Chapter 275: Return to the green land

"But, these are you who are not easy to get, what do you do for me?" Song Congjing quickly pushed Nedan back.

Ye Xuan smiled lightly and said: "I am in the middle of the ring, I don't dare to think about it. Not only that, but I also prepared a copy for your brother."

He also took out a mysterious beast, and if these inners were sold out, it would definitely be a high price.

"Really?" The Song Dynasty still does not believe it.

Ye Xuan reluctantly squeezed her cheek and said: "Nei Dan only, I will go get some more to sell."

When Song Ding heard this, he immediately became shocked: "You have to go in again? There is a day in the sky..."

"Reassured, not to go to Tianyuan, it is to go to the green land, now the green source giant has left, there is nothing that can threaten me." Ye Xuan quickly shook his head.

"I want to go too!" Song Congjing looked firm.

"You are here in refining the mysterious beast. This medicinal medicine can greatly speed up your refining and internalization. I will go there for a few days. When I come back, you may be able to break through to the ground." Danjing." Ye Xuan took out a few medicinal herbs.

Didan?

After hearing this word, Song's eyes were also bright. She is now a small man in the world, and there is still a person from Daxian.

In a few days, is it really possible to break through to Didan?

At this time, she subconsciously looked down and found that all of the mysterious beasts were all in the Dan Dan, and no one was the inner Dan of the Dan.

"Then you be careful, I am waiting for you to come back here." After thinking about it, Song decided to not follow.

"I just said to the elders, I might bring everyone back to Lingxiaofu. You should go back first. When I go back to Lingxiao, I will go back to Lingxuan." Ye Xuandao.

"Ok."

Song Chongjing nodded skillfully. She had no confidence in Ye Xuan a few times before, but this time, she was confident.

The realm of Dacheng Dacheng can easily solve the green giant of a small land of Xiaodan, which is probably only one person who can do it.

The two stayed quietly in the cave for a while, then the elders of the elders sent people to come back to Lingxiao.

As for Ye Xuan, he is riding a Lingxiao Dapeng and went to the green land.

This green land is the green source giant, and now the Luyuan giant has left the mountain king. Therefore, Ye Xuan wants to visit this green land.

The Wu Ren refining a Nei Dan at the same level, the repair can be greatly improved, if the refining and high level, the repair is even more thousands of miles.

Although the repairs obtained in this way are a bit unstable, if the refined Dan is exchanged with Ye Xuan, the refining speed can not only be greatly improved, but also has no side effects.

So this time, Ye Xuan wants to kill a lot of Nedan, and then sell it with Refined Dan. The profit can definitely exceed the income of Dandan directly.

However, this treasure land has several competitors.

Ling Xiaofu came to the elders of two Didan, the chief refiner Hu Chang and the chief alchemist.

As for the Tianyuan sect, there are two elders who have come to Dancheng, and the competition is not small.

The five people took a trip to Lingluo Dapeng to the green land. They spent the day and only spent a day.

Later, they let Ling Xiao Dapeng rest in a safe place, and then each entered the green land.

"Oh, I have induction, and the efficiency is definitely more than the sum of the four of them."

Ye Xuan sneered.

Why are there so few strong gods in the four major domains, that is, because there are few mysterious beasts, and there is no auxiliary cultivation of the mysterious beasts, then they can only be piled up by time.

If you get a lot of mysterious beasts, then Lingxiao House will certainly be able to surpass Tianyuan.

However, Ye Xuan did not dare to care about it. After all, there is still a mysterious beast of Dacheng.

"Three o'clock direction, six hundred meters!"

Ye Xuan closed his eyes and sensed it. It immediately burst out.

Killing, start!

.....

The green land is not big, and the five people enter from different places. I am afraid that it will take only two days to kill the mysterious beasts inside.

Ye Xuan's efficiency is extremely fast. In just half a day, he has already killed hundreds of mysterious beasts, and has obtained a hundred different kinds of mysterious beasts. Among them, there are seven Nedans in Didan. Three of them are small in the territory of Didan.

Add up, probably

However, just as night fell, Ye Xuan suddenly saw a corpse.

A human corpse that shocked him!

Ye Xuan stared at it and found that the corpse he had seen, immediately shocked and murmured: "This is not the elder of Tianyuanzong, how come to die here?"

He subconsciously probed and found that there was no living thing around him, and then he went over.

This corpse is indeed the great elder of Tianyuanzong. This day, the elder of the Yuanzong is the master of the small land of Xiaocheng, plus a piece of Chinese goods bought from Ye Xuan, even if it is on the land of Dandi Dacheng. The mysterious beast also has the power of a battle.

However, it is dead here.

Ye Xuan checked carefully and found that the person was dull when he died, and there was no wound on his body. He did not know how to die.

"The Qiankun Ring and the Middle School are still there. It seems that it is not artificial. What killed him?"

Ye Xuan was extremely surprised in his heart and directly collected the Qiankun Ring and the Zhongpin Land.

However, when he was collecting the body, he suddenly found that the body could not be taken into the ring.

Why is that?

Ye Xuan is very surprised, the phagocytic system can not accept the body, but the Qiang Kun can.

But the next moment, he knows why.

In the belly of this corpse, there seems to be something swimming.

At this time, the thing suddenly swam to the throat of the body, and then suddenly burst out.

"not good!"

Ye Xuan reacted and hurriedly decomposed the Eight-Dangerous Sword and condensed it into an eight-headed shield, blocking it in front of him.

boom!

One thing hit the Eight Shields, but was blocked by the Eight Shields, Ye Xuan could not see.

He flashed a glimmer of light, and when the sound was heard, there was a Danyuan spewing out.

"No matter what you are, first unload your eight pieces and say, eight wild winds kill!"

At that time, the shield was torn apart and began to run a complicated trajectory.

At the high speed of the eight sharp edges, Ye Xuan saw a green light flashing into the grass on the side.

"Want to run?"

Ye Xuan took out the bow of the middle product and shot a dragon arrow in that direction.

The extremely high temperature instantly burned the trees that had blocked the road, but it was still escaped by the ghosts.

"What is that, how fast is it?"

Ye Xuan reveals a faint color.

Even his eyes didn't see what it was, and when the thing moved, he could still feel something. After he got into the grass, he couldn't feel it.

This means that this thing is still around.
