Chapter 280: task

The next day, Ye Xuan got up early and then went to Ling Xiaofeng.

Sure enough, the Song Dynasty and the Song ruling still did not go out, still in that wonderful state, but Dan Yuan is more honest than before, and it is really a thousand miles.

In desperation, Ye Xuan had to go to the elders.

In a mansion.

"How come your kid is coming again?" When the elders saw Ye Xuan, they were awkward.

"The kid really has a good thing." Ye Xuan smiled and said: "I don't know if I am too elder, can I be interested in the top product?"

"What, the top grade?" The elders, like the needles, immediately got up and exclaimed.

"Yes, the top grade, I know that there is no forging material in the elders, but I got some in the Huoyang Dongfu that day, just forged a breakthrough, so I created a few top-grade pieces, I don't know too. Elders need not?" Ye Xuan nodded.

The elders of the elders said: "Yes, of course. Now, although Lingxiao House is mainly built, the strength cannot keep up with the main cities of Zhongzhou."

"That's it, this is the top grade, it will be sold to the elders of the elders with 100,000 fine spar." Ye Xuan spent five points to devour the crystal and exchanged a top grade.

The elders of the elders took a look, and sure enough, the increase in Danyuan exceeded the number of Chinese products. With this top-grade device, he had confidence and confronted the strong players in Tiandan.

"Your boy is as enchanting as your father, and you can create a top-grade device. You know, there aren't many people in the whole state who can build it." When the elders did not say anything, they took out 100,000 pieces of spar.

"Always?" Ye Xuan continued to ask.

"The essence of Tianyuanzong is not enough, but if you change it with Nei Dan, you should be able to afford it, and give me two more." The elders answered.

"no problem!"

Ye Xuan has exchanged two out and got another 200,000 best spar.

At 15 o'clock, phagocytosis and crystallization, in exchange for 300,000 best spar, after swallowing, not only improved a lot of repairs, but also get 15 points to devour crystallization, this means of making money, is also very satisfied with Ye Xuan.

"Right, you can forge the ability of the top grades, don't mess around, especially in Zhongzhou. The top grade forgemasters on the other side are already fixed. If you appear out of thin air, you will be in trouble."

After the transaction was completed, the elders of the elders also reminded me.

Ye Xuan is a little surprised: "Tai Shang elders, do you know that I am going to Zhongzhou?"

He had already made a decision before, and he had to go to Zhongzhou for a trip. After all, he was hard to have much improvement in this eastern region.

Unless you get the lapis lazuli, the lapis lazuli is swallowed up by the lush giants of the Tiandan, and there are dozens of small giants in the Tiandan, who are temporarily unavailable.

Therefore, you can only go to Zhongzhou.

The elders of the elders gave a slight glimpse, saying: "Since you are going, it is just right, I have a mission here that you need to go to Zhongzhou to complete."

Ye Xuan's face was black, and he suddenly had a bad feeling.

"Now Yuanzong has been destroyed, and the Mo Zongzhu came to talk with me yesterday. If you want to recapture Tian Yuanzong, it is impossible to rely on our two sects. So, I want you to go to Zhongzhou to find someone to help..." The elders of the elders slowly said.

"Looking for someone? Who are you looking for?"

"Zheng Wei, the founder of the China Alliance, is now in Zhongzhou. He knows a lot of people. I hope that you will bring the news of Luyuan Giant and Celestite to the past, let the masters of Zhongzhou come over and jointly eliminate the Luyuan Giant. We have already discussed However, that lapis lazuli is not something we can swallow, so our goal is the mysterious beasts of the heavens..." The elders of the elders told the plan.

After Ye Xuan listened, it was also instantly understood.

Lingxiaofu and Tianyuanzong are the leaders of the Central State to take the lead in attracting the attention of the Luyuan giants, and then they join forces to kill the little giants in Tiandan.

"Well, I will bring the message to the past." Ye Xuan nodded slightly, just with a message, simple and easy, maybe when he came back, can he also deal with the mysterious beast of Tiandan?

"Right, there is one more point. The big apprentice of Mo Zongzhu is also in Zhongzhou, so this time, Lin Xueer will go with you, and you will also have a care." The elders added.

Ye Xuan sighed and refused: "This is a lot of trouble, I am fast."

"Lin Xueer is now at a breakthrough, waiting for her to break through, and you will leave, for at least ten days."

The elders of the elders did not give Ye Xuan the opportunity to refuse, and got up directly, and then left.

Ye Xuan was slightly helpless, but he looked at the direction of the elders who left the elders, and the heart was also a dark road: "I am going to find the elders, it is difficult, the elders are helping to refine the mysterious beasts?"

It seems that Lingxiaofu has to come up with two more powerful people in Tiandan.

In ten days, Ye Xuan still waited. By the way, I can wait for the Song Dynasty. Maybe she can go out after a few days, and then she can go to Zhongzhou together.

In the past ten days, Ling Xiaofu also restored the original order. On the sixth day, Ye Xuan learned that Lin Xueer had broken through to Xiaodan.

On the eighth day, Lin Biao, the head of Lingxiao House, broke through to Tiandan.

However, by the tenth day, the Song Dynasty still did not go out.

In desperation, Ye Xuan can only accept his life.

At this time, at the gate of Tianzhifu, there was already a Tianlei eagle that was stopped by Tianyuanzong. On this Tianlei eagle, stood a white figure, it was Lin Xueer.

When Ye Xuan approached, Lin Xueer couldn't help but say: "You can go first, why wait for me?"

Ye Xuan walked over and said coldly: "If you didn't ask your master, I have already left. For ten days, I am going to go back and forth."

Lin Xueer felt subconsciously and found that Ye Xuan was just a small person in the world, and could not help but change his face.

She also knows that Ye Xuan has obtained a large number of mysterious beasts, and will also refine the Dan, and in the last war, Ye Xuan has become a great man, how is it now only a small man Xiaocheng ?

"What is your realm now?" Lin Xueer could not help but ask.

"Don't tell you, let's go."

Ye Xuan jumped on the Tianlei Hawk.

Lin Xueer's heart trembled and said: "Are you breaking into the land of Dan?"

"It's better than you." Ye Xuan sat down directly.

This one answer, let Lin Xueer more certain, Ye Xuan has already broken through to the ground.

Before the difference between the two realms, Ye Xuan is stronger than her. Now it is only a realm. The distance between her and Ye Xuan has been opened again. This makes her the first genius of Tianyuan, and feels tremendous pressure. .

However, she did not say much, driving the Tianlei eagle directly, heading for Zhongzhou.
