

Super D. S 2451

Chapter 2451: Weird field

Since some people have laid out such an area, I am afraid that there is no such simplicity.

So at this moment, Ye Xuan had to stop and wait for the changes in the field.

Time has passed slowly, but there has not been any change in the field, but the monsters of half-human and half-fish have appeared from all around!

These monsters are either holding a trident in their hands, or holding a long sword and a longbow, but their strength is generally weak. Except for the huge amount, there is hardly any merit.

At this time, Ye Xuan's brow was slightly wrinkled. Could it be said that the people in the field who wanted to arrest him were the fish people?

If so, is it too small to see him Ye Xuan?

Ye Xuan did not use the sacred sword, but sacrificed the law of the **** bow, without hesitation, directly shot a sword!

The violent power bursts between the moments, one arrow, killing thousands of such fish people!

Is it true that these fish people are so unbearable, really so useless?

Ye Xuan's heart is incomprehensible.

However, when Ye Xuan was ready to make a way to leave, a strange change appeared.

Those fishermen who have been smashed into **** by Ye Xuan have even resurrected quickly, and even more terrifying is that even those who are in the center of Ye Xuan's attack center are all enemies that have been smashed into blood fog by Ye Xuan. resurrection.

Moreover, the fishermen after these resurrections have actually improved their strength!

How is this going?

Such a strange thing, Ye Xuan has never seen.

Ye Xuan brows slightly wrinkled, toward the group of fishermen, once again attacked, and the horrible attack once again came to the fishermen who had just resurrected. As in the last time, this group of fish people was once again killed without suspense. .

However, it was only in the blink of an eye that the fish people actually resurrected quickly. This time, Ye Xuan saw it very clearly. These fish people really got the strength after the resurrection!

Such a horrible scene, Ye Xuan has seen it?

Can you die and then resurrect? Resurrection can also enhance strength!

"I still don't believe in this evil. I have to look at it. Can you resurrect infinitely?"

Ye Xuan's thoughts moved, and the law was once again opened, and it was another attack!

Ye Xuan attack, fisher resurrection!

Ye Xuan attacks again, the fisher is resurrected!

After so many dozens of reciprocation, Ye Xuan finally gave up, these fish people can really resurrect infinitely, and the strength can be improved, but they have a limit in their strength, they can only be promoted to the highest one. Just the situation!

There is no threat at all for Ye Xuan, but who knows, are there any other special means for these fishermen?

Or is there any strange change in this field?

Ye Xuan did not dare to continue to delay. This time, he directly released Megatron, two hundred 弑 弑 开 ,,

However, it was only after Ye Xuan arrived at the edge of the field that it did not seem to have any special water enchantment field, but it was not intended to be cracked.

First of all, this is not the ordinary water of the rivers and lakes, but a heavy water!

Mysterious heavy water of the same weight as ore!

And this heavy water is extremely difficult to break open, even if Ye Xuan is forced to disperse with the power of God, it is difficult to break open.

At this moment, Ye Xuan still does not understand, want to crack this field, can not be violently cracked, can only find people in the field of display to kill, or find the cornerstone of the law!

It is a pity that this is a combination of several people. It is difficult to find one person, let alone find out who?

Ye Xuan has been trapped here for so long, but there is no such thing as a slight discovery.

Therefore, there is only one way to leave for Ye Xuan to choose, that is to find the core of the array!

However, if you want to find out, it is as simple as that.

"System, what can you do?"

Although Ye Xuan is clear in his heart, he is afraid that the system is simply helpless.

Sure enough, the system prompts.

"Hey, the system prompts, the host please note that the host resources are insufficient, can not directly crack this field!"

Ye Xuan has no eternal point, and the value of belief is also consumed. As for the resources, there are not many resources left. Therefore, the system will prompt this and it is normal.

It seems that this time, Ye Xuan can only redeem some useful things in the system, and then find a way to crack this field.

"Who is pretending to be a ghost, dare not stand up!"

Ye Xuan shouted loudly.

Although Ye Xuan is very clear, afraid of being a secret person, he will not answer at all.

Sure enough, except for the shackles of the fish, the whole field is silent.

Ye Xuan Shen quickly swept around, but could not find anything strange.

At this time, Ye Xuan's brow was already wrinkled. Today, the crisis that Ye Xuan encountered was unprecedented. I did not expect that the round-up of those who escaped from the strong had fallen into such a crisis.

The most fundamental reason is because Ye Xuan is not strong enough.

The ups and downs of the gods, perhaps in the eyes of others, Ye Xuan's upgrade speed is already terrible, but for Ye Xuan, it still seems so inadequate.

In the face of those super-powerful people, Ye Xuan even has no ability to resist.

Of course, at this time, the people who are besieged Ye Xuan may be less powerful than Ye Xuan. After all, if they are strong, they will not dare to show their heads. However, this also reflects the fact that Ye Xuan is not strong enough!

If Ye Xuan's strength is strong, then perhaps it will not be trapped in this field.

Looking at the fisherman in front of him, Ye Xuan was not killed at all.

Anyway, these fish people simply do not threaten Ye Xuan, Ye Xuan is to see, hide in the secret enemy, what is the means.

Ye Xuan will not believe that these guys really hope that these fish people can kill themselves!

Sure enough, seeing Ye Xuan is not killing those fish people.

In the field, there has been another change.

A group of fish people are constantly gathering, they are swallowing each other!

Moreover, the most strange thing is that after the fish people swallowed each other, it actually raised the realm!

I saw no group of fish people gathered together, but quietly lined up the team, waiting for the first fisherman to swallow.

With the constant devouring, the realm of the fisherman is constantly improving. At the beginning, it is just a subordinate of the gods, but by engulfing, it has been upgraded to a royal world.

The most strange thing is that all the fish people, once they reach the top of the gods, stop consuming each other.

Even so, in front of Ye Xuan, it is a fisherman who has a thousand heads and a product waiting for the gods!

The most important thing is that Ye Xuan can't kill them.

Once strangled, their strength will continue to improve!

Chapter 2452: Weird fisherman

The same as the first king of the gods, these fish people have been able to cause damage to Ye Xuan.

Even if Ye Xuan releases the Shenmu Swordsman, but what can he do if he can only defend and can't attack?

This kind of consumption, Ye Xuan is destined to only fall.

Unless Ye Xuan chooses to transfer into the special trial space, or hide into the devour space!

A purely defensive charm is constantly produced by Ye Xuan, and turned into a guardian of energy. Unfortunately, even these guardian guards will eventually be broken, so it is useless to kill it!

In the sky, above the ground, and even underground, with Ye Xuan as the center, the guardian rays of the road are constantly flashing, and outside the light, the crazy fishermen are constantly attacking.

For these fish people, I am afraid that the most fearless thing is death, because once death can not only be resurrected, but even strength can be improved.

So their attacks can be said to be endless and violent.

For a time, Ye Xuan has been trapped in place!

However, Ye Xuan was not moved at all. In addition to occasionally adding the magical defense, Ye Xuan would not even look at the fisherman outside, but was looking for a loophole in this field.

Ye Xuan is also a tactical master. Combining the experience of various progenies such as the creation of the gods and the magic weapon refining, it can be said that Ye Xuan's understanding of the formation is not bad.

It is a pity that this time, the enemy is in the field of arrays, so it contains both the mystery of the array and the magical power of the field, so Ye Xuan wants to break easily, it is not that simple.

At this time, Ye Xuan's attention was concentrated, and God's mind was released and explored constantly. Even if it was the tiniest corner, Ye Xuan would not let it go.

Over and over again, Ye Xuan's thoughts are quickly searched in this whole field!

This area is exquisite, but the people who set up this field have underestimated Ye Xuan, because Ye Xuan's mastery of the formation is beyond ordinary people!

The field of array law has its own advantages!

However, in the face of Ye Xuan, there are also disadvantages!

Ye Xuan suddenly looked up and looked like the center of the sky in the entire field!

There, the powerful energy of a stock is constantly fluctuating. There is the place where the power of the whole field is most concentrated. It is also the strongest defense in the whole field!

However, it was there, Ye Xuan discovered the weaknesses of the field.

It can be said that this whole field is very complete. Through the induction of God, Ye Xuan can even detect that even under the ground, it is still completely wrapped in the power of this field.

The whole field is in a circle, and the heavy waters are constantly flowing, forming the whole field!

It is like a hollow water polo, and Ye Xuan is trapped in the center of the water polo!

At this time, Ye Xuan found that at the top of the water polo, it was the place where the heavy water joints flowed.

For Ye Xuan, there is the only chance to leave.

The power of heavy water is extremely powerful, and with the rapid flow of power, it is impossible for Ye Xuan to forcibly rush out from all around.

There is only a joint, because of the impact of the water power of the parties, occasionally there will be very small loopholes, that is the opportunity of Ye Xuan.

In Ye Xuan's heart, once again, the people in the field of law are not strong. After all, how strong is the field of formation? How could there be a loophole?

Since there are loopholes, there is only one explanation, that is, those who control the field of this law are not strong enough to make this field of law perfect.

of course,

No matter what it is, at least one thing is certain, that is, Ye Xuan's chance is coming!

Suddenly, Ye Xuan did not hesitate to fly directly toward the center point.

Megatron controls the sacred sword around Ye Xuan, and Shenmu Swordsman is also behind Ye Xuan.

However, in the blink of an eye, Ye Xuan has already arrived at the center, but since Ye Xuan can find a loophole in this center, the enemy may not know.

So at this moment, from which water walls, there are numerous tentacles of water, and when those tentacles appear, they will be beaten toward Ye Xuan, and even some of the swords that have directly turned into the sky are coming toward Ye Xuan!

In a flash, the entire sky was completely surrounded by these heavy water weapons. It can be said that there is no dense gap between them. However, there will still be an attack interval.

At this time, Ye Xuan's thoughts have already been called to the maximum, and the whole figure is constantly evading. Of course, while evading, one side is still flying upwards.

The power of infinite teleportation has reached its utmost in this small range of dodge, as if the entire sky is covered with Ye Xuan's figure.

As Ye Xuan flies up, the density of attacks is more stringent.

Obviously, the enemy has already been anxious!

But even then, it is impossible to leave Ye Xuan!

Dodge, move forward, dodge again, and move forward again.

Ye Xuan has no way to go, letting the front block, Ye Xuan will never stop.

Megatron controlled the sacred sword and has already made the speed to the extreme.

The extremely fast speed allows the Sword of the Sword to have the power to penetrate the heavy water. At the same time, it can also block the water column for Ye Xuan that is too late to dodge.

"Give me broken!"

Suddenly, Ye Xuan yelled, and the whole person had already rushed toward the center.

Silent, Ye Xuan directly rushed out of the water polo.

.....

When Ye Xuan hovered outside the water polo, he also saw the people who tried to trap him in the field of law.

Nine heads of strange fish people!

It is more ugly and strange than the fishermen in the field. Apart from a pair of legs, the nine fishermen are all fish in other parts of the body.

Say they are not transformed?

Obviously not the case, since it has been possible to arrange such a field of formation, it is obviously the strength of the shape, so the only thing that can be explained is that they can not look down on human form!

Almost all the sacred beasts know something.

That is, the state of human form, there is a great blessing on the perception and use of the law.

The animal's ontological state may be blessed in various aspects such as physical fitness and strength. However, if you want to quickly understand the law and want to maximize the power of the law, you still need to transform the human form.

These nine fish people cannot possibly not know this, but why do they not choose to shape human figures at all?

Even if no one is told to tell Ye Xuan, Ye Xuan's heart is very clear. If the nine fishermen are transformed into human figures and then use this field of law, then Ye Xuan wants to come out, I am afraid it is not so simple.

Therefore, for a time, Ye Xuan became interested in the nine-headed fish.

"System, give me the detection of these nine monsters, I have to see, what special things they have!"

Ye Xuan told the system, because Ye Xuan had to admit that the field of the array of these nine strange fishes was really strong, so Ye Xuan wanted to figure out their identity!

Chapter 2453: Continue to escape

With Ye Xuan's order, the system's prompts also sounded quickly.

"Hey, the system prompts, this time to detect Ye Xuan's 150,000 beliefs, will the host confirm?"

150,000 beliefs?

Ye Xuan slightly stunned, not because of the value of this belief, but the system's tips!

It seems that now, every time Ye Xuan needs to detect something, it is necessary to believe in value.

Specifically, when did it start, Ye Xuan didn't pay attention, but now when he suddenly noticed it, he found that every time he used system detection, more or less, he would consume some belief values.

The value of belief can be said to be the most easily obtained by Ye Xuan.

Compared with eternal points, swallowing points, etc., this belief value is only increased at any time, and the number of increases is still quite a lot.

And as long as Ye Xuan is willing, then after controlling the new site, the belief value will increase faster.

Therefore, Ye Xuan has never been too concerned about the value of his beliefs. He once felt that this belief system is only used to exchange other points, such as eternal points, such as the devour point.

But now it seems that this is not the case at all.

It seems that there are still many uses for this belief value, and it is also very expensive for consumption.

With doubts, Ye Xuan agreed to this detection!

"Hey, the system prompts to specify the target resentment of the **** fish family, is one of the subordinate races of the ancient magic fish god, and it is extremely resentful to the human race. Once you meet the human race, you will never die!"

"Hey, resentful squid is a special rare race, detecting optional random missions, rare ethnic collectors!"

Immediate Mission: Rare ethnic collectors, mission requirements, find the right space to collect the rare races scattered in the realm of the gods, and domesticate!

The task is an optional task, and there is no penalty for failure. Collecting a certain amount can open a special treasure chest.

Collecting tasks? And there is no penalty, that Ye Xuan will definitely do. After all, for other people, this special space is not easy to find, but Ye Xuan carries a space to swallow and divide some areas. It is not a problem at all. .

Of course, since this task is a group collection task, I am afraid that a rare race needs at least Ye Xuan to collect one male and one female two beasts!

Ye Xuan did not hesitate and directly determined to accept the task. The strength of the nine-headed fish is actually not strong. Once their field of formation is Ye Xuan*, it can be said that there is no threat at all.

In addition, Ye Xuan heard the system prompts, knowing that this strange fish will only be shot when he sees the human race, and will not be too worried that it will be the pursuit of the team.

So at this moment, Ye Xuan once again asked the system: "System, why do I need to use the belief value when I use the detection now?"

This problem Ye Xuan must figure out, or even if the value of the belief is even more, and when it is useful, it is impossible to squander Ye Xuan!

"Hey, the system prompts, the host please note that with the prompt of the host realm, the target strength of the detection is correspondingly improved, so the system needs to use the belief value to enhance the detection!"

It turned out that Ye Xuan nodded, and the system explained that Ye Xuan knew it.

It seems that this belief has more value. If Ye Xuan does not save some points, I am afraid that it is not enough.

I took my gaze back to the strange fish, but found that the nine-headed squid actually began to escape quickly.

However, ambushing Ye Xuan, but want to escape immediately? How can it be so easy?

"Megatron, out!"

Under Ye Xuan's orders, the two scorpion swords flew out immediately. Of course, the goal of this time is not to kill these strange fish, but to trap these strange fish.

Megatron controlled the sword, and the speed was extremely fast. After a while, he came to the strange fish. The two swords were scattered with swords and they easily trapped these strange fish.

The strange fish is extremely scared and screams constantly. Obviously, Ye Xuan is already anxious.

Unfortunately, they only knew that at the moment, it was already late.

When they first tried to kill Ye Xuan, they should be able to think of such a result.

In the swallowing of space, once again, Ye Xuan opened up a special area!

Here, Ye Xuan cloth was heavily banned, even sealed. Later, Ye Xuan would not ask the opinions of these strange fishes, and directly engulf the nine-headed fish in the space.

The sad nine-headed fish, who wants to ambush Ye Xuan, is the prisoner of Ye Xuan's prison.

And then waiting for them, it will be endless domestication.

After all, only when they are completely tamed, Ye Xuan can be considered a task.

Rare ethnic collection, rewarding Ye Xuan is not too concerned about it, just the fun of collecting, it is also worthy of Ye Xuan to do this thing.

As soon as the strange fish disappeared, the field of law and the fish in it disappeared. Obviously, those were summoned by the nine-headed fish.

Ye Xuan did not dare to stay here more. After all, no one knows if there will be an enemy coming to chase him.

After all, Ye Xuan does not think of the mentally retarded mentality of every beast.

Ye Xuan moves very fast, but unfortunately, his doubts finally broke out.

First, a **** thought suddenly swept away from Ye Xuan.

Ye Xuan was just reacting, and that **** had already locked him.

"Damn! It was discovered!"

Ye Xuan's heart is stunned. Since the discovery of the gods has already discovered him, fear that it will not take a moment, then the beast and the strong will catch up.

Ye Xuan played his biggest speed and hurried away, but unfortunately, that **** thought has been locked Ye Xuan!

"System, refining the prohibition and the charm, give me the person behind me!"

Ye Xuan can't care so much. After all, Ye Xuan's thoughts are not undetected, but they have not been discovered. It has already been explained that the person who locked him is absolutely stronger than Ye Xuan. Therefore, Ye Xuan can only Do it, only escape.

Also to see the enemy, but to escape first?

This is a very shameful thing, but knowing that the enemy is so powerful, it is impossible for you to overcome, but also to try to fight, that is the behavior of the fool!

Therefore, Ye Xuan still manages what face at the moment!

What's more, the fake sword will be dismantled sooner or later. Once it is dismantled, those who are angry and angry will naturally understand that Ye Xuan has put them together. If they are chased, Ye Xuan has a chance!

"Shenmu swordsman, give me out, go, block me from the soldiers!"

In the field of law, no matter whether it is a fisherman or a heavy water attack, in fact, it cannot hurt the Shenmu sword, but at this moment, Ye Xuan can only send the Shenmu sword again.

"Wan Xun Jian Shi, follow the Shenmu sword to the front to detect, once there is news, immediately return!"

Ye Xuan once again released the Wan Xun swordsman. Although the little guy is very weak, it is useful for detection.

One by one, the gods continue to fall, turning into a ban on the delay of the enemy, and Ye Xuan does not dare to stay in the slightest, and constantly fleeing in front.

.....

In the escape, Ye Xuan can feel the fluctuations of the God who locked himself. Ye Xuan can guess that perhaps Shen Mujian has already played against him.

However, Ye Xuan did not dare to confirm, but he could only escape.

Chapter 2454: Substantial fantasy

But when Ye Xuan was preparing to swallow it, he accidentally discovered a special item.

“Hey, the system prompts, detects special materials, and keeps the magic beads!”

Defender Magic Pearl?

What is this, Ye Xuan opened the introduction and carefully checked.

The Guardian Magic Pearl, which specifies the transfer beads that enter the special secrets, can be transmitted to the specified illusion through this bead!

Wait, illusion? Secret?

Ye Xuan doubts, and instantly come to the illusion.

The illusion is a kind of mystery, but it is not a conventional mystery, but is concealed in a special way as a storage material or other special use.

The illusion is generally not very big, but what is there, but it is arranged according to the owner's wishes, speaking, it is more advanced than the secret.

That's it!

Ye Xuan nodded, this thing, in fact, is a warehouse.

However, Ye Xuan's phagocytic space comes with him, but this monster can only be transmitted with the magic beads.

Ye Xuan only made a slight hesitation and made a decision immediately.

Anyway, staying outside may also be chased, so it is better to enter this illusion, but it is safer.

Thinking of this, Ye Xuan is not hesitating, he will swallow the body of this beast and crush the magic beads.

Similar to using the transfer character, Ye Xuan was quickly transferred to a secret entrance.

This is a cave, but obviously this cave is not so simple.

Sure enough, when Ye Xuan walked inside, he found that he was going downhill, but the cave was visible to the naked eye, even if it was detected by God, all that could be seen was a flat road. When Ye Xuan turned to look at his feet, he found a faint glow on his body.

Substantial illusion!

This cave is actually a place where the essence of the illusion locks the seal.

The interpretation of substantial illusion is actually very simple.

It is said that this illusion has turned into essence, and there is no unlocking method such as magic beads. Then the person who enters can only walk on the normal cave road, and can't find the speciality here. It will only be regarded as a Just a cave.

However, with the magic beads, the people who enter will be pulled by the power of the magic beads, break a new road, and then walk underground.

Ye Xuan is not in doubt and continues to move forward.

I don't know how long it took, Ye Xuan's eyes finally suddenly brightened, and at the same time, the ear has already heard the ticking of the water.

Further away, you can hear the noise of some monkeys.

Hard to beat, here is a monkey hole?

However, Ye Xuan remembers that the beast that was killed by the Shenmu sword is not a monkey.

How is this going?

Or, the beast is just getting such a magical bead. This mystery is not owned by him. It is just an invitation, just to let him qualify.

Of course, the beast is dead, so Ye Xuan can't confirm anything at all.

This mystery is not very big, and the strength of the apes is not strong. Ye Xuan's thoughts are just a sweep, and the whole mystery has been read.

In addition to a set of armor in the center position, there is only one tombstone worthy of Ye Xuan's attention.

"Great wisdom, the great ancestor of the great martial arts, the tomb of the Heavenly Monkey!"

This secret is actually a graveyard?

After a long time, Ye Xuan came to the cemetery of the monkey ancestors.

"Hey, hey, who are you!"

Suddenly, a little monkey jumped in front of Ye Xuan, squinting and asked Ye Xuan.

The little monkey's eyes are very clear, and there is no hostility to Ye Xuan. Therefore, Ye Xuan naturally will not kill him unreasonably, but replied with a sigh: "I am Ye Xuan!"

"Ye Xuan, hey, haven't heard, hey, what are you doing here? Is it for the blessing of the ancestors?"

The first ancestor!

It is the first ancestor!

Among the demon gods, the most mysterious, fear is the power of the ancestor.

The most common, but also the power of the ancestor, can be said to be the power of the ancestors everywhere!

Unexpectedly, here is the mention of what the ancestors blessed!

Ye Xuan's brow slightly wrinkled, but did not refute, but asked: "How did you know?"

"Oh, hey, since I came here, not for the blessing of the ancestors, what can you do for it, let me go, see you, my grandfather!"

Grandfather of the ancestors?

I don't know, this so-called grandfather, the sorrowful anger, or the name.

Of course, no matter what, Ye Xuan would not care at all. In the cave, there was no threat to Ye Xuan's existence, so Ye Xuan did not hesitate to follow the past.

After a while, Ye Xuan was brought to the front of an old monkey by the little monkey. The old monkey was very old and there was no repair.

"The grandfather of the ancestors, there is a man who wants to seek the blessing of the ancestors!"

"Human? Are you talking about humanity?"

The grandfather's grandfather looked up and looked at Ye Xuan.

After confirming the identity of Ye Xuan, I was puzzled and asked: "There has been no humanity here for a million years. Little guy, tell the grandfather, what happened to your family, why haven't this for millions of years? When people come over, do you want to destroy the race?"

Extinction?

How strong is the Terran, it is no exaggeration to call it the first race of the gods, that is, the strength of the Terran in this demon **** domain will be relatively weaker. However, it is not too bad to say that the genocide, so at this moment, Ye Xuan The heart is full of doubts.

Chapter 2455: Wanted order

"Why do you always say that my family is going to be extinct?"

Ye Xuan with doubts, asked the grandfather of the nose.

"Is it not? In the ancestral cave, as long as the geniuses of all ethnic groups that meet the requirements can enter the blessing of the ancestor of my monkey protoss, I have been in charge of management for more than a million years, but you have not come. Isn't it because your strength is too weak, so it was eliminated by the people?"

The power of the ancestor is also open to the Terran? Is it open at least a million years ago?

This moment instantly caused Ye Xuan's doubts to regenerate. However, from the mouth of the monkey's grandfather's grandfather, Ye Xuan also heard that their family has always been guarded in this secret and has never had any contact with the outside world. .

Therefore, I am afraid that they are not aware of what Ye Xuan said.

So naturally, Ye Xuan does not have to find any trouble at all.

"Nature is not, my people are developing very well now, but the system is not getting the magic beads."

Ye Xuan's answer, let the old monkey look at Ye Xuan with a puzzled look, and then waved, a light curtain appeared in front of the old monkey.

There are obviously some things on the list, but Ye Xuan can't understand.

"No, I follow the rules set by the ancestors. Every year, I have the magic beads of the Terran, and the patriarchs of the Terran have also received it. Why do you say that the Terran has never received a magical pearl?"

In Ye Xuan's heart, of course, I know why. To put it simply, these magic beads are afraid to fall into the hands of other races.

This mysterious land has nothing to do with the outside world, so naturally what other races say, what they believe, even if they are confused, they can't testify.

Today, the Kunlun domain has no place for the Terran, so it is not surprising that the extra magical beads are stolen by other powerful races.

This place is the ancestor of the monkey family. Ye Xuan feels that it should be the place where the gods existed before the twilight battle.

Just as Ye Xuan needs to rebuild his faith, this monkey family rents land, fearing it is also a place of faith, but their will is to coexist and not interfere with each other, only to release the fantasy family at regular intervals. So that the geniuses of all ethnic groups can enter here and receive the blessing of the first ancestors.

Can it be said that in the ancient times, in this demon **** domain, the tribes actually lived in harmony?

Then why is it going back like this now?

Why do the Terrans become the targets of the rest of the race?

And is it not to suppress the living?

For a time, Ye Xuan's heart was full of doubts.

But now of course it can't be solved, so Ye Xuan can only put doubts in his heart and walk along the monkeys.

The monkey family renting land is naturally blessed by the ancestor of the monkey family, but I don't know what kind of blessing will be given to Ye Xuan.

Ye Xuan was led to stand on a platform. When everything was ready, he saw several monkeys in their mouths, guiding a light directly to Ye Xuan.

Ye Xuan has experienced an ancestor blessing, so there is no fear at this time.

This time the ancestor's blessing lasted for a long time, and what Ye Xuan obtained was just some agile strengthening. Counting, the ancestor of the monkey family rented land was very blessed.

Of course, for Ye Xuan, the most important thing is not to say that blessings have gotten anything, but from this rented land, I saw a possibility!

One is almost inevitable in the ancient times!

The demon gods and the other tribes live in harmony and the possibility of equal competition!

It is a pity that countless years have passed and everything has changed.

So, when did it start to change? What changed because of what?

Ye Xuan has a limited strength and limited time. He wants to save the entire Terran gods, fearing that it is difficult!

If you can find out the source of the matter, from the source to deal with the contradiction between the demon gods and other ethnic groups, perhaps, is the best solution!

Of course, this matter can only be carried out step by step. After all, Ye Xuan has no clue.

After withdrawing from the ancestor of the monkey family, Ye Xuan found that it was difficult to find out the traces there. At this time, Ye Xuan still stood in the cave. However, the origin of the monkey family was not found, even if it was leaves. Xuan excavated toward the ground at the location just entered, and there would be no discovery.

Only through the magic beads, is the only way to reach the ancestor of the monkey family.

At this point, once Ye Xuan withdraws, there is no way.

Of course, after withdrawing from the ancestor of the monkey family, Ye Xuan is temporarily safe, because I don't know where it is!

Why is it temporary security?

Those super-powerful people smothered, and did not know how many people were degraded. Finally, there was a super-powerful superpower who won the sword and found that the sword was simply a counterfeit, and the beast had been inductive. To the battle between Ye Xuan and the strange fish, I immediately thought that I was deceived!

The appearance of Ye Xuan has not been hidden since the beginning, so all the strong people know the appearance of Ye Xuan, so a lot of wanted orders are quickly released, and they are all wanted orders!

Ye Xuan walked toward the front at this time. He did not have any goal. He was originally looking for the saints of all ethnic groups. After defeating, he searched for the whereabouts of the fall. However, at this time, Ye Xuan knew that the super strong ones found the fake sword. I will never let myself go.

Therefore, I dare not easily provoke trouble.

Even if you are looking for a Son's inquiry, it is impossible to be at this point in time.

During this time, Ye Xuan is best to keep a low profile.

Of course, this is also that Ye Xuan still does not know that the wanted order to kill him has been issued, otherwise, Ye Xuan does not use this to hide.

After two days, Ye Xuan finally found a city.

The beasts of the gods rarely establish a city, and even if they are established, they are no bigger than the city built by the Kunlun gods.

And it can be said that every city has its own characteristics.

For example, Ye Xuan now sees this city.

This city is a city built by the ethnic group called the Hong ant. This ant family is also quite special. They have a clear division of labor system similar to ants. The internal organization structure is strict, but it is huge. Can't call it an ant at all!

It can only be said that it is a special group that has learned the organizational structure of ants.

Legend has it that this ant colony is not a race of the gods, but a mysterious place from somewhere.

It's just that this legend has never been proved by any means, even if the inside of the ant family is unaware of it, so this legend can only be said to be finished!

When Ye Xuan walked into the city, what he felt was repression!

The appearance of this ant family is similar to that of the human race. It has two legs and four arms. The face is very similar to humans, but there is no hair on the top of the head, but two strange tentacles. Of course, their use of this tentacles is quite a lot. .

As for the body, it is divided into three sections, and covers the scales. From the appearance, it is similar to the ants. I am afraid this is also the origin of the name of the ant family!

Chapter 2456: Scarlet seven nights

The reason why Ye Xuan feels depressed is precisely because it is too strict in this city. It can be said that here, except for the outsiders, as long as they are ants, each has a clear division of labor and has its own Task.

At this time, Ye Xuan is walking towards the gate. At the gate, there is a row of guards of the Hong ants. These guards line up neatly, so that every movement is almost the same, from the sky to the ground. A total of six floors, each with twelve guards.

However, these guards did not even have the slightest deviation from the angle of the big knife in their hands!

When Ye Xuan walked into the gate of the city, the ban was immediately launched, so that everyone had to land on the ground, without bias, and the position of the fall was just in the city.

In the city, a row of guards is checking the identity of everyone who enters the city. As for what is checked, Ye Xuan does not know.

When Ye Xuan walked into the city, he saw a strange scene. Every ethnic group of the ant family walked neatly in a queue!

Repression, incomparable repression, this city, everywhere is full of oppression, the entire city, there is no half-point of confusion.

Here is the **** world!

The strong is respected, the strength represents all the gods, but it seems that this general rule is no longer applicable here. Here, all the rules are no longer working!

Ye Xuan saw it with his own eyes, and he saw more than once, the strong man who was powerful in the kingdom of the kingdom, but with some small characters that he might blow out of the atmosphere, lined up with the team...

Of course, after all, this is the tradition of the ant family, and has nothing to do with Ye Xuan.

In this city, there is an area specially designated to receive outsiders, and Ye Xuan naturally can only go here, because in addition to this area, anywhere else, if someone mistakes, it will be polite. go!

When Ye Xuan walked into this special area, it was a little better.

Ye Xuan came here, but there is no purpose, just because it just happened to pass by.

So at the moment, Ye Xuan just found a restaurant very casually and went inside.

"One of the guest officers, please upstairs."

Ye Xuan nodded and walked straight upstairs. The shop in this area is not a hunter. If it is a ant, it is not so sloppy.

Feel free to find a location, Ye Xuan will take the sword in his hands and watch it carefully.

After all, after the intensification of the sacred sword, Ye Xuan has not had time to look at it.

At this time, the appearance of the sacred sword has changed a lot, but still can still let Ye Xuan see the original appearance of the sacred sword.

At this time, the sacred sword is full of brilliance. It can be said that even if there is no one in the eyes, you can see the extraordinary sword.

And when it is inevitable, some people will be distracted.

At this time, a group of people are secretly communicating with the secrets of secrets. However, they are obviously very taboo, not only the strength of Ye Xuan, but also the reason for the location here.

Ye Xuan casually ordered some food, ready to take a rest here, after all, in front of the fearful escape, Ye Xuan is still a little tired.

Therefore, at this moment, Ye Xuan is inevitably relieved of some vigilance, and he did not find the movements of those people in time.

At this moment, Ye Xuan is still sitting in his own position, without realizing that danger is coming.

The guest in a restaurant rushed out, and soon after, a radiograph flew out.

.....

After eating the wine, Ye Xuan walked out. In the pool of the ant colony, Ye Xuan did not know what special places to go, so he just strolled around.

Just then, a young man ran to Ye Xuan.

"Predecessors, are you coming to my ants city for the first time?"

Ye Xuan took a look at the man, the strength is very general, so did not care, just nodded.

"Predecessors, how do you like this, where do you want to go, small to take you to the time, when you look at the small rewards, you think it is ok?"

It turns out that this guy is the meaning. The guide person has almost every city in the city. It is not special, so Ye Xuan did not think much. He asked directly: "Talk about it, there is something worth going to here. ""

"Predecessors can ask the right person. Hong Ant City is the site of the Hong ant family, and the Hong ants are famous for their rigor, so the magic weapon they make can be said to be the most exquisite, Jubao Pavilion. It is the largest auction venue in Hongxiang City. Of course, in addition to this, the **** seven nights is also a good place to go. This **** seven night is a place of entertainment. It can be said that as long as you have enough Lingshi, you can Enjoy everything you want!"

.....

The man began to introduce Ye Xuan, and Ye Xuan was here to relax, so at first glance, the **** seven nights.

"The **** seven nights, this name is a bit interesting, talk about it, what is special about it?"

Ye Xuan interrupted the person's words and asked at random.

"The predecessors did not know, the name of the **** seven nights is also a great source. It is said that when the **** seven nights were created, the white giants and the silver-hooked people of the sharp mouths made a big fight for this seven-night management of the bloody, Yuhong Ant City. After seven days of **** battles, the blood of the two races became a river, and the white-great giants who finally won the victory were famous for their simple minds. So even the names were too lazy to think about it, and they directly used this **** seven nights. first name."

"White giants?"

Ye Xuan gently read.

And the guide said immediately: "Predecessors, this white giants, the predecessors can not easily provoke, this group of people is very simple, even can be said to be stupid, but they recognize the truth, and the relationship with the ants are excellent Moreover, one of their servant races, the Thousand-Eyed Wolf Frog, is also a famous brain, which can be said to be very difficult to provoke."

"So, if the seniors go to this **** seven nights, remember that you can't blame the white giants. These guys won't bother you even if they are in the **** seven nights, but once they walk out of the city, they will meet the white giants. And the infinite pursuit of the ant family! These guys are the guys who recognize the dead. Once you think that you are an enemy and don't kill you, you will never stop. So, don't provoke it! number!"

Ye Xuan nodded. For Ye Xuan, of course, there is no reason to provoke right and wrong.

He came over and distracted, not coming over to find trouble, something was fine, why did he want to provoke the white giant?

With the decision in mind, Ye Xuan no longer hesitated, let the person lead the way, and walked toward the **** seven nights. Soon, Ye Xuan was led by the man to a quite remote loft.

This loft is very run down, but it is never simple.

"Predecessors are here, you must remember, don't provoke the white giants!"

Chapter 2457: maze

Ye Xuan nodded and promised, then gave the man a pile of Lingshi, which went inside.

There is no entry rule in the **** seven nights. As long as you want to go in and play, anyone can, but want to enter the real **** seven-night secret, but it is not that simple.

There are almost no people in the **** nights of the periphery. After all, those who can come here are coming to the special circumstances of the secret.

Soon after Xuan Xuan entered, there was a waiter who came to Ye Xuan.

"Hello, guest officer, are you the first time to come to our **** seven nights?"

The waiter looks very weird, with a wolf head, but the body of a bullfrog, but the eyes are compound eyes. This should be the subordinate race of the white giant, the thousand-eyed wolf frog.

Ye Xuan thought: The name of this thousand-eyed wolf frog family is quite a very image. Isn't the compound eye just like a thousand eyes?

And the wolf head frog body is not the wolf frog!

Of course, Ye Xuan's gaze did not stay too long on the waiter of the thousand-eyed wolf frog, but said: "I am here for the first time!"

"It turns out that it is the case, then the guest officer please go with the small to handle the identity runes!"

"Identity Rune? What is that?"

Ye Xuan asked.

"Oh, the officials don't know. In my seven-night **** night, there are a total of seven entertainment areas, and each area has a corresponding identification rune. As for the handling method is very simple, only need You can show your wealth, the passengers are deliberate, and my **** seven-night

reputation is perfect. It can be said that as long as you are our guest, we will definitely protect your privacy and security."

Although the strength of the waiters of the thousand-eyed wolf frogs is not strong, the tone is not humble. Obviously, here, I am afraid that I will often encounter some strong people. As for Ye Xuan's cultivation of the gods, I am afraid that In this **** seven nights, you can only count the strength of the upper middle!

Since it is for leisure, Ye Xuan naturally does not provoke right and wrong, and is directly followed by the thousand-eyed wolf frog toward the other side.

Soon, Ye Xuan's identity rune is processed.

Ye Xuan only showed a million Lingshi, and obtained the authority of one or two regions.

After all, Ye Xuan is just a distracting heart, but it is not really going to be here for too long.

After the identity runes were processed, Ye Xuan was directly greeted into a transmission array. Here, it was the **** seven-night secret entrance.

However, when Ye Xuan walked into the first-level area, he realized that this **** seven nights is so extravagant!

Ye Xuan is now entering the first-level area of the initial level, but the land occupation is already equivalent to a place of land, and there are countless pavilions and pavilions. Everyone who enters will be assigned to a palace. In the temple, there are thousands of people who are only servants.

Of course, the cost of 100,000 Lingshi per month is by no means acceptable to the average person.

Of course, if someone is willing to add a million Lingshi, then the lives of these thousands of servants can be handed over to the owner.

These servants were specially cultivated in the **** seven nights. Counting them, they were also one of the seven races of Scarlett, and each took the **** seven-night refining of Yan Dan!

This resident Yan Dan is not only to let these servants look like a woman, but also a means of control. It can be said that all the servants of the seven-night **** have no way to leave this secret. Once they leave, waiting for them will only be explosive. The body is dead!

Of course, as long as you pay the price, even if you want a servant of any race, you can get it in seven days.

Ye Xuanbing did not care about these servants. After accepting his own hall, Ye Xuan walked outside.

In the seven nights of Scarlett, all the servants are dressed in uniforms. Of course, in their own hall, the master can change the servant's favorite clothes according to his own preferences.

On the outside, only uniform clothing can be worn. The reason for this is to facilitate the identification of identity.

In other words, as long as it is not a person wearing a servant costume, it must be a guest.

bet!

It is undoubtedly a must-have for every entertainment venue, as well as in the **** seven nights.

Moreover, here, you can also arbitrarily agree on the bet according to your own wishes.

At this time, Ye Xuan walked into a casino called Jubaoxuan. Jubaoxuan was very great, and there were so many tricks to play. In addition to the regular dice and so on, there are also many people. A new way of playing, anyway, as long as you are willing, how to gamble is your own.

At this time, Ye Xuan stood at a table, and the dealer at this place made Ye Xuan feel quite interesting.

This guy actually made several mini labyrinths.

There are a few small people in this maze, and the requirements for the gambling are also very simple. Who can control their mini-person, first reach the end, even if they win, all the bets will be owned by them.

This bookmaker does not personally participate in the gambling. After all, the maze is made by him, fearing that he wants to participate, and no one wants to play with him!

The driving of the villain can only be carried out with the mind, so the subtle manipulation of the mind is extremely demanding.

The maze is erratic and changing at any time. According to the dealer, his maze contains a total of 9,999 kinds of changes, and it is still going on.

So in this way, it also tests the degree of mastery of the gambling.

It can be said that if you want to win, then you must not only have a certain foundation of the formation, but also have a very strong mind.

What Ye Xuan saw, most of the people around here are the strategists. Because of this gambling, I am afraid that only the Master will dare to challenge.

If you change someone else, even if you are so powerful, you can only be trapped if you don't understand the law.

.....

"Come and come, bet on the bet, a thousand Lingshi, nine positions, who else to sign up!"

It was another round of new gambling, and Ye Xuan looked at the game. He had the idea of trying it out. At this time, he left a million Lingshi and then stood next to a little man.

"Hey, there are new people, I have never seen you before!"

Ye Xuan, a morphing beast looked at Ye Xuan and said with a smile.

Ye Xuan also smiled a little and said faintly: "Come today!"

"Haha, newcomer, you have to be careful, this labyrinth is not as simple as you think!"

"It's not simple, you only know it when you try it!"

Ye Xuan said faintly, in fact, Ye Xuan still quite confident about himself.

Hao Ye Xuan is also a tactical master, a miraculous teacher, plus a forbidden division. It is much stronger than these simple tacticians. Therefore, Ye Xuan is sure to defeat them.

Nine people will soon make up, 90,000 Lingshi are all kept by the dealer, and the dealer is also welcome, directly taking away five thousand Lingshi, he made this maze, naturally also to get the benefits, otherwise, he opened the village what?

For the winning person, he directly earned 75,000 Lingshi, and he would not care about the five thousand Lingshi. What's more, more people, like Ye Xuan, are simply facing each other. I am interested in the labyrinth to try, not for the little stone bet in that area!

Chapter 2458: Refined star sand

The basic mode of operation has been explained by the dealer, and even if you don't have to explain it, you can understand it after reading it.

So at this moment, with a shout of the beginning, everyone used their own mind to control their embarrassment and began to walk toward the front.

Ye Xuan covered the entire labyrinth with a god, and carefully observed the changes in it, in order to find the route of walking.

On the one hand, I have to find a way to block the interference of the other eight people.

In fact, this maze is already a very gentle table, and the nine people's minds will not attack others. However, the nine gods are gathered in this small maze, so it is inevitable that they will affect each other.

Therefore, each person must control the power of his own mind at any time to prevent the mind from being disturbed.

After all, once God's thoughts are disturbed, the control is even more difficult. For example, at this time, a person with Ye Xuan, because God is not enough control, at this time, he was disturbed by the rest of the eight people, even driving Can't do it.

Ye Xuan Shen thought completely wrapped up the little cockroach, using God to build a complete defense around him, and only four of the nine can do it, but there are also others. .

At this time, there is a person who turns the **** into a tentacles, surrounds his own beggar, and the tentacle has the ability to detect. Once it senses the interference of other gods, it will immediately become a shield of gods. Take defense.

The advantage of doing this is that the use of God's thoughts is at its best, and there is no waste of God.

However, if you want to do this, it is not that no one is feasible. It can be said that this kind of manipulation of this person is extremely horrible for the micro operation of God.

Each of the nine people has come up with their own maximum ability, while cracking the maze, while manipulating and moving forward.

At this time, no one in the surrounding micro-persons intervened. After all, since it is the person who is here to play, it is very clear that in this maze, it is necessary to be extremely concentrated.

Ye Xuan almost concentrated on the maze of the whole idea, quickly cracked the maze of the brain, looking for a way out, a small embarrassment, and stumbled toward the front step by step.

A small labyrinth, Ye Xuan took a full half of the time to go out, but even so, but also the first to go out, and the speed is even better than the second place!

Nine thousand and five thousand Lingshi arrived, but Ye Xuan did not care too much about this spiritual stone bet, but was interested in the maze.

Because he only played it once, he obviously felt that his gods had some improvement.

It can be said that as long as Ye Xuan plays this maze once a day, it is inevitable that he can quickly improve his own mind.

It's a pity that Ye Xuan wouldn't make this maze. Even if he tried to buy one in the dealer, he didn't have a group of people who used him to compete with him, and he couldn't exercise at all.

So Ye Xuan changed his mind to buy this maze and exercise his thoughts.

After playing a labyrinth, Ye Xuan continued to walk forward.

After a short time, he met another weird table.

This dealer did not know where to get a lot of special minerals called star sand!

This contains the use of Xingsha to refine the magic weapon, but it is actually not very useful.

However, the inclusion of Xingsha has a very special attribute, which is extremely difficult to refine.

In general, refiners in the Divine Realm will use the material containing the star sand as a grade assessment.

Of course, the star-bearing sand is also graded, and the star-shaped sand at this table is actually the highest.

The rules of the table are extremely simple. The star-shaped sand is divided into equal parts. Whoever can extract the power of the star faster will win.

Of course, if the time is almost the same, it will be determined according to the purity of the refined star.

Refining the star-containing sand is the basic skill of every refiner, so there will be people who want to try to challenge.

Even if they clearly know that since this person dared to put down the table, it shows that he has a strong confidence in the refining of the star sand.

"Come and come, who is willing to give it a try, refining the star-containing sand, is the basic skill of every refiner, two parts containing the star sand, who will finish the refining, who will win, the lowest 100,000 Lingshi start bet Who wants to give it a try. Win me, I will pay for it!"

The bookmaker once again won the victory, and the happy stone that he won will be included in his own ring, and then screamed again.

Ye Xuan has always paid attention to the action of this dealer.

However, this guy did not cheat, but the refinement technique is very special. It is not a routine refinement technique, but a very weird approach.

Including Ye Xuan, in addition to the dealer, I am afraid that other people just watched, they will feel very uncomfortable.

Every movement of him seems to be deliberately going against the rules of refinement. Every movement seems to be so bold. It feels that this guy is not refining materials, but looking for death.

From the fire, Xuanhuo, fire, smoldering, robbery!

Five completely different refining flames, this guy has to force it into one.

Not to mention other people, even if Ye Xuan can't do this with the help of the system, the fusion of the five flames is by no means a simple matter, because these five kinds of flames are not simple flames!

Later, when the guy was refining, he was extremely bold and adventurous. Almost every purification was to reach the critical point of strength before he could stop!

That control, Ye Xuan is not as good as it is, as long as this guy is a little slower, it is destined to destroy the entire refining process.

However, he just mastered the subtle moment!

"genius!"

When Ye Xuan thought about it, he gave an evaluation, but at the same time, his heart suddenly realized.

If it is in the demon **** domain can be called a genius.

Isn't it very likely that it will be a saint?

Ye Xuan's eyes gathered on the man, but he was not sure. After all, this person did not show any special features.

Silently remember this person, and then leave a very secretive mind to mark this person.

Subsequently, Ye Xuan left the table.

This guy, if it is a saint, then Ye Xuan is going to see if he can get useful news in his mouth.

Of course, everything is still unknown now. It is not a saint. Only after Ye Xuan's temptation has he known.

Although it is only a first-level area, the gambling tricks are simply strange, and the bets are different. Here, as long as you dare to open the gambling, someone will dare to pick up.

Ye Xuan saw a blushing guy, and actually pressed his life.

As a result, he lost and was imprinted with a slave seal.

Of course, Ye Xuanbing didn't think much about it at this time, just continued to walk his own way until Ye Xuan came to a rather huge table!

Chapter 2459: Bet is life

This table is quite large, and it is surrounded by a penthouse.

"Bloody hunting!"

It can be said that this is a popular table in the first-level region.

Said that he is a table, because here you can also gamble.

But more, it is not gambling.

The **** hunting game is extremely brutal. In the circled area, it is deliberately divided into several areas. Each time it is opened, it may be only two areas of battle, perhaps three, four, and even more. Multi-regional melee.

There are also a lot of gameplays. You can kill the creatures at your own pace, or you can select a region, and then arrange your troops according to your wishes and attack other areas.

It is a pity that when Ye Xuan saw this moment, he almost fell into a runaway.

The Terran, all of them are Terran. In the field, no matter what region, they are all detained. These people are even likely to be captive in this stage for generations. A gambling is over, at least tens of thousands. Lose your life, but it will be replenished soon.

When Ye Xuan used to be, there was a beast that turned into a body to kill in the field.

One after another, the human race was shredded by him, as if eating fruit, holding a celebrity in his hand and pinching it to death. The bright red blood was like a delicious drink, and he swallowed it.

Surrounded by the rest of the beasts, unscrupulous laughter!

This loft, perhaps in the eyes of those people, is so unattainable, so chilling, because every time people from those attics will throw up some **** rain!

Ye Xuan does not really want to find things. The main purpose of his coming here is to just relax and rest for a few days.

Where can I know that he doesn't want to find things, but things are just looking for him!

Step by step, Ye Xuan went straight to the position of the dealer.

"Hula!"

A lot of Lingshi was poured out, like a hill, and on the other side, there are a lot of resources.

The dealer was overjoyed and immediately ran. He asked Ye Xuan: "Noble guests, don't know how you want to play."

The man did not realize the anger of Ye Xuan at the moment, and thought that Ye Xuan was coming to have fun, so he was naturally very enthusiastic.

Ye Xuan coldly asked, his voice coldly asked: "You are here, do you want to play!"

"Of course, distinguished guests, as long as you want to play, we can provide."

"well!"

After Ye Xuan finished, he waved a whole ten ancient resources into the pile of Lingshi.

"I use these as a bet. Whoever wants to get these spiritual stones and resources, then come to play against me, life and death, beat me, these resources are all yours!"

In this sentence, Ye Xuan is speaking to everyone here.

Because in the heart of Ye Xuan, it has been decided that these people are damned.

Of course, the beast in the field also heard this sentence. At this time, the body has been retracted, and human beings have been transformed. The surprise and inexplicable look at the pile of spiritual stones and resources.

Lingshi is afraid that there are millions of pieces. This is the second. The key is the ten ancient resources. It can be said that no one is not jealous.

"I am coming, boy, is the gambling life, grandpa to accompany you to play!"

The great **** of the beast in the field shouted.

In fact, he has already seen that Ye Xuan's strength has reached the upper-class royal kingdom. However, he is also a five-pronged god, so he will be afraid.

Ye Xuan and so on is this sentence, as long as he dares to fight, then Ye Xuan will not let him go.

Here is the **** seven nights, Ye Xuan naturally does not dare to make trouble, but since it is said to be a gambling way, then it is legal killing!

Ye Xuan suddenly jumped into the field, and the sword was already squirted. He did not give the sacred animal a half-speaking opportunity, and directly killed the past!

"Destroy the gods!"

A sword, just a sword, has already split the beast into two!

Even if he splits it into two halves, Ye Xuan is still not satisfied. With a wave of his hand, he will turn the body of the beast into a million.

Raising his hand, Ye Xuan directly asked the beasts in the attic: "Who is coming next!"

.....

Although Ye Xuan has killed a beast, but it does not scare other beasts. After all, in the demon **** domain, killing is more common than the Kunlun domain.

At this time, Ye Xuan has come up with so many resources, how can those beasts be willing to leave.

"let me do it!"

Suddenly, a beast fell into the field, and once it landed, it immediately turned into a body, but it was a weird big bird.

The moment the guy landed, he directly swayed his wings, and the power of violentness directly swept like Ye Xuan.

Unfortunately, Ye Xuan is not moving at all!

Under the royal kingdom, even if it is the top of the nine kings, Ye Xuan is not without the power of a war!

There is one count, how many, Ye Xuan will kill so much today!

These people are not greedy for their own treasures, then, see if they have that strength!

This was originally a gamble. At the beginning, Ye Xuan had already said that gambling is a life. Therefore, if you want to cherish the treasures of Ye Xuan, you want to have the intention of losing your life.

Moreover, this is a first-level area. It is considered to be a strong person to appear in several royal kingdoms. Naturally, it is impossible to have enemies of higher realm!

One!

Two!

Three!

Ye Xuan's pile of Lingshi and resources, so that many beasts are simply do not want to continue to jump off the field.

In their hearts, Ye Xuan's resources are worthy of their lives.

And Ye Xuan has experienced battles once and for all, and always makes them feel in their hearts, and the opportunity is in front of them.

Every time Ye Xuan kills a beast, he will take his body away, so that only some blood can be seen in the field, so that it will not put too much pressure on those beasts. Therefore, these beasts are still dying!

I am afraid that at this moment, the most worrying thing is the dealer.

At this time, the bookmaker was already sweating. After all, this gambling was agreed by him.

At first, he saw that Ye Xuan had only one cult of the gods, and thought that he had the opportunity to take away those resources, and even arranged for his own two powerful men to try to challenge.

When Ye Xuan broke out with a strong fighting force, he only knew regret.

It can be said that the biggest wish of this dealer is that Ye Xuan can stop killing.

Although the gambling is carried out voluntarily by both parties, but there are too many people in his table, then he will not continue to do business in the future.

Moreover, every table has virtually a death indicator. If it exceeds this indicator, then the white giant will ask.

Their way of asking questions is not gentle, it is not bad to be able to keep a small life.

At this point, the dealer looked at Ye Xuan, who stood in the field and killed him. He finally couldn't help himself and fell down directly in front of Ye Xuan.

"Predecessors, I beg you not to kill, small is willing to compensate for your losses, as long as you open, small must try to meet."

In fact, this bookmaker did not arrange for people to persuade those guests. Unfortunately, the temptation of the ten ancient resources was too great. It was not persuasion that they could stop these people.

Chapter 2460: Repressed

Hearing the banker's request for mercy, Ye Xuan passed the killing of this battle. In fact, the anger was not so great, so he said directly to the dealer: "Would you like me to stop the gambling? Yes! I will give you a chance to take you. All the slaves in the hands are handed over to me. Otherwise, I am here today, see one kill one!"

It's so arrogant, it's a good tone.

Change a place, or change a person, if you dare to scream like this, I am afraid that it will definitely be regarded as a fool.

However, here, what Ye Xuan said, no one would doubt at all.

Because Ye Xuan has that strength!

Ye Xuan has proved his strength with the life of nearly one hundred beasts.

Let the bookmaker, even can be said to be the strength that everyone here can never dare to violate.

The banker's look changed a lot. In fact, he was captive of some human slaves, and the number reached millions. However, these human slaves were his cash cows and there were no human slaves. So what did he recruit? The guests.

"Predecessors, you see how I give you Lingshi, I am willing to pay ten million Lingshi as a hard work for you!"

Ten million?

Ye Xuan disdainfully glanced at him.

The dealer also thought that Ye Xuan was too little, but immediately increased the price: "20 million, 20 million! Seniors, I will give you 20 million, how do you stop the gambling?"

.....

"I am saying once, call out all your slaves, otherwise, don't stop my gambling!"

The banker can't wait to pick it up, but unfortunately, he didn't dare to do this. After all, the white giant's simple head wouldn't care so much. In their eyes, since they saw Ye Xuan in this dealer's site gambling Then, you will only find the trouble of this dealer.

The white giants have a simple mind, and in combination with the rigorous style of the ants, this rule of the seven nights of blood, the rules are unruly.

The bookmaker simply couldn't help but slap on the fan. Why did he start greedy? If not, he wouldn't provoke the killing of Ye Xuan.

Unfortunately, what is said now is useless, he only chooses to accept or not accept!

The unacceptable consequence is that in the face of the inquiry of the white giants, it is not unacceptable to lose some human slaves.

"Well, I accept your terms, all human slaves, all for you!"

The banker said with a gnashing of his teeth, and he already hated Ye Xuan in his heart.

Ye Xuan will not manage so much, directly open the devour space, and all the millions of people will be engulfed in the space.

Nowadays, there are twelve rules of the **** tree in the swallowing space, and the power of the law is constantly improving, and the space for engulfing has been continuously expanded.

Therefore, there are really no pressure on the millions of people in the district.

When he did all this, Ye Xuan left here.

Ye Xuan is very clear that he will be hated by the dealer when he does this, and the dealer will definitely find someone to pack him, but Ye Xuan has to do this!

This is the life of millions of people, how can Ye Xuan sit back and ignore it!

Of course, even if these people want to avenge Ye Xuan, then at least they have to wait until Ye Xuan leaves the **** seven nights.

Dare to start in the **** seven nights, unless he is ready to declare war with the white giants and the ants.

.....

Originally, Ye Xuan thought that he had saved a million people. Then, in this **** seven nights, I fear that there are not many people who suffer.

Unfortunately, Ye Xuan was miscalculated. He had not seen it for a long time before he encountered a similar table.

And here is more **** and cruel!

Nine secluded fires are a kind of sacred fire that will never go out. Moreover, the temperature of this sacred fire is extremely low. If it shines everywhere, it will immediately turn it into a place of ice.

And this table, I don't know where I got it, I got a star and nine fires!

This guy used the nine secluded fire as a guide, and then wrapped it with a common black fire, hanging high above a pavilion. Every once in a while, hundreds of Terrans were pushed into it. At this time, you can bet, bet on the time when those people can survive, and who is the last person who was frozen?

Because the power of Xuanhuo can raise the temperature of the nine secluded fires, so the people around can clearly see how the hundreds of people are alive and dead!

Among the venues, there are a lot of heating things, but there are many organs arranged, and if you want to live, then you must have teamwork and take warm things. However, the heating things are limited, and some people are destined to die. .

The surviving people, waiting for them, will be all kinds of tests. In order to survive, the people pushed into it kill each other and step on the body of their companions just to live longer.

Such a cruel scene, these people have seen it with gusto!

Ye Xuan is angry!

Although because of the special, Ye Xuan can not directly kill the Quartet, but Ye Xuan can use the rules here.

Ancient resources, that is a very rare and special resource in the realm of the gods, even if it is only one, it is enough to cause a hurricane.

Ye Xuan skillfully used the greed of these beasts, still in the downfall, the gamble of gambling, one by one to kill these beasts.

Ye Xuan will not dislike the realm of these gods and beasts, and even give him a little surprise can not do it!

As long as they are the beasts here, as long as they dare to go to the gambling stage, then Ye Xuan will shoot and kill!

One after another, but wherever they dare to use the human race as a place to enjoy music, Ye Xuan visits one by one, killing endlessly, just three months, the **** beast that died under Ye Xuan is not less than 10,000!

The human race that Ye Xuan rescued has reached a million.

The madman is well-known in the **** seven-night area, and many people know a guy who specializes in gambling!

The guy is holding a giant sword in his hand, and he will use a bow from time to time, and every battle will never leave alive.

The man actively seeks the challenge. Every time he challenges, he uses the ancient resources as a bet. If he wins, he can get the ten ancient resources, and lose, leaving his life!

In fact, from the beginning of the monkey ancestor's land, Ye Xuan's heart has already been clear, there is a reason for the human race in the demon **** domain.

Maybe you want to solve this problem completely, only find out the root!

It is a very unwise choice for Ye Xuan to kill the Quartet now.

Even if there is a system to help him hide his identity, it is inevitable that one day he will be seen as a human being!

At that time, I am afraid that it will be difficult to move!

Ye Xuan didn't know this truth, but let him look at the suffering of the same family, but he ignored it. Ye Xuan couldn't do it!

Even if I know that this is the way to do so, I will only provoke a more powerful enemy. Ye Xuan must do the same.

After all, if you don't do this, then Ye Xuan's conscience can't go through!

Once you leave a shadow in your heart, then, waiting for Ye Xuan, perhaps the outbreak of the devil!

Therefore, Ye Xuan must do this from his own thoughts, or his own interests, and do his utmost to save the same family!
