

Super D. S 238

Chapter 238: Just kill it!

"In this case, then you should be careful." Jiang Liu did not ask much.

"Ok."

After Ye Xuan nodded, he turned and left, leaving in the other direction.

After he left, Jiangliu also stayed in the same place for a while, afraid that Xihang suddenly folded back to catch up with Ye Xuan. After more than ten minutes, he was gone, but he did not go to Hangzhou, but went in another direction.

However, after he left, Ye Xuan suddenly appeared again. He showed a strange smile in the direction of Xi Hang's departure.

"District people Dacheng Dacheng, dare to arrogant in front of me, maybe the same thing as the two people, today, I will send you to hell."

He said coldly in his heart, that is, chasing the past in the direction of Xi Hang.

There is a senior super-sound bat blood, he is afraid to catch up with each other?

Although it was only a short ten minutes, Ye Xuan has already broken through once in these ten minutes.

Yes, he swallowed the five corpses and swallowed the two of them. Now he is already a small man.

At this time, Xi Hang did not know that there was a killing **** chasing him. What he wants to do most now is not to kill Ye Xuan, but to find a disciple of Ling Xiaofu.

Since the matter has already become this way, then he no longer has any scruples, so he wants to kill the disciples of Lingxiaofu, that is, killing people and winning treasures.

Before that, he also learned from the mouth of Jiangliu that the Tianzhifu had only three people who were born in Dacheng. The rest of the people were in the Danish environment. Only a small part of the people were Dancheng Xiaocheng, with his Strength, seeing one kill is still not a problem.

However, just as he was still exploring and listening to his ears, there was already a figure to keep up with him.

It is Ye Xuan!

"found it!"

Ye Xuan behind Xi Hang reveals a murderous murder. One person is a warrior of Dacheng Dacheng. There must be a lot of net worth, and there may be a huge body in the Qiankun ring.

The sight in Dongfu is not so dim, and there are things that glow and shine from time to time. Therefore, Ye Xuan cannot be quietly approached by the blood of the shadow leopard.

However, with his current strength, there is no need to attack, it is hard to work!

"Xi Hang!"

Ye Xuan suddenly had a meal at the foot and shouted.

"Ok?"

Xi Hang heard his name, and suddenly turned around. After discovering Ye Xuan, which is hundreds of meters away, he was immediately a big man.

It's a paradise, there is a road, you don't go, there is no hell, you come in!

"There is a daring color, I dare to take the initiative to come to me, thinking that I changed my clothes, I can't recognize you with a mask?"

Xi Hang sneered, but he did not take it lightly, and he was hiding in the rear.

He only fought side by side with the river, only to know, so the river may also be something that slandered him, and he colluded with Ye Xuan to kill him.

"Reassure, I am not with the river."

Ye Xuan's mouth is also slightly raised. He did not take off the mask. He just didn't want other people to happen to see him killing Xi Hang.

"Ha ha."

Xi Hang smiled again. He couldn't figure out the situation. However, after seeing Ye Xuan who was coming to him, the dawn was also a flash.

As long as the distance is close enough, he can instantly kill Ye Xuan, even if the river flow is useless, after all, this passage is full of kilometers, long enough.

Ye Xuan is slowly approaching. At this time, he is only about two hundred meters away from Xi Hang. If the latter suddenly breaks out, I am afraid that it will take two seconds to zero the distance.

Looking at Ye Xuan, who was full of murderous machines, Xi Hang was slightly stagnation, his face became dignified and said: "You should not, want to kill me?"

"Do not kill you, do I come to die?" Ye Xuan smiled lightly.

The next moment, he broke the speed and straightened the distance to within 100 meters.

"Hurry, play pigs and eat tigers!"

Xi Hang responded instantly. Before Ye Xuan killed his two younger brothers, the strength was definitely not normal, so he always stayed vigilant after seeing Ye Xuan.

"Don't underestimate me, seven absolutely!"

He is also a cautious person. After feeling the uncommonness of Ye Xuan, he used the martial arts at the local level and prepared to kill Ye Xuan.

The seven snipers smashed the air in an instant, and screamed in front of Ye Xuan with the whistling wind. These seven sniper angles are very tricky. If Ye Xuan wants to use the body to escape, it is indeed somewhat difficult.

If it was before, Ye Xuan and this Xi Hang were in a different realm. If it was hard, he wouldn't know if he could fight. After all, Tian Yuanzong was a stronger force than Lingxiao.

Now, Ye Xuan has no intention of dodging.

"Breaking the sky!"

Ye Xuan armed with eight wild swords, slanted out in an understatement, a huge arrow, instantly defeated the seven snipers, while still spared the opportunity to rush to Xi Hang.

Upon seeing it, Xi Hang's double-eyed scorpion, using his Dan Yuan's strength to re-use the ground in his hand, made the Chinese-level martial arts, and was actually defeated. How is this possible?

"Is this your ability to kill me?"

Ye Xuan sneered and his right hand flashed quickly.

"Stars and swords, stars fall!"

Dozens of stars condensed into a star, like a string of arrows.

"do not underestimate me!"

Xi Hang had to drink, and actually shot down all these stars, this strength is to let Ye Xuan look at each other.

However, from the beginning to the present, this Xi Hang has been falling behind and being beaten passively.

Ye Xuan also does not want to drag on, but later is a change, it is still a quick fix.

"Hey!"

The eight-year-old sword in the hand suddenly broke and was divided into eight suspended blades.

At this time, he has already plunged into the front of Xi Hang.

"eight shortages, the wind kills!"

Ye Xuan urged Dan Yuan in the body. These eight sharp edges began to rotate at high speed, and the speed was fast. Even he could not see clearly.

"How fast, how can it be so fast?"

Xi Hang was shocked. He hurriedly made a defense martial arts, the middle class of the middle class, and the body shape quickly retraced backwards.

His speed is more than the speed at which Ye Xuan uses Dan Yuan to run. If the latter uses body martial arts, he can't escape.

"Tianyuanzong is Tianyuanzong, a variety of Chinese martial arts, although I really want it, but I can't use it in front of outsiders, so please die!"

Ye Xuan quickly approached, followed by a palm.

"Chinese goods level martial arts, red flame palm!"

A giant palm of fire directly smashed the defense of Xi Hang, and at the same time he flew. But on his way out, Ye Xuan also controlled the eight small eight, and killed the past.

"The eight wild winds kill, the sky breaks!"

Eight small eight wastes were arranged into a drill bit, which directly fell into the chest of Xi Hang, and broke his chest out of a blood hole.
