

Super D. S 2391

Chapter 2391: Difficult to solve

It is hard to add to the fight against this blame!

Thousand beasts swordsman, flower **** swords wait for these, Ye Xuan is too lazy to summon.

Because Ye Xuan is clear, the summoning does not have much effect at all. Now, I look at what kind of powerful means the gods and blasphemes have.

It can be said that if the magical powers or laws he inherited are stronger, then Ye Xuan will have no chance and can only be forced to use the token to transmit immediately.

However, how can Ye Xuan leave?

The sacred sword was pulled out, and Ye Xuan was thinking about countermeasures quickly.

This broken continent has many buildings. Obviously, his original owner has created this place very beautifully, but it is precisely because it is too chic to show the unwillingness of this person.

Ye Xuan did not know why this person was fallen because of what, but Ye Xuan was able to know that this person was full of resentment even if it was fallen.

Unfortunately, though, how can it be beautiful?

In the ancestral land, there is no sunshine, no vitality, nothing, even if it is beautiful, then it is just a person to appreciate it alone.

Of course, Ye Xuan observes this, not to guess the idea before the man died. Ye Xuan, just want to find out the terrain that can be used.

Unfortunately, Ye Xuan was disappointed. There is nothing here.

Ye Xuan silently observed the surrounding, the gods and beasts are also silently observing Ye Xuan, and, although he completely locked Ye Xuan, but as long as Ye Xuan does not easily move, he will not attack Ye Xuan.

After carefully examining the surrounding children, Ye Xuan finally gave up the idea of borrowing the terrain. It seems that this time, he can only be hard-pressed and able to kill the gods and beasts. Then, Ye Xuan can get a lot of The benefits can be continued.

But once it fails, nothing is gone.

"Hey!"

Accompanied by Ye Xuan's order, Megatron instantly deformed and simultaneously manipulated two scorpion swords toward the gods and blasphemy!

Perfect hit!

However, Ye Xuan is not happy, because the sacred sword is directly traversed from the body of this blasphemy, without causing any harm to the gods and beasts!

Ye Xuan brows wrinkled, this guy, actually immune physical damage!

"Destroy the gods!"

In an instant, Megatron also manipulated two scorpion swords to launch the gods.

"boom!"

"boom!"

"boom!"

All hits, this time, it is indeed a reaction, but the effect is not as good as imagined, destroying the gods and smashing the blasphemy into several pieces, but in the blink of an eye, he actually merged together.

.

Damn it!

Ye Xuan's hand immediately appeared in the law of the gods bow, and he did not hesitate to shoot an arrow.

This time, Ye Xuan uses a charm, which is the flame of the attack.

In a flash, the sign of the **** bursts directly, and a huge flame directly surrounds the **** of the beast.

However, when the flames went out, Ye Xuan suddenly found out that there was no effect!

Ye Xuan launched three attacks in succession. The first two times were directly ignored by the gods and beasts. This third time, finally, angered the gods and beasts, and saw that the gods and beasts suddenly moved, and one of his hands quickly became longer. , getting bigger, and arriving at Ye Xuan in an instant.

"boom!"

Ye Xuan was actually a boxing fly!

Fortunately, there is now a guardian of the gods, and Ye Xuan has not suffered much damage.

But this punch also made Ye Xuan see the power of this soul beast. It can be said that Ye Xuan has no way to defend.

No, this is not the way to go, Ye Xuan may not want to stay here, or leave directly.

Biting his teeth, Ye Xuan once again rushed over, infinitely momentary launch, while at the same time, there is also the Yongye field.

Although Ye Xuan does not know whether the Yongye field can trap this soul, he can only try.

Subsequently, Ye Xuan was an absolute zero shot.

All of this depends on the effect of absolute zero.

I don't know if it is the spirit of the beast, or is it really affected by the field of the night, in short, the absolute zero, actually really trapped the soul beast.

"good chance!"

Ye Xuan suddenly moved, the rule of the gods bow did not hesitate to pull the bowstring.

The law of engulfing is the **** arrow!

Ye Xuan will take a look at it. If the body of this guy is swallowed up to the unknown void, he can still reunite.

However, Ye Xuan's first shot was shot, and he saw that the absolute zero has begun to crack!

This is absolutely zero, but it will be broken by this guy?

Ye Xuan couldn't think too much, pulling the bowstrings at his fastest speed.

One after another, the law of engulfing, the arrow of the gods rushed toward the gods.

"boom!"

A black vortex appeared, and Ye Xuan could clearly see that the gods and beasts constantly had black gas being sucked away.

It turned out that this guy's body turned out to be these black gases.

Although the surface seems to be an entity, but that is because he is too concise!

A series of attacks continued to launch, although the gods and blame eventually broke away from the absolute zero control, but by his side, there have been several black vortexes, and Ye Xuan intends to spread these devours to the side of the gods. throughout.

At that moment, the vortexes are constantly consuming the black breath of the gods and beasts.

Although the size of the gods and beasts has not become smaller, it can be seen that his body is not as solid as it was.

"Hey, the system prompts, the specified target level is declining, and the current nine products are waiting for the kingdom!"

Lost the black breath, can actually make this realm of the gods and beasts fall?

Ye Xuan is slightly wrong, this is something he has never encountered before.

Of course, no matter what the reason is, as long as the strength of the gods and beasts is weakened, it is a good thing for Ye Xuan.

However, the nine products wait for the king of the king, it seems that Ye Xuan is not an opponent at all!

Ye Xuan now has almost no cards, only the usual means of attack.

Fortunately, the law of engulfing God Arrow can also have an effect on this guy.

"Absolute zero!"

Ye Xuan is not hesitating, once again absolutely zero shot, since the absolute zero with the engulfing law God arrow can effectively weaken this guy, then, Ye Xuan naturally will not give up the use of this means.

Hey!

Suddenly, the body of the blasphemy suddenly swelled, and at the same time, the five hands attacked Ye Xuan at the same time. Apparently, Ye Xuan angered him.

"Hey!"

Ye Xuan was hit in a row. If it wasn't for the guardian of the armor, it was enough that this set of combos would be enough for Ye Xuan's life.

This guy, simply did not receive the influence of the Yongye field, the first time he was able to trap him with absolute zero, at the root of it because he dismissed Ye Xuan!

At this point, once he angered him, the success rate of absolute zero dropped significantly, but fortunately, occasionally he could hit.

Ye Xuan's mouth is full of blood. This guy is too difficult.

In addition to using the engulfment of the gods, Ye Xuan could not find any way to deal with him.

This battle has directly become a battle to test perseverance, or Ye Xuan can first weaken the strength of this godly beast to the lowest, thus killing, or, Ye Xuan is trapped by this blame.

Now, the competition is who can hold on for a long time.

Chapter 2392: Shenfeng

The only strange thing about Ye Xuan is that this guy didn't use any special magical powers at all, but it was just a pure physical attack.

According to the introduction of the system, the gods and beasts can inherit the power of a **** or a special law of the fallen gods, but they do not want to, the gods and beasts that Ye Xuan faces are not at all.

Of course, this is the case, Ye Xuan is also very difficult to clean up, if it is really inherited a special magical power, afraid that Ye Xuan has long been unable to resist.

The battle lasted for seven days. During the seven days, Ye Xuan smashed the defense of the armor of the gods, resisted the attack of the gods and beasts, and then constantly searched for opportunities to launch absolute zeros, and then used the engulfing law to constantly weaken the god. Resentful.

Finally, on the seventh day, Ye Xuan succeeded in destroying this guy with the engulfing law.

In the ancestral world, there is actually no concept of time. After all, there is no other source of light except the wildfires.

Defeat this blame, and finally wait until the harvest.

When Ye Xuan saw the nucleus of the nucleus, he was hesitant in his heart. This sorrowful ***** Shen Jing, who should I use it for?

The system has suggested that it can be used to strengthen the swordsman, but it can also be used to swallow.

It can be said that these two options each have their own advantages. For a time, Ye Xuan also made up his mind, so that he temporarily collected it. He prepared to leave after the departure from the ancestral home!

.....

Time flies, and soon, thirty years have passed.

In the past 30 years, there has been no situation within the territory of the nine parties, and the battlefield of the Lord God has also fallen into a deadlock.

The great forces of the Jiufang Divine Realm know that Ye Xuan has made great contributions to the Lord God, and he has been rewarded by the Lord God to enter the ancestral treasure.

Therefore, no one dares to make trouble at this time.

After all, when Ye Xuan left, it was equal to the Lord God personally helping to supervise the nine parties and six thousand!

The development of Ye Zong is also gradually progressing.

Don't look at it for thirty years. In fact, for the realm of the gods, there is not much difference between thirty years and three years.

On this day, Ye Xuan finally came out, and he was embarrassed, but his face was ecstasy.

Because Ye Xuan immediately encountered a remnant of the Emperor after solving the Resentful Beast, and the system prompts can be conquered as a law.

The special ability of Wan Zun's blood is Wan Zun, and that the Fa, can be conquered as one of the thousands, and where will Ye Xuan be let go?

In the past 30 years, Ye Xuan has been searching for the ancestors continuously, but the remnant of the emperor is very rare. Therefore, he has only conquered the integration of the three laws into the blood of the eternal.

The use of the law phase has a cooling time, but Ye Xuan gets three phases at a time, which is equivalent to getting three cards. How can he not be excited? In addition, in the process of searching for the remnant, Ye Xuan also found a lot of Resources.

For thirty years, Ye Xuan did not improve any realm, but the resources he harvested were enough to make him happy.

On this day, when Ye Xuan came out of the ancestral home, no one noticed him.

Ye Xuan did not hesitate, and quickly rushed back to Ye Zong.

However, before arriving at Ye Zong, Ye Xuan first encountered flying smoke. To be precise, when Ye Xuan was on the road, the flying smoke appeared behind him.

"The son, you are out!"

Flying smoke looked at Ye Xuan and said with a smile.

For the flying smoke can appear in the air by Ye Xuan, Ye Xuan will not have any strange.

However, at this time, it is clear that he has returned to Ye Zong, why the flying smoke has to come in advance.

So Ye Xuan also smiled and said: "Is it something that 96,000 is going on, why would you come to me in advance?"

"Please rest assured that the son of the six parties is all right. The little girl came over in advance, and wanted to let the son move to the settlement of my family first, so that the son can make arrangements."

"It turned out to be like this, good, you come to lead the way!"

Before Ye Xuan participated in the collapse of the main god, he flew to find his people. For 30 years, the flying smoke has of course brought his people.

In fact, the people of the flying smoke and the people of the Shenfu tribe of Xuanxuan lived together at this time.

Because of the speciality of the two races, they arranged a mysterious array of methods. Even in the nine-party environment, few people can know their position.

However, many of the Shenfu people have already participated in Ye Zong, because they have participated in Ye Zong, they can have reasonable reasons to go out and practice, Ye Xuan is the patriarch of Ye Zong, and at the same time is the honorary elder of Xuan Xuan, naturally Xuan Xuanzong did not have any opinion on the worship of Ye Zong.

However, it is difficult for some people who fly cigarettes to arrange.

In fact, the people of the flying smoke are not simple, and the people of the flying smoke are awesome and mysterious gods!

In the realm of the gods, many people know the legend about the gods. However, most of the gods have fallen in the ancient times, and the remaining gods are also used by the forces of all parties, and are constantly decreasing. .

Today, there are not many people who have survived.

The number of people flying cigarettes is only 3,000, but it is already a larger tribe of the gods.

Of course, the gods are undoubtedly the spirit of the spirit, but the racial talent of this race is the seal!

This is a powerful force, and there is no need to cultivate at all. As long as it is a tribe of the gods, they can learn automatically, they call it a seal of life!

Once the life seal is launched, any life in the designated area will instantly lose a certain amount of life and repair!

This is the horror of the gods, their talents are simply to make countless people fear.

However, the talent of their race is a seal.

The seal is also a mysterious sub-professional.

It is a nature with the instrumentalist, the mage, the refiner, etc. However, this sealer does not want to be human, but seals each other.

The gods have mastered many strange seals, and the ones that are most known to the outside world are their words!

That is to say, in one sentence, it is possible to seal the deity of a strong person, so that this strong person can't even use it with half of the divine power. This is the horror of the gods.

Many years ago, the people of Feiyan were taken care of by Ye Xuan's cheap master and the ancient Emperor, and then found a hidden place to recuperate, but when the ancient gods were mysteriously fallen, they were like other forces attached to the ancient gods. In general, the people of the flying smoke have also been paid off.

This time, when Ye Xuan re-emerged, they naturally did not hesitate to come and go.

In their hearts, don't look at Ye Xuan is now only a nine-party 60,000-degree festival, but the achievements in the future are definitely not just a little bit.

When Ye Xuan came to the settlement of the gods and the gods, he did not think that Ye Xuan did not think that the two people were very harmonious, but they were united to prepare a seal.

Of course, Ye Xuan is no matter how they toss.

This time, Ye Xuan is preparing to bring the two families into Ye Zong.

Ye Zong has his own secrets. Ye Xuan's meaning is very simple, that is, to give the two communities a separate secret, so that they are more secure.

After all, Ye Zong is Ye Xuan's old nest, and the safety factor is of course much larger.

When I heard Ye Xuan's arrangement, the two families naturally did not refuse, and immediately followed Ye Xuan and returned to Ye Zong.

Chapter 2393: Looking for extinction

Of course, in the past 30 years, there will be many changes, although for the real Kunlun domain, it will not have much impact on the battlefield of the Lord God, but there are still some small moves in the territory of the six parties. of.

Ye Xuan was only returned to Ye Zong, and someone reported it to him. In the past ten years, among the nine parties and six thousand, there has been a mysterious force pouring in.

This force has invaded a large number of rare resources and minerals, secrets in various places, robbed and swallowed beasts, invaded the marginal areas, and even directly robbed Xiaozongmen and so on.

Before Ye Xuan left, she had specifically stated that she should observe the internal situation. Therefore, when the information was summarized, Ye Xuan understood who was in trouble.

Not the organization, but who else?

This destruction of the organization, it is really a ghost, as long as they can find opportunities, they will not let go, this organization will always try every means to enhance their own strength.

However, at the beginning, it made Ye Xuan feel that the powerful genre was in the air, but now, in Ye Xuan's eyes, it is no different from the bandit thief.

Ye Xuan's first thing to return to Ye's total is to prepare to clean up the organization. At least, in the 90s of the nine parties, he will let the organization disappear and quiet.

"The order is passed down, and the various sects of the nine parties are ready to go. After ten days, the whole situation is synchronized, killing these ants!"

Ye Xuan issued the order to make the order. As the supreme ruler of the 90-party regiment, he has the right to mobilize the power of the entire nine-party 60,000 environment for his own use.

Along with Ye Xuan's order, countless sects, families, cities and other forces quickly acted.

Because of this action, Ye Xuan promised that the rewards and punishments can be implemented according to the military power system. Then, naturally, all the forces will be supported.

The military power system has been in operation for 30 years. Many people and many forces have gained a lot of benefits from it. Then, at this time, the actions within the ninety-six thousand environment can be military strength, such a good thing, everyone Will not refuse.

Ten days later, from Ye Zong, a large army of more than 30,000 people was directly opened. Of course, the number of people at the same time was even greater. It was so difficult for Ye Xuan to count statistics, from hundreds of thousands to hundreds of people. Between the various forces, their forces have sent their teams, and they are expected to receive certain benefits in this action.

Destruction of the organization, that from the beginning of Ye Xuan into the realm of the gods, has been plagued Ye Xuan's extinction organization, this time, Ye Xuan to give them enough lessons.

Countless strong people have been opened, and one after another, the organization has been pulled out. Of course, some may not be destroyed, but as long as there are bad records, this time, they will be cleared.

The 30,000 people with Ye Xuan, the goal is the so-called grand altar.

We must know that these 30,000 people are all composed of strong men above the kingdom of the kingdom, and some are the strong ones sent by the various forces. The other part is the **** that Ye Xuan exchanged from the Qingu space through the force division system.

A large group of squads directly rushed into their targets, Feng Tianshan!

Mount Tianshan is a huge mountain range. There are many beasts here. At the same time, the environment is very harsh, so few people will come here. However, it is precisely because of this that the people who do not destroy the organization are the headquarters.

The headquarters of the entire nine-party 60,000 environment.

Destruction organizations think they are hiding here, and their plans are perfect, but they don't know, Ye Xuan, they have long regarded them as stabs.

They think that Ye Xuan is a trusting degree, and there is no other kind of freedom for the control of the entire nine-party 60,000.

However, they underestimated Ye Xuan's means and underestimated the support of God's Lord Ye Xuan.

For thirty years, Ming Ye Xuan is not here, but because of his series of arrangements, because of his strong support, the entire nine-party 60,000, has already returned.

"The festival makes adults, it is here. According to our intelligence, the headquarters of those people are here."

"There are constantly plundering resources from all walks of life, and according to the information we have, they will be sent into this Tianshan."

A guide said to Ye Xuan that he is responsible for tracking this matter, so it is relatively clear about the intelligence of the organization.

"Well, I know, you brought 20,000 people to me to surround all of them. Don't let go of any important intersection. I personally bring people in!"

"Yes, the festival makes adults!"

Since Ye Xuan is going to root out the extinction organization here, then naturally it will not let go of any one.

20,000 people seem to be rare?

However, we must also look at what 20,000 people are doing.

The 20,000 people in the lowest gods can not be weak.

After everything was arranged, Ye Xuan directly entered the Fengtian Mountains with the remaining 10,000 people.

Obviously, the organization has also known that it is about to be in trouble.

But now they don't have a chance to go, so there are countless defenses in place to look forward to blocking Ye Xuan's footsteps.

Not long after Ye Xuan entered the Tianshan Mountains, he was attacked. As many as 100,000 totem beasts attacked Ye Xuan directly with the cooperation of hundreds of thousands of members.

Unfortunately, they are so weak.

Ye Xuan waved his hand and the five thousand strong players directly dispatched.

It takes no long time to kill these hundreds of thousands of people.

Just relying on these ants, I also want to block Ye Xuan, it seems that the organization is too naive.

All the way forward, Ye Xuan's goal is very clear, he is going to directly find the headquarters of the organization.

Here is the headquarters of the organization, then, naturally, it is impossible to say that there is no strong person to sit down.

In fact, it is guarded by the four kings. The so-called four kings, the strength is still OK, it is actually the strong of the four gods.

The strong imperial power of the gods is indeed a good strength, but unfortunately, they are fighting against the strength of the entire nine parties.

Ye Xuan brought the Emperor of the Emperor this time, a full 30 people!

This is because Ye Xuan already knows the true strength here, so there is no more strong.

If Ye Xuan is willing, don't say that the thirty gods are strong, even if they get thirty gods, they are not confused.

Among the six or six thousand regimes, the leaders of large-scale forces are basically strong and strong, and Ye Xuan will definitely come immediately as long as the benefits are given.

The benefits that Ye Xuan needs to give, in fact, are just official positions.

Of course, at present, there is no need for Ye Xuan to use those people. Only the Emperor is strong enough.

The advancement of the army was extremely fast, but within a few days, it had already arrived at the headquarters of the organization.

"Who are you waiting for, why are you attacking me?"

A king of the emperor's ruined organization, Wang Wang, took a horse in front of Ye Xuan and asked aloud to Ye Xuan.

Ye Xuan's mouth hangs a smile, faintly said: "Who are you talking about?"

Chapter 2394: Clearance action

When he heard the sound, the king immediately gathered his eyes on Ye Xuan's body. When he saw Ye Xuan, his look suddenly changed dramatically.

Since he chose to set up his headquarters in the 90-squares of the nine parties, how could he not know Ye Xuan!

After all, Ye Xuan is the true master of the nine parties.

"It turned out that the festival made the adults come to visit. I don't know where I have offended the festival to make the adults. If there is anything that makes the adults unhappy, I will be willing to make corresponding compensation."

The face of the king changed slightly, and immediately said to Ye Xuan respectfully.

It is a pity that he encountered Ye Xuan, not the other festivals. The set of organizations that they destroyed, but Ye Xuan does not work here.

The organization of the same organization in any region, they will do everything possible to plunder the resources of remote areas, they will use various means to penetrate the resources of the strong regions, and then gather these resources, if it is provoked The powers there are not happy.

They will come up with huge resources to please the powers there.

Let the power-holders close their eyes to them. After all, even if it is a festival, it is impossible to truly control their own territory.

Therefore, those who are disobedient, those who have no value in the eyes, are naturally in exchange for gaining benefits from the organization.

But Ye Xuan is not the other person. Ye Xuan's goal is very clear, that is to completely eradicate the organization.

"Okay, no nonsense, kill me, kill these people, one does not stay!"

Ye Xuan waved at random and directly issued an order for the attack.

That day, Wang couldn't think of it. Ye Xuan did not give him the opportunity to negotiate.

Helpless, can only lead the members of the organization to rise up and resist.

But is it useful?

No matter whether they use any existence, in front of Ye Xuan, what is the use, this is a strong man above the 10,000 gods.

The demon gods who are summoned to the organization and are summoned are killed, and the members of the organization are encircled.

Countless resources, countless totem beasts were robbed back.

The headquarters of the organization's headquarters was directly attacked.

As Ye Xuan said, he issued a lore order. As long as it is a person who destroys the organization, Ye Xuan will not stay.

Because Ye Xuan is very clear, leaving them will only be a scourge.

The four kings were quickly killed by three people, and the rest of the people knew that they were not the opponents of these strong men, and they ordered the breakout.

Unfortunately, waiting for them at the periphery is a 20,000 strong.

.....

The entire nine-party and 60,000-day clean-up organization has only been in operation for three months.

However, it allowed Ye Xuan to kill nearly 30 million members of the organization from the 90-party environment of the nine parties. These members have weak strengths and, of course, strong ones.

At the same time, the demon gods who destroyed the resurrection of the organization were killed, and the ancient demon gods were as many as hundreds of thousands.

Nearly two million people were rescued from the annihilated organizations. At the same time, countless resources such as totem beasts and magic weapons were harvested, and nearly 300 resources were destroyed by the organization.

It can be said that just one action, the nine parties and six thousand have nowhere to ruin the organization.

However, Ye Xuan was not satisfied at all. Later, he formed more than 100 so-called recovery teams and sent them to the Kunlun domain with the identity of the Divine Law.

There is only one task for these recovery teams, that is, members of the extermination organization outside the Kunlun domain.

It can be said that the whole operation is still very ideal.

In addition to a site made by another festival.

This festival makes it possible to control the area of the five thousandths, which is much weaker than the strength of Ye Xuan. But after all, he is also a well-established festival. Therefore, he does not allow Ye Xuan's recovery team to enter, Ye Xuan also has nothing to do. No, Ye Xuan's Divine Law makes identity and does not use the rights of soldiers at all.

"What about the Kuihan Festival? I wrote down and ordered everyone to come back. But, give me a comprehensive monitoring of Kuihan Wuqian, and collect evidence as much as possible. I have to look at this quenching degree. How long can you cover those people!"

Ye Xuan said faintly.

Soon, the army returned to the Jiufang 60,000 episodes. However, it secretly left countless intelligence points, and even reached the Kuihan Wuqian environment. Each territory has an intelligence point.

.....

"Quie Han Festival makes adults, this time, thank you, otherwise, I am afraid that I will be killed by that Ye Xuan!"

An old man handed the five Qiang Kun ring in his hand to the Kui Han Jiu Duo.

Among the five Qiang Kun Rings, naturally, they are full of resources.

The Kui Han Festival made him smile and took over the five Qiang Kun Rings, but he said faintly: "Where the lord said, he sected the vengeance of Ye Xuan, and even treated the annihilation so that you entered my quarantine situation, then I can rest assured that I still don't believe that his hand of Ye Xuan dares to reach me directly."

"Reassure, I am the same as him, the rights are the same, as in the War of the Divine War, unless he does not want to live, so I dare not mess."

Kui Han is full of confidence, he feels that he is also a party, even if Ye Xuan is doing, he does not dare to confront him.

Unfortunately, he still underestimated Ye Xuan, the information stations left by Ye Xuan, and constantly sent a message to Ye Zong, and Ye Zong summed up these news.

This quenching degree makes it really a blessing.

In his situation, whether it is the Zongmen, or the gods are divided into three by him, he himself is naturally first-class, enjoys countless privileges, second-class, is the power attached to him, these forces may Not getting too many benefits, but at least not being exploited.

However, as for the third class, those who are unwilling to collude with Qu Han can be sadly reminded. It can be said that almost half of the income will be taken away by Kui Han under various pretexts. Things like these will all be made by these forces.

Ye Xuan constantly collects information, and there are too many bad things that Kui Han has done. It is not necessary to know how Ye Xuan deliberately collects and can get enough information.

Therefore, a report was sent directly to the hands of the deaf.

In fact, the Kunlun Divine is relatively speaking, there will not be too many rules. After all, let alone the Kunlun Divine Realm, even if it is the entire Divine Realm, it is only to believe in the strong.

However, after all, the strongest of the Kunlun gods is 旱魃, and at the same time, the oracle is the **** domain.

So soon, a team of Jingwei Guards came along with Ye Xuan and came to the Kuihan Divine.

There is no chance to give Kuihan any excuse, and the Jingwei Guard will directly arrest it.

Revolt? Kuihan didn't have that courage, because this time the sect of the shrine sent out, there are dozens of people whose realm is higher than Kuihan.

After Ye Xuan arrested Kuihan in the Jingwei Guard, he directly issued the order without paying hesitation.

For the entire fifteen days, almost all of the members of the Kuihan Gods were killed.

Chapter 2395: Enter the battlefield of the Lord God

At this point, Ye Xuan's actions against the organization were all high.

Perhaps in the eyes of others, Ye Xuan's behavior is simply unpleasant, but Ye Xuan himself knows that he must do this.

Of course, during the annihilation of the organization, how could Ye Xuan not take advantage of it, the corpses of the beasts that were killed, it is useless anyway, Ye Xuan swallowed, not for public use, so at this time Ye Xuan The realm has been upgraded to the three kings and other kings!

It can be said that such a fast level prompt, even Ye Xuan is very satisfied.

After all, after entering the kingdom of God, it is not so easy to upgrade the ranks.

The resources needed to swallow, as well as the quality of the beasts, have increased dramatically.

There may be some remnants in the Kunlun domain, but it has not been able to form a climate. With the encirclement of Ye Xuan, it can be said that the organization of the organization is not a place in the Kunlun domain.

However, the system's prompts still did not sound, so that Ye Xuan knew in his heart that there is still a weak force in the other gods.

The calm life did not last long. Ye Xuan took time to recruit troops, because he knew very well that the battlefield of the Lord God was the most important thing he had to face in the next period of time.

As Ye Xuan expected, he was conquered once, because the demon **** domain once again sent reinforcements. Obviously, there will be big moves.

Ye Xuan did not hesitate to recruit a billion soldiers in one breath, and the strong man who was cultivated above 20,000 gods, went directly to the battlefield of the Lord God.

This time, Ye Xuan has to go personally.

Although there is no provision for the festival to make it necessary to personally command its own army, Ye Xuan is going to see the battlefield of the Lord God.

The mighty army, even transmitted to the battlefield of the Lord God, took a full half of the time. After all, there are too many people.

Ye Xuan is not the first time to go to the battlefield of the Lord God. Even, he used to live on the battlefield of the Lord God for a long time.

However, there is no battle between the main gods and the battlefield of the main gods that are fighting.

Ye Xuan soon came to his own military camp. Many people were very surprised by the arrival of Ye Xuan. Of course, Ye Xuan came with two hundred thousand strong people, but it was very exciting.

Kun has not already entered the battlefield of the Lord God. At this time, seeing Ye Xuan coming over, he immediately began to introduce Ye Xuan to the battlefield of the Lord God.

"The festival makes the adults, my main battlefield of the six thousand squares is a 100,000-kilometer city wall, and a thousand cities behind the wall, and in addition, there are one hundred and eight resource points, one Dan Medicine Resources."

"Outside the city walls, we have 68 outposts and six fortresses."

Resource points, cities, fortresses, city walls, these are the most central components of the battlefield of the entire Lord God.

"Well, the walls, the city, the fortress, I can understand, but what is the resource point?"

Ye Xuan asked, he really did not understand these.

"The degree of return to the adulthood, the main **** in the battlefield, because of the frequent fighting, so the power is generally more violent, and only in the city with guardian prohibition, the soldiers can peace of mind to practice and rest, as for resources, as the name suggests, is Where resources are collected."

"In the battlefield of the Lord God, when it was first established, it deliberately laid a special prohibition. The main gods produced thousands of special resources on the battlefield. The conditions of these resources require a lot of special materials such as the blood of the gods, and only the battlefield of the Lord God. Meets such conditions."

"And these resources are very effective for raising the realm of the soldiers. However, they are evenly distributed in the middle of the battlefield. Therefore, in order to obtain resources, they must send soldiers to **** and defend against the enemy's counterattack. !"

"As for the medicinal resources point, it is because there is a special sacred fire and divine power. The effect of refining medicinal herbs can be multiplied several times. It can be said that all the medicinal herbs in our 90s are supported by them!"

Ye Xuan nodded. In fact, he was very clear why there was such a result.

Because entering the battlefield of the Lord God, whether it is a soldier or a general, has been fully realized, so almost everyone will not carry too much resources on the body.

Besides, even if it is brought over, but this is the battlefield of the main god, the consumption is almost unimaginable. Therefore, the resource points have become the focus of competition. It can be said that in many cases, the real conflict is often due to resource points.

Both sides have a huge wall, and the huge wall is the key to victory and defeat.

There are countless cities behind the huge wall, but the city can only be stationed and cultivated, and it is impossible to provide resources.

If you want to get resources, you only have to break into the buffer zone outside the walls.

Then, the conflict can't be avoided.

Fortunately, there are also cities and fortresses in the buffer zone, which has been able to play the role of Evergrande.

Among these cities and fortresses, there will be enough soldiers, and what they do is to protect their own resources.

"In addition, the festival makes adults, in the middle of the battlefield, there are also five magic resources. These magic resources are the key to competition. These magic resources will automatically produce an ancient magic weapon every month. It can be said that When fighting for the magic resources, it is the most cruel time of war."

"There are some sporadic random resources. No one knows how these random resources appear, but once they appear, they will undoubtedly lead to war."

Kun said nothing.

Ye Xuan nodded. This is the battlefield of the Lord God. The power of various laws is full of it. It seems to be a bit confusing. Once the battlefield of the Lord God is opened, then naturally no resources will be missed.

There are many areas outside the battlefield, but neither side will explore. After all, those places are even more dangerous.

In the rest period, some soldiers will go to the treasure together, and the harvest is not to say no, there may not be many.

After Ye Xuan had a general understanding of the situation of the main battlefield, he carefully thought about it.

He now understands the general battle situation of this main **** battlefield.

When there is no God's command, they will rob each other and strengthen themselves, and once they wait for the command of the Lord, it will be the time for a large-scale battle.

The rules of the battle are clear and you want to strengthen yourself. Then you will grab the resources. Otherwise, staying on the wall will undoubtedly mean death.

"Right, Kun does not speak, where does the material for refining medicinal herbs come from? Is it also from resources?"

"The degree of rejuvenation, the material of refining medicinal herbs, part of which is distributed by the Lord of God, and the other part is planted by ourselves. In the city allocated to us, a lot of medicinal herbs are planted for refining medicinal herbs."

Chapter 2396: Offensive resource point

Ye Xuan nodded again.

"So, the magic weapon, once the warrior's magic weapon is damaged, what should be done?"

"There is a place where the fortified city can provide magical refining, but more often it is obtained from resource points or concealed enemies. In addition, it is a fortress. Every fortress can be said to be very suitable for refining magic."

After Ye Xuanming understood the situation of the main **** battlefield, he no longer hesitated and began to analyze the situation directly.

"System, can you help me accurately configure the strength? I need to draw troops to capture more resources!"

"Hey, the system prompts, in the data analysis, the configuration failed."

"Hey, the system prompts that the system does not have the ability to configure the analysis plan. It is recommended that the host arrange it by itself."

Also, the main function of the system is to enhance personal strength. In such a large-scale war, Ye Xuan can't rely too much on the system.

Ye Xuan looked at the map carefully. This map is huge. After all, the battlefield of the Lord God is very huge, but Ye Xuan has discovered that the resources occupied by his nine parties are really weak.

Therefore, his first phase of the plan is to **** resources.

The resources of the people here are so natural that it is not easy to start, so Ye Xuan can only target the demon gods.

"Come, come and order me, gather troops."

"The festival makes this what is going to be done? God's Lord has not issued a combat order? Are you ready?"

A strong man looked at Ye Xuan strangely and did not understand Ye Xuan's thoughts.

"There are so many people who are guarding a hundred resources. Do you think it is enough?"

"This is not enough..."

"Since it is not enough, why can't you grab it? Let's go and collect the resources." I want to take this resource."

Ye Xuan has a finger, don't look at him just a finger, but delineated, but hundreds of resources.

The fortress of the main **** battlefield, the resource points, the city, or whatever, are all without names. With the orders of Ye Xuan, the 50 million soldiers and the 10,000-strong gods are directly gathered.

General Ye Xuan's order is very clear. This war is only for the purpose of robbing resources and gaining the benefits of resource points. I am afraid that no one knows what to do. If you get a resource point, then everyone can get more distribution. a lot of.

In fact, because of the serious shortage of resources, the allocation of resources has always been qualified only after the establishment of the military, and it is necessary to make a great contribution.

Many soldiers and even strong people have stayed in the battlefield of the Lord God for so many years, and have not allocated a resource.

This time, Ye Xuan was selected as a person who did not have access to resources.

Ye Xuan promised them that after taking down the resource points, they will take out half of the inventory points as rewards.

Although I am afraid that there will not be much after the attack, many people are still excited.

Want to take the resource point, then the most important thing is to take the city next to the resource point.

The cities in the battlefield of the Lord God are all reinforced with special laws. It can be said that there is no way to destroy them.

"Give me kill!"

Accompanied by Ye Xuan's command, the people launched an attack between the moments, in the sky, under the ground, countless soldiers rushed up and rushed up, and Ye Xuan also vacated directly, rushing toward the front.

In the city, there are countless enemies flying at once.

The enemies of these demon gods are strange races with a pair of black wings.

"System, what is this race?"

"Hey, the system prompts, specifies the target, the Nether Crane."

The Nether Crane family, from the demon area of the demon gods, has a talented magical power, a **** affinity, and the speed of the genius of the genius is blessed.

Nether Crane?

Then Ye Xuan will take them to open the knife!

"kill!"

"Rush!"

Along with the snoring of the earthquake, the soldiers of the Nine Squares and the 60,000 dynasty quickly joined hands with the enemies of the Nether Crane, and Ye Xuan also rushed directly into the battlefield.

"Megatron, the magic weapon form, out!"

Megatron controls two hundred swords and directly rushes into the enemy group. Like Ye Xuan, the ordinary soldiers of the demon gods are mostly true gods, and where they can withstand the attack of the sword. In the blink of an eye, in front of Ye Xuan, hundreds of enemies were constantly being killed.

And Ye Xuan himself, also pulled the law of the **** bow.

"The law of engulfing the gods!"

"boom!"

A black vortex is formed, within which hundreds of enemies are drawn into the vortex, apparently deadly.

"The law of the gods!"

Ye Xuan shot another arrow. In a flash, hundreds of enemies lost their ability to move.

"Intelligence control!"

The enemies of thousands of Nether Cranes immediately lost their autonomy and directed the weapons in their hands to the comrades who were still fighting side by side with them.

"Six-word mantra, die!"

The six-character mantra can be said to be the strongest killer that is crushed below Ye Xuanxiu as an enemy.

I saw that Ye Xuan was carrying it up, and a huge mysterious force was immediately launched. The enemy in front of Ye Xuan seemed to be infected with the plague. One after another, they continued to fall. Of course, when they fell, they also represented They lost their vitality!

In a flash, Ye Xuan was actually emptied out of a large area, and the enemies in this area were all killed!

After all, Ye Xuan is now the strongest of the three kings, and it is simply simple to crush these ordinary soldiers.

.....

The movement of Ye Xuan naturally attracted the attention of the strong cranes of the Hehuang Hezu. At this moment, hundreds of strong people immediately rushed over. One of them saw the Ye Xuan and suddenly said with surprise: "It is the enemy's festival." To make, fast, and quickly set people, kill him, as long as he killed him, the enemy will be hit hard."

Unexpectedly, the people of the demon **** domain can do the intelligence work so well, just recognize the identity of Ye Xuan at a glance.

However, will Ye Xuan be afraid?

"The festival makes the adults careful."

Dozens of guards at the side of Ye Xuan immediately greeted them. In a flash, the two sides were convenient and fiercely fighting together, and in the distance, there were constantly strong reinforcements from the nine parties and six thousand.

The strong war, directly to make this area a restricted area for ordinary soldiers, after all, these strong people even if the battle broke out, it is enough to make ordinary soldiers unbearable, or even directly fall.

Ye Xuan stands next to a middle-aged man. This person is the highest in the world among the strong ones brought by Ye Xuan. It is already a strong third-class god.

God respect, even if you look at the entire nine-party 60,000, it is only a handful.

This god-respected man did not take the shot, but stood silently next to Ye Xuan. His current duty is to guard Ye Xuan, so that Ye Xuan is not attacked.

Knowing that Ye Xuan appeared on the battlefield, the Nether Cranes naturally received constant support.

Unfortunately, this is just a resource city, and there are too many strong people.

Therefore, the battle was almost suppressed by the nine parties.

Chapter 2397: The resources of the main **** battlefield

However, after all, the Nether Crane is good at the law of Nether, so at this time, several people directly lurked to Ye Xuan's side.

There is no sign of the emergence of these people. Even the gods who are around Ye Xuan have never been aware of it before.

"What is the power of this law?"

Ye Xuan could not help but wonder!

"System, detect the power of these people's laws."

"Hey, the system prompts, specifies the target, and has the law of silence!"

The law of silence can hide all of its own scent. As long as it is not actively exposed, it cannot be detected unless it is a special magic weapon or a special magical power.

Is there such a rule of power?

It is impossible to say that Ye Xuan is not heart-warming. You must know that even the hidden ability of Ye Xuan's wings of the gods is not so powerful.

However, the system does not suggest that Ye Xuan can be forced to swallow, then, Ye Xuan is in the heart, but also simply can not.

"Go to death!"

Suddenly, an enemy of the Nether Crane family appeared in the position of Ye Xuan less than two meters. When it appeared, it immediately launched an attack. I saw that this person held a black ball in his hand and attacked Ye Xuan. At the same time, the ball has begun to exude tremendous power.

"Hey, alarms, alarms, the host is deadly threatened, and the host is deadly!"

"Hey, the system automatically takes over the authority, adopts an emergency defense plan, and summons the Shenwu Holy Turtle Law!"

"Oh, the law is shattered! The alarm is lifted."

This series of changes has also said that Ye Xuan has not had the slightest action, that is to say, if the system is not timely, it is afraid that Ye Xuan has fallen.

I saw a violent force that swept the entire battlefield in an instant, regardless of the enemy and the enemy, at least hundreds of thousands of people were directly killed by this force!

Ye Xuan has a lingering heart, this time, it can be said that he almost carried it!

You must know that the law of the **** Wuwu turtle is the strongest defense law that Ye Xuan has harvested in the ancestral environment. The only ability of this law is the extremely powerful defense.

Moreover, the legal aspects of the ancestral harvest are all realms of the gods!

However, even if such a defense is broken directly after the resistance, it is conceivable how powerful the attack is.

It can be said that after this attack, those who have fought in the battle have also been greatly affected, and even more than half of them are directly degraded. The rest is not so good, and the gods who are close to Ye Xuan are affected by Ye Xuan's law is so protected that he has not suffered much damage.

Ye Xuan couldn't help but ask, what is it?

"System, the black ball that just attacked me, what is it."

"Hey, the system prompts, specifies the target, the ball of the law."

The ball of the law is a special magic weapon that the strong is reinforced by the constant compression of the law and the use of special arrays and materials.

This magic weapon is a one-time bursting attack magic weapon. According to the different laws of the injected law, there will be different attack effects, and it is easy to blow.

Can you still store the law attack like this?

It can be said that this is simply beyond the imagination of Ye Xuan. You must know that the power of law is simply a kind of imaginary thing. He is not a smoldering sand, he can store it. However, the people of the demon gods actually made such a thing?

The power of law can only be borrowed, so once it is applied, it will disappear immediately.

Ye Xuan is really wondering how the people of the demon gods are doing it. How do they store the power of this law in the sphere?

Of course, perhaps the most important thing is the ball that stores the power of the law. That thing is the real rare treasure.

At this time, Ye Xuan really understood the danger of the battlefield. It can be said that as soon as he appeared on the battlefield, it was undoubtedly a piece of fat in the eyes of the enemy. I fear that the enemy will definitely try every means to kill him.

After all, Ye Xuan is a festival. Once he kills Ye Xuan, he can imagine the blow of the people in the Jiufang Divine.

The attack of the ball accompanied by this law failed, and it was announced that the Nether Cranes were unable to withstand the attack of the nine parties. After a while, Ye Xuan already occupied a city, and soon the center was centered on this city. Several resource points.

Until now, Ye Xuan was the first to really enter the resource point, carefully look at what resources these resources are produced.

In the battlefield of the Lord God, it is naturally impossible for every resource point to produce exactly the same resources. The resource point that Ye Xuan now arrives mainly produces a kind of divine power stone, which is the product of only the battlefield of the main god, so The name is just free to get.

This divine stone is similar to the ordinary crystal, and can directly absorb the power contained in it.

Of course, divine power is second, the key is production.

It can be said that this output is simply high and scary!

Because in the battlefield of the Lord God, almost every moment, there will be people falling, and when a war breaks out, there will be more fallen people.

The battlefield of the Lord God has its own rules of the battlefield of the Lord God.

To put it simply, these divine powers are rooted in the power of the fallen people.

It can be said that it is a very **** product.

However, no one will care about this. As long as they can improve their own strength, even if they are told to let them eat the enemy's body, I am afraid that many people will be very happy.

Moreover, in the battlefield of the Lord God for thousands of years, the violent divine power of the cohesion is so much, these violent divine power can not be directly absorbed, but this divine power can play a purifying role.

So, to say this magic stone is really a good thing.

Among this resource point, in addition to the magic stone, there are many other resources.

Of course, the most popular one is undoubtedly the rule stone.

The rule stone, most of which only contains the power of a single law, but occasionally there are two, three, and even more law forces.

These rules contain a lot of laws and regulations, but no matter how much, for ordinary soldiers, it is definitely the gospel. After all, this will enable them to understand the power of law at close range.

Quite initially, in the Kunlun environment, hundreds of thousands of geniuses are vying for it, isn't that an opportunity to understand the law?

Of course, although the rule stone can be used for sentiment, the effect is not very good.

However, as ordinary soldiers, what else can they expect?

It can be said that every time a **** war, there will be many strong people born, it is precisely because of this rule stone.

Of course, the rule stone can't leave the battlefield of the Lord God. Once you leave, you will immediately lose the power of the law contained above.

For the strong, the rule stone is like a magic stone, which can be used to supplement the power of the law.

Chapter 2398: Fortified fortress

This resource point, the main thing is to play all kinds of ore, in addition to the magic stone and the law stone, there are some ore that can be used for forging magic.

Subsequently, Ye Xuan went to the next resource point.

Compared to the bare mountain peak of the first resource point, this second resource point is a forest. Here, there are many plant resources. Naturally, the resources here are good for refining medicinal herbs.

Among them, perhaps the most special one is a fruit named Shenque Tree. The most peculiar thing is that this **** tree grows, and it is also related to war. Because the nutrients he absorbs are the killing on the battlefield. It can be said that as long as the sacred tree is outbreaking, it can grow up quickly, and even grow fruit in a few days.

God's fruit can refine a very unique remedy, murderous dan, after taking this medicinal medicine, the other effects are not, it is to increase the killing.

Killing such things, perhaps it seems that there is really nothing too important on the surface, neither increasing the cultivation nor increasing the strength.

However, this kind of remedy is the most popular in the battlefield of the Lord God.

Because, in fact, every battle of the main **** battlefield, there will be a large number of non-combat reductions, these people, can not stand the impact of killing, lively scared crazy, or is mad!

Killing can directly affect a person's mind, and even if your strength is strong, it may be affected.

In the battlefield of the Lord God, there are thousands or even billions of battles that break out at any time. It is conceivable that the killing is so strong.

Taking this killing Dan can effectively prevent the killing of the mind from eroding the mind, and at the same time, it can strengthen your own killing, so naturally, this thing has been liked by people!

However, the output of this drug is very limited.

Ye Xuan patrolled the resources he had taken, but he never found anything worthy of Ye Xuan's eyes.

Of course, the total amount of resources is still very large.

However, Ye Xuan naturally cannot be swallowed up. After all, these are the soldiers.

After winning a city, Ye Xuan could not be satisfied. Therefore, after a short break, Ye Xuan once again issued a combat order.

However, this time, Ye Xuan will not be in front of it.

After all, if the ball that just came out of the law is coming, then, Ye Xuan can't stand it, and can't help it.

Ye Xuan took the army and attacked several cities in a row. After all, there were 10,000 strong players to help out, and the enemy could live in it.

Soon, Ye Xuan's army came to the front of a fortress.

However, when I arrived here, Ye Xuan had to stop moving forward.

It's not that simple to attack the fortress.

Among the fortresses, there is a general prohibition against the air, which means that it is impossible to expect to be able to fly into the fortress.

When attacking the fortress, even the army with Ye Xuan can only be carried out as a general siege.

Of course, this is not the key, the key is the fortress defense!

Every fortress has a special guardianship or formation. It can be said that it is not so simple to win a fortress.

However, just give up, Ye Xuan still can't do it.

With a wave of hand, a 100,000-strong pioneer has directly launched the charge, and Ye Xuan wants to see what kind of guardian prohibition this fortress has.

"Chong! Kill!"

100,000 people, if it is the sky and the ground, it seems that there is nothing, but just launching the charge from the ground is very spectacular. The fortress is huge enough. Otherwise, these people have surrounded the fortress.

Above the wall, various attacks broke out in an instant, the light shone, the colorful light filled with battlefields, and the power of the individual, on such a battlefield, began to look so weak.

Through his thoughts, Ye Xuan can clearly see his own assault, and is constantly hit by various laws and attacks.

On the wall of the city, the enemy can be very calmly prepared for a big move, even a few people, dozens of people together, the law of cohesion forces to attack, but the siege troops under the wall can only use their own power shield to resist.

Suddenly, hundreds of beams of light descended from the sky. Only a moment later, hundreds of people were directly vaporized. Then the light column began to move. As long as it was hit by him, all of them immediately fell.

"What is this attack!"

Ye Xuan asked strangely.

"The degree of return to the knot makes this the easiest way to attack the fortress defense. We call it the light of the gods!"

"The light of destroying the gods is to infuse the power of the gods in the fortress on the special stone of destruction, and then transform the stone into a powerful energy attack means."

Ye Xuan nodded, this light of the gods, the power is not simple.

However, Ye Xuan did not even have time to look at the light of the gods, and another attack suddenly broke out.

I saw a huge black ball flying out of the fortress. The black ball fell outside and immediately exploded. First, a vast force directly crushed some of the soldiers who were attacking the city.

Then, it turned into a huge engulfing ball, inhaling people around it.

This kind of attack is very similar to Ye Xuan's engulfing law, but it is only a few hundred times larger.

"boom!"

"boom!"

"boom!"

Along with a few loud noises, several powerful methods appeared on the battlefield. These methods are not only powerful, but also huge in size. Perhaps they are all summoned by the demon gods. Therefore, they are generally beasts. appearance.

However, the relatives around Ye Xuan explained.

"The festival makes the adults, this is the unique law of the fortress. In every fortress, there will be dozens to hundreds of different degrees. These laws, usually in the fortress, are like sculptures. It's inconspicuous, but once you encounter a battle, you can activate it to guard the fortress."

"These guardianships can last for a maximum of several hours. Of course, they can be recalled at any time. However, the cooling time is only a few days to ten days. If the recall is fast, the cooling time can be shorter. It can be said that it is very difficult. Deal with it."

It only takes a few days to cool down! Can last for several hours!

Ye Xuan's heart is slightly shocked. You must know that he can also summon the Fa, but it's a few hundred thousand years of cooldown, and the time of appearance will not be long.

Unexpectedly, this guardian law in the battlefield of the Lord God can be so powerful.

It's no wonder that the fortress is relatively rare. If it is all a fortress, it will be impossible to fight.

100,000 people, a whole 100,000 people, but soon after the discovery of the guardianship, they were almost completely destroyed, and even Ye Xuan had no time to issue an order to retreat.

In the end, only 3,000 people returned.

Chapter 2399: bloody battle

It is no wonder that the consumption of the main ***** battlefield will be so huge, just a fortress, it is already such a horror.

But it is impossible to scare away Ye Xuan.

Ye Xuan issued an army order here. This time, it was not a small attack of 100,000 people, but a whole 10 million people rushed up. Among them, the strong ones above the two thousand gods.

The real siege is only now.

Accompanied by Ye Xuan's order, the crowd rushed toward the fortress and attacked the past.

Of course, some engineering equipment has also been prepared among the crowd.

The power of the car requires hundreds of talents to be overridden. This divine power car contains a special array of methods, which can transform the injected power into a law force to attack the enemy. As for the conversion of the law, it is based on the transformation Depending on the array.

And every attack can definitely explode extremely powerful damage. It can be said that even if it is a king of the king, if it is blocked in front of this power, it will die.

There are still many strategic magic weapons like this.

However, the number is not many, such a powerful strategic magic weapon, then the materials needed can be imagined, and it is very difficult to forge.

It can be said that the calculation is the entire domain of the Kunlun domain, and there is not much.

It is less than one hundred in the hands of Ye Xuan.

Of course, this kind of strategic magic weapon is undoubtedly the enemy's key attack target. Therefore, almost two thousand people who Ye Xuan sent out are guarded by these strategic magic weapons.

"boom!"

It is a hollow dragon!

This is a special beast that masters the power of space law, and this beast is not naturally produced, but evolved from the totem beast.

The totem beast was brought into the battlefield as a strategic resource. The main reason is also because of this.

Totem beasts are rare species that can be spawned by special means to evolve ancient gods and beasts.

Although this kind of ancient animal, the life expectancy is generally short, but at least, it is enough for combat.

Of course, this means is not everyone's, even, even Ye Xuan does not have this means at all.

At this time, I saw only nine sides of the 60,000 sides, dozens of hollow dragons directly turned out from the ground, and in a flash, they rushed to the fortress wall.

For a time, the wind and rain on the fortress wall turned out to be a gap by this hollow dragon beast.

"Rush!"

"kill!"

The morale of the Jiufang 60,000-strong squad was rushing toward the gap.

These soldiers came under the wall and immediately set up a ladder.

Because of the absolute prohibition of the prohibition, even if it is jumping, it is difficult to jump so high.

Therefore, building a ladder is the simplest and most effective way.

In just a few moments, tens of thousands of people have already rushed to the wall.

However, there is a gap on the wall, which will naturally attract the attention of the demon gods. The strong reinforcements of the strong ones come over. However, before they started, there was a wave of powerful attacks against the soldiers under the wall. past.

The enemy also used the totem beast.

"The order is to send five hundred totem beasts, and we must consolidate the gap."

Ye Xuan issued an order, and soon, five hundred totems that had been born to the ancient beasts rushed over.

These beasts have one thing in common, and that is tough.

For a time, the enemy at the gap will no longer be able to resist, and will retreat.

Nine parties and 60,000 soldiers will naturally not waste such a good opportunity. A famous soldier is constantly charging, trying to break the enemy's defense line centering on the gap!

However, at this time, a sudden burst of light broke out on the wall, directly covering the wall.

"Well, the enemy used the wall area, and the festival made the adults, and quickly ordered the conversion of the attack position!"

In fact, I don't need Ye Xuan to give orders. After seeing the light on the wall, the soldiers have subconsciously avoided the wall.

The wall area is a unique area of the fortress wall. As soon as it is launched, it can instantly kill all the life that enters it.

However, the cooling time in the wall area is very long, so in general, it is not a last resort, the defending city will not launch.

Fortunately, the five hundred totem beasts that Ye Xuan sent out had already attacked other walls at this time, and the other part had not yet climbed the wall. Otherwise, they were afraid that they would all be destroyed there.

In the field of city walls, it can be said that it is the general defensive means of the enemy's killer in the fortress.

Of course, the enemy used the wall area, which is equivalent to completely exposing this section of the city to the six parties.

As long as the field of the wall disappears, the soldiers of the nine parties will be assured of attack.

The blood is flowing, and the gods are constantly broken.

Shouting and killing is full of this fortress.

However, the surrounding enemies did not launch reinforcements, and the surrounding friendly forces did not launch reinforcements.

This is the rule of the main **** battlefield. Once the battle is over, then the forces of the two sides will only bite their respective targets, and easily will not provoke other enemies at all, even if other enemies are close at hand.

It is not who stipulates such a tactic, but a consensus.

After all, the battlefield of the Lord God is vast. If it is a mess, I am afraid that the whole is a big mess. At that time, both sides will not get any benefit.

Of course, if Ye Xuan is so stupid that all the soldiers who are bordering other enemies will be transferred, that is another matter. When the enemy is not attacked, it will be cheaper.

The fortress's offensive and defensive battles have continued. For three months, for three months, the two sides can say that there is no moment of rest, and Ye Xuan has also stood here for three months.

Finally, the enemy troops in this fortress finally chose to evacuate because of lack of military power.

Ye Xuan did not understand why the enemy did not send reinforcements, but Ye Xuan would not give up the fortress.

Soon, the army opened up.

The loss of the fortress is also equal to the surrounding cities and resources. There is no way to defend.

The demon **** domain, directly gave up the defense, let Ye Xuan send troops to enter.

The collection was high, and Ye Xuan gave a lot of rewards to the soldiers. However, he would not be satisfied, or Ye Xuan had a goal that must be won.

A resource point, unlike other resource points, is a special resource point, a resource point guarded by three fortresses.

Such special resource points are rare in the battlefield of the main god.

It can be said that whoever can occupy this place, then, who can get a great advantage.

Of course, knowing is one thing, but being able to fight it is another matter.

In fact, such special resource points, in the battlefield of the main god, are often idle and no one is occupied.

Because they themselves gather a large number of battlefield beasts and want to occupy, they must defeat those battlefield beasts.

Chapter 2400: Resurrection altar

With such a huge sacrifice, you can only know how to get a resource point.

So what can be produced here?

In fact, this resource does not say anything else, but there is an altar, but it is very eye-catching.

Because the function of this altar is resurrection!

As long as the spirit is not destroyed, even if you are broken, even if you have only one soul left, as long as you reach this altar, then you can quickly resurrect!

This is the horror of this altar.

The ability to revive, once used properly, can be imagined.

What's more, with this resource point, the encouragement for morale is even stronger.

Before each battle, if you can make a promise to the soldiers, even if you die, you can resurrect, but you can imagine how the morale of the soldiers will be.

Of course, the resources that you need to consume to use this altar are also a horrible number.

However, even so, Ye Xuan wants to win this special resource point.

Three fortresses, and these three fortresses are obviously more powerful than ordinary fortresses because they have two walls and bring more defenses.

If you want to win it, you will definitely pay a great price.

However, when Ye Xuan proposed to attack the special resource point, he did not expect it, but was unanimously passed.

Also, for these strong people, I am afraid that they care more about life than the soldiers. After all, it is very difficult to cultivate this step.

To attack this special resource point, then a large number of soldiers must be required. Ye Xuan took a breath and directly transferred 500 million soldiers.

A total of 500 million people gathered directly from all directions.

It can be said that the actions of Ye Xuan directly make the forces of the demon gods domain extremely tense.

Local warfare, the use of hundreds of millions of people has been very rare, let alone the use of a full 500 million people!

Of course, as long as Ye Xuan does not attack them, they will not mess.

Just as Ye Xuan was preparing to launch an attack, the next side of the festival made the dispatcher come over.

This festival also saw the movement of Ye Xuan, and immediately sent the messenger.

The general meaning of the messenger is to ask why Ye Xuan wants to use so many people. Isn't it afraid to trigger the attention of the two gods and erupt a full-scale war?

Ye Xuan smiled slightly, but replied: "Did we have been so deadlocked, will the full-scale war not break out? Since there will be a full-scale war sooner or later, why not take some resources now?"

Later, the festival did not continue to send people to ask, of course, even if he was sending people, Ye Xuan would not give up the plan.

On this day, it can be said that the 90-square-nine situation has become the most eye-catching place in the battlefield of the entire main god, because Ye Xuan launched the largest local war in the battlefield of the Lord God.

In the middle of the sky, above the ground, the black-pressed army is densely covered, and looking at it, the sea of people simply can't see the end.

A strong man was also inserted into the army. This time, the battle was to rob the special resources and to attack the three main fortresses of the enemy.

"The whole army listens, kills!"

The sacred sword in the hands of Ye Xuan suddenly waved.

Then, the whole sky was darkened, because the number of soldiers flying out of the sky was too much, and it was completely obscured.

For two days, Ye Xuan was in the dark, because it was enough for so many people to pass in two days.

The battle was fierce from the beginning.

It is impossible for the enemy to give up this special resource point easily, and their strong man can still be resurrected immediately after his death.

This battle is destined to be a tough battle.

But Ye Xuan is determined.

Just like Ye Xuan said to the festival, now he is going to **** resources. After all, it is still a local war, then the loss will laugh a lot. However, if you wait until the outbreak of the full-scale war, you will grab the resources. Then the loss will be even greater.

Ye Xuan would rather choose to pay a hefty price now, get more resources, and let the remaining soldiers improve as much as possible, and they are not willing to wait.

After all, the battle is everything, and the battle will determine whether Ye Xuan will participate in the battle of the Lord God.

.....

200 million people!

The enemy and the enemy, the loss of a total of 200 million people!

Among the three fortresses, the troops of 30 million enemies were stationed, almost all of them were annihilated by Ye Xuan, but the price paid by Ye Xuan was the casualties of 170 million people.

And this is not counted as a **** to stop the enemy's reinforcements.

However, in the end, Ye Xuan still won the special resource point.

The time spent is a whole year!

However, until Ye Xuan won the special resource point, many people understood Ye Xuan's true intentions.

At this time, Ye Xuan's resource point city pool turned out to be a half-enclosed form, engulfing another enemy.

Obviously, this group of enemies is already at the top of the list. The three fortresses are the best barriers, so that the enemy can't send reinforcements at all.

And this is surrounded by two hundred resources.

Ye Xuan directly sent the messenger, giving the enemy a chance to choose, either retreating or being removed by Ye Xuan.

It can be said that the enemy actually has no choice but to be surrounded by them. They can only retreat. After all, they are simply unstoppable.

Ye Xuan wished to win the plan he had appointed, and circled a large number of resources.

But at the same time, he also obtained the nickname of a tyrant in the battlefield of the Lord God.

The meaning of this nickname is very simple, that is to say, Ye Xuan does not care for the life of the soldiers.

However, no matter what others think, Ye Xuan will only do what he wants.

What's more, the soldiers and the strong men of the 90-party regiment have no emotion at all.

After all, taking so many resources is definitely a good thing for them.

A batch of medicinal herbs were continuously produced, and a pile of magic weapons was continuously distributed to the soldiers, so that their overall strength began to improve rapidly.

Ye Xuan, with the sacrifice of 200 million people, is the overall strength improvement of the remaining billions.

Here is the battlefield of the main gods. The speed at which these resources grow is faster than the outside world, and many things that are not available to the outside world. This is enough to make the soldiers happy, even more than three million. The soldiers got the rule stone they dreamed of.

Of course, after having the rule stone, can they understand the law, and only they can work hard.

After Ye Xuan circled these resources, he stopped the war.

It is to fully promote the strength of the soldiers.

There is no military power in such a local war of self-initiation. It can be said that few people will do this.

Whether it is the Kunlun domain or the forces of the demon gods, they are waiting, waiting for the outbreak of the full-scale war.

Fifty years!

For the entire fifty years, the entire battlefield of the main gods was extremely flat. Apart from occasional local wars, it was basically calm.

On the other side of Ye Xuan, there have been no local wars in 50 years.

But fifty years is enough.

The all-out war has finally begun!
