

Super D. S 234

Chapter 234: Treasure

"Huoyang? It turned out to be him. It is said that this predecessor still likes to study the formation method, and some mysterious beasts, it seems that the danger in this palace is that these mysterious beasts are smashed." Xiao An could not help but say.

"Well, three younger brothers, there are just four roads here, we will separate. There may be some statues on the road, I hope the three younger brothers will be merciless, don't destroy these statues." After the river flow, it is directly into a In the channel.

"Then I will take a step first, and the two younger brothers take care." Xiao An also broke into another channel.

As for the silent, Xin Fei, after nodding at Ye Xuan, he also left.

Now, only Ye Xuan is here.

Ye Xuan looked at the statue and stood quietly for a while. Since it was already late for a day, it would be fine at a later date.

He felt that the statue was a bit strange, but he couldn't feel the strange place.

"Forget it, let's go."

Ye Xuan thought about it, and now there are people in the three passages, so he can only go to the last one.

I have to say that this cave house is decorated like a castle. There are many murals of mysterious beasts on the road. Each pair is carved vividly. There are names and explanations below.

He also heard before that there will always be some strong people who have no children, and they are not affiliated with any forces. Therefore, they all built a cave before they died, and put the things they got inside, such as exercises, gods, treasures, and so on.

Fang Caixuan listened to Jiang Liu said that this Huoyang is a refiner, so his materials and grounds are certainly quite a lot. He is happy, Ye Xuan is very interested in this cave.

Ye Xuan follows this passage and looks forward while advancing.

Because he found that the murals around him not only painted the mysterious beast, but also some other things, such as the materials and methods needed to forge some kind of weapon.

When people come in, they will go to find treasures, and they will rarely pay attention to them.

Fang Cai Ye Xuan happened to see a mural of a forged earth knives. He also included in the phagocytic system, but this did not have much value for him.

He ran forward again, and the next road was a bit different. The murals on the walls disappeared and replaced with a statue of stone.

"Is it a person who has been in contact with Huoyang?" Ye Xuan also

Not much care, continue to run wild.

Next, he met the first threat.

This is a black leopard, but it is not a **, but a cockroach, a cockroach that does not know what to make.

"Roar....."

This black leopard flew directly toward Ye Xuanfei, but in the next moment, it was directly divided into two halves by Ye Xuan.

"Is it comparable to the speed of a half-step Dan Yuan Wu Wu."

Ye Xuan raised his hand and was a palm knife. He directly destroyed the rotating parts of the black leopard. He did not take out the weapons from beginning to end.

The core of this black leopard was destroyed, and Ye Xuan walked over and directly swallowed it.

"One hundred million swallowed points?" Ye Xuan Le could not close his mouth.

It seems that the material of this black leopard is still very precious.

Although his engulfing points were not many before, but after completing the forging task, he skyrocketed 70 billion devouring points. This time, the trip to Dongfu may allow him to break through to Xiaocheng.

Ye Xuan continued to move forward. There are some palaces on this passage. There are also many defective parts on the road. This should be the disciples of the other three houses. However, the bodies were almost accepted by the disciples, which made him somewhat helpless.

"Unfortunately, in order to take care of the disciples of the other three houses, the four of us were late one day, and the good things were taken away."

He was very helpless. He had been in for more than an hour, but he didn't get anything.

However, at this time, his brow suddenly became a wrinkle, because he actually smelled a **** smell.

He has blood in his body, so he is very sensitive to **** smell. He stares at it and finds that there is a pool of blood not far away. It seems that a disciple was injured.

"Younger brother."

Suddenly, behind Ye Xuan, a familiar voice sounded.

Ye Xuan shuddered and turned his head and found that there was already more than one person behind him. Moreover, this person is still familiar with him, and is the first Jiangyou in the list of the land.

"Brothers? Why are you here?"

Ye Xuan is very surprised, because he knows that Jiang You is also a man of entry and exit, but he can escape his perception and come behind him.

"Oh, I just came out from there, but the younger brother, why come so late?" Jiang You held a long sword in his hand and walked over with a smile.

At this time, Ye Xuan's brow suddenly wrinkled and said: "Stop!"

"Teacher, what's wrong?" Jiang You's foot.

"Hey, the district magic array, also want to confuse me?"

Ye Xuan sneered, and took out the Eight-Day Sword directly.

Jiangyou was cut in half, and finally his figure began to distort and turned into a black leopard.

joke!

Ye Xuan has a senior master of the formation, unless it is too clever, otherwise it can not escape his perception. Moreover, let Ye Xuan be able to determine that this is the illusion of the super-voice bat blood, because he sensed that this river tour is close to the four feet, the body shape is wrong!

He walked straight and swallowed the sly body and looked around.

Then he suddenly jumped up and then slammed the palm directly at the floor.

"Hey!"

The floor was cracked and a purple light was printed on the eyes of Ye Xuan.

Sure enough, there are phantom arrays under the ground.

Ye Xuan quickly walked over and destroyed the base directly, and then took the spar inside, and there were a hundred pieces of spar, which is equivalent to 10,000 pieces of spar.

"The base of the small magical array, one day is about a piece, this hundred pieces of top quality spar, can still support for another thirty years or so." Ye Xuan said secretly.

At this time, he suddenly remembered that this Huoyang had passed away for a hundred years, that is to say, there were at least four hundred pieces of spar before.

Later, he began to move on.

After another hour, his harvest is still not much, one day behind, this is not the way.

In desperation, he began to rush, continually deepening in one direction, and must be in front of other disciples.

His speed is already exploding. He estimates that among the 16 people who entered Huoyang Dongfu, the strength ranking is definitely the top four, and it is not necessarily the fourth.

He ran for an hour, equivalent to two or three hours for other people. In just half a day, he went deep into the cave.
