Chapter 274: Xuan beast manufacturing machine!

"Yes, if I can get so many mysterious beasts, my Tianyuanzong is definitely better than ever. Just, I am afraid that there will be a mysterious beast in the sky..."

Moziyun nodded, and with their strength, it was a bit tricky to deal with a Dadan Dacheng, and it was even more mentioned.

Yi Tianlang said: "Nothing, we can find Zhou Yan and Lin Biao, the four together, should be able to fight against a Tiandan."

Ye Xuan on the side heard, but also a little helpless, four people, is this to exclude him?

However, he did a little bit before he met the Luyuan giant in Tiandan.

At the moment, the three of them are choosing to join forces. The resulting three-seven points, Ye Xuan three, Tian Yuanzong seven. Of course, this is the distribution method for Dacheng Dacheng. For the Xiaodan and Xiaocheng, they play differently.

Soon, Zhou Yan, the elder of Lingxiao House, and Zhou Yan, the head of the village, also escorted the survivors and then found them.

Five people meet and are extremely efficient.

Within half an hour, they are cleaning up this large area and getting five or five points.

Ye Xuan is also divided a lot. Except for those expenses, the net earns ten swallows, most of which are made by selling medicinal herbs.

In the past half an hour, they also killed more than a dozen of the green giants in the land of Dacheng, and the harvest was good.

If you give these mysterious beasts to a person, you will definitely be able to break through to the heavens.

It's a pity that it's all divided up.

"If we clean up the rest, we four people may be able to break through to the heavens!"

The four people think so.

Ye Xuan is also true, but what he thinks is to break through to the land.

However, they did not dare to continue, because the Green Source Giant suddenly made a roar.

"boom!"

This sound, earth-shattering, followed by Ye Xuan five people saw that a huge boulder was erupted.

"It's the third round of eruption, be careful!"

Zhou Yan immediately shouted.

"No, this round is extraordinary, I am afraid it is a natural environment, go, go!" Yi Tianlang shouted.

Tiandanjing!

When I heard this, everyone turned around immediately and didn't dare to stay.

This round broke out, although there are only a few dozen boulder, but these boulders are larger than the previous ones. They are definitely the mysterious beasts of the heavens. If they are surrounded, even if they are five, they can't escape. One death.

Fortunately, the power of this round of outbreaks is not strong, but it landed near the Luyuan Giant. When it landed, it was three or four kilometers away from Ye Xuan.

Ye Xuan leaps high and looks at the little giants who are taller than ten meters tall. It is also a taboo look.

He calculated that this round is probably more than 30 eruptions, all of which are in the level of Tiandan.

Therefore, they can no longer continue to clean up.

"No, you can't go in again. If you are stared at both at the same time, things will be troublesome." I Tianlang had a cold sweat on his forehead.

"Unfortunately, it is a pity!" Mo Ziyun shook his head.

Just as his voice fell, the big green giant snarled again, and then the little giants of the green source began to move outward.

"No, go!"

Zhou Yan's face changed and immediately turned around and left.

This place can't be stayed any longer.

This time, they retreated to 10,000 meters and joined together with others.

At this point, on one of the cliffs, the two sects began counting the number of people.

Tian Yuanzong came to a hundred people, leaving only 30 people. Ling Xiaofu came to 60 people, and less than 20 survived.

As for the flying mounts, there have been a lot of fallen, and the number of the mysterious beasts has also died, leaving only twenty.

Death and injury are really very heavy.

Rumble!

There was a huge noise from the distance. Everyone turned around and found that the Luyuan Giant finally moved. However, it was in the Yuan Dynasty.

"That green source giant, how to do it, can actually produce thousands of mysterious beasts."

"It must have swallowed the big lapis lazuli, which has changed, but how could it be?"

"Now it is already a giant in the level of Tiandan. Next, will there be a small talent in Tiandan?"

"If these giants are killed, the entire Tianshui continent will be in chaos."

"We can only blame us for being too weak, and we can only watch the brothers die in the eyes."

These surviving disciples are whispering there. On the other side, the top leaders of the two sects are also discussing.

"My Tianyuan dynasty has now been ruined. The Green Source Giant is also trying to avenge us. I will stay there. I am afraid I will not go back. I can only find another place. I will settle down the other disciples first." Mo Ziyun shook his head. Road.

"Let's do it, I can open up a section to let you live," Zhou Yan said generously.

After hearing about it, Yi Tianlang said, "Those who thank Zhou for being old."

The relationship between the two sects was very general and there was no exchange. Now Zhou Yan can give up the place, I am afraid it is also because of Ye Xuan.

They also know that Ye Xuan and Lin Xueer's ancestors were originally a family, and both of them have played a pivotal role in their respective sects. Therefore, the two sects have a wonderful connection between them unconsciously.

"Well, the bodies of those disciples may not be recovered. We will fix them and discuss them from a long time."

Then, the two sects built a camp nearby, but the atmosphere was very weird.

After the Green Giants broke out three times, they never broke out again, but it has already dismantled the entire Tianyuan, and the mountain is king.

On the other side of Tianyuanzong, the giants of Luyuan made a fuss, and the wolf smoked. Although the building was damaged, it could be rebuilt. However, there was a pattern left by their ancestors in Tianyuanzong. These arrays were also stepped on by the giants of Luyuan. broken.

The two denominations left some people to guard and prevent those mysterious beasts from rushing. As for others, they rested in the camp.

Ye Xuan took all the corpses that he had encountered in the forest before, and gave them to the person who was responsible for the burial. Then he returned to a cave house he opened.

There was only one Song Dynasty in Dongfu. After she saw Ye Xuan coming in, she also showed a strange look.

"What's wrong, this expression?" Ye Xuan asked a little strangely.

"I feel that I am weak, and I can't help anything." Song Congjing slightly wrinkled his eyebrows.

Ye Xuan knew that she must have been paying attention to things before, and hurriedly said: "Whoever said, it is because the enemy is too strong, so it seems weak."

As he said, he went to the Song Dynasty and took out a few of the mysterious beasts of Didan. He said: "These mysteries are all yours. You just need to refine these inner alchemes. Then, you can break through to Xiaodan in the land, and when it is, it will be stronger than me."
