

## Super D. S 2701

Chapter 2701: Fried fry

Black mosquito outside the space fortress!

With the opening of the main channel of the Battlestar's bottom compartment, more than 10,000 federal powerhouses rushed out of the passage in just ten minutes, appearing outside the funeral starry sky... This scene is actually extremely eye-catching.

Unfortunately, there is a demon in the distance who is waiting for the squad to pass by. So, with the seven or eight members of the squad scout, all of them will be hidden behind an asteroid for the first time. The scene was quickly seen by them all the way.

What is more unfortunate is that this demon is scouting the squad, which does not belong to the Black Bass Battlestar, but from one of the other nine Devils Space Fortress.

In the funeral star field, although the ten space fortresses of the Devils are basically responsible for one star field, but because there is no clear dividing line, the devils sent out in the two or three space fortresses are actually scouting. It is also often inadvertently mistakenly entered into the jurisdiction of other space fortresses.

This is the case when this democrat scouts the squad.

The seven or eight members of the squad were still awkward. How could the number of demons in this star field be so rare, four or five days in a row, only a dozen or so.

I didn't expect the words to just fall, I saw such a scene. There is a Wanluo prison on the bottom of every Devil's Battlestar. Therefore, this demon is scouting the seven or eight members of the squad. The first time I understand what happened. There is no doubt that the Black Bass Space Fortress In the midst of a big mess, otherwise, it is absolutely impossible for such a big event in which all the prisoners at the bottom of the Wanluo prison are collectively released.

"This matter must be reported immediately, maybe we will make a great contribution!"

"Yes, although the mining mission that we came out this time has not been completed, but things are urgent, we must return immediately!"

"If you don't want to be late, then go back quickly. Our space fortress is still far away from this star field. At our speed, we can only reach it for more than ten days, and we can't delay it!"

After some deliberation, the demon squad immediately turned around and ran towards it, and soon disappeared in the distant space of the comet river, gradually drifting away...

.....

Tianhe Star!

At the same moment that Ye Xuan released all the 10,000 federal powerhouses, the entire Tianhe Star exploded again!

When he released the old man and the other old man who completed the first transaction, Ye Xuan's federal contribution points were only a small change.

But then, as he opened more than 10,000 cages at the same time, all the federal contribution points were in place at the same time, which directly led to the result of the Federation's contribution to the internal affairs hall within the Federal Administrative Hall. The list of people in the list is changing again.

And it is a huge change, far beyond the horrific changes of the past.

People list: 1998!

Ye Xuan, Star Mercenary No.: tha13148080! Current federal contribution points: 101876543 (0)!

Previously, Ye Xuan's ranking was the top 8,000, and the federal contribution points were nearly 30 million.

Now, directly into the top two thousand, are close to the list. Its federal contribution points, more than 70 million points.

This is actually normal. On average, more than 10,000 elites in the federal field who have been released are only giving him 7,000 points. The key base is large. The average of seven thousand is multiplied by 10,000, which is directly 70 million.

As a result, Ye Xuan's federal contribution points have already exceeded 100 million, and his rankings, if he is more than 900, will be able to break into the list!

However, his cultivation is still the eighth order of the star nuclear environment.

All of this is done in just one day...

"God, this guy is too abnormal!" Zhao Long sighed and sighed. After saying this sentence, it was speechless for a long time.

"It's over, it's over, and at least it's going to alarm the top of the emperor..." Bai Zhengjun sat down in his chair and muttered, as if he had lost his soul.

"I, I... I rely on it!" Star Thief, Black Luoying, only felt black in front of him, and the black hole in the middle of the court was in the middle of the middle. He didn't come up with a breath and lived alive on the spot.

"Suck! This guy... is big!" Master Xu's eyes sighed and swallowed.

"Green Luo, immediately in the name of the Xuanyuan family, to the Tianhe Star official request to use the Tianhe stars and air super brain, contact the upper level star network!"

Xuanyuan Ziyang holds the right fist tightly, and his body is trembled with excitement. He shines through the fire and glares, staring at the top of the big screen of the Tianhe Star Federal Affairs Hall. Xuan's name, the command, immediately conveyed to the green radish on the side: "Tell them, apply for two

consecutive liaison contacts, I have to contact the Emperor Star directly, let Xuanyuan's family immediately send me, each When the family core Tianjiao decides to compete for the sequence, they can have a sequence team."

It is said that the green color has changed greatly, and the voice is exclaimed: "Miss, your accumulation is not enough. To apply for the inheritance sequence of Xuanyuan's family, you should at least wait until the black hole is full of success."

"Otherwise, if you fail, you will no longer have the opportunity to enter the power core of the Xuanyuan family. The core arrogance of each family has only one chance to compete for the sequence. We can't be too reckless!"

"I don't have to say much, I have decided to put everything on Ye Xuan."

Xuanyuan Ziyang waved his hand unwaveringly: "Go and do it, I believe he will not let me down, although he only has the eighth order of the star, although I don't even know how he did it all, But I know that in the history of the Federation of Faros, there has never been anyone, and the achievements in this realm... can surpass him!"

Speaking of this, Xuanyuan Ziyang's words suddenly sighed and suddenly he said, "The situation before it was sensational, but he was only the first 8,000 people. This kind of talent caused the dusty country. There is no need to say more about it, but if you want to attract the attention of Emperor Star, there is not enough weight."

"But this time is different. He has already rushed into the top two thousand in an instant, far more than me. If there are more than a thousand, he will be able to rush into the list. You must know that any one on the list, even in The three emperors are all guests."

"This time, Ye Xuan has been destined to be eye-catching by the powers of the major families of the three empires. People like him are destined to enter the list, and before he enters the list, he will pay less. At this point, the old emperors of the three emperors are more aware than the ones I see."

"So, now I am not deciding whether to choose Ye Xuan, but whether people will decide to choose me, so simple, you have not seen it yet?"

"I realized it early!"

The bitter color of Green's face: "I can't accept it for a while, that kid, it's really... too enchanting!"

Chapter 2702: When you drink

After the handling of the bottom of the Wanluo prison, Ye Xuan did not rest on the first floor, even with nearly a hundred jailers such as Sha Zuo and Mei Tang returned to the second layer of the Devil's Cave.

Then, he handed over a prisoner to Buck, and arranged for him to provide a large number of cultivation resources, and urged them to upgrade their strength as soon as possible.

When it came out, out of caution, Ye Xuan secretly smashed Buck, and kept a little more in mind, in case they had a change, after all, there was no arrogance as a demon slave. It is always good to be more careful.

However, Ye Xuan also deliberately stunned. This is a matter of fact that Buck has a number of people who can't spread out, so that if someone doesn't have two hearts, they really want to show their suspicion, and they are afraid to centrifuge.

This is really not suspicious of Ye Xuan. After all, it is a devil, belonging to the enemy camp, and has to be like this!

After doing all this, Ye Xuan returned to the fourth floor of the Black Bass Battlestar with Limosa, Naboshan and Lu Laotou.

Right now, the luxury lobby on the right side of the fourth core area has become the site of Ye Xuan, both Naibo Mountain and Limos, and they can only find a place on the periphery of the fourth floor.

"Bad boy, have you really taken this entire Black Bass Battlestar?"

After the two mosquitoes and the Nebo Mountain left, Lu Laotou came to the front with a mysterious look: "How do I feel like dreaming with the old man? Don't say anything else, tell me about that. How do you get rid of the two black holes? I think they are very obedient. This is a mystery!"

"If I said that because Ye is a good character, they have been influenced by them, are you?"

Ye Xuan directly turned a blind eye and started haha.

"Cut, you simply say that you are the illegitimate son of the Tianji tribe, and this credibility is even higher."

Lu Laotou immediately smashed, and the sorrowful resentment stared at Ye Xuan, full of contempt. The mouth seems to be still squatting over the river to break the bridge, the words of the people are not old.

"You old man, I haven't let you swear by the league, do you want to remind me? Also... other people are gone, what are you still staying here? what?"

Ye Xuan's heart smiled, but his face was a sinking: "Or, you have been influenced by Ye's character. I want to stay in the black mosquito number to do free hard work? Although this can be, I must declare it in advance. If you don't have a salary, you can take care of it at most!"

"Don't be narcissistic, if the old man doesn't look at the space ubiquitous space folding method in this space bastion, I will study it carefully. If you are a kid, you can't vomit your bones. How many cultivation resources do you give? Without leaving."

"Space folding array?"

Ye Xuan's eyes immediately lit up: "This is good, I will lend you the black mosquito number to study, but after you have achieved the results, you must help me brand a space folding array on a small private battleship, oh, when The type is a small private battleship, but the space inside is like the Battlestar. It's exciting to think about it."

"Hey? Your kid is a bit savvy, I just got through it, and I actually went with the old man."

Lu Laotou's face showed a strange color. For this, there is no rebuttal. Then, "Space folding technology is the latest achievement of space technology in space technology. It has only appeared in recent

hundreds of years. A small battle that was used more than two hundred years ago captured a space fortress using this technology..."

"Unfortunately, after studying for more than two hundred years, although we now use this space folding technology in a small scale within the various levels of the space fortress of the Federal Republic of China, it is quite immature."

"As for the use of small private warships, it is even more impossible."

"But this kind of thinking is obviously a promising research direction. What I am most interested in is the pioneering thing in this technology. As long as my research has made a breakthrough, the space folding technology will gradually become popular. A large number of federal powerhouses have small private warships that use space folding technology. This is a matter of merit..."

During the speech, Lu Laotou has already got up, and a hand stretched out to Ye Xuan: "To study the space folding technology of the Black Bass Space Fortress, you must travel all areas of this space fortress. My authority is not enough. The door can't be used anymore, your kid understands what I mean?"

Ye Xuan shrugged his shoulders, even when he even made a spiritual branding into the hands of Lu Laotou: "This is the spiritual brand of the devil. If you are a demon, you can continue to survive, but this is obviously impossible, so, top If you have more than three months, you will be exhausted. Then you will come to me again. With this spiritual brand, you can open all the space doors."

"That's it, I will go to work first..."

Lu Laotou turned and walked away. At the same time, he reminded Ye Xuan a few words: "Your boy has just got a lot of cultivation resources and various treasures. There are even some legendary, epic and even treasure-level things. But I Advise you not to rush to the scales, carefully look at the eyes and blind your heart."

"Although you have already controlled the black mosquitoes, it is always your biggest shortcoming to be too weak."

"Limosa and Naboshan can be used for you, but after all, it is external help, don't rely too much, and then, people are now controlled by you, it does not mean that you will always be controlled by you, between black holes. On the strong, there is no such thing as a dead end. You have to be a big man, and you have a big heel!"

After the words were finished, Lu Laotou's figure had disappeared and he went out of the hall.

However, Ye Xuan even stunned it. After a long time, he slammed his hand to the direction of the disappearance of the old man's body: "Thank you for your predecessors!"

This discourse, for Ye Xuan, is really tantamount to drinking!

Previously, his subconscious mind always believed that all the magic slaves, after being controlled by his slaves, had no chance to turn over.

But now I think about it, this is obviously not the case.

You must know that the black mosquito mother was also under the control of a certain tribe of the demon in the magical nucleus of the brain.

Regarding the prohibition, the black mosquito mother also said that once its cultivation is from the middle of the sixth stage of the black hole to the late seventh stage, then the black mosquito mother can refine it instantly.

In this case, the effect is actually the same, but it is more arrogant and thorough slavish, why can't it be refining?

Once the black mosquito mother or the repair of Nebo Mountain breaks through again, beyond the black hole, into the ninth big realm of the starry sky, the ninth-level slave print, can they enslave them?

Or, at that time, I am afraid I have to plant another level 10 slave print?

This kind of thing can obviously be spread to all other magic slaves. Does it mean that all the magic slaves, once repaired to break through a big realm, will have to upgrade their slaves?

If you really want to do this, it will be enough trouble to upgrade the slaves in the future. Ye Xuan suddenly feels a headache...

Chapter 2703: Return to Tianhe

Regarding the upgrade of slave printing, Ye Xuan's heart has been secretly vigilant, but this matter is worry-free in the near future. After all, even the mosquitoes that have entered the late black hole are only in the seventh stage of the black hole, and they have to enter the next big realm. It is still too early.

However, among the following large number of low-level demon slaves, I am afraid that there will be some existence of eight or even nine orders in a certain realm.

These exist because of the low realm and the speed of strength improvement. Under the circumstances that the cultivation resources are largely opened, the speed of improvement is obviously not slow. Therefore, the time to break through a big realm is really not much.

The matter has to be prevented.

After some indulgence, Ye Xuan even issued instructions to Buck to make all the magic slaves in the Black Bass Space Fortress a roster, to be divided into strengths, especially those that have reached a certain realm. The existence of the later period, the focus is on, once it reaches the ninth order, immediately get a small roster and hand it to Ye Xuan.

In this way, Ye Xuan can prepare a higher level of slave printing in advance.

After doing this, he completely let go of his heart, and did not carefully look at the tens of thousands of space boxes. Anyway, the treasures have already arrived, and they will not fly away. If you look back, you will see it.

For him, the most important thing at present is obviously to raise the realm of strength again, so that he can reach the ninth stage of the star nuclear environment, that is, the great perfection of this great realm, and then go one step further. You can enter the second big realm in the back!

Before Ye Xuan all the way to improve the realm of the road, to the seventh stage of the star nuclear environment, there has been a hidden danger of the realm of the realm, and later in order to compete for the position of the first layer of the prisoner of the Wanluo prison, forcibly upgrade to the star environment Eight steps, this has already been a bit of a move.

Originally, he did not intend to sneak out again in the short term.

But now, because he succeeded in taking the Black Bass Space Fortress completely, and because of the triumphant progress in the federal contributor list, the heart of the situation has been greatly reduced, so Ye Xuan's state of mind has been honed, so that repair The hidden dangers of soaring too fast have been buffered by the sublimation of the state of mind.

That is to say, now, even if he enters the ninth-order great consummation of the star nuclear environment, there will be no hidden dangers of realm instability.

But that's all. If you want to take this opportunity and rush into the first step of the meteor, it is obviously not appropriate. After all, it is a leap in a big realm. If you don't say anything, the mood is perfect, still much more. Prepared.

Taking into account all of these, Ye Xuan decided to make a sigh of relief, and to raise his own cultivation to the ninth stage of the star nuclear environment.

After achieving this, his plan is to add another Tianhe star immediately.

As for the purpose, it is natural to use a 10 million federal contribution points in the federal affairs hall of Tianhe Star to exchange a bottle of ninth grade culture medium.

Of course, if the number of stocks is more than one bottle, Ye Xuan does not mind to exchange a few more bottles. Anyway, his current federal points contribution point has passed the 100 million mark, no need to use it, and it is also a number. It's fun.

The top-level treasure of the nine-level gene culture solution is naturally impossible to store in the official treasure house of Tianhe Star, but through the starry sky of the administrative star, the exchange information can be transmitted upwards at the first level.

According to Ye Xuan's estimation, this nine-level genetic culture solution should be in the official treasure house of the imperial dynasty's imperial star.

However, once the outside administrative star has paid 10 million federal contribution points to apply for redemption, the above will directly use the transmission array at the first level, and the items exchanged will be transmitted in the first time.

Of course, ordinary ordinary items can't enjoy this service. After all, it is expensive to send items from the emperor's immortal star, but this level of treasure is to show an efficiency, a million-federal federal contribution points redemption The reliability of the system, so even if the consumption in the transmission process is large, but in view of this invisible publicity effect, and the resulting turbulent effect, the official treasure house of the Royal Star must also spare no effort. of.

In other words, as long as Ye Xuan went to Tianhe Star and applied for a redemption, in a short period of time, at most one day, he will be able to get the nine-level genetic culture solution that he dreams of.

As long as you can do this, for Ye Xuan, it is enough!

As for the resulting identity exposure, the large number of strong followers of Tianhe Star, even staring at the same kind of response, Ye Xuan did not care.

Because he has the confidence!

It is true that in the Tianhe Star, there must be a large number of unscrupulous eyes, and now they have been sweeping around with vigilance.

Bai Zhengjun!

Zhao Long!

Even including the star thief black Luoying!

But even if Ye Xuan Guangming is entering the Tianhe Star, the existence of these black holes is absolutely not dare to blatantly start with Ye Xuan.

Now Ye Xuan, has become a legend, the heart of the people, the existence of the top two thousand people, more, represents the identity and value of the entire Wan Luo Federation on the table.

If these guys dare to start on Ye Xuan on the table, Ye Xuan even has the confidence to shake his arms and let all the federal powerhouses in the Tianhe Star attack them.

The power of example and idol is sometimes endless.

This point is not only that Ye Xuan understands that a few of them are in the heart of the candle.

Therefore, even if they want to shoot, they can only be outside the Tianhe star in Ye Xuan.

As long as Ye Xuan out of the Tianhe Star, no longer under the cover of the Tianhe Xingchen Defence Array, then, with the Black Mosquito Battlestar, he is not afraid of anyone.

Don't forget, the Devil or the space bastion of the Celestial Family is different from the Space Fortress of the Federal Republic of Viro.

The space fortress of the Federal Republic of Varo is not able to reap the body, because although it uses space folding technology, it is not mature.

The Devil's ten scouts, the Space Fortress, all use mature space folding technology. Even the low-powered Ye Xuan refines the ordinary starry sky that will serve as the intelligent control center of the black mosquito. Thus, after realizing the magic weapon that the whole black mosquito has become his own, he can take the Battlestar, together with all the strongmen in it, all of his bones into the body.

No one else knows about this incident. Ye Xuan is returning to Tianhe Star alone. Of course, this is superficial.

Once he comes out of the Tianhe Star, if he encounters a blockade, he will throw a high-level space fortress if necessary, and there will be two strong black-holes in the space fortress. One person, or the late black hole!

These thoughts flashed through my mind, and Ye Xuan couldn't help but look forward to returning to Tianhe Star soon after.

However, all this has to be carried out after his cultivation has broken through to the ninth stage of the star nuclear world.

Chapter 2704: Nine-order grand perfection

"Hey, find out the origin of the star nuclear, is it starting to extract energy?"

As Ye Xuan threw a large number of star nucleus sources into the phagocytic system, the system's prompt sounded even in his mind.

Finally, is the nine-order big perfect?

This thought flashed, Ye Xuan could not help but get a positive reply.

Soon, the phagocytic system activated the blood talent of Ye Xuan's starry engulfing beast, and quickly and incomparably began to extract the essence of the star power from these nucleus sources, continuously injecting Ye Xuan's body, slowly expanding his body. The meridians gradually turned into a torrent, and rushed toward the ninth-order bottleneck of the first big realm of the sham.

Throughout the process, Ye Xuan has always closed his eyes, and his consciousness has been guarded by Yuan, as if he came to the vast expanse of the Qixing River, surrounded by silence and distant, exudes a simple atmosphere of direct soul.

"Roar!"

An earth-shattering roaring sound came from the depths of the endless void, attracting Ye Xuan's consciousness and the picture.

A vast and huge claw like a sky stretched out from the endless darkness, and when it was pulled at random, it instantly collapsed and collapsed, and collapsed a whole field.

Then, from the endless darkness of the darkness, a round and flat head stretched out, and there was no end to the chaos and hustle and bustle around the eyes.

This is a giant tortoise. A piece of striate on the body has such a large galaxies. It climbs out of the darkness, and the pressure of the atmosphere that envelopes the whole universe shrouds the emptiness of this side. Live, it will soon collapse...

"call....."

Ye Xuan suddenly opened his eyes, and his ears heard the rapid breathing in his mouth. He was shocked that he had already sweated and narrowed his back. He was shocked by the starry giant turtle he saw during his cultivation.

A small piece of nail on the carapace is enough for a whole galaxy.

The free movement of the forelimbs collapsed the endless void of an entire galaxy...

Is this horrible giant turtle really possible in reality?

What is the relationship between it and the imaginary pieces that it has cultivated?

This giant turtle Ye Xuan is not the first time I have seen it. Although it is not every time I can see it swimming in the Qixing River, I have to sink into it, under the influence of some kind of atmosphere. In order to be realized.

But when he first cultivated the sham of the hole, he once saw it once.

This time, the breath brought by the giant tortoise is even more horrible!

It is no wonder that just a broken work method has been identified by the phagocytic system as a star-studded treasure. Ye Xuan is completely unimaginable. If it is a complete sham, its grade will be so horrible. ?

Looking back at the quaint atmosphere that the talents feel, Ye Xuan's mind suddenly appears two words: the wild!

The quaint atmosphere, in addition to the legendary era, where can there be?

In addition, the huge giant tortoise like the starry sky, I am afraid that only the fascinating era of the wild can appear.

Is it true that the ruined pieces that I have cultivated are from the wild?

This thought scared Ye Xuan a lot, but also made him feel excited, but obviously, this answer, he can not get.

Just as Ye Xuan was somewhere in the sky, the system prompts in his mind had quietly sounded again.

"Hey, congratulations to the host, the realm of the realm! The current realm: the ninth order of the star nuclear!"

Nine steps?

Is the star nuclear world perfect?

Ye Xuan stunned, and immediately he was pleasantly surprised. He quickly looked at his own situation and found that the power was several times stronger. The grades circulating in the meridians far surpassed the starry spirit of the gods, and it was even more powerful. Rujiang, inexplicably gave him a strong confidence!

"It's time to go back to Tianhe Star!"

"Nine-level gene culture fluid, you must win, you can never drag!"

After the end of the cultivation, Ye Xuan thought about it, even after determining the next line.

In the hand, the star-shaped mother crystal box containing the immortal level of super-brain fragments of the immortal world was taken out, and Ye Xuan dispelled the power of the gods and penetrated into the star-shaped mother crystal box. The result is not even the slightest breath of life.

Although the fragments of the super-brain of the starry sky are not completely annihilated, as in Nirvana, the several quaternary gene culture fluids that were previously dumped by Ye Xuan into the star-shaped medullary box are obviously insufficient. Its activity wakes up.

The only chance is that there are only nine grades of the culture medium.

After the decision, Ye Xuan immediately got up and turned over, and the star-shaped mother crystal box was once again included in the immortal world.

It was also at this time that Buck entered the fourth floor of the black mosquito spaceship, holding two booklets in his hand. After standing up, he reached out and handed it to Ye Xuan: "Master, all The demon slaves all registered and booked, detailing their degree of cultivation as a realm. Another booklet is a magical slave who has reached the ninth order in all major realms, a total of thirty-eight."

"These two books are copies, and I still have an original one!"

"Okay, I understand!"

For Buck's carefulness, Ye Xuan once again sighed, and then opened the small roster that is in the realm of the nine-order great perfection in all major realms.

These thirty-eight guys are basically the magic slaves of the satellite and the planet, that is, the third realm and the fourth realm. If Ye Xuan wants to guarantee absolute control over them, he only needs to refine thirty-eight. Level 4 and Level 5 are nothing but trouble.

Before going to Tianhe, this thing must be solved.

Otherwise, if there is a sniper after the Tianhe Star, and it is in the backyard of the battle, it will be really depressed.

Although thirty-eight demon slaves can't stand the sky, it is a hidden danger.

After spending a little half a day, Ye Xuan refining the required 38-level 4th and 5th-level slave prints, and then extending the mental power to explore the third demonic elite living area. Some time.

In the end, Ye Xuan targeted the magic slave named Wen Jiu. This guy's cultivation is not weak, reaching the ninth-order great perfection of the fourth world of the planet.

And because it happened to take a break, this Wenjiu was not on duty in the third-floor computer room, but in the first floor of a villa in the living area.

Since Ye Xuan has taken charge of the entire Black Bass Space Fortress, his sorcerer is no longer divided into elites or poor people by his ability to cultivate, only his position.

This guy named Wen Jiu is not the head of the third-floor computer room, so even Dongfu can only live with people.

Taking into account the strength of the other side is far beyond their own, Ye Xuan called the mosquitoes together, the two quietly entered the villa of Wen Jiu.

The reason why this is done, instead of directly planting another five-level slave print, is because Ye Xuan wants to make sure that after the realm of these magic slaves breaks through a big realm, is it really possible to break free of the original slave prints? The effect of slavery...

Chapter 2705: Little ancestors came

The result is no suspense!

After an hour, Wen Jiu broke through, and then restored the original consciousness of the mind, and it seems to retain the memory of becoming Ye Xuan magic slave.

This guy is also very savage, actually wants to sneak into the computer room area, through the communication system of the Black Mosquito Battlestar, to report to the other nine Devils Battlestar.

Of course, he couldn't do this. Even if he went to the computer room and controlled the communication system, he didn't go through Ye Xuan's approval. This guy didn't want to send any signal.

Because the starry sky super brain, which is the intelligent master control center of the Black Mosquito Space Fortress, was refining by Ye Xuan, these Xiao Mingtang could not escape his induction and control.

Ye Xuan let the mosquitoes take control, control this guy, and then directly planted a five-level slave print, everything, from now on.

But Ye Xuan's mood is not very good.

Although Wen Jiu's performance is also confirmed by Ye Xuan's speculation, this speculation is not a good thing, which means he can be busy in the future.

It is a pity that this matter has been completely eradicated. At the moment, Ye Xuan has not had the time to ponder the specific measures. There are too many things in front of him. They can only be put on hold for a while and then deal with them.

Soon, he planted the other 37 seven-level and five-level slaves, and there will be no similar troubles for the time being.

Buck will also be closely monitored. Once the eighth-order magic slave is found to enter the ninth stage of a certain realm, it will be reported to Ye Xuan in advance.

In a short time, it can only be handled this way.

After solving this problem, Ye Xuan summoned Neboshan and Limosa and Buck and other confidants all over, so that he was so embarrassed, and then he was able to leave the Black Bass Space Fortress and his body appeared. In the void of the funeral star outside the space fortress.

After calculating the time, he was invaded into the Black Bass Space Fortress for more than a month, and now suddenly returns to the outer universe of the void, suddenly let Ye Xuan endless.

Looking up, there is a huge black Death Star in sight. The Black Bass Space Fortress hovering over the back of this black Death Star, on the outer edge of the core of the funeral star.

Going a long distance further, it is said that it is the natural wormhole area that is famous for several major cosmic planes. Through the natural cosmic wormholes, you can go to the first universe and have a large number of federal families. The second universe, even the vast and innocent starless domain.

Of course, if you go to the latter, I am afraid that there is no way to come back.

In the first universe and the second universe, natural cosmic wormholes connected to this side have been discovered.

Perhaps there are also those in the unknown star field, but it is still to be discovered!

Between the thoughts, Ye Xuan raised his hand and took the Black Mosquito Space Fortress into the body. From the outside, a big guy with a diameter of 10,000 meters is indeed scary enough, but since the whole black mosquito has been refining by Ye Xuan For the magic weapon, so send and receive by heart.

Moreover, due to the use of a large number of mature space folding technology, even Ye Xuan's current realm of strength, a large number of magic slaves in the black mosquito space fortune in the body, no problem.

It's not that Ye Xuan doesn't want to drive the Black Bass Space Fortress to the Tianhe Star. If you want that, you only need a short-distance space jump that consumes a lot of energy, which saves him a lot of time. After all, it's a funeral star. At the outer edge of the core of the domain, even at the speed of the Purple Star Shuttle, it takes at least seven or eight days.

But that would be tantamount to directly exposing everything that Ye Xuan did. The Black Bass Space Fortress is shaped by the space bastion of the human race, but all the space bastions of the human race have numbered information. .

No one will pay attention to this funeral star field. I really want to go to the vicinity of Tianhe Star. At that time, the administrative star inside the Tianhe Star scans the brain and scans it directly.

Therefore, it can only be taken in the body.

As for the sniper, it is completely unreasonable, and it is different from the current situation.

In fact, in addition to the Black Mosquito Fortress, he did not even dare to bring Limos or Nebo Mountain around.

These two guys are the same appearance as humans, but it is absolutely impossible to enter the interior of the Tianhe Star. It is impossible to scan and authenticate through the identity of Tianhe Star's Star Defense.

The scan of the devil with the naked eye and the power of the gods is indeed a defense, but the star of the administrative star is super brain, and still has this ability.

It is for this reason that the ten space bastions of the Devil's group are only active near the core of the funeral star field, and will not go to the edge of this star field. It is already close to the Tianhe domain, once it is Captives brought back to the Tianhe Star, absolutely exposed!

Offering a purple star shuttle, Ye Xuan rushed slowly and took a full six days to finally see the Tianhe Star in front.

Today, the Tianhe Star seems to be no different from peacetime. It just seems that there are more federal powerhouses entering and leaving. After all, the troubles of the interstellar mercenary numbered 8080's Ye's brother six days ago are in the wake of the people's heart. The effect is still quite good.

In recent days, countless federal powerhouses have come from other stars, and after replenishing them in the Tianhe Star, they can't wait to enter the funeral star field.

In their view, even an interstellar mercenary who is only a star of the eighth world can be so creative. If they are a little better, what is impossible?

Ye Xuan quietly entered the interior of the Tianhe Star through a passage of the Star Defense outside the atmosphere of the Tianhe Star, and then rushed straight to the huge platform suspended above the sea.

There, it is where the Tianhe Star Federal Affairs Hall is located.

In fact, a few days ago, Bai Zhengjun had already issued instructions to Tianhe Star's starry sky super brain. Once Ye Xuan returned, he immediately notified him.

The entire administrative star is under the control of this starry sky and super brain. To do this, it is simply effortless.

As the star of the Tianhe Star, Bai Zhengjun has certain authority in front of the star of the administrative star. In fact, in the entire Tianhe Star, he has the most authority, and even Zhao Long can not contact the starry sky. .

Even so, his authority is limited, at least absolutely can not be used to make the stars of the Tianhe Star super brain start the star defense defense, against Ye Xuan shot.

The existence of the Tiandi people's three lists has a detached status. Once Bai Zhengjun issues this order, he will be rejected in the first time.

In fact, the reason why he let the starry sky super brain monitor Ye Xuan's return information, as soon as he arrived at Tianhe, he was sent to him. The purpose was not the same as last time, he wanted to shoot Ye Xuan.

At this moment, Bai Zhengjun is in his own Star Palace, and the first time he received a notice from the Tianhe Stars and Super Brain.

He suddenly jumped up from the sofa and his face changed: "I rely on, the little ancestor finally came..."

Chapter 2706: Thousands of people

Staring at Ye Xuan is more than just Bai Zhengjun!

For example, Zhao Long, Star Thief, Black Luoying, and Xuanyuan Ziyan are both in this column.

Zhao Long couldn't touch the starry sky and super brain contact of Tianhe, but he had seen Ye Xuan's own genius under his hand. Therefore, from the day before six days ago, Zhao Long sent several people, all of whom had Ye Xuan. Close-up images, one by one, guarded the inside of the entrance channel of the Tianhe Xingchen Defence Array, closely watching everyone entering Tianhe Star.

One of the guys is lucky, and the channel he is stationed in is the one that Ye Xuan entered. This is the ecstasy. This guy informed Zhao Long at the first time, and was immediately praised a lot. People are flying fast. .

The star thief black Luoying and Xuanyuan Ziyan master servants are more direct.

I have to know that Ye Xuan needs a nine-level genetic culture solution, although she does not know that Ye Xuan is such a strength to be a guy who is only in the first big realm, and wants to use the nine-level to enter the ninth big realm. What is the genetic culture solution?

But one thing she has already vaguely guessed is that Ye Xuan has gotten so many federal contribution points in a short period of time, and it has been hundreds of millions. The purpose is to exchange the nine-level gene culture solution.

Because Xuanyuan had said a word to Ye Xuan at that time, he knew that there was a small amount of Jiuji gene culture solution in the federal exchange library of the immortal dynasty.

Although she does not know how Ye Xuan did all this, she is certain that Ye Xuan will return to Tianhe Star for redemption once he can withdraw.

Of course, it is OK to go to other administrative stars, but Tianhe Star recently went to other administrative stars. If it relies on a small private warship, it must fly for at least ten years.

Therefore, Xuanyuan stayed in the federal affairs hall of Tianhe Star, and even Xu, who was not close to the small black hole in the star field, could not attend to visit.

Of course, the reason why she stayed in the Tianhe Star, but did not go out to the funeral star field to find Ye Xuan, another reason, is also waiting for the family sequence competition that is exclusive to him. The team.

For the Xuanyuan Ziyan proposed a formal competition for family sequence competition, the Xuanyuan family originally refused. It is recommended that she apply after entering the 9th stage of the black hole, but Xuanyuan Ziyan insisted and said that it is old with Ye Xuan. knowledge.

Xuanyuan family immediately answered!

It can be seen that the name of Ye Xuan, even in the Emperor Star, has been resounding!

As for the black loy, this product is similar to the idea of Xuanyuan Ziyan. Although he does not know that Ye Xuan urgently needs the ninth grade genetic culture solution, he at least understands that anyone suddenly has hundreds of millions of federal contributions. As long as you can take the time out, you will definitely go to the nearest administrative star federal affairs hall for redemption.

After all, the federal contribution points are not only necessary for the three-day list, but also for this role. A string of numbers is also a favorite, and it is better to exchange a large amount of cultivation resources from the federal government.

Therefore, Heilongjiang has always been in the federal affairs hall of Tianhe Star. Unlike Bai Zhengjun and Zhao Long, he does not dare to deal with the existence of the world's three people. He was originally a star thief. What else is fearful? ?

As long as the interests are sufficient, it is not impossible for him to turn the Union of War.

Although Star Treasure is not always this kind of existence, but Black Loyal is undoubtedly one of them with no bottom line!

In the federal affairs hall of Tianhe Star, Ye Xuan has been there twice before. It is unfamiliar to this place. After the body shape fell on this huge offshore platform, Ye Xuan did not go to other areas this time.

In fact, this time the treasure he was preparing to redeem was only a nine-level genetic culture solution. Other things were not exchanged, and even the auction did not intend to participate.

why?

Think about the tens of thousands of space boxes that are still in the dead in his body.

It can be recognized as valuable by the demon of the Tianzu nationality, and thus it is only arrested and imprisoned, but not the federal strongman who directly killed. It is obviously not ordinary people. Each of them has produced 70% of the cultivation resources and various Treasure, for Ye Xuan, anything he needs now is estimated to be found in the 10,000-space box.

Of course, the source of engulfment is an exception.

Therefore, Ye Xuan does not need to redeem other things. The federal contribution points point. He believes that there will be great use in the future. It is impossible for the Federation of Van Luo to just

come up with some ordinary treasures for awarding merits. After the list, the treasures that can be exchanged with his permission will be more.

With this in mind, Ye Xuan did not intend to waste the federal contribution points to redeem other ordinary treasures and resources, in addition to the exchange of nine-level gene culture fluid, others, he will accumulate!

Go straight to the contribution point redemption area of the Federal Affairs Hall!

There are a total of ten windows in the contribution redemption area, and the number is also quite large. For this reason, the star thief Black Luoying and Xuanyuan Ziyang did not see Ye Xuan for the first time. After all, he has been deliberately low-key.

However, as the team lined up to Ye Xuan, when he proposed to exchange the nine-level gene culture solution to the intelligent robot beauty in the window, and after passing the identity scan, Ye Xuan's redemption request was on the big screen of the main wall of the hall. Shown it.

For a time, the entire exchange hall was completely sensational.

"Hey? Is someone actually redeeming a nine-level genetic culture solution? Which is the great god, is it a good idea? Isn't it a joke?"

"It must be a noisy game. This is the strongest after the black hole in the ninth stage. If you want to enter a higher level, you can have... God, it is 8080!"

"8080? No? My idol has come?"

"No wonder, besides him, who else can have such a large handwriting, one exchange is a three-tube nine-level gene culture solution? Wan Luo federal official contribution points exchange Kuchen's inventory actually has to be swept away by him alone! "

"The federal contribution points of people are hundreds of millions, and they are earned in just a few days. If you have so much, don't say three things, you can dare to deal with the ten pipes..."

"Open and open, don't block my sight, this is my idol, Laozi should pay close attention to the great man's voice and smile..."

As the news of Ye Xuan's real body spread, the entire Tianhe Star federal affairs platform suddenly disappeared, and the other service halls were all gone. The bones were so crowded that they were so crowded that Xuanyuan's master and servants I couldn't move forward, and the star thief Black Luoying was the first time to retreat to the distance. The sputum was filled with coldness, and the shape of Ye Xuan was locked by the gods.

In the crowds of people and seas, a majestic violent scream suddenly sounded: "What is this? The main white lord of the star, all give me back, don't scare Ye Xuan's brother..."

Chapter 2707: Research trial

This time, the purpose of Bai Zhengjun is to resolve the grievances.

After all, Ye Xuan will soon be able to rush into the list. Even if he can't get in, the status of the top two thousand in the federal contribution standings is far from his baby son, who is in the national capital of Tianchen. Comparable.

Therefore, for the previous grievances, Bai Zhengjun is really planning to let go, just ask Ye Xuan not to care.

Therefore, at this moment, he rushed in, almost even the body of the star has been put down, the tone of the mouth reveals a clear sense of flattery.

Of course, in the view of Bai Zhengjun, it is not shameful to ask a Terran patriot who ranks in the top two thousand in the Federal Contributions. In fact, other federal powerhouses think so. They are more eager than Bai Zhengjun. It.

At this moment, with the words of Bai Zhengjun's words, a large number of \*\*\*\* guards like the earth city tube descended from the sky, and they quickly pushed out a vacuum area beside Ye Xuan.

The federal powerhouses who were pushed to the distance were dare to speak out, and their faces were all helpless.

As the star of the Tianhe Star, Bai Zhengjun does not have the military power, but he also has an official armed force in the administration. These guards are almost all private troops of the White House. In Tianhe, it is absolutely no one dares to provoke The presence.

Even Xuanyuan Ziyang was blocked out of the crowd. Although she was a strong black hole, she was inside the Tianhe Star and was threatened by the defensive array of stars, but she did not dare to face the white army.

Besides, there is no need for this. She and Ye Xuan have old things. I will find opportunities later, and I will be able to catch up with one sentence!

"White Star is long, you are the weasel to give the chicken a New Year, and it is clear and uneasy!"

Just below the large number of Tianhexing official guards, the federal exchange hall was cleared out of a vacuum, revealing the body shape of Ye Xuan standing there, and then Bai Zhengjun was about to fall into shape, hurriedly greeted, and gave birth to a good greeting. At the same time, the voice of an extremely abrupt and unspeakable discourse suddenly rang.

Zhao Long's face is full of ridicule, followed by a team of soldiers, who are striding forward. The people have not yet arrived, and their voice has come again: "I heard, Ye's last time from the auction. After leaving, just after the Tianhe Star, I encountered several star-rated warships to be robbed, and they all branded the hidden array. Hey, in the Tianhe domain, who can There are so many large-scale warships, I think everyone has a few hearts?"

Upon hearing this, a large number of federal powerhouses around him suddenly became eccentric, and some of them were small and even hooked their heads. They feared that they had just heard the words they should not listen to, and they would be wiped out when they left.

The face of Bai Zhengjun was gloomy in an instant, turning to the first step of Zhao Long, gnashing his teeth, but for a moment, it was speechless.

I finally adjusted my mindset and used a gesture of enthusiasm and enthusiasm to resolve the grievances with Ye Xuan. I didn't expect it to be opened yet. Zhao Long stirred up the game. The words have just been in Ye Xuan. The heart evokes the old hate, and now I will go forward, but I am afraid that the effect will be counterproductive.

As soon as I read this, Bai Zhengjun almost immediately gave Zhao Long a hateful misery.

"Ye Laodi, come and come, introduce yourself, the monk Zhao Long, the highest commander of the Tianhe Star garrison..."

Seeing Bai Zhengjun standing black and standing in a tangled and sinking, Zhao Long smiled under his heart, but his feet did not stop. He walked to Ye Xuan with a quick walk. He said: "Oh, Ye, brother, last time. In fact, I also received a bit of wind, and later rushed over with the fleet. Who knows that it was empty, and these days are still heartbreaking. Later, when I saw Ye's brother flying into the crowd, I finally hung. The heart is down..."

This said, it is like Ye Xuan is his relatives, a little bit safe, all the feelings of tea and rice, almost did not let Ye Xuan listen.

Just as Ye Xuan tangled, I don't know how to cooperate with Zhao Longxu and the snake. The intelligent robot beauty in the window of the body unexpectedly suddenly sounded out. It was said that the three-tube and nine-stage gene culture liquid exchanged by Ye Xuan had already been put in place.

The news was even scared by Ye Xuan, and Zhao Long, who was next to him, and Bai Zhengjun, who was not far away, listened to the eyelids.

Nine-level gene culture solution, which is absolutely stored in the top of the immortal emperor's immortal star federal exchange library, after all, the entire immortal dynasty, able to formulate nine-level gene culture fluid is only a giant in the immortal star The valve can do it.

This kind of thing, in the three emperors are hot items, it is impossible to store in the federal exchange library of the Emperor Tianxing.

Therefore, according to normal circumstances, when one of the following administrative stars has used a million federal contribution points to redeem the object, the normal procedure should be from the imperial star to the Emperor of Heaven, and then from the Emperor of Heaven. The country's dust stars, in the end, were sent from the Tiandu Star to the Tianhe Star.

It takes three times to turn around in the middle, and it takes about a day, even if it is used to transmit the star-level items.

But now, from Ye Xuan's request for redemption to the three-tube and nine-stage gene culture solution to be delivered to Tianhe, there will be no half-hours before and after. What does this mean?

This shows that the exchange has not been transited by the emperor and the capital at all, but directly from the imperial star.

This situation is not impossible, but the emperor's immortal star is located in the central domain of the third universe. It is far from the edge of the Tianhe star, and it is directly transmitted from the imperial star to the Tianhe star. Energy can be much larger than a first-class transit.

It's just that a federal powerhouse has exchanged three tubes of genetic culture fluid. Why is it so tense, has it been an expedited express delivery?

It's obviously stupid!

In the middle of the battle, Bai Zhengjun and Zhao Long both subconsciously turned their heads and looked at each other and looked at one.

Daddy, the two men's minds also crossed a glimmer of light, and their eyes were exposed to a faint color.

Level trial!

Study, the best!

Legend has it that among the royal descendants of the imperial star, there is such a level trial.

Once the descendants of the royal family who applied for the trial of the level of success, they will have a great advantage in the future succession of the dynasty, and the trial will be a lot of points.

The so-called level trials pursue the ultimate excavation of personal ability.

The descendants of the royal family who are trying to be level-tested can't follow any benefactors. Everything must be done by themselves. Although no one knows how to judge the level of success, there is one thing that is well known.

That is the descendants of the royal family who have entered the trial level. Even the identity must be replaced. They cannot walk outside as the royal family. In order to avoid using this identity and gain various conveniences...

Chapter 2708: Authentic Prince

It is no wonder that Ye Xuan was originally a federal citizenship certified by Tianhe. Before that, he was like an extravagant one. Even the interstellar mercenaries were registered in Tianhe.

This guy is clearly a prince who is undergoing a level trial!

Only in this way can you explain all the amazing things he has done before and after.

Even if you get a starry night to swallow the beast, not all of the dead stars in this funeral star contain a large number of star nuclear sources, which has been proven by countless facts.

In this case, in what short period of time he obtained such a large number of star nuclear sources, it is clearly that people came from the immortal star of the emperor.

Also, this short-six-day federal contribution score of more than 100 million has never been the case before, or the royal family has a special secret way to obtain a large number of federal contribution points, or there is someone in the emperor. The immortal level of the sky is super-brained to achieve this.

In a word, people are princes, they are gilded, and even even repaired, most of them are deliberately concealed in the star nuclear environment.

The real repair is only to have reached the black hole in the ninth order, otherwise it is necessary to do the nine-level gene culture solution?

The genetic culture fluid has only two functions. One is to supply the starry sky as the energy consumption, the nine-level thing, which is the special-grade immortal starry sky super brain. In the whole immortal dynasty, this existence is only the imperial star. That one.

Therefore, this use can be completely ruled out.

Another role is that the monks of the science and technology camp, after a big realm to the ninth order, in order to break through to the next realm, it is necessary to inject a higher level of gene culture fluid.

After the success, the daily refining will directly absorb the energy of the star's nuclear source. Until the realm reaches the ninth order, it is necessary to re-inject a higher level of the gene culture solution...

Of course, once injected, it may not be able to break through the realm, so people have to redeem three tubes!

As these thoughts flashed in my mind, Bai Zhengjun and Zhao Long only felt that their legs were soft, and there was an impulse in their hearts that they could not immediately slam on the ground.

In their capacity, in the face of the emperor of the capital, perhaps it is just a respectful expression and a discourse, but if you meet the emperor's emperor, you must be stunned.

And this kind of squat is not forced, but willingly.

As for the emperor from the emperor, it is simply crying and crying to find the dead and live, they have to beg for a chance, let him kneel down and express the feeling of admiration.

After all, the entire immortal dynasty represents the human race and is the absolute power of half of the third universe. Many federal powers have no chance to go to the emperor for the rest of their lives.

Can't be!

Absolutely not!

It's a bad thing at a glance. Here is a funeral star field. Not only are there a large number of federal powerhouses from the tech camps or even the comprehension camps, but even the spies who have been bought by the Celestials. If so, the identity of the emperor's adult is leaked... ..that is simply a hundred deaths.

Not only can't you be embarrassed, but you can't express too much enthusiasm. It will be seen as stupid.

Anyway, just running out of the fart, this is clearly the meaning of the identity of the emperor, and now it is cold and faint, falling in the eyes of the emperor, he naturally understands.

Maybe it will be praised for knowing how to measure and what is important.

In the future, when you fly into the emperor, you will not be a dream!

Of course, the coldness on the surface is not really cold, but it is more enthusiasm in private!

If you don't say anything, it's just the safety of the emperor's adult. This must be fully protected. Although most of the people are black-necked, they must have the life-saving life of the royal family, but this is a gesture. The gesture is the chip that will fly in the future.

With such thoughts, both Zhao Long and Bai Zhengjun's hearts were all bright, and they sneaked a few words on the surface, and soon they hurried away. This is a scene of a large number of federal powerhouses around the scene. A misty water.

Xuanyuan Zijing, who was squeezed outside the crowd, seemed to have guessed something. The look on his face was strange. After a frowning, he laughed and laughed. He said: "The two idiots are really open. Ah! But then again, if this guy had asked me how to get the 9th grade genetic culture solution, I am afraid I will give birth to such a guess..."

"Hey, how can you not even know this from the emperor's emperor?"

"But... these three tubes of genetic culture fluids are not afraid of huge energy consumption, and they are sent directly from the emperor's immortal star. This is indeed a strange thing."

"Although the speed of picking up is really too fast, but it is still on the list of people, this situation should not be caused by the attention of the dynasty, as it should not be so obvious."

"What is the mystery in this? It's really confusing..."

With the muttering, Xuanyuan Ziyan was somewhat confused.

At the same time, on the side of the third universe, which is far from the Tianhe Star, on the huge, incomparable and horrible immortal star, an old woman in the depths of the imperial city, an old woman is worried. I looked up at the sky, and I was worried about it. The mouth was also muttering to myself: "Xuan Er, your child is too careless, change his identity, and still have a Xuan word in the name. I have a look. Looked out, quietly use private power to help you transfer the three tubes and nine grades of liquid, how can others not see it?"

"Hurry up and break through the black hole, and then... you can complete the level trial, and you can return to the emperor at that time. For nearly a hundred years, I am afraid every day, fearing that you will be your brothers. , murdered outside!"

.....

"Ah owe!"

In the other direction of the edge of the core area of the funeral star, a young man with a good face and a realm in the seventh realm of the Star River is now rapidly coming toward the Tianhe Star. And it was a cold sneeze.

"Is it because my mother is thinking about me?"

"Hey, for over a hundred years, I really want to be a bit of a kiss..."

"But it's fast, my Longxuan is now the ninth-order repair of the Star River. This time I will return to the Tianhe Star to exchange a tube of eight-level liquid, and I will be able to enter the black hole first step. At that time, the speed of hunting the demon's scout will be fixed. Can be faster."

"Unfortunately, one tube and eight grades have one million contribution points. Although I have the secret law of the dynasty, I can distinguish between the devil and the human being, but these years have quietly killed, and in total, more than three million points have been accumulated. Even the list of people can't go up. This time, it costs a million. It's really... it hurts!"

Shaking his head and sighing, Longxuan was eager to speed up, and at this time, a huge space fortress suddenly appeared not far away, and the breath had locked it.

"Black Wind? It's over!"

Long Xuan was shocked and stunned. He had been in this area for a hundred years and killed a large number of devils. He naturally recognized this space bastion. It is the flagship of the Devil's Top Ten Space Fortress. The black wind number where Gu guessed...

Chapter 2709: Daoyou please stay

As a federal powerhouse with a ninth-order grand reunion of the starry world at the starry level, Longxuan obviously has a lot of value for the Tianji people. Any strong person who has been trained in the black hole is definitely not Simple generation.

Therefore, when the black wind on the hegemony found his figure, there was almost no hesitation, and the mysterious black light column of the black wind was directly opened. A wide passage appeared in

the bottom compartment below the space fortress, in an instant. In the Wanluo prison where Long Xuan was invaded by the Black Wind, he was shut down in one of the cages.

This is a certain emperor of the immortal dynasty, an absolutely important figure, so easily fell into the hands of the devil, it can be seen that the immortal imperial royal family's so-called ultimate trials, how cruel and realistic.

The dynasty needs a truly capable imperial family. If you can't prove your abilities, then it is better to clean up the entire immortal dynasty.

In fact, the emperor's immortal star, the descendants of the royal family, really many!

At this moment, sitting in the luxury hall of the Devil's Scouting Corps, the Black Wind, is sitting in the luxury hall in the central core area of the fourth floor of the Black Wind.

On his side, he stood several confidant butlers and magic think tanks.

For the case of a human being who had just arrested a seventh-largest star in the Xinghe River, he did not go to the heart. This kind of existence, there is not one thousand or eight hundred in the bottom compartment of the Black Wind, it is simply not enough. Caused his attention.

If he is allowed to know the identity of Long Xuan, I am afraid that he will not even pay attention to the black mosquitoes who have lost contact. He will rush to the deepest part of this funeral star field from the first connected to the first universe. Large natural cosmic wormholes, immediately return to the devil's star field.

Then contact the master and son of the celestial family to receive the battle.

But all this is doomed to be impossible.

Yes, he guessed that the reason for the moment was from the deepest part of the core of the funeral star field that had been sitting in the town, manipulating the Fortress of the Black Wind, jumping through the space to the edge of the core of this mysterious star, and even continuing to be careful The

road to the ground, there is a tendency to approach the Tianhe star, the reason is because of the black mosquito.

Before the scene of the release of a large number of federal powerhouses in the bottom of the black mosquitoes, they were inadvertently hit by several devils. The guys, even if they returned to the space bastion they came from, reported it to the tycoon. Here.

Ba Gu immediately contacted the black mosquito number, but unfortunately, the current black mosquito number has been included in the body by Ye Xuan, so it is obviously not linked.

In this way, even if he is stupid, he can understand that the black mosquito number is indeed an accident.

Although he did not know what happened to the black mosquito number, it is not difficult to guess. He almost determined it with a little thought.

Everything is related to the federal interstellar mercenary named Ye Xuan, which has been famous all over the country since the first few days.

At that time, Ba Gu was still squatting at the other way through the other side. In just a few days, he won hundreds of millions of federal contribution points. Now, it seems that this is related to the fall of the black mosquito.

A space fortress belonging to the devil, coupled with its resources and the tens of thousands of federal powerhouses captured, can indeed be worth more than 100 million federal contributions.

Although this is still only a speculation, basically there will be no unexpected changes. As a result, the tyrants are quite violent and arrogant.

As a team leader of the Devil's group who has been sent to the edge of the third universe of mankind, one of the ten space bastions under his own hand, together with the tens of thousands of demons scouting inside, and the vast resources, have unified into the enemy. In the hands, and it is still a scorpion ant that is only a star-shaped environment.

If this incident is passed out, I am afraid that all the tribes of the entire Demon family will not be able to laugh at him loudly.

The master and son of the heavenly family will not let him go easily, and must be severely punished!

Fortunately, this matter has not yet been spread. As long as the remedy is timely and the Black Bass Space Fortress is taken back, then this secret can be saved.

It's a big deal to kill all the tens of thousands of demons in the black mosquitoes!

It was for this purpose that Gu Ji even didn't even notice the space bastions of the other eight devils, but instead came alone with the black wind to the Tianhe Star Field.

The black wind is his true confidant. Although the other eight Fortresses of the Battlestar are under his jurisdiction, they come from different democrat tribes, not his people. Therefore, this action must not allow them to participate. Otherwise, the secret will leak out!

"Damn! How did the guy named Ye Xuan do it? Is Naibo Mountain grown up? It was taken by a small star nucleus to take away the entire black mosquito!"

"If he is not dead yet, after I grabbed the black mosquito, I must shoot him by hand..."

As a black-eyed ninth-order grand perfection, a slap is a slap in the face of the Nebo Mountain, which is only the fourth stage of the black hole. For the Gu guess, it is just a little effort.

At this moment, with the utter anger of the words, the anger of the tying of the mind seems to have been vented a little, the tone is a little slow, but the light is cold and stern: "Hey, that guy named Ye Xuan is doing it. This kind of thing, actually dare to appear in the Tianhe Star blatantly, this is a godsend opportunity, as long as he walks out of the Tianhe Star, Laozi will kill it in the first time!"

With the cold and vocal words of the tyrants, the Battle of the Black Wind once again opened up the occult method. The huge fortress disappeared and disappeared silently toward the Tianhe Star Field...

.....

Tianhe Star, the offshore platform of the Federal Affairs Hall.

With Bai Zhengjun and Zhao Long rushing away, Ye Xuan turned to the window of work behind him, and took a small space box from the intelligent beauty robot, which must be loaded with three tubes and nine Gene culture fluid, in this matter, the Wanluo Federation is impossible to do.

Therefore, considering that there are many people with misunderstandings, Ye Xuan did not open the view, and directly thrown into the immortal world of the body, and then finally dropped the hanging heart back to the chest.

After the matter is finished, it is not appropriate to stay here for a long time.

Ye Xuan also did not pay attention to the enthusiastic federal powerhouses who were surrounded by the surrounding, and they had already set off from the huge platform of the Federal Affairs Hall and rushed to another channel outside the defensive array.

The attitudes of Shizheng Bai Zhengjun and Zhao Long were extremely strange. I wonder if it was because I realized that Ye Xuan was about to leave, so I hurried back and set about preparing for the attack.

Therefore, Ye Xuan must leave as soon as possible, fearing that it is not the same thing, but it is obviously the best.

Just as he was about to get close to the sky, there was a familiar whisper behind him: "Ye Xuandao, please stay..."

Chapter 2710: You also misunderstood

"It turned out to be a Xuanyuandao friend..."

Turning to the first to see Xuanyuan Zijing and Green Luo main servant tossed, Ye Xuan even stopped.

For this woman, his impression is still quite good. After all, the last time he had a good harvest on this day, half of it was thanks to her. Although everyone is just fair trade, Ye Xuan still inherits this person.

Because of this, at this moment, Xuanyuan Ziyan looked at the face and looked at it. Ye Xuan remembered the last thing. He couldn't help but make a joke: "Xuanyuan Daoyou has to remind Ye. Are you careful to intercept? Do you feel relieved, the last time they can't keep me, this time is the same!"

"Ye Daoyou smiled. The last time things were said to be embarrassing, but the purple eyes were gone. Ye Daoyou was such a dragon. I thought you would be planted in the hands of the shameless characters of Bai Zhengjun and Zhao Long, who first atollod Ye Daoyou here. !"

If it is said that Xuanyuan Ziyan is still curious about Ye Xuan, but the sense of look down is unchanged, then this time, she is actively put down the body, and even put herself in the than Ye Xuan In the low position, the attitude at this moment is extremely modest, not at all like a black hole in the middle of the strong to treat a star nuclear ant should have the attitude.

This is actually not surprising at all. It is not Xuanyuan's ambiguity. In her heart, Ye Xuan has indeed become a presence that should be looked up. After all, in the contribution list of the Federation of Faro, he is already close to the list. However, Xuanyuan Zizi is still in the middle of the list.

Speaking of this, Xuanyuan Ziyan's words suddenly turned, and some smiled and shook his head: "But Ye Daoyou is misunderstood this time. Zi Yan is not trying to remind you to be careful, because there is no need, this time, Bai Zhengjun and Zhao\* This is not going to count you, but the star thief, Black Luoying, has to be wary. I just saw him on the federal affairs platform and he is standing on the periphery, flashing!"

"A star thief, I haven't put it in my heart."

Ye Xuan nodded and thanked him. Then he wondered: "I just don't know why Xuanyuan Dao's friends have asserted that Bai Zhengjun and Zhao Long are not going to shoot me this time?"

"This is certain, they will not only not take the shots of the Taoist friends, but will also deliberately tie the knot. Before the three-tube and nine-stage genetic culture fluids were directly transmitted from the imperial star, Ye Daoyou has not forgotten it?"

Xuanyuan Zixiao smiled lightly, and then he detailed the details. He immediately listened to Ye Xuan, and after a few moments, he smiled and his face looked strange.

"Although this time there will be no danger, but your courage is really big enough, knowing that you have become a man of the storm, Bai Zhengjun is very likely to have a killing heart for you, but he dares to shake the ground. Come to Tianhe Star."

Seeing Ye Xuan's smile, Xuanyuan Ziyang couldn't help but smile: "The light is this courage, and the younger sister will sigh like it. It seems that I have to follow Ye's side in the future, and I will learn more."

Unspeakable, it has already narrowed the relationship. I have to say that the ability of this girl to look at the face is really not weak. It is obvious that Ye Xuan is in a good mood at this moment and has not let go of the opportunity.

"I don't dare to be a child!"

Ye Xuan stunned, although it did not refuse, after all, the female impression is quite good, but the gap between the two people is the realm of the situation, Ye Xuan is not a pretending gesture, but really think so.

"Ye's big brother is pedantic!"

Seeing Ye Xuan did not refuse the first time, and although he shouted, but the words were extremely sincere, Xuanyuan Ziyang was also a look of silence, and again turned to Ye Xuan, bent over and gave a gift: "My masters, the first." Ye Da Ge's achievements really admire Zi Yan. Your big brother, I really believe it. If you think that it is not as good as me, I still feel that it is not as good as you in the rankings. We should not care about it. What?"

"Furthermore, although the purple scorpion is already in the middle of the black hole, but the real age is only two hundred, this body is built up with the family's bottoms. If there is no such thing, compared with Ye Big Brother, what is it?"

Less than two hundred years old, for the strong under the starry sky, it is not too big, or even just step into the youth.

You should know that even the ordinary federal citizens in the human race who have not entered the practice path have more than 500 years of normal life, and Ye Xuan is not to mention, how many years have passed along the way?

Therefore, this big brother, he is really up.

Of course, the most important thing is that Xuanyuan Zijing is a straightforward woman who doesn't make a fuss. He gives him a very good impression, otherwise Ye Xuan will not agree in any case.

At the moment, he shakes his head and smiles, obviously it means the default.

Xuanyuan Zixiao's heart is happy, when even the left one of the big brother Ye, the right one of the big brother Ye called, the well-behaved look and even Ye Xuan could not help but slightly!

While laughing and joking, the two followed the maid of the maid, and soon passed the sky channel in front, left the Tianhe star, and came to the outer universe.

Looking up, a huge fleet of dozens of three-kilometer-long star-rated battleships and a five-kilometer-diameter nebula-class space fortress appeared in sight, waiting for the starry sky not far away.

And Bai Zhengjun and Zhao Long, both of whom respected their smiles, immediately greeted them.

These two guys who have been fighting in the dark, in the matter of pleasing the emperor's emperor, it is a rare combination of joint efforts, no infighting.

It's normal to think about it, the value of a prince, no one of them can swallow it alone. If it is really good to please the emperor, then it will go to the emperor's immortal star. It's not easy to open the situation alone, if you can have a partner who knows the truth. Going, obviously, is a good thing.

It is also for this reason that the two guys tacitly united on this matter.

In fact, when Ye Xuan and Xuanyuan Zijing came out from the canopy channel, the two had already heard the dialogue between Ye Xuan and Xuanyuan Ziwei. Seeing the Xuanyuan Zijing, a Tianzhi from the Emperor's Star Gate The arrogant women, all of them, one of the big brothers, deliberately, and they are clearly determined.

At the moment, the smile on the face has become more and more respectful and humble. After coming to the front, they have shrugged their hands.

"Emperor... Ye brothers, your current status is no small matter. This time, the Tianhe Star leaked his whereabouts, I was afraid that it would cause some embarrassing eyes. Therefore, I and I both felt that the responsibility was great and decided to \*\*\*\* all the way!"

"Right right, of course, we can't influence your extreme test... So, we will send it to the distance, and if we are sure that there is no danger, we will leave quietly. Ye brothers don't have to pay attention to it. Where do you want to go? Just hurry in front of us, all when we don't exist!"
