

Super D. S 278

Chapter 278: Harvest Shuofeng

After Ye Xuan returned, he also returned directly to the residence, but found that the Song Dynasty was not there, so he went to Ling Xiaofeng and found the elders.

"You are back, how is this harvest?" Zhou Yan could not help but ask.

"Not bad, but Hu Chang is dead, and the body I have given to the elders..."

Ye Xuan sighed.

When Zhou Yanyi heard it, he also showed a stunned look, but he quickly slowed down and said: "Hey, life and death have their own destiny."

"Too elders, cut the Bible?" Ye Xuan asked again.

He has been away for more than half a month, and he does not know how the Song Dynasty refines and refines the inner refining.

"This....."

Zhou Yan paused.

This makes Ye Xuan's heart tremble, it's not going to happen, what happened?

"You can rest assured that she is fine, just entering the ruling into a very wonderful state, you come with me." Zhou Yan stood up.

Very wonderful state?

Ye Xuan heard the words, the brows were slightly wrinkled, how is a wonderful method?

He followed Zhou Yan and finally went to the door of a practice room, and then Zhou Yan quietly opened the door and walked in.

Ye Xuan followed in and found that the Song Dynasty and the Song ruling were sitting on two stone beds, sitting cross-legged and closed.

What makes him amazed is that Song Ding has a layer of ice crystals attached to his body, which occasionally emits frost. The Song ruling, the whole person's skin is red and sweaty.

When he just entered the door, he felt two different flavors.

"Taiwan elders, this is..." Ye Xuan turned and asked.

"After they came back, they were reluctant to retreat, and then there was such a situation. This is the third day. In these three days, they have not woken up once."

The elders of the elders also shook their heads reluctantly: "I have lived for decades, and this is the first time I have seen this. I have seen it once in the month. He said that the two are a special physique called yin and yang."

"Great elders? Yin and Yang twins?" Ye Xuan asked, "What is this?"

"The ruling is yin and the ruling is yang. If the two men practice together, they will enter this special state. The speed of cultivation will be ten times higher than that of ordinary people, or even a hundred times. They did not have this before, so I guess it should be the one that I passed to them, which activated the blood." The elders replied.

After listening to Ye Xuan, he suddenly remembered that in addition to him, ordinary people can also have blood.

There are two types of blood.

There is a legend on the mainland of Tianshui. It is rumored that some powerful people will condense their lifelong school into blood seeds before they die, and then pass it on to others. As long as the person successfully refines the blood seeds, he may get the magical power of the powerful person, which is generally martial arts.

The other kind of blood is randomly appearing on someone.

Some people are born with divine power, some people do not invade others, some people do not fear cold, these are blood, and some people's perception of the sword is ahead of time...

There is no doubt that the Song ruling and the Song dynasty brothers and sisters are the second type of blood.

"The blood, there will be no harm?" Ye Xuan could not help but ask.

"Wen Yue said that this yin and yang twins are very rare, usually appear between brothers and sisters, this is mentioned in a book left by your father." The elders explained.

"My father?" Ye Xuan stunned, and immediately understood that it should be Ye Chong to Lin Wen Yue.

"So you don't have to worry, you look again, what are the realms of the two of them now?" The elders suddenly said.

Ye Xuan heard the words and carefully felt it, but suddenly found that the Song Dynasty and the Song ruling were actually the land of Dan.

"My God, even with the help of refined Dan, it will not break through to the land of Dan."

Ye Xuan was amazed, before he just talked about it.

It took a day for the Song Dynasty to break through the half-step Dan Yuanjing to the Shen Dan, but it was only the mysterious beast of Dan Dan.

When he left, he gave the Song Dynasty's mysterious beast, and he was the mysterious beast of Di Dan.

"The mysterious beast of Didan, plus this yin and yang twins, let them directly break into the Didan, and when they are awake, it is already a land of Dan." Nodded.

Dadan Dacheng is also his current rank.

"Is it....."

Ye Xuan is also watching quietly. This physique is indeed good. According to this, the speed of the Song dynasty and the Song ruling can be improved.

"Well, let's not be here, go out and talk." The elders closed the door to the stone and left with Ye Xuan.

Seeing the Song Dynasty is fine, but there is a big blessing, Ye Xuan is also in a good mood.

Then, the elders of Taishang came to the courtyard with Ye Xuan and sat down.

"Say, how much do you get this time?" The elders asked some eagerly.

Ye Xuan hesitated for a moment, said: "The mysterious beast of Dan Dan, a total of two hundred and seventy, is enough for the disciples in the sect."

"What, two hundred and seventy, are you sure?" The elders, when they heard the number, immediately got up and exclaimed.

"If it is clear, it is one hundred and sixty people who entered the Dan Ding, the seventy-nine of the people in the world, and the thirty-one of the people in Dacheng." Ye Xuan continued.

This time, the elders of the elders are serving, although the realm of Ye Xuan is not high, but the strength is already strong enough to make him feel awkward.

"This, now I am in the gods of Lingfu, and there are twenty people...etc. These are just humans. How many landlords are there in Dan Dan?" said the elders. Half suddenly thought about it.

"The first time into the land of 17 Dan, the land of Dan Xiaocheng's ten, the land of Dan Dacheng two." Ye Xuan honestly answered.

Originally, he wanted to leave a little bit for the Song Dynasty, but now it seems that it is no longer needed. When the Song Dynasty is awake, it is already in the middle of the land.

"So much?" The elders were shocked again. Before they cleaned up a section of the area, it seemed that the mysterious beast was not added to Ye Xuan.

"Taiwan elders, even the elders get the mysterious beast inside Dan, three-quarters will be handed over to Lingxiao House, this should be enough?" Ye Xuan suddenly rushed to the elders shaking his eyebrows.

Too elder, his face is black, said: "You are a kid, open a price!"

"Before the elders, this Nei Dan is not a small number." Ye Xuan continued.

"Less nonsense, you open, now we are not bad!" The elders are very domineering.

This sentence is also shocking Ye Xuan.

With so many Neydan, is it really good to eat?
