

## Super D. S 2531

### Chapter 2531: Mindful mind

At the beginning, Ye Xuan entered the second secret, and then gained inheritance from the two temples and entered the original secret.

Although until now, Ye Xuan still does not know exactly where this source is, but knows that this source of secret is not simple.

Moreover, from the fall, Ye Xuan already knows that this source of secrets has power, fearing that it is comparable to the power that controls the fall.

Ye Xuan remembers that the last time he heard, this source of secrets, entering the requirements is the lowest gods. At this moment, the landing has certainly met the conditions, but Ye Xuan does not seem to be enough.

However, Ye Xuan also remembers that they have said one sentence: "Unless Ye Xuan is from the mainland of the gods!"

What does this sentence mean? The last time I came to this source, Ye Xuanbing didn't ask too much.

But this time, it seems to be the opportunity of Ye Xuan.

Can it be said that people who come directly from the mainland of the gods will receive preferential treatment?

Maybe, maybe not, but now Ye Xuan has no choice at all.

When Ye Xuan encounters the fall, a light in the sky falls, and there are hundreds of strong people coming over. It has already been explained that in the realm of the \*\*\*\* world, Ye Xuan and the fall once they go back, afraid that it is anywhere, they can't escape that. The eyes of the forces.

Therefore, Ye Xuan can only stay here.

The source of the secret, nine hundred and ninety-nine, Ye Xuan from now on, it is necessary to take a look at the 999 layer of the original secret.

Perhaps, this place is more powerful than the mainland of the gods, but Ye Xuan has no choice.

However, Ye Xuan is now only the cultivation of Jiujizhong Shenzun, then, how can Ye Xuan be based here?

There are now falling, and maybe there will be no problems for the time being.

But after all, in this source of mystery, the fall is actually not a master.

.....

However, Ye Xuan did not know that his sudden disappearance, there is a person more urgent.

Qi Ming has sent people around to find the whereabouts of Ye Xuan. In fact, the last time Ye Xuan refining the medicinal herbs to remove the sensational gods and worms in the meditation, the choice of 𠂇, is Ye Xuan!

Ye Xuan said very clearly that to crack the Zerg, you need to choose a target you like, but in fact, the effect is not much different from the Zerg.

However, it is only a matter of fact that Ye Xuan unexpectedly, he chose himself!

Although this is an active choice, the power of the drug is not easily resolved. It is the love that comes from the depths of the soul. It is the brand on the godhead.

Therefore, even if you use your power to suppress it.

It is a pity that it can't really resist it.

When the news of Ye Xuan's disappearance was passed back, Yan Ming was directly falling into the trap, deeply immersed in the love of Ye Xuan, and it was hard to extricate himself.

Even if it is clear in the heart, it is because of the effect of the drug, but unfortunately, knowing that it is one thing, can resist, that is another matter.

What's more, since the singer is the initiative to choose Ye Xuan, it also shows that in the heart of the meditation, in fact, for Ye Xuan, still have some good feelings.

Otherwise she will not make such a choice.

Using the power of two gods to investigate, the news was quickly passed to the sorrow.

As the Lord of God, you know more things, whether you are the orderer or the guardian. In fact, you know everything.

Because his master, the old man with Ye Xuan to the Kunlun domain, is a orderer!

Originally, according to the orders of his master, Ye Xuan's whereabouts should be reported to him at any time.

However, this time, it's hidden, because it's hard to make another thing that hurts Ye Xuan.

In fact, it is very clear in his heart, his master, did not have any kindness to Ye Xuan.

As for the ultimate goal of his master, he did not know, but he was sure that it was the reason why his master cultivated Ye Xuan because of the relationship between his master and his master.

He used all the power that he could use to constantly find the whereabouts of Ye Xuan. However, now, there is still no useful news.

She only knows that Ye Xuan has gone, and has been forced away by the order!

As for where to go, it is not clear at all.

.....

Ye Xuan and Luo fell together and lived temporarily on the first floor of this source.

The first floor is quite vast, and even more, the second floor of the sky can be seen by looking up.

Unfortunately, if you want to enter, you are not able to fly at all.

In the mystery of the source, the sky has a diaphragm.

He said that he is a diaphragm, because this diaphragm is very thin, even visible to the naked eye, as if it is just a piece of paper, it is so weak.

But if you want to break through this diaphragm, no one can do it, because the diaphragm is constructed by the power of chaos.

No one knows that this source of secret is natural, or someone has created it.

If it is formed naturally, then people can only admire the ingenuity of this source of secrets, and if someone builds it, then what kind of power is necessary to construct such a magical world?

Here, it is much more than ten million times stronger than the power contained in the realm of the gods!

Here, the power of the law is so abundant, and even less than the power of the gods.

The power of the law seems to be the main force here.

And here, the way of fighting has changed...

At this moment, Ye Xuan and Luo fell to find a good position, they are ready to build their own home.

They didn't go to the city, because Ye Xuan's strength is still weak after all. If he goes to the city now, he can't even beat anyone.

Once the danger is encountered, the consequences are unimaginable.

Therefore, Ye Xuan decided to find a sparsely populated area outside the city to build his own palace.

Unfortunately, although Ye Xuan's idea is very good, it does not mean that no one will go to find him.

"Hey, what happened, why is there a palace here?"

"Damn, who is so bold, even in the construction of the palace of my four-in-one gang, do they not know, is this the place of cultivation of my four-in-one gang?"

"Go in and go and see, I have to see, who is so bold."

A few people said, they went straight to Ye Xuan and the palace where they fell.

In fact, the homes that Ye Xuan built were not too big, and the land occupation was only a thousand steps. The calculation was very small.

Ye Xuan intends to wait quietly to devour the resources produced by the space, and then swallow up the upgrade.

After all, the front system was almost destroyed, and all the resources of Ye Xuan had already been consumed. At this moment, in addition to waiting for Ye Xuan, there is no other way!

That time, the system almost collapsed and swallowed up all the resources including Ye Xuan and Qiang Kun. Whether it is a Lingshi or a resource, it is even a spare magic weapon for Ye Xuan.

Chapter 2532: Troubled person

If it is the sacred sword fighting outside, even, that time even the Excalibur will be swallowed up.

After that, the system had almost no energy, and there was no way for the system to be swallowed up.

And, even now, the system can hardly provide any help.

Because of the lack of energy, the system has now entered a dormant period.

It can be said that except for retaining the most basic swallowing upgrade function, any other function is completely suspended.

If Ye Xuan wants to restore the energy of the system, he can only tell his own experience to the system.

Is this all worth it?

Countless resources, even the system almost destroyed, just in exchange for falling back?

No matter what choices others have, whether it is in the eyes of others, it is not worthwhile for Ye Xuan to do so, but Ye Xuan's own heart is that it is very worthwhile.

As long as he can find the fall, Ye Xuan will not care about these losses.

After all, lost, Ye Xuan can get back sooner or later.

At this moment, Ye Xuan is taking care of the medicine he has planted.

These magic drugs may take a long time to grow up, but Ye Xuan always feels that he has time.

Retrieving the fall, in fact, Ye Xuan's heart is not so anxious.

In the 10,000-year agreement, Ye Xuan remembers, but waiting for the system to recover, the time required is only a thousand years.

Even Ye Xuan has already done well and settled down, and here he is quietly preparing for the millennium.

It is a pity that there will always be people who are not interested to come to the trouble of Ye Xuan!

Ye Xuan's palace was built in a valley, and at the exit of the valley, Ye Xuan arranged a very simple array. Because there was no resource, Ye Xuan could not arrange too much.

Therefore, Ye Xuan just combined his own thoughts and arranged an early warning array here.

The effect of this array is very simple.

That is, when someone is alive and has something else to enter the mountain pass, Ye Xuan can receive the news.

"Oh, I didn't expect that there are still guests here, we will drop, go, let's go out and see."

Ye Xuan said with a faint smile on his face.

Falling naturally will not reject Ye Xuan's request.

The two quickly walked out to the outside.

At this time, the six people of the Sihe Gang are also moving fast toward the inside.

The four-in-one gang, among the hundreds of gangs outside the city, is nothing but the last gang.

In the source of the secret, there is no extension, and some are only the original beast, and the source beast, these two are similar to the reach of the hand.

However, whether it is the strength of the original beast or the source beast, it is extremely powerful.

However, what people want most is undoubtedly the original beast.

Because the original beast can drop something called the source crystal.

This source of crystallization, it can be said that in the source of the secret, it is a hard currency, because this source of crystallization can extract the power of the source.

The power of the source is also an indispensable force to break through the promotion of the Emperor's mirror to the high god.

This is also the reason why the power of the gods in the gods of the mainland is generally the cause of the gods, because it is extremely difficult to find the source of power.

In the secret of the source, you can gain the power by killing the beast and other ways.

Ye Xuan and Luo Ding did not even come to Taniguchi, they have already met the six people of the Sihe Gang.

"Master, you are behind, the strength of these people has reached the cultivation of the gods, you are not their opponent."

Falling down to Ye Xuan said, and Ye Xuan's heart is quite a taste. Although he started from the origin of his origins, he knows his strength. It is nothing at all here.

However, this casually pulled out a few people, the strength is higher than Ye Xuan, which still makes Ye Xuan quite unacceptable.

Among the secrets of the source, it is actually the gods who have gone all over the place...

If it is in the mainland of the gods?

How spectacular is this scene?

"Stand up, who are you, why are you good at our valley?"

Unexpectedly, it was the four-in-one who spoke first.

Ye Xuan gave a slight glimpse, but he smiled: "Your valley? Why do you say that this is your valley? Is there your name here, or do you want him to promise you?"

What about the gods? Even if Ye Xuan is only a god, he does not mean that Ye Xuan will be afraid of them.

"Little guy, are you looking for something? Is this valley, which has always been the place where I am hunting for the source of the beast? How do you think that you built a broken house here and dare to regard it as you?" The site? I see, you are looking for death!"

The man said that the tone had become very cold, and it seemed that there was a big disappointment.

In their minds, they have six people, three of whom are still in the upper class, and Ye Xuan, although the girl seems to be quite strong.

But since the palace was built outside the city, how strong can it be?

Therefore, they are very confident to defeat Ye Xuan and fall.

Ye Xuan speaks, nature will not interject, so at this moment, just standing quietly next to Ye Xuan.

"Whatever nonsense with them, actually dare to grab the site of our four-in-one help, kill them directly, let them know that our four-in-one help is not so good, kill them!"

Another person spoke directly and said that at the same time, he could not help but speak directly.

"boom!"

A fist shadow appeared in an instant.

There is a very powerful force in the boxing shadow, because this person has already integrated a hint of strength.

Ye Xuan was shocked because the boxing shadow was attacked by him.

Fortunately, the fall has already been shot at the moment, only to see the fall is just a wave of hand, is to put a light curtain in front of Ye Xuan.

Huge voices sounded.

Ye Xuan has no influence at all.

"No, this is the source barrier. This girl is the strongest of the Supreme Gods. Quick withdrawal!"

After the man saw the action of falling, he immediately shouted.

Moreover, these people have retreated, and they are not dragging their feet. It seems that they are not ashamed of escape.

Unfortunately, I want to go now?

It is already late.

God's emperor, after the breakthrough is the Supreme God.

However, even if it is the top of the nine elites, it can be said that even the defense of a high-spirited  
\*\*\*\* can not be broken.

Because, this is basically two levels of battle!

At this moment, the people of Sihebang can say that they have made the most correct choice.

After they saw the original barrier of the release, they realized that the fall was the super-existence of the source of the gods, not the existence they could provoke.

It is a pity that the fall is just a wave of the hand, you can see that the light directly draws those people.

That feeling is like trapping them with a rope.

However, this rope is the power of the source.

The supreme kingdom of the kingdom is only a higher level than the realm of the gods, but the power is absolute suppression and absolute control.

Chapter 2533: The use of the source of Shenjing

At this moment, I saw only a few people, and there was constant strength to be stripped out.

However, in a short period of time, the laws of the laws of those people have completely disappeared.

Return to the source!

This is the absolute suppression of the power of the law by the source of power, and the power of the source is the foundation of the birth of the law.

If it is said that the emperor is below the border, it is only the power of the usage.

Then, the beginning of the Supreme God is the power of the law of fusion.

With the most pure source power, as the basis of integration, the power of law is merged into its own power, and the power of the law is completely controlled.

No matter how powerful the law is, in the face of the power of the source, there will be no chance at all.

The people of the four-in-one gangs looked at the horror, and at this moment, they have lost all the ability to resist, and the power of the law has been removed, making them like people.

After finishing all this, it is to retreat directly to Ye Xuan.

Ye Xuan still does not want to cause trouble, he just wants to quietly wait for the system to recover, and wait for his own strength to improve.

However, this does not mean that Ye Xuan will really let these people go so easily.

"Leave your ring and all resources, then you can roll!"

Ye Xuan said faintly.

When I heard Ye Xuan's words, those people were as big as they were, and there would be half hesitation, and they would take out their own ring and then escape to the distance.

Ye Xuan does not kill these people. In fact, he also thinks that if it is not necessary, he will not provoke right and wrong.

However, what I did not expect was that Ye Xuan had intentionally let go of these people. However, will these people let him go?

When these people left, Ye Xuan and Luo returned to their homes.

Ye Xuan picked up the few people's Qiang Kun ring, but the things inside, but it is really let Ye Xuan do not know what to say?

Well, these people are also strong in the realm of the gods, but one is really shabby enough, it can be said that it is poor and clinking!

A few people add up, there are dozens of resources in total, although the quality of resources is not bad, but the quantity is too little. After all, they are also good deities.

However, in these people, Ye Xuan unexpectedly discovered two strange stones of the size of a palm, which did not contain a trace of law.

Although the system is now dormant, but the fall is still very insightful, so when you look at it, you can see that these two stones are the source of the gods!

"You said, this is the source of the gods?"

工具:

"Yes, Master, I have also absorbed a lot of this kind of source Shenjing, this thing contains the source of power, is the essential force to break through the divine kingdom, reach the highest god! And, the source power is not the original law, so The power of the source cannot be viewed with the power of the general law. The source of power, if it has not touched the strength of the source, simply cannot resist the speciality of this thing."

The strength of the source is different from the power of the original law. Therefore, Ye Xuan cannot sense the special nature of the source, and it is also a very normal thing.

It can be said that if it is not falling, even if there is a source of Shenjing placed in front of Ye Xuan, I am afraid that Ye Xuan will not recognize it.

However, since Ye Xuan knows what this thing is, it will not be missed.

I saw Ye Xuan waving a hand, and all the items in the Qiang Kun ring were directly swallowed by Ye Xuan.

"Hey, the system prompts, the host breaks through, and the current one is on the gods."

Fortunately, even if the system is dormant, at least the tips for top-level promotion are still there.

Ye Xuan gave a slight glimpse. Originally, according to Ye Xuan's thoughts, these resources should not be enough for his level improvement. However, the result was beyond the expectation of Ye Xuan, because it was actually let him break through a realm.

It is the reason of the source of Shenjing!

Ye Xuan's heart is clear.

Because other resources he swallowed, it is not too good, as normal, it should not be enough to let Ye Xuan break through the ranks.

However, now Ye Xuan has actually broken through, then, there is only one variable in it.

That is the source of Shen Jing!

This source Shenjing can provide more upgrade experience for Ye Xuan.

Obviously, just two small sources of Shenjing can provide a great upgrade experience for Ye Xuan.

At this moment, Ye Xuan has already had a new idea in his heart. If he can get a lot of original Shenjing, then isn't it not only able to quickly improve his realm, but also to quickly restore the system?

Is the source of the gods falling from the original beast? Then, Ye Xuan is going to kill the original beast!

Ye Xuan's decision will never raise a half-objection, so when Ye Xuan said that he wants to kill the original beast and then acquire the source of Shenjing, he nodded without hesitation.

With Ye Xuan's current strength, I want to go hunting for the original beast alone, but it is somewhat difficult.

Therefore, Ye Xuan is going to go to the city once.

The purpose of his trip to the city is simple, that is, to join a gang.

Among the first layers of this source, there are no sects, but many gangs.

A variety of names, but also quite a lot.

Among them, in addition to the city government, the entire first layer, the most powerful, is the dragon and chaos.

There are not many dragon guards, but each one has strong strength. Chaos helps the masters to be relatively few, but has a large number of people.

Of course, even the Dragon Gang and Chaos help, in fact, do not dare to call the king to dominate.

In the original source of the secret, there was no existential force. Therefore, there is no such ancient power that has passed down countless generations. The so-called gangs are also slow because there are many people who stay in this first layer of mystery. Slowly gathered together.

From the first floor to the second floor, there is a hard condition. If you are not satisfied, you will definitely not go up. That is, the highest holy world!

It can be said that this first layer is actually only a place where everyone can temporarily stop and rest.

The second layer begins, and it is a real trial journey.

In this first layer, a large number of gods are stranded.

The purpose of these gods is only one, that is, to promote the second floor.

Of course, there will be some people who have already broken through to the supreme god, and are not willing to leave the first floor.

Because they know in their hearts, once they leave the first layer, it is the beginning of trials, the road to trial, no one knows what is going on.

The trial journey of the 999th floor is full of countless unknowns. Therefore, they would rather stay in the first layer for a longer period of time. After all, only in this way can we say that we have stronger power and stronger confidence. .

Ye Xuan's purpose is also to find a gang to join, and then go hunting for the source of the beast, at least, before he is promoted to the gods, with the gangs, the effect can be better.

Chapter 2534: Shenlong and Qianjia

There is only one city in each layer of the original secret, which is the gathering place of all the strong people in each city, and it is also the place of trading.

Unlike the mainland of the gods, many people in the original secret are not willing to live in the city. Of course, it is more because they are not qualified.

The location of the city's cultivation is the core of each layer of the original secret, where cultivation can be faster.

Therefore, the closer to the core position, in fact, the more noble the identity, the higher the strength.

Of course, there are also some eccentric people who clearly have strength but live outside.

The purpose of Ye Xuan's trip to the central city pool was to find a gang to join in order to be able to hunt the beast.

However, Ye Xuan will not choose the kind of gang that is too big, because such a gang Ye Xuan joins, can not get much benefit, and, the big gang management system is quite a lot, then Ye Xuan's separate actions are also quite inconvenient.

The fundamental purpose of Ye Xuan's joining the gang is to hunt the original beast and gain strength, instead of really following the gang.

Ye Xuan walked into the city, but found that the buildings were quite spectacular, and I don't know whether it was the speciality of this source or any other reason. In short, all the buildings in this source of mystery, Only one thing in common, that is big!

Even, even if there are other things, there is only one feature, that is big!

At this moment, Ye Xuan is standing in a place where food is sold. Here, a strange fruit is sold. This fruit is very large. The most important thing is that these fruits are actually alive.

At the moment, the owner did not say anything, but the fruits were introduced to themselves.

"Guest, choose me, choose me, I am a centuries-old fruit, if a guest eats me, it will not only strengthen the power of the soul, but also the power to purify the true yuan."

"Oh, the power of the real yuan, has come to the source of the secret, what is the use of the power of the real yuan? Guests, choose me, but I have six rules, if the guests take me then the affinity for the power of the law can get Upgrade!"

"The six rules, you should not boast of self-selling, you are greedy and chewed, although you can enhance the affinity of the various laws, but then a little improvement, what is the use, guests, you do not want to be that The guy is pitted. If you want to choose the law to strengthen the law, you must choose our brothers. We are specifically focused on the affinity of a certain law, and the exquisite seven-fruits exist."

.....

Ye Xuan is quite interesting. These fruits are constantly selling themselves, but they are meant to be bought back and eaten. The most important thing is that the fruit has a sense of intelligence. This is a rare thing.

You must know that the cultivation of plants into gods is nothing, but a fruit has wisdom, but growing his fruit trees, but not practicing it into a god, is a bit special.

The source of the mystery is really full of countless unknowns. Here, it seems that many things have changed.

In the realm of the gods, it seems that the things that are quite separate, to the origin of the source, but it is not new.

Ye Xuan came all the way and saw too many novelties.

In addition to this fruitful and self-promoting fruit, Ye Xuan saw the magical spirit of selling himself.

I saw the walking medicinal herbs and saw some new living things.

In short, there seems to be a lot of differences in the source of the secret, with a lot of unknowns.

Of course, although Ye Xuan said that the things here are very novel, but they have not been delayed for too long, but go straight ahead.

Suddenly, when Ye Xuan was walking, he was suddenly shocked by a powerful force. He was actually knocked back and forth.

At the same time, a huge incomparable buzz has already rang.

"Damn, your \*\*\*\* dragon family, is it not too deceiving! September hole Ming Ming is the place of my thousands of hunters, what to give to you, by what!"

Ye Xuan looked up and saw a restaurant on the top of the building. The two groups were facing each other.

"Hey, this Shenlong and Qianjia are on the bar again. Really, how big is it, can they not get along with each other?"

Aside from Ye Xuan, a passerby said helplessly.

Ye Xuan was a bit strange, so he asked the man: "Dare to ask the brothers, what happened to the dragon and the thousand, what are the September holes they said?"

"You do not know?"

The man looked at Ye Xuan with amazement and saw Ye Xuan nod, and the talent continued.

"Hey, the Shenlong people are a big family. The geniuses in their families are quite a lot. In almost a hundred years, someone will be able to go to the second floor, and this thousand is not much different."

"The September hole in their mouth was originally a very ordinary cave. The entire cave is only a layer of the district. Although it can be counted as a secret, but it also has a big difference, and this In September, in addition to occasionally giving birth to some source beasts, there is nothing else."

"But I don't know why, three hundred years ago, in this September hole, there were hundreds of original beasts. At that time, the two of them discovered the situation in the cave at the same time. After the battle, they hunted each other. After killing some of the original beasts, they will retreat."

"After that time, both of them wanted to take the September hole as their own. Even in the last three hundred years, there was no birth of the original beast, but they were not willing to give up."

Ye Xuan nodded and continued to ask: "Is it hard to say that this source beast is hard to be born, why these people will compete for it."

The man looked at Ye Xuan with a weird look. After all, these basic common senses, Ye Xuan did not know, it is indeed some unbelievable.

However, since Ye Xuan asked, the man was not a stingy person, he continued: "Speaking of this source beast, you have to talk about the way he formed. In fact, this source beast is also ordinary. The source beast, in the source of the secret, the source of the beast is very common, but only the opportunity to meet, and then merge into the power of the original law, can become the source of the beast."

"Of course, there are also some native beasts, which were born directly from the original law. Boys, others don't say, you should always know the Lingshi? This Lingshi is the special stone produced by the Lingshi vein. If he does not contain the power of God. Well, it can be said that he is worthless at all, but it is because of his divine power that this spiritual stone has become a very versatile thing."

"The same is true of the original beast. However, his birth is not a vein, but a form of a beast. There are many kinds of beasts, which are similar to the beasts of the gods, but in the mystery of the source, they are unified. The source beasts, these source beasts are like ordinary ores. Once they are recognized by the law of origin, they will become the original beasts that everyone wants."

Chapter 2535: September-dong

Ye Xuan nodded. It turned out that the birth of this source beast was actually because of this, but it was beyond Ye Xuan's imagination.

Originally, Ye Xuan thought that this source beast is a strange beast.

But now it seems that the so-called original beast is actually a special source beast recognized by the original law.

However, Ye Xuan still has not figured out that it is, how are these original beasts recognized by the original law?

You know, it seems that all the practitioners are simply not able to obtain the recognition of the original law. Then why is the source beast?

"Dare to ask Xiongtai, you know, what is the condition for this source beast to be recognized by the law of origin?"

The man looked at Ye Xuan, and the meaning in his eyes seemed to be saying, why Ye Xuan would be so ignorant.

But since he has already answered a lot of questions about Ye Xuan, it is not bad.

"You are really interesting. I don't even know these. The reason why the source beast can be recognized by the law of origin is naturally because of the source crystal in the body. You should always know the source crystal, whether it is the source beast. Or the original beast, the body will produce the strange crystal, the most peculiar is that the crystallization of the source beast, once not recognized by the law of origin, then, the source of the beast will die, the realm will soon disappear."

"Source crystal is not very useful for us, but it is the most basic element recognized by the original law, because the source crystal actually has some mysterious power. Of course, what kind of power is that is not We can know."

Ye Xuan nodded. This time, he figured out the whole thing and also figured out why the original beast was born in the source beast.

As for Yuan Jing, Ye Xuan has also seen it. After all, when he swallowed the source of crystallization, he already understood it very well.

"Thank you for your help."

Ye Xuan said to the person slightly, thank you.

The man waved his hand very casually. "Thanks, you don't have to. After all, what you ask is just a very common message."

Ye Xuan nodded, but continued to look ahead.

At this moment, the Shenlong and the thousand people have already made a lot of noise, and even if they have a big word, they have to do it.

"Thousands of hills, you should not be too much. This September hole, at the beginning, is the place where a tribe of my family lived, even if the tribe had not been there since 10,000 years ago, but Not to say that there is not the site of my \*\*\*\* dragon!"

"Dragon Ba Tian, the people of your family thousands of years ago also come up with things to say, you are also very embarrassed? Since the September hole has long been without the Lord, then my thousand first found there, then we thousands of people get the use of September hole Right, that is also a reasonable thing."

"Rational? You are also very reasonable to say that there is a director in September. You are now reasonable, what are you doing?"

The two people are more angry at the moment.

Ye Xuan, who is watching, is quite entangled. Is it necessary to make such a big noise? If the two sides are not satisfied, then they should directly do it. Whoever robs and wins, then whoever moves in September will be fine.

.....

Wait a minute, since it is said that this Shenlong and Qianjia have long been controversial because of the vesting of this September hole, then, this time, why is this anger, and, are all such a must-have appearance?

Could it be that in this September hole, there is a new source of beasts?

Ye Xuan thought about it, and then he moved his mind.

After all, now that Ye Xuan's strength is still weak, and the system has not recovered, Ye Xuan does not want to improve his strength as soon as possible, fearing that it will not work at all.

Ye Xuan is carefully observing these people, and there is a decision in his heart, that is, to find the trouble of the September hole!

Of course, it is not to say that it is troublesome. To be precise, it is to steal the original beast there. Of course, the premise is that there must be a beast to steal.

Once Ye Xuan has made a decision, he will not hesitate.

The location of September Cave is very easy to find. After all, it is also a place of trouble in this first layer. Many people know it.

Of course, I know that I know, but there is no one at all. After all, outside the September Cave, there are people guarding them.

After seeing the location of the September hole, Ye Xuan went quickly.

This time, Ye Xuan did not bring the fall together. At the beginning, Ye Xuan's plan was just because the fall was a supreme god. I'm afraid that it's not very easy to find a gang with Ye Xuan.

Sometimes, the strength is too high, it is not so convenient.

After all, Ye Xuan wants to join an ordinary gang, not a large gang.

Then, if it is with the fall, the small gang will naturally inevitably think more.

What is the purpose of a gang that has surpassed the power of their helpers to join them?

Therefore, Ye Xuan did not bring it out.

This time, he can only go alone, and, because of the system repair, even the Shenmu sword waiter can not be used temporarily!

Ye Xuan is not slow, and then the September hole is actually not far away. At half an hour, Ye Xuan has already arrived outside the September Cave. At this moment, there are two teams outside the cave.

There is only one entrance to the September Cave. After all, this is a cave, and it is a cave of a secret nature.

For the cave, Ye Xuan can of course break open easily. However, if this is done, then the September hole will change immediately, and the original secret of the cave will disappear.

Therefore, Ye Xuan could not do this unless he gave up the September hole.

So how can we get involved?

Ye Xuan observed carefully, but found that the two teams may not be pleasing to each other. Therefore, the distance between the two teams is still quite far. After all, the Shenlong and Qian's places are at the same time, and no one dares to swear. In.

Perhaps this is Ye Xuan's opportunity. They think that no one dares to break in. It's true that in the first layer of this source, there will be no one who will really provoke two big forces.

Unfortunately, they met Ye Xuan, Ye Xuan will care about what is their big power?

of course not.

Ye Xuan waited silently, waiting for a chance!

These two people are wary of each other, rather than saying that they are at the entrance to the September Cave, it is better to say that they are opposite each other!

Finally, Ye Xuan waited for an opportunity, a good opportunity.

At this moment, the two parties may have received orders at the same time, and the emergency gathering, Ye Xuan can guess that the negotiations in the city pool are cracked, it is very likely that the two sides must start.

However, whether they are negotiating or not, at least, Ye Xuan is coming.

Suddenly, Ye Xuan rushed straight toward the September hole.

Chapter 2536: The city owner is also the leader

A blink of an eye, Ye Xuan has already rushed into the September hole, which can be considered very dangerous, and very risky, if it is discovered by either side of the two sides, fear that it will immediately lead to siege, after all, regardless of the Shenlong and How do thousands of people oppose each other, but this September hole is something that they both value, and outsiders must never intervene.

Ye Xuan entered the September hole, but did not dare to have a momentary delay, but walked quickly toward the cave. After all, Ye Xuan could not guarantee that those people would not come over to see it.

September hole is originally a secret, so the space inside the cave is very large.

The reason why he said that he is a secret, not a real secret, is because this September hole is actually an overlapping space.

This is a relatively rare thing, a mysterious situation, actually overlapped in a cave.

This chance is very small, it is quite special.

The mystery is the secret, but it overlaps in a cave. I am afraid, and only the original secret, so special places will be born.

You must know that this can be said to be a mystery in the secret world. How to say it is very special.

I don't know if it's because of this reason, so there will be the same thing that the hundred heads of the beasts came at the same time three hundred years ago.

Ye Xuan walked inside the cave, and the interior of the cave was very dark. The only light was an ore above the cave wall.

Ye Xuan also heard about the ore.

This kind of ore is called a fluorite stone, which does not need to absorb any light, and can spontaneously emit a pale green light.

Thanks to the radiance of ecstasy, the environment inside the cave can be clearly seen.

This cave, the surface seems to be a pure natural cave, but the claw marks everywhere, but also shows that there is actually life inside the cave.

It's just that Ye Xuan doesn't understand why he has been in it for so long, but he hasn't even seen the source beast, let alone the original beast!

It's hard to make it. I think more. I don't think there is a birth of a beast in the September hole. It's just because the two have broken out again.

Maybe there is this possibility, but Ye Xuan believes in his instincts. He believes that there must be any special changes in this cave!

Going forward, Ye Xuan does not care so much, moving directly toward the inside.

About another hour later, Ye Xuan heard a whisper.

This voice seems to be somewhat oppressive, but I just don't know what it is.

Ye Xuan's brow was slightly wrinkled, and he walked over to the place where the sound was emitted.

Ye Xuan's movement is very small, it can be said that it is cautious, the whole body's breath has been completely hidden, even if it is a god, it is carefully explored.

Constantly approaching the goal, with doubts and expectations, Ye Xuan finally saw the situation ahead.

The altar is an altar!

It's hard to be true. Is it normal to have an altar out of all the secret places?

Ye Xuan looked at the altar in a strange way. He didn't understand whether the altar was originally there, or was it built by the Shenlong or Qianjia?

Ye Xuan did not dare to rush close, because on the altar, there was a stock that gave Ye Xuan a fearful atmosphere.

Around the altar, it was covered with the source beast, and the previous voice was also sent by the source beast.

Here, what are you doing?

Why are there so many source beasts gathered here?

Suddenly, a source beast walked toward the altar.

Ye Xuan looked quietly, he would have to look at it, with some source beasts, what to do.

I saw that the source beast stood on the altar, and it seemed to be unusually excited, and the body shivered involuntarily.

Suddenly, a strong black light emerged from under the altar, and it was actually wrapped in the source beast, as if to devour the source beast. The source beast constantly struggled, but the surrounding beasts were fanatical. Eyes.

What is going on, is it difficult for these source beasts to come and die?

Obviously, this reason is impossible to establish, then, that is to say, the actions of these source beasts may have other meanings.

Ye Xuan continues to wait.

The struggle of the source beast has finally become weaker and weaker, and it has completely lost its breath.

However, from his body, it is a condensation of a crystal with a black breath.

what is that?

Ye Xuan pressed the excitement and doubts in his heart, and still did not move anything.

However, other source beasts can't wait. At this moment, I saw a source beast rushed up and swallowed the crystal.

"boom!"

A ray of light broke out from the body of the source beast and was promoted. This source beast was promoted to become the original beast!

This.....

Ye Xuan is very different, how could it be like this?

Why was the birth of this source beast on the altar, exchanged for the sacrifice of other source beasts?

what on earth is it?

Originally, according to Ye Xuan's thoughts, the birth of the original beast should be a kind of coincidence, and it was born out of the recognition of the original law, but why did Ye Xuan see it now?

Moreover, it seems that the original beast that was born like this always seems to be a little abnormal.

Ye Xuan can't tell the feeling, it's just a doubt in his heart.

It can be said that Ye Xuan simply can't understand the current situation.

At this moment, the things above the altar are still going on, and a head-beast is swallowed up, turned into a crystal nucleus, and then swallowed by his companions to become a companion's promotion.

At this moment, Ye Xuan wants to know that all the source beasts are using this method to create the original beast?

Or is it only that this September hole will be so special?

Suddenly, Ye Xuan's heart was tight, and the sword was instantly taken out, and it was smashed toward the back, but his attack had no effect.

Behind him, there is indeed a person, but it is Ye Xuan who has no chance to win.

"The little guy, don't chaos, it's broken the source sacrifice, we don't have good fruit to eat."

The man said faintly, with a wave of leaves, Ye Xuan's scorpion sword returned to Ye Xuan's hand. Ye Xuan could feel the strong fighting spirit of the sacred sword, but Ye Xuan knew more clearly that he did not defeat the person in front of him. Strength.

"who are you?"

Ye Xuan looked at the man with vigilance, but his heart was quite doubtful.

"Little guy, can't you even recognize me?"

Ye Xuan slightly stunned, what does this person mean, can't it be, do you know him?

However, Ye Xuan really can't think of it, this guy, what image he has.

See the doubts in Ye Xuan's eyes.

The man smiled slightly: "Very good, even someone really doesn't know me. You are a special one. You can't know me. Little guy, you know what you are seeing now, if it is Don't want to die, it's best to leave quickly."

"What exactly is the predecessor? And what happened here?"

Chapter 2537: a secret

Ye Xuan asked the man. After all, his heart was shocked by the strength, means and so on.

In the same way, since the strength of this person is so powerful, and will come at this time, presumably, also know the things of this altar, then, Ye Xuan can understand from him, what is special here!

The man casually glanced at Ye Xuan, but asked: "Kid, can you stop the dark beast?"

Dark source beast?

Ye Xuan gave a slight glimpse of this name, he did not hear it.

But that person seems to have also determined that Ye Xuan could not know, so at this moment, he has continued.

"Generally speaking, the original beast is the power of the original law. This is the consensus of almost everyone. Of course, there is nothing wrong with this statement. The original beast is indeed the power of the original law."

"However, you know, what is the power of this source law? Many people think that the law of origin is a law, but it is not the case. The law of the source is that the law is correct, but it is not a kind! The law of origin, It is the power of the source..."

"Well, I don't know what to say to you. What I want to tell you now is that the dark beast is actually an alternative kind of existence among the beasts. Moreover, the evil is incomparable and the means are more numerous. You are a district. The little guy in God's respect, how far you can go, how far you can escape, don't delay here."

What does this guy mean to let Ye Xuan escape?

Ye Xuan is not very sympathetic to the guy's statement. Who knows whether he is telling whether it is true or not.

"The good intentions of the predecessors, I have received it, but since this is the place where the Shenlong and the thousand families compete, I don't believe that there is really a dark source here."

"Haha, don't you believe?"

The man laughed and said with a finger, saying: "You have seen, those primitive beasts, the dark beasts, do you want to say that three hundred years ago, the Shenlong and the thousand families killed hundreds of native beasts here, And therefore for three hundred years of fighting, there should be no dark beasts right here?"

"If I tell you, the thousand families are not human races, but the half-human and half-dragon Asians, what do you think?"

Ye Xuan was shocked and immediately thought of a possibility: "Is it true that the thousand families and the Shenlong people are acting?"

"I didn't expect your kid to be a little clever, yes, the Shenlong and the Qianjia, were originally acting, they played a good show, and they still deceived everyone for three hundred years! But no one knows, these three hundred In the year, the two families have been secretly developing this September hole, and they have established such an evil altar."

"Unfortunately, I still have some carelessness. If the anomaly here is discovered early, then the conspiracy of the Shenlong people will not succeed."

Ye Xuan listened quietly to the words of this person, but the more he listened, the more doubts he had in his heart.

What is the identity of this strong person, and why do you know so much? And it seems that his initial plan was to stop the altar from working.

"Dare to ask the seniors, who is it, why can you know so much?"

Ye Xuan couldn't help but wonder, so he asked directly to the man.

"Who am I? I am afraid that only you will ask this question. Unfortunately, I don't know what name I am calling because people give me too many names, but the most commonly used ones are the city owners!"

City owner?

The only city owner of the first floor?

The source of the secret, the first layer of the secret layer of the main?

This place, the strongest first person?

Ye Xuan was shocked, but he did not expect that this person in front of him still had such a strong identity.

"Well, you are still leaving here soon. If my inference is correct, then there will be a fierce battle here."

A fierce battle?

Can it be said that this city is mainly for the Shenlong and the thousand?

No, or he said that the Shenlong and Qianjia will fight.

But it is not right. Since this person said that thousands of families are half-dragon and half-man, then it is very likely that these two families have been acting for three hundred years.

So now that their purpose has been achieved, I am afraid there is no need to do it.

.....

and many more!

Suddenly, Ye Xuan was shocked and he thought of a possibility.

If the Shenlong and Qianjia are together, it is the dark beast, and now it is successful, then what will they do next?

And what if the city owner finds an abnormality?

It is difficult to achieve, the evil battle in the words of the city, refers not to the Shenlong and the thousand, but the city government and these two forces!

The more I think about Ye Xuan, the more I think it is very possible, even sure.

It seems that I really have to leave here soon.

Once these two people are fighting, then Ye Xuan can be sad reminder, knowing that if the city government and the \*\*\*\* dragon family, the thousand families fight, presumably the last time is also the master battle of the gods.

As for the cultivation of the sacred place of Ye Xuan in this district, it is really a carelessness that will fall.

The system is damaged, and Ye Xuan's current strength can't be as big as the system.

Going back?

Ye Xuan is somewhat reluctant. After all, the dark beast is also the original beast. It can also enhance Ye Xuan's strength. At this moment, Ye Xuan said that he has already arrived here, and then he has retired. Ye Xuan's heart is still very reluctant. .

Most importantly, this is undoubtedly an opportunity.

If Ye Xuan can seize this opportunity, then not only can his strength be improved rapidly, but the most important thing is that the system can recover.

If Ye Xuan can feel the outside world before the outbreak of the war, here to kill the dark source of the beast to quickly improve the strength.

It doesn't need to be too high, just need to wait for the five elements to wait for God's respect, then, Ye Xuan is qualified to go outside the battlefield!

If you can miss the success one or two times, then recovery system, I am afraid there is a chance.

However, if it fails...

The consequences of Ye Xuan can also be thought of.

Once defeated, Ye Xuan faced, I am afraid that the lowest is the enemy of the inferior gods.

The chance of corruption will be great!

When I was in the trial task, I said that Ye Xuan had only passed the assessment of this source of secrets for 10,000 years.

Ten thousand years, nine hundred and ninety-nine layers!

And before Ye Xuan had been delaying so much time outside.

If you are waiting for the system for a thousand years!

Then, fearing that Ye Xuan passed the assessment, it has already fallen.

Perhaps, this time, Ye Xuan has only gambled!

The person who just spoke to Ye Xuan has disappeared at the moment. Obviously, he is not coming by himself, but a phantom.

Ye Xuan also refused to take so much at this moment, and directly pulled out the sword. He must now use the fastest time to kill the dark beast and engulf the crystal nucleus, thus improving the strength and must fight in the outside world. Advance enough strength before this September hole!

Chapter 2538: Dark source beast

"kill!"

Ye Xuan screamed and rushed straight toward the dark beast of a single order.

This dark source of the beast, originally did not worry about anything, just walking very casually, but did not want to, it was suddenly not to attack.

"Human! You turned out to be human! The Terran Kid, what do you want to do, why attack this King!"

The dark beast escaped Ye Xuan's blow and immediately asked Ye Xuan loudly.

However, Ye Xuan will pay attention to him, hand a wave, and at the same time ordered: "Megatron, you come to control the sword, give me attack!"

And Ye Xuan himself, but pulled out the law of the \*\*\*\* bow.

Without the system, Ye Xuan is not only unable to summon Shenmu Swordsman, Huashen Sword, etc., even, even the use of the eternal field can not be done.

Ye Xuan can use it, only his own strength!

"Never night field!"

Ye Xuan waved an attack and immediately released an attack.

In the twinkling of an instant, the night of the night always surrounds the dark beast.

However, in the past, the never-ending disadvantageous night field, this time, failed.

"Hey, the little fog law, also want to trap this king? Give me broken!"

I saw that the dark source of the beast suddenly spit out a mysterious light, between the moments, that Xuanguang directly dispels the field of the night!

Can dispel the power of the field?

Ye Xuan's heart was slightly shocked. He couldn't understand what kind of power this guy used.

However, thinking of this dark source beast, this is the origin of the law of darkness!

Then, it seems that it is nothing to be able to dispel the permanent night field.

These dark beasts, Ye Xuan looked down from the altar, was just promoted soon, so it is still in a period of weakness, which is another reason why Ye Xuan dare to do it.

It can be said that the darkness of the beast at this moment, fear that even the general ability of the heyday is not!

.....

"Human boy, since you want to find death, then this king will let you become the first prey after the promotion of this king! You should be honored to be the first prey after the birth of the new man. Ben will definitely remember you!"

The dark beast, watching Ye Xuan, turned out to be a disdainful look.

This guy does not mean to see Ye Xuan at all!

Of course, he really has this qualification.

"Human boy, try the power of my dark source, haha!"

The dark source of the beast screamed, and with a wave of it, it was a few light generals on Ye Xuan's body.

No way to escape!

These lights, there is no way to escape!

Because these are the powers of the curse.

Dark source!

What exactly is the source of darkness?

At this point, Ye Xuan's heart could not help but start to doubt.

Because at this moment, Ye Xuan has been affected by the negative emotions and feelings of fatigue, injury, fatigue, sleepiness, powerlessness and so on.

Ye Xuan knows that these are the powers of the so-called curse.

The power of the curse is a very strange power.

However, after Ye Xuan arrived in the realm of the gods, he had never encountered it, but today he actually encountered the power of cursing.

For a time, Ye Xuan has dropped a lot in defense, responsiveness, and attack power.

Ye Xuan bit his teeth, he still does not believe, he really can not help this guy.

The law of the \*\*\*\* bow appeared in the hands of Ye Xuan, Ye Xuan did not hesitate in the slightest, the law God arrow directly released.

The law of the gods and arrows, turned into streamer, and this time, Ye Xuan also used, the law of engulfing and the law of gravity!

Along with the streamer, in front of the dark beast, there was a huge devour whirlpool, and at the same time, the other streamers, but in the middle of the air, crossed an arc, from the darkness of the original beast past.

The few streams of light are the power of the law of gravity.

"Boom! Boom! Boom!"

Continuous loud noise.

The darkness of the beast was so strange that he looked at Ye Xuan, and Ye Xuan's attack method was also something he had never seen before.

At this moment, he felt the powerful power of engulfing and tried to swallow him into the vortex.

There is only endless darkness in the vortex, and the dark beast can of course understand that a huge vortex is definitely not a good thing.

But at the moment, he is a little powerless.

Because of this gravity law, the attack of the arrow is not so easy to resolve.

Ye Xuan will devour the vortex of the detonation of the magical arrow in front, and then let the gravity rule be used to circumvent the purpose, not to push this guy into the vortex.

"Damn, what is this power, why haven't you seen this!"

The dark beast said loudly.

Ye Xuan raised the magical bow of his hand, but he said faintly: "You are only a beast in the district, but what is it really? What do you call yourself?"

"Death!"

Ye Xuan suddenly pulled the law of the gods bow, and several laws and arrows directly rushed out.

"Boom! Boom! Boom!"

This time, the dark beast is no longer able to withstand the power of the gravity law.

It turned out to be directly into the vortex.

That is the huge vortex formed by the phagocytic law. The powerful devouring power makes this dark source of the beast just fell in and has been broken down.

However, the purpose of Ye Xuan is not to capture the crystal nucleus of this guy?

How could it really make him devour?

After a wave, the vortex disappeared directly, and the dark beast that lost half of the body, not yet dead, but looked at Ye Xuan, said in horror: "You, what did you do to me?" What is that power, who are you?"

This guy, haven't you figured out what is going on?

Ye Xuan was too lazy to pay attention to it, and then a move, the sacred sword immediately returned to Ye Xuan's hand, and then Ye Xuan said nothing, directly a sword toward the dark source of the beast!

This time, the dark beast, but not so good luck, immediately killed.

The system prompt did not sound.

Even if Ye Xuan is in the heart, he hopes that he can ring.

Unfortunately, the system prompts that it will not ring at the moment.

Ye Xuan waved his hand and swallowed his power. In an instant, he had already swallowed the dark beast, along with the nucleus.

However, at this moment, Ye Xuan frowned slightly, perhaps for other times, it is indeed possible to do so.

And doing this can also improve the repair quickly.

But now it is different. Now the big wars outside are likely to break out at any time. In September, there may be someone coming in at any time.

Even if no one comes in, if the aftermath of the battle will destroy the September hole, then I am afraid that it is Ye Xuan, and I will only be trapped in this secret forever.

Therefore, this can not be done, Ye Xuan must find a way to improve their own cultivation.

Chapter 2539: Snatch

Ye Xuan took a shadow and went straight to the direction in which the source swallowed the beast.

Although Ye Xuan does not know why these primitive beasts are collectively moving in one direction, but Ye Xuan knows that his purpose is to kill these dark beasts to enhance their strength. The best way is to kill many dark beasts at once. !

Therefore, following them in the past is also a good choice.

Ye Xuan's movements are extremely fast, and of course he still maintains enough vigilance.

The battle with the dark beast has just let Ye Xuan understand that the dark beast is not so good.

It can be said that Ye Xuan just killed the dark beast and had the elements of luck. It is also because the darkness of the beast is not too concerned about Ye Xuan.

You must know that the dark beast was just released once, and that is to weaken Ye Xuan.

But since he weakened Ye Xuan, there will be follow-up attacks.

Unfortunately, because Ye Xuan's attack was fast enough, he did not have the opportunity to display new attacks!

At this moment, because Ye Xuan understands these things, naturally, these dark beasts will not be underestimated.

The arrogance is undoubtedly equal to finding death.

This point, Ye Xuan is very clear!

Ye Xuan moved forward cautiously, but the speed was extremely fast.

Soon, Ye Xuan came to a strange place.

This place is also a bit like an altar.

However, this altar is dedicated to something.

Ye Xuan Shen read the outside, quickly look at the past, but this look, and Ye Xuan is a big jump.

A big piece of the source of the gods!

You must know that the ordinary source of Shenjing, who can have the size of a fist, is already cherished, even to be a treasure.

However, the original source of the crystal that Ye Xuan now sees is actually a one-person high existence!

Such a huge piece of the source of Shen Jing, if Ye Xuan can swallow!

So for Ye Xuan, it is definitely a big good thing. Even, it is not impossible to let Ye Xuan break through the real world.

No, you must get this piece of source crystal!

Ye Xuan thought that the source of Shen Jing, too large, its value, can be imagined, must be swallowed up!

Ye Xuan once again said in his heart.

"Megatron, the magic weapon!"

Give me the enemy from the left!

"Hey Sword, you are responsible for the right side, give me as much movement as possible, and lead more dark beasts!"

Ye Xuan can't use the system, then he can only rely on Megatron and the Sword.

Accompanied by Ye Xuan's order, Megatron and Sui Shenjian were one direction in one direction and quickly rushed over.

"boom!"

On the left side of the cave, a huge sound sounded, and at the same time, there were several roars of the dark beasts. In a flash, there were hundreds of dark primitive beasts rushing past.

However, after a while, it was heard that the right side also made a loud noise.

Subsequently, another group of dark beasts were taken away.

At this moment, the dark beast that is in front of Ye Xuan has been led away, but there are still hundreds of dark beasts gathered. This time, Ye Xuan seems to have no way to lead these dark beasts.

Is it a strong attack?

Ye Xuan is quite anxious, but if it is a strong attack, Ye Xuan is not sure at all, what should I do?

Just give up, impossible, Ye Xuan will never give up.

Devouring the space?

Suddenly, Ye Xuan thought of consuming the space, the system was damaged, and the space was still swallowed. Ye Xuan's idea this time was very simple. He found the things that the dark beast cares about, and then led the dark beast.

You don't need them to go too far, and they don't need to go too much. As long as they can give Ye Xuan a chance, it is enough!

Once you can devour the original source of crystal, then, even if Ye Xuan is hiding in the devour space, it is worth it.

Ye Xuan quickly searched for his engulfing space and the Qiang Kun ring, trying to find something he had for him.

Suddenly, several sculptures caught the attention of Ye Xuan.

This is the law that the Dapeng gave him in the ancestral environment.

However, Ye Xuan remembers that once these laws have left the ancestral environment, they will completely lose their effect, and they will not know whether they can use it at the moment.

However, can you use it, don't you know it?

Ye Xuan thought of a move and directly released the few French sculptures.

At the same time, Ye Xuan's heart is also looking forward to great points.

I don't know if I can succeed!

The law is suspended in mid-air, but it is trying to emit light again and again, but it fails again and again.

It's hard to be true, really can't be, here is the source of the secret!

Here is the original secret of the ancestral environment!

Ye Xuan is expecting incomparable, this is already Ye Xuan's last hope. If it is unsuccessful, then Ye Xuan may never find any good way to take these primitive beasts away.

However, when Ye Xuan was about to give up, one of the French sculptures suddenly broke out and suddenly succeeded!

Ye Xuan's heart is overjoyed, and finally it's a success. You know, this time, can you succeed, the impact on Ye Xuan is really too big.

At the moment, Ye Xuan's heart is full of gratitude to the Dapeng. It can be said that without this method of sculpture, Ye Xuan can only be hard!

The power of the powerful force suddenly broke out. Obviously, this method is not very stable. After all, this is something unique to the ancestral environment.

Even if it is in the original secret, it is impossible to use it perfectly.

Ye Xuan even suspected that he would not hang around.

Still, at least the French sculpture did not explode immediately.

The power of the powerful, in the blink of an eye, caused the attention of these dark beasts.

The sculpture of the Fa is very unstable, and the power that comes out is naturally violent.

And this violent power will undoubtedly make the darkness of the beast wary.

Therefore, at this moment, in addition to the four dark original beasts still in front of the original source of Shen Jing, the rest of the dark source of the beast has already swept toward the law.

It's now!

Ye Xuan has been waiting for so long, planning for so long, is not waiting for this moment!

Now, Ye Xuan will still have a half hesitation, and directly rushed toward the piece of the source of Shen Jing.

"Who!"

"Human ants ants!"

"you dare!"

"Get out of my way!"

Four voices, different words, are communicated at the same time.

The last four dark beasts saw Ye Xuan at the same time, and there was no use for launching the attack.

Ye Xuan's teeth are crucial. He knows that if he continues to rush, he will inevitably be attacked by the four dark beasts. However, Ye Xuan has no choice.

"Chong!"

Ye Xuan can only rush up.

"boom!"

The first attack arrived, and the body shield of the body that was condensed by Ye Xuan was directly attacked!

"boom!"

The second attack arrived, and the body of the body around Ye Xuan's body was dimmed and slowly faded.

"boom!"

The third attack arrived, and the leaves of Ye Xuan's body were all gone!

Chapter 2540: Devouring the source of Shenjing

However, at this moment, Ye Xuan still did not hesitate, still rushing toward the front.

Ye Xuan does not need to really reach the position of the source of Shen Jing, Ye Xuan needs only to be able to reach a certain range, which can allow Ye Xuan to display the scope of engulfing.

"boom!"

"Devouring!"

At the same time as the fourth attack arrived, Ye Xuan had already reached a sufficient position to launch a swallow.

In an instant, Ye Xuan echoed a circle of light, shining in the original darkness of the darkness as white.

At the same time, a vast and powerful force has already rushed into Ye Xuan's body.

Even if there is still no systematic prompt, Ye Xuan's heart is also very clear, and his realm has improved!

Moreover, it is continuous improvement!

Unfortunately, there is no systematic prompt, Ye Xuan can not get accurate data.

However, at this time, the sound of the system sounded.

"Hey, the system prompts, it detects the energy that can be used to repair the system, and it is automatically charged!"

"System, have you recovered?"

Ye Xuan quickly fled, but one side asked the system.

Unfortunately, there was no response, and the system's prompt did not sound again.

However, Ye Xuan can feel the enormous power that was originally filled with his whole body, and it is disappearing at this moment.

To be precise, it is sucked away.

Needless to say, Ye Xuan can also know that the power that is sucked away is afraid that the system is used to repair itself.

Although Ye Xuan does not know, this time has great benefits for the recovery of the system, but it is very clear. I am afraid that this time, the system has also received huge benefits. After all, this is such a huge source of Shenjing!

Moreover, from the darkness of the beast that he is madly chasing him behind him, Ye Xuan can also know that what he has swallowed is definitely a treasure, and it is extremely important for these dark beasts.

"boom!"

Countless dark beasts, maddening random attacks, lost this September hole is a cave, even if it overlaps with the secret, but the essence is still a cave.

Therefore, let those who are the original beasts attack, but Ye Xuan can naturally escape smoothly by virtue of geographical advantage.

Escape again and again, dangerous dodge attacks again and again.

Ye Xuan's heart is very nervous. He doesn't dare to delay in half a moment. If it's a little delay, don't even say delay, but if you don't make good use of the terrain in this September hole, Ye Xuan will only die. No place to bury!

What Ye Xuan faces is the dark and sacred beast that has gone mad.

Not one end, not two ends, but all the darkness of the beast.

From all directions, countless dark beasts have rushed out, in addition, there are more dark source beasts.

In the whole secret, it has fallen into madness!

Ye Xuan but all escaped, this is a dark source of the whole secret, if Ye Xuan escapes slowly, then the consequences can be imagined.

"boom!"

Outside the September Cave, the temporary gate was directly hit by Ye Xuan.

Then among the strange eyes of countless people in the east, Ye Xuan rushed out.

Thousands of people gathered together outside the September cave, and it is clearly divided into two camps, and it seems that fighting will break out at any time.

Ye Xuan looked up and ran wildly, but he said to one person: "Run fast, the source beast riots!"

This will let Ye Xuan, at this time, also take the time to remind people, naturally the city owner.

Everything is as Ye Xuan envisioned, the city owner really brought troops, and is negotiating.

However, the negotiations are not over, and Ye Xuan has rushed out to spoil.

A source of animal riots, let the city owner first glimpse, then immediately ordered: "Everyone immediately retreat here!"

Along with the orders of the city masters, a stream of light appeared, and everyone did not hesitate, and they immediately retreated.

It is to let the Shenlong and the thousand people do not understand the situation.

It is clear that the scene of the battle will erupt at any time before the moment, how can we blink, everyone ran.

However, soon they will know why!

Because, a large group of dark sources have swallowed out the beast.

At this moment, those dark beasts are already crazy, and there will be so much control. When they see the people outside, they launch a crazy attack.

.....

Ye Xuan has been caught up by the city owner at this time, and then seeing the battle behind, Ye Xuan has no intention of continuing to escape, but a look of peace of mind, watching the battle behind.

However, now, Ye Xuan did not want to understand, these dark origin beasts, use so crazy?

It is simply the whole secret situation, just to deal with Ye Xuan one person!

Is this really necessary?

Suddenly, a figure appeared next to Ye Xuan.

It is this city owner again.

Just now the city owner ran to the September Cave, but now he does not say anything, directly to find Ye Xuan.

Ye Xuan has a little vigilance in the heart, this guy is also the master of a city, but also the first layer of the main, then, what reason does he have to follow Ye Xuan such a small role?

Once it was accidental, then the second time, and still take the initiative to come to find Ye Xuan?

Plus this guy used the power of the avatar to enter the secret of the September hole, then, Ye Xuan had to think more.

However, although Ye Xuan will be alert in his heart, he does not dare to show it in the slightest.

After all, Ye Xuan's strength, the gap is too big for the city owner.

It can be said that this city mainly killed Ye Xuan, but it was just a matter of moving fingers.

Therefore, Ye Xuan simply did not dare to provoke him.

"I have seen my predecessors."

Ye Xuan said respectfully.

"Yes, little guy, I have already reminded you, let you come out of the secret, but you don't listen, how, this time it is dangerous, can or leave, it is your life. ""

There is a slight smile on the face of the city owner with a faint smile.

"It's a kid who is reckless. This time, the speed at which the kid can escape is not enough. Otherwise, I am afraid I can only stay inside."

Ye Xuan said with a look of fear, but in my heart, I was thinking about what the city owner wanted to do.

"Oh, your kid is indeed quite big, but why is this dark source animal riot? I don't want to understand it, then, do you know?"

Suddenly, Ye Xuan was shocked. Hearing this sentence, Ye Xuan already knew what this guy wanted to ask, what it was.

I am afraid that it is the goal of this city, and that is a huge source of God.

The secret in September is not very big. It can be said that it can be explored with God.

Although Ye Xuan did not really use the Shennian to explore this September hole, but he also knows that the darkness of the beasts where he went to gather is the core of the entire September cave.

In other words, no matter what means these people use, their purpose may be only one!

That is the piece of the source that is swallowed by Ye Xuan!
