

## Super D. S 276

### Chapter 276: Swallowing beast

"What the \*\*\*\* is this thing, even directly drilled into the throat, but fortunately there are eight wild shields, otherwise my internal organs will be eaten by it."

Thinking of this, Ye Xuan also subconsciously swallowed the swallow, hurriedly raised his hand to shoot the dragon arrow, burned all the surroundings, and let the ghost thing appear.

However, just as he raised his hand and shot the third arrow, the green light appeared.

"It's finally out, I am shutting up and seeing how you come in!"

Ye Xuan thought in his heart, once again exerted eight wild winds to kill, while raising the long bow in his hand, shot in the sky.

Arrow rain!

Countless stars fell and penetrated the surrounding trees. The green light was also frightened and hurried to the distance.

Ye Xuan captured its figure and shimmered.

Zhongpin-level martial arts, broken soul arrows!

"call out!"

The arrow went empty, but did not hit the ghost.

"The speed is already faster than me."

Ye Xuan was shocked again. His speed was already fast. Even if he was a warrior of Xiaodan, he would not be able to catch up with him. And this ghost thing is even faster than Ye Xuan, it should be the peak of the earth.

"This ghost thing seems to be a small snake, but the speed is much faster than me, still not chasing."

Although it is very precious to say that the mysterious beast of Dacheng is very precious, it is easy to let a warrior who first entered the land of Dandi break through to Xiaodan, but this little snake is not afraid of killing the wind. Ye Xuan also did not have the confidence to kill him.

If you accidentally get it into your stomach, it will be troublesome. It doesn't matter if the heart is eaten. If the kidney is eaten, how can you play it?

Therefore, Ye Xuan decided to squat once.

After the body of the Yuanzong elders was collected, Ye Xuan left directly and left in the opposite direction.

Later, he found a place to pour the things of the great elders in the ring to the devouring space.

"It's not bad. It's a good thing for a small Danwu martial artist."

Ye Xuan smiled and couldn't keep his mouth shut. If it wasn't Neydan, there would be a trillion of phagocytic points, which is a bit of engulfing.

He carefully calculated that there were thirty-three inner Dans in the Dan, three in the Dan Dan, and two in the Dan Dan.

Add up, phagocytizing crystals at about five o'clock.

Next, he started killing again, but now he can't hang on, if he is not careful, the kidneys may be eaten.

The green area of the night is not dull, many plants will emit a faint green light, and the endless green color can hide the mysterious beasts with green skin.

But with the blood effect, Ye Xuan can easily find these mysterious beasts.

at this time.

"Hey!"

A subtle voice fell into Ye Xuan's ear. This is not the sound of the wind, but something that moves on the ground.

"It's the ghost thing!"

Ye Xuan suddenly sensed it, it was the little snake.

However, this time the situation is a bit special, this little snake has just got into the mouth of a person.

"who is it?"

Ye Xuan's heart trembled, and now in the green land, except for him, there are only three people left.

I don't know who is dead, who is it?

Ye Xuan stood hundreds of meters away, took out the bow of the Chinese goods, and waited.

The figure hundreds of meters away was mad, and finally soft on the floor, no life.

"Since it is dead, then I will offend!"

Ye Xuan's flash of light flashed quickly and shot a few broken soul arrows.

call out!

The broken soul arrow went empty and hit the body.

"Is it in the middle?"

Ye Xuan brows a wrinkle, and made up a few arrows in the past, just in case.

A total of seven arrows, all shot on the belly of the body, afterwards, Ye Xuan did not sense something coming out of the body's mouth.

Then he just rushed over.

This corpse, not someone else, is the chief refiner of the Lingxiao government, Hu Changlao.

However, the body of Elder Hu was already riddled with holes, and the soul was broken through the hole seven times.

"I have never sinned, I don't mean to whip the body."

After sorrowing for two seconds in Ye Xuan's heart, he quietly walked over. At this moment, suddenly there was a group of green, green and green elders, and went straight to Ye Xuan.

"Not dead yet?"

Ye Xuan's face was dignified, and the eight-year-old sword suddenly broke down.

Eight wild shield!

"Hey!"

Eight wild shields were formed in an instant, and it was a coincidence that the head of the snake was caught.

Ye Xuan does not care about the three seven twenty-one, directly raising his hand is a broken soul arrow.

call out!

Han Mang flashed, and the small head from the middle of the Eight Shields was shot in.

"Hey!"

Eight wild shields unfolded, and the body of the snake fell to the ground. At this time, Ye Xuan saw the appearance of this little snake.

This little snake is no different from an ordinary snake, except that it is green and has a circle symbol on its head.

"So ordinary snakes have such a fast speed, what is it?"

Ye Xuan squatted down and put his hand on the dead snake. He silently said: "Devouring!"

But the next moment, he heard a system sound that was different and never heard.

"Hey, the host devours the body of a swallowing beast and rewards a little advanced point."

"What?"

Ye Xuan is a bit strange, sinking his mind into the phagocytic system. At this time, in addition to those phagocytic crystallization and phagocytic points, the phagocytic system has an advanced point.

He is wondering when this advanced point is used, and it is a reminder

"Hey, turn on the advanced blood system!"

Ye Xuan, a flash of light, advanced blood system?

He quickly checked the high blood of those fusions and found that there were many more branches.

The blood of the beast is advanced.

Advanced Route 1: Power, the current advance is zero, each step improves the strength of both hands.

Advanced route 2: Agile, the current advance is zero, each step increases the speed of 10%.

Thunder leopard blood, advanced.

Advanced route one: agile, the current advance is zero, each step increases the speed of 10%.

Advanced route 2: Jumping force, the current advance is zero, and each step is increased by 10%.

Wanhua blood, can be advanced.

Advanced Route 1: Recovery speed, the current level is zero, and each level increases by 10%.

Advanced Route 2: Detoxification ability, the current advance is zero, each step improves the detoxification ability.

The blood of the Sword Emperor can be advanced.

Advanced Route 1: The power of swordsmanship, the current level of advance is zero, each step improves the power of swordsmanship.

Advanced route 2, sentimental power, the current advance is zero, each step to improve the perception of sword skills.

Ye Xuan had more than a dozen blood veins before, and each blood can be improved. He looked at it and found that this advanced point is really a bug.
