

Super D. S 2681

Chapter 2681: The second nine-level slave

"call out!"

It was confirmed that the spiritual strength of the black mosquito mother had already receded, and after not paying attention to it, the wretched mosquitoes were brought to the front, and Ye Xuan was not warned for a while. The latter took advantage of him and could not help but suddenly shot.

With a slight vacant sound that was almost invisible, a four-level slave was immersed in a certain part of the body of the wretched mosquito, and it was drilled in an instant.

"Smell..."

The wretched mosquito swarm was immediately stunned.

The reason why he is so careless is actually because the black mosquito mother has just explored Ye Xuan's body and determined that there is no such slave in his body.

Who can think of the supremacy of a black hole, and the exploration of a scorpion ant on a star's nuclear environment will actually leak out?

Besides, the black mosquito World of Warcraft did not lie to him at this point.

Therefore, the wretched mosquito swallow did not even think about Ye Xuan's ability to counterattack, so even if it was a trick.

At this moment, as this four-level slave enters his body, he controls his magic core almost instantaneously. After all, it is enough to deal with the wretched mosquito, using a third-level slave, but in order to be safe, At the same time, to avoid the time dragging too long, let the black mosquito mother be discovered, so, Ye Xuan directly used a four-level slave.

The effect is still very obvious. This guy is so angry that he only speaks two words from his mouth and he will be silent again.

Among the two shackles, the first thing was confusion. Then it gradually became clear, and it was about 30 seconds before and after. The wretched mosquito squid was like a personal change. Christine stood by Ye Xuan's side, without a word. It seems to be waiting for instructions.

This is what it looks like after normal control!

Ye Xuan's heart sighed with a sigh of relief, while carefully watching the fluctuations of the mental power around him, he screamed: "You don't have to be me as your master for the time being. How do you usually be, how are you still, this is presumably I don't need to teach you, this command works until my next command appears."

After Ye Xuangang finished, the wretched mosquito slaughter turned to the side and fell to sleep. It seems that this guy is usually hardened by the black mosquito mother, and most of them just fall back and sleep.

However, this is also good, Ye Xuan can calm down and try to condense the new nine-level slave print.

Before that, he had already condensed one hundred four-level slaves with two hundred third-level slaves.

Now, it is to use this hundred four-level slaves to condense.

Of course, one has already been used on the body of the wretched mosquito, and now there are only ninety-nine four-level slaves.

But it is enough.

Two four, merged into one five.

Two five levels, combined into one six.

And so on...

Converged into a nine-level slave print, only need thirty-two four-level slave prints. After the success, only the four-level slave prints, Ye Xuan can still have 67 left!

However, it is simple to say, but this process actually takes a certain amount of time. Fortunately, it takes several days for the black mosquito mother to consolidate the realm, but Ye Xuan condenses a nine with thirty-four four-level slaves. The level of slavery, obviously does not take so long, that is, it can be completed in about two days.

The whole process has progressed smoothly.

Two days later, Ye Xuan had another nine-level slave print in his hand. His original hanging heart was finally completely released.

At this time, the black mosquito mother still did not go out, it is estimated that it will take about two days.

At this time, in fact, if Ye Xuan let the wretched mosquitoes take him away, most of them will be able to escape from birth, but that is obviously impossible.

In order to be safe, Ye Xuan decided to condense a nine-level slave print, and the one that was previously condensed was quietly handed over to the wretched mosquito, and it was so confessed.

The reason is to get a double insurance.

Anyway, the guy who is dealing with Naiboshan will still need another nine-level slave. He is not doing nothing now.

The remaining sixty-seven four-level slaves were taken out by Ye Xuan, and the remaining ones had only thirty-five, and there were two hundred third-level slaves.

In the next two days, Ye Xuan succeeded in the integration of the third ninth-level slave. This one, he stayed on his own.

After doing all this, he suspended all the other slaves because it was enough. After all, the integration was a loss-making business.

So all the other slaves were all included in the immortal world.

Only one level 9 slave was left in the spiritual source core of the sea.

The next step is to wait.

While waiting, Ye Xuan was in a hurry.

Calculating the time, he has been in the magic nest for four days, and the eight days have passed halfway. If you don't pay any attention to it, I am afraid that the Nebo Mountain will find the following two layers of abnormality. At that time, I am afraid of Ye Xuan. The two thousand sorcerer squadrons that have been squandered will all be annihilated, and the guy in Naboshan will be wary of it.

Even if the black mosquito mother appeared now and was downgraded, the next time was very urgent.

After all, I have to solve a large number of demonic elites on the third floor. Even if there are black mosquitoes after the fall, the demonic elites in the computer room area are very alert. Once they are shot, any one of them can be immediately Warning.

Therefore, this link actually takes time to find a way to deal with it. So, it is only four days, it is really urgent.

What's more, now this black mosquito has never appeared in Warcraft. If it is dragged for another two days, then it will really be a big mess.

With this kind of thinking, Ye Xuan's urgency almost almost wants to let the wretched mosquitoes go to the retreat of the black mosquito mother to remind me.

But that is obviously impossible. If this is the case, I am afraid that the other party will immediately become suspicious. At that time, it is really all over.

These thoughts flashed through my mind, and Ye Xuan was in a hurry, but there was no one-point solution. He could only wait patiently and wait patiently.

Fortunately, this black mosquito mother did not let him be too disappointed.

Although time was consumed by it for a long time, this guy came out of the retreat, but only half a day, for Ye Xuan, basically acceptable.

At this moment, with the clearance of the black mosquito mother, in Ye Xuan, what time is urgent and almost the first time is thrown behind the head.

At the moment, the most important thing is to take the black mosquito mother and beggars, and if it can't do it, everything else will be followed, and there will be no meaning!

"How? Did he agree?"

Just as Ye Xuan's heart was tightening, the black mosquito mother had slowly walked over to this side.

Compared with a few days ago, the breath that the other party has dispersed is obviously more solid. Obviously, the realm that it has just broken through has been completely stabilized. Ye Xuan's heart is secluded, because it also represents more difficult. Up...

Chapter 2682: Return to the third floor

When I heard the black mosquito mother and the beast asked, the wretched mosquito swallowed his face immediately, standing on the side and whispering, this expression knew what it meant.

"waste!"

The face of the black mosquito mother immediately sank, and turned to the wretched mosquito, and then the line of sight returned to Ye Xuan.

Obviously, it does not see any abnormalities in the wretched mosquitoes. In this respect, according to Ye Xuan's order, all the performances are as usual, even if they are different, but they are extremely weak.

On the other hand, the attention of the black mosquito mother was all placed on Ye Xuan at the moment. Before the retreat, it was said that it would play with San Xuan and the wretched mosquitoes. Then I went to clean up the small head of the black mosquito space fortress, Mount Nebo.

With this black mosquito mother*, this thing is only afraid that it is even on the way to retreat. I don't know how many times I remembered it. At the moment, the most memorable thing is the matter. Where is the mind to pay attention to wretchedness? What are the details of the mosquito killer?

On the other hand, the latter only shook his face, there is no excessive discourse at all, which avoids the loss of words.

In a word, at least for the moment, the wretched mosquitoes have successfully fooled this genus.

At the moment, what Ye Xuan needs to do is to cover him.

Yes, from the beginning to the end, Ye Xuan never thought of himself as the main force, successfully accommodating this black mosquito mother.

After all, the other party is the supreme existence of the black hole. Even if Ye Xuan's body has been inspected, it is certain that there is nothing in his body, but... Ye Xuan's performance before it has many unusualities, whether it is perfect shock or a ninth slave. India should not be a star nuclear ant should have.

From this point of view, even if he has any means of deceiving the existence of a black hole, it is not completely unacceptable.

At this point, Ye Xuan can think of how this black hole mother animal can not think of it?

That is to say, the other party is very embarrassed on the surface, but in fact may always be wary of himself.

In this case, if Ye Xuan pinned all his hopes on himself, then it was really looking for death.

At this moment, seeing this female mosquito has come over to herself in a bad mood. Looking at this posture, it is not necessary to kill himself. It is definitely a forced means to give myself oox.

At the glimpse of his heart, Ye Xuan slammed his teeth in a secret way. Tens of spirits and wind blades spurred toward each other. Obviously, among the dozens of spiritual wind blades, one is naturally Wrapped in a nine-level slave.

But on the surface, Ye Xuan still pretends to be a dead-end, rather unyielding... Even if he knows that the other party can see through it at a glance, this dress is actually a part of his plan.

It is all that is done deliberately along the other side's guess.

"Hey, it's all pretty, it's like a death, and it's like being forced to die. It's like being forced to rush. I know that this low-level spirit wind blade is useless to me, but I also swear to resist the general..."

Sure enough, when I saw Ye Xuan's shot, the female mosquito even sneered, her face was full of contempt, and ridiculed: "Just with such a star-shaped ants, and the black hole of the old man's hall There is such a mind to play, and I really don't know how to live and die... Let me guess, what kind of spiritual imprint is yours wrapped in a spiritual wind?"

"Is this way?"

"No? That's the way?"

"Oh? Not it, if that is the case, it must be this..."

.....

As the words of the black mosquito mother and the animal came out, its right hand was also pointed out from time to time. Every time it was light, there was a spiritual wind blade that collapsed halfway.

However, after several trials, the results were not found.

"The old lady doesn't believe it, will you not play tricks?"

"Oh, it must be this must be..."

With a cold scream, the black mosquito mother raised her hand again. This time, a spiritual wind blade that fell slightly behind it was scattered by it. Then, a purple-black spiritual mark was revealed, and there was no package. The outer spirit of the wind blade broke apart and spread.

After all, it is a nine-level slave print, but it is not so easy to collapse.

"Giggle..."

"Sure enough, it seems that everything is as **** as I guessed. You have a big secret in your kid's body. Even my investigations have been deceived!"

This time, I finally found the evidence of the crime and confirmed my guess. The mother mosquito immediately smiled and looked like a smug look.

It was also at this moment that the wretched mosquito stalker, who was originally standing behind him, was only a meter away from his body shape, but suddenly raised his hand and slammed his palm in the back vest.

With his cultivation of only the satellite, it is naturally impossible to injure a black hole.

However, with the palm of the wretched mosquito, the nine-level slave printed by Ye Xuan in his hands was immersed in the body of the black mosquito mother in an instant, and the brain was first turned to his brain. The magic core in the middle of it.

"you....."

The shape of the black mosquito mother and the beast was shocking, and the eyes blinked in an instant. The face was an unbelievable look, and a word was spoken in the mouth, which seemed to turn to sweep the wandering mosquito.

But after all, it does not have this opportunity.

Just as his body shape turned to half, there was a thick and confused color in his eyes.

Obviously, the ninth-level slave has invaded its magical nucleus, and it is rapidly eroding and controlling its consciousness.

In an instant, the black mosquito mother stood there, and the whole person was like a robot that had run out of electricity, and there was no movement.

"call!"

"Finally succeeded!"

"I will be able to return to the third floor right away. In time, I can barely get it!"

Seeing this scene, Ye Xuan hangs in the heart of the blind man's eyes and completely falls back to the chest.

While fortunately muttering to his mouth, he raised his hand and took the nine-level slave that was raised by his hand and wrapped in a spiritual wind blade.

After some inspection, it was confirmed that this nine-level slave was not damaged, and the structure was still as stable as before. Ye Xuan grinned and turned to the wandering mosquito that was hand-picked: "Although I really hate you, but looking at this time you have made great contributions, you will not destroy your humanity for the time being, and will perform well in the future. Maybe one day in the future, let you be the black mosquito space fort. Captain, it is not completely impossible!"

After that, Ye Xuan waited for him. He knew that the black mosquito mother was completely controlled, and it took at least a few minutes to complete.

At this moment, what Lianxuan did not find was that the wretched mosquitoes and sorrows of the hand-knitted hands were deep in the light, and there was a glimpse of a glimmer of light. In the meantime, there seemed to be a hint of confusion...

Chapter 2683: Plunder

Time passed slowly, and unconsciously, nearly ten minutes passed!

In the process, the black mosquito mother has been quietly standing there, and the hustle and bustle is in a fascinating color. The whole person is as if the soul has been too sorrowful, and there is no such thing as its consciousness. The feeling of this world.

This is a normal phenomenon, Ye Xuan has long been familiar with, so my heart has been very practical, not embarrassed.

In the same way, the wretched mosquitoes have always stood up and stood by, and Ye Xuan did not speak. He would not have active words. This is the same as normal and magic slaves.

Before this guy should also want to install, but did not pretend, but the more the more installed, the more finally, the final cause of Ye Xuan's suspicion, now think about it, really awkward!

As for Ye Xuan, he has been waiting quietly on the side. He knows that there should be no more accidents this time, so he is not worried.

"Master! Black mosquitoes are polite!"

Just as Ye Xuan took this opportunity to think about how to expand after the third floor, how should everything be unfolded, and behind him, finally came a petite but with a hint of fear.

The sound is clearly the black mosquito mother, but the feeling is completely different.

If the former black mosquito mother is completely a sultry female slut, now its voice gives people the feeling that it is like a shy neighbor girl, pure and refreshing. meaning.

Mother mosquito? A fresh neighbor girl?

With these two completely different images appearing in my mind, Ye Xuan's spirits shuddered, and the whole person felt bad. There was a problem with his own spirit recently, otherwise how could it be so big? Open suspicion.

With this suspicion, Ye Xuan turned to look at it, just to the eyes of the female mosquito.

What made Ye Xuan scared a lot was that the other party was full of shyness in the first time, and he was still ashamed to drop his head from the resort, but it was full of smuggling.

This kind of performance is clearly the kind of feeling that the Huachunchun girl and her sweetheart have looked at each other and then I don't like to hurry up.

This time, Ye Xuan's feeling is really bad.

He even wondered if the female mosquito was the same as the previous wretched mosquito, and it was also installed.

They all said that things were gathered together. These two guys hooked up and became a traitor. It was originally a scorpion, and the wretched mosquitoes did it. Can the mother mosquitoes not make hair?

However, this thought just took the lead and was vetoed by Ye Xuan in the first time.

Because that can't be there anyway.

The wretched mosquito killer did it because of some plots, but this female mosquito really does not exist. Even if it has a plot, it can be used in a more direct way, a existence with a black hole and no repair. Use it like this?

Of course, more importantly, Ye Xuan has confidence in the nine-level slavery.

The reason why he lost his hand in the wretched mosquitoes was because he didn't understand the level attribute of the slave, but now he understands that it is impossible to make the same mistake again.

Thinking like this, Ye Xuan decided his heart and swept the black mosquito mother, and then he said: "From now on, you have to leave this magic nest with me. Black mosquito is your real name. I am also not good at tampering. In private, you can claim to be black mosquitoes, but in front of people, it is not convenient, there is a danger of revealing identity, so... if you are in front of you, you will call it a mosquito."

"In addition, the cultivation of the realm also needs to be concealed, just like the mosquitoes, in the satellite environment!"

"Of course, the most important thing is your shape. At the moment, you are not in shape. Fortunately, the head and the four feet are no different from the devil. The only thing that is worse is the main torso. This is a good solution. Put on your clothes. Let's cover it directly. As a result, no one can see your body. The only trouble is the mosquito wings behind it. Can this be collected?"

"The masters, these are all minor problems, and the mosquitoes can be solved by raising their hands."

Hearing the words of Ye Xuan, the black mosquito mother nodded, a very well-behaved look, and then she did not see her taking out clothes, just waving her hand, the original red fruit was not exposed. Ya's body of black mosquito body has been bound by a lavender tight-fitting jumpsuit. From the outside, it is completely a human or devil woman with a hot body and a fascinating appearance.

Even a pair of black mosquito wings behind him were directly absorbed into the body.

At the same time, it was repaired as a boundary, and according to Ye Xuan's instructions, it was concealed to the satellite environment, but it was a nine-order satellite, which was much stronger than the fourth-order wretched mosquito.

As a result, Ye Xuan, the wretched mosquito swab, the black mosquito mother beast... wrong, it should now be called the mosquito.

At the moment, the three of them stood together, and they could not see that there was a black-necked black mosquito mother, which was completely three demons.

The only surprise is that the strength of the realm has reached the satellite environment of the wretched mosquitoes and mosquitoes, but it is only respectful to Ye Xuan, who is only a star nuclear environment, which is really unbelievable.

"well!"

Ye Xuan was very satisfied with the movement of the mosquitoes, so that he could walk with them boldly and confidently.

With the help of the black-skinned mother beast of the seventh-order black hole, I believe that he will be able to sweep the entire third floor.

Thinking of this, Ye Xuan couldn't help but calm down and watched the mosquitoes say: "Now we will leave here soon. The goal is the third floor of the Black Bass Battlestar. If there is no accident, I am afraid that it will not happen for a short time. Come back, what treasures are hidden in this magic nest, it is best to take it out now and take it with you."

The reason why I ask this question is actually that there is a bit of curiosity in Ye Xuan's heart. The other side is a supreme existence of a black hole. How many treasures will surprise him?

Now that he is the master, if you really look at it, Ye Xuan will naturally be polite, and will immediately take it away.

However, what surprised him was that after hearing the words of Ye Xuan, the black mosquito mother did not hesitate to shake his head directly: "Return to the master, the mosquitoes do not even have an ordinary star nuclear source, other treasures. Not to mention, otherwise, in these years, it will not always break through the realm. When it was first seized, all the cultivation resources were taken away."

For this, Ye Xuan was surprised, but after thinking about it, she understood it. If this is not the case, the black mosquito mother will not be bored until nothing is actually thinking about refining this whole magic nest into its own. The magic weapon.

People have not cultivated resources all the year round, and there are no treasures for tempering and warming. This is completely boring to the ultimate talent.

From a certain point of view, it is the devil's tribal leader who took away its treasures, which made Ye Xuan almost missed here.

As soon as he thought about this, his face was gloomy in an instant, and he said coldly: "Is there nothing? It doesn't matter, I will take you up and grab it... the whole three floors, plundering!"

Chapter 2684: No time to delay

At the moment, there are two hundred slaves in the hands of Ye Xuan, and thirty-five in the fourth-level slaves. Finally, there is a ninth-level slaves.

The nine-level slave print is used to deal with the Nebo Mountain, a black hole.

However, the elite of the Devils below Nebo Mountain obviously cannot be killed. Otherwise, the third-level machine area needs at least two hundred elites to maintain the normal operation of the Black Bass Battlestar. Otherwise, they all kill. It is meaningless to grab an inoperable space fortress.

The two hundred third-level slaves in his hands were prepared for the two hundred elites who maintained the normal operation of the Black Bass Space Fortress.

The third-level slave printing can control the demons of the third-largest satellite environment. It is enough to have two hundred satellite demons in charge of the third-floor computer room area.

Then, the rest is thirty-five four-level slaves.

Since Nebo Mountain can't kill for a while, because there is a big head above him, there are ten Devils Space Fortress, and Nebo Mountain is his genus. Once Nebo Mountain is dead, Black Mosquito is in It is still dangerous to escape from this funeral star.

In this case, there must be some guards around Nebo Mountain? These thirty-five four-level slave seals were prepared for the guards of this group of support scenes.

The four-level slave printing, the magical elite who can control the fourth world of the planet, is relatively powerful. There are thirty-five planet elites in the planetary world, enough to prop up the scene on some occasions.

Of course, within this black mosquito space fortress, there must be a magical elite between the fourth world boundary and the eighth largest black hole. Although the number is small, it must exist.

However, the existence of this category, Ye Xuan did not intend to stay, once encountered, all killed.

After all, the Black Bass Space Fortress is important, but for Ye Xuan, it is always a foreign object. For him, the most important thing is his own cultivation.

The higher the realm of the devil's elite, the stronger and purer the power of the devil's spirit contained in the brain nucleus, and the acquisition of the high-level devil's brain nucleus is of great significance to the improvement of Ye Xuan's cultivation. .

Don't look at the spiritual core that is unique to the devil in his mind. It seems that there is not much involvement with the human cultivation system, but Ye Xuan believes that after reaching a certain level, there must be something in common between the two. By then, because of the brain core of this demon in the brain, Ye Xuan's realm of cultivation will surely get a qualitative leap.

In fact, this effect is now reflected.

Although he is only the eighth-order revision of the star's nuclear environment, he is absolutely capable of killing himself because of the existence of this spiritual source nucleus in the sea. Even if it is the ninth-order existence of the star's nuclear environment.

After all, he is a metamorphosis of the human and spiritual powers of human monks and demons. It has long been impossible to use common sense!

Before stepping out of the space door of each magical nest, Ye Xuan has already issued instructions to the Limosa and the Wretched Mosquito. In one sentence: the devil of the satellite, leaving 200, the planet's The devil elite, leaving 35, after making up the number, the rest, all killed, cut the brain to take the nuclear.

As for the corpse, leave it to Ye Xuan to take the flesh and blood essence with the magic blood marrow sword!

This has always been the case before, and Buck led the demon slaves to guard the scouts of the demon who were killed in the second floor central hall. Their bodies were all piled together for Ye Xuan to use the magic blood marrow sword to take flesh and blood. Essence.

It is for this reason that after extracting a large number of Devil's flesh and blood extracts, his handle has completed the fourth fusion of the magic blood star spirit sword, and the **** and killing atmosphere has become more and more intense.

What Ye Xuan didn't expect was that when he led the wretched mosquito and the mosquitoes and walked out of the space door to the left of the magic nest, they saw a figure and just happened. Go out from the middle of the space door.

The space door in the middle leads to the fourth floor above.

This guy is not weak, but is the stellar strongman in the fifth realm. At this moment, the figure just took the door from the middle of the space, sensing the movement on the side of the body, and subconsciously turned around and looked over.

Then the face changed, even if exclaimed: "Mosquito slaughter? These two are... the woman is actually a black mosquito? Bold, you dare to..."

Under the fascination of the face, the person's body shape turned, and he wanted to retreat to the space door behind him.

However, just in the moment when his figure has just stepped out, the black film in the middle of the space door has dissipated. If you want to use it now, you must reactivate it.

It was such a delay that the body of the mosquitoes behind Ye Xuan had already arrived at the person behind him. He raised his hand and stroked it. The demon person fell silently to the ground and his head was cut open. The black magic core fell in the hands of the mosquitoes and handed over to Ye Xuan.

A stellar strongman in the fifth realm, such a blink of an eye, is gone. This scene has a feeling of unacceptable feelings. Ye Xuan stood there, and his heart was shaking.

It was only then that he was so impressed that he was able to shed the black mosquitoes and was so lucky.

After picking up the five-level magic core, Ye Xuan directly threw it into the body's engulfing system, and the system immediately began to decompose, extracting the essence of the essence of the devil's spirit, and then turning the hand to take the magic blood star marrow sword Come out and cut directly to the devil's elite on the ground.

"Oh!"

A whistling sound like a crack, the body of the demon elite has been seen with the naked eye, and the blink of an eye has turned into a dry corpse.

All the flesh and blood quenching except the power of the spirit of the body are all collected by Ye Xuan's magic blood marrow sword.

After all, this is the fifth episode of all the flesh and blood essences of the stellar stellar strong, Ye Xuan even has the illusion that the magic blood star sword in his hand seems to have a cheering voice, like this A meal is extremely happy.

"This person is a confidant around Nebo Mountain. In the entire Black Bass Space Fortress, his status is equivalent to the big butler. Generally speaking, what problems are there in the following three areas? He is here to deal with..."

At this time, the voice of the wrinkles of the wandering mosquitoes was also passed over. Ye Xuan's body shape shook and his face was gloomy.

He has a hunch that I am afraid that the number of devils scouting in and out of this black mosquito space fortress has caused the above notice. This person is now on the third floor, but this is obviously only one. Just a transition, he passed through the third floor, the destination, and finally the second layer below.

Fortunately, it is timely to return, otherwise if it is a few hours later, once the person returns to the fourth floor from the second floor, the whole thing will be revealed in advance.

One thought of this, Ye Xuan took the initiative and turned and walked to the right channel outside the small square: "Accelerate the speed, first level the warehouse area, this matter, it must be urgent..."

Chapter 2685: Massive cultivation resources

After the corpse of Naboshan's corpse was turned into the immortal world, Ye Xuan led the mosquitoes and the wretched mosquitoes into the warehouse area on the third floor.

The entire warehouse area is also very wide, which is relatively closed to the outside and is an independent system.

It is home to nearly 200 elites of the Devils. The entire area has a material warehouse, a daily supply warehouse and an energy supply warehouse.

The collections in the material warehouse are all the gems and other treasures that the tens of thousands of demons in the entire Black Mosquito Space Fortress have explored outside, and the daily supply warehouses are used to distribute to the devil. Scouting daily cultivation resources... A black ore with some mysterious powers that can be used to collect and transform into the power of the spirit.

Of course, this cultivation resource is relatively low-level. Ye Xuan is not eye-catching. Compared with his direct use of the brain of the devil, he does not know how much slower.

The energy supply warehouse, which is responsible for allocating the energy needed for the daily operation of the Black Bass Space Fortress, includes all the driving energy such as the defense light curtain and the attack system, all stored in this warehouse.

In the warehouse area, it is not for anyone who wants to enter. In this case, the role of the wretched mosquito killer is revealed. This guy is dead, and finally the few magical elite guards inside the gas have opened the door directly. I wanted to blow it away, but I was planted by Ye Xuan for the first time.

These guys are all the magical elites of the satellites, so Ye Xuan planted the third-level slaves.

After the garrisons of these warehouse districts were squandered in an instant, the next thing would be much easier. Ye Xuan directly asked these guys to issue a call order to all the devil warehouse clerk in the vast area, saying that it was above. Someone came over to check and let them gather at the door of the warehouse area.

As a result, except for several important warehouse clerk in the material warehouse, the other clerk warehouses are almost all coming.

After all the nearly two hundred people came, Ye Xuan even killed the mosquitoes hidden in one side, and the black hole had a supreme shot.

Nearly two hundred devil warehouse clerk, Ye Xuan only left the existence of 20 people in the name of the satellite. After all, the entire warehouse area also needs to operate normally, but the management of the devil is a bit too swollen, there are 20 The existence of the satellite environment manages this warehouse, more than enough.

After throwing all the magic cores to the phagocytic system, Ye Xuan even took out the blood and blood essence of the other more than 100 satellite ecstasy elites.

This full drink, the joy of the magic blood marrow sword is more and more obvious, Ye Xuan has a kind of hunch, this handle has passed the four-level fusion of the super best attack magic weapon, it seems that what is happening changes.

After doing all this, the three men walked toward the core area of the material warehouse under the leadership of several elite miners.

There are two high-level warehouse clerk in the planetary environment, they are not allowed to leave for a moment, because the material of the care is too important.

The tens of thousands of devils of the Black Bass Space Fortress are scolding the source of the star nuclear that has been paid for many years, as well as other treasures, rare minerals and the like.

And in the entire third-floor warehouse area, Ye Xuan is not interested in other common nutrients and the energy supply needed to run the space fortress.

The only thing he is interested in is the source of the star nuclear collected by the devil, all kinds of rare minerals, and various treasures.

These two warehouses, he is destined to ransack.

The two high-end warehousemen who were repaired by the planets were quickly killed by the mosquitoes. Ye Xuan collected the magic core and, after licking his flesh and blood essence, first stepped into the first place to hold all kinds of rare A large warehouse of minerals and star nuclear sources.

Almost in the next moment, the sound of the phagocytic system in my mind is mad and generally resounded!

"Hey, congratulations to the host! Found a nine-level nine-color star nuclear source of a cube! Level: Star-level legendary minerals!"

"Hey, congratulations to the host! Discover the star tears crystal three! Level: Star-level epic mineral!"

"Hey, congratulations to the host! Find the void is not extinguished! Level: Star class to treasure minerals!"

.....

Listening to the resounding system sounds in his mind, Ye Xuan was stunned.

Generally speaking, the star-level treasures and minerals in the background of the sky are divided into three categories: ordinary, best, and super!

There are actually three kinds of these three kinds, but they are basically rare, so they are generally not mentioned under ordinary circumstances. They are: legendary, epic, and treasure!

Like the eight-level black star nuclear source and the nine-level nine-color star nuclear source, they are only legendary.

The three treasures of Ye Xuan's Purple Star Shuttle, Magic Blood Star Sword, Purple Phoenix Glass and so on, have not been seen for four times, and can only be regarded as super best.

This shows how epic minerals and treasures are precious.

Not to mention the treasures above the epic level.

So far, Ye Xuan has only got one piece of incomplete treasure, and a broken epic treasure.

The incomplete treasure is the "hole murder", while the other epic wreckage is the corner of the immortal starry sky.

I did not expect to get three epic star tears and a piece of treasure to the treasure!

This is simply a big surprise. In contrast, the cube of the nine-level nine-color star nuclear source is almost directly ignored by Ye Xuan...

Of course, there are a lot of good things in this material warehouse, which are basically the origin of the star nuclear and the rare minerals everywhere.

Ye Xuan did not hesitate to directly put 60% of them into the immortal world and piled up several hills.

The reason why it is said to be 60% is because the remaining 40% of them have not looked up. They are basically low-level secondary and tertiary star nuclear sources, as well as some of the best grade minerals.

I have to leave a little bit of the Black Bass Space Fortress. After all, in the future, I have to deal with the ten battleships of the Grand Fortress, and I will always have something to offer.

After doing all this, Ye Xuan even went to the opposite treasure warehouse.

Different from the previous star nuclear source and the mineral warehouse, there are some magic weapons contained in it, either killing people from the outside or picking up treasures from some stars, or from some of the tombs.

After all, tens of thousands of devils scouted in this star field for many years, and some of the stars in the prefecture Dongfu basically could not escape their collection.

As soon as I entered the warehouse, the sound of the phagocytic system in my mind rang again. All the tips were good. Ye Xuan was shocked again in a flash.

"Hey, congratulations to the host! Discover the soul of the town! Level: Stars and legends treasures!"

"Hey, congratulations to the host! Discover the wormhole ship! Level: Starry epic battleship!"

"Hey, congratulations to the host! Discover the thunder of India! Level: the treasure of the treasure!"

Chapter 2686: Eroded living area

The soul of the town: As the name suggests, the soul of the magic weapon, belonging to the legendary star treasure.

Wormboats: In general, large-scale warships that are capable of wormhole jumps between cosmic planes, at least stars above the star level, or space fortresses, like the three-kilometer-long federal military star-rated warships, are absolutely Can't stand it.

Private small warships less than a kilometer long are basically less likely.

The wormhole ship is a private warship capable of smashing the wormhole universe. This technique is said to be built in the entire empire, and only a group of technical elites in the mechanical family of the National Emperor.

Of course, the Tianji tribe can also build it.

Because of this small private warship, it is possible for the monks to shuttle between the planes of the universe. Therefore, whether it is the Federation of the Faro or the Celestial Family, the control is extremely strict, and there is basically no rumor.

I did not expect to encounter a ship here!

As for the last Lei Diyin: This seal belongs to the innate source of the heavens and the earth. It is born in a star field that is covered with endless thunder. It is the treasure of the endless thunder of the star field. Star River Void Endless Thunder!

However, this kind of source to the treasure with Ye Xuan's current ability, even refining is impossible, let alone him, even the black hole of the mosquitoes may not work, so, after the fall of Ye Xuan, throw directly into The immortal world will be reserved for later use as a realm.

In addition to these three legendary and above-class treasures of the stars, there are a large number of other magic weapons. Similarly, Ye Xuan collects about 60% of which can be seen in the eye, and there are tens of thousands of pieces.

The remaining 40%, he was left in the warehouse, used to cope with the guy in the future!

Less than one hour before and after, the warehouse areas in the third and third regions were flattened.

All of this seems to be extremely smooth, but in fact, among the three major areas of the third floor, this warehouse area is the least likely place for change, so Ye Xuan has no relaxation at all, and the next living area is actually There won't be too many suspense, but in the final room area, it is really difficult to guarantee no accidents.

After leaving the warehouse area, Ye Xuan rushed to the living area with the mosquitoes and wretched mosquitoes.

Coincidentally, outside the gates of the living area, they met two magical elites in the satellite environment. Ye Xuan even used two three-level slaves to accept the service, and then interrogated.

The surprise came too fast.

It turns out that today is the day of the shift of more than two hundred elites in the living area and the more than two hundred elites in the computer room. There are two hours.

That is to say, if Ye Xuan can converge all the demonic elites who have been in the living area for three days in two hours, then after two hours, they will be able to take the computer room area with little effort. in.

The only thing that needs to be done at that time is the more than two hundred elites who will change their shifts back to the living area. All of them will be killed.

At this point, the entire third layer will be swept away!

Due to the tight time, the three villas of Ye Xuan and Li Mo, and the trivial mosquitoes, even if they started the action, the roof of a villa was quickly eroded. In less than an hour before and after, more than two hundred and ten of the entire living area will be The demons are all solved.

Most of them are strong in the satellite environment, there are some democrat elites in the meteor, and even the devil elite in the fourth realm of the planet, but basically they have been ordered to be killed by Ye Xuan.

Because the slaves in his hands are not enough.

Thirty-five four-level and one nine-level were prepared for Nabo Mountain and his thirty-five pro-guards. The remaining two hundred third-level slaves were used in the warehouse area. There are only 175 pieces left.

Therefore, more than two hundred and forty devil elites can only kill more than 30.

Fortunately, they confessed themselves and manipulated the entire computer room area. Only one hundred and thirty demon elites were enough. The nearly 100 people who usually came out were actually taking turns in the computer room.

Now Ye Xuan has also collected more than 40 people, enough for them to take a small round of rest inside, but it is not afraid that this group of help the magic slaves in the computer room area to die.

Less than an hour, Ye Xuan's slave prints only have 36 left, and the entire third-floor living area is also unknowingly eaten by him. Although it seems to be on the surface as usual, the facts On the top, this area is already the world of Ye Xuan.

At this point, the entire third layer will only have more than two hundred and eleven magical elites who have to wait for the shift to be solved. Just kill them, the entire black mosquito space fortress. Only the fourth layer above is left.

Soon, under the command of Ye Xuan, the 175 demon slaves who had been shackled went out of the living area in batches and headed for the computer room area.

And whenever a group of demon slaves leave, after a while, there will be an equal number of demon slaves coming out of the computer room area and entering the living area.

In this case, the mosquitoes do not have to hesitate, they will start the first time and kill directly.

What Ye Xuan needs to do is to take the brain of the devil from the brain, and take out the magic blood marrow sword, take the flesh and blood essence in the bodies of these demonic elites, and then wave the rest. The immortal world in the body of the dead body is gone...

Time passed slowly.

Unconsciously, it is almost an hour passed.

With a batch of demon slaves entering the computer room area, and then returned to a group of demon elites, now, after more than a dozen times, the entire computer room area has come a big change, the inside of the devil elite, all come out Now, the control of the computer room area, are the magic slaves of Ye Xuan.

The demon elites who came out of the computer room area, except for the directors of the two computer room areas, were used by Ye Xuan to use two four-level slaves to surrender, and the rest were all killed.

At this point, the entire third layer was swept away.

In addition to harvesting a large number of cultivation resources and treasures, Ye Xuan also got the brains of hundreds of high-level devils, all thrown to the phagocytic system to rapidly decompose, extracting the power of the pure spiritual origin.

In addition, his magic blood marrow sword also received a lot of high-level devil's flesh and blood essence, the bloodthirsty and agile feeling also became more powerful.

Ye Xuan even has an illusion that the magic weapon of this super product seems to have a sword spirit. If this is the case, its quality will be instantly improved. From the previous super best, it will become a legendary attack. magic weapon.

But now, Ye Xuan has no intention to pay too much attention to this, because for him, there is a more important and final ring to be completed, that is to sweep the fourth floor and conquer the Nebo Mountain!

And he was left behind, and he used the two fourth-level slaves to conquer the third-tier computer room area, which was the preparation for the final link.

Because the third layer is the devil elite, but if you want to enter the fourth layer above, it is not that everyone has this permission...

Chapter 2687: Enter the fourth floor

The entire third floor, you can activate the space door in the middle of the small square at any time, and enter the fourth floor above. Only the two planets are repaired as the deputy director of the computer room area. These two people are called Bao Wei and Dingle. .

Through the bald Wei and the dialer, Ye Xuan will soon understand the situation of the fourth layer of the black mosquito space fortress above!

As the fourth layer of the top force of the entire Black Bass Space Fortress, including the small head Naibo Mountain, there are only 181 demon people.

These 181 demon people are centered on Neboshan and his 50 elite guards, as well as five confident think tanks and five confident butlers.

The other hundred and twenty people are all the slaves of the Nebo Mountain.

Among the 120 people, there are 60 glamorous devil slaves, and the other 60 are the slaves who wait for the life of Nebo Mountain and the daily luxury enjoyment, including the so-called good at making all kinds of food and wine. Kitchen slaves and so on.

Basically, it can be said that these one hundred and twenty demon slaves are all senior slaves. Its cultivation is the strength, and most of them are also in the satellite environment.

After learning about this situation, Ye Xuan even made a decision to the Wretched Mosquito and Li Mo, the one hundred and twenty Neboshan's magic slaves, no need to start, after the settlement of Neboshan, they must not dare The turmoil, and Ye Xuan, after disposing of everything, will refine one hundred and twenty third-level slaves and pluck them.

After all, this fourth layer can't be less of this kind of talent. Is it a matter of contact with other high-level security guards, not even a high slave and a high-ranking servant maid? Isn't this the case on the spot?

That is to say, the third layer above, what needs to be dealt with, is only Nebo Mountain, fifty guards, and five confidentants and five... No, four confidentants.

Because there was one before, it has been killed.

In total, there are sixty senior devils.

It doesn't seem like much, but these sixty people are extremely difficult to deal with.

Fifty soldiers guarding the army, all of them are the existence of the fourth largest realm of the planet. These fifty people, Ye Xuan and thirty-three four-level slaves can solve more than half, the other seventeen, killing That's it.

As for the Nebo Mountain, his cultivation is the fourth stage of the black hole. Just entering the medium term, he and the Lijing are three small steps, which can basically maintain the crushing situation.

Of course, by then, Ye Xuan will be hidden on one side with perfect shock, and he will plant the nine-level slave seal at any time.

The key is the five Neboshan confidants and four confidant butlers.

These nine people are all strong players in the fifth world of the starry sky, and it is indispensable for the whole black mosquito space fortress. Even if Ye Xuan is not left, at least he has to leave a think tank and A housekeeper.

Otherwise, work will begin later, and the entire Black Bass Battlestar will be difficult to manage.

Ye Xuan had previously calculated the demand in this area, and there is no five-level slavery in his hand.

"Forget it, thirty-three relatives will be guarded by the guards. If they are less than three, they will only stay three."

After some indulgence, Ye Xuan made a decision: "As a result, the four-level slave printing will be able to vacate three, and only need to refine a four-level slave printing. With these four four-level slaves, Can merge two five-level slaves."

"It's just a star-sized think tank and a housekeeper, all of whom are left alone. The stubbornness is enough to keep the Black Bass Fortress's normal operation..."

After such a slap in the face, Ye Xuan even began to condense.

Fortunately, it was only a condensed four-level slave printing. After Ye Xuan's full force, several hours were completed. Then he merged the four four-level slaves into two five-level slaves. Printed.

At this point, the slaves in his hands were thirty-three.

Nine grade one!

Five levels and two!

Thirty and four!

"The fourth layer is divided into a core area and a peripheral area. The two areas are separated by a circular corridor. The outer area is the area where more than one hundred servants serve the elite of the devil."

Wei Bald continued to elaborate, saying: "In this wide circular corridor separating two areas, there are three teams of Naboshan's Guards in the Guards. They continue to patrol. Each team has ten people, and the other twenty. The famous guards are close to the rest, and they are taking a break. Their place of living is also on the outskirts of the circular corridor. It is a guardian dormitory in the north corner!"

"As for the inner perimeter of the circular corridor, it is the core of the fourth floor, divided into two parts."

After taking over the words, he continued to explain: "The left part is the location of the intelligent center of the whole black mosquito. It is a star-shaped super brain. The five star-rated think tanks of Nebo Mountain are active in this area."

"And the core area on the right is the private land of Nebo Mountain. In addition to him, there are only five confident butlers. In addition, some of the devil elites who are summoned to ask questions, or some beautiful devils are attending. Waiting for him there..."

"That is to say, among the sixty targets that need to be dealt with on the fourth floor, the 50 guards can be resolved in the first time."

Ye Xuan's eyes brightened, even though he made arrangements: "After entering, the three groups of patrol guards in the circular corridor were secretly confiscated, and then they were allowed to monitor

the core area. We took advantage of this darkness and entered the North Point's guards. In the living place, the other 20 soldiers will be settled and then enter the core area."

"The five think tanks and the four housekeepers don't have to pay attention to it. If they meet, leave one for each other, and the other directly kill."

"When we enter the core area, what we have to do is to go straight to Huanglong and start with Naibo Mountain in the first time."

"The bald Wei and the draughts, the wretched mosquitoes and three people do not enter, so as not to be killed by the Nebo Mountain. Only I and the mosquitoes will enter the core area. At that time, the mosquitoes will be clear again. I am in the dark and strive for the first time. Neboshan solved, and then he processed his think tank and housekeeper. Finally, you took the 30 ambushed guards and guarded the 1200 slaves on the fourth floor and held them on the spot. Refining slaves and collecting!"

"Do you understand?"

After that, Ye Xuan turned to the wandering mosquito, the mosquitoes and the bald Wei, and the four men, and the sights swept from the faces of the four.

All four nodded and said there was no problem.

"That's good, if that's the case, then start the action, enter the fourth floor!" After that, Ye Xuan took a deep breath and took a step back with the three mosquitoes and the wretched mosquito.

Bald Wei first stepped forward and stepped in after the space door was activated.

According to Ye Xuan's instructions, the second mosquito enters, followed by the wretched mosquito swarm to follow.

Then, the dialer activated the space door again. This time, in order to be safe, Ye Xuan first entered, and then he followed.

In less than a minute, the master and the servant have arrived at the fourth floor. There is only one space door behind it, which leads to the third floor below. It is located at the northeast side of the circular corridor separating the fourth peripheral area and the core area. The living place of the 50th demon's relatives on the fourth floor is only 500 meters away...

Chapter 2688: Battle of Nebo Mountain

Because Ye Xuan's plan was well-rounded, after a group of five people entered the fourth floor, they started the operation and everything went smoothly.

Of course, this is mainly due to the strong strength of the seventh-order black hole in the black hole.

A total of 30 teams in the fourth group of the fourth star of the Star Devils, under the suppression of the mosquitoes, were divided into three times, all of which were successfully plucked by Ye Xuan in a way that planted four levels of slavery.

Then, a group of five people rushed to the living area of the guards who were 500 meters away. The mosquitoes shot and killed the 20 star-studded guards who were resting inside.

Although the brain nucleus was cut on the spot, the corpse Ye Xuan did not even give it to the blood-stained-spirited sword to extract its flesh-and-blood essence, because he was worried about this extraction, and directly let the magic blood marrow marrow sword change, from the super product. Promoted to the legendary attack magic weapon.

There will be movements at that time, I am afraid that it will affect the overall situation.

Therefore, these 20 bodies were earned by Ye Xuan in an immortal world, and they will be taken to the magic blood marrow sword for a while.

It is worth mentioning that the immortal world is the new name that devours space.

Because the phagocytic system is the high-tech of the immortal dynasty, the engulfing space that can be built can continue to grow to the astral level, so there is a new name - the immortal world. At the same time, this is also the highest secret of the Federation of Varo, related to the new universe development plan.

Although the immortal world can't earn the living star-level powerhouse, for example, before wanting to help the old man Du Wenxuan escape, Ye Xuan can't take him out with this trick, but collect the dead body of the dead star-level powerhouse. , but still completely ok.

So far, among the sixty people who need to solve the fourth layer above, fifty people have been solved. The rest, there are only four confidant butlers, five confidant think tanks and Neboshan himself.

A total of ten people.

And there are only three of the slaves in Ye Xuan's hands.

Two five-level, one nine-level.

Next, a group of five people were divided into two groups. The wretched mosquito, the bald and the three men led a team of ten detained star guards to guard the patrol in the circular corridor separating the two regions. , to prevent slaves in any peripheral area from entering the core area.

Ye Xuan and Li Mo, both of them, have just entered the core area of the fourth floor.

According to the original plan, the two men are in the dark and directly enter the right side of the fourth core area, which is the private land of Nebo Mountain.

However, just after the 30 demon squadrons were close to the house, Ye Xuan slightly asked about it, and learned a new intelligence, that is, the black mosquito space fortress smart center on the left side of the core area, that is, that Starry Super Brain also has a ability, emergency ability, that is, self-destruction.

This ability, by the five Naboshan's brains under the authority of the palm of the hand at the same time, among the five, as long as four people enter the secret privilege, it will start the entire space fortress self-destruction program.

This information scared Ye Xuan a lot, so he temporarily changed the plan. Right now, the direction he and Limos first go is the smart center of the left side of the core area.

The mosquito is a big swing, and it is the guardian of Warcraft of the black mosquito. It is not always seen. In the past ten years, it will come up every three or four years, and it does have the right to enter the fourth floor.

Because Naboshan has a motherprint that controls its spiritual imprint, it is not worried about what it will do, as long as it does not leave the black mosquito.

As for Ye Xuan, it started the perfect oscillation, body shape and breath, and completely disappeared.

The five think tanks of Mount Nebo are all strong in the fifth-level planetary environment. In front of the black-green mosquitoes, they are not the same as the ants in the ants, but at most they are ants.

Listening to the blame, it is literally meaning, say a word: still 蝼 ants!

However, when the mosquitoes entered the intelligent central hall of the black mosquitoes, the five people looked at each other at the same time. After seeing that the mosquitoes arrived, they first stunned and then laughed at the same time.

"Black mosquito, haven't you just been here three years ago? How? The guy named Mosquito can't satisfy you? Wouldn't it be killed by you?"

"Ha ha ha... This is the case in ten out of ten. I thought that the kid was so powerful. He died one month before, and he actually stayed for three years!"

"Now it seems that it is just like this. It seems that this time it is clear that it is a male pet to the head of the adult!"

"If you continue this way, the black mosquitoes will have to be consumed by you almost. Black mosquitoes, your appetite is rising!"

"It is estimated that the place is too big, and the appetite is naturally different! Hahaha..."

As the laughter of the five guys rang, the mosquito's face sank in an instant, and asked a group of air beside him: "Master, can I have one more?"

"Let's relax!" Ye Xuan immediately became furious and directly sipped a sentence. At the same time, he immediately shot, and a five-level slave print spurred and fell on the forehead of the five Naiboshan think tank.

Almost at the same time, the mosquito sighed helplessly: "Okay, then four!"

"boom!"

"boom!"

.....

The voices did not fall, and the four powerful powers of the mountain appeared like a mountain, directly covering the other four.

"Card!"

"Card!"

"Black mosquito, do you dare to rebel?"

"Who else is there? You call it the main? This can't be..."

As the pressure of the four roads fell like a mountain, the other four legs broke off instantly, and the figure was short and snarled.

In the next moment, the mosquitoes arrived at the front of the four of them, and they did not see it. The heads of the four people had split open, and four extremely black prismatic crystals fell out, dropping their hands and being stalked by the mosquitoes. Handed over in the air.

"The next is not an example!"

Ye Xuan glanced at the mosquitoes coldly, seeing it with low eyebrows and pleasing eyes, but there was still anger in the shackles. It was obviously anxious just now, although Ye Xuan was also strange, it was originally so sinister, others took this Do you have a few words and fall into such an anger?

However, Ye Xuan did not think much. After taking four of the five-level magic nucleus and throwing it into the phagocytic system, he waved the corpse of the four qi and blood essences into the immortal world.

At this time, the middle of the devil's think tank has also recovered the Qingming in the shackles, directly crouching on the ground, mouth call the master.

"Okay, you are here..."

After that, Ye Xuan once again launched a perfect shock, and urged the mosquitoes directly: "Okay, hurry, go to the right area, there are five guys, remember to kill only three, A butler and Nabo Mountain can only be emptied!"

"I'll act now, just your sigh of relief, the guy in Naboshan has already noticed it!"

After that, the master and the servant both left the smart center hall on the left side and quickly rushed to the right side of the fourth core area.

At the same time, while the two men's body shape rushed out of the left central intelligent center hall, the right side belongs to a large luxury hall in the private territory of Nabo Mountain.

Lying on the high-grade animal skin sofa, there is a beautiful woman on the left and right sides holding his shoulders. He also rides a beautiful woman who is swaying in the front and back of the Nebo Mountain. Suddenly, he opens his eyes and reveals his eyes. A touch of unpleasant color: "Hey, that* is coming up again. It seems that the mosquitoes are not doing much."

Chapter 2689: Accepting Nabo Mountain

The Black Mosquito Battlestar, in the private territory of the Nebo Mountain on the right side of the fourth core area.

This private territory also uses space folding technology. Although it is only half of the core area of the fourth layer of the Black Bass Space Fortress, the internal space has a radius of several kilometers, far exceeding the black mosquito space fortress from the outside. One kilometer in diameter.

In this area, basically only Nebo Mountain and his five confidant butlers stayed.

Of course, from time to time, there are some black mosquito management executives who are called by Neboshan to ask questions, as well as some slaves who give him wine and food, or some devils come and wait.

Right now, there are three beautiful devils here, waiting for the Nebo Mountain lying on the sofa.

And his four planets were repaired as confidant butlers, and they were all in a different direction. They were sitting on a sofa in different directions. They were doing their own thing.

It wasn't until the words of Naboshan's self-talking words that the four housekeepers all lifted their heads, and their faces all showed an unpleasant color.

As the strongest of the fourth world of the planet, they naturally sensed the breath that the black mosquito mother had just released.

It is worth mentioning that the black mosquito mother and the beast are also exquisite thoughts. Just exerting the pressure to suppress the four Naboshan brains and suppress them, the prevailing pressure is still preserved in the black hole. Order.

That is to say, because of Ye Xuan, he was blessed in disguise, and broke through to the cultivation before the black hole.

Although far stronger than the fourth stage of the black hole in the Nebo Mountain, it is two high steps, one is in the middle of the first phase, and the other is the mid-term great perfection.

But in this regard, whether it is Nebo Mountain or the four heart-to-hearted butlers in his area, it is obviously not in the heart.

Although the black mosquitoes are stronger than Naibo Mountain, they are not afraid to actually shoot them. At most, they are threatening them. This kind of thing has appeared several times before, but because the wretched mosquitoes have been supporting the guy for three years. It feels like giving people a long time.

Yes, every time, the black mosquito mother came to the demonstration, because the Neboshan sent to wait for the demon to scold and not get it, accidentally killed by it.

Therefore, the black mosquito mother who is not cool enough will run to the fourth floor with an anger, exhaling breath and protesting to Nebo Mountain.

But the latter does not care at all!

Although the black mosquito mother is strong, the body has the sub-print of the spiritual mark planted by the tribal leader who captured it, and the mother is just in the hands of Naboshan.

Black mosquitoes really have to be made. Although Nebo Mountain is weaker than it, it can suppress it.

However, to let the horse run, it is natural to feed the horses.

This truth, Nabo Mountain still understands.

Therefore, people just accidentally killed the sleazy mosquitoes that had been under it for three years, but they were not cool enough, and they rushed to the fourth floor in an emergency, just like the past. Stop the addiction only.

This small requirement is naturally still to be satisfied.

Moreover, since this kind of thing has not happened for three years, even if I am being disturbed now, I am still not angry.

"Bao!"

"It's none of your business, keep on shouting, hurry up..."

On the side of Nebo Mountain, he snorted and turned to the four confidants around him to say hello: "Go, isn't Cang Peng going to check the situation? Let him take a strong from the second floor. The low-level devil of the point came up, and it was really disappointing to send away the female mosquito that was screaming outside!"

"Hey, I am quite optimistic about him, I didn't expect to only insist on it for three years..."

Four confidant stewards glanced at each other. One of them got up and talked to himself while shaking his head and sighing: "I didn't expect it to be killed in the end, I am afraid I will have to recover one month after being harassed." It's really depressed."

During the conversation, the confidant butler has already reached the entrance and exit of this large area. When he lifted his hand, he carried out a spiritual mark. Soon, a flash of light flashed through the entrance of a thick black film. Clear, the film disappeared.

But outside the entrance, the face of the black mosquito mother's face was appearing in front of his eyes.

"Uh....."

This guy stunned, did not wait to make a sound, and the body shape of Ye Xuan had already raised his hand and carried a five-level slave print, and instantly fell into his forehead.

This confidant butler was stupid even when he was lost.

The mosquitoes walked black in the face, and the anger and killing of the sky were flashing in the middle of the sky. Although it was just past a forbidden light door, it could not enter, but the voice of the words inside it all heard a real cut. .

Somehow, since being shackled by Ye Xuan, its temperament has changed completely in an instant, no longer evil, and once someone hears about its past, it is immediately a way to go.

With the entry of the mosquitoes, Ye Xuan did not enter the area with a sigh of relief. At the same time, the only remaining nine-level slaves were ready for the first time. Only when the time was ripe, they would immediately be shot.

"boom!"

"boom!"

"boom!"

"boom!"

Four confidant butlers, the one that Ye Xuan wanted, has already been implemented, so the remaining three guys don't have to stay.

In fact, after entering, the black hole in the successively blasting of the black hole can be more than three, but four.

Three of them directly shocked the three confidant butlers, and they screamed.

The last one was shrouded in the Nebo Mountain. Although the latter was alert for the first time, the figure was hiding in the past, but the three magical women who were waiting for him on the sofa were directly The corpse is on the spot.

"Black mosquito, are you sick? Are you so eager? Why have you been so special? I have sent people to pick you up the magical people. If you look at your anxious, you will not want the head to serve you directly. Come on, I am not a mosquito, I am careful to kill you..."

Seeing that his four confidants blinked, he died three times. The other one was obviously in the middle of the move. He was standing there and standing there, and as for the three devils, they could not die any more.

"You... hooligan! Damn!"

I saw the dress of Nebo Mountain now, so that the mosquitoes were so annoyed that the cheeks immediately became red, and they gnashed their teeth, and they looked at it with a cold look. It was really a cute and charming young woman.

It is said that Naibo Mountain is like a ghost. It has directly widened his eyes and stayed for a few moments. This is a stupid question: "You, you... you are really black. Mosquito? The word rogue is coming out of your mouth. Don't you think it's too bully? Are you trying to get rid of true love? Which public mosquito?"

Upon hearing this, Ye Xuan immediately became angry. At this time, he had already touched him. He did not hesitate behind him. He raised his hand and spurred the nine-level slave print...

Chapter 2690: Black mosquito

"who?"

Naibo Mountain is indeed a super-existence in the middle of the black hole. After Ye Xuan opened the perfect shock, the whole person's breath was completely masked, and he did not feel the slightest.

But at the moment, I raised my hand to shoot this nine-level slave print, even if it was discovered.

This abnormality finally made him realize that the situation is wrong.

It was thought that the black mosquito mother was worried because it was anxious, but now that it is found that there are accomplices, the nature of the matter is obviously different.

At the same time as his face changed abruptly, he subconsciously urged the banned mother's seal in the brain to receive the ban. Since the black mosquito mother had already shot him, then if he did not use this banned motherprint, he would not May be an opponent.

"Don't waste your effort, your forbidden master is invalid, because the sub-print, when I broke through to the late black hole... has been refining!"

At a glance, I saw the behavior of the Nebo Mountain. The mosquitoes also installed a ratio. How did it break through the ban on refining when the black hole was late? It is clearly because of Ye Xuan, so it was only after the opportunity to ban the automatic printing of the sub-print, breaking through to the late black hole.

However, at this time, its ratio is combined with the strong seventh-order black-collar power of the black hole, and the effect is really good.

"What? You, you... broke through to the later stage?"

Even if the face of Neboshan is gray, not only does it not urging the forbidden mother in the magical nucleus in the brain, but even Ye Xuan has played the nine-level slave print without any psychological reaction.

After all, even if Ye Xuan is threatened again, how can he compare with the supremacy of a black hole?

So, at this moment, when the whole mind of Neboshan was shocked, the humble nine-level slave print fell directly on the back of the head and disappeared in an instant...

Everything, since then the dust has settled!

.....

An hour later, the three people of Bald Wei, Dian Le, and Zang Mou Mou rushed the entire fourth floor of more than 110 demon slaves to the private territory of Mount Nebo.

At this time, in this vast area, Ye Xuan sat alone on the sofa with his eyes closed, standing behind three people, one is Limosa, one is Nebo Mountain, and the other is the original Naibo. The heart of the mountain steward.

Now, the three people standing behind Ye Xuan are clearly a servant's posture, that is, the mosquitoes are a little bit suffocating, and Neboshan and his confidant housekeeper all have a feeling of embarrassment.

This scene fell into the eyes of more than one hundred fourth-level servants who were rushed in, and they were scared that they immediately fell to the ground and trembled.

Among them, there are nearly sixty beautiful women of the devil, looking at it at a glance, that scene... really can't say.

It was also at this time that the only think tank that had left the live-pit of Mount Nebo came, and the low-browed eyebrows stood behind Ye Xuan's sofa and said nothing.

Time passed slowly, unconsciously, and the whole day passed.

During this whole day, the elite of the devils in the vast space waited quietly, no one to disturb Ye Xuan, and no one had the courage.

Right now, the entire Black Bass Space Fortress is already the world of Ye Xuan.

In addition to the bottom of the nearly hundred Mohawk jailers, and now the fourth layer of the hundred-dead zero-magic senior servants, the other devil strong, have all become Ye Xuan's magic slaves, a total of more than 2,000, Nearly 3,000 people.

The other ones have all become a magical nucleus. After being decomposed by Ye Xuan's engulfing system, they extract the power of pure spiritual origin, or they have been absorbed by him, or they still stay in Devouring the system there, waiting for him to absorb.

At this moment, what Ye Xuan is doing is to do everything in his power to condense the slaves.

The more than one hundred senior demon servants on the fourth floor are all talented people, whether it is food, wine, or VIP hospitality.

The key people are doing this kind of low-level work, and the cultivation of others is not low. More than one hundred servants of the devil are all satellites and even planets.

This is the third largest and fourth largest realm. It is only outside when Ye Xuan meets, but here, people are willing to serve the top and serve VIPs. Such talents cannot be found with lanterns. .

Since Ye Xuan has plotted the entire black mosquito space fortress, and may not leave alone in a short period of time, he will try to delay in the ten space fortresses where the demonic group is stationed in this funeral star field. The opportunity of the third universe, then, the high-level exchange between the ten space fortresses can not be avoided.

Therefore, this kind of senior devil slave who can support the scene, he can not kill, can only be ambushed.

Otherwise, the black mosquitoes will not be able to get the corresponding talents in some occasions to support the scene.

More than a day, Ye Xuan will be required for the three-level slave printing and the four-level slave printing, a total of one hundred years, all condensed.

With his current strength, it was not so fast. This time, it was because he knew that the Black Bass Space Fortress had completely fallen into the hands, and that it was done with the excitement.

As more than one hundred slaves were exhausted, the senior servants of the demon who were present were finally enslaved and became their own.

At this point, the entire Black Bass Space Fortress has completely become the world of Ye Xuan, except for the bottom of the first layer of the hundreds of demon jailers and nearly 10,000 Wan Luo Federation's strong, Ye Xuan on the second floor There are two thousand genius slaves, and their strengths are all in the star.

On the third floor, he has more than 200 demon technical elites. Under the leadership of Bao Wei and Dian Le, he sits in the engine room area and the warehouse area. The strength is basically the third realm satellite environment.

As for the fourth floor, in addition to the two confidants of the mosquitoes and the scorpion mosquitoes, he has the Nebo Mountain, which sits in the entire space fortress, and the think tank Hongzhi and the housekeeper Piro!

In addition, it is the close guard of thirty planets...

Of course, on the surface is the near waiter of Nebo Mountain, in fact, it is Ye Xuan.

In addition, on the fourth floor, he also has a hundred high-level servants, including food, wine, beauty and other talents.

For Ye Xuan, at the moment, he is in the entire Black Bass Space Fortress, although it is nominally to let Nabo Mountain be a small leader, but in fact, he is already an absolute Taishuang level.

"Well, now that the whole black mosquito is a big one, it is time to go to the first layer below, and I will go around..."

After everything was done, Ye Xuan suddenly remembered the following green man Lu Wenxuan, and the group of demon prisoners who supported him from the beginning. Ye Xuan's face floated with a smile and talked to himself.

At this time, in his mind, the sound of the phagocytic system sounded: "Hey, congratulations to the host, the federal contribution points exceeded 10 million, and entered the score list! Ranked 8999..."
