Chapter 240: Life and death test

"Isn't this the stone statue at the entrance to Dongfu?"

Jiang You asked strangely.

Ye Xuan carefully looked at it. This statue is very similar to the statue at the door. However, there is one more thing in front of this stone statue. It is a bronze sword held in the right hand.

The stone statue is more than 30 meters high, and its weapons are naturally more than ten or twenty meters.

After seeing this, Ye Xuan's eyes are also bright, this is definitely a good thing!

However, at this moment, Huo Yangshi like the closed eyes, suddenly opened.

"The trough!"

Ye Xuan was shocked, not only that, but other people were scared to make a sound.

"You!"

Another loud noise spread, everyone is a glimpse, this stone statue actually spoke, and lifted the big sword in his hand.

"Everyone is careful, this statue will move!"

Someone immediately reminded.

Ye Xuan rolled his eyes, which is why you remind me?

"You, I am Huoyang, the owner of this cave house. Don't be surprised, when you hear this, I should have died. This is just the pre-recorded sound stone."

When I heard this, everyone was confronted with each other, and there was an unpredictable hunch in their hearts.

"Next, I have a test here, as long as someone passes, then there will be a big opportunity."

"Now, the gates you have come in must have been closed. These gates and stone walls have been laid down by me. Even if it is a strong man in the sky, I am afraid it will take some time to break. I am a member of Huoyang. The refiner, who is also an ambassador, will give up the idea of breaking through the gate if you have not reached the heavens."

"No more nonsense, now I have a stone statue here. What you have to do is to destroy this stone statue. Just destroy the stone statue, you can get the lapis lazuli inside the stone statue. Yes, it is lapis lazuli, forged days. Essential materials for the device."

"This lapis lazuli was accidentally obtained by me, but I have limited ability to build a heavenly device."

"As long as someone destroys the stone statue, you can get this lapis lazuli. At the same time, I will open a passageway behind me. Finally, the cave house will collapse. Even if it is the strongest person in the heavenly environment, it will be suppressed by the stone. "

"After a minute, the stone statue will start, and the time will kill the closest person. My stone statue is also the gate.

In the same way, unless it is the strongest of the Tiandan, it is impossible to destroy, and there is also the strength of the stronger than the first-time Dan. "

"However, when I refining this stone statue, I left six flaws. If you find out in order, you can destroy it, remember, in order."

"This stone statue will stop for ten minutes every ten minutes of action. If you want to destroy this stone statue, you have to have the flaws in the static action when the stone statue is in action."

"Now, start counting down!"

When these sounds fall into everyone's ears, they let them boil.

Celestite, turned out to be lapis lazuli!

This is the necessary material to build the heavenly device. This lapis lazuli may not be worth the wealth of the entire Dongfu. If it falls, the cultivation resources will not be lost in the future. It is just around the corner.

Tiandanjing!

This is a desirable realm. After all, the hegemonic sects of the four major regions in the southeast and northwest have not heard of the Tiandan, and they have only heard of it in Zhongzhou.

"What to do, now is a minute?"

Lingxiao House panicked here, not only that, but also the disciples of Tian Yuanzong.

It is comparable to the stone statues of the Dan, and even the strongest of the heavens is difficult to break. Unless you find flaws, you must follow the order of the flaws. This is not a general difficulty.

At this time, the Tianyuanzong disciple not far away was also out of one person and shouted: "When you are in the Lingxiao House, when the stone statue is in action, everyone will attack and find out his flaws. Otherwise, we will all die." Inside."

"Crap, is this for you?"

A disciple in Lingxiao said with dissatisfaction.

"what did you say?"

Tian Yuanzong also immediately came out of one person.

At this time, the enemy is currently very heavy. If one is careless, I am afraid I will die here, so they will directly vent their anger.

"stop fighting."

A young man from Tianyuanzong came out and said: "I am Wang Chuanshan, the third in the Tianyuan list. I broke through to the Didan in the past. Later, after the stone statue was launched, I could drag it. When you look for the stone statue together, The flaws."

As soon as this was said, the disciples here were very surprised.

In the case of Di Dan, this time Yuan Yuanzong actually dispatched a Didan

.

Fortunately, fortunately, there is a land of Dan, otherwise who dares to attract the attention of the stone statue?

"Okay, then it will bother you." Jiang Liu immediately shouted.

At this time, half of the time has passed, and they have used the rest of the time to stand up. The Wang Chuanshan, who ran to the stone statue, said that Huo Yang said that the stone statue would chase the

nearest person, so after the stone statue was launched, Wang Chuanshan's hatred was definitely the highest.

The countdown is only one minute, and the dozens of people present have no time to discuss the countermeasures carefully, so they can only do so.

"There are five more seconds!"

A disciple with strong mental arithmetic shouted.

"Fives!"

"four!"

"three!"

"two!"

"One!"

"Booming!"

Sure enough, when his voice fell, the stone statue also made a roar, and then, began to take a big step, this step is full ten meters.

"The stone statue started, everyone attacked!"

The Wang Chuanshan shouted and started attacking directly.

The flaws, since there are flaws, then they still have a chance.

At this time, Ye Xuan has already taken out a land bow, and he is also trapped here, so he must shoot.

"It must have been touched by an organ. When I first looked at the cave, I didn't notice it. It was a pit." Ye Xuan was helpless and opened the bow. However, his first arrow turned out to be defeated. It is.

This is not because he did not aim, but because of the stone statue of this Huoyang, the speed is fast!

"what?"

That Wang Chuanshan was also shocked. He hurriedly turned around and ran. The land of Dandi was actually a land of Dan.

Fortunately, he had a local level of martial arts in the middle of the body, and instantly opened the distance. He also did not forget the rule that Huoyang had said before, that is to chase the nearest person, so he did not dare to run too fast, only to maintain a speed.

"call out!"

"boom!"

At that time, hundreds of attacks fell on the stone statues, but these attacks did not have any effect on the stone statues.
