains.

At this time, in the deserted mountains, more than a dozen strong people ambushed there, but of course, there are no people leaving home, but the strength of these people, but powerful, the lowest, even reached the king of heaven!

There is even a superpower who is superior to the gods, this is the rhythm of killing Ye Xuan!

However, even if Ye Xuan knows that it is a trap, it is impossible to leave.

Soon, Ye Xuan came to the deserted mountains.

"You are Ye Xuan?"

A guy with four middle-aged gods, squinting at Ye Xuan, his eyes full of disdain.

Of course, he has that qualification, because he is a medium-sized god, facing Ye Xuan, with a crushing strength beyond.

"Yes, I am Ye Xuan, where are they flying?"

Ye Xuan looked at the man, not afraid of his cultivation!

"Haha, kid, it seems that taking the girl is very important to you, you can rest assured, they are fine, because we have not caught them, we want to kill you, we don't need any means!"

When they heard the flying smoke, they were fine, and Ye Xuan was relieved.

Since Ye Xuan is fine, Ye Xuan naturally will not stay. After all, the strength of the opponent is too strong, and it is not that Ye Xuan can compete.

"System, start the wings of the wings of the gods, we are leaving here!"

"Hey, the system prompts, the host please note that there is a special ban here, the host can not use any form of transmission here!"

what!

Ye Xuan was shocked and couldn't send it away. It seems that this time it's troublesome.

Sure enough, the guy who heard the middle gods at this time said: "Kid, we are also ordered to act, you will be safe on the road! Kill me, kill him!"

For a moment, the two guys who were inferior to the gods, rushed toward Ye Xuan.

Ye Xuan understands that he has encountered big trouble this time. If he really fights, he can say that Ye Xuan has no chance of winning. After all, there are more than a dozen strong players on the opposite side!

Chapter 2335: Forced to leave

This reason, Ye Xuan does not understand, at this time, those people actually because of Xiao Ye Ye Xuan, only sent two people, this is undoubtedly, Ye Xuan's opportunity, and can even be said to be the only opportunity.

"Thousand beast swordsman, flower \*\*\*\* sword waiter, give it to me!"

Ye Xuan summoned a thousand beast swordsman and avatar swordsman, and rushed toward the enemy, but Ye Xuan himself turned and fled.

"Block, grab me, don't let him escape!"

Ye Xuan actually said that he escaped and fled. For a while, they made it impossible for those people to react, and they could only catch up quickly.

Ye Xuan now manages so much, directly launching his own full speed and constantly fleeing.

Although Ye Xuan's speed is still very fast, but the enemy's cultivation is, after all, higher than Ye Xuan, so at this moment, Ye Xuan simply can't really escape the pursuit of these people.

How to do!

In the heart of Ye Xuan's heart, once these people did not catch up, the results can be imagined.

Ye Xuan quickly thought about the way in his heart, but only one of them was rejected.

Between chasing and escaping, a very fast person has become closer and closer to Ye Xuan.

The situation is naturally very dangerous.

Once Ye Xuan was stopped by this person, then he will face the siege of more than a dozen superpowers. At that time, there is no chance to escape.

How to do! What to do, in order to get rid of the current predicament.

Ye Xuan fled while thinking in his heart.

Suddenly, he thought of the battlefield of the Lord God.

Because Ye Xuan had to participate in the battle of the main battlefield, the reason was that he gave Ye Xuan a transfer character, and the place that was transmitted was the battlefield of the Lord God.

In other words, Ye Xuan now only has to go to the battlefield of the Lord God, and may have the opportunity to escape.

However, the danger in the battlefield of the Lord God can be said to be horrible. Even the battlefield of the Lord God, which is not open, is extremely dangerous.

It can be said that it is simply a place where nine lives and one life, and, with Ye Xuan's current strength, a bad luck, even death!

How to do!

Ye Xuan's heart is thinking fast!

"Hey, alarms, alarms, host fatal attacks, host fatal attacks!"

"Hey, the system automatically takes over the defense, the threat is lifted!"

"Hey, alarm, alert, host again deadly attack!"

"boom!"

The system defended the first attack for Ye Xuan, but it was too late to block the second attack!

In an instant, Ye Xuan was shot by an extremely powerful force!

Along the way, Ye Xuan directly crashed and destroyed more than a dozen mountains, and then it was able to stop, and the enemy finally appeared. It was the guy who waited for the gods. He actually shot himself.

"Kid, you shouldn't offend someone you can't afford to sin, then, die!"

Suddenly, the man once again launched an attack, Ye Xuan is very clear, if he was hit, then it must die!

It seems that you can only enter the battlefield of the Lord God!

"System, use the main \*\*\*\* battlefield transmitter!"

"Hey, the transfer starts! The transfer is successful!"

In an instant, Ye Xuan disappeared.

When Ye Xuan used the transmission, he immediately fell into a coma, and did not know how long it took, and then he woke up.

When Ye Xuan woke up, he found that he was simply miserable. He was superior to the king of the kingdom. Even if there was no upper-class \*\*\*\* in the title of the former crown, Ye Xuan, who was in the middle of the killing area, was more than enough. Now Ye Xuan can return A small life is already considered good.

"Damn away from home!"

Ye Xuan roared, even if he didn't say it, he also knew who shot him.

"System, use instant recovery!"

Ye Xuan directly ordered.

Instant recovery, can let Ye Xuan recover all injuries in an instant, but the cooling time is very long!

"Hey, the host is recovering!"

"Hey, restore the cooling time in an instant, seventy-six years!"

Sure enough, this time is really a long time, but it also shows that this time Ye Xuan is injured multiple times.

When the injury is restored, Ye Xuan can observe the surrounding environment.

Have to say, Ye Xuan this luck is really good.

If the main battlefield is not turned on, and then transmitted using the transmission, it will be randomly transmitted.

But this time, Ye Xuan was only sent to the edge area, how is this not lucky.

Of course, the main thing about Ye Xuan now is to find the exit to Kunlun.

After all, here is the battlefield of the Lord God. If Ye Xuan can't find the right exit, I am afraid that when he goes out, he is directly killed!

The battlefield of the Lord God and its greatness, some people may think that this is the battlefield, then, naturally, there will be no existence such as a beast.

But this is a wrong idea.

In fact, in any battlefield of the Lord God, there will be beasts.

In general, people are used to calling it a war beast!

This kind of war beast is different from the kind of war beast used to participate in the battle. This kind of war beast is based on war as a nourishment, and it is a special existence of the dead \*\*\*\* body.

There are many types of war beasts, the most common of which is the spirit formed by the dead in the war!

These spirits generally retain some fighting instinct, but there is no wisdom, only the cruel killing concept in the heart!

Another common war beast is also a kind of spiritual body. However, it is bred by the dead body of the dead god. This kind of beast has certain wisdom. Similarly, the strength is extremely powerful. !

Of course, in the battlefield of the Lord God, there are also some special people, such as adventurers who seek opportunities in the battlefield of the Lord God, or special sects that practice certain strange powers and cannot be recognized by the outside world.

In short, the battlefield of the Lord God, when not opened, is also a separate existence, and more dangerous and terrifying.

Ye Xuan once visited the battlefield of the Lord God, but at that time, it was relatively safe and numerous times. Moreover, the battlefield of the Lord God that he entered in the past was impossible to compare with the battlefield of the main \*\*\*\* of the Kunlun gods!

This is simply the existence of two different levels.

Ye Xuan moved forward cautiously. In order to avoid the pursuit of the homeless person, he fled here, but it is even more terrifying than the pursuit of leaving home.

"stop!"

Suddenly, a voice rang at Ye Xuan's side.

Yes, it is around, Ye Xuan's spiritual knowledge is already good, and the system's auxiliary, but I did not expect that even people have been around but not noticed!

Ye Xuan stopped and turned directly.

I saw behind him, three men and two women.

The magic weapons and clothes on these people are very messy, but the level is quite good, obviously, it is from the battlefield of the Lord God.

"Hey, the system prompts, specifies the target, the lowest level of the true realm, the highest, the king's superior realm!"

Even five people have the title of the former crown!

Ye Xuan's heart was slightly shocked. Don't look at these five people are true gods, and Ye Xuan is also a \*\*\*\* kingdom, but Ye Xuan please guide, if it is big, I am afraid he will not be able to find a little cheaper.

"Kid, who are you, where are you from, why did you break into my bones village!"

Chapter 2336: Mysterious land

What is this place?

"I still came from the outside, originally wanted to find some treasures from here!"

Ye Xuan's mind conjectured that these people may also be the ones who entered the treasure hunt here, so they replied.

"People from outside? Adventurers? Hey, you want to lie to us!"

A young girl stood up and asked Ye Xuan, and even the magic weapon in her hand had begun to shine.

"No, I didn't lie to you, I really came from outside."

"Hey, you still want to lie to us. This is the fifth area. You adventurers will only be active in the first area and the second area. Don't say that our fifth area, even the third area, you are very few. Will go and say, who are you!"

What is the area of one, two or three, Ye Xuan can not understand.

"I will say it again, I just came from the outside, came to the battlefield of the Lord God, just to find treasures from the battlefield! But when I came in, I came directly here!"

"Transfer in? Directly to our fifth area? This, Big Brother, what do you think?"

"It's still going to let the elders decide!"

Said an older villager.

Later, Ye Xuan was taken with them to the front.

However, as Ye Xuan goes forward, the more he is shocked, because Ye Xuan sees it here, all of them are all with the title of the former title, even if it is a child of a district and a human being, it is actually before the possession. Title title.

And most of these people are at least the title of the former crown!

Who are these people?

Ye Xuan gave birth to countless doubts in his heart.

Soon, Ye Xuan was taken to a simple village. Yes, it was a village. However, anything used to build this village turned out to be a magic weapon!

Even the stone monument standing in the mouth of the village is also a rare magic weapon, just like the previous Zhou Xuan used by Ye Xuan!

However, most of the magic weapons here are broken.

Soon, Ye Xuan was taken to a sword house built entirely of broken swords, and several old people were gathering there.

"Elder, we found this suspicious person at the entrance of the village. He claimed to be from the outside. I couldn't confirm it, so I had to bring him over."

At this time, Ye Xuan is looking at these elders, but the more you look at it, the more you are scared.

One of the elders actually had the title of the former crown.

"Young man, what is your name?"

An elder asked to Ye Xuan.

Ye Xuan did not hesitate and replied directly: "Under the next leaf!"

"Oh, Ye Xuan, Ye Xuan, you said that you came in from outside, then you are an explorer. You are an explorer. How to enter my fifth area, you know, even if your God Lord personally comes over, May find this fifth area of my door!"

A big tone, even said that even if God came, they could not find them! Ye Xuan was slightly shocked, but still couldn't hide it. He was directly chased by himself. In a hurry, he used the transmission character and then came here to say it again.

"It turns out that, indeed, the law of the fifth area is loose. If you use the random transmission of the stone, it may appear in my fifth area. If you come, it is your fate, then You will stay here."

"Predecessors, this is probably not appropriate. I dare to ask the seniors to know where there is a transfer array, and then leave or leave."

Ye Xuan certainly does not want to stay here. After all, there are still many things waiting for him outside.

"Haha, boy, you want to leave, you know, where is this place?"

"Isn't the predecessor said that this is the fifth region, then, naturally, it is also in the battlefield of the Lord God!"

"Haha, yes, it's still in the battlefield of your Lord God, but what do you think is the fifth area, do you think that this is part of the main \*\*\*\* space in your eyes?"

The elders laughed happily, and Ye Xuan was puzzled.

"Isn't that the case?"

Ye Xuan asked.

"Of course not, ok, let's see what the fifth area is!"

I saw that the elders waved at the foot of Ye Xuan. The original land suddenly disappeared. It appeared, but it was a light curtain. Through the light curtain, Ye Xuan could actually see everything below!

Here, it is actually in the sky above the battlefield of the Lord God!

No, not in the sky, Ye Xuan said that it is not clear, but this is not in the sky above the battlefield of the Lord God!

But soon, the elders answered doubts for Ye Xuan.

"See it, there is the battlefield of the Lord God in your mouth, my fifth area, actually does not exist!"

nonexistent!

What do you mean?

"The battlefield of the Lord God did not exist naturally in the last period. It was because of the great gods of the ancient times that the present world was formed."

"However, during the war of the gods, some superpowers also built a mysterious reality. These secrets have no physical, no way to enter, and naturally there is no way to go out."

"These secrets are nothingness!"

"The illusory mystery exists, but it does not exist. Here, it is the place that is taken care of by the law. It is built by the law. Do you want to go out? Oh, do you think it is possible?"

Upon hearing this, Ye Xuan squatted and eagerly asked: "But I have already come in, why can't I go out!"

Ye Xuan never heard of it, he believes that these people can not lie to himself, but Ye Xuan, it is impossible to stay here.

"I have already said that your entry is purely an opportunity. It is because of the loosening of the law, but the law is loose, even if it is difficult to appear once in a million years, and every time it appears, the length of time is not certain at all. Where is it? I don't know at all, then how do you go out?"

"Is there really no way?"

Ye Xuan is extremely reluctant in his heart. He is not willing to be trapped here, trapped in this so-called emptiness.

"Of course, there is no way. When your front crown title reaches the Imperial level, and you master the power of more than six rules, you will get the title of the vain messenger. By then, you will naturally be able to go out!"

The title of the former crown!

The power of the six rules!

Perhaps the power of the six laws, for Ye Xuan, is nothing, but the title of the former crown, but it is difficult!

But at least, this is also an opportunity not.

Ye Xuan brows tightly wrinkled, this time, he really encountered big trouble.

"System, do you have any way to go out?"

"Hey, the system prompts that the host is trapped in a special space and the system can't help!"

Ok, there is no way for the system. Is it true that Ye Xuan can only be trapped here?

"Hey, the system suggests that the flow rate here and the outside world is one thousand to one. That is to say, the host stayed here for a thousand years, and the outside world only passed one year!"

The time flow rate is different, but what is the use for Ye Xuan.

Even after spending thousands of years, Ye Xuan is not sure that he can get the title of the predecessor.

What to do, what to do, can leave from here!

Chapter 2337: Five thousand

For a long time, Ye Xuan was thinking about this problem, but he used all the methods, all in vain.

It seems that there is really no way to get out of here except to get the title of nothing.

With Ye Xuan's deeper understanding of this place, he also knows that the people here are ancient survivors. It can be said that here is an ancient mystery, but it is a very small and very special ancient mystery.

Since there is no other way to leave here, then Ye Xuan can only try to be a vain messenger.

Unconsciously, Ye Xuan has been here for a thousand years. During this millennium, he is constantly absorbing the power of the law. Here is the place where the law is taken care of. Sometimes, the power of the law is You can touch it when you reach out.

However, the laws here are complete, so Ye Xuan can't get the power of the law by swallowing it.

For a thousand years, for a thousand years, Ye Xuan finally succeeded in mastering the power of the four laws.

The first rule is the law of the gods that Ye Xuan holds under the guidance of an elder.

This law seems to be useless, but the mistress who masters the law of the gods can create the charms themselves, instead of just making the charms left by the predecessors.

The second law was also obtained under the guidance of the elders.

The imaginary cannot be the unique law of this emptiness. You can say that he exists, or that he does not exist. It is also the law that everyone who lives in the illusory world will master. Because this law does not take too long to be able to understand. Of course, the premise is in the void.

As for the third rule, it is the law of space. This law brings to Ye Xuan the equivalent of infinite teleportation. Of course, the consumption is also very heavy.

The fourth rule, called the plane law, has a certain relationship with the space law and the imaginary failure. After Ye Xuan grasps the space and the two rules of nothingness, the law is mastered.

Combining these four rules, plus Ye Xuan's engulfing rule, and the law of blasphemy, Ye Xuan already has the power of six rules.

Because of the power of these six rules, Ye Xuan also directly has the title of the former crown.

However, if you want to reach the title of the predecessor, it is still a far cry.

Another thousand years, in this millennium, Ye Xuan kept researching the prohibition, the charm, the alchemy, and the forging.

Finally, once again upgraded the first-grade front title, reaching the pre-election title, however, the last emperor, but spent Ye Xuan for three thousand years!

In the past three thousand years, Ye Xuan's only harvest, but only the will to fight!

Yes, in the past three thousand years, Ye Xuan kept fighting with the people here and faced the human world. Then, Ye Xuan suppressed his realm in the human world, and even the sword was not used. All swordsmen are not used!

In the face of the true state of God, it will be repaired in the true state of God.

Constantly fighting, using your own instinct to fight, constantly honing your will to fight.

Finally, after three thousand years, Ye Xuan successfully promoted the title of the predecessor.

Five thousand years, although it is only five years in the outside world, Ye Xuan has actually experienced 5,000 years!

Finally, he became a vanity.

It's time to say goodbye, it's time to leave this fifth area.

I am afraid, except Ye Xuan, did not know the existence of this place.

Nothingness, mysterious mystery!

"Ye Xuan, you can think about it. Once you leave here, even if you know that we are here, but you have no way to come back, are you sure you want to leave?"

The elders looked at Ye Xuan, and his eyes were full of disappointment. In the five thousand years, Ye Xuan and the elders had already formed a profound friendship.

"Great elders, rest assured, you said that as long as you have the title of the former title, and have some special rules, then it is possible to come back again. I have reasons to leave, but I believe that one day, one day, I will be back here again!"

"Well, since you made up your mind, then go out! The convenience is the battlefield of the Lord God in your mouth. You have also projected it, and there must be a lot of gains. Since you are ready to leave, then I am. Once you take the mysterious land that you have projected to the first area, it will be a parting gift for you!"

Projection goes on, a special statement in the void.

After mastering the illusory, the imaginary person can descend to the battlefield of the main \*\*\*\* in the lower part of the battlefield by means of projection. It can be said that these broken magic weapons in this village are also collected when they are bored. of.

Of course, because they can't go out, these things can only be discarded by them. This is why Ye Xuan started to come over, and the three men and two women will know what adventurers and other things are.

In fact, the vain person has been using an invisible eye to observe what happened in the battlefield of the Lord God.

Soon, the elders came to a mysterious place with Ye Xuan's projection. The surrounding areas were all imprisoned by the chaotic laws. So, I am afraid that without the leadership of the great elders, Ye Xuan could not find it here. .

"Ye Xuan, action, what can be found, what can be harvested, as long as you rely on your own chances, the law here is very chaotic. Once your image is broken, then you can only return empty-handed."

Ye Xuan nodded, not hesitating, directly into it, perhaps for others, it really takes a long time, or to pick, but for Ye Xuan, there is no need at all, what is inside him? It's ok to get all the phagocytic space directly.

Others are afraid of the chaotic laws and forces, and dare not charge them at will, but Ye Xuan will not be afraid, big deal, and get a place in the devour space to let these chaotic rules stay.

Therefore, Ye Xuan went fast and came back quickly.

The elders did not ask much, but watched Ye Xuan step by step toward the edge of this emptiness.

After becoming a vain messenger, the biggest difference is that a light curtain will be formed around the body, and the light curtain will become the best hidden means as long as it reaches the edge of the emptiness, and the Guardian Law of Nothingness will not attack.

When Ye Xuan stepped out, he had already appeared in the real battlefield of the main god.

Ye Xuan looked up, nothing, nothing, no matter what he used, here, nothing could be found.

But Ye Xuan knows that on top of this, there are a group of people who have lived with him for 5,000 years, watching him silently, and his head-up posture, perhaps, will last there for a long time.

After all, this time flow rate is very different!

Ye Xuan turned and did not hesitate to fly directly to the distance.

In the illusory world, Ye Xuan has already found the exit.

Chapter 2338: Active attack

As for the battlefield of the Lord God, Ye Xuanzhen did not say that there is anything worth remembering.

The only thing that leaves Ye Xuan to remember is only those who have no secrets.

I don't know, there are still many special existences like the illusory mystery in the realm of the gods, but Ye Xuan knows that there is a void in the Kunlun domain, and there is a emptiness that he has lived for five thousand years.

Ye Xuan has disappeared for five years. Many people are rumored that Ye Xuan has fallen. After all, he offended his home, so how could he let him go?

In the realm of the gods, five years can not be very long. After all, some gods are retiring for thousands of years.

However, Ye Xuan was suddenly interrupted during the constant challenge, and then there was no sound. This inevitably made no doubt that he had been killed by leaving home!

Of course, for the vast majority of people, Ye Xuan's life and death, they will not care.

Therefore, in the Kunlun environment, there will be no slight change due to the disappearance of Ye Xuan.

The last experience, let Ye Xuan understand that now, he is not an opponent away from home, but at the same time, Ye Xuan knows that leaving home and him, will not endless.

This time, Ye Xuan did not return to Kunlun for the first time, but directly found the people flying the smoke and the gods, let them temporarily return to the gods.

Because, Ye Xuan's next move, may really be forced to leave home.

Flying smoke, they naturally will not refuse to accept Ye Xuan's arrangement, and even more will not ask more!

After arranging the flying cigarettes, Ye Xuan spent half a year collecting information about leaving home.

Of course, it also includes affiliated families who are away from home.

At this time, Ye Xuan's hand, holding a jade symbol, this jade symbol is about all the information he collected from his home.

The resources brought back from the battlefield of the Lord God, because of the power of chaos, so Ye Xuan can not be used now, he is too lazy to manage, directly lost in the devouring space, behind in the time to get.

Now, Ye Xuan is looking for trouble to leave home.

Among the families affiliated with the family, there are three four-door five! These twelve forces are the most powerful among the affiliated forces and the most helpful force to leave home.

Ye Xuan's goal this time is very simple, that is, before cleaning up and leaving home, first clean up the three four-door five!

Remove the minions from your home!

"Hey, the system prompts, the data is recorded!"

With the prompts of the system, Ye Xuan handcuffed the jade.

In Ye Xuan's heart, the information is still safely placed in the system.

"Hey, the system prompts, according to the current strength of the host, it is recommended that the host set the first goal in the home!"

"Starting the home? The system tells me about the general situation of this start-up."

"Hey, the system prompts, Kaijia, one of the family affiliated families, mainly operates three Shenjing mines, a beast farm, and a hunting animal chamber, providing countless resources for leaving home. Wang Jingxiu is, in addition, there are still seventy-two god-level powerhouses in Kaiqi!"

Ye Xuan nodded, a \*\*\*\* king, seventy-two gods, with Ye Xuan's current strength, can indeed kill, since this is the case, then, from this start.

The three major veins of Kaijia have produced a large number of gods, and the quality is quite good. Moreover, these three major veins have many associated mines. They have been operated by key families all the time. It can be said that each vein has its own The family is heavily guarded.

On this day, a teenager came to the Kaijia vein.

"Do you want to apply for mining ore?"

"Yes, I know the rules of the Kaijing Shenjing vein. One percent of the income can be taken away by myself. I want to save some gods and then go home to marry."

This teenager is very ordinary, and looks very incomparable.

"Oh, interesting, okay, go. This is your identity token. Since you know the rules of my veins, you should know that once you enter, you must not leave within one hundred years. Do you understand? "

"Understand, of course, understand that there are several uncles in the town who are working in the Kai Mine!"

The boy said confidently.

"Know it, go, go in."

.....

This boy, not Ye Xuan, who else?

When Ye Xuan walked in, he could clearly hear the sound of the guardian behind him.

"This silly boy actually took the initiative to go to the veins. I heard that the last batch of slaves died almost. As for the kind of people who volunteered to mine, it was rare. I didn't expect that there would be fools who would like to voluntarily enter."

"If this kid is lucky, he can't really live out. Let's start the family. Isn't it a change of rules? As long as it is voluntarily joined, the treatment can be improved. If you can't, he can really come out alive and it will be cool." !"

.....

Kaijia Shenjing Mine, is it so easy to earn Shenjing to leave?

Kaijia climbed up to the home to do the big mountain, to do things, but flying.

If it is not the sovereignty of God, it has always been strictly managed. I am afraid that when I start to buy slaves, I will be able to grab people everywhere.

As for those slaves, everyone knows well. I am afraid that half of them are real slaves. Most of the rest are not secretly caught!

The mine that Ye Xuan is going to now is the largest mine in Kaijia, with 300,000 miners!

Every day, these miners are required to mine how much ore they must mine. If they are not completed, it is not uncommon to see them immediately.

Most of these miners are only man-made people. It can be said that there is no way to resist. Once they enter this place, almost no one can survive in the past 100 years.

Of course, Ye Xuan is not prepared to say that it is mining mines. From the beginning, Ye Xuan's figure has disappeared.

This time, he just set up a ban, he wants to let this Kaijiao vein disappear completely. If there are not so many innocent people inside, Ye Xuan is even too lazy to mix in.

Three days later, Ye Xuan had completed the banned arrangement, and then he directly arranged more than a dozen portals at the same time.

The place where these portals were transmitted was a pro-Mapleland. Before Ye Xuan came, he had already greeted Lin Fengjing and asked them to meet these people.

Later, Ye Xuan directly let the thousands of beasts wait, the flower \*\*\*\* sword waiters and so on, spread the news, and lead the miners to leave directly from the transmission array.

As for the guard?

Silently destroying these guards is nothing more than a word for Ye Xuan.

The six-character mantra, the dead words are not talking about playing.

What happened inside the mine was not known at all. Unconsciously, 300,000 people inside the mine were transferred to Ye Xuan without knowing it.

And when everything was ready, Ye Xuan went out and swayed out.

Kaijia has stationed more than 10,000 people here, but more than 10,000 people have not found Ye Xuan's actions.

Until a loud bang, all the talents knew about the things here, but now they know that it is already late.

Chapter 2339: Landlord

That loud noise, the Shenjing mine that has been in business for many years, disappeared.

In the sound of the general explosion, the entire Shenjing vein was blown out!

It can be said that Kaijia wants to reopen the excavation of this vein, then, fearing that it will cost a lot.

However, the people who started the home have not even reacted from the first explosion, and the second explosion rang, and their second Shenjing mine was once again turned into ruins.

The Qi family is very angry.

Who is it, who is doing the right thing with them?

However, there is no news, no one can find out who is doing this.

In desperation, Kaijia had to mobilize a large number of manpower to reinforce the guardian of the last vein. After all, if this last Shenjing mine was destroyed, then the loss of the family could be severe, and even a slump would not be impossible.

Ye Xuan looked at the vein far away.

At this time, there were numerous bans around the veins, and a famous disciple patrolled back and forth, making the veins seem as if no one could enter.

However, only when Ye Xuan waved his hand, his entire figure disappeared.

Ye Xuan walked so far into the veins, letting those people around him look at it, but could not find the whereabouts of Ye Xuan.

The hidden function of the wings of the gods can be solved without trying to crack.

Soon, Ye Xuan came to the inside of the vein, almost no difference from the previous two. Ye Xuan directly arranged the ban, and then set up the transmission array, ready to send the miners here to leave.

However, Kaijia has suffered two losses. This time, how could it be unprepared? In fact, among the miners, there have been people who have started to ambush.

When Ye Xuan had an action on this side, he started the action immediately.

I saw more than 30 good starters appear directly at Ye Xuan's side. This is simply not giving Ye Xuan the opportunity to escape. He started to set up such a trap and waited for Ye Xuan to hook.

"It turned out to be you, kid, who are you, why come to me to start a mess!"

One person stood up and asked Ye Xuan, and he could see that he was very angry now.

"Who are you?"

Ye Xuan did not answer the question of this person, but asked the identity of the person.

"Hey, boy, I am the initiator of the family, Kaichen, are you looking for the trouble of starting my family, don't investigate?"

In the morning, the eyes of Ye Xuan are already full of sorrow.

"Why do I have to know who you are? The family owner of Kaijia, what about it? I was still prepared to spare you a life. I didn't expect you to find yourself dead!"

"Kid, don't be too mad, just because you dare to say such words, I see, you are looking for death! What are you doing, give me, take this \*\*\*\* guy!"

Qichen loudly ordered that for Ye Xuan, Qi Chen is already anxious, knowing that the loss caused by Ye Xuan to Kaijia is simply difficult to calculate.

With the order of the morning, the two strongmen who started the family did not hesitate to take the shot.

Not to mention, these two people have the cultivation of the gods and gods. According to reason, it is considered to be more powerful. The two men joined forces and directly rushed toward Ye Xuan.

However, the scene that made everyone horrified appeared.

I saw Ye Xuan just waved two swords at once, but the two powerful lights, instantly killed the two strongmen who started the home, yes, it is spike!

Even the two strongmen who started their homes have no ability to fight back! I was killed by a sword!

what is this?

Everyone looked at Ye Xuan's eyes full of sorrow, Ye Xuan's strength, but also just the king of the king, why can he kill the same as the \*\*\*\* of the king of the real estate?

How did he do it? No one was dare to continue to shoot at a time.

However, the person who started the home does not take the initiative to attack, but does not mean that Ye Xuan will not actively attack.

Now Ye Xuan, Hao Hao is also a super-powerful person with the title of the former crown, and crushing opponents in the same realm, there will be a little trouble.

"Destroy the gods!"

Ye Xuan's hand waved, and the sacred sword in his hand immediately burst into seven rays. There was no suspense, and it was directly that seven of the founders were killed.

In front of Ye Xuan, these are also the strongest of the gods, and they will be so vulnerable.

"You, who are you, why do you have such a powerful fighting power, I started my family, what kind of grievances do you have with you, you have to start my family and kill them!"

Qi Chen looked at Ye Xuan. At this time, the morning, has been killed by Ye Xuan. If at the beginning, Kai Chen still feels disdain because Ye Xuan only shows the repair of the gods, then now, There is only endless horror in his heart.

This is where the fighting power of a lower-spirited kingdom can be possessed. Don't say that it is the strongest of the lower-spirited kings. Even if it is the strong man of the middle-class kingdom, there is no chance to even give up in front of him.

Kill a sword!

It seems that these strong Tang and Tang dynasty kings do not match Ye Xuan's second sword.

Every attack, as long as a sword, however, is such a sword, but it is enough to kill all opponents.

The person who started the family, from the fight with Ye Xuan, was directly killed and retired.

"Damn, damn, who are you, why are there such powerful forces?"

"Give me a hand!"

boom!

The power of violent came out, and finally blocked the madness of Ye Xuan.

But just in a short time, more than 30 good starters lost two-thirds!

At this time, there are only ten people left in the morning.

And obviously, these people have been killed by Ye Xuan, this is where the battle is, it is clearly crushed!

"Hey, the system prompts, specifies the target, eight products in the middle of the king!"

Eight-product medium god, this morning's strength is OK, but obviously, in front of Ye Xuan is not enough to see.

At this time, the morning is already going crazy. This guy who suddenly popped up did not ask why, and started to set up their home directly from the first appearance.

If this guy's strength is average, it's all right. The key point is that this guy's strength is extremely powerful, killing the existence of the same realm, as simple as cutting vegetables and cutting vegetables.

Qichen stopped the attack of his men, once again looked at Ye Xuan, but he did not have the arrogance before, but asked a little restrained: "Who are you, and we started, we have any grudges. If I don't have

If you remember correctly, we should not know you when we started. Why do you want us to start our troubles?"

Ye Xuan smiled slightly and said faintly: "Yes, you have no contradiction with me, but you have voted for the wrong person!"

"Take the wrong person? Wait a minute, what is the meaning of your words, who did I start and who I trust?"

Kai Chen looked at Ye Xuan and asked frowning.

Chapter 2340: Uninterrupted raid

"Why, now, in order to save your life, are you ready to abandon your home? Are you not relying on leaving home?"

"Leaving home? Are you misunderstood? Although we have a relationship with our family, we can only be regarded as a business partner. We can't talk about anything. You and your family have a hatred. You can go home. Why do people find me trouble starting a home?"

This guy is dead, and wants to argue? Really when Ye Xuan is so deceived?

"Destroy the gods!"

Suddenly, Ye Xuan directly waved a sword, and could not help but directly kill a person who started the family. Then he said faintly: "Why, do you think I am deceiving? Or do you think your acting is really good?"

Ye Xuan will not kill innocent people, but does not mean that he is a kind-hearted person!

"What do you mean by this, when will I deceive you?"

"It seems that you are not dying, or today, I will make an exception to kill!"

Ye Xuan is ready to start again.

I know, this time, the morning will finally be unable to endure.

Although it is said that the morning has a higher level of cultivation, but Ye Xuan's fighting power and its embarrassment, the two really started to move, afraid that no one can do anything, so, Kai Chen did not dare to work with Ye Xuan.

Because it is not the same as Ye Xuan, there is still the whole family in the morning, but unless it is said that it is ready to completely give up the family, otherwise, it is impossible for him to say that he can face Ye Xuan so calmly.

"And slow! I admit, we are really attached to our home, but in this world of weak meat, if we do not rely on leaving home, we will use the power of leaving home to shock the enemy, fearing that our opponents have already killed us. It!"

"However, even if we are attached to leaving home, then how can you and your family have any grievances, you can go directly to find a home, why do you want me to start a home?"

Kai Chen is very excited.

Ye Xuan is strong, but it is just because they are attached to leaving home, so they are looking for trouble. This is simply unacceptable, but he can't do anything about it.

"Well, I will give you a chance to choose a home. From now on, you will withdraw from the alliance and publicly declare that you are not involved in leaving home. I can spare you to start a home. Otherwise, I will let you Starting up and down, living in horror forever!"

Is this the true purpose of Ye Xuan, forcing the family to withdraw and leave the alliance?

Did the family dare to do this?

You know, doing this is undoubtedly a crime off your home.

Qichen hesitated and looked at Ye Xuan, but he could not answer for a long time, but he also knew that such delay would not be the solution to the problem.

In the end, he still compromised. After biting his teeth, he said directly: "Well, I promise you, we started, and we will withdraw from the alliance and leave the home today, and issue an announcement!"

In fact, there is no way for Kaichen. If he does not agree, it is impossible for Ye Xuan to start doing something for them.

Even if he promised, and issued an announcement, but after the family left, he can tell the story of leaving today, then, naturally, leaving home will not find the trouble of starting a home.

Qi Chen thought that his thoughts were very correct, but he did not know that he was still calculated by Ye Xuan.

Ye Xuan is really betrayed that these family members are really betrayed from their homes, or they are not willing to care, as long as they publicly issue a statement, then it is enough.

The announcement of the betrayal of leaving home naturally caused many forces to pay attention.

However, what Kaiqi did not think was that he did not give them any opportunity to explain when he left home. When he took the shot, he strongly suppressed the Kaijia and started the home. He did not die in the hands of Ye Xuan, but all died. In the hands of the family.

Perhaps leaving home is just to establish their own prestige, lest those affiliated families follow the school.

Unfortunately, they have already fallen into Ye Xuan's calculations.

Three months later, Ye Xuan once again forced a small family to announce the withdrawal from the alliance.

No suspense, this time, once again, the home was completely suppressed.

In just three months, the two families were directly suppressed from home. For a time, the dependent family members were at risk.

Because they don't know which family will be suppressed from home.

In addition, Ye Xuan deliberately created a message spread among the affiliated families of all the homes.

Be prepared to annex all the affiliated families and strengthen their own strength!

Yes, it is such a gossip.

It can be said that this news is simply full of loopholes, and it is simply not worth believing. However, the affiliated family who left home still believes.

Ye Xuan skillfully used the hearts of the people. Ye Xuan knew that the affiliated family who left home was in the long-term rule of leaving home. In fact, he had a heart and soul, and he was always wary of leaving home.

The two families who have been separated from their homes have not been able to let these affiliated families dispel their doubts. Instead, they will be more afraid of leaving home and be more wary of leaving home.

Ye Xuan is stepping away from home and letting the power of leaving home step by step.

Of course, there are also some affiliated forces that are quite loyal to their homes. For such forces, they have only one fate.

Ba Tianzong, one of the attached ancestral gates of the home, is also one of the three sects of the four-door five-strong family.

This time, Ye Xuan found this sect.

Ba Tianzong is different from Kaijia. This is a pure sect. All disciples only have to strengthen their strength. Moreover, once the strength is sufficient, many people will also serve to leave home and become a thug of their home.

The strength of Ba Tianzong is quite concentrated. Except for those disciples who have been recruited to leave home, all the disciples of Ba Tianzong are concentrated in their sects.

Today, Ye Xuan came to the Ba Tianzong, ready to take a look at this difficult bone.

"Stand up, here is the Ba Tianzong, and the idlers are forbidden."

A disciple stopped in front of Ye Xuan and did not allow Ye Xuan to move on.

Ye Xuan waved with his hand, it was a sword light rushed out, even the half sentence did not explain, directly killed this disciple.

"Damn, you dare to kill my disciple's disciple, I see you are impatient!"

Several other disciples of the Emperor Tianzong issued an alarm, and on the other hand, they had already rushed toward Ye Xuan.

Ye Xuan will not care so much, come to kill one, come to two, kill a pair, even from the beginning, there is no more words at all.

"Hey, the system prompts, detects a strong killing, suggest that the host immediately dodge!"

Has the power of the tyrants come?
