

## Super D. S 2731

### Chapter 2731: Soul beast

Soon, Ye Xuan and Li Mo, the master and servant, entered the interior of Montenegro after passing through a layer of gray-black atmosphere.

What is in front of you is a world in which the main tone is black. Whether it is in the sea or on land, it is all black, even the plants in this star are basically the same.

At the first time, Ye Xuan realized the source of the name of this star, Montenegro. Because it was cold and cold, all the eyes were covered with rolling black mountains. The land of the whole black mountain star was basically not too large. Flat area.

In addition, everything in the Montenegro star is not much different from the planet inhabited by the human race. It also has a city, and the buildings and roads in the city are similar.

In addition, the magic people who are visible in the eye are completely the same as human beings, and even the costumes are not much different. If the environment of the black main tone reveals a strong and strange atmosphere, Ye Xuan has to doubt whether he is returning to the third universe and entering the administrative star of a human race.

The area of the whole Montenegro is extremely vast, but since most of the areas are undulating mountains, it is not suitable to establish a city as a habitat. Therefore, there are not many cities on the land of Montenegro, and there are more than a dozen. Look like that.

However, there are only three or four hundred thousand devils on the whole black mountain star. More than a dozen cities are obviously enough to accommodate them, and it seems quite a bit cold.

Ye Xuan and Li Mo mosquitoes chose to go to Montenegro in the heart of the mainland. In the dozen or so demonic cities, Montenegro is not only the largest and the widest, but the main city of Montenegro!

The black mosquitoes of the black-collared tribe, the bear blacks, and the tens of thousands of devils who are the equivalent of human soldiers, are all in this city of Montenegro!

For this information, Ye Xuan is obtained from the star network of Montenegro through his personal star communication system.

In the level of the immortal level of super-brain fragments, invading this kind of star-space network with low-level black-air super-brain as the intelligent center, there is no possibility of being perceived by the other party.

At this moment, with the flight to the Montenegro with Limos, Ye Xuan once again issued a conditional search command to the communication system. This time, he wants to know the details of the trials of the Montenegro Star Son.

Less than half a minute after the order was issued, the search for the communication system was completed, and a large amount of information data poured into Ye Xuan's mind, so that he was informed of all the specific details.

The trial period of the Holy Tribe of the Black Mosquito Tribe is three months and ten days, that is, exactly one hundred days later.

However, since it takes time to rush to the Central Magic Zone, the deadline for the Black Mosquito tribe to be given to the top ten demons is three months, within three months, within the tribe. Ten demons must send the selected trials to the black mosquito star!

Being late is a waiver!

On the other hand, the representative of Montenegro will go to the black mosquito tribe, and the final candidate who will go to the magic star to participate in the trial of the Son will be born in 30 days.

However, the fierce competition for this trial position was started as early as a month ago, and according to data obtained by the communication system, a month ago, the mighty magic entered the sacred cave to compete for the quota. There are more than 10,000 people who are strong.

The sacred cave is an incomparable vast natural crypt, which is more than a kilometer below the surface of the Montenegro. The entrance is not determined, and its entrance is located in the northern wasteland of the Black Mountain.

The reason why Montenegro has set this place as a place of competition for trials is because there are a lot of souls and beasts wandering in this vast crypt.

The sacred beast has no flesh and blood, but a kind of imaginary creature similar to the soul. This existence can only be captured by spiritual power.

One month later, among the contenders who entered the sacred cave, the one who captured the most sorcerer was the owner of the trial of the sacred son of Montenegro!

The reason why the black-headed star's big-headed bear sunspot chooses to capture the scorpion beast to determine the final tester is actually for a reason.

In order to successfully pass the trial and become the Son of the Devil's Tribe, at least one of the prerequisites is to have a certain spiritual strength.

Otherwise, even if you go to the Magic King, it is useless, and you are destined to fail.

"We seem to be late, I don't know if I can still enter the sacred cave!"

After all the information was browsed, Ye Xuan suddenly shook his head and smiled. The foot was suddenly speeding up. He quickly fell into the shape of the mosquito in Montenegro, and rushed to the government center of Montenegro in the first time.

It is simple to enter the sacred cave. The entrance to the crypt is in the northern wasteland of the mainland. Anyone can go. However, if you are participating in this trial competition, you must first report to the political center of Montenegro. At the same time, receive a space magic weapon to accommodate the soul beast.

This kind of space magic is all unified. After the refining and refining, the applicants can only sneak into the soul beasts, but they can't take them from the inside. In this way, there is no need to worry about the competitors in the crypts killing people. Treasures of the way to accumulate a large number of sorrowful beasts, because it is useless to rob, and finally can not carry a lot of space magic treasure to hand over the task?

Under the guise of the heart, Ye Xuan quickly entered the government center of Heishan City with Limosa. After finding the window, he had already hanged to the heart of the blind man, and finally fell back completely.

Although it is a month late, if you want to participate in the trial competition, don't say it is now, even if you sign up the day before the deadline.

"If that's the case, then you have to trouble me to give me a name, although it's a bit late, but for a month's time..."

A faint smile, Ye Xuan even made a request for registration, and at the same time gave him a name: "Oh yes, my name is Zhang Wuji!"

The Devil's group does not have a household registration system similar to the federal citizenship of Varo, because they do not need to use such things to determine the identity of the devil, to prevent spies, and the magical power unique to the devil is the best. Distinguish the features.

The staff of the Black Mountain Star Government Center in the window quickly completed the necessary registration procedures, which is to register a simple form.

Then he raised his hand and took out a palm-sized tower-shaped magic weapon from the small cabinet, and gestured that Ye Xuan left a spiritual mark on it. This is obviously one of the means to prevent some people from cheating.

Ye Xuan immediately spurred the spiritual core of the sea, and shot a spiritual mark on the tower-shaped space magic. Jier, this object was handed out by the other party and handed over to Ye Xuan!

With the help of this tower-like magic weapon, it is already qualified to enter the sacred soul cave to participate in the trial qualification competition. Considering that he was already a whole month later than other demons, Ye Xuan did not dare to delay, even if he left the Montenegro with Limos, went straight to the northern wilderness of Montenegro...

#### Chapter 2732: Unexpected joy

All the way to the road, Ye Xuan and the black worm and the main servant only spent less than two hours, they have entered the northern wilderness, and rushed to the entrance to the vast underground world.

The entrance is located between the two giant peaks in the northern wasteland. It is actually a huge abyss. The radius is about a few kilometers. The bottom is black and lacquered. Nothing can be seen. I don't know the depth.

The Son of the Devil's group does not have any restrictions on the realm of the realm. Even if it is the supremacy of the black hole, it can participate in the trial of the Son, so that there are more than 10,000 in the cave deep in the earth. Among the famous devils, there must be a lot of cultivations that are quite high-level. Even if there is no black hole, the planets and even the stellar world are absolutely indispensable.

Therefore, Ye Xuan did not intend to enter alone. He decided to let the mosquitoes accompany him. He did not have confidence in his own strength. The key is that he is determined to be a trial of Montenegro, so he must not reveal his identity. As a result, he encountered When it is dangerous, many means can't be carried out at all, and it is quite restrained, so you can only go with the mosquitoes.

At this moment, as the two people's body shape quickly fell, the line of sight was getting more and more sturdy. When it fell to a depth of about 300 meters, the surrounding area was dark and the fingers could not reach the five fingers. Fortunately, it could replace the eyes with spiritual strength. Go to the object of knowledge.

After a short period of time, I touched Ye Xuan and Li Mo, both of whom had fallen more than 1,300 meters. The foot was finally implemented and the bottom of the abyss arrived.

The entrance to the sacred cave is located on the wall of the abyss in front of it. It is a cave about a kilometer in diameter. It is also dark in the interior. It seems that there are some faint and faint sounds of faint sorrow.

When Ye Xuan rushed to the cave, he quickly moved forward after entering the cave. The more he walked in, the more relaxed the left and right sides were. In the end, he could not even see the cave walls on both sides, just like being in a vast expanse. Incomparable underground cities in general.

At the same time, the sharp voices that were only vaguely audible before, are becoming more and more clear and audible with the deepening of Ye Xuan, and they are constantly coming from all directions.

"The sound of these screams is from those sorrowful beasts? Listening to the static, the number is really huge."

Just picking the direction and moving on, Ye Xuan turned to look at the mosquitoes on his side and asked: "Before this, have you ever been exposed to this kind of thing?"

"Don't talk about it, I have never heard of it!"

I replied casually, and the mosquitoes seemed to be somewhat uncomfortable, and then immediately explained: "Although they are all in the same magical field, but all the World of Warcraft stars have produced a smart high-level Warcraft, it is impossible. Have any contact with the Devil, because in the eyes of the Devils, all the Warcraft in Warcraft Stars are only used to hunt prey. In fact, they did. They have been so stubborn for many years. , has reached the point where it cannot be resolved..."

"Hey..."

Without waiting for the mosquitoes to finish, a very sharp squeaky voice suddenly sounded without warning, and the distance was very close, just a few kilometers, in the right front.

Ye Xuan and Li Mo mosquitoes, even though they followed the sounds of the past, although they were still dark in the whole, but because of the adaptation, it was the naked eye, they were already able to see things invisibly, plus the auxiliary effect of mental power identification, at this moment, Just a few kilometers away from the speed of the rushing soul beast, a few moments were seen by Ye Xuan and Li Mo mosquito!

This sorrowful beast is not a flesh-and-blood life. The whole body is completely translucent, like a ghost. At this moment, it is extremely fast in the whistling, completely floating and very strange.

However, from the appearance point of view, this beast is similar to the ordinary monkey, which is similar to the ordinary monkey. It is just a black pointed corner with a half-foot or so at the top of the head. The eyes are also red, and it is full of fierceness. The blood is faint.

"It looks like a temper is a bit violent. I can't even talk about it. After a few kilometers, I just rushed up?"

Ye Xuan shrugged and shook his shoulders. The body of the body shook in the face, and the core of the mind in the brain quickly spun up at this time, swaying a powerful spiritual force, like a large net, flying quickly. go with.

"Hey..."

In the next moment, the soul of the swiftly coming from the speed will once again come out with a sly scream, and it will be repeated.

Its shape, the invisible net that has been covered by the hood, is completely tightly wrapped, and it is squirming and continually struggling, but it has no effect.

"Hey, find out the spiritual source that can be collected, is it immediately started to collect?"

When Ye Xuan urged the spiritual source core, the trapped soul beast was quickly pulled to the front, ready to study, and then directly into the tower-shaped space magic weapon, the sound of the phagocytic system, but At this moment, there was no sign of sudden sound in my mind, and Ye Xuan was unable to prevent it.

This kind of fierce monkey with a long horn on the head, like the brain of the devil, has a spiritual origin?

As this thought flashed through the brain, Ye Xuan, who was slightly stunned for a moment, immediately became overjoyed. Was it a drop in the sky? Even this kind of thing can come across?

Prior to this, among all the cultivation resources that Ye Xuan had contacted, only the brain of the devil had a spiritual origin, even if it was used by the devil to enhance the level of spiritual power. Energy is not the source of the spirit.

It is a special kind of energy that stimulates the magical power of the devil to make it oscillate and increase the effect of accelerating the growth of spiritual power.

To put it bluntly, it is actually a stimulant of spiritual power.

In addition, in addition to the magic of black crystal, the original batch of resources obtained from the third layer warehouse area of the black mosquito, Ye Xuan also tested. A variety of strange resources and minerals were countless, and he was thrown into the engulfment system by his bones, and the system did not respond.

This result made him almost dead, and thought that the spiritual origin could only be obtained by hunting the devil, taking the brain and taking the nuclear. This did not expect to have new discoveries unintentionally today.

After all, the brain of the devil is not a lot of resources that you want to know at random. It is unrealistic to kill a lot in the long run.

But this kind of sacred beast is different. Not only can you hunt and slay at will, but there are more key numbers. The whole sacred cave is full of such things, hundreds of millions, even if the number of the whole demonic group is not enough. A fraction of people!

In the future, as Ye Xuan's spiritual strength level continues to increase, he will need more and more spiritual resources. For this reason, after searching for the replacement of the devil's brain nucleus, the matter will be ended. It became a hidden worry in his heart.

But now, with the advent of the sorrowful beast, this problem has finally been resolved! He is very excited.

With this excitement, Ye Xuan even gave instructions to the phagocytic system: "I will try my best!"

"Hey..."

In the next moment, with this more awkward squeaking sound, a familiar energy instantly appeared in his sea of knowledge, and rushed to the spiritual core of the sea...

Chapter 2733: Little black horn

"Hey!"

"Hey..."

The sorrowful beast that was wrapped in the spirit of Ye Xuan was always stunned. At this time, the familiar energy of Ye Xuan's mind is constantly pouring into the spiritual core of the sea.

Previously, when Ye Xuan collected the spiritual source that was extracted from the system and decomposed a large number of demons, the amount of spiritual origin that poured into his mind in a short period of time was too large. The impact is too strong, so the process is very painful.

At the moment, although the spirit of the spiritual body captured from the illusory body of this soul body is exactly the same, and it is also purely pure, but it slowly breaks into the sea of Ye Xuan in a trickle.

Not only does it have no pain at all, but it also has a warm feeling of warmth, just like knowing the sea is enjoying some kind of meticulous warmth.

The former is a big knife and a knife. It is like a big tonic, and the medicine is fierce, but it is not suitable for a long time. Otherwise, it will always leave some hidden dangers.

The latter is gentle and gentle, it seems like a bowl of light millet after a serious illness, although not hungry, but can use a small fire slow way to raise the sea, soothe some minor hidden dangers, Killing at the beginning of the germination...

After realizing this, even if Ye Xuan had a decision, this time must be more to catch some souls and beasts to spare. In the future, these two ways and ways of extracting spiritual origin can be completely crossed!

Time passed slowly, and my eyes blinked for a few minutes.

At this time, the scorpion beast that was wrapped by Ye Xuan with spiritual strength has disappeared completely. Only the black small horn of the size of a thumb is still wrapped in the spiritual strength of Ye Xuan, hanging in the air.

The body of this beast was originally an energy form. After being turned into a spiritual source, it was naturally impossible to have any flesh and blood residue.

The strange thing is that the half-length black one-pointed head on the head is also an illusory energy state, but the black little horn that is only the size of the thumb is left in the shape of the head. The extremely miniature version of the ruler's horn, and actually turned from the illusory energy form to the real thing.

Ye Xuan Dang even if he urged the spiritual power to take this little ruined black horn into his hand, the start is a sinking, its weight and density are obviously not light, but the material can not be seen, non-gold non-stone, also non-bone Or \*\*\*\* things, eccentric!

Although I didn't understand the purpose of this little black horn, even if it was formed, it was a fog, but Ye Xuan had an intuition. This thing will be used in the future.

After a little hesitation, he directly threw the small horn into the immortal world of the body, and then went forward with the mosquitoes again, looking for other sorcerers!

On the way, Ye Xuan suddenly thought of a problem!

Although this kind of sorcerer is a good thing, it was just a slap in the face. It took four or five minutes before and after, and in the first minute or so, the beast continued to linger. It's not too big.

In view of these circumstances, if Ye Xuan wants to catch a spot on the spot in this sacred cave, it is obviously not quite present.

Time is too hasty, and it won't be much in a month. This is also a good thing. Guan Jian is also likely to attract a lot of trouble.

After all, there are a lot of magicians in this sacred cave, and there are more than 10,000. If you are heard by the sorrowful beast, Ye Xuan can directly wrap this difference with spiritual strength. The beast, the secret of taking his body as a spiritual source, was broken on the spot, and I am afraid that it will be praised soon.

In this way, it seems that we can only grab as much as possible and bring it out of this place, leaving it to be collected later.

I just don't know if this kind of strange animal can be included in the magic of space, or in the immortal world of the body. If it can't, can you not only stuff it into the small tower-shaped magic weapon made by Montenegro?

After the key is stuffed in, it can't be taken out. Ye Xuan does not have that authority.

When he thought of this, he was a little embarrassed at the moment, and he couldn't wait to catch a scorpion beast to try it.

However, the sound of the sorrowful beasts from far away has never stopped, but Ye Xuan and Li Mo mosquitoes have gone all the way, but they have always heard their voices, but they have not seen their shape, which makes him depressed. .

Fortunately, just ten minutes later, not far from the right side of the front, finally there was a sorrowful beast. Ye Xuan's spirit was invigorated. This time, instead of taking the initiative, he couldn't wait to greet him and quickly captured. Get it!

First, I tried to throw it directly into the immortal world, but the result was defeated by failure, and I couldn't get it.

Because of the special form of this kind of sorrowful beast, it is impossible to sense the level of realm strength in the end. However, since it cannot be harvested into immortality, it must be at least a little bit stronger than Ye Xuan's star nuclear environment. So it is so easy to catch, it should be that the spiritual power can just restrain the beast.

However, although this beast cannot be collected directly into the body, it is obviously feasible to put it into the space fortress first and then to pass the latter into the immortal world.

It's just that the volume of the black wind and the black mosquito is too big. In this crypt area, it is obviously not put down. Although Ye Xuan has refining it into a magic weapon, it is through the refining of the starry sky. The way is realized indirectly, so he can't control the shape of the two space castles at all.

This method can only give up.

Then, Ye Xuan took out a lot of space magic weapons from the immortal world, and they have different shapes, there are ordinary space boxes, as well as wine cellars, treasures and the like, and some are from the human race of the third universe. Refining, and some are refining of the devil's group.

It is a pity that after dozens of space magic weapons of all sizes and sizes have been tried by him one by one, the result is still the same. No one can take in the soul-beast that he just captured!

"Rely! What is the situation? Isn't that little black horn just getting in? And it's still directly accepted into the immortal world, all of which are homologous. Is this too big?"

Ye Xuan immediately stupid eyes, depressed a few words, but in desperation, finally can only decide to absorb this second soul beast, see if there is also a small black horn appeared, after all, to analyze the reasons These basic situations must be determined at least first.

Four minutes later, the second scorpion beast disappeared as expected, leaving only a small black horn, still the size of the thumb, slightly curved, with a rough texture on the surface.

"It seems that the little black horn is common. I just don't know if it can only be incomeed into the immortal world. If it doesn't work, it means that it is unlucky. The second stalking beast caught just like a different kind."

"But if you can get into the immortal world like the previous one..."

Speaking of this, Ye Xuan's face suddenly became a bit weird: "That's really strange, it's awesome to live, can't be collected, and it's dead to accept... The immortal world is not a coffin! This is a pothole! "

Chapter 2734: Four-level source core

The face was eccentrically stunned, and Ye Xuan directly ignored the mosquitoes who had been watching him tossing around. At this moment, he was teased and laughed, and then tried again!

The result made him completely scratched!

The second small horn in the hand disappeared between the thoughts and was absorbed into the immortal world.

"This is really a long-sighted experience. I don't think there is such a strange thing in the world!"

As a result, there is no doubt that even the need to try again is gone. This strange thing is born like this. When you are alive, you can't earn space magic, but the black ones left behind after death can be!

Ye Xuan shook his head and smiled bitterly. The world is so big, it's really amazing!

Now that there is a final result, then the next biggest problem is that since the immortal world and all the space magic weapons can not be accepted, then, is it really necessary to send the small tower to the Montenegro government center?

What is the difference between this and the meat buns?

"Oh? Not right..."

At the moment of entanglement, Ye Xuan's mind suddenly flashed in the spirit, even when he was shocked: "There are many space magic weapons that I have just tried, and many of them are refining out of the devil's group. No one can accept it. . . . Why can this small tower be collected?"

After catching this doubtful point, Ye Xuan wants to feel more and more surprised.

In the next moment, the tower-shaped magic weapon was taken to his hands by his mind. After carefully playing it, Ye Xuan still couldn't see any flaws, and even his material could not be determined.

When he even took the object into the body, he threw it into the phagocytic system to identify it, and at the same time issued instructions to let the phagocytic system search the information of the sacred beast and the tower-shaped space magic weapon from the internal star network of Montenegro.

Then, Ye Xuan once again fell into thinking.

Although this small tower-shaped space magic weapon is a special thing, it is obviously not a treasure, otherwise it is impossible to throw more than 10,000 casually.

The reason why it can charge the soul beast is obviously because of the special material of the refining tower.

Then the problem is coming!

Among the space magic treasures that Ye Xuan tried before, there are almost twenty different kinds of different materials. It is necessary to know that it is not just a matter of making any materials, you can refine the space magic.

The various treasures collected in his hands are considered to be massive in mass, and there are both human and demonic groups. Even so, all the space magic weapons are added together, and there are only more than twenty different materials.

This is enough to show how rare the material of the refining space magic weapon is.

In this case, it is necessary to find a material that can successfully refine the space magic weapon and collect the soul beast, but also must not be particularly valuable, and the amount is sufficient. Such a harsh condition, the difficulty can be imagined. And know.

Surprisingly, this matter is even more difficult, but it is still a reality. It is only in this sacred cave, there are more than 10,000 finished products. How much inventory is there in the Black Mountain Star Government Center? It is even harder to say!

Just to pick a demon person to participate in the trial of the Holy Family of the Black Mosquito, do you have to use such a lot of thoughts and make a big move?

It is being analyzed that the identification result of the phagocytic system has finally come out.

"Oh, the identification is complete! Identification property: space magic! Level: ordinary! Status: four-level spiritual forbidden seal! Material: unknown!"

Then, the search results of the communication system were also returned in time. Ye Xuan looked at a result and suddenly frowned.

Regarding this kind of tower-shaped space magic weapon, there is no information in the starry sky network of Montenegro. Although there are several pieces of information about the sacred beasts, they are all taken over, and the words are more ambiguous, revealing a pretending gesture. Deliberately cover up!

"There is a problem..."

Ye Xuan even sneered: "Even the phagocytic system can not identify its material, the small Montenegro is just as clever and just to find this material that meets all requirements? If there is no accident, catch 啼Soul beast is only the real purpose, in order to determine the qualification of Montenegro Star Son, but it is an excuse, by the way!"

As soon as I read this, Ye Xuan immediately jumped into the eyelids: "That is to say, one month later, with the end of this trial qualification competition, at that time, the big leader of Montenegro and the

guy hidden behind him. There will be other excuses to redistribute this small space tower... The star beast is being stared, which is clearly to hunt the rhythm!"

Realizing this, Ye Xuan was not calm at the moment. He originally planned to wait until the end of the Emperor's Star, and then went to the Black Mountain Star to continue hunting for the Soul Beast, but from the current situation, there are eighty-nine Without waiting to come back, this place has already been looted.

In a word, after passing this village, there is no such store. To capture the soul beast, Ye Xuan has only one chance, one month!

"Day..."

This result made Ye Xuanton feel a headache, raised his hand and stroked his forehead, and finally took out the space tower again.

If he can't stop it, he can't change it. The only option is to take advantage of this month's time and grab as many souls as possible.

Therefore, in the hands of this space small tower, the so-called four-level spirit banned the seal, he must find a way to break open anyway, otherwise the toss is also a busy day!

Ye Xuan quickly fell into thinking while playing the small tower in his hand.

The lack of authority for this tower is apparently because it was sealed by the so-called four-level spiritual prohibition.

The so-called spiritual ban should be a banned by spiritual power, just like the human beings who use the sacredness of God to form a pattern of bans.

But what is the fourth level of the word?

Is it...

Thinking of this, Ye Xuan's brain flashed abruptly and suddenly understood a bit.

This spiritual source of nuclear in his brain seems to have been upgraded twice since it was successfully condensed. This level can actually be seen as a metamorphosis. If the initial state is one level, then the leaf Xuan's spiritual core after two changes has been three levels.

The so-called four-level spiritual ban, refers to the existence of a certain brain crest that has been transformed three times, and the prohibition of the formation of the lines by its spiritual power?

If this is the case, as long as Ye Xuan's brain nucleus changes again, it will become the same four-level source nuclear owner as the other party... At that time, it may not be impossible to erase the spiritual restraint left by the other party.

It's a big deal... I'll change it again, and I'm going to the fifth level and try again!

One thought of this, even if he was excited, he turned to the side of the mosquitoes and looked at it. He blurted out and asked: "Limos, how many times have your mental resources changed? How many levels are you now?"

"what?"

The mosquitoes sneaked a sigh of relief, and then they turned a blind eye, and the words were resentful: "You will take me to find happiness, and how many times is it? How difficult is it to change the spirit of the nuclear source? Do you not know? In the late stage of the black hole, but the transformation of the magic core has only once, now is ... secondary source nuclear!"

Chapter 2735: Third metamorphosis

"What? Your spiritual source is only secondary?"

Ye Xuan almost jumped up on the spot, screaming and screaming at the mosquitoes, and the whole brain was in a hurry...

He is a star nuclear environment, and the spiritual source core is already at the third level. With the repair of the black hole of the mosquito, the difference should be at least about 17 or 8 levels. Is it possible to be a second level? Is it lower than 咱?

"Seventeen and eight? Lose what you think..."

Ye Xuan just said his doubts, and Li Mou even laughed: "Do you know that the core of the Emperor's spirit is a few levels? Six!"

"The whole demonic group has the highest level of spiritual nuclear rank in history, but it is only eight, but it is a generation of demons! Seventeen and eight? It is really a laughing man... it doesn't exist!"

"Wait... I will rationalize my thoughts!"

Seeing that Limoso said so arrogantly, coupled with the identity of her demon slave, Ye Xuan finally realized her own misunderstanding. It seems that she does not know much about the spiritual source of the devil. to

In this regard, he even issued a conditional search command to the communication system. This time the search condition is the spiritual source nuclear level.

The results were quickly fed back, and Ye Xuan couldn't wait to see it quickly. After a few moments, I finally got lost!

The mosquitoes said that it is not wrong. The entire demon group has the highest level of spiritual source in history. It is a generation of demons, which is eight! And the demon community today's magic emperor, its source nuclear level, is also six!

Legend has it that the highest level of spiritual source nuclear can reach nine levels, which is related to the forbidden land of the Holy Spirit. The generation of the demon emperor obtained a certain opportunity from there, and then the spiritual source of the core was changed to the eighth level. After that, the devil The ethnic group grew stronger in his hands.

Therefore, it is not completely unreasonable to say that the source of the devil's inheritance is the forbidden land.

Only some of them are historical facts of the devil's group.

In addition, through the previous conditional search, Ye Xuan has more common sense understanding of the spiritual source core unique to the devil and Warcraft.

In general, the source nuclear level of the Devil's Warcraft does not have much to do with its own cultivation.

The magic core level is equivalent to the quality, and the realm is equivalent to the quantity.

The improvement of the magic core level is a qualitative change. This kind of change has trigger conditions, but it can be met without asking!

The promotion or promotion of the realm is only affected by the quantity!

After the original source of power in the core of the mind has accumulated to a certain extent, regardless of whether the spiritual source has undergone metamorphosis or not, the level of improvement and the cultivation of the devil are all raised.

Therefore, the mosquitoes are black in the late stage, and their magic level is still secondary.

In fact, the vast majority of the devil and Warcraft, are the same.

Ye Xuan, obviously, is an alternative. He doesn't even have a demon, but it condenses the magic core.

This can be done, then, the speed and frequency of the magical nucleus in his brain is slightly faster and more frequent, and it is not completely unacceptable.

Of course, there must be problems in this, but I will definitely not find it out for a while, but I will only leave it to be studied in the future. Anyway, it is not a bad thing. It is a good thing for Tianda. Don't worry too much.

Of course, the magic core level is higher, the accumulation of quantity is not going up, it is useless.

A demon with a magical level of ninth, and a realm of the nucleus is a star nucleus. Then, in the face of a first-class magic nucleus, but the realm is a black hole, the devil is strong, it is estimated that the former only The part that is crushed.

But if the ninth-level magic core of the devil is strong, its cultivation is also a black hole in the realm... The latter is in front of him, it is estimated that even the cockroaches are not counted!

In the end, it is still a word, the magic core level is important, representing a stronger talent, greater potential! A broader space for growth...

However, the cultivation of the realm, that is, the accumulation of the amount of the magic core, is equally important. What it represents is the strength that is close at hand and at your fingertips!

"Rely! In the end, this soul beast still has to catch, and it seems more important, absolutely no loss!"

To understand everything, Ye Xuan once again returned to the problem at hand, and after a little indulging, he quickly decided: "The time is only one month, both to capture the soul beast, and to upgrade the level of the spiritual source. In order to change to the fourth level, it is very urgent to try to erase the four-level spiritual prohibition engraved by the space tower protection!"

Having said that, Ye Xuan turned to look at Li said: "From the current situation, we can only act separately. First determine a suitable area, then I stay there to capture the soul of the beast, directly grab And you, then, go all out to the surrounding area, drive all the nearby souls and beasts, so that I can grab them, so that time will be saved..."

"As long as it can erase the four-level spiritual ban in this small space tower, then..."

Speaking of this, Ye Xuan's fine flash of glamour, sneer: "Hey, the space tower of all the devils in the entire sacred cave, one can not be less, all have to grab it!"

"More than 10,000 devils, even if they only grab one hundred each, they add up to more than one million..."

The number is so huge, the temptation is amazing, even Ye Xuan, at this moment, can not help but give birth to a strong murder and treasure.

.....

Two days later, a secluded corner of the sacred cave.

"Hey, find out the spiritual source that can be collected, is it immediately started to collect?"

In Ye Xuan's mind, a familiar system sound was heard again, and he even made a positive reply.

In the next moment, the screaming beast that was tightly bound by his spiritual strength, the sound of the screaming in his mouth suddenly became sharper, but Ye Xuan was unmoved. This area was finally selected after he and the mosquitoes had been rushing for a long time. There is almost no magic person in the vicinity of a large area, but there are many sacred beasts, so this beast is smashed out again. Big movements, he does not have to worry!

In the past two days, this is the 490th sacred beast that he captured after his sharp mosquitoes left. Only two heads will reach the 500 mark!

Prior to this, Ye Xuan had already collected a lot of spiritual origins decomposed from the brain of the devil. According to his estimation, he also knew the spiritual source of the sea, and he only needed to take another 500. The look of the head and soul beast, the third source of nuclear transformation, will come.

At the moment, the value he estimates is very close, and the gap is almost negligible.

For this reason, the 488th sorrowful beast is being captured at the moment. The expectation of Ye Xuan's heart is also becoming more and more intense as time goes by...

"Hey, congratulations to the host, the core level of the spiritual source has improved! Current level: Level 4! Get mental strength skills! Is it activated?"

Just as the harvest of this sorrowful beast was just completed, the familiar system prompts in his mind quietly sounded, and Ye Xuan's body shape suddenly shocked...

Chapter 2736: Spiritual suppression

With the familiar system prompting the sound, Ye Xuan's knowledge of the sea suddenly shocked, and the spiritual source of the core that was suspended in the sea began a third transformation.

This process of metamorphosis is actually very short-lived. It is only a few moments of work. The kind of faint incitement that comes from knowing the sea disappears. Ye Xuan also feels that his spiritual strength is different at this time. But what is specific, but can't say it.

With a surprise, he even began to look at the situation in the sea even if he returned to God.

Soon, the spiritual source of the demon who hangs on the sea is reflected in the consciousness of Ye Xuan's exploration. Compared with the former, this spiritual source of nuclear is obviously not small.

The original black and transparent purple has become the purple in the present. It used to be black and purple, but now it is purple and black.

In addition, its volume has also changed, but it does not rise and fall, before the size of the fingernail of the thumb, now, only the size of the soybeans.

As for the shape, there is not much change. It is still the same oval shape of the pigeon egg. The entire surface has numerous refraction surfaces, just like a purple diamond that has been perfectly refracted.

Ye Xuan was quite surprised by the fact that he did not rise and fall, but after a little thought about it, he quickly realized it.

Since it is metamorphosis, the quality and level are improved, then its density and the power of the spiritual source will naturally increase accordingly, just like compression. In this case, the volume will become smaller, obviously it is normal. .

And if you want to make its size bigger again, what Ye Xuan needs to do is only the accumulation of quantity, and the accumulation of this quantity is actually waiting for the improvement of Ye Xuan's own realm.

After some investigations, Ye Xuan's consciousness quickly retreated from the sea of knowledge. The reason why he was so eager was that he was too much expectation for the spiritual strength skills acquired by this nuclear transformation.

Even in the second transformation of the last time, Ye Xuan has achieved four kinds of mental skills, and all of them are extremely practical secrets. If there is no accident, the spiritual skills obtained from the third transformation this time. The number will be more and the power will be stronger!

With such a beautiful expectation, even if Ye Xuan gave an activation command to the system, the familiar system prompt sounded immediately in his mind.

"Hey, congratulations to the host! Activation is successful! Get Spiritual Power Secret: Spiritual Suppression!"

Gone?

In a short sentence, there was no movement after the end. Ye Xuan waited for four or five seconds with full expectation. This made sure that he might have really thought more. The mental skills he got this time were only one kind!

In an instant, an extreme sense of loss floated from the heart, saying that the higher the hope, the more painful the disappointment is, and it makes sense.

wrong!

Just sighing, Ye Xuan seems to suddenly think of something, suddenly a flash of light in his mind, his eyes will light again.

If you remember correctly, what seems to be in the system prompt tone is not to acquire mental strength skills, but... secret surgery? ”

If there is no difference between the two, the system obviously does not need to change the name!

In other words, the spiritual repression that has been obtained this time is not only a kind of spiritual skill, but rises to the level of mystery. This is definitely a qualitative leap!

One thought and this, Ye Xuan suddenly grinned, as if he had reached the heavy treasure, and at the same time, the consciousness could not wait to immediately start to check the details of this mental suppression secret!

After some exploration, Ye Xuan quickly learned everything.

The so-called spiritual repression is actually a meaning of the suppression of the human strong, but it is more thorough and overbearing.

When a human monk faces the existence of a lower level of strength than himself, if he deliberately disperses the atmosphere to form a kind of pressure, although he can suppress the other side, it is only the suppression of the flesh, even if the strength of the two sides is too different, The suppressing party will involuntarily start to tremble with the mind, but if compared with the spiritual repression secret that Ye Xuan just obtained, it is still worse than a star and a half.

Because the latter is directly from the spiritual level to achieve the effect of suppression, and quietly, if used skillfully, even can not know the ghosts, and once the spiritual level is completely suppressed, it basically means controlling the other party's thoughts. And consciousness, want him to do something, a thought will pass.

This kind of effect is no longer the same level as the pressure of the human power to deliberately spread the repairs.

On the surface, this mystery and Ye Xuan's slavery seem to be exactly the same in effect and effect, but in fact it is not.

The two are not at the same level, and the slave print is weaker than a little.

First of all, slave printing must first be condensed, and then spurt out, enter the other body, control the brain nucleus, in order to play a role.

The spiritual repression secrets are different. They must be condensed and slain. When they want to display, they can complete the meditation. The spiritual strength extends and directly controls the other party. It is silent, basically as long as it meets the suppression conditions, basically It is unlikely that a failure will occur.

As for the so-called suppression condition, it is the second advantage of the spirit of suppressing the secret and the slave.

If you want to control the strong man of the demon, you have to match the level. For example, if you control a black hole with the eighth realm, you must first condense a slave of at least eight, in case Urgent, there is no ready-made eight-level slavery, and you can only blink.

Although the spiritual repression mystery also has this limitation, for Ye Xuan, this restriction is obviously extremely dominant.

Because there is only one suppression condition for mental repression, that is the source nuclear level, which is the level of mental power.

Ye Xuan's source core is currently at the fourth level. That is to say, under the fourth level, he can all press, while the fourth and fourth level can't be suppressed now, but with his metamorphosis of the source, he said that the speed of the source is changing. Not long after, it will be fine!

Moreover, although there are only three levels of the Devil Power that he can suppress now, even if the entire Devil's group is exhausted, the source nuclear level is above the level 4, how much can it be found?

Is the Magic Emperor talent level 7 good?

Of course, in addition to being restricted by the hard conditions of the source nuclear level, Ye Xuan's spirit suppressing secrets has a limit of flexibility, which is the gap between the two sides.

If the gap is too disparate, it will affect the suppression effect. For example, after the secret surgery is started, the other party just stuns God, even if it wakes up, etc., and so on!

This is also the only place where Ye Xuan feels sorry, but after a little thought he quickly relieved.

After all, if you can directly ignore the gap and arbitrarily suppress it, wouldn't it mean that if he had to change the moon to the seventh level, can he directly suppress the emperor?

It's too boring to be like that...

Chapter 2737: Robbery

With the acquisition of the mystery of the spirit, Ye Xuan is looking forward to the next fourth, fifth, and even more times.

Not only does it change every time, but his mental repression is even stronger, and more importantly, the new spiritual skills that will be harvested as each spiritual source becomes complete!

No, it should be a mystery, even a supernatural!

Three times before I got the skills, and the third metamorphosis has got the secret technique. According to common sense, the following fourth metamorphosis, at least it must be a mystery, and the fifth time, at least 70% will be supernatural. !

The rise of the ship is the meaning of this, it is unreasonable that the water has risen, but the ship has been sinking!

Starry supernatural powers! And it's still a spiritual power... It's just a matter of thinking, it's already waiting for someone!

After a short while, Ye Xuan packed up his mood and took the tower-shaped space magic weapon again.

Then, it was thrown directly to the phagocytic system for identification. This is because Ye Xuan's current spiritual core level has been improved, and as a phagocytic system in his body like a personal intelligence hub, for this The situation is naturally learned the first time.

Therefore, Ye Xuan wants to give it a try. After the results of this appraisal come out, will there be some other tips or instructions on the outside.

This has been there before, the same treasure, when Ye Xuan's ability is not enough, the prompt will not appear!

This time faster, in less than a minute, the identification of the phagocytic system came out.

"Hey, the identification is complete! Identification property: space magic! Level: ordinary! Status: four-level spiritual forbidden seal! Material: Unknown! Is it erased the four-level spiritual forbidden seal?"

Pretty!

Upon hearing this identification result, Ye Xuan almost screamed out with some surprises.

Although all the identification results are exactly the same before, but the spiritual source of Ye Xuan has reached the fourth level after the third transformation, the end of the identification results, and indeed one more request!

It seems that what he guessed is still right. The same treasure, if he is not capable enough, even if the phagocytic system could have done something to it, it would not even have a hint.

Because the tips are also no good, not enough, can't do it!

It's really a pragmatic guy!

From this point of view, some important treasures in the future, after the breakthrough of the cultivation of their own spiritual strength, have to be often used to identify the phagocytic system several times, anyway, no trouble, so as not to be overlooked!

Thinking about it, Ye Xuan immediately prepared to give instructions to the phagocytic system, erasing the four-level spiritual ban on the tower-shaped space magic weapon.

It was also at this moment that suddenly a flash of light flashed through his mind, and Ye Xuan stopped even.

The devil who can reach the fourth-level source nucleus will certainly not be the person of Montenegro. If there is no accident, most of them are the high priest of the Black-striped tribe, because Ye Xuan has learned, like the high priest and The existence of tribes and sons is a particularly high gift in terms of spiritual strength. Therefore, their chances of nuclear power change will be even greater.

In this case, the other party left a spiritual ban in these tower-shaped space magic weapons, just to prevent the sorrowful beast from being taken out of this function?

You must know that on this small space tower, Ye Xuan has branded his own spiritual brand. If the four-level mental ban is now erased, if there is any other hidden door left, it is not immediately Know that he erased his spiritual ban?

At that time, when I took the space tower to the task, I was afraid that the trouble would come soon.

One thought of this, Ye Xuan even burst into a cold sweat.

It seems that my own space tower can't move. It's better to use it to hand over the mission and get the qualifications of the Montenegrin Star Trial. If you want to intercept the private souls, you can only find one. The Devil is going to rob.

Grab his space tower, and then put the above four spirits and his personal spiritual brand, all cleaned up!

This treasure, the future is your own!

One thought of this, Ye Xuan even if the heartbeat, although the mosquito has not returned, but he did not intend to wait any longer, just robbery, he is still very confident, after all, he has the perfect shock of the spiritual skills, hidden After going to all the breath and the whole body shape, I will quietly approach, and if I grab it, I will run it!

After the decision, Ye Xuan even turned on the perfect shock skills, the whole body shape instant news, even the breath did not reveal a trace, and then rushed to the distant area, after all, he is now in this place, turn back The mosquitoes will also drive away a large number of sorrowful beasts, so that they don't want to eat grass.

Avoid suspicion.

Because the body shape and the breath are all hidden, there will be no sorrowful beasts to harass along the way, and Ye Xuan has no intention to catch and capture it at this time, so he keeps moving toward the rushing speed, and comes after two hours. Going to a faraway area.

In fact, there are quite a few strong people in the way, but what makes him depressed is that these guys are actually a star-shaped environment. The weakest is the existence of a third-largest satellite environment. The strongest is the strongest of the fifth largest realm.

Ye Xuan is really not sure that he can successfully rob from such a strong man, so he can only give up after being depressed!

It was also at this time that there was a sudden appearance in front of it, and even more coincidentally, this guy had just captured a scorpion beast, and at this moment, the small tower that was collected in the body was taken out and was ready to collect it. That sorrowful beast.

This is a once-in-a-lifetime opportunity. Although the other side's cultivation is as high as Ye Xuan, it is the strongest in the third realm of satellites, but Ye Xuan has no intention of picking it anymore. Seeing yourself, I am afraid that I will give birth to other things!

In this way, even if he quickly approached the past, he did not hesitate after coming to the front, directly revealing a kind of spiritual power, screaming at the other side without precautions, and suddenly took a shot, rolled the small tower in his hand, and recovered the spiritual strength. After that, he turned and fled to the side, quickly overlooking!

"Hey?"

"Who?"

"come out!"

"Crossing grass! Robbing..."

Xiong Daxian was stunned. After all, there was no one around, and the small tower in his hand suddenly disappeared. Anyone would have a sharp brain.

Then, after a short break, he suddenly reacted, turned around and screamed, and waved a spirit wind blade to smash it out!

However, the eye is empty, nothing, not to mention people, ghosts can not find.

Under the tragic change, Xiong Da roared in an instant. He knew that he had been counted, and most of them had been stared at it for a long time. Otherwise, why not grab someone else and rob him alone?

In his small space tower, there are more than 10,000 soul-stricken beasts. More than 90% of the old raccoon sunspots are stuffed beforehand!

Seeing the trial qualification of the hand... blinking!

Chapter 2738: Unprofitable buying and selling

"Killing a thousand knives!"

"No matter who you are, Lao Tzu Bear will not let you go!"

"Ah... robbing!"

.....

Behind him, the magician who was repaired as a satellite was roaring like a madman. Ye Xuan had already turned back and went far away, and his voice was still clearly passed into the ear.

However, things have already arrived, not to mention that you are a big bear, that is, the bald head is strong, and don't want to take it back!

Soon, Ye Xuan once again returned to the area that was previously agreed with Limos. The latter still hasn't returned yet. It should be in a nearby area to drive away the soul beast.

Ye Xuan even infiltrated into the small tower of Xiongda with spiritual strength. After the sweeping, the forbidden seal that could not be moved anyway, it was wiped out very easily, together with the self-proclaimed bear big. The spirit of the guy staying on it is also erased!

At this point, this small space tower is already clean, and Ye Xuan can be used at will.

He was not in a hurry to first check how many scorpions and souls the guy had caught, but when he completely refining the treasure, he left a spiritual brand of his own, and it was the kind of brand with a forbidden pattern. Don't even think about it when someone else takes it.

After everything was done, Ye Xuan even extended his mental strength into the newly refining space tower, and looked at the number of soul beasts inside.

Don't look at it, look at it!

There are actually nearly 12,000 heads!

Although there are so many sorrowful beasts, Ye Xuan is still very happy, but he is still more worried.

The guy who was robbed by him was nothing more than a magician who was trained to be the third largest realm of satellites. Even he captured more than 10,000, then what about other people?

Before Ye Xuan, who met a competitor in the fifth realm of stellar space, couldn't that guy catch 70,000 and 80,000?

If this is the case, Ye Xuan wants to grab the trial qualification of Montenegro, at least 100,000 or more!

"It seems that even if there are mosquitoes driving away from the beasts, this is not safe!"

Wrinkled, Ye Xuan was about to bite his teeth, and he took out a touch of fineness: "The qualifications must be tested, I am later, they are all a month earlier, take care of the later, it is a matter of course. Well! One sentence in total... I want to rob!"

Anyway, there is a perfect shock such a cheating artifact, so there is no such thing as a profitable sale, do not do it!

Even the devils in the third-largest realm of satellites have captured more than 10,000 sacred beasts. Is this a whole 10,000 demons who have to take away hundreds of millions?

At the thought of this, Ye Xuan felt that his heart was hurting. The monk was originally fighting for the sky. Anyone who had to kill and win the treasure had to be psychologically prepared. In fact, this is also

a very common trend, so Ye Xuan fundamentally I didn't feel that I was embarrassed. If I changed to be a means of cheating for others, I would also be shot when I met him!

After the decision, Ye Xuan even started the perfect shock skills again, and his body swayed and rushed in the other direction.

Soon after, the second prey entered his sight!

This guy's cultivation is also in the third realm of the satellite environment. Like the previous Xiongda, Ye Xuan quietly approached. After following a distance, after about half an hour, when the other party caught a scorpion beast, The moment he took out the small tower of the space, he suddenly shot, wrapped it with a glimpse of spiritual strength, and then even turned back, then turned and ran...

In this way, in a short period of time, Ye Xuan grabbed a total of twenty-six space towers, which is not the result of the first bear big.

As soon as I thought that nearly 300,000 souls and beasts would be put into the account, Ye Xuan's whole person would float up quickly and hurried back to the area agreed with Limosa, even when the twenty-six space towers were The spirit of the brand and the four-level spiritual forbidden seal, all the bones and brains are wiped clean.

Then one by one, start to look at the number of soul beasts contained in it!

1132!

1657!

1862!

903!

2814!

1652!

.....

A total of twenty-six space towers, Ye Xuan one by one to see the number of soul beasts inside, it is more and more disappointing, the more you look more confused!

At the end of the total calculation, 50,000 is not there! To be precise, it is only 40,000 years old!

This is not right!

This is not scientific!

The least one actually has only 903 heads. Ye Xuan remembers that this guy's cultivation is also a satellite, just like the previous bear.

The same repair, the gap is too big, right?

In fact, although these twenty-six unlucky eggs are basically the strongest in the second and third realms, Ye Xuan was not looking for a suitable prey before looking for a circle. A strong player in the fourth realm of the planet.

This guy's space tower is only 2814 scorpion beasts, although it is the most in the twenty-six space towers, but compared with that bear, it is not a level!

However, from the overall situation of these twenty-six guys, considering their repairs as a gap, basically, these values are normal!

That is to say, the general situation of more than 10,000 demon powerhouses who are in this underground sacred cave is the same, even if it is the existence of the fifth largest realm, the souls captured so far. It should not be four thousand, at most four thousand!

Then the problem is coming!

Since everyone has only this point, the guy named Xiong Da, what is he?

Is this person just a spiritual power talent far beyond the ordinary devil's enchanting?

Or is it... what special secrets does he have, and how many times can he be able to capture this kind of sorrowful beast?

If the former is no problem, the spiritual talent is good, it is also people's, it is useless to grab, but if it is the latter...

One thought of this, Ye Xuan is in a hurry, no matter what, first quietly touched the guy, trailing and watching it, if he does have the secret of arresting, then, turn back to the mosquito Shoot, grab this guy and ask for it, then kill it.

Just killing a demon contender should not cause too much attention!

In the thought of this, Ye Xuan immediately transferred all the souls and beasts in the twenty-six space towers to the small tower that had been refining, and thought about it, and stuffed five thousand of them into it. The small tower of the space to hand over the mission.

Then, all the space towers were thrown into the immortal world of the body, and once again, the perfect shock was started, and the turn turned to the position where the bear big goods were robbed.

It's only a day, I hope that the guy didn't go far.

Otherwise, this huge sacred cave, if you want to find him, it will be no different!

After a short while, Ye Xuan came to the area where he first robbed.

After some searching, I saw the bear big!

This guy should be unwilling, so I've been looking for someone to rob him...

Chapter 2739: It turned out to be a fight

Seeing the figure of Xiong Da, Ye Xuan even if his heart is loose, after a little thought, he is even close to the past.

The other side has no space for the small tower, and it is estimated that there is no plan to catch the soul beast again, so Ye Xuan's plan is to quietly approach the past, throwing a space tower that has been erased by the spiritual forbidden seal somewhere in front of him.

This is also a no-brainer. I don't want to give a space tower to the people to decorate the soul beast. This kid has no intention to continue to grasp it. As a result, Ye Xuan is not sure whether he really has the ability to quickly grab a lot of cockroaches. The secret of the Soul Beast.

Thinking like this, even if he quietly followed up, he was about to circumvent him and another magician in front of him, and when he threw a space tower ahead of him, the change happened!

Without warning, the bear who walked in front of him suddenly jumped, and immediately stopped the other devil's strongman who was more than a hundred meters ahead of him. Then he screamed and shouted: "Stop, rob!"

Ye Xuan, a sudden, suddenly felt a little chaotic, on the spot was paralyzed!

.....

It's just a day when I'm not there, but Xiong Da is tortured and the whole person is going to collapse!

Originally, he decided that this time the qualification of the test of the Holy Mountain of Montenegro has already arrived. After all, he is the one who is the leader of the Black Mountain Star. He has already

stuffed a whole 10,000 heads of evil spirits to him before the trial begins. The space is small in the tower.

In addition, Xiong Da is indeed a devil who is quite talented in terms of spiritual strength. Therefore, the matter does not turn back.

Of course, if he does have the talent for spiritual strength, he will not do this as a big-eyed man.

However, his son originally had a gift, and he has the ability to help him go further. If he doesn't help, then he can't say it.

But everything turned out to be changed almost a day ago.

Xiong Da has a huge sense of loss from the paradise to the hell. This day, his whole heart is suffering tremendous torture.

In the end, after finding a result in the vicinity, with a rapid increase in grievances, Xiong Da also rushed out.

If others can rob Laozi, can Laozi not rob others?

Even if the above branding is not your own, what does it matter? You are the big leader of the Black Mountain Star, as long as you can pull out a small space to go up.

Even if there are not many sorcerers and beasts inside, it doesn't matter. The old man can put 10,000 heads in front of himself and can't do it afterwards.

With the advent of these thoughts, Xiong Da's whole person was revamped again. He knew that he still had hope, but before that he had to grab a small space tower. Otherwise, after nearly a month, the competition ended. When I leave here and return to Montenegro, even a small tower of space can't be seen, is it too fake?

Thinking like this, Xiong Da was like a konjac. He was red-eyed and wandering around. He had encountered several devils before, but they were all in the fourth realm of the planet. He didn't even have it. Dare to shoot.

After all, they have been robbed once, and they are already unlucky enough. If they are squashed again, then the nose will be swollen and swollen, then it will be even more depressed!

It was also at this time that he saw a demon man in front of him, and his cultivation was only the second largest realm in the world.

This is the existence of being able to be bullied by myself. So when Xiong Da was overjoyed, even if he followed up, until no one was near here, he suddenly jumped out and revealed the color...

However, the next scene, not only ruined him, but even Ye Xuan, who was always hidden not far from the side, was stunned.

"Ha ha ha... robbery? Are you robbing me?"

"Killing me!"

"I said that Master Da, really want to say robbery, should I rob you?"

"Too funny, you are the master of the dark mountain city, the youngest son of the big-headed bear black son, the young master, actually robbed me of a meteor first-class ordinary demon..."

"Ha ha ha... Dad, you are too funny!"

In the face of Xiong Da, who was in front of a sly face, the first-class democrat of the meteor was first stunned, and then he laughed.

In such a scene, Xiong Da directly compared it, and suddenly I thought that it seems that in the city of Montenegro, the general devils know themselves, and this guy in front of him is obviously the demon of Montenegro!

As for the side of Ye Xuan, after a moment of squatting, it was even more instant.

I thought that this guy has any secret skills, or that the spiritual talent is abnormal and amazing, so I caught more than 10,000 soul beasts, and it took a long time...

As soon as he read this, he was speechless, and he was not interested in paying attention to whether the bear brother was really successful in robbery, and he was not exposed yet, even if he left the place.

Then, after a little sinking, Ye Xuan decided to continue the robbery.

Although the harvest is completely different from what I expected at the beginning, the gap is great, but at least it is better than oneself to catch a head and catch it.

And it's not a little stronger!

Even the strongest player in the fourth world of the border has been successfully robbed by his unprepared defense. Ye Xuan's confidence in this matter is still very good!

With this kind of confidence, after some searching, there is finally a demon strongman who is catching the sorcerer.

In fact, along the way he also encountered many other magic man strong, but considering the efficiency problem, now Ye Xuan will not choose a target, then follow the other side to follow the crime.

Who knows when the other party will encounter a sorrowful beast and then start to arrest it, which is a waste of your time!

Anyway, the fourth world of the planet has been robbed. Basically, there will not be any big accidents. If so, then it will flow around, and it will come close to the past when it is catching the soul beast.

This kind of rogue crime is definitely much higher than the trailing crime.

Because of this, I can see a suitable target at a glance. Although the strength of the other side has reached the fifth realm of stellar space, Ye Xuan did not pay attention to it so much, and immediately took over the past and refreshed the alert. Waiting for an opportunity!

After a few moments, the demon power took out the space tower.

In the next moment, Ye Xuan immediately shot, a moment of spiritual power shot, rolled up his space tower to recover the area covered by perfect shock, when even a flop fell to the side of the ground, the homeopathic roll!

"boom!"

Sure enough, just in the moment when his figure just jumped out, the magician who had the stellar ambition repaired back was a spiritual wind, and Ye Xuan's previous ground even burst a number. A large pit of the diameter of Zhang.

At this point, Ye Xuan has long been used to it in the previous robbery, so this time, although it is staring at a stellar strong man.

However, the other party was caught off guard, but it was still succeeded by Ye Xuan, and the reaction was fast, and its offensive was successfully escaped by Ye Xuan...

Chapter 2740: Wind, crane, soul

"come out!"

"What are you going out!"

"Oh, next door, even the son of Hongdasha dare to grab, you special dog eyes?"

"get out!"

"Robbery..."

.....

After roaring and snarling all the nearby areas, but eventually failed, the magic man who had the fifth realm of stellar sects was actually a scorpion and smashed. Two words, this is the rhythm of complete violent.

At this time, Ye Xuan has already arrived in the distance, but there are a lot of magic people along the way to hear the roaring movements over there, and they have slowly approached the past with curiosity.

In this scene, Ye Xuan, who left quickly, suddenly gave birth to a very urgent feeling.

It seems that I have to hurry!

Although there are many devils in this underground sacred cave, and the area is large enough, the robbery is not a trivial matter. It is estimated that the wind will spread soon.

Now even the strongest of the fifth largest realm of stellar ecstasy has been robbed. Once this matter spreads, it must be a sensation. At that time, there will be a lot of noise in the whole sacred cave. I am afraid that it will not be so easy to succeed. Now!

There is even the possibility of falling into the squid!

As soon as I read this, Ye Xuan was anxious now, and did not intend to go back to the area where the mosquitoes had a good date. Instead, he rushed through the whole underground sacred cave at a very fast speed!

Hit a shot for a place, like crazy, constantly... hooligans!

.....

Time passed slowly, unconsciously, and half a month passed.

For half a month, Ye Xuan had almost no rest, and he was constantly running. When he hit the right target, he immediately started, and then quickly moved away from the angry and roaring area.

Before and after, the total number of small towers he had robbed reached 1098!

An average of nearly seventy a day!

One of the weakest targets, he robbed the second-order of the star's nuclear environment. This kind of bullying of the children's actions made him a little blush, but at the time it was indeed a red-eyed, and they were vaguely a little konjac. A small space tower, Ye Xuan only has his hands covered with caterpillars, itching is uncomfortable.

So in the end, I still robbed it... Even in the small tower of the poor star nuclear world, there are only a hundred souls!

This incident still makes him quite embarrassing, and even has a dim sum.

However, the strongest, Ye Xuan even snatched a strong man in the sixth realm of the nebula, which is also the strongest competitor he has seen in this underground sacred cave.

Even so, the other side of the space tower was robbed by Ye Xuan.

But this time, it was also the most dangerous one in Ye Xuan's crazy robbery career.

After all, the other party is a strong man in the nebula, the reaction ability is too fast, and the means are extremely amazing. I did not wait for Ye Xuan to jump out and shackle the area where Ye Xuan is located with his powerful spiritual strength. It is.

If Fei Ye Xuan immediately applied the newly acquired mysterious spirit to suppress, the other party briefly took a few breaths of time, and quickly fled during this period, I was afraid that it would be planted once...

However, this time it is dangerous, but the harvest is also the biggest. In this small space tower of the nebula's motives, there are 16,825 headless beasts, far beyond the previous bear big!

It is estimated that in this vast underground sacred cave, the sorcerer beast captured by this guy is already the most.

From this point of view, even if he did not \*\*\*\* the space tower of the bear big goods, in the end, he is not likely to grab the testimony of the Montenegro.

Therefore, after all, fight is not a king, or rely on your own strength!

For example, Ye Xuan, although he is robbery, but robbery can hit this level and realm, this is also a manifestation of personal strength!

In half a month, 1098 small towers arrived. If you add nearly 30 before, Ye Xuan's space tower has more than 1,100, and it is estimated that all the demons in this underground cave. Almost one in ten had been robbed by him.

Considering that the risk of continuing to continue is too great, and the final deadline for this competition is only 11 days, Ye Xuan finally decided to close the hand.

Looking for a more remote area, all the small towers that were robbed were wiped out of the spiritual ban, and all the sacred beasts were transferred to the small tower that was refining him. Ye Xuan checked it. The total number of soul beasts in the hands, the result is even a big jump!

The total number of soul beasts in his hands has reached nearly three million!

This is still not the result of the 5,000 heads used to hand over the task. Of course, in the face of the huge number of three million, the little five thousand is actually not very eye-catching.

However, after a shock, Ye Xuan quickly calmed down.

More than three million people are scary, but they are distributed to the devils who were robbed by him in the first thousand years. Each of them is more than two thousand points. Which one is not here for more than a month and a half?

In this case, there are not many!

The power of the masses is really endless. It is no wonder that the existence of this space magic weapon will come up with such an approach. People see it more thoroughly than themselves, and the personal strength is stronger, but in doing this kind of thing... Can not be done.

Even if the black hole in the late stage of the dark mosquitoes alone hunted the soul beasts in this sacred soul cave, in two months, absolutely can not catch millions of heads.

What's more, Ye Xuan has robbed a thousand and a hundred people. The total number of people who have dispatched is more than 10,000!

At the thought of this, Ye Xuan's heart was suddenly unbalanced.

I just thought that I had made a fortune, and now I'm a little better than that guy.

"Hey, it's best not to let me know who you are. Otherwise, there are tens of millions of sorrowful beasts in your hands. It's a matter... it's hard not to let me stare at you!"

It seems that the recent unsuccessful robbery experience in this period has made his self-confidence really stronger than a little bit!

At the moment, Ye Xuan's position is already in the depths of this underground sacred cave. He has been robbed all the way, and he has gone so far without knowing it. This is why he often looks back and looks for the target. Otherwise, I am afraid to go further.

After deciding to close the hand, Ye Xuan remembered the mosquitoes in the first time.

I have been missing for so long, I don't know if she has anything to do!

As soon as I read this, Ye Xuan was a little bit calm, and quickly turned back and quickly rushed to the area where he had agreed with Limosa.

According to his estimation, even if there is no robbery on the way back, he has been rushing at full speed, and it is estimated that it will take about a day to arrive.

And the area where he is now is not the end of this sacred cave, so it can be seen how vast this underground cavern is.

It is precisely because of this, after Ye Xuan decided to demon the emperor, he still came back here to see it again. If there is still a sorcerer who has not been arrested, it is naturally impossible to let go...
