

Super D. S 279

Chapter 279: First entered the land of Denmark!

Ye Dan, who is a single Dandi Dacheng, can get eight points of engulfing crystals. If it is replaced by spar, it is 80,000 pieces of spar, which is equivalent to a hundred medium-sized pieces.

"Wait, the elders have seen the menstruation before, that is, she has already come out. It is difficult, when the father used to see her, left a lot of good things?"

Ye Xuan suddenly had this idea in his heart, but he no longer thought about it. Since the elders said it, he would open.

"Okay, then I will say it."

Ye Xuan's heart brewed a bit, and said: "The 100,000 fine spar of Dadanjing Dacheng, the 30,000 of Didan's Xiaocheng, the 5,000 of the first time into the land, the two thousand people of Dacheng's Dacheng. Three hundred of Dan Cheng Xiaocheng, first entered the Dan..."

"The first time you enter the Dantian, you will be sent white." The elders on the face were sinking, and the heart was dark. Ye Xuan was really a big opening for the lion.

"Good, white!"

Ye Xuan generously agreed, saying: "Do you trade now?"

"You wait for me for a while..." The elders said, they left.

Looking at the direction of his departure, Ye Xuan's guess was also affirmed that he was too elder, and he should go to the long elder Lin Wenyue.

"It seems that my father still has a little affection for the elders, leaving a lot of good things, but why not take it out early and go to Zhongzhou to buy some weapons martial arts?"

Ye Xuan is very puzzled.

Eight years ago, when Ye Chong left the Xuanyang Empire, he was already a god, so he naturally came to the same time when he came to Lingxiao.

These mysterious beasts are very precious to the people of the gods, but for Ye Chong, the gods and gods, I am afraid that it is only a slap in the face.

"The elders have been retiring for more than a decade, and it should be because they don't want to break the four major domains. Wait, retreat..."

Thinking of this, Ye Xuan's eyes suddenly became awkward.

"The realm of the elders may have already broken through to the heavens, or the miracles."

He groaned in his heart and remembered another thing.

Before going to the green land, he sold the Chinese goods to the elders of the elders. At that time, the elders were very confident in their eyes. They were not afraid that the people of Tianyuanzong had obtained the Chinese products and shot them.

Now I want to come, it must be followed by the elders.

"It turns out that it is a pity. If the elders take the shot, the lapis lazuli may be ours. I may be able to directly break through to the heavens and even the gods."

Ye Xuan reveals a helpless look. The high man is a high person. After more than ten years of retreat, his mood is beyond the scope of the average person. A big lapis lazuli is not moving.

Of course, it is also possible that the elders will not look up.

Soon, the elders are coming back.

Ye Xuan has long been calculated, about 670,000 best spar, which is still a fraction of the seven hundred pieces of the best spar.

"Wow, haha, phagocytized more than one hundred, cool!"

When Ye Xuan took over the spar, the whole person was cool.

Sixty-seven thousand of the best spar, if all swallowed, it is sixty-seven points of phagocytosis, plus his original possession of thirty-five points, reached one hundred and two.

Now, he has already raised the three kinds of money to the top of the blood, the blood of the battle, the blood of the battle, and the blood. However, the realm is still far away.

"Well? That kind of taking, can you improve the medicinal herbs of 100% refining?" The elders asked.

"Hey, that thing is another!" Ye Xuan showed a sly smile.

This is a good opportunity for extortion. Can you miss it?

"You are a black-hearted boy, open a price!" The elders roared.

"Well, a five hundred best spar." Ye Xuan said casually.

The refining Dan, which can improve the speed of refining and refining the inner beast of the mysterious beast, only needs 5 billion to swallow the points. However, the five hundred best spar is equivalent to 50 billion.

Simply put, the price has turned up ten times.

"You kid..." The elders said, "Yeah!"

Ye Xuan heard the words, almost did not scare to death, an opening is a thousand, but fortunately his swallowing points are enough, or he will lose face.

He spent five phagocytic crystallizations directly and exchanged a thousand refined dans.

"Hey, five swallowed crystals, turned ten times, turned into fifty, it's really cool."

Ye Xuan received the best spar, at this time in his engulfing space, there are already more than one million pieces of the best spar. In total, he has 147 engulfing crystals.

These are enough for him to break through to the land.

"With these, the overall strength of my Lingxiao government may increase by two or three levels, no worse than the main city of Zhongzhou."

The elders of the elders shouted.

"Right, too elders, presumably you must have a lot of the best spar, can you lend me something?" Ye Xuan laughed.

The elders of the elders frowned. "There are so many, enough to buy the four major domains, you can't spend the flowers, what do you want to do with the spar? How much?"

"Three thousand, oh, thirty million!" Ye Xuan smiled.

"roll!"

.....

Ye Xuan was driven out by Zhou Yan. The former was somewhat puzzled. It was obviously the money left by his father. Why should he sell things back?

"Forget it, these are enough for me to break through to Didan, let me go back and talk."

Ye Xuan shook his head, then left Ling Xiaofeng and returned to his place of residence.

Then, he began to devour a little bit, and when the phagocytic crystallization in the phagocytic system was close to one hundred, he finally heard the system sound.

"Hey, the host has broken through to the first place."

"Hey, unlock the top grades for redemption!"

"Hey, unlock the top grade martial arts exchange!"

"Hey, unlock the third-class forging!"

Ye Xuan is overjoyed, and finally he can buy a product. This means that he can earn some best spar. He quickly checked it and found that a top-grade device had five phagocytic crystals, which were expensive and expensive.

He looked at the third-class weapon, and sure enough, the material needed lapis lazuli, and the map was not what he could buy now.

However, the next moment, he was stunned.

Because, better than the top of the goods, I did not have to sell!

In other words, he needs to forge himself!

In addition, there is no martial arts martial arts.

After learning the news, Ye Xuan almost cried out, because he heard that the materials of the heavenly instrument were very few and it was difficult to get together, which means that it is difficult for him to batch forge in the future. Moreover, there is no heavenly martial arts, which means that he has to get it himself, and then learn by using the swallowing points.

"Forget it, go to the elders tomorrow to ask if you want to go to the locals!"

Ye Xuan thought, it was just planted on the bed. He hadn't gotten close to the eyes these days and was tired.
