Chapter 259: capture

"Your master is really good for you, the only one of the Chinese products is for you, come on, let me see what you can do."

When the voice falls, the two figures are relatively rushed out.

At the moment, the sound of the collision of weapons is heard in the forest.

Lin Xueer is the land of Dan, and Ye Xuan is a small man of Dancheng. The strength of Danyuan is two levels. Although Ye Xuan has the blood of the Jiandi, it is difficult to take advantage.

If you want to win, there is a centralized approach.

The first is the war of attrition, and the other side is against the bomb, and then use the phagocytic points to exchange the medicinal herbs. However, this is a waste of time, too much movement, and in case it leads to a land of Dan, it is a tragedy.

Second, the use of physical fitness.

Third, it is the two moves of relying on the Eight Swords.

Ye Xuan thought about it, and finally decided to use the physique to play an advantage.

At the beginning of the battle, the two men made a special skill.

"Stars and swords, stars fall!"

"Stars and swords, stars fall!"

Ye Xuan did not know when he took out a sword again. It was the middle piece that he got from the Xihang Hangkun ring.

He put his hands together and hundreds of stars instantly blasted.

Lin Xueer is not a vegetarian, single-handed sword waving, countless swords, not only shot down these stars, but also took the opportunity to counterattack Ye Xuan.

Ye Xuan's physical strength is strong, and the speed of the shot is very fast, which directly compensates for the gap in the realm.

"Boom!" "Boom!" "Boom!"

A loud bang was spread, and the two were constantly banging. Fortunately, Ye Xuan had the blood of the Jiandi, otherwise he must be in a weak position.

"He is also using martial arts at the prefecture level. Why can he be tied with me?"

After three rounds, Lin Xueer was also very surprised. She could see the extraordinary weapon of Ye Xuan's hand. However, Ye Xuan was two levels lower than him.

Before she did not dare to use the Chinese-level martial arts, she was afraid to kill Ye Xuan, but now it seems that her worry is superfluous.

Ye Xuan is actually the same. Lin's ancestors are, after all, the sisters of Ye's ancestors. The two actually have a little blood relationship, and he does not want to accidentally kill Lin Xueer.

The two men thought of one point at the same time, but this is before, and then, it is really playing.

"in

Grade-level martial arts, waterfalls and frost! ”

Lin Xueer suddenly leaped high, and his right hand waved, Dan Yuan was divided into hundreds, and countless ice cones thorned toward Ye Xuan.

This move is a bit similar to Ye Xuan's arrow rain, but the power is a hundred times stronger than the arrow rain.

Lin Xueer's heart is also a bit embarrassing. This attack has a large range of attacks, and it is difficult for most people to avoid it.

However, after she saw Ye Xuan's ability, she also felt that she was too small to see Ye Xuan.

At this time, Ye Xuan had already condensed a sword that was ten meters long. With a wave of it, he blocked the ice cones.

"Lin's head, then I will let you see, my power!"

Ye Xuan said coldly, and there were three muffled sounds in his body.

"Explosive, three full explosions!"

Explosive martial arts, as long as one does not explode four, there will not be much sequelae.

At that time, the Dan Yuan in Ye Xuan's body was soaring. He suddenly slammed into Lin Xueer with a big sword. If the latter could not dodge, it would have to be split into two paragraphs.

"Hey!"

Lin Xueer's waist in the air turned, and his feet stepped on the sky. The whole person was quickly landing, just to escape this attack.

However, when her feet fell on the ground, she suddenly found out that Ye Xuan's sword had once again collapsed, and the speed was almost twice as fast.

"not good!"

Lin Xueer's face changed.

It's only a glimpse of Ye Xuan's release, but this time, Ye Xuan is still the same.

"Hey!"

The big sword was directly cut down by Lin Xueer, which surprised Lin Xueer, but after she felt the sword that was trembled, she immediately jumped to the side.

However, after all, it is a slow step.

"The eight wild earthquakes, the sound of the sound!"

"boom!"

The big sword was broken, and Dan Yuan spread instantly. The impact force directly hit Lin Xueer and flew it out.

But the impact is only pediatrics, the key is the sound that rang through the sky.

Lin Xueer did not know this kind of martial arts. Naturally, Dan Yuan would not be condensed in both ears. This loud bang suddenly poured into her head and shook her consciousness.

"Oh, no way, you can only use this to push the bottom of the box."

Ye Xuan shook his head helplessly, swiftly swept over and caught Lin Xueer.

If it is not a very moment, he does not use this trick. One is too expensive, and the other is too much.

This is two points, and there is a third point, that is, after using it, others will have defenses in the future. If the Danyuan is used to protect both ears in advance, the effect will be greatly reduced.

But there is no way, if you don't need this trick, can you use eight winds to kill?

Then, don't you twist this Lin Xueer into pieces?

Lin Xueer, who was almost fainted by the eight-day-shocking sword, was directly pressed by Ye Xuan on the ground. Then, Ye Xuan took out two ropes and tied Lin Xueer's hands and feet. tight.

"The primary bundle of sacred ropes can stop the circulation of the Dan dollar. You have no refining, see how you can get rid of it."

Ye Xuan said coldly, that is, Lin Xueer's Qiang Kun ring is closed, and then he picks up and quickly leaves.

As he ran and looked at it, he found that Lin Xueer had a lot of good things in the ring, and what surprised him was that the hundred pieces of land and one hundred six-yuan Dan were among them.

This is really God!

It's a pity that these things were refining by him and they couldn't be swallowed, otherwise they would make a big profit.

Half a minute later, Lin Xueer was completely awake, and she was always confused. She felt that she had been jolting. After she woke up, she discovered that she was held in her arms by Ye Xuan.

Immediately, there was a Danyuan spewing out, but the next moment she suddenly found out that Dan Yuan could not flow to the palm of his hand.

"What is this?" Lin Xueer asked subconsciously.

"Less nonsense, unless you can kill me with your head, or you can't escape. I am waiting, let me go back to Lingxiaofu and let you go back."

Ye Xuan is too lazy to talk to Lin Xueer nonsense. The most urgent task is to escape.

Lin Xueer was so angry that she tried to break the rope, but she could do nothing.

"Don't waste your energy, unless you have the same physical fitness as me, don't want to break away." Ye Xuan reminded.

"You can't escape, my master is nearby."

"Cut, find me and say."

Ye Xuan said coldly: "In addition, I have so many things for you, you are still ungrateful, and your Tianyuanzong people are a virtue. Then Wang Chuanshan is also, giving him 20% azure stone is not bad, even want to swallow Finally, it was killed by the green bird alone, that is, it should be deserved."
