Chapter 2951: I met true love.

It was because the distance was a bit far away, and the initial heart was shocked too much. Later, when I was excited, I didn't care to look at it carefully. Mo Zhuangyi never found Ye Xuan's abnormality.

It was not until the moment he swept to the front, that he suddenly found that Ye Xuan was actually closed his eyes, and the state was absolutely strange.

But this is obviously not the point!

When he was focused, as he came close and found Ye Xuan's strangeness, he also had an inexplicable and powerful atmosphere. He was silently shrouded from the opposite Ye Xuan, and in an instant, he would be the whole person. Imprisoned, in addition to blinking, not only can the body shape not be able to move, the power of the body is completely lost the ability to control, even the mouth to release the sound of exclamation, is completely a luxury.

All this moment, Mo Zhuangzhen was like an ice cave.

Although he did not sense the cultivation of Ye Xuan as a realm before, the other party is only a small child tester of the black mosquito family. In general, at most, it is the fourth realm. The cultivation of the planet is a strength, even weaker.

In this case, what moment did you ban the entire body and mind of the fourth stage of the stellar world in your fifth realm?

Either this kid has had some kind of fortune in the Forbidden City, and the cultivation suddenly rises, or he is surrounded by a strange creature.

In a word, no matter what kind of situation, the facts that are in front of you are absolutely unquestionable. That is, this time, I have a cup, absolutely cup.

The breath that comes out of the other party is so fierce and cold. Now that they have already shot themselves, they are now imprisoned. Then, how can there be no other follow-up actions?

As soon as I read this, Mo Zhuangzhen's whole person was not shaken by the sorrow. At the same time, he suddenly realized that this guy in front of him had provoked thousands of powerful starry beasts in the forbidden land. Hunting, how can this means of existence be simple?

I was really blinded by lard, and I was greeted by the general sentiment. In order to rob the merits, I also made a special suggestion that other demons should not follow up. I am alone in fighting human death... Hey, this is clearly a pattern. Be dead!

Thinking about it, Mo Zhuang ~~步~~ almost sorrowful and almost cried out!

In fact, the shot of his body shape and repairing as a ban, it really has nothing to do with Ye Xuan, he is still in a coma, there is no awareness at all.

All this is completely a headless corpse!

As for the purpose, it is actually very simple, just to extract some spiritual strength, flesh and blood and vitality from Mo Zhuang's body.

There are only three of these guys in the body.

As for Ye Xuan, because of the second time, the other forces that were lost by the ancient gods, such as the power of repairing, the power of some scales, and the mysterious force of the hollow crystals, This magical star field, I am afraid it is difficult to find objects that can be obtained by direct capture.

After Ye Xuan wakes up, he can find a way to recover slowly.

The key is that as long as you gain a certain spiritual strength and flesh and blood, and the most important vitality, then Ye Xuan can basically wake up from the coma, which is the purpose of the headless baby body, Ye Xuan wakes up, it I can let go.

Of course, if it is a general existence, there is really no such thing. Even Ye Xuan's engulfing system cannot directly extract these three forces from a living creature. If you want to be embarrassed, you must only kill it first. Start.

However, the headless baby corpse is a horrible existence that can be devastated by the world's will, the back and the mysterious, and must be scary, so this little thing is really worthless for it. Now!

Soon, turned into a red-skinned headless baby corpse, and suddenly moved forward, and the three emperor Sun Mozhuang, who was imprisoned, was also included in the cover of this red pistil.

However, due to the **** color of the headless baby corpse, the diameter is not wide, only about one meter, because it was not a small loss after the previous battle with the heavenly will of the forbidden world. Also suffered a slight injury, so in order to ensure the absolute protection of Ye Xuan, I have to minimize the diameter of this red pistil cover.

Moreover, when it takes these three forces from Mozhuang's body, it is obvious that Ye Xuan cannot be abandoned. On the one hand, he is scrupulous about his safety. On the other hand, red pruning is only an intermediate medium, and it cannot be captured. The power coming in is stored in my body like a phagocytic system, so at this moment I have to bring Ye Xuan to the past.

The diameter of one meter, it is necessary to cover all the two people in the red smelt. It is conceivable how close Ye Xuan and Mo Zhuangyu are, and they are just face to face, in addition, in order to prevent themselves from concentrating from Mozambique When I took strength, I was distracted, so that Ye Xuan's body was soft. Therefore, at this moment, the headless baby corpse wrapped around Ye Xuan's body almost close to the face. He simply lifted his hands and directly took Mo Zhuangzhen. The waist is stunned.

At least, you don't have to worry about Ye Xuan's body falling to the ground because of its distraction!

However, all these thoughts are obviously only aware of the consciousness of the headless baby corpse, and everything else is unknown.

Including Mo Zhuangyu, including the rear of the moment to cool down, a disgrace of the demons.

It also includes stopping here, so I also accepted my body shape and waited for the nearly 10,000-star beast in the distance.

Similarly, Hao Fangfang and Zuo Licheng, who are secretly hiding in the distance, are secretly complaining.

In short, all the existence of the four weeks, all of them saw this scene, all of them were discolored, all shocked. No matter how big their brains are, they never imagined that there were actually two guys who met here and immediately found the feeling of finding true love. In spite of the environment in which the surrounding crisis would come at any time, they were stalked in public!

This special thing... It's really not the general dog blood and the best!

In particular, Hao Fangfang and the party of the whole thing, the three emperors, Mo Zhuangyu, and the grievances and resentment at this moment are simply awkward.

The reason why the former is resentful is naturally because he once showed good to Ye Xuan, but in the end he was relentlessly rejected, and even swearing.

I didn't expect that Ye Xuan was just a stranger here, but he was so passionate. This scene was seen by Hao Fangfang. The kind of blow really made him intolerable and his heart was bad. It is.

This unconscionable guy, who has lost his family to treat him like this, has never left, he can't think that he has just been disgusted, it's really hurting his heart...

Chapter 2952: Crazy capture

Compared with Hao Fangfang's resentment, at this moment, the three emperors of the emperor, Mozhuang, are angry and the entire chest seems to be blasted.

Before he left, he never thought that he would be degraded one day, and the other person was still a man!

If the whole body is really unable to move, and the mysterious force that completely bans his body at this moment is really too strong, even if he can't afford to rebel against it, Mo Zhuangyi estimates that he has to run away on the spot. Fight with this shameless guy in front of you.

It is a pity that not only can he not do it now, in fact, even if this mysterious terrorist force that binds his entire body disappears, Mo Zhuangzhen still does not have this opportunity.

At least, it was like this before his body recovered.

Because at this moment, as the anger in his chest surged and simmered rapidly, Mo Zhuangzhen suddenly found that his spiritual strength was quickly lost.

In addition, it seems that even his own vitality and the physical strength of the whole body are also rapidly losing.

This feeling is really horrible. He felt his mental state before a moment, and he was swaying at a speed that is visible to the naked eye, and even the body is the same. It is like an invisible time and a sudden moment. With meat speeding up the speed of the general, Mo Zhuangzhen even felt the flesh and blood cells of his body, is rapidly withering...

All this happened so suddenly, but it was so terrible, and he was so pale on the ground.

Before and after, the person was only a dozen or so seconds, and Mo Zhuang's figure was faintly soft, but because he was facing away from the more than one hundred demon emperors who accompanied him, When the guys looked at it, the situation was completely different.

Feeling, it seems that Mo Zhuangzhen was kissed by the sacred tester of the black mosquito star, and then kissed, and the whole person was intoxicated, and his body shape was soft.

As this thought flashed in my mind, the face of more than one hundred descendants of the royal family suddenly became green, and all of them felt that they didn't get up today and didn't look at the Huangli, and they were so cold that they had become a scene like this. Go back. You can't wash your eyes!

However, for the thousands of star-studded beasts who are just in the direction behind Ye Xuan, what they see is completely different, because Mozhuang is dying at a speed visible to the naked eye. The body that went down was clearly smashed by these star-studded beasts.

For a time, these starry beasts suddenly became more and more restless, and far away from Ye Xuan's gaze, unconsciously, there was a lot of jealousy, absolutely unwilling to contact or even close to each other. It means coming.

At this moment, it's just a short ten-second. Mozhuang's entire body shape has already lost a lot of circles, his eyes are deep, and his eyes are dim and dark. Just like a sick scorpion that has been in bed for a long time, the eyelids are the posture of the wind blowing down!

Fortunately, the headless baby body seems to understand that this guy can not be sucked directly to death, otherwise it will bring a lot of trouble to Ye Xuan, and for it, Ye Xuan's trouble, basically it's trouble now. Now, since it has been decided to depend on this human being, it is natural to be honored and humiliated.

It is with these problems in mind that the headless baby corpse, which has always been murderous, will soon be able to let Mozhuang **** the adult in the first few moments. After all, he will release the hand in time and then directly imprison his entire body. The power came back, letting it fall to the ground, but he directly controlled Ye Xuan's body, and quickly greeted the more than one hundred imperial descendants in front of him...

In fact, the reason why the headless baby corpse has laid down the remaining spiritual strength and blood power, the power of the flesh and blood, etc. in Mozhuang's body has not been dried up. The most important reason is actually because of this one hundred. The existence of many Devils.

There are so many anyway, naturally there is no need to catch a whole death!

At this moment, the more than one hundred people of the Devils who waited hundreds of meters behind, suddenly saw that Ye Xuan was flying directly toward his side, and he was still squatting by him. Mo Zhuang, who is intimate and affectionate, but I don't know if it's intoxicated or what's going on. It's actually a soft figure that falls directly to the ground.

Such a strange scene suddenly made all the more than 100 demons of the Devils dumbfounded.

But very quickly, after all, some people still saw it wrong, so the sound of screaming and screaming almost sounded instantly...

"There is something wrong with it. Mo Zhuangzhen won't be an accident? Otherwise...how can't it be so intoxicating!"

"It's really not right. Just look at it, but you can't do anything. Otherwise, if we go back safely, I'm afraid I can't make a difference!"

"Bad boy, what did you do to the Three Emperors?"

"Hey? This person is in a wrong state. It is actually closed eyes. Just like a walking dead, watching his swaying figure is so stagnant..."

The last guy who spoke out really saw the problem, but unfortunately everything was too late.

Because Ye Xuan at this time has clearly reached the distance from him, but at the speed of the headless baby, even if he immediately turns around and flies at full speed, obviously there is absolutely no chance.

Almost after the suffocation, Ye Xuan, who was controlled by the headless baby corpse, directly rushed to the descendant of the demon. What happened next was no different from what Mo Zhuangzhen had experienced before.

Ye Xuan's figure fluttered to the person's body, and he reached out to his waist directly, and the two were so close, they were completely veneered, plus the layer wrapped in the figure. The fascinating red mansions of the hood, and the demon queen's descendants were placed on the waist by Ye Xuan, but they stood there motionlessly, letting the other party be light and thin, and resisting the strange reaction without any action.

Everything is all together, even a fool can see the problem.

The other demons of the surrounding world suddenly burst into excitement, and some people rushed to Mozhuang's side, and the rest of the demons were hovering. Open, the direct sweep will leave Ye Xuan and the demon descendant who is rapidly dying.

"Hey!"

However, the guys have not yet reached the offensive, even if they have not yet figured out what happened, the headless baby body has directly removed the power to ban the second prey body, let the other side be powerless. The ground fell to the ground and made a squeak, but it was the first time to control Ye Xuan's body and rushed toward the third closest prey.

Until then, these demons were finally aware of the seriousness of the situation, and they were exclaimed...

Chapter 2953: Eye reappearance

"Booming..."

"boom!"

.....

In the forbidden land of the Holy Devils, the sky still continually heard the sound of the roaring sound of the screaming, even the earth under the feet, shaking like violently.

This whole piece of heaven and earth has a very dangerous sense of uneasiness, as if it will be completely destroyed at any time, so that people can not wait to immediately fly into the sky and smash.

However, even if the space channel exit from the world of this ancient cage is in front, not more than 20 miles away, but thousands of eager starry beasts, without exception, all endure The grief of the heart stopped at the distance and did not dare to approach.

At least, the guys who are covered in a strange red mans first enter the space channel. Before leaving the place, they are completely subway, and they can no longer move forward!

Among them, part of the reason is that Ye Xuan and the **** knives of the world's heavenly world will be eye-catching, and the invincible momentum that eventually ruined them has already left them extremely difficult in their hearts. The psychological shadow of the annihilation.

The other part is because the moment is happening in the distance, and it is clear that all the starry beasts have clearly seen the real horror scene.

There is no bloody, no killing, and even the demon ants who are covered in a strange red awn, have not even shown too strong momentum.

But the scene that is happening in front of it is reflected in the sights of thousands of star-studded beasts, but it is clear that they all give birth to a feeling of chilling.

Even when the heavenly giant eye was slashed, they never felt this way.

It's really because it's too horrifying, too scalp and numb.

"what....."

"Devil! This guy must be a devil, he he... He actually **** the adult in the third emperor, hehe, you are..."

At the same time, the dozens of demons who greeted the Three Emperors Sun Mozhuang, at this moment, finally found the strange state of the latter, one by one scared the face instantly pale, two of them raised Mo Zhuang Wei, while several others, turned around in a hurry, wanting to turn back and warn the other demons.

It was also at this moment that they turned back and suddenly saw the scene where the stars and beasts in the distance felt the coldness of the cold, and they couldn't wait to prevent them. These demons

were stupid in an instant, and the words in their mouths 嘎However, he stood there with his mouth open, and the whole person was thoroughly petrified, and he was suspected of being in a dream.

Since they were able to sneak into the place, the three emperors of the village, Mozhuang, counted up, but the whole time was only a few minutes, but at the moment, the more than 100 people stayed in the same place and tried the black mosquito. The companions surrounded by the Sons have fallen more than half, and all of them are skinny, some of them are climbing from the ground, their hands and feet are trembled, their movements are stagnant, and they are cold and sloppy. It's a long time in the daytime, and almost no one can see the human form!

This kind of existence is enough for dozens of people, and the remaining dozens of others have either fled to the distant place and fled, or, like the original three emperors, Mo Zhuangzhen, the figure Standing there straight, it was still motionless.

One of them was clearly being swayed by the trial of the black mosquito, and he was intimate on the veneer.

As for the final result of intimacy, it is no longer necessary to consider it. It is clearly a crime of being blamed. It is a terrible horror to be sucked into an adult. It is a terrible horror.

"Hey!"

Just as these demons were frightened by the horror scene that appeared in front of them, the demon sage who was being smothered by the waist as a food was finally released by the other party. The figure, slowly falling to the ground, the sound of the squeaking sound came, and the moments of the sluggish guys were shocked.

At this moment, the thoughts that floated in their minds for the first time were strikingly consistent, that is, nothing was left, and immediately fled and fled.

It's a pity that when this thought just rose, they found out that their legs were suddenly not listening, and they were shaking all the time. How could they not move away? This is obviously scared. The rhythm of the legs!

In the face of all this, they suddenly felt a sense of desperation. They thought that this time must be escaping. Maybe the next one to be sucked by the adult is himself. However, the crisis that will come before you, but In a flash, the blink of an eye turned again.

In front of the trial of the son of the black mosquito, after loosening the waist of the demon queen, the figure did not immediately rush to the next target, but still stood straight In situ, even, even the strange red mans that had covered his body, accidentally quickly poured into his body and disappeared completely.

Almost at the same moment, more than 30 other emperors who were scattered around his figure were originally imprisoned to a shape without a supporting bomb. They also suddenly recovered their ability to move at this moment.

Then, a terrible tragic sound immediately rang, and more than 30 demon sages, one by one, had already been thoroughly chilled. At this moment, they found that the physique recovered their ability to act autonomously, but without exception, all in the mouth. When you screamed, you turned and fled...

Obviously, today's Ye Xuan is definitely a kind of horrible existence in their eyes than the ghosts and devils from Senlu Hell. In a short period of time, they have already let the descendants of this group of demons and royals , collectively chilling!

Soon, all the more than 100 Devils, all without exception, fled to the distance.

Among the guys, a total of more than forty people were fortunate enough to escape, while the other more than 70 of the skinny Devils, after the initial incompatibility, continued All of them have slowed down. After all, the headless baby corpse really did not intend to **** in the dead. The reason why they are so soft, most of them are still scared.

For this reason, after returning to God, these seventy guys are all skinny, but at least the ability to act autonomously has recovered. Some people are alone, some are supported by their peers, and the same is also the first. Time rushed away from the distance of the road, and then did not return to the entrance of the space channel at the back of the ***** statue of the soul, disappeared!

Until then, Ye Xuan, who was standing in the same place, finally opened his eyes slowly.

"Booming..."

Almost at the same moment, the sky, suddenly burst out of a roaring sound before the far exceeds, a black giant eye, without warning, suddenly appeared...

Chapter 2954: Sky anger

"Booming..."

"boom!"

.....

As the roar of the first sound suddenly sprang up, the suffocation was followed by a horrific explosion of power. The gap was almost loud.

If the sky of the land of this ancient prisoner's cage was just a tumultuous story, then from this moment on, the whole scene of the explosion of the bombardment is clearly boiling.

Ye Xuan subconsciously looked up and glanced at the sky, and the huge black sky that caught the line of sight instantly changed his look.

I couldn't wait to figure out what happened before I woke up. At this time, a strong sense of life and death crisis had shrouded his mind, and he did not hesitate. He turned sharply at the first time and started to speed up. The entrance to the space channel at the back of the **** statue in front of the singer flies away.

The accident of this black-eyed eye undoubtedly represents the will of the world, which was once shackled by the blue-eyed shackles, and has been immersed in weakness and chaos in an instant. Nowadays, it has largely recovered.

In this case, the first one to be wiped out is Ye Xuan.

Although it was a slash, the existence of the blue sky was divided into two. The **** knives derived from the headless baby corpse, but at that time, Ye Xuan's arrow also played a role in disturbing the attention of the blue eye.

In fact, it is just that he is rebellious against the heavens and slams into the eyes of the heavenly giants. Ye Xuan will never escape the killing of the will of the heavenly will in this ruin.

What's more, the headless baby corpse that turned into the **** knives is clearly drawn from his body. Even at the moment, it is still with Ye Xuan, and once again turned into a tattoo of a corpse lamp, branded in His left chest.

All of this, Ye Xuan all knows well, at this moment, in addition to rushing to escape at this speed before the reaction of this black sky, it is obviously doomed to be no longer alive today.

Before he and the headless baby corpse joined forces, the successful fall of the blue sky, it is already lucky, if it is once again, this thing has no chance of success!

Fortunately, at this time, he was not too far from the entrance to the space channel in front. He was far away, and at the speed of Ye Xuan, he blinked between the blinks, and then he did not return directly. In the space channel, the figure disappeared instantly.

All this happened too quickly, and the black sky from the top of the sky unexpectedly appeared suddenly. At this moment, Ye Xuan's figure disappeared into the entrance of the space passage, and the whole process in the middle was only two or three seconds.

In the face of this almost inevitable crisis, if there is no escape route, it is a death, it will be a big deal, and death will have to die.

However, if there is a way to escape, and it is so close to the eyes, in this case, Ye Xuan's soles of smearing the oil, never lose anyone, have long been trained in the life and death crisis.

At this moment, until his figure has rushed into the entrance of the space channel, it disappeared completely. The thousands of star-studded beasts in the distance still stunned and sluggish. Looking up at the sky.

The black sky suddenly appeared, and these starry beasts were completely scared in an instant, and it was estimated that the brain had circled in the first time, otherwise it would not be so slow.

On the contrary, Hao Fangfang and Zuo Licheng and other six black mosquitoes of the saints testers, although the reaction speed is far from the Ye Xuan's astounding like rabbits, but they are basically the first time The body shape that has been carefully sneaked has been rushed out at an instant, and the speed has been raised to the extreme. Like the arrow of six strings, it is directed at the entrance of the space channel where Ye Xuan's figure has just disappeared.

The six people are not far from here. They were indeed similar to the starry beasts in the sky, and they were separated from Ye Xuan by a dozen miles. But then, when all the starry beasts stopped because Ye Xuan stopped in front of him, and thus stopped at the same time, the six of them had been carefully stroking forward on the ground. When the black giant eyes of the sky suddenly appeared, these six guys were only a few miles away from Ye Xuan's original place.

At such a close distance, the six of them rushed at full speed. In the blink of an eye, they also rushed to the entrance of the space passage, and then they plunged in, and finally rushed into the only escape aisle.

Until then, the nearly tens of thousands of stars and fierce beasts in the distance, awakened like a dream, suddenly returned to God.

In the next moment, with the fear of the heart, the moment is finally rendered to the extreme. The nearly 10,000-headed starry beast suddenly violently sneaked away, while screaming in the mouth, screaming and screaming, and screaming toward the front a dozen miles away. The space channel rushed away.

"Roar!"

"Hey..."

"Hey!"

.....

The sound of different screams and screams resounded, and the sky in this area was filled in the air.

Nearly 10,000 large-scale starry beasts, all of them are like crazy, dying in the air, in all directions, and in one direction, this scene is really spectacular, afraid that it is even here. The film originated from the forbidden land of the ancient times, and it has never been seen before!

In just a few dozen miles, for those stars and beasts who have at least the ninth state of the world, they are really not worth the distance. They are even faster than Ye Xuan. The time spent passing the last mile is shorter, and the time that is less than the blink of an eye has basically rushed to the entrance of the space channel.

Nearly 10,000 star-studded beasts are crowded together, but they are not allowed to enter the door. Their size is too large. The space passage is not as large as the diameter. At most, it is also the tip of a hoof.

Under the panic, these starry beasts screamed with anger and anger, and then they began a **** secret technique, and began to fully condense the body of the huge beast.

The size of the body can be reduced by reducing the body shape to within the limit. However, it takes time.

At this time, the sky has obviously not fully recovered, so it will be at this moment, and the reaction will be delayed to such a degree of black eyes, and finally completely adapted.

In the next moment, with the sudden opening of the giant eye, the black robbery of the black, like the overwhelming arrow rain, with a horrible atmosphere that destroys everything, the card is whistling and whistling. The sky is full of the sky, this is clearly a collective mess of indiscriminate, does not allow any starry beast to escape the rhythm of this ancient cage!

The ruthlessness of this scene is simply unimaginable. This is the sky wrath...

Chapter 2955: Empire turbulence

"Hey!"

"call out....."

The sound of desperate horror and screaming sounded loudly. In the face of this level of black and white, the vast majority of starry beasts were completely desperate.

But at the same time, there are also a few speeds, and the savage beast has been condensed to the inside of the singer, and the head does not return to the entrance of the space channel.

These are the stars and beasts that have successfully escaped into the space channel before the robbery, and there are more than a dozen beasts in the sky. Among them, there is the existence of the ninth state of the original boundary, and there is also the existence of the tenth boundary of the realm. About half.

Undoubtedly, these ten powerful and terrifying starry beasts, after a short while, will bring the magical city of the passage to the horrible turmoil of the disaster!

However, the violent robbery that will soon erupt in the Magic City, compared with the cruel killings that are being carried out in the space channel, is obviously nothing at all.

Almost in the ten lucky starry beasts, the figure of the beast was shrunk, and the next moment into the space passage, the innumerable black robbers from the distant sky and the sky indiscriminately rushed into the air. The land is coming...

"Card!"

"Card..."

"Hey!"

"Hey..."

.....

Along with the dense sound of the lightning card, the countless beasts and screams are also ringing, and the black lightning from the sky is like a raindrop, and each has a thick diameter. It seems that for these star-shaped beasts, which are generally more than a hundred meters in size, it is nothing at all.

But in fact, the power of this black robbery is far less than that of ordinary lightning. Only a thick one falls on the body. In a moment, a star-shaped beast of a hundred meters can be temporarily lost. The ability, the flesh is blown up, the blood of the beast is splashed, not only the flesh, but even the consciousness will be in a moment of confusion, and it will not be able to move to the ground.

Thoroughly smashed into a black electric rain and savage flesh-and-blood target!

This scene is too fierce. Thousands of tens of thousands of terrifying starry beasts, in just one minute or so, were completely smashed into a pile of black electric rain that was raging in the sky. As the mountain's scorching rotten meat, when you look at it, even the wreckage of a fierce animal with a slightly original shape can't be found.

Without exception, all are dead and dead!

"Booming..."

"boom!"

.....

With this almost dying black robbery screen completely disappeared, the sky, once again came a roar of the roar, the black eyes of the light and cold without the slightest emotions, finally eased Slowly converge, disappeared and disappeared.

Then, a piece of dense black ink quickly floated, and the heavy rain quickly poured out, and all of them were concentrated in the area where the black rain was raging, as if to kill this **** land, such as clearing the field. It is usually washed out with rain.

Soon, as the heavy rains are highly concentrated, the water on the ground quickly gathers into a flood. Like the waves, the waves are rushing in. In a short period of time, the hens are ruined. The flesh and blood of the fierce beasts swept away and poured into a deep abyss that appeared in the process of the landslide.

At the bottom of the huge abyss, a small depression formed!

If you look cold, it is clearly a miniature version of the flesh and blood corpse...

Soon after, the clouds were scattered, and near the space channel that killed the sky not long ago, it was completely completely renewed. Even the traces of a little bit of fierce beasts could not be found. All of this clearly showed a kind of Deliberately strong atmosphere.

It seems to be to cover up anything, or perhaps, just the devils who do not want to enter from this space channel in the future, will be like this caged cage because of the tragic and indescribable **** killing scene. The forbidden land has a fearful heart, and turns back and flies away!

If this is the case, then the will of the world in this ancient world of cages is clearly not obvious, but what is it, obviously no one will ever know...

.....

Deep inside the Devil's inner city, forbidden valley!

Since the more than one hundred demon emperors have entered the sacred forbidden land, it has only been divided into ten kinds!

But for the more than 6,000 demon royal elites who have been waiting in and out of the valley, as well as the ministers of the DPRK and China, this short ten-minute sub-species clearly shows that they have a bitter taste for ten hours. The general illusion.

In the process, all the magical powerhouses inside and outside the valley did not speak and remained silent, but the sound of roaring from the huge **** statue on the mountain wall deep in the valley never happened. Stopped.

This statue is used as a medium, and it has been transmitted from the other sacred forbidden land. The earthquake that caused the forbidden valley to be affected by the influence of the earth has always existed.

All the people, all in a heavy mood, subconsciously guessed that the more than one hundred young royal descendants, after entering the space passage at the end of the sacred forbidden land, at this time, is facing what is a kind of exciting Image.

It is a pity that for this, I have never seen it with my own eyes. I am afraid that no one can guess it.

Even more so for the thousands of royal elites who can wait at the moment in the valley, the more than one hundred democrats who have just entered the forbidden land of the Holy Devils, suddenly after another ten minutes, suddenly another bee From the entrance to the forehead passage on the huge skull of the **** soul, it has been returned back and forth!

Everyone's face has a fascinating color of extreme enthusiasm. The figure of the entrance to the entrance is even more confusing. It seems to have completely collapsed the mind and messed up the mind.

What is even more bizarre is that most of them are all deep in the eye sockets, and they are so skinny. If the clothes on the body have not changed, I am afraid that it is really difficult to recognize them at a time. One body is almost dead.

Such a strange scene, in an instant, all the people waiting inside and outside the valley have opened their mouths, and the sound of the cool air is more and more endless.

Even the two emperors, such as the Mo Huang and the Mo Qigong on their side, are the same. The squinting of their eyes seems to be a suspicion that they are distracted, and they are totally unbelievable in this scene.

"Hey..."

"Grandpa, help!"

"There are monsters in it, and we all sucked us up..."

At this time, the figure was plucked under the help of two descendants of the royal family who had not been robbed. The three emperors, Mozhuang, who fell to the ground in the valley, burst into a loud voice.

This guy is obviously really scared, and the grandeur of the imperial family, who was placed in high hopes by the whole demon royal family, completely disregarded his face, and his face was so frightened that he was stunned in public...

Chapter 2956: The beast is coming

After the body shape rushed into the entrance of the space, Ye Xuan had already hung up to the heart of the blind man, and immediately fell halfway. At the same time, he began to think and recall quickly in his mind.

In fact, the initial point after his recovery of consciousness happened to be just the moment before the black giant eye of the sky suddenly appeared. Before that, he had no memory at all. The last piece of memory was fainted by force. Before, I saw the blue-eyed giant eye, the blood-colored knives that were made by the headless baby corpse, and the picture cut into two halves at a glance!

However, Ye Xuan is basically able to analyze why he has arrived at this area close to the exit of the space channel.

Although he still doesn't know the headless baby corpse with a background that is bound to be extremely horrible, for what reason, he will actually look at himself. He clearly has such a terrible strength, but he has to turn into a tattoo of a corpse lamp. On your own body.

But one thing, from the previous battle, Ye Xuan has been completely sure. That is, this headless baby corpse seems to be not malicious to myself, at least not now!

With this premise, then, after Ye Xuan fainted, who was always caring for him, and quickly rushed him to the area where the space channel exited, apparently no doubt.

In addition to this, Ye Xuan even unexpectedly saw a large number of starry beasts in the distance after waking up, and they all had an answer.

These starry beasts are clearly trying to take advantage of the short-term weakness of the world's will in the forbidden world, and fleeing from this place, and they are already close to the area where the space channel is exported, but they stop at a distance and are not immediately approaching. In all likelihood, it is because of the taboo of the headless baby.

That is to say, before the consciousness of his own wakes up, the headless baby corpse has not yet been re-branded as the corpse lamp tattoo.

In this case, among the devils who have been rushing to escape, almost all of them are full of flesh and blood, and the strange scene of the same corpse can be fully explained.

This is clearly the headless baby corpse!

With its mystery, it is normal to master this kind of means. In other words, if you want to help Ye Xuan to take power from other people to help him wake up, I am afraid that there is more than enough energy and nothing can be done.

This matter, the headless baby corpse was originally a good heart, but although it succeeded in helping Ye Xuan wake up in advance, it also caused him a big trouble!

Look at the dresses of the more than a hundred young devils, all of them are invaluable, clearly showing the strong atmosphere of the palace. If Ye Xuan guessed it, these guys, all in all, are the devils. The royal family's life-long shackles, to the point of incompetence, must also be some of the priests in the magical star.

Otherwise, this holy devil bans the land and ran out of some young devil powers, and they can go to the place where they are arrogant.

In this way, Ye Xuan will only have this space channel as soon as possible, and the huge trouble will only come suddenly!

Among the more than one hundred of the noble descendants and even the imperial descendants, most of them were sucked into skinny by their own lives, almost directly becoming human beings. This matter, the Emperor Mozu and those who are in the middle of the DPRK are absolutely Will not give up!

In addition, the origins of this kind of terror means, and they will obviously not let go, they must force Ye Xuan to truthfully confess, otherwise, he is bent on his death, I am afraid it is difficult to do so!

After all, this time facing the entire Devil City, there are only a few of the existence of the cave, and Ye Xuan has a baby corpse and a **** corner, but these two are obviously not easily exposed. Otherwise, the troubles caused will be more.

Even if he can escape from the Magic Emperor, but in the future, as long as it is still within the first cosmic plane, then the chasing and harassment of the Devils will never stop spreading!

But if you do not use the power of the baby corpse and the **** corner of the soul, with Ye Xuan's micro-end repair as the strength, facing the accountability of the entire democrat royalty or even confessing, Ye Xuan has no resistance at all, this result He is equally unlikely to accept!

The mind was flying and thinking about these problems. The bitter color of Ye Xuan's face quickly appeared, and it was distressed and distressed.

Even the speed at the foot has been consciously slowed down a lot!

Before the decision was made, he did not intend to step out of this space. Once he went out, the crisis would soon come to the fore. At that time, there would be no room for manoeuvre!

Depressed, the rear of the moment, but suddenly came a few fierce beasts with excitement and excitement of low voices.

At the foot of Ye Xuan's feet, after a slight glimpse, the moment was bright.

Previously, he did not think that he would sneak out with the perfect oscillating mental strength skills, but this is too risky. He is not sure about the hidden effect of perfect shock. Can he escape the sacred exploration of the heavens? .

Outside the passage, even if Wen is not here at the moment, Mo Qigong and another royal family are always guardians of the forbidden land, but they must have been kept in the valley. At this moment, most of them have already waited outside the passage.

Therefore, after some hesitation, Ye Xuan finally dispelled the idea of this adventure, because once he was sneaked into the other side, it was unwise to expose his secrets.

But now, with the advent of the starry beasts at the rear, Ye Xuan's thoughts have changed instantly!

Once these starry beasts rushed out of the space passage, the devil's royal family outside the valley was shocked. Under the war, it was the supreme existence of the cave, and the perfect shock effect of Ye Xuan. Can successfully pass!

At that time, he can take advantage of the **** end of the two sides, after touching the forbidden valley, immediately leave the city, and then leave the magic king!

One thought of this, Ye Xuan did not hesitate, even when he launched the perfect shocking spirit strength skills, his body shape and all the breath, instantly disappeared completely.

At this moment, the exit of the space channel in front is also far away, and there is a faint gloom in the darkness. It is particularly conspicuous in the dark space.

Ye Xuan quickly approached the past, avoiding a corner on the inside of the exit, quietly crouching, waiting for the starry beasts that followed closely to rush out to help him attract firepower!

Just a few seconds later, in the darkness behind the road, there was finally a black shadow, and Ye Xuan's accident was that the first came was Hao Fangfang and Zuo Licheng, etc., just when he hesitated. When it was not necessary to take the opportunity to leave the latter, the guys had whizzed past him and rushed out.

Then, the ten heads contracted in the first time, and the starry beasts who successfully escaped into the space channel followed closely. The same whistling wind, ten huge black shadows rushed out of the passage entrance, outside. The forbidden valley, crashing down...

Chapter 2957: Bloody battle

The existence of the rushing into the space channel at the forbidden place of the holy magic can basically be counted as four batches.

The first group of the demon emperors who were frightened by Ye Xuan was the first one, followed by Ye Xuan. The third batch was Liu Fangfang and Zuo Licheng. The last batch was the ten. A powerful starry beast.

Although the four splashing and beasts are divided into four batches into the space channel, the time between them is not long, and even negligible.

Therefore, the first group of the demon emperors, after rushing out at the entrance to the forbidden valley, will have to be able to detail the situation in the forbidden land in the future, from the savage blood of the giant. In the light curtain of the forehead of the statue, it has once again rushed out of the figure, and all of them have attracted the attention of the past.

This time, it was Hao Fangfang and Zuo Licheng who saw these strange faces. The tops of the demons in the valley were first stunned, but they quickly reacted and remembered the black mosquitoes. The trial of the Son of the Son, the interest in the scorpion disappeared in an instant, and soon turned his attention to a group of demons.

At this moment, the shock is abrupt!

"Roar!"

"Hey..."

.....

The royal high-ranking people in the valley just took their eyes off, and Hao Fangfang and Zuo Licheng were also able to stand down and walk down the foot. The top of the scorpion's **** 100-meter giant's dome was suddenly spread. There are a few fierce beasts with a sense of endless joy.

Thousands of demons and strong men inside and outside the valley were almost at the same time, and then they subconsciously turned their heads to the past. In the next moment, all the people changed instantly!

In the line of sight, there were ten beasts in the blink of an eye that rushed out from the entrance of the space channel. The body type was originally only about the left and right, but after the passage, the wind rose and swollen, and the half could not breathe. It has reached a fascinating hundred meters.

Ten beasts, all this is true!

Unconsciously, all the magical powerhouses inside and outside the valley have returned to God. They have restored their original body shape. They are suspended above the valley and are arranged in a semi-circular array. They are consistently external and look at all the valleys outside the valley. The devil, the singer is clearly swaying with a hint of ***** meaning.

"What happened inside? How could the beasts in the forbidden land run out?"

In the face of this dazzling scene, the Emperor Mo asked the first response, and suddenly became violent. At the same time, he turned to the next three emperors, Mo Zhuang, and screamed: "Why is it so important that the right person has not reported it immediately in the first time? There is still time to complain... Hey!"

With a cold scream, the devil's body shape has suddenly risen to the sky, heading toward the front of the sky to clearly identify the ten starry beasts that have been listed.

At the same time, the purpose of the Tao is even more stagnation in his mouth, and the sound is shocked throughout the valley...

"Under the original point of view, the whole staff evacuated and immediately exited the valley!"

"The original point is repaired, and they quickly joined forces. In the entire forbidden valley, no mosquito or fly can fly away..."

"Wenxing, Chanas, you two with the emperor and the two emperors, five people in each side of the sky, and launched a positive fight..."

"boom!"

After the final purpose, the demon emperor Mo asked the sky to suddenly punch a fist, and slammed into the sky above the head. With a landslide-like horror-sounding roar, an invisible Majestic Its fists rushed out, and it seemed to contain some kind of mysterious laws and rhymes. In an instant, it ignited the invisible world of the void. The blink of an eye formed a huge space over the entire forbidden valley. Light blue energy mask, revealing a strong banned atmosphere!

With a punch in the hand, just relying on a little awareness of a certain mysterious law, you can give a certain kind of deaf effect in the power of this punch. A punch is clearly a magical power!

It seems to be inconspicuous, unpretentious, but in reality it is amazing!

The reason why the Emperor Mo asked Tian is obviously worried that the ten starry beasts will be chaotic in the war. This can be all the superb beasts of the original point and the hole, even if they only slip out, the whole demon The imperial city will be in a difficult situation, the magic people in the city do not know how much!

And almost at the same moment when the arm of the exhibition slammed into the sky, the other four caves that were just present in the scene were also like the best, and they all sneaked into the air, together with the magic emperor Mo Wentian. Each side, also one word lined up, facing the ten starry beasts.

On the left side, Mo Qigong and the Devil's Guardian led Chanas, and on the right, there was another emperor Mo Sihai and the high priest Wen Xing!

Among the five, the high priest Wendi was the weakest, only the first step of the heavens, but as a high priest, he is good at the secrets of the spiritual strength and the use of magical powers, so the combat power is quite powerful, completely Eligibility to participate in this battle.

Among the other four people, the demon emperor led Chanas to the fourth stage of the cave, while the two emperors Mo Qigong and Mo Sihai were all eight-dimensional in the cave. It was a late-stage repair and powerful.

As for the demon emperor Mo asked the sky, a hundred years ago, he had stepped into the cave to complete the nine-order grand perfection. In the territory of Dongtian, he was already invincible!

With its existence, the devil side, even if only five people, is still fully capable of fighting the opposite ten starry beasts.

After all, there are only five of them that are only the original point of the repair, and the other five starry beasts are the existence of the late days of the cave, but there is no nine-order great consummation, all of which are the seven steps of the cave and the eighth of the cave, with the devil Do not ask the absolute strength advantage of the day, it is an enemy two, there is no problem!

It can be said that it is precisely because of the existence of the Emperor Mo, the magician strong, although only five people face the battle, but the balance of victory, but it has been extremely tilted towards this side!

"Roar!"

"Hey..."

In fact, with the help of the Emperor Mo, the sky and the fierce beast have already realized that while the magical power of the realm has quietly appeared. Not good.

At that moment, the pair of savage meanings in the **** has long faded, but it has revealed a dignity, even the former roaring roar, but now it sounds a little similar to the low threat.

This is clearly the performance of the jealous heart, but even so, the tyrannical warfare that has emerged from the ten beasts of the starry sky has gradually become more intense as time goes by.

Even if it is taboo, the war will be the same, and the tyrannical and ferocious atmosphere will not be affected. This is the animal nature, but also the **** instinct of the fierce beasts!

At this moment, thousands of democrats inside and outside the valley have all retreated to the distant places of the valley. Only dozens of original points have been cultivated, and they are rapidly deploying around the valley. They are responsible for It is the blockade of the ground and the valley at low altitude, in case other beasts are rushing out of the passage.

Seeing this scene, Ye Xuan, who was quietly peeking out of the space channel, suddenly felt that the whole person was not good...

Chapter 2958: Own person

In fact, as early as in the ten starry sky, the beasts had just rushed out of the space channel. Ye Xuan had already quietly looked out the sights and looked at the situation outside.

As a result, the scene I saw in the eye almost shocked him.

Before that, he even thought that the high priests were not necessarily in the valley of the forbidden land. The guys who were suspected of the devil's descendants were just returning. It took a certain amount of time for the news to spread.

However, the scene I saw before was so strange that the whole forbidden land inside and outside the valley was full of people, and I couldn't help but look at it at least five or six thousand!

So many devil strong, naturally can not be directed at him, this point of self-knowledge Ye Xuan still has, but the key people are mixed, originally intended to sneak into the mess, but suddenly came outside. With so many Devils, the chances of being discovered are simply rising!

What's more, the effect of his perfect volatility and spiritual skills can only be achieved by completely absorbing the body shape and all the breath. Whether it is the naked eye, or the power of the gods and the scanning of the spiritual power, it is absolutely impossible to find.

But it's just that. It's just that it can't be seen. It doesn't mean it. It doesn't mean it really disappears. If you just stand in front of your eyes and touch it by hand, it's exactly the same as normal.

In this way, in the valley inside and outside this crowded situation, in the process of hiding the body sneak out of the valley, inadvertently touched the body, is it not on the spot to reveal the stuffing?

Realizing this, Ye Xuan was almost in a hurry, but with the decree issued by the middle-aged strong suspect who was suspected of the contemporary emperor, all the magicians inside and outside the valley were almost blind. The room went clean, and Ye Xuan was still inexplicably surprised. The problem was finally solved.

It is a pity that although the big troops have left, they have left a small team of dozens of people!

Not only did these guys have the horror of the original point of view, but they were busy at the first time, and they arranged the arrays in a split manner, all of which covered the entire valley floor area in all directions!

Seeing this scene, Ye Xuan once again on the spot!

If he wants to sneak away, it is obviously impossible to walk from the sky. On the one hand, it is easier to expose, and it is not good to be inadvertently targeted by the existence of the hole.

On the other hand, there is a fierce battle in the middle of the sky, and it is still a high-end warfare at the level of the heavens. He is still afraid of it, how can it be automatically sent to the door?

Quietly leaving from the ground is the only choice!

However, as the array of dozens of original point-of-day powers is gradually completed, at the end, the entire valley will be banned. By then, Ye Xuan can only completely stop the food!

After all, from the horrible boxing power of the middle-aged demon who is suspected of the contemporary demon, the ten powerful stars and beasts will not last long, only after the war, the other party must see When you are tired, you can know that Zuo Licheng and others will rush into the space channel before them.

But at the moment, Zuo Licheng and his party have already appeared, but they have nothing to trace. This is clearly the rhythm hidden in the space channel. At that time, they will either be forced to return to the crisis and the more powerful sacred forbidden land, or they can only Lived in the space channel.

A large group of devils, it is impossible for all the origins and even the strongest of the heavens, just to use the opportunity to enter the once in a hundred years, even if there is no magic king, you can summon a few from the face of the magic star. Well.

With these thoughts flying through the mind, Ye Xuan's feelings are getting worse and worse. In any case, it's absolutely impossible to drag on for a long time, otherwise the situation will be more and more unfavorable to himself.

When he thought about this, even if he made a decision, he would make a heart and smash an empty space. Once he was in shape, he rushed out of the entrance of the space passage. Although he had reached the forbidden valley in this place, he was Shape and breath, but there is no obvious discharge.

"Booming..."

"Hey!"

"Hey!"

.....

In the sky, the sound of a huge roar is constantly coming, and there are also fierce beasts that clearly reveal the meaning of despair and sorrow.

Ye Xuan subconsciously looked up and looked at the sky above the valley. At this moment, the sky was surging, the sky was full of the sky, the air machine affected everything, and the whole sky was in a chaotic state. Among them, only the infinite energy and the law of the atmosphere are raging, and there is no one at all.

But one thing is obviously certain. The fierce beasts that have been coming from the sky, the ten starry beasts apparently will soon be defeated and are being abused.

Such a powerful and terrifying starry beast, and still ten, at this moment, but by five seemingly inconspicuous demons, the abuser has less abuse, and there is no chance to escape...

At the thought of the power of the contemporary demon and the seven men and four, Ye Xuan suddenly became fascinated. If he could have such strength, instead of relying on the headless corpse and the soul of the body, why not As it is now, is the head of the Tibetan head shrinking?

"Hey!"

"Hey!"

Just as Ye Xuan felt at the moment, there was a slight disappointment. On the left side of the valley, there were two huge buzzing sounds that suddenly awakened him.

When I subconsciously turned around, I saw the two star-shaped beasts lying in the line of sight, and there was a dusty smoke around them, but it was already breathless. It was just a battlefield in the sky. Being killed, one is planting dust.

Moreover, these two fierce beasts are clearly the second of the five beasts who have the perfection of the heavens and the earth, and they have been killed in such a short period of time, in all likelihood, they must be made by the cave. The order of the great contemporary demon emperor personally shot.

Ye Xuan was shocked, and the urgency of his heart immediately strengthened a bit. It seems that this war is likely to end soon, and there is no way to delay.

Thinking like this, he immediately picked a direction and swept it out quickly.

It was also at this time that the top of the sky was covered in a half-air battlefield like an unidentified place, but suddenly there was a whispering sound at this moment. It was the voice of the Emperor Mo Tiantian: "Hey? There is another? What kind of beast is this? There is the ability to sneak away..."

"Booming!"

The sound of scorn, and a huge energy palm like a mountain, has already rushed out of the sky where the air is rolling, like a long eye, with a smashing atmosphere. Rising back to Ye Xuan!

This clearly shows that Ye Xuan's rhythm has been discovered. However, from the other's words, it seems that only the situation is different, but it has not been seen through. It is also a fierce beast that has been hidden.

"Own people, don't be impulsive..."

Ye Xuan's heart was miserable, and he quickly received a perfect shock, and he looked up and screamed...

Chapter 2959: Leave a living

"Hey? Zhang Wuji? Is it your kid?"

As Ye Xuan's exclamation sounded, the sound of the chaotic battlefield in the sky, the voice of Mo Qigong's accident also passed over, clearly revealing a touch of surprise and relief: "Bad boy, OK, you, The six guys just came out and didn't see you. The old man thought that you were hanging inside. I didn't expect it to be innocent. I actually got the inheritance of spiritual strength skills when I first entered, but..."

Having said that, the voice of Mo Qigong's words suddenly stagnate, and the words turn: "Oh? No, your kid has the spiritual skills of this tortoise, but you are not a beast, why is it so hidden? Is it because there is a good thing in it, is it afraid that the old man will not rob?"

"Yes, it must be like this! Hahaha, have you caught you this time? Call you not to blame me... oh, after all, it still falls into the hands of the old man!"

"Come and come, let's take your kid aside and keep it safe, lest you be indifferent, your kid will open the shrinking turtle skill and blink away!"

"Booming..."

As the last discourse was finished, the sky was overwhelmed by the turbulent thunderous battlefield, and it was a horrible thunderous thunder.

Before the Emperor Mo asked the day to press on Ye Xuan, the only amount of giant palms was micro-stagnation and then recovered. But at the same time, the other one obviously withered, although it was as big as a mountain, but it was clearly thin. Very incomparable, even the fingertips are extremely sharp energy palms, but they rumbling from the battlefield.

This time I changed the pressure to grasp, clearly distinguishing Ye Xuan directly, and brought it to the rhythm of the turbulent battlefield of the sky.

Realizing this, the latter's face immediately changed.

Whether it is Mo Qigong or the previous Mo Huang Mo Tian, Ye Xuan actually has the strength of the strength against it, although it is relying on external forces, but this is also a kind of comprehensive strength, otherwise, headless The baby and the **** corner of the soul are not attached to others, do they have to rely on themselves?

Good character, really no way!

However, these two methods did not dare to display them easily. When the great master print of the contemporary emperor was crushed, Ye Xuan would rather expose his body shape and never use it.

But at the moment, he really hesitated.

This huge energy claw that is coming from the bang is so thin and sharp, and oneself will copy it into the catch. If it is accidentally killed by the pointed five fingers, or the giant palm that is thin and fleshy, it is not cold. Bone broken, it is too much to have a cup, right?

However, listening to the words of Mo Qigong, it seems that I completely do not know what I have done to the gang of the Emperor, it is estimated that I have not had time to say it.

This point made Ye Xuan quite surprised. I knew it was like this. I just smashed it out just now. Anyway, the gang has already retreated. It's bright and straight, but no one stopped. After the valley, I fled.

As soon as I read this, he regretted that the intestines were all green, and the best way to do it was to do nothing. In the end, the best way to do it is to go straight out of the space channel, which is the safest way to dispose of it. This is simply a day dog. Now!

"Hey..."

"Hey!"

.....

Just as Ye Xuan's heart was sullen, hesitated whether he would simply sacrifice the blood of the soul, and then blasted the bird's claw that was attacked by himself, and then quickly fled, after the sky's chaotic battlefield, Once again, there was a fierce and fierce beast.

And this time is different from before, not only the remaining eight starry beasts are screaming together, but in addition to the kind of desperate accident that had existed before, there is a bit more intense panic. fear.

Ye Xuan immediately stunned, but quickly responded, the look on his face could not be eccentric.

The reason why these eight remaining starry beasts are so clear is precisely because they saw their own sake.

Previously, when the holy devil was in the forbidden land, the beasts of the beasts of the beasts were facing themselves. To be precise, they were close to themselves and had no close relationship with the headless baby. They could only be honestly in the distance. Staying, even if there is a crisis at any time, it is still not easy to approach.

This shows that these starry beasts are afraid of the headless baby and their own.

Now, when I suddenly see myself, I will forget it. However, Mo Qigong is just shooting at myself. With the fierceness of the headless baby body, in the face of this situation, I will be furious immediately. Maybe it's a shot, no matter who is in the sky, after it's turned out, it's turned into a **** knife that can be strangled by the eye of the heavenly road.

This is not to say casually. When the Holy Devil was in the forbidden land, the headless baby corpse and Ye Xuan joined together and took more than one hundred of the Devils' descendants to do adult things. It's close at hand.

For this reason, these eight starry beasts will suddenly scream and scream. The devil, Mo, is powerful, and has the strength to crush any of them, but even he is obviously Can not let these beasts lose their blood.

But in the face of even Tiandao, you can be embarrassed, and it seems that the means are still unscrupulous. Ye Xuan and the headless baby corpse that can do anything, these starry beasts are really chilling, they even The violent bloodiness of being a beast has been suppressed!

For this, in addition to Ye Xuan, the contemporary magic emperor and other people who are fighting against the eight starry beasts are obviously aware of the same.

The horror of the latter sounded again in an instant.

"Hey? These fierce beasts are actually afraid of him? And it is not the usual fear, panic so far, clearly carved into the bone marrow..."

"Seven Emperor Uncle, is this son one of the trial sons of the black mosquito? Is it strange that you can give birth to interest, there are some weird doorways!"

"A quick battle, the rest will be annihilated, leaving a living mouth on the line, the emperor will personally ask this kid to see what is strange in him..."

"Hey!"

"Booming..."

"Hey!"

"Hey!"

.....

As the last sentence of the Emperor Mo asked the end of the day, in the chaos of the sky, in the meantime, a few fierce and fierce beasts were heard again.

At the same time, there was a violent violent air-blasting sound, and it was apparent that five of the Devils had already crashed into the dead.

Then, I saw that from the sky, there were seven huge figures in the following dumplings, and they crashed into the dust.

In the next moment, the figure of the five Devils to the Strong appeared one after another in the sky. One of them, the Devil's Guardian, led Chanas, and in his hand, he was holding an eye-catching fire-tailed wolf. It is obvious that the devil is not asking for the life of the sky.

The appearance of the five people appeared, and even though they all cast their eyes on Ye Xuan, his heart smiled and subconsciously shrank his neck...

Chapter 2960: Virtual and venomous snake

Under normal circumstances, don't say that Ye Xuan is just a tester of a foreign tribe, even the official saint of the top ten tribes of the devil, even the only one who entered the sanctuary for the first time. At the time of refining, I have successfully obtained a spiritual strength skill transmission...

The guy who claims to be the current nine sons, the one who is most likely to become the future tribe of high priests, is far from enough to ignite the five eyes of the sky.

However, Ye Xuan's situation is obviously different. It is also the first time that he has entered the Forbidden City forbidden, and he has succeeded in obtaining a spiritual skill inheritance.

The key is still because of the terrifying feelings of the stars and the beasts that he almost carved into the bone marrow!

At this point, Ye Xuan knows the truth, at this moment, his heart is in the dark, and he is almost hating the stars and beasts. This is clearly a pothole!

Unfortunately, everything has happened, and regret is too late.

After the figure was revealed, with the help of the Emperor Mo, Tianxin's hand waved, even when the sky's majestic rushing force was dispelled, even the lighter blue sky above the sky was quietly withdrawn. The walk disappeared.

Then, all five of the demon people who have the ambitions of the heavens and the earth are so strong that they are easy to shape, and at the same time they are coming down and falling on the valley floor, not far from Ye Xuan!

Throughout the process, the eyes of five people have always fallen on Ye Xuan's body. They looked up and down, with suspiciousness. Only Mo Qigong's goods are usually cold and cold, but when they see Ye Xuan, they will The image completely collapsed. At this moment, the smile was dazzled. Although the

dawn in the eyes was also swayed by Ye Xuan, it clearly revealed the feeling of being a thief, and there was no suspicion.

At this moment, Ye Xuan feels a little scalp numb, and among the five Devils who have a hole in the sky, there are four people who are suspicious of their own eyes. The only exception, though, seems to be no doubt, but it is not good, but it is not a good thing.

In the face of this situation, he is only the fourth-order refinement of the second realm, and the small ants are generally good, but it is not bad to stabilize the figure.

For others, I am afraid that my legs are soft and I have already fallen to the ground.

Just as he pulled his face and wanted to make a sound and a little bit of a dignified atmosphere, from the body of the contemporary emperor, there was a sudden surge of spiritual power with a clear sense of exploration. Without any suspense, Ye Xuan's entire body was enveloped.

Then, this spiritual force was like a human monk who began to search for the soul. He directly invaded Ye Xuan's body very unkindly. After swiftly sweeping through his body, he immediately flocked to Ye Xuan's knowledge of the sea.

In the next moment, Ye Xuan only felt that there was an unknown force outside of the sea. Even if it blinked, the blink of an eye disappeared.

However, it is such a time that even the moment is not enough, the contemporary demon emperor invades his body, flocking to his knowledge of the sea, the spiritual power that wants to be forcibly explored, but it is clearly swayed by Ye Xuan. This mysterious force, hard to force out without any suspense, seems to be shocked, faster than the time, quickly retracted, completely withdraw from Ye Xuan's body.

In the next moment, the exclamation of the contemporary demon emperor has quietly sounded: "What? Eight levels of spiritual power? This is impossible..."

As the exclamation sounded, the other four were also discolored at the same time. Even the war was over, and the dozens of original devils who were plucking from the valley were also there. Awkward.

However, Mo Qigong quickly licked his mouth and directly pushed the shocking message revealed by the exclamation of the demon emperor Mo Wentian. The white eye turned straight: "This joke is not funny at all, and the devil is forcibly explored. A spiritual source of a meteor, this kind of error, you are too fake?"

In the discourse, there is a faint dissatisfaction. Obviously, for the devil, Mo did not call one to forcefully explore the behavior of Ye Xuan's spiritual source. Mo Qigong's side is extremely unhappy. After all, Ye Xuan is all The person he was looking at, the words in the sky before, the other party should be able to hear it.

As one of the three cores of the demon group, the generation is the uncle, so even if it is not as good as the realm of the realm, but the qualifications of Mo Qigong are not good, the qualifications of direct performance are still there.

In this regard, several other people apparently heard it.

Mo Sihai and the Devil's Guardian led Chanas to look at Ye Xuan's gaze. It was a little weird. It allowed Mo Qigong to show dissatisfaction with the Emperor. What kind of supernatural power this kid has, is not to take his soul away. What?

As for the high priest Wen Xing, it was a faint smile. It seems that he did not pay attention to the words of Mo Qigong. In the middle of it, he flashed a layer of thinking, which seemed to analyze the meaning of the exclamation of the demon, and then did not know. What answer did he get? In the middle of it, it was strange that even the previous faint suspicion disappeared completely.

But this is clearly a more unfathomable intuition for Ye Xuan, so that he will be vigilant in an instant.

At this moment, Ye Xuan's chest is filled with a raging anger.

Although the other party is a contemporary demon emperor, this kind of forced investigation of the spiritual source of the nuclear, but it is too overbearing and arrogant, clearly revealing the unconcealed meaning of disregard, with Ye Xuan's disposition, just this move, the devil When asked about the day, he has been completely hated by him. If there is a chance in the future, he will be stunned!

However, this kind of killing is obviously not revealed. Ye Xuan has experienced countless crises and has grown up to this day. For this, he is still very easy to do.
