Chapter 271: Save people

"Okay, then you are careful."

Jiangliu nodded.

"Brother, you..." Song Chong hurriedly turned to look at the river.

Ye Xuan said comfortably: "Don't worry, those little giants in the green source will not fly. I have wings, but I can still hide."

"but....."

The Song Dynasty is still a worry.

"Nothing is wrong. You are staying here for a while. We will leave more time later. You will go quickly. I will go down first."

Ye Xuan patted the head of the Song Dynasty, and then jumped.

Song Congjing looked at the back of his departure, and his heart was not a taste. If the strength could be stronger, he might be with Ye Xuan.

When Jiang Liu saw Ye Xuan Yue, he also directly ordered Ling Xiao Dapeng to escape quickly. As long as he escaped the scope of the eruption, they would be safe.

Although the crisis was heavy, Ye Xuan still jumped out of the way, one to save those brothers and the other, to prepare to hunt those green giants.

Hundreds of mysterious beasts, this is a lot of experience value, a green squirrel in the ground of a small land, let him get two points to devour the crystal, if you kill a little more, you may be able to break through To the land of Denmark.

What's more, his physique is so strong that he can jump to the height of a hundred meters, even if he can't beat it, as long as luck is not too bad, there should be no problem.

"Experience value, I am coming!"

Thinking of this, Ye Xuan is also a double-eyed light, directly dive down. However, at this moment, he suddenly saw a familiar figure.

"Lin Xueer? I didn't expect her to be beaten down." Ye Xuan stared at it and found that Lin Xueer was hurting and was fighting a giant giant.

At the moment, he is a turn and rushes toward Lin Xueer.

On the ground, Lin Xueer is holding a Chinese product and fighting a green giant who first entered the land. No, it should be said that it is a waste of effort, because Lin Xueer's attack can not cause harm to the other party.

"How is defense so strong?"

Lin Xueer suddenly felt that she was somewhat powerless. At the same time, she first entered the land of Dan, and there was also a Chinese-style device and a middle-class martial arts. However, this could not cause damage to the stone monsters in front of me. Strong?

The most important thing is that if you drag it on, it will be dangerous if it is surrounded by other giants.

at this time.

"Do you need help?"

Suddenly a voice fell into her ear, and she turned her head and saw that a figure fell from the sky.

"Hey!"

Ye Xuan crashed down, and the Dan Yuan sword in his hand directly broke into the head of the Luyuan giant.

"Well? Still less?"

His brows wrinkled slightly, and the sword was quickly cut again. The big sword fell into the body of the green giant, followed by a booming sound. This little green giant was split into two and was shocked into two halves.

"This time, the green giant, the defensive power seems to be higher than before, is it the effect of lapis lazuli?"

Ye Xuan sighed in his heart and turned his head and said, "Are you okay?"

Lin Xueer is already watching, even she can't help but this green source little giant, but Ye Xuan only killed two with two strokes.

How is the gap big?

"How are you here?" Lin Xueer responded and asked.

"Can you ask a question about nutrition?"

Ye Xuan shook his head and saw Lin Xueer's left arm unable to hang down beside him. He also lost a powerful healing medicine and continued: "Follow me, don't run around!"

He took the body at his feet and then swept it in one direction.

Lin Xueer snorted, took the medicinal medicine, and then followed.

In the first round of eruption, dozens of Ling Xiao Dapeng and Tian Lei Ying were hit, that is, hundreds of people fell to the ground.

Ye Xuan has not run a few steps, just met a disciple of Tian Yuanzong. At this time, he is fighting a giant giant of the green source. Fortunately, this green source small giant body shape is small, at most it is the first time into the human world, otherwise he will die.

After Ye Xuan appeared, it was a sword that split the green giant into two halves, and then swallowed the body quickly, and the mysterious beast was thrown into the swallowing space.

The disciple stunned and turned around and found that Lin Xueer also came out of the forest and immediately shouted: "Sister!"

"Follow, don't fall behind!" Lin Xueer said, chasing in the direction of Ye Xuan.

The disciple did not dare to stay and rushed to keep up.

Ye Xuan's sensing range is already more than one kilometer, which provides him with great convenience. One can sense the size of the giant giants in the range, and the second is to find their own people.

If you encounter those large green giants, Ye Xuan is deliberately circumventing, because it is at least the green giant of the Dadan.

Fortunately, there are not many green giants at this level, so Ye Xuan has no disadvantages and soon gathered to ten people. Of course, there are more corpses encountered on the way, including Ling Dapeng, Tian Lei Ying and humans.

Not only that, but they also met another team. The leader of this team happened to be Tian Tianzong's elder elder Tian Tianlang.

"Snow, you are fine!"

After Yi Tianlang saw Lin Xueer, he was relieved and relieved.

"Taiwan elders, master?" Lin Xueer could not help but ask.

"I don't know, I can't manage that much, you follow me, let's go to a safe place first!"

Yi Tianlang shook his head, and then he took the nearly twenty people to leave.

He is also the two strongest, and it is not a problem to leave with a team, as long as the Luyuan giant does not break out once.

Among the teams, there are disciples of Tianyuanzong and disciples of Lingxiaofu. Yitianlang is there. Ye Xuan is also relieved. After he slows down, he quietly turns around.

However, it is at this time.

"Where are you going?"

Lin Xueer Yu Guang swept the figure of Ye Xuan and asked quickly.

The rest of the people heard this sentence, but also the next foot.

"Of course, go back and continue to kill the mysterious beast." Ye Xuan replied casually.

"You are crazy? What if you encounter a big giant?" Lin Xueer asked incredulously.

Yi Tianlang also dissuaded: "Boy, I have seen you not to be killed, but I have never seen you so desperate. Now, even in this situation, I may fall, you should follow us and stay away from here."

"Predecessors, I am not a child, I have my own size, I am leaving!"

Ye Xuan was too lazy to explain to them, and turned around and left.

"You..." Lin Xueer just wanted to keep up, but was stopped by Yi Tianlang.

"Let's go with him, there are so many ways for the kid. The second round of the outbreak is probably starting soon. We will evacuate quickly!"
