Chapter 2571: Rescuing the soul

The resources produced in the ancient space of the Qin, after the accumulation of this period, there are some, although not many, but also enough to use once.

Ye Xuan's hands are constantly changing and shining, and the speed is already very fast, because Ye Xuan's heart is clear, if he can't quickly refine the banned thing, then, this time, he will fall down Here.

It's not as simple as his name, though his name is actually terrifying.

This is a smog of six souls, which can erode the soul and make people feel the pain from the erosion of the soul. Then, there will be vitality, no matter how strong your vitality is, but the black smoke will not be scattered, then it will continue Being sucked, and as the vitality is continuously deprived, the power of this black smoke will become stronger and stronger.

These are not the key, the most crucial thing is the six!

The so-called six musts is the absolute seven words. The black smoke can block all the perceptual abilities of the eroded people, even if it is a god.

Desperate! Black smoke can transform all the divine power around it into its own spreading power, so that the surrounded person will naturally not be able to extract divine power.

The law! This sorrowful soul is six smokes, and it can temporarily close the law powers that are not covered by him. The power of those laws does not disappear, but it is because of the black smoke, it can not be used at all.

Desperate! Consciousness is a person's thinking, but if it is surrounded by this black smoke, then whether you are strong or not, you will be stripped of sorrow by the black smoke, until finally, without consciousness, let the black smoke kill!

Absolutely! This can be said to be a very mysterious existence. The so-called heavenly air transport, this is something that can't be touched. After all, luck, how to explain it? However, this black smoke has the special ability of absolute luck. No one knows how to do it, perhaps because the black smoke itself contains some special rules in it!

In addition to these five musts, the one that remains is the most terrible existence, because the last one is absolutely awesome!

The so-called absolute death, said that once it is covered by this black smoke, then life and death can not be their own, even if you can not help the black smoke, want to commit suicide, can not do, and if there is a special magical power can be resurrected ? Once surrounded by this black smoke, even if it is the resurrection ability, it will disappear!

The horrible black smoke, although the conditions of this black smoke are very harsh, it is generally difficult to really display it, but once it is displayed, it will be terrible.

Ye Xuan never imagined that his luck would be so bad, not only was surrounded by the ban, but it also triggered the black smoke.

Ye Xuan's hands were not delayed, and a piece of the gods appeared in his hands. At the same time, a ban had been formed.

This time, whether it is a ban or a rune, Ye Xuan is specially refining. It can be said that before the refining, Ye Xuan did not have the slightest grasp.

Fortunately, he succeeded!

This time, the ban on the refining of Ye Xuan was actually re-refined by Ye Xuan according to his own ideas, and even his own invention.

Ye Xuan passed the chaos ban and realized the law of engulfing.

Although there is no real power to control the law of engulfment, but the power of engulfing the law has been greatly improved, so now Ye Xuan has the ability to refine this special prohibition.

This prohibition was completely invented by Ye Xuan himself. The general use is to swallow up the rebound!

What is swallowing rebound?

In other words, this prohibition can swallow all the matter close to him, whether it is divine power or special ability, and the material that is swallowed up will be directly thrown into the void.

Ye Xuan's idea is very simple. No matter how strong he is, he will exclude him from his side and let the black smoke not be close to his body. Then there is no danger.

As for where the black smoke was thrown?

There are many places for Ye Xuan to choose. For example, when Ye Xuan was in the Kunlun domain, he encountered a singularity.

There is a ruined hall in the ancient times, and there seems to be some activity in the ruin.

It is not a good thing to destroy the organization anyway. Then, Ye Xuan will introduce this black smoke there, but there is no such thing as being intolerable.

Since Ye Xuan did not have the ability to rush into the ban, it is better to use this black smoke to destroy the ancient annihilation hall.

The people who destroy the organization should not exist, and the members of the organization that are hidden in the secret, although they can't come out now, are harms sooner or later, so it's better to destroy them now.

However, this black smoke has a special effect of the law, so Ye Xuan, I have to use the charm to supplement this phagocytic law.

Ye Xuan's refinement of this time is actually not too advanced, but the role is absolutely used by the present situation, because Ye Xuan's refining is a traction charm!

The traction charm is just like his name. The most important ability is to pull the target, and Ye Xuan puts this traction charm in the ban, and then it will pull the black smoke far and wide. Far away is swallowed up.

Perhaps this time, the law of engulfing should be called the law of transmission. After all, once it is swallowed, it falls into the secret of the ancient extermination organization.

Perhaps it is difficult for others to do this, but Ye Xuan can do it, because Ye Xuan has already been very advanced in the field of engulfing the law.

Soon, this combination of the prohibition of the power of the gods was finally arranged, and a black smoke continued to spread toward Ye Xuan, but all of them were immediately dragged by the charm, banned and swallowed, disappeared into the invisible.

In a short time, Ye Xuan is safe.

However, Ye Xuan wants real security, but it is not that simple thing. After all, the prohibition of the enemy outside is not removed for a moment, then Ye Xuan can only be trapped inside.

Ye Xuan thought quickly about the countermeasures. Now Ye Xuan does not even know what the prohibition is outside. It is indeed a bit tricky, but as long as it is given to Ye Xuan time, then Ye Xuan can be sure to break this prohibition.

However, will the shame really give Ye Xuan time?

Obviously it is impossible. The enemy's goal this time is to kill Ye Xuan. At this moment, when the black smoke is blocked by Ye Xuan and cannot function, there is already a new movement.

Ye Xuan is thinking about cracking this special prohibition, but suddenly found that in the distance, several figures appear directly.

Those people are close to each other, and there is no half-sentence at all. Ye Xuan already knows that they are afraid of them, that is, those who ambush themselves.

"Who are you? Why ambush me?"

Ye Xuan asked the people, who knows, but the few people did not speak at all, but they immediately began to arrange as soon as they approached Ye Xuan.

Chapter 2572: Combination prohibition

It is a ban!

It turned out that among these people, there was a person who was well versed in the prohibition. Moreover, the prohibition imposed by this person was very strange. It can be said that Ye Xuan had never seen it before, whether it was the arrangement method or the cloth he laid down. The ban, in the eyes of Ye Xuan, is very strange.

Generally speaking, the basic step of the refining prohibition is to purify the essential parts of the resources needed, and then condense these succinct combinations according to the secret law.

However, this person is different in front of him. The technique he used in Ye Xuan has never been seen before. At the same time, the essence of purifying resources is nothing, but this person, when it is simultaneously purifying, has already been synchronized. .

It can be said that from the perspective of efficiency, it is simply much higher.

This guy has a special way of refining the ban!

But for a moment, a ban has been formed, and it turned out to be an attack ban.

I saw that the person waved, and the ban that had just been refining had already been incorporated into the ban that was trapped in Ye Xuan.

In an instant, the whole prohibition has changed. The original prohibition is not special, but at the moment, the prohibition is like a fantasy in the sky, it is a starry night!

Even if Ye Xuan Ming Ming knows that this is just an illusion, Ye Xuan still has a bad feeling.

Perhaps it was to verify Ye Xuan's conjecture, but it was only a moment to see it, and the ban had new changes.

I saw the sky, and the starlight changed constantly, and it was extremely unstable.

Then, all the stars will fall down the ground!

"Damn, this is a combination ban! That guy, you can actually add a combination in the ban!"

Ye Xuan's face changed slightly, and the sword in his hand had already flown out.

A huge incomparable meteorite falls directly toward Ye Xuan, not all of them hit Ye Xuan, fearing that one or two of them hit Ye Xuan, it is enough for Ye Xuan.

So at the moment, Ye Xuan dares to delay.

Under the control of the whole day, the sacred swords are constantly erupting once and for all powerful attacks. These attacks directly shatter the faint stuns and see them for a moment. In this ban, it is like the end of the world!

In the sky, there are constantly burning fragments of meteorites falling, igniting all the places around Ye Xuan.

The flame is burning, the black smoke is fascinating, and the ground is trembled by the constant bombardment!

Those meteorites, nature can not be just a meteorite, but a special meteorite that is blessed by various laws and forces, especially the two meteorites that are blessed by the law of solidity and the law of gravity. The power is the most horrible. It can be said that every attack, it seems to give people a feeling of local cracking.

Subsequently, there is also a kind of meteorite that is most worried about Ye Xuan, that is, the fainting of the space law, this kind of meteorite will always appear inexplicably, and then disappeared inexplicably, so that Ye Xuan can't prevent it!

One move is just a trick, and Ye Xuan is in a passive position.

Ye Xuan's rule of law is also constantly pulling, a rule of the gods, constantly flying out of the law of the gods bow, smashing those meteorites.

Ye Xuan at the moment has already been fully absorbed. After all, the enemy is really too strong.

Ye Xuan began to think about countermeasures. This meteorite attack does not really pose a big threat to Ye Xuan. The key is the few people outside!

Obviously, the reason why those people didn't do it at the moment was not because they had to let go of Ye Xuan, but just waiting for a chance to give Ye Xuan a fatal blow.

Ye Xuan quickly thought about all the means that he could use, but found that there was no way to solve the current dilemma, because now Ye Xuan is completely surrounded by the ban, no matter what he wants to do. The most important thing is, at least, Ye Xuan must go out from this ban.

Therefore, Ye Xuan can only wait, waiting for the enemy to shoot first!

These people, since they say they want to kill Ye Xuan, they will not easily let go of themselves, and they want to start, they must enter the prohibition, then the prohibition will be broken.

Therefore, at this moment, Ye Xuan is waiting, waiting for the enemy to break the ban.

"boom!"

A piece of meteorite debris hit Ye Xuan directly, making Ye Xuan look very miserable. Even Ye Xuan spit out a blood.

"boom!"

Another piece of meteorite debris hit Ye Xuan. This time, Ye Xuan even hit the rule of the gods in the hands of the gods, and then it was difficult to take the law bow back.

Enemies outside the ban, silently watching all this, no one has half a word, suddenly, perhaps it feels that time is right, the forbidden division waved, and several strong people immediately rushed toward the ban come.

It turns out that this prohibition is the real command of these people.

Ye Xuan, who was originally dying, suddenly blinked.

Just when the ban was broken and the people were ready to go in, Ye Xuan's figure suddenly moved.

Infinite moments between the moments of the moment, between a moment, have already rushed out of the containment of the prohibition.

"dead!"

The two enemies saw Ye Xuan's movements and immediately launched an attack. However, Ye Xuan's actions were too sudden. The moment before, he was still dying. The magic weapons in his hands were unsteady. After the moment, they all broke out. They felt in their hearts. Nature is inevitably a bit lax.

It can be said that these Qinglong gang people are already quite disciplined, but unfortunately, they are still turned away by Ye Xuan.

Everything before, turned out to be the illusion that Ye Xuan himself deliberately created!

Because of the deepening of the understanding of the law, although Ye Xuan did not improve his realm, his strength has already improved a lot. These guys did not care about it, and they did go all out. Unfortunately, they still had miscalculations.

Ye Xuan's move, but in a flash, has already come to the prohibition.

This prohibition is nothing more than a pure prohibition. It is not like Ye Xuan, who uses the prohibition as an aid.

So when Ye Xuan approached him, he did not resist at all!

"boom!"

A punch!

Ye Xuan did not use the sword or other magic weapon, because Ye Xuan wanted to live, because Ye Xuan, to figure out his special prohibition of refining from this person.

"Wan Jian is one!"

Ye Xuan screamed and saw that the sword of the scorpion immediately broke out with a strong sword light, and it was attacked toward those people in a flash.

"Never night field!"

"Absolute zero!"

"Prohibition, explosion!"

At the same time, Ye Xuan constantly issued two attacks that blocked the enemy's advancement, and even detonated the banned ban that was still in the ban.

The power of the powerful will completely collapse the piece of heaven and earth in a flash.

However, Ye Xuan did not mean to fight at all, but at the same time he launched the attack, he had already fled at full speed with the stunned ban.

Chapter 2573: Qinglongbang's card

Ye Xuan is not stupid, obviously knows that these people are strong, why should they stay and die.

What's more, he already has what he wants, and that is the forbidden division!

Why is the prohibition teacher what Ye Xuan wants most?

Because of this person's special prohibition, as well as the combination of the ban he has mastered.

If you talk about the speed of Ye Xuan's escape, it is absolutely no one can compare. After all, once the infinite teleport is launched, the speed is simply powerful.

However, in the blink of an eye, those people suddenly found out that they had no image of Ye Xuan in front of them.

And just as they were preparing to pursue, they found that there was no Ye Xuan in the scope of the gods!

This speed, while making a few people quite speechless, is awkward.

Because the identity of the prohibitor is not simple.

This forbidden division is already one of the biggest cards for the Qinglong Gang!

The reason why the Qinglong help can give the city owner a three-point face, in addition to the Qinglong help the host a little strength, the most important thing is the prohibition.

This prohibition teacher has acquired a special inheritance of the ancient times. This person has extremely strong talents in prohibiting cultivation, but the heart is unusually weird.

It can be said that the Qinglong help has never really controlled this guy, but has mastered what he wants most, that is, prohibition and special resources.

More than half of the special resources collected by Qinglong help are used by this guy.

In the Qinglong gang, no one knows the name of this guy, but everyone calls him banned!

Because, even this guy himself does not know what his name is, and his mind is only forbidden.

At this moment, the old ban was taken away. How did the people not understand that they would face serious punishments, but they had to go back.

"What? You said that the old man was taken away by the guy!"

Qinglong helped the lord to be angry, and the old one was his card, because the prohibition of the old ban was very powerful, and even if it was time for him, even the Qinglong gang would not help him.

However, at this moment, the old ban is actually taken away by a little guy, which makes the Qinglong help the Lord how to accept!

"You have a bunch of waste, what is the use for you!"

A wave of hands, in an instant, those people were killed at the same time!

These Qinglong gangs are counted as the elite of the Qinglong gang. However, compared with the ban on the old, it is worthless. At this moment, the Qinglong gang helps the lord to be banned by Ye Xuan, and under the anger, it is actually these. The strong are all killed!

You know, among these people, there is a supreme god!

Actually, it is said that killing will kill!

Of course, Ye Xuan does not know this. Ye Xuan is very fast. With the ban on the old man, he will escape far away. In order not to cause unnecessary trouble, Ye Xuan did not go to find them, but randomly found it. One direction flees.

At this moment, Ye Xuan has been in the position, but it is an unusually dark mountain movement.

With a wave of hands, a few flames directly lit up the entire cave, and at this time, Ye Xuan only awakened the man.

Originally, Ye Xuan was prepared to strip the guy's shards directly, but if he thought about it, this guy has a special prohibition and refining technique. He wants to come in Ye Xuan's heart. It should also be a temperamental person. His deity fragments, Ye Xuan worried that this person would rather die than succumb to himself.

Therefore, Ye Xuan did not do it.

Of course, it is not necessary to strip the person's godhead fragments, but it does not mean that Ye Xuan does not make some defenses.

At this moment, Ye Xuan has locked a few bans on this guy's body, which is to prevent this person from making some unwise things when he wakes up.

However, when Ye Xuan woke up this person, the result was beyond the expectations of Ye Xuan.

Because this person, there is nothing to ridicule, but rather curious to look at Ye Xuan.

"The seal in my body is banned, is it under you?"

The old man asked directly to Ye Xuan.

Ye Xuan slightly stunned, this guy is now also a prisoner of his own ranks, it turned out to be so light, but asked himself.

Ye Xuan nodded and said: "Yes, it is me, what happened?"

"Hey, I said that your kid is stupid? Can the seal prohibition made by the engulfment law be used? The law of engulfing itself represents the power of engulfing. You made him a ban, maybe it could seal me at first, but, As time goes by, the chaotic laws will devour each other, will it not be long before this seal will be broken?"

Ye Xuan slightly stunned, is this guy really stupid or stupid?

Now that he is trapping him with a ban, then he doesn't want to get out of trouble, but he is thinking about the loopholes in his ban.

You know, it's him who is being sealed now!

However, he actually wants to tell Ye Xuan that he is a loophole in this seal. Is it because Ye Xuan is not perfect enough to seal him?

Ye Xuan's heart was quite speechless, but he still asked: "So what do you mean, what should you do?"

The man looked at Ye Xuan and said directly: "Since you want to seal me, using the phagocytosis as a ban, it is not impossible. However, if you use the phagocytosis law to make a ban, first of all, it cannot be like this. According to the regular seal, I seal my whole body, but I should use the engulfment rule to make a small swallowing ban in my gas sea, spiritual point, pulse door and other places."

"In this way, these small bans will continue to absorb the power of my body and the power of the law, so that I have no chance to gather strength, and, as such, every small ban has a certain distance, naturally I don't want to consume each other. Of course, if I can add some special techniques so that they can devour the best life, then I can only stay in weakness."

.....

Ye Xuan is quite speechless. Indeed, the method that this guy said is absolutely feasible, and the effect is much better!

But the most important thing is that what is being sealed now is that he is himself. He still has to teach Ye Xuan how to seal himself to be more perfect. Isn't this the feeling of taking his own face?

This guy, what is the idea.

Ye Xuan did not say anything, but he heard the man continue to say: "The kid, do you have, colorful stones, souls returning to wood, nine turns to Jinlian, pears falling flowers?"

Ye Xuan gave a slight glimpse, not knowing what he had to do, but with a wave of his hand, several resources appeared.

"I didn't have the ones you said, but I have the color of the soul stone, the soul of the gods, the Kunli dry stone, and the amazing magical grass!"

"The ancient resources, you, you actually have ancient resources! Fast, give me!"

The man said with great excitement, but Ye Xuan was dumbfounded.

This guy, have you figured out what you are doing now?

"Let me give you these resources? Why do I give you?"

Ye Xuan asked the man.

Chapter 2574: Weird ban

At that moment, the talent is slightly wrong, but unlike Ye Xuan's imagination, this person is actually thinking about what to use and Ye Xuan to exchange, rather than considering his own restrictions.

"I know, this is for you, in exchange."

The man waved, and it was a jade flying to Ye Xuan. Ye Xuan took it with him. At first glance, the complexion was even more weird, because this person gave it, exactly what Ye Xuan wanted. The special refinement ban.

This guy, what is in the mind?

However, since he is willing to exchange, then Ye Xuan is also unambiguous.

The four resources were thrown to the man.

However, the next scene made Ye Xuan feel incredible.

Because Ye Xuan actually saw that, when the old ban did not use the power of divine power and the law, he could start the refining prohibition!

Use the array method as a means of refining the ban!

Moreover, the law of the array is in the form of a rune engraving, directly engraved on the ground, and then infused with the spirit stone!

What kind of guy is this guy?

The formation method can also be used to refine the ban, which is simply something that can't be imagined, but he did it.

After a while, a ray of light flashed, and the ban on the old man was already untied.

Ye Xuan has been watching this scene, and has not interrupted him, because Ye Xuan will not be afraid, even if the injunction seal in this guy's body is broken, but with his strength, afraid that it has not yet had time to release the ban, Will be subtitled by Ye Xuan.

Therefore, Ye Xuan would like to see him, what exactly he wants to do.

After the banned old man broke his own forbidden seal, he did not look at Ye Xuan and immediately went to study the kinds of ancient resources.

At this moment, Ye Xuan's heart realized that he was afraid of encountering a fool...

Of course, this fool does not mean that this ban is stupid, but that he lacks roots.

Ye Xuan knows that there are some people who, once they specialize in something, will forget everything else.

This prohibition is obviously a guy obsessed with the ban. In his eyes, nothing can be seen except for the prohibition. In his mind, the prohibition is all.

However, one of the benefits of this kind of person is that there is absolutely no threat.

Because in their eyes, only their own things, only their own world, and everything else, he will not care.

Ye Xuan silently looked at this guy to refine those resources, and then refine a ban.

Ye Xuan did not stop him, just wanted to know what kind of prohibition he was refining.

After a while, the old man completed all the things in his hand, and then said: "Boy, you see, this prohibition is also refining with the law of engulfment. Can you see that he has something special?"

Ye Xuan stunned, this guy actually directly handed the refining ban to himself?

Ye Xuan took it with him. It was a mysterious light. In the light, there seemed to be some kind of change. Unfortunately, Ye Xuan did not understand it very well.

"I can see that there are some changes in there, but I don't understand, what changes are these."

"Hey, you don't understand it right. This is an unpredictable ban. I use the resources you gave me, combined with the power of the phagocytic law, to make this ban into a random seal ban, the role of this ban. Once it is launched, all the changes are unmeasurable, that is, you can't crack it at all! The key thing is that it also contains the power of engulfing the law, then all external forces will be swallowed!"

Ye Xuan, there is such a seal prohibition, no solution to the seal, this is a terrible existence, however, such a prohibition, even the person was thrown to himself.

"Boy, do you still have any special resources, fast, give it to me, I am studying several prohibitions."

The man looked at Ye Xuan and turned out to ask Ye Xuan for resources.

At this moment, Ye Xuan has already had a new idea in mind. This person may be able to use it for himself. This guy is most concerned about it, but it is just a resource. Because he wants to study the novelty prohibition, then, perhaps, Ye Xuanda He can be directly included in the ancient space of the piano, and then, let him provide a variety of special prohibitions in the ancient space of the piano!

"I do have ancient resources, but they are not on the body, but in other places, do you want to go?"

Ye Xuan asked the old man.

Originally, Ye Xuan also thought that perhaps this person should hesitate to say something, but where did he think, he simply did not want to answer directly: "Well, where, where is, take me in the past."

"Well, I will take you there now, but you have to relax your mind, you can't have a little resistance, can you do it..."

Ye Xuan's words were not finished yet, but he found that the guy had already given up and resisted, and even the power of the automatic bodyguard was taken back by him.

Ye Xuan shook his head helplessly. It was really rare to encounter such a wonderful flower. After a wave, the old man disappeared. When he opened his eyes again, he appeared in the ancient space of the piano. .

Next, this old ban will be in the ancient space of the piano, for Ye Xuan to make a ban.

Of course, this ancient space of the piano, this is what Ye Xuan has acquired in a complete mystery. It can be said that it is a complete world. Therefore, this prohibition is actually not much different from him outside.

However, after all, Qingu Space has a large number of ancient resources, so it is quite gratifying to let the old ban.

Solving this ban on old things, Ye Xuan went to the city.

Of course, at this moment, Ye Xuan has already known who is going to start.

From the mouth of the old man, Ye Xuan already knows that the person who wants his life repeatedly is the helper of the Qinglong Gang!

At the same time, Ye Xuan also knows that the person who was killed by the hunting beast in the Qinglong gang is the son of the Qinglong gang, and the person he value most!

However, Ye Xuan still pretends to be nothing, and continues to return to the city, in fact, has his own plans.

In that city, after all, the city owner is the most powerful existence.

At this moment, Ye Xuan is still considered by the city owner, then, in the city, perhaps Ye Xuan is the safest.

After all, if he is outside, he is afraid that he will meet the Qinglong gang at any time.

Of course, since this Qinglong help the Lord wants Ye Xuan's life, then Ye Xuan will not mind cleaning up him.

This whole source of mystery is nothing more than a trial place for the guardians to use for selection. Then, Ye Xuan is the protagonist here. If he is stronger than the Qinglong gang, Ye Xuan does not have to fear anything.

Of course, if you want to completely defeat the Qinglong Gang, Ye Xuan also needs some calculations.

Three days later, Ye Xuan came to the auction house in the city.

Chapter 2575: Auction prohibition

In this city, there is only one auction house, which is opened by the city owner. However, although the Qinglong Gang did not open an auction house, it opened a treasure business, but the nature and auction site are similar. It can be said that the two businesses Basically comparable, and this treasure business is also the most important source of finance for Qinglong.

Prior to this, the biggest feature of the treasures business was the special prohibition.

These prohibitions are not available to the outside world, and they are quite powerful and practical.

No one has ever known where the Qinglong gang got these bans.

But Ye Xuan now knows everything, all because of the old age.

Nowadays, the old ban is in the hands of Ye Xuan. Then, Ye Xuan will naturally use these special prohibitions of the old-age refining system to clean up some treasures.

As for saying that the city owner is bigger?

Ye Xuan will not worry about anything at all. After all, Ye Xuan will leave here sooner or later.

Among the first layer, whoever is bigger does not have any relationship with Ye Xuan.

"Hello, do you need to buy a magic weapon?"

A waiter came to Ye Xuan's side and asked Ye Xuan.

Ye Xuan shook his head and said to the waiter: "I need to auction some items and take me to see your appraiser."

"Okay, please come here."

Some people buy things, so naturally someone sells things, so the waiter didn't think much, and went straight with Ye Xuan, and soon they went to a not-so-large loft. .

"Guest, you are invited, here is our appraisal office."

The auction of items generally requires the appraiser of the auction house to make an estimate in advance, and determine the value of the item. If the estimate does not conform to the seller's intention, it can be sold.

Of course, it is also to prevent the emergence of fake or defective treasures appearing in the auction house, which has broken the reputation of the auction house.

At this moment, several people are also identifying items in this auction.

After all, speaking, the business of this auction site is also good.

Ye Xuan went directly to a window and, like everyone else, took out the ban that he had prepared and handed it in directly.

"Do you want an auction ban?"

The old man looked at Ye Xuan quite puzzled. This old man is also an old qualification in the auction house. However, the auction bans such things, but there is almost no encounter. After all, the prohibition is generally the refining person himself. Control, no main ban is relatively small, but the use is not too big.

Everyone has their own field power, so in many cases, the power of this prohibition is not as good as the power of the field.

Of course, since Ye Xuan wants to shoot, then the old man will also go to the identification.

However, when the old man saw the banned Ye Xuan took out, he still stunned.

The auction ban, though small, has a place where almost every year there is a banned auction, and with these bans, that place has the strength to counter their auctions.

There, nature is the treasure business of Qinglong Gang!

All along, this treasure business has launched a ban every year at a fixed time, but it is not an auction, but directly placed the items, placed in the morning, the highest price in the afternoon directly.

It is by relying on these special prohibitions that the treasures of Qinglong Gang have gathered a lot of popularity, especially in the days when the ban is about to come out, and even attract almost everyone.

However, these prohibitions, the purchase of people naturally have their own use, so it is impossible to appear in the hands of selling people.

Of course, the auction house used to pay a lot of money for a few times, and then auctioned it on its own.

Unfortunately, although this can increase a little popularity, it is a heavy loss.

Over time, you can only let it be.

Unexpectedly, there is actually one person who is going to auction the ban at the auction house today.

It can be said that the old man's heart is still quite doubtful and surprised.

"You are banned, I can't identify it. Please wait a moment, I will inform our staff to identify you."

Although the appraisers didn't know what quality Ye Xing had for the auction ban, but just looked at it casually, he also knew that the ban was not simple, so he immediately called the owner.

This owner is the oldest and most powerful appraiser in the auction house. It is said that he has been in this appraisal for 100,000 years!

The things I have seen are naturally much more than many people.

However, when the owner saw Ye Xuan's ban, he could not help but frown.

It is not that Ye Xuan's ban is not strong enough, or that there are other problems, but he simply cannot see the value.

This feeling, he only has to see the ban on the sale of the Qinglong gang.

The ban on the sale of the Qinglong gang is also the signboard of the entire treasure business, and the value is never low.

At this moment, the owner of the appraisal cabinet carefully manipulated the prohibition in this hand, but his brow was very frowning.

Because of him, it is impossible to directly determine the value of this prohibition.

The ban is not something else. Once the ban is imposed, there is no way to recover it. The ban is itself a consumable. Therefore, it can be said that no one can really identify the ban.

"You can't give a price for you, let's talk about the price in your mind."

The appraisal of the owner asked Ye Xuan.

In fact, this is the result that Ye Xuan thought at the beginning. In Ye Xuan's heart, it is also very clear. It is difficult to measure the price. After all, he is only a one-time consumable.

Not enough, Ye Xuan's heart has already had a plan. In fact, this time the auction was banned, Ye Xuan's fundamental purpose was not to be able to photograph how many Yuan Jingjing, Ye Xuan wanted, but only defeated the Qinglong Gang.

"The price is good, it is good to start a hundred gods. I will also help me to inform you that every month I will auction a ban, and next time, a thousand sources of stone will start."

Ye Xuan said faintly, the reason why Ye Xuan dared to scream the price so surely, because he had long known that the prohibition of the old refining system, in the treasure business of Qinglong Gang, the lowest can also sell thousands of sources of Shenjing And even the high ten thousand tens of thousands of sources of God crystal!

The prohibition of the first auction, perhaps because of the reputation, so that Ye Xuan is not good enough to shout out too high prices, but Ye Xuan believes that as long as the first prohibition is used, then naturally his prohibition can also sell high prices .

Of course, the original purpose of the Ye Xuan auction ban was to grab the business of Qinglong Bangbao business, so the price was placed in the second place in Ye Xuan's mind.

Chapter 2576: Fame

That appraisal of the cabinet chief looked at Ye Xuan, although he said that he could not identify how the ban was used, but it can be seen that the ban is not simple.

Today, Ye Xuan directly used a hundred sources of Shenshi as the reserve price, which really made him invisible.

However, since Ye Xuan said so, then it is arranged.

The next day, as Ye Xuan expected, his ban did not send any good prices, and did not even cause the slightest movement.

However, it was bought by a hundred and one source of the **** stone.

Ye Xuan did not care about this.

But just on the fifth day, many people found the auction house and asked if there was any ban on auction.

It can be said that the person in charge of the auction house did not even figure out what was going on.

Because the banned price of Ye Xuan auction was very low, it did not attract the attention of the auction. In just a few days, hundreds of people asked about it. It is very difficult to pay attention to this auction.

It turned out that the purchase of Ye Xuan's banned guy was originally for a showdown, a life-and-death confrontation. It can be said that he did not have much confidence to win.

This was a battle that was almost doomed. At the time, many of his friends and companions had given up hope.

But because this time's duel is a good thing for the two people to agree on, this time the life and death duel can be said to have been doomed to solve.

The man has exhausted all his strength, but he still lost and lost very badly.

But at the last minute, he sacrificed the banned photograph...

After the ban, the power shocked everyone, and the subsequent battle was almost no suspense. This man let go of his opponent's life, because after all, his opponent was ready to let him go.

Of course, what draws people's attention is not the confrontation itself, but the mysterious prohibition that changes the outcome of this confrontation.

Under the inquiry, I realized that this was a ban on auctions. Moreover, I only spent a hundred and one source of Shenjing. When this news came out, it naturally attracted the attention of countless people, especially when I saw it myself. The people who fought did not hesitate to go to the auction floor.

Ye Xuan's ban, but because of a life and death showdown, became famous.

The auction house did not expect such a result. They wanted to find Ye Xuan. I hope that Ye Xuan can auction several bans. After all, Ye Xuan said that he will come to the auction next month.

However, they could not find Ye Xuan at all.

For a month, the heads of the auction house were anxious and worried every day. They worried that Ye Xuan would not come again.

After all, the ban on Ye Xuan's hands is obviously inferior to the treasures of the Qinglong gang. So, Ye Xuan does not have to auction at their auction site.

At the moment, the owner of the appraisal cabinet that was originally responsible for receiving Ye Xuan was simply regretful. After all, when he was against Ye Xuan, he could be said to be cold or not. If he was given a chance, then he would definitely Xuan is very respectful.

Unfortunately, he can only wait.

Fortunately, Ye Xuan still came over. It was completely different from the last one. This time, Ye Xuan just entered the auction floor, and immediately the waiter greeted him. He respectfully took Ye Xuan toward the auction site. Even the identification is exempt.

This is the trust of Ye Xuan, of course, this is also because Ye Xuan has the qualification to make them so respectful.

Forbidden teachers, this is not to look at the realm, and a forbidden teacher with a strong strength can be said to be inevitable.

However, Ye Xuan did not want to have contact with them, but left the ban directly.

.....

So for three consecutive months, three bans were auctioned out, and Ye Xuan brought more than 10,000 sources of Shenjing, but more importantly, the impact on the auction house and treasures.

It can be said that the business of the auction site during this period can be considered as unprecedented. Even many people, even if they don't buy anything, will stay in the auction house waiting for the auction.

And treasure shops can be a bit miserable.

The signboard of the treasure business is an annual ban auction.

Nowadays, the auction house will shoot a ban every month, and the effect is not inferior to their treasures. Therefore, in a short time, many old customers of the original treasures have already ran to the auction house.

Qinglong helped the lord to be extremely angry, and he was very clear about who did it all.

Let's not say that the old man was left by Ye Xuan, saying that Ye Xuan went to the auction site every time, and there was no hidden truth in his face.

Therefore, it is difficult for Qinglong to help the Lord even if he does not know.

However, even if he knows, what can he do?

He can know that the same city owner can also know.

The city owner has been very happy at this moment. His auction site has been pressed by the treasures and has always made him quite uncomfortable. Unexpectedly, Ye Xuan has made a new pattern today and directly pressed the treasure business.

The city owner will not control the bans that Ye Xuan got from somewhere, because in the heart of the city, Ye Xuan will be accepted by him sooner or later.

.....

However, can Qinglong help the Lord really hold back?

Don't look at it now, he doesn't have any action, but in fact, he is ready to do it himself.

.....

For three consecutive months, Ye Xuan has accumulated tens of thousands of sources of Shenjing, and it is time to upgrade the realm.

On this day, Ye Xuan took all the resources he had accumulated and the source of Shenjing, and then immediately started the engulfment.

In the blink of an eye, countless resources turned into experience in Ye Xuan's body, at the same time, the long-lost system prompts again.

"Hey, the system prompts, the host breaks through, and the current three products are on the gods."

Ye Xuan's brows are slightly wrinkled. The speed of this realm seems to be getting more and more difficult. That is more than 10,000 of the origins of Shenjing. Even if these qualities are different, they are also the source of Shenjing, but they don't want to. It just broke through two levels.

However, Ye Xuan will not have any disappointment at all, because Ye Xuan clearly knows that this is only a three-month accumulation.

It is an extremely terrifying upgrade speed to raise two realms in three months.

Then, Ye Xuan has nothing to satisfy.

Just when Ye Xuan thought, suddenly, the voice of the old housekeeper came from outside the door:
"Master, there are guests asking for help outside the door, I don't know how to deal with it."

For this old housekeeper, Ye Xuan did not have much thought. After all, the old butler's position and the order of the city owner could not be violated. Therefore, in many cases, Ye Xuan's eyes were closed and he was allowed to close his eyes. Report your own affairs to the city owner.

At this moment, I heard that someone asked to see myself, and Ye Xuan had some doubts.

Ye Xuan seems to have no friends at all in the first layer, and people who know him are very limited. So, who is asking for seeing yourself?

Ye Xuan thought about it, but he also quickly walked outside.

Chapter 2577: Dielianxuan

"you are?"

Ye Xuan looked at the people outside the door and asked in confusion.

"Is you a Ye Xuan son?"

"Yes, I am!"

"Ye Xuan Gongzi, my host invites you to go to Dielianxuan. This is the worship of my master. The owner said that the son will not go anywhere, but the owner will wait for the son in Dielianxuan tomorrow."

After that, the man did not hesitate to go straight outside.

Dielianxuan? Where is this, and who is the one who posts this post to himself? Who is it?

Ye Xuan's heart is quite doubtful. This sudden arrival post can be said to let Ye Xuan know what is going on.

Ye Xuan turned and saw that the old butler looked at his own post and turned out to be shocked.

Does he know this butterfly love Xuan?

"Do you know Dielianxuan?"

Ye Xuan asked the old butler.

噗通!

What Ye Xuan did not think was that the old butler had collapsed directly to the ground, and half a word did not dare to say.

Ye Xuan is very different, but the old housekeeper does not want to say that he is too lazy to continue to ask.

As long as there is such a place, then Ye Xuan still does not believe that he can not find out.

Ye Xuan walked outside the door and was ready to send the ban on the auction this month to the auction house.

Soon, Ye Xuan came to the auction floor and took out the ban. At the same time, Ye Xuan also asked:
"The owner can know Dielianxuan?"

Hey!

The same reaction, the owner of the auction appraisal pavilion, even fell to the ground immediately, and was scared to say half a word!

This time, Ye Xuan's heart was a bit stunned. Then, there is something special about Die Lianxuan, why these people will react like this.

Ye Xuan's brows are wrinkled, but his heart is quite angry. He still doesn't believe it. No one can tell him where is Butterfly Love Xuan!

Ye Xuan went to the appraisal hall of the auction house and directly took out a ban. Then he asked:
"Who can answer a question, then who is responsible for this ban."

This is not only the people who are also preparing to auction things, but even those appraisers are very intent.

"Dare to ask what the son wants, as long as I know, I know everything!"

Because Ye Xuan did not hide his identity at all, in fact, many people know that these prohibitions are auctioned.

Therefore, there is no doubt at all about what he has come up with.

"Well, the question I asked is very simple, but it is a place name. Who can tell me, where is Dielianxuan, where is it, then, who is this prohibition!"

噗通, 噗通...

Except for Ye Xuan, everyone fell to the ground in an instant, and no one dared to make a little noise!

This is how it happened, Ye Xuan this time, my heart is still not calm.

What is going on here, why do these people have such a big reaction?

Die Ai Xuan, what kind of place is it, why, these people just hear the name, it is so stunned.

However, just as Ye Xuan was about to speak again, a figure appeared in the auction house.

It is the silent appearance.

Ye Xuan looked, but it was the kid who sent the post.

"I am very sorry, Ye Xuan Gongzi, is a small dereliction of duty, forget to tell Die Lianxuan, let the kid take you in the past!"

The tone of the person's speech is still not sad, but it is obvious that Ye Xuan can see his fear.

Obviously, his dereliction of duty is enough to kill his life, even if he just didn't tell Ye Xuan Die Xing Xuan how to pass.

Ye Xuan has already been very curious about Die Die Xuan at this time. After all, just one name can scare these people into such a look. It can be imagined that Dielianxuan is not simple.

You must know that even if you hear the name of the city owner, these people do not react much at all. That is to say, those who live in Die Lianxuan are more afraid of them than the city owners.

"Well, you lead the way ahead."

Ye Xuan nodded and followed the man and walked toward the front.

After not long, Ye Xuan walked into a serial transmission array, and Ye Xuan could feel that he had experienced several transmissions.

The serial transmission array, a special transmission array method, is transmitted according to a certain law. At the same time, there are several or even dozens of transmission arrays.

Even if it is any transmission error, it will not reach the final destination.

This butterfly love Xuan, it is hidden enough.

However, when Ye Xuan really got to the place, it was a bit strange.

Because of this so-called Dielianxuan, the surface looks like it is not the slightest special.

In the center of a lake, this loft is built. There is nothing special about this loft except for the constant flying of butterflies!

This is Dielianxuan?

The butterfly love Xuan that makes countless people fearful?

Ye Xuan is going to have a look, this butterfly love Xuan, what is special.

A small boat crossed, and the girl above waited respectfully for Ye Xuan to board the boat, and then continued to row.

It can be said that such a small distance, Ye Xuan is afraid to step over in the past, but since the owner here has such an arrangement, then Ye Xuan is not good to refuse.

Soon, the boat went to the attic in the center of the lake. From the outside, the island was small and the attic was not big. But when Ye Xuan really stepped on, I realized that it was originally an overlapping space. In fact, the interior is Quite a huge, a pair of white girls walking around, or taking care of flowers, or taking care of those butterflies, make it quite quiet and easygoing.

No one came to lead Ye Xuan, as if, when he arrived here, no one would pay attention to Ye Xuan.

However, Ye Xuan is still moving towards the front very quickly.

A long staircase made entirely of a rare jade, constructed by numerous special resources, this is the main hall of Dielianxuan!

Here, there is a faint floral fragrance filled with a quiet and peaceful atmosphere.

When Ye Xuan walked into the hall, he found that there was a woman in the middle of the hall, a woman with beautiful looks.

"Brother, you are here."

Brother?

Ye Xuan is very different. It seems that he does not have any sisters at all. Why is the owner of this butterfly love, to call himself a brother?

"who are you?"

Ye Xuan looked up and asked directly to the woman.

"Sister and sister call the butterfly love, the brothers please sit down, dare to ask the brother, who is the disciple of the Supreme?"

That butterfly has a faint smile on the face, but it is just an involuntary exudency, which has already made Ye Xuan quite awkward.

The strength of this guy is absolutely powerful!

However, for this brother's name, Ye Xuan did not understand the meaning, so there was no answer at all.

I know, that Butterfly Love saw Ye Xuan not answering, and did not have the slightest anger, but said without hesitation: "Since the brothers are not willing to say, the sisters are not allowed to ask more, but they do not know why the brothers come. Participate in the trial and go to the second world?"

"Second world? What is this?"

Ye Xuan asked confusedly.

That butterfly loves a slight glimpse, and then said: "When the brothers come to the trial, is your master respect, did not tell you, is the source of the mystery divided into the main and the secondary? The nature of our trial is the main And where the brothers are now, it is the second world!"

The main world? Second world?

In a flash, Ye Xuan understood the identity of this butterfly love, this woman, turned out to be a guardian to try his disciples!

However, this woman is a real tester, and Ye Xuan is not only half of the trials.

It is no wonder that those people have heard that this butterfly love Xuan would be so fearful, because this girl can be said to be the true master of this source secret.

The entire source of the secret is actually serving the trials of them.

Chapter 2578: First encounter guardian

Because Ye Xuan has been in the secondary world, it is more clear that this guardian is really powerful, but it is only twelve people, but even the whole source of the secret is the place where they used to cultivate disciples. This is enough to prove the strength of these people.

Of course, from this side, it is also how powerful these enemies, the orderers, and the mysterious masters of these guardians should be.

At the moment, the butterfly love saw Ye Xuan did not speak, but thought that Ye Xuan was thinking about other things, and all went on to say: "Since the brothers are also trials, then there is no need to stay in the secondary world. Dissipating the heart is OK, but staying there for a long time is just a waste of time. After all, the time for our trials is limited. If the trials are not completed within the prescribed time, then we can only be eliminated."

After hearing the words of Die Love, Ye Xuan was able to react and nodded slightly, but did not know what to say.

However, at this time, the system prompts have already sounded.

"Hey, the system prompts, the host finds the ultimate mission of the gods, the seal dominates! The mission requires that the host must become the true guardian within the millennium, then seal the master of God, the mission fails, kill the host!"

Suddenly, the reminder, let Ye Xuan be shocked again, the task of killing the level!

This is the task of killing the level!

The person who erases the level is the task that Ye Xuan must do all he can to complete!

Because of this level of mission, there is simply no room for Ye Xuan to choose. The result of failure is only one way, and that is death!

Indifferent, Ye Xuan is the most shocking is not this kill level!

But the ultimate mission!

Why is this mission called the ultimate mission of the gods? It is difficult to be the master of the gods.

All this, coming too suddenly, all this, so that Ye Xuan even has some reactions, but at any time, no matter what kind of task, Ye Xuan is also a little prepared, but this time, Ye Xuan simply does not have the slightest ready.

This time the mission came too suddenly and it was too shocking!

Ye Xuan's brows are wrinkled, but they are already stunned.

Is it because Ye Xuan's strength has risen too fast, so this ultimate mission has been triggered?

Or is it because Ye Xuan accidentally broke into the source of the source, will this ultimate mission be triggered?

Ye Xuan had to think.

Because in this source of mystery, in fact, at the beginning of Ye Xuan, it has two identities to enter.

The first type is the title of the half-keeper guardian who obtained the inheritance of the gods.

The other is the 10,000-year trial qualification he received from the Temple of Life and the Temple of Darkness.

Obviously, although this is both trials, the level has a vast difference.

If Ye Xuan did not trigger the title of the Guardian Trial, and did not open up the trial of the main world, perhaps, Ye Xuan could conduct thousands of trials in that world and break the 999 layer. The source of the secret, and thus, will trigger this final mission!

However, perhaps it is because Ye Xuan has contacted the guardian in advance, or because Butterfly Love has found Ye Xuan.

Therefore, I directly skipped the life temple and the dark temple to give Ye Xuan a second-line trial, and directly entered the terror of the main world trial!

With Ye Xuan's current strength, he entered the main world and tried to enter the powerful guardian's trial. Ye Xuan did not know whether it was a blessing or a curse.

If you don't say anything else, you can say that the butterfly love in front of Ye Xuan is so powerful that it is hard to imagine.

This butterfly love, what kind of strength it has, Ye Xuan can not see clearly, but also unknown.

Because even if Ye Xuan uses the system to detect, it just gets a result, the target is specified, the realm is too high, and it can't be detected!

That is obvious, but the realm of Dielian Love has surpassed Ye Xuan too much, so that Ye Xuan can't explore it!

Although I don't know why Die Love called myself a brother, at the moment, Ye Xuan's troublesome things are too many to say, and it's not bad at all.

Ye Xuan sat down on the stone bench, but her heart was constantly thinking. Too many unknowns needed Ye Xuan to find the answer.

But the butterfly love, but it seems that I can't see the confusion of Ye Xuan.

It turns out that Dielian is indeed a guardian of the Guardian.

However, it didn't take long for him to become a Guardian Trial, so it didn't take long to come to this source.

And Ye Xuan was after seeing the guardian.

The Guardian is also confused by Ye Xuan's identity. From Ye Xuan's body, the Guardian can feel the long-time trial of the temper.

The breath allowed the guardian to be sure that Ye Xuan was a guardian to try his disciples, but he was a lost disciple.

Because of their particularity, the guardians are generally not many disciples, and each one is a very cherished talent. Therefore, at any time, the guardian is still quite caring for his own trial disciples.

But even then, there are occasional lost disciples.

The so-called lost disciple does not know what his mission is, nor how noble his identity is.

The guardian is faced with the sacred dominance, the horrible and powerful existence, the existence of the whole godhood.

Similarly, the Guardian also needs to face the order, as well as other such as the Alliance!

Especially the orderers, it can be said that the orderers are always looking for these disciples of the guardians.

The strength of the orderers is not powerful, so they try their best to kill every guardian to try the disciples. Even if they can't kill, they will let the disciples deviate from their own life.

In addition to the secret operation of the Lord of God, from time to time, there will be guardians who try to practise disciples halfway, or lost.

The situation of Ye Xuan coincides with the conditions of the lost disciple.

Ye Xuan's body has an ancient temperament, and the temperament of the Guardian's temper is not something that ordinary people can have. No matter how powerful you are, even if it is the master of God, then you may kill The testers of these guardians, however, can't simulate this special atmosphere at all. This is the special existence of the guardian's fusion with the secret method, which is not what other people can imagine.

After confirming the ancient guardian atmosphere of Ye Xuan, the guardian found the butterfly love.

And the next thing, it is logical.

It can be said that the root of everything is that Ye Xuan went to see the guardian, or that the root of everything is because Qinglong helped the host to hostile Ye Xuan.

If the non-Qinglong helper wants to use the guardian to smear Ye Xuan, then Ye Xuan will not see the guardian. Naturally, there will not be so many things in the future.

Chapter 2579: Horrible conjecture

In thinking about these problems, Ye Xuan has only one result. Since he has already triggered the ultimate task, then he will only go all out to implement it.

After all, this is the task of killing the level!

"Dare to ask the sister, how can we pass the trial?"

Ye Xuan looked up and asked directly to Die Love. Now, only Butterfly Love can solve his problems.

"The brothers didn't even know this? Well, then the sister would tell the brothers about our trials."

Die love looked at Ye Xuan, smiling slightly and began to tell.

With the story of Dielian, Ye Xuan finally figured out what the guardian's trial is all about.

The Guardian's trial can be said to be quite simple, but it is never simple.

The Guardian Trial is a process of repairing time and time.

Every 100 years, every trialer will have a random disaster.

This catastrophe is directly distributed in the source of the secret, and no power can be controlled at all.

The disaster will naturally be adjusted according to the repair of the target itself.

What exactly is the catastrophe? No one can be clear. Only when I have experienced it can I know.

This source of secret is originally provided for these trials, it can be said that this is also the case.

If you encounter the most direct lightning disaster, it is the luckiest thing. The gods and thunders are ruined. They only need to use their own cultivation to resist the baptism of the thunder and fire. Even if it is successful.

But in addition to the wreckage of the gods and thunderstorms, there are other ways of catastrophic, such as the exploration of unknown places, sub-world experience, border tasks, etc.!

These catastrophes are automatically generated by the original secrets, and there is no way to control them.

For example, the exploration of the unknown land, the name seems to sound like that, but in fact, it is a mysterious space that the original secret environment opened up by itself. Everything inside is randomly derived from the original secret.

Originally, such a place is completely closed. There is no way to contact with the outside world at all, but the trials are different. The original mystery will send these mysterious spaces to trials with a mysterious and unconventional rule. In front of the person.

Once you enter, it is the beginning of the trial! Can't beat it, it's only dead!

There are also sub-worlds that can be said to be extremely dangerous tasks.

The title of the Guardian Trialist, when it is usually high, it can be said that no one dares to provoke, and everyone in the sub-world can only admire.

However, if the tester enters the secondary world, it will become the presence of everyone in the second world.

The original source of the secret itself exists for trials, including the subordinates, but it is only a foil.

Therefore, once it is such a secondary power, then the disciple will not only be repaired as part of the seal, but will also be set a series of tests by the source of the source, and will continue to be challenged.

The source of the secret, as if it has its own thinking, is a mysterious place, a huge place, but it can always be derived from a series of changes according to needs, and these changes are extremely numerous, you can say, try The smelter triggers one, waiting for him is a chain trigger!

.....

Ye Xuan silently listened to all of this, but could not help but have an idea.

Can it be said that everything he has experienced is actually derived from the origin of the secret?

Perhaps since the moment when Ye Xuan entered the source of the source, the weak tester's breath on his body has been captured by the original secret, and then evolved according to the actual situation of Ye Xuan.

So Ye Xuan will come to Dielianxuan at this moment, will know so many things?

Ye Xuan didn't know if his guess was right. After all, Ye Xuan didn't even know what the speciality of the source secret was.

A mysterious environment, able to have the ability to test itself, how to see, how is it so incredible.

.....

Suddenly, Ye Xuan thought of a possibility!

A thing he didn't dare to think about, but it was very possible.

That is, this source of secrets, it is difficult to achieve, and Ye Xuan's engulfing space is the space of thought of a super strong?

Why is there a distinction between the secondary and the main world?

Ye Xuan's engulfing space, is there not a division of ordinary space and ancient space?

Why do the original secrets make corresponding changes to the trials?

In the engulfing of space, Ye Xuan can not control everything in his own way according to his own ideas. If you want to exercise a person who devours space, can you easily do it?

Is this really the case?

Ye Xuan didn't know, but he knew that this was possible, but it was not.

Because Ye Xuan has the space to swallow, devour space, and has countless creatures, Ye Xuan understands that his own guess is not impossible.

At the moment, Ye Xuan has a feeling of creepy feeling.

If this is true, then how strong is that person?

And it seems that Ye Xuan feels that he seems to be all the time, not being watched by a pair of eyes. Everything he does, even everything he is about to face, seems to be the master of those eyes, the script that has already been written.

And he Ye Xuan, whether he is willing or not, can only follow this script!

Perhaps the only thing that can be done is to defeat the script!

Of course, Ye Xuan is only guessing on his own. After all, what is going on, now Ye Xuan does not know.

Even if Ye Xuan now knows his identity, he still refused the invitation of Dielian, and did not stay in Dielianxuan, but continued to return to the second world.

For Ye Xuan, I hope that there will be a beginning and a end. In the second world, Ye Xuan still has some things to solve, so he has to go back, no matter how many times he assassinated him, or the city owner. Ye Xuan needs to deal with it.

Of course, the most important thing is that the three women who are falling down are in the second world. Even if Ye Xuan is going to the main world, at least he will bring three women.

However, this time with the dish love meeting, Ye Xuan's biggest gain, do not know the main and secondary, but also know that he is the identity of the trial.

The most important thing is that Ye Xuan knows the division of strength in the main world!

In the main world, it is also the supreme god, the supreme king, the supreme god, the supreme **** four realms!

However, unlike the secondary world, the division of the realm of the main world is not good!

In other words, for example, the highest god, only the difference between the upper, middle and lower!

In other words, the power of the main world is absolute suppression!

Even if it is a first-class gap, it is difficult to cross the gap. The main world is more direct than the secondary world.

Because in the main world, everyone has mastered the power of the source!

Chapter 2580: Unimaginable opportunity

In the first assessment of the trial, it is about the mastery of the source of power. Only the master of the power of at least one law can be called a true trial.

From that time on, the trial journey was only open.

At the moment, Ye Xuan, it can be said that there is no trial of the identity of the trial, and there is no strength of the trial.

As for the supreme god, there is only one realm, and at the same time, the only existence.

That is the ruler of God!

The rule of God, it should be a realm, but at this moment, it has already become synonymous with one person.

When it comes to the rule of God, what people think of is only to dominate one person, not to be a realm.

Because there is such a rule in the inexplicable law of law, that is, there will always be only one master of God in every world.

The ruler controls everything in this world. It can even be said that as long as he is willing, he can destroy the world at any time.

How powerful is the master, no one knows, is there really only twelve guardians?

Why are there so many people in order, but there are only twelve guardians?

The root cause is that because of the battle with the ruler, Ye Xuan heard a lot of rumors about the **** from the butterfly love. Of course, it is not 100% confirmed, but Ye Xuan feels very likely.

It is said that the original guardian is actually a huge and incomparable strength, but it is precisely because of the battle with the master again and again that it will fall to the present level.

The core idea of the Guardian is to guard the realm of the gods, and must not let the plan of destroying the gods succeed.

After returning from Die Lianxuan, Ye Xuan looked at the ninth-nine-nine-layered mysterious secret, but found that it seemed that there was no fear of how to look.

Here, it is only the place of trial of the guardian, but it is just a place for the trials of the trials like yourself.

Whatever he is, he is just a foil.

Then, why should you still have to be so constrained, and even do things to consider again and again!

Living in Yefu is also to prove your talent, so that the city owner can recognize the strength!

Ye Xuan is Ye Xuan. Who needs to prove it?

This time, Ye Xuan is not returning to Yefu, but walks directly to the outside.

Sure enough, when Ye Xuan walked out of the city, he immediately felt a few eye-catching eyes. It seems that now, these people who monitor Ye Xuan have become more and more bold, and they dare to monitor themselves at such a close distance.

Really can't find it? Or, is it really easy to be bullied by yourself?

Ye Xuan's mouth is slightly tilted, isn't he trying to monitor himself, then let's try it out first!

With a wave of it, a ray of light directly fell into the land at the foot of Ye Xuan.

In an instant, a strange force spread directly around Ye Xuan.

Don't you want to monitor me? Then let you eat some bitter and say it.

Ye Xuan thought in his heart, and at the same time, when the figure moved, he immediately rushed out to the front.

Sure enough, seeing Ye Xuan suddenly speed up, several people tracking Ye Xuan immediately accelerated to catch up.

However, when they came to that area, suddenly, the ground was like a boiling explosion!

The power that Ye Xuan just injected is not a ban, nor a tactic, but just a few symbols!

The role of the symbol is to explode!

When these people entered the range, Ye Xuan did not hesitate to detonate the Fu.

Perhaps it is true that it is not a big effect to detonate the symbol at the moment, because with the power of this symbol, how can these people be able to do so.

However, Ye Xuan did not intend to kill them at all. The power of the explosion was only a matter of time for Ye Xuan.

Sudden attacks have made those people naturally slightly wrong, and it will inevitably delay a little time. It is just a little bit of time, but it is enough to get Ye Xuan out of those people's tracking.

Originally, Ye Xuan was going to find them, but who knows, when they settled in their residence, but did not find anyone, helpless, Ye Xuan had to use the secret technique to ask.

However, I learned that the three women were found and found a mysterious place, ready to enter the exploration!

Ye Xuan suddenly tightened his heart and immediately stopped the three women, but he had already rushed to the past quickly. In front, Ye Xuan had already suspected that there would be a force to write his own script, and he was in this source of mystery. Everything was looked at by a pair of eyes.

At the moment, Ye Xuan seems to be more certain about this feeling.

The three women do not often go out and walk around, they will calculate and leave, and the scope of departure will not be too wide.

And there are basically no animals around here, so the mysterious land that suddenly appears is afraid of doubt.

Ye Xuan did not dare to stop, and the speed was extremely fast toward the three women. After all, Ye Xuan simply did not know, what kind of eyes, what do you want to do, and what you want to do with people around you!

However, for a moment, Ye Xuan has already arrived at the position of the three women.

However, what Ye Xuan never imagined was that at the moment, the three women did not walk away, but they had discovered the secret of the mysterious land.

Treasure chest!

Rows of rows, a treasure chest, afraid of tens of thousands!

With so many boxes, who is it here?

Why is it so long that no one has ever discovered it?

"Master, we accidentally saw a mysterious atmosphere in the ground a few days ago, so we have been paying attention to it here. Then, a few days early, there was a bang in the air, when we came here, It's constantly emitting brilliance..."

"Yeah, son, we did not move according to your instructions, but after the light dissipated, these boxes appeared. We don't know what these boxes are and what kind of use they have."

Falling and flying cigarettes say the first step.

Ye Xuan nodded, but his eyes were always looking at the boxes.

"System, detect these boxes, I have to look at what it is!"

With Ye Xuan's order, the system's prompts sounded.

You should know that the detection period is very weak during the system weakness period, but Ye Xuan has to be safe.

"Hey, the system prompts that the specified target is made of special materials and cannot be seen inside."

Can't see through?

Ye Xuan's brow slightly wrinkled, and then a wave, Shenmu sword waiter has appeared.

"Go, see what's inside?"

The sacred sword has been suspended in mid-air, and the law **** bow is also held in the hands of Ye Xuan. If there is something bad in the box, then Ye Xuan can only kill it.

Shenmu Swordsman quickly came to the side of the box and then opened a box directly.

The light came out between the moments, but the fall was exclaimed: "It is actually the source stone!"
