Chapter 2751: Murder

"It's so messy outside, I don't dare to go out and run around, I hope the big boss will send another scout team to guard it outside!"

Under the heart sneer, Ye Xuan's face was laughing and laughing, and said to the bear black son: "Since the mosquitoes left, I just started to retreat from this moment. If I can break through to the meteor within two months. The order, the chance of winning the position of the black mosquito tribe will also increase greatly, which is also the glory of Montenegro!"

The implication of the words, as if to say this time, the top ten demons of the devil, will eventually be his victory, become the new son of the black mosquito tribe.

It is now that I am forgiving to start taking the gesture and asking the bear black son to assign him more devils to scout and protect him.

Xiong Zizi's heart is contemptuous, but Ye Xuan is more like this. The more he is relieved, the more he will immediately answer it, and he will send a demon to scout the team. They must guard this small courtyard and must guarantee Ye Xuan. After the safety, this was with the sky and the mosquitoes that walked out of the small courtyard to the sky above the Montenegro.

After all, Limos is the late-stage strongman of the seventh-order cave. Since it is going to go, it is natural to see her leave the Montenegro star and be truly relieved.

In fact, the two talents just left, Ye Xuan will close the gate of the courtyard, and after returning to the house to directly launch the perfect shock skills, he then set off and followed behind...

Along the way, the two men went to the atmosphere of the Montenegro. At this point, the bear sunspot stopped, and the mosquitoes went straight out of the atmosphere and came to the outer starry sky.

Ye Xuan did not stop for a moment, his body shape was passing over the side of the mosquito, quietly passing, let her keep up.

Then, Ye Xuan led the mosquitoes into the void and went to the back of a ridiculous star. This took out the hole and let the mosquitoes enter the room, and then they took the hole and hurried back!

Originally, it was thought that the bear sunspot would shoot him for the first time. It was Ye Xuan who was so anxious and rushed all the way. After knowing that he had returned to the house arrest, he waited for half a day, but the bear sunspot was still in the future.

This is obviously busy dealing with the black-and-white tribes. As for Ye Xuan, the mosquitoes are gone anyway, and they can be solved at any time. Naturally, let him go to the air.

At this moment, the bear sunspot is absolutely unimaginable. In fact, Ye Xuan's heart is still hesitant, and he has been pondering this time for him. In the end, it is harvesting or killing!

If there is no previous murder of the black mosque, the priest is killed, it is natural to hate it, but now it is obviously not appropriate.

First, his cronies were killed, and even the big bosses of Montenegro were killed. This matter will soon make the big commander of the black mosquito tribe and the high priest completely angry. Once they come over and investigate, the trouble can be big.

The two guys can all be the supreme existence of the original point. Even if it is a combination of several people, it is definitely not their opponent. If it is really stupid, it will not end, the risk is too big. !

In this case, it can only be conquered.

After the decision, Ye Xuan even began to prepare for the ten-level slavery. Fortunately, there were several nine-level slaves that he had used in the emergency. There were also many other nine or less. Yes, only a few days. Then, I finally succeeded in condensing a ten-level slave print with one of the nine-level slave prints.

Just after doing all this, the bear sunspot is coming.

The time has almost not caught up, which also makes Ye Xuan's heart tight, giving birth to vigilance.

It seems that the slaves in the hands still have to make some preparations. After this incident, it is best to condense a few ten or even elevenths on the body, so as not to encounter this situation, if it is because of that The slavish preparations are inadequate and quite restrained, and that is really depressing.

From the very beginning, Xiong Heizi gave birth to Ye Xuan, so that even the place where he was under house arrest, the bear black son picked, is a very remote small courtyard.

Adding to the magical scouts guarded by the moment, they are all his people, and the mosquitoes are no longer there. Therefore, in the view of Xiong Hezi, killing each other today is nothing but a suspense, plus any suspense. It is.

However, this kid has no respect for awe in his presence from the beginning, so the bear sunsick did not intend to leave the killer directly. At least, before killing the other party, let him sneak a taste of his own means, so that he knows how disrespectful he is to a big black-headed leader in a black hole.

"You are waiting outside, and no matter what kind of movements there are, you will not hear it. The leader must torture the kid!"

The figure stood outside the small courtyard, and the bear black son so confessed to the outside of the demon swearing, and then uncomfortably arranged a simple soundproofing method with spiritual strength, which took a step forward. .

That kid is a little bit strange, and if the voice is too loud, it is not good to hear it.

With such an idea, even if the bear sunspot enters the courtyard, he will close the door behind him...

"Big boss, you are finally here, I have waited for two or three days!"

In fact, when the other party used the spiritual strength to lay down this simple soundproof array, Ye Xuan has already been alarmed. For this reason, he is now very casual in his speech, and he can't hear it anyway.

"Do you know that I am coming?"

The bear black son frowned, and Ye Xuan's calm and calm performance made him faintly uneasy, but he tried hard to think about it, but he couldn't think of any problems.

"I just know that you are coming? I even know that you deliberately arranged me in such a remote house, just to make it easier to start when you start."

Shrugging his shoulders, Ye Xuan's smile on his face was more intense: "And, if I didn't guess wrong, the big boss should have greeted the scout guards outside, let them wait for no matter what happened. I have only heard of both ears?"

"But even so, the big-headed leader still took the lead in using a simple sound-proof array method, and from this point of view, the big commander is estimated to be before the killing of me. I've been tortured, right?"

"Bad boy, what kind of tricks do you play? Do you think that such a bluff, I will not kill you?"

Listening to the words spoken in Ye Xuan's mouth, it's all in one. What's even more strange is that while he is talking, he still laughs and laughs. There is no awareness of being killed immediately. Under the suspicion of the bear black son, my heart was even more angry.

What is the arrogance of a scorpion ant who is a ninth-order great perfection in the realm of the realm of the stars? Why is he so arrogant in front of himself?

"No, no, this is not a bluff!"

The smile on Ye Xuan's face was brilliant, and he looked at the bear black son and said: "I really want to thank the big boss, because everything you have done, in fact... is what I want to do but not convenient to do! "

"thank you....."

Chapter 2752: Come over and squeeze

"big head, thank you..."

With a heartfelt thanks to the words, the smile on Ye Xuan's face was immediately received at this moment, and the whole body was filled with a strong mental pressure.

This is the singularity of the spiritual power in the spiritual core of the mind in his mind. Under such a strong spurt, the pressure of a level of power will instantly form a force of spiritual suppression. The body of the bear sunspot is shrouded.

Although his spiritual strength is far less than the other in terms of quantity, the realm is far less than that, but at the level of the source nuclear, Ye Xuan has a four-level source nucleus, while Xiong Heizi, his spiritual source nucleus, It's only changed once.

It is only a secondary source core, and Ye Xuan is far worse.

"Four levels of spiritual strength?"

Even if the bear sunspot made an exclamation, even his face was already swayed, and then he suddenly realized: "No wonder your kid is so proud, no wonder that the existence of the seventh-order black hole is taking the initiative to make a good relationship with you. It turns out that your talent in spiritual power is so amazing. In the entire black mosquito tribe, the spiritual core has reached the fourth level, only the high priest is only one!"

"Bad boy, with your talent in this spiritual power, even the Son of the Heinei tribe is not as good. If you let you enter the magical star of the demon, I am afraid that you will get some kind of this time. The inheritance of spiritual power, in time, once your spiritual source core breaks through to the fifth level, I am afraid that even the Emperor will be alarmed..."

"So enchanting, it is shocking!"

"But it is also true, you will die today."

"The grudges between you and me have been difficult to resolve. The greater your potential, the stronger I will kill you today..."

Having said that, the look on the face of Xiong's son is gradually picking up: "Do you know why I want to tell you all about this? Because I just want to tell you that you have a bright future, and the more you do, When death comes, the more pain you will suffer."

"Hey, what about the fourth-level spiritual strength? Although the grade is high, but the amount is really too little, it is not worth mentioning, Zhang Wuji, you are destined to die in my hands today..."

Speaking of this, Xiong's face once again showed a smile, and lamented: "Hey, killing such a genius genius, this feeling is really wonderful!"

"Although your face makes me look very uncomfortable, I have to admit that, at least, your reminder, let me know how good I am. In this case, I went to the black mosquito tribe in the future. What kind of gestures are shown, I have roughly counted in my heart."

Shrugging his shoulders, Ye Xuan also sighed with a sigh: "The original is really wanting to kill you, but seeing that you at least remind me of my share, this can be regarded as a reason for me not to kill you. Well, so you can save yourself a life, you have gone for a dog... *!"

"call out!"

As the last two words spit out from the mouth, Ye Xuan did not hesitate to directly sacrifice the hole in the shuttle, almost at the same moment, already prepared in the inside of the guess and Nabo Mountain, three mosquitoes The black hole is strong, and the first time is to put the bear blacks in the middle with the character type. At the same time, it also promotes the spiritual strength and wraps it around.

"Neibo Mountain? Limos? This..."

For Nebo Mountain, Xiong Heizi is obviously aware, but as far as he knows, the current Nebo Mountain is clearly not in the first universe, but in the forefront of the third universe battlefield of the human race.

In addition, this black-hole seventh-order powerhouse called Limos is not just sent by him to Montenegro soon. Even if you can quietly touch it back, can you stop the demon who is keeping out of it? Even she did not even know that she had entered this house arrest.

Of course, all this is no longer the most important thing. The most important thing is that in addition to these two people, there is actually a strange magician who is in the same realm with him.

This gorgeous camp, coupled with the shackles, the body shape of the bear sunspot was suddenly trapped, of course, of which, part of the reason is the role of the spirit suppression initiated by Ye Xuan.

It was also at this moment that Ye Xuan raised his hand and spurred the ten-level slave print. He instantly touched the bear's forehead and disappeared.

Everything, since then the dust has settled!

After a short period of time, the confused meaning in the eyes of Xiong Heizi was dissolved, and the Qingming was restored, and he walked honestly to Ye Xuan, respectfully calling the owner.

"Well, people are going back. There are people who will accompany me here. You can't show up!"

After completely putting the heart down, Ye Xuan directly let Neboshan and Ba Gua, Limosa three returned to the space above the small courtyard, but it opened the hidden state of the virtual shuttle, and then waved it into the body. In the immortal world, this turned and sat down on a lounge chair in the yard.

After lying down, Ye Xuan shook his legs slightly, letting the reclining chair gently shake, but he pointed his finger at the arm: "The sunspot, come over, pinch, a bit sour!"

"Yes, master!"

The bear black son came down with a low eyebrow and squatted, squatting aside, carefully squeezing, and did not dare to say a word.

"Don't call it this way. After all, this is your place. When someone is there, you will call me a blessing. I will call you... bear head. As for no one, it is free."

With a grin, Ye Xuan enjoys the massage of the head of the Black Mountain Star, and even closes his eyes slightly: "Talk about the things about the sacred beast and the high priest, and say what you know."

For this time, he is most concerned about it. Similarly, on the side of Montenegro, only this matter can make Ye Xuansheng interested, and others are basically gone.

"Yes, master!"

The bear sunspot responded. Whenever he said everything he knew, Ye Xuan also asked a few questions in a targeted way, but the final result made him disappointed.

Although it has been determined that the need for these sacred beasts and the presence of those small towers in space, it is indeed one of the two original point-ups of the Black Mosquito tribe, the tribe of the high priest.

But why do you need these sorcerers and sorcerers, and what other effects these sorcerers have, even the bears, are completely ignorant.

For this, Ye Xuan is still worried that the other party did not expect it, but did not take the initiative to say it, so Ye Xuan even asked a few words in a targeted manner.

But the end result is still the same, which makes him feel disappointed, but the suspicion of his heart is also more intense, even the big head of the black mountain star of the bear black son does not know, the high priest gray bones, in the end playing What kind of tricks?

I was wondering, the courtyard door of the small courtyard was suddenly pushed away by people...

Chapter 2753: Bold reverse

Previously, before entering the small courtyard, Xiong Sunzi simply arranged a soundproofing method with spiritual strength. Therefore, if someone came outside, he could push the courtyard door with a slight push.

Of course, because there are two teams of 20 devils scouting strong guards outside, so the average person naturally can't get in and will be stopped.

But this does not include the Black Mountain City or even the entire Black Mountain Star, which is the bear big guy in Ye Xuan!

Xiong Da didn't know that he had come over and cleaned up Ye Xuan today. He just knew it when he asked, and he immediately rushed over.

For Ye Xuan, he is also extremely hateful. Before that, he once put him in the underground sacred cave. Later, he robbed him of the qualification of the Montenegro Star Test.

Because of the deep hatred, after hearing that he had already come here, Xiong Da rushed over in the first time. He also wanted to vent his anger and humiliate before Ye Xuan was killed.

I know that when I saw the door, the scene inside was so terrible. The guy named Zhang Wuji was lying on the lounge chair like a girl, and his old man was squinting at him and giving him a side. Pinch the arm...

For a time, Xiong Da only felt a brain bang, the whole person was in a chaotic moment, and his eyes widened and stood there, his mouth was wide open, and he seemed to have just been thundered and stood on the spot.

"Hey, you guys are..."

After a few moments, Xiong Dacai was pale and subconsciously asked, but in fact, his mind already had an answer.

At this moment, Xiong Da thought of the secrets of the past few years in the Black Wind City, saying that he likes the wind of the male style. If this is not the case, the mother of the Xiong Da Shaozhu has died for decades. Why is the head bear black son always without strings?

It is inconvenient to distinguish clearly. Can you not go home with a male demon to give a bear to the bear?

For these rumors, Xiong Da was completely scornful, but the scene that happened now made him believe these rumors, and almost immediately believed in a true.

In addition to this explanation, is there any other reason to say it?

For this guy named Zhang Wuji, his old man is like himself. He should have been the most hateful, but now he is like him. This is not successfully confused by the other men's color, but what can it be?

For a time, there was a raging anger between Xiong Da's chest and the murderous scene of the **** fellow and his old cockroach. I got up and felt that I was about to blow up soon.

All of this fell into the sight of Ye Xuan. However, he obviously wanted to marry him. He thought that Xiong Da was so angry because he had won the qualification of his testimony of Montenegro.

Thinking like this, the look of Ye Xuan's face suddenly eased, and the look of Xiong Da was softened.

I really want to say that this kid is actually very pitiful. He was robbed by himself for no reason. Later, it was estimated that the suffering of mental power was not small, and even it was forced to go to school to rob people.

But in the end, I lost the qualification of the testimony of the Holy Mountain of Montenegro. I just thought that I could report a hatred. I didn't expect to see my relatives in front of the enemy in such a state of mind and action...

Thinking of this, Ye Xuan suddenly sighed and sighed, and said: "Bear, ah, the past things have passed, now I have been with you and you have become a jade, really want to say, you are a younger generation, nothing more, after the past I don't care about you anymore. After that, everyone is a family. What can't you say?"

In fact, there is nothing wrong with this. Even you are a slave to me. Isn't this a family?

But listening to Xiongda's ear is not the case at all. The family he understands is a family of three. Isn't the old man really confused by this kid to such a degree, he wants to come back to himself as big as himself? Mother?

The key person, uh... still a man!

These thoughts flashed through my mind. Xiong Da suddenly witnessed the splitting, and no longer thought about Ye Xuan. After all, the most important thing in this matter was his attitude and decision.

Therefore, after Xiong Da's stunned Ye Xuan's eyes, he immediately looked at his raccoon blacks and gnashed his teeth. "Hey, let's give it a sentence. In the end, I want this male, or want me, you. Dear son..."

In this discourse, Xiong Da almost screamed out, so that even the 20 devils outside the scouts heard it, and all of them were squeezing in the doorway.

These devils scouted at the door, then heard the voice of Xiong Da, and then reminiscent of the words that were secretly transmitted in the city of Montenegro in recent years. So, they almost know the second, and all the faces are instantly Floated the expression of a sudden realization.

It is no wonder that there are 20 devils scouting outside, and the big boss still does not care to arrange a simple soundproof array before entering the small courtyard.

No wonder, even so, he still deliberately reminded him that no matter what sounds come out, he can't go in, just if he didn't hear it...

It's a long time, it's... oh, it's so good!

These thoughts flashed through my mind, and the look of the 20 demon people outside on the face suddenly became strange, but it was really inconvenient to think about this kind of thing, so they all rushed back to the sides of the courtyard door, but The ears, without exception, all supported, and listened to the movements in the courtyard through the open courtyard door.

"Bao!"

"You are against this, don't you just apologize to me?"

The crisp, loud slap of the ear came out, scaring the twenty devils on either side of the courtyard door to scold, and the look on his face was instantly dignified.

Then, inside, there was a voice of the big-headed bear sunspot roaring like a thunder. Actually, Xiong Da was called a reversal, and this made it more certain that they were guessing.

You must know that because Xiongda's mother was mourned early, the big-headed bear sunspot has always been very pampered with Xiongda. It can be said that in the whole Montenegro, as long as it is a bear, it's awkward. The bear sunspot basically has nothing to do.

It is for this reason that this has formed Xiong Da's temperament.

But today, at this moment, in this unexpected small courtyard, the big-headed bear sunspot that has never even screamed at Xiong Da is actually smashing the bears for the guy named Zhang Wuji. A slap in the face and dismiss it as a counter...

It seems that this time the big boss is really meeting true love!

As soon as I heard this, the 20 demon people outside the courtyard had exchanged a look in an instant, and my heart was secretly vigilant. Later in this Montenegro, in addition to the younger bear Xiongda, there was another existence that could not be offended.

Moreover, this Zhang Wuji ranking, clearly has to be before the Xiong Da Shaozhu!

Chapter 2754: Cleaning the sacred cave

Because of the existence of Ye Xuan, Xiong Heizi and Xiong Da and his son almost turned against each other, and Ye Xuan did not understand what was going on at the beginning. Later, when he heard the extremely obvious words that Xiong Da had inadvertently said, he suddenly realized it. I was shocked by a cold sweat.

He had originally planned to move to Xiongda's big-headed mansion to live there afterwards. Fortunately, he did not go, otherwise he could really not jump into the Yellow River.

It is precisely because of this that Xiong Dacai has finally stopped on this matter. Anyway, this guy named Zhang Wuji has ticked away his sorrowful soul, but in the end it is still interesting and did not move to Montenegro. The big boss is going to give himself a stepmother.

As for the bear sunspot to contain such a disgusting thing outside the big boss house, he is a son, but he can't control it.

The storm of this matter quickly subsided, and Ye Xuan still lived in the original small courtyard. There are still two teams of 20 demon people outside, waiting for the day and night.

But its nature is completely different from before. It used to be under house arrest, but now it is real protection.

In fact, after these three days, the big-headed bear sunspot is also okay to run here. Every time he comes, he carries things in his hand. When he sees it, he knows that it is delicious and delicious.

This is just that Ye Xuan casually asked the words of Montenegro that there is something special, and the bear blacks who are loyal slaves took the initiative.

All of this was also normal, and Ye Xuan enjoyed it very well, but in the eyes of others, it is clear that this Zhang Wuji has just been favored, and the big boss is in the performance of the honeymoon period.

In this regard, many of the devils who had supported Ye Xuan all sighed and expressed regret that a young man who had a great future, clearly can rely on strength to fight hard, but finally chose such a road. Selling **** to live, it's really awkward to think of it!

During these three days, Ye Xuan spent most of his time condensing slavery.

This time, accepting the bear black son was originally an unexpected temporary decision, but it was this temporary decision that almost prevented him from preparing a ten-level slave in time.

After learning this lesson, Ye Xuan decided to prepare the slave in his hand again. In just three days, he made another ten-level slave, in addition to the nine and eight and eight. There are also many below the level.

However, this is obviously not enough, but Ye Xuan did not intend to continue to condense here.

He intends to sneak into the underground sacred cave, and then enter the deep zone, and the mosquitoes, the Neboshan, the tyrants, and the ones who belong to the sea and the ones who are under him Let it go, the human hand sends a small space tower, let them go to the head to capture the soul beast.

Then he will do his own thing safely in the underground cave.

On the one hand, it is to condense the slaves. Ye Xuan's plan is to have at least two 11th grades and two 10th grades. The other nine grades and nine grades are sufficient.

The reason why two 11th grades are to be prepared is because the devil's base camp, the Emperor Star, is considered to have the supreme existence of the ninth largest realm of the ninth order.

The people themselves are the great ninth realm of perfection, and they can enter the tenth realm at any time. Therefore, if Ye Xuan uses the ten-level slave to accept the service, it may not be fully insured. Therefore, he has to prepare two eleventh-level Then it is foolproof.

Of course, it does not mean that he has the heart to succumb to this kind of existence. According to his estimation, the existence of this kind of class is basically not the same as that of the Emperor, and the strength of Ye Xuan is still successful. Possibility, but the danger is as great. If it is not forced to do so, life and death, he will not use this method of killing.

But if you have it, it will be nothing after all.

In addition to this incident, he also intends to try to break through the ninth-order grandeur of the current star nuclear environment in the underground sacred cave to see if he can advance to the second big boundary meteor.

Before, Ye Xuan triumphed all the way, and there was indeed a situation in which the foundation of the realm was unstable. But now that it has been in the past for some time, the problem of the unstable foundation of his realm basically does not exist.

This is the best time to break through to the second realm!

Of course, the reason why the reason for leaving Montenegro is that Ye Xuan can't stand the eyes of the magicians in the city who saw him.

During these three days, Ye Xuan had gone out in the gap between the smelting and slaving, and walked around in the city of Montenegro. After the meteor saw him, it was all like a ghost.

Among them, Ye Xuan even saw a lot of magicians who were clamoring to support him in the square of the government center of Montenegro, but this is only a few days later, when these devils see him again. The eyes in the shackles are already... really sighing.

Ye Xuan even has a feeling that if he continues to stay in Montenegro, and go out for two more, he must be driven crazy by the strange eyes outside.

On the fourth day, Ye Xuan couldn't wait any longer. He called Xiong Heizi, and he treated him like this. Then he quietly left the city of Montenegro and went to the northern wilderness where the sacred cave was located. .

Calculating the time, it has only been fifty days since I went to the black mosquito star of the black mosquito tribe. In these fifty days, his mission is still very heavy.

Must be hurry...

After half a day's rush, Ye Xuan finally entered the sacred cave again.

Because the accident of the high priest's confidant was strangled, whether it is the power of the high priest or the power of Montenegro, the most important thing is to pursue the pursuit of the black sect.

The strong priests sent by the high priests were active in the nearby stars outside the Montenegro.

And the tens of thousands of demons scouted under the black bears of the Black Mountain Stars, and just launched a carpet-style search inside the Montenegro, and they have a vow to find out the hidden black-and-white tribes in the dark, otherwise they will never stop. .

Under this circumstance, the second round of arresting work of the Black Mountain Star against the sacred sacred cave was temporarily put on hold. At the moment, there is no visible figure of a strong man in the entire underground sacred cave. A large number of souls and beasts rang loudly.

With the departure of more than 10,000 demon strongmen, nowadays, the shadows of the souls that have been almost extinct in the peripheral areas have gradually seen some, but they are still extremely rare.

Therefore, after Ye Xuan entered the sacred cave, he did not stop at the periphery and rushed toward the deepest part of the underground cave.

After half a day, Ye Xuan finally entered the deep core of the sacred soul cave, and the sound of the singer heard in the ear has been endless.

He did not hesitate at all, and directly sang the soul of the immortal world in his mind. This time, he planned to clean the entire sacred cave...

Chapter 2755: Second realm

With the appearance of the Dongxu, more than a thousand of the Devils who were accepted by Ye Xuan in the cabin all came out one after another.

Three black caves, such as Limosa, Naboshan, and Ba Guai, are the supreme beings, and the one thousand slaves who have fallen under the sea!

All the people were sent a space tower by Ye Xuan, anyway, he grabbed more than a thousand before, all erased the four-level spiritual forbidden seal left above, and now everyone can use it.

Then, Ye Xuan said this way. The one thousand demon slaves were originally compiled. They consisted of ten hundred squadrons and one hundred ten-person squads. Now they don't need to be temporarily grouped. The line was lined up, showing a carpet-like encirclement, spreading towards the surrounding...

As for the mosquitoes and the Nabo Mountain and the Guzan, they are free to act. With their strength, even a person, the speed of arrest is extremely impressive. Ye Xuan seems to have seen another big one soon after. A bumper harvest.

With a large army to catch the soul beast, Ye Xuan naturally does not need to be hands-on again. He has more important things to do, that is, the breakthrough of personal cultivation.

Taking advantage of this opportunity, Ye Xuan is ready to break through to the second-order meteorological first-order!

After swaying, he quickly found a remote corner in the deepest part of this sacred cave. After collecting a small amount of sacred beasts, Ye Xuan was directly at the deepest corner of the corner. Sitting cross-legged.

Because it is a breakthrough in the realm of the realm, so this time, the source of the star nuclear used by Ye Xuan to extract its own source of power, all are the source of the seven-level purple star nuclear, and throwing is a cube.

Of course, he has a better eight-level black and nine-color nine colors.

But now it is only a breakthrough to the second big realm. Ye Xuan has no intention of using the legendary star nuclear source. Otherwise, once he raises his mouth, it will be more difficult to break through later.

After all, it is the early stage, not too extravagant!

As the cube of the seven-level purple star nucleus was thrown out, the prompt sound of the system sounded in the mind: "Hey, find the source of the star nucleus, is it immediately collected?"

Ye Xuan did not hesitate, even when he made a positive reply, he closed his eyes and began to work on the sham.

His consciousness gradually entered the vast void of quaintness...

"Ming!"

This time, the quaint giant tortoise that was so large that it was almost a whole cosmic plane did not appear, but Ye Xuan's ear heard a scream of a screaming turtle, and its imitation was unpredictable. The quiet and empty emptiness of the film reveals the sound of the roar of the void.

With the resounding of this sorghum turtle, in front of Ye Xuan's field of vision, there is an empty and empty area in the center of the vast expanse of stars. A small purple presence is reflected in Ye Xuan's line of sight.

This is clearly a star nucleus, extremely tiny, with a purple color, I do not know why, at this moment fat with this high-pitched turtle sounds, slowly slowly turned up, faster and faster.

It is precisely because of this rotation that the color of its purple color is like a flashing effect, so it caused the attention of Ye Xuan.

In fact, this purple tiny star nucleus has always existed, but before it was too small, it has never caused Ye Xuan's attention.

At the moment, Ye Xuan's line of sight is condensed on the nucleus of the purple star. Just after a few gaze, his heart has raised a touch of enlightenment.

If there is no accident, what this star nuclear represents should be the state of his realm of practicing this hole.

Ye Xuan is now a star nuclear environment, so it is just a tiny star nucleus.

If Ye Xuan enters the eighth-world black hole in the future, then this small purple star nucleus will be turned into a real black hole in all likelihood...

At this moment, with the rapid rotation of this purple star nucleus, the surrounding energy of the purple star nucleus drifts from the vast expanse of the emptiness, and the power of the purple star nucleus is attracted. Did not enter it.

The origin of these purple purple star nucleus should be the source of the seven-level purple star nucleus that Ye Xuan provides to the phagocytic system to capture and break through the realm.

At the moment, as a large number of purple star nucleus sources are constantly being smashed, the volume of the purple-spinning nucleus, which is rapidly rotating, is rapidly rising, and the blink of an eye is thick and thick, and also The snowballs generally increase rapidly!

Under the background of the starry sky, the monk's cultivation is related to the universe's stars. After the first large-scale star environment, it is a meteor.

If there is no accident, Ye Xuan's cultivation is to break through to the meteor. Now, in the shadow of the scene that appears in his knowledge of the sea, this ultra-fast rotation of the purple star will grow to a The extent of a small meteor.

A small star nucleus, to grow and grow to become a small meteor, this process is in the real universe plane, obviously very long.

At the moment, although the rapid rotation of the purple star nucleus and the appearance of the original energy of the purple purple star from the surrounding voids, the process is shortened to the extreme, as thick and thin, but it is from the star to the meteor. A metamorphosis, fast, and not a day's work can be done.

This point, Ye Xuan is very clear, so he is not irritated, not eager to seek success, the break between the two is a big realm, too irritating, its effect, I am afraid it will be counterproductive.

In the following time, Ye Xuan tried his best to calm his mood, and he held the Yuan Shouyi. There was no sadness and no joy. He always watched the occurrence and change of this with an ordinary person's peace of mind.

In his gaze, the purple star nuclear energy that has been floating from the surrounding air has been flowing uninterrupted, and the small star nucleus of the fascinating color is constantly growing.

Time is slowly passing...

one day!

Three days!

Until the fifteenth day, with Ye Xuan's heart screaming, the one has never seen the shape of a tiny star, and it has turned into a purple star of a small meteor. Then stop the high-speed rotation that has been maintained all the time.

The rotation speed drops to the extent of normal stars.

Then, this picture of the illusory inherited in Ye Xuan's knowledge of the sea quickly began to blur, until it finally disappeared completely.

It was also at this moment that Ye Xuan always followed the eyes, and suddenly opened, flashing a touch of purple.

Without him to feel carefully, Ye Xuan has already felt a powerful force that has been stirred up in the body. After a fifteen-day retreat, he has finally jumped into the starry sky. The second big realm.

Meteor... first order!

Chapter 2756: Mysterious blood corner

In just 15 days, the repair was a breakthrough, and Ye Xuan successfully entered the second realm of the background of starry sky cultivation.

All this makes him very excited.

However, Ye Xuan did not immediately end this retreat. He just entered the meteor. What he needs to do now is not to feel the powerful power he has, but to continue to be stable.

After calming down his mind, Ye Xuan quickly closed his eyes again, urging the pure power of the body, following the practice of the second big boundary meteor in the hole, one after another, a big Sunday. Repeatedly...

Three days later, Ye Xuan completely stabilized the realm in the first stage of the meteor, and then began to condense the slave print.

Although there are still a few nine-level slave prints in his hand, and the number of slave prints of the nine grades and below are different, but then, just two of the nine-level slaves are condensed to the eleventh grade. I went to Ye Xuan for a full eight days.

After two 11th grades, Ye Xuan began to condense the slaves of the 10th and 9th grades. This process is six or seven days.

Until the end, when the slaves in his hands reached two levels of eleven and ten, and the number of ninth and eighth grades below ten was more, Ye Xuan finally opened his eyes and ended the retreat this time. .

Calculating the time, this time I entered this underground sacred cave, it is a full thirty-three days, and there are only 17 days left until the day of the black mosquito star!

With the end of the retreat, Ye Xuan also began to capture the soul beasts in the depths of this underground sacred cave.

His spirit suppression is extraordinary. Every time he encounters more than a thousand souls and beasts, he will unconsciously, and it will be seven days.

When the time to go to the black mosquito star was only the last ten days, Ye Xuan finally found that there were basically no sorrowful beasts in the entire underground sacred cave.

There are so many sorcerers and beasts here, and they can't afford to capture such a large number of cockroaches. At present, their numbers are almost exhausted. Even if they can gradually recover in the future, I am afraid that they will not be realized in a short time.

When Ye Xuan even sent a signal to him to all the devils, soon, a team of ten demon slaves returned.

After half a day, all the magic slaves, including the mosquitoes and the Nebo Mountain and Ba Gu, all returned, and all the small towers in their hands were handed over to Ye Xuan.

The final number was summed up, and even Ye Xuan was shocked.

This time, there were actually more than 20 million people in the early days, and with the previous gains, the total number of souls and beasts now in his hands reached more than 60 million.

Although only one thousand demons have been arrested this time, all of them are in the deep core of this underground sacred cave, plus all the magic slaves are ten people and a small team. The cofferdam, together with the mosquitoes, the Nebo Mountain, and the Gu guess, are the assistants of the three black holes.

Therefore, in just forty days, the harvest of a thousand devils has only reached half of the previous more than 10,000 devils.

Efficiency is almost one day!

With such a huge surprise, Ye Xuan even took all the space towers into the body, and then let the return of the sea led the entire group of thousands of people to return to the hole that he waved.

Just as he turned to the mosquitoes and Naibo Mountain, and Gu guessed the three, he wanted to signal that the three of them also entered the hole, but after completing all of this, they would take the hole in the body and go home. Time.

The mosquitoes suddenly stepped forward two steps at this moment. He reported: "Master, we found out in the deepest part of this underground sacred cave, but did not dare to act."

"what's the situation?"

Ye Xuan's heart jumped, even when asked.

"After more than a month in this area, we found a rule..."

The mosquito nodded and quickly said: "We found that the whole soul of the sorcerer's soul wandering around seems to be very casual, but there is an area where they will not go, even if we Driven by spiritual strength, they will not be close to that direction. They would rather be caught by us on the spot, and they will never flee and move in that direction..."

"The three of us followed the direction and quickly found a secret passage. It should be the deepest place leading to this underground sacred cave. There is only one direction, and it has been going on for a long time. See the points!"

Speaking of this, the mosquitoes whispered, and then they answered: "However, after a while, we found a strange spiritual pressure in front of us, at least it must be a four-level spiritual ban. Breathing, and it is still a very large four-level mental ban, otherwise it is impossible to disperse such a strong spiritual pressure, so we did not dare to move, hesitated and retired!"

"The large four-level spiritual power is banned?"

Ye Xuan brows a head, suddenly a little bit eager to move.

A meaning that appears in the deepest part of this underground sacred cave, represented by a large banned by four levels of spiritual power, even a fool can immediately realize.

Do not say anything else, there is definitely something good in the ban!

And it is very likely that it is related to these large number of soul beasts outside the ban!

Since there is a treasure, Ye Xuan will not let this opportunity pass. Now, with the mosquitoes, Naboshan and Ba Gu three people, rushed to the deepest part of this underground sacred cave.

Soon, a small corner in front of a remote corner appeared in the corner, hidden in the corner, if you don't pay attention, you can't find it.

After entering the mouth of the mouth, there was a narrow path under the foot. After all the way, the main servant and the four men walked for more than ten kilometers. Ye Xuan actually captured the breath of a four-level spiritual power. This breath began to grow stronger as their masters and servants continued to move forward.

After another tens of kilometers, in front of the narrow footsteps, there was an irregular circular area of ten meters square. At the end of this area is the natural cave wall. Obviously, it has reached the entire underground. At the end of the soul cave, there is no way forward.

In the center of the end of the 100-square-meter, there is a clear bluestone altar with a simple atmosphere.

The altar is hexagonal and has a diameter of only about three feet. On the flat altar platform, there is a large **** giant horn, which is exactly the same as the long and small horns on the top of all the sacred beasts.

However, this **** giant horn is obviously not illusory, but physical.

Ye Xuan immediately flashed a thought in his mind. This corner will not be left behind after a certain soul beast has been refining the illusory body.

If so, how terrible is the body of this sorcerer?

You must know that the ordinary sorcerer beast, the small black left by his refining, only the size of the thumb, this one... but there is enough to make it, and it is still bloody!

Chapter 2757: Exploring the forbidden node

Looking at the **** horn of the foot of Zhang Zhizhang, Ye Xuan's mind could not help but reveal a huge scorpion beast.

According to the proportion of the black horns that the common sacred beast and the beast are refining, the body of the **** horn in the altar of the eye is simply a huge person.

Although it is not as big as the golden giant of the starry sky turtle or the Terran technology camp, the ancestor of the imperial dynasty royal family, the glory of a galaxy collapses, but its body type must have at least a huge star. It's huge.

Like a star-like giant sorcerer, how powerful is it? Even so, this huge sorcerer is still refining the body, leaving only one Zhang Xuxu left here.

Then, how strong is the existence of refining its body?

"No matter what, all of this is obviously not answered. Perhaps this horrible giant soul beast has been killed as many years ago, and there is no need to entangle these unnecessary problems."

After some fascination, Ye Xuan even shook his head and stunned his thoughts in his mind. Then his eyes returned to the **** unicorn above the altar.

Although he does not know what role the unicorn left behind after refining the body of the sacred beast, there is always an instinct in Ye Xuan's mind, that is, this thing must be of great use to himself in the future.

Therefore, in front of this huge **** horn, he is not likely to give up anyway, he must get it.

However, the entire altar was shrouded in a layer of invisible spiritual power, and the exhaled breath was clearly banned by the four levels of spiritual power. Nowhere is the tricky part of the altar, which is not easily broken.

In order to break the prohibition of the spiritual power that hangs over the entire altar, the power exerted must be the spiritual power of four or more levels. Otherwise, even if it is increased, it is useless.

Just as you take a wooden chisel to chisel iron, even if the iron is only a small piece of the big table, but the chisel is big, but the result is no suspense.

But it is not that there is a four-level spiritual strength, and this method can be broken. With Ye Xuan's current strength, even if he has all the four levels of spiritual power in the core of the spiritual source in his mind, he can't Construct a huge four-level spiritual power ban.

Before the high priest stayed in a small space tower, the four-level mental restraint was just a little bit, so even his cultivation can be erased, as long as the spiritual strength reaches the fourth level.

The reason for this is that the high priest knows that in the Black Mountain Star, it is obvious that there is no magic person who has the fourth level of spiritual power.

But now it is not working.

Even if Ye Xuan's spiritual strength reached the fourth level, like the same iron chisel, his iron chisel was too small, only a little bit, and the four-level spiritual power that enveloped the entire altar was banned, but it was like a gate. Board, a nail-sized iron chisel, the difficulty of imagining to open a large iron door.

Like this prohibition, whether it is the prohibition of spiritual power, or the prohibition of the ignorance of human monks, the methods of breaking are basically the same.

Under the premise that the level of power is sufficient, the stupid method is to grind bit by bit, but it is time-consuming and laborious. Another way is to find the node of the prohibition, that is, the array of eyes, where the most vulnerable is the most powerful. Puncture, it is very possible to break the entire ban, the node collapses, the entire ban can no longer function properly, is tantamount to self-solving.

However, this kind of ban, that is, the node, is basically a very weak point. Only the strong who knows the prohibition can find it after a short analysis.

Although Ye Xuan has been involved in both the law and the ban, it is all before the background of the starry sky. All the experience and knowledge have not been applied after entering the background of the starry sky.

However, although he can't do it, there are three black hole powerhouses around him. Maybe they have some understanding of the star-level ban.

One thought of this, Ye Zhuan even looked at the mosquitoes, Naboshan and Ba Gu three people, and asked: "You can study the mental restraint? Can you help me find this spirit of four? The prohibition node for power prohibition?"

The three men looked at each other and then, the mosquitoes smiled bitterly: "With the three of us in the mental power ban, such a mental force of only three feet is prohibited, to find out its prohibition node, originally not Hard things, but..."

"But the problem is that our spiritual strength is not enough..."

Having said that, Li Momo shook his head and smiled: "It is the spiritual power of the fourth level to construct this spiritual power. We are all spiritual powers of the second level. If we want to extend the spiritual strength, we will explore along the lines of prohibition. That is simply impossible. When the secondary spirit comes into contact, it will be annihilated immediately!"

"That is to say, there is no four-level spiritual strength, and there is no chance to explore along the lines of prohibition?"

Upon hearing this, Ye Xuan was disappointed. He originally planned to let the mosquitoes and Naboshan and the tyrants tried the fruitless. After that, they would not leave the Montenegro and let the black mosquito space fortress out. In the meantime, bring Du Wenxuan Du old man to try it.

After all, Du's research on formation and prohibition is very profound.

But now it seems that this is obviously even more impossible. At least Limosa and Naboshan, Ba Gu and four people have second-level spiritual strength, while Du Laotou is a human monk who is just a good man. He even the devil's No mental strength, how to analyze its forbidden lines?

It's no wonder that the other party has set a four-level mental power ban. It doesn't matter here. It seems like a reassuring look. Think about it too. A magical planet like Montenegro, where to find a magician who has four levels of spiritual power. What?

Among the whole black mosquitoes, only the spiritual power of the high priest, Greyhedler, reached the fourth level!

If it is here, if you are here, the first level of his ninth state is the realm of the original level. I am afraid that only by means of brute force, it is possible to break this level of spiritual power. Now he is replaced by Ye Xuan. Although he also has four levels of spiritual strength, he can only use the power of finding his forbidden node to break through.

Since the mosquitoes and the Nebo Mountain and the Gu guess are not good, then Ye Xuan can only do it himself.

After a slight sigh, he even extended his spiritual strength out of an invisible tiny tentacles and headed for the altar in front.

Soon, with the sudden increase of his spiritual strength, Ye Xuan touched an invisible spiritual ban on the altar. The entire forbidden surface etched a myriad of loops and symbols with four levels of spiritual strength. Grain...

Chapter 2758:

The diameter of the whole altar is about three feet, that is, nine meters, and this invisible four-level spiritual ban is an invisible, which is a large bowl that covers the entire altar. The bowl has a diameter of nine meters. The size of the surrounding area is imaginable.

And the mental power circuit above the four-level mental ban, as well as the various patterns, are as small as hair, dense...

Just imagine this scene in your mind, you can have a general understanding of the complexity of the entire four-level spiritual ban circuit and the pattern.

The spiritual power of Ye Xuan's extension is also invisible and inferior. It is as small as a hairline. It just wanders around the entire forbidden surface of the entire altar. I don't know how long it will take.

Not to mention the time it will take to analyze and refine it later.

Therefore, he only walked around the circuit of the forbidden surface and the pattern, and immediately took back the invisible spiritual power that had been extended, and fell into the distressed sinking!

According to his estimation, if the node of the large-scale four-level mental power ban is to be studied, the time required is at least calculated in years. It is no wonder that the other party is so confident, don't look at this small altar to stand here, but If you want to get a huge blood horn inside, it is difficult.

Even with a level 4 mental power, it will take at least a few years to analyze the forbidden node.

Of course, the gray spirit of the original level of the four spirits should be excluded...

But such a big one in his intuition, there must be a big use of the soul in the future, the blood corner is in front of him, if you can not get it, Ye Xuan is really unwilling.

You know, this kind of thing is not a mineral, you can get it, such a big **** corner, not to mention the world is unique, but if you want to find another one, it is estimated that it is not possible. .

"Since the tricky way is not enough, is it feasible to break the ban on brute force?"

In his mind, he quickly calculated that Ye Xuan quickly thought of the attacking skills of the other two spiritual forces he had obtained with perfect shock and absolute shock.

They are the annihilation spear and the ruin of destruction!

The latter he has already applied, and in a moment he took away the spiritual power of the ninety-nine of the spiritual source of the sea, and turned it into a spiritual whirlpool. At that time, he even guessed that the black hole was a ninth-order grand perfection. The people have been delayed for a few moments.

The annihilation spear is different.

The massive spiritual power extracted by the spear of the annihilation is not turned into a spiritual vortex, but turned into a very small point, just like a spear, and slammed out.

In this case, a lot of spiritual power is drawn, but the attack is the tiniest one. If it is the four-level spiritual ban on the altar, it may make it unable to support it instantly, and immediately disintegrate it. .

However, this method does not work in the end, but Ye Xuan does not have any grasp at all, because in his view, whether it is the annihilation spear or the perfect shock, it is only a kind of mental power running skills, even the secrets are not On, shouldn't there be such a powerful effect?

If this kind of thought is to let other devils hear it, I don't know how many people will die on the spot.

You must know that even the saints or high priests of the top ten tribes of the devil, their spiritual skills are generally only one or two, including other high-level devils, such as the top ten tribes, and the demon The devil's royal family members on the stars, and so on, are all the same.

Moreover, their spiritual strength skills are basically derived from the Forbidden City.

The opportunity to enter the Forbidden City is only once in a hundred years, and not every time can be passed down, often four or five times in succession to be lucky to get a spiritual strength of the inheritance.

Yes, in the Devil's group, there are high-level elites who possess mental strength skills or secret techniques and supernatural powers, and even the royal priests who have the most skills, secrets, and magical powers are said to have mastered various skills. The total number is just a dozen.

The general ordinary devil strong, in the use of their own spiritual strength, are basically simple spiritual wind blade, spiritual shock, spiritual envelopes and the like.

Ye Xuan's annihilation spear is obtained when his spiritual source core breaks through to the third level, and it is not a mysterious technique, but a spiritual skill, but for the average ordinary devil, it is definitely The spirit of dreams.

Even some saints and tribal high priests may not have it.

Ye Xuan does not understand these things, so the lack of confidence.

But no more confidence, this seems to have been his last chance. Otherwise, he will only be able to find a solution after the end of the Emperor.

Who knows if there will be other changes at that time?

One thought of this, Ye Xuan suddenly bite his teeth, he decided, try to use the annihilation spear, if it is fruitless, then it can only be temporarily abandoned!

After the decision, he even thought about the way in which the techniques of the annihilation spears were carried out in his mind, and then began to change the spiritual power of the sea in this way.

Unknowingly, the spiritual source nucleus that hangs in the mind of the sea is also rapidly rotating with the movement of these spiritual forces, and more and more...

In the end, a tiny spiritual cluster formed by the intense compression of a large number of spiritual sources, shot from his sea of knowledge, like a heavy hair with infinite density, shrouded the altar to the front. The invisible and inferior spirit of the four levels is rushing!

"Hey..."

As the sound of the mirror is broken, the four-level spiritual ban on the altar is broken, just like a steel pin is pierced with a thin layer of glass, and there is no suspense in the day. It is.

With this collapse, a large number of pure four-level industry forces began to spread, some of which wrapped Ye Xuan's body, so that his entire body is like bathing in the spring breeze.

From the blessing to the soul, Ye Xuan even jumped onto the altar of the altar, waved the **** horn of the sorrowful soul into the immortal world, and then sat down on the altar.

After the ban, the emergence of a large number of pure four-level spiritual origins, other mosquitoes and Naboshan, Ba guess three absorbed is useless, can not digest, but for Ye Xuan, this is Big complement.

Soon, as he closed his eyes and entered the state of cultivation, he quickly ran the mind-sourced nucleus in the brain, and the mass of pure four-level spiritual power that was spreading around the altar seemed to be invisible. Quickly dispersed into the sea of Ye Xuan's knowledge.

The whole process lasted for about half an hour. In the end, nearly 60% of the spiritual powers were all confiscated by Ye Xuan. He knew that the spiritual source of the sea was visible in the naked eye, and there was a big yellow bean. Big...

Chapter 2759: Forbidden land

The Magic Emperor Star is the common holy land and the only holy place in the minds of countless devils and powerful people.

It is not only because the royal family of the Devils lived here, but more importantly, it is said that it is the forbidden land of the land of the origin of the devil, and it is located on the magic star.

The so-called sacred forbidden land is actually an independent parallel plane. It is not in the first universe where the demonic group is located. However, in the depths of the central forbidden land of the magic king, there is a micro-cosm like channel. Holes can lead to there.

Moreover, this micro-cosmia wormhole is very stable. Every demon person can enter once in a hundred years, and must return within one year.

Even if you don't return, you will be squeezed out by some kind of rules in this space!

However, this microcosm wormhole was held in the hands of the demon royal family, so that the ordinary devil strong is simply not eligible to enter.

At this moment, in the depths of Ye Xuan in the distant darkness of the Black Mountain Star, the spirit of the four-level spirit is banned with the annihilation of the spear, and then the huge soul of the length of the singer The blood corner is the same moment in the immortal world.

The entrance to the wormhole in the forbidden place of the sacred magical ground suddenly shook abruptly without warning. From the depths of the sacred forbidden land at the other end of the wormhole passage, there seems to be a screaming scream of screaming to the extreme!

Two men and women who are sitting cross-legged at the entrance of this micro-cosmia wormhole have the ninth-largest realm of the seventh-order post-cultivation, and also opened their eyes at the same time. Huh, stunned with a sense of uncertainty.

"Awkwardly stunned, even the whole holy magic is forbidden for a moment? What the **** is it?"

"The calculation time, the big prince entered the forbidden land for half a year, isn't he having any accidents in it? The matter must be reported to the devil!"

During the speech, one of the two immediately swayed, and the figure disappeared instantly!

.....

Montenegro! The depths of the underground sacred caves!

Ye Xuan still closed his eyes and sat there, and after he had taken away the **** corner of the soul, he was already empty on the altar of the altar.

Right now, there are only seven days left until the time to go to the black mosquito star. That is to say, after he has collected the **** corner of the scorpion, he has meditated on the altar of this altar. Three days.

And he had concealed the pure four spirits that had been dispersed because of the four-level spiritual ban on the altar, but it only took an hour to come.

In the follow-up time, he was used by the sorcerer who took his head.

At the moment, just in front of him, there is a small space tower with a million soul beasts. In the past three days, whenever Ye Xuan wrapped up with spiritual strength, he quickly sucked the spiritual source. Force, so that the body of the soul disappeared, the soul of the beast disappeared, and immediately there will be a second head from this small tower of space to continue to capture.

At the beginning, because Ye Xuan was sparse, it came from one end to the other, and later it was several heads, dozens of heads, dozens of heads, until the last one hundred!

Right now, this kind of action of ingesting one hundred scorpion soul beasts at the same time and taking the spiritual origins of their forms has been going on for two days. The ground around the altar has been densely covered with a thick layer. The black small horn of the size of the thumb, each small horn, represents a scorpion beast that was taken by Ye Xuan.

At first glance, the total number of black horns around the altar, at least tens of thousands of giants, but Ye Xuan is still continuing, his eyes are always closed, only a small space tower is suspended in front of

him. At the same time, there is also a four-level spiritual power extended from his knowledge of the sea, wrapped in a hundred soulless beasts that have long been invisible...

During these three days, Limosa, Naboshan and Ba Gu have not left.

In fact, the three of them have been doing the same thing as Ye Xuan for the past three days.

Ye Xuan gave them three small space towers each, including the one that returned to the sea. Within each small space tower, there are 100,000 headed beasts.

Anyway, there are more than 60 million heads and sorcerers in his hands. These hundreds of thousands of heads are really irrelevant.

The reason for this is that Ye Xuan has passed on this method of refining the soul and beast directly through the spiritual power. However, without the assistance of the phagocytic system, after learning the methods taught by Ye Xuan, Although it can successfully directly capture the power of the spiritual body in the body of the soul, but the efficiency is much worse.

In the past three days, Ye Xuan has already taken tens of thousands of heads, and the three of them are only on the ground, but only a few dozen small black horns.

After all, Ye Xuan is a hundred heads, and they can only have one head at a time, and the speed of picking is not as fast as Ye Xuan.

The reason why the latter did this is because he wants to see if he can make his spiritual source nuclear change again before going to the black mosquito star. Once he succeeds, his spiritual source core will enter the fifth. level.

It should be known that even the high priest of the black mosquito tribe, Gray's genus, is only the fourth level of the spiritual core, which is the highest level in the entire black mosquito tribe.

Although Ye Xuan is also the fourth level, after all, his four-level source nucleus has too little power to store the four-level spirit. The source nucleus is only the size of the soybean.

In the face of the fourth-level source nucleus, but the high-level priest, who has reached the level of the original point, is not able to determine his own spiritual strength, will he be used by the other side to use some kind of mystery The situation of the investigation.

The general devil naturally does not have this ability, but the other party is a high priest of the devil tribe. In a hundred years, he can enter a forbidden land, and master this kind of spiritual power to develop a similar human strong to the devil. The act of the soul is not necessarily impossible.

If this is the case, then many of Ye Xuan's secrets will be exposed to the other's exploration.

Moreover, as long as he appears, and the gray bones really have this kind of mystery, then the other party will definitely show Ye Xuan.

After all, he has just entered the second largest realm of meteor, and he already has a four-level source nucleus. It is difficult to make this enchanting talent unattractive.

Coupled with the change of Montenegro, even if it is a fool, it will be more heart-felt.

For this reason, after harvesting the **** corner of the soul, Ye Xuan decided to take out a large number of soul beasts and try to see if they could change again.

As long as he succeeds, his spiritual core can reach the fifth level, surpassing the gray bones. Then, even if the other party has this kind of spiritual exploration secret, it is invalid for Ye Xuan to display!

As for the magic king, even the devil is only a seven-level source core. Ye Xuan believes that the existence of the fifth and sixth levels, even in the magic king, should not be much, just a small black mosquito Sub-testing, those who exist, may not all pay attention to...

Chapter 2760: Very sad

Time passed slowly, unconsciously, and two days passed!

There are only five days left to travel to the Black Mosquito Star.

As time approaches, Limosa and Naibo Mountain and Ba Gu have stopped to collect the sorrowful beasts and waited for some worry.

On the ground around the altar where Ye Xuan was kneeling, a thick layer of black small horns piled up, and it was close to 100,000 at a glance, but he still did not stop, and he still suspended in front of him. One hundred heads were wrapped in spiritual strength, and there was no physical form, and the soul beast that would be finished after seeing it.

If you continue this way, the last five days will be just passing by. At that time, I am afraid that I will have to go to the black mosquito star.

After all, it takes a day to return to Montenegro from the depths of this sacred cave.

In the face-to-face comparison, the black mosquitoes and the Naboshan and the Gu guessed three even made a decision, at most four days. If after four days, Ye Xuan would not end this retreat, they could only try to be careful. Remind!

At this moment, Ye Xuan's entire mind has been thoroughly immersed in the sea of knowledge.

In the past five days, as the body of a head-beasted beast was refining by the engulfing system, a large amount of spiritual power was injected into his knowledge of the sea, while continuing to warm up the sea, it was as if Flowing into the spiritual source of Ye Xuan's knowledge of the sea, his consciousness has almost always remained in a state of drunkenness.

To describe it in a very vulgar way is: cool bubbling!

I have said before that the spiritual origin of the sacred beast is different from that of the devil's brain.

In general, Ye Xuan throws the brain of the devil that is decomposed by the phagocytic system and extracts the spirit of the spirit. It is basically massive, and these massive spiritual sources are all

decomposed and extracted. Once Ye Xuan issues instructions to extract, the phagocytic system It is often a moment that all of the bones are poured into his knowledge of the sea.

Just as the flood control embankment collapsed, the huge impact of that moment was simply unspeakable.

Perhaps, the phagocytic system is simply deliberate, because this drastic approach is obviously the most obvious and effective for the expansion of the sea and the forging of its strength.

Different from that kind of pain, the power of the spiritual source taken from the sacred beasts, the phagocytic system does not intercept, and then saves to a certain amount, and then handed over to Ye Xuan, rushing into the sea of knowledge, but In real time, at that time, I took it into the sea.

Therefore, even if it is taken at a time, it will not be large, but it will last forever, not only mild enough, but also gentle and lingering...

In comparison, the way to extract the spiritual origin from the brain of the devil is like drinking a laryngeal spirit, but it is a little bit damaging to the throat.

The way to use the sacred beast to extract the spiritual origin is like drinking a bowl of lukewarm millet, which is soft and comfortable, and makes people fascinated...

For five days, Ye Xuan was immersed in this feeling, and the whole person was so refreshed by the comfort of the sea.

In the past few times, the darkness of the source of the spirit of the devil's brain was greatly repaired, and it was all over.

In a word, his knowledge of the sea, now all kinds of tiny hidden dangers are gone, health can not be healthy.

And with the whole five days, nearly 100,000 heads of sorrowful beasts, the core of the spiritual source hanging from his knowledge of the sea, its size, also increased from the size of the previous soybeans to

the size of the current little finger cover, although still unremarkable, but it is about twice as big as before.

Even so, the quantitative change has become so obvious, but the qualitative change that Ye Xuan expects has never appeared!

It was half a day passed, and when Ye Xuan's number of soul-stricken beasts reached the 110,000 mark this time, he was finally completely disappointed.

The 110,000 heads of the souls and beasts were all squandered for the most pure spirit of the source of the spirit, and the core of the spiritual source suspended in the sea has changed from the size of the original soybean to the present. The size of the two is about the same size, but he has been expecting the fourth source nuclear transformation, but it has never come.

It seems that there is really an excitement.

After all, not long ago, his spiritual source nucleus had just undergone the third metamorphosis and jumped into a four-level source nucleus.

That's right, compared with the average ordinary magic man, the probability of his source nuclear change is too much, but it doesn't change when he wants to change.

If that is the case, is this still a spiritual source?

One thought of this, Ye Xuan suddenly shook his head and smiled, himself, indeed a little konjac!

However, these five days of tossing are not too busy, at least, after absorbing the spiritual origin of the 110,000 headed beasts, Ye Xuan's spiritual core in the sea has doubled, which represents His total level of mental power is four times that of the previous one.

Although the doubling of this spiritual power is not reflected in his breakthrough in the cultivation of the realm, after all, he is majoring in the practice of emptiness, and the realm must be broken. Only the breakthrough of the sham and the sham.

However, there is no breakthrough in the realm. It does not mean that the combat power has not improved. The total amount of the fourth-level spiritual power has doubled. Even if Ye Xuan is the same as the meteorological level five days ago, his current combat power is definitely far superior. Five days ago.

This is also good, but it is a cheating artifact of playing pigs and eating tigers. The real power is rising, but the realm has not changed at all. It has not changed, not concealed. This situation, whether it is in the human race or in the demonic group, it is estimated that there is no one but him!

Just as Ye Xuan's heart sighed and was about to quit, he knew the nucleus of the small purple fingernail that was hung in the sea, but at this time, suddenly there was a change.

"boom!"

A blast like a thunderstorm suddenly spread out, and Ye Xuan's entire sea of knowledge was shaken. His ideology was too late to be prevented, and even it was almost unsettled by this loud noise.

I finally recovered, and when Ye Xuan once again looked at the spiritual source of the sea, the scene of the eye suddenly made him completely dumbfounded, and the whole person fell into the ice!

Gone!

This is simply a joy!

The little fingernail-sized nucleus of the purple-haired spirit was completely gone, as if it had completely collapsed under the bombing, but his knowledge of the sea was an extra gas. The mysterious thing between the solid and the solid, revealing the mysterious atmosphere!

Under the extreme shock of the heart, Ye Xuan opened his eyes for the first time because he was worried that the scene he had seen in the sea was an illusion.

At this moment, after clearing his eyes and setting the gods, he only closed his eyes and entered the state of delusion in the eyes of Limosa and Naboshan and Gu guessed the three people.
