

Super D. S 2691

Chapter 2691: People list

With the prompts of the engulfing system in my mind, Ye Xuan was stunned and stupid on the spot!

The federal contribution points exceeded 10 million?

Business team?

Ranked 8999th?

All of this, even if he heard it now, he had a feeling of disbelief, and he was suspicious in his dreams.

The federal Clos pales are divided into the list of the world, the list of 202, and the list of people.

One hundred in the top of the list, the top one in the list, the top one in the list.

Ye Xuan did not appear on the list before, otherwise the system has already prompted, in this case, actually entered the list and rushed into the top nine thousand.

This is absolutely unique.

You know, according to his previous understanding, Tianbang and the land list have not been moved for almost a few years, even the list of people, that is, the last few hundred occasionally change positions.

This is actually very easy to understand.

If you want to be on the list, you have to accumulate the federal contribution points, and there are not many channels for the powerful members of the federal government to receive the federal contribution

points. Although it is a convenient way to kill the devil, no one has The method determines the identity of the devil.

Therefore, basically everyone's points belong to the kind of slow growth, which is a small change in the ranking of points.

Basically, there is no one who suddenly soars dozens of people.

The original list is unnamed, and suddenly there is no such thing as breaking into the list. At most, it enters the 10,000th place at the end, or the 9999th one!

Like Ye Xuan, he directly rushed into the 9,000, which is something that has never happened before.

The reason why Ye Xuan did this was obviously because he won the control of the Black Bass Space Fortress.

His interstellar mercenary card is tied to the federal identity and has been branded in the gods. Now the black mosquito is taken down, and the interstellar mercenary card tied with his **** is the first time. This scene was captured, so that a weak and mysterious signal was emitted, captured by the stars and stars of the Tianhe Star, which confirmed his credit and immediately issued a federal contribution. Let him break through the majority of the million in one fell swoop and enter the top nine thousand in the list.

The reason why Ye Xuan himself was surprised was that he had ordered the devouring system to shut down the system sound of the federal points change when he was in the second layer of the demons to slay the Dongfu area.

As I said before, killing an ordinary demon scout will earn a thousand points for the federal contribution.

At the time of Ye Xuan's second floor, every time he killed one, his mind would sound the integral change of the phagocytic system.

"Hey, congratulations to the host, your federal contribution points have changed, the current points..."

"Hey, congratulations to the host, your federal contribution points..."

.....

And so on!

It was almost a short time before it rang. When Ye Xuan hunted a lot, he almost repeated his mind and made him tireless. Therefore, he took the initiative to order the devouring system and turned off the tone in this respect.

Since then, Ye Xuan has stopped hearing the demon's scout and no longer hears any prompts, so he gradually forgot about it.

But in fact, his federal contribution points have been growing rapidly.

Including the demon who was killed by Buck and other magic slaves, the brain nucleus obtained after the brain was also handed over to Ye Xuan, which was thrown into the phagocytic system by Ye Xuan, so it was also scored.

In the same way, he took Buck and other two thousand devils to be scolded as demon slaves, and was captured, recognized, and scored by the interstellar soldiers who were branded in his knowledge.

Killing a common demon scout is a thousand points.

It is two thousand points to double the scolding of a common demon.

It is also easy to determine this, because the spiritual source of the core in Ye Xuan's mind is inductive with those of the magic slaves, and the interstellar mercenary brand imprinted in his knowledge is confirmed by this.

What Ye Xuan doesn't know is that when he collects the black mosquito mother, his federal points are close to the 10 million mark. After all, it is a black hole in the enemy's high-level, and the killing is incredible. Not to mention the levy?

Together with the back of the Nabo Mountain, and the entire black mosquito space fortress... now Ye Xuan, his federal contribution points have reached more than 19 million, and immediately reached 20 million.

Of course, all of this has passed through some mysterious function of the interstellar mercenary brand imprinted in his knowledge, just like sending a simple radio frequency signal, it is distributed and received by the star of the nearest executive star. It is, and it was confirmed.

But for specific situations, such as how Ye Xuan does all this, how his points come... and so on, all the information, the simple signal sent out will not be revealed.

And this kind of starry sky card will never have any error, which is recognized because the federal identity brand and the federal interstellar mercenary card are from the imperial dynasty of the imperial star, the immortal starry sky super brain, first class Issued.

The immortal level of the sky and the super brain, its ability to cover the entire third universe, how can this kind of insignificant mistakes?

For this reason, when Ye Xuan's first nine thousand people were found in the list, the entire Tianhe Star and even other administrative stars in the Imperial Dynasty, although instantly raging, no one questioned this. The authenticity of the matter.

The federal contribution list of the Federation of Varo, all administrative stars in the entire federation are displayed in real time, even including the second universe outside the human race, during which the standings displayed in certain federal ethnic groups are basically Slightly lag a little.

In other words, this moment, Ye Xuan is almost instantly known throughout the Wanluo Federation.

No one knows what will happen on the administrative stars in the distant stars, but in the recent administrative star Tianhe, it has already become a mess.

The first to discover this was an ordinary interstellar mercenary.

On the side of the federal office of the Tianhe Star, there is a point redemption hall where all the treasures can only be redeemed with federal contribution points.

The most central part of the hall is the data of the three people in the world.

When Ye Xuan's name and the interstellar mercenary number appeared on the list, and the following series of data fluctuated, an interstellar mercenary who was looking forward to it was stupid on the spot.

After a long period of time, this talent raised his hand and licked his eyes, reflecting the unchanging data in the line of sight, and instantly changed his face.

People list: 8999th!

Ye Xuan, Star Mercenary No.: tha13148080! Current federal contribution points: 19876543 (0)!

After reading the string of data again several times, the interstellar mercenary suddenly smashed and smashed: "When you come to see, the list of people rushes into a new person, and it is amazing for my brother. Name, nearly 20 million points, one point is useless, this is clearly just earned, does he kill the emperor of the Tianji nationality?"

Chapter 2692: Suddenly

The news quickly spread throughout the Tianhe Star, and the entire administrative star was bombarded!

Interstellar Mercenary Number: tha13148080!

This is clearly the StarCraft Mercenary that was registered in Tianhe Star not long ago. The front th is the abbreviation of Tianhe Star, and the lower lower a represents the year of this year. The number represents the order registered in Tianhe Star this year. Numbering.

No. 13148080, it was only a few months ago!

An interstellar mercenary who had just registered a few months ago actually had nearly 20 million federal contributions, which made people want to kill.

It is for this reason that some people will doubt whether he killed the Emperor of the Heavenly Family, otherwise it will not be explained.

Of course, this suspicion is just a casual talk, and it is even more impossible for someone to be serious.

The emperor of the Tianji nationality is not likely to be worth only a few federal points. At least it is more than tens of billions.

"Damn! Damn, how did this kid do it? What happened to him?"

The news spread to the star government, and Bai Zhengjun was anxious like an ant on a hot pot. He walked back and forth, and the words in his mouth were such a sentence.

Entering the existence of the Federal Standings, even if it's just a list of people, it's no longer a crime that he can offend. After all, this world's three people's list can be seen in the entire Federation of Varo, maybe a certain immortal dynasty. The giant is paying attention to this matter at the moment.

If you sneak into the 10,000th, or the ninth, ninety-nine, it would be worth it. This kid suddenly rushed into the first nine thousand and stepped on more than a thousand federal old days. At the foot, it is absolutely impossible to say that the giants who did not cause the Emperor and even the Emperor Star are concerned.

Therefore, Bai Zhengjun was in a panic. He had a feeling that once Ye Xuan officially contacted the federal government, then his good son, who is a heavy minister in the national capital, could not take Ye Xuan again.

The hatred of both sides has long been unable to resolve, which represents what, the fools have counts!

Similarly, in the federal garrison headquarters of the Tianhe Star, the military giant Zhao Long of this administrative star is also looking at the big screen that is showing the ranking of the people in front of him.

After a long time, Zhao Longcai shook his head bitterly and muttered to himself: "Fortunately, I didn't find a chance to shoot, but I didn't offend this guy..."

"Hey, with this guy doing things in front and behind, one thing is all right, but all of them are so shocking, can this be a coincidence that can be released?"

"There is a kind of person who is destined to fly to the sky. The key is whether you can witness the torch before he develops. How about gambling once this time? Laozi Zhao Long put the treasure on this little metamorphosis!"

If the high-level aspects of the Tianhe Star are only undercurrent in this matter, then in the Federal Affairs Hall of the Tianhe Star, this time is already a buzz.

A guy who had just registered as an interstellar mercenary in the Federal Hall of the Tianhe Star not long ago, in just a few months, he won nearly 20 million points of federal contribution points and jumped into the list. It entered the list and entered the top nine thousand.

Oh, all of this is just like a dream, so that everyone is excited.

"Brothers, see no, there is nothing impossible in this world. Who knows that the next person who rushes into the list will not be one of us?"

"Team! Team! Our team already has six StarCraft interstellar mercenaries, and will soon enter the depths of the funeral star. Our 8080 brothers are just the eighth-order of the star." Only, brothers, we don't want to let it go, only when we go out, we have a chance!"

"It's me! It's me, do you know? The 8080 Star Mercenary is me... the one in front of me."

Business look like a small-year galactic worker. I feel very excited. "Greedy, I business still remember that scene. The little brother, the 8080 babies, the one from the top... Let me take this lucky number, maybe it is me who is now on the list..."

"cut!"

"There is a sick person..."

In the distance, there was a themselves contempt, and in the distance, there were three figures but complex complexes, looking at the list of federal contributors in front of them, unable to describe the expression on their faces with words.

One is the star thief black loy.

This person, who was in close contact with Ye Xuan at the beginning, was not afraid of the warships on the side of Bai Zhengying.

But now, after seeing Ye Xuan rushing into the list of nine thousand people in one fell swoop, the face of Heilongjiang is ent gradient, and the whole person is a little konjac, and his mouth constantly muttered to himself. : "False! Big mistakes..."

"After this kid escaped on that day, there must have been a great creation. Otherwise, it is absolutely impossible to have today's achievements..."

"All this, if the old man can take him down, maybe everything will fall on the old man..."

"This is a great creation. When I was inadvertently, I fell behind him... The old man is not willing!"

"But that's okay!"

"The nearly 20 million federal contribution points, the old man does not believe, this kid can live without it to exchange... At that time, as soon as he comes, all his secrets will become the deity of the deity."

"After all, it's just a scorpion ant in a star's nuclear environment. As long as the deity arranges the plan to be more detailed, everything he does will fall into the calculations of the deity..."

"Miss, you said this Ye Xuan, is that guy we met at the beginning? But how do I feel that this is so unreal?"

In another area, the green color of the face of Lulu, turned to the Xuanyuan Ziyao next to him, with a touch of incredulous on his face: "If this Ye Xuan, that is the guy we saw at the beginning... ..so, what kind of existence did he encounter at that time? It was able to make him possess such a terrible creation, and with a dazzling effort, he had nearly 20 million points of contribution, knowing you. There are not so many now."

"There is no doubt that what we encountered that day is Ye Xuan. Moreover, the space fortress that took it away does not belong to our Wanluo Federation, but belongs to the Tianji people in the funeral star field."

Speaking of this, the Xuanyuan Zixiao, who was fascinated by the dawn, suddenly sighed: "That guy, what happened to him? How did he do it? Even in the base camp where the Tianji people are distributed in the human race world, there are With such admirable achievements, all of this is just like a dream, a strange person..."

"What? Miss, what do you mean... that guy he... He actually got into the base camp of the Celestial Scout, and still earned such a huge amount of federal contributions in it?"

The green radish took a sigh of relief, and I couldn't believe it with a look: "But... is this all possible?"

Chapter 2693: Sword Spirit of the Blood Sword

Not to mention the Tianhe Star, even if Ye Xuan himself, this moment is the shocking color of the face, and it has been sluggish for a long time, and finally gradually recovered.

20 million?

Close to 20 million?

I don't know how long ago he was still looking at the 10 million federal contribution points. How far is it that the blink of an eye is nearly 20 million?

A huge surprise instantly came to my heart. Ye Xuan simply couldn't wait to fly back to Tianhe Star. With 10 million federal contribution points, I exchanged a tube of nine-stage genetic culture solution.

As long as the ninth-level gene culture solution is in hand, then the fragment of the star-shaped super-brain in the corner of his hand is likely to reappear soon. At that time, Ye Xuan will have an independent star-level communication system, as long as energy Enough, you can invade the upper-level star network at any time.

Even the Emperor Star and the top Emperor Star Network, he was able to invade and get a lot of information. Looking for the source of engulfment will become a half-time.

"Tianhexing should have been overturned, and this is no small trouble..."

When the mind flashed in the mind, Ye Xuan even realized the current situation, and his face could not help but show a bitter smile, and then he grasped the double fist: "But it doesn't matter, the little Tianhe star, even the star thief Both Black Luoying and Zhao Long are strong in the black hole, but I now have the black mosquito mother and the Nebo Mountain, which is also the supremacy of two black holes."

"In addition, although there is a five-kilometer nebula-class space fortress under the Zhaolong Majesty, the black mosquito is not only worse than it, but even more. It is a 10,000-meter-diameter Star River-class space fortress."

"As far as I am logged into the list of federal contributors, even if it is swaying into the interior of the Tianhe Star to exchange, whether it is Zhao Long or Bai Zhengjun, it is impossible to openly blatantly, which will cause public anger, they are like Last time, wait for me to get out of the Tianhe Star and then start..."

"At that time, there are black mosquitoes and two black hole strongs to protect around, this time, I am afraid that even fleeing is unnecessary."

Thinking of this in my own words, Ye Xuan could not help but make a big decision.

However, it is not immediately time to return to the Tianhe Star to carry out all this. Before the departure, there are still many things to do.

First of all, it is the strength of the individual.

He even took out the bodies of a large number of high-level devil elites who had previously earned into the immortal world, and then he smashed the magic blood star sword.

"Hey..."

As soon as this sword appeared, it smelled like a lot of high-quality flesh and blood. It sent out a cheerful cicada, which is clearly the sword spirit in the sword has already been formed. This sword will soon produce a spiritual rhythm. .

Ye Xuan's heart gave birth to a glimpse of hope, no hesitation, directly spurred the magic blood star soul sword, and smashed the body of the senior demon elite who was piled up in front of the mountain.

"Hey!"

"Hey!"

.....

The cheerful humming sound continued to sound, and the pile of demons that had become a small hill quickly dried up, and the blink of an eye was reduced by half, becoming a mountain of bones.

However, Ye Xuan's magic blood marrow sword has broken away from the control of Ye Xuan at this moment, and has hovered in the fourth floor space of the Black Bass Space Fortress. From time to time, a cheerful humming voice is heard. .

In this regard, Ye Xuan is not in a hurry, so let it play around.

At this moment, the magic blood marrow sword gives him the feeling that it is just a child who has just born a self-consciousness, naughty, active, but there is a sense of flesh and blood connected with his god.

Ye Xuan can fully feel the volatility of the magic blood marrow sword. After all, this attack magic weapon has been refining him from the beginning.

"Master, I am the blood, I am awake!"

Sure enough, after a circle of cheerfully hovering, Ye Xuan's mind showed a voice of milk and milk, which is the consciousness of the blood-stained sword.

This little guy is clever, he gave himself a name and called it magic blood.

However, this name Ye Xuan is quite like it. It feels like a domineering and killing intention in the vagueness. As an attacking magic weapon, it should have this name.

As the sound in my mind sounded, the magic blood marrow sword hovered for a long time outside, thinking that it was also lacking, it turned into a touch of light, directly rushed toward Ye Xuan.

Although it is a smashing treasure that has evolved into a legendary level, it is a relic of Ye Xuan. After all, even the sword spirit that was born in it has taken the initiative to recognize Ye Xuan, and it is impossible. Injury to Ye Xuan.

Under the flash of blood, the magic blood marrow sword directly rushed into Ye Xuan's body, while the latter, also raised his hand, waved the huge number of demonic elites who had accumulated in the mountains. The immortal world in the body.

After doing all this, Ye Xuan looked around at the scene from the demon slaves. After a little indulging, he said to the wretched mosquitoman: "If you go down, you will call Buck and the sea, and the three greens will be called up! As for the other demons The slaves are all gone."

Soon, the wretched mosquitoes turned and went, and the other servants in the hall were quietly retreating. The entire hall was suddenly empty. Only Ye Xuan was alone on the sofa, and the others were like Li. Mosquitoes and Mount Nebo are all standing on one side.

Don't look at the strength of the two of them is much stronger than the other magic slaves, but in front of Ye Xuan, their identity is just like the magic slaves.

In their consciousness, there is only the idea of Feng Yexuan, and there is no other level of strength and weakness.

Soon, Buck and the sea, a knife, three people have arrived.

When Buck came, he sent a large number of demons to the brain, and said that there were a lot of demons on the back of the body, which are the products of the demon slaves who have been killed in recent days.

"Okay, from now on, all the returning demons scouts don't have to kill, guard them, wait for me to take time, then go to conquer."

Reaching out the brains of these devils, Ye Xuan is still directly thrown into the devouring system to decompose, and then extract the power of the devil's spirit.

After doing all this, he looked at the demon slaves who were present, and continued to say: "So, now I will assign your position and clarify the duties."

"The second layer below is still dominated by Buck's general manager. The commander of the two thousand people's slaves is still a sea knife and a green feather. In addition, other devils who have returned to the scene are scouting, and they have just begun to form the third team. "

"In addition, all the magic slaves do not have to go out to extract things like the origin of the star nuclear. On the contrary, the cultivation resources in the third-level material warehouse are fully open, and all the magic slaves will give me the realm of improvement as soon as possible. "

"There is only one mission for you, that is cultivation! Cultivation! Re-cultivation..."

Chapter 2694: Refining Fortress Super Brain

"In addition to the second floor of the Devil's Cave area, the third floor of the general manager is also Buck!"

Speaking of this, Ye Xuan glanced at the wretched mosquitoes, as well as the bald and the three men, and then he said: "The bald and the two are still the deputy directors of the third-floor computer room area. Those who need shifts can apply to Buck and choose from the second layer of the slaves below."

"As for the wretched mosquitoes, the warehouse area on the third floor will be handed over to you. Of course, under the leadership of Buck, the materials in it, you only need to report and be responsible to Buck."

"As for the living area, except for the high-rises of each of you, you can have one villa in each other, and all the other magic slaves will be converted into apartment-style collectives. From now on, there will be no elite in my space fortress. The only difference between the class and the poor is the level of duties and the importance of duties."

"As for the fourth floor, I personally sit in the town, and Nebo Mountain and Limosa are my left and right guards."

"The smart center is under the responsibility of the think tank Nanhuai, and the daily operation of the entire fourth floor is under the responsibility of the butler."

"This refers to the normal situation, and if there are other high-rises of the space bastion, I and Limos will temporarily evade, and Naboshan will resume the captain's identity. Everything will operate according to the previous model."

"In a word, we are now in a hurry, and the whole black mosquito has given me the speed to improve the overall strength..."

Speaking of this, Ye Xuan suddenly remembered something, and turned to the fourth floor of the housekeeper to see the past, shouted: "Right, you and Nanhui to the smart center to go, The following first layer of Wan Luo Prison issued a notice, saying that ... Captain Envoy will not go on tour!"

It was also at this time that the system sounds in my mind had also sounded.

"Hey, remind the host: If you want to have a black mosquito, you can refine the star of the smart center, and then you will control the entire space fortress!"

Hearing this prompt, Ye Xuan could not help.

Then he will be introverted and look at the specific situation on the side of the engulfment system.

After a few moments, Ye Xuan finally realized everything.

Unlike the devil, the demon can't refine the starry sky of the space fortress because it has no gods and gods.

In this case, once the Space Fortress is required to defend or attack, or even blew, the instructions must be manually entered from the fourth level of the intelligent master control center.

But Ye Xuan is different. In fact, it can be done for any human monk, that is, directly refining the starry sky of this space fortress, so that this space fortress is equivalent to one of its magic weapons. Even, you can even get into the body.

Because the starry sky super brain of any space fortress has been completely bound to the space fortress at the beginning of the reinvention of the space fortress, it cannot be replaced or separated, so the refining of the starry sky super brain equivalent to the space fortress brain, It is equivalent to refining the entire space fortress.

With Ye Xuan's current strength, he really can't make the star-level powers into the body, but after refining the space fortress, this can become a reality.

Because he is in the body, it is just a magic weapon for his own refining.

Of course, even a small private battleship is also a magic weapon for his refining, but he can't put the star-level powerhouse in a small private battleship and get it in the body.

The reason why Space Fortress can achieve this is because the space fortress is different from the small private warships. The interior uses space folding technology. The star-studded powerhouse in the space fortress is included in the body with Ye Xuan. At the time, they and Ye Xuan actually did not have any relationship, and the internal folding space made this all become a reality.

As I said before, the starry sky is a mysterious existence between matter and life, just like the age of the earth.

This mysterious half-life is rare even in the stars of the comet.

The starry sky and super brain used in a space fortress are naturally incapable of being comparable to the starry sky and super brain in the administrative star of the Tianhe Star. It is not a grade at all.

The former can only control one space fortress, while the latter can control a whole administrative star. Only then, the gap can be seen.

But it is precisely because of this that it is quite convenient and convenient for Ye Xuan to refine it.

In just half a day, he thoroughly refining the starry sky super brain of the fourth layer of the intelligent master control center of the Black Bass Space Fortress.

At this moment, the system prompts in Ye Xuan's mind finally sounded.

"Hey, congratulations to the host! The starry sky and super brain of the refining black mosquito space fortress, from now on, can issue any instructions to the entire space fortress."

"call!"

"Everything is finally done!"

From now on, Ye Xuan already has the right to arbitrarily pass through any space door, and also has the right to selectively or comprehensively send this permission to anyone.

"There was still one thing left to be done. After finishing this matter, I should go to the first layer of the next thousand 10,000 prisons to see if Lu Laotou is still alive..."

In his own words, Ye Xuan turned and walked to the space door leading to the third floor.

Through there, he will go straight to the second layer of the Devil's Cave House below, and then the murders of the demons in the second floor of the hall will be smashed with the magic blood.

After that, the followers of the entire Black Mosquito Space Fortress will not be slaughtered, but will be reduced. After all, it has become the home base of Ye Xuan. The original tens of thousands of devils are now 3,000. Less than that, the compilation aspect is indeed a big problem.

Even the devils who are returning can't kill, and after everything is on the right track, Ye Xuan even has to find a way to go out and catch the other magicians scouts of the Battlestar.

Do not say that the original 10,000 copies of the compilation, at least have to be more than half?

Of course, he is now taking the boutique route. The other space bastions use these devils as sculpts, let them work continuously outside, and extract the origin of the star and some other rare minerals. Only give a little bit of cultivation resources.

But Ye Xuan is different. He has ordered all the magic slaves not to go out again. The black ore that cultivates spiritual strength is fully open to supply.

The only requirement is only one, that is, all the magic slaves, from now on, have begun to improve their cultivation at full speed.

In this way, he believes that as time goes by, the personal strength of all the magic slaves in the entire black mosquito will all jump to a new level, and all this is together, in the black mosquito. Although the number of demon slaves is small, compared with other Devils Space Fortress, its comprehensive strength has become the top!

Chapter 2695: Again

With Ye Xuan refining the starry sky of the fourth layer of the intelligent master control center of the Black Bass Space Fortress, in the Federal Affairs Hall inside all the administrative stars of the Federal Republic of Venezuela, the federal contribution points are listed in the list of people in the world. The data changes again.

People list: the 7998th!

Ye Xuan, Star Mercenary No.: tha13148080! Current federal contribution points: 29876543 (0)!

For a moment, Ye Xuan's federal contribution points climbed 10 million points again, and its ranking was also from the previous nine thousand, rushing to the top eight thousand, and suddenly climbed a thousand.

After all, between the five thousand people behind the list, the federal contribution points that are different from each other are basically hundreds of thousands of gaps. Ye Xuan has more than 10 million points of federal contribution points. It is quite normal to rise to a thousand.

What caused all of this is naturally related to his refining the stars and super brains.

Although there are many servant race strongmen in the celestial family, they enter the funeral star field that isolates the first universe and the third universe by burying the natural universe wormhole deep in the star field. Even some of them are sporadic. The Tianji ethnic group exists.

However, the real scale, but only the devil. After all, the characteristics of the devil family are here, as long as they enter the funeral star field, they can all sway and sway without hiding their possession.

But even if it is a demon family, it is only ten space fortresses that enter this area.

Each of the ten space bastions does not know how many stars and nuclear resources and rare minerals are acquired by the Celestials every year. This is simply the source of resources for dealing with human beings at the human-controlled sites.

Therefore, if a space fortress is converted into a federal contribution point, it is absolutely terrible.

Previously, Ye Xuan just won the black mosquito number, which is equivalent to the war. This piece, he has already obtained the corresponding federal contribution points.

But it is one thing to take it. It is another matter to refine it into its own use. It is equivalent to grabbing a prisoner and directly defending the prisoner. The value is completely different.

Therefore, when Ye Xuan successfully defeated the black mosquito and changed it from the Devil camp to Ye Xuan's private magic weapon, he once again obtained a full 10 million federal contribution points.

In fact, he still has a way to get a lot of federal points, and this way has long been in his hands, but Ye Xuan has not realized it.

Undoubtedly, as this route is discovered by him, there will be a greater amount of federal contributions, and at that time, I am afraid that Ye Xuan will be directly thundered.

And as he got 10 million points of federal contribution points at the moment, Ye Xuan once again stayed a bit and muttered to himself: "Rely! Ten million? This is another bottle of Jiuji gene culture solution, that is I don't know how many bottles in the federal exchange pool..."

With Ye Xuan's muttering to himself, Tianhe Star has blown up the pot again.

In the Federal Affairs Hall of the Tianhe Star, the moment has already been shaken, all the people are full of fanaticism, and all the sights are gathered on the name of the mercenary number mand number 8080, and the joy is thunder.

At this moment, Ye Xuan became a legend.

A small star nuclear interplanetary mercenary, after just rushing to the top of the list of nine thousand, less than half a day, rushed into the top eight thousand, and suddenly added 10 million points of federal contribution integral.

Everyone is guessing, this is the interstellar mercenary named Ye Xuan, he...what did it do?

The same speculation, in fact, at this moment are all in the minds of Bai Zhengjun, Zhao Long, Star Pirate Black Luoying and the green servant and Xuanyuan Ziyan master servants.

Even Xu, who has already rushed to the black hole area with the Battlestar fleet from the National Stars, to deal with the small black hole, is a face-to-face whisper, muttering to himself: "This is a dog." Guy, he is in the end... done?"

In addition to the human camp, the heavenly family sent to the top commander of the third universe to bury the star field, that is, the black hole of the ninth-order powerhouse Gu guess, this moment is also the face of the anger.

Among the ten space castles that the devil is scouting, the most powerful guardian of Warcraft is the Black Wind.

The guardianship of the Black Wind is a black wind beast. It is cultivated as the eighth order of the black hole. Therefore, the black wind is also the flagship of the ten magical space castles. As a big-headed guess, it is on the black wind. .

At this moment, in the middle of the fourth floor of the Black Wind, a large virtual screen is showing the list of the members of the Federal Fund.

As the demon of the celestial family in the third universe of human beings, the tycoon often pays attention to the three people in this world, and the reason why he is angry at the moment is because Ye Xuan suddenly obtained thousands of federations twice in succession. Contributing points, and then ranking on the list of people, swiftly soared.

We must know that every point of federal contribution is representative of the loss of the Celestial side.

With the strength of the human race and even the Federation of the Vulcan, it is impossible to invade the first universe of the base of the Tianji nationality. In fact, this guy named Ye Xuan is only a scorpion ant of the star nuclear environment. There is no qualification for the natural cosmic wormhole deep in the burial star field.

In this case, the other party earned nearly 30 million points of federal contribution points, which is clearly obtained in the funeral star field.

But it's all unscientific, unless there are just a few high-ranking people from the top of the world who came here, and they just happened to have a space storm, seriously injured and dying, and just happened to be hit by this kid, and they made a ready-made... otherwise, he How do you earn nearly 30 million federal contribution points in a short period of time?

"damn it!"

"Who can tell me exactly what went wrong? How did the kid do it? Did he steal a space fortress from Laozi? It's a joke!"

In the face, Gu guessed the palm of his hand and smashed it, and then ordered: "I will immediately inform the other nine space bastions, and let all the demons scout the search. I must find out the truth of the matter. I want to bring this little **** named Ye Xuan to Laozi..."

"Yes!"

Beside him, a stellar stewardess in the stellar position bowed his head and then rushed to pass.

At this moment, the guess of the moment is absolutely unimaginable. What he thinks is the most impossible thing is precisely the truth!

The reason why Ye Xuan was able to earn nearly 30 million federal points contribution points in a short period of time is indeed the reason why God snatched a space castle from his hands.

Moreover, this kind of point contribution point has soared rapidly, apparently not yet at the end, this is just a beginning, a more sensational storm, will soon begin.

With Ye Xuan returning to the Wanluo domain on the first floor of the Black Bass Space Fortress... It is destined to be all the people, and the outside is coke!

Chapter 2696: Visiting Wanluo Prison

Before Ye Xuan left, he handed over the prisoners of Wanluo Prison to two people, namely Sha Zuo and Mei Tang. The strength of these two guys is the fourth stage of the star nuclear environment, which belongs to the upper reaches of the hundred jailers. During the period, the entire prison guards of Wanluo Prison were responsible for their leadership.

Although Wan Luo Prison could not be connected with the above, the fourth layer above can reach the lowest level of Wan Luo prison through the intelligent master control center.

In the eyes of the Black Mosquito Space Fortress, the only remaining think tank, Nanhui, according to Ye Xuan's order, after the captain's command to patrol the bottom of the Wanluo Prison, the number of over 100 million prisoners immediately exploded, all the jailers. They are all nervous.

Many people even guessed whether the new prison guard, Ye Xuan, had a situation on the top. Otherwise, how could Naibo Mountain, the master of the entire Black Bass Space Fortress, suddenly come to the bottom patrol?

You know, this situation has never happened in the past few decades, and it suddenly appears, and the reason is obviously not ordinary.

With this in mind, Sha Zuo and Mei Tang, even if they started the action, first gathered all the jailers, reorganized the discipline, and then re-divided the patrol squad. All the devil jailers were divided into ten teams. At the same time, there were five patrols patrolling in the vast Wanluo prison outside, and everything was in perfect order, revealing a sigh of tension.

As the five patrol teams kept moving around, the news of the entire top of the Black Mosquito Fortress is about to patrol, and soon spread among nearly 10,000 federal prisoners in the area. .

Lu Wenxuan, the old man of the green cricket, seems to have guessed something. He sighed: "Oh, it seems that the stupid boy has not escaped. Even the highest level of the entire space bastion has to patrol. This is clearly the meaning of rectification. I am afraid that I will catch a few typical killing chickens and monkeys. It's a pity that the stinky boy!"

As Lu Wenxuan's voice sighed, the four weeks of response immediately sounded a curse.

"Lu Laotou, you are still sorry for the kid, we are all tired of him. This time Neboshan came in, I am afraid that there will be many people unlucky, this is clearly that he did not escape, but vented The whereabouts!"

"There is a performance. This time, some of us who are closer to its cage are afraid of being unlucky. It is obvious that the kid has escaped from prison but has not reported it. Naibo Mountain has to use our knife!"

"I knew this before. I should have exposed his identity in the prison guards. At least I can avoid the robbing of today. Oh, I lost my hope on the kid that day. I didn't expect this guy to be ruthless." Righteousness, it's enough to escape alone, but it's still failing, and I'm tired of waiting..."

.....

"Hey, I have been thinking about reporting for a long time. It's not too late to have this thought. You have the same opportunity now..."

Without waiting for the blame of the four weeks, Ye Xuan's sneer words have already rang.

He has refining the starry sky and super brain as the intelligent center of the entire Black Bass space squad, and the movements of any corner of the entire space bastion can be fully understood, and its sound can be instantaneous in any area. transfer.

At this moment, with the voice of Ye Xuan resounding in this piece of Wanluo prison, its figure is also taken from the black light film of the space door.

Followed by the mosquitoes and the Nebo Mountain and the four people of Buck and the Skeleton Mosquito.

"Head...head?"

Seeing that Ye Xuan appeared, Sha Zuo and Mei Tang almost directly smashed their eyes to the ground, and the words in their mouths were stuttering, and the face was full of ecstasy.

It's really too much of it. The small head of the entire space fortress, Nebo Mountain, is like a younger brother, behind Ye Xuan.

Even if they saw it with their own eyes, they could not believe it at all. At this time, they were suspicious in their dreams.

"How? Seeing that I am still alive, are you so disappointed?"

Ye Xuan secretly smiled, but his face was immediately sinking.

"How come? Hahaha... Head, you are better than the cow, it's my brother!"

"Playing is a yes, all this is like dreaming. I knew that you are going down. Why are the brothers so nervous? Why are you doing this, scare us..."

When Sha Zuo and Mei Tang both laughed, even though they didn't know how Ye Xuan did it, the facts were in front of him, and Neboshan followed suit, which was clearly controlled by Ye Xuan. Let them feel

great, as the devil jailer being sent to the bottom, to say that they have no complaints about Nebo Mountain, it is obviously impossible.

When I heard the words of these two guys, Ye Xuan also grinned, and my heart was suddenly loose.

In fact, he had been hesitating before, and whether the hundred-year-old jailer in the following Wanluo prison should also use the slave to accept the service. Although Ye Xuan said that it was a hand-to-hand effort, they did not even have the opportunity to resist.

But if it is true, Ye Xuan will have a mustard.

Although he was originally posing as a demon person and mixed with the jailer, it is undeniable that these guys really took him as a brother. When the former Ye Xuan wanted to defeat the original jailer, they even made a force. stand by.

In this case, if Ye Xuan would treat all of the more than 100 jailers as enemies, this matter will have some influence on his heart.

Therefore, Ye Xuan had already had a plan before coming here. If he saw these guys, the other side was afraid, and without the feeling of the original, then they would plant the slave print. After all, it was already centrifuged, sooner or later.

However, if the jailers are still the same as before, they are not in a hurry. If there is a real change in the future, then it will be done.

More than a hundred jailers, in this black mosquito space fort, really do not look down on any storms.

"Go, let me go to Wanluo Prison to go shopping. There was an old man who promised to pay him back. This matter should be done today."

Pointing to Sha Zuo and Mei Tang, they nodded, and Ye Xuan walked to the position where Du's old man's cage was. The two exchanged their heads and exchanged a look. When they shouted loudly, they led dozens of jailers and ran all the way to the front.

The devil who can be a jailer in this Wanluo prison can all be all-night-minded, naturally able to see the situation, Ye Xuan's attitude makes them feel reassured in their hearts, and they only want to perform well, as for the high-level things, Nothing to do with them, they only know that their brothers are now in peace.

After a few moments, Ye Xuan stopped in front of the cage of Du Laotou, and Du Wenxuan, who had been completely stupid in the cage, snorted: "Du Laotou, Yemou is only coming for promise today, you can now swing at any time. The land left."

After that, Ye Xuan waved his hand and the cage was slamming. He received it and disappeared...

Chapter 2697: Difficult left and right

"You... can your kid actually control the cage of this million prison?"

As the pillars of the prisoners were all put away, they disappeared, and their body and the outside were integrated. Even if they did not move, they were directly removed from the cage and instantly regained the freedom of the old man Lu Wenxuan. Suddenly stayed.

Looking at Ye Xuan slyly, I asked a subconsciously, but my head was full of questions.

"Oh, I met with Neboshan's brother. He didn't have any chance to meet him. So he gave me the black mosquito space fortress..."

Ye Xuanchong slammed his eyes and grinned. "Since the entire space fortress is mine, what is so strange to control a cage? In fact, as long as I am willing, I can let The tens of thousands of prisoners have all disappeared, and the whole piece of Wanluo prison has turned into a place of openness."

This is really not bragging, Ye Xuan can indeed do it, and it is only a matter of turning between.

If it was before, if he said so, I am afraid that no one will believe that even the old man Lu Wenxuan will not hesitate to straighten his eyes.

But now, with the fact that life is in front of us, coupled with a strong desire to survive, the federal powerhouses in other prisons are all excitedly stunned, and the sentimental postures are simply one by one. Cried and shouted to find death and live.

The whole piece of Wanluo prison became a vegetable market in an instant!

"Brother, my brother, save my brother, I sent you a space box before!"

"And I still have me, the old man here is quite rich at home, Ye Xuan brothers, I will give you half of it, you will put me as a fart!"

"Ha ha ha, I can't think of these heroes in the human race. Ye Daoyou, the old man is optimistic about you. If you see it as soon as possible, let me go out. Let's make a drink and drink three cups first?"

"Fold you a big flicker, want to ask people to save lives and say that you will die? Installed like a pair..."

"Cough, Ye Daoyou, we are all elites of the human race. We should all love and help each other. Please read it, please open a door first?"

.....

Listening to the noise of these noisy screams, Ye Xuan frowned. When even the two sides of Sha Zuo and Mei Tang gave a wink, the two men will know what to do. Even if the face sinks, they will go straight to the nearest place. In front of a cage.

"The most joyful thing you call, is it sinful to disturb the head?"

"What is the waste with him? It is estimated that it is itchy, so that he is comfortable and comfortable..."

The two men looked at each other and directly banned the prohibition of the cage.

I saw a faint blue electric flash, and a huge blue arc was smashed between the top of the center, and the inside of the cage was stunned and Ye Xuan saw it. The guy who vowed to drink three cups directly smashed. The whole man was squatting down and the whole person was sitting down.

For a time, all the people were silent, and all the people took a sigh of relief and looked at Ye Xuan slyly. The whole person felt bad.

"Cough, what are you doing? How can you abuse lynchings, we are in prison, and we must be civilized in the future!"

Ye Xuan coughed twice, then looked around and looked at the cages around him. He said, "Everyone can rest assured that this kind of thing will never happen again. They are all fellow federals. I They will restrain them and let them stop using lynchings. Although you have cursed me in the past, I have always been open-minded and look at the shares of the federal compatriots. This welfare will still help you fight for..."

Between the words, it is clear that it has to remain closed, and there is no intention to let people go. The guys in the cages are not fools. The faces are gloomy and the eyes are tumbling. When they got up, they all began to think about the strategy of getting out.

It was also at this time that Ye Xuan's mind had once again sounded the system sound of the phagocytic system without warning.

"Hey, congratulations to the host! Get 10,000 points in the federal contribution, and break the ranking!"

"Current points: 29886543 (0)!"

"Current ranking: No. 7997 in the list!"

what's the situation?

Ye Xuan was even stunned.

He just didn't do anything right now. He just installed a ratio. Can you have a federal contribution point? Is this too much too much?

The thought flashed through my mind, and Ye Xuan stayed for a few seconds and then realized it.

In addition to the ratio, he just did one thing, that is, the release of the green man Lu Wenxuan, it is clear that the sudden increase of 10,000 points of federal contribution points is related to this matter.

Lu Wenxuan is a master of the law of the human race of the Federal Republic of China, and his strength is also in the fifth realm of the stellar world. If he is taken away by the devil, it is definitely a great loss for the Federation of the Vulture, and Ye Xuan will be his Released, this is obviously a good thing for the Federation of the Faro, so he won 10,000 points of federal contribution points.

Realizing this, Ye Xuan's eyes are bright.

Subconsciously, he swept his gaze to the cages of the distance, and the excitement almost could not be suppressed.

Tens of thousands of federal prisoners, from the situation just now, as long as he puts the pillars of the cage together, he is the starry mercenary card tied to the federal identity stamped on his god. It will automatically recognize that he saved a federal powerhouse.

Even if they don't have the value of green man Lu Wenxuan, they can reach 10,000 points of federal contribution points, but the key win is a lot, one person and five thousand points, that's all 50 million. What are the five-tube and nine-stage genetic culture fluids?

More importantly, such a large amount of federal points is not only out of thin air, but also at the same time as these federal contributions, Ye Xuan can also harvest a large number of cultivation resources and various treasures.

why?

Is this still asking?

These guys don't know that Ye Xuan can get such benefits. Therefore, if they want to get out of the way, they will collect all kinds of cultivation resources and treasures in the body, not to mention that they are all looted. At least they have to get out of it.

Otherwise, when Laozi learned Lei Feng to do good things?

However, after an inexplicable excitement, Ye Xuan quickly calmed down.

This thing... a little wrong!

It is not that he does not want to release these 10,000 federal prisoners, but for Ye Xuan, releasing them is definitely a disadvantage.

The hidden dangers are even more than the tens of millions of federal contribution points that Ye Xuan has obtained from this incident, as well as the vast amount of cultivation resources and the total income of various treasures.

Because once more than 10,000 federal prisoners have been released, everything that Ye Xuan has in this black mosquito space fortress will be exposed.

Even if the guys didn't even know what he had done after leaving Wanluo Prison, the facts before him were here, just to leak the results, and the consequences, Ye Xuan could not afford it...

Chapter 2698: Long-term investment

"Boy, what happened?"

Just as Ye Xuan was hesitant because of his heart, he was in a state of indulgence. Du Wenxuan, the old man on the side of the road, also returned from the great shock of the moment, and went straight from the cage area where the column had been lost to Ye Xuan. In front of him, he raised his hand and patted him on the shoulder. He smiled and said: "No matter how you do it, the old man has not read you wrong! What troubles, talk to the old man!"

"Okay, you don't have to be cheap and sell it. Now you can go, you can go quickly..."

Ye Xuan smiled a bit, did not say anything, but urged the landlord to leave here: "However, it is best for you to keep a secret when your old boy goes out. It is not appropriate to pass the situation here."

"You are worried about this!"

Although Ye Xuan just said a word, but Lu Laotou is obviously a personal fine, even if he realized it, he laughed: "I said what your kid is upset about, now the entire black mosquito space fortress has arrived. What are the troubles? I don't think it's because of this little thing..."

Ye Xuan's eyes lit up and suddenly asked: "How do you say this?"

"These million federal powerhouses are indeed a trouble. There are many people who have mixed up. Once they are released, it is a huge threat to take the huge secret of the black mosquitoes."

Lu Laotou's micro-maximum head, while talking, had already raised his hand and pointed at the surrounding, and then he took over: "However, this is, after all, more than a thousand federal elites, who can be arrested and imprisoned by the devil. Isn't there a very impressive achievement or advantage in a certain field, or an extraordinary generation with a background."

"For the Federation of Viro, this is definitely a huge talent resource!"

"Before this black mosquito is the devil's master, it's gone. Now it's in your hands. Can you really harden your heart, regardless of the general trend?"

"Of course, just relying on these 10,000 people, to say that it can affect the general trend of the Federation, it is indeed exaggerated, and even the general trend of an empire can not be affected, but have you heard a sentence? Call it the butterfly effect! "

"Who can be sure that after they are released, in the future, some of them will not play a crucial role in the battle of the Wanda Federation against the Celestials?"

"So, these federal powerhouses, you must let go!"

"But this is not to say that you are risking exposing your own secrets and giving up your righteousness. It is really too fake, and the old man can't say it."

"If you want them to keep secrets, it is actually very simple. Let them swear by the squad, and hand over a swear to you. Once someone wants to tell the secret in any form, including being forced to confess. Search for souls..."

"Then, you can be the first to be inspired by the swearing oath that they handed over, and because this vow is related to the Cosmos, so whether you are in the third universe or the first universe, Instant sensing, at that time, only one must be between the two, so that this person can fly away, the gods collapsed under the swearing force!"

"In addition, there is another advantage to this approach, that is the handle!"

"This kind of swearing imprint, even if they do not pass the life, but as long as the oath of the brand has not been recovered, then their heart can never be perfected to perfection. Now the realm is not weak, and in the future, once it is repaired into a realm Going up, this kind of deficiencies will become extremely important, even about how much they can achieve in the way they practice."

"That is to say, as long as you hold the tens of thousands of swearing marks in your hands, then in the future, once there are several federal tops among these people, such as the head of the capital, the emperor, and the like, then you kid. I can make a big profit."

"After reaching that level and level, they must try their best to make every effort to redeem the swearing oath that belongs to them from you, and only to be honest and practical, but not to use other tricks because Between your actions, you can decide their life and death."

"I really have to go to that height. These guys are obviously more afraid of death and will not take risks..."

Without waiting for Lu Laotou to finish, Ye Xuan's eyes are bright, and it is still getting brighter!

It can not only harvest tens of millions of federal contribution points, but also get a large number of large-scale cultivation resources and various treasures. In addition, more importantly, this is equivalent to a long-term investment, and all of the investment is high-performance potential. Shares, when the future is really rewarding, even if only one percent or even one thousandth of the 10,000 potential stocks will take the initiative to return themselves, by that time, the benefits are far from being able to stop.

After all, if you can take the initiative to return, it must have reached a certain level of existence, even if Ye Xuan may have been higher than their level at that time, but this kind of initiative to find a good thing to ask for returns, who would be suspect How much?

With immediate benefits and long-term investment, the world can't find anything better than this.

As soon as I read this, Ye Xuan was excited. Even when the voice of the word was spread throughout the Wanluo prison: "You have heard the words of Lu Laotou just now, I Ye did not want to let you, but people There are so many miscellaneous things that this threatens me too much, so I must swear by the Alliance."

"And, because this strategy is for the old man to help me out, so in order to prevent you from hating, when the oath and surrender a swearing mark, you must add another sentence: Eternal world must not be because of this matter Any way to calculate Lu Laotou."

"My request is so simple and acceptable. Now I can swear, and I will make a vow, and after I have verified it, the pillars around you will disappear immediately."

"Of course, if I feel that the conditions are too harsh and unacceptable, I am not reluctant to leave someone, you will continue to stay in this Wanluo prison, and I will guarantee that the lynching is the same. It will never happen again, but that's it!"

"Of course, in addition to the oath of the League, you must be sure to leave some money to buy life. After all, Ye had exhausted a lot of hardships before, and he almost took the whole black mosquito. Well."

"In this case, there is no reason for all the risks I have undertaken, but you are enjoying it!"

"The oath of the League is only a guarantee for Ye's inherent interests, but it does not reflect the risks that you have with Ye, but there is a slight share... So, Ye's suggestion is that all the cultivation resources in your body. With all kinds of treasures, take out 70% and leave it!"

"Ye Mou had risked the danger of life and death before, but after you did it, you only took out 70% of the resources and treasures. This sale, you have made a big profit..."

When the words came out, the whole Wan Luo prison suddenly sounded cool, and even Lu Xuan, who was on the side of Ye Xuan, was stunned. After a long while, he gnashed his teeth and squeezed out two words: "You see!"

Chapter 2699: First transaction

As Ye Xuan's words came out, the whole Wan Luo prison suddenly became awkward. In the farther direction, there were even some vague voices coming from, but because the voice was not big, and the current situation was in the grip, Ye Xuan did not care. Directly ignore it.

For all that happened in front of him, nearly one hundred people, led by Sha Zuo and Mei Tang, came together. At this moment, all the jailers who were waiting respectfully behind were still confused.

They naturally do not believe that Ye Xuan is a human powerhouse. How can a human powerhouse possess the spiritual power of the devil?

However, these things that Ye Xuan did before did not make them understand. Until now, when Ye Xuan said that the guys had to hand over 70% of the cultivated resources and treasures, the prisoners suddenly All eyes are bright.

When I look back at Ye Xuan's back, the kind of awkward admiration has been completely uncontrollable.

It's still awesome. I've turned so many bends and turns around. At the end of the day, it's the same thing, and the previous ones are fake, but they are so real, so people can't refuse. No arguments!

It's a blessing to follow such a head.

Although these guys have been tempted by some of them to find some treasures and resources, but the fool can think of it, the things that come out and the private collection they have in the body, is definitely a few.

In the future, once they are handed over, or sent back to the Devil's ancestral domain, then, these massive resources and treasures, all of them will be squandered.

Although in order to get these 70% of resources and treasures, they can only really let them all go, but it doesn't matter, the benefits will be fine, as for the guys... the above is the thing, and what is the relationship?

I haven't seen any of the above-mentioned bottom-level demon jailers. In this case, it is silly to catch the opportunity not to seek some benefits for yourself!

I thought about it, a group of jailers suddenly gave Ye Xuan more to death, so good, in order to benefit the brothers, this has to take a lot of risk, ran into such a leading brother... All the life is fixed!

Ye Xuan naturally did not know about the moving and excitement of these devils' jailers. At this moment, he was calm and relaxed, and he was not worried at all. He waited for the federal powerhouses in these cages to respond.

Now the initiative is on his side, he believes that these guys are more anxious than him!

Sure enough, after a while, the entire Wanluo prison quickly quieted down.

More than a thousand federal powerhouses are all caught in the sinking and tangled.

Although Ye Xuan is indeed a big opening for the lion, not only must he swear by the Alliance, but if he keeps his life and death handle in his hands, he still has to deduct 70% of the cultivation resources and treasures... It is worth mentioning that this 70% is impossible. If you mix water, the oath is placed there. It's really a matter of hand and foot.

In this case, anyone will feel as if they have been smashed a large piece of heart, and the pain is just a whim.

It's just that people are telling the truth, let them even argue a few words, and there is no chance that the bargaining will lower the proportion of this deduction a little.

The oath is really only a means to protect the inherent rights and interests of the people, but it does not reflect the burden of the risks that people have taken before. Therefore, these 70% of cultivation resources and treasures are only for the sake of the shackles. It is.

Although the meat hurts, but compared with your own life, this account, fools will count!

In this case, after some hesitation and entanglement, someone quickly made a decision.

"Well, the old man now swears by the Alliance, this is my swearing mark, and the space box is the 70% cultivation resources and treasures that the old man has collected for many years!"

More than a thousand meters away from the right side, a long-haired old man's hand raised his hand and hit a brand of gods. At the same time, there was an ordinary space box that was thrown out: "The 70% cultivation resources and treasures in the swearing mark The additional terms, therefore, in this regard, the old man can't do anything, and please ask Ye Daoyou to verify the correctness, immediately let me go!"

"Do not panic, Yemou still speaks!"

When Ye Xuan laughed even, he first took the swearing slogan into the sea of knowledge. After some verification, he raised his hand and caught the small box of space. All kinds of cultivation resources and treasures inside, suddenly let him be a burst of eyelids.

Sure enough, it can be regarded as a treasure by this level of existence. Even when the jailers searched, they were left with nothing to hand over. Naturally, they are not all things, plus a large amount, just this one. The transaction made Ye Xuan feel fascinated.

"Oh la la..."

As the transaction was completed, Ye Xuan's mind had already collected all the prisoners' pillars around the old man, and they were directly hidden in the folding space and disappeared.

"This predecessor, you are not too dry, I asked if there is any need to go, if there is, the main passage of the bottom compartment will be opened later, and you will go together. If not, I will immediately open the main passage of the bottom compartment. "

Taking advantage of the people, Ye Xuan's attitude is also more polite. He bowed his hand and smiled and said: "This is also for your safety considerations. Let's go together, how good are the hordes? The outside is very dangerous... .."

The old man took a sip of his mouth and bite his teeth. He never snorted again.

The old man next to Ye Xuan's body was shaking his head and sighing. He was sure, and the 10,000 federal powerhouses were all afraid of hating him.

However, hate to hate, with the one that Ye Xuan specifically added in the oath, these guys are helpless.

From this point of view, this kid is not only careful, but also has a conscience, and ultimately did not see the wrong person.

As soon as I read this, Lu Laotou suddenly accepted his life. Since then, he has become a shackle with Ye Xuan...

At this time, Ye Xuan arched his arms and smiled. He was once again saying: "How are you thinking about the Taoist friends? I have a lot of things to go down this day, but my body is a little lacking, or... Will you discuss tomorrow?"

After that, Ye Xuan waved his hand and turned to look like he was leaving.

At first glance, the nearly tens of thousands of federal powerhouses around the world understand that he is just taking advantage of the situation. The roots that have been hated by one heart are itchy, but the relationship between life and death, they simply do not dare to come by sex. In case Ye Xuan suddenly changed his mind tomorrow, he did not plan to do this again.

Or, increase the original 70% to 80%?

That is really a dog day!

One thought about this, the surrounding tens of thousands of federal powerhouses suddenly panicked one by one, and the whole Wanluo prison once again smashed up, only this time, the word of mouth, all asked Ye Xuan to accept the oath of the brand and space box, All kinds of crying crying and looking for death, I have to send the baby to his hand...

Chapter 2700: Go slowly and don't fall

"Ye brothers, my brother, my pledge has already been ally, this is a swearing mark, you go!"

"And mine, all the 70% of cultivation resources and all kinds of treasures are in the small space box..."

"Ye Daoyou, let me do it first, go out and breathe!"

"Don't break the team behind, you don't understand from near to far? I am closest to Ye Daoyou..."

With the original old man successfully completing the first deal with Ye Xuan, a lot of noisy buzzing sounded loudly.

More than 10,000 imprisoned federal powerhouses all swear by the initiative, and then they have selected the cultivation resources and various treasures that have been selected in the space box, all of which are ingeniously directed to Ye Xuan. I threw it over.

This scene is really too sultry. If you say Ye Xuan, it's the old man who is used to the big scene, Lu Wenxuan, who has opened his mouth and looked at the space box. It looks like it is raining. I am whistling.

You know, in each of these space boxes, you can have a lot of cultivation resources and various treasures.

Now even the space box can be almost piled up into mountains. If you put all the treasures inside to pile up together... The amount can't be imagined, I am afraid that the stock in the official treasure house of Tianhe Star is enough to be comparable.

"Served! I have been in the sand for the rest of my life!"

"Yeah, my Meitang had only heard of thousands of arrows before, and the scene must be scary, but until today I realized that Wanjian's hair is a fart. It can compare the thousands of space boxes in front of me. Is it all right? There is no comparability..."

Behind Ye Xuan, the jailers of Wanluo Prison have already slammed the scorpion with a slap in the face. Only Sha Zuo and Mei Tang are quite good at psychological quality, and they can finally speak two sentences.

"Don't panic, come one by one, all have opportunities, all have opportunities..."

At this moment, Ye Xuan's master had already been happy with his mouth, but he insisted that he did not dance on the spot. Instead, he looked like a serious expression, while constantly receiving the swearing mark of flying, while his hands kept on In the arms of the sea, I took a small box of space that whizzed.

While collecting them into the body, they will release a glimpse of the contents of the space box.

Almost every time he looked at it, his eyelids had to jump a few times. A group of **** who had killed a thousand knives had good things. When they entered the jailer team, they matched the things they took, and one at the time. All of them looked very painful. Now that they saw their old books, Ye Xuan realized that the guys were all loaded at the time.

At that time, I took out the resources that supported Ye Xuan's entry into the enemy's back.

This is so good, let Ye Xuan search now, but more peace of mind!

Although there are a lot of space boxes, there is a corresponding atmosphere in the branding of a swearing oath, so it is not in a chaotic situation. After a whole hour, Ye Xuan finally verified all the oaths. Nothing wrong, and the resources and treasures in the 10,000-space box have been verified.

"Okay, it's already done here, let everyone wait, all the cages, give me... open!"

There was a smile on his face. At the moment, Ye Xuan had not rushed to the surrounding 10,000-year-old god, and he nodded. With his last light drink, the whole piece of Wanluo prison, suddenly spread a lot of dense. The sound of the card.

More than 10,000 prisoners, including a few cages with no one inside, all the pillars that surround the circle, all rising upwards, and the blink of an eye was taken into the folding space of the Wanluo prison, completely disappeared.

In an instant, the whole piece of Wanluo Prison, which can hardly see the head at a glance, can no longer see a cage. This huge space has become a canal. This scene has never been seen by jailers such as Sha Zuo and Mei Tang. For a moment, he suddenly opened his mouth and stupidly went there again, revealing a deep confusion.

After a few moments of sluggishness, both Sha Zuo and Mei Tang returned to God, and turned a blind eye to Ye Xuan, pleading for Zhi.

"Hey, it's not about people here. We... are we jailers, are we not going to be unemployed?"

"Play is a yes, or... We have to leave a hundred or eighty and leave it here, or the brothers will be very difficult to adapt for a while, and the mentality has not been adjusted!"

Upon hearing this, the tens of thousands of federal powerhouses who had just won the freedom, all of them immediately cast a slap in the face of Sha Zuo and Mei Tang.

This is really irritating.

This has already sworn by the Alliance, surrendered 70% of the treasured cultivation resources and various treasures, and finally just won the freedom. These two guys just want to adjust their mentality and adapt to the new changes, they want to let 咱Stay and shut down for a while.

If there is no affidavit imprinted in the hands of Ye Xuan, these guys estimate that there are many people immediately, and they want to kill Sha Zuo and Mei Tang on the spot.

"Hey, your point!"

When Ye Xuan turned his eyes, he turned his face and hated the expression of iron. He said with regret: "Besides being a jailer, can you not have any other ideals? This thing goes back and says, I will take you to the top. Make a living."

After that, he did not pay any attention to Sha Zuo and Mei Tang and others. He smiled and shouted at the surrounding federal squad, and he said, "The transaction is completed, then Ye will not give you anymore. Now Just open the main channel of the bilge, everyone line up, one by one, go slowly and don't fall..."

After that, Ye Xuan raised his hand and waved, and the central area of Wanluo was indeed the bottom. When there was a wide passage of 100 meters in diameter, underneath a large black film, the familiar starry sky outside the funeral star field could be seen.

The surrounding tens of thousands of federal powerhouses were immediately excited. They had been detained for more than a decade in the Black Bass Space Fortress. They had never thought of a day of separation.

These thoughts turned into feelings all over the heart. The hatred of Ye Xuan by these guys was inexplicably faded. Although most people are still only screaming, the figure is even turned into a streamer. The huge film of light disappeared.

However, there are also many people who are open-minded. After this incident, the mood has risen and fallen, and there are signs of breakthrough.

These existed in my heart, and there was a feeling of enlightenment in an instant. Many people suddenly laughed up, and then they rushed to Ye Xuan, and they sang the words "Ye Daoyou, there will be a period!" Falling into the huge light film, it disappeared quickly...

Before and after, it was only ten minutes, and the entire Wanluo prison was completely empty. Ye Xuan smiled and shook his head, raising his hand, and the huge black film on the central ground of Wanluo Prison had disappeared. The main channel of the bottom compartment, close again!
