

Super D. S 2711

Chapter 2711: Surprisingly the black wind

These two guys, one is the star of the Tianhe Star, and the other is the commander of the federal garrison of the Tianhe Star. Now, at the same time, with such a huge fleet, the laborer spontaneously asks for help and wants to **** Ye Xuan.

At the same time, it is still fearful that this will affect Ye Xuan's, but it's sincere and fearful to take the initiative to let Ye Xuan do what he should do in front of him, right when they don't exist...

With such an attitude, Ye Xuan was a little embarrassed. Just thinking about the good things that the two guys had done before, he immediately settled his mind.

It's okay to take advantage of this opportunity to collect interest.

Besides, if you insist on refusing, I am afraid that the effect will be counterproductive, and it will cause suspicion in the second.

After all, the attitude of the two is enough to show that they have already guessed the identity of the emperor. If Ye Xuan is really a prince, in this case, naturally, it will not be too concerned about this matter. Falling down.

I thought about it, Ye Xuan did not say much, and stunned the two people with a cold look, and directly with Xuanyuan Zixiao and Green Luo turned and rushed to the depths of the funeral star field.

Because I didn't want to expose the purple star shuttle that had just completed the fourth fusion, but many other small warships had more hands in his hands, but none of them had been refining, and this thing was neglected before.

Therefore, Ye Xuan has never sacrificed a small private battleship. Xuanyuan Zizhen wanted to sacrifice Xuanyuanzhou, but he was rejected by Ye Xuan. He also thought about entering the depths of the star field and the two women. Say goodbye, naturally there is no need to enter the small private warships of others.

In this way, a group of three people crossed the void in the flesh, and now they have followed a space fortress and dozens of three-kilometer-long star-rated military warships, escorting this scene, it is really strange to the extreme.

Some of the federal powerhouses that occasionally encountered along the way, all stopped their bodies, and looked like a ghost!

In the same way, since the passage on the other side of the Tianhe Star, the air and body shape have been concealed, quietly hanging in the distance, the mouth of the star-studded black singer, the heart is also It is extremely depressed.

If Ye Xuan and Xuanyuan Zijing had a small private battleship, he would give up most of it. Ye Xuan's speed of the warship he had seen, even if he was a flesh crossing the void or offering a battleship. Can't catch up.

But now the three men are crossing the void in the flesh, and when Heilongjiang sees hope, he will bite his teeth and stay.

Because he knows that Bai Zhengying and Zhao Long, who are following the **** all the way, will leave sooner or later. It is impossible to keep the Tianhe Star, and follow this prince to wander outside.

In this case, he has an opportunity.

Xuanyuan Ziyan is not weak, but the realm of strength and he is also before the middle, and the target character Ye Xuan in his estimation, even if it is concealed, it is definitely not in the black hole.

In this case, he suddenly shot in the dark, there is still a certain chance to leave Ye Xuanzhen under the hood, and this chance is not small, definitely worth a try.

One day later, the front Ye Xuan and Xuanyuan three had entered the depths of the funeral star field, and the last federal powerhouse encountered along the way was half a day ago.

Moreover, this person did not follow up, and the cultivation was not strong. In general, the security issue was obviously not considered at all.

Besides, Ye Xuan has a black hole strongman like Xuanyuan Ziyan, and even he himself may be this repair, plus he has a small private warship with a speed thief...

In addition, the so-called **** of Bai Zhengjun and Zhao Long is basically just a gesture. It is enough for one day, and then it will only cause the emperor to be unhappy.

Then the rear fleet quickly stopped and then slowly returned to the ship.

The star thief who hides his body shape and breath, sees the opportunity, and immediately stepped up his steps, and soon touched the three.

"Hey!"

As a majestic and violent atmosphere suddenly appeared without warning, the void in the radius of a hundred miles made a slight tremor, and then a huge energy paw print resembling a mountain. The hood was suddenly pressed to the top of Ye Xuan's head.

"Star thief black Luoying?"

Xuanyuan Ziyan changed his face and suddenly screamed: "Green radish, protect Ye Big Brother, I went to smash it!"

In the next moment, Xuanyuan Ziyan has a purple puff in the body, and the wind will rise, turning into a purple river that hangs purple, and rumbling and swaying, and the star will steal the starry sky of the Pangruo Mountain. The giant claws slammed, and the shape of the body swelled up, and the shape of the black Luoying rolled away, almost a hundred miles.

The reason for this is obviously to worry about the fierce battle between the two black hole powerhouses, and the lingering aftermath will injure Ye Xuan.

In the scene of this episode, Ye Xuan's heart couldn't help but smack it. Originally, he wanted to raise his hand and sacrificed the Black Mosquito Space Fortress. However, he was dispelled by the Tianhe Star Fleet, which was still visible in the distance.

At the same time, among the Tianhexing fleet that has already traveled far and wide, the five-meter-diameter nebula-class space fortress control room, Bai Zhengjun and Zhao Long are also suddenly changing their faces, and they are screaming...

"Blinding! Star Thief Black Luoying? This is simply looking for death!"

"Guarding! Drive immediately! Give me back immediately, space jump..."

As Bai Zhengjun and Zhao Long both died near the aunt, the sound of roaring and roaring sounded, thousands of miles ahead, just above the head of Ye Xuan and Lulu, the original empty star of the meteor In the middle, a space fortress with a diameter of 10,000 meters suddenly appeared without warning.

It is the main flagship black wind of the devil's scout.

In fact, the Black Wind has long waited in the distance, and after seeing the fleet of Tianhe Star gradually drifting away, it was close to being ready to be shot, and he did not expect to be robbed by Black Luoying.

But it doesn't matter all, it doesn't affect the outcome.

"Hey..."

The faint humming sound of the emptiness of the emptiness sounded again, and the black wind was revealed. The first time, the bottom chamber was able to shoot a black light column with a diameter of about 100 meters. Without any suspense, Ye Xuan and Green Luo were covered together.

"call out!"

The huge black light column flickered and quickly picked it up again.

Then, the Beggar No. was once again launched the concealed array method, and disappeared directly. Most of the time, the space jump was started and stayed away.

In the nebula-class space bastion of the Tianhexing Fleet, Bai Zhengjun and Zhao Long's faces were almost at the same time pale, and they sat down on the ground and screamed out loud.

"Black wind number? That is clearly the black wind! After the end, the emperor was taken away by the devil..."

"Heavenly and man-made disasters, this day, the dusty country will be finished!"

At the thought of the violent storm from the imperial star of the emperor, Bai Zhengjun and Zhao Long both trembled. This time, it was really a pit to bury themselves. I knew what to protect and what to protect? How far is it to avoid, at least not directly responsible...

Chapter 2712: Bombing black loy

As the shadows of Ye Xuan and Luluo were instantly vanished and disappeared, even the Black Wind Battleship disappeared. The Xuanyuan Zijing, which was originally a hundred miles away, was suddenly changed. Even the star thief Black Luoying was completely circling, and the two men stopped the offensive in unison, looking at the direction of the disappearance of the Battlewind Fortress, for a moment...

For the star thief Black Luoying, the goal is gone, and it is obviously meaningless to play it again.

For Xuanyuan Ziyang, the people who want to protect are taken away by the devil, and it is meaningless to fight with the star thief.

"If you didn't make a mistake, this kid should have been taken away by a magician's space bastion last time. Is this too far back?"

After a few moments of silence, the look of Xuanyuan Ziyang's face quickly became eccentric, and then he shook his head in his own words: "But he is a miraculous existence, the last time, this time, certainly not. Something!"

"It's sick, but it's the black wind of the devil's scout. How many years have passed, only to smell its name, but it is an eye-opener!"

The star thief Black Luoying heard Xuanyuan Ziyang's muttering his own voice, and turned a blind eye directly, and he talked about his body shape, and he wanted to go far!

"boom!"

"boom!"

It was also at this time that just after the space jump, the nebula-class space fortress of the Tianhexing Fleet, which was coming from a thousand miles away, suddenly blew two white energy of 500 meters in diameter without any warning. Light column.

This is not a star gun on a star-rated or star-rated battleship. This is a real destroyer. Even a meteor can be incinerated in an instant.

The star thief black Luoying's figure was set off, just to meet one of the destroying gun energy beam. When there was no time, there was no slamming, and the figure was directly shrouded by the 500-meter-diameter blasting light. Instantly fly in order to fly.

The energy beam of another ruined cannon was shot at the Xuanyuan purple scorpion.

"Damn!"

The latter's look was so bright that he did not hesitate to crush the sapphire face on a ring in his right hand.

As a faint blue light suddenly flashed, Xuanyuan Ziyan's body shape was instantly wrapped and turned into a faint sacred man, disappeared from the flash of the light stone that arrived at the 500-meter-diameter ruined gun energy beam. not see.

And the figure in her vacant position, a body that is the same as Xuanyuan Ziyan, but her face is stagnant and indecent, and after half a moment, she was destroyed by the 500-meter-diameter blasting energy beam. Hit, turned into fly ash.

At the same time, in the main control room of this nebula-class space fortress, Bai Zhengjun and Zhao Long almost stared at the monitor screen in front of them, and then turned their heads seriously and looked at each other. .

"Star Thief Black Luoying is absolutely destroyed, Xuanyuan's little girl... I don't seem to see it!"

"This kind of speed destroyer can't escape even in a black hole. Rest assured, I can see it clearly, and I am dead and upright. In addition, the emperor and the green scorpion must not come back, that is, the previous things. It is temporarily suppressed."

"Not necessarily, all the way before, but met a lot of federal powerhouses, they all saw us guarding the emperor..."

"Oh, it doesn't matter, I went back one by one and all of them were killed. In any case, the things that the emperor was taken away by the devil could not be revealed. In particular, it is impossible to let people know that it is related to us."

"Right, the people in your fleet... are you reliable?"

"One third is not the shackles of my Zhao family. You can rest assured that after returning, they will be under house arrest. Within one month, one-third of the soldiers will all die unexpectedly."

Speaking of this, Zhao Long turned to Bai Zhengjun and looked at each other. Both of them' faces and dawns were eccentric. Although there was no clear statement on the mouth, the two men's hearts were bright. After passing this incident, The two old gimmicks, who have been fighting for many years, are completely huddled together.

Even when I was together to please the Emperor, the relationship between the two was far less solid and stable than it is now!

All this is so ironic!

.....

"call out!"

Just as Bai Zhengjun and Zhao Long both sneaked back with the entire Tianhe Star fleet, the other side of the scene was thousands of miles away. A faint blue light flashed away, and then, Xuanyuan The figure was revealed quietly.

Subconsciously, she slid down to the sapphire ring worn on her right hand finger. The original blue-deep ring face clearly showed a crack. This crack made Xuanyuan Ziyan look even more rare.

The words in the mouth are almost gnashing: "Bai Zhengjun and Zhao Long are two full-fledged idiots. Actually, in order to kill people, they have offended the present lady who represents the Emperor Xuanyuan. Oh, it hurts me to pay such a heavy price, you... ..waiting."

Having said that, Xuanyuan Ziyan was quickly locked and stunned, and the murmur in his mouth seemed to be calmer: "There are only two restrictions on the use of the phantom shadow ring. Returning to the Tianhe Star, even Master Xu can no longer visit, otherwise, if Bai Zhengjun and Zhao Long know that Miss Ben is not awkward, I am afraid that the idiot will do his best to block it in this star field!"

"For the sake of the present, we can only enter the core of the depths of the funeral star, just secretly looking for the Dark Air Warrior Space Fortress."

"Ye Big Brother, you can't have anything..."

Speaking of the last sentence, Xuanyuan Zi's look suddenly sighed, and after a sigh of sigh, he quickly concealed his figure and quietly rushed to the core of the depths of the funeral field.

She knows that the Battlestar's Space Fortress is in the depths of this star field, but where it is, it can only be found in a haystack. It is pure luck.

In fact, even if you find the black wind... how can it be?

.....

After taking the leaves of Ye Xuan and Lulu, the black wind number of the hidden array method was opened, and the space jump was started in the first time, instantly reaching a million miles away, floating on the back of a huge black Death Star. Obvious.

At this time, the shape of Ye Xuan and Luluo was also wrapped in a black light column, which appeared in the luxury hall in the core area of the fourth layer of the Black Wind.

The light column of the Devil's Battlestar is not only able to catch people in the bottom of the Vullo prison, but can appear anywhere on any floor.

For the imprisoned prisoners such as Ye Xuan, the devil must scout for the first time to interrogate, and he can't work to go to the bottom of the place of Wanluo, so naturally, Ye Xuan and Luluo Get the top luxury lobby.

At this moment, with the appearance of Ye Xuan and Luluo, the squad on the Warcraft leather sofa immediately sneered, and the sight was swept over Ye Xuan's body, laughing and laughing: "Boy, You are very good, amazing..."

Chapter 2713: Debbie's guess

At this moment, Ye Xuan has been in a hurry.

Yes, he also has black mosquitoes, as well as mosquitoes and Mount Nebo.

But even if it is a mosquito, its cultivation is only the seventh stage of the black hole. Just after entering the late stage, it is not necessary to say that it is still in the middle of the black hole.

Even if the two join hands, it is impossible to be the opponent of the black hole in the ninth-order big perfection.

What's more, both of them are in the Dark Bass Battlestar, and the Black Mosquito is now being taken into the immortal world by Ye Xuan.

With his current low-level cultivation, the reason why he can bring the black-spaced star-studded person into the body depends on the work of the black mosquito folding space, but in the same way, he wants to release the star-studded power in the black mosquito. Then, it can't be brought out directly from the body. Only the black mosquito space fortress can be released first, and then it can be realized.

But now he is in the Black Wind, there is no way to live inside a space fortress, but also another space fortress, the folding space is also repulsive, this is a short board.

Besides, what if you can release the black mosquito number?

The power of the black mosquito number is also exhausted, but it is not enough to guess one person. Instead, it has to catch the black mosquito number. This stupid thing, Ye Xuan will not do it.

After all, the black mosquito is now in the immortal world of his body, as long as he does not take it out, even if it is a black hole, the nine-level repair is not able to actively detect it.

Even if it is a confession, as long as Ye Xuan can bite his teeth, the other party still has no way.

That is to say, now he, even the black mosquito number can not count on it, not to mention the green radish head next to him, only the fourth level of the planet in the fourth world, he can kill him with a finger.

After all, Ye Xuan wants to save himself now, and the strength is not expected. The only chance is the scam.

Realizing this, Ye Xuan's heart slammed into the brain and began to frantically calculate and deduct it.

Not to mention, after a short break, he really found a way out.

An extremely dangerous, and only a temporary solution before the future, there will be a way out in the future.

Even so, he still decided the first time, because, in addition to this method, there is no better strategy...

"The little star nucleus ants, dare to start against the black mosquitoes that Laozi has left, your courage is quite fat, it is simply looking for death!"

Grabbed Ye Xuan, he was not in a hurry, and with a cat-like mouse mind, his face showed a lazy look, sneer at Ye Xuan: "Let's say, where is the black mosquito? You How do you do it all? If the answer is satisfactory to Laozi, maybe you can spare your life!"

"Fart, this Son uses you to spare? The little Scout is a big head. What are you when you are?"

Without waiting for the oversight, Ye Xuan had already snarled with his feet up, and while angering, he raised his finger to Pacha, and the index finger of his right hand rushed to his nose: "You are a bastard, this son. The plan has just been completed in half, and the ninth-level gene culture solution has just arrived. Just hitting the eight-level liquid to prepare the family Xuanyuan family's shackles, you will be destroyed, you still think about yourself, how to tell the devil after going back! "

Having said that, Ye Xuan still does not understand the temperament, and swears at the swearing swearing that he has already sighed with a dumbfoundation: "The efforts of the high priests of Wenxing are all stirred up by you, you are an idiot!"

silence!

Dead silence!

At this moment, in addition to Ye Xuan and Green Luo, Pacha, in the fourth layer of the luxury hall of the Black Wind, there are more than ten figures, all of which are the confidant butlers and think tanks.

But now, all of them have been shocked by the words of Ye Xuan.

After a long time, Pacha swallowed his throat and asked subconsciously: "You, you...what are you going to know about the high priests of Wenxing? You... what did you mean?"

"What do you mean? That's what it means!"

Ye Xuan's blink of an eye directly provoked the spiritual source of the brain. In a moment, a purely magical spirit of the demon spirit spread out, clear to the big board hanging under the eyelids. Brick-like, do not need to sense, as long as it is an individual, can be sensed.

"Tian? Ye Xuan, are you actually a demon?"

The first one of the green radish reacted, and looked awkward. Once again, I thought about Ye Xuan's words. It turned out that this guy was actually a spoiler of the Terran, designed to be close to his Xuanyuan Ziyan, and also stared at the Xuanyuan's eight-level. Formulation of the gene culture solution.

As soon as I read this, the green radish was suddenly cracked and snarled: "You are a beast, loss of me and Zi Yan so believe you, you are close to us, actually for the Emperor Xuanyuan's eight-level liquid formula? I killed you."

In the roaring sound, Green Luo raised his hand and took it to Ye Xuan. However, the first time was immediately shocked by Ye Xuan with a spiritual force, and he fell to the ground.

She was the strongest of the seventh-order planet in the seventh world. It was not the case. Ye Xuan succeeded because the heart of the green heart was dead, and the heart was broken, and Ye Xuan's attack was caused.

"Look, this is the good thing you did, proud of it? Comfortable?"

Under the heart, I praised the green radish. This **** will cooperate. Ye Xuan's surface is silent. The glare screams at the past and screams: "This sacred child obeys the devil's order and is given a short time by the high priest. The inner secret can deceive the mystery of the human brain and super-brain exploration, and finally get mixed with it to get an identity, and then at the expense of a large number of federal powers to save the black mosquito number, get a lot of federal contribution points, and finally exchange a nine-level Gene culture fluid, now you can see the formula of the eight-grade liquid, but you are so sloppy, this matter, after returning to the devil's domain, you will go to the demon and the high priest to sin!"

These words, Ye Xuan is also said after careful consideration.

Everything about the demonic group, he was informed from the Nebo Mountain when he was bored.

Just as the high priest's Wen Xing in the Emperor was from the black mosquito tribe, therefore, Ye Xuan's words did not have much loopholes.

The Devils have a total of ten tribes, each of which is a million people and a great leader.

Ten great leaders, leading the top ten tribes, subject to the devil.

The magicians in the third universe funeral star scouted the ten space bastions. In fact, they came from different top ten tribes. The black mosquitoes were from the black mosquitoes, and the black winds were from the black wind tribes.

Therefore, for the situation in the black mosquito tribe, he can not be fully understood.

But he knows that the high priest of Wendeng is the red man in front of the demon emperor, but it is also from the black mosquito tribe. In this case, the saint of the black mosquito tribe is under the match of the high priest of Wenxing. The secret mission, avoiding his front line big head, but looking directly for the black mosquito from the black mosquito tribe... This is completely reasonable.

The key point is that Ye Xuan's devil's mental power can't be faked, it is still very pure, and the cultivation is not high, but the level of spiritual strength is not low. This is the characteristic of the top ten tribes!

So, he guessed it... completely smashed!

Chapter 2714: Re-enter Wanluo Prison

Looking at the arrogant Ye Xuan in front of him, the devil screamed at the big head and guessed the gloomy face, and suddenly fell into the sinking, long time speechless.

What Ye Xuan said is really unacceptable to him!

But what is fatal is that no matter how the tyrants are analyzed, there is always no doubt that can be magnified.

In fact, just the identity of the other person's demon is enough to explain everything. In the face of this fact, even if he finds doubts from the other's words, the final result will obviously be pale and weak. There is no great meaning at all.

With the indulgence, with the words before and after the search for each other, but always can not find any doubts, he guessed the facts that Ye Xuan said in his heart.

But he is not willing!

To say good anger, blink of an eye has become a mistake, this matter, no one can calmly accept and accept in a short time.

In the twilight flashing, after he guessed his mind, he finally turned his heart into a heart. He bite his teeth and smashed it to Ye Xuan: "I will ask you again, where is the black mosquito number? If there is another half of the concealment, I As the highest commander of the Demon Scouts on the front line, he has the right to kill you on the spot, and he can't go back and ask for a sin in front of the high priest. Boy, you have to think clearly..."

Ye Xuan's eyelids leaped wildly, and my heart suddenly picked up.

This guy is arrogant and ruthless at the moment. At this moment and even more under the sorrow, he may not be able to do it when he speaks. If it is possible, Ye Xuan is not willing to take his own life to gamble.

But now he has no retreat.

Once the black mosquitoes are taken out, the other party must be able to see the problem from the number of the demons in it. This cannot be explained. It is possible to release the federal prisoners, but the original number of demons scouts can only be three thousand. Not enough?

Since Gu guessed that he was waiting for the Tianhe Star, it must be prepared. The devil's scouts in the star field where the black mosquito is located are mostly in control.

These thoughts flashed in my mind like a flash of lightning. After the situation was realized, Ye Xuan sighed and could only walk to the black on the scalp.

"Hey, this Son is not scared. If you guess that the big head is going to turn out the Devil, then you will start."

The face was stunned and stunned. Ye Xuan's heart trembled, but his face was fearless and even stunned. He secretly warned: "Don't forget, when the Son was taken to the Balewind, Wan Luo There are many people in the federal side who can see that, with my current ranking in the federal contribution standings, this matter will soon be spread out. When the Emperor asks, if you can't pay someone, what are the consequences? I don't think I have to remind you too much?"

Although it is a threat, it is indeed a fact. It is only one of the ten big leaders of the Black Wind tribe. How can you dare to confront the Emperor? At the moment, I heard Ye Xuan's words. My heart was thinking about the scene of the emperor's anger. The entire scalp was numb, and I could not help but fall into sinking again.

"Since you take the Emperor to suppress me, then, let's do business!"

After some calculations, the tyrant guessed that there was a countermeasure, and there was a sneer on his face, staring at Ye Xuan with a sullen look. "Even if you really have the secret mission of the demon relatives, but this matter I don't know if it's true or false. Don't say that you are the Son of the Black Mosquito tribe. Even if you claim to be the demon emperor, the leader must verify it before deciding on it. So..."

"It's just the time to return to the Devil's Star Field. Since it's a secret mission for the relatives of the Emperor, it's okay for the leader to return two years in advance, but before that, your identity is clear and you can only be old. Honestly in the Wanluo prison..."

"As for this human woman, hey, it is useless anyway, just let the leader take it out!"

"boom!"

Speaking of the end, the tyrant guessed abruptly, and looked down to the stunned green stalk and looked over. Then, after Ye Xuan returned to the gods, he guessed it and suddenly slammed it!

A shock came out, the blood of the sky was instantly dispersed, and the green radiant in the coma was instantly shot into a **** fog, and even a piece of nail-sized flesh and blood was not left.

"Ha ha ha..."

"This person is suspicious, but it is a secret mission of the devil's relatives. The leader does not dare to neglect. He immediately informs the other eight space fortresses and sends all the supplies to the wormhole area. The leader returns to the devil star in advance. area."

"As for this person, hold the Warlord!"

"call out!"

The laughter started, and the tyrant guessed a wave of speech. A black light film with a diameter of 100 meters appeared in the ground of the hall. It was because of the tragic death of the green radish that I

was shocked by Ye Xuan's defense. I only felt that my feet were empty and my body shape was even black. Falling inside the film...

"Hey!"

"Dangdang..."

The figure fell heavily on the ground. Before Ye Xuan climbed up, there was a familiar shock in his ear, which was the sound of the fall of the prison of Wanluo.

Turning his head and looking around, his face gradually became gloomy. Everything around him was familiar and strange. The environment was exactly the same as the first floor of the bottom tank of the black mosquito, but in the distance, the federal powerhouses held in cages were All are strange faces.

There is no doubt that here is the bottom of the Black Wind.

In just a few months, he was detained twice in two different black man shacks in the black prison. This matter is really annoying, and even more so guilty is the death of the green radish.

I thought that the girl was in a coma with great resentment against her before she died. At present, there is no chance for explanation. Ye Xuan feels inexplicable in the chest, gnashing his teeth, only wanting kill!

After a long time, Ye Xuan's turbulent mood gradually calmed down, sitting cross-legged in the center of the cage, closing his eyes, and thinking about the situation, quickly analyzing the current situation.

There is no doubt that as soon as he returns to the devil's field, his lies will be revealed immediately. The huge aftermath that he said before refers to this matter.

For him, there are currently only two ways to go, either to stop the tyrants from returning to the Devil's Star Field, or to kill or conquer him before the Black Wind enters the wormhole and returns to the first universe opposite. !

These two ways, no matter which one, must be based on a premise, that is, re-smelting a nine-level or even ten-level slave print, so that it is considered to have the conditions to wait for an opportunity to start.

The reason why the ten-level slavery is required is because the typhoon is now the eighth-order grand perfection of the eighth realm of black hole. Once the other party enters the ninth big realm after the black hole, then the ninth slave India may not be insured.

As soon as I read this, Ye Xuan took a deep breath and temporarily put all the other confusing thoughts in the brain to the side, and soon he calmed down and urged the accumulation of the spiritual core in the sea as much as possible. The spirit of the spirit of the source, try their best to start to condense the slave...

Chapter 2715: Legendary battleship purple hole shuttle

Time passed slowly, unconsciously, and ten days passed!

During the ten days, Ye Xuan, who was once again imprisoned in Wanluo Prison, did not move. He kept his eyes closed and was in a state of forgetting things.

Under the circumstance of appearance, the spiritual source of nuclear in his mind is just the opposite, and he has always been in some extreme crazy operation.

Within ten days, Ye Xuan knew that the spiritual source of the sea was continuously extracted from a large number of spiritual sources, and then he was condensed again and again according to the unique method of condensing slavery. From the very first level of slavery, the level and quality are constantly improved, but the slain of Ye Xuan's refining is always only one.

As the slaves get to the back, the time and energy required to condense once will be a great horror. Even the power of the spirit that needs to be invested will be a straight line of geometric growth.

If you want to condense a level 10 slain, it takes at least half a month to use Ye Xuan's speed. But this time, he was completely mad, and he couldn't sleep for ten whole days and nights. He finally realized that the slain of the sea was constantly suppressed and refining, and he was promoted to the tenth level.

This is the first ten-level slave print that Ye Xuan has condensed. Compared with the previous slave prints, after reaching the tenth grade, its color has changed from the pure black to the black and purple. The inexplicable mystery of the stock.

Only one glance, Ye Xuan has great confidence in this ten-level slave print. He has a feeling of faintness. The slave print after the tenth grade seems to be different from before, not only the color, but also the performance. There is also a qualitative change.

But all this is only a guess at present, and it will be necessary to wait until the success of the tyrant to plant this ten-level slave print.

With the success of this ten-level slave print, Ye Xuan has been hanging in the eyes of the blind man, and finally fell half, but only half.

With the ten-level slave print, for him, the meaning is only that he has the qualification to judge the shot, but it does not mean that this shot will succeed.

After thinking about it, Ye Xuan decided to make some preparations before hands-on, in case there was no retreat after the failure.

He intends to reintegrate the trenches, warriors and private warships that have completed four integrations before. I believe that after completing the fifth integration, the trenches and warships that were originally super products are in all likelihood. Can be upgraded to the legendary treasures of the stars.

And because of the birth of the sword spirit, it is a warfare star blood sword that has long been a legendary treasure, it is very likely to leap into an epic treasure.

In this way, even if the action of swearing against the tyrants fails, once the face is torn, whether it is struggling or waiting for an opportunity, Ye Xuan will be more emboldened.

Of course, in order to achieve quality improvement, this time added to the fifth fusion of consumables and the same type of treasure, its level and quality must also be carefully selected.

After the decision, Ye Xuan immediately became a spirit and carefully selected.

For the tens of thousands of space boxes in the immortal world, Ye Xuan did not go looking for it. One is too many, too cumbersome, and the second is because the guys who were blackmailed by him are indeed quite a family. Feng, but basically the best things are all in the 30% share of the body, although the 70% of the leaves obtained by Ye Xuan are basically extremely rare, but for the fifth major integration, However, there are obviously some lack of quality.

Fortunately, in the third warehouse area of the Black Mosquito last time, he found a few good legends, epics, and even treasure-level treasures and materials, this time just right.

After some scrutiny, Ye Xuan selected three of them, namely the star tear crystal, the void, and the wormhole ship.

There are a total of three teardrop crystals! Ye Xuan took only one piece and prepared to refine it into the magic blood star spirit sword. Its grade is an epic mineral of the starry sky, which can enhance the spirituality of the magic blood marrow sword.

The emptiness is not extinguished, and Ye Xuan intends to refine it into the purple phoenix enamel. Its grade is star-to-treaty mineral. With the integration of this gold, Ye Xuan's trenches must be upgraded, and even become an epic treasure. It is not impossible, after all, the incomparable void is the treasure of the starry sky!

As for the wormhole ship, it is worth mentioning. Although its level is only an epic battleship, it is extremely strong and can withstand the horror of the wormhole jumping. If this ship is integrated into the purple star shuttle, the purple star will be made. If the shuttle can also possess such horrible and sturdy performance, then once it fails to guess the ten-level slavery, it will not be able to escape.

Even if he has been brought into the natural universe wormhole that leads to the first universe in the deepest part of the core of the funeral star, Ye Xuan can be fearless.

After all the details have been re-expressed, there is no omission. After Ye Xuan bites his teeth, he directly throws Zixing Shuttle and the wormhole ship that the ship just took out from the immortal world to the devour system.

To be precise, it is a fusion system attached to the phagocytic system.

Then, in his mind, a familiar system sound was heard.

"Hey, I found that I can fuse the treasure, purple star shuttle and wormhole, do you start to merge?"

Even if Ye Xuan gave a definite reply, then there was a lot of star nuclear origins thrown away, which is the energy needed in the fusion process.

"Hey, the fifth fusion of Purple Star Shuttle begins, progress 1..."

After hearing the system sounds coming again, Ye Xuan sighed with relief. According to past experience, the time required for the fifth fusion will be even longer. It is estimated that at least six days or more, and this time, Ye Xuan closes again. The two sisters began to condense the new slave prints in case they were not needed.

Six days later, Ye Xuan withdrew from the continuous smelting and refining. After waiting for a small half day, the system sound of the fifth fusion was finally ringing.

"Hey, congratulations to the host, the fifth fusion success! Get the purple hole shuttle! Grade: Star Legend legendary private battleship!"

Although it is only legendary, Ye Xuan is already very satisfied. After all, the success of the fusion means that this purple hole shuttle, from then on, will be able to withstand the horror of the natural universe wormhole jumping like the large warships and the space fortress. The power of crushing!

With such joy, Ye Xuan's consciousness quickly sank into the body. After some observation, he found that the streamlined appearance of Zidongsuo basically did not change, but it added some micro-blunt angles like muscles. The color is also in the original purple, purple and black, the air is heavy and heavy, and it is known that its firmness has definitely improved a lot.

Then, Ye Xuan directly threw the remaining four treasures and consumables to the fusion system at the same time, and the prompt sounds in the mind.

"Hey, I found that I can fuse the treasure, the blood-stained star sword and the star tear crystal, do you start to fuse?"

"Hey, I found that I can fuse the treasure, the purple phoenix enamel and the void does not destroy the gold, is it beginning to merge?"

Chapter 2716: Epic warfare

After the prompt sounds, Ye Xuan immediately made a positive reply, and at the same time, a lot of star nuclear sources as fusion energy were thrown away.

After doing all this, he closed his eyes again. This time, the two treasures merged at the same time, and the time required will be longer. At least eleven days, enough for him to condense a large number of slaves.

Fortunately, the last batch of devils who had been thrown into the devouring system had a large number of brain cores, and they were basically the brains of the Devil's elite. The grades were quite good, and the spiritual origin of the intrinsic was more magnificent. Otherwise, he was so Crazyly condensing the slaves, I am afraid that the core of the spiritual source in the sea has to be drained.

Twelve days later, Ye Xuan slammed his eyes and opened his eyes. Sure enough, in the next moment, there was a system sound that successfully merged two treasures.

"Hey, congratulations to the host, the fifth fusion success! Get the Devil's Blood Tears! Level: Stars epic warriors!"

"Hey, congratulations to the host, the fifth fusion success! Get the eternal glass 铠! Grade: Starry epic trespass!"

Everything, as Ye Xuan had speculated, completed the fifth fusion of warfare and trenches, all of which surpassed Ye Xuan's small private warships and reached the starry epic level.

The Devil's Blood Tears Sword is because it was born before the Magic Blood Sword Spirit, it has been promoted to the legendary level in advance, this time joined the epic star star mineral star tears tears, jumped to epic soldiers in one fell swoop, but Expected.

The same fifth successful fusion of the invincible glass enamel can be from the previous super best, skip the legendary level, and promoted to an epic battleship in one fell swoop, because this time the fusion of the emptiness of gold is a starry sky to treasure The reason for the class of rare minerals.

After completing the fifth fusion, it has become the two treasures of the epic blood-smashing sword and the immortal glass enamel, which are different from the previous ones.

Although the blood-stained tears sword is still a blood-red color, but the blood-colored lines that are all over the body of the sword body, there are some silver-white teardrop-like marks on the stars. It looks a lot more flexible. As for its power. There must be no small improvement.

As for the eternal glazed enamel, after this fusion, it is finally no longer feminine like before, the lines are hard, and the royal emptiness of the emptiness of gold is revealed, with an inexplicable mysterious power.

For a total of twenty-eight days, nearly a month later, Ye Xuan was described as a crazy preparation for war, and the war squad and the warships all completed the fifth fusion.

In addition, in addition to the first level of smelting of the ten-level slaves, in the subsequent eighteen days, the number of other grades of slavery he condensed was quite considerable.

In total, there are two grades of nine, eight grades, four grades, seven grades and ten grades, and three to six grades of tens to hundreds of pieces!

This amount is only enough for emergency use, which is obviously enough.

When everything is ready, Ye Xuan begins to consider the next action plan. What I want to know most about is the location of the Buffalo, such as whether it is still in the funeral domain? Or has it entered

the deepest cosmic wormhole in the core of the star field, and is now in the process of wormhole jumping at the level of the universe?

This is very important, and it is related to how Ye Xuan's emergency measures should be carried out once he failed to make a slain.

Unfortunately, although he has a purple hole shuttle that can be transmitted, he can only leave the cage and cannot get out of this Wanluo prison in the bottom of the black wind.

The old method used in the black mosquito has been no longer available.

On the one hand, the time is tight, and he is not allowed to eat the purple wind from the bottom up. Besides, he has not enough enslavement now, and he has no time to continue to condense.

What's more important is that before the black mosquito number, he was basically unknown and not eye-catching, but here, Ye Xuan did not have the opportunity to mix in the prison to wait for the opportunity to shoot, the guys were obviously long ago The tyrants have been surviving, and this time they will come and go twice a day, always staring at him.

As long as there is a slight wind and grass, I am afraid that the first time will be alarmed by the top of the Black Wind!

After some sinking, Ye Xuan suddenly remembered the three-tube and nine-stage gene culture solution that had just been exchanged.

If the three tubes are used at the same time, it may not be known that the fragments of the endless starry sky will be revived in a short time.

If this is the case, Ye Xuan can activate the star-level independent communication system attached to the phagocytic system, which is equivalent to a terrestrial satellite base station that is carried around, no matter where it is. They can forcibly invade the starry network of nearby administrative stars.

Even through the Star Network of the Executive Star, as a hacker, invade the upper-level star network. Of course, considering the integration of the fusion system requires energy support, the independent communication system is activated once it is used. Most of the same is true.

The starry network that invades the administrative star may be better to say that once the last star network is forcibly constructed in this way, it is feared that its energy consumption will grow geometrically.

But these are not problems for the current Ye Xuan. The origin of the star nuclear in his immortal world is simply massive, so you don't have to worry about how to use it!

For him, the most important thing at the moment is to be able to successfully activate this set of star-level independent communication systems. In this way, even if he is trapped in the bottom of the Black Wind, Wan Xuan can be unconsciously The outside world gets the information you need.

Even the star-shaped super-brain that directly invades the top of the intelligent master control center of the Black Wind is very likely to be realized.

If this is the case, once Ye Xuan successfully counters the Black Wind, he will guess the cup in an instant...

In the thought of this, Ye Xuan-sen feels stunned. The first time will be the star-shaped mother-of-pearl box containing the immortal starry sky super brain fragments, taken out from the immortal world.

At the same time, there is also an ordinary space box, which was the exchange window of the Tianhexing Federal Affairs Hall before Ye Xuanyue. It was taken in the hands of an intelligent beauty robot. The three boxes were installed. A nine-stage genetic culture solution that is worth 30 million federal contribution points.

Due to the complicated environment at the time, and the heart of Ye Xuan's heart, Wu Luolian's tying up would not be a matter of doing things in this kind of thing, so that the space box could not be opened for inspection. At the moment, when he believes in playing a brand of gods, he will After the simple seal on the space box is erased.

As the space box was opened, a tiny but extremely bright golden glory, without any warning, rushed out of the box, and instantly fell into Ye Xuan's forehead, entering his knowledge of the sea, as if he had long eyes. It was directly branded on Ye Xuan's Zifu Yuanshen.

Then, a mysterious and powerful mysterious force exploded, making Ye Xuan mad and almost fell.

At the same time, in the other cage on the right side, about three or four hundred meters away, a handsome figure who had been closing his eyes and knees, but also felt something, suddenly opened his eyes and turned to Ye Xuan. It's utterly endless...

Chapter 2717: Immortal Zulong Blood

"boom!"

As the horror roar of the landslides rang in Ye Xuan's sea of knowledge, his consciousness of the gods was almost unrestrained, and instantly it was like a huge black hole pulling into a dreamlike place.

This is a starry sky, empty, long, and quiet, revealing a very strong and simple atmosphere, as if at the end of a certain universe, along the time of the river, back to the legendary ancient rain.

Surprisingly, with the appearance of this quaint and star-studded starry sky, Ye Xuan's roar in the sea also stopped momentarily, and when he turned his head, he was stunned for the first time in his eyes. The color.

This mysterious starry sky, which reveals a strong and simple atmosphere, is faintly acquainted...

By the way, when he cultivated the illusory piece of the hole, the atmosphere of the mysterious starry sky seen twice before and after was exactly the same.

The only difference is that there is a huge horrible giant turtle in the quaint starry sky brought to him by the illusory article, but there is nothing here.

"Hey..."

This thought was just flashed in Ye Xuan's mind. At the end of the endless starry sky, there was no sign of a sudden scream of the sorghum, like a dragon.

No, it's not like, this is really a dragon.

Because of the next moment, in the deep galaxy at the end of the line of sight, there is a golden figure that is not weaker than the giant tortoise.

One dragon!

A whole body of gold, exudes the golden dragon of the endless imperial power.

"Hey..."

Just as Ye Xuan was amazed, the golden dragon had once again shook his neck and shook his neck. The right front paws waved at random, and a vast galaxies disappeared into a huge black hole, revealing endless power of devouring. Several nearby galaxies were swallowed up, but they failed to shake even the corners of this golden dragon.

terror!

The existence of absolute horror, like the giant turtle in the hole, should be the same level of existence... Perhaps they exist only in the wild, and in today's world, there can be no such powerful life!

"call out!"

The second dragon's voice fell, and the golden dragon in the distance seemed to inadvertently glanced at Ye Xuan. Then, as the golden dragon raised his right front paw, he walked toward Ye Xuan through the endless void. One point, the sound of the empty space has been approaching for a moment, one is only the size of the fingernail, but it blooms with the glory of the golden man, directly into the forehead.

This scene, just before he was caught in the mysterious void in the sea, opened the sudden change of the three-tube and nine-stage gene culture solution... exactly the same!

Not waiting for Ye Xuan to think about the relationship and cause and effect, his consciousness of the gods has once again been steeply shocked, and instantly it is squeezed out of the mysterious starry illusion by an irresistible force.

At the same time, in the sea of knowledge, it is like a star bursting, and there are a lot of mysterious runes in the moment. What is even more strange is that Ye Xuan clearly does not know one, but with these ancient cultures as one Hanging the pattern of Dajiang rushed into his god, Ye Xuan seems to be like a sudden insight, all the righteousness will be thoroughly accessible in an instant!

The golden dragon, which belongs to the same level as the cave giant turtle, is named Zulong, and it is a little bit of a paw in the quaint starry illusion of the previous saga, and it is shot into the tiny golden awn in Ye Xuanyuan's forehead. It is a drop of Zulong blood, named immortal ancestral blood.

To put it bluntly, it is actually a seed passed down by Zulong.

Of course, this seed, not the gold ancestral hand handed over to Ye Xuan, the illusion of the past, is just the inheritance of this immortal ancestral blood.

The true immortal ancestral blood is actually shot from the space box containing the three-tube and nine-stage gene culture solution. It is not in the body of Ye Xuan and is branded in its god.

This kind of immortal ancestral blood, representing the inheritance of a bloodline!

In the quaint starry illusion, the gold ancestral claws of the golden ancestors and the claws of Ye Xuanyuan's gods represent the inheritance of power!

To put it simply, to get the real thing of the immortal ancestral dragon blood, your body is equivalent to a trace of the blood of the ancestral dragon, but that is all.

Only in that quaint starry illusion, the golden ancestors of the golden ancestors were injected into the gods of the gods, and the blood of the ancestral dragons that you inherited in your body was officially recognized. Hanging the river-like massive rune, it is the mystery of the power of the golden dragon.

A kind of forging body that belongs to the golden dragon family after reaching the extreme, can reach the realm of immortal treasure!

The grade of this kind of forging is definitely not weaker than the one that Ye Xuan had previously obtained and the source of the tortoise.

And, it's still complete!

This is simply the creation of Tianda. For Ye Xuan, for the sake of practice, he has almost no need. The forging has the inheritance of the golden dragon family. The cultivation of the gods comes from the cave turtle. The imaginary part of the hole, even the spiritual core of his own unique demon in the sea is different from the ordinary ordinary devil, the others are black, his spiritual source is nuclear, but it is black and purple!

The flesh, the gods, the spiritual power... If Ye Xuan is in a three-pronged approach, and at the same time go hand in hand, the future achievements will be incalculable.

All this came so suddenly and unexpectedly, it made Ye Xuan have a sense of suspicion in his dreams.

The sinister and the spiritual source of the nucleus in the sea, but it can be regarded as a huge surprise unexpectedly, but if it is compared with the immortal ancestral blood obtained by this time and the power of the golden ancestors, it is true. Insignificant.

Because this time, Ye Xuan clearly means that the cat smashed into the dead mouse, and inexplicably got a great creation... from the creation of the imperial royal family!

At this moment, with the blood of this immortal ancestral dragon into the gods, into the mind of God, in the mind of Ye Xuan, there is also an old woman's figure, graceful and noble, extraordinary, but the eyebrows are quite worried .

In addition to the figure of this old woman, there are a few simple words!

"Xuan Er, I can't think of it for only a hundred years, you have already smashed the black hole and the 9th order is perfect, and I am very pleased!"

"It's just what you need, these three tubes and nine grades of liquid, for the mother to use private power for your speed, and there is still a drop of your dreams of immortal ancestors."

"This thing, it is only a few drops of the ancestral dynasty of the dynasty, but it is left by the ancestors of the dragon family. It is said that it is the blood of the ancestral ancestors, and it can only be given to the royal descendants who have completed the ultimate trial. For the mother to ask your father for more than ten years, but also pay a lot of money to come in advance, hoping to help you break through the black hole in one fell swoop, and successfully obtain the recognition of this immortal ancestral blood, inheriting the blood of the ancestors The power of inheritance, branding the ancestral atmosphere in the Yuanshen!"

"Once this matter is successful, you will become the most **** presence among all the descendants of the royal family. It will be the future treasure, and it will be just around the corner, remember to remember..."

Chapter 2718: Tremble of the Black Wind

After confessing everything, the image of the woman in Ye Xuan's mind and the voice of the words quickly dissipated, and there was no trace of it.

In this regard, Ye Xuan slightly thought about it.

After all, this woman's move was also illegal. The immortal dynasty's extreme trials were demanding, and she could not leave any traces that might be肘ed by her opponent.

With the disappearance of this image and the voice of speech in the mind, Ye Xuan has completely realized the cause and effect of this matter.

It's no wonder that the two guys, Bai Zhengjun and Zhao Long, would like to think about it. This is really too coincidental. Even a royal lady who is far away from the emperor's star is definitely taking her as her son. What about others?

On the one hand, Ye Xuan's identity suddenly popped up, and there was no trace before. This is in line with the conditions for the royal family to conduct extreme trials.

In addition, he not only has a Xuan character in his name, but also rushed into the top two thousand of the federal contributor list in just a few days. This is not something that ordinary people can do. Presumably the real royal family嫡It's also true that this is the funeral domain, and there is a way to get a lot of federal contribution points quickly.

And for this, the royal lady of the emperor's immortal star just knows...

In this case, Ye Xuan suddenly appeared in the Tianhe Star Field closest to the funeral star field. How could people not misunderstand?

Too many coincidences and together, it is no longer a coincidence, but God!

All of this, perhaps, only God's word is enough to explain it!

In the sigh, Ye Xuan opened his eyes, and then he saw the space box that he had placed on the palm of his right hand. Inside the box, the three-tube golden nine-stage gene culture solution was visible.

"I can finally start! I hope that the corner of the starry sky will be able to recover as soon as possible!"

In the whispering whisper, Ye Xuan even if he opened the left-handed star-shaped mother crystal box, did not hesitate, and poured all the three tubes and nine-level liquid into the bones, all in the box. A super-brain fragment like a yellow slice.

Then, after sensing the breath, it closed again, and turned the hand to the star marrow box into the immortal world.

"Robber! Bandits! Wang Ba Gu..."

"You are a despicable and shameless guy, why do you take it with you? The immortal ancestors... clearly is the thing of my dragon, returning quickly, otherwise I, I..."

Just after all this was done, not far from the right side of the cage, there was a sudden and abrupt voice of a sorrowful curse that seemed to be resentful, so that Ye Xuan suddenly saw a glimpse of the condition, not even the sound Look forward to...

In the line of sight, three or four hundred meters away from the nearest cage of Ye Xuan, a young monk who is still imposing, is now crouching in front of the prisoner column, and straightforwardly looks at Ye Xuan, 眸In the middle of the red as blood, revealing the resentment of Haotian, the look is even more incomparable, a few want to choose people and punish!

Even if Ye Xuan was stunned, his mind was flashed in the light, and he subconsciously opened his mouth.

Long Xuan?

Actually, I almost called out the immortal ancestral blood?

In addition, the similarity between the person's eyebrows and the royal lady is about six or seven...

The facts are already very clear!

The guy in the opposite cage, in all likelihood, is a royal descendant of the immortal dynasty!

And it is undergoing an extremely trial, although it is indeed a funeral star field, but it is too bad luck, it was soon into the bottom of the Black Wind, became a captive of the devil!

The reason why the other party has determined that he has taken possession of his possession is not difficult to understand. What is the immortal ancestral blood? As a descendant of the royal family, when the first one appears, the other party can sense the breath.

Together with the three-tube and nine-stage gene culture fluid that just appeared in your own hands, the other side will be slightly deduced, and this situation can be roughly analyzed!

One thought and this, Ye Xuan immediately smashed.

Although everything is accidental, but he has the fact that he originally belonged to the other party, but it is not to be erased, that is, he has not been hit. With Ye Xuan's character, his heart will inevitably have some guilt, but now the suffering Not only was it in front of him, but he even saw the whole process of Ye Xuan's acquisition of the immortal ancestral blood.

It's so ridiculous that it's so ridiculous!

Unfortunately, there is no way to smash it again. The immortal ancestral blood has been branded into Ye Xuan's god, melting his knowledge, just like an inseparable whole, Ye Xuan has no intention to return, there is absolutely no way. Then come out and return to the wall!

However, the other side is expensive for the emperor, and because of his status, even if Ye Xuan has a lot of good things, but he can enter the house, I am afraid that it is really difficult to find out, and then, it can be compensated for the blood of the immortal Zulong. Even if Ye Xuan has it, it may not be able to raise his hand and send it out.

This matter, when it was really embarrassing, let Ye Xuan tangled, except for the guilty conscience, shaking his head and smiling, sometimes did not know how to make mistakes.

The Emperor Longxuan in the opposite cage has been cursing all the time, and he wants to see Ye Xuan not responding. It is to confirm that he is deliberately guilty. The curse in his mouth is more and more ugly. Unconsciously, even Ye Xuan frowned, and the annoyance became thicker.

In the end, Ye Xuan simply closed his eyes and closed the five knowledge, only when the outside world did not exist.

Even the slightest apology that still existed in my heart was dissipated in an instant after I received the stench of the other party.

He is also a man of arrogance, can you let others be so embarrassed? Everything has its cause and effect. If you say that you have inadvertently obtained the immortal ancestral blood of the other party, then, in Ye Xuan's view, the sinfulness that he just learned from the other's mouth is enough to be fruitful. I owe it, no more entanglements!

Peace of mind!

Thinking like this, Ye Xuan's mentality gradually calmed down, and soon he forgot the Emperor Longxuan in the opposite cage. He quickly entered the state of concentration, analyzed the current situation and deduced the follow-up countermeasures!

It was also at this time that in his mind, the sound of the phagocytic system sounded abruptly.

"Hey, congratulations to the host! Capture the biological wave frequency of the immortal starry sky super brain, is it checked immediately?"

So fast?

In the mind, these three words flashed, and Ye Xuan immediately became overjoyed. He did not hesitate. He quickly took the star-shaped mother box that had just been born into the immortal world and opened it directly.

As the lid opens, it is extremely embarrassing, and the mysterious atmosphere of the microscopic weakness instantly rushes to the surface. However, when Ye Xuan wants to carefully sense it, he is surprised to find that nothing can be touched, that breath, It seems that there is no such thing as normal.

"Booming..."

Just as his heart was awkward and his face was stunned, the ground of Wanluo Prison under his feet shook sharply and violently. This is clearly the rhythm of the entire Fortress of the Black Wind.

In the brain, the light flashed, and Ye Xuan subconsciously closed the box beast.

The violent shock that came from under the feet, passed away in a strange way...

Chapter 2719: Super brain level suppression

The only use of the starry sky super brain is to represent its value as a biological intelligence hub in a star-sized network of large or small.

The universe of stars and stars, as large as the entire third universe, is as small as an administrative star's internal star network, or even an internal network of space fortresses.

Its role is like the human brain!

This is related to the super-grade of the starry sky. For example, the starry sky and super brain in the immortal emperor's immortal star is the top immortal level.

The kind that is applicable to the inner star network of a space fortress is the most common starry sky super brain.

This is the case, for example, in the starry sky super-brain that exists as an intelligent control center in the space squad called the Blackwind and Black Mosquito.

The starry sky super brain of the black mosquito has been refining by Ye Xuan, and its effect is like controlling the whole person by controlling the mind of the human brain. Since then, the black mosquito has completely become the private property of Ye Xuan.

Take control of everything.

And, through this incident, Ye Xuan is also very familiar with the atmosphere of the starry sky super brain.

Just now, when the Black Wind trembled without any warning, Ye Xuan sharply captured a breath of starry sky and super brain. Although it was extremely embarrassing, it clearly revealed a fear.

For this reason, he would flash a ray of light so quickly in his mind that he almost immediately subconsciously closed the star-shaped medullary box containing the immortal level of super-brain fragments.

At this moment, with the mother crystal small box closed, the violent tremor of the black wind number also passed away instantly. Only this point is enough to confirm Ye Xuan's guess!

The immortal starry sky super brain, for the ordinary level of the starry sky super brain, it really has the same level of suppression effect.

This is actually quite normal, and many creatures in nature are like this.

Although the existence of the box in his mother's crystal box is actually only a piece of debris of a certain superstar brain, but even a fragment, when it is revived by the ninth-order gene culture solution, it is dispersed. It is also the unique atmosphere of the immortal starry sky and super brain.

Maybe weak, but it is like a fake!

Other existences may not respond, but for all ordinary-level stars and brains, it is as difficult as a civilian to meet a king.

This kind of level suppression effect is only the ethnic nature of the starry sky super brain. It has nothing to do with Ye Xuan originally, but now it is this unexpected sudden discovery that makes his heart suddenly clear.

All the troubles and troubles were completely dissipated in an instant, like a gust of wind, and the clouds were foggy!

"Hey, congratulations to the host! I received an immortal level of super-brain fragments, in line with the activation requirements, whether to activate the star-space personal communication system?"

As Ye Xuan will take back the body of the star-shaped mother crystal box of the immortal level of super-brain debris, throwing it into the phagocytic system, the long-awaited system prompt sounds soon.

At this moment, Ye Xuan's breathing became rushed, without hesitation, even if he made a positive reply. Then, the tone of the phagocytic system sounded again, one after another, and the indiscriminate bombing, and at the moment, Ye Xuan was caught unprepared.

"Hey, congratulations to the host! The star-level personal communication system is activated successfully!"

"The current level of the astrology center: fragment level!"

"Current level star brain wave frequency coverage: diameter one light month!"

"Current level network communication capability: only access level after the access, can not be invaded!"

"Hey, congratulations to the host! Found the star brain center wave! Type: Micro LAN. Star brain level: normal level! Is it immediately connected?"

When the system sounds in my mind finally ended, Ye Xuan felt that the whole brain was a little bit sloppy, and calmed down the mood, which began to analyze one by one.

First of all, the star-space personal communication system is successfully activated, and the fragment of the starry sky super-brain in the corner seems to be the astronomical center of this communication system from now on, like the immortal star in the immortal star. , processing all exchanged data.

In addition, from the analysis of the prompt tone, the newly activated personal communication system seems to have a grade, and this level is directly linked to the starry super brain as the system intelligence hub.

At the moment, the intelligent center of the system is only a fragment of the starry sky and super brain. Therefore, it is the lowest level, and the farthest distance covered by the astral wave is a light moon!

Of course, this distance will definitely increase with the growth of the immortal level of super-brain fragments in the future. As for how to grow, this Ye Xuan has not had time to look at it.

In addition, at present, it is only a fragment-level personal communication system. It captures the wave frequency signals of other star network within the diameter range of one light moon, and after communication, it can only be active in this level of star network. , no live and forcibly cross the border into the upper level network.

For example, it captures the wave frequency signal of the administrative star area network of the Tianhe Star. Then, once it is connected, it can only be tossed in this level of network. If you want to retrograde, you will invade the upper level of the dusty star country. Network, sorry, not enough.

As for the micro-LAN mentioned at the end of the system, there is no doubt the internal network of the Black Wind Fortress.

From the discourse content of the system prompt tone, Ye Xuan's personal communication system obviously realizes network connection and access by sensing and capturing the biological wave frequency of other stars and brains.

After all, all the star-level networks are large enough to cover the entire network of the third universe, the top-level network of the immortal star, as small as a local area network inside the space fortress, and its intelligent master control center can all be star-shaped super brains. The only difference is that the level is different. It's gone.

After clarifying the basic situation, Ye Xuan did not immediately order access to the intelligent center of the Black Wind, and he could not escape anyway.

What he is most concerned about now is the growth and evolution of the super-brain fragments of this corner of the immortal level. After all, the function of the residual film level is too weak and too weak, and the original intention of Ye Xuan is too far away.

With this question, he even found out even in the internal database of the communication system, and soon realized it.

Ye Xuangang's activation of the intelligent center of this star-space personal communication system is only a corner of the film, but as long as the activity is restored, it can grow like the earth's age, through continuous cell division, until it finally recovers completely. state.

Of course, the starry sky super brain is just like the old age. It is a strange existence between the living body and the non-living body. There is no cell at all, but the overall meaning is correct.

The only difference is that the age of the earth is too slow to grow slowly, but it continues to grow. The special minerals of the black crystal can be realized...

Coincidentally, this kind of magical black crystal Ye Xuan not only has, but also a lot.

This kind of thing is actually the kind of black stone used by the strong man to enhance the spiritual strength. Ye Xuan had had contact in the warehouse of the three-storey warehouse area of the black mosquito, and later handed it to Buck management, let him Opened the supply to all the magic slaves and upgraded their cultivation as soon as possible...

Chapter 2720: a big pie

The magical black crystal seems to coincide, but in fact, a little thought, you can find its inevitability.

As everyone knows, the intelligent center of the star network, that is, the higher the level of the starry sky super brain, the wider the star field covered by the entire star network. The reason is that the network signal of the star network is actually the network intelligence center. The biological wave emitted by the starry sky super brain.

The stronger the starry sky, the stronger the wave frequency!

This kind of wave frequency is basically the same as the spiritual power of the devil. Therefore, the devil and the starry super brain need this kind of magical black crystal, which is completely understandable.

The so-called magic black crystal, which is contained in it, is a special force that can form the amplitude effect on the magical power of the devil. The amplitude effect of this power obviously helps the biological wave frequency of the star super brain!

After figuring out these situations, Ye Xuan was completely relieved. He remembered how many black crystals he had, and how to consume it was enough.

However, this matter can be taken care of at the moment. It is imperative to take the Batu Caves for the first time.

Ye Xuan even issued instructions to the newly activated communication system: immediately splicing and accessing the internal LAN of the Black Wind Fortress, and as soon as possible, its intelligent master control center, that is, the ordinary level of the sky super brain conquered , refining!

With the release of the instructions, Ye Xuan clearly felt that there was a strange force in the body, which was a bit like the power of the devil, and it was a bit like the power of the human monk. It must be the starry sky. The biological wave frequency unique to the super brain.

This kind of biological wave frequency does not need to be controlled by Ye Xuan. I follow the same kind of wave frequency that I sensed. I wandered out from Ye Xuan's body, which is like an invisible and thin line, with one attached to Ye Xuan. The consciousness of the Yuanshen, one end, just turned quickly and twisted, seamlessly inserted, and blinked to the fourth floor of the Black Wind Fortress, and entered the central control hall of the four-layer core area.

In the next moment, Ye Xuan's heart was inexplicably trembled. It was like a god-crossing. It sensed another wave of the same wave frequency, but it was a lot weaker, with a sense of fear.

Obviously, the immortal super brain wave frequency that has been extended from his body has successfully formed a ditch connection with the black wind intelligent center.

In the next moment, a large number of grips were like rolling in the river, pouring into the mind of Ye Xuan, including everything in the entire Black Wind.

Because the amount of data is too large, Ye Xuan is too late to prevent it, and actually feels dizzy and dizzy.

This is actually the reason why the operation is not familiar. Once you get started, he can selectively access and obtain the data he needs. It is useless and directly ignored.

Fortunately, he was powerful and only recovered a few moments after a slight dizziness. Then, Ye Xuan began to look at the data that he just got.

To his surprise, the data not only includes the opening and closing authority of the main passage of the Vailor, but also the right to retreat all the cages, even the access rights of all the space doors and other passages on the upper and lower floors of the entire space fortress. Both are included.

And all are top-level admin rights.

That is to say, if Ye Xuan is willing, he can now do not know that the activation brand of all space doors has been completely changed. In this way, even if he guesses, in this black mosquito space fortress, It will be difficult to make progress.

Even the spiritual brand he has had completely failed, the space door and all the passages could not be opened, and where can I go?

In addition, all the control of the entire Battlestar defense and the attacking array, all of which are in the data.

Under the ecstasy, Ye Xuan even directly refines the starry sky of the Black Wind, and then spends a little time, and all the control rights have been modified.

In a word, all the powers possessed by all the magicians in the Black Wind have been completely lost in the blink of an eye. Everything is concentrated in the hands of Ye Xuan.

As long as he is willing, the whole black wind number, like the previous black mosquito number, can be directly absorbed into the immortal world!

However, he apparently did not intend to do so immediately. Even with the activation of a space door and all channels, Ye Xuan had set a temporary lag period.

Because he found an intelligence in the database of the Black Wind Intelligence Hub.

Two days later, the Black Wind will reach the edge of the natural universe wormhole that leads to the first universe in the deepest part of the funeral star.

At that time, the Devils will be in the Legion, and eight other space bastions besides the Black Mosquito will arrive there.

The purpose is to transfer the resources of a large number of rare minerals, star nuclear sources, and other treasures that they have explored in their respective responsible stars in the respective star fields to the Begonia, and will return to the first universe. The black wind number, bring back to the devil's ancestral land!

Previously, just a massive amount of black mosquitoes had already made Ye Xuan happy and unable to suppress himself.

Two days later, the other nine space bastions, including the Black Wind, will bring together all the resources and treasures collected in these years. In that scene, Ye Xuanguang thinks that there is no point to bear.

In a word: a big pie, don't eat, just sorry for yourself!

It took two days to pass.

In these two days, although Ye Xuan has been staying in the cage of the bottom of Wanluo Prison, but through the starry sky of the Black Wind, all the conditions of the entire Battlestar have not escaped his perception.

When he was bored, he also tried to connect to the last Tianhexing network through the internal LAN of the Black Wind, to understand the follow-up reaction of Tianhe Star after he was detained on the same day.

However, the results were disappointing.

The level of the star network is very strict. The immortal star on the imperial star is super-brain, and the one-star sky network is in control.

The stars of the three imperial countries are super-brained and control the secondary star network.

In the three empire maps, the starry sky and super brain in the stars of a small country are in control of a large number of three-level star network.

When the small star is below an administrative star such as the Tianhe Star, the starry sky super-brain is controlled by a four-level star network covering a certain star field.

The five levels below the fourth level are general, just a general reference, for a warship or spaceship inside the starry sky super brain to control the micro-local area network.

In other words, the black wind number of the local area network belongs to the fifth level, and the biological wave frequency emitted by the starry sky super brain in the Tianhe star, even if it can arrive here, people are also four-level network.

The fragment-level personal starry-sky communication system can only be connected to other networks, and it is impossible to forcibly invade the upper level, so there is no play.

Of course, Ye Xuan can also directly use his personal star network communication system to access the four-level network of Tianhe Star, even the third-level network of Guoduxing, and even the second-level network of Emperor Star.

But the premise is, you have to be able to at least capture the super brain wave frequency of these star networks?

When the distance is too far, the wave frequency is weak. The intelligent center of the personal starry communication system is just a piece of debris. Just like myopia, or a patient with severe deafness, its ability is too elbowed...
