

## Super D. S 2411

Chapter 2411: Shenfeng ancestor

What are the six kings in the kingdom?

enough!

Although there are two gaps with the enemy, but don't forget, Ye Xuan is the title of the former title, and the enemy, only the title of the former crown.

It can be said that Ye Xuan has enough confidence to kill this person.

Of course, since I know that the other party is one of the five emperors of the demon \*\*\*\* domain, then Ye Xuan will not kill him so easily. After all, it is very likely to attract the attention of the enemy.

Now less than two hours away from the secret, Ye Xuan does not want to make any accidents in the last two hours.

The battlefield of the Lord God is not a place where the individual is stubborn. If you want to be stubborn, then you don't even know how to die!

For example, the guy who is a strong person and rushes into the enemy group is generally.

How strong can it be? Ordinary soldiers can even rely on magic weapons to kill you with the number of people!

Therefore, now that Ye Xuan Mingming has upgraded the ranks, it still only exudes the pressure of a king of God.

"Hey, the human race, die!"

A powerful pressure suddenly broke out from the thorns. It was like a general pressure, and Ye Xuan was surrounded by an instant.

The performance of Ye Xuan seems to be such a powerless force, even relying on his own pressure, defending in front of him.

However, letting the thorns increase their strength, Ye Xuan is able to defend against it. Just a little bit can break through Ye Xuan's pressure defense. Unfortunately, the thorn is impossible.

The thorns looked slightly changed, and it turned out to be a moment.

"Human boy, it seems that I still underestimated you, you are very good, can resist my pressure to suppress, it seems, I want to kill you, but also a little activity to play."

The arrogant tone, actually said to kill Ye Xuan, but just a matter of activity.

Not to mention that the guy said this, it turned out that everyone in the Kunlun domain is also thinking like this.

Even the people of Kunlun's domain are not optimistic about Ye Xuan.

However, no one came forward to help.

Because, this Ye Xuan and the thorns of the identity are far more noble than them, even if their strength is stronger, but it is not easy to intervene in such a heads-up.

This time the heads-up, it seems that the two armies are against each other, the soldiers are against the soldiers, will be right, the king is against the king!

And Ye Xuan is now the king of the Kunlun domain, and that is the king of the demon \*\*\*\* domain!

Because one of them is the law of the Kunlun domain, one is the emperor five of the demon \*\*\*\* domain!

Therefore, the battle between the two, these ordinary strong, is not good at all.

Unless it is Ye Xuan or the thorns issued an order for the attack.

Ye Xuan's mouth is smiling, but nothing is said. The more arrogant this guy is, the more silent Ye Xuan asks, because Ye Xuan wants to see the expression of his defeat.

With the squeaking snoring, the thorny figure suddenly moved, and has already rushed toward Ye Xuan.

The body of the thorn is the \*\*\*\* of the world, so the mastery of the power of the fire system is extremely powerful.

At the same time as he moved, in the sky, there was no sign of 10,000 heads.

These Shenfengs were actually composed of different flame forces. As soon as they appeared, they flew toward Ye Xuan.

Ye Xuan naturally couldn't sit still, and the infinite momentary movement started instantly, but the speed of the \*\*\*\* phoenix was not weak. After a while, he had already caught up with Ye Xuan.

"boom!"

A phoenix phoenix directly hits Ye Xuan, and as soon as the hot air wave bursts out, this area is instantly turned into lava.

However, Ye Xuan has a slight glimpse.

This Shenfeng attack seems to be not very strong at all. Originally, Ye Xuan has already been able to get hurt because he has not escaped this attack. However, when the \*\*\*\* phoenix hit him, Ye Xuan discovered that These gods and phoenixes must have their own watches.

In this case, then Ye Xuan still has something to fear.

Holding the sword, Ye Xuan figure moves, in an instant, there are countless Ye Xuan figures in the sky, that is because Ye Xuan's infinite teleportation moves too fast, leaving the virtual shadow.

I saw Ye Xuan or slashing, or straight thorns, or obliquely picking, the scorpion sword in the hand quickly launched an attack!

"boom!"

"boom!"

"boom!"

All the gods and phoenixes were smashed.

This move, but the onlookers widened their eyes.

"The law makes the adults, this is what means, can even directly smash the enemy of the law, the blessing of the enemy! This is too powerful!"

"Why can't I see the law that makes adults use the power of law? Why do I think that the law makes adults use swords to directly kill those gods? This is not common sense, those gods, but have the power of law. How could it be killed by ordinary attacks!"

.....

"Damn, how did the Terran do it, and the arrogant adult, Wan Feng Qi Ming, although not too powerful, should not be broken in a district where he can be defeated by a king of heaven!"

"The key point is that the Terran did not use any rule power. How is this possible? I don't believe it, it is my eye that I can't!"

There are many people talking about it. For Ye Xuan to be able to kill those phoenixes so easily, people are full of incredible.

Even if it is thorny, it is very different. He originally thought that it was just such a move that Wan Feng Qiming had already allowed Ye Xuan to create the first, but now, there is no slight injury to Ye Xuan.

Therefore, naturally he is puzzled!

However, for Ye Xuan, there is no such thing as any surprise, because Ye Xuan did not even feel any law power in these Shenfeng.

In Ye Xuan's eyes, these gods and phoenixes are just the courage of the gods. Even if they have different attributes, there is no law to bless them. Is it worthwhile to break the Shenfeng, which has no law and blessing power? ?

However, in fact, apart from Ye Xuan, there is no such thing as the blessing of the gods and phoenixes. Anyone else has already seen it. Those gods and phoenixes not only have the blessing of the power of law, but many of them are very powerful. Fire law power.

It can be said that the ruthless fire law is very high!

The thorny action suddenly stopped, watching Ye Xuan, the thorns are also in doubt, is this guy mastering a special magic weapon?

However, the thorns quickly understood that this guy is the rule of the Kunlun Divine, then their God Lord gave him some special magic weapons, which is also reasonable.

So the thorns did not doubt much, but continued to launch the attack!

"Hey, the Terran Kid, I don't have time to waste time, then you can die!"

"God and Phoenix!"

.....

"The thorns can actually summon the ancestor's law! This, how is this possible!"

The people of the demon gods were amazed.

Chapter 2412: Little bird?

The ancestor's law is the most powerful man of the demon gods. No matter which family is the demon \*\*\*\* domain, as long as you can practice with your heart, then there is a chance to summon the ancestor of the family.

Of course, there are some differences in the strength of the ancestor's law that is summoned.

However, summoning the ancestor's law, in general, is only the gods can be used.

Unexpectedly, the thorns were able to summon the ancestor's law before the Emperor's kingdom, and sure enough it was one of the emperors' five races!

At this time, behind the thorny body, a black \*\*\*\* and phoenix appeared suddenly.

This Shenfeng found that the whole body was inky, as if it was just a shadow.

At the moment when this Shenfeng discovery appeared, the whole space seemed to burn. On the ground, even the soil was burning with flames, but in a flash, it turned into lava, and in the sky, the same, between the blinks, Wanli Within the sky, the sky has changed color.

What is more arrogant is that when this \*\*\*\* phoenix appeared, it even let the surrounding law forces have the ability to retreat three points.

However, at this moment, Ye Xuan was surprised to find that he was able to ignore the power of such a fire law.

At this time, although Ye Xuan can feel a little heat, but there is no feeling of uncomfortable or depressed.

This time, even if Ye Xuan himself, it is incredible.

"System, what is going on here, why am I not immune to the power of this phoenix rule?"

Ye Xuan had to ask the system, because Ye Xuan found that at this time, even the Emperor of the Kunlun gods could not help but walked a distance away from the back, and the burning from the sky to the ground allowed Ye Xuan knew that the enemy should have issued a powerful attack.

But can you ignore it?

Is it that the enemy deliberately made it out?

"Hey, the system prompts, the data is not enough, the system can't provide an answer!"

"Hey, the system prompts, detects the host, detects success, finds that the host is affected by unknown forces, and immune to all rule power attacks!"

The system suddenly prompted, Ye Xuan slightly stunned, how is it going, I actually immune the power of all fire laws?

Ye Xuan thought about it quickly, but couldn't remember what he had done, but he was immune to the power of all fire laws. What is going on?

This is even if Ye Xuan himself is confused.

Even Ye Xuan couldn't help but think, is there any strong person who can help himself in the dark?

After all, Ye Xuan really can't think of anything other than this reason.

Of course, in any case, this is also a good thing for Ye Xuan.

Just when Ye Xuan was puzzled, the thorn had already launched an attack.

I saw that the thorns suddenly launched an attack, and the \*\*\*\* phoenix immediately flew over the head of Ye Xuan, and then circled a circle, then opened his mouth and spit out the flame toward Ye Xuan!

This ancestor \*\*\*\* phoenix law, of course, can not be permanent, and the ancestor of the phoenix that was summoned by the thorns will only be attacked by such a move.

He will continue to spur the flame and directly consume all his power.

The thorns are slightly smirked, and he has already determined in his heart that this time he will win.

Because, no one has ever been able to persist under the full attack of the ancestors of the gods.

You must know that the flame that spits out is constantly capable of suppressing and will continue to improve.

The thorns still don't believe, anyone can stick to it.

Even if it is not immediately smouldering, then it will definitely be swallowed up by the ever-improving fire law.

However, Ye Xuan at the moment has not been affected at all.

At this time, Ye Xuan, but it feels very warm!

Correct!

That's it! Ye Xuan is just a feeling of warmth, what pressure, what damage, there is no.

Those so-called powerful flames are nothing more than the equivalent of giving the sun to the leaves, no threat.

Ye Xuan's doubt looked up and looked at the ancestor of Shenfeng, who was hovering over his head. Some wonder why the thorns would launch such useless attacks. Can't you still want to scare yourself away?

After watching it for a while, Ye Xuan always couldn't understand, so he turned and took a step toward the thorn!

step!

It's just a step, and between the moments, including the thorns, everyone is discolored!

The people of the Kunlun domain are unbelievable and ecstatic.

The people of the demon gods were actually panicked and shocked.

At this point, the thorn is considered to be the most shocking. After all, he himself summoned the ancestor of the ancestor of the phoenix himself. He himself knows best that such a strong ancestor's law has no half influence on the person. How is this possible!

"You, you, how did you do it!"

At this point, because it was too shocking, the thorns seemed to be stuttering.

Ye Xuan faintly glanced at the thorns and said with no care: "You want to give me this little bird, do you want to give me barbecue?"

Little bird!

He even called the ancestor of the dynasty gods as a bird!

Not to mention the people who are waiting for the demon gods, even those who are in the Kunlun domain are facing each other. They are the laws of the gods, are they too overbearing, how can they insult the ancestor of others?

What is the ancestor's law? For the human race, it is equivalent to the existence of the ancestors!

Ye Xuan's words, if you change to the Terran, it seems to be a small brother to the ancestors of a person!

It's that kind of arrogance, it's that kind of domineering!

The thorns changed greatly. He was alive by Ye Xuan. However, the ancestor of the gods and phoenixes in the sky was still locked in this leaf, and the flames were constantly ejected. Ye Xuan stepped forward and stepped forward. The flame attack of the ancestor of the gods and phoenixes is one step ahead of last month.

Ye Xuan can ignore it, but it does not mean that others can ignore it. Even if it is this thorn, it is impossible.

The power of the ancestor, in the hearts of the demon gods, is the supreme power, and the power that can never be countered.

Just like, when Ye Xuan used the mysterious blood and activated the so-called return of the ancestor, it would kill countless demon gods, and even scare the rest of the people to escape!

The power of the ancestor is anyone in the demon \*\*\*\* domain, and there is no way to resist it!

At this point, watching Ye Xuan actually took the attack of the ancestor of Shenfeng and walked toward himself.

The thorns actually screamed subconsciously: "You, don't come over!"

The thorns are not afraid of Ye Xuan, but the gods and phoenixes who are afraid of Ye Xuan's head.

Of course, it is almost a meaning, because this \*\*\*\* Feng Fengfa, this is just behind Ye Xuan, Ye Xuan took a step, he followed.

Ye Xuan's brow slightly picks: "Ghosts and ghosts, give me to die!"

"Destroy the gods!"

Chapter 2413: 5 million boulders

Ye Xuan suddenly waved the sword, and the seven swords rushed past the thorns.

The most important thing is that the seven swords, even with a part of the power of the gods and phoenix rushed to the thorns!

"Do not!"

The thorns are horrified and screaming, but the body can't even have a half-point action, because in the face of the ancestor's law, anyone in the demon \*\*\*\* domain can't compete.

In Ye Xuan's eyes, the thorn was like a fool, giving up all defenses and letting seven swords light hit him.

"boom!"

In the absence of defense, Ye Xuan's move to destroy the gods directly shattered the thorns, and the dead can no longer die!

Such an attack, even Ye Xuan did not think, he originally thought that this move, anyway, can not be so simple to kill the thorns.

But things were beyond his expectations, and the thorns gave up the defense!

Ye Xuan certainly does not know that all this is only because Ye Xuan's annihilation has already taken part in the attack of the ancestor's law.

With a wave of it, the thorny squad has already fallen into the hands of Ye Xuan.

The other people in the demon \*\*\*\* domain did not return quickly.

At this time, because the thorns have already died, the ancestor's law has naturally disappeared.

Ye Xuan will let such a good opportunity, and seeing that time is coming, he does not want to go back empty-handed, so the momentary movement is immediately launched, and the other Kunlun gods are also chasing up.

When they killed the people of these demon gods, finally, time is up.

I saw a sudden burst of light on everyone, and all the people who were still alive were sent out.

At this time, the blasphemy and the God Lord have been waiting outside, and every one who comes out has consciously walked to the front of his lord and handed over the white jade he had harvested.

Don't look at this white jade, it seems to be everywhere, but it really needs to be collected, but it is not so simple. At this time, the people who hand over the white jade, the Kunlun gods and the demon gods are almost the same, many may have tens of thousands, less It's also a few hundred.

It can be said that this is a matter related to the final result of the war. Therefore, even the gods of the demon and the demon gods are carefully observed. Of course, no one can falsify now.

After all, this is already a good thing to negotiate from the beginning.

Since it is a decision that has already been made, both parties will follow the agreement.

Which party gets less white jade, which one will fail.

At the same time, the two sides also sent one person to each other's camp. This person is the supervisor, and they will accurately report the number of white jade on both sides.

"Kunlun Godland, 1,836,200!"

"The demon \*\*\*\* domain, one hundred and nine hundred and seventy-seven thousand and one hundred and twenty-three!"

.....

The two supervisors are constantly holding the number, and everyone's attention is also attracted by this voice.

As more and more people hand over white jade.

It can be said that the Kunlun domain has begun to fall into the wind.

Finally, the only one who was in the Kunlun domain was coming over, and he saw that he waved, and a white jade appeared on a hill!

"Kunlun Godland, 19,363,700!"

When I heard this number, many people frowned slightly because the other god's gods had not surrendered white jade.

However, people are still quite excited, because we must know that this \*\*\*\* is a strong, one person has even come out more than five million!

At this time, the deity of the demon gods also finally came up, only to see him waving, it is also a hill.

"The demon \*\*\*\* domain, 2,103,200!"

It turned out to be a gap of nearly two million!

At this time, the \*\*\*\* of the demon \*\*\*\* domain has already smiled, because he already feels that he is winning.

After all, at this time, only Kun Xuan's domain includes Ye Xuan, and less than ten people have not handed over white jade.

Ye Xuan lifted his foot and walked toward the front, preparing to hand over his own white jade.

However, the voice of the \*\*\*\* of the demon gods has already been heard: "Haha, oh God Lord, it seems that this battle is the victory of my demon \*\*\*\* domain, then that thing, I can be disrespectful!"

God of the demon \*\*\*\* domain, is this celebrated in advance?

Also, there are only four gods left in the Kunlun Divine.

According to normal, a \*\*\*\* king, at best, can only get 100,000 white jade.

Therefore, even if these people all call out the jade, it is only a maximum of more than one million. Indeed, it seems that the demon \*\*\*\* domain has won. After all, there are also more than a dozen people in the demon \*\*\*\* domain that have not yet handed over white jade.

The brows are slightly wrinkled. In fact, even if he is, he feels that there is no hope for this battle.

However, at this time, Ye Xuan has already come over, and with a wave of it, a mountain of white jade appears!

At this moment, everyone looked at Ye Xuan.

The \*\*\*\* Lord of the demon \*\*\*\* domain actually said subconsciously: "This is impossible!"

The meaning of the demon \*\*\*\* domain gods is obvious, but he does not believe that Ye Xuan is not only the king of the kingdom, how can it come up with so many white jade!

In fact, I would also like to thank the thorns, because the relationship between the five kings of the emperor, so many white jade are kept in his hands, and Ye Xuan killed the thorns, then, the thorns are naturally natural Into the hands of Ye Xuan.

Not much more, Ye Xuan got five million!

In other words, even if Ye Xuan is more powerful than two gods, it is not much!

You must know that Ye Xuan is just a king of the realm of the district. He has even produced the amount of white jade that is equivalent to the strong deity.

In a flash, everyone is discolored!

"Kunlun Divine, 2,464,400!"

The supervisor of the demon \*\*\*\* domain almost shouted this sentence with a trembling voice. As a supervisor, he knew very well what this number represented.

However, he must also shout out!

.....

"Come, give me all your white jade!"

The deity of the demon gods turned to his subordinates and said, those people who hesitated halfway, quickly handed over their white jade.

Unfortunately, it is not enough. These people are only tens of thousands of them. Even if they have more than a dozen people, how can they counter the number of five million pieces of Ye Xuan!

Even the rest of the Kunlun gods do not need to come up with white jade, because the results have come out!

"The demon \*\*\*\* god, it seems that you are too happy too early, that thing, destined to belong to me!"

I smiled and glanced at Ye Xuan, and my eyes were filled with appreciation!

Ye Xuan always seems to be able to surprise him, just like this time, even he has given up hope.

Chapter 2414: Twelve seeds

But did not expect that Ye Xuan actually brought him a surprise.

The \*\*\*\* of the demon gods looked at him. Of course he knew that the result was already doomed. At this moment, unless he did not hesitate to wage war, the result must be doomed.

And he is not willing to wage war here.

It can be said that if the war is triggered, then the two gods will not end, or even the genocide!

The demon \*\*\*\* domain is not ready for the genocide, so he can only give up!

"Oh, useless waste!"

The demon \*\*\*\* god gods waved with one hand, and instantly killed all the demon gods who participated in the treasure trove! Including the gods, there is no resistance.

Ye Xuan's eyes are slightly picking.

Is this the power of the Lord God!

Even if the gods respect the strong, they can't do half a struggle!

Of course, this is a matter inside the demon \*\*\*\* domain. Even the \*\*\*\* of the demon \*\*\*\* domain, killing all his subordinates, has no relationship with the Kunlun domain.

"Withdrawal!"

The demon \*\*\*\* god \*\*\*\* suddenly snorted, and then the figure disappeared immediately, apparently, has left here.

And when you hear the command, everyone in the demon \*\*\*\* domain quickly withdraws from the battlefield of the Lord God!

In an instant, the Kunlun gods burst into a burst of excitement.

In this battle, they won!

After the fall of tens of billions of people, they finally won.

Looking at Ye Xuan, his face was a rare smile: "This time you did a very good job, give it to you, this is your reward."

After saying that the sly figure disappeared, Ye Xuan took over the 乾 戒 ring, although I don't know what it is for him, but Ye Xuan also knows that it is not a simple thing. After all, this is 犏犏How can the rewards be simple?

Of course, Ye Xuan is not in the mood to manage this now, but quickly returns to his army and begins to evacuate with his own people!

A World War that lasted for hundreds of years finally came to a close, and the entire Kunlun domain was filled with jubilation.

At a later time, the Jingwei Guard will distribute the rewards to the hands of the various cadres according to the martial arts.

And these rewards will have people who will be given to their gods.

At this time, Ye Xuan has returned to Ye Zong, such a long battle, Ye Xuan naturally has to rest for a few days.

Flying smoke has already been waiting for Ye Zong. During this time, Ye Xuan fought in the battlefield of the Lord God, and the entire nine-party 60,000 environment can be said to be taken care of by flying smoke.

Obviously, the flying smoke is very good.

"Don, you are back!"

Flying smoke looked at Ye Xuan, and the look was a little excited. At this time, the entire nine-party 60,000 people have already gathered in Ye Zong.

At this time, the nine-party 60,000-dollar environment has long been not the nine-party 60,000 environment when Ye Xuan left.

Along with the good news of the battlefield, the whole party is in the 60,000 environment. No one has dared to be dissatisfied with Ye Xuan.

It can be said that Ye Xuan at this time has become the true master of the nine parties.

"Congratulations to the festival to make the adults come back!"

The great shouts of the mountains and the tsunami, Ye Xuan casually waved his hand and said:  
"Dissipate today, I am a little tired, wait a few days in the merits!"

"Yes, the festival makes adults!"

Everyone naturally does not dare to disagree.

In fact, for the nine parties and the 60,000, the merits and demerits will not be any cumbersome. After all, the complete set of offensive systems allows every soldier to know how much he can get.

Sure enough, only a few days, under the dispatch of flying smoke, the rewards began to be issued, without any objection. After all, because of the relationship between the military power system, everyone who can get many rewards, in fact, has a bottom in mind.

Kun did not speak in this battle, in fact, the performance is really ordinary, but Ye Xuan still rewarded him. After all, Hao Kun is not the earliest friend of Ye Xuan.

When the nine parties were celebrating 60, Ye Xuan opened the reward he gave him.

Ye Xuan is very clear, I am afraid that the things I give are not so simple.

But when he saw the things in the ring, he couldn't help but be shocked. Countless resources, it can be said that Ye Xuan is an ordinary practitioner, afraid that it is enough to upgrade to the gods, Even if Ye Xuan is swallowed up now, it is enough to be directly promoted to the superior royal kingdom.

However, there is a wooden box that interrupts the plan.

In fact, even if Ye Xuan does not want to pay attention to the \*\*\*\* box, it is impossible.

Because, the wooden box is so eye-catching, on the wooden box, contains endless life, let Ye Xuan open the first look of the ring, I noticed this thing.

Ye Xuan did not hesitate and took it out directly. However, when Ye Xuan opened the wooden box, it was still a bit strange.

Because, in this wooden box, there are actually twelve seeds.

seed?

What is the seed of this?

Ye Xuan is a bit strange.

"System, detecting what these things are?"

Ye Xuan asked directly to the system.

"Hey, the system prompts, the host please note that this detection will consume 5 million beliefs. Is the host confirmed?"

Actually still consume five million beliefs!

Ye Xuan was slightly surprised: "System, how many beliefs do I have now?"

“Hey, the system prompts that the current host has 513 playing values!”

5.13 million!

However, in order to probe these seeds, it takes five million?

Ye Xuan is hesitant. After all, the value of five million beliefs can be achieved without saying that.

However, it is still a gamble to think that this thing is definitely not easy to use.

"Okay, confirm!"

"Hey, the system prompts, the target is specified, the tree of the twelve main rules!"

“Hey, the system suggests that the law tree contains a lot of law power, which can not only be used to understand the power of the law, but also to improve the spiritual structure of the secret space, repair and strengthen the power of the law!”

It is still the tree of the law tree!

Ye Xuan took over the ancient laws and saplings of the fire tree, just a seedling, and it has such powerful power.

Although it is said that these laws and trees may not be as far as the seedlings of the ancient law fire tree.

But after all, this is also the law tree!

Make big!

Ye Xuan's heart is a joy, because he has already found a good place for these law trees, that is, Ye Xuan's own engulfing space.

It can be said that Ye Xuan has been worried about the devour of space.

After all, because of the special nature of the engulfing space, the law power, divine power, etc. inside are somewhat inadequate.

In this way, the most direct manifestation is that the people living inside, the promotion is not as simple as the outside.

Moreover, because of the lack of power of the law, the phagocytic space is rarely used for actual combat.

But imagine what it would be like if the devour space was cultivated by Ye Xuan and it was just outside, even beyond the outside.

When it is not necessary, Ye Xuan can introduce a strong enemy, and then defeat the enemy with the power of swallowing space?

Chapter 2415: Planting trees

Ye Xuan was so excited that he looked at the twelve seeds in front of him. He knew very well what kind of changes the twelve seeds could bring to him, and how much improvement he could provide for his engulfing space.

It can be said that with the seeds of these twelve rules, Ye Xuan's engulfing space will be greatly changed.

Without the slightest hesitation, Ye Xuan God has already moved into the space of engulfing.

In the previous battle, Ye Xuan called a lot of power to devour the space, which caused the phagocytic space to be damaged.

This poor devouring space, since this time, has never been too peaceful, has been hit again and again, and again and again by Ye Xuan to ask for strength.

When Ye Xuan entered the devouring space, he saw a desolate, withered trees, collapsed mountains, dim sky, gray earth, and, no matter what, people had an uncomfortable rule.

Ye Xuan couldn't help but think that he himself really asked for too much space.

It has not been made up, but today, Ye Xuan is going to make up for him, to change the space of engulfment, even if it is only a little change, but Ye Xuan believes that the constant accumulation will enable the swallowing space to continue to grow.

"System, mobilize all resources, I want to plant trees!"

Ye Xuan said faintly to the system, but in my heart, she was very excited.

Ye Xuan wants to plant trees, so he wants to mobilize resources, because he wants to plant them, not just ordinary trees, but the twelve rules of the \*\*\*\* tree!

Along with Ye Xuan's order, the system will continuously condense all the resources of Ye Xuan. These resources will become the nourishment of the law tree, and will also be used to change the phagocytic space.

The law of God tree, Ye Xuan does not want to be seen by people who devour space.

Although Ye Xuan is the master of the engulfing space, the \*\*\*\* of all the people living here, but after all, as long as it is a human being, there will inevitably be a private desire, Ye Xuan does not want to see the engulfing space because of the law of the \*\*\*\* tree. The battle of people.

What he would rather see is that the Twelfth Rule of God Tree silently contributes to the power of law and transforms the entire engulfing space.

"Get up!"

Ye Xuan's thoughts, almost covering the entire engulfing space, accompanied by his orders, in the engulfing space in twelve different positions, at the same time a huge change.

In a place that was originally only desert, countless sandstones quickly condensed, gathering sand into stone, and between the eyes, it was a huge palace. How big is the palace?

I am afraid that no one except Ye Xuan can enter it, because this is a huge labyrinth where only one road can reach the center point. Moreover, here, Ye Xuan has arranged countless arrays at any time, prohibiting it!

In the center of the palace is a huge garden, but in the garden, except for ordinary flowers and plants, there is only one tree, that is, the law \*\*\*\* tree.

There are three such palaces, each of which is quirky and unique.

In the sky, there is a constant condensing of the ban, and then the floating islands appear rapidly. On these floating islands, there are no birds and flowers, and Ye Xuan uses the power of the law to bring hundreds of grounds. The Great Lakes are linked to the floating islands in the sky.

Therefore, on the floating island, there should be no waterfalls, but he has existed, and it is simply endlessly flowing from the island.

The waterfall is thousands of miles away, and the silver belt covers the sky.

A rainbow of roads will almost never disappear, making it a paradise.

Of course, these floating islands are also divided into three pieces, each guarding the seeds of the three laws of the \*\*\*\* tree.

There are flowers, grasses, and nature.

A powerful beast appears on these floating islands, and their mission is only one, guarding the law of the saplings of the \*\*\*\* tree!

Moreover, Ye Xuan's heart has even had a new decision, that is, he will arrange all the swords he will retire in the future, and arrange them around the saplings of the law tree, so that they can enjoy the rest of their lives here. For Ye Xuan, the law of the gods.

Of course, more importantly, at the side of these laws, the pets and swordsmen who can't keep up with Ye Xuan because of their qualifications will have the possibility to advance again!

The sky and the desert have changed, so the sea will naturally change.

The power of the law is still the difference between the attributes.

Jinmu water and fire, time and space plane, life and death!

This is the twelve main law attributes, and the sky is the three main rules, time and space plane!

Among the deserts, it is the three laws of fire and earth that are arranged by Ye Xuan.

As for the sea, there are only two rules of God tree!

Water and wood!

The bottom of the sea was constructed by Ye Xuan with two gods. It is magnificent and magnificent. If the maze is in the desert and the fairyland is in the sky, then the bottom of the sea is noble!

.....

After arranging the seeds of the eight laws of the \*\*\*\* tree, Ye Xuan paused for a moment.

Because he is going to arrange for life and death!

The law of life! The law of death! The law of light! The law of darkness!

It can be said that the power of these four rules is not to be said first, but after all, it is the four laws that have the greatest influence on the space and the Ye Xuan.

Therefore, where to arrange them, but it is not allowed to think about Ye Xuan.

The strength of the five attribute rules of Jinmu Shuiyue, Ye Xuan does not want to be known because they are too ordinary and too important, but at the same time, they are the most learned power of law, so Ye Xuan hid them. Because only the power they need to emanate is enough for people who devour space to cultivate.

The three laws of time and space planes are too strong. If others don't say anything, they say a plane law. If someone has a heart, then will he challenge Ye Xuan's authority by virtue of the plane law?

Ye Xuan did not know, but he did not want his own engulfing space to be interfered by the slightest force, so Ye Xuan also hid them.

However, the four rules of life and death, Ye Xuan is more willing to let people be exposed.

In particular, the law of life and death is very important for Ye Xuan. It is needless to say that the two laws of life and death can prolong the life of people in the phagocytic space.

After all, the phagocytic space is not the same as the time flow of the outside world. Ye Xuan does not want to see the creatures in the swallowing space fall apart because of the lack of cultivation. He can't do anything, so Ye Xuan wants people to get in touch with this power. They can use this power properly.

"boom!"

Without warning, people in the space swallowing, suddenly found that two huge incomparable highs suddenly appeared, and there is only one palace above each mountain, and the palace contains infinite Law power.

At the same time, a ban on test and guardianship appeared together.

Chapter 2416: Rain of divine power

Ye Xuan did not deliberately arrange for someone to guard there, nor would he interfere too much with the operation of the four halls.

In addition to announcing that everyone who devours space can go to get close to the law tree to gain strength, Ye Xuan has no other action.

Because, Ye Xuan wants to go with the law, the power of the law, is the opportunity, even if it is in the devour of space, even if Ye Xuan is the master of the engulfing space, it is impossible to control the power of law.

After all, even if Ye Xuan himself can do it, it is just the power of usage.

Therefore, Ye Xuan has only left a chance in the palaces around, and who can get what, then, it depends on the people who have swallowed up the space.

The formation of four palaces naturally caused countless people to marvel, and the first people have begun to challenge.

Ye Xuan did not pay much attention to it, because he knew that at the core of the law \*\*\*\* tree, no one could break into it at all. There, Ye Xuan used his own privilege to engulf the space owner, constructing an infinite loop!

When you get there, you can see the law tree, but you can never touch it.

Because, there, Ye Xuan is a separation belt made of space faults and overlapping spaces.

Unless you can break the limits of the swallowing space, and rely on your own strength to get out of the swallow space, otherwise you will not be able to step into it.

The people who devour the space, no matter how powerful, are marked by the engulfing of space. In fact, no matter how strong it is, no Ye Xuan's approval, it is impossible to get out of the space.

So, there is no place to be there.

Ye Xuan looked at the four palaces that were engulfed by the people who called the holy land. The corners of his mouth were slightly tilted. He knew that from this moment on, the entire phagocytic space had completely changed.

Of course, there are more important things to deal with.

Even if the twelve laws of the \*\*\*\* tree species have been planted now, after all, it is not a matter of time to want to really work.

Therefore, Ye Xuan wants to catalyze the catalytic law of the \*\*\*\* tree, and at the same time, it is also catalyzing the entire phagocytic space.

"System, are you ready, ready, let's get started!"

Ye Xuan said faintly to the system.

At this point, the system has mobilized almost all the resources of Ye Xuan, Lingshi, etc., Ye Xuan wants to devour this space, the next rain, a magical rain!

"Hey, the devouring space transformation is officially open!"

"Oh, the resources are broken down, the power is scattered, and the rain of divine power begins to fall!"

It's raining!

The entire swallowing space was covered with drizzle.

But this rain, but not ordinary rain, countless people, countless beasts, countless plant surprises, the sky, the next is the rain of divine power.

People cheered, the beasts screamed, the plants swayed, and greedily absorbed the power of this magical rain.

The entire engulfing space is full of laughter and laughter.

In Ye Xuan's eyes, the entire phagocytic space is undergoing tremendous changes. The sky begins to clear, and the flowers and trees begin to recover and even evolve.

A beast that was originally ignorant and ignorant, slowly opened up the wisdom, the light of the breakthrough of the realm, shining through the entire swallowing space!

At the same time, the phagocytic space began to slowly condense the true shape.

An isolated island, a huge island of incomparable, hangs over the entire devour space.

In fact, that is the continent that devours space, but around him, there is infinite chaos.

Those chaos is the place where Ye Xuan needs to be unlocked later!

This continent is the entire engulfing space owned by Ye Xuan, but because of the formation of the law power, it finally begins to show clearly, the law power is constantly improving the entire engulfing space, and at the same time, the whole continent is slowly expanding toward The chaotic zone continues to expand!

Of course, the speed is extremely slow.

However, Ye Xuan does not care at all. After all, he has time to perfect, and some time to expand.

Overlooking the entire devour space, Ye Xuan found that there was always something missing.

After a while, he reacted and swallowed the space, seemingly missing the sun, the moon and the stars!

According to the truth, it is much better to use the special resources of the sun, moon and stars, or to make things directly with the power of the law.

However, Ye Xuan has never seen anything that contains the rules of the stars, the law of the gods or the power of the laws of God. Therefore, Ye Xuan can only helplessly wave.

In an instant, the sky is dotted with countless stars, a round of bright moon, a round of sun also appeared, sunsets and moonrises, the moon rises and rises, so that the entire engulfing space, can be regarded as a real appearance.

Of course, the phagocytic space at this time is like a buckled pot.

Only front, not back.

In the Tianyuan area, it's just that, but Ye Xuan can only do it now.

Those sun, moon and stars are actually only constructed by Ye Xuan with some ordinary ancient resources. They can only be used, but they have no real effect.

Of course, this is enough.

Ye Xuan also knows that he can't make the whole engulfing space so perfect at one time. He still has no such powerful strength and foundation.

Just like the same saying, eat a bite! And to swallow the space, we must also improve step by step.

Ye Xuan continued to observe for a while to swallow the space and see if he could make some adjustments.

He will move the mountains for a while, transform the rivers for a while, or move the entire ethnic group as a whole, and build some pavilions and pavilions out of the beautiful scenery in a beautiful place!

In this way, careful and bold transformation.

Of course, zoning is still a must. After all, if different forces are suddenly combined, it will only cause unnecessary crises.

But this time, Ye Xuan is devouring the edge of the space to construct a special area.

Jail area!

This is where Ye Xuan is prepared to punish the enemy, and is also used to defeat the enemies that introduce the engulfing space.

Here, Ye Xuan carefully constructed a large array of seats, one by one magical prohibition.

Here, contrary to the bright outside, only the dark and the breath of death, the poisonous gas is confused, the beasts are rampant, because here is the place where Ye Xuan prepares for the enemy, as long as the people who enter here, even if Ye Xuan does not kill, will let him taste all the hardships in the world.

After doing all this, Ye Xuan retired from the swallowing space.

Of course, don't look at Ye Xuan's thoughts in the swallowing space for so long, in the outside world, in fact, it has only been three days.

Chapter 2417: Explore the city of the Nine Secrets

For three days, Ye Xuan has been in his own palace.

The outside world, the people of the nine parties and 60,000, are silently waiting for Ye Xuan to go out.

After all, this time the war of the Lord God war, the Kunlun domain has won, and the Lord God has also given countless rewards.

Under the leadership of Ye Xuan, the Kunlun domain has set a great battle. Even the people of the entire nine-party and six thousand people can get their own rewards because of the military system, but they still hope to see Ye Xuan.

Seeing their noble feasts make adults.

.....

People look forward to it and look at the closed palace door silently. Everyone knows that this time the war is that their festivals lead the adults to be wise and lead to such rich rewards.

It can be said that this time their harvest, even those old great forces, simply could not find such a generous reward.

Therefore, the entire nine-party 60,000 people are waiting, waiting for their festival to make adults appear.

"Look, the palace door is open!"

I don't know who shouted. In the blink of an eye, in the sky, above the ground, countless people quietly looked at the gates of the palace.

After a while, a teenager slowly came out.

Step by step!

But every step of the way seems to be able to leave a footprint in the hearts of everyone.

No matter what you are doing, no matter what kind of background you are, at this moment, there is only one movement to see the boy's moment.

That is to admire.

Ye Xuan came out and walked out of the palace.

But when he came out, he saw countless people stumbling in front of him.

Densely dense, covering the sky, fearing that there are more than one billion people!

These people are all rushed from the 90s of the nine parties. Some people participated in this war, and some people did not participate, but whether or not they participated in this war of the Lord God, people are against Ye Xuan. Only worship.

"See the festival to make adults!"

A voice that shocked the entire space, that is the scream of the billions of people! That is the true heart of the billions.

Rows, columns, and tens of billions of people lined up in neat squares, starting from the ground and reaching the sky.

Ye Xuan's brow slightly picked, he did not think that when he came out, there would be so many people waiting for him.

"Get up!"

Ye Xuan waved his hand and gestured to everyone.

"Thank you for making adults!"

Ten billion people stood up at the same time.

But it is just such a small movement, but it can drive space fluctuations, even a whirlwind directly swept out from here.

This is a billion people, of which no shortage of strong!

The power of the billions of gods is so simple.

Ye Xuan knows what these people are coming for, but Ye Xuan is not too concerned about it.

The degree of the festival is good, and the law is worth mentioning. In fact, Ye Xuan is not too concerned.

Especially after the end of the Lord God War, in fact, Ye Xuan has made a new decision.

Ye Xuan will not be blinded by wealth and will not blind his eyes because of the respect of this billion people.

After all, Ye Xuan still has his own things to deal with.

After the completion of the Battle of the Lord God, Ye Xuan was already ready to leave.

Ye Xuan looked around and looked at the excited people and smiled slightly.

"I know that everyone wants to do something, but I don't like this kind of red tape. Let's just scatter it. If you work hard, I will naturally look at it and naturally reward it!"

Ye Xuan's words are very dull, and there is no such generous speech, even if there is no such thing as a word.

But it is such a dull language, but it is truly convincing.

They are all gods, they all think that they can become stronger, so too many words, in fact, there is no such thing as Ye Xuan.

Practice well, if you have it, it will be given to you. This is Ye Xuan's promise and Ye Xuan's encouragement.

Just such a plain sentence, but it is enough to let the strong people of the nine parties and 60,000 understand the heart of Ye Xuan, and they are the result they want.

"Dispel it!"

Ye Xuan is another wave of hands, which is the end of this meeting.

This is the first time that Ye Xuan has faced his own people since he became the festival of the nine parties. It is obvious that the effect is very good.

Obtaining Ye Xuan's order, regardless of the appearance of the stream, it seems to be a meteor shower, that is, countless strong people are leaving here.

Wait until everyone left, Ye Xuan smiled and walked toward the front.

A lot of things are still waiting for Ye Xuan to do.

However, Ye Xuan now, but once again go to the city of the nine secrets!

Most of the strength of the organization has been cleared, but there is still a place that needs to be dealt with. That is the fragment of the headquarters of the ancient annihilation organization in the middle ages of the faults of the Middle Ages.

Of course, with Ye Xuan's current strength, I am afraid that there is no way to enter it. After all, there is a chaotic rule guarding there. However, Ye Xuan can't go in now, it does not mean that he has forgotten where, Ye Xuan is waiting, Waiting for an opportunity, or a chance.

No matter how great the gods are, even the treasures of the seeds of the law tree are used. Then, it is not unusual to have a blockade that can break the law of chaos and enter the space.

Of course, being able to enter the area and destroy the members of the ancient anti-official organization inside is afraid that it is basically a different matter.

Ye Xuan knows this very well, so this time, he did not know the first secret of what it contained.

But the second one!

The city of the Nine Secrets, the Nine Secrets, because Ye Xuan is constantly fighting, so there is no time to deal with it.

Now, Ye Xuan has a lot of time to explore.

The last time I got a few law, I was integrated into the blood of Wan Zun, this is Ye Xuan's confidence.

This time, Ye Xuan did not bring anyone, and he walked toward the second secret.

The second secret is not the same as the first secret. Before the first secret was good, some things were still available.

But the second mystery, to be precise, is the remaining eight major deadlands. In fact, there are no clues, and no one has ever gone in, but they are all dead and dead.

Ye Xuan is not sure, and it can be said that entering the second secret is also a decision he has made for a long time.

Because in this second secret, it is the only secret that someone is alive. Although, the people who come out seem to have been greatly stimulated, basically not crazy or stupid!

The cultivation of a king of the gods, into this second secret, Ye Xuan did not fully grasp, but did not mean that he would give up.

If you want strength, don't pay a price.

Chapter 2418: Second secret

Can it be said that sitting at home, An An steadily, when his festival is made, Ye Xuan's pursuit is not successful.

Do not!

No!

Ye Xuan is pursuing a powerful force, because Ye Xuan has what he wants to do.

For example, find a place to fall.

However, entering the realm of the gods for a long time, in addition to knowing that it is in the demon \*\*\*\* domain, the other, Ye Xuan almost no clue.

It's been too peaceful for too long, and it's been too long to live a stable life. Ye Xuan knows that he can't continue this way. If he wants to gain strength, he can only fight hard.

The war of the gods is indeed a place where it can quickly improve its strength. However, the war of the gods is rare once in a few hundred thousand years. Is it possible for Ye Xuan to sit still here and wait for hundreds of thousands of years?

Step by step, Ye Xuan stepped directly into the second secret.

In the beginning, there was nothing too worth noting in this second secret, unlike other mysteries.

Entering this second secret, Ye Xuan seems to have entered a dark cave, dark and quiet, except for Ye Xuan's footsteps, it seems that there is nothing here.

However, there is a weirdness that Ye Xuan has to be vigilant.

That is, here, Ye Xuan's thoughts are limited by a mysterious force.

It can be said that Ye Xuan's thoughts can only detect the wall, but it cannot penetrate at all.

The key thing is that even the wall can't know anything.

In addition, it is the pressure. In this cave, Ye Xuan will go one step further.

This feeling is like, this second secret is simply a place that is not willing to be disturbed, so use the pressure to try to force the people who enter it.

However, is this really the case?

This is called the place of death. It is really so simple. Just want to rely on the pressure to defeat Ye Xuan?

.....

Ye Xuan walked step by step toward the front. At this time, Ye Xuan had a faint sweat on his forehead.

Because the pressure in this second secret is too strong.

This feeling of increasing pressure is really uncomfortable.

It is not the pressure itself, but the endless feeling. Even Ye Xuan has the feeling of wanting to turn around and go back.

It seems that there is a voice constantly suggesting in Ye Xuan's ear.

Go back, just turn your head back, then you can no longer bear such a strong pressure.

In fact, Ye Xuan has indeed reversed the body!

When he is no longer moving toward the second secret, it seems that the pressure of everything disappears in an instant, and that feeling is really comfortable.

However, Ye Xuan is Ye Xuan, letting you have any obstacles in your second secret. Since Ye Xuan has decided to enter it, then he will not give up.

"I have to look at it, what secrets are hidden inside!"

Ye Xuan bit his bite and said to himself.

In an instant, this sentence seems to be infinitely spread.

Repeatedly echoed in the cave.

The sound echoed again and again, getting smaller and smaller.

As long as people with a little common sense can know, this represents the front of the cave, and there is endless distance!

Ye Xuan brows slightly wrinkled, but did not fear, one step to continue to step out.

"boom!"

The powerful pressure of the power suddenly fell on Ye Xuan's body.

As the distance traveled further and further, the pressure on Ye Xuan's body was getting stronger and stronger.

Fortunately, the pressure here does not contain killing, but only a simple pressure.

Otherwise, Ye Xuan can be really unbearable.

.....

However, things are so simple.

Ye Xuan is also stepping out.

In an instant, a fierce killing instantly broke out!

The killing intention was wrapped in the pressure. At that moment, in front of Ye Xuan, there were countless illusions.

That is a person who was once killed by Ye Xuan!

Headless enemies, enemies with broken arms, enemies divided into two halves, even enemies that have become fleshy.

Countless voices are thinking about Ye Xuan's side: "Return my life..."

"You damn..."

"We are so lonely, come and stay with us..."

Countless voices broke out in an instant, accompanied by the incomparable killings. It can be said that letting Ye Xuan just cold sweats for a moment!

“Hey, it’s detected that the host is affected by the illusion and is automatically cleared!”

"Hey, clear phantom success!"

Illusion!

It’s just an illusion!

Ye Xuan was sweating all over the body at this time, although it was just a blink of an eye, but Ye Xuan actually felt what it is called fear!

Originally, in addition to these sounds, these illusions, as well as the powerful pressure and killing, here, you can even expand the fear of the people who entered!

Ye Xuan finally knows why someone here can successfully go out, and it is silly to go out after going out!  
,

This is simply on this road, living and being scared and scared!

Even Ye Xuan, such a powerful mind, and system guardian, almost all said, not to mention other people!

This is not a realm of realm and cultivation!

On this road, the people who enter the most need to overcome, in fact, it is not a threat or killing the magical magic, but the one that needs to be defeated is yourself!

Your own heart!

Which strong person does not kill?

Whether it is right or wrong, but it will inevitably leave a little shadow.

These shadows usually have no effect at all, and even like Ye Xuan, they never feel that they are killing innocent people.

However, in the cave of this second secret, there are weird forces that will constantly influence the judgment of the person entering.

When the people who entered the whole body were fighting against the pressure, they suddenly broke out with powerful killings and illusions. I am afraid that few people can survive.

The consequences of not being able to see it, there is only one, that is, being infected by those negative emotions, and even occupying the gods!

Don't say that it is to occupy the gods, even if it only affects a little bit, it will be expanded again and again because of the speciality here.

The end result is swallowed up by negative emotions!

Here, you can infinitely magnify the demons in your heart!

The first test of the second secret is the test of my own demons!

If you want to pass, then you have to have a strong mind, or you have never done anything with a clear heart.

The sudden outburst was enough to allow the nine or more people who entered the area to be washed away, no matter how they were repaired.

Fortunately, the system prompts to touch the illusion, otherwise, I am afraid that Ye Xuan will be planted here.

Ye Xuan brows tightly wrinkled.

But he did not hesitate and continued to move forward.

On the way forward, Ye Xuan encountered such a phantom explosion three times before and after, once stronger than once, once more than a horror.

Chapter 2419: test

The first time was the person who killed Ye Xuan. The second time, it was the person who died near Ye Xuan, and the third time, it turned out to be a familiar person around Ye Xuan.

Fortunately, no matter what they are, as long as it is a phantom, then the system will be in touch for the first time.

"This place is very interesting. The first time, scared you, the second time, you are killed, the third time makes you fall into the sorrow of missing. It seems that this second secret is afraid of artificial construction. Not naturally formed."

Ye Xuan's mouth hangs a smile, faintly said, it seems that he has caught some special changes in the second secret.

Keep going.

Once Ye Xuan figured this out, the mood was naturally broadened. On the way, I don't know if Ye Xuan had already realized it, or there was no obstacle. In short, Ye Xuan's progress was exceptionally smooth.

Until Ye Xuan saw a ray of light.

The light, what is represented, is the export.

Ye Xuan turned back and looked at the dark cave, but his heart was quite emotional.

In fact, such a test is really embarrassing. It is more threatening to the entrant than the battle to kill, so that the existence of negative emotions is induced.

After all, this test is to enter the people, to defeat their own demons.

Even, it has strengthened the demons several times.

Ye Xuan stepped out of the cave, but found that the flashing motion behind him suddenly flashed, and then disappeared!

In front of Ye Xuan, there are dozens of circular platforms.

Not introduced, but the platform is almost exactly the same.

In the left half, there is a magic weapon, or a layout method, or a ban, a rune, a beast, etc., but the right half is a pile of materials, and the tools needed for refining.

The test of the second level is actually this?

Ye Xuan is extremely different. You must know that such a test, Ye Xuan is still the first time to encounter, the most important thing is that it is still comprehensive.

This second level is to test the accommodator's sub-professional!

If you want to enter the next platform, you can only refine the things on the platform you are standing on!

Ye Xuan's mouth is slightly tilted.

For the sub-professional, Ye Xuan really has nothing to worry about. After all, in fact, his sub-professional can be considered very comprehensive, and even if he does not understand, there is no system at all!

Ye Xuan stood on the first platform, above which was a medicinal herb, and the refining materials were ready. With two chances, Ye Xuan had two chances to refine the medicinal herbs. What would be the result of the failure?

Ye Xuan did not consider it at all, because Ye Xuan knew that he must pass!

Even in Ye Xuan's mind, this is no different from sending treasures, because Ye Xuan refining anything, with the aid of the system, is a success, and the rest of the materials are not owned by Ye Xuan. Now!

There are no rules here, saying that the remaining materials cannot be taken away.

"Azure Dan? Garbage remedy!"

Ye Xuan casually took a look at the medicinal medicine, and waved his hand, and countless materials were quickly processed by him at the same time.

Short but blinking, it has been successfully passed.

The second platform, refining a soldier, Ye Xuan is still a lot of lazy to look at, because, is too simple.

.....

One platform has been repeatedly attacked by Ye Xuan, but as the more toward the front, the requirements are getting higher and higher.

However, this is all in the expectation of Ye Xuan. If all the tests on the platform are a level, then it is strange.

Until the last platform.

At this time, when Ye Xuan stood on the last platform, his face could not help but smile.

This test is really interesting because, on this last platform, there is nothing. All, there is only one altar. That means it is obvious. I take out the resources that I have accumulated from the platforms in front and then refine the highest one. Horizontal things come out.

Passed, then pass, fail, leave!

Ye Xuan couldn't help but think that if a genius really passed through this platform, but he didn't have the ability, or didn't care about the materials at all, then what kind of expression would be after the last platform.

The person who designed this second test is really not a general calculation.

Of course, all this is impossible, Ye Xuan.

With a thought on his mind, Ye Xuan directly asked the system to choose the solution to refine the highest quality magic weapon at the least cost.

This is a rune, the ancient rune, and accurately, is one of the ten ancestors of the ancient scriptures.

The reason for choosing this charm is simple, because his quality is qualified, and the materials needed are the least.

Ye Xuan spent two hours, with the help of the system, finally refining this charm, and then placed it in the altar.

The rest of the matter, only waiting.

Can pass the test, only wait.

Of course, there is also a worry in Ye Xuan's mind, that is, I am worried that there will be no people who have hosted this time. In this way, I am afraid that no matter what kind of powerful things Ye Xing refines, there will be nothing to do.

Fortunately, the emergence of a ray of light has dispelled Ye Xuan's doubts.

This ray is constantly twisting and twisting in the sky, and people don't even know where his source is.

However, it makes Ye Xuan have a feeling that the light seems to be a general method.

The light shines on the eclipse of Ye Xuan's refining, as if doing this analysis.

A moment later, in front of Ye Xuan, a token appeared in abruptness.

However, when Ye Xuan saw the words on the token, it was slightly wrong.

"Low-level tester identification!"

Only a few short words, Ye Xuan is not the sudden appearance of the token, but the three low-level trials above.

You must know that the ancient ten-character of the gods of the gods can be said that the whole gods are afraid that they will not find a few people to refine. Even the gods themselves can not be refining.

However, Ye Xuan that this thing to pass the assessment, even just get the identity of a junior trial!

Then, the senior trial actor identity, what needs to be passed!

At this time, Ye Xuan immediately understood the era in which the second secret was originally located.

Afraid, Ye Xuan unintentionally entered an ancient mystery!

This is the ancient secret!

Legend is the general existence, do not say Ye Xuan, even the \*\*\*\* of the Kunlun gods, hey, do not know whether there is a chance to enter the ancient secrets.

Unexpectedly, this time, I actually let Ye Xuan enter an ancient mystery!

Although, Ye Xuan does not have enough reason to prove his guess.

However, with the ten ancestors of the Shenfu nationality, only to get the identity of a low-level tester, then, apart from the ancient secrets, can you find out what other explanations are not!

Chapter 2420: Overlapping coexistence space

At the same time, Ye Xuan's ecstasy is also very worrying.

The power of the ancient times was too strong. It was an era of legends. At that time, there were countless powerful people.

Then, Ye Xuan entered the test of this ancient era, is it a blessing or a curse?

However, it is a blessing that is not a curse.

Now that Ye Xuan has come to this step, then there is no room for manoeuvre. He has no choice but to keep going.

After all, the way to come has disappeared, waiting for Ye Xuan, only to advance such a choice.

suddenly!

A ray of light suddenly focused on Ye Xuan's body.

When Ye Xuan had not had time to react, Ye Xuan found that he was being forced to transmit!

Unlike the transmission of the transmission array, the transmission of the transmission array is, after all, selecting the target and then specifying the transmission.

The transmission of this light is a mysterious force, wrapped in Ye Xuan, seems to want to take Ye Xuan to where.

Ye Xuan does not know where to take Ye Xuan, but he knows that it is best not to try to resist.

Now that you understand that this second secret is a place of trial, then why should Ye Xuan defend against it?

Soon, Ye Xuan appeared in front of a palace.

Here, it is the third level.

Ye Xuan carefully observed the palace in front of him.

This palace is obviously different from any building that Ye Xuan saw in the realm of the gods.

This is a palace built towards the ground, as if it had dug a giant hole out and then built it layer by layer.

However, the key point is that each layer has a separate floating space.

Once Ye Xuan enters a certain layer, in fact, he is in a floating space like a floating island. Ye Xuan can clearly see the intersection of the next layer. If you don't use God, then Ye Xuan seems to be really On the steps that go step by step.

However, once God read it, it was a huge continent that was seen through the mind of Ye Xuan. On these continents, there were countless buildings owned by the birds and beasts.

Overlapping space!

Moreover, unlike other overlapping spaces, this overlapping space is also a coexisting space.

Ye Xuan wants to go to a space, there is no need for extra movements, just to switch the way you look at it.

Looking at it with your eyes, and looking at it with God, is a completely different concept!

"If you don't have eyes, don't you use God?"

Suddenly, Ye Xuan thought of such a possibility, so he closed his eyes and closed his mind, hoping to feel it with his own body!

.....

Ye Xuan's body suddenly became a stiff!

Sure enough, it is an overlapping coexistence space!

Once you don't use your eyes and look at it, Ye Xuan's body seems to be in a cage surrounded by four sides. No matter if Ye Xuan is in any direction, he can only walk out three steps at most, and it will hit the wall!

"How much weight does this overlap coexistence space?"

Ye Xuan stunned, at the same time, also confused in my heart! "

Whether it is overlapping space or coexistence space, this is very young.

However, overlapping coexistence space, but Ye Xuan has never seen before.

"Wait a minute, if the time is different, will it change?"

Ye Xuan couldn't help thinking about it.

The rule of time, Ye Xuan did not realize it, but it does not mean that the system can not do it.

At a certain price, Ye Xuan directly gave himself the opportunity to use the one-second rule.

One second, Ye Xuan just let himself use the time rule and enter the next second.

.....

"Sure enough!"

Ye Xuan changed his face because he found that once he used the power of the time rule, the overlapping coexistence space also changed at the same time.

In other words, here is simply a mysterious existence that does not know how much overlap space and coexistence space structure!

Such a means, Ye Xuan has enough reason to believe that fear is already lost in the realm of the gods.

Being able to have such a means, then only possible is the ancient times!

Moreover, it is still the strongest of the ancient times!

What kind of place Ye Xuan has entered, waiting for him, what kind of unknown is.

At this moment, even Ye Xuan did not have the slightest grasp.

Even considering, is it necessary to move on.

However, even if Ye Xuan regrets, there is no chance, because the retreat has long been blocked.

Ye Xuan has only one choice and keep moving forward!

What is waiting in front of Ye Xuan, Ye Xuan does not know.

But the only thing that can be affirmed is that if it is a chance, it must be a big chance. Of course, if it is dangerous, it will be a big crisis!

Because, this is really special!

Originally thought that there would be any test in this third level, so Ye Xuan moved forward cautiously. It can be said that every step is simply thinking about it.

However, let Ye Xuan never imagine that in this third level, there is no test at all!

Ye Xuan can't smile in this level, even when it is really a corridor!

It was not until Ye Xuan reached the bottom layer that he discovered this.

At this time, when Ye Xuan stood on the platform at the bottom of the floor, Ye Xuan's face showed a helpless look.

However, it is just a corridor. Why bother to make this wonderful, let Ye Xuan be careful and careful.

At this time, there are two doors in front of Ye Xuan. However, what makes Ye Xuan quite surprised is that these two doors are not the doors that people usually see, but the doors of the rules!

This door is completely constructed by the law. If Ye Xuan already knows the speciality here, I am afraid that Ye Xuan may even suspect it. This is naturally formed.

It can be said that the form of this door is no different from ordinary doors.

But it just looks very different.

On the top of the door, there will be light shining from time to time, and the light is the light of the law.

Ye Xuan can clearly see the light of those laws, and can clearly feel the power of law in the light.

However, how can we open the door to this law, Ye Xuan is thinking.

The doors of the two laws have different laws and forces, and they must be considered when choosing which door to enter.

"System, what are the laws and powers for detecting the two doors!"

Ye Xuan said to the system, to make a choice, then we must first understand what is the law.

"Hey, the system prompts, the left rule door is life, treatment, recovery rule!"

"Hey, the system prompts, the right side of the law is dark night, dark, abyss law!"

Ye Xuan frowned slightly, and there were three laws of force on each door. However, it is obvious that these three laws have certain coherence and are opposite each other.

From the attributes of these six laws, Ye Xuan can judge that, in fact, it also represents two different plans.
