

## Super D. S 265

Chapter 265: Arrived in the green land

"I didn't expect this kid to be so enchanting. Why is Lingyun's luck so good, can he always receive such a disciple?" Mo Ziyun was very embarrassed. He suddenly remembered that there seems to be a waste called Ye Xuan and the elder elders lifting the bar. Lin Xueer gave a remarriage.

This waste is not Ye Xuan?

"We are the elders of Zhou, this is a medium-sized product, we really need it, but this price..." Mo Ziyun asked subconsciously.

"I remember, the girl of the Cher's girl, is the master of the ink, spent eight million Chinese crystal spar? Ye Xuan's medium-sized products, more sophisticated, also sell eight million Chinese crystal spar Ok," Zhou Yan smiled.

really!

Mo Ziyun's heart sinks, and it really means a big opening for the lion!

In Zhongzhou, a Chinese product is only five or six million, but it needs a little bit of relationship.

However, Moziyun took into account the current situation and asked the hard-headed scalp: "Well, how many?"

Zhou Yan turned to look at Ye Xuan, and immediately the latter smiled: "Exactly six!"

On the other side of Tianyuanzong, there were two places in the land, Dacheng, and two places, Dan Dingjing, and three first-time land. Lin Xueer, who first entered the land of Dandi, already has a Chinese product, so that the six Chinese products of Ye Xuan can be allocated.

"it is good!"

Moziyun nodded, and immediately got together with other people to make 4,800 pieces of the best spar.

If they have to count, they can buy these six Chinese products, which is lucky.

At the moment, Ye Xuan directly exchanged six Chinese products and spent 300 billion worth of swallowing points.

After the transaction was completed, Ye Xuan thanked him with a smile and then collected these things.

"You're a kid, take so many spar what you want to do, haven't you seen it spent?" Seeing Ye Xuan's appearance, the elders couldn't help but ask.

"I am a financial fan, too elder." Ye Xuan replied casually.

Now that he has earned the spar, it is enough to find a place to open a school, and certainly become the fifth hegemon.

However, he does not have this plan.

After the transaction was completed, he jumped directly back to the Song Dynasty and then swallowed all the spar.

A total of ten Chinese products, spent his fifty million devouring points, but the profit is there are 6,800 best spar.

After devouring it, the Dan Yuan in his body immediately grew a lot, and the engulfing score was 180 billion more than before. It was only over 200 billion yuan, and it was able to synthesize a swallowing crystal.

A swallowing crystal is enough to raise the blood of the advanced thunder leopard to the top.

However, each type of blood is unique, and the blood of the beasts and the blood of the leopard can only be chosen to be promoted to the top blood. It is a pity.

"Now I am coming to the peak of Xiaocheng, a small person. It is estimated that after this time, I will be able to break through to the people."

Ye Xuan secretly groaned, and exchanged two Chinese products to the Song Dynasty and Song ruling.

At this time, two more figures jumped over.

Ye Xuan fixed his eyes and looked at it. It turned out to be Yu Jin, the elder of Tian Yuanzong. After seeing this person, Ye Xuan also knew the purpose of his coming.

"Ye Xiao brother, this time I came, I want to apologize for what I said on the day." Yu Jin said a little red.

On the same day in Lianyun City, he did not put Ye Xuan in his eyes, because Ye Xuan was just a waste that was not the first heavy weapon.

"No problem, if there are no two of the predecessors of the Poly Ling Dan, there will be no Ye Xuan today, if it is said, the kid has to thank the predecessors." Ye Xuan said politely.

This is indeed true. There are no two lingering fingers. At this time, he is estimated to be in the middle of a small town or a small town, holding the last one thousand and living an ordinary life.

"Where is it..." Yu Jin was a little embarrassed. He thought that Ye Xuan just didn't want him to be embarrassed.

The two chatted two sentences, and Yu Jin also left.

After a while, the green light in front of it caused everyone's attention.

"That is the green land, good scent."

Song Chongjing felt a cold breath and subconsciously took Ye Xuan's arm.

"It's okay, there are very few birds and mysterious animals, as long as we fly high and look for it." Ye Xuan said comfortably.

Although he said this in his mouth, his heart is actually shaking, and the blood of his beast is boiling. It seems to remind him that this green land is very dangerous.

At this point, he already felt a strong pressure, which should have been radiated from the mysterious beast of the Tiandan.

He felt that it seemed to be able to judge the location of the green giant.

"Everyone in Lingxiao Prefecture listens to orders and rises another hundred meters!"

At this time, the elders of Lingxiao House sighed. Then, Tian Yuanzong's elder elder, Yi Tianlang, also ordered the same order.

Finally, those who are strong in the land are returning to their mounts and leaving with some people.

"Ye Xuan, Jiang Liu, you follow me."

The voice of the elders of the elders came over.

Ye Xuan and the nearby rivers looked at each other and followed them up. There are also three people on the side of the river. In addition to the river, there are two disciples of the land of the first place.

The elders of the elders took the two Ling Xiao Dapeng off the team and flew in the other direction.

This green land is actually not big, and it is similar to Lingxiao. However, this green land is green, green rocks, green soil, plus trees, a little irritating to everyone's eyes.

At this time, the elders in front of the road said: "You six, go with me."

After all, the three Lingxiao Dapeng are slowly falling. The place where they fall is a flat land. It does not seem dangerous.

But at this moment, Ye Xuan suddenly said: "Slow!"

"How?" The elders were a little surprised.

Ye Xuan has no nonsense, directly take out the bow of the earth, facing the green grass is a dragon arrow.

A high-temperature fire snake smashed out and directly bombarded it on the ground. What shocked everyone was that they thought the ground was not mud, but a big crocodile with green grass.

After the fire crocod in the big crocodile, the whole body caught fire and was quickly burned to death.

"It turned out to be a mysterious beast. The green land is really in a crisis. Everyone is careful. Ye Xuan, you continue." The elders of the elders also reminded me that they did not even think that he even looked away.

Ye Xuan sensed it and found that there were still ten big crocodiles like this on the grass.

Fortunately, he found it early, otherwise the three Lingxiao Dapeng will feed the crocodile.

More than a dozen fire dragon arrows went out, Ye Xuan killed all the crocodile lurking. At the same time, the elders of the elders shouted loudly to remind others.

Eleven of the lurking mysterious crocodiles were all shot by Ye Xuan, and then he jumped first.

These eleven crocodile crocodiles, all of them are first entered into the human world, Ye Xuan unknowingly swallowed the bodies of these mysterious beasts, and then Nedan remained.

A mysterious beast inside Dan Dan, who also squandered the score of 3 billion, has a small increase in Ye Xuan, so he is prepared to keep selling to the elders.

"This green land is really ambush on all sides. Ye Xuan seems to have a feeling of extraordinary people to these mysterious beasts. Then you will lead the way, as a experience." When the elders finished, they just followed. Behind the team.

"Experience?"

Ye Xuan sneered in his heart, his blood can sense the movement within the kilometer, which is completely hunting, not experience.

"Before the elders, I want to act alone." Ye Xuan suddenly turned around.

"You are a kid, are you too bad for other people?" The elders immediately yelled.
