Chapter 273: Join hands

Yi Tianlang did not turn, and replied: "The kid in Lingxiao House was besieged by more than 20 green giants. There are also four landlords in Xiaocheng. I did not expect that he would It's all back!"

As soon as this was said, the rest of the Tianlei eagle was shocked. The small giant of the green source of Xiaodan, even if it was the military of Xiaocheng, it was extremely difficult to kill it. However, Ye Xuan did it alone. It's here, and it's an enemy twenty, which is enchanting.

Lin Xueer is also looking into the distance. Although she has to see it clearly, she can also see many green giants pile up in one direction. Presumably, there is where Ye Xuan is.

Her heart was also extremely shocked. When Ye Xuan fought with him, the strength seemed to be stronger than her. However, it was not half a month before, the gap between her and Ye Xuan was quickly opened, which made her I can't think of it.

"Well? The Sovereign is there, not good. There is actually a little green giant in Da Dan, you are here, I used to help!"

Yi Tianlang suddenly said a word, then jumped off the Tianlei eagle and rushed over.

He saw that Ye Xuan suddenly had more than one figure out, it was the emperor Mo Ziyun of Tian Yuanzong.

What is important is that he was also chased by a giant giant of the green source of 67 meters.

At this time, Ye Xuan, who used the gliding wing to hunt the green giant in the forest, also saw a huge figure.

"The trough, led a big guy to come over!"

Ye Xuanhu's body was shocked, and his heart immediately became a big shout.

The green giant of the Dadan Dacheng, even if he took the giant Dan, I am afraid it will not be able to deal with it.

"Kid, deal with it together!"

Mo Ziyun attracted the giant of the green source and shouted.

Just right, Ye Xuan also just finished cleaning up, he could not help but sigh, it was rushed over.

"Mo Zongzhu, you just ran away, why bother to lead me?" Ye Xuan was slightly helpless.

"The mysterious beast of Dadan Dacheng is not easy to meet!" Mo Ziyun saw Ye Xuan approaching, immediately after a foot, and then sideways to hide, a palm shot.

"Hey!"

This little green giant who was chasing after him was slammed, and his feet fell and fell to the ground.

"The mysterious beast of Dadan Dacheng, perhaps this time we two can grow up, you hold him!"

Moziyun shouted and rushed forward to start a crazy attack. He has already discovered that these green giants have strong defenses, but the inside is actually very fragile, so with the palm of the hand, the effect is very good.

"I want to use the mysterious inner Nei, to break through to the heavens, this is probably not so easy. Dadan Dacheng wants to break through to the heavens, it is best to come to a mysterious beast."

In the heart of Ye Xuan's heart, he rushed up. He estimated that the remaining Dali effect would probably be accounted for here.

However, Mo Ziyun said that it is good, and the mysterious beast of Dadan Dacheng can also help him break through, as long as he collects more.

However, this six- or seven-meter-high Green Source Little Giant is not so easy to deal with.

With a handful of big swords, Ye Xuan helped Mo Ziyun resist the fist attack from the little giant. Originally, Moziyun did not have the confidence to deal with it alone, but with Ye Xuan's restraint, he could attack with all his strength.

In less than ten seconds, the speed of this little green giant dropped significantly, and his left leg was shot more than ten times by Mozi.

"Cut off its left leg!"

At this time, Mo Ziyun hit the green giant, and shouted at Ye Xuan.

Ye Xuan glimmered with a flash of light and held a stone sword against the stone legs.

Hey!

Despite the increase in Dali, his strength is still not enough, only half cut.

However, there are still two tricks for the Eight Deserts.

"Hey!"

The Eight Great Swords suddenly burst open, and this leg was blown directly by him.

Losing one leg, the threat of this little green giant has been reduced by at least half. If you want to move, you can only use your hands.

"The meat and eggs chariot, the legs are missing one, see how you continue to reload." Ye Xuan heart sneer, as long as this little green giant wants to get up, he cut a sword.

As for Moziyun, it jumped to the body of this little green giant and continued to attack.

In less than half a minute, this little green giant is being beaten alive.

"died?"

Ye Xuan blinked his eyes and said: "How do you take the mysterious beast?"

"Get it first, wait until you go back." Mo Ziyun replied.

"Then I will help you, the body is given to me, and the mysterious beast is given to you."

Ye Xuan went up a step and directly collected the whole body, and then swallowed the body in the phagocytic space, after which only one of the mysterious beasts was left.

Then, he took out the mysterious beast Nei Dan and threw it to Mo Ziyun and smiled: "Mo Zongzhu, look at your appearance, it seems that the power is not enough, continue?"

"The two of us can join hands, but they can destroy them, but I have a huge consumption of Danyuan, and I have to recover for a while." Mo Ziyun said palely.

"I have a quick recovery of Danyuan's medicinal herbs. Then the Mozong master and I joined forces to kill the income of five or five points, how?" Ye Xuan said directly.

"Dan medicine?"

Mo Ziyun picked up his eyes and he knew that Ye Xuan was not only a refiner, but also an alchemy teacher. He immediately became interested in his medicinal herbs.

Ye Xuan is also saying nothing, lost ten medicinal herbs in the past, all of which are the gods that restore Dan Yuan in an instant.

Mozi Yun served the next one, and found that this one medicine directly restored his Danyuan, 10 words, then all recovered.

"Okay, five or five points!" Mo Ziyun immediately agreed, only to see Ye Xuan's ability, and now add this drug, no loss.

Then, Ye Xuan leaped high, looked at it and found that this area was already cleaned up by them.

However, there are still many other places. After all, they have only cleaned up less than 50. The boulder that broke out from the Luyuan giant has estimated that there are thousands of them in two rounds.

At this moment, suddenly a figure swept in.

"Before the elders, you are here too." After Mo Ziyun saw the arrival, it was a slight glimpse.

"I just saw that you were chased by a big guy, so I came over to help, I didn't expect to be solved by both of you." Yi Tianlang said with some helplessness.

"How old is the elders, how are the others evacuated?" Mo Ziyun asked.

Yi Tianlang sighed: "Most of the live are sent out. If there is still no going out, it should be all dead bodies. Let's not say this, the green giant seems to be unmoved. If we join hands, Maybe you can clean up all the small ones."
