

Super D. S 2911

Chapter 2911: Double advanced

"boom!"

In Ye Xuan's line of sight and inheritance, the same moment of the intersection of the **** horns and souls at the edge of the **** void battlefield in the endless distance, a huge roaring sound suddenly came, directly to Ye Xuan's I was conscious of the inheritance of the memory from the ancient memory.

Even directly let his conscious consciousness withdraw from the sea of knowledge, his eyes open!

This moment, a violent and sorrowful sigh of sorrow from the shackles of Ye Xuan suddenly opened, until this time, he found that his back is full of a large piece of cold sweat.

The forehead is even more so!

As a cultivation master in the background of a starry sky, if the heart is suffering from tremendous changes and frights, this situation will never occur. This shows that Ye Xuan at the moment is so stunned!

There is a conspiracy!

Big plot!

It is related to the ancients, and it continues to the present day, and even involves Ye Xuan himself!

And all of this, if there is a line in series, then this line is undoubtedly the **** horn beast!

However, it is clear that it is the inheritance picture of the ancient memory in the Jiu Jin Jin Jing. Although this picture really exists, it is the wild past before the endless years.

In this case, how can the **** horned beast in the picture inherit its own existence, and even its **** dawn, which is endlessly scented, can actually intersect with its own line of sight. Vision?

This is absolutely impossible!

But the glimpse of the glimmer of the dawn, but it is so real, even if Ye Xuan does not want to believe, can not be denied!

"Damn! All this, why? What secrets are there?"

The more I ponder, the more I feel the pain in my brain, and I don't think about it, but I can't hold it, and I'm unconscious.

All this makes Ye Xuan angry.

Fortunately, at this time, the familiar system prompts suddenly came from my mind, and Ye Xuan's attention was transferred to the past.

"Hey, congratulations to the host! The promotion is the realm! The current realm: the second stage of the meteor!"

"Hey, congratulations to the host! Source nuclear level promotion! Current level: Level 6! Get mental power secrets, is it activated immediately?"

The sound of the system sounded in succession, and the mood of Ye Xuan's dull stagnation suddenly improved.

The level of cultivation and the source nuclear level are both at the same time. This has never happened before, and this time, Ye Xuan did not learn from the origin of the star nuclear power, nor did he take the brain of the devil or The spirit of the spiritual source contained in the illusory body of the soul beast condenses the spiritual core.

However, the source nuclear level and the cultivation of the realm have both been promoted, which is absolutely unexpected.

However, although the accident came suddenly, but after a few thoughts, Ye Xuan even realized the reason.

Obviously, it's all because of the nine gold crystals.

The perfect quality Jiu Jin Jing took the power of the high-level spiritual origin contained in the engulfing system, and all of them were injected into the core source of the mind in Ye Xuan's mind, with the superb spiritual energy of these pure spirits. The high level directly changes his spiritual source core. From the previous fifth level to the current sixth level, it is purely inevitable!

As for the breakthrough of the cultivation of the realm, on the one hand, because Ye Xuan had previously collected a lot of star nuclear energy, it has been accumulated in the body, what is lacking is only a breakthrough opportunity.

This time, taking the nine-golden crystal, it is just the best opportunity to break through. After all, what is contained in Jiuyi Jinjing is not the power of the spirit. Ye Xuan discovered it when he was collecting it. There are also some other pure energy. After all, this nine-gold crystal is grown from the flesh and blood of a wilderness in the way of flowering. It cannot be the source of the spirit.

The pure energy of these non-mental sources, after being collected, is obviously the same as the original source of the star, and it is directly applied to Ye Xuan's main practice, that is, the repair of the worms, so His cultivation in this area is the realm of this time, and he has also achieved an unexpected promotion!

Under the joy of the heart, Ye Xuan even felt the power of his own body. Sure enough, although he was only promoted to the second order of this situation from the second-order meteorological first-order meteorological level, the revision to the realm is later, the same It is only a small-scale breakthrough, but compared with before, the change in strength after promotion and before promotion is more obvious.

At this moment, he clearly felt that his body was full of stirring power, and the whole person's state was excellent, almost unprecedented.

As for the spiritual source nucleus in the brain, after the fifth transformation, after entering the sixth level, the current volume is increased due to the level of the intrinsic spiritual power, and the density is much larger. Therefore, the spiritual source nucleus Once again, the mung bean is generally large, but it reveals a thick purple color. The original black color is getting weaker and lighter, and it is almost impossible to detect.

After a careful investigation, Ye Xuan's mood has been completely restored. The previous haze was thrown far behind, and then he immediately released the system to the system immediately after the activation of the mental source. At the same time gain the secret of spiritual strength.

If this time the source nuclear level and the breakthrough of the realm of the realm, there are still some things that make Ye Xuan unsatisfied, then it is clear that the spiritual power secret that has been obtained this time.

Previously, he had been expecting the source nuclear to change to the sixth level, what he could obtain was a magical technique in the use of spiritual power, but now this expectation is obviously lost. Ye Xuan's acquisition is still the same as last time. It is a kind of secret technique in the use of spiritual power.

However, it is better than nothing, at least not much better than the last time when you changed to the fifth level!

The last time, that is, the spiritual source of Ye Xuan broke and stood behind. From the fourth level to the fifth level, it still needs to go through a period of time and accumulation, and the fourth transformation can be completely completed.

As a result, the mosquito star met the mad mosquito king, and with his help, the process was omitted directly.

But I don't know if it was because of the external force that interfered with it. When Ye Xuan's mind knew that there were countless points in the sea like jelly jelly-like nuclear debris, and re-agglomerated into a crystal source, Ye Xuan did not hear about it. Get a system alert for any mental strength skills and secrets.

At that time, I was worried that there would be no more in the future, but today's fifth nuclear catastrophe has once again acquired a kind of mysterious technique, and finally let his hanging heart slowly fall back.

Moreover, this source of nuclear evolution to the sixth level of the spiritual power secret surgery, how to say, how much is always stronger than the mysterious spirit obtained before the transformation to the fourth level, so enough.

I am thinking, the system sounds in my mind have already sounded again...

Chapter 2912: Spiritual lightning

"Hey, congratulations to the host! Activation is successful! Get Spiritual Power Secret: Spiritual Thunder!"

As the familiar tone of the phagocytic system sounded in my mind, Ye Xuan, who was full of expectations, immediately stunned.

Spiritual lightning?

Can spiritual power actually evolve the attack power of lightning?

This point, Ye Xuan has never heard of it before!

In general, there are two types of attacks on lightning properties. One is to master certain lightning laws, and use lightning power to directly sneak lightning into the air.

The other is to use the special magic weapon of lightning properties to attack.

The magic weapon of this kind of thunder property firstly has some materials of lightning properties, and after the refining is completed, it usually has to go to some star-space thunder pools, or some thunder and lightning properties are rich in energy, and there are endless years of stars or universe voids. After collecting the lightning energy and storing it, and after refining, at that time, you can use this lightning property magic weapon in the battle to display the lightning attack.

At the moment, Ye Xuan only got a secret technique that uses spiritual power. It is obviously impossible to match the magic weapon with the lightning property.

In the same way, since it is a mystery, then it is absolutely impossible to use the thunder and lightning power to understand the thunder and lightning rules, and to use the lightning energy of the universe to directly use the lightning energy of the universe to attack and use it as you like.

Therefore, if there is no accident, this so-called spiritual thunder and lightning is mostly based on the power of his spiritual origin. After some complex attribute evolution and transformation, the spiritual power is turned into the power of lightning. Show it out and launch the attack!

Although it is not as free as the thunder and lightning power, it is not too much to consume, but at least it is more convenient to rely on the lightning property to achieve lightning strikes. As long as the spirit of the spirit is sufficient, there is no need to collect lightning energy everywhere. After refining, you can use your heart.

In general, Ye Xuan is quite satisfied!

Soon, Ye Xuan's mind was immersed in the sea of knowledge, and two groups of different energy light groups were reflected in his sight.

Both of these energy beams are suspended in the sky above the sea, quietly without the slightest movement, and different from the spiritual source of the different directions in the distance, the hollow medullary crystal and the golden small bow, which is unusually quiet.

What is contained in these two energy beams is actually some pure inheritance information. The group of blue-violet energy light groups is that Ye Xuan has achieved the fifth transformation because of the spiritual source core, and he has been promoted to the sixth level. The essence of the mysterious spirit of the spirit of the thunder and lightning.

The other group of golden energy light groups, which are contained in it, are the ancient gods and sacred bows that Ye Xuan inherits from the perfect quality Jiu Jin Jin Jing!

This name is called 陨天弓, which sounds like a magical weapon of bow and arrow type. The whole magical power is actually like the same brand, and that brand is just floating in the brain of Ye Xuan. A strange golden bow on the north side.

And this golden energy light group is how to motivate this golden small bow shape magical branding.

It can be said that both the bow and arrow type gods branded the small bow as the main body of the 陨天弓神通, or the golden energy beam of light in front of Ye Xuan at the moment, both of which are successful in successfully making the heavenly bow a strange and ancient magical power. The key to display is indispensable.

Ye Xuan extended the power of the gods to the golden energy band. Soon, a lot of sly and mysterious runes swept over his own self-consciousness.

Sure enough, it is derived from the mighty power of the ancient times. It is just such a huge amount of information, Ye Xuan never imagined before.

Undoubtedly, if you want to completely grasp and understand this ancient sacred ***** named Yu Tiangong, I am afraid that it will be far from a short period of time.

In this case, after thinking about it, Ye Xuan quickly dismissed his intention to enlighten himself.

Soon, the power of his fascination that he had extended before quickly withdrew from the golden energy light group. Ye Xuan planned to take time out of his free time and then fully understand the 陨天弓神通.

As for now, he intends to devote all his energies to the enlightenment of the spiritual power secrets that have just been harvested, that is, spiritual lightning.

Undoubtedly, the spirit of lightning and the bow of the sky, the power can obviously be a lot smaller, this point, only the spirit of lightning is a secret use of spiritual power, and the bow is a magical power. The scope, and still passed down from the distant ancient times, is already obvious!

However, for Ye Xuan, at present, this ancient sacred **** named Yu Tian Gong is far less practical and important than the spiritual lightning technique at the secret level.

This may also be one of the main factors behind Ye Xuan's discovery that he wants to successfully display the 陨天弓神通, which seems to be a rather troublesome thing, even if it is left behind.

At this moment, as he extended his power to retreat into the golden energy light group, Ye Xuan almost no hesitation, and once again, the power of this ignorance was once again plunged into another hood. Among the colored energy light clusters.

In the same way, his power of ignorance has just disappeared into the energy light group. In a moment, there is a large amount of scented information that swept over the consciousness of Ye Xuan.

Although the amount is still very large, if it compares with the massive scent information in the golden energy light group of the awning, it is obviously less too much, it is not a level of existence.

Ye Xuan roughly estimated that, according to the total amount of information on the 晦涩纹蕴这这,, ,,,,,, 能量 能量 能量 能量 能量 能量 能量 能量 能量 能量 幽幽幽幽幽幽幽幽幽幽幽幽幽幽幽幽幽幽幽幽From the time point of view, it is obviously acceptable.

After confirming this, Ye Xuan seemed to be invigorated in an instant. Now he will not hesitate, all the minds are poured into it, and soon he enters the mysterious state of the two things that I forgot, indulging in this kind of indulgence. Spiritual power uses the magical world of mystery...

Time passed slowly, and the whole mind was completely immersed in the sacred spirit of the sacred purple energy light group, Ye Xuan, who had completely lost the consciousness of time.

Unconsciously, three days have passed...

This has far surpassed his rough estimate of the time it takes to comprehend this spiritual thunderbolt at the beginning!

Fortunately, the original estimated time has been extended several times, but it is only three days. For Ye Xuan, who can stay in this mysterious sacred forbidden land for a whole month, he is reluctant to accept it!

At the last hour of the third day, even if it disappeared, Ye Xuan, who had been sitting cross-legged in the middle of the island of the cheekbone, finally opened his eyes...

Chapter 2913: Rushing corpse

"boom!"

"Zlara..."

"Card!"

.....

Just as Ye Xuan's tightly closed eyes suddenly opened without warning, in his eyes, he invisibly swayed an invisible energy shock wave, which was extremely fast, and it was still amazed by the emptiness of the void. Power, actually in the blink of an eye, has been stunned to the front edge of the skeleton island under him.

A few are coming!

And almost at the same moment, the edge of the former main tibia island is also suddenly without a sign to explode a tiny purple thunder ball, a faint purple arc instantly bursts into a spurt The scalp is numb.

This purple-throttle ball, which is only the size of an egg, and the cobweb purple electricity that appeared in the area around Zhang's circle after the thunderball blasted, is the first time that Ye Xuan has fully realized this spiritual lightning. The result of a small attempt.

I have to say that Ye Xuan is still very satisfied with the effect of this small attempt.

Although the purple ball that blasted out is small, it is like an egg, and the beaded purple power that rushed out after the blast of the thunder ball is only covered by the square.

As for the actual lethality of this Thunderbolt and Cobweb Purple, it is even more insignificant.

However, for Ye Xuan, he can have such a effect in a short time, and he is already very satisfied.

What's more, he just used a small amount of spiritual power to condense the thunderball. If it is needed, Ye Xuan will do his best, even if he does not count the power consumption of the spiritual source. The strength and connotation of spiritual strength can completely condense a body that is quite large. Once it is blown up, it is far from the first attempt of the first time.

It can be said that if it is really fighting for life, once Ye Xuan is fully committed to this kind of spiritual thunder and lightning, even if he is only a second-order micro-end of the meteor, the instantaneous attack power that can be reflected at that time is still considerable. .

It can be said that Ye Xuan's comprehensive combat has been upgraded to a level!

However, these thoughts are only briefly appearing in his mind, and then they are quickly thrown behind.

In fact, the reason why Ye Xuan is so anxious to master this spiritual thunder and lightning immediately, the real reason is actually nothing to do with the improvement of his own combat effectiveness.

His purpose is this vast and innocent black corpse!

To be precise, it is the corpse of countless wild creatures that have risen and fallen in this lifeless corpse!

Everything that happened before has already made Ye Xuan have a certain understanding of this corpse, at least, for those who know how the crystal is formed, what incentives are needed to make the corpse flower appear, and to give birth to many sacred crystals, Ye Xuan is basically already in the chest.

Although it is not yet possible to understand the specific principles, it does not affect Ye Xuan's next plan.

Obviously, as long as the corpse flower appears, then the more sacred crystals that Ye Xuan needs, basically get it.

The cause of the emergence of the corpse flower is obviously the endless corpse filled in the vast corpse of the corpse, and the corpse formed after the corpse of the corpse was ignited by the corpse and thunder!

However, although this strange corpse is vast and innocent, the corpse of corpse appears, but the probability is obviously not too high. If you sit here and die, I am afraid that the trial period of one month will come to an end. It may not be possible to expect the next corpse to find the reappearance of the elephant!

Ye Xuan naturally can't just sit and eat in this place.

That is not what he has always been!

Since the probability of smashing the thunder is unpredictable, and it is even more impossible to control it at will, then it is a big deal to change the way of thinking, and it is okay to use the thunder to ignite the corpse of the corpse.

Isn't it something that is a fire? If the territory of this corpse is too vast, and Ye Xuan must get as many mourning as possible in this short period of less than a month, this matter is simply not a problem!

"Before the area where the corpse was raging, the reason why the corpse was thin to almost negligible isolation band on the edge of the mile was because the corpse was bursting out in the corpse below. In the midair above the surface of the pool, there was a gust of wind and turmoil. The corpse was wrapped up in a violent swell, and the corpse of the murder was suddenly smashed.

In the middle of the glint, there was a bright manicure. Ye Xuan vacated the island from the bones and rushed to the previous road. He muttered and said all the details of the whole plan: "And now I am

igniting with spiritual lightning. These corpses, before the thunderballs explode and turn on the power, there is absolutely no precursor effect..."

"In this way, it is only necessary to start the fire from the central area of the corpse that is facing the crater above the crater. Then, the corpse is half-boiled in the center of the pool, and then quickly dissipates in all directions..."

"What you need to do is to wait for the corpse in the central area. After the corpse is exhausted, it will fall into shape. From the central area, you will pick up more sacred crystals and follow the bodies of the surrounding area. The flames are extinguished one after another, and gradually deep into the distance of the entire corpse,..."

"In terms of hand and hand, it is obvious that I alone cannot take into account the vast and innocent whole body of this corpse. At that time, the black wind and the cave will be sacrificed, so that the return of the whole army of the demon slaves will be picked up by the sea. It is."

"In any case, this time, we must take away as many mourning crystals as possible!"

"After all, after this time, even if there is still a chance to enter this sacred forbidden place in the future, it will at least be a hundred years later. If the ruthless crystals in the hands are not enough, I am afraid that the corner will be immortal to the stars and super brain fragments. I really don't have to wait!"

As the voice of the mouth continued, Ye Xuan galloped all the way. Soon after, he finally returned to the area where the vast corpse was facing the crater above.

"The month of January has passed nearly four days and can't be delayed!"

The figure stood on the surface of the pool, and Ye Xuan once again smashed it. After all, he finally bit his teeth and put aside the last bit of scruples in his heart. He slammed his teeth in his voice and raised his hand to the lower corpse. Wandering away...

"Booming!"

"Card!"

"Zla..."

.....

On the way back to his back, he was swayed by Ye Xuan's hands with a lot of mental power and the mental power of the thunder, and after blinking to the height of the corpse of the corpse, Immediately, there was no suspense to blast open, and there was a faint purple network that revealed the mysterious atmosphere. Between the suffocation, the smoldering smoldering of the bottom of the pool was instantly ignited!

However, the momentum of the corpse of this sudden, but clearly far beyond the expectations of Ye Xuan, within a short period of interest, a thousand miles, the fire is soaring, the endless corpse, a few moments have been Out of control, rushing out...

Chapter 2914: Picking the fruit

Originally thought that the black corpses floating over the corpse above, after being ignited, would start burning from the lower central area facing the crater, and then the fire slowly spread out towards the surrounding...

However, the fact is that Ye Xuan's expectation is that as he threw more than a dozen mentally-powered thunderballs, he blasted out the purple-purple power grid, and the result was that a large area of corpse was ignited in an instant.

Only the extent of Ye Xuan's perceived reach has reached thousands of miles, and how far away it is from the depths of the corpse is also ignited. This is impossible to estimate.

It is even more likely that the entire corpse of the corpse, the black corpse that swayed over it, has been spotted for a moment!

The fire under her eyes instantly ignited, and Ye Xuan was shocked and quickly speeded up. The first time she rushed out of the ring mountain pass!

"boom!"

Almost at the next moment, a huge pillar of fire with a diameter of a thousand miles almost rushed out of the crater through the tail, and at least thousands of miles, almost all of the sky was red.

However, this kind of red, obviously reveals a strange, after all, it is the corpse burning, red, faintly revealing a touch of gray!

It is clear that the fire is skyrocketing, but it is a cold breath, which should be because the burning is the corpse, and the amount is extremely large.

Ye Xuan subconsciously retreated backwards and then stopped. The look on his face had already been a little sluggish. He looked at the huge tower of the sky in front of him, and his heart could not help but whisper. This movement seems a bit big, nothing will happen?"

Obviously no one can answer this question. The only thing Ye Xuan can do at the moment seems to be waiting!

This level of raging fire, if it is not waiting for the fire to go down, even if he hides in the hole in the shuttle to sneak into the crater, it is estimated that it will not last long before you have to quit!

"There is only twenty days left in a month. Isn't this fire going to burn for too long?"

Realizing this problem, Ye Xuan was even more embarrassed, and after a few moments, he sighed and comforted himself: "At least, the corpse in the central area of the corpse below the crater should be exhausted soon. After all, the above is The open crater, the corpse slowly leaked out, so the concentration of corpse accumulation is not very high..."

If you climb the endless height from the huge crater where Ye Xuan is at the moment, and finally look down, the picture that you will see is not a star.

It's a broken continent!

This continent is like a complete vessel that has been dropped on the ground, split into countless pieces, large and small, spread out.

Some of these large and small pieces are connected to each other, while others are isolated and not in contact with any other pieces.

The gap between pieces and fragments is not the ocean, but the void, full of chaotic voids of turbulent flow.

In addition, this whole piece of the continent consisting of fragments, there are also a layer of voids filled with turbulent turbulence inside, just like the isolation belt, the entire continent, from the outside of the vast expanse of the meteor river, Split it out.

Just like being exiled, it was imprisoned.

This is a place of exile, a place that has been smashed and broken, and it has been stripped from the original comet river.

The piece of the leaf where Ye Xuan is located is located in the central area of the vast expanse of the continent, and it is the largest piece of all the fragments that make up the mainland.

And the crater is also in the center of the largest piece of debris. If you look at it at this moment, even if you climb to such a height, you can see that the largest central area of the debris seems to have suddenly emerged a small The red dot, this red dot, is the sacred flame column that rises in the huge mountain pass of the crater.

Such a huge corpse of flames, even if you can see a small red dot at such a horrible height, then in the mysterious continent consisting of countless pieces below, it is naturally more eye-catching. .

Although there are few creatures in the vast mysterious continent, it is not without it. At this moment, with the huge red flame column rising, there are some places in the crater everywhere, and they are instantly Attracted, and have attracted attention.

Some of them quickly regained their breath, and it seems that they have little interest in it, but there are also a small number of them, but they have all rushed to the area where the huge flame column is located.

They are far away, and there is not even a chaotic void filled with time and space, and the largest piece of the continent where the huge crater is located, which can only be detoured again and again.

It is obviously impossible to reach the destination in a short time, and it may even never be possible!

But there are also a few figures, but they are destined to reach the crater area, because they are all in the same piece of the continent, although the distance is far and near, but as long as they don't give up, after all the way, they finally arrive at this piece of debris. The crater of the central domain, that is the nailing thing!

In the whole piece of debris, when the huge flame column rises and rises, the souls who pay attention to the eyes are nearly one hundred, but at this moment, because of the interest that is coming to this side, there are only more than ten.

Most of them are located in the marginal area of the debris continent. With the vast expanse of this piece of land, even if they are fast, it will take some time to reach the crater, at least a dozen days!

The other half, a total of three, is not too far from the crater, the nearest one, can be reached within half a day!

This is a four-eyed eye!

From the body shape, compared with the ordinary tiger beast, just two more pairs of meat chops on the back, in addition, its eyes are also bi-color, with a cold cold.

In addition, it is the proportion, the head of the four-eyed tiger is nearly ten meters long, and the general tiger beast is simply not comparable.

The common saying is that it is like a tiger, and this beast has not only grown its wings, but also two pairs, plus its huge size of nearly ten meters, no doubt, its fierceness is not a leisure!

The speed is extremely horrible, and the entire body shape seems to be a faint flow vector, and every moment, it is greatly reducing the distance between it and the flame column area in front.

If there is no accident, at most about half a day, this four-eyed eye will reach the edge of the huge crater where Ye Xuan is located.

For all this, Ye Xuan did not know.

At the moment, he still waits on the edge of the crater, but he does not know that he has not had time to start, but he also wants to pick up the existence of fruit, but it has already come...

Chapter 2915: Who is afraid of who?

"Hey, I found a lot of chanting crystals, is it immediately taking the power of crystallization?"

With Ye Xuan, all the singular crystals except the gossip silver crystal and the nine gold crystals were taken out from the immortal world and thrown into the phagocytic system. The system's prompt sounded even in Ye Xuan's mind.

Without hesitation, Ye Xuan made a positive response directly. However, he emphasized that he generally added a sentence to let the phagocytic system extract all the power of the crystallization from these mourning crystals as his personal star communication. The corner of the system's intelligent center is immortal to the starry sky super brain fragments.

The so-called power of crystallization is actually similar to the power of the spirit, but it is different.

The perfect level of Jiu Jin Jin Jing that Ye Xuan had collected before, the energy extracted from the phagocytic system is more complicated.

90% is the source of the spirit, and the other 10% includes the energy of several different attributes.

Other sacred crystals and even lower-level magical star crystals, although the energy levels of the intrinsic are different, but they are all in this proportion, it is like this kind of crystallization, if there is no such different energy With such a proportional polymerization, it is impossible to form a general.

And the corner of the starry sky super brain fragments, what is needed, but it is precisely this kind of crystallization, Ye Xuan tried to take the star nuclear crystal, or the brain of the devil to give it, people do not sniff .

In order to make this horn star brain fragments grow up as soon as possible, Ye Xuan has always thrown the ordinary magic star crystal to it, the amount used, but almost no obvious effect.

This time, there are more than a hundred high-level crystallizations, that is, many chanting crystals, all of which are thrown into the bones, and held in Ye Xuan, the corner of the immortal grade brain fragments, how much will always mean meaning, slightly Let's grow and grow.

If it is still the same as before throwing a lot of ordinary-level magic stars, it is estimated that Ye Xuan's on the spot will have to spray old blood!

As for the dozens of gossip silver crystals and Jiu Jin Jin Jing left in their hands, Ye Xuan is not trying to capture this corner of the immortal star brain fragments, but considering that this guy is only a small piece of debris. In order to grow and grow to a complete immortal starry sky, the road to go is obviously long.

Therefore, throwing the top-quality goods of this gossip and Jiuyi from the beginning to let him enjoy is not appropriate. He will spoil the child and raise his mouth. Later, he will be in trouble!

After doing all this, Ye Xuan's huge crater mountain front in front of him was close to some, and looked at the fire. Although the flame column that seemed to rise seemed to be small, it still exists, look at the situation, for a while. It is not extinguished.

Under the sorrow, Ye Xuan can only turn around and fold back, but it is not the way to wait for it. Taking advantage of this time, it is better to go around!

With this thought coming out, he couldn't help but think of the other nine black mosquitoes, such as Hao Fangfang and Zuo Licheng, and I don't know where these guys are located at the moment.

Other people are not bad, the key is Zuo Licheng, Ye Xuan is still quite a memorable one.

On the one hand, I want to take advantage of this opportunity to eradicate the other side. After all, if Ye Xuan's life was too big, I was afraid that it would have fallen in the black hole area of that life. If this life and death is not reported, what kind of rebellion? What day?

In addition, about the secret of Nao Qigong to Zuo Licheng, Ye Xuan has always been concerned about it. He always feels that this matter must be related to himself, and I don't know what kind of tricks Mo Qigong is playing. When I met Zuo Licheng, before I could kill this person, I must first ask this question.

However, looking at the vast extent of the mysterious world of this side, there is no clue to find a specific person, it is almost the same as the needle, the hope of Ye Xuan's heart is not too big!

During the wave, the virtual shuttle was sacrificed from the immortal world of the body. When Ye Xuan stepped in and stepped on it, he immediately spurred the shuttle to become a touch of mans, piercing the void and galloping away... ..

At the extreme speed of the virtual shuttle, the short distance of one hour, the distance behind you is far away.

However, this road came from galloping. Ye Xuan saw the outside environment through the ship's porthole, but there was no change at all. It was almost like the surrounding crater, and it was covered with rolling hills.

It reveals the meaning of the endless ancient servants, but even a mountain cat or a bird can't see it. It is clear that the mountains are green and green, and it is full of life, but it is like a real death. The creatures are gone!

Just as Ye Xuan's heart was disappointed, the front of the void was far away, but suddenly there was a thunderous rumbling sound. It seems that there is something in the movement, and it is rapidly moving towards this side at an extreme speed. Galloping in general.

And the other party is obviously very mad, there is no convergence at all, and it is precisely because of this, its shape will come at the same speed, it will be so far away, you can hear such fierce thunder and thunder.

This is clearly the momentum that is diffused out of the other's body, caused by the impact of the void in the state of extreme speed!

All this came too suddenly, either the kittens and puppies could not see one for a long time, or one came, it was such a terrible existence, this contrast is too big, just under the defense, let Ye Xuanyuan directly Living.

Fortunately, the distance from the other side is still far away. At least from the position where Ye Xuan is at the moment, I can't see any figure in the void. It's just that the sound of the thundering thunder has already passed into the ear.

But this also just shows that the other party's horror and power, people have not yet arrived, the sound of thunder and thunder caused by the rapid rush of breath, has already spread such a long distance...

I am afraid that the black hole will be able to have such a means!

What's even worse is that the other party is clearly running here, and most of them are seeing the huge corpse of flames rising from the rear.

In other words, this product is going to pick the fruit, and it's black and black!

With this in mind, Ye Xuan immediately became angry!

The endless corpse in the huge crater was ignited by himself. So, at the moment, the countless demon corpse flowers that bloom in the depths of the mountainside are actually the result of the exchange of hard work. This crazy guy is trying to get something for nothing, just shameless!

Really, I am a good boy, I can't bully?

Previously, in the Devil's Star Field, I had to be cautious and careful. Everything was mainly low-key, but now... Hey, in this banned world, I am not afraid to reveal my identity anyway, I really want to fight. Get up, who is afraid of who still doesn't know!

"Baby guess, you immediately go out, hide your body shape and go forward to see if you can sense the other side's cultivation as a realm. If there is a result, return immediately..."

As the anger of the heart stirred up, Ye Xuan even turned to the side of the guess, so that he immediately rushed to the front, spying on intelligence...

Chapter 2916: Preparing for all

After he guessed that the forefoot had just left, Ye Xuan took a hole in the back of the foot. After the ship was put away, the two space fortresses, Black and Black Wind, were sacrificed directly!

At the same time, the concealed method was also opened at the first time. As soon as the two huge space bastions appeared, they disappeared in an instant and disappeared in the void.

The reason why Ye Xuan and the Black Wind were sacrificed, Ye Xuan's intention was to let the black mosquito and the black wind that concealed the figure and participate in the battle in the upcoming war. Go among them.

Of course, it is on the periphery, using the giant annihilator gun unique to the Battlestar to carry out long-range fire suppression.

At the thought of the scene of the firestorm, Ye Xuan was already a little waiting.

This kind of thought, he actually has already existed. After all, whoever suddenly gets the super powerful toy of Battlestar will want to try its power in the first time.

Unfortunately, Ye Xuan did not have this opportunity from beginning to end.

In the funeral star field of the third universe, it was because of the scruples of other demons scouting the fortress, and fear of leaking the news of the black mosquito.

When I got the black wind, I immediately fell into the cosmic wormhole.

Later, when it came to the first universe where the ancestral ancestral home was located, Ye Xuan even dared not try it easily. After all, the superstar destroyer of the Battlestar was blasted out, and the movement was not as big as it was, and it was not necessary to check the void afterwards. The energy fluctuations left in the air can be concluded in an instant, to determine that it is the atmosphere left by a space fortress driving a super-star.

In the Devil's Star Field, the Space Fortress is no more than a private warship. In fact, it is the same in the science and technology camp of the human world.

Therefore, the final result of the investigation will definitely be the emergence of an unknown space fortress in the Devil's Field.

This is not a trivial matter. In case of reporting, I am afraid that the Tianzu people will be alarmed. After all, the Tianzu people can send the demon to scout the third cosmic front of the cosmic wormhole, and the human race of the third universe can also in this way!

Under this circumstance, the entire Devil's Star Field is afraid that it will fall into the wind and the wind immediately. Even if Ye Xuan possesses the spiritual power unique to the Devil, it may not be exposed in the vigorous investigation of the Tianji people. The possibility!

For this reason, the two space fortresses, Black Mosquito and Black Wind, have long been seized, but they have never had a suitable opportunity to test the power of their super-killing guns.

Today, it is rare to encounter a black and dark guy in this relatively safe banned void. With such a good opportunity, he naturally cannot easily let it go!

As soon as he entered the black mosquito number, Ye Xuan called the demon slave manager Buck in the first time, let him immediately inform the black wind and the magic slave tank of the top control center

of the black mosquito, even if it started to be super for the space fortress. Destroy the gun to recharge and prepare for the emergency!

Just after all this was finished, the virtual air in front of the black mosquito has appeared in the shadow of the rushing back. Ye Xuan even opened the light curtain channel of the black mosquito, and he let go of the black mosquito.

"Master, the strength of the other side is very strong, it should be about the fourth order in the original point!"

The body shape just came out of the space door light film on the top of the black mosquito number. He guessed the result of his investigation in the first time: "And at the speed of the other party, within three minutes, you must arrive here!"

"what?"

As soon as I heard it, Ye Xuan couldn't get it, and her face changed immediately.

The fourth order of the original point, that is, the repair of the original point in the middle.

Although Ye Xuan's majesty has two supreme existences, the first is the **** mosquito, and the one is the eight-star king's scoop that was brought out from the black hole of life not long ago!

This is the law, the mosquitoes and princes blood plants are only the first order of the original point.

As for the eight-star king's scoop, because the Void corps is alive between the living body and the non-living body, there is no way to generalize their strengths in the general level of the starry sky environment. Therefore, the eight stars. In the end, Wang Cao is a few orders of the original point, let alone Ye Xuan, even I don't even know it!

However, it is better than the mosquito king of the beast!

As for how strong it is, it is impossible to know, if it is the second order of the original point...

"There is no time to think about it. If you let the other party whistle away, the countless chanting crystals in the corpse will be completely dribbled..."

As soon as I thought of myself, there were a lot of innumerable mourning crystals. Ye Xuan slammed his teeth and made a decision. The body shape had already rushed out of the black mosquitoes and waved the mosquitoes and princes.

Then, as the two spiritual imprints were raised by his hands, they were shot at the Black Mosquito and the Black Wind. From the hulls of these two space castles, two black light curtain passages appeared immediately.

Then, in the black light curtain channel in the bottom compartment of the black mosquito, a thousand black mosquitoes were quickly rushed out, all of which were black hole repairs.

The mosquitoes in this realm, Ye Xuan's tens of thousands of mosquitoes and beasts brought out from the mosquitoes and stars, are only 5,000. This time, he only used one-fifth of them.

On the other side, a thousand figure rushing out from the bottom compartment of the Black Wind is a thousand-headed void with a body shape of about two meters, and all of them are seven-star scoops with a black hole.

Ye Xuan is among the 100,000 virtual soldiers in the black hole of life. The six-star river and the seven-star black hole are also five thousand. However, the six stars of the Xinghe River will have more scoops. There are three thousand, and the black-eyed seven-star will have only two thousand.

This time, it was halfway.

And just in front of this thousand seven stars will lead the team, it is the eight-star king scoop that has the original point of no improvement, more powerful than the **** mosquito king!

Soon, with the participation of the army members of Ye Xuan, the black light curtain passages in the bottom cabins of the two space fortresses quickly closed, and then they disappeared into the void again.

At the moment, Ye Xuan has listed two huge squares in front of him. One thousand mosquitoes on the left and one thousand on the right are all black-holes.

It's just these two phalanxes, returning to the science and technology camp of the third world human race, I am afraid that I can sweep a starry country.

However, there is no grasp of whether Ye Xuan's heart is under the premature existence of whether or not they can stifle the frontal void that is in the midst of the original boom.

The effects of the two thousand black caves, the mosquitoes and the scoops, in this battle are only the auxiliary attacks that interfere with the nature. They can finally decide the key to victory or defeat in this battle. The blood of the emperor and the head of the eight-star king!

Of course, the two Star Fortress superstars are also an important determinant, but these are not enough. Ye Xuan at this moment, suddenly remembered the magical bow that he just got!

The sacred bow is a supreme magical power that has been passed down from the ancient times. Even if this user is really weak, it should not be a chance to kill a small original point...

Chapter 2917: Super destroyer

Knowing that the presence of the front is coming, it is a supreme existence with the fourth-order horror of the original point. Ye Xuan even started a series of preparations for preparation. In any case, there are countless underground corpses in the back. It's absolutely impossible for him to give up.

In fact, even if a lot of arrangements were made in the first place, the strength of preparations that Ye Xuan prepared at the moment, although not all that he had in his hands, was the most representative.

If even the original spot is repaired, the **** beast of the Emperor and the Eight Stars will be joined together, plus two thousand black holes will be repaired by the mosquitoes and the scoops, as well as the two space fortresses of the Black and Black Wind. The long-distance opportunistic attacked with a super-star-killing gun, and finally counted the full-strike of the ancient archery that he had just acquired.

If this is not possible to suppress the other side, then, even if Ye Xuan will put out the 100,000 emptiness of the black mosquito and the black wind, as well as the thousands of mosquitoes and all the beasts, and finally, even if they can win, they must be Worse victory!

And the reason why he dares to gamble this is not only because he still holds 100,000 soldiers and thousands of mosquitoes and beasts in his hands, the existence of the cave below the horizon, regardless of the dead and the dead, the energy consumption is dead ahead. The presence of the coming.

The more important reason is because of his anticipation of the ancient gods and the heavenly bows, and the strong confidence of the **** corner of the invisible world.

The original nine-star scoop emperor was the supreme existence of the cave, but the result was still directly crushed and killed by the **** corner of the soul.

In this way, what is the second step of the original point that is coming to the front?

If he really encounters a crisis of life, Ye Xuan believes that he does not know which corner of the immortal world is hidden in his body, and he will definitely shoot.

No matter what it is in the body of Ye Xuan, at least one thing is absolutely certain, that is, it definitely does not want to see Ye Xuan fall.

Once Ye Xuan fell, its plot became an empty!

From this point of view, before Ye Xuan really grew up, the body relied on such a mysterious and incomparably powerful existence, it seems that there is not a single benefit!

Realizing this, Ye Xuan suddenly shook his head and smiled, and the taste of his heart was hard to say.

It was also at this time, at the far end of the void in front, the powerful presence that was coming from the bottom of the fourth stage of the original point, and finally appeared...

"Roar!"

An earth-shattering sound of the tiger's whistle came, and the invisible sound waves seemed to be turned into a fierce and incomparable attack. When it passed, the emptiness of the air, the sound of buzzing sounds like a flood of water...

Accompanied by the majestic sound of the tiger's whistle, the end of the void at the end, a light blue speedy streamer is rushing, it seems that because of the sudden appearance of the two thousand mosquitoes and wills For the sake of the army, the other side slowed down the speed obviously. The light blue speed of the flow gradually became solid. The huge four-footed tiger with a body length of more than ten meters appeared in the distant sky in front of the line of sight.

With a sense of jokes and contempt, the figure is completely stopped. It is like walking in a leisurely way, stepping on the void, lazy and slowly step by step...

It seems to be slow, but every step is taken, but it is clearly approaching quickly, and the blink of an eye has reached thousands of miles away!

"Hey!"

The madman of the madman was the first to attack. He thought that he felt the provocation from the twilight of the other side. At this moment, the screaming shouts of the sky, the **** manskins of the whole body, the squats behind them, with one The stocks are rushing back and forth, and the meaning of wild killings is gone!

"Hey..."

Almost at the same moment, a large number of dense and screaming screams suddenly sounded. The thousand black-hole mosquito elites who were involved in this battle by Ye Xuan were quickly turned into a shadow and swiftly went.

As for the black hole that is also a thousand, the void will be scooped. Under the leadership of the Eight-Star King, there is no sound coming out, but the speed seems to be three points faster than the previous

one thousand mosquitoes. Not yet, when Ye Xuan reacted, they turned into a black man, and after seeing the **** side of the mosquito and beast, he quietly greeted the four-eyed Biqing Tiger.

At the same time, although Ye Xuan's figure did not change in the same place, even before it opened the perfect shock, completely slid the figure and breath.

But it is not nothing to do!

At the same time, the figure is quiet and quiet, but the brain has already started to run at a very fast speed. It is quickly enlightening to know the golden energy light group in the sea. Inside, it is Ye Xuan's inheritance from Jiu Jin Jin Jing's Qi Tian bow magic. Auspicious.

With his mind and mind concentrating on this matter to the greatest extent, his mind is in the sea, and the mysterious golden energy light group of the canopy is releasing a lot of crepe-like information every moment, and it is integrated into Ye Xuan. In the consciousness of the gods, quickly deduced...

"Roar!"

At the end of the void in front, the second sound of the Tigers swelled at this time, the fastest mosquito and **** king of the beast and the eight-star king scoop, and at this time, finally and the head of the four-year-old Biqing Tiger just came up. !

The battle has been tragic from the beginning!

The strength of the four-year-old Biqing Tiger is astounding. Although it is a fierce beast, this tiger has no magical power, but its physical strength seems to have evolved to some extreme.

With the second sound of the Tigers screaming, the **** king of the mosquito and the eight-star king scoop, which was on the verge of death, was stunned by its claws without a suspense.

Although it does not seem to be seriously injured, only the face of this round has disparity in strength and clearly presented.

Even the strength of a person's arbitrarily arbitrarily unable to bear it, but also about the suppression of killing?

Seeing this scene in the distance, Ye Xuan's whole heart sank into the valley, slammed his teeth, and the blood was already in the middle of the scorpion. This is the expression of the heart being pushed to the extreme, and the brain is in the golden light of the canopy. The infinite quotation of the rune information is being quickly introduced by him in a speedy overdraft that does not care about the loss of his mind...

"Hey!"

"hiss....."

As soon as he was in the face, he was swept away by the other side. The front of the sky almost stopped the body of the mosquito beast and the eight-star king scoop, clearly angered, and at the same time issued a fierce whistling sound, suddenly imposing Masterpiece, once again slammed away.

Followed by, there are two thousand thousands of black hole mosquito elites and seven stars will arrive...

"Super Stars Cannon... Give me a bang!"

Seeing the split, Ye Xuan, who had lost his body shape and breath, immediately lifted the perfect shock. At the same time as the body shape manifested, the roaring roar was heard in the mouth, and the two mentally branded messages of the order were shot from their hands. Hidden in the void, the Black Mosquito and the Black Wind are two space fortress hulls.

"Hey..."

The screaming screams of the scalp screamed quietly in the next moment!

Chapter 2918: Destroy

"Hey..."

The sound of humming sounds, although the sound is weak, but the frequency of its tremor seems to reach a certain extreme, even more than the effect of the start of the space oscillator, so that the same moment of the sound, Ye Xuan even feels his own yuan The consciousness of God is about to be directly shattered and turned into countless tiny particles of the universe!

"call out!"

"call out!"

Without waiting for him to return to God, this frequency reached some kind of extreme horrible tremor and humming, and it has been replaced by two low-pitched voices.

From the void in the far right side, the position of the black mosquito and the black wind of the hull was hidden. Two bright light beams with a diameter of only about ten meters were suddenly shot. At the end of the void, I arrived at the **** battlefield in front of me.

That's right, the diameter of these two bright columns is only ten meters!

Even the star-rated battleship of the captain of the kilometer, the energy light column bombarded by the star gun has a diameter of ten meters, and the star-strength star battleship of the three-kilometer captain has a diameter of more It is up to fifty meters!

In this way, the 10,000-meter-diameter space fortress, the size of the super-star-killing gun, the diameter of the catastrophe, should not be only a poor ten-meter diameter, at least 100 meters in diameter, it is normal!

In fact, once the superstar guns equipped with the Black Bass and the Blackwind are on fire, the diameter can reach up to 300 meters!

The smallest is ten meters!

The Superstar destroyer of the Battlestar, whose diameter of the energy beam is controllable.

If three hundred meters in diameter with a limit of shelling out, although the look fun, but in addition to the other end four Bi Ji Ching tiger, its stature around two thousand mosquito beast and the scoop, obviously also be a shelling killed.

It is with this in mind, therefore, Barker issued the instruction is the smallest diameter of the cohesive energy attack!

Super Star Destroyer cannon energy beam approaching the extreme, even more than the speed of light.

At the moment, two energy beam almost simultaneously lasing away, the other end four Bi Ji Ching Tiger territory despite a fourth-order origin of supreme cultivation, under caught off guard, although insurance, and insurance evaded one of them, but the other one energy beam, but eventually the boom in its body.

Despite only passing, but still have no doubt that the moment took one of them four wings on its spine meat, under the throes of a third road earth-shattering sound of Tigers, also at the moment crashing sounds With the infinite anger of the sky...

"Roar!"

Although the energy light column of the space bastion super-star-killing gun is horrible, but with the fourth-order sacred repair of the four 冀冀虎虎,,,,,,,,,,,,,,,,, 这两 这两 这两 能量 能量 能量 能量 能量 能量 能量 能量 能量 能量.

All of this is because it is too sudden, so that it is under the guise of being caught.

For this reason, with the horror of the stunned high temperature of the smashing of the energy of the sacred spurs on the back of the ridge, it was turned into a void, and the fierceness of this four-winged Biqing Tiger was finally completely provoked.

"Roar!"

"Roar!"

"Roar....."

The sound of the angry Tigers followed one after another, the four 冀碧碧碧碧碧碧碧碧,,,,,,,,,,,,,
,, With the eight-star
king's scoop, he was once again slammed into suspense and his body shape regressed.

This time, it was obviously injured. It seems that it is still not light. Its speed and retreat is actually a full-scale reversal for dozens of miles, but it still fails to stabilize.

"Roar!"

After the two claws took the **** mosquito and the eight-star scoop and flew, the four-eyed Biqing Tiger under the wrath of the wrath was obviously still unfinished, and once again issued a roar, swept the claws, the nearest hundred mosquitoes from his body shape. And the seven-star will be scooped, but it was instantly lost under this shot.

The mosquitoes were turned into powders, and they completely disappeared. There was only a faint blood fog in the original place, but they were dissipating as the strength of the battlefield raged.

As for the other dozens of seven stars, although the body of the crystal is strong to the extreme, even if it is crushed by the supremacy of the middle of the original point, its body is basically intact, with only a little damage and Cracked, but the consciousness inside the body with a solid crystal has undoubtedly been completely wiped out.

Dozens of slightly ruined black crystal bodies, like dead objects, fall silently from the air to the ground below without any suspense, and the eyes are already falling dust...

For a moment, the supreme existence of the two original points was once again bombarded. In addition, there were more than 100 black hole mosquitoes in the world!

Its horrific combat power is simply devastating!

With such a degree of war damage, even Ye Xuan couldn't help but be shocked. The strength of this four-year-old Bi Qinghu has clearly exceeded his previous estimate.

The situation has deteriorated to the extreme in a matter of seconds.

Although the super-star-killing guns of the Black Bass and the Black Wind are both threatening to it, the other party has already prepared for it. Although the super-star destroyer claims to surpass the speed of light, it faces the horror of the original point. The ability to respond is obviously extremely weak.

I simply can't hope for it.

In addition, the combination of the **** mosquito and the blood of the Emperor and the eight-star king's scoop has also been proved by the facts of the eyes to be meaningless. As the realm is later, the gap between the small steps is often the difference. Land.

The first stage of the star's nuclear environment is on the second stage of the upper star's nuclear environment. There may be a battle for death, and the possibility of dragging the other party into the abyss.

However, the original point of the first order of the second order of the original point of origin, but there is no such possibility of hard work, only crushed!

Under such circumstances, Ye Xuan's only choice seems to be to dispatch only the 100,000 soldiers and thousands of mosquitoes and soldiers, to sacrifice with tragic battle damage, relying on the quantitative crushing advantage, hard to kill each other!

But the final result is obviously unacceptable. Even if this four-year-old Biqing Tiger can't escape, the 100,000 soldiers and the thousands of mosquitoes under Ye Xuan can live half, even if it is good...

"A little original point of the tiger, I don't believe it, you can't kill you today!"

This kind of tragic result of nearly all the army was overwhelming. Ye Xuan was obviously unacceptable. Therefore, the idea of dispatching 100,000 soldiers and thousands of mosquitoes and animals was only just emerging from his mind. He was not hesitated by the first time. The ground was abandoned.

Seeing the split, Ye Xuan screamed and screamed in the brain, and the mind was surrounded by three different directions of the spiritual source core and the void medullary crystal, and the small golden arch of the handle, also at this time without warning. Rotate up.

As this rotation is getting faster and faster, from Ye Xuan's spiritual source nucleus and the hollow medullary crystal, there is a clear amount of silk-like energy, which is extracted at a horrible speed and quickly rushes into the hang. A golden ancient bow in the air on the other side of the sea.

At the same time, Ye Xuan, as a human monk, cultivated a large number of purely purely cultivated powers, and also turned into numerous small energy wires, which were quickly extracted and immersed in Handle golden bow...

Chapter 2919: Bowing the tiger

"boom!"

At this moment, all the changes in the sea were combined and turned into a huge roar, which made Ye Xuan's consciousness fall into awkwardness.

In the middle of it, he almost raised his left arm subconsciously.

In the next moment, the empty palm of the left hand was suddenly a golden man, and a golden bow with an energy form appeared in his left hand.

The whole handle of the big bow is simple and sturdy, and the middle part of the palm is a double-headed beast, which is oriented in the mouth of the beasts in the upper and lower directions, biting the two humanoid bodies of the humanoid body. The creatures of the two humanoid bodies are also wide-mouthed and seem to be roaring.

A string of strings formed by the infinite number of fine gold threads twisted together, the two ends are connected to the souls of the two humanoid bodies, and then a golden energy arrow appears in the string.

At this time, Ye Xuan's scorpion also smashed a strange golden glory, his right hand extended, and he pinched directly to the bowstring of the left hand energy giant bow, holding the energy arrow and slowly pulling it away...

"Hey..."

The buzzing sound of the energy tremor suddenly sounded. At this moment, the void around Ye Xuan's figure seemed to have an invisible wave, as if the arrow was only pulling the string, and the momentum that was emitted was already The void is affected by the general.

"Roar!"

At the same time, the **** land in the distance ahead, originally violently raging, killing the four sides of the four-eyed eyes, this moment seems to suddenly feel a strong crisis, cold and bones, so that its shape Steep shock, subconsciously twisted the giant head, looking in the direction of Ye Xuan.

The golden giant bow glimpsed into the same moment in the eye. The four-eyed Biqing Tiger was shocked and stunned, and the mouth again uttered an earth-shattering tiger whistle, but the breath was different from the previous roaring roar, and it clearly showed a thick Strong despair.

As if I only saw this golden arrow that was about to shoot at a distant distance, I have already let this powerful four-in-one Biqing Tiger completely cut off the hope of life, and I am sure that this time will be degraded. general.

"call out!"

A sharp and extreme sound broke through the air. At this moment, Ye Xuan directly released the right hand of the golden energy arrow under the soul, and the energy arrow with the full force of the string was rushed. Even the void was broken, and the golden streamer smashed into the room, and behind it was a black wave of tail flames.

That is the illusion that the void is torn!

At this moment, the splendid Jinhui in Ye Xuan's eyes suddenly disappeared, and the strength of the whole body seemed to be extracted in an instant.

The power of the spirit, the power of the gods, and even the unknown and mysterious atmosphere of the hollow crystal in the brain, all the things, all turned into the power of this arrow, leaving him The body is whizzing away.

The golden energy giant bow, which was originally held by his left hand, also quietly dissipated at this moment, and was reinstated as a golden bow of only the size of the thumb, hanging in the sea.

Ye Xuan's conscious consciousness was completely restored at this moment, but it was already black in the first time. The whole person was in a coma because of the force of force. He fell from the air and slammed down to the sky. Earth...

"Hey!"

Almost at the same moment, the golden arrow that whizzed away at a very fast speed seemed to directly ignore the distance of the space. Even the four-story Bianqing Tiger, which had the fourth-order uncultivated in the original point, could not be evaded. The huge figure of the meter was directly shot by the golden arrow without any suspense, and it was sent out with no more violent whistling, but it was filled with endless sadness...

"boom!"

Then, the huge body of the four-year-old Biqinghu was like a self-explosive, bursting open in an instant, and even a finger-sized piece of meat could not be left. The whole huge body was turned into a **** fog. As the golden arrow burst open, it instantly collapsed and turned into nothingness.

It is as if it has never existed before, and it has never been seen before. In the empty sky, there is still a sense of chilling and sadness that is still scattered. It is telling the tragic scene of this scene, recalling the tiger scream that this four-year-old Biqing Tiger once had. The power of the mountains!

"Hey!"

As the battle ended instantly, the front of the void had the shape of the eight-star king's scoop, which was not repaired by the original point. The sound of the tremors with a void suddenly appeared, and it was just that Ye Xuan was caught in a coma because of the force. The body that fell dust.

At the same time, the mosquitoes and beasts **** and the more than a thousand black caves were repaired by the mosquitoes and elites, and the seven-star scoops were all turned back into their bodies. They gathered around the body of Ye Xuan, who was on the ground, watching with vigilance. Everything around you, protect it!

The arrow of the right talent, although far from the inheritance of the magical power of the gods of the ancient times, is even the most powerful, but the price paid by Ye Xuan is too great. .

All the strengths in his body, including the power of the spirit, the power of the gods, and even the power of the unknown mysterious atmosphere radiated by the hollow crystals, were all instantaneously extracted.

This unfinished look looks like a gold bow of the size of a thumb. It's like a real bottomless pit. Once you activate it, the damage you need to perform the attack is too amazing.

This time, if Ye Xuan's body has a phagocytic system as the monitoring center for everything in his body, I am afraid that even Ye Xuan's flesh and blood, the power of life, will be taken out by this golden arrow. When an arrow is shot, Ye Xuan will instantly turn into a dead body. This arrow will be a strong blow at the expense of life!

At this moment, if you can enter Ye Xuan's knowledge of the sea, then, what you see will be a piece of suffocating sorrow.

In the vast expanse of the sea, except for the small golden bow, it still floats in the same place without change, whether it is Ye Xuan's spiritual core or another hollow crystal, or represents him. The sea of waves that have been cultivated as a realm, at this moment, all reveal a strange and quiet atmosphere.

The loss of this blow is too great, even the sea of knowledge, is in a slump!

It seems that I feel all of this. At this moment, the phagocytic system spontaneously mobilizes a large number of star nuclear sources from the immortal world of Ye Xuan, and draws the power from it to quickly inject into the sea of Ye Xuan.

At the same time, there are countless innumerable sacred beasts that are taken out of a small space in the immortal world in the engulfing system, and they are fully absorbed in their bodies.

With the appearance of a small black horn, a large amount of spiritual power was captured, gathered in the transit station of the phagocytic system, and then, the last bones were all injected into the sea of Ye Xuan, pouring into that it has been turned into a spiritual source of mysterious and purple color.

It was also at this moment that Ye Xuan, who was caught in a coma because of the force of force, finally slowly woke up...

Chapter 2920: Pick up hand cramps

"Hey, congratulations to the host! Level upgrade! Current level: Meteor 3rd order!"

Ye Xuan's consciousness has just recovered, and the first time in his mind came the sound of the phagocytic system. It was actually a realm of cultivation, let him suddenly look at it!

You know, not long ago, Ye Xuan had just been in the depths of the corpse, because he had collected a nine-inch gold crystal and upgraded the boundary. How long did it last? Has it actually improved again?

Subconsciously, Ye Xuan immediately inspected his own cultivation as a force, but found that all this is really a fact, compared with the previous second-order meteor, his cultivation is stronger and stronger.

Not only has it been upgraded to the third level of the meteor, but even the fifth metamorphosis of the sea has evolved to the sixth level of the spiritual source core, which has actually increased from the size of the previous mung bean. The volume of the grape grain now.

The power of the sixth level of spiritual resources contained in it has suddenly increased dramatically.

In addition, Ye Xuan also found a large number of star-nuclear source crystals in the body, all of which are blank crystals. The inner energy of the star nucleus is all taken away.

There are also a lot of black small horns, that is the energy state of the sacred beast. After the body is taken as the source of the spirit, the last remaining things, the number, as many as millions!

Ye Xuan suddenly shook his head and smiled. The sudden cultivation of his own realm and the power of the spirit of the sudden increase in capacity, it is clear that all of them are in a coma, when the phagocytic system is piled up by duckling.

Although this can be seen as a blessing in disguise, but it can be one and no longer, Ye Xuan even thinks about it, just think about it, and soon left the matter behind.

Immediately, he remembered the four-eyed Biqing Tiger!

When Ye Xuan shot an arrow, the golden arrow did not hit the body of Siqi Biqinghu. He was already in a coma, so he did not know the fallen facts of Siyi Biqinghu.

However, after the recovery of consciousness, I turned to the first four. When Ye Xuan saw that the **** beast of the mosquito beast and the eight-star king scoop and other genus had returned, they immediately came to their side and immediately realized it.

It seems that the sacred bow from the ancient times, the magical power of the heavenly bow, is really different in power, and now it is only the second largest realm of the meteorological realm, and it can actually shoot the ninth state of the original realm. There is on it.

Unfortunately, this trick can not be used, the loss is terrible, and the golden arrow that whizzes away to extract all the power in an instant, it is simply to take the rhythm of adult life!

Thinking of that scene, Ye Xuan still has a little bit of fear.

However, although this trick can not be used arbitrarily, but for Ye Xuan, it is tantamount to an endless desperate trump card.

Even the supreme existence of the fourth order of the original point can be shot without a suspense of the ground. Then, it is estimated that the strongest of the tenth world of the boundary, in the face of this arrow, the result is basically the same.

In this magician star field, the most powerful existence is nothing more than the cultivation of the tenth boundary of the realm of the realm. So, in this way, Ye Xuan in this magical star field, even if it reveals its identity in the future Origins, facing the pursuit of the supreme power, by then, life-saving should be no problem!

But all this is afterward. For him at the moment, the most important thing is the underground corpse behind him.

As soon as I read this, Ye Xuan's heart immediately glimpsed.

This four-year-old Biqing Tiger apparently saw the huge corpse of flames rising from the crater of the crater in the distance, and he came straight. Since there is already a four-year-old Biqing Tiger, the ghost knows whether there will be other Horror beast?

If it comes to two ends at a time, even if Ye Xuan gritted his teeth and once again displayed the ancient gods and sacred bows, it will eventually be nothing to do.

At most, one of them is shot, and the other... will sweep everything in an instant, not just Ye Xuan, all the strengths of his knees will be swept away!

"The tree is so big, this sacred flame column is really too eye-catching, and the matter of picking more chanting can not be dragged, otherwise it will be reborn!"

In the muttering, Ye Xuan immediately launched an action, waved the blood of the mosquito and beast to the pet beast ring, and opened the black light curtain channel of the black mosquito and the black wind, so that all the mosquitoes and soldiers All of them entered the room, and then they stepped into the black mosquito number, let Buck order, and the black wind was followed, and quickly drove.

What surprised Ye Xuan's surprise was that after a few hours, the huge corpse of the crater in the crater of the crater was obviously a small circle at this moment. According to this trend, the whole corpse was smoldered within a half-day. The column must disappear, and then you can enter the corpse to pick it.

And because of the disappearance of this sacred flame column, the powerful beasts who came from afar, after losing the guidance, if they are far away, I am afraid that they will fall into a lost path, and it is difficult to find this place again.

One thought of this, Ye Xuan hung in the eyes of the blind man suddenly put down some, but no longer anxious,

After a small half day, the corpse of flames that had just rushed out finally disappeared completely. Ye Xuan's spirit spurred and immediately rushed to the huge crater, looking down, at least the central area of the corpse below it was really no trace of fireworks. .

"At the end of the day, all the mourning crystals must be collected as soon as possible. The entire corpse of the corpse is swept away!"

Ye Xuan spiritedly, even if the two space bastions of the Black Wind and the Black Mosquito were summoned behind them, they all fell to the bottom of the sacred pool.

In the midst of the air, Ye Xuan saw a large number of demon beautiful corpse flowers in the central area of the corpse below, at least a few hundred, and there are seven golden nine-level corpse flowers.

What surprised him even more is that at the moment, from the crater mountain pass, Ye Xuan unexpectedly discovered that it was not just the corpse of the corpse that was facing the crater of the upper crater, but even in all directions. In other areas deep in the corpse, the corpse is basically extinguished.

After all, the huge rush of the corpse of flames is also the need for a large amount of corpse burning as a continuous supply of energy. In this case, the consumption rate of the corpse is obviously terrible, so the whole corpse is large. In the middle, there are not many corpses, and there are still some signs of flaming in some areas.

However, although the corpse flames have gradually disappeared, the whole piece of the vast and innocent sacred pool face, but still full of countless demon beautiful corpse flowers, Ye Xuan's knowledge can be captured no matter which direction he swept out. There are signs of a large number of corpse flowers.

"It's hard to think about it this time!"

Ye Xuan was completely excited. The whole corpse of the big corpse was vast. He had already circulated a circle around him, but he was the clearest. Now, the pots of the whole corpse are all beautiful, which is clearly Nian Jing picked up the rhythm of hand cramps...
