

Super D. S 2381

Chapter 2381: Purely lucky

However, Wan Xun's sword servant just appeared, and he was hit by a light. If Ye Xuan did not respond promptly, he would resist some of the damage for him. It can be said that this little guy has been killed!

Damn it!

Ye Xuan was helpless and could only take the Wanshang sword back.

Because obviously, even if the Wan Xun swordsman appeared, it could not play any role for Ye Xuan at all.

"Absolute zero!"

With intuition, Ye Xuan has launched several absolute zeros in a row, but unfortunately, it is useless.

The enemy's strange attack has never been interrupted.

.....

"Human boy, do you think you can find me?" Let's die, die in my troubled dance music!"

A voice came, the enemy finally spoke, but this voice, but let Ye Xuan simply do not sense where the enemy is talking, as if it is everywhere.

The law of the **** bow appeared in the hands of Ye Xuan, a branch of the law is constantly being shot by Ye Xuan, but unfortunately, there is no use.

These rules are simply shooting indiscriminately and how they can pose a threat to the enemy.

"Never night field!"

Ye Xuan has launched several times in the field of permanent nights, and still has no use.

This time the enemy is so strange.

What kind of special law power he has mastered.

Still have a special magic weapon.

Why, why can't Ye Xuan find his position.

Not only Ye Xuan, but also the system, Ye Xuan has already ordered system detection, but the system has been failing!

"Hey, the system prompts, the detection target failed!"

'Hey, the system prompts, the detection target failed! "

.....

Only the sound of constant failure, Ye Xuan was attacked again and again.

If it is not the resilience of Ye Xuan's eternal body, I am afraid that Ye Xuan has now been defeated.

However, even so, the clothes hangers on Ye Xuan have been scrapped. At this time, Ye Xuan seems to be a bit wolf.

This is something that has never happened before.

However, Ye Xuan is also powerless.

In any case, Ye Xuan wants to defeat the enemy. The biggest premise is to find the enemy first.

Otherwise, even the attack can't be done, talk about what to defeat the enemy.

Is it necessary to use the eternal realm now?

No, can't use it, from the enemy's ability, Ye Xuan already knows that the last three enemies will only get stronger and stronger.

The demon gods are also determined to win the battle of the Lord God.

Therefore, there is the last enemy, the person of the demon **** domain, the biggest killer prepared.

The eternal field must be kept, that is the last and the biggest card of Ye Xuan.

Damn it!

Ye Xuan now, even has a feeling of being poor.

All his attacks, because they can't find the enemy, are simply useless.

The enemy can continue to attack Ye Xuan, which is simply alive and beaten!

The wings of the gods do not have the power of the gods, so that Ye Xuan can not enter the stealth state.

At this time, Ye Xuan even missed the ancient phase of the ancient piano.

At the beginning, when Ye Xuan dealt with the person away from home in the Palace of God, he directly used the ancient method of the piano. Ye Xuan now can't wait to have a law.

It is a pity that although Wan Zun's blood can accommodate countless laws, but Ye Xuan now has only the ancient law.

What is the best way to force the enemy out!

Ye Xuan's mind was thinking fast, and the figure did not have a moment to stop.

But even if it is constantly dodging, it will be attacked from time to time.

Outside the ring, the team leader and others are quite concerned about Ye Xuan.

Ye Xuan's victory and defeat is already the final result of the downfall of this **** and the king's kingdom. Once Ye Xuan is defeated, then this collapse, the Kunlun domain will declare defeat.

What is Ye Xuan's attack power?

Not weak, it can be said that this enemy, if dare to appear in front of Ye Xuan, even if it is still a second, Ye Xuan can also kill him.

But now, Ye Xuan can't even find the enemy, and talk about killing the enemy.

"Wan Teng!"

Ye Xuan is another big noise.

Thousands of vines broke out instantly, and countless vines grew wildly. This time, Ye Xuan is going to use the infinite growth of Qianteng to find out where the enemy is.

Unfortunately, Qian Teng's defense is too weak.

Those continually appearing light, each will cut countless vines.

Even if it is a thousand vines, it will not be too long. This endlessly cut off the vines, how can Qian Teng always be able to withstand, so, in a short time, Qian Teng reluctantly retreated.

Look at the vines scattered around.

Ye Xuan's heart is full of helplessness.

.....

Suddenly, Ye Xuan's eyes stayed on the vines scattered around.

Because, Ye Xuan is keenly aware, it is obvious that there is a lot more vines.

Why is there a lot more vines in a single place?

Undoubtedly prove that the position is the location of the enemy.

Ye Xuan still does not believe that this guy can master the space ability after grasping the hidden, temperament and summoning three abilities.

"Megatron, the strongest attack mode!"

Ye Xuan thought about it, and Megatron launched a crazy attack toward that position.

And Ye Xuan himself is not idle, holding a sacred sword, but also numerous attacks.

The violent and intensive attack directly attacked the position.

For a moment, those ray attacks stopped.

"That is where the enemy is there!"

Ye Xuan pulls the bow string faster, and from time to time will use a variety of capabilities, such as the permanent night field, such as absolute zero.

Ye Xuan can't judge the exact location of the enemy, but at least there is a rough range.

So Ye Xuan directly launched a saturation attack there.

In a flash, it was a million miles away and fell directly into Ye Xuan's violent attack.

Within a radius of a million miles, there are countless attacks.

Ye Xuan did not hesitate for half a minute. As long as he had a feeling, then even if it appeared on the surface, his attacks were all lost, and Ye Xuan did not hesitate and pause.

.....

"Hey!"

A voice came and a figure appeared.

"You, why can you find me!"

That person is very embarrassed at this time. After all, his defensive power is not good at all, and he does not have the speed rule of the space law. It is impossible to avoid the saturation attack of Ye Xuan.

Therefore, under the attack of a god, he showed his appearance.

Since it has appeared, Ye Xuan can not be polite, all attacks, and the moment between the people crushed.

This time, it was a suspenseful killing. This guy, when Ye Xuan forced his body, was already destined for his ending.

How to find him?

Ye Xuan can only say that he is lucky, and he has to thank the enemy for selling himself.

The reason why Ye Xuan can find the enemy is simply because of the countless vines on the ground.

When this guy broke the vine, he exposed himself!

Instead of Ye Xuan found him.

But no matter what, at least, this battle, Ye Xuan wins!

Chapter 2382: Eternal sphere opens

Ye Xuan wins another game, but he is so lucky.

It can be said that regardless of Ye Xuan himself or other bystanders, Ye Xuan's victory this time is not based on strength, but on luck, because anyone can see that Ye Xuan has never gained the upper hand.

It is the enemy who gave Ye Xuan a chance to win!

Of course, anyway, winning is winning, even luck, luck, is part of the strength!

At this time, Ye Xuan alone defended the stage, and the last battle.

The final battle will definitely be the final result of this downfall.

Obviously, the man of the demon **** domain is not prepared to give Ye Xuan a break time.

I saw that the person was already in the space of the ring.

Ye Xuan looked at the man silently. From this person's body, Ye Xuan could feel the pressure of being strong.

This is a faint law of authority, so that Ye Xuan understands that this person is not free, to know that they are only the king of the king, the power of the law is at most borrowed, but this person can spur the law This has already explained his special features.

Of course, no matter how strong he is, he has only one dead end today.

Because Ye Xuan has stayed in such an eternal field for so long, isn't it for now?

Let him be strong again, Ye Xuan, will definitely crush him!

The man went to the ring, his look was indifferent, and he looked at Ye Xuan faintly and said: "Give you a chance, understand yourself!"

Ye Xuan brows a little pick, this person is very confident, do not know, where his confidence comes from.

"System, detect the strength of this person!"

"Hey, the system prompts, specifies the target, and respects the king of the king!"

"Hey, alarm, alarm, host please note that the specified target has a special supernatural blessing!"

Shentong blessing? What does it mean.

However, Ye Xuan is too lazy to manage so much. This guy has the title of the former title, which is really very powerful, and coupled with his ability to distribute the law, he has already explained his extraordinary.

But what about that?

"Yes, then, in this sentence, I will return it to you in the original words. You can cut it yourself. Maybe you can eat less."

Ye Xuan's mouth with a faint smile, said to the man.

"The Terran Kid, you are very arrogant, hasn't anyone told you that it is too arrogant and will die very badly?"

The man is still indifferent, but if he says, Ye Xuan is scornful. The current situation is that this guy is arrogant, not Ye Xuan.

While talking, the man has begun to condense a black ball, but there is a constant thunder and lightning around the black ball.

Devouring and lightning laws!

He actually blended the power of the two laws perfectly to form a new attack method!

Ye Xuan couldn't help but sigh a little, this person is a powerful means, even Ye Xuan, although there are many rules, but it has always used a rule of law as a means of attack.

And like this person, it is actually the combination of the two laws to attack, it can be said that Ye Xuan has never seen before.

I saw the random wave in the hand of the man, and the ball suddenly rushed toward Ye Xuan.

Ye Xuan had to use the power of the space law, constantly dodging, Ye Xuan's speed is extremely fast, after all, the speed of infinite teleport, blink of an eye is miles!

However, even at such a fast speed, Ye Xuan did not escape the attack of the black ball.

At this time, Ye Xuan can clearly feel the strong attraction that comes from his side!

Ye Xuan, who also has the law of engulfing, is of course very clear about what kind of power it is. In the distant places, the powerful Tianlei is constantly bombarding. That is to say, once Ye Xuan is dragged by this attraction, then Must die!

"Don't struggle, the Terran Kid, you die, you are not my opponent!"

The genius of the demon domain is faintly said, as if everything is in his control.

Ye Xuan brows slightly wrinkled, but not hesitating, then since it is known to use the conventional method, why not be this person, why Ye Xuan is delaying time.

"System, if I use five eternal points, open the eternal realm!"

"Hey, the system prompts, the redemption is successful!"

Accompanied by the system, from Ye Xuan's body, a sudden burst of light, the light suddenly spread out.

Subsequently, a huge ball appeared in the ring, the ball is huge, and it will directly include all the geniuses including the demon **** domain.

The powerful force is instantly injected into Ye Xuan's body. One hundred times the improvement of various attributes makes Ye Xuan feel that he has the power to dominate everything!

At least, the genius of this demon **** domain is simply not threatening Ye Xuan.

The strong attraction is still going on, but Ye Xuan has not cared at all, but has a smile in his mouth and let his body be attracted.

Surrounded by Ye Xuan, Tian Xuan, the constant bombardment, has been a strong light, so that Ye Xuan has completely lost the figure.

After a while, the genius of the demon **** domain actually said to the referee in the sky: "Why, you still have not judged the result?"

The subtext of this sentence is already obvious, that is, he has already determined that Ye Xuan was strangled by his thunder!

However, no one of the strong people would pay attention to him, but they all looked at the center of the thunder with fear.

It is fear!

These strong people saw a scene they could not understand.

At this time, Ye Xuan was indeed constantly attacked by countless lightning.

Among these thunder, some Thunder owners have the power to kill a king of the king.

However, all of these thunders were hit on Ye Xuan, but there was no threat at all.

Defense, Ye Xuan has been immune to lightning!

No, it's not just immune.

Ye Xuan even took a wave, and then took a Tianlei arrest in his own hands, and then watched and studied with great interest!

He actually took the enemy's attack means and forced him to take it in his own hands, and he still didn't care too much at all!

"what happened?"

The genius of the demon **** domain saw the reaction of the referees, and naturally knew what happened. The following consciousness looked at Ye Xuan's position.

But then, he saw a scene that made him horrible.

I saw the black ball that he had just thrown out, and it was quickly restored by Ye Xuan.

And along with this restoration process, the genius of the demon **** domain can clearly feel that the black ball has completely separated from his control.

After a while, the black ball has floated in the hands of Ye Xuan, and Ye Xuan is still studying in nature.

"The original way, rewarding the perfect combination of the two laws, there are even the benefits of the image!"

Chapter 2383: Absolute crushing

The genius of the demon **** domain is horrified, how is it possible?

His attack means will be directly played by the enemy!

You know, that's his most powerful attack!

Today, not only did not cause half damage to Ye Xuan, but was also tamed by Ye Xuan.

This is the power of the two rules, not a pet, how can it be tamed!

For a time, the man was messy, so a strange scene has already exceeded his imagination limit!

"You, how did you do it?"

The genius of the demon **** domain, subconsciously asked Ye Xuan.

Unfortunately, Ye Xuan did not take care of his meaning, but waved it.

The black sphere, which combines the power of engulfing and lightning, disappears invisibly.

"No, it's impossible. It's an illusion. It must be an illusion. It's impossible for someone to break my swallowing thunderball. It's impossible, impossible!"

This guy has repeatedly said several impossibility, no doubt revealing his inner fear and horror.

With his exclamation, new attacks in his hands have come together.

However, he has not had time to attack, Ye Xuan has already appeared beside him.

I saw Ye Xuan wave a hand, the law of the demon gods in the hands of the condensed attack on the magical powers, even directly plundered by Ye Xuan!

Yes, it is plundering, just a wave of it, the law of attack in the hands of the demon **** genius is like a baby, falling in the hands of Ye Xuan.

The genius of the demon **** domain, horrified and hurriedly retreat.

But no matter how fast he is, Ye Xuan will always appear next to him.

Ye Xuan looked at him so faintly, but his attention was on the power of his laws.

"System, can I power the power of this lightning law?"

"Hey, the system prompts that the host is currently in a special space and cannot be forced to swallow."

Ye Xuan was slightly disappointed, but he also guessed this possibility.

Suddenly, Ye Xuan raised his head and looked at the genius of the demon **** domain.

However, it is just a casual look, but the genius of the demon **** domain, but it feels that he has been completely locked by Ye Xuan, as if he is any means, any tiny movements have been clearly controlled by Ye Xuan in the hands of the general!

This feeling is really uncomfortable.

Unfortunately, no matter how bad it is, this guy has no half way.

At this point, he still has half the confidence and arrogance.

I saw the genius of this demon **** domain, the horror and helplessness in the eyes, the body is constantly shaking, obviously, he is now afraid of Ye Xuan to the extreme.

"Okay, let's end!"

Although the eternal field is powerful, the duration is limited, and Ye Xuan naturally cannot waste time.

For Ye Xuan, it takes a full five eternal points to exchange this eternal field.

Isn't it just to beat this person?

"Snapped!"

Slap in the face!

It turned out to be a slap in the face!

This is the battle of God's kingdom!

The power to use magical powers or the laws is normal, but using the slap to hit the enemy, this is how much to crush!

The most crucial thing is the result of this slap!

Ye Xuan's slap in the face is actually to smash the genius of the demon **** domain!

A slap in the face, can actually fan the opponent's gods broken!

Who has seen such a powerful force?

Especially the genius of the demon **** domain, after being slap in the face by Ye Xuan, he felt that all the forces belonging to him disappeared quickly, or accurately, Ye Xuan deprived him of all his strength in a slap in the face.

Regardless of the power of the law, or the power of the body, all disappeared.

At this point, the man has become a waste, but in a short period of time in the air, the genius of the demon **** domain, fell to the ground.

The feeling of infinite fall makes the genius of his demon gods screaming hysterically.

Unfortunately, no one has been paying attention to him.

"bump!"

Finally, he made intimate contact with the ground and instantly fell to death!

At the same time, the time in the eternal realm has finally arrived.

The violent power returned to Ye Xuan's body in an instant.

At this time, Ye Xuan, it seems that it is no different from before.

But even if the referee, it is a moment to announce the results.

After all, the power that Ye Xuan showed was too strong, and it was so strong that these powerful referees could not believe their eyes.

What kind of power is this?

What kind of means is this.

The super genius of the demon **** domain, in front of Ye Xuan, is like a child, it is so powerless, it is so sad.

When the results were announced, even the other people who were fighting in the ring, they all stopped the battle subconsciously.

Because the strange and powerful force that Ye Xuan broke out just broke through the space of the ring, so that they also felt it.

In particular, those who are the same inferior gods have already shuddered at this time, because they know that even if they are higher than Ye Xuan's realm, if Ye Xuan really fights with them, once Ye Xuan broke out, Power, then they will die!

While Ye Xuan is killing the geniuses of these demon gods, their geniuses will not be let go. When the results are announced and they are sure to win, Ye Xuan will not hesitate to swallow up those available in the ring. resource of.

Ye Xuan's meaning is obvious. If necessary, he will continue the battle of the next downfall.

"Hey, the host breaks through, the current level of four products and the gods!

Has it risen to the third level?

It is a genius of the demon **** domain, and the resources in hand are indeed very rich.

However, Ye Xuan did not show up at all. This is the collapse of the Lord God. He does not want to find trouble for himself.

The strong who can find these changes also silently closed their mouths.

Naturally, the strong people of the Kunlun domain do not need to say that they will not be stupid enough to find trouble.

The strongmen of the demon gods can only be silent, because they are all defeated by the genius of the gods, and no one can fight in Ye Xuan.

Besides, Ye Xuan suddenly burst out of such a powerful force, but now it is upgraded, and it is impossible to compare with the power just now.

A product waits for the king of the kingdom to collapse, and the Kunlun domain wins.

Afterwards, Ye Xuan did not wait too long, and the other games on the platform were all over.

Of course, the most impressive thing is the battle of Ye Xuan. How can this kind of crushing posture not be remembered?

I don't know if Ye Xuan's victory has caused the other enemies of the inferior gods to be uneasy.

In short, the battles of the nine inferior gods were directly defeated by the Kunlun gods.

After the final battle results were counted, the Kunlun Divine won the final victory of this battle.

Chapter 2384: Rewarding the ancestral treasure

Then everyone was once again taken out of the battlefield of the Lord God, waiting for them, will be the reward of God's Lord.

As for the collapse of this main god, what is it fighting for, Ye Xuan they do not know, and are not qualified to ask.

Their task is to win.

.....

However, these geniuses can be said to be extremely heavy, can be or come back, among the one hundred people, not one person!

It can be seen how cruel this is the main god. ,

When they returned to the Lord's Palace, there was no imaginative grand welcome.

However, it was a simple saying of two words, and then found some rewards, just forget it.

Of course, these rewards are by no means a leisurely one. Moreover, the geniuses who participated in the collapse of the Lord God will receive the key training of the domain.

As long as you are alive from the collapse of the Lord God, you can say that you can get the benefits of the image, you can step into the sky!

When other people silently returned to the carnival, Ye Xuan was summoned by him alone.

This is not the first time Ye Xuan was summoned by him.

But this time, Ye Xuan has to be relatively cautious, and the authority of Yan, Ye Xuan has a clear understanding.

This is a God who can die on the trillions of powerful people in one sentence!

It is the first person in the Kunlun domain!

"I have seen God Lord!"

Ye Xuan was slightly stunned and stood respectfully in front of him.

He looked at Ye Xuan and said with a slight smile: "This time, you did a good job. Go back and get ready. The next time the main **** collapses, I am afraid that it is not far away."

And the main **** is down?

This main **** collapsed, Ye Xuan once played is already scared, once again, not to have Ye Xuan life!

Although Ye Xuan is only a minor emotional change, but where it may be worth living.

"Don't worry, the next time the main **** collapses, it won't be so cruel. I am calling you this time. There is a reward to be given to you alone! I have heard of it. This time, your performance is the best. So this reward, you get well deserved."

毕嫫 faintly said, at the same time handed a treasure box to Ye Xuan.

Ye Xuan took it subconsciously, but did not know what it was.

Of course, now in the Palace of God, he is not easy to open directly.

"Ye Xuan, although this time you are still OK in the performance of the main god, but the battle of your nine-party 60,000 troops has been somewhat unsatisfactory. Last time, I mobilized the other regiments

to help the legion. You are once, but this does not conform to the rules of the main **** battlefield, you have to use your heart."

"Yes, God Lord!"

"Okay, let's go back!"

Ye Xuan echoed out.

When I faced the embarrassment, Ye Xuan still had no feelings, but recently, I obviously felt the unusual place. The pressure on the body was too strong, not only the pressure, but also the temperament.

Only before, Ye Xuan did not have an official position, so he was only when he was a disciple or friend of her master.

Now that Ye Xuan has an official position, this is how strong he is.

Out of the main palace of God, Ye Xuan immediately opened the box.

After all, this is what he got in the battle of the main gods. Ye Xuan is going to have a look, what is the reward in the box.

A token!

A token that exudes quirky light.

Is this the reward of jealousy, what is the use of this thing?

But soon, just as Ye Xuan opened the box, a message from the box directly hit Ye Xuan's head.

In an instant, Ye Xuan understood what it was.

This turned out to be the qualification qualification token of the Kunlun Godland ancestral secrets!

What is the secret of the ancestral land?

At the beginning of each **** domain, there will be a place of origin, which is generally a secret.

This mystery will be reinforced by the lord of God, and the superpowers in the domain of God will automatically choose to go there if they want to fall.

It can be said that this so-called ancestral mystery is the sacred tomb!

It is the collective grave of a super powerhouse of the gods!

The strong who can walk in is naturally sitting directly inside.

And if the strong man who died in battle, as long as he can be found, will be sent to it.

It can be said that this so-called ancestral mystery is simply the most central and mysterious place of the gods.

The opportunities and dangers inside are naturally not mentioned.

Most of the strong, if there is no inheritor in the outside world, then they will leave their inheritance in the ancestral land.

After all, only the true genius of the lease is eligible to enter.

The reason for these strong men to inherit, that is, hope that one day, their inheritance can be inherited by genius, and thus continue to spread.

What is the **** domain strong?

That is the most powerful force in a **** domain. Generally speaking, it is only when the Lord God is trained to enter it!

To put it another way, even the title of the ancestor of the gods is not excessive.

Today, Ye Xuan's hand is a token that enters the cemetery of the gods.

A special token that can only be used once.

Through this token, Ye Xuan can be directly transferred. When he wants to leave, he only needs to launch the token directly, and he can withdraw from it.

The ancestral secret treasure, even if it can not be called the most powerful reward in the domain, but also the top few rewards.

What you can get, just look at their respective opportunities!

What to do, use?

Ye Xuan has doubts in his heart. He does not know how many people have obtained the qualification for exploring the treasures of this ancestral land.

But I believe that there will never be a lot.

So, do you want to enter now?

Ye Xuan looked at the distance and finally decided to enter now.

Power, Ye Xuan is in great need of strength now.

The cultivation of the four kings of the kingdom of God, if it was in the past, it would be a good thing. Unfortunately, he is now a festival governor, and he is in charge of the Jiufang 60,000, and then the gods of the region, but also the gods Wang Jing, it is not enough to watch!

Those big family forces under Ye Xuan's men's hands, although they did not say anything on the surface, secretly, they will definitely smash Ye Xuan's.

After all, the gods are also a world dominated by power.

Only the strong can qualify for the respect of others.

That being the case, then, let's use it now, this Kunlun godland's ancestral mystery, Ye Xuan is going to see, what is special.

Ye Xuan holds the token and sends it in an instant.

After a while, Ye Xuan's figure appeared at the door of a secret.

Amazing space!

This is the first reaction of Ye Xuan.

I saw that there is no sunshine at all in this mysterious place. Some are just a kind of dark light. With a popular name, it is a wildfire!

Throughout the mystery, there is a little bit of darkness and ghost fire everywhere. It is the light of the wildfire that constructs all the light here.

Chapter 2385: Oni Yuto

After all, the burial, even the lowest, is the superpower of the inferior gods.

Not to mention the gods, even if anyone has a godhead, even if it is fallen, the body is hard to destroy. Without thousands of years, the bodies of these powerful people are impossible to decay.

Of course, this mystery actually has some special features. In this mystery, there is a strange power of law everywhere.

The power of this law can be said to have no use at all, because their only use is to speed up the corruption of the bodies here.

Of course, there are other things in the mystery that will accelerate the decay of the body.

At this time, Ye Xuan stood in a circular platform, here is the interface.

Those who use the token to enter the ancestral secrets will appear on a platform similar to the platform at the foot of Ye Xuan.

Because of this mystery, this is a secret that has no entrance and exit at all. To enter, only by transmitting tokens.

If anyone accidentally loses the token, he is afraid that he will be trapped directly.

Ye Xuan did not move, but stood silently on the platform and carefully observed the situation around him.

Before entering here, there is no such thing as a map or any other information about this secret.

Ye Xuan wants to explore this place, only to choose the route.

Centered on this platform, the broken continent can be seen everywhere.

Perhaps this mystery had a complete continent before, but it was divided into countless small pieces.

These broken mainlands are the existence of Ye Xuan that needs to be explored this time.

Because some of the broken mainland, it is the strongman who entered it, the cemetery of choice.

Just a short distance from Ye Xuan, there is a continent. On the mainland, a magnificent palace stands.

However, Ye Xuan did not intend to inquire about the meaning of the platform, so close to the platform, if there is any inheritance, Ye Xuan will not believe it.

Ye Xuan did not observe it for too long, because he was observing, did not experience it personally, and could not see anything at all.

As the figure jumped, Ye Xuan had already flew high.

Ye Xuan does not have any specific goals. He is now just a random choice.

A piece of broken continent retreated from the side of Ye Xuan.

And Ye Xuan, is also constantly choosing the target.

Finally, a broken continent caused Ye Xuan's attention.

This continent has broken the mainland and there is no such thing as a palace. However, it is strange to grow a mysterious plant. You must know that in this ancestral land, there is no sunlight, but plants exist. This is a bit strange.

Ye Xuan fell directly on the broken mainland, and then directly said to the system: "System, scan this thing, I have to see, what is he!"

"Hey, the system prompts, the scan is successful, the target is specified, the ghost vine!"

"Hey, the system prompts, detects a special plant, ghost vine, the host can look for the heart of the ghost vine, upgrade for Qianteng."

"Hey, the system suggests that the ghost vine is a fallen strong, the power and the law are condensed, said to be a plant, but it has an instinctive meaning, initially determined to be a dangerous level, please pay attention to the host."

Danger?

Here is the ancestral land, but the graves of countless strong people are strange if there is no danger.

However, I did not expect this to come, but I found out that I can use it to promote the good things of the thousand vines. Then, Ye Xuan naturally said that nothing will be missed.

The heart of the ghost vine, no matter what kind of existence of this thing, but only need to kill this ghost vine, will soon be able to find it.

Ye Xuan pulled out the sacred sword, and at the same time, let Megatron directly incarnate the magic weapon form, and then the two sacred swords are surrounded by Ye Xuan, ready to guard.

At the same time, Ye Xuan took out the law of the **** bow and held it in his hand.

"Thousand beast swordsman!"

Ye Xuan directly summoned a thousand beast swordsman, he will use the thousands of beast swords to test the strength of those ghost vines.

Accompanied by Ye Xuan's order, the Thousand Beast Swordsman directly summoned the god-level mount and rushed over without hesitation.

Ye Xuan stood in the same place, and there was no extra movement, but silently waiting.

The Thousand Beast Swordsman is constantly charging with a god-level mount.

These ghost cedars, at this time, seem to be true when ordinary plants are generally unresponsive.

Of course, the system prompts that the ghost vine is a dangerous level, so Ye Xuan will not believe that this thing is really that simple!

Suddenly, a ghost vine suddenly moved!

That speed is extremely fast, even if Ye Xuan is completely shrouded in the use of God, but what can be sensed, that is, you ghost vines moved, but what did you do, but it is not felt, because its speed is real Too fast.

However, in the twinkling of an instant, at least ten god-level mounts have disappeared.

Ye Xuan immediately gathered his gods there. After a while, he discovered that those god-level mounts had been completely wrapped in these ghost vines.

This ghost vine, as if it is a **** snake, is tightly attached to the main **** level mount.

After a few moments, the god-class mount will be strangled!

The upgraded mount, in front of him, has no resilience.

Strong and powerful defense!

Ye Xuan clearly saw that before the death of a god-level mount, it was a bite of a bite on the ghost vine, but unfortunately, there was no effect!

This ghost vine has an incomparably strong defense!

"System, detect the strength of this ghost vine! How is the defensive power so high?"

"Hey, the system prompts, the detection is successful, the host please note that the ghost vine has special ability, all the ghost vines here are actually only one, and the ghost vine can put all the branches according to their own wishes. Gather in any position."

Ye Xuan's heart was slightly shocked.

You know, in front of Ye Xuan, this ghost vine is full of every corner of this broken continent, even if it is called a forest.

However, I did not expect that this is just a plant!

And his special cohesive ability, but also let Ye Xuan shock, while the eyes are slightly bright!

You must know, for example, Ye Xuan's Qianteng, the defensive power and attack power of each vine are actually average, but if they can gather strength?

Then the combat power that can be improved is not one and a half.

Whether it is used for frontal combat or for yin, it can definitely have an unintended effect.

Imagine that Ye Xuan is using Qian Teng and the enemy to fight. Originally, there is no threat to the thousand vines. When approaching the enemy, they suddenly gather strength, which makes one of the vines suddenly have super powerful strength, fearing that it is any enemy. Will not be able to prevent!

good stuff! Good ability!

In the heart of Ye Xuan, I made up my mind, I must take the heart of the ghost vine, and then use it to strengthen the thousand vines!

Chapter 2386: Strengthening the thousand vines

If Qian Teng has this ability, then it is not powerful.

However, the surprise is not just this.

Just as Ye Xuan was observing this part of the ghost vine, suddenly, dozens of different law forces attacked like a god-level mount!

This is dozens of different law powers!

Is it that this ghost vine has mastered dozens of laws and forces.

"System, what's going on, why is Ghost Usa able to master so many laws?"

"Hey, the system prompts, the ghost vine has a special ability to swallow the store!"

"Hey, the ghost vine will capture the power of the law that he can capture, and once it is captured, it will be stored and erupted when it is needed."

Is there such an ability?

Ye Xuan's slight glimpse, this ability is simply too strong.

However, I am afraid that it is only suitable for renting land. After all, renting land may have super strong people entering at any time, and then fall into it.

What is the power of law?

That is a special power that cannot be said at all.

Even if it is the super powerhouse of the gods, you can only use the power of usage!

However, when they reached the main gods, when they fell, these ruled powers borrowed by them may only stay for a while, giving the ghost vines a chance to capture.

If this is changed to other people, such as those enemies killed by Ye Xuan, how can the rule power be retained?

At the same time of the fall, the power of law automatically disappears invisible!

Therefore, this power, let alone Ye Xuan can get it, even if it is obtained, it is actually useless.

However, looking here, it will undoubtedly become a hindrance to Ye Xuan's killing of ghosts.

"Thousand beasts feast!"

Ye Xuan has opened up the ability to feast on a thousand animals, which has once again improved the ability to upgrade mounts.

Although Ye Xuan does not expect to be able to defeat this ghost vine with only a thousand beast swordsman and a god-level mount, but Ye Xuan also hopes that he can understand this ghost through the thousands of beast swordsmen and the god-level mounts. The various abilities of the vine.

The ghost vines are constantly fighting with the god-level mounts, but it seems to be crushing.

Although the god-level mounts continue to attack, but they can destroy some ghost vines, but it is in vain, after all, there are too many ghost kiwis here!

How much can a god-level mount be destroyed?

Suddenly, Ye Xuan discovered a problem, that is, the ghost vines destroyed by the god-level mount did not seem to grow immediately.

Ye Xuan's mouth was slightly tilted. At the beginning, because of the relationship between the thousand vines, Ye Xuan thought that this ghost vine could grow indefinitely, but now it seems that this is not the case.

"Flower God Swordsman!"

Ye Xuan immediately, summoned the flower **** sword waiter.

Before Ye Xuan did not summon the flower **** sword waiter, because Ye Xuan felt that the flower **** sword waiter figured out, and it was of no use at all.

However, now that I saw this ghost vine can not grow indefinitely, Ye Xuan naturally changed his mind.

"Go, let's destroy it!"

Ye Xuan ordered, very soon, all the god-level mounts and flowers and flowers, began the crazy destruction.

It's not just them. At this moment, Megatron rushed out with two swords.

Ye Xuan pulls the law of the gods bow again and again, and all of them are all shots of the **** of engulfing the law.

Ye Xuan has a clear goal now, that is, to destroy, desperately destroy, destroy this ghost vine as much as possible.

There are constantly god-level mounts being strangled.

But at the same time, the ghost vines are constantly being cut off.

A piece of ghost vine fell to the ground, and after a while it turned into black smoke and disappeared.

And Ye Xuan does not care about this, he now has only one idea in his heart, to destroy it.

Even if the power of the ghost vines can be condensed, it is condensed by his numerous vines.

At this time, Ye Xuan constantly cut off his vines, does not mean that he is constantly weakening his strength!

Although the god-level mounts and the flowers of the flowers are constantly disappearing, Ye Xuan does not suffer.

Finally, when the last god-level mount was also strangled, Ye Xuan decisively withdrew from the battle.

He is waiting, waiting for the cooling time to arrive, then, it will be a new wave of attacks.

Ye Xuan, is to live this thousand vines, killing and killing.

One day, two days, three days...

Finally, most of the ghost vines have been cleaned up. At this time, Ye Xuan's face is only a hundred ghosts and vines. These ghost vines are no longer threatening to Ye Xuan. .

At the same time, the so-called ghost vine heart has finally emerged.

It turns out that this ghost vine is as capable of condensing power.

The so-called ghost vine heart is also distributed by him on all the branches of vines. With the constant killing of Ye Xuan, then the power of this ghost vine heart can only continue to retreat to the rest. On the vine.

"A plant is a plant after all, but unfortunately, although you have such a powerful force, after all, you are nothing but a ghost vine, you only have combat instinct, but you don't really have wisdom!"

Ye Xuan faintly looked at the ghost vine in front of him, whispered.

Although he knew in his heart, it was impossible for the ghost vine to hear what he was saying.

"kill!"

Ye Xuan gave a command, and once again cooled down the time, and then summoned the thousands of beast swordsman, the flower **** sword waiter, they rushed directly with the god-level mount and the flower-flowered god.

And the two sacred swords will not be pulled down, and the same is rushed over.

A period of ghost vines constantly cut off, and finally, when all the ghost vines disappeared, a dark green light group stayed, it is the so-called ghost vine heart.

"Wan Teng!"

Ye Xuan did not hesitate in the slightest. He fought for so long, not to strengthen Qian Teng.

Qian Teng suddenly rushed over and absorbed the group in a moment.

But unfortunately, it has not been promoted!

Also, it is only if Qian Teng is so easy to promote.

But Ye Xuan can clearly feel that Qian Teng's strength is much stronger.

Especially at the moment, the thousand vines already have the ability to gather strength, so the natural power is greater.

Ye Xuan was not in delay, got up directly, and once again rushed toward the distance to find the next target.

However, Ye Xuan does not know that, in fact, this ghost vine is only the ancestral land, the lowest level of existence.

Even if it is called weeds, it is not too much.

However, it is a weed in the area of this ancestral land, so it has such a strong strength, completely blocking Ye Xuan more than half a month!

It can be seen how powerful this ancestral land is.

In fact, Ye Xuan's heart is also very clear. It is impossible to explore this ancestral home in one breath.

Therefore, what Ye Xuan expects in his heart is just that he can get some chances in renting land. As for how far he can go, Ye Xuan has not considered it.

Chapter 2387: Mysterious box

After leaving this broken continent, Ye Xuan soon arrived at another broken continent.

Since leaving the first broken continent, Ye Xuan has been asking the system to keep detecting status.

Here, the system gave Ye Xuan a hint!

“Hey, the system prompts, it detects special materials that can be used to repair the armor of the gods, it is recommended to collect the host!”

Yes, it is the material to repair the armor.

Since Ye Xuan got the armor of the gods, because the degree of disability is too much, it can only exist in the ring.

But did not expect that this time it turned out to find the right material.

Ye Xuan naturally did not hesitate, and soon came to the top of the broken continent. When Ye Xuan saw the broken things on the mainland, he could not help but move.

Because, in front of Ye Xuan, it turned out to be a building like a inverted pyramid!

This building, specifically composed of what, Ye Xuan did not know.

However, at the bottom, it is a door!

From this door, the entire chamfered gold tower will continue to enlarge!

Ye Xuan walked into it and found that the door turned out to be an elevator.

You only need to think about the control, and then push the power, you can rise up.

Here, it is a treasure house!

But there is nothing underneath, even if it is, it has already been taken away.

It was not until Ye Xuan entered the ninety-ninth floor that he saw the first item.

A box, a box that didn't know what wood was made, Ye Xuan did not hesitate and jumped directly from the lift.

The box is very simple and can't see anything special. However, when Ye Xuan tried to explore the contents with his mind, he suddenly found out that God could not see the things inside.

What is this thing?

turn on?

Ye Xuan hesitated and finally opened it.

Of course, the necessary preparations still have to be. After all, among the ninety-nine layers, the rest of the world is very empty. Only such a box is placed at the intersection.

Such a conspicuous position, no one actually took it?

Why are they not normal?

Ye Xuan holds the law of the **** bow and directly retreats a hundred steps. Megatron controls two swords and prepares for the attack.

Subsequently, Ye Xuan was summoned to the Wan Xun swordsman!

Wan Xun's swordsman has no attacking power, but his feelings are very keen. If there is any danger, he is afraid that the first ambulance is him, so it is most appropriate for him to open the box.

However, when Wan Xun's swordsman tried to try, he suddenly found out that he couldn't open it!

Is it that Wan Xun's sword is too small and not enough?

Although this reason is somewhat ridiculous, but Ye Xuan can only think like this, without hesitation, Ye Xuan directly summoned the bones of the sword.

Anyway, the Bone Swordsman has already been eliminated. Ye Xuan does not know how long it has not used it to fight. At this moment, it is used to open the box, but it is also let him come out to release the wind.

However, the bones of the sword are still unable to open the box!

"Damn, what is special about this box?"

Ye Xuan slightly frowned.

"Megatron, destroy me this box.

Ye Xuan directly issued an order.

Megatron launched instantly, and the two scorpion swords slashed directly toward the box.

It's useless, it's useless, and even the Excalibur can't even open this mysterious box.

This time, Ye Xuan is really interested.

Also refused to take more, Ye Xuan went directly to the box.

The law of the gods bow was taken up by Ye Xuan, and then Ye Xuan's hand stretched out...

Suddenly, the violent incomparable attraction suddenly broke out, and the power of Ye Xuan's body flooded into the box like a tide!

"Damn, what's going on!"

Ye Xuan is in a big heart, but he doesn't have much.

"System, think about it!"

Ye Xuan can only call for help from the system. At this time, Ye Xuan, in addition to his thoughts, could not move half a point at all, that is, the heartbeat, and it stopped completely.

The divine power is constantly sucked away by the box.

This **** box, what a ghost thing, why is this so powerful attraction!

"Hey, the system prompts, it detects that the host is affected by the unknown situation and the power is seriously lost, looking for a crack solution!"

"Hey, the system prompts, looking for failure! Start the emergency plan!"

"Hey, the resource exchange is successful!"

Ye Xuan has not saved a little bit of resources. At this moment, it has been turned into a divine power, and then it has been continuously absorbed. The box is like a bottomless pit, constantly consuming the power of Ye Xuan!

"Oh, the resources are exhausted, and the faith value is exchanged for divine power!"

Resources, nothing!

Ye Xuan's heart was so utterly inconspicuous that at this time, he could not do any reaction at all, and he could only let the box continue to swallow the power of his body!

Ye Xuan has always been engulfing others. I did not expect that he also had a day to be swallowed up.

The most important thing is that he is still a box!

The value of faith quickly disappeared, and countless powers poured into Ye Xuan's body, but soon, they were sucked away by the box.

"Hey, the system prompts, the belief value is exhausted..."

Finished!

Ye Xuan's heart actually gave birth to this feeling for the first time.

However, he did not have time to think too much, but he felt that the box actually focused on the devour space, and then quickly absorbed the power from the phagocytic space!

Ye Xuan's heart is very sad, can you say that today, he really wants to be here, is it sucked by a box?

He Ye Xuan finally understood why no one in the box would touch, because the person who touched the box has been absorbed!

However, what the **** thing is!

Why is it here, even if it is here, why is it so powerful!

Ye Xuan wants to close his eyes, but unfortunately, he can't move.

The fascination of the power in the space has passed, and even Ye Xuan can feel the biological plants inside are languishing.

This box is exactly how much power is swallowed up!

"Hey!"

Suddenly, a soft bang, then the box slowly opened!

Can it be said that if you devour so much power, you just want to open this box?

If this is the case, then, is this box too perverted?

Suddenly, a ray of light flew to Ye Xuan, and Ye Xuan could feel what seemed to be on his head.

At the same time, the system prompts.

"Hey, the system prompts, congratulations to the host, and unexpectedly found the crown of the ancient Emperor of the Emperor!"

"Oh, the crown of the emperor has already recognized the identity of the ancient gods on the host, and automatically recognizes the success of the Lord!"

"Oh, the crown of the emperor is the only proof of the ancient Emperor, with the crown of the emperor, it is considered to have the completed inheritance of the ancient gods! And all the ancient emperors left the forces to recognize!"

Chapter 2388: Chamfering tower

Ye Xuan has a slight glimpse.

The crown of the emperor, the inheritance of the ancient gods?

What is going on here, why is the crown of the emperor of the ancient gods, why is it in the ancestral land of the Kunlun gods?

What is the situation?

Ye Xuan couldn't understand. He didn't understand what he thought.

Can it be said that the ancient gods were the people of Kunlun?

Obviously this is not the case. The ancient gods should be the other gods, because Ye Xuan came to this Kunlun domain, now it is a bit of strength and background, but no one has come to him!

Then, the crown of the emperor of the ancient gods appeared here, but what is it?

However, no matter how Ye Xuan guessed, in fact, now he is powerless.

Soon, Ye Xuan resumed his ability to act, and he did not suffer any damage at all. Except for a large amount of divine power being sucked away, nothing else was affected.

Ye Xuan used his mind to look at his head, but did not find the so-called crown of the emperor, but in the forehead position, there appeared a strange pattern, is this pattern the so-called crown of the emperor?

However, what is the use of this thing?

I almost sucked Ye Xuan into the adult, and even the swallowing space was absorbed by a lot of divine power. If there is no use at all, then Ye Xuan can lose money!

"System, to detect the crown of this emperor, I need detailed information!"

"Hey, the system prompts, the data is scanned!"

"Oh, the success of the scan, the crown of the Emperor of the Ancient Emperor, is the power of the heavens, the unknown special items of the mysterious land, the fusion of unknown special materials, combined with the special unknown law."

"Hey, the current state of the host is too low, so only open the rule of the crown of the king to improve the property!"

Ye Xuan was confused. Facing the unknown of this blockbuster, he was directly confused. He did not know what was going on.

It's all unknown, and obviously, because it's not enough, you can't know what the materials and rules are.

But this also illustrates the problem on the side, that is, the crown of the emperor is not a thing of leisure.

Counting it, Ye Xuan is a white one for a big day!

Although the crown of the emperor is only increasing the resistance of the law, but after all, with the improvement of his own strength, there may be new features may appear.

Besides, the rule of resistance is also a very good attribute. Ye Xuan can still be content, even if this thing, according to the truth, this should belong to him!

.....

What Ye Xuan didn't know was that in the distance he couldn't see, there was a pair of eyes through a special magical power, silently paying attention to this scene. When Ye Xuan took up the crown of the emperor, the talent stopped peeping!

.....

Ye Xuanxin looked at the box on the ground, but found that the box actually turned out to be an ordinary wooden box. That is to say, the fascinating rune of Ye Xuan's forehead, the so-called emperor crown.

Not hesitating, Ye Xuan re-entered the lift, accurately looking for the treasure that can be used to strengthen his own armor.

The lift continues to move forward.

This chamfered gold pagoda, as it goes up, the space is bigger. Fortunately, Ye Xuan has kept the system in the state of detection, so when I was on the 1963 floor, I finally heard the system prompt.

"Hey, the system prompts, the host please pay attention, find the specified target!"

Ye Xuan stopped rising and went straight into this layer.

This layer is a strange labyrinth, but there are some strange sounds here compared to other places.

"Shashasha..."

From this voice, Ye Xuan can judge that some kind of small animal is crawling, but what is it, Ye Xuan does not know.

"Millions of swordsmen, go find me the way!"

Ye Xuan released the Wan Xun swordsman. After all, he did not know what was waiting for him in front.

Wan Xun's sword rushed out quickly, but returned faster.

However, when Wan Xun's sword returned, he followed a lot of ants!

No, this should not be called an ant, even if it is called a ant!

Although these things do have the appearance of this ant, but they have the size of a cowboy, the key is the quantity, it is endless!

"Damn!"

"Destroy the gods!"

Ye Xuan did not hesitate any time, pulling the sword, waving the sword, in one go!

A Jianguang moment rushed over.

"Hey!"

"Hey!"

Not many hundred ants are killed, but compared with the size of the group, it is nothing!

"boom!"

Ye Xuan's foot was forced to rise directly, and he didn't want to be dragged by these ants.

However, what Ye Xuan did not think of was that the moment he vacated, the gods on the ground, there are tens of thousands of heads directly into the air!

"Megatron, kill me for them!"

Ye Xuan did not hesitate to release Megatron directly.

It can be said that these **** ants have almost no powerful combat power, but they are too many, and my defense is extremely strong.

Even if it is a sword, it is difficult to kill them with a sword!

These, what is it, Ye Xuan floats in the air, and retreats.

But to quit this way is not a solution at all.

Suddenly, on the side of Ye Xuan, a strange beast rushed out and flew directly from Ye Xuan's front, and did not dare to stay for a while, while Ye Xuan looked at the past, but found that a group of gods were chasing Behind him.

On the body of the beast, there are still more than a dozen ant, some have been killed by the beast, but the big mouth like a pliers still bites on the beast.

This is a beast, and the thunder that has been constantly radiated from the time he runs has already let Ye Xuan know that this beast also has a certain strength.

But at the moment, in the face of the ant colony, there is no other choice than to escape.

From the system's tips, Ye Xuan already knows that what he wants is right in front of him, just behind this group of ants, but this group of ants, Ye Xuan really can easily clean up?

"System, detect the strength of these ants!"

"Hey, the system prompts, specifies the target, the sacred king ant, the defense is strong, the attack power is average."

God bone overlord ant?

Ye Xuan suddenly felt that the name was a little price.

However, this kind of **** ant is eligible to be called the overlord ant!

Can repair the treasures that devour the armor, Ye Xuan must get it, so at this moment, Ye Xuan can not manage so much.

The strength of this thing lies in its defensive power, but the sacred sword is not a vegetarian!

Besides, Ye Xuan has other methods.

"Intelligence control!"

I saw that Ye Xuan raised his hand, and there were hundreds of sacred tyrants who were controlled by Ye Xuan and turned to fight against their companions. At the same time, they also opened a way for Ye Xuan.

Chapter 2389: Ant colony

Ye Xuan is not hesitating, and walks straight ahead. At the side of Ye Xuan, two scorpion swords are constantly encircling, ready to kill those fish that are leaking nets, and on the periphery, there are constantly controlled by the spirits. Construct a corridor for Ye Xuan.

Ye Xuan walked toward the front step by step. At his side, the battle continued to break out. A head sacred tyrant ant fell to the side of Ye Xuan. Unfortunately, there was no slight influence on Ye Xuan.

I don't know how far it is going. After all, it is like a labyrinth. It wanders around and leaves Ye Xuan lose some direction.

Fortunately, he finally came out.

At this time, in front of Ye Xuan, is a huge incomparable sacred king ant, and this is the queen of the sacred king ant!

"Hey, the system prompts, the target is specified, and the three products are waiting for the kingdom!"

The ant of the inferior **** kingdom!

It's a mystery of the ancestral land. It seems that anything is not unusual.

This queen's volume is enormously numerous compared to other ants. The most important thing is his body. This queen is actually a half man and a half ant!

"System, what is going on here, can it be said that this queen is about to evolve into an adult shape?"

"Hey, system prompts, data analysis!"

"Hey, the system prompts that the designated target is a spiritual creature that has been accidentally changed after the death of the Emperor of the Emperor."

Magical change?

Ye Xuan is wrong.

Since entering this ancestral environment, it has really been a variety of strange things.

However, this is just a sub-division of the three kings!

Ye Xuan is already a four-in-one **** kingdom. Isn't it right? He is not talking nonsense and launching an attack directly!

"Thousand beast swordsman, flower **** sword waiter, take me to block the intersection, don't let other gods come over and mess!"

Ye Xuan gave a command, suddenly, between thousands of head-level mounts and hundreds of flowers and flowers directly appeared, blocking the intersections, and the ants who came to the reinforcements to fight, and Ye Xuan himself directly toward that The queen rushed over.

"Megatron, out!"

Megatron controls two sacred swords and does not score directly to the queen.

The fourteen gods of annihilation suddenly started.

"boom!"

"boom!"

"boom!"

The power of violent let the ant retreat a few steps, but it did not suffer any damage!

The power of destroying the gods is only to let the ant back a few steps.

Ye Xuan's brow slightly wrinkled, this defense is not too big.

"Hey..."

A strange sound wave came from the mouth of the queen. Obviously, Ye Xuan's behavior angered the queen.

I saw this sound wave fast back in this layer of space, countless gods ants immediately violent, and did not fear the death of the charge.

A head-level mount was drowned by the gods.

These ants are almost crazy!

"Thousand beasts feast!"

Ye Xuan launched a feast of thousands of beasts. He can't wait to support the thousands of beasts at that time. Therefore, he can only hope that the thousands of beasts will be able to persist for a while.

"Damn, I still don't believe, I can't help you with this animal!"

The rule of Ye Xuan is opened, and the laws of the gods continue to fly to the queen.

The queen of the queen suddenly shines a strong light, directly resisting most of the laws and arrows, but there is still a part of the rule of the gods hit the queen, but it is not useful, even Ye Xuan's most skilled engulfing law The arrow can't cause a little damage to the queen!

how is this possible!

Ye Xuan's brow wrinkled, and he finally met an enemy whose realm was lower than him, but he could not help him.

"Absolute zero!"

Ye Xuan once again released a big move, absolutely zero, able to freeze the queen.

In fact, this is exactly the case. When Ye Xuan released the absolute zero point, the queen had no time to dodge, so it was directly frozen. However, when the ice was sealed, Ye Xuan and Megatron's control of the sword also launched an attack. At the time, I suddenly found out that it was useless!

It is the armor on his body!

It is the outer layer of the ant behind the armor, which is actually able to resist all the attacks of Ye Xuan!

Including the sword!

How can I fight this?

Ye Xuan is dumbfounded, his attack is not effective for him, how can he play?

Even in the absolute zero point, let Ye Xuan attack, can not break his shell, can there be a way to kill?

Ye Xuan figure retreats, and at the same time, the mind has already quickly thought about it. Obviously, the special material detected by the system is probably the shell of the queen. Because of such a strong outer shell, it is indeed qualified to repair the armor. .

However, if you want to get this shell, then Ye Xuan must have to kill this ant.

What should I do?

The power of the law is almost ineffective against it.

The sword is so sharp that it cannot break his outer shell.

So, what can Ye Xuan expect now?

Spiritual control?

No, the mental power of this queen is much more than Ye Xuan, and Ye Xuan is not willing to control the queen.

So, what other means?

Suddenly, Ye Xuan's eyes lit up and he thought of a possible solution.

"Megatron, the magic weapon!"

Accompanied by Ye Xuan's order, the sword was automatically returned to Ye Xuan's hand, and Megatron also changed rapidly.

One, two, finally, the third form, Ye Xuan found what he wanted.

This is a weird sledgehammer, but it has a power, that is to become bigger!

Moreover, there are no other additional effects at all.

If Ye Xuan was afraid that he would not look at this thing at all, but today, Ye Xuan and so on are such blunt instruments.

The law is infinite and the armor is invalid.

So what about blunt instruments?

"Get bigger!"

For a moment, the big sag instantly became bigger, and Ye Xuan slammed the sledgehammer directly.

"Absolute zero!"

Even Ye Xuan has to limit the ability of the queen to continue to move.

Look, two times, three times...

Ye Xuan himself did not know how much he was smashing.

However, under the mad attack of Ye Xuan, the queen was finally killed.

The queen is not without rebellion, but after being slammed down by such a blunt instrument, what can he do to prevent it?

Under the absolute zero point, the queen can not do even a half-point action, and can only be killed alive!

At this point, if you look at it from the outside, there seems to be no change in the queen, but it has been smashed innumerable times by this giant hammer. Even the genius of the queen has been smashed, not to mention other ones. .

Ye Xuan smiled slightly, and immediately waved the corpse of the queen to engulf the space. After all, this queen was used to repair the gods!

This queen, gave up a lot, focused on improving the defense, although he was himself a fearless soldier, not afraid of the existence of the law, but unfortunately, he still has weaknesses.

Chapter 2390: God blame

After all, the queen has only cultivated a layer of ingenious shell, but it has not been as strong as all the things in the body.

This time, Ye Xuan killed the ants, saying that it was accidental, but it was accidental, but more reasons were that Ye Xuan caught the real shortcomings of the queen.

At this moment, the defense line that the thousand beast swordsman led the god-level mounts, and finally could not hold on, was directly attacked.

Of course, Ye Xuan did not care about this at all. He was a flash, infinitely teleported, and he came to the elevator position.

The reason why I have to go step by step is because Ye Xuan is going to find what he needs, and at this moment, when things arrive, Ye Xuan will not delay time.

After a while, Ye Xuan had already come outside, but did not leave immediately, but was prepared to fix the 铠神铠.

"System, material, start to forge!"

“Hey, the system prompts, forging begins!”

“Hey, the system prompts that the initial repair of the armor is successful, and the current damage is 50%. The host is ready for use.”

Since it is already available, Ye Xuan will not be wasted, and the scorpion armor will be placed directly on the body.

This sacred armor has been built through the system, and it can be said that the appearance has changed greatly. The mighty and elegant style, a few divine power bands are automatically emitted, surrounded by Ye Xuan, adding the mystery of Ye Xuan.

For Xuan Shenjia, Ye Xuan is still very satisfied.

But when Ye Xuan was preparing to continue to observe this sacred armor, he drove into the chamfered urn, and countless gods actually chased it out.

Ye Xuan did not hesitate to stand up and quickly leave here.

Also, Ye Xuan killed the queens of these **** ants, and they were strange when they did not go away.

Among the ancestral homes, Ye Xuan has no goals at all, just exploring casually.

Next, Ye Xuan also found some materials that were of some use to him.

There is no time limit in the ancestral environment, as long as you can stay inside, how long you can stay long.

This is because the ancestral land is only rewarded to the super genius who has made great contributions to the domain of God. Therefore, there are relatively few people who can get qualified.

Of course, it is impossible to stay in the ancestral environment.

Even if you can endure the loneliness in the ancestral world, the powerful corrosive power and the powerful presence that can be seen everywhere will force you to quit.

Ye Xuan relies on the system's prompts to avoid dangers again and again, even if she knows that there are good things in front, but as long as the system is early warning, then Ye Xuan will give up.

Anyway, no one here grabs it with himself. Then Ye Xuan can't make a strong existence for a treasure. Instead of looking for a few pieces of treasures.

However, sometimes, the plan still can't keep up with the changes.

At this moment, Ye Xuan was struggling with the choice in front of him!

“Hey, the system prompts, detecting special materials, and nucleus.”

"Hey, the system suggests that the nucleus of the nucleus can be used to strengthen the various swordsmen, and at the same time, if the host devours itself, it can also get special attributes."

"Hey, alarm, alarm, detect the powerful beast, the sword host immediately leaves!"

The system has a series of continuous prompts, which directly makes Ye Xuan hesitate.

Misfortune crystal nucleus?

It is also a kind of crystal nucleus that Ye Xuan has not heard. In fact, Ye Xuan's swordsman is indeed somewhat weak, but he has not found a suitable material reinforcement. Ye Xuan has no way.

But now, in front of Ye Xuan, there is such an enhancement, which can be used to strengthen Ye Xuan's sword power.

However, in order to obtain the material, it is necessary to defeat the beast, and it is the beast that the system has issued an alarm.

How to choose?

For a time, Ye Xuan was caught in a dilemma.

This time, I can't allow Ye Xuan not to think carefully.

After all, things like the glory of Shenjing can be said to be met and not available. Once successful, then Ye Xuan will make a big profit.

At the same time, if it fails, then Ye Xuan has to start the token to leave.

This ancestral environment is not to say that you can come, you can only get the token if you get the token from your hand.

So, the next time you want to come in, you don't know when to wait, if you fail, then Ye Xuan doesn't know how much resources to miss.

Do you want to break the continent at this moment?

Ye Xuan bit his teeth, and finally decided to go in!

Ye Xuan, be prepared to gamble.

After making up his mind, Ye Xuan fell directly on the broken continent. In a flash, a powerful force directly locked Ye Xuan.

"Hey, alarm, alarm, the host is locked by a powerful beast!"

Ye Xuan looked outside and tried to find the position of the beast. Soon, Ye Xuan discovered him. This is a very strange beast.

Because this beast has only one foot, but has five hands, and the eyes are all over the body, but the mouth and nose are not there, but there is an ear, the most peculiar thing is that his ear is actually the mouth!

Ye Xuan, who looks so weird, can never say that she has never seen it.

"System, what is this thing?"

"Hey, the system prompts, specifies the target, the gods and beasts!"

Gods and beasts, if the gods are strong, if they are unwilling, they will have the chance to form such beasts. Their appearance is randomly generated, but there is one thing in common, that is, a special magical power that can inherit the fallen gods. Or the law!

The gods and beasts will have different personalities according to the final regret of the fallen gods, and the resentment that Ye Xuan now faces is a loneliness.

At the time of the fall of the Emperor, although he voluntarily came to the ancestral land, he did not die immediately, but survived here for thousands of years.

The millennium time makes this god's heart so lonely, so in the event of the final fall, the only obsession in the heart is to hope someone to accompany.

And this obsession is the head of this blame, and the most wanted thing to do is to leave everyone who has entered his territory and to accompany him forever.

Gods and beasts have one thing in common, that is, they are not willing to leave the place where they lived, that is, the broken continent. It can be said that any animal in the ancestral land will not easily leave its territory. This **** of resentment is even more extreme.

It can be said that most of the gods and beasts have never left the broken continent that gave birth to him since the birth.

The biggest complaint of this head of resentment is that he wants someone to stay with him forever. At this time, Ye Xuan suddenly fell, he did not hesitate at all, and directly locked Ye Xuan.

When Ye Xuan came to the ground, he regretted it slightly.

Because, this head of the gods and beasts, is a product of a medium **** kingdom!

Ye Xuan was the fourth king of the world, and it can be said that the gap is huge!
