Chapter 254: Make money

Yu Jin's eyes are bright again. Ye Xuan's name is to ask him to be a representative trade. This is a rare opportunity.

"Well, little brother, I will first give me five pieces of land, ten six yuan Dan." Yu Jin said, it was to take out a bag of spar.

300,000 pieces of land, five are 1.5 million. Ten six-yuan Dans add up to 200,000.

A total of one hundred and seven hundred thousand crystals, so there are one hundred and seventy sprites in the bag.

After handing over the money in one hand, after the transaction was completed, Yu Jin took the five ground devices and six yuan Dan and took the door.

Ye Xuan does not want to trade with the strong Dandi, so he must take these to win the trust of Tianyuanzong.

"Oh, although that is said, they should observe me in the dark, but as long as they are not close to me, my easiness will not be seen."

Ye Xuan thought in his heart.

After Yu Jin left, Zhao Feiyan was surprised to come forward and whispered: "Da Big Brother..."

"Hey, don't ask so much, this will give you the Nebula sword, and you should practice it in the future." Ye Xuan said, and took out a Nebula sword from the swallowing space.

Zhao Feiyan was scared to death, and hurriedly said: "Dr. Zhao, I can't accept this."

A piece of earthenware 300,000 crystals, and the day before she gave Ye Xuan to eat, is less than one tenth.

"You are very kind, like my sister. If you want to give me this friend, just accept it. Otherwise, I will turn around and leave, even if your lord is coming, don't want to complete this transaction." Ye Xuan put the nebula sword hard The past.

Zhao Feiyan licked her mouth and her heart was very tangled. After thinking about it for a long while, she still took the nebula sword.

About half an hour later, Yu Jin returned again, but this time, he also brought a person, a true female disciple.

After seeing this female disciple, Ye Xuan was shocked because he knew this person.

Although I have only seen one side, and after two years of time, Ye Xuan recognized the other party at a glance.

This true-born female disciple is his fiancée two years ago, Lin Xueer!

"It's really clever." Ye Xuan smiled and felt subconsciously. He found that Lin Xueer's Dan Yuan was extremely strong and much stronger than Yu Jin.

Da Dan Dacheng!

"I am afraid that the qualifications have reached the unparalleled, seventeen-year-old Dan Dacheng Dacheng, it really is a enchanting!"

Ye Xuan's eyes fell on Lin Xueer's body.

After two years of disappearance, Lin Xueer has become more mature, with a bumpy body and a delicate face like Tiancheng, especially the pair of Danfeng eyes, which makes her ancient temperament rise to the next level.

After Lin Xueer entered the door, she also fell on Ye Xuan's body. I don't know why, she had a strange feeling about Ye Xuan, but she can be sure that she has never seen this face.

"Little brother, she is the disciple of my Tianyuan sect, Lin Xueer." Yu Jin quickly introduced.

"metropolitan?"

Ye Xuan's eyes glimpsed. He remembered that Lin Xueer was taken away by an elder of Tian Yuanzong. Now Lin Xueer became a lord. It seems that the elder was dug by the lord of Tianyuan.

"People are born in Dacheng, not in the land of Dan, I have seen the sincerity of your party."

Ye Xuan smiled and his eyes swept around for a moment. Perhaps, the head of Tian Yuanzong was not necessarily looking at him somewhere.

"Well, I don't have much to say nonsense. Now there are still 95 pieces of land, and 90 yuan of six yuan Dan. Is your party still?" Ye Xuan asked directly.

"Yes, of course!" Yu Jin hurried.

Immediately afterwards, Lin Xueer took out a bag of spar directly and whispered: "This is three thousand and one hundred best spars."

Ye Xuan had a mental calculation before, and the rest of these things were a total of 3,300,000 medium-sized spar, that is, 3,030, the best spar.

Tian Yuanzong also gave him seventy of the best spar, which is really rich and rich.

"Haha, your party really has sincerity, then I will thank you." Ye Xuan laughed twice and took all the spar.

These spar are enough for him to return to the human world, but Lin Xueer is still here, he can not directly break through.

When he finished, he took out the remaining six yuan Dan and put it in the box. He said: "The ninety-five places are the nebula sword, and the ninety six yuan yuan are in it. That is what I gave to her, not counting."

Yu Jin listened and hurriedly said, "How can this be done?"

You must know that a piece of land is a 300,000-small spar, even if it is a person who is a small person, you may not be able to afford it.

However, Ye Xuan even sent it out casually.

This made Yu Jin's heart affirmed. Ye Xuan is definitely not a small family. It must be from a big force in Zhongzhou.

"No matter, Yu Chang, Lin girl, I may send some things from time to time, the price is still the same, there may be Chinese products and other drugs at the time, I hope that I will not treat me as a good day." The thief of the sect is just fine." Ye Xuan laughed.

In this case, he just talked about it, and the deal was completely one-off. Even if there are good things, they will be sold to Lingxiao House first, not Tianyuanzong, unless Lingxiao House can't eat it.

However, he felt that he would not come to Tianyuanzong again, because after another day or two, those disciples of Tianyuanzong would return. By then, the entire Tianyuanzong would be turbulent.

"Cough, it was a misunderstanding before." Yu Jin said quickly.

Lin Xueer on the side couldn't figure out the situation. After squatting, he took out a simple token and handed it to Ye Xuan.

"Lin girl, is this?" Ye Xuan took the token, engraved with the word elder.

"This is the elders' order of my Tianyuan Emperor. I can enter my Tianyuanzong at will. Please remember that Zhao Gongzi will not be bound. It is our sincerity." Lin Xueer said in a soft voice.

Although she said that she is two higher than Ye Xuan, but the person who can easily send out a piece of land, the identity is absolutely not ordinary, so we must make a good relationship.

"It turned out to be the case, then I will accept it." Ye Xuan finished, is to directly throw the token into the swallow space.

Maybe it will be used in the future?

"Right, there is still something in the next." Ye Xuan suddenly said.

"Please tell me the little brother." Yu Jin hurried.

Ye Xuan paused, and then embarrassed to say: "This is the case. I said before, I am from a refining family, but recently there is a shortage of forging materials. I don't know if you can have refining materials." "

Upon hearing this, Yu Jin immediately said: "Yes, yes, how much does the little brother need?"

Tian Yuanzong is also a big faction. Although there is no land forge, there are quite a few forged swordsmen. So the materials of the earth are generally for these people to practice, in case the earth machine is built?
