Chapter 2981: Request for mosquitoes

In two days, the black mosquito can enter the last cosmic wormhole. At that time, after completing the wormhole jump, it will be close to the edge of the black mosquito star field.

In these two days, Ye Xuan did nothing, except to try to contact the headless baby carved into the left chest of the corpse light mosquito from time to time, but never received any response, other At the time, he was almost all spent on the immortal piece of debris that was the intelligent center of his personal starry communication system.

Since Ye Xuan was in the corpse of the sacred forbidden land, after just getting a lot of sacred crystals, even if he threw some of the phagocytic system, the system would extract the energy from those crystallizations and then inject it into its subsidiary. After the communication system energy reserve area.

Nowadays, it's only a few days in the past, but the corner of the smart center of the communication system has clearly grown a lot.

Although it has not yet reached the level of getting rid of the fragmentation level, it has changed at least, and this change in growth is still clearly visible. Only then, I feel excited about Ye Xuan.

You must know that before this, he has smashed countless ordinary magic stars into the stars several times, the total amount is almost the size of a hill, but the immortal fragments have never reacted at all.

Today's changes have at least let Ye Xuan's heart worry that it can't grow and recover, and completely disappeared.

Soon after, the day when this immortal piece was rid of the "disruption level", Ye Xuan was in the realm of the devil's star field on the edge of the first universe, the official search for the source of the devour.

Even if there is no clue in the Devil's Star Field, it will be great to go out. This star field is just the corner of the first universe. The outer void is wider. Ye Xuan even has a strong instinct like the sixth sense: the

source of engulfing, he must be in this first universe. Found in the plane, and that day will not be too far away!

In this exciting and exciting expectation, the two days passed by, and the black mosquito finally ended the last wormhole jump. In front of this virtual air, it voyaged again, and then it quietly disappeared. The ground stopped.

Not far ahead is the edge of the black mosquito star field. The black mosquito space fortress is not suitable for sailing in the star field. It is always good to be cautious.

Ye Xuan even took the black mosquito number with the eight-star king scoop, and waved it into the immortal world, and then he took the hole and sacrificed it!

The eight-star king scoop was sent directly by Ye Xuan to the bottom of Dongxu Shuttle. There, a thousand mosquito beasts and a thousand soldiers scoops each chose a corner to build a nest. Now it is an area that belongs only to the beast.

The second layer in the middle is a sea of knives with a demon slave team, ready to send.

At the moment, Ye Xuan stepped into the hole, and the position of his body shape is the first layer on the top. There are only two people stranded here, wretched mosquitoes and Haofangfang!

The two guys were sitting on the sofa in the lounge area on the top floor of the main cabin. I didn't know what to talk about. I heard the movements and looked around.

The wretched mosquito-killing goods immediately filled his face with a smile, and he got up and greeted Ye Xuan.

And Hao Fangfang, after a slight glimpse, his face is obviously slightly sinking, and there is no speech. In this regard, Ye Xuan also knows that because of his performance in the Valley of the Forbidden King, it is really different. People, this made him very surprised, and his heart was alienated.

But this is just the right thing, Ye Xuan is still a blessing, so it is impossible to explain anything at all. At this moment, seeing Hao Fangfang does not speak, and his eyes are removed after he has looked at himself.

Ye Xuan said that he shrugged his shoulders and said: "The front is the black mosquito star field. Your black comet and black mosquito star are not in one direction. Therefore, if you have something, it is best to look at the star map. Remind me of the right location and stop the hole shuttle!"

The implication is that this is clearly not intended to return to the black mosquito star with Hao Fangfang, suggesting that he is in the middle of the road, and even the rhythm of leaving now!

"How? You value the name of the black mosquito son, and now you finally get it. You and I also know each other. Could you even ask the most beautiful Son of the Son to ask me to attend the ceremony?"

Ye Xuan's words made Hao Fangfang's sly flash a touch of annoyance, even when he replied with a sigh.

"The Holy Son ceremony will definitely be there, but before that, the black mosquito star is afraid to have to go through some turmoil first, so you will follow me with me at this time, and there is no benefit!"

Ye Xuan directly ignored the sarcasm in the other's words, and said the reason calmly, although Hao Fangfang did not know the fact that Ye Xuan had killed Zuo Licheng and Zuo Hongwu Shushu, but the former and Ye He is clear about the contradictions and disputes between Xuan Xuan. The black mosquito star turmoil that Ye Xuan said is that he hopes to associate with him in this respect.

"Zuo Licheng's Son is not robbed by me. If Zuofengtai is angry again, he will not let me suffocate? Really, who can I just pinch the soft persimmon?"

Hao Fangfang licked his mouth and looked dissatisfied: "Although it is not good, but at least there is no harm, right to watch the scene is full of fun, but still make a small profit!"

After that, he turned and walked into a cabin. Obviously, even if he wanted to go to the black mosquito star, he did not intend to stay with Ye Xuan on this road.

The latter shook his head silently, but soon discovered that since the suspicion of his own suspicion, Hao Fangfang's squeaky voice was still the same as before, but in front of himself, he never again used the "Lunjia". Claimed.

This is a good sign, and finally I can take this sissy off!

Thinking like this, Ye Xuan immediately became happy again.

At this time, a wretched mosquito trap that looked like a smile, just happened to be near, the waist was slightly squatting, and the face smiled: "Master, I have not returned to the black mosquito field for many years, although there was no one when I left. I have been friends and relatives, and I am not an aboriginal of the black mosquito star. I am a monk who has come from other stars, but I have stayed here for a while, or else, this time I took it out..."

"Just see the master's supreme scenery of the throne of the Son!"

"I really want to go to the black mosquito star?"

For the wretched mosquitoes, suddenly such a request was made. Ye Xuan's heart was actually quite unexpected. However, after a little sigh, he smiled lightly. He didn't hesitate. He nodded and said this: "This is also the case. Ok, after all, it's also the Son of the Black Mosquito. I can't do anything myself, I have to have an errand around me!"

During the speech, Ye Xuan stepped forward to the top resting area on the side. The moment he turned around, there was a glimpse of a fine smack in the scorpion, and even the curvature of his mouth seemed to be even more strange, revealing a touch. It's quite interesting...

Chapter 2982: sensation

In the past, before entering the black mosquito star, Ye Xuan will stop at somewhere in the vicinity of the star, and then the hole will be in the body of the immortal world, and then cross the void with the flesh and enter the black mosquito star.

After all, although the extraordinary aspects of the hole can not be easily seen from the appearance of the hull, even if it is just a random glance, it can basically be seen that this ship is not the kind of ordinary goods that are bad streets.

As an ordinary demon, Ye Xuan was repaired and only entered the second realm. It is not a good thing to have such a small private battleship.

At that time, it was the **** strength of the mosquitoes and beasts in his hands. It was only the first order of the original point. Whether it was the big leader of the black mosquito star, Zuo Fengtai, or the high priest, the **** scorpion could not enemy.

But nowadays it is different. In terms of identity, Ye Xuan is the son of the entire black mosquito tribe. Although the status in the whole tribe is far less than that of the great commander and the high priest, but with the big head of the top ten magic stars of this department, It is already flat and flat!

As for the strength, the original point of Ye Xuan's existence exists, except for the **** scorpion of the mosquito and beast, and now there is another eight-star king in the middle of the original spot.

This is a force that can be publicly displayed. The former does not have to say more. Before leaving the black mosquito star, it has already been exposed. It is impossible to say that it has been a recent breakthrough. Anyway, **** is crazy, just a few months later. From the initial stage of the black hole to the first order of the original point, even if it is shocked, no one will really pay attention to what.

As for the eight-star king, you can also find an excuse to perfuse the past.

In addition to these two original beasts that can be publicly revealed, the hidden power that Ye Xuan can use is obviously more powerful, and the headless baby corpse is gone. The little black mosquito star is not qualified to let it Shot.

However, the blood angle of the soul is different. It is just the refining of the baby's body. It is really urgent. Ye Xuan can't make it out, and then he will kill all the demons who are present.

It is just that the number of magic nucleus in the hands is too small. When it is used to attack the sixth metamorphosis of the brain's endogenous nucleus in the future, I am afraid that it is not enough!

Since the previous concerns have ceased to exist, in addition, the conflict between him and the great leader Zuo Fengtai will come sooner or later, then there is no need to deliberately conceal anything, meaningless!

With this kind of thinking, Ye Xuan urged the hole to go all the way from the edge of the black mosquito star field. After the black mosquito star, the speed of the battleship was actually undiminished, like a speedy flow, one end plunged into the black In the atmosphere of the mosquito star, the big thorns rushed straight to the area where the black mosquitoes were located...

.....

In the devil's tribe, there is also a star-to-sky communication system, and the intelligent center used is also the starry sky and super brain, but it is the most common star brain. For the technological elements derived from the Tianji family, the whole Although the devil's group has long been used to it, it is obviously not enthusiastic.

Therefore, compared with the administrative stars of the Third World Terran Technology camp, the star network of the Magic Star is not a little bit weak, and many functions are not.

However, as one of the top ten tribal stars of the tribe outside the devil's group, the star network of the black mosquito star is obviously not as simple as the ten devil stars such as the black mountain star in the tribe.

When you need to take the initiative to contact the Magic King, the ability to access the previous line of stars is still there.

As for receiving the signals and information transmitted and sent by the superior star network from the Magic King, it is naturally no problem.

However, this long-distance satellite network information transmission is extremely horrible in terms of energy consumption. Therefore, since the mosquitoes left the black mosquito star in recent months and set off for the magic emperor, Zuofengtai has never been with Zuo Hongwu. , Zuo Licheng uncle has had any contact.

They are not qualified to use the magic star's star network long-distance communication function!

Therefore, in Zuo Fengtai's cognition, Zhang Wuji, the unrecognized Montenegro star tester, must have died on the way to the Magic Emperor.

Until a few days ago, when the superstar network of the Magic Emperor suddenly sent a letter similar to the official document, just a circular letter of the passing, Zuo Fengtai was completely stupid!

The content of the circular is very simple, at a glance, and the meaning is very clear: Zhang Wuji, the new son of the black mosquito, is appointed by the devil, so considering that the repair is too weak, it is not on the table, yes, Let the big commanders of the black mosquitoes and the high priests supervise, and diligently practice, and do not go out and hang around. At that time, the Imperial City High Priest Wenxing will personally come to the black mosquito star to test it!

This circular letter shocked Zuo Fengtai on the spot, for a long time, and the chaos in the brain.

The high priest Wen Xing apparently saw the circular at the same time. Therefore, Zhang Wuji's trial for the first time entered the sacred secret, and he had already passed some kind of spiritual power and became the whole demonic group. Inside, in terms of spiritual strength, it is almost comparable to the existence of the Holy Wind of the Holy Wind. It was the news that the Emperor was hand-picked and became the new Son of the Black Mosquito. city.

Then quickly spread to the entire black mosquito star, as well as the black star of the Horde within the tribe!

The top ten magical stars of the black mosquitoes were all sensational.

The great commander, Zuo Licheng, is a must-have for this trial. It is no longer a secret. The top ten of the top ten devil stars are well aware of this.

No one expected that the original result, which was originally without suspense, was completely rewritten because of a sudden black horse that suddenly rushed out.

In the face of this unacceptable embarrassing result, the general commander Zuo Fengtai's anger, this time afraid of a complete outbreak!

These arguments have been raging in the top ten stars of the Black Mosquito in the recent days after the contents of the circular have been spread!

The eyes of countless devil strongmen gathered from the black mosquito stars, closely watching the follow-up development of the incident. Many people believe that the moment when the black mosquito test team returns to the black mosquito star, it is the great commander Zuo Fengtai. When the explosion broke out!

An invisible tension has shrouded the entire black mosquito star, and in the past few days, it has increased day by day!

It was at this time that a small private warship, but arrogantly plunged into the atmosphere of the black mosquito star at an extremely fast speed, whizzing past, unscrupulously pointing straight to the black mosquito city that represents the core of the entire black mosquito. Rush!

At this time, there are still people like Meng Lang. This time, I am afraid that I have touched the tiger's beard of Zuofengtai. I am not venting fire!

In the black mosquito city, countless devils who looked up and looked at each other secretly, and all of them were with a little sympathy.

At the same time, the official commander of Zuofengtai, the commander of the great commander, also suddenly heard a violent roar of anger, and a horrible figure slammed out of the bureaucracy and flew straight out, and the eyes went to the high altitude. To the small warship that roared, the fist was blown: "I am arrogant of the main star of the black mosquito, and the sin has been sinned, to die..."

Chapter 2983: I guess too.

Black mosquito main city, black mosquito ancestral temple!

The first time when Dongxuan shuttled into the atmosphere of the black mosquito star, the high priest, Greyhedler, was already aware of it, but he did not pay attention to it. At this moment, with the great commander Zuo Fengtai roaring and arrogant The bureaucrats vacated and wrapped up with boundless killings. They punched the hole and smashed the mouth of the high priest, and they could not help but slowly sketch out a sly smile.

"The higher the number of people, the more extraordinary, the more peace of mind ... so impulsive, it is up to you, but also want to overhead the priest, in this black mosquito monopoly hegemony?"

Having said that, the gray bones smirked and shook his head, and his eyes swept to the hole. "This ship is not too expensive. Presumably, the Lord is also quite a generation. Unfortunately, it is usually not the case." I'm leaning on Zuofengtai..."

"Well... actually he?"

Halfway through, the words of Gray's bones suddenly stagnate, the face was shocked, and the eyes were coming out quickly. The voice screamed: "What is the situation? Is this kid coming back alone?"

The voice was degraded, and his cockroaches flashed through a glimpse of the fine mans, suddenly condensed, seemingly capturing what was inductive, almost in the next moment, a touch of surprise on his face quickly opened, and even the voice of the voice, all happy There is a strong expectation in the middle: "The two brands are still there? No wonder this is innocent, Zuo Hongwu actually did not shoot?"

"But these are not important. The key is another brand. It has been activated passively. I don't know if the rabbit is already in hand..."

As soon as I read this, the gray bones can no longer sit still, and the figure is swaying. When even the house has been taken out, it will sneak away...

At the same time, the black mosquitoes over the main city!

Just as the cave was plunged from the atmosphere of the black mosquito star, just arrived at the main city, just as it was about to fall to the ground, in the great commander's residence in the depths of the autonomous city, Zuofengtai, a huge roar of the sky, raged and roared. Punch out...

In this scene, the entire black mosquito city, countless demons and strong people are all looking up and looking into the eyes.

Some of the devils even shook their heads and sighed, which was clearly a bad luck and hit the muzzle.

With the horror of the 9th-order of the original Feng Zuotai, the star-rated warships of a kilometer captain can be shattered, not to mention such a small private warship that is not even 500 meters away?

However, the scene that appeared in the sky for the next moment, but instantly innumerable demons in the black mosquito city stunned the chin of the place, the unexpected exclamations screamed...

"boom!"

"Hey..."

The thundering roar and roar, Zuo Fengtai was full of anger under the wrath, although it was a simple punch, its power was called a smashing of the sea. At this moment, the bombing came, it is clearly this horrible boxing force. The goal!

However, at this moment, the hovering hole has been hovering, but it has not been damaged.

A huge black scoop with a body shape of about a dozen feet was silently unexpectedly appeared. It was blocked in front of the hull. The force of Zuo Fengtai's anger slammed into the giant scout, but Clearly did not shake its points!

This giant floating beast is the eight-star king's scoop. However, in the devil's field, the squad is called the emptiness beast, taken from the horrible ability that they can swallow the stars and the sky!

"The original spot is empty? This is impossible..."

With the sound of the screaming sound of the eight-star king's scoop with a strong warning, Zuo Fengtai's face suddenly changed wildly, and he was exclaimed!

The black scoop of the empty beast is sturdy and incomparable. This is common sense, but he can squat his full strength and punch, but he still has no loss of the emptied beast. It is definitely the existence of the original point, and it is not the beginning of the original point...

In other words, in front of this emptied beast, he has the qualification to be able to fight with him, and the horror body that he can not easily shake even with the other party, really wants to die, and most of the loss is his own. !

For this reason, with the identity of his black mosquito leader, this moment will be so ruined!

"The big commander, I am just a happy report, forgot to slow down for a while, isn't it?"

Also at this time, Ye Xuan took a step from the hole in the virtual shuttle. Under the sway, he fell on the back of the eight-star king's scoop hanging in the air, and said with innocence: "If not me I have known this big brother near the black hole in the air, but I can't wait for you to punch it?"

"If this is the case, the devil's group has the shortest life son of the history. In the future, the black mosquitoes will never be able to pick up..."

During the speech, Ye Xuanxin waved his hand and the hole in the back of the hole was immediately engulfed in the body. At the same time, the heroes and the wandering mosquitoes in the cabin were also moved by the ship. Come out, and fell to the back of the king's scoop, squatting behind Ye Xuan!

"It's you?"

Seeing Ye Xuan, Zuo Fengtai suddenly stunned, and the heart suddenly burst into a strong impulse, almost immediately shot, but eventually resisted, the other side is now the son of the black mosquito,

the gray bone can not sit idly by What's more, there is still a strength in front of him who is not inferior to his original point?

Thinking of this, Zuo Fengtai subconsciously glanced at the king's scoop at the foot of Ye Xuan, and his eyelids suddenly twitched.

The supreme beast of the original point of view, let this kid stand like a master, and even bring other people, what is the difference between this and the conquered?

Just turn around in the vicinity of the empty black hole, you can run into such a good thing? This luck is simply against the sky!

One thought of this, Zuo Fengtai's unwillingness in his heart was a strong three-point, and his neck was thick, and he gasped and asked: "Why are you only returning? The murderous mosquito number?"

This is clearly known to be asked, and it is quite like it!

Ye Xuan sneered under his heart, his hands spread, his face stunned: "The big commander, you still don't know? The murderous mosquito number has long been left by Zuo Hongwu and Zuo Licheng...get it!"

"puff!"

Zuo Fengtai almost spurted blood on the spot. Although he knew this well, from a certain point of view, the murderous mosquito number was indeed not made by Zuo Hongwu and Zuo Licheng. This can even be added to him.

However, what is it?

Even if you already know a little about the inside story, don't you say it so ugly?

This is clearly deliberately provocative!

Could it be because of the emptied beast that received this original point of view, and I have decided to rely on myself to plan to face the rhythm of doing it on the bright side?

As these thoughts flashed in my mind, Zuo Fengtai calmed down and stared at Ye Xuan coldly. He said: "Zhang Wuji, don't forget that you are not the son of the black mosquito! Zuo Hongwu is I am the scout of the main city of the black mosquito, can you be defiled in public? This is for you to remember in advance, after the return of the left leader, then pursue it together!"

"So, thank you for your great command, but... in case they can't come back?"

Halfway through, seeing Zuo Fengtai's neck was thicker in an instant. Ye Xuan immediately turned around and shrugged and shrugged: "Don't misunderstand, I didn't curse them, the key murderous mosquito number is gone, this road is dangerous. Quite a lot, it's not impossible to make an accident. Of course, I guess too..."

Chapter 2984: The temptation of the gray bones

"you....."

Zuo Fengtai had forcibly suppressed the anger of his heart for a while, but at the moment, after hearing Ye Xuan's almost incomprehensible resentment, the anger that had just been suppressed was smashed and blinked again. Underneath, it will happen.

Also at this time, a hearty laughter sounded extremely loudly in this void and quietly opened, the high priest gray bones, arrived!

"Ha ha ha..."

"For the first time, when you first enter the sacred forbidden land, you will be able to gain a spiritual inheritance. Zhang Wuji, this time, let us black mosquitoes finally turn over and raise their eyebrows. From then on, among the top ten demons, I am black mosquitoes. The ministry is no longer the bottom, but it has become a top tribe that can compete with the head of the black scorpion..."

As the sound of this hearty laughter came out, the figure of the high priest, Greyhedler, also appeared quietly, and it was quietly located in the middle of the black mosquitoes, Zuofengtai and Ye Xuan, both of whom were in the middle of the confrontation, plus When he arrived, he mastered it quite subtly. All this was clearly deliberate. It suddenly made the big commander of Zuofengtai, who was about to attack, flash a glimpse of it. A strong dissatisfaction was unwilling, and it flashed quietly!

Even so, with the arrival of the high priest Greyhul, the anger of Zuo Fengtai's heart that is about to tumbling, is finally suppressed again.

Although 灰骨勒 is only the first-order cultivation of the ninth state of the original realm, but because he is a high priest of the great tribe of the devil, the use of spiritual strength skills is far beyond the tribal command. Zuo Fengtai, yes, although the latter has the fourth-order repair of the original point, but the two really want to fight, the odds of winning, but the weaker gray bones are bigger.

What's more, in addition to this, the gray bones and the priests of the imperial priests, which have become the illustrious giants of the whole demonic group, are extraordinary. When the bank was still a tribe of the black mosque, the gray ash The bones are the tribes that he has hand-picked and cultivated. The two are not the mentoring relationship, but they are similar.

Therefore, Zuo Fengtai simply did not dare to tear the face on the face and gray bones. After all, he left the veins in the imperial city, although there are backings behind it, but it is only the general imperial power minister.

Among the entire imperial city, and nowadays, the Wenzhou priest who is now in the middle of the devil's remarks, is completely incomparable!

It is because of all these things that Zuo Fengtai, the leader of the entire black mosquito line, is finally the one who has suppressed the anger of his heart.

Of course, the reason why the most important thing is actually because he thinks that there is an opportunity to clean up Ye Xuan in the future. At the same time, he is not aware of his only son Zuo Licheng and his brother Zuo Hongwu. Halfway through the ministry, Ye Xuan had already removed it.

Otherwise, Zuo Fengtai will be jealous of the great priest, and at this moment, he will be furious and full of episodes!

"The high priest praised me, but I just had a little luck..."

At this moment, seeing that the general leader Zuo Fengtai was forcibly forbearing, Ye Xuan's heart was also a deep sigh. In this scene, he did not want to see it. Compared with the latent, the crisis that may erupt at any time in the future, he would rather have it now. Choose to face, at least, to take advantage of this opportunity to force the high priest to show his position.

However, even if the heart is not reconciled, Ye Xuan at this moment will never be able to continue to provoke Zuo Fengtai too clearly. Once that is done, it is said that Zuo Fengtai, the high priest, will be suddenly confused. He is a meteor ants who have just been appointed as the son of the black mosquito, and there should be no such courage and connotation.

If you really want to do this, anyone will be suspicious of Ye Xuan's motives!

"I don't think you have such a chance. This emptied beast is at least the fourth order of origin. It is not weaker than the left commander. I am afraid that even this priest can't compete. This kind of existence can actually be with you. Joining each other and being willing to follow, it's really awesome, personal luck, and it's really mysterious..."

With the foundation of the five-level nuclear nucleus of the gray bones and the priesthood of a large tribe, he naturally saw that the eight-star king's scoop of Ye Xuan's foot was not like the general demon pet, but it was It has branded a spiritual brand in its body, and forcibly manipulated it.

Therefore, this discourse is not a very eloquent statement, but from the heart, Ye Xuan even saw a fascinating faint glimpse from his shackles.

Obviously, for Ye Xuan, he can get such a powerful follow-up of the emptied beast with his own number of movements, that is, the high-small black mosque, the high priest, is also very impressed.

In addition, the resulting more, it is his eager anticipation of Ye Xuan's secret mission to the Magic Emperor.

Since this kid has such a strong point of origin, the mid-term emptied beast has a way to swindle, and it must be quite a way for the sinister congenital rabbit in the ban.

I thought about it, I couldn't help myself when I was stunned, and I didn't even care about the big commander Zuo Fengtai just turned around. If there is some, it's clear that for the dialogue between the two of them. Under the light, when I asked Ye Xuan, "I don't know what to do with the priests, I don't know..."

"Is the big priest talking about the ghostly dead rabbit?"

Ye Xuan's heart sneered, but on the surface it was quiet. When it was mentioned, even if it was evoked in the heart, even when there was a wave of indignation on his face, the hate echoed: "That is dead. The rabbit is too clever, and he played with me several times. Unfortunately, he still couldn't catch it. Otherwise, he would be willing to live it!"

"what?"

This result made the gray bones feel disappointed, under the huge gap of the heart, and even some screams, but they quickly responded. Instead, he raised his hand and waved the two spiritual imprints that had been originally injected into Ye Xuan's body.

Then, after swaying, he walked away to the tribal ancestral temple at the end of the black mosquito city on the ground. His body shape has disappeared, but his body shape is still lingering: "After three days, he will hold a black mosquito. The new sacred son ceremony, in addition, in these three days you can enter the sacred temple outside the ancestral temple..."

"However, if there is nothing wrong with it, take advantage of this three-day work, it is best to do more and more cultivation and practice. If you have nothing, don't go out and leave the black mosquito star. The Imperial City High Priest Wenxing is quite worried about you. Deliberately swearing this priest, you must be supervised and urged by you. As a large tribe, only the repair of the meteor, it is too weak..."

As soon as I heard this, Ye Xuan's glimpse of the glory, a huge sense of crisis, has already come to the fore...

Chapter 2985: East window incident

It is no wonder that he just arrived at the black mosquito star. Whether it is the big commander Zuo Fengtai or the high priest ash skele, it seems that he has already known the sacred son of the black mosquito.

For a long time, it turned out that the magic king star had passed the star's upper-level star network, sending a message to the black star network's lower-level star network, and passed the news.

Moreover, most of this message was also personally hated by the imperial priest Wen Xing. In addition to the fact that Ye Xuan became the new son of the black mosquito, the message even deliberately belonged to the high priest of the black mosquito. It is necessary to work hard to supervise and concentrate on cultivation, and must not leave the black mosquito star.

Regarding this matter, the day of the trip was mentioned in Ye Xuan's face. At that time, he did not think deeply, but now it seems that this discourse is quite meaningful.

Otherwise, with the prominent position of the high priest of the city, how can he care so much about his newly promoted tribe?

If there is no accident, this so-called Qinjia urges to concentrate on cultivation is a fake, not to leave the black mosquito star, is the other party's true intentions!

It seems that everything he did in the forbidden land of the Holy Spirit has not been able to fool the past. Although Wen did not go deep into the day, it is obviously because Ye Xuan could not escape his palm, and he turned back to be interested. Can pick him up and explore the reason inside.

For this, the high priest's high priest, Greyhound, obviously guessed a little, so that the other party deliberately mentioned the matter before leaving, clearly deliberately holding the meaning of the beat.

The purpose is to force Ye Xuan to report the true facts about the rabbit, so as to seek his asylum...

With these thoughts flashing in my mind, Ye Xuan's heart was sinking, and the corner of his mouth showed a faint sneer. Whether it was Wen Xing or Gray Bone, he might have decided that he could easily pinch him, but they How can we know that even on the occasion of being trapped in the Magic

City, Ye Xuan may not have any countervailing power, but some means are not willing to be easily exposed.

At the moment, he left the Emperor City and returned to the black mosquito star of the black mosquito. In Ye Xuan, this **** and jealousy are even more difficult to talk about.

There is no threat to the heavens of the demon royal family. On this day, the black mosquito star far away from the emperor is the imperial priest Wen Xing's personal arrival, just the supreme existence of a cave. If Ye Xuan is in a hurry, it will not be a big shot!

If he really wants to tear his face, he is completely sure that he will kill all the demons who are present, and then leave with ease.

At that time, although the news will eventually be revealed, but at the top of the Magic City, at least know that Ye Xuan has the means to kill the heavens and the heavens, but what is this means, they are absolutely unknown.

So, it is Ye Xuan, it doesn't matter!

As soon as I read this, Ye Xuan's heart suddenly settled, and the first look at the black mosquitoes in the city underneath looked like a savage man with a strong sense of enthusiasm. He smiled and gave him eight feet. The star king scoop earned a hole in the shuttle.

Then, after the hole was thrown into the body, the body shape shook, and led the two behind the Fangfangfang and the wretched mosquito, and spurred toward the tribal ancestral temple deep in the main city of the main mosquito in front of the city!

Among the top ten foreign tribes of the black mosquito group, the main star of each tribe is like a magical city, with a demon temple, and the tribe's high priest is the master of the tribe's ancestral temple. The child is equivalent to the successor cultivated by the high priest. In the ancestral temple, it is equivalent to the existence of a small master.

As the future high priest, the tribe's Son has an unshirkable responsibility for the specific daily affairs of the entire tribal ancestral temple. Of course, the real core affairs, the high priest will not give it to the

Son at will, generally In terms of letting the Son be responsible, it is only the daily chores of the ancestral temple.

Therefore, the living place of the Son is basically in the outer hall of the tribe's ancestral temple, and its powers and responsibilities are equivalent to the general affairs of the entire ancestral temple!

When Ye Xuan led the Haofangfang and the wretched mosquitoes behind him, they fell from the air in the outer hall of the ancestral temple. Many of the ordinary priests were waiting respectfully. These devils said that they were priests, but in fact they were just tribal temples. The daily routine of the demon community is just a form.

The so-called generation of demon emperors, themselves are far from the existence of the gods in the background of the stars, this so-called demon ancestral temple, can there be a certain point of true sacrifice of the meaning of the gods?

After entering the temple, a senior priest who is a senior in the priests of this group of ancestors, like a guide, led Ye Xuan and his three men to wander around the entire temple. Carefully slamming Ye Xuan as a tribe, he should share the responsibility of daily chores management in the ancestral temple, and handed in several thick books.

In this regard, Ye Xuan was not interested, but the wretched mosquitoes behind him were immediately picked up with a smile. Ye Xuan's heart moved, even when he raised his finger to the wretched mosquito, Shen Sheng said: "This is a mosquito. The affairs of the Son of the Son have always been taken care of by him. In the future, this kind of custom will be left to him."

After all, I did not pay attention to the reaction of the old priest, and turned into the main hall of the Holy Family...

.....

Two days passed by. At this time, Ye Xuan returned to the main star of the black mosquitoes in the evening of the third day. The new sacred son of the black mosquito will be held at noon tomorrow. At that time, the other black mosquitoes will have another nine monsters. The big head of the star, will be all arrived, to observe the ceremony of the Son!

In the past two days, the entire black mosquito main star is a scene of joy and joy. The main mosquito in the main city of the star is lit up. After all, this time the newly-elected tribe, but at the time of entering the forbidden land for the first time, it has successfully obtained the existence of a certain spiritual strength skill inheritance, even among the top ten demon tribes, it belongs to the ancestors, the vast majority of the whole black mosquito tribe, so joy.

As a celebration, the grandeur on the countertop must still be there.

However, under this superficial celebration, the entire black mosquito main city is still in the dark, but whether it is the high priest gray bones or the big commander Zuo Fengtai, in these two days, no appearances, no more summoned Ye Xuan, who will soon be the tribe of the tribe.

Everything seems to be calm and even Ye Xuan feels that he is afraid to officially board the position of the Holy Son of the Black Mosquito.

However, just in the evening before the day of the Son of the Son, a screaming roar of roaring, but without warning, suddenly came out from the big commander of the black mosquito main city.

It is the voice of the great commander Zuo Fengtai: "The erect Zhang is unscrupulous and almost deceived by you. This is clearly looking for death... Hey!"

The roar of anger shook the entire black mosquito city, and then, a savage figure, rushed out of the bureaucratic prince, and leaped into the direction of the ancestral temple.

Ye Xuan stepped out of the room, looking into the distance, a sneer in the corner of his mouth slowly sketched out, finally... Did the east window get out?

Chapter 2986: Real crisis

The past two days seem to be calm, it seems that everything is as usual, nothing happened, but in fact, whether it is the great commander Zuo Fengtai or the high priest gray bones, in the dark, there are no small movements.

The latter is the origin of Ye Xuan's origins. When he came, he represented the Montenegrin star to test the identity of the Son. He had already found the main city of Montenegro.

The former, on the first day, really did not change anything, only the heart was resentful, but with the day after, the black mosquitoes led by Zuo Licheng and Zuo Hongran were originally stationed in the fierce The Mohawk Scouts on the Mosquito Space Fortress have still not returned, and Zuo Fengtai finally felt embarrassed and began to investigate the matter.

The Fengteng special warship was handed over to Zuo Hongwu by himself. This ship is his private possession. No one can be clearer than Zuofengtai for its performance.

In his view, even if Zuo Licheng and Zuo Hongwu's uncles leave the Magic Emperor later than Ye Xuan, they will not return after a full day.

Under the heart, Zuo Fengtai took a heavy suspicion, and even if he used the resources of his hands, he actively contacted the other nine devil tribes, especially on the way back to the black mosquitoes all the way from the magic king. The tribes of that.

As a result, since the evening, among the other nine tribes other than the Black Mosquito tribe, some of the devils have been dispatched more or less, and they began to search for the whereabouts of the Fengteng.

This whole day, Zuofengtai has been waiting for it.

Until the right talent, in the network of resources he used, there was finally a squad of the Devil's Power, who found some of the wreckage of the Fengteng in a void, and it was enough to confirm that Zuo Licheng and Zuo Hongwu Shushu were both changed. The fact that it has already been killed.

The news came, Zuo Fengtai immediately violently, and issued a crazy roaring roar at the first time. At this moment, after rushing out of the main commander of the black mosquito main city, he went straight to the temple of the ancestral temple where Ye Xuan was located. The bang came...

As the fourth place of the original point of the supremacy, at this moment is the wrath, the mighty power of Zuofengtai is almost in the middle of the sea, the rear, the entire black mosquito in the city, countless devil strong in the foresight, already already It changes color.

"The erect Zhang has no suspicion, and dared to murder my children to become my brother Hongwu. Today, this commander will set you up and down..."

"Booming..."

The roar of the sky once again roared out. At this time, the entire figure of Zuofengtai has been covered by a majestic air current, but there is a huge claw print like a mountain, with a thunderous thunder. The sound is always gripped, this is clearly a desire to go to Ye Xuan, go back and slowly torture the pace!

"If you want to add the sin of the left commander, there is no word. If you think that Zhang has taken the position of your son, Zuo Licheng, the black mosquito, the big thing is that it is so bloody, it seems a bit lost identity?"

At this moment, Ye Xuan has already stepped out of the courtyard of the sacred temple, standing on the peak of the courtyard, looking up slightly, looking at the face, not inconspicuous, the tone is not humble, but the voice of the mouth is extremely clear and clear. To countless devils who are close to the entire black mosquito main city, all listened to one true!

Behind him, the wretched mosquito and the fragrant Fang are separated, and I don't know what they are thinking about. The former is thief-smashing and screaming, while the latter is frowning, a thoughtful Expression, from time to time to take a look at Ye Xuan.

"It's hard to die when you die, hahaha... Nothing, this commander has the means to call you a confession!"

In the face of Ye Xuan's reprimand, Zuo Fengtai, who was hung in the sky, was extremely angry. In the meantime, the huge palm print from the sky was not stopped for a moment, and it was halfway down in the blink of an eye. After a little while, it will come down!

But until this time, the high priest Greyhedler still did not appear, Ye Xuan sneered under the heart, the wave has already sacrificed a hole in the shuttle, hanging in front of his head in the air.

"Hey..."

In the next moment, with a violent screaming screaming sound, a huge black figure has been swept out of the hole, it is just a few feet, not equal to the sky. The huge eight-star king's scoop, which was inferior to the palm print, appeared in an infinite power, and slammed into the giant palm of the sky!

"Boom!"

"Hey..."

Like a thundering huge sound of the explosion, it sounded quietly in the next moment. The huge palm print was directly smashed by the head of the eight-star king who had gone head-to-head without any suspense.

Then, the shape of the eight-star king's scoop was not reduced, and the second whistling sound was heard in the mouth. It was actually rushing to the sky-high sky of the black mosquitoes, Zuofengtai.

This is clearly the rhythm that has been stirred up by the fire, wanting to fight endlessly!

"Enough! Is it still not enough for the current situation?"

Just at this time, in the black mosquito ancestral temple behind him, the figure of the high priest ash keel finally came to the air, and when it came, it was broken and began to scream, and then it was swept to the lower peak. Ye Xuan on the side: "Zhang Wuji, call this original point to empty the beast, this priest guarantees that this will end here, no one will mention this matter until the imperial priest Weng's arrival. "

After the words, seeing Ye Xuan frowning, he has already waved his hand to the sky. The gray bones turned to the left and looked at the sky at Zuofengtai, and he said: "I have just received the high priest of Wenxing. The secret party only learned that it was now confirmed that Zuo Licheng and Zuo Hongwu had already been killed, but the people who shot them were not Zhang Wuji, but the black mosquitoes in the Frontline Legion of the Devils.

"The Fengteng sent a distress signal to the Emperor Star before it was destroyed, clearly indicating this..."

"There is no doubt that the Devil's Scouts of the Third Cosmic Front must have made a big mess. Other scouts will not be mentioned for the time being, but the Black Mosquito, but it must have fallen into the hands of the Terran, and the other party has successfully mixed in. The Devil's Star Field."

"You and I can't escape the responsibility of this matter. In terms of the Magic Emperor, the Emperor Wei of the Emperor Wei has led the army to rush to come. At that time, the soldiers will be divided into two ways, all the way through the whole black mosquito and surrounding stars, all the way directly Enter the cosmic wormhole and go to the front of the third space battlefield to investigate the details of the devil's scouting army!"

"The imperial priest Wen Xing also came along with this army. He will not be able to reach the black mosquito star in the future. You and I both serve as the high priest and the big commander of the black mosquito. At the moment, I still have to think about it. Let's go!"

"What? Is it a black mosquito? How can this be?"

When this discourse came out, it was the high-altitude black mosquito line leader Zuo Fengtai, which was completely shocked and whispered in the sound.

As for the leafy standing on the ground, the surface seems calm, but the bottom of my heart is in a moment of waves, the real crisis is coming...

Chapter 2987: Don't do it

Regarding the black mosquito number scouting for the fortune, the high priest, Greyhedler, did not deliberately avoid anything when he spoke out. As a result, as the sound came out, there were countless black mosquitoes in the distance. The Devil's Power is almost always heard.

The entire black mosquito main city is suddenly in a moment, and this news will obviously spread out at the fastest speed. It will not take long for the top ten magic stars of the black mosquito to be fully aware.

A thrilling wave that swept the entire black mosquito and even the entire demonic group has quietly arrived!

The shocking sorrow brought by the high priest, Greyhedler, is shocking, but in some respects it is really speechless.

It was because of this terrible accident that the great commander Zuo Fengtai's suspicion of Ye Xuan was actually vanished in an instant. He glanced at him coldly and left with the high priest Gray Gu. It is a secret policy to deal with this matter.

At least from the current point of view, the two of them, for the time being, have not yet put their doubtful eyes on Ye Xuan.

After confirming this point, Ye Xuan's mind was slightly fixed. After the eight-star king and the cave were collected, they turned and walked back to the temple behind them. They sat alone in the secluded room and began to fly quickly. Think about the next response!

Judging from the discourse and reaction of the gray bones, the Fengteng sent a message of help to the Emperor Star, and even mentioned the black mosquito scout fortress. However, for the emergence of Ye Xuan, the message of help should be There is no mention, it is because it is too hasty.

This fact is fortunate, otherwise the crisis that Ye Xuan will face at the moment will be even more intense.

However, although Ye Xuan has not been exposed yet, the whereabouts of the black mosquito has been leaked. The Devil's army has already set off for the Devil's army. I believe that it will soon be able to pass through the natural area that connects the third cosmic plane. The wormhole enters the funeral star field. At that time, everything will be revealed. Once the news is returned, the entire magician star field will conduct a rigorous search and investigation.

Sooner or later, I will eventually find Ye Xuan's head. After all, his appearance is too abrupt. Before all, he couldn't find any roots. It's hard to be suspicious.

In the face of this situation, he now has only two choices. One is that before the army holding the magic star has not arrived, he immediately leaves the black mosquito star and rushes to the wormhole, leaving the devil's domain for the first time, returning to the human race. The third universe.

In this way, he originally intended to find plans and plans for the source of devouring in the vast universe of the first universe, even beyond the Devil's Star, and I am afraid that it will be completely lost.

And in the short term, this plan will no longer be possible.

After all, the Devil's Scouting Corps made such a big event. First, without mentioning the wormhole, it is located near the exit of the wormhole in the first universe. The demon community will certainly send a large number of troops to prevent it, and it is difficult to have a chance to mix in.

As for the second choice, it is to make the heart cross, and the teeth are still mixed in the black mosquito star.

The move seemed to be adventurous, but after Ye Xuan thought about it, he finally decided to choose to stay still in the black mosquito star.

It's hard to come to the first universe, and now I've got the identity of the great tribe of the devil, which will have great convenience and help for his subsequent search to devour the source. In any case, Xuan really refused to give up easily.

As for the immediate crisis, on the one hand, he has two big cards of headless baby corpse and **** horns, and he retires 10,000 steps. Even if he really reveals his identity, then he will not be able to go out.

As long as Ye Xuan means to do it, it seems that there are not many people who can keep him in this magician star field!

In addition, it is the third person in the front of the universe, the demon squad, the squadron, and the event will not necessarily find Ye Xuan's head. Of course, the premise is that he must do some preparatory measures before he can do it. .

For example, in the Devil's group, a few real high-level eyeliners are inserted. At that time, if there is any wind and grass, he will at least have the confidence to be informed at the first time. If there is any change, there will be a buffer time.

Thinking of this, Ye Xuan suddenly shook his head and smiled. After a while, he had already been put aside for a long time, and finally it would come in handy, and this time, the devil who will be slain by him will be There are no lower-level devils, at least for the existence of the identity level like Zuo Fengtai and Greyhed, otherwise it will be worthless!

"The first two goals, they took the two of them..."

Under the flash of the fine mans, Ye Xuan made a decision in an instant: "After all, it is still mixed in the black mosquito tribe. As the boss, the gray bones and the left Fengtai are most likely to give birth to me. Doubt, in this case, simply do not endlessly, the two guys planted a slave to convince as a slave, otherwise it is really uncomfortable!"

This thought made Ye Xuan's heart beat wildly, whether it was the big commander Zuo Fengtai or the high priest gray bones, all of which were the supreme existence of the ninth state of the original realm. This level of the devil strong, Ye Xuan also It was only used to conquer one person by slaving.

That is the **** scorpion of the mosquito family, and when slain the **** scorpion, there is at least a madness of the mosquito king who is repaired by the cave, and the blood of the mosquito prince is controlled in advance, otherwise With Ye Xuan's cultivation at that time, there was no possibility of success.

If it was before, he would not dare to give birth to the idea of planting a slave to the black worm, the high priest, after all, the other party is not only good at the use of mental power, but also has a five-level source core, which has a high-level source. The existence of the nuclear, the resistance to slavery is amazing.

However, today's Ye Xuan has completed the fifth metamorphosis of the source nucleus in the brain, and his source nucleus has already entered the sixth level, surpassing the gray bones, and the same level as the Imperial City priest Wen, second only to the devil. Huang Mo asked the day.

Under this circumstance, Ye Xuan planted a slave to the gray bones, and the success rate of conquering him as a slave was greatly improved. Therefore, now he will suddenly give birth to such a bold idea!

After the decision, even if Ye Xuan started to prepare, it is actually a condensed slave!

Both Greyhedler and Zuofengtai are the supreme existence of the ninth state of the original boundary. That is to say, the slaves they planted must at least reach the eleventh level, that is, repeat the ten times of refining.

However, in order to be safe, Ye Xuan decided to condense two 12-level slaves to greet the two guys, so that you can be sure that nothing is lost!

If you start to condense from the beginning, even if Ye Xuan is now the sixth-order power of the meteor, if you want to condense two 12-level slaves, the time required is not too short, and within a few days, it is too late.

Fortunately, there are some ready-made slave prints in his hands, including several ten-level objects. At the moment, two ten-level slaves are directly condensed, and there is no need to worry about time...

Chapter 2988: Revealing cavities

Two 12-level slave prints, all of which were obtained after two repeated smeltings with ten-level slave printing, so it took only about half a day for Ye Xuan to complete all of this, to deal with the gray bones. And Zuo Fengtai's essential software resources are ready!

However, it is obviously not enough to prepare the software resources. These two guys can all be the supreme existence of the ninth state of the original realm. Two 12-level slaves that have been condensed successfully must be successfully injected into them. Obviously it is not easy to do with it.

Ye Xuan analyzed the abilities he possessed, whether it was the spirit of the crushing or the dragon's snarling ability after reaching the entry level, although it was a skill that was surprisingly shocking the enemy's mind, but because of Ye Xuan and the other party. The huge gap in strength, these two capabilities, obviously can not work.

As for the scorpion bow and spiritual thunder and lightning, as well as the mysterious method of annihilating spears, ruining vortex, etc., they are basically all attacking and not suitable for dealing with such scenes!

From this point of view, if you want to successfully realize the short-term shock of the two players, then you can take the opportunity to shoot two 12-level slaves into their bodies. The only way is to It can only be turned to the headless baby body for help.

Even if it is not interested in personally, it is enough to have the **** corner of the soul.

The **** corner of the soul, but the nine-star scoop of the heavens and the earth can be crushed and smeared, and the two devils who are the original point of the gray bones and the left Fengtai are obviously not at all, just playing with them. Like a child.

However, whether this matter can be achieved or not is hard to say at the moment. Although the headless baby corpse has always relied on Ye Xuan's body, it has been a tattoo of a corpse lamp in the left chest of Ye Xuan, but it has always been No matter how Ye Xuan actively contacted it, this headless baby corpse has never had a positive response.

Therefore, for this time, he asked him to ask for help, and he was Ye Xuan. In fact, he did not know much about it!

You can only say the right and try it. If it doesn't, you will find another way!

What surprised him was that this time, the headless baby corpse, who had never been aware of his call, had passed a brand of breath and secret in the first time, directly immersed in the sea of Ye Xuan. Among them, it is exactly the same as the last one.

Through this mysterious branding, Ye Xuan is always able to drive the blood of the soul to use it for himself. When needed, he only needs to activate the brand in the sea, and then it will be refining the headless baby. The **** corner of the soul is self-inductive and will move with Ye Xuan's mind.

It can be said that it is extremely convenient. The only pity is that this branding is a one-time consumable. It was known that Ye Xuan used it last time. Once it is activated, it will become a mysterious unknown. Power, quickly immersed in the body of the blood horn, no longer see.

Such a powerful **** horn, each time only temporarily can be slightly driven, can not use its horrible supreme power, this really makes Ye Xuan feel helpless, the heart can not help but give birth to a strong Regret.

While sighing, his mind suddenly flashed a glimmer of light, his eyes stunned, and a kind of sigh of relief was like the cold and soft light of the moonlight night, covering the sea in an instant, making it The mind is suddenly shocked.

This moment, Ye Xuan's state of mind is like an unexpected insight, inexplicably open-minded, the whole heart has a kind of hearty and endless sense of pride.

The power of the **** corner of the soul is strong again. After all, it is only a foreign object. Perhaps it is because of the recent difficulties that cannot be solved by the cultivation of its own strength. Ye Xuan's thoughts are suddenly discovered, unconsciously. In the meantime, he had a vague sense of dependence on the headless baby corpse and the soul of the soul.

Whenever there is a major dilemma, they will be thought of subconsciously. This is clearly under the influence of imperceptibility, and the headless baby corpse and the **** corner of the soul are regarded as some kind of card and relying on the rhythm.

Although this is also a fact, if there is such a dependency, then the future growth of this matter will obviously be harmful and not beneficial.

He will completely lose the heart of a strong man!

But at this moment, with the flash of my heart, Ye Xuan is still aware of this as soon as he is enlightened. At this moment, he has thought of all this, and even his mind has a small sublimation.

A feeling of loosening the bottleneck of the realm is straightforward!

The monk's cultivation is a realm. It is not only able to rely on day-to-day diligence to improve. Occasionally, the mood is fully understood. It also evokes the loosening of the bottleneck of the realm. If you can seize this opportunity, you will break through and do nothing.

At this moment, Ye Xuan clearly met this opportunity.

Under the overwhelming heart, he even sat down on the ground, closed his eyes, and both of them forgot to enter the mysterious state of cultivation.

This time of cultivation, Ye Xuan did not take the bite of the power of the star nuclear, completely combing his own state of mind, and feeling the kind of mysterious feeling like the insight.

Unconsciously, half an hour has passed. At this time, Ye Xuan has completely forgotten everything, and his mind is open, like a clear world, without dust.

This kind of breakthrough in the state of mind drives the sublimation of self-cultivation as a realm, and the way to achieve the promotion of strength is extremely mysterious. Ye Xuan is still the first encounter, and everything is still only a temptation for him. And groping.

However, this time the opportunity he finally grasped, this moment, when the familiar sound of the phagocytic system suddenly sounded in his mind, he entered the two-forgotten Ye Xuan, and his body shape was slightly shocked, consciousness. Completely replied to the Qingming.

"Hey, congratulations to the host, the realm of the realm! The current realm: the seventh stage of the meteor!"

Seventh-order, this means that now, he finally entered the late stage of the meteor.

With two breakthroughs in small steps, it will enter the third realm of the starry environment, the satellite is out!

When these thoughts flashed through my mind, Ye Xuan had already opened his eyes, and his eyes were splendid, and his mood was so good!

"It's just like the improvement of the state of mind and the breakthrough of the realm. It's a double happiness! At this time, it's the best time to take the gray bones and the left Fengtai completely, and sweep away the worries!"

Under the slight sway of the body, Ye Xuan stood up from the ground, and his mouth was also muttering to himself, and a sturdy slap in the middle of the slap in the face, and the coldness of the coldness.

Stepping forward, I have already pushed the door and walked away: "In this dark mosquito star, I have been for a long time, and now, I am finally on the verge of fangs..."

At this moment, the sky outside has already entered the night, looking up, a starry night flashing, the meaning of cold, the sneer of Ye Xuan mouth screaming gradually disappeared, the shoulders swayed, the body shape has been excited Shooting and turning into a flow vector, pointing directly to the temple hall behind the temple.

Chapter 2989: Come for trouble

At this time, although the sky has already entered the night, the high priest of the black mosquito, Greyhedler, is still in the partial temple of the ancestral temple, and the tribe's commander Zuo Fengtai secretly discussed some important matters.

Although the two are only superficial and temperament, they have been secretly intrigued in private. One is a high priest, but in fact he controls the majority of the black mosquitoes. The other is the authority of the tribes who are not willing to be diluted. They are always looking for opportunities. Reverse the situation and completely control the entire black mosquito.

Even so, in the case of the entire black mosquitoes, it is now a sudden change, and it is not known whether the fall of the black mosquitoes will affect the entire tribe, as the high priest and the general leader of Zuofengtai and the gray bones. In terms of responding to this matter, it is clear that there is still no stipulation. It can be said that there is no barrier to cooperation.

If this is not the case, it will not always talk about the night, but it has not been dispersed.

The inner temple of the ancestral temple where the two are located belongs to the tribal area. Even the ordinary rituals in the ancestral temple cannot enter at will. However, Ye Xuan is the new son of the black mosquito. It is naturally no problem to enter and exit here. After the ancestral temple compound, all the way to the ancestral temple guards along the way did not stop, let him drive straight into.

Along the way, Ye Xuan's mind has been thinking about it. At least, at this moment, when he came to visit the high priest at night, he always had to find a reason for the past.

However, he quickly relieved himself, and after he smiled, he immediately put the idea behind his head and no longer tangled.

Anyway, it will be torn off sooner or later, why bother to pay for it?

The horror power that can be thoroughly crushed by the **** corner of the soul, the gray bones and the left Fengtai are just two original points. At that time, Ye Xuan only needs to sacrifice the blood of the soul, and suppress it. Under them, they are only afraid that they will not even have the opportunity to turn around and flee. In an instant, they will be completely bound and unable to move!

Thinking like this, Ye Xuan suddenly relaxed. Although he did not want to rely too much on the power of blood and headless baby, but now enters the starry environment, after all, it is short fashion, and this time has to face It is the horror of the original ninth state of the realm.

Faced with such a huge disparity, relying on external forces is not incomprehensible and acceptable.

It is true that the front door of the inner temple of the ancestral temple is already in sight. There is a small church in the hall. There are some portals on the left and right. At this time, the window in the left portal is brightly lit, but the temple is quiet. One person, Zuo Fengtai and Gray Guer, secretly discussed the important issues. Some of the ancestral temple rituals who served here were presumably already driven away.

So, it is more convenient to Ye Xuan to act!

After setting the gods, Ye Xuan took a deep breath and stepped into the temple door of the inner temple of the ancestral temple. Then he turned and walked straight to the portal where the lights were lit.

Just stepping into the house, I looked up and saw the right side of the tea and talked about the left Fengtai and the gray bones.

The two sat across the case and looked at each other. The atmosphere seemed quite harmonious. It was just that I saw the sudden appearance of Ye Xuan at the moment. Under the accident, all the faces were slightly blurred.

"What are you doing? Don't forget that before the ceremony, you are not the son of the black mosquito, the temple is heavy, can you let me go in and out?"

After returning to God, Zuo Fengtai's face immediately sank, and a cold sputum in his nose, slanted and stepped into Ye Xuan in the house, his tone was extremely bad.

On the side, the high priest, Gray's brow, frowned slightly, and when he was about to ask Ye Xuan's intentions, the latter had already opened his mouth, and his face still had a touch of laughter. It seemed to be a very common one. The trivial matter: "The reason why I came over is naturally to solve the problem of the big commander. As you said, Zuo Licheng and Zuo Hongwu uncle, including all the devils in the Fengteng. , all killed by me..."

"Accurately, there are more than half of the hulls of the Fengteng battleships bombarded by the two squadrons of the black mosquitoes and the black winds. The other half is the pet beast under my seat. The army shot the slaughter, including your son and your brother!"

Quiet!

Dead silence!

With the words of Ye Xuan's words, the opposite of Zuofengtai and Greyhedler both opened their mouths subconsciously, looked at him with a blank look, and even flickered out the suspicion.

That kind of look, clearly gives people a feeling of seeing a neuropathy.

Obviously, these words, neither of them have any faith, and there is no hesitation in the slightest, it is directly a mad talk!

After two breaths, Zuo Fengtai came back to realize that he was teased and provocative by Ye Xuan. Under the horror, he was so angry that he must scream and scream: "Bad boy" You are looking for death!"

The voice has not yet fallen, Zuo Fengtai's right hand has been lifted, and he has taken a full shot and went out...

"It's you who are looking for death!"

"Hey..."

Ye Xuan's face suddenly condensed, and Shen Shen refuted a sentence, and at the same time he did not hesitate to activate the mysterious brand in the brain.

In the blink of an eye, a slight but violent low-pitched humming sound has shrouded the entire huge house. A **** smelt screams out of Ye Xuan's body, and the wind rises, and the blink of an eye is enough. There are about three feet, hovering over the sky, pouring a majestic sigh of relief, it is the moment that Zuo Fengtai will fully capture the power of the hand, to eliminate the invisible!

"The soul of the blood? This is impossible..."

"What is the situation? The breath of this big corner... At least beyond the hole, how can there be such a presence?"

Almost at the same moment, Zuo Fengtai and Ashesler had already changed their minds and suddenly exclaimed.

Although the latter has roughly induced the level of the **** corner of the soul, it is obviously not known about its origin, and the high priest of the black mosquito is different.

As soon as the **** corner of the soul appeared, his brain had already flashed a glimpse of the horror, and he realized everything in an instant!

After the first exclamation sound came out, he turned his head and looked at Ye Xuan, who was calm and self-confident. He looked stunned: "Is it true that the person who broke my good things in Montenegro is actually you? It seems that you It should be true that the two black mosquitoes and the black winds are the scouts of the fortress. The **** fellow, as a demon, you turned to the human race..."

"Sorry, I was originally a human being, but I swallowed a lot of the brains of the devil, so I grew up in my mind!"

Shrugging his shoulders, Ye Xuan shook his head and threw a bombshell again. The two men who were opposite each other were shocked again. He couldn't help but smile. He sighed: "Don't look at me like this, you are too confident, who says human Can a monk not have a magic core? The traditional concept kills a dead person..."

Waving the two slaves of the already prepared 12-level slaves, they blinked into the body and were suppressed by the **** corners. Flash, disappeared.

Chapter 2990: Old stalk

With the two 12-level slaves almost not at the same time, they fell into the eyebrows of Zuofengtai and Gray's bones, and the flash disappeared. The dawn of these two guys was almost blurred, and the face was originally blurred. The color of shock and fury began to slowly dissipate.

Obviously, it is clear that slavery has quickly entered their brains, and successfully broke into the spiritual core of the brain, and began the process of slavery and refining...

Although Zuofengtai and Greyhedler are the supreme existence of the ninth state of the original realm, it seems that it should not be so unbearable, but in fact, if there is a level of realm, at least it must be more than the soul of the cave. Therefore, Ye Xuan could not succeed.

The two slaves that lasing away did not even have the possibility of touching the skin of Zuofengtai and Greyhate.

Therefore, in front of this seemingly incomparable situation and results, in fact, it is entirely because of the use of the soul of the blood corner such a strength beyond the terrible horror of the hole, so it is not surprising.

In addition, the reason why these two guys responded so quickly, in fact, there is no suspense, although Ye Xuan has been repaired as a poor strength, only the second largest realm of meteor, but his spiritual core The grade is not low, it has already reached six.

In the whole demonic group, it is only second to the Emperor Mo, and a few people like the Imperial City High Priest Wenxing.

Among Zuofengtai and Shigele, even if it is the gray priest of the high priest, the spiritual core of the brain is only the fifth level. In this case, facing Ye Xuan to the sixth level The twelve-level slaves that the spiritual power has repeatedly condensed out, they naturally have no resistance.

As long as the slave is successfully immersed in the body, there is no suspense in the final result!

However, these two guys are, after all, the existence of the original point of view. The power of the source of the source core in the brain is so powerful, even if it is the power of the 12th-level slave, it must be refining it all. It is obviously unusual for the entire process to take time to brand the slavery.

Ye Xuan was not in a hurry. He walked slowly to the table at the side. After pulling a chair, he sat down, and then took a clean little cockroach. After pouring a cup, he began to taste the good and didn't know whether it was Zuofengtai or The spirit tea that the gray bones are soaking.

In the process, the blood horns hanging over the house have never been recovered.

After all, the goal of this time can all be the supreme existence of the original point of repair, the means is far from the magic of the strong slain of Ye Xuan, in case the other party has a scam, the soul will be put away, it is no different. Looking for death!

After the touch of a column of incense, the two slaves of the 12th-level slaves on the endogenous nuclear refining process of Zuofengtai and Greyhate were finally completed.

The blurred color in the eyes of the two people slowly subsided, and they regained their clarity. Then they walked to the front of Ye Xuan with respect and respect, and stood side by side. They waited for the position to be sent to the scene, and there was no nonsense.

This is the normal performance after being enslaved by slavery. I don't know which one of the wretched mosquitoes is wrong. The first time it was pretending, but the second time it was clearly enslaved. The result was also Not honest for a few days, and soon afterwards began to recover again.

Looking back, I really have to take a moment to explore what happened to this guy.

Of course, this time Ye Xuan took him out of the hole, in fact, it is the meaning of temptation. Once he has any change, Ye Xuan can touch and connect with the slave in his mind. , know everything!

It's a pity that I don't know if the guy really has a problem, or if he will easily take the initiative to show his feet...

After slightly taking a look at God, Ye Xuan quickly threw the wretched mosquito traps behind his head, swept away, and examined the left and right sides of the left and right sides of the left and the gray bones.

After confirming that there was no problem, he put his heart in the air and waved his hand: "When there are other people in the future, you still call me Zhang Wuji. The master's word can't be heard in any outsider's ear. In addition, it is open. On occasions, your words and deeds must be the same as usual. The whole black mosquito tribe is still being taken care of by both of you. As usual, everything will be the same..."

In the face of this command, Zuo Fengtai and Ashesler responded with respect and respect. For this reason, Ye Xuan was quite relieved. He never thought that the two of them would appear abnormal before the people, so that they would show their feet!

After all, Ye Xuan's slavery has been over 10,000, and the experience has been extremely rich!

After wavering a spirit to the **** corner of the soul, summoning it back to the body, Ye Xuan even fell into sinking.

At the moment, these two guys are already their own magic slaves. If there are any doubts or incomprehensibility, Ye Xuan can ask at random, and the answer he gets must be absolutely true. There is no possibility of being fooled.

In this case, Ye Xuan naturally can't wait, and at this moment, he is thinking about the doubts that are trapped in his heart, pondering one by one and slowly asking questions, and finally all can get answers, presumably also a very happy thing.

It is a pity that after some thoughts, he discovered that it seems that he needs the puzzles of these two guys. He can't find a few for a while.

Similar to the previous trip to the Devil's Star, Zuo Licheng and Zuo Hongwu's work on him, whether it is related to Zuofengtai, is simply superfluous, and there is no need to ask questions.

In the end, Ye Xuan swept his gaze to the gray bones. For this old guy, he had three questions in his heart.

The first one is about the countless sacred beasts in the underground sacred caves of the Black Mountain Star, and the **** corners of the souls that have been retired by the headless corpses.

The second is that the gray bones have been handed over to Ye Xuan two spiritual imprints, and he is asked to bring the enchanting spirited rabbit out of the holy devil.

The last one is the extent to which the relationship between the High Priest and the Grey Muller is closely related. Before that, did Wen Xun privately disclose the words or thoughts related to Ye Xuan to Gray Bone?

These three questions, Ye Xuan one by one, asked the gray bones, and the latter, even when a detailed reply.

Regarding the second question, that is, the enchanting thing of the rabbit, there is no other embarrassment. Indeed, as the gray bones have said before, it is the last time he entered the sacred forbidden land. However, in the end, he was not able to successfully trap the object, and during the

pursuit of that month, he also discovered that the rabbit was very interested in the high-level spiritual power, and he was very close, so he took it. Bring out the forbidden area.

However, the reply to the first and third questions made Ye Xuan shocked and his face was gloomy. In my mind, it is more conditioned, and it shows four words.

The old man is slippery!
