

Super D. S 2761

Chapter 2761: Breaking back

With Ye Xuan's conscious consciousness once again entering the sea of knowledge, the scene that appeared in front of his eyes was the same as that seen before the conviction of the former self-consciousness...

Everything in the sea is still as usual. Only the nucleus of the purple-haired spirit that was originally suspended in the sea of the fingertips is really gone.

There are some purple things that are between the gas and the solid, but not the same as the liquid. They are similar to the jelly, and the different shapes are frozen. They float in the sea of Ye Xuan and seem to be twitching. The ground is swaying.

Seeing this scene, Ye Xuan's heart suddenly sinks.

You must know that the meaning of the magic core to the devil is equivalent to the **** of the strong human being. If the gods are gone, can you still live?

Of course, the reason why Ye Xuan collapsed after the magic core at this moment, but people do not have a fart, it is because he is not the devil.

But this does not mean that he is fine, there is no magic core, how is he mixed in the world of the devil? Just like a sudden emergence of a star in the dark, it is extremely intriguing, as soon as it appears, there will be countless devils in the moment!

The cold sweat on the back of Ye Xuan immediately came out.

A big deal!

Without the magic core, he is in this magical star field, it is simply the end of the dead!

With this kind of horror, Ye Xuan tried to provoke the spiritual power in the sea. As a result, a mental wind blade was sent out between the minds, and a small hole was cut out from the opposite crypt. .

Ok?

The magic core has exploded, and the spiritual power has not been affected by it.

This result made Ye Xuan completely stunned. It almost fell to the heart of the blind man, and it finally fell.

It is good to have spiritual strength, at least, it will not be regarded as a spy of the Terran.

After all, the demons recognize whether you are a human spy, only to see that you can have no spiritual strength, and will not open your mind to see if there is a spiritual source.

Due to careful consideration, Ye Xuan has followed all the various mental strength skills and mysteries he has mastered, including perfect shocks, absolute shocks, and so on. Of course, the ruin of the ruin is even too expensive. All the spiritual powers are taken out, it is not a matter of doing things.

The result is the same in peacetime. Although the spiritual source in his mind is gone, but all the spiritual skills are exerted, regardless of the influence.

In other words, he just worried about exposing his identity, so he didn't have to worry about it.

Even so, his own spiritual core has become a kind of purple jelly with different sizes suspended in the sea. This strange situation still makes Ye Xuan feel very calm.

If you really want to say it, it is still a solid source core that makes him feel relieved. It feels even more reliable. This kind of large and small, thousands of jelly forms the power of the spirit, so that he always feels fearful!

With this kind of embarrassment, Ye Xuan can only help the phagocytic system in desperation, even when the phagocytic system is issued an instruction to identify those jelly substances in the sea.

Soon, the sound of the system sounded in his mind, and the result of the identification came out: "Hey, congratulations to the host! The fourth metamorphosis of the spiritual source core is in progress: broken and then standing, the five-level source nuclear condensation..."

Hey? Actually, congratulations?

Breaking and standing? The fourth metamorphosis of the source core is in progress?

Five-level source nuclear condensation?

The surprise came so fast that the whole person of Ye Xuan was completely stunned after hearing the system prompts in his mind!

Originally, he had already given up reluctantly. I didn't expect that at the last moment, the fourth metamorphosis of the spiritual source of nuclear, after all, was late.

Although this method is a bit horrified, and the process does not seem to be completed today, the situation of thousands of large and small jelly in his mind is estimated to last for a while, but it does not matter.

At least the system's prompt tone is congratulations, only this point can explain the problem.

Even if Ye Xuan's current spiritual core is not really the fifth level, but still in the cohesion, but what is the second level?

With the black mosquito tribe, the high priest, the gray spirit is only the fourth level of spiritual strength. Even if you have the kind of mysterious technique similar to the search for soul, you want to find out his spiritual source core, and find out the doubts from it. I am afraid it is impossible. .

Although the process is a bit twists and turns, but in the end, Ye Xuan's purpose has been achieved, which is fortunate in the misfortune!

Considering that this time the five-level source nuclear condensation process may take a little time, Ye Xuan has not continued to waste time in this area. Anyway, my consciousness is stuck in the sea of knowledge, and I can only watch it with my eyes. Not a little bit of promotion.

In this case, his conscious consciousness is to open his eyes even if he withdraws from the sea.

After getting up, what I saw was a thick layer of black horns around the altar. All of them were the size of the thumb, but they were densely packed. If it was a bit dense phobia, it was estimated that the scalp was numb on the spot. It is.

Ye Xuan stunned a bit, then he shook his head and smiled. He really didn't think of it, unconsciously, this time it actually consumed such a huge number of souls and beasts.

Between the waves, he took out the space box with the black small horns, and then all the black horns on the ground around the altar were all included. Once, this time, it just consumed 110,000 scorpions.

10,000, just to change his spiritual core from the fourth level to the fifth level, compared with the last consumption, it is simply turning a blind eye.

From this point of view, the next time you want to change the core of the mental source from the fifth level to the sixth level, it is estimated that you need to consume millions of souls.

Fortunately, there are more than 60 million heads in his hands. If you count, it is enough to upgrade from the sixth level to the seventh level. If you add the heroes who have been killed in the future, The devil's brain core, then, Ye Xuan's spiritual source core from the seventh level to the eighth level of consumption, basically also guaranteed.

When he thought of that day, he suddenly got excited.

Even the current demon of the entire demonic group has a level of spiritual core that is only the seventh level.

If the core of the spiritual source of the day can be upgraded to the eighth level... At that time, once the amount of the spiritual power of the spirit is also up, it is impossible to suppress the magical emperor with the spirit.

Besides, with the next few nuclear changes, he will obviously gain more powerful mystery and even magical powers. At the thought of that day, Ye Xuan is completely excited...

After the space box containing a lot of black small horns was born in the immortal world, Ye Xuan remembered the problem of time. After all, the deadline for going to the black mosquito star was only four days, and his cold sweat on his forehead suddenly lingered. When I came out, I almost missed something big.

Now, when I return to the wide area and take the three mosquitoes into the hole, he will rush back in the first place...

Chapter 2762: Black mosquito star

After more than a month of disappearance, Montenegro has forgotten the existence of Ye Xuan.

When he left, his claim to the outside world was to break through, and in order to cover him, the two teams of 20 heroes sent by the big-headed bear blacks scouted, and they have been in this for more than a month. Outside the small courtyard, Ye Xuan returned to the small courtyard with the perfect shock, and did not alarm anyone.

Therefore, when he opened the courtyard door and walked out of the courtyard, everything was completely concealed. No one knows that he went to the underground sacred cave again this month, not only all the sorcerers were caught by him. Eighty-nine out of ten, even the blood corner of the soul on the altar in the deepest part of the sacred soul cave fell into the hands of Ye Xuan.

Seeing the emergence of Ye Xuan, and its repair as a realm has clearly broken through, from the ninth order of the star nuclear environment to the first stage of the current meteor, the two teams of 20 teams outside the door The scouts all clashed, but the look on his face was a bit strange.

These guys, in their hearts, have all identified the relationship between Ye Xuan and the black-headed star of the Black Mountain.

In fact, this matter has already been proclaimed, not only the Black Mountain Star, but also the top ten magic stars of the entire Black Mosquito tribe.

For this, Ye Xuan still doesn't know, and he is still in the dark, otherwise he is afraid that he will be crazy on the spot...

After leaving the small courtyard where he stayed, Ye Xuan went straight to the big headed house of Montenegro. After the magic man who met him along the way, all of them stood behind and pointed and made Ye Xuan feel depressed, but there was no Method.

When the guards in front of the big-headed palace saw him coming, they also turned into the hospital in the first time. After a short while, the big-headed bears and blacksmen greeted them. The smiles behind them, followed by the gnashing bears. .

However, I think that Ye Xuan will leave the Montenegro star immediately. Although Xiong Da said the face of hatred, this time, it was restrained, and there was no verbal collision.

After being greeted by the bear black son in the discussion hall, Ye Xuan sat down on the guest seat, and then he asked about the trip to the black mosquito star. Xiong Da also came in, but after listening to a few words, the two just talked about business. After I was not married, I felt like I was boring. After a short while, I got up and left.

Taking advantage of this opportunity, Ye Xuan even asked for a brief search on the black-and-white spies when he lowered his voice. Of course, it was mainly the action of the high priest.

"Hey, the secrets of the black star have not been found until now, the master, according to my estimation, they should have left."

For the fact that he had previously robbed the space tower and killed the high priests in the middle, Ye Xuan naturally could not disclose it to Xiong Heizi. Therefore, he is not aware of Ye Xuan's slavery.

At this moment, I sighed, and then I said: "The people dispatched by the high priests have all been withdrawn a few days ago. After all, they will be led by the high priests. It will be temporarily suspended by this priest. I put it."

"Well, I am leaving this time, you are still the same, what other abnormal circumstances, temporarily record, wait for me to return and report."

After confirming that there was no harvest on the high priest, Ye Xuan even asked about the specific time to go to the black mosquito star even if he put his heart down.

"The black mosquito star is far away. There are still two days left after leaving Montenegro. If there is nothing else, you can start now, so as not to have any unexpected delays on the way, you will miss the deadline." "

Nodded, and after the bear black son was slightly stunned, he said: "If the master decides, I will now send a magician 100 people to scout the squadron all the way to escort, and within two days should be able to reach the black mosquito star."

"The **** is no longer needed, anyway, nothing happens, I am leaving now!"

When Ye Xuan's personal starry-sky communication system was connected to the star network of Montenegro, the entire territory of the black mosquito tribe was already unloaded. For the location of the black mosquito star, he already knew that he did not need to lead the way. Therefore, when Ye Xuan left the black-headed star of the Black Mountain Star, he set off and rushed toward the atmosphere of the star.

.....

Black mosquito star is the main star of the black mosquito tribe, and it is also the biggest one among the top ten devils of the black mosquito tribe. This point can be seen from the black mosquito tribe called black mosquito, not Montenegro. It is.

The reason why the black mosquito is called black mosquito is because there is a satellite around it, and there is a satellite that orbits it. This satellite is a World of Warcraft, called the mosquito star, precisely because there is a mosquito star as a satellite, and the black mosquito star is named after the black mosquito.

This mosquito star is the hometown of the mosquito. It was originally the commander of the black mosquito tribe. The third-order surviving of the original point existed in Zuofengtai, captured from the mosquito star, and later thrown into the black mosquito space fortress. Guarding Warcraft.

The main person on the black mosquito star is the whole leader of the black mosquito tribe, Zuo Fengtai. There are 100,000 devils scouting the strong, and the devil is more than one million.

As for the high priest, the gray scorpion is in a state of detachment in the black mosquito star. Although it does not ask about the chores, it is only sitting in the temple of the black mosquito family, but even the third-order powerful repair of the original point. Commanding Zuo Fengtai, sometimes it is necessary to look at his face to do things.

Unlike the black mosquito star, the satellite that revolves around the black mosquito star, that is, the mosquito star, is filled with countless black mosquitoes in its star atmosphere, but these black mosquitoes are basically unborn. The existence of the intellect, only a very small number of black mosquitoes that have been cultivated as powerful mosquitoes gave birth to a sense of ingenuity. Therefore, the whole mosquito and beast star has no order, and it is completely an uncultivated barbaric star. Horizontal.

Outside the atmosphere of the mosquito star, there are several magical scouts from the black mosquito star who patrol the strong team all the year round. Once they discover that some of the wise black mosquitoes rushed out of the star's atmosphere, they want to escape. The mosquito star will catch it immediately.

In the black mosquito star, the magician who has almost a status, there will be a mosquito and beast as a step by step. Of course, some of these mosquitoes have produced a sense of intelligence, while others have never given birth to a sense of intelligence. It's just after the arrest, it's tamed by the law of the beast and then driven.

It is also for this reason that the mosquitoes in the mosquitoes have produced a savvy black mosquito World of Warcraft. For the black mosquitoes, even for all the devils, there is a bitter hatred.

However, the entire mosquito population has produced too few intellectual existences. Even though there are countless black worms in the whole mosquito beast, there are tens of millions of heads, far more than the number of magicians of the black mosquito tribe, but basically because of The unborn children of the ingenuity are destined to be enslaved by the devil...

Chapter 2763: Gossip

Although the use of technology by the devil is not as good as the science and technology camp of the human race, the star network is also divided into different levels. The lowest-level demonic star such as Montenegro is the underlying network, while the starry sky inside the black mosquito is Constructed a tribal network, down the ditch to the main network of the demons, and down to the underlying network of ten demons.

Therefore, after Ye Xuan arrived at the Black Mosquito Star, he only had to rush to the government center and directly report the name. After the qualification of the testimony of the Holy Mountain of Montenegro was confirmed, the official report was made at the first time.

In fact, even without the official report of this Montenegro, Ye Xuan came, only to report the name of Zhang Wuji, the same can be reached unimpeded.

Because of his name, it is now well known throughout the black mosquito tribe, accompanied by various gossips!

After signing up at the government center of the Black Mosquito Star, you will get a black small token after you have verified your body. With this black small token, Ye Xuan can get it outside the temple of the Black Mosquito tribe. A temporary residence, this is a quadrangle compound, surrounded by a large circle of courtyards, a total of ten rooms, two halls, one for the discussion, one for the restaurant.

The ten rooms are the temporary places for the testimonies selected by the top ten devils of the Black Mosquito tribe.

When Ye Xuan took the identity token from the staff member of the government affairs center, the other person's eyes had already made him feel uneasy. After arriving at this small courtyard, the feeling of uneasiness in his heart suddenly became even more Strong.

Ten of the selected ones who went to the Magic Emperor to conduct trials of the Black Mosquito tribe, except for the qualified owners of the Black Mosquito, did not come here, and all eight others had arrived.

When Ye Xuan arrived, it was the lunch time. The waiter assigned him a room, and then he led Ye Xuan to the restaurant. In an instant, the eighty-nine trials who were dining inside turned around and looked around.

First, a glimpse, then the look will be brilliant, some despise, some contempt, and some shake their heads and smile, no longer care...

Only one person, actually surprised to get up and rushed to the leaf Xuan to beckon, this person sitting alone in the corner of the table, while the other seven were sitting together on two tables, it is clear that this guy is a gregarious existence.

Moreover, he is not gregarious, or passive, not his own solitude, but... being squeezed out!

Otherwise, if it is a lonely and lonely person, it will not be seen when Ye Xuan enters the door, even if he is surprised to raise his hand and say hello.

However, for this person, Ye Xuan took a look at the post-impression is still good, in vain, there is no such fierce anger, more importantly, compared to the other seven people is not ridiculous is a mocking face, this white beckoning The person, but a smile, looks at the heart.

Therefore, after frowning, Ye Xuan even walked over and did not smile at the face, let alone the enthusiasm of the other party?

Just, the **** just took the stool, Ye Xuan regretted it!

"Nothing, ignore the guys who are self-righteous..."

Ye Xuan was just sitting down, and the other person's mouth was called up unscrupulously, making Ye Xuan feel uncomfortable, but thinking about it may be that this person's personality is so passionate, it is not convenient to say anything.

However, the voice of the other party's voice is too weak, and Ye Xuan feels a little weird.

I didn't wait for him to come back, but this person once again made a sound: "Nothing, I've heard that you're like a jade, and you're handsome. It's better to see you today. Oh, yes, first self. Introduce, Lun Fangfang, Haofangfang, from the black comet, the black comet's big-headed Haode double is my 爹, rest assured, Lunjia and Montenegro's Xiongda can be different, Lunjia can not have such a small eye Go back and take the initiative to introduce you and me to know..."

During the talk, the niece who claimed to be Hao Fangfang squatted to give Ye Xuan a chance to hand over a pair of tableware. The slender fingers quickly hooked in his palm, and the flirtatious eyes were thrown over.

"Hey!"

Ye Xuan heart mad, the body shape subconsciously back, the danger did not fall on the spot, but the stool on his body was turned over.

This person is passionate? It is simply the basic situation, not only his own mind is not pure, but also seems to want to give him a matchmaking, and Ye Xuan suddenly gave birth to an impulse to immediately shoot him on the spot.

When the face sank, Ye Xuan didn't look at this guy any more. He turned and walked to another empty table next to him. His heart was even more regrettable. Nothing to be diligent and arrogant, it was so ugly. !

Seeing Ye Xuan reacted like this, Hao Fangfang's face instantly floated a look of resentment, but it was never thought of, and he got up and moved to this table.

It was also at this time that a strong man in the costume of the devil entered the restaurant and spoke a few words. The general meaning was that with the arrival of the black mountain star Zhang Wuji, this

time went to the magic star to participate in the black mosquito. The ten quasi-sons of the trial are even together.

On the day of departure, after seven days, there are no quasi-sons who have no black mosquitoes. In these seven days, whether they are arrested or purchased in person, it is best to set their own black mosquitoes first. This black mosquito pet beast has to enter the holy magic to participate in the trial with the quasi-son.

At this point, Ye Xuan really did not know, and now that he was informed, he even issued instructions to the personal star communication system in the body, ditched the star network of the black mosquito star, and gave the instructions for conditional search.

The results were quickly fed back.

It turns out that the trial of the Holy Child of the Black Mosquito has always had this tradition. Every quasi-son who participated in the trial can bring a black mosquito World of Warcraft as a pet beast to enter the Forbidden.

In fact, the same is true of other devil tribes, such as the Black Wind tribe, whose tribe's quasi-sons usually bring a black wind beast when they enter the trial.

The reason for this is that on the one hand, because the sacred forbidden land is an independent starry sky, it has a wide range, with a pet beast as a means of transportation, on the other hand, because it is not because of the crisis everywhere, but also It is not very peaceful, with a pet domestic animal that has been domesticated. When necessary, you can order the beast to block the enemy, and you can take it away. It is a means of life-saving.

Of course, this means of abandoning the life of the beast can only be used once, and no one can bring more pets into it. This is not necessary to check one by one, even if a quasi-saint has a large amount of space magic. The pet beast is on the body, and at that time, it is impossible to enter the forbidden land, and it will be automatically excluded by its rules.

Seeing this, Ye Xuan couldn't help but feel a little worried. I don't know if the prohibition rule of the Forbidden City's forbidden land can sense the immortal world in his body. If it is possible, this time the so-called black mosquito tribe test Ye Xuan is afraid that he can't participate anyway.

Counting the two space bastions and the caves, as well as the soul beasts in the small towers of space, the living creatures on his body have reached tens of millions of giants...

Chapter 2764: Enter the mosquito star

"Nothing, you won't have your own black mosquitoes?"

The devil of the housekeeper's attire just left, and Haofangfang came over. Although this person is a sissy girl, the ability to look at the color is not weak, and the problem is seen at a glance. Xuan sat down beside him and tried to shoot his back: "This is a bit of a hassle. Although the black mosquitoes are also sold by mosquitoes, they are basically star-shaped, this level of mosquito belts. What is the difference?"

"However, it is too dangerous to enter the mosquito star for temporary arrest, and it takes time to acclimate, but it doesn't matter..."

Seeing Ye Xuan quietly removed his hand and did not succeed in his oil. This Haofangfang did not care, smiled awkwardly and then said: "Fortunately, I have two mosquitoes here, one head The seven worlds of the four worlds, the eighth-order satellite of the third largest realm, have been banned from the spirit, and can be controlled between the minds!"

"In any case, I can only take one head in. The eighth-order satellite in this satellite will be given a no-brainer. It is only the mental ban in the brain core that I have the authority to erase immediately, but if you want to drive it, you still have to Re-branding a new mental ban!"

"Otherwise, you can't get into the pet beast ring, and you can't use it. You can only rely on yourself to find a way. On this black mosquito star, please ask the strongman of the high-order source nuclear to help..."

Although this discourse seems simple, it actually reveals a lot of information. Even if Ye Xuan started the conditional search again, he would soon know everything.

It turns out that the biggest value of a mosquito is actually that after the brain nucleus in the brain is branded and banned, it can be cultivated by the realm of the devil who is far below him, such as Hao

Mang, he is a meteor. The existence of the third-order territory, but it can drive the seventh-order black mosquito World of Warcraft in the fourth world.

As for the so-called beast ring, it is the unique magic weapon of the devil tribe, which can be branded with a mental ban, and the domesticated Warcraft enters it.

Of course, the more powerful Devil Power can also directly income into the body.

The branding spirit is banned, generally requires a three-level source of nuclear power above the magic person to achieve, otherwise, the level of mental strength is too low, let alone the imprint prohibition is unsuccessful, even if it succeeds, then the head is in the brain Branded black smoked World of Warcraft, there is also the possibility of breaking the spirit of the ban!

At the beginning, the mosquito nucleus in the brain of the mosquito was smothered by the high priest of the black mosquito tribe, but the gray skeletal was completed twice, only the third-level source nucleus. Only.

The slain that was condensed by Ye Xuan at that time was also condensed by the third-level spiritual power, so they could melt away from each other and resolve the spirit left by the high priest Prohibition!

After figuring out all this, Ye Xuan was relieved.

His source core is already quasi-five, and he can completely leave a mental ban in the beast of the black mosquitoes. As for the black mosquitoes... Anyway, he is trying to see the hometown of Limos, is I naturally have to catch it myself.

As for the so-called beast ring, this black mosquito star is not a precious treasure, and the ordinary space box of the human world, you can buy it with some magical black crystal!

"No, since it is your own black mosquito World of Warcraft, Zhang will grab it himself!"

After rejecting the beauty of Haofangfang, Ye Xuan did not think about eating. When he got out of the restaurant and went outside the restaurant, he planned to buy a ring of the animal immediately, and

then went to the satellite of the black mosquito star. The mosquito star enters and captures a black mosquito World of Warcraft.

Of course, he could also use the mosquitoes to fill the pets directly, but the gray bones have seen the mosquitoes, and this can only be done.

"Hey, it's a big talk, I'm going to catch it myself? But it's a sell-up, I'm really treating myself as a demon person's arrogant..."

"You can't say that, the mosquitoes and beasts are surrounded by ordinary star-nuclear mosquitoes everywhere. Whatever they are, they are also the first step of the meteor, and they will catch a star nuclear environment. After all, they will catch it! "

"Ha ha ha..."

"Too funny, what is the meaning of a mosquito in a star's nuclear environment? Is it possible to travel or can save lives in a critical moment? I see, it is estimated that this is not enough to sell the butt, otherwise, how can the bear black son even this Not ready to numb..."

Ye Xuan's words just fell, and the seven sacred sons on the opposite table opposite each other sneered out.

He frowned. When he stopped the steps, he turned to the other two tables and swept them. He sneered: "I don't know how many of you are mosquitoes and beasts, what is the highest rank?"

"What? You want to compare with us?"

"It's really a laugh. Besides you, the highest of the nine beasts among us, is the seventh realm of the Star River. How come, can you still catch a pet in a star river?"

When the few devils laughed again, the side of Haofangfang frowned, the guys were obviously in poor heart, and the black mosquitoes in the star river were the pets of another guy who didn't come here.

This person is the only son of the black mosquito tribe, Zuo Fengtai, who is the only son of Zuo Licheng. At the moment, the left ritual is not here. The seven people take out its star river black mosquito pet beast out of the top tank, if Ye Xuan should If it is, it is tantamount to provoking to the left, and regardless of the outcome, he has already made a point.

It is a pity that when Ye Fangfang wants to be offered, Ye Xuan is an archer. He said in advance: "What is the little mosquito in the Star River? What is it within seven days?"

After that, Ye Xuan turned and went out of the restaurant, and behind him, the laughter of the seven guys was ringing.

"Oh, you are fooled..."

Just as Ye Xuan wanted to leaps and bounds, Hao Fangfang, who ran out of the restaurant behind him, had already chased him. He stared at Ye Xuan with a look of resentment: "Lunjia originally wanted to remind you, I didn't expect you to say this. So fast, the mosquitoes in the Star River are not the seven of them, but the other one who did not come to the guy. This person is the only son of the great leader Zuo Fengtai, named Zuo Licheng, and this time he won the black mosquito. The highest voice of the Son, he not only has a good spiritual strength talent, but also cultivated the strength to reach the third largest realm of the satellite environment in the third realm, and is immediately the fourth largest realm of the planet. ""

"To tell you the truth, people are also the default choice of the black mosquito family. We followed the past but just accompanied the prince to study. Now your book boy actually released words to provoke the prince. You think about it, you must not look back. Good fruit is eaten!"

Upon hearing this, Ye Xuan suddenly stunned, and there was a smack of smack in the middle of the smack. Then, he looked at Haofangfang in front of him with a glance. After a thank you, he had already set himself up and turned to the black. Going to the surface area of the mosquito star, he plans to buy a ring of animals here, and then go directly to the mosquito star...

Chapter 2765: Mosquitoes

The mosquito star also has an atmosphere, but it is black. It is a kind of courtship gas emitted by the mosquito and the body. In this layer of black atmosphere, there are two black mosquitoes who are always waiting for the fleet. Traveling.

Once some of the savvy black mosquitoes want to break out of the atmosphere, they will be captured and even hunted on the spot.

This black mosquito star is completely used by the black mosquitoes as a planet for captive pigs.

As long as it is a demon, you are free to enter the mosquito star to hunt. After all, there are too many black mosquitoes in the world, and there is no limit.

Of course, after entering, it is also life and death conceit. The massive mosquitoes are a huge threat. There are few separate demons entering the area to hunt.

Even the original point of the high priest, Greyhedler and the great leader, Zuo Fengtai, is said to be afraid to enter the deepest part of the surface of the black mosquito star, because there is a black mosquito beast in the original point.

For the black mosquito beast, Ye Xuan also searched on the official star network of the black mosquito star, but did not get any valuable information, basically two or three, mentioned its existence.

After entering the atmosphere of the black mosquito star, the field of vision changed instantly. The eyes and the land were all black mosquitoes, and the mosquitoes and beasts were four words, which were not enough to describe the might of this scene.

Ordinary young mosquitoes, only about seven or eight years old human children, and grow up, only adult humans are so big.

Even when it is adulthood, the mosquitoes that are not yet intelligent are still a huge mosquito that is completely out of the way. The reason why the mosquito has evolved the human head and limbs is because she has already given birth. Intellect, embarked on the evolution of humanoid mosquitoes.

Therefore, whether the mosquito on the mosquito star gives birth to the ingenuity can be determined simply by seeing if part of its body is human.

Basically, the birth of a sensible mosquito, first of all, the head evolved into a human appearance, then the limbs, and finally the trunk.

In the end, it can evolve into the same existence as humans or demons, but if needed, they can instantly become the original form of the mosquito, and the original form of the mosquito, whether it is speed or strength It is obviously the strongest.

For example, when the Black Wind and the Guru were decisive, the Mosquito had changed its shape and briefly showed the true body in the form of the most powerful mosquito.

Mosquitoes, originally flying in the sky, are nature.

Therefore, after entering the mosquito star, the mosquitoes and the likes that are seen in the eye are basically the kind of existence that does not give birth to the saga, and those who have truly produced the wisdom have already concealed their own body shape. The consciousness must be found on the land below.

The deeper the mainland, the stronger the mosquitoes you encounter.

Even in this part of the air, the higher the flying, that is, the outer, the weaker, the lower, into the inner circumference of the star, the strength of the mosquito is also straight.

After entering the atmosphere of the mosquito star, Ye Xuan looked around and saw the low-level mosquitoes surrounded by the tide. There was no figure of the strong man, and the atmosphere of the mosquito star behind him was also a thick layer of black gas. It is possible to isolate the gaze of the investigation, so that after he hesitated, even if he had a hole in the hole, he would release the mosquitoes in the first time.

Then, with a wave of hand, he will reinvent the hole and reap the infinite immortal world.

While doing all this, there is no black mosquito attacking Ye Xuan, because his body shape is passing through the black atmosphere of the star, Ye Xuan has already opened the perfect shock, masking the body shape and all the Breath, in the countless black mosquitoes of Warcraft, he is completely transparent, does not exist.

"This is... black mosquito star?"

As the body shape was released from Ye Xuan directly from the hole, Li Mo mosquito first stunned and then screamed excitedly. After all, he is the strong existence of the seventh stage of the black hole, and it is the birth of the intelligent black mosquito World of Warcraft, the body exudes a unique atmosphere, perhaps humans and demons can not feel, but as the same kind of black mosquito World of Warcraft, but It is the most sensitive to this.

As soon as the mosquitoes appeared, the low-level black mosquitoes around the vast expanse of the sky were all far away, leaving a vacuum zone with a radius of 100 meters.

In this zone, there are only mosquitoes and Ye Xuan who have lost their body shape. However, the black mosquitoes outside the zone are gathering more and more, and the sound of the vibrating **** behind them is endless. Extremely excited.

In this regard, Ye Xuan's face showed a strange color, but did not ask too much.

"Our black mosquitoes are the most rigorous in the hierarchy, and low-level mosquitoes are naturally able to suppress and drive low-level mosquitoes."

It seems that I saw the doubts of Ye Xuan, and Li Mosuo's excitement in his heart, took a deep breath, and then he said: "However, for high-grade mosquitoes, those with low ranks are awe, but there are also With the fiery support, they are not willing to leave, although they avoid the distance. This is a kind of **** nature, wanting to support me!"

"Is there a mosquito king? How can I just come to a black hole in the eighth order and want to dominate?"

Ye Xuan stunned, although he understood the meaning of the mosquito, but still a bit puzzled, even when asked one.

"These low-level mosquitoes that are not open, but where do you know what mosquitoes and queens are not mosquitoes? They just feel the strong atmosphere of the same kind around them, so they just

gathered together. At this moment, even if I let it All of them will die, and these poor eggs will not refuse."

Speaking of this, the look of the mosquitoes glimpsed and faintly said: "As a low-level Warcraft, our fate is far too far from the devil, but although there is a mosquito in the original point, it is It's crazy, it's impossible to find a blessing for our mosquitoes and people. On the contrary, there are a lot of smart black mosquitoes that have been born, because they spontaneously gather around it, and they are killed many times every year. At the beginning, I It was because he was almost killed by the mosquito king of the original point, so he was cold and ready to leave the mosquito star..."

"I didn't expect it to be smashed by the high priest of the black mosquito tribe, and finally left a mental ban in the beast nucleus in the brain, and was thrown into the Black Bass Space Fortress as a guardian of Warcraft."

"Now think about it, it's all a few hundred years ago. I didn't expect my mosquitoes to have a day of birth, but I can still go back to the mosquito star. Unfortunately, this has been hundreds of years, the whole mosquito The beast star is still the same as it was at the beginning."

"There is no doubt that for hundreds of years, I have not known how many innocent, unscrupulous mosquitoes have been enslaved by the devil."

"As soon as I think of my family's enthusiasm, the feeling in the heart of the mosquito is really... oh!"

At the end of the day, the mosquitoes thought that they had a feeling, but they sighed in a secluded manner, revealing the deep loneliness and falling out...

Chapter 2766: Crazy mosquito

The sigh of the mosquitoes made Ye Xuan feel uncomfortable. He said that he came to the mosquito star this time. It seems that he also wants to grab a black mosquito to enslave.

"The owner came to the black mosquito star this time, should also be to grab a mosquito?"

Just after the thought of flashing in my mind, I was broken by the words of the mosquito.

Just as Ye Xuanyi smiled and wanted to explain a few words, Li Momo said that he had to talk about it: "The owner doesn't have to care, because you are different from the devils, the mosquitoes will not be in the heart, but instead The ones you selected are happy. After all, following the master, they have hope. It's better to sink in this mosquito star. If you can, Limos can't wait for you to take all the mosquitoes and all the mosquitoes. It..."

This sentence is unintentional, but after Ye Xuan listened, it was a sudden brightening of his eyes. In his mind, there was a scene of a mosquito and a beast, and the magnificent scene that rushed toward the enemy could not help but be impressed.

"Does the owner really want to take away all the mosquitoes on this mosquito star?"

Seeing the look of Ye Xuan, the mosquitoes licked, and then their eyes lit up: "Yeah, why didn't the mosquitoes think about it before? The entire ethnic group stayed in this mosquito star, destined to be enslaved forever by the devil." Going on, instead of this, it is better to bring a group of mosquitoes who have given birth to the wisdom to leave here. As a kind of fire that inherits the blood of the ethnic group, if they find a suitable star in the future, they can completely change their environment to cultivate and live."

"Although more mosquitoes remain here and are enslaved, the hopes of the entire community have already been spread out..."

"This matter also asks the owner to complete, help the mosquitoes, bring out some of the same family, can you leave this place?"

At the end of the day, the mosquitoes were actually squatting in front of Ye Xuan, and the face was full of sincerity.

And Ye Xuan, after a sigh of relief, then the look on his face gradually became strange. I don't know why, he always has the feeling of doing something bad and selling people. The meaning of the mosquitoes on the mouth of the mosquitoes is stunned. The key is not in his heart. I think, I just want to turn a group of powerful mosquitoes out to be a hitter!

"Cough..."

These thoughts flashed through my mind, and Ye Xuan suddenly coughed a few times, and then he said: "This matter, it is up to you, fortunately, the first layer of the black mosquito has been Empty out, the space is big enough, about 10 million black mosquitoes, or can be installed."

The implication is that this is hinting at the mosquitoes, it is best to leave a million mosquitoes and leave, so shameless, even Ye Xuan himself is not red on his face, feeling a little hot!

"Just, there are quite a few mosquitoes in this number. My time is only seven days. Even if the mosquitoes inside this star are like the tide, it is not afraid that taking out the Black Bass Space Fortress will expose you. It's a key point to drive away, I'm afraid it's too late..."

After a little sinking, Ye Xuan even said the biggest problem, and rushed to the mosquitoes to spread his hands and said: "You just said, but the fire of your ethnic group, it is naturally elective to be powerful. It is better to take away the existence of the intellect. This kind of existence is not as good as the low-level mosquitoes now surrounded by you. When you let out a breath, they will follow away!"

"This owner is assured!"

For Ye Xuan's doubts, the mosquitoes did not care. They actually laughed and explained: "The low-level mosquitoes flying in the sky are useless even if they are taken away. The mosquitoes want to take away, it is the ground. Those mosquito elites, the strongest among them, like me, have reached the eighth-world black hole, the weakest, and the third-largest realm of satellites, and about 40% are Out of the spiritual existence, of course, the degree of ingenuity of the birth is very limited."

"In the beginning, the mosquitoes were the highest level of intelligence in the whole mosquito star. Therefore, the other mosquitoes who gave birth to the spirits are basically unskilled and belong to humans*. The extent of the Warcraft's birth is originally a counter-attack, and there is a great risk."

"For example, the crazy mosquito king, he was in the process of giving birth to the wisdom of the accident, so that he became crazy. When the mosquito just gave birth to the * level of intelligence, he has evolved a human head. Now, thousands of years have passed, it's still like that, and it's getting crazy..."

"It is actually repaired into a realm, but it has never fallen. It has been the ninth largest realm of the ninth-order realm of the ninth-order world. Now I don't know if it broke through!"

Speaking of this, the mosquitoes sighed again, and Ye Xuan was shocked and screamed: "The madness of the mosquitoes? The original point of the nine-order grand perfection? That is not even the ash and the left Fengtai in the hands of it, it is the existence of ants. Can you crush it with your hands?"

"That is natural. If you don't jealous of this guy, do you think that Greyhound and Zuofengtai will let countless mosquitoes in this mosquito star not catch it?"

The mosquitoes licked their mouths and then said: "Our Warcraft is not just a mosquito family, but also other World of Warcraft races in the Devil's Star. Although it is not as good as the Devil, we are at least one ethnic group. They all have the strongest existence of their respective ethnic groups."

"But you don't seem to answer the question I just mentioned!"

"Is it about the fire of that 10 million mosquitoes?"

Limoso smiled again: "Reassure the owner, although the crazy mosquito is crazy, but by his side, it is surrounded by a large number of mosquito elites. At the beginning, I was one of them, but one time I almost died. In its hands, life and death are greatly realized, from the human * level of intelligence to the adult's level of intelligence, so I want to leave when I am disheartened."

"The thousands of mosquito elites on the ground have kept a certain distance from the crazy mosquitoes, but they are inhabited by him. As long as we can conquer the crazy mosquitoes, then he will take the initiative to enter the black mosquitoes. The bottom of the number is Wan Luo Prison, then, the other four million mosquito elites will automatically follow, there is no need for us to take the time to force to drive away, so let alone seven days, half a day can not be used. "

"What? Accepting the crazy mosquito king?"

When Ye Xuan was shocked, his face changed: "That is the ninth big realm. The ninth-order realm is full of supreme existence. It is the tenth realm, even though it is an eleventh-level slave. India can definitely

guarantee its acceptance, but the key is... we can't have this opportunity at all, without waiting for the slave to touch its body, I am afraid that this matter will be revealed."

"What's more important is that... people are crazy, they are provocative, and if they are crazy..."

"That is the existence of the left Fengtai and the gray bones are both taboo, we both, by what?"

Chapter 2767: Bloody crazy mosquito

"You don't have to worry about this. I am very familiar with the crazy mosquito king. After all, I left here!"

I heard that Ye Xuan was worried about this. Li Mou even laughed: "When I left, the more than 10 million mosquito and beast elites in the core of the mosquitoes and stars in the ground, even if they were born. The existence of the intellect is only human-level wisdom. If this is not the case, after the intellectual wisdom has increased sharply and I have the wisdom of the adult, I will not feel too lonely here, so I decided to leave. "

"It's just a bunch of *skilled mosquito elites. You will use the perfect shock to cover your breath, and I am their kind. These mosquito elites will not be prepared for me."

"As for the crazy mosquito emperor, it is even more so. He is crazy at all, and it is impossible to have any precautions for me."

"In addition, even in these hundreds of years, those mosquito elites have the existence of the wisdom of adults, and there is no suspense in this matter."

"With the wisdom of adults, they can understand their situation better. I just need to explain the current situation of the mosquito stars to them. By then, they will not stop us, but will help us."

"After all, as a high-cavity high-level mosquito with mature wisdom, how can I not murder my own ethnic group? Everything is for the future of the mosquito family..."

"It makes sense to say that I am speechless!"

Ye Xuan stunned for a while, then he shook his head and sighed: "So it seems that I can't find a reason to stop you. If so, then do it!"

"call out!"

During the speech, Ye Xuan irritated an eleventh-level slave print and fell into the body of the mosquito. He said: "This slave print is wrapped in a layer of mental film. When you use it, you use it. Our own spiritual strength wraps it around the body and shatters the mental membrane. As long as it can get into the body of the crazy mosquito, we will succeed."

"Of course, I will always be with you. If you miss it, I have another 11-level slave print here, but this is our last chance. I hope that I will not use it, otherwise I will Failure, then it is really troublesome..."

"Don't worry about the owner, a mad mosquito queen, even if it is the ninth state of the original point of the nine-order grand perfection, after all, it is crazy, we will succeed!"

Speaking of this, the mosquitoes smiled at Ye Xuan and turned to the base of the mosquito star below.

Ye Xuan even started the perfect shock, followed closely, followed up...

The lower the number of mosquitoes, the fewer the number of mosquitoes, and Ye Xuan looked up at the sky, and the densely populated cloud of mosquitoes and insects caught the sky, even without the thick black atmosphere of the mosquito star, he would The Black Bass Space Fortress was taken out and no magic person would see it.

As soon as he read this, he was relieved.

At this moment, the mosquitoes have swept away to the deepest part of the mainland ahead, and they have reserved the speed deliberately so that the back Ye Xuan can keep up.

The latter did not dare to delay too much and immediately followed.

Along the way, I encountered a lot of black mosquitoes, which are basically mosquitoes, but occasionally some have evolved human parts, but basically there is only one human head, which means that although they are Out of the intelligent mosquito elite, but the wisdom is only the human mind of the age of seven or eight.

In the face of a kind of mosquito that is cultivated as a powerful realm and obviously with mature wisdom, these mosquitoes and elites have no intention of blocking them, letting the mosquitoes drive straight into the road.

Ye Xuan, who has lost his body shape and all breath with his perfect swaying spirit, has been closely following the mosquitoes.

Half a day later, the master and the servant have entered the deepest part of the core of the entire black mosquito star. All the mosquitoes visible in the eye, almost all of them have a spiritual existence, except for the evolution of a human skull. Seeing the evolution of a pair of human arms, or a pair of human long-legged mosquitoes, but the limbs are sound but not at all, the mosquitoes are unique here.

At the moment, the front of the mainland is at the end, a giant sky under the peak, the figure of the crazy mosquito king finally reflected in Ye Xuan's sight.

It is a huge skunk tree, the crown of the canopy is more than a hundred miles, and there is no mosquito or animal in this area. The only existence is a huge mosquito with a body shape and red blood.

This huge mosquito also gave birth to the ingenuity, but only a human head, which shows that its wisdom is only about the age of seven or eight years old.

And... still crazy!

Yes, it must be mad, because this one knows that the male human head is covered with dense red hair, fluffy and messy, just like a bird's nest, and any normal existence of the mind is never It might be like this.

As for the cultivation of the realm, the first-order cultivation of Ye Xuan's second realm, the meteorological environment, can't be sensed. In his feelings, the breath in the other's body is like the mighty sea. It seems that there is no such thing. At the end.

"It's been a few hundred years, but it's still the same, it's not changed at all, including the cultivation of the realm... It's still the ninth-order great perfection of the original point!"

After all, the mosquitoes have the strength of the seventh-order black-hole environment, and the gap between the other side and the other side is only one, so that it can still sense the realm of the crazy mosquito king.

At this moment, the mosquitoes sighed, and the side of the wing that had already vibrated, quickly approached the past, the crazy mosquito king approached the past, Ye Xuan hesitated, biting his teeth, and immediately followed.

He is quite confident about the perfect volatility mental skills.

When passing through the edge of the huge camphor tree crown, some mosquito elites who had evolved a pair of human arms or a pair of human long legs in addition to the skull, all swept their eyes to this side. The mosquitoes circulated around, and it was confirmed that it was really the same kind, and the level of wisdom was still above itself. After the repair was similar, the line of sight was slowly removed.

Although they are a bit puzzled, the mosquitoes are close to the past, but obviously do not stop.

Ye Xuan sighed with a sigh of relief, but the heartbeat, but with the more and more close to the crazy mosquito king, uncontrollably violently jumped, and there was a feeling of uneasiness in the faint.

I didn't wait for him to sort out the uneasiness of the heart. From the front, the mosquitoes were close to the side of the crazy mosquito king, and after a distance of more than ten kilometers, they had already raised their hands to the eleventh-level slave. Shot it out.

This moment, Ye Xuan suddenly moved his heart and suddenly exclaimed: "Not good, mosquitoes, be careful..."

Chapter 2768: Suspicion

The crazy mosquito in sight seems to be dozing off, but the moment when the mosquitoes shake their hands and shoot the eleventh-level slave, its closed eyes are suddenly open.

At that moment, the fine mans flashed, although it was a blood red, mad, but in the depths of that crazy, Ye Xuan clearly felt a kind of wise light.

This moment, Ye Xuan's mind suddenly flashed.

This crazy mosquito is really crazy, but people are not really crazy, it is... loaded!

With this flash of light flashing, Ye Xuan didn't even think about it. When the sound was reminded to the mosquitoes, it was the existence of the ninth-order grand perfection of the original point, and the mosquitoes could be killed by a finger.

Even if his reminder is not of much use, at least it can alert the mosquitoes.

"what?"

"Is there still a demon?"

"The emperor said, this spirit of branding is so strange, it is not a mosquito family..."

At the same time as Ye Xuan's exclamation came out, the huge **** crazy mosquito king in front of him had already opened his mouth for the first time. He said that it was the language of the devil. It is obvious that it is not crazy.

At the same time, a huge and indescribable pressure of the atmosphere is also a moment of shrouded Ye Xuan, with the meaning of shock, the sound of humming, directly breaking his perfect shock, Ye Xuan's body is like Falling from the void, it appeared in awkwardness.

His mouth is even hanged with a trace of blood. The perfect volatility and mental skills have been forcibly cracked, causing his mind to be countered and almost collapsed. This is a sign of a minor internal injury.

"the host....."

The look of the mosquitoes changed dramatically, and I didn't pay attention to the lasing. At this moment, it was like a layer of invisible wall, and it was suspended at the eleventh slave outside the madness. It was printed, and the mouth screamed and turned back to Ye Xuan.

"As a mosquito, and still gave birth to a mature and intelligent black hole strong, I actually recognized a demon ants, mainly you are the shame of my mosquito family!"

The crazy mosquito king was originally light and light, whether it was Ye Xuan or Limos, it was a cat-like attitude of the cat, but at the moment, after hearing the mosquitoes call Ye Xuan as the master, it is almost instantaneous. Then I got angry.

"Hey..."

"Hey..."

As the voice of the crazy mosquitoes rang, the entire space of the hundred miles seemed to violently tremble with high frequency, and a very strange humming sound came out.

"Hey!"

"Hey!"

.....

Almost as soon as the sound of these humming sounds resounded, outside the area of the hundred miles of the huge camphor tree canopy, countless mosquitoes suddenly became angry, and turned around and flew here, in all directions, endless The mosquitoes are turned into a black wave.

This wave of black waves is composed of at least 10 million black mosquitoes. Ye Xuan casually glanced at the weakest presence captured in the line of sight and is the powerful mosquito in the third world.

And the thousands of mosquitoes and beasts in the forefront, which are in the forefront, are the supreme existence of the eighth largest black hole. Although they are only a second-order black hole, they are swept in an instant. The violent breath of the coming, let Ye Xuan even collapsed with his heart!

"As the top elite of the mosquito family, I actually recognize the devil as the main, and the devil wants to harm the emperor, you **** it!"

"Give me all!"

With the crowds of millions of mosquitoes and monsters flocking in all directions, Ye Xuan and Lie Mosquito can't move in an instant. Facing this momentum, plus the pressure of the crazy mosquitoes, even the mosquitoes The seventh stage of the black hole is not used.

A desperate meaning in the heart of the mosquitoes suddenly rises, this time, it is really it is tired of Ye Xuan, his master.

For a moment of anger and anger, the mosquitoes roared and snarled at the madness.

"What about you? You are the most powerful emperor of the mosquito family, what have you done for the tribe?"

"Since you have clearly developed mature wisdom, it is not mad. In those years, why did you never do anything? Let your people be arrested by the devil?"

"Yes, my mosquitoes recognize the owner, but I was almost killed by your crazy madman, and I left after I was disheartened..."

"Even if I return today, I also ask the owner to take away 10 million mosquito elites and go out to find a suitable planet to spread out as a group of Vulcan..."

"What about you? What have you done? You obviously have this strength, but you don't care about all the people, you... don't deserve to be the emperor of our mosquito family!"

"what?"

"What kind of ecstasy soup did this magic man give you, how dare you say this to the emperor?"

In the face of the roaring roar of the mosquitoes, the crazy mosquito king calmed down and said, an invisible breath has already enveloped the mosquitoes.

After a few moments, the crazy mosquito king rang again with a horrified voice: "Slavery? Actually it is slavery? How is this possible? In the devil family, this slave has long been lost, it is impossible for today's magic emperor. Own, unless it is in the forbidden land, perhaps there is still the possibility of inheritance..."

"How can a small meteor ants have the ability to condense their slaves?"

"So, this spiritual brand in front of the emperor is also a slave print? At least it must be a slave of the tenth level or more? Hey! The little doll is quite big, even the emperor wants to enslave."

"Hey!"

As the cold noise rang, a humming sound came to Ye Xuan, and his body was shrouded in an instant. Then, Ye Xuan's unmovable body felt a touch of water-like power, including the sea in his own body. In the middle of the scouring, the whole person was seen transparently by the other party.

"Hey? The source nuclear has entered the five-level transformation?"

"No, you are not a demon..."

"soul?"

"You are human!"

"Ha ha ha..."

"After waiting for so many years, human beings finally... Emperor I, Lao Tzu is not defeated, there is hope!"

"Ha ha ha..."

With Ye Xuan's entire body and the sea being explored by the other side, the crazy mosquito king was surprised to laugh, not only instantly recognized the human identity of Ye Xuan, but even took out the name of the Tianji tribe. It seems that there has been a big fight between the two people, and the crazy mosquito king originally thought that he had lost, but now, because of the appearance of Ye Xuan, he has seen the hope again...

All of this was combined and suddenly turned into a huge mystery, and the whole mind of Ye Xuan was shrouded.

In the vagueness, he felt that the crazy mosquito in front of him was not as simple as what he saw on the surface.

It is only the existence of the ninth-order realm of the ninth-order realm, and wants to fight with the patriarch of the Tianji nationality?

That is simply an idiotic dream!

With these thoughts flashing in my mind, Ye Xuan only noticed a shock in the sea, and then found that all the jelly in his mind was condensed together, turning into a thick purple nucleus of the size of a soybean.

The fifth transformation of the source of the nuclear source was completed in the other hand in an instant...

Chapter 2769: Origin of the covenant

According to Ye Xuan's estimation, he knew that the fifth metamorphosis of this spiritual source core in the sea would take at least a month to complete. At the moment, the purple matter of thousands of large and small jelly is Under the strength of the other party, the condensed cohesion was completed in an instant, turning into a thick purple crystal of the size of a soybean.

In addition, Ye Xuan's previous mental damage caused by the perfect shock was also wiped out in an instant, and there was no trace of ambiguity.

The other party discovered his human identity, but not only did not kill him, but accidentally helped, all of which made Ye Xuan puzzled.

"who are you?"

Since the other party did not kill himself, there should be no danger in a short period of time. Ye Xuan's heart was slightly fixed, but the middle of it was flashing with the fine mans, firmly locked in the face of the crazy mosquito emperor.

"Little doll, I haven't explored your origins. This, I have not searched for souls, you are the clearest..."

In the face of Ye Xuan's questioning, the madness of the madness of the mosquitoes reveals an unpredictable meaning, and the forefoot of the mosquito-legged legs is swung, like a swinging hand: "Okay, you only need to know that you are a friend between us and me. You can, the emperor gives you a few words of advice, I hope you can remember, otherwise, it may not be halfway through the dead, little doll, you have to understand a little, alive, can do something, die... everything is empty !"

"First of all, before your spiritual source has changed to the seventh level, it will be repaired into a realm. It must not break through to the original point. Even if it is in the black hole, the 9th order is perfect, but it must not break through to the original point. Otherwise, the Emperor here will prepare for you a big day, you can't enjoy it!"

"Two conditions: repairing the realm before the original point! The spiritual source has changed to the seventh level!"

"When you meet these two conditions at the same time, you can come to me. The emperor will guarantee to you that he will give you a great creation!"

"In addition, this time the Emperor will not let you return empty-handed."

"For this family of mosquitoes, the emperor did not owe it. The girl said just right..."

"But it, the millions of mosquitoes and elites, you take them away, the emperor will give them a death order, and since then, loyal to the doll you, but there is a premise, you must treat them as real people, generally, otherwise, Once the tens of millions of mosquitoes have retorted, the instructions of the emperor will be useless."

"Don't forget, they almost all gave birth to a spiritual existence. Although only the wisdom of human beings is seven or eight years old, at least, it has been able to distinguish between good and bad!"

"What? You... are you willing to let me take away the millions of mosquito elites?"

Regarding the previous words of the other party, Ye Xuan initially became a trap for the creation of the genre, and determined that the other party must have a plot for himself, but then with the other party's pledge, this suspicion Ye Xuan also No more.

But before he came back, he asked again, and the crazy mosquito king threw out such a blockbuster... So Ye Xuan began to doubt again whether it was really crazy, too. Big hand!

"Why not?"

"The Emperor and the Emperor of the Year... Hey, after all, he lost his heart after the failure. For thousands of years, he really owed the entire mosquito family!"

"Now that I have seen hope in you, the emperor himself has cheered up, and you have the ability to take thousands of mosquitoes and elites out as a group of fires. This opportunity, the emperor should take good care of them..."

"How? The Emperor will send you thousands of mosquito and beast elites. Although you can't expose them at will, but at the necessary time of life and death, you can help you crush any existence below the natural environment. Can you still not appreciate it?"

Later, in the words of the crazy mosquito king, there was already a faint disappointment, and the tone was cold.

"Mosquito, I don't mean this, just too unexpected..."

Since I had already had the other party's heart vowed in the past, Ye Xuan was not too suspicious of this crazy mosquito emperor. At this moment, after a little sinking, he asked: "Yes, what the predecessors said Cave world, I don't know..."

"The tenth big realm after the original point of view is the hole in the sky. The Emperor was seriously injured in the same year. Even today, it only returned to the first step of the hole."

"Right, the demon of the devil family is the first-order existence of the cave. In addition, within the magic king, the same level of the heavenly strong, except for the devil, there are at least three."

"So, don't think that with these millions of mosquitoes, you can cross the demonic group. If they are the army of thousands of mosquitoes, they will be fearless in the original 9th-order grand sacred, but they will be able to grind. Consolidate the army of mosquitoes and beasts."

"So, if you are not at a critical juncture, don't use the mosquito army in the vicinity of the Magic Emperor... In fact, after using it, even if you solve the danger at that time, but afterwards, it will die

faster, once the demon Shoot, or the three devils and ancestors, you have no chance, the emperor's million mosquitoes and animals will be ruined in your hands!"

"After the first step of the cave, can you crush the army of millions of mosquitoes? Here are at least thousands of black holes!"

When I heard the words of the crazy mosquito, Ye Xuan couldn't help but look a little bit strange: "Since the predecessors are so powerful, why not leave the mosquito star?"

"You can't go! These are not what you can know now. In the future, when your spiritual source has changed to the seventh level, you may be able to tell you, but you must remember that you cannot break through to the original point. Otherwise, everything will be abandoned. !"

Speaking of this, the crazy mosquito king suddenly remembered something, and the voice turned and then answered: "Right, the old man has branded a spiritual imprint in your knowledge of the sea. Before the original point, you simply feel Not enough, but the matter still has to tell you, lest you have a gap or misunderstanding between me and me."

"This spiritual brand is not a ban, nor does it have any effect on you. It is just a protective brand that protects you from the sea and is not explored by other demons. With it, even the Emperor can no longer detect you. The sea of knowledge."

"Because the magic king's spiritual core is only the seventh level, the other three demon family ancestors are only the sixth level, and the emperor stays in your knowledge of the sea, and the spiritual brand that is branded in your spiritual source is Eight levels of spiritual branding..."

"What? You have the spirit of the eighth level? Your source core has completed the seventh transformation, is it eight things?"

When I heard this sentence, Ye Xuan was suddenly amazed.

"Yes, but what about the eight levels? The source is less than nine, and the end is the ants. The emperor has no hope, but you have..."

The crazy mosquito king said here, his look suddenly stunned, and put the mosquito leg again: "But you remember, come to me when the source nuclear level is seven, can not break through to the original point, otherwise, the nine-level source core, Will also miss you..."

Chapter 2770: Ye Xuan's mosquito pet

"Okay, the confession, can be confessed, the emperor has already explained to you clearly, the other did not say, it is not something that can't be said to you now, you ask, also ask, quickly put this million mosquitoes The beast elite will take it away..."

Putting on the mosquito leg again, the crazy mosquito king said that it was slightly over here. It seemed to suddenly think of something. The words turned around and asked with doubts: "Yes, with your current micro-power, it is impossible to These mosquitoes and animals are in the body, even if they use the space magic weapon that can tolerate living things, you can no longer take back the magic weapon after receiving it. How do you solve this problem?"

"Uh....."

Upon hearing the other person's question, Ye Xuan frowned and eventually gritted his teeth. He waved the black mosquito space fortress in the immortal world and hung it in the deepest part of the continent, but there was a huge scent on the top of the head. The canopy of the tree is hidden, not to mention the mosquito star, even if it exists within the star, there is absolutely no difference.

"Black mosquito number?"

"Ha ha ha..."

"Your kid is interesting, even the ten scouts of the Battlestars that the Devils sent to the front of the third space battlefield have been brought to you by one. Is it the slavish merit?"

"This kind of space fortress is not even the third universe. It is the latest product of the perfect space folding technology of Emperor Yi."

"Because of the perfect space folding technology, once refining, you can freely replenish the body, and the living things contained in it, because the cover of the perfect folding space will not leak a trace..."

"With this treasure, you can really take away millions of mosquito elites!"

"Oh? No, this black mosquito number, where did you take it out? Before this, the Emperor even explored your knowledge of the sea, but did not search for the soul, but never found it..."

"It seems that you have a secret on your kid."

"But this is also good. As a result, the Emperor's confidence in you is even greater..."

Having said that, the crazy mosquito king did not have too much recourse in this matter, and placed a mosquito-legged road: "Oh, the thousands of mosquitoes in the vicinity, the emperor has issued a death order, and they follow them." You, take it away quickly, remember, treat each other with heart, they are not the uninspired beasts. If you are not kind, you will be countered by thousands of mosquitoes. Don't blame the emperor for not reminding you. first....."

After that, the madness of the mosquito king looked awkward. He turned around and stopped looking at it. It seemed that the one-off tens of thousands of elite beasts left, and he was also sad.

Ye Xuan and Li Mo mosquitoes glanced at each other. The latter did not speak, but Chong Ye Xuan nodded.

"If this is the case, then thank you for your predecessors. Rest assured, Ye Xuan must be true and right. He will not be ill-treated with these millions of mosquitoes. If he picks up the right stars in the future, he will be spread as a breeding ground for mosquitoes and beasts. Go out!"

Arched to the back of the crazy mosquito king, Ye Xuan immediately made a spiritual brand.

In an instant, the main channel of the Wolo Prison in the bottom of the Black Mosquito Space Fortress has been opened, and a huge passage of 100 meters in diameter appears.

"Hey!"

"Hey..."

In the next moment, a large number of buzzing sounds, and the millions of mosquito elites around them all flocked to the huge channel of 100 meters in diameter.

All of them have received the death command of the crazy mosquito king. In addition, a little more than half have already given birth to the wisdom, possessing the existence of human beings, seven or eight years old, and naturally understand that this is a deserted beast star, separated from the devil's enslaved cage. Great opportunity, so all with gratitude and excitement.

Feeling the gratitude conveyed by these mosquito elites, Ye Xuan suddenly breathed a sigh of relief.

Not to mention, before the crazy mosquitoes moved to mention the words of thousands of mosquitoes and animals, he listened a lot, but he really felt a little drumming. Now it seems that this is a group of seven or eight-year-old children, although powerful, But the mind is like this, as long as they are better for them, nothing to throw a candy to buy a mosquito heart or something, it should not be too painful to control it.

Thousands of mosquitoes and beasts, because they are scrambling for the first time, are not afraid of half an hour, all of which have flooded into the bottom of the black mosquito number, and the loss of the million prison is big enough. Otherwise, it will not be able to continue.

In the process, Ye Xuan always pays attention to it. He roughly counted it. Before and after, he rushed into the elite of all the mosquitoes and blacks, and there were about 5,000 mosquitoes with black holes. Around the head, although they are all black and white, the number is terrible.

He is going to lead the 5,000-strong black-bodied mosquitoes in the future, and divide the entire army of millions of mosquitoes into zeros. They are divided into 5,000 squads, each with no murderous mosquitoes and 2,000 mosquitoes. Elites, in this case, are also easy to manage, and they can accurately grasp the quantity once they are required to be dispatched.

For example, in the case of only 10,000 mosquitoes and elites, he only needs to give instructions to the five black-holes that have been repaired by the murderous mosquitoes. At that time, the five murderous mosquitoes carry their own two thousand mosquitoes. Elite appearances, exactly 10,000.

Also avoiding his thousands of mosquitoes and beasts to order one by one, it is really troublesome to die.

In this matter, Ye Xuan was even handed over to the mosquitoes. In the near future, he plans to keep the mosquitoes in the black mosquitoes. On the one hand, he manages the millions of mosquitoes and elites, and divides them into 5,000 mosquitoes and squads. On the other hand, there are a lot of resources in the black mosquitoes. What do these mosquitoes need for daily cultivation, and the mosquitoes can communicate with Buck, supply them in time, and open the supply.

As the millions of mosquitoes and animals all entered the black mosquito number, the mosquitoes nodded to Ye Xuan, and then they set off and entered.

After doing all this, Ye Xuan even closed the main channel of the first layer of the black mosquito, and then the black mosquitoes were born into the immortal world.

At this point, the strong person he stayed in the hole in the virtual shuttle is only Naibo Mountain and Ba Gu guess two people, but in general, there are two black hole demons who are strong enough to shoot, basically enough .

However, Ye Xuan's original intention to come to this mosquito star has not yet been completed.

Therefore, seeing the crazy mosquito king turned and looked over, Ye Xuan slightly hesitated, then arched again, and said frankly: "Predecessors, really do not contradict each other, the younger generation came to the mosquito star there is still something, because soon Going to the Magic Emperor to carry out the trial of the Holy Child of the Black Mosquito Tribe, so you need a mosquito and beast pet. This is a sinless heart for the younger generation, but if you come to a mosquito star, you don't even bring back a pet. , I'm afraid..."

"This is also the case, rest assured, I have prepared for you!"

Before the millions of mosquitoes and elites were thrown out, at the moment, Ye Xuan just needed a mosquito, and the crazy mosquito king could not pity naturally. However, when he mentioned this matter, his face looked more distinct: "And it. Compared to these years of madness, you are branded as a slave, maybe it will be better..."

During the speech, the madness of the madness of the mosquitoes is sad, and the size of an adult is the size of an adult. Only a human head has evolved, but with the madness of the mosquitoes, the mosquitoes of the whole body appear in front of Ye Xuan. It's a breath... It's even more terrifying than Ba Gu's!
