Chapter 2361: Return of the first ancestor

Suddenly thought, the purple blood that the system said, is not the purple blood that Ye Xuan got from the mysterious lake before?

In addition to this purple blood, Ye Xuan also has golden blood, of course, now Ye Xuan, only found a way to use purple blood!

However, even so, it is enough!

Then, since I know that purple blood can break the blessing of the ancient demon, what is Ye Xuan waiting for?

"System, use purple blood to get rid of the blessing of that guy!"

"Hey, the system prompts that the host has a special ability to use purple blood!"

In an instant, I saw Ye Xuan wave a hand, three drops of purple blood directly rushed toward the seven princes, in the air, these three drops of purple blood, has already exuded a powerful and powerful light.

That light, even so that people in the field of all demon gods can not help but be scared!

That is what, why, will make them so fearful, why let them have a feeling of persevering!

Countless demon gods can't help but be amazed.

However, Ye Xuan has no obligation to answer them!

Three drops of purple blood quickly came to the side of the Seven Princes. In the eyes of everyone, the three drops of purple blood quickly absorbed those auras!

When the three drops of purple blood disappeared, what is the blessing of the aura around the seven princes!

"No, no! This is impossible, it is impossible! Why can you break the blessing of the ancient demon god, no, no!"

The Seven Princes shouted like a madman!

Indeed, now that he is not screaming twice, there is no chance!

Suddenly, Ye Xuan shouted loudly: "It is now! Qian Teng!"

Ye Xuan is betting on a speculation in his heart!

Since it is said that the purple blood can affect the blessing of the ancient demon god, then, if it is directly used to attack?

At that time, Ye Xuan does not use other means of attack, just detonate directly.

Suddenly, I saw a vine in the triumph of Ye Xuan. The vines rushed straight to the Seven Princes at the speed of the vine, and there was a drop of purple blood at the tip of the vine.

However, the drop of purple blood is obviously very unstable.

Near!

Near!

Closer!

Among the eyes of countless people, Qian Teng directly sent purple blood into the body of the Seven Princes!

Time seemed to be still at this moment. The seven princes stared at the vines that had come in from those wounds. He didn't know what Ye Xuan had done.

"roll!"

The seven princes screamed and shattered the vines directly.

However, a little bit of loss will not have any effect on Qian Teng at all.

At the same time, Megatron actually controlled the two scorpion swords to quickly retreat toward the back.

People are puzzled. No matter who is the demon **** domain or the Kunlun domain, they are puzzled at this time. I don't know what Ye Xuan did.

But the next scene, let everyone know what is called horror!

I saw that it was only a blink of an eye, and the figure of the seven princes quickly contracted.

Silent and shrinking, even the seven princes who are undergoing changes, seem to have no feeling at all.

Still stupid!

This contraction lasted for a long time, but for a moment, people could not see the Seven Princes. What they could see was a drop of blood, and a drop of constantly shaking blood suspended in the air.

"No, run away!"

I don't know who swears. For a moment, all the people of the demon gods are rushing to the past.

However, it is too late.

I saw that the blood was broken directly at a very slow speed.

Very slow!

That slow speed can even make people see any change.

However, after the completion of the fracture, a horrible wave of ripples appeared between the moments, the ripples only appeared on a plane, but the strange thing was that only the people of the demon gods rushed over, but the Terran did not have any influence.

"The return of the first ancestor is the return of the first ancestor!"

Countless demon gods are terrified and even directly scared.

However, Ye Xuan did not know what it meant. Even if he asked the system, he did not get the result.

What ancestor, what ancestor's return, Ye Xuan did not know.

However, all this is caused by Ye Xuan himself!

With countless screams, the ripples have swept hundreds of thousands of demon gods!

These people are cultivated to be high and low, but as long as everyone is caught in this ripple, then they are all stupid in the same place, and then devoutly squatting in the air, using their own hands, to dig out Your own godhead, lift your hands!

Those godheads quickly dissipated in the air, as if they were dragged directly into the void by a mysterious force!

Ye Xuan's heart is hairy!

Such a strange situation, even if the attack was made by him, he could not help but tremble in his heart!

Hundreds of thousands of people, the minimum repair is probably only Xuan Shenjing, and the highest, even the king of the king!

So many people, even at the same time doing the same incomparable, horrible movements, mistakes are anyone, I am afraid will be afraid.

These people have dug out their own godheads, and they have contributed so devoutly!

What is the godhead?

It is equivalent to the heart of ordinary people!

With your own hands, you can dig out your heart and contribute with great enthusiasm. What kind of feeling is this!

What's more, this is the action of hundreds of thousands of people at the same time!

Fortunately, the demon gods of the demon gods did not have a half-hearted thought. They simply fled toward the portal as if they were unwilling, and some people could not quickly leave, and they did not hesitate to kill their companions.

Calculate a few minutes, the entire sky, the ground, in addition to the body of the demon gods, you can not see any of the demon gods!

The war ended in such a weird way!

However, there is no cheering on the Terran side, and even Ye Xuan is not happy.

What did it mean in the scene just now, was the scene just made by Ye Xuan?

Still, there is a mysterious force, borrowing Ye Xuan's hand to complete the action of this scene!

The return of the ancestor?

What is the first ancestor?

What to return to!

Countless doubts are in the heart of Ye Xuan!

However, Ye Xuan has no way to answer this question, because Ye Xuan himself does not know what happened.

"Big, adults! Next, what do we do!"

Finally, the strong responder asked Ye Xuan.

In the eyes of everyone, this time you can defeat the enemy, it is actually caused by the festival of only the king of the king!

At this time, no one dared to look at Ye Xuan because of the low level of Ye Xuan.

That scene is really horrible. One move, just one stroke, is the degeneration of hundreds of thousands of demon gods, and there are many powerful gods and kings!

Chapter 2362: Frighten the enemy

This scene makes these people hard to forget for a lifetime.

Not to mention the people of the nine parties and the 60,000 people, even those high-definition Jingu Guards, the look of Ye Xuan has changed.

If at the beginning, people are only because Ye Xuan is a nine-party festival, it is the law of the gods, so it will be respectful to Ye Xuan!

So now, people have already recognized the strength of Ye Xuan!

That endless means, that powerful and incomparable means, people can not help but doubt, Ye Xuan has a strong fighting power!

Some people say that Ye Xuan has at least the fighting power of the middle god, and some people say that Ye Xuan can defeat the superior king!

However, people are very clear that Ye Xuan is just a peak of the king of the region!

Weird means, weird magic, strange magic!

Ye Xuan has an infinite mystery!

Ye Xuan looked at the battlefield and waved it to directly devour all the high-level bodies that could be swallowed!

Cleaning the battlefield is actually the full strength of the victor. Ye Xuan is not a person now. Therefore, he cannot swallow these bodies. After all, these bodies are actually a fortune in the eyes of various forces.

"Well, let the people clean the battlefield, others, return to their place, waiting for my call!"

Ye Xuan casually said.

"Yes, the festival makes adults!"

'Adult, my Tianhua Shenzong is not too big a sect, but the location is not bad, but the adult will set the palace in my Tianhua Shenzong, my Tianhua Shenzong, willing to contribute to the adults. Zongmen! "

At this time, I didn't take a flattering. When I waited, Liu Hanshan didn't hesitate and stood up.

"Yes, adults, you need a festival to make the palace, the war of the gods is open, then there will be more and more wars in the future. Moreover, it is very likely that the Lord God will let the adults personally bring people into the battlefield of the Lord God! I Lin family is willing to contribute resources to create a festival for adults!"

Another person stood up and expressed his loyalty.

Ye Xuan actually knows why they want to do this, because Ye Xuan now has the right in his hands. His festival makes the palace once established, so it is inevitable that you need to select a large number of officials!

These people are all looking at Ye Xuan, wanting to ask for an official and part-time job!

After all, the official position of the Kunlun domain is too difficult to get.

Although the nine parties and the 60,000 originals also have some official positions, but after all, there is no degree to govern, so it is relatively loose, and, but also can not get the benefits from God!

Now, when the enemy retreats, everyone considers the benefits of the future!

Ye Xuan nodded and was unambiguous. He said directly: "Okay, you all retreat. When you say the reward, I will naturally remember you!"

Although Ye Xuan's answer can't satisfy everyone, after all, it's impossible for countless people to gather here, so everyone has to disperse.

When the crowd dissipated, the Jingwei Guard also came to Ye Xuan's side.

"The law of the gods makes the adults, the enemy has been repulsed, I have completed the mission, so I hope to return to the shrine of the gods!"

Is this also going?

Of course, these people are not Ye Xuan's people, Ye Xuan naturally is not qualified to stay.

"Okay, go back!"

Ye Xuan ordered these people to leave too!

The moment before, it was also surrounded by thousands of people, but after a moment, it became a loner, and Ye Xuan really felt uncomfortable.

"System, what is the power system?"

Ye Xuan thought of the strength system he opened. After all, Ye Xuan now needs his own line of people!

"Hey, the system prompts, the force system, will be fixed every day as a host birth, the host please note that this production does not appear out of thin air, but the host needs to use the standard in the phagocytic space, redeem it!"

Ok? Ye Xuan slightly glimpsed, it turned out to be like this!

"So the system, what kind of people, is considered to meet the requirements!"

"Hey, the system prompts, the redemption standard, requires that you must have a man and a person to be trained as a talent, the exchange method is to re-brain the brain through the force system, and then become the host of the soldiers!"

Ye Xuan's brow is slightly wrinkled. Doesn't that mean that it is to let Ye Xuan resurrect the person he killed before, and then become his own soldier?

This is second, in any case, Ye Xuan once said that he would give these people a chance to resurrect.

However, Ye Xuan is not a murderer, where to find so many people to resurrection?

It's hard to be done. In order to be able to build a force, can he not kill it?

"Hey, the system prompts, any enemy killed by the host, as long as the body is retained in the swallow space, or anyone who is engulfed by the host income, can be used for redemption, no race!"

Suddenly, a hint of the system made Ye Xuan wake up, so to speak, and Ye Xuan really has a place to redeem, even without brainwashing!

That was when he merged into the ancient space that swallowed up the space!

It is an ancient mystery. The people inside, because of the law, cannot exist in this world, but can live in the devour space of Ye Xuan. Now, Ye Xuan has a way to bring them back to the world. Ye Xuan believes that these people will be very willing!

Moreover, through the force division system, Ye Xuan can even use some of the super strong people in the ancient secrets of the piano for their own use!

Ye Xuan pursues the upswing, this time the force system, it seems, really good, Ye Xuan will not worry about the loyalty of the people of the ancient secrets, and even do not need the military system to brainwash, once they enter the devouring Space, in fact, has been marked with Ye Xuan.

In other words, these people are actually, it is impossible to violate the existence of Ye Xuan.

It seems that in a short time, Ye Xuan does not have to worry about the strength.

He opened the force system, but Ye Xuan frowned slightly.

Because the production speed is too slow!

Among the force sub-systems, the production of the ruler with the power of the law, that is, the lowest is a product of the next king!

And the production of a product inferior to the king of the king, every day, the force system can only produce one hundred!

Of course, you can also use resources to redeem.

It seems that there are quite a few hundred soldiers waiting for the gods. However, this is the stage of the war of the gods, a hundred soldiers, what can be used for it!

Perhaps before the law of the gods was made, if Ye Xuan knew that he could summon one hundred incomparable loyal gods and strongs as a man in a day, I am afraid that I would have been very happy.

Unfortunately, the status is different, so the horizon is naturally different.

"The production of a product and the next king of the world, one hundred a day, producing a medium-sized gods, only ten per day! And the soldiers who produce the first-class gods can only produce one every day! Too few, just too little Not enough at all!"

Chapter 2363: Zongmen site selection

"Hey, the system prompts, the host should pay attention to the force division system, you can upgrade by belief value and other special means!"

The system prompts that the belief value is upgraded?

However, Ye Xuan is even too lazy to check, and can also know, I am afraid, the value of the beliefs required will be terrible!

However, since it is possible to upgrade the force division system with the value of the belief, then naturally, the faith value can be exchanged for the soldiers!

In this way, this is also a disguised form in urging Ye Xuan to complete the task of rebuilding faith.

Of course, Ye Xuan has never been relaxed. He has always been serious about completing the task.

Since the force division system is not expected, then, Ye Xuan is better to establish the Zongmen first!

Ye Xuan got a Zongmen card. Now, it is also time to establish. After all, Ye Xuan has wanted from the beginning, and wants to use this door as his temporary festival to make the hall.

Look at the people around who are cleaning the battlefield.

Ye Xuan gave up the idea of establishing Zongmen here.

Because after all, the people in the field of the demon gods invaded from here, then Ye Xuan, naturally can not establish the Zongmen here.

"System, expand the map, help me recommend a few places suitable for establishing Zongmen!"

Ye Xuan said to the system.

"Hey, the system prompts, in the data analysis, the analysis is successful!"

"Hey, the system prompts, the host can choose to establish a Zongmen recommended location, Longzhou!"

Among the six thousand squares in the Longzhou, the most prosperous one, the population has a population of 15 billion, of which 100,000 are superior to Shenjun! And the power is rich, and the natural resources are also very abundant!

Longzhou!

Ye Xuan slightly frowns, compared to this Longzhou environment, whether it is the original, or the Fengjing, it is really worse than the country!

However, Ye Xuan gave up directly here, as for the reason, because it is too rich.

After all, Ye Xuan is even a festival, but if he rushes to establish Zongmen in Longzhou, he will only let people feel that Ye Xuan is going to grab resources.

So, it is not suitable there!

"Hey, recommend location two, wilderness!"

The wilderness is ridiculous, but there are so many resources for the beasts, and there are countless powerful beasts, and there is no power!

this place?

Ye Xuan shook his head and gave up. The reason is very simple, that is, it is too ridiculous!

For Ye Xuan, this sect is his degree, so it is impossible to build a place that is too ridiculous!

"Hey, recommend location three, the city of the Nine Secrets!"

The city of the Nine Secrets is the most central position of the 90-party environment. However, there is only one city here, and there are no other forces in the surrounding 30.

However, there are nine mysterious secrets around the city of the Nine Secrets. These secrets are the kind of deadlands that have not yet been opened up!

"System, what is dead?"

"Hey, the system prompts, the dead, refers to a special secret that cannot be entered. This kind of mystery has a common point, for whatever reason, it is impossible to enter!"

Can not enter?

Ye Xuan is going to have a look, what is the so-called inability to enter?

Perhaps it would be a good choice to establish a sect in the city of the nine secrets!

After all, this is the core position of the nine-party 60,000 environment, and there is no power around, and these nine dead are waiting for Ye Xuan to explore, how to see, how are all very good choices.

Of course, Ye Xuan still has to go and have a look.

Not hesitating, Ye Xuan directly commanded, and took out the carriage and left quickly.

Although Ye Xuan is expensive for the festival, but now everything is being carried out in an orderly manner, the recruiting has not yet been completed, and the things that fly the smoke are not coming so fast.

Therefore, Ye Xuan also has no important things in a short time. Besides, there is really something, and people have a way to contact Ye Xuan.

Whether it is the nine-party festival or the law of the gods, it is naturally privileged, for example, using a special transmission matrix!

Therefore, Ye Xuan has only experienced a transmission, and has already arrived in the city of the nine secrets!

This is a very strange city, and there are only less than 5,000 people in the entire city!

However, the repair is not small, as for the reason!

It is because the people who came to the city of the nine secrets are directed at those dead.

When Ye Xuan walked into this city, it did not attract anyone's attention. After all, people often come here with various ideas and want to see the dead!

It can be said that any death, often represented, is a great opportunity. Whoever can enter the first one, as long as he can be lucky, then the gains will be great!

In fact, on the way, Ye Xuan also wants to collect a little purple blood in the mysterious lake.

However, Ye Xuan has a kind of hunch in his heart, and the premonition tells Ye Xuan that he must not be near the mysterious lake!

Although this is Ye Xuan's unpredictable hunch, Ye Xuan chose to believe!

Later, he still sent people to go and see, and then decide whether it is going to pass. After all, purple blood is too strange!

Breaking away the blessings of the ancient demon gods, causing the return of the ancestors, these things, let Ye Xuan have to pay attention to this purple blood!

Ye Xuan came to the only inn in this city. In this city, most people are free to find a place to build a house.

However, Ye Xuan is too lazy to trouble. Anyway, if you really want to establish a Zongmen here, it is a waste of time to build a house now.

The inn is not big, but it only has five houses. However, there are quite a few people here. At this time, there are no fewer than 100 people in the inn hall!

"I heard that, some days ago, someone ran to try the fifth secret. As a result, there were twelve people, but only one person came out, and the person who came out has become a madman! I really don't know what is in the fifth secret. !"

"Forget it, the fifth secret is still a good point, you don't want to think about the third secret, how many people you go in, as long as you come out from it, you will definitely break the gods, not kill you, let you lose your cultivation. This is even more painful than killing you!"

"Yeah, I heard that the first secret seems to have hopes to get through, and I don't know if it is true or not!"

Ye Xuan casually found a position to sit under the ear, but has been listening to these people's arguments. Obviously, these people are specially dedicated to these nine major deaths.

"It should be true. The gang of people who have studied the first secrets have been studying for tens of thousands of years. They say that they have no gains. I am afraid no one will believe it, but the family is really unlucky. As a result of the nine-party family of sixty thousand, the result is just because of a deadland! It's only tens of thousands of years, but only a few people are lost!"

Chapter 2364: City of the Nine Secrets

"Hey, who said no, I heard that we have a new festival in the 60,000, and it is still very powerful. I don't know how this guy is..."

"Small voice, you are looking for death, openly talking about the festival, but to abolish the godhead!"

The sound disappeared, it seems that those people stopped talking because of Ye Xuan.

However, Ye Xuan does not know when this rule is still in place.

Therefore, Ye Xuan turned directly and walked over to those few people.

"Hey, brother, I just heard you say that the discussion has made it necessary to abolish the godhead. What is going on here, I have come along and I have heard many people mention the festival, but no one has said that there is Such a rule!"

Ye Xuan certainly did not say to ask, in fact, Ye Xuan did not know why these people can get news so quickly.

"Hey, whisper, kid, you are looking for death, trusting the degree, so it is inevitable that the major forces of our nine-party gods will be shuffled. Some people are happy and worried. You have not heard such rules elsewhere. Said there is no!"

Ye Xuan's brow wrinkled slightly. In Ye Xuan's heart, the city of the nine secrets is the place that should not be bound by these rules, because it does not belong to any force at all!

However, seeing those people who are not willing to mention this topic, Ye Xuan has to give up.

Instead, I talked to these people about the first secret.

The first secret, which has been studied by the family for tens of thousands of years, is the most secretive opportunity to be opened, so it is the most famous.

However, Ye Xuan fell in the mouth of these people and did not hear much useful news, so Ye Xuan is going to go directly to the people who ask for help.

At home, the owner of the family is only a middle-aged man in the middle of the gods, and the whole family is just his wife, his two sons and one daughter, and his brother.

It can be said that the entire family has long been degraded.

The family has a fairly good house in the city of the Nine Secrets. The guardianship is very complete, but it seems to be incomparable.

Ye Xuan came directly to the door of the house, and knocked on the house door of the house!

No way, because there are restrictions on the prohibition, this is the only way to call the family.

"I'm coming!"

Soon, the sound of a teenager sounded up.

Along with this voice, a teenager opened the door.

"you are?"

Juvenile doubts to Ye Xuan asked, after all, the family in the entire nine secret city, can be regarded as a famous family, so the teenager can be said to know all the people in the city of the nine secrets.

"Hello, I just came to the city of the Nine Secrets, but there are some questions I want to ask about my family!"

"You are also asking the first secret thing, hey, don't ask, we don't really know what we are!"

When the boy finished, he was ready to close the door.

However, Ye Xuan stopped directly.

"Wait a minute, although I don't know if you are telling the truth or not, I still hope to see your father face to face, rest assured, I believe he will be happy to cooperate with me!"

Ye Xuan's body exudes a majesty that makes the boy irresistible, so that the teenager can't help but stop the action.

And Ye Xuan is too lazy to say more, directly push the door and go inside.

Ye Xuan did not wait too long, but heard the footsteps full of outside!

"Second brother, fast, leave here, damn, the Liu family is coming again. The mother and the three sisters have already hid, the father is blocking them, you are leaving with me!"

A full sound sounded, and Ye Xuan figured out and went straight to the house.

Liu family?

Dodge?

What exactly is going on?

"who are you?"

The young man suddenly saw Ye Xuan, and he pulled out his sword in his hand and looked at Ye Xuan with his face.

Ye Xuan was too lazy to meet him and asked directly: "Where is your father now?"

"East, Dongchengmen!"

Watched by Ye Xuan, the young man could not help but answer.

Ye Xuan heard the answer, and the figure disappeared at the same time, leaving the two people very different.

The city of the Nine Secrets, like other cities, has four gates, and the Dongcheng Gate is the most ruined, even the gates are gone.

Anyway, the city of the nine secrets has long been abandoned, and there is no such thing as a city owner. Therefore, no one naturally cares.

When Ye Xuan used to, a middle-aged man was playing against a dozen people.

"Liu second child, you should not be too much. My family does not have what you want. If you want to explore the first secret, you can go over yourself. Why do we let our family get the lead for you!"

"Hey, hey, you don't want to toast, don't eat and drink fine wine. My Liu family is enough to give you face. This is the third time that my Liu family came to see you personally, three times! It is also your family, changed. Other families have long been destroyed by us and don't know how many times!"

"This time, I don't care what you are saying, I only tell you a word, don't want to die, immediately give me the secret of the first secret! Otherwise, give me the way!"

Ye Xuan slightly frowned, this thing is already obvious.

Since he is the person Ye Xuan is looking for, then Ye Xuan naturally will not let the Liu family take him away!

Ye Xuan step by step toward the front, there is no hidden, so action, as long as it is not blind.

What's more, Liu's people are not only unruly, but their strength is not weak, except that the younger Liu, who led the team, is a medium-sized god, and the other people are basically all the inferior gods.

"Stand up, kid, who are you!"

Liu Lao Er looked at Ye Xuan, Ye Xuan, there is a breath that makes him fear, so he did not dare to directly provoke Ye Xuan.

I know, Ye Xuan is too lazy to pay attention to him, but directly to the side of Yongzheng, casually asked: "You are Yongzheng? Homeowner?"

"Yes, it's just Yongzheng, I don't know who you are?"

"It doesn't matter who I am, let's go, I have something to ask you, let's just go and talk!"

Ye Xuan seems to have never seen Liu Lao Er in general, very casual.

Although Liu Lao Er is afraid of Ye Xuan, but after all, he can't see Ye Xuan's cultivation. At this time, seeing Ye Xuan actually ignores himself so much, where can he hold back and jump out and say: "Stand, you two No one is allowed to go!"

Ye Xuan turned and looked at Liu Lao Er, then said faintly: "Roll!"

A rolling word, the group contains the supreme pressure!

Ye Xuan is a peak superior to the god! It is a whole higher level than Liu Lao Er!

Therefore, just the law is suppressed, it has already let Liu Lao second-hand sweat.

Ye Xuan didn't want to find trouble, so she didn't mean to do it at all. It just exudes momentum and makes Liu Lao Er know how difficult it is to retreat!

Liu Lao Er was really scared, watching Ye Xuan and Yong Zheng leave.

However, this does not mean that Liu will give up.

Chapter 2365: The ghost is not scattered

In fact, Liu is not a family of the Nine Secrets, but because he knows what secrets may be there, so he will be a family that has come to him.

There is only one purpose for them to come here, and they want to get a cheap and get the secret of the first secret.

Unfortunately, no matter what means they used, they did not cooperate at all.

This time, it was the third time that Liu Lao Er found Yongzheng. It can be said that this time, it is already their endurance limit.

Even Liu Jia has sent an elite, the original plan is to tie the road directly once the family does not cooperate!

Liu Lao Er was scared off by Ye Xuan, naturally he immediately went to find his master.

Ye Xuan, but still do not know this, at this time Ye Xuan, Zheng and Yongzheng while walking, while asking about things.

Ye Xuan knows that sometimes, the right thing is still very useful, so he directly said nothing, directly showing his official seal, showing his identity as a festival!

"You, you are the new festival to make adults!"

Yongzheng looked at Ye Xuan with great horror. He couldn't think of it. He would be here, and he met the rumored festival to make adults!

"Yes, I am the festival of the nine parties and 60,000. Although there are quite a few deadlands in the 90s and 90s, I intend to build the palace in the city of the nine secrets. This is the core of the 90-party environment of the nine parties. Therefore, I need to understand about these nine major deaths."

"Reassure, as long as you can help me, then I will let you return to your original glory!"

Ye Xuan said faintly, although his tone is indifferent, but the value is enough to make Yongzheng excited!

"The festival makes adults, what are you talking about?"

He was asked with horror, but this question, he immediately regretted it again. After all, how can the six parties and the 60,000 people make a joke about his little family.

Therefore, I am not hesitating, saying directly: "I don't want to be an adult. Our family has always been specializing in the first secret. For this reason, even the family is in the middle of it. However, the small is really not knowing too much about the first secret. , in fact."

"A decade ago, the little father launched an exploration of the first secret with the last batch of family elites. However, there is no return to that one!"

"According to the small exploration of this small decade, I know that my father was taken away by a person who called the genocide. Unfortunately, the small incompetence, even the annihilator does not know where! And all the information about the first secret, Also lost together!"

Extinction!

Ye Xuan's heart was suddenly shocked!

Extinction!

Destroy the organization!

Is it impossible to destroy the organization? In Linjing, it is only a branch of the organization, so Ye Xuan knows that the organization must have power in the Kunlun domain.

However, Ye Xuan did not go to find the trouble of destroying the organization, but directly hit the annihilation!

Ye Xuan's brows are wrinkled. It seems that this time, it is quite tricky.

Once things have something to do with the organization, I am afraid it will not be that simple.

Even now, at the moment, Ye Xuan's organization is not a clear understanding of what kind of existence!

So, this time, Ye Xuan has to pay attention.

Destruction of the organization, it is really a ghost, it seems that wherever they will have their existence!

This organization, obviously does not have much strength, but it is just that the ghost is not scattered, always the emergence of small force power!

This time, Ye Xuan will not let them go, Ye Xuan is now a good festival, at least, in the nine parties 60,000, in the Kunlun domain, Ye Xuan will destroy all the people who destroyed the organization!

However, this organization is half as good as a hundred. In fact, Ye Xuan's mind is also clear that he wants to truly eliminate the organization, unless they all take the initiative, otherwise it is really difficult. These disgusting guys are simply Nowhere!

There are their shadows in the world, but now, there are still their shadows in the Kunlun domain!

After continuing to chat with her, Ye Xuan left.

From the mouth of Yongzheng, Ye Xuan knew that this first secret is indeed part of the exploration.

What kind of mystery is this first secret, what no one knows, but the biggest danger in this mystery is a strange beast. According to the name of Yongzheng, this beast is called The first secret animal.

It seems that this beast is a unique product of the first secret, because in the outside world, this strange beast is not seen at all.

Ye Xuan is going to have a look at what kind of special things this special beast has!

The entrance to the first secret is not far from the city of the Nine Secrets.

He is like a portal, so hovering in the sky, without any hidden, as if waiting for people to explore.

However, when Ye Xuan walked over, he didn't want to, and even met the guy who blocked the way!

As the saying goes, good dogs don't block the road, but unfortunately these are obviously not good dogs!

"Young master, that is him, this guy saved his righteousness!"

At this time, Liu's face still had this scar on his face. Obviously, it was the young master who had been beaten in front of him.

"Come, come and grab me!"

The young master did not ask for anything at all, and directly issued an order.

In an instant, dozens of Liu's servants directly surrounded Ye Xuan's group and made a fuss.

But at this time, Ye Xuan spoke up: "Who are you?"

The young master glanced at Ye Xuan, a disdainful tone said: "Who are we, you are not qualified enough to know!"

Good arrogant tone!

Ye Xuan's mouth is slightly tilted. It seems that these people are looking for death!

"Yes, I don't deserve to know? I don't know what to do, but I don't care who you are. Now I will give it to me immediately. I can take a life around you. Otherwise, I will dispose of my military law!"

"Haha, haha! Military law, who do you think you are, and how to deal with the military law, **** things, what are you doing, don't hear the words of the young master, give me him, the young master should teach him well. What is military law!"

Ye Xuan shook his head, really when Ye Xuan said to play?

Dare to attack Ye Xuan, Ye Xuan has enough reason to completely annihilate this Liu family!

Among the designated military laws, the most punishment is the genocide.

There is no reason to say that sometimes, it is merciful to be able to kill only one of you! Once you break the rules, then basically it is the killing! Especially during the War of the Gods!

It can be said that Ye Xuan is now giving Liu a chance to give this young boy a chance.

"Give me the help!"

Ye Xuan seems to be talking to the air.

But along with this sentence, in the blink of an eye, countless figures appeared, and even directly surrounded the Liu family!

Really when Ye Xuan is a light pole commander?

In fact, there is a hundred gods ban, it is to stay with Ye Xuan as a pro!

This is the privilege that every festival will get, and it is the pro-god with the Jingwei Guard, symbolizing the authority of the Lord!

Chapter 2366: Middle Age Fault

The dressing of the Jingwei Guard is not something that people can imitate. The Guard of the Pharaoh symbolizes the authority of 𢆶𢆶, regardless of their strength, that is, what each of them represents is a huge one. power!

And their phenomenon is in the Kunlun domain, no one does not know!

Being a pharaoh guard is not only an honor, but more a symbol of identity and rights!

No one has ever dared to pretend to be a guard of the shrine. After all, it is the Guard of God, the impersonation of the crime, not just as simple as killing and destroying the race!

Moreover, if you want to pretend that you can't do it at all, the Jingwei Guard, everyone, has a unique identity token, and a unique magic weapon suit!

When the one hundred shrine ban appeared, the Liu family had been scared!

These people, not their Liu family can offend, even if any of the Jingwei ban, have the ability to kill their Liu family thousands of times!

What's more, it is one hundred people!

And with the Jingwei Guard as a follower, then Ye Xuan's identity is naturally coming out.

The knot makes!

The nine-party 60,000-thousand-level trusts make this man, even in the Kunlun domain, who has supreme authority, actually appear in this small place.

Liu Jia's young master has been completely scared, constantly squatting on the ground, and the guards around him, and where there is half the resistance, at this point, they can't even decide how they will die, What about other?

Revolt?

With the Liu family in the district, to fight against the festival, this is not a joke.

"The festival makes the adults spare their lives. The villain has no eyes to know Taishan. If you ask for the ball, you will spare the villain! The villain will never dare any more, no longer dare..."

"It's all him, yes, it's him. It's all Liu's second finger to the villain. The little man really doesn't know anything!"

The young man wants to push the crime to Liu, so that he can live.

It is a pity that Liu Lao Er has already been scared to get rid of the urine, and it seems like a mastermind.

Ye Xuan even took the opportunity to meet these people and directly said to a shrine guard: "The things here are handled by you, attacking the festival, defying the military order, presumably you should know how to do it, but I don't want things to go wrong. So you can handle it simply!"

"Yes, adults!"

The Jingu Guard replied.

For these shrine bans, Ye Xuan is actually their backing.

According to the rules specified by 半嫫, once they are assigned to Ye Xuan as a Guardian, then all their official duties will be passed through Ye Xuan, that is, Ye Xuan is their only sergeant.

The management of the Kunlun domain is similar to the system of separation.

For example, Ye Xuan, the festival, Ye Xuan himself is completely obeyed, and has the right to decide anything about Ye Xuan!

However, Ye Xuan's men can defy the command of the blasphemy, because Ye Xuan's men are only obeying Ye Xuan.

Even in the battlefield of the Lord God, every unit of the squad that sent the troops was only obeyed by their temperament, and others were not qualified to intervene.

Of course, the premise is that you have to have this gut to disobey.

But at least, from the rule point of view, Ye Xuan's men will really only obey Ye Xuan.

Therefore, this hundred-jingu ban, in fact, from the distribution to Ye Xuan, whether they are willing or not, they can only be faithful to Ye Xuan.

Even if they use the power of the family to help Ye Xuan, it is normal.

Ye Xuan wouldn't care much about the small shrimp like Liu. He cares about what is going on, and the father of Yongzheng, who really wants to know the first secret situation completely, then I'm afraid I can only find it. The right father is the best choice.

Of course, before this, Ye Xuan still wants to take a look at this first secret, to see what it means to be dead!

According to Yongzheng, there are special beasts in this mystery. However, Ye Xuan does not know these beasts. What special is there.

"You are waiting for me outside, I will go to this first secret."

Ye Xuan turned and directed to the shrine of the shrine.

"The festival makes the adults, let me wait to be with you. After all, there is an infinite crisis in the dead. I am waiting for it. Once I am in danger, I can help the festival to make adults!"

A Jingu Guard station came out and said respectfully to Ye Xuan.

Ye Xuan smiled slightly. He knew that the Jingwei ban was good. However, in fact, Ye Xuan took them, but it was cumbersome. Perhaps it was really dangerous. It is impossible for Ye Xuan to defeat the enemy, but if he wants to escape. But not too difficult.

"No, I know that you are kind, but you should not forget that I am a master of the ban, so once I am in danger, I will naturally quit immediately. If you are with you, you will be in trouble!"

Ye Xuan did not care about it and directly spoke out his own doubts. Fortunately, the guards of the gods know that Ye Xuan is telling the truth, so he will not care about Ye Xuan.

Soon, Ye Xuan went straight into the portal in the middle of the air.

Unlike ordinary transmission arrays, when Ye Xuan walked into the portal, he obviously felt a huge pulling force, and even made Ye Xuan quite uncomfortable!

Moreover, the duration of this pulling force is not short, and it will not stop until the gloom of Ye Xuan's eyes.

This is a very special world.

What is now in front of Ye Xuan is a corridor. However, this corridor is a hundred miles wide, and there are special changes. Behind Ye Xuan, the portal that sent him in is so quiet. Floating there.

Obviously, leaving can only be from here.

Here, Ye Xuan's first feeling is a special law.

"System, I feel a very special rule of law now, this is what I have never felt before. What is going on?"

"Hey, the system prompts, scan detection, data analysis!"

"Oh, the analysis is over!"

"Hey, it's detected that the host is in a special space, in the middle ages of the fault!"

Middle Age Fault, what does this mean?

Ye Xuan had some doubts, so he continued to ask the system: "System, what is the fault in the Middle Ages?"

"Hey, the system reminds that the Middle Ages is equivalent to a special transition time after the end of the ancient times. The duration is only 50,000 years!"

"But because of the wars of the ancient times, the laws of the gods were chaotic. Therefore, the laws of the Middle Ages seemed quite chaotic, and the law of chaos appeared in large numbers!"

The law of chaos?

Although Ye Xuan does not understand the chaotic law, it is not unfamiliar, but now, the chaos law in the system seems to have some differences. Sure enough, when Ye Xuan was puzzled, the system continued.

Chapter 2367: Establishing Zongmen

"Hey, the medieval chaos law is a temporary restoration rule that the natural law was born for the Middle Ages. It cannot be perceived and controlled. The only function of this law is to reconcile and repair other laws!"

"Hey, the system prompts, the host please note that this special space where the host is located belongs to the Middle Ages secret that is being repaired. It will contain some special opportunities, and it is recommended that the host explore it on its own."

Explore on your own?

However, this time, why are there no random tasks?

Every random task can be said to bring Ye Xuan unexpected gains, but Ye Xuan now discovered this special Middle Age area, but did not trigger random tasks, but let Ye Xuan feel uncomfortable.

However, whether or not to issue random tasks, this is not Ye Xuan can decide, so, Ye Xuan can only accept the choice.

The mystery of the Middle Ages, this is the first time Ye Xuan encountered, not to mention, the system also said, if you explore, you will definitely find some special opportunities.

It's a pity that this mystery is not completely open. In fact, Ye Xuan has only advanced for half an hour, and he has already seen the limit!

In front of Ye Xuan, it is a huge black ball. Vaguely, it can see the inside of the black ball from some cracks. It is a floating land. It seems to be a palace in the land. However, The black ball could not pass at all.

Because, it is completely constructed by the law of chaos!

It seems that the law of chaos protects or repairs the world there.

In addition, they are the guards of the beasts around them.

Ye Xuan finally knows why Yongzheng will say that the beast here is unique to the first secret, because the beast here is the law of the chaos!

The law of the beast can be said to be much more difficult to deal with than any other beast.

These beasts are immortal, because he is the breath of the law itself, but in fact, most of the laws are impossible to contain the law.

Only some of them and their special laws will contain the law of the beast!

For example, these special chaotic rules in front of Ye Xuan.

Because these laws are the chaotic laws of the Middle Ages, they have only one task, which is to find possible law loopholes, void cracks, etc., and then swallow it, then slowly digest it in the stomach. Their digestion process is actually the process of repair.

The laws and beasts here are all the magical beasts that are working hard to repair this space!

For a time, Ye Xuan was not willing to move on because he was not willing to bother these laws and beasts who did not know how many years of work.

These rules of the beast, even if I clearly saw Ye Xuan, but because Ye Xuan does not have any law loopholes, so I will not pay attention to Ye Xuan, even Ye Xuan went to their side, they will not look at Ye Xuan.

It can be said that these beasts are already the most lovely beasts that Ye Xuan encountered after entering the realm of the gods.

Unfortunately, the chaos law of the Middle Ages cannot be controlled. Therefore, Ye Xuan's forced engulfment is useless.

Just as Ye Xuan admired these chaotic laws and beasts, suddenly, from the black ball, a **** thought suddenly smashed out, although it was only a short moment, it was captured by the chaotic law, and then quickly dispelled.

However, Ye Xuan felt it!

"Of course, it turned out to be them!"

At this time, Ye Xuan was terrified!

Because, he found a terrible secret, a Ye Xuan himself did not think about it!

Destroy the organization headquarters!

Among the black balls, it turned out to be the headquarters of the organization!

Of course, it is not the headquarters of the current extermination organization, but the headquarters of the extinct organization that provoked the war of the gods in the ancient times.

Even if it is just a piece of debris from the organization's headquarters, it also makes Ye Xuan feel a sense of horror.

What is the existence of the organization, why, everything in the ancient times has disappeared, but the headquarters of the organization has a piece of debris, it is actually hiding here!

No wonder what the genocide wants to know the secret here.

If you let them know the secrets here, then I am afraid they will try their best to enter here.

The Middle Ages chaos law, although Ye Xuan feels that the organization has no ability to break down, but it is not afraid of 10,000, just in case!

It seems that Ye Xuan has no choice at all this time. He must build the Zongmen here! Moreover, it is necessary to use this first secret as a key guardian.

The danger of destroying the organization, Ye Xuan is very clear!

However, Ye Xuan just did not expect that he unexpectedly discovered the headquarters of the annihilation organization that almost destroyed the gods!

Ye Xuan knows clearly that once he blocks this, he will only exchange for an unorganized crazy attack, but Ye Xuan has no choice.

If he didn't find it, it was another matter, but in the midst of it, it seems that there is God's will to dominate this. Ye Xuan found it here, so he couldn't let it go!

"Go, go out!"

Ye Xuan turned directly, and then walked out of this first secret, as Ye Xuan expected, the organization of the organization did arrange eyeliner here. In fact, this first secret organization was only discovered more than a decade ago, and only I noticed a slight anomaly.

They are not as lucky as Ye Xuan, actually feel the explosion of the mind in the black ball!

They just saw the building inside the black ball, so there was some doubt.

If you really let the organization know, this is the headquarters of the ancient extermination organization. I am afraid that it will not only be the destruction of the Kunlun domain, but the destruction of the whole gods will come here!

When Ye Xuan came out, he did not hesitate, and told the system directly: "The system is here, I want to establish a sect in here! Use special decrees!"

Special decrees will enable Ye Xuan to quickly build some special buildings, and the system will be a boutique!

"Hey, the host uses a special decree, is it confirmed?"

"confirm!"

Accompanied by Ye Xuan's orders, the palaces appeared out of thin air. In the sky, the mysterious light fluttered around, and after the light of the roads condensed, the palaces rose from the ground!

Take the position where Ye Xuan stands for the middle line, the sky! Earth!

Everything is happening tremendously!

Even the divine power began to condense quickly towards here!

Even people outside of the thousand realms can clearly feel the abnormal fluctuations of divine power, and countless divine powers have condensed in one direction.

There are strong people who can't help but look in that direction. When they see the guards guarding the surrounding shrine, they don't know where it is. Ye Xuan is building a new palace, which is the palace.

Chapter 2368: Lost news

However, this movement is not too big!

Of course, no one dares to peek.

That is the festival that makes adults build their own palaces, and there, the future is the core of the nine-party and six thousand environments. Who dares to peek at it now? Isn't this a trouble for yourself? If you are curious and let the adults doubt their infidelity, it is not too dead!

Therefore, Ye Xuan's actions, even if countless forces have felt it, but no one dares to go.

In the sky, the colorful light has not been scattered for a long time. Even the law of the road is clearly visible. It can be said that if someone is here to understand the power of the law, then there will be a lot of gains.

Of course, at this time, you may enjoy such treatment, only the one hundred shrine ban.

For Ye Xuan, when he has forced engulfing, he does not need to understand the law at all. What's more, he still has to control the construction of the palace, so he has no idea to manage the other.

But for the Jingwei ban, it is not the same. At this time, the one hundred gods ban, it is really true to Ye Xuan.

They are noble guards of the shrine, but they want to give a guy who has nothing, and say that they have no resentment, it is impossible.

But Ye Xuan showed the strength and special ability again and again, so they had to serve!

The Lord God chooses Ye Xuan as the law of the gods, and the festival of the nine parties is not without reason.

The clear and unparalleled power of law has allowed these palaverns to enjoy unprecedented benefits.

It can be said that even if the qualifications are the worst, it is possible to save the practice time of 10,000 years in this episode. Even these people have almost upgraded their ranks, and the lowest has raised a small realm!

Among the sky, the splendid palaces are constantly forming, occupying a large area, even out of Ye Xuan's expectations, and the most important thing is that this also includes some special sects, of course, because Ye Xuan opens The Zongmen system, therefore, these sects are all classified as Ye Xuan's sect.

"Hey, the system prompts that the refining of the sect is completed, and the Zongmen disciples are randomly configured! Because of the host sacred door system, it is automatically renamed to the refining cabinet!"

"Hey, the system prompts that the construction of the ban is completed, and the Zongmen disciples are randomly configured! Because of the host sacred door system, the automatic name change is forbidden!"

The system's prompts are constantly ringing, and the supporting sects of the sects of the refining cabinets, the banquets, the genius pavilions, the alchemy pavilions, the tamer pavilions, the tributary pavilions, the fascinating temples, etc. continue to appear, and because of the effects of special decrees Even the elders of the disciples are fully equipped.

Of course, these people are all called by Ye Xuan through the system and from the ancient space.

For those who live in the ancient space, it is also a great opportunity to come out, not to mention, because of their speciality, even they can return to the ancient space of the piano at any time, but unfortunately, any person in the ancient space, The biggest wish is to be able to get Ye Xuan's favor and come to the outside world!

At the same time that the attached Zongmen were born, they have been able to play their functions directly. Of course, because Ye Xuan has no resources at present, he can't use it at all.

A total of 999 days!

Ye Xuan completed 999 palaces by condensing a palace at a time.

Do not think that this is very slow, in fact, it is already quite fast, because, in Ye Xuan's sect, even a small pavilion, there are countless prohibitions, the guardian of the array!

And every palace has its own unique field.

Such a sect, it can be said that even if it is called the first door of the Kunlun domain, it is not an exaggeration. Of course, this is just a building, not a disciple!

In addition, there are ninety-nine special secrets for the assessment of the use of disciples at all levels.

However, Ye Xuan's only regret is that now, his disciples can use up to nine. The remaining ninety, his disciples are not enough to enter, let alone these disciples, even Ye Xuan. Not at all!

The Zongmen established by myself did not expect to explore on their own.

Of course, at first thought, this is the system established, Ye Xuan has no temper!

"Hey, the system prompts that the host has been established, please host the name!"

Finally finished, nine hundred ninety-nine days!

A total of 999 days!

"Just called Ye Zong!"

Ye Xuan also does not want to get such a complicated name, directly called Ye Zong, simple and clear!

"Hey, the system prompts that the owner's own Ye Zong is established!"

"Hey, the system prompts, in view of the host re-establishment of the sect, start random rewards!"

"Hey, random reward one, among the gods, there will be 990,000 rumor secrets about Ye Zong. These secret treasures, the host has no right to acquire, will become a means of propagating the host sect, the secret treasure level is randomly generated. !"

"Hey, random reward two, will be in the Kunlun domain, randomly generating ninety-nine Ye Zong secrets, these secret host hosts have no right to own, will become a means of propagating the host sect, the secret level and the treasures contained therein are randomly generated!"

"Oh, the random rewards three will be distributed among the ninety-six thousand of the nine parties. They will randomly send out 999 teams to issue Ye Zong's rewards. With the rules of the host and the ambassadors and the identity of the sects of the sects, they will be randomly deprived. Hundred and ninety-nine people or forces, the reward does not need to consume any resources of the host!"

Hearing the system's series of rewards, Ye Xuan was first dumbfounded, so many benefits, even sent away!

If this is all for yourself, how good!

However, Ye Xuan also understands the meaning of the system. The system is to build Ye Xuan and Ye Zong into a super existence. I am afraid that through these three rewards, any force will never dare to despise Ye Xuan. !

Shortly after Ye Xuan began to establish Zongmen, Li Qing came back to his life. However, Ye Xuan did not have the mood to manage so much at that time. He directly let Li Qing take the people he gathered.

Then Kun did not speak, flying smoke and other people have also come.

For these people, Ye Xuan is not stingy, let them stay in the surroundings and guard with the shrine, and understand the law!

Now, when Ye Zong is established, it is also a festival to make the palace. Therefore, on the second day of the completion of the establishment of Zongmen, Ye Xuan had to convene his first festival to make the dynasty!

However, what Ye Xuan never imagined was that he heard a very bad news for the first meeting.

The army he sent was defeated in the first battle!

The one billion true gods led by a thousand gods, even the first time out of the station, they lost nearly 90 million soldiers, and fallen thirty-two gods and powerful!

Even, let the nine parties and 60,000 become the jokes of the entire Kunlun domain!

Li Qing, who is the commander of the whole army, was injured. In Li Qing's secret report, Ye Xuan knew the cause of the war's failure. The forces of the nine parties and the 60,000 forces were unwilling to contribute. The fact that they sent out was really the billionth inferior god. The soldiers, and a thousand inferior gods!

This is simply the manpower sent on the lowest line. How can such a force count on Li Qing to defeat the enemy!

Chapter 2369: Self-exposed identity

However, even if Ye Xuan knows this, how can he still punish him?

After all, these forces are dispatched according to regulations.

Moreover, Ye Xuan is also impossible to force them to send people!

Before holding the festival to make the dynasty, Ye Xuan first found Kun and other people. After all, Ye Xuan is now able to trust people, really few.

As for the patriarchs of the big forces, the patriarchs, Ye Xuan is very clear. On the surface these people obey themselves, but how much they know about themselves is simply an unknown!

Perhaps, Ye Xuan can only count on the force system.

Since Ye Xuan got the force system, he has been accumulating people. Although the number of people who can be exchanged from the swallow space is limited, after all, at least in the early stage, he can provide great support to Ye Xuan.

At this time, Ye Xuan has been able to summon a thousand people who are superior to the gods.

It can be said that this is also a relatively strong strength, but placed in the battlefield of the Lord God, but it really does not play much role.

The use of belief values to change the soldiers, although it can solve the urgent need, but Ye Xuan will not do this. First of all, he does not have much belief value now, and the value of the beliefs needed to exchange the soldiers will be a huge number!

In the tone of the exchange of soldiers, it is better to retain the upgraded force system.

So how do you solve the current dilemma?

Kun did not read Ye Xuan, but his heart was quite a taste. He always thought that he was a genius. However, compared with Ye Xuan, he found that it was so powerless.

The speed of Ye Xuan's realm is beyond the imagination of Kun's language. It can be said that there is no way to compare Kun's words!

Now, Ye Xuan's identity is countless times more than that of his own. This is simply from all aspects, and there is no comparable in all.

But I don't want to, Ye Xuan actually still is a friend.

"That's the way it is. I am very big now, the defeat of the main **** battlefield, but I don't know how to deal with it."

Ye Xuan briefly introduced the situation to Kun and the smoke. Although Ye Xuan does not expect them to help, at least, one can think more about countermeasures.

But when he finished speaking, he heard the flying smoke answer: "Did the son forget your other identity?"

Ye Xuan frowned slightly: "Another identity? What are you talking about?"

Feiyan smiled and said directly to Ye Xuan: "Why does the son think that the little girl will always follow the son?"

For a time, Ye Xuan couldn't answer it at all. Think about it carefully. Although at the beginning, Feifei was indeed a slave bought by Ye Xuan, but how can he just think that this is the right way to fly smoke? Xuan never gives up!

Even the flying smoke became the slave of Ye Xuan, and all the flying cigarettes were arranged!

Or is it because Ye Xuan devours the flying feathers of the space?

Of course, this is not impossible, but if it is for flying feathers, there is no need to achieve this level of flying smoke.

Thinking of flying feathers, Ye Xuan suddenly thought of another identity of Fei Yu!

In fact, Fei Yu is not the master of Ye Xuan, he also inherits the inheritance of the Emperor, but it is inexplicable fall! Is it because of this reason?

Suddenly, Ye Xuan looked at the flying smoke.

"It seems that the son wants to understand, yes, the little girl is also an ancient survivor!"

Wherein I have a little more about the genus, I have a look at it.

Flying smoke, turned out to be the **** of the inheritance of the race!

This is almost out of Ye Xuan's imagination. It can be said that all this is already something that Ye Xuan can hardly imagine. The flying smoke turned out to be an ancient survivor!

So, for such a long time, Ye Xuanzhen is not being kept in the dark?

Ye Xuan brows wrinkled.

However, Feiyan continued to explain: "The son does not have to be angry first. In fact, strictly speaking, I am not an ancient survivor. It was only for some reason that I joined the ancient survivors. Moreover, the little girl is not close to the son. Malicious."

Yes, you are not malicious. After all, you are a survivor of the ancients, how can you be malicious to yourself.

However, this feeling of being cheated makes Ye Xuan really uncomfortable.

"Gongzi, please listen to the little girl. When the young woman discovers the son, she knows that the son may have fallen into a certain crisis. In fact, this Kunlun domain is not as perfect as the son's imagination. It can be said that the ancient gods passed down. Any force will be secretly removed from this Kunlun domain!"

"The little woman once secretly investigated that it is not the Lord of God who does all this, but another person, but that person seems to have the energy beyond the Lord of God in the Kunlun domain, as if it is a huge behind-the-scenes black hand! "

"Since the young woman discovered the son, she knew that the son seemed to have been stared by the mysterious power, so this would hide her identity and come to the son. In fact, if it was not for this time, the little girl would never disclose it. Your own identity!"

The tone of the flying smoke is very dull, as if it is just telling a story!

However, Ye Xuan is more shocked.

If you fly a cigarette, let Ye Xuan think of his own doubts!

At the beginning, the mysterious old man suddenly brought Ye Xuan to this Kunlun domain, so that Ye Xuan could not continue to explore the inheritance of the ancient gods. This has already caused Ye Xuan's suspicion.

However, I have always been good at Ye Xuan, and there is nothing worthy of doubts about what happened afterwards, so Ye Xuan also relaxed.

But now I can hear the flying smoke. Ye Xuan discovered that perhaps it was his intention. Ye Xuan's guess at first was not wrong at all. He would appear here, not by chance, but by someone. Let him not be exposed to the inheritance of the ancient gods!

As for the reason, Ye Xuan does not know, he is not even sure, is it really the old man!

After all, if it is the old man, why is the apprentice of the old man, but he cares for Ye Xuan.

It can be said that the status that Ye Xuan now gets, even if it is the inheritance of the ancient Emperor, is not too much.

Moreover, Ye Xuan's status can continue to improve!

If it is the old man, then why do you do this?

Can it be said that the old man and the old man are not a group?

However, the two of them are mentoring relations after all!

In short, all this is full of doubts, and let Ye Xuan simply do not know what to do!

Suddenly, Ye Xuan gave a slight glimpse, because he found that when he flew to talk to him, he used some secret technique.

Ye Xuan looked at the flying smoke.

The flying smoke nodded silently, and the sound of flying smoke rang again.

Chapter 2370: Internal affairs plan

"There may be a lot of doubts about the son, but the little girl can't help the son. The little girl can tell the son, only let the son himself be careful."

"However, the Lord God gave the son a chance, then, please ask the son to seize the opportunity! The inheritance of the ancient gods is far less simple than the imagination of the son."

"The little girl hopes that the son can quickly accumulate his strength before he can still be vigilant without any influence. In the future, there is still a long way to wait for the son to go!"

"Now, the little girl is willing to go back to the Taoist once and call on the people to come and work for the son."

"The son can rest assured that my family is not in the surveillance of the enemy, the enemy, or even the family is not the ancient remains!"

Flying smoke is finished, maybe she wants to tell Ye Xuan for a long time, but she has never found a suitable opportunity.

But this time, obviously, she can only expose herself. After all, Ye Xuan is already in trouble.

Ye Xuan hesitated for a long time, and this said: "Okay, I believe in you!"

In fact, now, Ye Xuan has no more people to believe. From the beginning of the Kunlun domain, the flying smoke has been with Ye Xuan. If it is said that the flying smoke is not enough, then Ye Xuan is really not a credible person. .

Perhaps, the flying smoke really concealed Ye Xuan, but, then, how, the flying smoke did not make any bad things to Ye Xuan.

In fact, it has always been loyal.

Moreover, from the flying smoke using the voice secret technique to say these words to Ye Xuan, it can also be seen that the flying smoke is obviously tabooing. If Ye Xuan is still arrogant, then Ye Xuan is too stingy. !

With the consent of Ye Xuan, the flying smoke directly got up and walked outside, ready to return to his family to move to save the troops for Ye Xuan.

At this time, Kun did not speak to Ye Xuan's side.

Ye Xuan asked Kun, but he said, "How are you, do you have any good suggestions?"

Kun did not understand what Ye Xuan was asking, thought a little, and then said to Ye Xuan: "In the current situation, you can have two choices. First, forcibly release the conscription order. After all, you are the nine parties. The 60,000-day festival makes it possible to directly issue indicators. I believe that no one dares to refuse!"

"Second, it is through these people who I brought back. According to your instructions, this time, I brought back more than 600 Kunlun practitioners who belonged to our 90s and 60,000. And many of them have family. With good strength, if you can give them an official position, I believe that their family will be willing to help you!"

Ye Xuan nodded. For Kun, he understood very well. Is this mandatory to enforce his power?

This method may be the easiest, but it is easy to offend people. Don't look at him as a festival, but after all, Ye Xuan still needs to rely on those big families. Once he is too much, it is harder for him to make this festival more difficult. do!

It is actually a matter of offending people to give these people an official position. The current festival of Ye Xuan has just established the palace. It really needs a large number of officials to supplement it so that it can function normally.

However, the need to supplement does not necessarily mean that this method must be used.

Suddenly, Ye Xuan's mind flashed in the air, and then said to Kun, "You said, if I use the official position directly as a lure, let everyone contribute, is it possible?"

"I have linked all official positions directly to military work. As long as they can get enough military power, then they will be rewarded for their corresponding official positions. You think this method is not feasible!"

Kun did not speak a little, and Ye Xuan's approach was very novel.

After all, in the Kunlun domain, the official positions under each of the festivals are basically rare for hundreds of thousands of years, and apart from Ye Xuan, in other places, which section makes the order, Not getting support from the whole world?

During each major war, there is no need for this festival to do anything. The forces will send their elites into the battlefield. After all, they and the festivals are already a glory and a total loss.

"Well, this method that you said is indeed feasible, but if you want to create a complete military system, it seems that this can't be done. After all, there are too many variables in the battlefield of the Lord God, how can it be possible to build a complete military service? The system, at least, as far as I know, there is no single force that can do this. Moreover, there is no way to count military power!"

Is it? What others can't do does not mean that he can't do it!

Because, Ye Xuan has a systematic existence, because Ye Xuan himself is a forbidden and divine master!

"Since this method works, then I know how to do it!"

I did not expect that the problem that leaves Ye Xuan sorrow for a long time will be solved directly in such an instant.

"System, I need to build a complete system of rewards and punishments for the main **** battlefield. At the same time, you need to refine a set of appropriate supervision weapons. Can you do that?"

"Hey, the system prompts that this calculation is too large and needs to consume a lot of belief values. Will the host confirm it?"

"confirm!"

Isn't it the value of belief? Ye Xuan gave it back. In fact, Ye Xuan also understands why the data is huge and huge. After all, in the battlefield of the gods, it is a battle of 100 million units, but every soldier. It is not a simple matter to directly supervise the military power of every general!

This is why other festivals can't be done at all!

But Ye Xuan can do it, because Ye Xuan has his own card!

"Hey, the system prompts, the solution is generated successfully!"

"Hey, the system suggests that for the military power program, the host needs a lot of resources to make military power rings!"

The military power ring automatically records the wearer's combat situation and gives a special ring for comprehensive evaluation. The ring is divided into nine categories, the first is the lowest record ring, and the second regular time is used to count the first military strength. And supervise higher levels of combat, and so on!

The ninth military power ring, only one, is automatically integrated with the host's Qiankun ring. As long as the host personnel meet the military requirements, they will be automatically appointed by the system!

.....

It's that simple!

There is a system in which the other festivals make the military system incompetent and powerless. In Ye Xuan, it is just such a simple matter.

Of course, under this, Ye Xuan has to bleed again. After all, this refining system is a military power ring with a unit of 100 million yuan!

Such a huge amount, even if the materials used are not very advanced, but it is also a huge expense!

Ye Xuan directly put all the resources brought back by the flying smoke into it, and Ye Zong's face cabinet was fully activated, and one ring was directly and quickly manufactured.
