

Super D. S 267

Chapter 267: Luyuan Giant appeared

"too terrifying....."

Ye Xuan felt powerless for the first time. This little green giant is probably at least the mysterious beast of Didan.

However, this is also a challenge for him.

"Eight desert sword, give me back!"

Ye Xuan's feet fell to the ground, and the eight wild swords were recruited back and directly condensed into a big sword.

"The eight wild earthquakes, I cut!"

The sword that was ten meters long was on the head of the green giant, and it was embedded.

The power of the eight-day-shocking sword, combined with the power of Ye Xuan, can only cause this damage. The defensive power of this little green giant is already strong and horrible.

However, as long as there is a little effect, Ye Xuan has the possibility of winning.

"I will cut again!"

Taking advantage of the opportunity of the green giant's feet being hit into the ground, Ye Xuan once again, the scars were deeper.

At this time, the little green giant climbed out from the ground and rushed toward Ye Xuan. Although the speed is very fast, but Ye Xuan has already expected, it is already a sword on its stomach.

The little green giant was still flying out. It just got up, and it was the brain of Ye Xuan.

"Although it is very hard and strong, it is stupid."

Ye Xuan shook his head. In this way, he kept slashing the head of the little giant.

After nearly ten consecutive cuts, Ye Xuan finally cut the big sword from his head to its chest.

At this point, the Eight-Day Earth Sword is also a bit unbearable and will soon collapse. Just right, the big sword is still in the other body.

Ye Xuan looked at this little giant and said in his heart: "Sound burst!"

Immediately, a Dan Yuan was introduced into the Eight-Dangerous Sword, which is like a *, the next moment, the whole energy sword is bursting open.

A very strong impact broke through and spread, and a loud bang rang through the sky, causing countless birds, beasts and humans.

"Boom!"

"What, what is this?"

"Isn't that the giant of the green source appear?"

"Fast, everyone is going back to Ling Xiao Dapeng."

This rumbling rumbling also scared other people to death, and they recruited Ling Dapeng.

However, Ye Xuan did not care so much. He looked at the little giant who had been smashed into two by the Eight Swords of Heaven. After a slight tilt of his mouth, he stepped forward and picked up a golden Nedan.

At the moment, Ye Xuan directly swallowed this Nedan. At that time, his breath was soaring a lot.

"What, this is the first time you enter the country? How is this possible?"

Ye Xuan is a bit stunned. Such a powerful beast is actually a first-time person, which is a waste of his expression.

This mysterious beast, Dandan, only raised his devour score of more than 310 billion. If you add a corpse, it will be about 400 billion.

"Pang 爹, if it is a good small land, then I can definitely break through!"

Ye Xuan shook his head helplessly and swallowed the body.

However, the trillion devours in his body were transformed into a phagocytic crystallization. Although some disappointment, the harvest was not bad.

At this time, suddenly there was a figure swiftly swept over, and Ye Xuan sensed it, which is a personal class.

Soon, the forest was out of a middle-aged man, Lin Biao's head Lin Biao.

"That is the movement, is your kid getting out?" Lin Biao couldn't help but ask after seeing the small green stones on the ground.

"Well, I met a green little stone man, who first entered the inner Dan of the Dan, but at least had the destructive power and defense power of the small land." Ye Xuan said the experience of Fang Cai.

Lin Biao is very surprised: "I also met one. This stone man is really difficult to entangle. I didn't expect that Dan Xiaocheng could solve it."

"Hey, are you complimenting me?" Ye Xuan said.

He felt that this Lin Biao had always been hostile to him.

Speaking of it, his father, Ye Chong, is also the younger brother of Lin Biao. It is just a matter of hooking away the heart of Lin Biao's daughter. Is it necessary to remember for more than ten years?

"Be careful with yourself." After Lin Biao finished, he left directly.

Ye Xuan lazy thinking, now he almost reached the peak of the humanity Xiaocheng, as long as one or two green giants, you should be able to break through. Even if you can't get it, kill a little.

But what is strange about him is that so many people rushed into the green land, it must have alarmed the source of the green source, why did you delay the movement?

It is at this time.

"Booming!"

A loud noise suddenly sounded in the sky, and then someone shouted: "Everyone is careful, the Luyuan giant has appeared!"

what?

Luyuan Giant?

Ye Xuan's heart trembled and hurriedly climbed onto a big tree and looked around. It turned out to be a huge stone man.

At this moment, Ye Xuan also understands that it is no wonder that no one has found this green giant, which was originally in a lake.

This Luyuan giant is bigger than the statue of Huoyang Dongfu. It is completely a large version of the green giant. Look at the height, at least 60 meters.

As soon as it appeared, those of the sky in the sky were flying directly to the height of three or four hundred meters, which was completely scared.

"Ye Xuan!"

At this time, the sky suddenly fell down a Ling Xiao Dapeng, is Zhou Yan and others.

Ye Xuan jumped up and then rose.

Before entering the green land, the two sects were already planned. If the giant of the green source appeared, immediately take the mount and take off, never irritate it.

"A good horrible figure, will it be comparable to a flying dragon?" Ling Xiao Dapeng, Song ruling could not help but ask.

His body shape is also two meters, which is very high among humans, but if compared with this giant giant, it is like a cockroach.

"Master, this green source giant, is the first entry into the heavens, or is it a small day?" Song cuts can not help but turn to ask Zhou Yan.

Zhou Yan thought for a moment and said: "I am not very clear. According to Mo Zongzhu, this Luyuan giant has existed for hundreds of years. I think it should be at least a small Tiancheng, Ye Xuan, what do you think?"

Ye Xuan looked at the green mountain in front of the 100-meter-high sky and shook his head: "No, it should be a great day!"

"Why do you think so?" Zhou Yan was shocked.

"Feeling, and, the Moyuan Lord said that the Luyuan giant seems to be emerald green, and this green source giant, the color seems too deep." Ye Xuan slowly.

However, his whole body blood has boiled up. This giant of the green source is infinitely close to the dragon that he saw in the Emperor of the Tang Dynasty.

"You mean..."

Zhou Yan is a big man.

"That lapis lazuli, I am afraid it was swallowed by it, look, green geek!" Ye Xuan hand pointed.

Everyone followed his hand and saw a petite figure plunging to the green giant.
