

## Super D. S 2741

Chapter 2741: Let go of the monkey!

Go all the way, go back to the area where you had a good date with Limosa!

On the journey of the day, the first half was fine, everything was normal, but after half a journey, Ye Xuan began to find that something was wrong.

Along the way, from time to time, I can see some of the savage demons who are in a hurry. Like him, they are heading in the direction of the loop.

At the beginning, Ye Xuan did not care, but after this situation was more, he suddenly became a bit suspicious, especially after seeing a few spooky beasts nearby, and several devil strongmen clearly saw it. When they didn't pay attention to it, they rushed back all the way. His doubts finally reached the peak.

You must know that although there are countless soul beasts in this sacred cave, there are more than 10,000 demon strongmen who have been arrested here for more than a month.

Even if the density of the crypts in the distance is not small, but in this area, the soul beast can really be seen without looking up, often after catching a head, you need to look around to see the next one. .

In this case, I saw four or five times in a sporadic manner, and each time there were two or three sacred beasts, but there was no one to pay attention to them. This is obviously not normal!

However, although Ye Xuan has the heart to ask, but everyone is in a hurry, many of the Devil's strongmen are above him, and the speed is naturally faster than him. Therefore, Ye Xuan has not found an opportunity to ask.

Although this situation is helpless, but after Ye Xuan was depressed, he went to the back of his mind and did not think much!

But after a little while, when he was only about four hours away from the area that was previously set by Limos, Ye Xuan finally found that something was wrong.

The place where these guys rushed to go is clearly the same as him. On the way behind him, there is a big fork to the road. Every branch has several options, but all the way down, every time The magic man who met at the fork of the fork, the road he chose when he hurried forward, was exactly the same as him!

Once or twice, it's the same, four or five times in a row, this is definitely not a coincidence!

Ye Xuan is even a heart!

Could it be that the things that were robbed by yourself were revealed? These guys are looking for their own accounts?

No, they don't know that they have made an appointment with Limosa!

I rely on!

Mosquito!

Undoubtedly, it was definitely a big mess on the side of the mosquitoes. It was able to alarm the half of the underground sacred caves. This road came, only Ye Xuan met the rushing man who was rushing to the side. Those are already close to a thousand.

It's faster than him, and he's rushing earlier. It's obviously not less than he's seen. That is to say, now he's going there, even the magic man who has arrived, I'm afraid there are at least 3,000. The number!

What trouble did the \*\*\*\* cause?

The thought flashed through my mind, Ye Xuan was a little anxious at the moment, and the foot was tight, and I tried to speed up and go back!

The journey of nearly four hours was rushed by him only after three hours. Then, in Ye Xuan's line of sight, there was a large black-pressed demon powerhouse, all crowded together and looking in one direction. The feeling, like returning to the earth, met a scene of a major car accident that was being watched by a large number of people.

Among these large number of devils who are like melons, Ye Xuan saw a lot of familiar faces, all of which were robbed by him, such as Xiong Da, for example, the name is the strongest, reaching the first The existence of the six realms of the nebula.

But at this moment, even he is just onlookers, just standing at the forefront of the inner layer. After all, the cultivation of the people is there.

As for the bear big... Sorry, I can only look forward to the outside, and sometimes I jump up and look inside.

At this time, the face of his black mountain star master does not work. After all, not all the magic people are from Montenegro. The vast majority of people do not know him.

And these are more than 3,000 people of the devil strong, at this moment, it is the mosquitoes!

To be precise, it is a large piece of densely packed together, and she has already rushed into a myriad of evil beasts in a dead end formed by natural walls on both sides!

In fact, as early as Ye Xuan was far away, he had already heard the whistling sound of a large number of singular beasts here, and now he realized what was happening when he was near.

These sorrowful beasts are obviously all in accordance with the instructions of Ye Xuan, and went to the surrounding area to repair with their powerful black hole. They rushed to gather together and finally drove here.

Right now, the mosquito is a standing alone at the entrance of the dead end, saying that it is a dead end. In fact, the entrance is also 100 meters wide and the inside is wider, but the mosquitoes stand alone at the mouth of the alley, no one dares to go forward, the crowd is at the forefront. The strong star of the

nebula, more than three hundred meters away from the mosquitoes, there is a flash of uncertainty, the squat is full of entanglements and taboos.

Although I want to shoot, I dare not!

And the number of sacred beasts in the Hutong behind the larvae... Ye Xuan recalled the size of the hutong, and soon there will be results... probably about 167,000 heads!

It is no wonder that the 3,000-strong Devils are madly running towards this side, and more than 10,000 scorpions are gathered together. This kind of scene is estimated to be possible only when they first came down. Well, it may not even be there at that time!

Moreover, the number of devils who have been attracted from the front has been more than 3,000. Limos has driven this 10,000-headed scorpion to this place, and it should be at least seven or eight days. Otherwise, the news cannot spread. So wide!

One thought of this, Ye Xuan's heart suddenly a little embarrassed, but also a little moved.

This time, the mosquitoes still made him very satisfied. On the one hand, he did complete the task. In a few days, he drove over 10,000 heads. To know the result, the mosquitoes slowly drove in a large area. Then, a little bit slowly pushed to this side, and finally it was realized.

I don't know how many people are slipping away on the way. People still do their best.

On the other hand, after the mosquitoes rushed the 10,000-year-old scorpion to the destination, it has been seven or eight days, but people have always stayed here, not because they waited for a long time, they ignored their instructions. , arbitrarily leave something.

This is very valuable.

The reason why I say it is because this thing is indeed Ye Xuan is not authentic, about a few days, I will run for half a month, if the strongest here is not a nebula, but a black hole Or if there are several black holes, the mosquitoes have had an accident.

Thinking of this, Ye Xuan sighed, and then he put aside these thoughts and began to put his mind on the right business.

He decided to take over the 10,000-year-old sorcerer in public, so that he would win the test of the Son with the most sacred beast, and no one would suspect that he was the mysterious The king was robbed.

After all, his cultivation is the realm of the ninth order of the nuclear world, and suddenly more than 10,000 scorpions are coming out. Why?

At this time, at the same time, there was a scorpion beast that rushed to the mosquitoes at the same time. She was sneered with a wave of her hand and wrapped up with spiritual strength. Seeing that the movement was still ready to be crushed directly, it collapsed.

Looking at the demeanor of the sorrowful beasts in the dead end, it is estimated that the past few days have been used to suppress this kind of means.

Ye Xuan even screamed: "The demon girl! Let go of the little monkey..."

Chapter 2742: Envy of melons

The reason why it is so loud, is not that Ye Xuan wants to take this opportunity to install something. It is really because the former 3,000 demon strongmen blocked the way, and the strength of the ninth-order repair of his star nuclear system could not be squeezed.

If it is hard to come, maybe it will anger these guys, although Ye Xuan is not afraid, but there is no need to have more trouble.

Sure enough, at the moment, with his violent screams, no matter how many 3,000 people in front of the devil, or the mosquitoes, they all looked at him.

Of course, although the latter did not speak, it was a smile on his face.

But the more than three thousand devils are different. Each face is all weird. Looking at Ye Xuan's face with a sense of justice and indignation, their eyes are just like watching.

Many people also showed the euphoria of gloating and preparing for a good show.

For this reason, when Ye Xuan kept the color of justice on his face, when he stepped forward, more than 3,000 demons almost automatically let a road open, let Ye Xuan pass...

It wasn't that he was shocked by his clothes, but he wanted to see how bad he died in a while!

"You demon girl, such a cute little monkey... you are too cruel!"

Soon, Ye Xuan went through the area where more than 3,000 demon people were watching, came to the entrance of the small alley, and walked straight in. After walking to the front of the mosquitoes, he was still in the face of indignation, directed at Limosi rebuked a sentence, and then took the space tower that was used to hand over the task.

Then I turned directly to the head, and looked at the sorrowful beast that was still wrapped in the spirit of Limos, and grinned and said: "Little monkey, it is too dangerous here, come and come, let's move a nest. child....."

Between the talks, Ye Xuan's thoughts directly involved the sorcerer's beast in the space tower.

Then he stunned the mosquitoes and looked at them: "You are too much, so cute little monkeys... I have to take them all away and save them from the heat!"

After that, Ye Xuan did not pay attention to the mosquitoes. He quickly went to the back of the mosquitoes and smiled and rushed to the crowded soul beasts: "Come here... it is safe enough. Don't run, I am not gangster!"

When I spoke, it was almost a wave of work, and I just received four or five heads.

In the face of all this, the mosquitoes did not move at all, turned and looked at Ye Xuan to catch the back of the sorrowful beast, but actually covered his mouth and laughed.

A very appreciated look!

"Hey!"

"Hey!"

.....

In the face of such a big surprise, the more than 3,000 demon-powered people who were waiting for the good show three hundred meters away, almost a little part of the scene, turned over and white, and it was too unexpected. This is all unscientific!

Before, although all the people were fascinated by the more than 10,000 sorrowful beasts behind the larva, but because of the mosquitoes, they stood in the passage of the small alley, not only exuding the black hole strong. There is no breath, and once there is a scorpion beast wanting to go outside, she will immediately shed spiritual power, directly wrapped, and then forcibly disintegrated its energy form.

So brutal means, let all of Majin strong are afraid to act rashly, so, out of the crowd of more and more people, but no one even shot sounded a bit.

But now it is just a big star general satisfactory environment nuclear Majin Yoshimasa sternly shouted such a sentence, actually directly through.

This could be no acceptable .....

This result, naturally, all the demons who are active up strong mind, there is heart, there is suspicion of ..... In short all people are Mouguang flashing, their own thoughts.

But at heart the idea of turning what, no one will know.

Also at this time, with the leaves Villa in a small alley to start arresting million head of that animal soul sings, sings soul of the beast in the alley also started a riot in which steeply think there is such a washed out.

However, when passing through the hutong mouth, it was also suspensefully wrapped up by the mosquitoes with spiritual strength, and in a rage, it wanted to collapse its form directly.

It was also at this moment that Xiong Da, who had consciously waited for the opportunity, was suddenly brightened by his eyes. He immediately roared and looked like a school. The voice of the words was exactly the same as the previous Ye Xuan: "The demon girl, let go of that." Only a little monkey!"

Then, in the gaze of all the devils, Xiong Da learned Ye Xuan's appearance, full of justice and indignation, separated the crowd, striding toward the mosquitoes.

At this moment, his heart is so excited!

Although he does not understand how a black hole strongman can do this, but before Ye Xuan has a living example here, in Xiong Da's view, his performance, even including words and expressions, and before The guy who walked the dog was a cross.

In this case, can he pass, and he can't do it for himself?

As long as it can pass, then by the cultivation of your own satellite environment, catching the sorrowful beast, it must be faster than the guy before...

But you can't take it lightly. Although these three thousand stupid pigs have been robbed by themselves for the first time, they are stupid. At this time, they should have come back. Now, I am afraid that someone will follow up with them, so After entering the small alley for a while, the action must be fast!

As these thoughts flashed in my mind, Xiong Da soon came to the front of the Li Mo, just as he wanted to learn what Ye Xuan had just said, and he was very close to the righteousness to swear by the mosquitoes. Then I turned my attention to the other side of the beast that was going to kill the enemy... The accident suddenly happened!

"boom!"

"Can you be called a demon girl? Next time, my aging mother will peel you off!"

"Brain... sick!"

With an irresistible and powerful spiritual force coming over, Xiong Da's mouth in the mouth of Zhangkou spit out a blood arrow, and his body shape is directly reflected like a broken kite. He squatted on the vast open space outside the hutong mouth.

In this scene, while all the magicians around the face are stunned, many people have revealed such a sense of enlightenment.

After all, the previous scene was too strange and abnormal. Everyone is not a fool. Is it only that Xiongda knows to follow suit?

Everyone is just waiting for someone who actively jumps out of thunder.

If this is still the case for the second time, then everything is clear, and then all the people will flock to it.

But the result of the facts now proves another truth, that is, everything before it is just that the master servant is acting, and it is better to play!

This is in line with common sense. Which black hole strong person will let the people blame it freely?

The black hole strongman standing in the mouth of the hutong is clearly the helper who is being arrested by the guy who is arresting the sorrowful beast. The poor bearda is not stupid at first, but it was only affected by the previous robbery. It's quite deep, and I'm a bit accustomed to taking the tricks, so I'm doing it for a while...

Chapter 2743: Resentful

As the truth of the matter was confirmed, the more than 3,000 demons of Zhou's powers stunned, and they all laughed.

On the one hand, this is indeed a bit ridiculous. On the other hand, some of the devils from Montenegro have recognized the identity of Xiong Da.

On weekdays in the city of Montenegro, Xiong Da is a very beautiful presence, because he is the young master of the Black Mountain City, the only son of the big bear, the black man, even if he is bullied by the magic man in the city, I can only swallow the sound, but I just dare to speak out.

Now, everyone is hiding in more than 3,000 demon powers. It is not afraid that Tong Xianda will recognize people and retaliate afterwards. It is a sneer and sneer that has been passed out in an unbridled manner. Resounding.

At this moment, Xiong Da naturally reacted, and he felt that he was really unlucky.

In a short period of two months, people have been insulted and insulted one after another. This kind of thing has never happened before.

The guy who had robbed before would have forgotten it. He counted his face and always showed his face. At least he didn't dare to show his identity. Now he is looking for revenge.

But the two guys in front of you can be different.

What happened to the black hole?

Isn't his raccoon sunspot a black hole? Moreover, it is still a black hole in the ninth order, which is much more powerful than the \*\*\*\* female demon in front of her. She is only a black hole in the seventh stage.

As for the guy in the small alley who is smugly catching the sorcerer, not to mention the little ninth-order demon in the small star, he will not use his raccoon sunspot, and Xiong Da will be able to handle it with one hand. He gave it up...

Thinking like this, Xiong Da couldn't care about the ridicule and ridicule of the more than 3,000 demons around him. After climbing up from the ground, he looked at the mosquitoes with a sullen look and then complained: "I didn't kill me directly, you will regret it!"

Saying, Xiong Da turned and pushed the crowd away, and rushed away toward the entrance to the underground sacred cave.

Although he has already robbed a small space tower after tossing it, but the deadline is not the same for a few days, leaving no meaning.

Go back first, then find out what happened here to report to his raccoon sunspot and think about it later.

With such an idea, Xiong Da quickly left the sacred cave and quickly rushed to the city of Montenegro.

The more than 3,000 demon strongmen in the underground sacred caves, after confirming that the mosquitoes are the helpers of Ye Xuan, the 10,000 souls in the dead end naturally no longer have any reports. Fantasy.

Although this method is a bit shameless, after all, people still have to personally grab the stuffed space in the small tower. It is a ball-baked ball. Who can ask someone to move a black hole?

This kind of thing can only be envied!

With such a mind, more than 3,000 demon strongmen have been scattered all over again, and there are still a few days later, although there are more than 10,000 scorpion beasts at the same time, this time Montenegro They don't want to think about the test of the Son, but before the black-headed star of the Black Mountain star, the bear sunspot also said that according to the number of soul-beasts captured by everyone, the corresponding magic black crystals will be compensated.

In this case, everyone can not be a glimpse of it, try to catch a little more souls and beasts, and turn back to exchange some magical black crystals for cultivation.

Ye Xuan in the dead end, for the outside of these magical strong people to leave, but did not care.

As long as he has already exposed a face before, there is no need to let people see with his own eyes that he has arrested all of the 10,000 scorpions and stuffed them into the space tower.

People don't have the time to work, unless they are sick.

More than 10,000 heads, all of which are now crowded together, will be arrested by Ye Xuan, and in almost two or three seconds, a scorpion beast will be stuffed into the small tower of space. Such things are either by other When the Devils met, they might not be able to close their mouths, but after Ye Xuan took more than one hour, he was tired.

On the one hand, he has already had three million heads of sorrowful beasts in his hands. This tens of thousands of heads are not even a fraction, and Ye Xuan can't keep his eyes on it.

On the other hand, it is indeed a very boring thing to catch it all at once, and Ye Xuan's time is wasted.

In addition, if you go back to this sacred cave to continue to arrest in the future, obviously you can't use this method. If you want to do this, you can only use the Ye Xuan alone to carry out all the sacred beasts in this whole sacred cave. Are you finished?

Can't your own time be consumed in this matter?

However, the tens of thousands of sacred beasts must be solved, otherwise, once they are allowed to spread, then the nearby democrats will find out that they have to be suspicious.

Grab is to catch, but you can change one way. Think of a better way to see if you can improve efficiency.

With this in mind, Ye Xuan's mind was flying and he began to ponder.

After a short while, he thought of spiritual suppression!

Since these sacred beasts can be wrapped and controlled with spiritual power, can the mental strength skills of the sorcerer level affect them?

Thinking of this, Ye Xuan was even in great spirits.

Looking back at the dead end, I decided that there was no one magic man who stayed there. This will put the heart in the heart, even if the spirit suppresses the secret.

An invisible spiritual force spread out like a tidal wave, and quickly swept away to the 10,000-headed sacred beast, and then was commanded by Ye Xuan.

In the next moment, the sorrowful beasts, which had been restless and uneasy, were almost quietly visible to the naked eye. The endless sorrow and sorrow disappeared quickly, and the sudden silence that appeared between them instantly made Ye Xuan even uncomfortable.

A smile appeared on his face, and it really worked.

Then, Ye Xuan threw the space box with his spiritual mark on it, hanging it over the center of the 10,000 souls.

The next scene that happened, let Ye Xuan directly smile and mouth is not small.

With the throwing of his space box, coupled with the instructions issued during the previous practice of suppressing the mystery, at the moment, the head of the 10,000-year-old sorrowful beast is rushing to the space tower. There is no need for Ye Xuan to go too far.

Under such circumstances, more than 10,000 sacred beasts, less than ten minutes before and after, have all entered the space tower, and the dead end is instantly empty.

"This is the real king. If it is really like a previous one, then is it necessary to exhaust people?"

After taking the space tower back into the body, Ye Xuan grinned and then turned to the side of the mosquito: "Let's go, there are still a few days, let's catch another batch..."

Chapter 2744: High priest's instructions

Having said that, Ye Xuan suddenly remembered one thing.

Looks like I just received a moment of happiness, forgot to stay a little bit in other space towers.

You must know that this small space tower has already had 5,000 heads and souls, and with this more than 6,000 heads, the total number has passed the 20,000 mark.

Although the performance of the mosquitoes before, even if he pays 100,000, there will be no doubts about anything. There is a black hole in the supremacy of being a sheep. You just have to bury your head and grab it. Two months later, What is 100,000?

The key is that Ye Xuan is distressed.

In its view, there are 10,000 heads that have been handed over, and now it has been doubled with white. It is really unwilling.

However, the plugs have already been plugged in, and there is no way to do it. I can't erase the four-level spirit of the space tower.

If that's the case, it's really a thing of the past!

One thought of this, Ye Xuan can only admit that it is unlucky, sighed and sighed for a while, only to finally throw the matter behind, with a mosquito to the depths of this underground sacred cave.

Because the periphery is really hard to find a few soul beasts now.

Although the strength of the mosquito is strong, but the sheep can not see the sheep along the way, it is no way.

This time, Ye Xuan and Li Mo mosquitoes rushed to the ground, and soon they reached the deepest part of the sacred cave. The sound of the screaming screaming around the ears appeared in the ears, and there were still a few days. It was the final deadline. Ye Xuan did not dare to delay, and let Limos directly shoot, and he himself was on the sidelines. Soon, less than a day, the second pile was rushed together. The soul beasts all entered a dead zone.

After seeing no one left and right, Ye Xuan even mentioned the spirit of suppressing secrets, as before.

So, in just ten minutes or so, the 10,000-headed sorcerer once again entered another small space tower he had prepared.

This efficiency still makes Ye Xuan very satisfied.

The time to harvest the soul beast is basically negligible, and the only time is only used to drive them together.

If there is a large scorpion beast in somewhere, thousands of heads, even the process of eviction is saved, and the spirit is directly suppressed, and then a large number of sorrowful beasts cried and screamed to death and rushed to throw him at him. Drilled in the small tower of space...

This kind of situation is impossible to appear on the periphery, but in the deepest part of the sacred cave, it is often encountered.

In the next few days, the biggest bunch of scorpion beasts that Ye Xuan's mosquitoes encountered, there are more than 100,000 heads, if the non-mosquito is guarding by the side, the strength of Ye Xuan I can only turn around and escape.

But this time is also the coolest time he caught.

After a spiritual repression secret method is applied, then just throw the space tower out, and then you don't have to worry about it. Wait for all the sorrowful beasts to dig in yourself, and then take back the space tower!

A few days passed by.

In these few days, Ye Xuan and Li Mo mosquitoes and servants have been non-stop, and they have been active in the deepest part of the sacred cave. The first day was still a silly time to drive away. The result was only over 10,000. .

Later, even this part of the drive was saved, and it was straight around, hundreds of heads and the like were not shot at all, at least a thousand heads were only interested, and as long as they shot, whether it was thousands or tens of thousands, basically It is solved within ten minutes.

Even the most, the tens of thousands of sacred beasts, but only two hours or so, all automatically drilled into his space tower.

Under such super high efficiency, Ye Xuan has harvested hundreds of thousands of sacred beasts in these few days. At the moment, the total number of scorio beasts in his own space is over four. Million head mark.

However, in the depths of this underground sacred cave, there are still a large number of sacred beasts. According to Ye Xuan's estimate, there are at least 10 million more!

There are so many sorrowful beasts coming from, he did not think about it, but it is obviously not the time to consider this problem. In fact, as long as they are all caught, there is no need to manage people. Come.

However, even if you want to catch it, you can only wait for the future. Now it is only two days away from the final deadline. It takes time to consider the return journey. Ye Xuan can only helplessly stop the soul. The arrest of the beast, together with the mosquitoes, hurried back.

On the way back, basically no one can see the devil strong.

Those guys have already had their own self-knowledge, knowing that they have no chance to qualify for this trial of Montenegro, so there is no need to be so desperate, and they all return to Montenegro early.

Nearly one day later, Ye Xuan and Li Mo mosquitoes walked out of the sacred cave. At this time, the deadline for the last time was only half a day. It is estimated that other demons are basically in the city of Montenegro. Alright.

With this kind of thinking, the master and the servant did not dare to continue to delay, all the way to speed, and quickly go in the direction of Montenegro, and the mosquitoes, because this time in the underground sacred caves have revealed the seventh stage of the black hole repair For the sake of strength, so after this time came out, I did not deliberately conceal the cultivation.

Just returning to the black mosquito star of the black mosquito tribe, but she can't take her with her. I have to find a secluded place to let the black mosquito space fortress out and let her go inside.

After all, the black mosquito was caught by the black worm star by the high priest of the black mosquito tribe. If she appeared, it would all be exposed.

.....

Montenegro City!

A large number of Devils are gathered around the Grand Plaza where the city's government affairs center is located, waiting for the final result.

In addition to this large number of devils, the black-headed city of Montenegro is also here, sitting on a temporary table in front of the government center.

Around the table, and around the square, there are a large number of demons scouting the strong.

The devils of every demon star actually have hundreds of thousands. The reason why the tens of thousands of devils under the command of the big-headed man is because the demon person refers to the devil's scout, which is equivalent to the human race. Army soldiers.

Under the head of a big man, the regular demon scout is about 10,000.

But now, the 10,000 devils of Montenegro are scouting, almost all around the square, the atmosphere is very dignified, and the face of the bear sunspot is also very unsightly.

As for the mysterious robbers in the sacred caves, he already knows, and now he has learned that there are more than 10,000 space towers that have been robbed, and at least three million scorpions are counted. Was robbed, the matter, the high priest was quite angry, and ordered the bear blacks to make a thorough investigation!

For this reason, Xiong Hezi only summoned the murderous scouts of the Black Mountain Star, and he already had an object of upward cross in his heart...

Chapter 2745: Black box operation

These sorcerers are indeed needed by the high priests, but they are specifically used for doing things, even the bear sunspots are not known!

Therefore, he did not think that the existence of the seventh-order black hole that the devil called Zhang Wuji invited was to rob the existence of the more than 1,000 space towers.

However, it is a small black hole in the seventh order. Even the things that he does not know about the bears are known. What does this person know?

Besides, if this person actually grabbed the more than a thousand space towers, this person is still too low-key, how could it be so high-profile like a sheep, helping Zhang Wuji in the underground sacred cave edge ball?

Of course, he can't say anything about this kind of edge ball. After all, the tens of thousands of sorrowful beasts are indeed Zhang Wuji's hand grabbing the small tower in his space!

But this matter, he can not easily rest!

Xiong Da is his only son, and it is indeed a gift with good spiritual strength. In this case, if he is a big leader of the Black Mountain Star, even the qualification of the testimony of Montenegro is not guaranteed to fall on himself. If the son is on the head, then he is too sloppy.

However, the matter concerning the trial of the Son, whether it is the high priest or the great commander, has been strict, the top ten demons in the tribe must be selected by all, in order to finally set the amount, absolutely not allowed Anyone can arbitrarily specify.

After all, this time, the son of the black mosquito tribe is chosen, but it is not the saint who is alone in your family.

If the selected ten sons do have the kind of \*\*\*\* in the spiritual power talent, maybe this is the final candidate for the black mosquito tribe in the forbidden land of the magic king star. In the process, the finalized Son can gain some kind of spiritual power inheritance in the Forbidden City.

If this is the case, among the top ten tribes of the Devil's group, the black mosquito star will be able to leap into one of the two most promising tribes among the top ten tribes under the Devil's Royal Family.

After all, among the other nine tribes, there is only one tribe's Son, which is the first time to enter the sacred forbidden land and determine the identity of the Son.

At this moment, this person is the first of the nine great sons, and the talented ability in spiritual power even pays tribute to the high priest of the Emperor.

As for the other eight sons, the second time, or the third time to enter the sacred forbidden land, finally obtained some spiritual power from it.

If you can't get some kind of spiritual power inheritance three times in the past, you are embarrassed that the position of the Son is not related to you. It is not fair that the qualifications and opportunities of the tribe cannot always be inclined on one person.

After three consecutive times, there was no gain, and when we went cool, we re-selected the new Son.

This is the case when the Black Mosquito tribe elected the Son of the Sun. The last saint of the entire tribe, three times in a row, for three hundred years, was unable to obtain even a kind of spiritual power from the Forbidden City. Was executed by the next wilderness.

After all, the entire black mosquito tribe was ridiculed by the other nine demon tribes for three hundred years, and the general commander raised his hand and smashed the cargo into fly ash...

As the big leader of Montenegro, although Xionghezi can not directly designate his son Xiongda as the candidate of the Montenegrin, this time he can participate in the trial of the Son, but he can operate in a black box.

This time, a large number of small towers sent by the high priests, although all had a banned seal, even if he could not open it, but as a reward for his great commitment to the matter, the high priest also gave another one. There is no space for the seal to seal the small tower to the bear sunspot.

Although nothing was said, the meaning of the water release is obvious.

On the one hand, Xiong Da, the son of Xiong's son, does have a lot of spiritual strength. On the other hand, even if he does not, it is irrelevant to have a fake in the nine real goods.

Anyway, when the magical star's holy magic is forbidden, he has no chance.

The high priest gave Xiongzizi such a small space tower. Obviously, it was convenient for him to go to the sacred soul cave to grab some soul beasts to cheat.

If you want to run the horse, you have to feed some grass!

In fact, Xiong Sunzi did exactly that.

At the beginning of the competition, he ordered the devil's scouts to rush to the underground sacred caves and grabbed a whole 30,000 heads.

Previously, I threw 10,000 heads into the small tower of the space.

I did not expect this product to be taken away by people.

This incident made the bear black son angry, and scolded a meal, but he was the son of his own. At this time, he was lucky enough to catch the 30,000 heads without throwing all the bones to the goods. Now look Come, the remaining 20,000 heads are simply a life-saving thing.

After the return of Xiong Da, Xiong Hezi directly stuffed the 20,000 heads of the beasts in his hands into a small bottle of space that left him with a spiritual mark, and then handed it over.

At present, among the more than 10,000 demon people who have already paid the task, it is indeed the largest number of Xiong Da's sorcerer. It's only over 7,000 in the second place, but people are arrested on the basis of their true skills. This person is not bad.

It must be noted that all the space towers, the users who leave the brand of the spirit can only plug in and check the number of their own souls. Other people, even the number of soul beasts in other people's space towers, can't be viewed.

Including bear sunspots.

On this matter, the High Priest sent a crone who was authorized by the High Priest to view the number of sorcerers in any space tower.

In fact, the priest's confidant came here. The real purpose is to extract all the sacred beasts in the small space tower and transfer them to a special space tower with a larger inner space. Go in, then return to the black mosquito star and hand it over to the high priest.

Therefore, this person has the authority to take out all the souls from all the space towers.

Before the more than 10,000 demon people handed over the small tower of the space, all of them were inspected in public, and then took out the sacred beast inside, and then went to the space tower that he carried with him.

And as the number of sorcerer beasts in each space tower was publicly announced and recorded, the spiritual brand of the murderer's competitors left on it was also wiped out, and these space towers had to be left for Xiong Zizi, let him find a way to send the second batch of Devils to enter the sacred cave to sell coolies...

At this moment, there is only one hour from the final deadline.

But the guy named Zhang Wuji still hasn't appeared yet. More than 10,000 demon strongmen who have already heard their names after returning from the square have whispered their heads. They all look forward to Zhang Wuji's appearance, and then squeeze the bears out of the goods. However, this cargo was robbed of the small space tower, and not only can it return to the task, but there are actually 20,000 headless beasts in the small tower that has been smashed out...

Chapter 2746: Public anger can't be bullied

For the small tower in Xiongda that was publicly handed over to the task before the public, everyone knows what is going on, but it is one thing to know, but it cannot be said in public.

After all, the bear sunspot is the big leader of the Black Mountain Star and cannot be opposed to him.

However, this matter is too fake, and it has already made all the democrats who participated in the competition extremely dissatisfied!

They didn't dare to confront the bear sunspot, but they hoped that the guy named Zhang Wuji could squeeze Xiongda hard.

Although the guy's means are not bright, but people just hit a side ball, and the light is done, unlike the bear and bear sons and sons, it is simply disgusting!

In contrast, more than 10,000 devils are still inclined to support Zhang Wuji!

This point, I am afraid that Xionghezi and Xiongda both father and son have never thought of it. Unconsciously, their father and son have already provoked public anger.

Moreover, the public anger can not be bullied!

At this moment, with the lapse of time, not only the tens of thousands of devils, but even the heart of Xiong Da and Xiong Heizi and his son, slowly mentioned the eyes of the blind.

At present, all the other 10,000 demon people have already given the task, and all the space towers are also counted in public, and the rankings are all out.

If the guy hasn't returned within an hour, then even if he turns back to the small tower in the space, the number of sacred beasts actually exceeds the 20,000 heads of Xiong Da, and this matter is also a nail, Montenegro The qualification test of the Son of the Star will be owned by Xiong Da.

The game has to have the rules of the game, who told you to be late?

For this reason, Xiong Da and Xiong Heizi and his son will be embarrassed at this moment.

Because they have more than 20,000 souls in the small tower in the space of the guy named Zhang Wuji, in fact, they have no bottom.

After all, at that time, when Xiong Da saw it with his own eyes, there were about 16,000 dead dead at the same time.

However, in the next few days, even after one end of the capture, it is estimated that after the capture of more than 6,000, the time is almost the same.

By the same means, the other party must be unable to display the second time.

But before that? In the event that someone had had it once before, then Xiong Da's testimony of the Son of the Son could not be guaranteed in all likelihood.

This is why their father and son are jealous.

Of course, Xiong Zizi did not even think about sending someone to secretly do that kid.

There is a late-stage strongman with a black hole in the seventh stage. In the whole black mountain star, although there are at least 20 people in the black hole, there are only three people in the seventh stage of the black hole, and the bear sunspot is the ninth order. There are two confidants under his hand that are seventh.

But this is useless. Even if Xiong Heizi personally shot it, it would not be able to kill people in a short period of time. At that time, it will be a big move, and it must be seen by other powerful demons.

He can't always kill all the demons?

The people who are all of their own Montenegro do not say that the first time in the key is to make such a big event in the sacred soul cave, then how to fool other demons into the sacred soul to capture the soul beast?

It is the real trouble that can not be fulfilled by the high priest.

It is precisely because of these factors that Xiong Heizi has to dispel the idea of secretly sneaking the past and killing the master and servant.

However, he is not completely unprepared.

Anyway, there have been a lot of space towers being robbed in the sacred caves, and this thing must be checked. In the eyes of Xiong Hezi, most of the people who secretly started to sneak out. The wind is only attracted to the master and servant, but it does not matter, who can plant this kind of thing, who can make it clear?

This is the plan of the bear sunspot. If the master servant did not return within this time, if it is really back...

Hey, no matter how many 20,000 soul beasts in the small tower of the unscrupulous space, the bear sunspot did not intend to let go of the master servant, and his baby son is not someone who wants to bully and can bully. of!

"The big head of the sunspot, I think this time is almost the same, or else... You will announce the final candidate for the qualification test of Montenegro Stars now!"

At the time when the last half of the time was left, the confidant sent by the High Priest was obviously impatient. He turned to the side of the Black Mountain star, and then went on to say: "The high priest. I am still waiting, I have to go back to life!"

As soon as I heard this, the bear sunspot couldn't help but sneak a sigh. In any case, I'll take the testimony of the testimony of the sacred son of Montenegro first. As for Zhang Wuji's master servant, I ended this thing and waited until they When you arrive, you can also let go of your hands and feet.

One thought of this, Xiong Zizi even nodded with a smile, but also stood up for the first time.

Just as he wants to announce the final result, the horizon in the far distance of the square has two figures flying fast and falling, directly in front of the government hall, from the bear sunspot and the high priest. The temporary high platform where the cronies are located is no more than two hundred meters.

Isn't it the way to catch up with the leaves and finally return to the Ye Xuan and Limos mosquito servants?

The more than 10,000 demon people in the square saw the bear black son get up and announced the final result. The original face was full of disappointment, but at this moment, I saw the leaves and the mosquitoes. The figure of the person appeared, and they were shocked by the heart. I don't know who was excited to call a name that was unscrupulous.

Then, the other devil powers all shouted in response, a short breath, the entire government center square, Zhang Wuji these three words will be heard.

In such a scene, even Ye Xuan was shocked. After a while, he suddenly remembered that it seems that this Zhang Wuji is himself. It was the name that was mentioned at the time of registration, but... this is only one month. But what have you done yourself? Is it so swollen?

At the same time, with the words of more than 10,000 devils cheering Zhang Wuji in unison, the bear blacks on the high platform suddenly changed their face, and the heart was faintly giving birth to a subtle feeling.

As a person who has lived for a long time, he is naturally the clearest thing about people's hearts.

At the moment, this guy named Zhang Wuji is clearly getting the people's heart. In this case, if he is doing something with him, the following more than 10,000 demon strongmen are angry, and their own black-box operation may not be necessary. It won't be smashed out by a single rib.

Everyone knows that it is one thing. If they are taken out in public, this will not end well...

At this moment, he suddenly realized the meaning of the five words: the public anger can not be bullied!

It was also at this time that Ye Xuan, who had stunned the gods, also took out his own small space tower and handed it to the high platform with a hand, and said with aloud: "Zhang Wuji, hand in the task!"

Chapter 2747: Trial qualifications

Zhang Wuji!

Zhang Wuji...

With the arrival of Ye Xuan and Lie Mo, the more than 10,000 devils in front of the square are all excited and inexplicable.

Such a scene made the pro-intelligence demon sent by the high priest G-Bone a big surprise. He glanced at Ye Xuan deeply, and then took over the small tower that he threw the high platform, and began to test it directly in public.

As his spiritual power penetrated into the small tower of space, the person's eyes were already lit, and once again he swept the first leaf of Ye Xuan, which only reported the number of soul beasts inside: "Zhang Wuji, 20,000 Three thousand four hundred and sixty-seven!"

"Oh....."

"Zhang Wuji Zhang Wuji..."

"Winning!"

.....

After listening to Ye Xuan, she did not live up to expectations, and crushed Xiong Da, who had done so arrogantly. The following tens of thousands of demons and strong people cheered up again, only to feel the evil of the center, the whole person Comfortable.

Although the bear sunspot is the big leader of the Black Mountain Star, but the law does not blame the public, these devils still understand, let alone the fact that this is their father and son.

Therefore, more than 10,000 devils in the square, at this moment, do not hide their support for Ye Xuan at all, and Ye Xuan, who is a little confused, is a little embarrassed. He only feels that this Montenegro The Devils are really too enthusiastic, too likable...

"Bear black bear big head, you see this thing..."

The high priest's cronies turned to Xiong Hezi and looked at it. He naturally knew that Xiong Da's business was the former's cheating. If he changed to other people, he might push the boat to help push it behind, but this is called Zhang Wuji. The guy is obviously also of extraordinary origin, not only is there a black hole in the strong, but it seems that the reputation of this Montenegro is not weak.

Therefore, the priest's cronies did not intend to do anything in this regard.

Don't fall into the end and have an unnecessary incident, then it's boring!

The high priest has already hinted to the bear sunspot a small space tower that did not leave a spiritual forbidden seal. So he can handle this matter, why should he worry about it and sin people? ?

At this moment, he turned to the bear sunspot, although the words in the back did not say it, but it was clearly urged to quickly join the Montenegro star in this place of the black mosquito tribe trial, and then he took it with him. The large-capacity space tower of more than tens of thousands of sacred beasts has returned to the meaning of resurrection.

This time, I was able to harvest such a huge number of soul-stricken beasts. Presumably, under the surprise of the high priest, there will be a reward.

With this in mind, the priest's cronies are simply eager to return!

The bear sunspot obviously understood the other party's meaning, but his heart was extremely unwilling, and even his eyes twitched. After watching the following more than 10,000 devil strong people, the bear sunspot secretly remembered a few shouts. The most powerful guy took a deep breath, and then his face sank: "Before, there was a lot of space in the underground sacred cave where the small tower was robbed, the head suspected this and..."

"Cut! Too shameless..."

"This is clearly a black box operation!"

"To say that you can rob a small tower of space, it is possible that Zhang Wuji is impossible."

"There is a performance, is the person around the people helping to catch the sheep, but also to use robbery? It is Xiong Da, I clearly saw him robbing..."

"Oh... brother, the unlucky one you said is me. My space tower was taken away by him. But there is no 20,000 soul beasts in me. Where is this?"

"It's too shameless, we don't accept it..."

.....

I didn't wait for Xiong's son to say that Ye Xuan was the murder of the mysterious robber who robbed the space tower. The following more than 10,000 demon people even clamored, even shook the bears in public. !

The bear black son immediately became nervous, and glanced at the high priest's close confidant, and found that the other side was looking at him with a light smile. The bear black child's heart jumped and he was not calm.

He is naturally aware of the catastrophe of Xiong Da.

This kid is nothing but his own space tower was robbed, and then there is a kind of learning and robbing others, and intends to take it back to the task, but this thing is done by others, he Xiongzi son to do, But it is inevitable that the high priest will not think much.

In the unlikely event that more than 1,100 small towers of unknown space are related to themselves, then this matter is really unclear.

One thought of this, Xiong Heizi did not dare to continue to entangle too much in this matter, and quickly made a public announcement: "The final candidate for the trial of Montenegro Star Son is... Zhang Wuji!"

When I heard the bear black son finally compromised, the following more than 10,000 demon strongmen cheered up.

They are not happy for Ye Xuan, but for themselves, how to say, Zhang Wuji has brought a sheep to the side, but people are at least fair, and more than 20,000 heads and souls, people are still personally Grabbing and throwing it into the small tower of space.

Losing to him is better than losing to the back of a bear.

This matter, then the dust settled, and the qualification of the testimony of Montenegro's Son is still in the hands of Ye Xuan.

"There are still two months, it is the day to go to the black mosquito star. To ensure this, Zhang Wuji, in these two months, you must not leave Montenegro for one step. The leader must guarantee your safety. After all, the Holy Child test Practice is a big deal, you have to understand this matter!"

Looking at Ye Xuan, Xiong Zizi said, although the expression on his face was calm, but in the depths of the bottom of the bottom, there was a clear flash of awning.

Ye Xuan's heart sighed and suddenly sneered.

It's good to say, but the other's idea is completely different.

This time, the saint qualification competition, he is the first, Xiong Da is the second, if he is dead, naturally it is topped by Xiong Da.

It is not allowed to leave Montenegro for two months. With the strength and means of Xiongzizi, even if there is a mosquito, it is very easy to kill him.

However, although everyone knows this thing, Ye Xuan can't break it at all, otherwise it is not interesting.

Therefore, after he frowned, he did not say anything more, but nodded directly, and then walked to a place of residence under the leadership of two powerful devils appointed by Xiong Hezi. .

At the moment of turning around, Ye Xuan's gaze subconsciously swept the high priest who had bowed his hand to the bear black son. Just now, he clearly saw that the other party had transferred all the sacred beasts in his space tower to carry it with him. Within a small tower of space.

In this case, it is basically certain that the existence of these sacred beasts is needed, but the high priest of the black mosquito tribe.

But this is not the point. The point is that the high priest's confidant's purpose is to take away all the souls and beasts. Moreover, the other party will not only leave the Montenegro, but it seems to be still a People?

When I think of at least 30 million soul beasts on the other side, Ye Xuan's heart of robbing is almost ready to move...

Chapter 2748: Also robbed

The priest's brethren's confidant is not weak, and the black hole is first.

But for Ye Xuan, if you have the heart to rob the other party, the first-order cultivation of the black hole is really too weak. As long as you guess it, the other party is almost dead.

In addition, the black mosquito star is quite far away from the black mountain star. With the speed of Ye Xuan's purple hole shuttle, it is absolutely possible to catch up with each other halfway.

And the purple hole shuttle still has a hidden array method, which can appear on the other side of the other side without knowing it.

At the thought of this, Ye Xuan even if there is a decision, at least 30 million sorrowful beasts, if you can really grab it, this time it is really developed, you must not miss it!

With such a mind, he and Limoso were soon taken to an independent small courtyard. The small courtyard had a wall. When the two just entered, there was a small team of ten devils scouting over. Standing around the wall like a guard.

It seems to be protection, but it is clearly under house arrest.

Ye Xuan snorted, and even when the door was closed, he and the mosquitoes entered the residence in the small courtyard.

According to his estimation, even if the bear sunspot is killing, it will never be able to come over immediately. At least it has to wait until the wind has passed for a while. After all, it will take two months to leave for the black mosquito star. .

At least, in the last few days, the bear sunspot will never come.

That being the case, it is just the best chance to rob.

However, although he has a perfect oscillation, he can't protect the mosquitoes and leave quietly. Then, the mosquitoes need to stay here, and sometimes they can make some movements in the yard. Some people come to visit. I have to find an excuse to stop... Yes, the mosquitoes can't go!

After paying tribute to it, Ye Xuan even rushed out of the small courtyard and headed for the sky even though he started the perfect oscillating ability.

Fortunately, the stars of the devil are not like the administrative star of human beings. There is a star defense defensive array, otherwise Ye Xuan wants to leave silently, basically impossible!

After leaving Montenegro, Ye Xuan even rushed out of the state of the sneak peek.

Since his personal star network has been connected to the internal star network of Montenegro, the star map of the entire black mosquito tribe has been known, so even if there is no mosquito to lead the way, Ye Xuan alone will not go in the wrong direction.

After leaving a starry sky distance, Ye Xuan stopped in the star field without a magic star before and after, and took up the purple hole shuttle. Then he took out the black mosquito and the black wind two space fortresses. The reason for this is that this time to ensure that nothing is wrong, he intends to let the Neibo Mountain of the Black Mosquito and the Black Wind No.

After the two space fortresses were taken out, he opened the hidden array method for the first time. After all, the volume was too big. If it was seen, it would be bad. After doing all this, Ye Xuan entered the black wind and will sit in the town. The black wind's tyrants were brought around, and after the black wind, he waved his income into the immortal world, which led him to enter the black mosquito.

When he first entered, Buck rushed over and handed the ball: "Master, Lu Wenxuan has made a breakthrough in the folding space array, refining a small private battleship, let me hand it over to you, he is still continuing in the magic nest. the study....."

A small private battleship with a folding space array?

Upon hearing this news, Ye Xuan immediately became overjoyed, and quickly took a space box from Buck's hand, and then confessed a few words, which took Naibo Mountain and Ba Gu to two people out of the black mosquito number, waving between The black mosquito has been earned into the immortal world.

For Xu Xiaotou's small private battleship with internal folding space, Ye Xuan's interest is still great, but there are more important things to do now, so he can only temporarily put this matter on. After the brain, after the purple hole shuttle, I entered with Nebo Mountain and Ba Gu three, even when I went to the direction of the black mosquito star.

Half a day later, under the full force of Ye Xuan, there was finally a warship in front. According to the speed and the grade of the warship, it should be the private warship of the high priest.

"Prepare to attack!"

Ye Xuan immediately took the opportunity to approach the past with the speed of the purple hole shuttle. When the distance between the two sides was close to the kilometer, Ye Xuan kept the speed steady, and then moved the space between the movements. Shock.

Space turbulence, originally a large-scale warship can have a kind of fearful attack means, but the black hole shuttle that Ye Xuan merged into the purple hole shuttle in the fifth fusion has this ability, but its scope is not Large, only a radius of one kilometer, so that the next leaf yin must be close to within one kilometer to be able to unfold.

"Hey..."

With the space volatility of the purple hole shuttle, with its hull as the center point, the space within a radius of one kilometer suddenly screams at high frequency. In this case, the battleship in front is a moment. Like a leafy boat floating in the wind and rain, it swayed up and down violently.

This kind of space turbulence, if other warships are unfolded, then the hidden state of the purple hole shuttle will be lifted immediately after entering the shock zone, but if the space of the purple hole shuttle itself is oscillating, because its hull is the source, it is Therefore, the state of concealment is unaffected.

In other words, the purple hole shuttle at the moment did not reveal the body shape at all.

In this case, the other party apparently thought that it was a natural emptiness shock. It was the first time to smash out from its warship. After the battleship was received, it wanted to sneak out.

It was also at this moment that the Nabo Mountain and Ba Gu two who had already prepared for it had disappeared and disappeared directly from the purple hole shuttle. When the figure reappeared, the black mosquito tribe was already in the first place. The shape of the priest's confidant was caught in the middle.

At the same time, Ye Xuan violently screamed through the sound system of Zi Dongsuo: "Stop, rob!"

"Nebo Mountain? Robbery? What are you kidding..."

The Nebo Mountain was originally the demon leader of the black mosquito star. The high priest from the black mosquito star knew him clearly, and he whispered when he met.

Initially it seems that he did not believe the words of robbery, but then he saw the body's breath, and he had a black hole in the ninth-order grand perfection. His face suddenly changed.

Then, rushing to Naboshan, he roared up: "Naiboshan, are you looking for death? Actually dare to rob the priest's sorcerer? I understand that the two shots in Montenegro are also you... ..."

"It's so noisy!"

He guessed it lightly, and then the spiritual strength of the body was fully motivated, turning into a mental storm. In a moment, the demon person's entire body was wrapped in it, and there was no shape under one twist. The sound of tragic sounds, including the treasures of the space tower and some private warships, all appeared in their bodies, falling dust...

Chapter 2749: Epic level

Ye Xuan's body shape appeared for the first time, and he took all the treasures that fell in his body into the unfamiliar world.

Then, after slashing the other side's brain nucleus, Ye Xuan directly sang the blood-stained tear sword, and took all the blood and blood in his body to take it away, letting his wreck fall into the void, which is the direction. Nebo Mountain and Ba Gu two people waved their hands, and the figure of the three people broke into the purple hole shuttle at the same time, quietly going away.

This is the brain core of Ye Xuan who got the first black hole magician strong. He did not rush to throw it into the engulfing system to decompose and extract the spiritual source power inside. Instead, he used a small space box to collect it.

In the vagueness, he has an intuition. This kind of black hole in the brain of the devil will definitely have other great uses in the future.

Later, Ye Xuan checked the spoils of this time. Other things did not attract his attention. One bones were thrown into the body of immortality. Finally, Ye Xuan's attention fell on a seemingly The same space on the small tower.

There is a four-level spiritual ban on the space tower. Ye Xuan even retouched it after leaving it, leaving his spiritual prohibition and spiritual brand.

The last one to see the sorcerer's beast is actually more than 34 million heads.

If it is combined with more than four million heads in another small space tower in Ye Xuan, the total number of soul beasts in Ye Xuan's hands has reached more than 39 million heads, close to 40 million heads. Now!

"It's made, it's made, but this time it's really developed..."

Such a large number of sorrowful beasts, let Ye Xuan all the people dance, can not help but cheered up.

It was just happy, but it quickly calmed down.

Undoubtedly, this time the robbery of the black mosque tribe's cronies is undoubtedly a smashing of the horse's nest. Although he has evidence of absence, basically no one will suspect that he is coming up, but it is always good to be careful.

In addition, the murder of the black-headed star bear blacks also needs to be resolved.

Limosa alone is obviously not the opponent of the other party. Ye Xuan decided to bring Nebo Mountain and Ba Guru to the side, but whether it is Nebo Mountain or Limosa, even including Gu Gu, Ken Down It is no longer suitable to show up.

If it was before, Ye Xuan wanted to pass them into the immortal world, the only way is to transit through the Black Mosquito or the Black Wind Fortress.

But in that case, once they are released, they must first take out the Battlestar. This is too much trouble. On the other hand, the Battlestar is not suitable for exposure.

If it was before, this question is simply unsolvable for Ye Xuan at the moment, but now, with the appearance of a small private warship with the perfect folding space that Buck gave him, everything is not Then the problem is.

With Ye Xuan's current cultivation as a strength, there is no way to bring the star-level power to the immortal world.

Unless you put the strong in the treasure with the internal folding space, equivalent to the independent space, and then refine the treasure, you can earn.

Right now, since Lu Laotou's research on folding space has made a breakthrough, and a small private warship with perfect internal folding space has been created, Ye Xuan can use this warship to make the sixth. Sub-fusion, once completed. His purple hole shuttle will also have a perfect internal folding space.

At that time, not only the internal space of Zidongsuo will be even larger, but also the strong players such as Naboshan and Ba Gua and Lie Mosquito will be able to pass through the transit of Zidongsuo, and Ye Xuan will be in the immortal world.

In this way, once you need to summon them, just sacrifice the purple hole shuttle, and don't worry about the exposure risk of the two space fortresses...

As soon as I read this, Ye Xuan was excited and no longer hesitated. He urged Zidong to find a remote place. Then, after the three of them all plucked out of Zidongsuo, he earned it for a while. In the body, it was thrown to the fusion system with the battleship that had just been taken from Buck.

At the same time, it is throwing out a bunch of mountain cores as fusion energy.

Soon, the system's prompt tone sounded in Ye Xuan's mind: "Hey, find a fusion of treasures! Small private battleship: Purple hole shuttle, stack virtual ship! Is it fusion?"

Until then, Ye Xuan knew that the original small private battleship was called the stacking ship, but the name was taken.

In a sigh, he even made a positive reply, and then the system's prompt tone sounded again.

"Hey, the order is confirmed! Purple hole shuttle begins the sixth fusion: progress 1..."

At this point, Ye Xuan was completely relieved. According to his estimation, this fusion would have taken at least ten days to complete. After all, it is the sixth time. The more time is behind, the time is simply geometry. Level of growth.

However, Ye Xuan obviously does not have such a long time to spend here. After all, there is a big event. He is not sure whether the bear sunspot will go to the small courtyard where he is under house arrest. If it is true, then everything will be finished.

For this reason, this time in order to improve the speed of integration, Ye Xuan threw the fusion system as the fusion energy, all of which are eight-level black legendary star nuclear source. Anyway, even this legendary eight-level black, he has It is a big deal.

It is hoped that the level of the star nuclear power source that is used as energy consumption is so high that it can quickly increase the speed of this fusion.

This is also a choice under helplessness. As for whether there is any effect, Ye Xuan is completely unfinished.

After doing all this, he and Naibo Mountain and Gu guessed that they were hiding in the secluded place and waiting for the result of the sixth fusion.

What makes Ye Xuan unprepared is that just half a day later, in his mind, he once again sounded a familiar system prompt: "Hey, congratulations to the host, the success of the fusion! Get the epic starship battleship!"

Become? So soon?

The surprise came so fast, even Ye Xuan was a little caught off guard, and was suddenly there.

This is undoubtedly the result of his fusion of energy with the eight-level black legendary star nuclear source. After all, it used to use the first-level and second-level objects. This time, the eight-level black star nucleus was suddenly used. The source, the quality of the fusion energy is raised so quickly, and the speed of integration is naturally increased accordingly.

However, it has been raised from about ten days to a long time. Is this too much?

It seems that if you are eager to complete the integration in the future, you can try to use the top-level star nuclear source of the nine-level color, and estimate the speed will be faster.

In addition, what makes Ye Xuan happy is that after this fusion, the original purple cave shuttle, which was originally a legend of the stars, has finally become a starry epic like his warriors and trenches. Level treasure.

And the name of this hole is also very fond of him, and it is really perfect to match the practice of the hole that he cultivated.

Chapter 2750: The wrath of the high priest

After the sixth fusion, the hole shuttle and the previous purple hole shuttle have almost no change in appearance, but the internal changes are big.

The size of this small private warship is basically only 100 meters in diameter and 300 meters long. The interior space is also the same, but the space occupied by some functional areas and equipment is not really big. It is a hundred meters square, that is, about 10,000 square meters.

But now, because of the perfect folding method, the internal space of Dongxu Shuttle has been directly improved by a hundred times, and it is the upper, middle and lower layers. From the inside, it feels like a small space fortress.

The top floor is the main control room, the middle floor is the kinetic energy room, and some other vacant cabins. As for the bottom layer, it is a huge square. Of course, if you need it, you can also split it up and use it as a reserve material!

Such a huge space, even if there are 10,000 devil strong people in it, can be loaded down, of course, in that case, basically there is not much space for activities, they have to nest in their respective cabins.

After some inspection, Ye Xuan even took out the black mosquitoes again, and then let the returning sea lead the squadron of the sorcerer who was under his arm, and stationed in the hole, and stationed in the middle layer. Come down and practice hard.

In the future, once it comes to the need to do things from the hands of people, Ye Xuan is not limited by the inconvenience of taking out the space fortress.

In addition, seeing a return to the sea can take a thousand magic slaves to go out to perform the task, the wretched mosquitoes and the goods also take the initiative to invite Sakura, Ye Xuan thinks this guy is strange, sometimes can also stand alone, so directly Accurate.

Soon, the return of the sea led his one thousand demon slaves into the second layer of the hole shuttle, and Ye Xuan, just took Naibo Mountain, Ba Gua and Li Mo, together, entered the first layer above. Then, the opening of the hidden array method will be rushed to the black mountain star.

After arriving in Montenegro, Ye Xuan waved the hole in the body to the immortal world, and then immediately launched the perfect shock skills, quickly entered the interior of the Montenegro, and went to the city of Montenegro.

At this point, he left and returned, only one day before and after...

.....

After quietly returning to the small house under house arrest, Ye Xuan asked about the mosquitoes. After learning that the bear sunspot did not come over during the day, he completely put his heart down.

In any case, this time the brethren of the black mosque high priest was killed, no matter how noisy, it is absolutely impossible for anyone to suspect that he and the mosquitoes are coming. After all, they are always in this day, but they have been I have not left this small courtyard, and there are many devils around the courtyard who are waiting to be guarded. This is no doubt.

Just as Ye Xuan was fortunate, there was a lot of noise from the outside of the devil who was screaming at the outside, and the pace was rushing. It seemed quite noisy.

When the suspicion was in doubt, the courtyard door was suddenly pushed open, and the bear sunspot slid into the face and strode in. This suddenly made Ye Xuan secretly glad, and lost his time back. If it was a little later, I was afraid of this. Just reveal the stuffing.

The bear sunspot came here obviously with a purpose. After entering the courtyard, I saw the mosquitoes, and immediately turned my brows into sinking. Ye Xuan's heart moved and suddenly realized.

If there is no accident, it should be that the high priest's confidant was already killed in the middle of the process. The bear black son suspected that the mosquito was caught in the first time. Seeing that she did not leave, she was disappointed. I began to ponder other things.

"The big boss, I don't know what happened? It seems quite complicated to listen to the outside movement..."

Ye Xuan sneered under the heart, even if asked.

"The special priest's special envoy was killed on the way back to the black mosquito star. He only had the secret to secretly send a message to the high priest, and he was killed!"

The bear black son is still in the sinking, just a casual return.

Upon hearing this, Ye Xuan was suddenly jumping wildly. He didn't even find that the other party sent a private message. It seems that it was based on the secret technique, but it is not known what the content of the private message sent is. .

"Unfortunately, the content of the private message has only one character, but even so, the result is very clear. It must be done by the people of the Heine tribe. Hey, the son of their tribe is the only one who entered the holy demon for the first time. The forbidden land has succeeded in getting a certain kind of spiritual power to inherit the demon tribe, and the future development is limitless. This Heinei tribe is getting more and more embarrassed..."

Just as Ye Xuan's heart was mad, he wanted to know the answer, but it was directly said by the bear black son, and the reason for the other party is obviously purposeful.

Halfway through, Xiong Hezi's words were repeated, and then he swept Ye Xuan, and then he said: "Zhang Wuji, now the black-and-white tribe's spies are mixed into my Montenegrin. You'd better be

careful, the high priest has ordered, strict Check everything, meet the spies of the Heine tribe, kill on the spot, so advise you not to run around, otherwise, even the leader can not protect you..."

The implication is that this is clearly to take the vaccination, first on the surface to pretend to do something, then turn back to secretly remove Ye Xuan, and then push everything to the so-called black Nai tribe's spy, it really is Good calculation!

Ye Xuan even sneered, but on the surface it was quiet, slightly hesitated for a few moments, and then took the bear black son arched the archer: "Big head, Limos is only I met in the black mosquito star field, make friends One of the predecessors, and the two of them were more involved, so she promised me to help me to qualify for the test of the Holy Mountain."

"At the moment, people's commitments have been completed, and there is a sense of leaving. It happens that the situation of Montenegro is different here, so it is really inconvenient to stay, so that it is not good to be suspicious, so..."

"I mean, I have stayed here with the demon sent by the big-headed scouts to protect, basically there will be no security problems. Since Limos wants to leave, I wonder if the big boss can answer it?"

"This is..."

When I heard Ye Xuan's words, Xiong's son's heart was ecstatic, and he was worried that there would be a black hole in the seventh-order powerhouse. At that time, Ye Xuan's hand was afraid that the movement would be very big, and it would be difficult to get away with it. Now that The kid found himself dead and volunteered to let the black hole strongman leave.

He is naturally in desperate.

However, my heart was happy again. The face of Xiong's son was not shown at all. He even hesitated and pretended to sigh. Then he said: "It is natural to leave, but the situation is now chaotic. You don't want to send it, lest you encounter the spies of the Heine tribe, and it will be bad if you make a mistake."

The implication is that I am worried that Ye Xuan would take this opportunity to secretly slip away with the mosquitoes...
