

## Super D. S 2971

### Chapter 2971: Prey home

For Ye Xuan's departure alone, Zuo Licheng and Zuo Hongwu's suffocating roots are itchy. Ye Xuan has not been seated in the position of the black mosquito, so it is so arrogant that they are unacceptable.

However, after all, Zuo Licheng and Zuo Hongwu actually did not intend to carry the tattered fortress that Ye Xuan chose to return to the black mosquito. If it was scattered in the middle of the road, it would be worthless.

In their view, this matter is purely a matter of Ye Xuan's own death and face to death. Zuo Licheng and Zuo Hongwu's uncle are angry, but after a little deep thought, they are happy again.

This kid is looking for his own death, so no wonder others.

Originally, I couldn't find a reasonable excuse to remove him from the bright future. Now he himself has given this opportunity to his hands.

You know, this space fortress is the public property that the emperor Mo Tiantian added to the black mosquito tribe. However, Ye Xuan has handled this matter, but for his personal reasons, the space bastion that the black mosquitoes finally got is actually Such a ship couldn't see anyone at all, and going out to reveal a face would make people laugh at the bad goods of big teeth.

Under this circumstance, Zuo Fengtai, who is not the leader of the black mosquitoes, will be furious, and even the high priest, who is always in harmony with Zuofengtai and his heart, will be very angry.

If it was before, the high priest, Greyhedler, in order to continue to hold the son of the black mosquito in his hand, in his usual practice, even if this has successfully achieved the victory of the Son, Zhang Wuji actually has no such thing. But Greyhedler still keeps it close.

In order to avoid the position of the Son of the Black Mosquito, it falls to the faction of the Datong-Left-Fengfengtai. Because of this, in the black mosquito, the ash-gray is always detached, I am afraid that he will lose him to the left. In fact, Fengtai is not a very obvious weak advantage.

However, now the boy named Zhang is looking for his own death, so that the black mosquitoes have suffered such a large loss for their own face, which is even a shame.

In this case, the gray bones are afraid that they will not be biased towards him again. After all, it is related to the tribal face. After all, the gray bones are high priests. Obviously, this factor cannot be completely ignored!

If there is no accident, as long as Zhang Wuji takes the broken fortress and returns to the black mosquito star, then the left Fengtai and the gray bones understand the situation, the former must be on the spot, and the latter will not block too much, which is clearly bright and bright. A godsend opportunity to kill in public.

However, with the skillfulness of the guy, if he was allowed to return to the black mosquito star first, he would not talk nonsense, and maybe this kind of almost unsuccessful ending would have been reversed by him.

It is precisely because of this point that Zuo Licheng and Zuo Hongwu's uncles are suddenly in a hurry.

Therefore, Ye Xuan drove the Dragon Fortress from the Star Fortress of the Magic One, and then rushed into the void of the universe. Soon after the rapid departure, he realized that the situation was wrong, Zuo Licheng and Zuo Hongwu were also Even if he stepped into the three-kilometer star-rated special warship that Zuofengtai handed over to the latter, it was rushing toward the long star to the black mosquito star, the first natural cosmos closest to the magic star. The hole rushed...

At this moment, the uncles and sisters were sitting on the lobby sofa in the main cabin of the top floor of the Fengteng, and chatting happily while drinking wine.

In their view, although the boy named Zhao was on the road one step ahead, and he was still holding a space fortress, even if it was only a small fortress of a five-kilometer captain, and the shape was broken, it was a space fortress. Other things, the ability to jump at the speed and space level is definitely not comparable to the average star-rated warship.

But in fact, their uncles are not worried about it at all.

The so-called Longye was originally worn and damaged, and the Fengteng that they were riding at now is not an ordinary ordinary star-rated warship. Under the circumstance, even if the Wuzhi can catch the stars before them. Mosquito stars are definitely not much advanced, and at most they are only a half-day.

During such a rush of time, I believe that the big commander of the black mosquito department, Zuo Fengtai, and the high priest, the gray skele, will never be so easily fooled by him, thus concluding the matter of the Longye, so that they will turn over later. It's a bit embarrassing.

In this regard, Zuo Hongwu is still very confident.

After all, this Fengteng, but his brother Zuo Fengtai spent a lot of money from the magic man's star domain, not only with the space fortress, but also for long-distance space jumps, and the inside of the hull is also used. The perfect space folding technology of the Tianji family.

Although the appearance of the warship is the same as the general star rating, only the captain of 3,000 meters, but in fact, its internal space is very large, at least can accommodate more than 10,000 devil strong.

Right now, there are six or seven thousand devils in this Fengteng ship cabin, and its speed is far beyond the ordinary ordinary star rating. This is only the last three hours, the first cosmic worm in front. The star field where the hole is located is already visible!

When Zuo Hongwu gave instructions to the side of the class, he turned to the head and said: "Go, go to the general control room to give a warning, and carry out the last wormhole jump pre-inspection. If everything is ok, immediately start charging the battleship's jumping shield. Yes, after entering the front of the cosmic wormhole, the first time to jump..."

When the novice nodded, even when he turned, the whole Fengteng warship suddenly trembled without any warning, just like the same boat sailing on the sea of anger, unable to prevent it, this name The class was actually planted on the spot.

The man has not yet gotten up, his face has changed dramatically, and his voice has exclaimed: "What happened? Is it because of the turbulence of space..."

This situation, indeed, when the warship was driving in the cosmic galaxy, suddenly accidentally strayed into a chaotic space and the turbulence was very similar.

This is exactly why this class has suddenly lost its ecstasy. It is the reason why the exclamation on the spot is awkward. Space turbulence is very dangerous. Once it is involved, basically don't expect to be safe. The land came out, and even if it was fortunate to rush out of the turbulent area, the entire warship is estimated to be no different from the four-part split.

Even the hull of an alloy battleship is like this, so the creatures of the flesh and blood in the ship are not to mention!

"Damn, this is not a turbulent flow of space, which is clearly the result of the space oscillator!"

On the sofa, Zuo Hongwu and Zuo Licheng uncle and squatting were also stumbling over their bodies. They almost fell off the sofa. After they finally stabilized their figure, the face of the former has changed continuously and soon followed. Exclaimed: "It is the boy named Zhang who is engaged in ghosts. This is clearly the effect of the large-scale space oscillator at the fortress level. In this star field, no one will shoot us. The kid is really fat, dare to take the initiative. Go to the door..."

Chapter 2972: Black mosquito

Zuo Hongwu's expectation is correct, which led to the huge tremor reaction of his Fengteng star-rated warship. It is Ye Xuan's handwriting. As for the space fortress that emits this spatial shock effect, it is naturally a black mosquito. No. and the black wind!

At this moment, with the full effect of the space oscillator, the two battleships, the Black and the Black Wind, which had originally opened the hidden array method, were revealed in a moment.

This is a huge drawback of the space oscillator. Although it can trap the target ship in this way, it can not only expand the space jump, even if it is only a short distance.

Even when the space was disturbed, the starry sky of the amplitude was greatly increased, and the target ship would even be affected by normal navigation. Even if it was able to move forward, the speed was extremely sharp, and Still very upset.

In this case, it is easy to be sneaked.

Unfortunately, the horror effect of this kind of space oscillator is also a double-edged sword. While trapping the target warship, its own warships, including the warships that radiate the space, are covered by this invisible shock wave. In the region, the same will be affected.

However, because the warships that generate the shock are the vibration source, the spatial amplitude is diverged from here. In the effective distance, the farther the effect is, the stronger the effect is. It is slightly more than the target ship that is trapped.

But even if it is minor, it is obviously impossible to continue to remain hidden.

This problem has been plagued by some of the research experts of the Terran Science and Technology camp for many years. It has not been solved by it. Even the talents of science and technology research and development far beyond the human race have failed to solve this problem.

For this reason, at the moment, with the effect of the space oscillator, the black mosquito number and the black wind number, which had been in a state of concealment, were exposed to the position without any suspense in the first time.

However, this has nothing to do with it, because the target Fengteng, which they are ambushing, is now firmly trapped in a hollow of the Xinghe River with a diameter of about a hundred miles. It is not necessary to move, at least to maintain normal navigation. Speed is absolutely impossible.

This imaginary void is the two space bastions of the Black Mosquito and the Black Wind. Before the space oscillator is turned on, the range of influence has been pre-set.

Of course, the distance of a hundred miles away is actually a limit for this Star River-class space fortress.

If you regard this 100-kilometer-diameter star river as a huge circle, then the Fengteng, which is trapped inside this giant circle, is just in the center of the center of the circle.

The black mosquito number and the black wind number are located at the edge of the giant circle face to face, and the distance from the Fengteng number is about 50 miles, which is the radius of this huge circle!

Fifty miles away, if it is placed on the ground, it is also a relatively short distance, but if it is in the boundless universe, it is really nothing, lacking the contrast, more obstacles, and looking at it. Empty.

In this case, let alone 50 miles, it is hundreds of miles, hundreds of miles, giving people a feeling of closeness.

At least, from the Fengteng number at the center of the giant circle, even the naked eye, the ordinary ordinary strong, can absolutely easily see the left and right sides of the direction of the sky, the black wind No. and black mosquito number.

After the initial panic, Zuo Hongwu and Zuo Licheng uncle quickly recovered their calmness. Even the Fengteng warship control team quickly calmed down and started the first time. Various countermeasures, even the Fengteng star guns have started the rapid charging mode.

At the same time as the Fengteng number is preparing for the emergency, Zuo Hongwu and Zuo Licheng are still in the top-level main hall of Fengteng. Through a huge five-dimensional virtual screen, view Fengfeng. The situation of the void around the battleship.

Undoubtedly, in such an empty star river, the distance is so close, with the huge size of the two space fortresses, Black and Black Wind. Basically, as long as it is not a blind, almost all of them can be They were discovered for a while.

So, Zuo Hongwu suddenly changed his face again, and immediately set off an extremely unbelievable exclamation: "What? That... Isn't that a black mosquito? What is this?"

"What? Black mosquito number? Can't you? Second uncle, don't play..."

Zuo Hongwu's exclamation shook Zuo Licheng's big jump, almost subconsciously, and he directly denied this possibility, while his mouth groaned, while he followed the left Hongwu's sluggish view. In front of this huge immediate virtual screen, I looked at it.

In the next moment, Zuo Licheng also opened his mouth directly, completely stupid in the same place, only to feel a scream in the brain, the whole person is paralyzed!

Although the Black Mosquito is one of the ten space bastions of the Devil Scouts, it has not returned to the First Universe for many years. However, when it went to the Mosquito Star, it will be responsible for receiving and controlling this space. When the fortress's original black mosquito star, Nabo Mountain, and its tens of thousands of demons scouted, all took it, whether it was Zuo Hongwu or Zuo Licheng, they all saw it once.

Although only once, but because of the huge fortress of the black mosquito, the outer wall of the fortress has been engraved with a huge pattern of black mosquitoes. Even after many years, the uncles still recognize it at a glance. Come out.

And the heart is still extremely determined, even if there is even a trace of doubt.

But... this is not scientific!

The black mosquitoes are clearly still at the forefront of the third universe, which is ruled by the Federal Republic of China. How could they suddenly return to the first universe?

Besides, even if it is really back, it ambushes outside the entrance of this cosmic wormhole and opens up the concealment method. When the Fengteng arrives, it will immediately start the space oscillator... What does this mean?

These thoughts are almost like electric flashes. In a moment, they flashed through the minds of Zuo Hongwu and Zuo Licheng and Shu Shu. In the vagueness, both of them gave birth to a kind of extreme imperfection that seemed to have happened. .

In the end, it was obvious that Zuo Hongwu was more savvy. Just after a short period of ten seconds, he seemed to suddenly realize what he was, his face changed sharply again, and he lost his voice and said: "No! Zhang Wuji has a problem! Black mosquito ambush Here, it is absolutely his meaning. How can he have this kind of ability with his little meteor?"

"The big thing is not good!"

"The Secrets of the Terran of the Third Universe has quietly sneaked into the Devil's Field, and even the Black Mosquito has fallen..."

"I will send out the signal immediately, Captain Magic Star..."

Chapter 2973: who are you?

"what....."

"The big thing is not good, there is a space fortress here!"

"God, who are we staring at? It is absolutely impossible to be the kid named Zhang..."

Just as Zuo Hongwu was under the guise of change, he immediately made an order to seek assistance from the Emperor, and then his confidant was able to turn to the Fengteng's hub control room for the first time, and another one behind him. The devil's confidant, but screamed without warning.

Not only is the face full of ecstasy, but also raises his finger to the other direction of the huge virtual screen.

This huge five-dimensional virtual screen is almost surrounded by the entire main hall of the top floor of the Fengteng. It is a three-dimensional, all-dimensional display of all the scenes around the void outside the cabin.

Although Zhi Hong Zuowu saw the black mosquito number, but still had the opportunity to turn around to see the virtual screen in the direction behind him, he did not know the existence of the black wind.

Until now, after hearing the scream of the devil's confession, he was together with Zuo Licheng, who was on the sidelines, and the conditioned reflexes turned and looked over.

In the next moment, the faces of the uncles and wives will change again without any suspense.

Zuo Hongwu immediately screamed desperately: "Black Wind? It is actually a black wind... God! What happened in the end? The entire Demon Scouts have been trapped? Otherwise how could even the Black Wind? What happened here? What is Zhang Wuzhi's kid?"

Although the space fortress Zuo Hongwu had not seen it, he still recognized it at a glance.

The Devil Scouts have a total of ten space bastions. These ten space bastions are nominally belonging to the top ten tribes, but in fact, the inner control of the bastion and the tens of thousands of devils are scouting the corps, although they are all from the devil's group. The top ten foreign tribes have been levied in the past, but the administrative control of the ten space bastions has nothing to do with their respective tribes. They only accept the big leaders of the Scouting Corps!

This big leader is the guess from the Black Wind Department!

Among the top ten foreign tribes of the Devils, the Black Wind Department has always been the most powerful existence, no one!

Among the sons of the Ten Great Devils, the only one in the Black Wind Department, when he first entered the Forbidden City for the trial of the Holy Wind, he had acquired a spiritual power. The inheritance, although this reflects his personal spiritual strength, but from one aspect, it can also reflect the power of the Black Wind tribe.

For this reason, the entire leader of the Devil's Scouting Corps will be selected from the Black Wind Department.

The reason why Zuo Hongwu could not recognize the Battle of the Black Wind, but still recognize it at a glance, is actually very simple.

The outer walls of the ten spaceship squadrons of the Demon Scouts are all engraved with a huge beast. These beasts represent a demon tribe.

Just like the huge black mosquito beast engraved on the outer wall of the black mosquito, the outer wall of the Blackwind Fortress is engraved with a black wind beast.

For this point, although Zuo Hongwu did not see it with his own eyes, he had at least heard it, so he recognized the black wind at a glance.

"boom!"

"boom....."

Zuo Hongwu's desperate words just fell, his eyes were covered with a large bright silver light, and the entire giant three-dimensional virtual screen around the large living room of the top floor of the Fengteng's main cabin was full of eyes. White mans.

A huge energy light column with a diameter of about 500 meters is coming from the Black Wind Battleship at an unimaginable speed.

Not only the Black Wind, but even the black mosquito on the other end, at the same time, shot a huge energy beam of the same size.

This is clearly the super-star-killing gun on the Star River-class 10,000-meter fortress, the rhythm of full-powered blast at full load!

The horror of its power can smash a small meteor at will, so the horrible destructive power, the general warship can not bear at all, at least this Fengteng star-rated battleship is absolutely impossible.

Even if it is an enhanced version of a special warship that is close to the best!

Not to mention that there is now a horrible super-star destroyer energy beam in both directions. At the same time, it is just a single one. The Fengteng is in a mud, and it is impossible to speed up or jump in space to avoid dodging. In the circumstances, the final outcome is clearly already doomed.

At the same moment when the hull is touched by the huge energy light column that whispers in rapid speed, the destruction of the Fengteng will also come along with the disintegration of the entire warship!

At this moment, it is obviously not far away. To be precise, it should be close at hand, maybe in the next second...

"Zhang Wuji! I am not finished with you..."

In the hustle and bustle, Zuo Hongwu's look screamed with a fierce roar. At the same time, he even reached out and grabbed Zuo Licheng next to him. He did not wait for the latter to react, even his resentment. The screaming roar of Haotian was still hesitant, and his body shape disappeared instantly.

In the face of these two powerful and devastating energy-level pillars, Zuo Hongwu decided that this Fengteng number would not be spared. Therefore, even if he is unwilling to do so at the moment, he has a strong desire to survive. Suddenly, he still fled the Fengteng with Zuo Licheng in the first time.

Although the length of the hull of this warship is three kilometers, the two ruined energy light columns with a diameter of only 500 meters can tear the hull of the Fengteng corpse, but this tearing is not completely wiped out. Therefore, even if the warship is destroyed, but the devil inside the hull is still somewhat spared, and can escape.

Unfortunately, this chance is too unsatisfactory. The six or seven thousand devils in the ship can live a thousand. Even if it is good, Zuo Hongwu naturally cannot gamble on this kind of reliable luck. Therefore, it is his abandonment to abandon the ship. The only choice!

"Hey..."

"Booming!"

Almost in the left Hongwu and the pale-looking Zuo Licheng, the next moment in the void outside the fuselage of the Fengteng, the Fengteng number, which is a few miles away, suddenly came. The shocking sound of the roaring sound, this moment, the bright fire rose up to the sky, reflecting a large part of the void.

In addition, mixed with this huge sound of explosion, there is a fierce scream of screaming from the front, Zuo Hongwu uncle and two people subconsciously turn around and look at everything they see, and suddenly let them again Call it up.

"God, where are so many mosquitoes? And... these are not all empty beasts? My mother..."

"Zhang Wuji, it really is you! There are two beasts of the original point of the world, who are you?"

In the distance, the mosquitoes and animals that had been concealing the atmosphere before were in the army of soldiers, and they showed their physique at this moment, and they were copied from all directions.

As for Ye Xuan, the hands are shouldered on the back of the scoop of the Eight Stars, and behind him, the mosquitoes and beasts are \*\*\*\* and breathtaking.

Under the feet, behind them, they are all beasts of the original point of origin... This is the general presence that can be owned?

Chapter 2974: One does not stay

"Booming!"

"Boom..."

.....

With the two huge super-star-killing guns blasting from the two space bastions of the Black and Black Wind, the captain's only three-kilometer Fengteng was instantly It was smashed into three pieces of steel wreckage, and it made a huge explosion!

The two hulls that were just hit by the energy beam were nearly gasified. The same is true of the Devil in this position in the cabin. The ash does not leave a point!

At the same time, from the few gaps in the wreckage of the Fengteng hull, the surviving demons were also fleeing, their faces were terrified, and some of the devils were still screaming.

This is clearly the rhythm that has been scared!

After the surviving guys rushed out of the body of the Fengteng wrecked ship, when they even spread out, the only thought at this time was to leave the right and wrong place as soon as possible, and everything else could not be taken care of.

The original six or seven thousand devils are strong, but the rest of the present is only about 4,000 or so, like the dog of the funeral family, just fleeing and fleeing, there is no love in the heart.

It is a pity that these devils are destined to be confessed here today, and buried in this quiet void!

"Hey..."

"call out!"

With the sound of the whistling sound of endless brutality and violentness, the distance around the void, the mosquitoes and the army of soldiers and soldiers also spurred at this moment, savage, with fierceness, rushed to these scattered Devil!

The fierce slaughter is unfolding in an instant. To be precise, this is clearly a one-sided slaughter!

Thousands of demons are strong, blood is splashing!

Ye Xuan has already confessed before, this time, all the living things in the target battleship, one does not stay!

Since the black mosquito number and the black wind number have been exposed, this is obviously the only choice for Ye Xuan, and there is no room for negotiation!

At this moment, with the mosquitoes and soldiers scouting in front of the void, they hunted and hunted, and Ye Xuan, who stood on the back of the Eight-Star King, also went to Zuo Licheng and Zuo Hongwu. The two of them were close to each other, looking at the uncles with a blank expression.

Behind him, in addition to his body hovering in the void, from time to time slowly sneak a sneak peek at the bloody, sable-winged mosquitoes and \*\*\*\* princes, there is no other figure.

All the mosquitoes and slings have been thrown at the savage demons!

"Who...who is it? Why do you betray the democrats and sell their lives for the third universe?"

Zuo Hongwu's figure has already begun at the moment when Ye Xuan appeared, and he could not help but squat. Even the words that were smacked by the scalp and rushed at the moment were clearly with vibrato.

He is really scared, timid!

Although there is a single person and two beasts on the opposite side, it seems to be a single shadow. On the surface, it seems that there is no comparison with the fierce beast that just rushed to the devil.

In fact, whether it is a huge emptied beast that is surrounded by the leaves of Ye Xuan on the back, or a blood-colored mosquito that floats behind him, he can raise him between his hands. Killing, even the room for resistance!

This point, Zuo Hongwu knows well, he knows that he must be able to escape today. Since the beginning of the other party, he has actively exposed this kind of shock and secret, naturally it is impossible to leave any living!

But even if it is dead, Zuo Hongwu is not willing to die so badly!

He really couldn't resist, and he didn't want to resist in the past. The reason why he was unwilling to ask Ye Xuan at the moment was that the only extravagant hope was that he could know the true identity of Ye Xuan before he died.

Die, you must die!

"You can call me Ye Xuan! It seems that you have roughly guessed the truth..."

Shrugging his shoulders, Ye Xuan said lightly: "Yes, these two space fortresses are no longer belong to your demon group, but for the human race to sell this sentence, you guessed it wrong!"

"Because, I am what you said... Terran!"

After that, Ye Xuan was quite boring and waved his hand: "Go, remember to cut out the brain nucleus, where all the power of the pure spirit is..."

In the end, this sentence is obviously said to the blood of the mosquito beast suspended behind him.

"Hey!"

The latter apparently also grasped it, and immediately made a scream, the entire body shape of the flapping wing has instantly turned into a \*\*\*\* stream, and it went with extreme speed!

And Ye Xuan, but turned around and plucked the black mosquito in the distance!

From the beginning to the end, he didn't even look at it and shunned it behind Zuo Hongwu. Obviously, he had already been scared of the daring Zuo Licheng, directly as an air, ignoring it!

"what....."

At this time, with Ye Xuan's turn away, Zuo Licheng, who was always in the middle of fear, suddenly realized that the final moment had finally arrived.

At this moment, even his body, which was trembling like a sifting sorrow, was restored to normal. The scorpion was also full of fear, and it was even closer to the dawn of Ye Xuan's back. Out of an infinite resentment, despair, but unwillingly sighed with a stern sly!

It is a pity that this scream like the last shout of life seems so short, and it will only come to an abrupt end. ,

As the body shape approached into a \*\*\*\* and \*\*\*\* moment, the great heads of Zuo Hongwu and Zuo Licheng almost simultaneously rushed.

This moment, the last flash of thought in the minds of the uncles, is surprisingly consistent: the warning signal for the rescue of the magic star should have been successfully sent out...

.....

In less than ten minutes, everything has completely ended!

Thousands of demons have been killed, as Ye Xuan has previously confessed, one does not stop.

After the end of the battle, the mosquitoes and soldiers of the army first gathered all the corpses of the devil and piled them into a fleshy hill.

At the same time, Ye Xuan also took out his own soldiers, letting the blood-swords of the blood-stained swords in the body of the sword, and squandering the essence of blood and blood, eventually turning the whole flesh-and-blood hill into a dryness. Dried corpse.

At the same time, the mosquitoes and soldiers of the army also returned to the Black Wind and the Black Mosquito at the first time. As for the brain nucleus from the brains of these demons, they were summed up and handed over to Ye Xuan. In the hands.

A total of four thousand in the early days, including Zuo Licheng and Zuo Hongwu Shu.

It is a pity that even if it is all collected in one go, the power of the spiritual roots contained in the brains of these four thousand demons is far from being able to transform Ye Xuan's spiritual core.

After all, once again, it is the seven-level source nucleus. Among the entire group of demons, nowadays, only the emperor Mo asked Tian to reach this level.

Obviously not easy!

One thought of this, Ye Xuan suddenly sighed a sigh, put all the magic core into a space box, and then earned the immortal world.

These magic cores, Ye Xuan did not intend to use them now, because the way to extract the power of the spirit from the brain of the devil is extremely fierce, and in the impact bottleneck, most of them will have a miraculous effect. Ye Xuan is specially designed for the future. The sixth metamorphosis of the source nuclear is coming...

Chapter 2975: Meteor fifth order

For Zuo Hongwu, before he fled the Fengteng in Cangjie, he had already issued a command at the first time after suddenly stunned the Black Mosquito Space Fortress. He immediately sent a warning signal to the Emperor Star. Ye Xuan did not know. !

In fact, this problem, even if Zuo Hongwu and Zuo Licheng are uncles, can't determine the result.

The devil who had received instructions to turn to the Fengteng General Control Room had just turned around and did not take long. The superstars of the two Battlestars, the Black Wind and the Black Mosquito, were launched.

Whether the devil's confession has sent the distress signal before the Fengteng was destroyed, I am afraid that this has already become a case!

And Ye Xuan, after successfully solving the left Fengtai and Zuo Licheng uncles, did not delay too much in the original place, the first time the Black Wind was included in the immortal world.

Then, in the middle of the wave, the tattered wreckage of the Fengteng battleship was also collected. Although it was a pile of broken things, it was really too eye-catching to throw it in the vicinity of the entrance of a cosmic wormhole. It was extremely inappropriate. !

Looking back and looking for a remote place is more reassuring than staying here!

As the wreckage of the Fengteng disappeared, this piece of the emptiness of the smashing of the sky was not long ago. Finally, the original silence was completely restored. If it was not in the void, there was still a very weak \*\*\*\* smell. Everything is just like never before.

After confirming that there was no trace of the beads, Ye Xuan completely relieved himself. With the eight-star king's scoop behind him, he entered the black mosquito number in the step.

As for the blood of the mosquito king, the beast ring that received directly into the wrist is, even if there is no outsider at the moment, Ye Xuan still does not dare to let him stay outside for too long.

In case anyone is inadvertently angry, once it is mad, Ye Xuan is not too sure to suppress it with the influence of slavery!

After about five minutes of touch, all the preparations for the long-range worm jump are ready.

Then, after asking Ye Xuan to have nothing to do, he can enter the cosmic wormhole in front of him and embark on the journey back to the black mosquito star field. After the journey of the black mosquitoes, the central control room of the Dark Fortress is even if it is released. instruction.

After more than ten seconds, the black mosquito hanging in the void suddenly turned into a black flow vector, and one headed into the entrance of the cosmic wormhole in front, and the return of the black mosquito star finally officially opened.

However, the black mosquito star in front of the way back, waiting for Ye Xuan, is obviously not a good thing!

Previously, Zuo Licheng and Zuo Hongwu's uncles had a black hand on the edge of the black hole of life. The main messenger behind it was obviously Zuofengtai!

Under this circumstance, Ye Xuan came back unscathed, but Zuo Licheng and Zuo Hongwu had disappeared for a long time, and Zuo Fengtai's old man was very slippery, and I was afraid that it would take a long time to be shocked.

By then, the whole black mosquito star will only be able to set off an unprecedented storm!

However, Zuo Fengtai is strong, but after all, it is only the fourth order of the original point. If you really want to fight, the eight-star king will be enough to contain him.

What really makes Ye Xuan a little tangled is the high priest of the black mosquito.

Although this person said that the realm of the realm is only the first order of the original point, and the \*\*\*\* beast of the mosquito and beast is the same, but the other side as a tribe from the tribe, all the way to grow up, and now become the high priest of the black mosquitoes have been quite special years of existence, Its comprehensive combat power is obviously far from the simplicity of the superficial repair.

If not, why should Zuofengtai be jealous!

Therefore, according to Ye Xuan's estimation, the \*\*\*\* state of the mosquito beast is not the opponent of the gray bones. Therefore, once the conflict breaks out and the high priest is also blended, Ye Xuan must be in any case. Use the soul of the soul again.

And this is exactly what he does not want.

The black mosquito star is not a forbidden place. Once the \*\*\*\* corner of the sorcerer is used, the news is very likely to leak. If it is learned by the emperor Mo, it may have unnecessary trouble.

After all, the relationship between the original generation of the emperor and the \*\*\*\* corner of the soul can be extraordinary. Although it is already tens of thousands of years ago, but such an important

thing, the devil's royal family will probably have something similar. The classics of the ancestral training were passed down.

Therefore, it is a last resort, Ye Xuan really does not want to use the soul of the blood, as for the headless baby body, not to mention.

It is a pity that this time, if the gray bones really interfere with this matter, I am afraid I can only use it.

Of course, Ye Xuan can also ignore it, go directly to other places, and temporarily avoid the edge.

He originally thought so, and didn't even think about what the black mosquitoes used to be in the past, but then he succeeded in escaping the magic star with his deceased mosquito and the devil. The yin and yang have become the sacred son of the black mosquito, and the thoughts in Ye Xuan's heart have gradually changed.

In this case, if you don't go to the black mosquito, it is tantamount to not taking the initiative, and the entire demonic group will soon pass him.

However, Ye Xuan has not yet planned to return to the human world of the third universe. After all, as the corner of his personal star network communication system, the immortal level of super-brain fragments, in the recent days, Ye Xuan threw in some ordinary chanting crystals. After that, it is slowly growing and growing.

I believe that it will not take long for the original fragment level to be upgraded. If there is no accident, Ye Xuan's personal star communication system will definitely increase its capabilities, and the system power will cover a wider range.

At that time, you can just try to try to search all the starry networks that can be touched in this magical star field, even in the other universe of the first universe outside the star field, to see if you can find the devour The source of the message.

It's hard to come to the first universe that the Tianji family has occupied. I don't want to do this by the way. Ye Xuan has always been unwilling.

Therefore, this black mosquito son is a definite one. With this identity, it will be much easier to walk in this star field in the future!

Just as Ye Xuan flew in his mind and thought about everything, the next step of the next target was decided. The Black Bass Space Fortress successfully ended the first wormhole jump and opened the hidden array method. Then, in an instant, it turned into an invisible flow vector, and quickly rushed toward the second cosmic wormhole in front.

Even so, even if the black mosquitoes develop at a very high speed, the long-distance wormhole jumps intermittently, and it is not a matter of days to reach the black mosquito star.

Therefore, Ye Xuan quickly adjusted his mentality, and then he took out a large number of star nuclear sources from the immortal world of the body, and all of them were thrown into the phagocytic system.

Taking advantage of this free time, he is ready to try to hit the realm again, hoping to successfully enter the fifth stage of the meteor before reaching the black mosquito star.

When he left the black mosquito star, Ye Xuan was only the first step of the meteor. He went to the magic star and blinked the fifth stage of the meteor. Only this point is already worthwhile.

Chapter 2976: Thinking hard

“Hey, have you found a lot of star nuclear sources, are you taking them right away?”

As a large number of stars and nucleus were taken out from the immortal world, they were thrown directly into the phagocytic system by Ye Xuan. In the mind of Ye Xuan, even if the system is familiar with the sound of the sound.

Ye Xuan did not think about it. After giving a confirmation reply, he closed his eyes with his knees. On the sofa of the hall in the core area of the top of the black mosquito, he entered the state of cultivation.

In the core hall of the entire top-level area, only the eight-star king's scoop quietly crouched on the side, and there was no other person. The loyalty of this sergeant is completely unquestionable because the veil will represent the mother. The nucleus of the core of the marrow is given to Ye Xuan, so for these soldiers, the invisible breath that Ye Xuan exudes is clearly the mother of his own!

In a certain way, these soldiers are more reliable than Ye Xuan's demon slaves!

.....

"Hey!"

As Ye Xuan once again entered the state of cultivation, the whole mind gradually immersed himself in the supreme esotericity of the imaginary piece of the hole, and a familiar voice that was almost earth-shattering, passed through the depths of the endless void, the first time Ye Xuan's consciousness is attracted.

At the same moment, his mind was also a picture of the flow. The caves that had been in the past two times were passed down to the world and once again appeared.

The scene in front of me is so familiar.

In the line of sight, a huge horrible limb, like a sky, is quietly protruding from the darkness of the distant void, and it is randomly pulled, and the sky collapses and collapses into a vast expanse of stars.

Then, from the endless depth of the darkness, a rounded head stretched out, surrounded by endless chaos, and could not see the light, but Ye Xuan clearly felt it. Its furious meaning!

He remembered that when he came here two times ago, although this starry giant tortoise also heard the sound, it was just a meaningless bark, as if it was a shock to the whole piece of the void, to other Any presence of a signal, here, is the site of Laozi!

But this time, the sound of this starry giant tortoise is clearly a fierce roar!

Not only with a very strong anger, but also seems to be extremely serious, as if encountering a big event.

Is this change, as he cultivates this hole in the void, and after the realm has been promoted, can he see other scenes follow-up from this illusory inheritance picture?

If this is the case, then this strength is so horrible, just a piece of nail on the turtle's back, there is almost a huge horror giant tortoise, its anger, like the violent violent, what is it?

In addition, when I was concentrating on the perfect level of Jiu Jin Jin Jing and accepting the inheritance of the 陨天弓神通, I saw the numerous chaotic and ancient chaos wars that have been thoroughly chilled. Is this starry giant turtle also involved? ?

As he once again entered the illusory inheritance picture of this piece of vain, Ye Xuan felt everything in front of him, and compared the two pieces of the vain and the sacred bow of the sacred bow. At this moment, it has been confirmed. It's exactly the same, it's the same era!

The same is true of the void prisons that are regarded as the forbidden land by the demon people. The two illusory images, and the virtual prisons that are actually in existence, are undoubtedly wild. !

If this is the case, in the war of that year, almost the entire ancient void was affected, and the giant star turtle could not be alarmed and affected, then...

Was it involved in the war of that year?

Or, at the end of the war, is it alive, or is it fallen?

With this thought flashing in his mind, Ye Xuan suddenly gave birth to a feeling of stunned flesh. This starry giant tortoise is so powerful that a small piece of small beetle on the turtle's back is more than a wide range of stars. Feel free to lift the forelimbs and pull them down, which will collapse the endless void of a whole galaxy...

If this kind of horrible existence fell in the war that happened in the distant old days.

So, what is the ultimate existence of the winner?

In addition, the empty cage that was used to seal the ruins of the ancient times of the ancient times was clearly stripped out of the long-lasting star-light river by the supreme gods and thrown into the infinite void. The land from the void cage seems to be a piece of chaotic debris, separated from each other by a void isolation layer filled with spatial turbulence.

For this point, although Ye Xuan only saw the edge of the continent where the corpse was located, this is indeed the case, but the edge state of land debris in other areas, according to his analysis, is mostly the same!

This is enough to prove that the entire prison cage world was separated by some kind of force and forced to tear apart from the ancient times.

If there is no endless corpse in the corpse, this piece of broken heaven is forcibly torn and stripped. It may also be caused by the collapse of the heavens and the earth caused by some kind of war.

But although this possibility exists, the solution cannot explain everything in the corpse.

Therefore, all this must be the ultimate winner of that war.

Ye Xuan even suspects that the so-called heavenly will of this cage world is the other's handwriting, perhaps it is also possible to separate the false heavens that are condensed by the gods.

After all, how can a corner of the world that has been forcibly removed from the ancient times be a complete will?

The will of the heavens in the ancient times will never be weak!

These problems, Ye Xuan did not think about it before, because the follow-up things are unfolding one after another, and they can't take care of it at all.

But at the moment, I thought of it inadvertently, and suddenly let him suddenly give birth to a sense of fear after thinking!

The existence of the existence of the void cage, the purpose is very obvious, just to imprison and seal the blood and inheritance of those wild animals in the past, not to leak.

The starry beasts in the cages have some wild blood in their bodies. Although they are very light, they are still imprisoned and cannot leave.

This time, I have taken away a lot of sacred crystallization from the corpse. The truth of these crystallizations is obviously that these wild animals are unwilling to fall, because the last sacred inscription in the body is triggered, and the corpse is born. Flowers, condensed the dead fruit, for that is to leave the inheritance.

It is a pity that only those ruins of the ancients who have produced the perfect level of Jiu Jin Jin Jing have been truly successful in retaining the inheritance. Others have failed.

This kind of inheritance, Ye Xuan holds a hundred and eight roads, and even one of them has been obtained by him and integrated into his own blood.

In addition, there is a headless baby corpse, watching his power, clearly bigger, but he was brought out by himself.

This matter, if the wilderness that finally defeated in that year has not fallen, and it has also produced a sense, is it true that it is not dead?

Chapter 2977: One mountain can't be two tigers

"Hey..."

Just as Ye Xuan thought about it because of the sudden misunderstanding in his mind, the whole person has already fallen into a heart-threatening situation. A resounding shouting sound has been heard again, still the voice of the starry giant tortoise. .

Even if Ye Xuan was awakened, the distracting thoughts in his mind were temporarily thrown away, and his attention was re-targeted to the distant starry sky of the illusory world!

In the line of sight, as the second screaming and angry shouts sounded, the huge star-shaped giant tortoise had climbed from the depths of the endless darkness, and the horrible giant tortoise exudes The pressure of the pressure seems to have enveloped the whole world in an instant, and this side of the void has trembled, as if it can not withstand, it will soon fall into a collapse.

This atmosphere is so powerful, Ye Xuan even has no way of speculating on what it is, only knowing that even the most powerful star-studded powerhouses he has ever seen, the tenth-largest realm of the most powerful contemporary emperor The nine-order grand perfection of the virtual world.

Compared with Ye Xuan's feelings in this starry sky turtle, it can only be regarded as the existence of ants.

No, even the ants are not considered, put the two together to compare, this is originally an extreme brain-destructive practice.

What surprised Ye Xuan's surprise was that in the strong atmosphere of the star-studded giant tortoise, there was a strong killing in the invisible, like the same sharp arrow. Quickly blasted to the far side of the void on the right side.

Imitation, the last warning!

"Hey!"

I didn't wait for Ye Xuan to react to what happened. This invisible murder, which was almost the last warning, went to the end of the virtual void at the end. It was also a deep dark void, and it was very strangely a high-pitched cloud. Clear and bright dragons, like a dragon roaring, revealing a vast and unspeakable mysterious power, and instantly spread through the endless void!

Ye Xuan's heart is mad, and the whole person's feelings are not good.

This dragon has a strong sense of familiarity, and it is clearly the voice of the starry dragon. Before accepting the inheritance of the immortal ancestral blood, Ye Xuan entered the illusory world of such an ancient era. There is a void in the era of isolation from the starry dragon.

The latter also lifted his paws toward Ye Xuan, and shot a pair of Jin Mang into his eyebrows.

What is contained in the Jin Mang is the \*\*\*\* quenching secret of the starry dragon, and it is obtained. Ye Xuan is completely refining the immortal ancestral blood.

Just how did this starry dragon come here?

Like the star-torn giant tortoise, it is clearly the two supreme beings of the distant and ancient times. It is branded in the form of inheritance and self-staining, even the leaves that Ye Xuan saw at the moment. This piece of ancient void may have been annihilated in the long river of time and space.

Shown in front of his eyes, it is just a long-term image like a holographic stereo film.

Although the golden dragon's inheritance of the ancestral dragon blood has also been branded a similar, at least the background is also the image of this ancient void, but how can it appear here at this moment?

The two images are clearly illusory. Even the horrible wild creatures of the starry dragon and the starry giant tortoise appear in the image. It is also an illusory imprint. There can be no intersection at all...

Just as Ye Xuan's brain roared, he was stunned into a huge mess, the darkness of the darkness on the right side, accompanied by the resounding of the sorghum dragon, the strength of a breath is not weaker than that. The figure of the cave giant turtle finally appeared.

Sure enough, it is the golden dragon that exudes the endless imperial power.

"Hey..."

At this moment, Ye Xuan's mind roared again, and everything he saw was full of unacceptable and unbelievable feelings!

At the same time, the golden dragon that rushed out from the endless darkness of the right side with the imperial emperor, has once again screamed at the moment, not only directly ignoring the warning murder of the cave giant tortoise, its right front The claws are like demonstrations or expressions. With the second dragon screaming, suddenly they will take advantage of it!

"Booming..."

The huge explosion of the collapse of the heavens and the earth came out. Under the power of the golden dragon, a vast expanse of galaxies turned into a huge black hole, revealing endless power of engulfing. The galaxy was swallowed up in an instant, but it failed to shake even the scales of this golden dragon...

This clearly means that there is no retreat, and it means to fight and fight!

After keenly capturing this point, Ye Xuan's feelings are even worse. The scene in front of him clearly makes him a rhythm of the giant turtle and the golden dragon.

This feeling was originally just a flash of light, but Ye Xuan captured a little inspiration from it in an instant. At this moment, with the madness of the heart, a bold speculation that even his own unbelievable, It slowly appeared in his mind, and it became more and more intense and clear.

Grab the ground?

If there is no accident, the truth of the truth should be the same!

Perhaps this is precisely why the present image of the golden dragon that only exists in the blood of the immortal ancestral dragon can actually cross the border to the inheritance picture of the cave giant cave in the vain practice. The reason is.

Whether it is the sacred sacred piece of the sacred sacred turtle, or the immortal ancestral blood that represents the inheritance of the golden dragon's blood, after all, it was obtained by Ye Xuan, and the ancestral blood has been refining. Incorporating into his own blood, the evil spirits of the sinister essays are even more ubiquitous in the cultivation of Ye Xuan's body!

These two kinds of non-uploading origins from the ancient times, and now all in their own bodies, the so-called one mountain can not accommodate two tigers, grab the land, this is naturally unavoidable.

Even if it doesn't appear at the moment, it will still happen after a certain day.

This bold speculation made Ye Xuan's whole heart sink for almost a moment. On the one hand, he practiced the exercises he had cultivated. On the other hand, he had already integrated his own blood, and he also developed the secrets inside him. Fortunately, the golden dragon inheritance, which is quite an introduction, is extremely important for him and cannot be lost.

In this tragedy of the nest, Ye Xuan is naturally the most unwilling to see.

In addition, it is not a problem for the two guys to fight each other. The key is that they are all in their own bodies. Although they are only a brand of inheritance, but Ye Xuan does not dare to doubt its power.

Such a terrible force has turned his flesh into a battleground. If you want to fight and fight, this is clearly a pothole!

"Hey!"

Just as Ye Xuan's heart was bitter, the left side of the void was far away, and it was a majestic and screaming sound that suddenly passed over, revealing the singularity of the singularity of the singer.

Chapter 2978: Make a table of mahjong

At this end, Ye Xuan Shang has not yet recovered from the great shock of the golden dragon suddenly crossing the border. On the left side of the void, there is a shout of sound that is full of endless sharpness. There was no sign of sudden emergence.

As if it were like the world, Ye Xuan shook an outside Jiaoli, and the whole person almost collapsed in an instant!

Although the sound of this whistling is not like the movements of the previous giant turtle and the golden dragon, Ye Xuan has a very familiar feeling.

But at the moment, when Ye Xuan has already understood the root cause of the conflict between the cave giant and the golden dragon, he has no need to ponder and scrutinize the origin of this whistling sound. It has already become clear!

In fact, it was the appearance of this whistling voice that reminded Ye Xuan of one thing.

That is the old-fashioned level that he has obtained. It seems that it is only the two dragons and giant tortoises in front of him. Nothing else, the sacred bows that have been passed down from Jiuyi Jinjing are clearly counted. This kind of existence!

Moreover, this 陨天弓神通 also left a brand of consciousness in the era of the ancient times, and it was still the battlefield of the ancient \*\*\*\* battle of the ancient times!

In that \*\*\*\* sky, the flames of war almost reached the vast battles of every area of the ancient world. The shadow of the giant tortoise, although not seen, but the golden dragon, and the sacred bow The figure is a humanoid, but the appearance is like the mysterious presence of Yaksha, but Ye Xuan has all seen it.

In the terrible battle, there are almost a few wild creatures that are carrying out \*\*\*\* killings, but there are clearly more than a hundred figures in the most eye-catching.

At the time, Ye Xuan swept away at random and captured their existence!

These hundred figures are obviously among the countless wild creatures, standing on the top of the pyramid.

The Golden Dragon is one of them!

The ancient Yaksha, which left the inheritance of the 陨天弓, although only a few feet in size, is incomparable to the golden dragon that can be directly crushed into a galaxy.

But it is clearly one of the most eye-catching Xeon in this hundred!

In the illusory inheritance picture, it is clear that the countless wilderness of the whole battlefield is suddenly shocked, that is, more than a hundred gold dragons. The ancient and the strong, at that time, they all clearly cast a touch of jealous eyes on it!

That is to say, this ancient barren cherries, most of them belong to the same level as the golden giant tortoises and the golden dragons. Therefore, the former is about to launch this kind of land grabbing action, it is equally qualified to participate!

Single-on-one blinks become three shorts, and one more can make a table of mahjong.

As the thought flashed through his mind, Ye Xuanton felt tears, because he suddenly thought of another thing!

At that time, in the pictures of the ancient wars left in the inheritance of the 陨天弓, Ye Xuan saw more than a hundred of the most powerful people like the golden dragon and the barren yak, and this time, he was from the corpse. What is obtained inside is Jiuyi Jinjing, which is inherited from a mythical heritage. It seems to be just this number.

One hundred and eight!

The two are basically the same, almost no difference!

Should this be just a coincidence?

Otherwise, in the future, if Ye Xuan will take away the remaining 107 pieces of Jiu Jin Jin Jing, and obtain the inheritance of the ancient sacred myths contained in it, then, in his body, he will fight and fight for

the terrorist power of the site. Even if you open a hole and a giant tortoise and a golden dragon, you have to have a hundred and eight roads. It's chilling to think about it!

Unfortunately, as this association emerges in the mind, even Ye Xuan himself does not believe that it is just an accidental coincidence.

It's no wonder that there are countless crystallizations in the corpse, but they have achieved the perfect quality of the nine hexagrams. They have succeeded in inheriting the blood and the magical powers, but only a hundred, which can fully inherit the ability of their blood and blood after the fall. Obviously it is not simple, and the average wilderness cannot do it.

Most of them have this ability only if they exist in the age of the past.

Therefore, the birth of the 108 demon corpse flower, and the death of the crystal fruit in the disk, the identity of the origin, apparently no suspense!

It is exactly what Ye Xuan saw in the picture of the sacred bow of the sky, and the more than a hundred of the battlefields were amazing and succumbed to the existence of one side!

I don't know if there are more than one hundred and seven pieces of Jiu Jin Jin Jing in the rest, whether there are the practice and blood inheritance of the cave giant turtle and the golden dragon. If there is, it means that they also fell in the battle of that year. It is.

If it is not, then it is very likely to survive, and the top multiple injuries will be smashed. The horror vitality of this level of life, perhaps still alive, is crouching in the depths of a certain void plane, slowly recovering that year. The wounds of the war are not known!

All this is long, but in fact, it is like lightning, flashing in the mind of Ye Xuan!

At this moment, with the sound of the third unexpected noise, the farthest from the dark void in the left direction, a body is not a very tall figure, but also spurt silently, reflected in the leaves. The next moment in Xuan's line of sight, he suddenly let him sigh.

Sure enough, guess it!

This figure, which was swept at a very fast speed, was only a few feet high, and there was a pair of huge wings at the back. At this moment, it was the black devil's screaming, and its shape was made into a human eye. The inexplicable speed meteor is swept in the void.

When it was still far away, an incomparable sharp killing atmosphere had already come to the fore, and it was shocking. Even the cave giant tortoise and the golden dragon, which were almost on the spot, turned to look at the same time. past.

In the middle of it, there is a hint of accident and jealousy!

This figure, clearly and Ye Xuan picked the first piece of Jiu Jin Jin Jing, in the corpse of the sun, facing up and anger, open the mouth, the venomous nectar of the ninth gold crystal will be born from the root, the corpse growing from its mouth is exactly the same .

The only difference is the eyebrows, a small pattern of small golden bows, and the same as the brand of the sacred bow of the sea.

Obviously, it is the golden bow that Ye Xuan knows in the sea at this moment. As for the figure of this ancient Yaksha, it is only virtualized, just to show its identity!

"Hey..."

Just at this time, just as the golden yak of the golden yak was on the left side of the speed, the other direction, the fourth robbed of the existence of the site, also at this moment, finally appeared.

Its shape has not yet come, and a faint high-frequency humming sound has already sounded in the void.

Ye Xuan shook his head and sighed. This time, a table of mahjong finally got together...

It's just that, although he just didn't think about whether this guy would have the same thing, it's suddenly coming at this moment, but it's basically impossible.

But now the other party has clearly come, this matter... it is strange!

Chapter 2979: Baby body fog

"Hey..."

Accompanied by the whole piece of the void, the sound of fierce tremors echoed like a response, and a huge \*\*\*\* corner of about three feet was whistling from the void in that direction, and turned out!

In addition to Ye Xuan, the giant tortoises, the golden dragons and the roads that are rushing from each other, and the ancient yak, which was branded by the 陨天弓, are all toward the whistling blood. The giant angle looked over.

This giant horn is the blood of the scorpion that is highly relegated to the ancestors. It is petrified in the body, and it is stuck in the wall of the valley where the magic king is forbidden. It turns into a space connecting the forbidden valley and the forbidden land. After the passage, the self-disintegrating soul, like the new life, condenses the soul of the blood!

In the horrific battle that occurred in a certain period of distant wilderness, the blood source of the predecessor of the \*\*\*\* horn of the soul, the \*\*\*\* wild blood of the sacred atmosphere, also appeared.

At this point, Ye Xuan has already seen it in the inheritance picture of Haotian bow magical power. Even the other party is as if it has sensed anything. It has turned to the head of Ye Xuan and glanced at it. In the light, a touch of soul is shaking. Insidious evil.

At that time, in the vast expanse of the vast ancient era, the endless wilderness of the ancients, all killed in the tragic, only the wild blood, but alone hiding behind the back of a dark star, the scorpion still The sneak peek and conspiracy succeeded, and the whole battlefield was quietly examined in the haze.

It is precisely because of this that it gives Ye Xuan the strongest impression, that is, conspiracy and blackmail. As for its strength, because the wild blood is not shot in the inheritance picture of Hao

Tiangong, Ye Xuan can not determine whether it is It belongs to the same level of the ancient and strong people like the cave giant turtle!

Therefore, in front of this battle for the chaos of the site, this \*\*\*\* corner of the soul, originally should not appear!

It's not just because of the \*\*\*\* blood of the blood source's predecessor's blood source, it's very likely that it's not the oldest and the strongest, and it's not qualified to compete with the giant turtles.

More importantly, this \*\*\*\* corner of the soul has been rectified by the headless baby body not long ago.

Even if the blood is highly returned to the ancestors, then the self-disintegrating soul condenses the blood of this corner, leaving a hidden back hand in this \*\*\*\* new blood corner, but since there is no head The baby body has already been shot, so that it can reinvent the terror of the will of the heavens and the earth in the ancient cage.

Most of the backhand arrangements hidden in it have been erased together!

That is to say, this blood horn, which has been refining the headless baby, is basically impossible to have any problems. Therefore, in Ye Xuan's view, even if its blood source, the wild blood of that year, It is also the existence of the level of the ancient and the strong, and today, this scene, this blood corner, should not have a chance!

But now, it is clearly coming!

Moreover, its momentum is extremely overbearing and arrogant, and its shape has not yet appeared. This whole piece of the vast inheritance of the void has been covered by its fierce humming sound, completely shrouded.

With a sly and contemptuous sense of supremacy!

In addition, even the hole-throated giant tortoise and the golden dragon and the ancient yak at the same time, in the dawn, after seeing the whistling blood corner, there was a hint of jealousy.

In addition to taboos, more intense, it is a surprise!

"Hey!"

"Hey!"

Not waiting for Ye Xuan to return to God, the wilderness of the screaming screaming screaming has already sent a second scream, and then turned and walked away, blinking in the direction of the endless dark void. Deep, disappeared!

Ye Xuan clearly heard the unsettled surprise and gratification from the scream of it before he turned around. It seemed as if he could see this blood horn in a cold, and its meaning is equivalent to a certain A kind of wish is paid for in general.

In addition, the golden dragon on the right side of the void also sent a high-pitched and clear-cut, and then turned around without hesitation, and disappeared.

The meaning of this dragon singer is clearly the same as the screaming of the old night fork, all of them have surprises and are gratified.

The only difference is that the surprise in the dragon's voice seems to be more intense, but the feeling of gratification is obviously much lighter!

In the blink of an eye, the weather in this film has changed dramatically!

Originally, the three forces who were watching the war immediately, did not hesitate to turn directly to the two sides, and the reason why the remaining cave giant turtle did not go, mostly because this place is its site!

That is to say, if this is not the case, the cave giant turtle has already turned around and gone...

This scene happened too suddenly, and Ye Xuan immediately fell into a sluggishness caused by a strong shock, which was unacceptable for a long time!

Even if the source of this blood horn, that is, the sinister and sinister wild blood, is stronger, it will not be strong enough to allow the golden dragon and the ridiculous night fork, even the front straight to the \*\*\*\* corner of the \*\*\*\* descendants. Not afraid of it?

What's more, the golden dragon and the ridiculous night fork in the fierce and dragon screams before turning away, there is no dissatisfaction, and some are just joy and excitement!

Is it...

In shock, Ye Xuan's heart suddenly moved, and his eyes subconsciously turned to the huge blood horn that was whistling in the distance.

In the next moment, his light shines, and he releases the meaning of liberation and enlightenment!

That's it!

Although it is indeed a \*\*\*\* corner of the soul, but the consciousness inside it is obviously another person, it is the headless baby body that is attached to the left chest of Ye Xuan in the form of a corpse lamp!

The imprint of this corpse lamp form, after the \*\*\*\* corner of the soul is refining by the headless baby, there is also a body on the body of the blood corner, but it is very small.

At this moment, above the \*\*\*\* corner of the screaming soul, it should have been the location of the corpse lamp, but it has become a face.

To be precise, it should be a baby who still has some childish faces, but in his shackles, there is a \*\*\*\* color, revealing endless fierce days!

This strange face, leaves Villa very familiar, sinking infants were headless corpse has been hold in your hand, which should be located above the first face-off head neck, exactly the same!

Come, it is headless corpse infants!

So, everything can be explained through the!

But, this headless corpse though certainly backing infants and very large, but whether it is virtual hole giant turtle, or gold dragon, the ancient Yasha shortage in the year, can all proudly shortage of ancient supreme existence, the latter, even his ride bow, want to be a stone meteorite day!

So exist, how could easily bow yield, not to mention that these infants headless corpse, although fear, but not an iota of hostility, revealing a negative endorsement and support.

This point, I am afraid that the will of the ancient world will not be able to do it.

So, this headless baby corpse, it... Who is it?

Looking at the hole, the giant tortoise sprinkled the claws with joy and joy, and soon gradually disappeared into the darkness of the distant figure. At this moment, Ye Xuan was completely lost...

Chapter 2980: Left Fengtai's wrath

With the shape of the cave giant tortoise, the body shape of this sorrowful soul is also quickly disappeared, and the figure disappears completely. A strange silence.

Even the previous humming sounds unknowingly converge.

At this moment, the whistling soul of the whistling soul, after advancing to the central domain of the void, circled and turned and spurred back to the original road.

As if it were coming, it was just a move similar to the patrol. The purpose was to dispel the power of the three roads that almost hit the ground.

Perhaps, there are still some opportunities to take advantage of this opportunity, by the way to announce the ownership of this site, clearly means it belongs to it!

The reason why the cave giant tortoise and the golden dragon and the ridiculous night fork all chose to leave and leave at the first time is very likely to understand this meaning. Therefore, they expressed their own in this way. attitude!

Unfortunately, all this is just Ye Xuan's guess, it is impossible to determine.

At this moment, although he also wants to immediately circulate a circle of circlings, even if he whispers away from the \*\*\*\* corner of the soul, he asks the headless baby corpse, and solves his heart.

However, in this piece of inheritance, although Ye Xuan's consciousness exists, it cannot make a sound, and it is even more impossible to make any substantive move. Because he does not even have his body, it is like a dawn cast from the window. Looking at the world inside the window, nothing can be done except watching.

Therefore, the \*\*\*\* corner of the soul was still whizzing away, and soon disappeared.

And Ye Xuan's consciousness, also in the sudden appearance of a repulsive force, withdrew from this piece of inheritance.

The next moment, the scene in front of you, has been transformed into the sea of Ye Xuan!

At this moment, in the four different directions of the sea, the four different forms exist, floating in unison and slowly rotating.

The source of the nucleus, the nucleus of the void, and the golden bow that represents the blood of the ancient yak and the golden dragon or the magical power, and the golden dragon scale!

For the arrival of Ye Xuan's consciousness, the golden dragon scale hanging over the distant golden bow of the sea has no reaction at all.

It's like what happened in the void before the inheritance of the void, they are completely ignorant, and there has never been any participation.

Ye Xuan Shuguang complicatedly looked at them a few times, and then it was easy to recover the sight in the bitter smile. His eyes swept to the realm of the repair that represented his vain, and it was the source of its strength. The sea of the land!

The sea of knowledge in front of us has grown stronger than before, and its degree of growth has far exceeded the increase since the last time it was repaired.

In addition, the source energy of the star nucleus transmitted by the phagocytic system has already been transmitted, and even under the guidance of the original strength of Ye Xuan's knowledge of the sea, the operation of the sinister essays has been carried out, and it has been Refining and chemicalization has completely turned into a repairing power belonging to Ye Xuan!

That is to say, this time the cultivation has ended inexplicably. Fortunately, from the exaggerated degree of understanding of the sea, the results of this cultivation have obviously been achieved.

The realm has successfully ushered in a breakthrough again!

With a touch of excitement, Ye Xuan's self-consciousness ended the cultivation of this time even if he quit the sea of knowledge!

In the next moment, with the knee-shoulder sitting on the sofa in the core area of the top of the black mosquito, Ye Xuan double-twisted, the sound of the phagocytic system, and no suspense in his mind, quietly sounded.

What caught him unprepared is that the system sounds after the breakthrough of this realm, the sound that sounded in his mind at this moment is actually two consecutive times. If these two sounds are

distinctly different, Ye Xuan mistakenly thinks that this is The phagocytic system has somehow opened up some kind of repeat function!

"Hey, congratulations to the host! The realm of the realm! The current level: the fifth stage of the meteor!"

"Hey, congratulations to the host! The realm of the realm! The current level: the sixth stage of the starry world!"

Fifth order? Sixth order?

What is the situation?

Is this time, I have broken through two small steps in succession, and suddenly I have moved from the fourth stage of the previous meteor to the sixth stage of the meteor?

It is no wonder that the strength of the sea is so exaggerated. If it is a breakthrough in two realms, then it is reasonable!

The surprise came so fast, Ye Xuan took a full half of the time of the incense, and his mood finally recovered from the excitement of the tide.

After some analysis, he quickly reached a conclusion.

This time, the reason why I unexpectedly ushered in the repair of two consecutive breaks, blinked into two small steps, in addition to the astrology source he had thrown to the phagocytic system to extract energy, a little more important, most of the time and he The second time I used the 陨天弓神通, an arrow shot to the piece of the ancient prisoner Tiandao will be separated, in the invisible completion of the mood improvement!

In addition, the hands of the headless baby corpse have taken a lot of spiritual power, vitality, and flesh and blood from the dozens of demons, and they have overwhelmed Ye Xuan, and most of them are also among them. One of the factors.

Although this is also a speculation, whether the truth is true or not is actually meaningless.

The most important thing is that Ye Xuan's cultivation is a realm. It is indeed a breakthrough in the six scenes of the meteor. This is the perfect situation in the middle of this period. After the next breakthrough, Ye Xuan will officially enter the late stage of the meteor.

By then, the distance will cross the border and enter the back of the satellite environment, almost within reach.

The third realm is finally here!

These thoughts flashed through my mind, and Ye Xuan could not help but grasp the right fist subconsciously, and the heart wave once again wavered.

Since he broke into the starry sky environment with the emptiness of the void, it has not been how long it has been, and Ye Xuan finally grew from the first weakest meteor to the third realm. The satellite is in the air.

Although it is still very weak, but at least in the starry sky level, it has successfully taken a solid first step, and the road to the future is closer to the future!

After a few moments, Ye Xuan dispelled the distracting thoughts in his mind and adjusted his mentality. His mood quickly recovered!

Until then, he discovered that this time of cultivation, it took a whole few days, and now the black mosquitoes have passed the long-distance wormhole jump, and the journey is already halfway, even the black hole of life. They have been left behind.

"Is it going to arrive at the black mosquito star so soon? It looks like it's a bit psychologically inadequate!"

Shaking his head with a wry smile, Ye Xuan said to himself, this is obviously just a self-deprecating discourse. For everything that comes back to the black mosquito star, even if it comes to the face, Ye Xuan is in the bottom of his heart, and even a little hope of hope!

As the general commander of the whole black mosquito, after it is basically determined that his only son is killed by his new tribe saint, how much anger will Zuo Fengtai be?

Really looking forward to it!
