

Super D. S 2371

Chapter 2371: Main god

At the same time, Ye Xuan also summoned the 1,000 soldiers in the military sub-system to wait for the soldiers of the kingdom, dispatched them to various forces to distribute this military power ring, and announced Ye Xuan's military system!

The Jiufang 60,000 environment has created a complete military system!

For a time, the things that Ye Xuan made were directly and quickly promoted throughout the Kunlun domain.

Many people are skeptical about this, especially those who are also the same.

In their eyes, Ye Xuan's current behavior is like a fool!

They are the festivals, and naturally they know how easy it is to get a military system.

Therefore, at this time, more people are watching the jokes and looking at the military system that Ye Xuan has come out!

However, the various forces of the nine parties and 60,000 will not think so. After all, for them, this is undoubtedly an opportunity. No matter what military system that Ye Xuan has come out can be successful, they are willing to go. Give it a try.

After all, military military exchanges for official positions, what official positions, and what kind of military skills are required, are clear and clear standards.

What is the most valuable thing in the Kunlun domain?

Of course, it is an official position!

Because of the blasphemy, the official position in the Kunlun gods has always been relatively rare, and even dozens of people do not necessarily have an official position in the body!

In the eyes of the nine-party and six thousand people, they are unwilling to accept Ye Xuan's main reason, including the official title. In their hearts, Ye Xuan has made a degree, so there is no relationship with Ye Xuan. How can they get a reward, so they are not willing to sell for Ye Xuan.

What's more, some big forces even expect this Ye Xuan to be condemned, so that they don't have the chance to become a festival!

However, when Ye Xuan's decree on the exchange of military functions is official, the wishful thinking of these people will be lost.

The official position is fixed. Even if Ye Xuan is a festival, but the number of official positions that can be granted by the Kunlun domain is always fixed. If you don't want to get it, others will naturally fight for it. So, they can't let them not fight for it. !

On the tenth day after the military power system notified the various forces, Ye Xuan once again issued an order to recruit soldiers.

This time, Ye Xuan directly recruited 500 million true gods, two thousand gods above the generals, because Ye Xuan also knows that his degree makes the position, and the main **** battlefield is closely related, so he needs to provide powerful power to the main **** battlefield Support!

What Ye Xuan did not think is that this time, each force really took out the strength of the bottom of the box!

This time, the 500 million true deities of the gods, even the direct minimum is the nine true middle of the real world!

Among the two thousand generals, there is a super strong person in the gods!

God respects the land, even if you look at the entire Kunlun domain, God respects the environment, it is super existence, but this time recruited, Ye Xuan recruited such a person!

Of course, Ye Xuan is very clear about what they are for.

However, Ye Xuan will not care, anyway, his military system is very perfect, then, there is no need to worry about anything.

Soon, these people were sent to the battlefield of the Lord God.

It can be said that Ye Xuan is the first festival to send reinforcements to the battlefield of the Lord God. However, the support he dispatched is so powerful!

After solving the support problem, Ye Xuan was relieved, but did not expect that even if he did not give Ye Xuan a break, the order of the embarrassing arrived!

The main **** is down!

Yes, this is what Ye Xuan once promised. I didn't expect that even if Ye Xuan became a festival now, he would still let him go to the main god!

Ye Xuan has no right to refuse. First of all, this is what he promised. Besides, the authority of Yu, it is not allowed to refuse!

Fortunately, even if the departure of Ye Xuan, the nine parties will be able to operate normally, and Ye Zong is already on the right track, so Ye Xuan can rest assured.

On this day, in the main palace of God, as many as 10,000 geniuses of the Kunlun gods gathered.

These people are the ones who are ready to participate in the fall of God!

From the bottom of a product to the kingdom of the king, to the nine kings and other kings of the kingdom, people of all realms have.

Because the main **** is down, it is actually a genius war, a genius battle between two gods.

This time, their opponents are the demon gods, that is to say, this time the main **** collapses, the probability of death and its high.

Everyone knows this, but no one doubts their strength. They are the strongest geniuses of the Kunlun domain!

They all have full confidence in themselves.

I just looked at these people with a casual look, and there is no encouragement. Anyway, for these geniuses, there is no need for any encouragement!

Although I don't know what this time, the two gods are fighting for anything, but all the geniuses are not qualified to ask so much.

Originally, Ye Xuan thought that he would tell him what he was, but unfortunately, it seems that the current energy is already in the battlefield of the Lord God, so even the call of Ye Xuan is not.

Instead, I ran to find Ye Xuan and gave Ye Xuan a few magic weapons.

Ye Xuan did not refuse, but he did not care much. For Ye Xuan, these magic weapons may not be used at all.

This time, the main god's battle against Taiwan did not know whether it was a deliberate change of the rules, or whether it was such a setting.

This time, the battle against Taiwan will be carried out on a product basis.

In other words, Ye Xuan, a product waiting for the king of the gods, facing the opponent, will also be a product waiting for the **** king.

Of course, it is the genius among the gods.

Ye Xuan can expect that there will be people with the title of the former title in the enemy, but now, he has no time to practice the title of the former title, perhaps, can only be achieved in the battle!

Soon, these geniuses were sent to the battlefield of the Lord God!

Ye Xuan did not come to the battlefield of the Lord God for the first time, but the battlefield of the Lord God in battle was the first time to come, although they did not go to the front because they were going to participate in the collapse of the Lord God.

But the intense killing that filled the battlefield of the Lord God has already let Ye Xuan know the cruelty of the battlefield of the Lord God.

There is no ritual at all in the battle against Taiwan. When both sides are in place, they will start directly!

A total of fifty-four downfalls, one product waits for the beginning of the kingdom, until the nine kings and other kings, each product has its own exclusive collapse.

The final number of cadres in these 540s and 40s is the final result of this round of war.

The rules are also very simple, that is, the elimination system, each person playing one game with the opponent, the winner, alive to leave, preparing for the next round of battle, failure, the result is self-evident.

In Ye Xuan's one-of-a-kind king, the two sides each have one hundred and eighty-five people!

Chapter 2372: Coercion!

Among them, one person belongs to the team, does not participate in the battle, only responsible for scheduling, of course, the other side has another ten strong, is the responsible referee.

Without exception, all the people who lead the team are guarded by the Jingu.

Just let Ye Xuan did not think that Ye Xuan's side of the team, actually turned out to follow Ye Xuan to defeat the demon invasion!

At this point, the man smiled and nodded to Ye Xuan, but did not say anything.

Unexpectedly, Ye Xuan led him a while ago, but now he is leading Ye Xuan.

There is no opening ceremony.

When the top ten strong men stood above the void, it also represented the official start of the battle.

"You, the first one!"

Ye Xuan's leader, pointing to one person.

"The first one actually sent Mu Chen!"

Someone snorted, but immediately closed his mouth. This is not a place to talk casually.

"System, detect the strength of the two!"

Ye Xuan will not ask more questions, but he can know the strength of the two through the system.

"Hey, specify the target, Mu Chen, Wang Yi, and other gods!"

"Hey, specify the goal, get rid of it, and the king will wait for the king of the king!"

Unexpectedly, the two people are actually the people who have the title of the former crown of the king. This war is afraid to be worth seeing.

"The Terran Kid, report to the name, I am a gentleman, do not kill the unknown!"

The names of the demon gods are obviously different from those of the Kunlun gods. The names of these mouthfuls, I am afraid, only the people of the demon gods know what it means.

At this time, the demon of the demon **** domain was proud to say to Mu Chen.

Unfortunately, Mu Chen did not care what he meant!

I saw Mu Chen waving a hand, and beside him, there were dozens of swords. These swords were surrounded by Mu Chen and flew up and down. This Mu Chen actually mastered the law of kendo!

The kendo law is also a relatively common rule. This law can only be used for the Excalibur. It can effectively increase the attack and defense ability of the Excalibur magic weapon, and has some special functions.

Of course, every person who practices the laws of kendo says that the special abilities they possess will be different.

Ye Xuan is going to have a look, this Mu Chen, what kind of special kendo law!

"Hey!"

Suddenly, an Excalibur suddenly flew out, obviously just a sword flying out, but in an instant, the sky is full of swords!

What is it?

A conventional kendo rule uses the means, it is not unusual!

The strange and disdainful grin, and he waved his hand, and immediately appeared in the sky, the illusion of the gods, these virtual shadows, no matter how much, directly hit the sword shadow.

"Boom! Boom! Boom!"

Continuous explosions.

It is a pity that no one will care about this kind of engagement.

Suddenly, the tens of thousands of swords that are exploding suddenly split into countless!

Each sword shadow is actually divided into five sword shadows at the same time!

The five different colors, which are represented, are the intangible properties of Jinmu Shuihuo!

The six rules are in control!

This Mu Chen, actually mastered the six rules!

Moreover, it also includes a set of attribute rules!

Ye Xuan is slightly moving and can control the power of the six laws. This Mu Chen can be called a genius!

After the differentiation of the swords and shadows, they immediately took the invisible property as the traction, and the powerful power of the explosion broke out. It actually resisted the attacks of the sacred shadows of the beasts, and even after killing the shadows of the beasts, they did not suffer any loss!

You must know that now Mu Chen has released a sword, and there are so many changes. It can be said that this is enough to make people look.

If this is not the downfall of the Lord God, I am afraid that it will be the performance of Mu Chen, and I will definitely be able to exchange countless cheers.

However, here, Mu Chen's performance can only be described as general.

"Well, it is actually the six-line rule, it seems that I have to use some strength!"

The mouth of the stranger slightly tilted, and his hand suddenly shone a light.

That light is actually composed of countless mythical ghosts!

What is this means?

Those sacred ghosts, obviously condensed into a standard military array!

It's hard to make it happen. This is what it's like to summon the beast that has been trained into the army!

The most important thing is that those beasts can actually do the perfect match.

For a time, all the beasts and the sacred shadows fought together again.

Mu Chen waited for a moment, and saw his own sacred shadow could not take the upper hand. Then, with a wave, it was another sword flying out!

After the sword was flying out, it immediately turned into a long dragon and went straight to the dark beast army!

"boom!"

Changlong directly smashed the army array!

You know, the dragon, but it is made up of countless swords and shadows!

Those sacred shadows, each with a powerful attack!

"Yes, good, Terran, you are a bit of strength, then let you see my own magical powers!"

Homemade supernatural powers!

This time, even Ye Xuan can't calm down. You know, the creation of supernatural powers is not as simple as a sentence. The current supernatural powers are basically inherited from the ancient times, and even if you can create your own magical powers, you can say that Only people of the same level may be able to do it!

Let's not say what the power is, even if you can create your own magical powers, you have already proved this person's genius!

In fact, even if you are even Ye Xuan, you can't make your own magical power!

Because Ye Xuan's supernatural powers come from the system!

In the twinkling of an eye, even those who are the referees will look at it!

Accompanied by the whispering words, I saw him with a faint glow, and the light seemed to have no threat, but it gave an unimaginable pressure.

Moreover, this pressure is getting stronger and stronger, and more and more powerful. After a while, this pressure is actually surrounded by Mu Chen directly as the essence!

Taking the pressure as a means of attack, it is not a rare thing, but the action of this person shocked everyone!

"The pressure is blew!"

boom!

A loud noise, Mu Chen directly bombed the seven bleeds!

"The pressure is a sword!"

In an instant, the powerful pressure has condensed into a sword, constantly running through Mu Chen's body!

After a while, Mu Chen fell quite straight, and there was no wound!

Everyone is very surprised, and some people are even shocked.

Even Ye Xuan is a bit confused at this time.

The pressure can actually blew itself? And it can be turned into a sword!

How is this going?

Not to mention that I have seen it, and almost everyone has never heard of such a means!

What is the pressure? That is just an imposing manner. It can be said that if this thing is to meet someone who is stronger than himself, it is even useless.

Chapter 2373: Redemption

But it is such a vain pressure that someone can turn him into a substantial attack, and he can control it at will.

This time, even in the collapse of this main god, everyone has been talking about it. Obviously, the shock caused by the mob, even if the main **** collapses, it is difficult to suppress the curiosity of everyone!

"The demon **** domain wins!"

The strong man of a demon **** domain directly announced the result.

Mu Chen's body was brought back.

That mob was very casual and walked down the platform, as if it was simply doing a trivial little thing!

The first battle, just the first battle, has already let Ye Xuan see the cruelty of this main god.

And that Mu Chen is not a nameless generation! From the whisper of someone just now, I have been able to let Ye Xuan know that this Mu Chen is afraid to be a famous genius among the Kunlun gods!

I did not expect that it would be so easy to lose!

As a last resort, Ye Xuan has begun to consider his own strength.

Eternal points can give Ye Xuan a chance to win, because the eternal field can definitely let Ye Xuan crush any opponent.

But after all, the battle is not only once, Ye Xuan must also consider the regular strength!

Now it is still unreasonable to upgrade the realm. After all, Ye Xuan represents the next king of the world. If Ye Xuan now devours the realm of resource enhancement, it will only be eliminated.

In the collapse of the Lord God, it is not allowed to hide the repair, or it is a temporary breakthrough.

So like, Ye Xuan can do anything.

Magical? Indeed, Ye Xuan now needs an effective magical power!

"System, I want to redeem Shentong, exchange resources and belief values, list me, the strongest power I can redeem now!"

The system can be exchanged for things, but before Ye Xuan has not used it. First of all, the exchange is too uneconomical. Secondly, the previous Ye Xuan did not have so many resources.

But now it is different. Ye Xuan has accumulated a lot of resources from the swallowing space, and there are also belief values that can be used for redemption!

"Hey, according to the resources and belief values currently owned by the host, the system automatically selects three supernatural powers that the host can exchange for!"

What is the limit exchange, that is, Ye Xuan empties all resources and belief values, can exchange the magical power!

Three choices, not bad.

"Well, I have to see what it is!"

Ye Xuan does not hesitate to check directly.

"Hey, choose one, infinite crit, this supernatural power is to assist the supernatural power. Once it is turned on, any attack will have the ability to have unlimited crit, and the crit multiple has no upper limit! However, the larger the crit multiple, the smaller the chance."

Ye Xuan shook his head, this magical power, seems to have no use for him, to know Ye Xuan's attack, this has a hit and kill effect, although the chance is small, but it also exists after all, not to mention this wireless crit also How much difference!

"Hey, choose two, absolutely zero! Once this supernatural power is used, it can create an absolute frozen field with a radius of a hundred miles. In this field, even time can be frozen!"

Absolute zero, it seems to be pretty good, but Ye Xuan did not choose immediately. The reason is very simple, because the scope of this magical power is too small, a hundred miles away, so the range is afraid that the enemy can flash at random. It's hard to be done. Before Ye Xuan casts this magical power, he must first discuss with the enemy and let the enemy not move.

Therefore, this supernatural power can only give up first.

"Hey, choose three, no magic! No magic, you can link yourself and the enemy with a special soul chain. After that, any damage suffered by both sides will be equally divided between the two sides."

This, what is this supernatural power?

Ye Xuan's eyes are a little bit responsive, but he quickly understands it. It seems to be a person who has a quicker recovery ability and who can resist it for a longer time!

The two are linked together and the damage is evenly divided. Even if the enemy can kill Ye Xuan, it can't be done at all, because the damage will be split directly into the enemy.

At that time, it depends on who can recover first. The key is that this magical power is controlled by Ye Xuan. Therefore, Ye Xuan can choose blessing or cancellation in a timely and effective manner.

.....

Good rogue magical!

It can be said that this is the most rogue magical power that Ye Xuan has ever seen. This magical power is used to yin people, especially those who are stronger than themselves. It is indeed a good choice.

At one time, Ye Xuan was somewhat difficult to choose.

He did not think that the three choices the system gave him would be such three wonderful things.

Absolute zero power is powerful, but the range is too small.

Infinite crit can be ignored directly.

And this incomprehensible, but a double-sided blade.

Ye Xuan how to choose?

Or, give up these three choices and re-elect?

But after Ye Xuan hesitated, he finally chose the absolute zero!

Don't forget Ye Xuan's spiritual control and six-character mantra, or even auxiliary means such as prohibition and rune!

Although the absolute zero point is small, but his power is big enough, and Ye Xuan, there are many ways to let the enemy react when Ye Xuan shows absolutely zero.

"System, I choose absolute zero magic!"

"Hey, the host exchanges absolutely zero magical power, and all the faith values, all resources, all empty!"

The belief value and resources that have been stored for so long are actually emptied!

If this time, Ye Xuan can't recover the cost, fearing it will be a big loss!

However, after Ye Xuan got the absolute zero point, after reading the specific introduction, it was a slight relief to retrieve it. The absolute zero point can be upgraded. After the upgrade, the attack range can be even bigger!

At least, this is indeed a good time to give Ye Xuan a little comfort.

Just as Ye Xuan exchanged for magical powers, another battle was over.

At this time, the leader finally pointed to Ye Xuan, this time, will be played by Ye Xuan!

Ye Xuan did not hesitate and flew directly. Soon, the opponents of the demon gods have already rushed over.

"System, detect each other's strength!"

"Hey, the system prompts, specifies the target, and will level the next level of the king!"

Will you name the front crown?

Ye Xuan's six-character mantra can be said to be a life-and-death. However, it can only be aimed at the lower realm than him. He has the title of the former crown. Strictly speaking, it is already higher than that of Ye Xuan. Therefore, the six-word mantra Dead words are simply not valid for the other party.

Otherwise, Ye Xuan will consider so much, directly a six-character mantra, whoever is opposite him, can be killed!

Unfortunately, although the six-word mantra is powerful, there are also many restrictions!

"The Terran, come on the name!"

The guy in the demon **** domain actually played this set with Ye Xuan.

It is a pity that Ye Xuan is not prepared to pay attention to his meaning. A district title will be crowned, and Ye Xuan will not be in the eye!

Chapter 2374: Absolute zero

"Six words are true, hurt!"

Ye Xuan was too lazy to talk nonsense with this guy and started the attack directly!

When the word is broken, even if the person has the title of the former crown, it is slightly shocked.

"Megatron, the magic weapon form, out!"

Two scorpion swords are directly dispatched.

"Thousand beast swordsman, flower **** sword waiter, give me a punch!"

"Thousand beast feast, open!"

"The rule of God bow!"

At the first shot, Ye Xuan did not keep his hands and was fully open.

The genius of the demon **** domain, at this time even by the attack of Ye Xuan made quite a mess.

At the beginning, he also thought that Ye Xuan was just a soft persimmon, and he could bully it casually. But when he played against it, he knew that Ye Xuan was not the one he could easily deal with.

Just now, Ye Xuan's finger pointed out that he would let his blood rush. If he didn't suppress it in time, he was afraid that it had been hit hard!

The power of one finger is so powerful, this is how he is not shocked!

Of course, what he doesn't know is that Ye Xuan's one finger is actually a six-word mantra!

It is also that he has the title of the former title, otherwise, fear that it has been hit hard now, I can suppress it!

A move was suppressed, this person can only be suppressed by Ye Xuan, because this battle, Ye Xuan must win!

At this time, Ye Xuan's resources and emptying, even the refining of the gods and prohibitions can not be done.

Therefore, Ye Xuan must take this person down and take his ring.

"The law is the arrow! The arrow that devours the law!"

An arrow burst out, and a void vortex with great phagocytosis instantly appeared, pulling the man toward the vortex.

Although it is not possible to really drag the person into the vortex.

But Ye Xuan is not prepared to say that he can swallow him!

For a moment, Ye Xuan was again with two arrows.

The same is the arrow of the law of engulfing.

These three thousand cleverly confine the enemy, and what Ye Xuan wants is this effect. He just wants to fix the enemy.

In fact, try the power of absolute zero!

Ye Xuan mouth gently tilted, directly launched his new magic.

"Absolute zero!"

For a moment, the mysterious power directly wrapped the man in the package, and it was all within a hundred miles. Everything was forbidden. Ye Xuan, temporarily frozen everything there.

"Go to Megatron, kill him!"

Accompanied by Ye Xuan's orders, the two sacred swords rushed directly toward the demon-god who had already been frozen.

Killed directly between the moments, at the same time, brought back the person's ring!

.....

From the beginning to the end, how long it took, Ye Xuan has already killed the enemy!

That kind of cloud-like attack is just like rehearsing countless things.

And this time to kill the enemy is actually as fast as a spike.

Perhaps Ye Xuan's attack is not powerful, and it's not enough to shock people, because there are not so many bells and whistles.

However, the general killing of this cloud is still one of the many people.

However, people have seen too many classic battles. After all, this is the battlefield of genius.

Therefore, Ye Xuan's actions did not cause too much sensation.

Only the stranger, looked up and looked at Ye Xuan for a moment.

Perhaps the mob is to discover the secret at the last moment.

Although Ye Xuan's opponent is only frozen for a moment, many people can see that Ye Xuan's opponent is not an attack that has not had time to evade the sword, but there is no way to dodge, or even no way. Make effective actions.

The first round of combat was completed very quickly.

However, Kunlun's domain has suffered a small loss.

One hundred and eighty-four battles, the Kunlun Divine side, but failed a hundred!

There is only one result of failure, and that is death!

So at this moment, there are only eighty-four people in the Kunlun domain, and there are one hundred enemies!

Then, at the beginning of the second round, on the Kunlun domain, there will be people who need to fight two games!

This is the collapse of the Lord God.

Genius, it seems so worthless here, even in the powerful genius, it will fall!

Moreover, the battle will only become more and more cruel, but no one can know the final result until the last battle.

The true genius, in fact, the role is very large, for example, in the beginning of this second round, it is necessary to rely on those real genius to make up for the loss of the first round!

In the second round, eighty-four Kunlun gods geniuses need to stand out for a hundred games. It is to let the advantage come back, or to continue to expand the disadvantages, only to watch those real genius battles.

Of course, I am afraid that anyone here will feel that he is a true genius!

Fighting, less than the last person, will never end, everyone knows that the death rate of this main **** is extremely high, but no one thinks that it is equal to 100% mortality!

Failure is death!

Unless one party can kill the other party.

Hardly said that it is able to leave the ring alive.

After all, there is a chance in the ring to kill the enemy without killing it. Once the enemy returns, after the cultivation is completed, it will be put into the battlefield. At that time, more people will die!

Indifference and cruelty are the main melody of the fall of the Lord God!

At the beginning of the second round, it was obvious that the opponent's mob obviously wanted to challenge Ye Xuan, although Ye Xuan did not know why the guy stared at himself.

However, Ye Xuan's team leader, but will not easily let Ye Xuan face the stranger, when the stranger played, Ming Yi to challenge Ye Xuan, the team leader has also sent another person!

A person who has only a predecessor title, but has a special supernatural power.

It can be said that this is simply sending the person to death.

Ye Xuan does not understand why the leader is going to do that, maybe it is just a strategy, maybe it is what he has said.

In short, the team leader changed the person directly to the challenge of the stranger!

Ye Xuan said nothing, after all, for the overall victory, sometimes, sacrifice can not be avoided!

"This game, you are on!"

After the opponent easily solved his opponent, the team leader assigned Ye Xuan to play.

"Hey, the system prompts, the target is specified, the king level is under the king of God!"

The title of the former crown of the king!

Ye Xuan's heart was suddenly shocked!

King level, it can be said that it has been able to pose a threat to Ye Xuan!

The team leader was assigned to Ye Xuan, a king-level title.

Of course, no matter what kind of opponents are assigned, Ye Xuan will not say anything more, but fly directly to the ring.

"boom!"

When Ye Xuancai boarded the ring, the man had already launched an attack, and an invisible force suddenly launched, which turned out to be invisible, even undetectable!

If it is not the system's prompt, if it is not Ye Xuan's ability to teleport, change anyone else, I am afraid this time will definitely be planted in this person!

"Human boy, you are very good, you can escape my shadow raid! But, next, do you still have such good luck?"

Along with the words of the man, suddenly, the system prompts again.

"Hey, alarm, alarm, host is attacked, the system automatically evades!"

Chapter 2375: Shadow law

Continuous system alarms are constantly ringing, the person just floats there, there is no action at all, but Ye Xuan is constantly being attacked!

A good shadow raid!

This skill is so powerful!

At this time, Ye Xuan's heart has already understood why the leader will let him face this person. Obviously, the leader still has some understanding of Ye Xuan's strength.

And this person is also obviously the genius of the demon **** domain that is the focus of attention!

The team leader is going to hand over this difficult game to Ye Xuan, because, other people, unless there is any special means of detection, otherwise, it is just a death.

This team leader has followed Ye Xuan's battle. Perhaps, it has already seen some clues of Ye Xuan. Of course, it may also be a hint of embarrassment. He decided to arrange this.

Ye Xuan constantly evades above the ring, and the enemy's attack, there is no moment to stop.

Until now, Ye Xuan did not even know what attack method the enemy used.

"System, can you analyze the enemy's means of attack, what is it!"

Ye Xuan evaded, facing the system, because if you can figure out what kind of attack the enemy is using, then you can undoubtedly be able to make a targeted plan.

"Hey, the system prompts, specify target data analysis."

"Hey, the analysis is complete, specify the shadow rule used by the target!"

The law of shadows, the power of borrowing shadows, is very different, and everyone who masters the law of shadows will have their own sentiments, thus using some special magical powers.

Shadow Law!

Ye Xuan should have thought of the law of shadows long ago, because the name of this guy's magical power is not called shadow attack.

After knowing the power of the other party's rules, Ye Xuan began to observe silently while he was dodging.

Shadow Supernatural has many limitations. Ye Xuan believes that this person will definitely leave any flaws. Don't look at his powerful attack now, but he is not really invincible!

"Megatron, tempted attack."

Ye Xuan waved with his hand, and two scorpion swords flew out at the same time.

"Boom! Boom! Boom!"

Two scorpion swords, and at the same time launched the gods.

That is the attack of the four gods, and because the other party is the demon god, or the absolute crit effect.

But the result is that Ye Xuan is very different, because the fourteen attacks did not hurt the enemy at all.

At the same time that these fourteen attacks were issued, there was a faint defense around the enemy. These defenses even blocked the gods.

Is it the power of the law of shadows? How should this be solved?

"boom!"

Suddenly, a dodge mistake, Ye Xuan was directly hit by an invisible attack, and the figure was quickly repelled.

However, Ye Xuan quickly stabilized his figure.

Shadow law, is it borrowing shadows?

No, in this space, there is no such thing as a shadow. Even if there is a shadow, then it is only the shadow of the enemy or Ye Xuan.

Suddenly, Ye Xuan Lingguang flashed, yes, it is the shadow, the law of shadow, the means of attack borrowed should be the shadow, but the enemy is likely to control the shadow of Ye Xuan through some mysterious law power.

Why did the enemy attack, Ye Xuan did not notice it at all?

That is because these attacks, this is the shadow of Ye Xuan, that is, Ye Xuan himself is attacking himself!

The horrible means, such magical powers, is simply unstoppable!

If Ye Xuan did not reflect it in time, wouldn't he be dragged to death by himself.

Is the magical power that controls the shadow of the other side in the law of shadow?

Since Ye Xuan knows, then, just say, since you are attacking yourself through your own shadow, then you just need to prevent your own shadow from appearing. Can you do it?

Others may not be able to do it, but for Ye Xuan, there are countless ways to do it.

In fact, this guy, the greatest ability is not that he has mastered the law of shadow, but his attack, if you do not see through, there is no way to crack.

When fighting, who can be like Ye Xuan, and still have time to think?

Want to understand this truth, Ye Xuan suddenly burst into a powerful light.

This is just a simple use of divine power, but it is just gathering the divine power around the body to form a circle of light.

Of course, this does not really have no shadow. However, because of the barrier of divine power, the enemy cannot use his mysterious power to control the shadow of Ye Xuan.

Sure enough, with the action of Ye Xuan, the man was obviously stunned!

"boom!"

This level of fighting, even dare to worry, how can Ye Xuan have made such a good opportunity.

Bowing the arrow, but it is done in a flash.

In an instant, the man was blasted out.

However, there is a shadow defense around the enemy's body, so it is not hurt too much.

"Human, you can actually understand the mystery of my shadow attack, it seems that today you will die."

The man looked at Ye Xuan, and his tone was obviously a little excited.

After all, his magical power, once it is broken, is actually worthless. It can even be said that even if it is a one-of-a-kind god, it can be released through divine power, letting his magical powers fail!

The man quickly rushed over again, looking at Ye Xuan with a cold look.

"Human boy, this is what you forced me, then I will let you know what to do and do endless darkness!"

"Field, nevernight!"

For a moment, Ye Xuan lost his ability to see, whether it was a **** or an eye!

At this time Ye Xuan is completely in the dark.

However, in the eyes of others, there is nothing unusual about Ye Xuan's side.

In the everlasting night, people will always fall into absolute darkness. This guy is still mastering such a field.

It can be said that this field is not at all a power that the king of God should have.

Who is he? Why are there many magical means?

However, Ye Xuan's mouth was slightly upturned, and Ye Xuan actually laughed!

Yes, Ye Xuan is laughing, he is saddened by the ignorance of the enemy.

Didn't the enemy know that Ye Xuan relied on the system, even if it closed the mind, even if the eyes could not see it, how could it be? Ye Xuan, there is a system!

Of course, it is impossible for the enemy to know this.

"Hey, the system prompts, detects the power of law that can be forced to swallow, whether the host chooses to swallow."

"Devouring!"

If the person is known, his tricks have become a means for Ye Xuan to strengthen his strength. Will he be directly mad?

Forced to swallow, can directly devour the power of the law.

It is so wayward!

Although the trigger condition is uncontrollable, at least at the crucial moment, he will not drop the chain.

Chapter 2376: Law creature

In a flash, Ye Xuan broke out with a mysterious power.

And this kind of power, other people don't know, but the enemy who also masters the law of shadow, how can not know, at this time, he has been shocked.

"Impossible, you, how can you also master the law of shadow!"

The man looked at Ye Xuan in horror. After all, Ye Xuan's previous performance, there is no way to breathe the law of the law. The most important thing is that Ye Xuan's now revealing the law of the shadow law is like his breath. Similar, almost exactly the same!

You must know that the law of shadows is also a system of big laws, but there are very few people in control.

Now Ye Xuan not only masters the law of shadow, but also masters similar abilities with him, which makes him accept.

"Never night field!"

Ye Xuan mouth slightly tilted, directly use this field, this time the devouring, let Ye Xuan make a big hair!

"Hey, the system prompts that the host is forced to swallow successfully."

"Hey, congratulations to the host to master the law of shadow!"

"Hey, congratulations to the host for mastering the night field!"

"Hey, congratulations to the host for mastering the shadow control power."

When you hear these tips from the system, you are already doomed, and the opposite person is going to be tragedy.

Along with Ye Xuan's exhibition of the night of the night, the man fell into his own field in a flash. Unfortunately, this permanent night field was exhibited by Ye Xuan, so he could not recover it.

Perhaps, just give him time, even in just a few minutes, he can crack.

But how could Ye Xuan give him so long?

"Shadow manipulation, shadow raid, attack me!"

Ye Xuan gave a command, and the man between the moments tasted an attack from his own shadow.

Even if you know it?

There is no way for the enemy to get rid of it because he has no time.

Just when the enemy is ready to follow Ye Xuan, when the gods force the attack to block the attack.

Ye Xuan's voice rang again.

"Absolute zero!"

For a moment, the man was frozen in the same place, and the long-awaited Wei Tiantian directly overtook two scorpion swords to kill.

There is no suspense to kill.

In the absolute zero, the enemy can't do anything at all, let alone resist.

"Hey, the system prompts, congratulations to the host to kill the demon gods, the dark night king of the five princes! The host swallowed the shadow of the five princes, the level is improved!"

"Hey, the system prompts that, given the current situation of the host, the level is automatically locked and the host can choose to open it at any time."

"Hey, the system prompts, the host kills the special demon god, the night prince five princes, rewards the random draw three times!"

Upgraded?

Moreover, also got a lottery?

This time, this time, Ye Xuan was even caught off guard. It seems that he did not devour the five princes, nor did he say that he was devouring any resources?

So, what is it that makes Ye Xuan upgrade?

"Hey, the system prompts, the night prince, the five princes, is a special race - the night gods, this family has no entity, but its special law race, as for the body that people see, but it is the host, but the host The law of force to engulf is the enemy's body!"

Law creature?

Even with such a magical race, Ye Xuan almost has some difficulty understanding the existence of this race.

The law of race, that is, they themselves are the power of a law?

This is simply the best ration for the preparation of Ye Xuan's forced engulfing. Ye Xuan even expects to have a little more of this rule.

However, the system also said that this is a very special race, which proves that the number is scarce.

No wonder this time there will be such a generous reward, not only to upgrade the level, but also three draws.

Because this guy is simply a super rare existence.

With Ye Xuan swallowing this rule of race, his sly body, naturally turned into a blue smoke disappeared.

At this time, the people of the demon gods, including those who are judges, also have a look.

Actually someone killed the dark night five princes!

You know, this dark night five princes, but the existence of an undead body.

Regardless of people and means of attack, it will not pose too much threat to him.

But how does Ye Xuan do it.

Of course, Ye Xuan himself is somewhat confused.

When he swallowed the law, this guy had nothing to do, and when the sword was killed, the talent was dead.

Logically speaking, he is a rule race, then, when Ye Xuan swallowed the power of the law, he should die.

But it is not the case, but when Megatron kills him, he will die!

Yes, it is the godhead. In any case, this guy still has a godhead, and the godhead is not destroyed. Ye Xuan will not cause a fatal threat even if he swallows the law.

Therefore, the really deadly, it is still Megatron's attack. It is Megatron's attack, which crushes the man's godhead and kills him!

Curious special race, very different races.

In the realm of the gods, I don't know how many magical races like this exist!

Ye Xuan simply did not pay attention to the strange eyes of the demon gods, but returned directly to the Kunlun domain.

Many people in the demon gods are still shocked by the death of the guy.

It can be seen how high the popularity of that person.

This five princes can be said to be the biggest dark horse prepared by the demon gods in the kingdom of God.

But now it is good, the black horse has not come and his ability to display, has been killed by Ye Xuan.

This of course will cause the people of the demon gods to pay great attention.

In front of being killed, so many people have no abnormal demon gods, this time, but because of the death of the five princes and morale is greatly damaged.

And Ye Xuan, they were finally regarded as the biggest enemy.

The second round of the battle ended very quickly, but this time, the battle of the demon gods in the gods was equalized by the Kunlun gods.

At this time, there are 50 people left in each side. That is to say, in this round, the Kunlun domain lost 34 people, while the enemy lost 50 people.

However, in this game, it is rare to see a serious victim who has lost and died without death.

There is no moment to rest, and the third round begins.

But obviously, in this round, the enemy has already focused on Ye Xuan.

Even when their team leader was fighting, they were still carefully watching Ye Xuan.

When Ye Xuan came on the scene, the enemy sent out, it turned out to be a district-level former title title, and it is still a special strengthening physique magical power, and mastering some law power that is conducive to defense!

This is clear, just want to take the opportunity to observe Ye Xuan.

Unfortunately, their wishful thinking can only be lost, because for Ye Xuan, they will not be afraid of their observations. Ye Xuan will not care about any results they observe.

Chapter 2377: Last round

Ye Xuan masters the rules of power more than the imagination of the demon gods, not to mention, in fact, Ye Xuan is simply using the law of engulfing, and then with the law of the **** bow, directly kill the enemy.

Can observe what is coming!

In the next few rounds, the enemies were obviously trying to test Ye Xuan, and the people who played against Ye Xuan were not strong at all.

Until the fifth round!

By the time of the fifth round, there were still six people left in the demon **** domain, and there were only four people left in the Kunlun domain. After all, there was only one Ye Xuan. In general, in the confrontation between the gods and the kings.

Or the people of the demon **** domain occupy an advantage.

A person who fails once can never have a second chance. After all, even if it is alive, it is also a heavy blow, and it is impossible to have the ability to fight.

Four people who played six, the demon **** domain, but shamelessly raised a melee?

Ye Xuan's team leader is not stupid, and naturally he did not agree.

However, what Ye Xuan never imagined was that the enemy actually used some kind of mystery and directly replaced the three people on Ye Xuan with three people!

Change for death! The same change!

The medicinal herbs that can strengthen the fighting power in a short time have a lot of secrets, and there are also among the demon gods.

However, even a minimum level of God's humanity will not be easy to use.

Because once you use this kind of remedy or secret surgery, then it is equal to the waste of the future.

This is also the main reason why there are hardly any medicinal herbs and mysteries that have been used in the realm of the gods.

But this time, the people of the demon **** domain used it.

Three people were directly selected, and some secrets that were not known to anyone, such as Ye Xuan or Kunlun Divine, were used. At the cost of serious injury, they changed the last three people in Kunlun.

Thus, in the final round, Ye Xuan had to face three people alone!

Obviously, these three people are the strongest deliberately left behind by the demon gods. These three people, the demon **** domain has been retained until now, is specifically designed to deal with Ye Xuan.

Such behavior may be somewhat unreasonable and somewhat difficult to understand in the Kunlun domain.

But in the demon **** domain, it is nothing.

In order to win, as long as they can finally win, the demon gods will never care what means.

"The law makes adults, are you sure? Otherwise, let us give up!"

Suddenly, the leader said directly to Ye Xuan.

Ye Xuan's brows are slightly wrinkled. This is the main god, and the leader actually said that he gave up?

Is this Ye Xuan wrong?

"What do you mean by this?"

Ye Xuan asked the leader.

"Going back to the law makes the words of the adults, God Lord adults accounted for, if there is no chance of winning, then let you give up the battle, God Lord will be especially guilty of you. After all, you are the law of my Kunlun domain, the growth space is limitless, can not commit these A product waits for the king of God to fight."

Did you actually say such a thing?

Ye Xuan lived!

In Ye Xuan's heart, although he has always been very caring for him, in the face of the interests of the Kunlun domain, you can sacrifice anyone!

Not to mention his Ye Xuan, even if it is a leisurely, even for the Kunlun domain, you will choose to give up.

Is it that Ye Xuan is wrong? In fact, you will care about people?

Otherwise, why do you say that once you can't be enemies, let Ye Xuan give up?

Ye Xuan didn't know, and he couldn't know at all. Hey, how can Ye Xuan guess.

But at least, I can say such things, Ye Xuan is already very satisfied.

Who is it? The **** of the Kunlun gods, a sentence that makes billions of people killed is only a trivial matter. In the Kunlun domain, it has absolute authority, and it is the first strongest in Kunlun.

But this kind of special care for Ye Xuan, if Ye Xuan is still not satisfied, but it is not content.

"No, I am willing to fight, of course, if it is really impossible, I will choose to give up."

Ye Xuan said directly to the leader.

Since sincerely treats Ye Xuan, then Ye Xuan will naturally use his own actions to prove that he has not read the wrong person!

The five eternal points are the leaves of Ye Xuan.

In the absolute field, these people are no one is Ye Xuan's opponent, so Ye Xuan is not afraid, Ye Xuan, has plenty of choice.

When I heard Ye Xuan, the leader did not insist.

After all, the collapse of the Lord God is equally important.

If you can win, it is the best choice.

Ye Xuan went directly to the ring, this time, he will face the battle of three super geniuses!

Three died from the beginning, they were selected to specialize in the demon **** genius of Ye Xuan!

"The human race boy, write down my name, kill the person, is the treasury of Wan Yao Gu!"

Ye Xuan's first opponent came on the scene. When the person came up, he showed unparalleled confidence. Of course, he also had the capital worthy of his confidence.

Because this guy is actually a peerless genius with the title of the former title!

Moreover, we have mastered the special rules, the law of eternal life!

The law of eternal life is a rule power that is more rare than the law of the night, the law of time, and so on.

It can be said that if someone is going to count the rarity of the law, then this eternal law is at least the rare rule of the top 100.

Mastering the law of eternal life means mastering immortality.

This kind of person has almost no power to kill him, because his rule power is that eternal life does not die!

At the same time, once this law is mastered, regardless of the qualifications, it is actually an absolute genius.

Because they have a lot of time, others spend 10,000 years to do, he can spend 100,000 years, a million years!

Because, he is immortal, time for him, there is no need to pay attention.

Of course, this eternal law is not really easy to master.

It is simply impossible to truly live forever.

The law of eternal life is that there is hardly any power to kill him, but there is absolutely no power to kill him.

"Human boy, die!"

When the library was on the stage, it attacked Ye Xuan. Without using any power, it was a pure physical attack.

"boom!"

Ye Xuan waved his hand and hit the library. It can be said that it is vulnerable.

However, the library quickly climbed up and appeared in front of Ye Xuan.

No, this guy has more than just the law of eternal life, but also has the law of space!

Every time Ye Xuan attacks, he can repel it, but this guy does not care at all. Anyway, he is immortal. Sometimes, he can't even commit suicide, and then he will immediately resume his peak!

It is also a rogue rule of eternal life, in cooperation with the law of space, it is simply a rogue to the extreme.

This is the mill can also kill the opponent!

Moreover, this guy does not want any defense at all, anyway, he does not need defense at all.

Chapter 2378: Unable to swallow

Moreover, the attacking power of the library is quite powerful, because he completely abandons his defense. It can be said that he is fighting in a life-fighting manner. Therefore, almost every attack can be said to be a full-scale attack, and the power is naturally weak.

For a time, Ye Xuan was also made a little fuss.

In the face of such a helpless law, you can say that even if the realm is higher than him, he will be quite helpless!

Megatron controls two sacred swords around Ye Xuan, which is almost always in a state of combat.

Because of the attack of the library, there was no gap in the gap.

In the blink of an eye, in the eyes of outsiders, Ye Xuan has been surrounded by countless attacks and phantoms.

The library seems to be an avatar to completely surround Ye Xuan.

.....

"Damn, this guy is too difficult. If you can't do this, I have to think of a way to come out!"

At the beginning, Ye Xuan continued to use the control of the spirit, the six-word mantra and other methods to kill the library.

But now, Ye Xuan has given up, because even killing this guy is useless. The library with the law of eternal life does not need to take too long, it will immediately resurrect, and then it is full of state attack Ye Xuan.

Therefore, now Ye Xuan is basically in line with the sword, directly into the defense state.

"System, can I devour this eternal law?"

Against the law of eternal life, Ye Xuan is quite jealous. If Ye Xuan has such a law, isn't that invincible?

Unfortunately, the system's answer made Ye Xuan quite disappointed.

"Hey, the system suggests that the host does not currently have the conditions to force the devour of the law of immortality, so it cannot be swallowed!"

Of course, although there is some disappointment, Ye Xuan also guessed that there will be such a result. After all, this law of immortality is too rare.

Obviously, forced engulfing is not a panacea. Ye Xuan has encountered various laws and powers before, but not many can be engulfed.

"So the system, if I want to forcefully devour this eternal law, what conditions are needed."

"Hey, the system suggests that the host wants to forcefully devour the power of the rare law, must have a similar power of law, and at the same time, the proficiency of the specified target law must reach a certain level before it can start forced engulfment!"

This is the case. Perhaps for Ye Xuan, finding the so-called similar rule power can do it by itself, but the enemy's rule proficiency is not controlled by Ye Xuan.

But this also indirectly illustrates the power and rarity of this eternal law.

Since forced engulfing is hopeless, then Ye Xuan can only find a way to clean up this guy.

"System, analyzing the weaknesses of the law of eternal life, I need an effective solution to clean up this guy."

"Hey, the system prompts, the host resources are insufficient, can not provide program analysis!"

Ye Xuan gave a slight glimpse, but he forgot, just now he has cleared all his resources.

It seems that this time, you can't count on the system.

.....

The library has the law of eternal life, then it is impossible to kill him effectively. Moreover, this guy also has the law of space, so he can launch attacks quickly. It can be said that his attack is endless.

If Ye Xuan disregards it, he will continue to attack Ye Xuan, but if Ye Xuan kills this guy, he will immediately resurrect and resurrect.

Control the damage level of the library and then let him lose the ability to fight?

On the surface, this seems to be a way, but Ye Xuan has tried it, it does not work at all, this guy does not have to worry about death, so he will even use suicide to restore strength.

Therefore, limiting his ability to act is not the way.

Moreover, here is the battle of Fujian and Taiwan. Even if Ye Xuan temporarily controls it with the control of the spirit, it will not solve the problem at all. After all, even if it is controlled, it cannot be killed.

Permanent control seems to be a solution, but want to permanently control the library, because of the special law ability of the library, so it is a hundred points of devour that need horror!

This makes Ye Xuan where to get a hundred points to swallow?

This is a hundred points of swallowing, not a hundred points of faith!

It is no exaggeration to say that a hundred points of swallowing point, for Ye Xuan, is tantamount to an astronomical number! Ye Xuan is powerless.

Therefore, the permanent control of this method is simply not feasible.

So what other options are there?

Absolutely zero?

Absolute zero, you can directly seal the library, but it can't be frozen forever. Once the time is over, then this guy can live again and again!

Therefore, absolute zero will not work.

.....

What to do, how can I clean up this guy?

Is it that Ye Xuan can only use that trick?

Devouring the space!

That's right, this guy's magical power is special, can't be killed, can't be controlled, but once Ye Xuan will engulf him in the space, he is afraid that he will have nothing to do, and he can't do anything about it.

However, directly consuming his income to engulf the space will undoubtedly cause great damage to the devour space. Ye Xuan is not willing to let the devour space be destroyed. After all, the last time the phagocytic space was damaged, it has not fully recovered yet.

Suddenly, Ye Xuan's mind flashed in the air, consuming the space, and Ye Xuan dominated everything.

With the rule of law, then he can demonstrate his ability in the field. He has no fixed field to play.

However, the demon-like people can create their own magical fields. Why can't Ye Xuan create something?

"Never night field!"

Suddenly, Ye Xuan showed his long night field that he had just swallowed up.

With the ability of the library, he can indeed commit suicide and then ask for the night of the night, but after all, suicide is not a matter of playing, so it is impossible for the library to commit suicide.

Ye Xuan has enough time to show his plans.

The law of the **** bow suddenly appeared in the hands of Ye Xuan.

What Ye Xuan wants to do, even if he uses the law of the **** bow, I am afraid that it is impossible to kill the library. Then, what is the use of Ye Xuan to take out this law?

"Six-word mantra, complex!"

Copy the specified target.

Ye Xuan used this trick and even got a rule.

However, this time, Ye Xuan is not to devour the law, because he can not be swallowed.

However, a mirror with the same infinite resurrection ability can win time for Ye Xuan!

What is Ye Xuan doing?

"The system, began to refine one of the top ten symbols of the ancient times, the fleshy charm!"

Actually, I want to refine the top ten charms of the ancient times!

You must know that there are a lot of resources for each of the top ten deities in the ancient times, and Ye Xuan now has no resources at all. What's more, this flesh-like charm can be regarded as the top ten of the ancient times, the most garbage present. .

Chapter 2379: Second enemy

Because the only role of this rune is to permanently control the body of the specified target!

For the gods, the flesh is not too important at all. As long as the spirit is immortal, it can directly directly rob, or even reshape the flesh.

What is the purpose of Ye Xuanhua's price?

"The system, the refining of the resources of the gods is not enough, it is mandatory to collect resources of the ancient space."

"Hey, the system prompts, refining the body

"confirm!"

Ye Xuan can't manage so much now, he has to beat this guy.

"Oh, the forced expropriation is completed, and the refining and physical geniuses begin."

"Hey, refining is successful."

It costs so much, but it just gets a physical genius that has no great use at all.

If it is unsuccessful, then Ye Xuan can lose.

"The arrow that devours the law!"

Ye Xuan shot an arrow directly, and a huge phagocytic vortex appeared.

At this time, the library just happened to be entangled in the mirror and rushed toward Ye Xuan.

"Flesh

Without hesitation, Ye Xuan directly used the law of the body that he had just refined.

He said that Ye Xuan couldn't help him at all, so, as before, the library directly rushed over and was instantly controlled by the body.

Ye Xuan's mouth is slightly upturned. This time, this guy can't be hooked.

As long as he loses his body, then, next, he will die!

As Ye Xuan conceived, there is no way for Suiku to do anything. He can only helplessly separate the soul from the flesh and prepare to commit suicide again and reshape the flesh.

However, Ye Xuan has been preparing for such a long time, not for this moment!

"Purple blood, give it to me!"

For a moment, Ye Xuan directly threw a purple blood.

The purple blood rushed toward the extremely fast target, which turned out to be the devour vortex.

Because of the power of Ye Xuan, at the same time, because of the phagocytosis of the vortex, the purple blood rushes directly toward the vortex.

But at the same time, Ye Xuan launched a spiritual control.

And, once successful, he immediately ordered the library to rush toward the swallowing vortex.

It can be said that the time that Ye Xuan can control is less than one second.

Even if the soul enters the swallowing vortex, there will be no harm at all. After all, the purpose of the library is to die, even if it is through suicide.

But as the sputum near the vortex, the purple blood also arrived.

Ye Xuan's mouth is more upturned, because he succeeded, this set of serial design, for, is not this moment!

"Go to hell! Complete destruction!"

Ye Xuan said faintly, and at the time of Ye Xuan's speech, the purple blood also changed greatly.

I was only affected by the phagocytic vortex, and the purple blood became more and more unstable, and it exploded in an instant.

Yes, it is the return of the ancestor.

At the beginning, Ye Xuan used this purple blood to kill the seven princes, while at the same time scaring off many demon gods.

At this moment, Ye Xuan once again cleverly used this purple blood.

With the explosion of the purple blood, the strange and powerful force erupted instantly.

Purple blood can destroy the blessings of the ancient demon gods, and it has proved that he has special repression ability for various magical powers of the demon gods. These have one thing in common, that is, they are all energy bodies.

Unfortunately, the library at the moment is also the state of the energy body.

It is only the energy body that is separated from the soul of the flesh.

"no, do not want....."

The library was horrified, and the power to destroy everything made him feel the ancestor's breath.

That is the power he can't resist at all, no matter what special power he has in his library, but he is always the demon **** of the demon **** domain, then there is no way to resist the power of the ancestor.

For a moment, the soul of the library was directly wrapped by the return of the ancestors, and then his original strength quickly and quickly subsided.

After a short time, the library disappeared completely.

As if it never existed before.

The disappearance disappeared without a trace.

.....

Ye Xuan's heart is very clear. This purple blood can not be used without using it. After all, the so-called ancestor is too horrible, and obviously not a good thing.

No one knows what the consequences will be for the return of this ancestor.

However, Ye Xuan had to use it, because the main **** collapsed, he could not afford to lose!

From his own point of view, if you don't want to crack the way, then you will definitely be killed by the library.

From the nature of the fall of the Lord God, no matter what the downfall of this time is to decide what belongs to this thing, or what is the battle for the gods of the demon gods.

However, it is a contest between the two gods. If Ye Xuan loses, he is afraid that his festival will make it worse.

Some people want to replace Ye Xuan's position. At that time, I am afraid that Ye Xuan's festival will make people impeached.

Therefore, this battle, Ye Xuan will win!

However, Ye Xuan thinks this way, the enemy, why not think of it.

Come to the downfall of the Lord God, no matter what the purpose is, what the reason is, but the goal is the same.

Winning, betting on your life will win!

No matter what kind of genius you were before, it is the super existence of your own domain. Once you stand on the ring, you can win or die!

This is the choice!

Ye Xuan defeated the library, and even triggered the return of the ancestors, but it only made the brows of the surrounding demon gods slightly wrinkled.

There is no other impact.

Just a few seconds after the disappearance of the library, the strongman who served as the referee directly selected the result.

Subsequently, another enemy flew directly into the ring.

The face of this man was very cold, looking at Ye Xuan's eyes without sadness and sorrow, holding a strange box in his hands, from the first stage, he launched the attack directly.

I saw him throwing the box toward the air. Immediately, the box exploded quickly and turned into a mini palace in the blink of an eye.

There are countless villains in the palace. The villains are constantly busy, but all the villains are the appearance of the man, and the entire mini palace is full of various instruments. Most of them, Ye Xuan did not know what it was.

"Hey, the system prompts, specifies the target, and respects the king of the king!"

It is also a respectable class. Then, what kind of special magical power will this leafite bring to Ye Xuan?

"Hey!"

Suddenly, a fierce snoring sounded.

It seems that some kind of beast is roaring.

However, there is no such thing as a beast here. Of course, if the demon **** domain is regarded as a beast, then there is indeed a beast. However, this voice is not issued by Ye Xuan's opponent.

It is the voice in the palace.

Chapter 2380: Stealth, summon, temperament

This voice, the owner's ability to shock the heart, even Ye Xuan, is a slight shock!

And with the appearance of sound, there are countless galloping phantoms.

Overwhelming, there are thousands of people!

Rhythm!

Ye Xuan suddenly reacted. Before, he also saw the existence of a special syllable magical power. This magical power is special because of it, and it is loved by many people. Therefore, it is the most common special magical power, and it has been evolved. There are also many special rules.

And there are many strong people who are famous for their temperament.

Unexpectedly, this time Ye Xuan's opponent is a guy who has mastered the tempo.

At this time, Megatron has turned into a super-controlling sword and returned to the hands of Ye Xuan.

Seeing the phantom of the beast as a thousand horses, Ye Xuan gathered his power and swept away.

A huge sword gas rushed out.

This is not the sword of the gods, but it is enough to deal with the illusion of the gods that these melody condenses.

In a flash, there was a continuous explosion in the middle of Ye Xuan and the man, and the entire space of the ring seemed to be shaken.

Of course, don't look at the momentum, but the power is not as powerful as you think.

"Five-tone kill!"

There was a faint sacred thread in the hands of the enemy, apparently overtaking the mini palace.

Accompanied by his huge bang.

Five different sounds appear.

The lowest sound is not even heard at all, and the highest sound can shatter the eardrum of the person.

Of course, these five sounds are accompanied by five phantoms.

Five generals wearing different armor!

"kill!"

The five generals also took out a killing word at the same time, and then they rushed toward Ye Xuan. Behind them, there were thousands of troops and five military squads, and they rushed toward Ye Xuan at different speeds.

"Soul of the Spirit!"

The special skills of the sacred sword were launched. At the side of Ye Xuan, a powerful energy shield was directly condensed, and those phantoms were killed. Ye Xuan did not move.

At this time, Ye Xuan looked at these phantoms, and the mind had already realized that the enemy opposite was not only proficient in the melody.

At the same time, the other party is also a guy who is proficient in summoning, because each of these phantoms is as normal as the essence, although it does not have the flesh, but has a substantial attack.

Moreover, each phantom attack method is different.

In an instant, Ye Xuan has been completely surrounded by the phantom.

It is also a special enemy, an enemy who has mastered special abilities!

It is a battle of genius, but it is the collapse of the Lord God.

No one has a special ability.

Combine the melody of summoning?

It may be strong for others, but for Ye Xuan, it is not as difficult as the enemy who mastered the law of eternal life.

It can be said that Ye Xuan is not a threat at all.

Ye Xuan's mouth faint smile, holding the sword, has already stepped forward.

Let those phantoms continue to attack, but they can't break the sacred shield that comes with the sword.

"Do you have only this ability? Then you can die!"

"Destroy the gods!"

Ye Xuan held a sword and slammed it out.

The violent power is launched, and a sword is swaying and going straight to the enemy.

"boom!"

Without any hindrance, Ye Xuan's sword directly destroyed the enemy and his mini palace.

.....

Is it over, is this enemy so vulnerable?

.....

Suddenly, the system's alarm sounded.

"Hey, alarms, alarms, the host is under strong attack! The system automatically takes over the defense, launches an infinite teleport, and the dodge attack succeeds!"

Ye Xuan's figure flashed out.

However, Ye Xuan did not even see any enemies at all. Even if he continued to expand his mind, he could not sense the existence of the enemy.

"Not good, there are attacks!"

Predicting ability allows Ye Xuan to have the ability to detect enemy attacks in advance, unless it is an attack that is too strange or too powerful. In general, Ye Xuan can find out in advance.

At this point, Ye Xuan sensed the attack, and the figure flashed out.

Just as Ye Xuan ducked away, suddenly, a ray of light appeared in the position of Ye Xuan just now!

And Ye Xuan didn't even have a chance to take a break, and the new attack appeared immediately.

Ye Xuan constantly evades, combined with infinite teleportation and predictive ability, it can be said that Ye Xuan has been highly concentrated.

However, the attack seems to be endless, constantly appearing, constantly attacking like Ye Xuan.

From the outside, Ye Xuan seems to be dancing, and every time he moves, he will bring a light.

Countless light seems to have a certain rhythm, slow and slow, actually forced Ye Xuan to dance!

"Damn, where is the enemy?"

While Ye Xuan continued to dodge, his heart was also anxious.

Because he is constantly being attacked, but he can't even find the enemy anywhere.

Obviously, this time the enemy also has some special stealth power or magic weapon.

Just like the wings of the gods of Ye Xuan, they can effectively hide themselves.

It can be said that the palace and the enemy at the beginning are simply a blind eye.

At this time, Ye Xuan continued to be attacked, but even the enemy could not find it anywhere!

"Destroy God! Give me a donkey, hey, hey!"

Ye Xuan suddenly flew in the hands of the sword, this time, Ye Xuan is not only a sword, but bursts of swords between the moment, attacking the past in all directions.

Originally, Ye Xuan hoped to use this attack method to force out the enemy.

But now, this approach simply won't work.

No matter how intensive the attack of Ye Xuan is, the enemy will not appear at all.

In other words, Ye Xuan's attack did not threaten the enemy at all.

On the contrary, the light has threatened Ye Xuan again and again.

"boom!"

Because of the use of the gods, Ye Xuan's figure paused for a moment.

In the twinkling of an eye, several rays directly hit Ye Xuan.

With a bang, the spirit shield broke and Ye Xuan was directly shot.

But Ye Xuan has not had time to adjust.

It turned out to be another light hit Ye Xuan again.

In a short moment, Ye Xuan was hit dozens of times!

"puff!"

Ye Xuan spit out a blood.

Unlimited teleports ran out of random, which escaped from the enemy's coherent attacks.

"Damn! Really damn!"

Ye Xuan was very upset. This time, he even found the enemy, but he was injured first.

"Megatron gives me random attacks!"

Ye Xuan helplessly issued an order for Wei Zhentian to attack at will.

The so-called random attack is simply because the target can not be found, so let Megatron go out and fly.

The enemy, where is it!

"Millions of swordsman, give me out and search the enemy!"

Ye Xuan released the Wan Xun swordsman, ready to look for the enemy's trail.
