Chapter 277: Advanced

The two advanced routes of the blood of the beasts are very useful. One is to increase the strength of both hands, and the second is to say the speed of the legs.

If you get ten advanced points, and the agile blood of the beast is advanced ten times, will the speed double up?

He looked at all the advanced routes of the blood and found that it is best to use the moving speed.

UI.

As long as the speed is as fast as a pole, even if you use a branch, you can stab the person, move to the extreme speed, and kick the human head with one foot.

He has no violent tendencies, power is not his favorite, so naturally choose the speed of movement. 10% of the speed of movement, this is likely to become a battle victory or defeat.

But the next moment, Ye Xuan suddenly thought of a problem.

The advancement of the movement speed, the blood of the beasts and the blood of the leopard are all, and the blood of the beasts and the blood of the leopard are all physical and bloody. In the future, only one kind of blood can be upgraded to the top, and only the top blood circulation can be exchanged. The second promotion goes up.

After the advance of the blood of the beast, the blood of the beastmaster is called the blood of the beast.

The blood of the beastmaster has strength and speed, and the blood of the leopard is purely speed, and has the ability to jump. If you choose the advanced speed of the electric light leopard blood, it will definitely be faster than the advance speed of the Beastmaster blood.

The question is, which blood will be promoted to the top in the future?

This is a difference in speed.

Moreover, assuming that the blood of the beast is raised to the blood of the Beastmaster, will the advanced effect be cleared, and the advanced point will disappear, or will it be returned?

These two questions make Ye Xuan very entangled.

After thinking for a while, he made a decision.

"Take him clear and not clear, first improve the current and then say, the blood of the beastmaster, it is up to you!"

At the moment, Ye Xuan is directly choosing the speed of the blood of the advanced beasts.

"Hey, the success is advanced, and the speed of the host moves by 10%."

After hearing this one tone, Ye Xuan's figure was a flash and began to fly.

"Sure enough, the speed of movement has increased by 10%, and the use of body martial arts is equally effective. With this increase, my combat power has increased by at least 20% to 30%!"

Ye Xuan laughed a few times and wandered in the forest, looking very comfortable.

He has already made the decision to raise the blood of the beastly blood to the top, because it promotes the whole constitution.

He also doesn't want to leave the advanced point to the top bloodline, and live in the moment.

As for the **** leopard blood, wait until later when you buy the top bloodline expansion.

This time, Ye Xuan really did not come wrong, not only the income of Xuan Beast Nei Dan, but also this advanced point.

"The little snake is called a swallowing beast. It's no wonder that you have eaten so much internal organs, or as thick as your fingers. Well, let me find it again and see if there is any."

Thinking of this, Ye Xuan is no longer staying, and once again search for this green land.

He hopes that there will be another ten and eight engulfing beasts, so that his strength can rise several times.

However, it is already very difficult to encounter a swallowing beast.

He gave the whole piece of green land to the past, but did not see the second swallowing beast again. It seems that the first swallowing beast was the one that was killed by him.

"Unfortunately, I don't know if this swallowing animal is a small snake or something, I hope I can meet it again."

Ye Xuan shook his head helplessly.

On the way to the devouring beast, he also killed a lot of mysterious beasts. Although his movement speed has only increased by 10%, his efficiency has improved a lot.

Two days later, he almost killed the mysterious beast in the green secluded land. The whole green area was quiet, and even the birds screamed, and the creatures were killed.

Ye Xuan's harvest is also very much, not including the elders of Tian Yuanzong and the chief refiner of the Lingxiao government, Hu Changlao. He has a total of more than 270 people of different grades. There are 17 in Dan, and 10 in Xiaodan, and there are two in Dadan.

Not only that, but he also devours more than a dozen points of phagocytosis by swallowing corpses and heavenly treasures, bringing the total to thirty-five.

This is still not the inner two of the other two.

He estimated that if all the endogenous Danes were swallowed up, his realm was not far from the land.

At this point, he is already rushing to the position of Ling Xiao Dapeng.

Before him, the elder of Tianyuanzong and the chief alchemist of Lingxiaofu had arrived.

"Ye Xuan, you are finally here." Even when the elders saw Ye Xuan, they couldn't help but say.

"Even elders." Ye Xuan respectfully said hello.

When he was in the green land, he met the elders. It was already the story of the embarrassment of Elder Hu, so even the elders already knew.

As for the great elder of Tian Yuanzong, he also truthfully said that the body of the great elder was directly transferred to the law enforcement elder of Tianyuanzong, the old man next to Hu Chang.

"Oh, I didn't expect the elders to die so badly, and the stomach was hollowed out." Tian Yuanzong's law enforcement elder shook his head and collected the body.

In addition to the corpse, Ye Xuan also took the relics of the great elders of Tianyuanzong, including those inside, and now he does not lack this spar.

"Predecessors please mourn!" Ye Xuan faint.

"A martial art road, life and death are all destiny, hehe." Law enforcement elders sighed again.

Even the elders are somewhat sad, because Elder Hu is his good friend, and they have joined Lingxiao House for several decades.

Unexpectedly, Elder Hu was broken here.

Even the elders quickly recovered. After all, they were used to the big winds and turned around and asked: "Forget it, don't mention this, how is your harvest?"

Upon hearing this question, Ye Xuan just smiled and did not speak.

Even the elders of the elders and the elders of Tianyuanzong saw his smile and immediately understood that Ye Xuan's harvest had reached the point where they could not imagine.

The law enforcement elders even sighed again and again, it is really the Yangtze River after pushing the waves, a wave is stronger than a wave.

By the way, what is the Yangtze River?

.....

Now, the three people are already in the same place, so they are directly riding Ling Xiao Dapeng and rushing back to Lingxiao.

Taking advantage of the opportunity to go back, the two elders also began to refine the inner Dan, they are one of the land of Dan Xiaocheng, one is the first entry into the Dan, the repair is all on the verge of breakthrough, as long as the corresponding internal Dan refining Maybe you can break through.

After ten days, they also returned to Lingxiao. At this time, Lingxiao House has opened up an area near Tianzhifu to live and cultivate the disciples of Tianyuanzong.
