

## Super D. S 2401

### Chapter 2401: Chaos

Along with the command of the Lord, the Kunlun Divine and the demon gods have gathered together many powerful and powerful people. Until this time, people will understand what is called small!

From the sky to the ground, there are crowds everywhere, and the sly figure appears for the first time in the battlefield of the Lord God!

No one knows if this war can determine the final outcome, but anyone knows that there will be countless people falling in this battle.

Ye Xuan stood in front of his army as a squad, and behind him was a square.

When a full-scale war begins, then the investment of the soldiers is not in units of ten thousand, but in units of one hundred million.

Don't look at Ye Xuan leading more than a billion people, but it is only a dozen squares.

At the same time, the all-out war has begun, and a powerful and powerful magic weapon has appeared on the battlefield.

These are the magic weapons of the battlefield, and they are magic weapons that will only appear in the battlefield.

"Chong!"

He waved his hand, and in a flash, hundreds of billions of soldiers rushed out.

What a terrible number of billions of soldiers?

But this is just a pioneer test!

The enemy, at the same time, is a billion-dollar welcoming.

This kind of battle is simply shocking, strong, and it seems so fragile. Ye Xuan saw a strong man of the Chinese royal kingdom rushing into the enemy line. At the beginning, he still Can see a little movement.

But in a short while, the strong man of the royal kingdom, there is no sound, directly drowned by the sea.

"The law of the gods makes, Ye Xuan listens!"

Just as Ye Xuan was watching the battle ahead, a Jingu Guard came to Ye Xuan.

"Ye Xuan listens!"

Ye Xuan naturally did not hesitate to answer.

The Jingwei Guard apparently still knew Ye Xuan. First, he gave a slight nod to Ye Xuan, and then said.

"In the decree of God, the law of the gods makes Ye Xuan, the quick selection of five thousand soldiers to the \*\*\*\* domain to make orders."

God domain scheduling? The general manager of the whole army? What do you want to do to find him?

But Ye Xuan naturally won't ask.

"Yes, Ye Xuan got orders."

After conveying the order, the Jingwei Guard smiled and said to Ye Xuan: "The law makes adults, but we must cherish this opportunity. God Lord is very optimistic about you."

Although Ye Xuan's heart was puzzled, he smiled and said to the shrine of the shrine: "Thank you brothers for reminding me that it is my duty to serve the Lord God. But this brother, you know what mission the Lord God has to give. I?"

"Haha, you know when you go, and guarantee is a good thing."

The Jingwei Guard does not say much, Ye Xuan naturally does not ask much.

After sending away the Jingwei ban, Ye Xuan found that everyone around him was very excited.

Ye Xuan asked with some doubts: "What happened to you? Is it necessary to be so excited?"

I saw a strong man of the gods who came to Ye Xuan and said: "The festival has made the adults have not participated in the war of the gods before. I don't know if it is strange. The Lord God is giving the adults a fat difference. Didn't the adults notice? Are other festivals very envious?"

Not to mention, Ye Xuan Shen read the outside, and soon saw the surrounding degree, it really looks at Ye Xuan with envious eyes.

Ye Xuan still wonders, but he quickly chose the 5,000 strong people to go straight to the direction of dispatch.

It can be seen that the people selected by Ye Xuan are very excited.

I am afraid that he will not understand what is going to happen.

Soon, Ye Xuan came to the dispatching place.

However, when Ye Xuan saw the schedule, it was a little strange.

Because, this scheduling makes it a \*\*\*\* beast.

Of course, the dispatch makes the identity even higher than the rule of Ye Xuan, so Ye Xuan does not dare to disrespect.

"The law of the gods makes it possible for the nine parties to make 60,000 knots and meet the dispatcher to make adults!"

Ye Xuan attacked the opposite of the dispatch.

The dispatch made a slight look at Ye Xuan, and then said: "Well, you are here, go, you are assigned to the fifth division of Chaos, which is under your control."

With a feeling of incomprehension, Ye Xuan came to the fifth division of the so-called chaos.

But when Ye Xuan saw something in front of him, he couldn't help but feel shocked.

This is a giant sword!

To be precise, the whole chaos of the world is a large array of seven hundred and forty-nine giant swords.

Every giant sword is as high as 10,000 meters, constantly exuding strong fluctuations. Ye Xuan has never seen it before, but now I understand that this big sword is a super strategic magic weapon!

Thirty-nine of the forty-nine giant swords were directly controlled by the Jingwei Guard, and only nineteen were assigned to the various martial arts.

The strong people around Ye Xuan were very excited. A strong man in the top of the gods, he was so excited that he fell to the ground and worshipped the sword.

"System, what is this thing?"

"Hey, the system prompts that the specified target is too powerful and the system cannot detect it!"

No way to detect?

Just when Ye Xuan wondered how to control it, he saw that the guys under his hands could not wait to run to various positions.

And the superior superior of the Emperor just came to Ye Xuan, and said to Ye Xuan.

"The festival makes the adults, the control of this chaotic giant sword is very simple, please board the main altar, where you will decide the target position of the attack, and we will continue to chaos in a group of 500 people. The Great Sword instills the power of divine power and the law, this time, we will certainly be able to earn enough military power!"

When I heard the person's words, Ye Xuan knew how to use this thing.

So naturally, I did not hesitate to go straight to the main altar.

After seeing Ye Xuan boarding the main altar, the main altar was quickly ascended into the air.

"Hey, the system prompts that the host gains an unknown power enhancement, and the sensory ability is increased by 10,000 times!"

"Hey, the system prompts that the host gains an unknown power enhancement, and the speed of the law increases by 10,000 times!"

“Hey, the system prompts that the host gains an unknown power enhancement, and the power of the power is increased by ten thousand times!”

Three prompts in a row, let Ye Xuan suddenly shocked!

Ten thousand times increase!

At this time, Ye Xuan directly read the outside, and in a flash, Ye Xuan actually had a feeling that the whole battlefield was in his eyes.

In front of the battle, Ye Xuan was able to see the movement of a soldier in detail.

Of course, all the sensing of the entire main battlefield space is still impossible, but almost half of the distance can be sensed.

At the same time, in front of Ye Xuan, there were three short-sword virtual shadows, and a \*\*\*\* thought was introduced into Ye Xuan’s spiritual knowledge.

Let Ye Xuan instantly understand the manipulation method of this chaotic giant sword.

Chapter 2402: Tenfold increase

It turns out that these three short swords represent the number of times that Ye Xuan can launch an attack. The strong ones below constantly instill in divine power, which is to condense such a short sword.

Of course, as for the power of this short sword attack, then only Ye Xuan will know it after using it.

The command of the attack has not yet arrived, so Ye Xuan is only silently observing the battle ahead.

The battle of two billion people is only a temptation attack, and even the support of the strategic magic weapon is not, fear that it will only appear in the battlefield of the main god.

Suddenly, Ye Xuan's ear rang a voice.

"The fifth district, free attack once."

Ye Xuan gave a slight glimpse. He didn't think that there was no other place to do it, but he was allowed to attack it freely. He didn't know whether he specially gave him a practice or something.

But Ye Xuan naturally will not let such a good opportunity.

God read immediately to find the target, Ye Xuan knows that such a strategic magic weapon is a wide range of attacks, so he does not dare to release indiscriminately, a careless, maybe he will hurt his own.

Soon, Ye Xuan locked a position, and then directly urged the power.

Ye Xuan's divine power quickly merged into the chaos and the great sword. Suddenly, Ye Xuan felt his own thoughts and began to automatically lock the enemy.

It can be said that this sudden change has made Ye Xuan somewhat unprepared, and until this time, Ye Xuan knew that the Chaos Law is a sword.

Ye Xuan just locked in an area, obviously does not match the attack method, so the Chaos giant sword actually helped Ye Xuan to start the correct locking method.

Ye Xuan's mind swiftly swept through the battlefield, and wherever he thought of it, countless enemies were directly marked.

This kind of annotation, Ye Xuan can clearly feel, but other people can not see, can not feel.

Ye Xuan has no time to count how many enemies he has locked.

Because the time is too short and too short, in a flash, a small sword in front of Ye Xuan disappeared, and the Chaos giant sword exudes a huge light, and then a sword shadow skyrocketing.

The sword shadow quickly rushed to the battlefield, but when it reached the battlefield, it was quickly split up, and countless sword rains were emitted from the virtual shadow of the chaos.

The number is terrible!

"Boom! Boom! Boom!"

There was a smoke between the entire battlefield.

Whether it is in the sky or on the ground, whether it is a common soldier or a strong, the enemy of the demon \*\*\*\* domain has been hit by an unprecedented attack.

This is the real sword rain, just like rain, countless sword shadows are falling down.

The entire battlefield shines with dazzling light, and life, at this moment, seems to be lacking.

Countless enemies try to defend, and all kinds of magic weapons or divine shields, the law shield constantly appears.

It is a pity that there is no use at all, because the attack of this chaotic and powerful sword has its own special law power.

An enemy was penetrated and the face was broken.

This happened very quickly, but it was just a blink of an eye, but Ye Xuan could clearly see it all, because at the same time he launched the attack, he was also blessed by the law of time. It's a hundred times faster.

At this moment, it is only when Ye Xuan is really busy. The rain is not released. If you want to cause the most damage, Ye Xuan will continue to re-lock the enemy. After all, the enemy has been killed. If Ye Xuan does not lock in new targets, then these swords will be wasted.

Ten thousand times the increase in the number of gods, one hundred times the time rule blessing, but still let Ye Xuan be in a hurry, or even unable to do so.

Many attacks have been wasted.

But this is also a no-brainer. After all, the number of sword rain is too much.

These swords and rains are absolutely not small, the general true gods, a sword is enough to kill, and even if the strength is stronger, then as long as it is locked by Ye Xuan, it will endlessly attack the past.

After a while, the attack stopped, but in the enemy camp, hundreds of millions of people fell instantly!

Horrible numbers, horrible attacks!

This is the so-called strategic magic weapon?

Such a powerful attack, I am afraid that no one can afford it!

Of course, for control, it is also a big challenge. Ye Xuan's mind control is already good, but it also causes a lot of waste.

This is just the power of Ye Xuan's attack. So, what would happen if the forty-nine giant swords of the chaotic world were attacked at the same time?

However, Ye Xuan also knows that once the enemy has also launched a strategic magic weapon, it is impossible to cause such horrible damage.

Because of this attack, the Kunlun domain quickly occupied the top.

But also because of this attack by Ye Xuan, the enemy was directly launched a full charge.

Perhaps in the eyes of Ye Xuan, the attack of the Chaos Great Sword has been extremely powerful, but when the war broke out, it really made Ye Xuan understand what, what is called the real strategic magic weapon.

I saw the enemy camp in front of the enemy camp. The huge 10,000-headed animal is rushing to the front. The size is huge. Ye Xuan has never seen it before. The most important thing is that this beast is actually able to use space at will. The power of the law.

As long as they are willing, they can always summon a transmission array in front of them. Then, the huge body will enter the transmission array. However, no matter where it will appear, no one knows.

Even, it may appear directly in the large array of Kunlun gods.

And on these giant beasts, a lot of buildings were built, and countless people in the demon gods launched attacks in those buildings.

Of course, the most important thing is that each of these giant beasts has a strategic magic weapon.

This kind of strategic magic weapon of the demon \*\*\*\* domain, Ye Xuan does not know what the name is, let alone, it is called the law \*\*\*\* cannon.

This kind of law is a cannon. Every attack, the interval is not too long, but the power is quite powerful.

Although it is worse than the Chaos giant sword that Ye Xuan now controls, the key is to be able to move.

Every time there is bombardment, there are tens of thousands, and thousands of Kunlun gods will fall directly, and even most of the bodies will not stay.

And such a law cannon, as many as tens of thousands!

You can use the space rules to go to any corner of the battlefield, and then launch a powerful attack, such a behemoth can not be said to be not bad.

However, there is no way for Kunlun Gods to deal with him.

I saw a million totem beasts from the Kunlun domain.

Without exception, these totem beasts also have the ability to have space rules.

Chapter 2403: End of war

As soon as these totem beasts appeared, they immediately rushed out, and every time the monsters of the demon gods disappeared, there will be countless totem beasts disappearing.

It can be said that the size of the totem beast is very small in front of the behemoth, just like the ant in front of it.

But this totem beast can precisely target the behemoth.

It can often be seen that the behemoths once again appearing on the battlefield are constantly mourning and struggling because the totem beasts have already penetrated into their bodies to destroy them.

Subsequently, Kunlun Shenyu also launched its own mobile strategy magic weapon.

However, unlike the demon \*\*\*\* domain, these mobile strategic magic weapons of the Kunlun domain are combined.

I saw countless strong people quickly gathered together, throwing all kinds of magic weapons from their hands, these single magic weapons, quickly gathered in the air, and soon became a combined strategic magic weapon.

Later, these powerful people immediately injected their power.

And these strategic magic weapons have also begun to mobilize their role, either a strong defense, or a powerful attack.

In an instant, the initiative of the battlefield was returned to the Kunlun domain.

.....

A mysterious and powerful strategic magic weapon is constantly appearing. Only this moment will let people understand what kind of magic weapon can be called a real magic weapon.

It can be said that these strategic magic weapons cannot be manipulated by one person at all, because the power of control they need is too large. Even if it is the Lord of God, I am afraid that it is impossible to control a large strategic magic weapon alone.

Of course, in addition to the large-scale strategic magic weapon, at this time, the personal magic weapon has also come into use.

The all-out war is beginning. Similarly, it is also the strong to the strong, the soldiers to the soldiers.

After all, the vast majority of the strong, the heart does not bother to find the troubles of ordinary soldiers, in their hearts, only to fight against their own realm, in order to stimulate fighting spirit.

Many times, if these strong people do not have opponents, they would rather not shoot, nor will they kill those low-ranking soldiers.

As for ordinary soldiers, they are not qualified to challenge the strong.

Of course, if the strong self-killed and ran to the soldiers, then, in order to survive, these soldiers will fight hard.

Shouting and killing sounds filled with Ye Xuan's ears, and the blood quickly flowed into a river, and then gathered into a lake.

Every moment, countless people fall.

At this time, Ye Xuan did not have the mood to manage these, because he is now fully controlling the chaos of the world.

It can be said that the forty-nine giant swords of the chaos of the world are the biggest cards of the Kunlun gods and the strongest killings.

Of course, the demon \*\*\*\* domain also has its own card.

However, it is not an attack with a sword, but a phantom of the law!

Because the distance is too far, Ye Xuan can't see how the demon \*\*\*\* domain is used, but it can see the effect.

I saw that after a period of time, the rear of the demon gods domain will be released, and the light will quickly condense into a phantom of a horror demon. When it appears, it will kill the Quartet. It can be said that these demon gods have no way at all. Being eliminated, he can only wait for him to die on his own.

Because, these demon phantoms, can actually be immune to all physical damage, all laws hurt, all the damage of the gods.

Almost, it is equal to invincible!

However, compared with the chaos of the Kunlun gods, the ultimate means of the demon \*\*\*\* domain is obviously weaker.

Ye Xuan's whole heart was gathered on the chaos of the chaos of the giant sword. Under him, the five thousand strong ones rounded the wheel, and continued to condense the power of Ye Xuan, and then attacked by Ye Xuan.

Fighting, endless battles, a team of soldiers rushed up, and then quickly disappeared.

In the center of the two sides, it seems that there is a \*\*\*\* blockade.

Who can't help but who.

The bodies are constantly accumulating, from a hundred meters high to a height of 10,000 meters...

No one can count how many people have died. After all, countless people are degraded every moment.

After all, every time they are dispatched, they are all billions of soldiers.

What is a flesh meat grinder, this is the real flesh meat grinder, and, is still the \*\*\*\* of strangulation!

This kind of environment, even in a strong mind can be mad, which is the main reason why you need to kill the dan.

Ye Xuan silently looked at the battlefield. In fact, he also saw that the team that belonged to him was sent out, watching the soldiers and the strong who were brought by him, so degraded.

It is a pity that this is war. This is the battlefield of the Lord God. There is no room for choice, no one.

Up to God's Lord, down to an ordinary soldier, in fact, they have no right to choose.

.....

The war has been going on. This time the war, Ye Xuan does not know who is the first to provoke, but one thing is certain, only one party will be soft, then the war will end.

However, once the service is soft, it will cost a very high price, so no one can be soft at the last moment.

Day after day, year after year.

Ye Xuan manipulated his chaos and smashed the giant sword, and did not know how many enemies were killed. He also issued three conscription orders before and after, and only sent about 30 billion people to participate in the war. .

Finally, the war is over.

It can be said that when the news of the temporary end of the war came, people's hearts were only numb, and even Ye Xuan was the same. There was no joy at all, only numbness.

However, the war did not really end, but it was once again turned to a local war.

On this day, he sent people to find Ye Xuan.

When Ye Xuan reached the squatting side, he realized that after several negotiations, he finally let the gods of the demon gods agree, not to carry out such a fearless war, but to hold a battle for the treasure.

This time, the two sides each sent a god, one hundred gods, one thousand gods, ten thousand gods.

And these people, will enter a secret environment, the secret environment produces a white special stone, in fact, it is useless, but it is very rare, and it is extremely dangerous, there are countless beasts, and some strange things exist. .

This time, their goal is to see which side can get more of this white stone in three days.

Thereby determining the outcome of the war.

In this mystery, there are a total of 86 entrances, each of which occupies forty-three. Obviously, this secret is afraid that it is the first time to do something similar.

There are no rules in the secret, no matter what means you use, as long as you can get the white stone and bring it back, you can.

Chapter 2404: White jade

It is reasonable to say that Ye Xuangui is the rule of law and the festival should not be selected into such a battle for the treasure, but obviously, he has high hopes for Ye Xuan.

Ye Xuan did not refuse, but followed the brigade directly into the secret.

The secret is very big, and the transmission is random, so once in, Ye Xuan did not hesitate and directly concealed.

According to the cultivation of the king of the king, he is not willing to fight if he encounters the strong man of the royal kingdom.

Random transmission makes it possible for everyone who appears in it to know whether it is an enemy or a friend, perhaps the superpowers of the two gods can be unimpeded. Of course, even if they are besieged, The days will not be better.

Since it was chosen here, how could God Lord not prepare the magic weapon for everyone?

This is the treasure that determines the outcome of the war!

For example, Ye Xuan, before entering, he gave him a ring.

Now, Ye Xuan is only open to see what is in the ring.

When Ye Xuan looked at the Qiang Kun ring, it was slightly strange, because there were three treasures in this ring.

A jade, a token, an ancient map!

This Yu Pei Ye Xuan knows that although the surface looks like jade, but it is not, in fact, it is a special magic weapon that stores a law attack.

And Ye Xuan's hand is the defensive magic weapon that he has prepared for him personally. That is to say, this thing can even save Ye Xuan's life at a critical moment.

As for the token, Ye Xuan also knows that this is a special token specially used to seal the totem beast. Similarly, this token is definitely prepared for him. Then, the totem beast of the seal is not natural. simple!

One attack and one defense, two magic weapons, and it is still prepared by hand, it is obvious how much he cares about Ye Xuan.

As for the ancient figure, Ye Xuan did not know what it was, but he could only call the system.

"System, what is this magic weapon?"

"Hey, the system prompts, in the data analysis, the analysis is complete!"

"Oh, nine turns to destroy the map, it is a super magic weapon that has been specially forged, and then infused with nine special laws. This magic weapon is not only powerful, but also comes with a special field of \*\*\*\* destruction."

Ye Xuan was slightly surprised. Unexpectedly, this last ancient picture turned out to be the most special existence.

At this time, Ye Xuan's only doubt is why he would prepare such an ancient picture for him. You must know that this magic weapon is extremely difficult to obtain, but you can give such a magic weapon to Ye Xuan!

But no matter what you think, there is always one thing to be sure, that is, Ye Xuan has a lot of protection!

With these three things, it can be said that Ye Xuan has improved a lot of self-protection ability. Naturally, for this time, the confidence is also strong.

Ye Xuan carefully released the gods and explored the situation around him.

God read the outside, can let Ye Xuan feel around, but also can be detected by other people's minds, so Ye Xuan had to be careful.

Of course, God read the outside, but also to find the white jade of the specified target.

Not long after, Ye Xuan found a white jade, and sure enough, for Ye Xuan has no use at all, it can be said that if this jade is not given the mission of winning the treasure, fear is simply worthless.

The distribution of white jade is very extensive, and it seems that as long as it is in this mystery, no matter what kind of terrain, it is possible to find this white jade.

There is no law in his growth, but it is very rare, which forces people who participate in the treasure to continue to expand the scope to search.

Of course, some people are not willing to look for white jade. They are more willing to get something for nothing, and they are more willing to rob others.

At this time, Ye Xuan is carefully searching for every place, these white jade, hidden very well.

Although the surface looks like white jade, even in the trees, it is possible to find that Ye Xuan has always been vigilant, but continuous search has not found any enemies or beasts, so he also Subconsciously focused more on the search.

"There is another one!"

Ye Xuan figured and moved quickly toward a small mound.

Because in the small mound, Ye Xuan found a white jade.

However, just as Ye Xuan was close to the white jade, the sudden change occurred.

"boom!"

Without warning, a fierce attack broke out directly around Ye Xuan.

If it is not Ye Xuan, I have always been vigilant, I am afraid that this time it is very likely to be in the way.

Ye Xuan figured a move, can avoid the attack.

But when he looked around, he did not find any anomalies.

"Isn't there someone or a beast attacking me at all, is it just a sudden change?"

Ye Xuan looked at the fire pillar of the sky.

Just now, this fire column suddenly appeared, and Ye Xuan was almost concentrated.

Ye Xuan felt the power of this fire pillar, but found that there was not much threat, so Ye Xuan could not help but think that this may be just a natural change, not an enemy attack. .

However, just as Ye Xuan thought about it, suddenly the whole earth began to tremble. Then, the fire pillars continued to appear. Ye Xuan dared to hesitate and felt like he was dodging.

How is this going?

Ye Xuan's brows are wrinkled, and while he is dodging, his heart is also very doubtful.

Because he did not find any source of attack, these pillars of fire, like a volcano that suddenly erupted, said that it appeared, without warning, and the power is so ordinary.

However, these pillars of fire have a certain regularity, as if they are arranged in a series of methods.

"Not good! It's a battle!"

Suddenly, Ye Xuan wakes up. Before entering, no one has told Ye Xuan, what is there in the end, so Ye Xuan knows nothing about everything here.

However, Ye Xuan believes that there is no danger in this secret.

After all, this is the secret of the devil's war to determine the key to fighting.

The two gods, there is no reason to choose a safe and peaceful, free to go in and wander around, you can go out of the secret!

Therefore, there is only one point that can be affirmed. This surface does not seem to have any special secrets. In fact, it is a heavy organ, and countless unknowns and dangers may break out at any time.

Of course, no matter what kind of danger there is, since Ye Xuan has come in, there is no room for choice, and I can only move on.

#### Chapter 2405: Fire column attack

Ye Xuan's figure flashed rapidly. Over time, this area, the number of fire pillars appearing at the bottom of the ground is increasing, more and more dense, and the position that appears, there is no law at all, often Ye Xuan can avoid a The pillar of fire, for a moment, will have another pillar of fire rising up.

Of course, these fire pillars are not free, three flavors of real fire, nine days of Xuanhuo, Netherland fire, Xingyu Chenhuo, six circles of demon fire, and so on, a variety of flames constantly appear.

Perhaps for the three flavors of real fire, the six flames and other ordinary flame Ye Xuan can be tolerated even if it is positive, but for the Xingyu Chenhuo, the fire of the Netherland fire, I am afraid it is slightly rubbed a little, can let the leaves Xuan died without a place of burial.

Therefore, it is impossible for Ye Xuan to think more about it. He can only evade constantly.

Ye Xuan tried to rush out of this area several times. However, these fire pillars seem to have any power control. Every time Ye Xuan chooses to break out in one direction, then in a moment, the fire pillars at that distance will be intensive.

Therefore, in fact, Ye Xuan's current dodge is also irregular.

It is Ye Xuan's only countermeasure to deal with irregularities without any rules.

Of course, in fact, every time he evades, he can be said to be adventurous.

Ye Xuan's dodge is made by him subconsciously. There is no target or law at all, but that is also the case, so it is very likely that one accident will overlap!

"boom!"

Another fire column rises into the sky, however, the distance from Ye Xuan is only less than one meter away!

In other words, if Ye Xuan's teleportation is a little bit more, he will be buried in the sea!

"Yuanyou Shenhua!"

Ye Xuan's eyes suddenly shocked!

Even Lian Yuan You Shen has appeared!

The flame has strength and weakness. If it is only a flame with attribute power, Ye Xuan will not have any worry at all. However, for the flame with the power of law, Ye Xuan is not allowed to worry!

This sacred fire is a special flame with the power of law!

If it is not here, but in the outside world, then this sacred fire can even ignite everything, even the law can be ignited by him!

I did not expect that there is such a flame in this mystery!

Ye Xuan was very surprised and nervous.

Looking at the pillar of fire, it seems to be completely trapped here.

Ye Xuan knows that it has never been a way to avoid it. It is not a way to know that his living space is now less and less. After the fire column appears, it will not disappear. At this time, there are countless flames in the side of Ye Xuan. .

"In this way, I will only be compressed by these flames and there is no room to dodge, no! I can't do this again, I have to think of a way!"

Ye Xuan thought quickly, and then, while evading everywhere, he began to think quickly.

Flying away in the air?

No, this method does not work at all. Looking at those who are rising in the sky, they can't even sense the flame at the end. Ye Xuan knows that the sky has no way out.

So four sides?

No, Ye Xuan has already tried it. From any direction in all directions, it will not work.

Suddenly, Ye Xuan looked at his feet, and he had an idea in his heart. Since the sky is not going to work, then why not directly penetrate the ground, but you have to look at it, the bottom of the earth, what is in the end!

With so many flames, Ye Xuan wants to know what power is in control of these flames!

Obviously, it is a certain wisdom to control the flames to attack their own things. Then, it means that these pillars of fire are not accidental.

Thinking of this, Ye Xuan did not hesitate at all.

"Megatron, the magic weapon form, give me the ground!"

Ye Xuan loudly ordered that after a while, the two sacred swords were quickly dispatched and explored directly toward the ground.

In a flash, flying sand and stone, a real rapid emergence.

Of course, in fact, Ye Xuan is still very worried.

Because Ye Xuan is clear in his heart, if it is now a powerful pillar of fire, it is feared that both Megatron and the Sword can be melted!

However, Ye Xuan has no choice but to come up with a solution. Then he is only trapped here.

The two swords and swords are matched with each other. The speed of digging the tunnel is not slow, and Ye Xuan does not hesitate at all. He follows the tunnel directly.

This tunnel is very difficult to dig because it not only avoids the fire pillars that have already appeared, but also guards against the fire pillars that may appear at any time.

Everything is only by luck, because Ye Xuan can't judge now where the next fire column will appear!

"boom!"

Another flame appeared. In an instant, the two sacred swords controlled by Megatron were completely wrapped. This time, it was actually in the center!

Ye Xuan was in amazement, but for a moment he was relieved.

Fortunately, this time, it is just a mysterious skyfire!

It can be said that this is simply a misfortune in misfortune.

Because Xuan Lian Tian Huo, although it is considered to be powerful, but at least, it does not pose any threat to the two swords!

down!

Constantly down!

The tunnel is erratic, but it has been constantly extending towards the ground.

Once and for all, the thrilling dodge, and even once, a fire column rubbed Ye Xuan's body in the past, so that the gods are all very red, and a little bit will melt.

But it is always a little bit, because the power of the fire column is not enough.

Moreover, as time goes by, Ye Xuan can only deliberately avoid the power of some fire pillars!

Because at least those fire pillars that have already appeared will not have the life of Ye Xuan. However, there is no fire pillar, and it is impossible for Ye Xuan to know what kind of flame it will be.

This is constantly being sizzled by various flames, only you will know it yourself!

Not just hot!

There are also various kinds of flames, and some flames are extremely cold!

Some flames, no temperature, but can corrode everything!

Some flames can make Ye Xuan's blood boil, and even let Ye Xuan's blood burn!

.....

With all kinds of flames, Ye Xuan seems to be experiencing endless tests!

But in the end, Ye Xuan succeeded!

Ye Xuan successfully dug a tunnel and penetrated the surface!

Correct!

It is to penetrate the surface.

If Ye Xuan did not see it, how could he believe that this secret is so magical!

At this time, Ye Xuan is in a radiant space. On top of his head, it is the original sky. At his feet, it is an endless void!

However, it is strange that under the void, countless pillars of fire are coming upwards.

In front of Ye Xuan, there is a forest!

Chapter 2406: Ancient law fire tree sapling

This place, let's call it the woods, or a strange wood.

Because these trees are growing in both directions at the same time, it seems that here is a mirror, and the trees are just a real reflection.

But Ye Xuan is very clear, it is not a reflection, but a real existence.

Because Ye Xuan is here, there is no reflection at all.

These strange trees, each of which is emitting countless pillars of fire, those pillars of fire rise up, but after breaking through the sky, they are strangely returned to the reflection, forming a cycle.

Let the energy of these fire pillars have no waste at all.

Ye Xuan looked at this space with surprise, because everything here has subverted his cognition!

Even let Ye Xuan couldn't help thinking, if he chose to fly toward the sky at first, would it be like these flames, the other side of the reflection?

In addition, Ye Xuan also wants to know, can he, through that virtual existence, go to the reflection plane?

When this idea appeared, Ye Xuan couldn't help it anymore, and directly summoned the bones of the sword!

The Bone Swordsman has no great use for Ye Xuan, but it is suitable for exploring the road.

"Go, give me through there!"

Ye Xuan said there, at his feet, as if it were a lake water surface.

At least look at the eyes now, as if you can go through the barrier as long as you pass through the barrier.

Of course, the Bone Swordsman will not hesitate in the slightest, so he rushed straight toward the imaginary face.

Ye Xuan was concentrating on the behavior of the bones.

Near!

Closer!

Suddenly, the savage swordsmanship is like rushing through the lake and plunging into the emptiness.

.....

No response, Ye Xuan did not see the reflection on the other side, but it was a hint of the system in the ear.

"Hey, the system prompts, the host should pay attention to the fact that the bones of the sword are destroyed by the destruction, have completely died, and can not be resurrected!"

what!

Complete destruction! And still can't be resurrected!

Ye Xuan was shocked!

Just now, what happened?

Ye Xuan couldn't help but ask, but unfortunately, he did not ask, just can say everything, even if it is a slight change, Ye Xuan is also in the eyes, but the bones of the sword is so easy to disappear, even Even after disappearing, Ye Xuan did not know what happened.

Obviously, the bones of the bones are like entering the lake, so they are integrated into the inside. However, when they are thoroughly integrated, they have been completely destroyed.

Ye Xuan looked up at the sky and looked down at her feet.

He knows that although this seems to be like a reflection, it is definitely not a reflection, but an unknown existence that Ye Xuan does not know at all.

Not afraid to explore the foot easily, Ye Xuan straight up and walked toward the front.

Ye Xuan is a person who can afford to let go. Since he now has no ability to explore what it is, then Ye Xuan has no need to continue to waste time there.

It's better to continue exploring the woods in front!

Looking at the various flames, Ye Xuan knew that this time, he might make a big profit!

Originally thought that there would be something like a beast, but now Ye Xuan saw it, but it was just a treasure house that he had collected.

This forest Ye Xuan does not know what it is, but, in this big tree, Ye Xuan still knows!

"System, what exactly are these trees? Can you detect them?"

"Hey, the system prompts, data collection!"

"Hey, the system prompts, this analysis requires 500,000 beliefs. Will the host continue?"

500,000 beliefs?

If it was done before, it was really a lot, but now, Ye Xuan does not care too much, because during this time, he has a nine-party 60,000, in the deliberate arrangement of Ye Xuan, in fact, flying smoke I have been doing things to rebuild my faith.

Therefore, many people in the 90s and 90s have already begun to believe in Ye Xuan.

The nine-party 60,000 is so big, even if only a small part of it completely believes in Ye Xuan, for Ye Xuan, it is also a great accumulation.

What's more, he has been in this battle for the Lord God for so many years!

Therefore, the value of the belief, Ye Xuan already has some inventory.

"Okay, allow it!"

Ye Xuan agreed with the system prompts.

"Hey, the system prompts, using the belief value analysis, the analysis is successful, the target is specified, the ancient law fire tree sapling!"

Ancient Law Fire Tree: A special kind of plant in ancient times. In ancient times, it was an older era than the ancient times. At the twilight of the ancient gods, people can still have some records, but for ancient times, people only have legends, and rarely The true record.

Of course, Taikoo, which is older than ancient times, is afraid that it is only a guess!

Ye Xuan did not think of it, he unexpectedly discovered something belonging to ancient times!

You must know that ancient times have always existed in legends. Even in ancient times, there was no understanding of people, let alone ancient times.

However, the system has now said that this is the ancient law of fire tree saplings!

This makes Ye Xuan not excited.

Looking at this piece of wood that can't see the end, Ye Xuan is not greedy. In Ye Xuan's heart, one of them can be satisfied.

"System, I want to get a sapling of this ancient law fire tree, what can I do?"

"Hey, the system prompts, the host should pay attention to all the trees that the host sees in front of the eyes, in fact, is an ancient law fire tree sapling!"

what!

This time, Ye Xuan can't help it anymore!

The system says that this endless forest is nothing more than a sapling?

Of course, Ye Xuan is surprised, but he will not doubt it.

After all, it is something from ancient times. Then, who can know so much, ancient times, there is not much recorded existence.

It can be said that I am afraid that I don't know the ancient things, and even the saplings of ancient fire trees are impossible to know.

After all, if you know, then I am afraid that there are countless strong people who have entered it.

But now it seems that the lord of the sacred and demon gods only knows that it is extraordinary, but does not know that there are ancient things here.

"System, this ancient law, fire tree sapling, how to collect?"

"Hey, the system prompts, the host level is not enough, can't provide information!"

"System, then, how much do you know about ancient times?"

"Hey, the system prompts, the host is not enough for you, can't provide information!"

.....

Ye Xuan continuously asked the system about a number of questions about ancient times. Unfortunately, there was only one answer, that is, his level was insufficient and he could not provide information at all!

Chapter 2407: Unknown influence

Yes, all this seems too far away. Even in the ancient times, for Ye Xuan, it was just a legendary existence. However, I did not expect that there was something in ancient times!

Ye Xuan looked at the woods, he wanted to collect, but there was no way!

Biting his teeth, Ye Xuan knows that this time, he only has a gamble!

The ancient law of the saplings of the fire tree can be said to be an unattainable existence.

Ye Xuan missed this time, and even in his lifetime, he could not encounter a second chance. Therefore, Ye Xuan did not want to let go, even if he knew that the danger was extremely high.

However, Ye Xuan originally intended to gamble.

Without hesitation, Ye Xuan extended his hand to one of the trunks, and he tried to instill and tried to communicate.

Suddenly, it seems that even time has stopped!

Ye Xuan seems to have been transmitted to a mysterious space.

In front of Ye Xuan, there is a small sapling, and there is nothing around Ye Xuan and the saplings, only quiet and dark.

Everything is gone, whether it is the law or everything else.

Everything, as if at this moment, has completely disappeared.

"System, what's going on!"

No response!

As if, even the system has disappeared!

This is something that has never happened before, Ye Xuan, for the first time completely lost contact with the system!

Ye Xuan looked around and some did not know what to do.

But after a while, he walked over to the little sapling.

Step by step!

There is no fluctuation in power, and there is no law at all.

It seems to be just an ordinary person, going to a sapling.

However, it is the same difference.

The sapling has only two leaves, and it looks like it is still malnourished. It seems that it may die at any time.

Ye Xuan gently touched the little sapling, but his heart was serene, and he subconsciously said to the little sapling: "I am pitiful, I don't know what you need to continue to grow, but you existed from ancient times. Now, then you can be sure that you have managed countless years, but you can't grow up..."

"Small sapling, what are you? Ancient law fire tree sapling, do you have the law of fire?"

.....

It can be said that Ye Xuan is really a bit silly now, actually talking to a sapling himself.

But Ye Xuan himself does not know why he is doing this now. He is just a subconscious act.

In Ye Xuan's heart, this ancient law, the fire tree sapling, has not been known for many years, can survive, it is already a very strange thing, and he not only survives, but also has not grown up, can know how lonely it is.

I don't know if this lonely emotion affected Ye Xuan, or other reasons. At this moment, Ye Xuan began to recall his past and recall everything on his way to cultivation.

And, subconsciously speaking to the sapling.

.....

In the outside world, the people of the two gods finally began to kill because of exploration.

They are constantly robbing the white jade. After all, their main task is to bring out the jade.

But no matter how the two sides \*\*\*\* it, there is a place, but no one dares to go.

Because of where it is, there are countless blazing flames.

It is also tried by the strong to enter, want to explore whether there are any treasures, but unfortunately, even if they have not entered, they will be swallowed by the flames that suddenly appear.

But if you are not close to the flame zone, the flame will not have any effect on them at all.

So over time, people have forgotten it selectively.

No one is paying attention to it because they can't enter it at all, and it seems that there is no treasure at all.

Strangled constantly, countless strong degenerate, that piece of white jade, constantly being snatched away.

Then they were plundered by others.

Bloody killings unfold in this mystery.

After all, for the sake of the task, for their own domain, people have already killed their eyes.

Only in the flame is a peace.

.....

"Small sapling, do you know? Actually, I sometimes think about it. It's really not easy for me to come along. I sometimes doubt my future. I don't know how far I can go."

"Small sapling, I feel that I may be much younger than your age, but I feel that you are more pitiful than me. You only have two leaves now."

"So, according to our humans, maybe you are just a baby, but you are poor, but you don't know how long you have been here. It seems that you are more pitiful than me."

"Small sapling, what do I say, can you understand..."

"Oh, I am really stupid, you are just a small sapling, how can you understand me!"

It seems that Ye Xuan reacted at this time. He laughed at himself and laughed. He even felt that he was not the original one.

Because of this moment, Ye Xuan actually gave up all defenses, what gods, what laws and powers, and what divine power, as if these have nothing to do with Ye Xuan, he is just a lost ordinary person, just one who does not know his future Ordinary people in general.

However, just as Ye Xuan stood up, the whole mystery, no, not just the entire mystery, but the real world of God, is in an incredible change.

Especially those who have mastered the power of the fire system are even more clearly felt.

At this time, in the secret world, a master of the king of the Kunlun gods who mastered the nine-day Xuanhuo law, the body of the king of the king, the body blood, beside him, several fire dragons will guard him, but obviously, it is only the end of the powerful.

Around him, a dozen of the deities of the demon gods looked at him with a slap in the face, and even one of the inferior gods!

It seems that this Kunlun domain is already a deadly situation.

Indeed, he has no way to escape.

"Haha, the guy of the Terran, this time, I see how you can escape, leaving your life!"

The Emperor of the demon gods proudly said that in his eyes, this person of the Kunlun domain did not have the opportunity to escape.

Suddenly, however, the flame controlled by the strongman of the Kunlun gods broke away from his control, and the nine dragons fluttered freely in the air, completely uncontrolled by the powerful Kunlun gods.

"Hey, I still want to fight against it, kill me..."

It is a pity that the Emperor of the Demon Gods can no longer say the last words, because the nine fire dragons actually launched their own attacks.

Moreover, it seems that at this moment, the law of fire attributes is unusually active. At the same time as the fire dragon launches an attack, the surrounding fire law forces are independent and integrated into it, and it does not matter whether it is the law power of the same system.

Chapter 2408: Permanent respect

It is also the law of fire, but it is also divided into countless kinds.

However, at this moment, the power of the entire fire system of the gods seems to be very happy!

Rule power? have feelings?

I am afraid that no one will believe this, because this is already something that people believe.

However, people throughout the world of God can feel this.

Not only the realm of the gods, but even other worlds, can feel this, because as long as the power of the flames, it is very happy.

The fire is dancing, the fire is cheering, it seems that all the flames have lost control at this moment.

.....

"brother!"

A voice was introduced into Ye Xuan's mind, so that Ye Xuan was sober, and at the same time, the small sapling in front of Ye Xuan disappeared. Accurately speaking, the forest in front of Ye Xuan disappeared.

Ye Xuan clearly remembered that brother, but he never heard the voice again, just in the blink of an eye, all the changes stopped.

Ye Xuan, also looking at everything dumbly, did not know what happened.

Ye Xuan's thoughts were constantly released, trying to find the ancient law fire tree saplings, but everything has disappeared.

Of course, this change does not last long. Therefore, no one in God has any slightest awareness. They are only wondering why the power of the fire system was active, but they did not know what happened.

Ye Xuan stood in the same place, puzzled and touched his head, just now, what happened.

The ancient law is the sapling of the fire tree, and where did it go?

"Hey, the system prompts that the host is in an unknown space, completely lose contact, confirm that it has died, the system will start the self-destruction program."

.....

The sound of the system came back, but Ye Xuan did not hear what the system said. The following consciousness asked: "System, what did you say!"

.....

"Hey, the system prompts, cancel the execution!"

Then, the sound of the system is not continuing to sound.

Ye Xuan did not think much, anyway, the system often prompted some things, were ignored by Ye Xuan, this time, Ye Xuan also subconsciously ignored.

As soon as the sound moved, Megatron controlled two sacred swords accompanied by Ye Xuan and flew upwards.

Ye Xuan looked down at the emptiness, and some disappointed said: "It's a pity that my bones and swordsmen have disappeared. Oh, this time, it's a loss, I don't know, the ancient fire tree saplings, It is exactly where I went."

Ye Xuan said as he flew away.

But if Ye Xuan went to see his godhead, he would find that his godhead was engraved with the imprint of a sapling. Of course, the imprint was afraid that no one could see through Ye Xuan himself.

The outside fight is still going on, because the time of transmission and departure is coming, this time the battle is coming to an end, that is to say, the war between the two gods will finally come to a close, and who can win, at this last The fight.

People have fallen into madness.

When Ye Xuan did not take long, he saw a battle. This is the battle between the two strong Kunlun gods and the two demon gods. Both sides want to kill each other, thus robbing the opponent of white jade. .

When Ye Xuan suddenly appeared, he heard a strong person from the Kunlun domain cry out loudly:  
"Quickly kill them, they have white jade on them."

This is obviously speaking to Ye Xuan.

Ye Xuan naturally did not hesitate, he certainly remembers his mission.

"Megatron, up!"

Two 弑Shenjian quickly dispatched, and Ye Xuan also pulled the law of the \*\*\*\* bow!

"Give me to die!"

boom!

One arrow, just one arrow, Ye Xuan directly killed an enemy!

"Hey, the system prompts, the host kills the three elements and waits for the enemy of the king."

Yep?

Three products waiting for the king of heaven?

How is this going?

Ye Xuan is quite confused, because Ye Xuan does not seem to have the power to kill the three kings in the kingdom!

You must know that what he sent is nothing but a space law \*\*\*\* arrow. It was originally intended to contain the enemy, and then use the engulfing law to kill the enemy, but why, the enemy was killed by Ye Xuan!

Ye Xuan had some doubts, once again opened the law of the shrine, shooting an arrow toward another enemy!

"boom!"

A huge devour whirlpool appeared, and the enemy did not have the slightest resistance, and was directly swallowed.

This enemy is still the strongest of the three kings.

Megatron brought the two of them to the hands of Ye Xuan.

At this moment, the two people in the Kunlun domain, looked at Ye Xuan very strangely, because Ye Xuan's attack power, it is too overbearing, even two arrows killed two enemies!

The key is that they can all see that Ye Xuan's realm is only one product waiting for God's kingdom!

"Hey, the system prompts, the host gets a special chance, and will always have the title of the former title!"

Permanently owned?

That is to say, even if Ye Xuan upgrades, it will not cancel the title of the former crown!

Special opportunity?

Ye Xuan is a little dumbfounded. What special chance he got, it seems that in Ye Xuan's heart, he did not get any inheritance!

Of course, this is definitely a good thing for Ye Xuan. However, Ye Xuan just did not understand why this is the case!

"You are the law of the gods, Ye Xuan adults?"

At this time, only a strong man of Kunlun Divine came to Ye Xuan and asked Ye Xuan.

Ye Xuan looked at the man and nodded back to it: "Yes, I am Ye Xuan!"

"The subordinates see the laws of the gods to make adults!"

The two quickly rushed to the ceremony.

After all, perhaps the identity of Ye Xuan's nine-party 60,000-degree festival is only effective in the 90-party environment.

But the law of the gods makes identity, but it can be unimpeded throughout the Kunlun domain.

"Get up!"

Ye Xuan waved his hand and motioned to stand up.

After one of them stood up, they said to Ye Xuan: "The law makes adults, I will not delay, and now it is only two hours away from the secret. I must kill the enemy and get more. White jade so that we can guarantee our victory."

Ye Xuan nodded and let the two leave.

However, Ye Xuan himself was lost, he found that he actually broke!

Obviously, he still remembers that he has just entered the secret, but he said a few words in the ancient law fire tree saplings. I did not expect that it will be so long, the secret battle will end!

Of course, no matter why it is, Ye Xuan's main thing now is to find enemies and grab white jade.

Ye Xuan figured a move and quickly rushed toward the surroundings.

.....

"Well, the human race, leaving white jade, I can make you die a little faster!"

Chapter 2409: Want to rob

Suddenly, Ye Xuan's trial sent a voice, blinking his eyes, and the three strong demon gods appeared in front of Ye Xuan.

"System, detect target strength!"

"Hey, the system prompts, the target is specified, the five elements are on the king's kingdom, the seven products are on the king's kingdom, and the king's eight products are on the king's kingdom!"

Ye Xuan slightly frowns, turned out to be three superior gods and kings!

However, Ye Xuan is not afraid, except for the guy who is the king of the eight kings, and the other two guys who have no title in the front, Ye Xuan will not be in the eye.

After all, Ye Xuan is now also known as the title of the former title, even if he is just a product of God.

However, with the title of the former title, at least, Ye Xuan will not fear the enemy of the same product.

Even if the other party is a king-level eight products, Ye Xuan is not without the ability of a war, slowly pull out the sword, Ye Xuan silently looked at the three.

"Haha, the guy in the district who is waiting for the king of God, dare to pull the sword to us? Haha, I can't find death, kill me!"

The demon gods in the eight kings of the kingdom of the gods waved their hands indiscriminately. In his eyes, there was no Ye Xuan in his eyes, because, after all, what he saw, Ye Xuan's strength was no different.

"Haha, the little doll of the Terran, today, you can't blame us. If you want to blame, you can only blame yourself for coming here. How about, now hand over your white stone, maybe we can also consider you." Life!"

Ye Xuan's mouth is slightly tilted.

It's pretty good to say, but it's afraid they won't believe it. Where is it?

The main \*\*\*\* battlefield, and it is still the secret of the final victory, in addition to your life and death, there is no room for any other choice.

Ye Xuan is not hesitating to deal with a three-pronged king who doesn't even have a title in the front. Ye Xuan even disdains to use other means.

"Destroy the gods!"

Suddenly, the seven swordsman went straight to the guy in the demon \*\*\*\* domain.

The man smiled a little: "With this strength, I want to..."

Unfortunately, his words are not played, because Ye Xuan's desolation is not something he can resist.

I saw that the person raised a shield of law, but when the seven swords light rushed over, there was no half-point obstruction!

The shield is broken and people are dead!

"Damn, the Terran Kid, rest arrogant!"

Seeing that his companion was killed by Ye Xuan, the strong man of the seven-pronged kingdom instantly shot, and he saw a sacred sacred sacred object in his hand, and then directly lost to Ye Xuan.

An eccentric sacred phantom continually rushed and rushed toward Ye Xuan.

Ye Xuan dismissed and raised his eyebrows.

Is it so powerful?

However, it is not enough!

"boom!"

The sacred sword directly hit the phantom, and in an instant, the phantom was directly defeated.

"God is changing!"

Suddenly, the strong man of the demon \*\*\*\* domain actually recovered the appearance of the body.

Generally speaking, regardless of the person of the demon \*\*\*\* domain, or the ordinary beast, if you want to use the law power, then the power of the illusion of the adult state can be greatly improved, so when fighting, it can be said that even if he is The demon gods will rarely restore the ontology.

But this person did not hesitate to morph the ontology. Obviously, his body has a special role.

"The little doll of the human race, let it die!"

A sacred beast with a black scale was spit on the body. On him, Ye Xuan did not feel the power of the law, but felt a mysterious power.

A dangerous force.

Accompanied by this sentence, I saw that the man finally spit out a mist.

The fog was in a moment of confusion around Ye Xuan.

"Not good, this fog is corrosive!"

Ye Xuan was slightly surprised.

Ye Xuan said that the corrosion ability is not only the erosion of Ye Xuan's body. The strong man of the demon \*\*\*\* domain does not know what is the ability to cultivate. The mist that he spits out can not only erode Ye Xuan's body, magic weapon, or even It is the power of law and the gods and souls!

"Haha, the Terran Kid, enjoy it, let you experience it, my family's unique Soul Eater!"

The strongest of the seven kings and the king of heaven are proud to say.

At this time, Ye Xuan found that his \*\*\*\* thoughts could not penetrate this fog at all, because Ye Xuan's thoughts could not be swallowed away, and it would be swallowed by fog, and Ye Xuan's body was swallowed up quickly. Fortunately, Ye Xuan, who has an eternal blood, is able to recover quickly.

What is the power of this law.

Ye Xuan was slightly shocked, he still cares.

Originally thought to have the title of the former title, then, Ye Xuan can be invincible in the same territory, but Ye Xuan has forgotten, the power of the law is ever-changing, everyone, will have their own special means and special magic.

At the beginning, Ye Xuan experienced the battle of the Lord God and witnessed the horror of the strategic magic weapon.

With a single blow, hundreds of millions of souls will fall!

Such a terrible force is not an enemy of the individual.

But recently, Ye Xuan has a big idea. He underestimated the enemy and overestimated himself.

At the same time, the infinite teleport has been launched, and Ye Xuan tried to get rid of this fog.

Unfortunately, there is no use at all.

"Don't pinch, Terran kid, you can't escape, in the field of my Soul Eater, you can't escape!"

The strong man of the demon \*\*\*\* domain is proud to say!

Ye Xuan never imagined that this fog was actually a field force.

Of course, how can Ye Xuan think that someone will use his mouth to spit out the field!

This kind of means is simply incredible.

Ye Xuan is not trying to leave by teleport, because Ye Xuan understands that if the power of the field, then Ye Xuan is infinitely teleported, it is impossible to leave here.

"Megatron!"

Ye Xuan screamed, and in a flash, Megatron directly controlled the two swords, and quickly turned around Ye Xuan's side. Ye Xuan wanted it. In fact, it was very simple. He wanted to use Megatron's fast. Rotate and build a belt around you.

Megatron also did it, and the two sacred swords were spinning at a speed, directly at the side of Ye Xuan, and constructed an isolation zone to separate the fog from Ye Xuan.

Ye Xuan thought quickly and wondered what could be done to solve these fogs.

"Perhaps the law of fire can dispel this fog, but unfortunately, I still have no rules of fire!"

Ye Xuan said faintly, this sentence is just what he subconsciously said.

However, a strange scene happened. I saw the whole fog, and it burned quickly. This is a kind of flame that Ye Xuan has never seen before. The flame, the rapid devourer's fog, and the blink of an eye, will already The mist was swallowed and disappeared.

Chapter 2410: Emperor Five

Ye Xuan's eyes are a bit strange, and I can't help but think of it. Is it that the strong people of Kunlun's domain are around and help themselves?

Of course, no matter what, because the fog disappeared, then Ye Xuan shot.

.....

"What is going on here, my soul-smelting fog, how can it be swallowed up, the Terran kid, what means you used!"

The seven goddess of the demon gods in the kingdom of the gods looked at Ye Xuan strangely, because just now, he clearly has an absolute advantage, but the strange flame that suddenly appeared, even swallowed his fog directly.

This really made him want to understand.

But whether he can understand it or not, Ye Xuan's attack has arrived.

"boom!"

a punch!

Because of the time, Ye Xuan did not take out the law of the gods, but suddenly punched like the strong of the seven kings of the king!

That guy is still confused at this time, so he did not make effective resistance, it was actually a boxing fly by Ye Xuan!

Suddenly, a figure appeared, and with one hand, he would hold the seven kings on the king.

It was the king of the eight-level king of the king who finally took the shot.

Megatron quickly returned to Ye Xuan's side, and Ye Xuan, also watched the man on alert.

Just now, the seven deities of the demon gods in the king's kingdom have already let Ye Xuan know that you should never underestimate the enemy. Don't think that you have the title of the former title, you can really be invincible!

To know, what kind of cards the enemy has, it is impossible for Ye Xuan to know.

At this time, I saw the king of the eight kings in the king of the king of the demon gods, and looked at Ye Xuan faintly, then said: "My name, called thorns! People, you are very good, a product on the area Waiting for the king of the king, but able to have such strength."

"I have to say that your strength is not bad, but it is precisely because of this, I will kill you today."

"The genius of the human race should not live in this world!"

Great tone!

Ye Xuan looked at the strong man of the demon \*\*\*\* domain. This person seems to be too self-righteous, but what about the eight kings in the district waiting for the king of the kingdom, even if it is the cultivation of the eight kings of the kingdom, then what?

Actually, he also said that the human genius should not live in this world, he thought he was who?

However, at this time, several people around the scene appeared.

Among them, there is actually a strong human race of the gods.

"The law makes care, that is the emperor orc of the demon \*\*\*\* domain!"

The emperor orc is a special kind of blood. The blood of the demon gods also has many kinds. Among them, the emperor is the most powerful.

This emperor orc is not just a family, but a total of five, but because the gods of the demon gods will come from these five.

Therefore, there will be the name of the emperor orc.

Thus, it is obvious that these people who have the blood of the emperor orcs have special means.

It can even be said that they are the strongest symbol of the demon \*\*\*\* domain.

Of course, the emperor orc is just a nickname for the people of Kunlun, but from the emperor's word, it has been seen that even as an enemy, the Kunlun gods are quite jealous of the five races.

"System, detect that guy in detail!"

"Hey, the system prompts, the data detection is successful."

"Hey, specify the target, destroy the gods and phoenixes, special blood talents, and master the fire laws. When this tribe takes the shot, they will master several flame law forces, and the speed of practicing the flame law is far faster than others!"

Destroy the gods and phoenixes?

This race Ye Xuan has never heard of it, but no matter what race he has, it has nothing to do with Ye Xuanyuan. Ye Xuan only needs to know that he is an enemy, then it is enough!

The law of the gods bow is held in the hands of Ye Xuan, and the sacred sword has also floated under the control of Megatron.

The war is about to begin. I don't know if Ye Xuan's battle has alarmed the people around him, or because it happened.

In short, as many as 50 people have gathered here, but no matter who is the demon \*\*\*\* domain or the Kunlun domain, they do not do it, but quietly look at Ye Xuan and the \*\*\*\* of the gods.

Because these two people, in the two gods, have a low identity!

Ye Xuan is the rule of the Kunlun gods, and it is also the festival of the nine-party 60,000, and the guy of the demon \*\*\*\* domain is also one of the five kings of the demon \*\*\*\* domain!

Therefore, the battle between the two men attracted the goal of everyone, but no one helped thousands!

"Human boy, you remember, you are dead in my hands!"

At this point, the thorn was quite a surprise, because he actually found out that the person he blocked was actually a big official of the Kunlun domain. So, if you kill Ye Xuan, would you be able to get more? benefit!

What's more, he has already determined that he must be able to kill Ye Xuan, so this can be such confidence.

Ye Xuan looked at the thorns faintly, and said nothing: "There is a beast in the area, and dare to let go. Then, you also remembered me, you are today, after all, I die under the sword of Ye Xuan!"

Ye Xuan certainly felt the anomalies around him. At this time, not only did many people gather around them, but it seems that they are generally not optimistic about Ye Xuan.

Even the people of Kunlun Divine, although not clearly speaking, but from their look, Ye Xuan can see the worries in their eyes.

Ye Xuan certainly understands why they are worried. After all, this time, Ye Xuan's opponent is not only a strong presence of Ye Xuan's entire seven products, but also a beast with a special blood.

However, Ye Xuan did not worry at all.

"System, the resources I collected during this time, leaving those special, the rest are swallowed up!"

Ye Xuan said faintly, this time, of course, he has accumulated a large amount of resources. On the battlefield of the main god, Ye Xuan is super-controlled by the Chaos to destroy the giant sword, but sometimes he will also participate in the cleaning of the battlefield.

At the same time, the production of the ancient space, the battlefield to kill the enemy's capture, etc., Ye Xuan has always been stored, but, because this is the battlefield of the main god, so Ye Xuan chose to suppress the upgrade.

Because Ye Xuan knows clearly, above the battlefield of the Lord God, it is not the higher the higher the repair, the higher the responsibility, the greater the responsibility, and the greater the probability of corruption.

Don't be able to save your life with the strength of the main battlefield. If you think about it, it will be a big mistake. Because the higher the strength, the more vulnerable it is to the enemy's strategic magic weapon.

Ye Xuan has accumulated a lot of resources, but it has not been upgraded. Now, it is time to upgrade.

Accompanied by Ye Xuan's orders, his hoarding resources were directly swallowed up.

"Hey, the system prompts, the host breaks through, the current level of the six grades of the gods!"
