Chapter 264: Middle product

"You are all in the land, call me what is this person Dan Xiaocheng's come over?" Ye Xuan rolled his eyes.

"Less nonsense, you can hold the Cher girl, prove that you have the strength of the land. This time into the green land, very dangerous, some things you still have to know." The elders said.

Ye Xuan stunned and said: "Isn't it a comprehensive search for green land? What else?"

"Honestly listen."

The elders of the elders boasted: "The green land is a forbidden place in Tianyuanzong. There are many mysterious beasts in the land of Dan, and the mysterious beasts in the earth are also there. The most important thing is that there is also a heaven in the sky. Overlord."

Hearing this, Ye Xuan's eyes are also bright.

In addition to swallowing the upgrade of Tianmudibao, he is able to swallow the body of the mysterious beast and the inner Dan, which is an upgraded treasure.

"What is the overlord of Tiandan, what?" Ye Xuan asked curiously.

This time, even if you can't find the lapis lazuli, if you can get the body of a mysterious beast, that's not bad.

At this time, Ye Xuan suddenly remembered a question, the inner Dan of the Heavenly Kingdom!

There are four great places in the world, if you kill the Heavenly Kingdom, then Neydan, who is it?

If you fight it, it must be that Ling Xiaofu suffers. After all, there are only four places in Lingxiao, and the number of disciples is much less than that of Tianyuan.

What Ye Xuan can't understand is that the look of the elders and the eyes of the head is very confident. Why?

"The overlord of Tiandan is a strange mysterious beast named Green Source Giant. It is tens of meters high. It is extremely strong and indestructible. Even if we are joined by four people, I am afraid that it will not break his defense. There is a strong person in Tiandan who died in his hands. So this time we scattered search, if you encounter it, then immediately retreat, do not anger him." The elders solemnly snarled.

"It turns out that it is impossible to beat it." Ye Xuan said in a heart, immediately nodded.

As long as you don't provoke this green giant, then the mysterious beasts of the land Dan are better solved.

"This time, the three of us are a group, and you will take the ruling and the ruling." The elders said.

"I know." Ye Xuan nodded again. In this case, the closest relative is around, naturally it is best.

The elders of the elders took a look at Mo Ziyun and Lin Xueer and said: "In addition, there have been some misunderstandings before, and you will return the things of the Cher girl."

Ye Xuan heard the words, and his heart was very helpless. He guessed it would be like this, so he had already poured things into a ring.

"Get it." Ye Xuan directly lost the past.

Lin Xueer took a look, everything was there, Mo Ziyun gave her the middle of the product, and immediately it was a cold cry, Chong Ye Xuan cast a look.

"You count!"

At the moment, she took out those pieces of the earth and then divided them. As early as this, Zhou Yan has already given points to those pieces that have been built.

Therefore, this time they are extremely strong, and almost all of these disciples and elders can challenge the high-level mysterious beasts.

At this time, Ye Xuan remembered one thing and said: "Before the elders, I have something to say to you privately."

Hearing this, Zhou Yan was also a glimpse, and immediately followed Ye Xuan to a side.

"Bad boy, what do you say?" Zhou Yan said strangely.

Ye Xuan did not speak, and immediately took out a Qiankun ring and said: "There are four medium-sized objects in the area. Do you want to be elders?"

"What, four Chinese products? Are you getting at Huoyang Dongfu?" The elders were shocked.

"No, I got some forged materials in it, so I created four out, too elders, a five million Chinese crystal spar, or not?" Ye Xuan whispered.

"Is it made by you?"

Zhou Yan doubled up and took a look at it. It turned out that there were four weapons. The name of the forged was Ye Xuan.

"Five million one, very cheap." Ye Xuan suddenly revealed a sinister smile.

However, these four Chinese products are directly replaced by the phagocytic system, and 50 billion swallowed points.

"Okay, I want it."

The elders of the elders directly agreed to take out two thousand brilliant spars.

Two hundred billion to swallow the points, for two thousand pieces of the best spar, this is definitely earned!

After all, if you swallow the two thousand best spar, you will get 200 billion engulfing points, and you can also improve.

"Right, I actually have a ring in the ring. Do you want to sell it to Tianyuanzong? I am afraid that after the other party took it, I want to kill the green giant. When you fight for the heavens The mysterious beast..."

Ye Xuan whispered.

"Nothing, although you sell, I am not afraid of Tianyuanzong now!" The elders are determined.

"Why?" Ye Xuan was a bit surprised.

"Don't tell you first, if the giant of the green source really appears, you will know." The elders deliberately sold a pass and said: "Right, the rest of the Chinese goods, a million. Sell it to them."

"I rub, \*\*\*\* is still old and spicy, my heart is black enough!"

.....

"Master, what did this kid say to you?"

When I saw the elders of the elders and Ye Xuan came back, Lin Biao, the head of Lingxiao House, asked strangely.

Zhou Yan replied: "Nothing, just gave me a few Chinese products."

Chinese product!

When the voice fell, the audience was shocked.

A Chinese product is already very precious, how many?

"Haha, don't be nervous, Hu Elder, even the elders, these two places are taken by you." Zhou Yan directly handed two Chinese products to the past, and then, gave Lin Biao a hand.

Mo Ziyun saw his eyes come out, and a Chinese product was not expensive for him, but there was no channel.

The forces in Zhongzhou hate the four major denominations, so it is very difficult to get a Chinese product.

However, Zhou Yan actually turned his head in the public, which is pulling hatred.

"Ink master, what's wrong with you?" Taishang elder Zhou Yan deliberately asked.

"The elders of the week, these Chinese products are the same, how come from?" Mo Ziyun said, his eyes also fell on Ye Xuan.

"Nature is Ye Xuan's creation." Zhou Yanyi opened his mouth and smiled. "There is no urgency in the ink sect. There are still a few middlewares in Ye Xuan's hands. It depends on Mozong."

When the words came out, the other people present were shocked.

I have cut the grass, Ye Xuan can actually create a Chinese product, how is this possible?

At this time, Lin Xueer suddenly remembered that before Ye Xuan said that there may be a Chinese product in the future to Tianyuanzong to sell, it turned out that this is not a joke.
