

## Super D. S 2991

### Chapter 2991: Big hand

After a question, Ye Xuan Fang learned that it turned out that whether it was the \*\*\*\* corner of the soul, or the souls and beasts, the gray bones actually did not know their specific uses and origins, even those special space towers, all of which were Wen. The priest handed it to him.

In other words, I really need those who are sorrowful and beasts, and who knows the existence of the \*\*\*\* corner of the soul, is actually Wenxing, but the gray bones are not ordered to do the job.

This leads to a reply to the third question.

Wenxing can hand over such important and secretive things to the gray bones to go through the process, and the relationship between the two is obviously extraordinary.

In fact, the sacred scorpion was the sacred son of the black mosquito, which was the time of the high-ranking tribe of the tribe, and the two could not be said to be masters and apprentices.

For this reason, regarding Ye Xuan's aspect, the inner feelings and secrets known to the gray bones are naturally far from being comparable to the big commander Zuo Fengtai.

As a high priest, he can use the star network of Black Mosquito Star at any time to actively connect with the upper star network of the Magic King and get in touch with Wenxing.

Although this kind of up-and-down star network is not a small consumption, but the gray bones obviously did not care about these, just today, he has contacted Wenxing twice.

In general, one thing is absolutely certain, that is, Wenxing did not intend to let go of Ye Xuan.

In the occasional contact of these days, he must be embarrassed almost every time, must be close to Ye Xuan, once returned, he must not let him leave the black mosquito star.

The old guy even revealed to the gray bones, saying that Ye Xuan not only has a lot of chanting, but even hidden in some hidden secrets!

And this time he followed the demon king's fleet, which was led by the demon emperor and led by Chanas, who has now departed from the demon star and can reach the black mosquito star in a few days. The most fundamental purpose is to Ye Xuan won, searched for the many chanting crystals he had intercepted in his hands, and even used the extraordinary means to open a confession to Ye Xuan and tap the secrets he knew!

This truth is that Ye Xuan himself has a feeling that is unexpected!

Although he realized that Wenxing must not be as simple as it was on the surface, he was afraid that it would not be easy to fool, even faintly guessing that the other party might have been eyeing him, but Ye Xuan never thought that the old fox would be so hot. His forefoot just returned to the black mosquito star, and his hind foot immediately followed.

And the intention is also very clear, I intend to completely clean up Ye Xuan once and for all!

If you don't know all of this from the gray bones, then with the advent of the royal fleet, Ye Xuan is really likely to be stunned by the savage and sloppy Wenxing!

"To say that the sinister and fierce, the old fox of Wenxing, is really considered to be one of the most savage generations. I was almost blinded even by me..."

In the middle of the slap in the eye, Ye Xuan said to himself, although there was a smile on his mouth, but it was clear that there was a colder meaning of coldness: "However, from now on, the whole thing The black mosquito star, and even the entire black mosquito tribe, is already my site, even if he comes with the royal fleet, how is it calculated at that time, I am afraid it is hard to say..."

Speaking of this, Ye Xuan seems to suddenly think of something, and turned to the left of Fengfengtai and Ashesler again, and told: "I will immediately inform the other nine devil stars in the tribe, the day before the ceremony. Finally, tomorrow evening, the people attending the ceremony must all arrive at the black mosquito star, and the day after sunrise, the ceremony begins..."

"In addition, the heads of the nine devil stars and their main deputies, including the top of the devil who was cultivated above the black hole, must come to the whole staff, and one less will not work!"

"Also, I will get a list for me immediately. In the ten tribal magic stars including black mosquitoes, all the black people above the black hole will be listed. Of course, you two will not Up..."

Ye Xuan's purpose in this list is obvious. He intends to plant all the sorcerers who have been repaired in the black hole above the black mosquitoes, and they will be slaves!

This is a big deal, Ye Xuan did not really think about it before, but at the moment, on the one hand, it is forced by Wenxing. On the other hand, with Zuofengtai and Ashesler being conquered, it is easy to achieve this. !

As long as the devils who have been repaired in the black hole above the big heads and their deputies in the ten demons are all confiscated as slaves, then the whole black mosquitoes will fall into the dark. Ye Xuan's hands are gone.

No matter what he wants to change or what he does, the hands of the top ten devils who have been cultivated through these black holes will be thoroughly implemented and implemented almost at the first time.

It can be said that by that time, the top ten magical stars of the black mosquitoes will gather together like never before, and if they are iron barrels, on this site, all of them can be freely accessible.

In this way, even if Wen Xing came with a large fleet of the devil's royal family, and it was torn to the face and set out to deal with him, it is impossible to casually, Ye Xuan will be cursed.

Just as Ye Xuan was indulging, the two people, who were busy drafting the list, were both gray-bone and Zuofengtai. They only used the half-column incense to hand over the list.

Ye Xuan took it with him, and he will review it carefully!

The black mosquitoes occupy the black mosquitoes, although they are vast, there are countless stars, and there are even a lot of stars in life. However, all of them are World of Warcraft stars. As for the magic star, including the tribal star, the black mosquito star. Within, a total of ten.

Among the ten devil stars, the other nine tribes are under the magic star, and the black man is more than three or four, including the big boss, the deputy, and one. To the presence of two or scouts, or other important positions.

At a glance, the black caves of the nine devil stars are strong, a total of thirty-two!

As for the tribal star, the black mosquito star, the high priest, the gray priest, and the big leader, Zuo Fengtai, are not mentioned. In the black mosquito star, the magic man above the black hole is twice as big as the other nine stars. There are seven people!

Together, the total number of black magical creatures in the top ten black mosquitoes is 40, and the total number is 40!

Of course, this only refers to the black hole in the official position of the Ten Great Stars, with a certain authority. In fact, a large tribe of the Devil, the existence of a black hole above can never be only forty. It's possible to turn it over again, but those with strong black holes are all folks, and even they may have been reclusive. It's no effect on Ye Xuan's control of the entire black mosquito. Even if there is, Ye Xuan seems to have no way to use this. An official channel that forcibly brings people together.

Therefore, that part of the black hole can be ignored!

Putting down the list in his hand, Ye Xuan's mind was flying, and he frowned and fell into sinking again...

Chapter 2992: Double happiness

"Forty nine-level slaves? It's only a matter of tomorrow. It's really a bit too tight. Fortunately, there are some stocks at hand. If you need temporary condensing, it's about twenty, to the present. Speed, barely can do it..."

After some indulging, Ye Xuan took care of the key links before and after the whole thing, and determined that there was no omission, then I remembered the slain needed to convince the forty black caves. I was stunned.

After that, he looked up and looked at the gray bones and left Fengtai who were on the side of the station. He waved his hand and said: "The seven guys on the black mosquito star are called now, let them solve it first."

Among the seven people, there are two black-eyed ninth-order grand perfects, one is the city owner of the black mosquito city, named Qi Ben, and the other is the scouting commander of the black mosquito city, called the Hong war!

As for the other five, either the deputy city owner, or the controller of some important departments of the black mosquito main city, repaired from the third to seventh order of the black hole, just covering five small steps!

In the stock of slaves in Ye Xuan's hands, there are some from the first level of slavery to the eleventh level of slavery. The higher the level, the less the number.

The black hole is the eighth realm, and at least eight levels of slavery are required to successfully realize the slavery and refining of the source core in this level.

In order to be safe, Ye Xuan has always raised a level to plant slavery.

Nine-level slave printing, the inventory in his hand is exactly twelve, plus eight ten-level slaves used to deal with the nine-order big perfection of the black hole, suitable for the slaves he used in this plan, a total of two ten.

After solving these seven black hole demons later, Ye Xuan had to hurry and condense the other twenty gaps before tomorrow night!

Around the meal, the seven black hole magicians on the black mosquito star all came together.

Ye Xuan almost came to a hand and immediately conquered, the process is no suspense, there are gray bones and Zuo Fengtai suppression, with their black hole cultivation, there is no way to turn a little wave.

Half an hour later, when Ye Xuan got up and left, a group of nine people swarmed and sent him. The high priest, the gray gull and the big commander, Zuofengtai were in front, and the back was the owner of the black mosquito main city, and the black mosquito city. The scouts commanded seven people, including the Hong War.

These nine exist, basically can represent the power and strength of the black mosquito star, and even the entire black mosquito tribe, but at the moment they all send Ye Xuan not to say, the look of each face, clearly and clearly respectful And be careful.

This scene was too strange. On the spot, some of the ancestral guards who were patrolling in the courtyard of the Zumiao Temple were looked at and looked at each other with no words.

I am afraid that since this moment, most of them have begun to doubt the true identity of Ye Xuan, such as the devil's illegitimate child, or else, why would the high priest and the great leader be so folded?

For all of this, Ye Xuan has no interest in it. These are all insignificant little characters, that is, let them know the truth, and they will not affect Ye Xuan!

After returning to the temple, Ye Xuan even went into his own room and greeted the wretched mosquitoes. Nothing to disturb, then closed the door, crossed the ground, closed his eyes and entered the state of cultivation, and began. The rush of the twenty nine-level enslavement gap.

The so-called slave printing is actually a kind of spiritual imprint of a perfect and stable form condensed in a special way by spiritual strength.

Therefore, the smelting of slavery is to consume the power of the spiritual source in the endogenous nucleus of Ye Xuan.

And the higher the level of smelting, the greater the consumption.

What Ye Xuan has to do is to condense twenty nine-level slaves in one breath. The huge consumption is obvious. If it is normal, this kind of condensing thing, he has not done it before, but Now that the crisis is approaching, the Wenxing and the Devil's Royal Fleet will soon arrive at the Black Mosquito Star, and Ye Xuan must always maintain the best condition.

Therefore, after sitting cross-legged, he even took out a small space tower from the immortal world. He had already summoned 10,000 soul beasts from the tower, and immediately issued instructions to the devouring system. Head and soul beasts, while at the same time unfolding the power of the spirit of the source.

This process was soon unfolded, and the spirit of the system's spirit was continuously poured into the spiritual source core of Ye Xuan's mind in the first time, but Ye Xuan did not pay attention to it all, all The energy has been invested in the condensing of the nine-level slaves, and even the passage of time has been forgotten by him at this moment...

.....

"Hey, congratulations to the host, the realm of the realm! The current realm: the eighth stage of the meteor!"

I don't know how long it took, when Ye Xuan finally condensed the last nine-level slave prints, and the mind returned with a sense of sufficiency, and the two cultures that I forgot to retreat, suddenly opened my eyes, in his mind, It was also a sudden and abrupt sound of a familiar system sound.

Realm improvement?

Meteoroid eighth order?

The words flashed in the brain, Ye Xuan was shocked on the spot!

He clearly knew that it was only a day before, because of the breakthrough of his mood, he accidentally just entered the seventh stage of the meteor, right? How long has this been? Actually broke through again?

Do you want to be so fast?

Moreover, it seems that he was not a cultivator before, just condensing the slaves, and this can actually make the cultivation of the realm as a breakthrough to improve the promotion.

With this kind of suspicion and incomprehension, Ye Xuan's self-consciousness quickly immersed himself in the sea of knowledge and explored.

Sure enough, the space above the suspended source of the spiritual source, the small bow of the sky, and the golden dragon scales and the hollow medullary crystals represent Ye Xuan's insight into the realm of the ruins of the ancients. It turned out to be a bit more powerful.

Ye Xuan's cultivation as a realm has indeed entered the eighth order of the meteor!

As for the reason for this unexpected breakthrough, he quickly found it.

The spiritual core that hangs over the sea is initially black, but with the subsequent evolution, the black of Ye Xuan's spiritual core gradually adds some purple, and the more The thicker it is.

Not long ago, it was already purple, and the micro-clip was black.

But now, the last few traces of blackness in the source nucleus have clearly disappeared completely. It must have been the spiritual source of the 10,000 sacred beasts that just made it to a certain critical point, plus Ye Xuan. In addition, he is fully condensing the slaves, and the spiritual origin of the source nucleus is accelerating in and out. Therefore, unconsciously, his source nucleus has completed some unknown change.

It is this change, such as the chain, which triggered the unexpected breakthrough improvement of Ye Xuanxiu.

Moreover, what makes Ye Xuan's heart sway is that with this source nucleus from the thick purple, there are a few black silks, and now the purple is full of meaning, he clearly uses a strong intuition, that is the sixth of the source nucleus The change is not far away.

Once it has arrived and successfully evolved, then his spiritual source core will gradually become a seven-level thing, and the spiritual source of the magic king Mo Tiantian, the same level, so, is simply called double happiness...

#### Chapter 2993: Holy Son

Surprise, Ye Xuan's consciousness quickly quits the sea, waving the black scorpion horns scattered all over the ground into a space box, as usual, thrown directly to a corner of the immortal world.

What kind of use is this kind of soul horn, and now, Ye Xuan still doesn't know. He even found out how a large number of sacred beasts in the underground sacred caves appeared, and did not come up with a clue.

However, these small horns are objects that can be related to the \*\*\*\* corners of the soul. Maybe they can be used in the future. It is the sorrow of all the spirits that Ye Xuan took every time after taking out the spirit of the soul. Xiaojiao, he will be properly stored.

After doing all this, he suddenly remembered the problem of time and pushed the door out of the living room. Only then did he find that the outside was still a night. Obviously, it was impossible to still be the night. This is clearly the night of the next day.

Twenty nine-level slave prints, and it took Ye Xuan a whole day and one night, but finally it was finally completed in time!

According to what he told ash bones and Zuofengtai yesterday, after the sunrise of tomorrow, it is the time for the ceremony of the Son of the Son. The venue of the ceremony at the peak of the ancestral temple should have been arranged.

In addition, the black hole demons in the other nine magical stars of the Black Mosquito are also here!

This includes not only the Shantou Mountain, which has long been conquered by Ye Xuan as a demon slave, but also the relative bear Xiongzi of Xiongda, and even the old man of Haofangfang, which is the big leader of the black comet. Double inside!

Thinking of the latter, Ye Xuan could not help but feel a strange feeling.

Hao De Shuang does not know him, but the other party is a relative of Hao Fangfang. Although this kid may not be regarded as Ye Xuan's friend of friendship, but in the matter of treating Ye Xuan, Hao Fangfang from the beginning In the end, obviously there is nothing wrong with it, and it can even be said to be quite derogatory.

Under this circumstance, I know that the other party is a relative of Haofangfang. Ye Xuan has a feeling that it is not very good to start. Even if Haofangfang cannot understand the truth, Ye Xuan's own heart is always It's a bit hard to get through.

Do things for people, but rely on the heart.

Everyone is using this as a name, and the monks are fighting against the sky. The importance of the state of mind is obviously even more important.

With this kind of thinking, the face of Ye Xuan's face could not help but feel a little depressed. When he stepped out of the temple, although Hao Fangfang did not see it, but the wretched mosquito \*\*\*\* was covered with a smile, even if the fart was upside down. The ground ran and greeted.

The face was full of red light, and the excitement was just like a shot of chicken blood: "Master, my master, this time we can really be proud, scenery, scenery and funeral...呸呸呸It should be the grand ceremony!"

"Hey, you didn't see the grand ceremony venue where the ancestral temples were arranged. It was called a style! I heard that the other nine-star big heads of the black mosquitoes and the deputy city owners, all the messy people, all came. There was no such arrangement in the previous Shengzi Grand Ceremony!"

"In one sentence, the master, this time you have a long face, the face is too big, the average person's shisha can not match..."

This guy, as always, is not reliable. He runs the battleship with his mouth. He only has a few words to meet him. The good scenery ceremony was said to be a great burial in the scenery. Finally, he took the

leaf and the face and the general people's shares. I heard that Ye Xuan did not come back in one breath, almost faint on the spot.

When I was reprimanding, there was a figure in front of the temple door, but there was a figure walking close to the front and looking at the dress of the ancestral temple. It must have been sent by the gray bones.

"The saints, the high priests, and the great commanders have the invitations. In addition, the other tribes of the tribes and the deputy city lords and other spectators are also here, waiting for you!"

In the near future, this ancestral temple ritual was slightly bent down slightly, with a tone of tone and even a slogan. This is not the attitude of a tribe, and the humility is somewhat overdone.

If there is no accident, this guy is mostly heard the rumors of the spread of the guards of the ancestral temples last night, and the identity of the illegitimate son of Ye Xuan is not known!

"All in?"

Ye Xuan immediately stopped, and then reacted. It is clear that the gray bones and Zuo Fengtai gathered all the black hole existences, and the idea was clearly the same as last night.

After all, tomorrow's Son of the Son is a public event, it is really inconvenient to plant a slave print, and after the ceremony, these originally unwilling, the black mosquitoes and high-ranking high-ranking people who do not want to come, will soon leave the black mosquito star.

It seems that these two guys are quite thoughtful, and they are also worried about themselves.

The heart sighed a few times, Ye Xuan nodded, and took the lead!

The ancestral temple sacrificed to follow, but was stunned by the wretched mosquitoes, and stunned the people with a look: "What panic? Are you rushing to reincarnation? You? The old mosquitoes are holy. The general manager of the child, even if it is a reincarnation, the Son of the Son has set a head

start, and the second one behind it can only be the general manager. What is your errands and you dare to jump in?"

"Oh..." The sacrifice was too late, and the whole person was paralyzed on the spot!

Ye Xuan, who had just stepped out of the front door, was also a black face and almost fell down!

.....

Everything you need to do next is not necessary!

There are the supreme existence of the two original points of Zuo Fengtai and Ashes, and the help of the seven black mosquitoes who have been first conquered by Ye Xuan as the black slaves, and the remaining 30 The black hole demon powers from the black mosquitoes and nine stars were all without exception, and all were successfully slain by Ye Xuan.

To be precise, it is thirty-one, and the two that are less counted are the black bears of Montenegro. They were originally their own.

The other is just Haofangfang's father, Hao Deshuang. Although the latter also came to the black mosquito star, in the evening, Hao Fangfang pulled away from the pavilion in the black mosquito city. When I still haven't returned, I am absent.

This coincidence made Ye Xuan breathe a sigh of relief, invisibly helping him make a choice. Since it is God's will, then let's take it home, and finally no longer have to entangle.

Thirty-one slaves were successfully planted, and the whole process was nothing more than a meal. Everything went smoothly.

Only after I went to the ancestral temple with Ye Xuan, I then retired to the corner of the wrinkled mosquito, and in the whole process of seeing this happening, the light in the eyes was clearly hidden. With a cold-eyed meaning, even the corners of the mouth, there seems to be a sneer of ignorance, once in a moment, fleeting...

All of this, Ye Xuan did not notice that, as usual, after a few words, he even returned to the temple.

With the completion of the big event of the black hole of the nine-star black hole in the black mosquito, the grand ceremony of the Son will be held after dawn, but at this moment, it seems to be somewhat uninteresting...

Chapter 2994: The royal fleet is coming

The next day, the sky is still not bright, and it is still in the middle of the night. In the entire black mosquito city, there have been a lot of deliberate early rises, and even the devils who are very likely to have no sleep at all have stepped out of their homes. The black mosquito peak where the black mosquito ancestral temple is located in the hinterland of the main city rushed over.

Although the Great Son of the Son is a good thing for others, they can only pass the eye addiction and feel the atmosphere at the very least, but the magicians who came to watch the whole black mosquito city still surpassed 80%.

The remaining 20%, most of them are also because they can not withdraw, they have no choice but to give up.

After all, the former son of the black mosquitoes has always been at the bottom of all the ten sons of the top ten foreign tribes of the demonic group. Not only have they entered the holy forbidden three times in succession, but they have never had any gains. Finally, It was because of this that the glory of the Son was lost. After returning to the Black Mosquito Star for the last time, the great commander Zuo Fengtai under the wrath of the wrath was given.

This is also the first and only sacred son of the tribe who has been humiliated by his own tribe.

Because of this, the entire black mosquito has been ridiculed for more than a decade, and all the tribal demons can't lift their heads.

But all this, because Zhang Wuji turned out, has been completely rewritten!

As he entered the Forbidden City for the first time, he received a spiritual strength skill inheritance. Even the imperial priest Wen Xing and the Emperor of the Emperor paid tribute to each other, and the top of the bottom of the black mosquito head was always buckled. The humiliation black hat of the child was finally thrown out far away.

Only by this point, the black mosquito main city or even the entire black mosquito star large and small in many cities, the magic people, for this holy son ceremony, will inevitably give birth to a sincere support, so the grand space is no longer Suspense.

Although these ordinary devils can't go up the mountain, they can't observe the ceremony at close range, but before sunrise, in all directions, the whole black mosquito peaks are surrounded by water, and at first glance, there are hundreds of thousands of people!

Such a scene, even Ye Xuan's defense was slightly scared, and he did not wait for him to come back. The high priest, who had already been in the venue, had begun to pay tribute to the ancestors of the ancestors. Sing, the ceremony officially began.

The whole process seemed a bit boring, but it was solemn and solemn. Even those who were forced to come to observe the ceremony, the black-and-necked nine-stars and the deputy city owners who were all quite vocal, were all brilliant at this moment. The expression is also excited.

All of this, suddenly will also be in this group of nine-star big heads, close to the scene around the venue to watch the black comet big head Hao De double look silly eyes, slightly open mouth, face full of color .

For the priest's convening of the nine-star spectator last night, he naturally knew it. At the moment, watching the colleagues around him are very different from yesterday's. It's two extreme performances. Haode double suddenly gave birth to a kind of Ming Wu.

Last night, I seem to have missed some very important things...

"Booming..."

"Boom!"

.....

Just at this time, the sky at the top of the sky at the top of the sky, the sound of a huge roar like a thunder and thunder, suddenly burst out without warning, and it will be immersed in the solemn atmosphere of the Son of the Son. The Devil's Powerhouses were all shocked, and their faces were slightly stiff, and they were conditioned and looked up.

In the line of sight, the high-altitude atmosphere of the black mosquito star was smashed by a large amount of turbulent air currents. At this moment, it was like a boiling water in a pot, and it violently rolled up.

A huge fleet of starry sky, coming at this moment, although hovering outside the atmosphere, but not far from, at least not the kind of safe distance that has no effect on the atmosphere of the black mosquito star, this rude move Clearly revealing the meaning of the demonstration.

What is even more surprising is that the main flagship of this huge starry fleet is actually a star-sized space fortress with a diameter of 20,000 meters. It is awesome!

Although the space fortress is a general term, it is actually graded.

The five-kilometer-diameter space fortress is a nebula, also known as the Little Fortress!

And 10,000 meters is the Star River level, also known as the big fortress!

In addition, Ye Xuan once saw a giant space bastion with a diameter of more than 10,000 meters in the star dock of Magic One. It is two large blocks with a diameter of 20,000 meters. This level of space Fortress, it is Xingyu!

Of course, above the Xingyu level, there is a 50,000-meter-diameter star-class!

The space bastions with a diameter of more than 50,000 meters are at least 100,000 meters in size. At this level, it is no longer possible to use the word "fortress" to refer to it. Generally speaking, more than 100,000 meters are starry fortresses!

It is said that in the base camp of the Tianji nationality, there are several star fortresses with a diameter of 100,000 meters, that is, one hundred kilometers, even one million meters in size, that is, a super fortress with a diameter of one thousand kilometers.

However, let alone Ye Xuan, it is the Emperor Mo asked the sky, I am afraid that I have never seen it before!

At present, the flagship of the fleet that is hovering outside the atmosphere of the black mosquito star is a 20,000-meter-diameter star-class space fortress, and it is exactly the first time that Ye Xuan was in the magic satellite. One of the two ships I have seen.

Named Devil's No., it is the devil's noble deity, the meaning of Wei Yu's star field!

In addition to this magical version of the body and the small meteor is not much different, this entire royal fleet from the magic star far away, there are still 10,000-meter-diameter star-level fortress, five thousand, five thousand Ten small nebula-class fortresses in the Mi Shi Trail.

And one hundred stars of the three-kilometer captain's star-rated ordinary battleship!

The same huge fleet of Star Rivers, sweeping the entire Black Mosquito tribe is more than enough, and it must be very easy, so, at this moment as the entire fleet spread out outside the atmosphere of the black mosquito star, hovering high.

All of this, through the black mosquito star atmosphere caused by the fleeting of the fleet, so that some of the gaps revealed, from the bottom of the black mosquito star land, can be clearly seen.

For this reason, on the black mosquito star below, there are a large number of devils in the city of the devil in the land, especially because of the darkness of the main temple of the black mosquitoes. The main city of the people who watched the ceremony of the Son of the Son, after seeing this scene, the subtle whistle soon changed, and the sound of the large piece of cold air sounded...

The black mosquito number scouting the fortress into the hands of the human race has already spread. Although it is subordinate to the establishment, the black mosquito has always belonged to the front

line scouts sent to the third universe by the devil's group, but the 10,000 inside the fortress. The Yumo people scouted, including the small head of the Nebo Mountain, which controls the black mosquitoes, but without exception, all were black-mosquito tribes.

From this point of view, nowadays, the black mosquito squad is suddenly alive, and the demon emperor has the possibility of conducting a thorough investigation of the whole black mosquito tribe under the wrath, and it is not completely absent!

At the moment, this royal fleet from the Emperor's Star is so embarrassing, and it is full of arrogance and arrogance, and the black mosquitoes who have already been stunned by their hearts will inevitably feel guilty. The micro-terror is uneasy...

Chapter 2995: Wenxing is suspicious

According to the normal procedure, there are still some steps to be carried out in the Son of the Son, but they are all in a complicated form. There is not much substantive meaning. At the moment, with the advent of the Dynasty fleet, all that follows can only be saved. The high priest, Greyhound, soon announced the ceremony, and the original grand ceremony ended with a slap in the face and hurriedly ended.

In this regard, it was originally expected to show a good face in this grand ceremony. The wretched mosquito and insects that appeared in the limelight seemed quite lost. When looking up at the huge fleet outside the sky at the upper atmosphere, it was also a fierce battle. Mang Lulu, clearly is the meaning of anger, I do not know the courage of this guy, dare to sin against such a huge star fleet.

However, for Ye Xuan, the ceremony ended in a hurry, but it was welcomed by him, and the province continued to cope. In his view, this was just a form.

Although my heart is relieved, but Ye Xuan's face is at this moment, it becomes very gloomy in an instant. When looking up to the sky, the dissatisfaction in the squat is more intense than the grievances of the wretched mosquito. .

"If you haven't seen it, you should give it to Mawei first. It seems that the person coming is not good!"

In the mouth, he whispered to himself, and Ye Xuan said, the dissatisfaction in the squat gradually converges, and soon disappears, but the corner of his mouth, but it floats a touch of laughter, and there

are no other moves. Just carrying his hands on the peak of the peak of the Black Mosquito Temple, slightly tilted, looking at the sky.

At this time, the scouting of the Black Mosquito City commanded the Hong Kong War has received instructions from the great commander Zuo Fengtai, with a group of demons scouting to dispel the black magical peaks around the black mosquito peaks.

The black mosquitoes and nine-star black-hole high-rises on the peak of the temple in front of the ancestral temples have stepped forward and quietly gathered behind Ye Xuan, as if they were listed, the order is clear.

Even the big commander of the black mosquito tribe, Zuo Fengtai and the high priest, the gray skele, both at the moment, although they are separated from Ye Xuan, they are obviously a little behind the position where he is lame.

In the cold, I don't have a look at it. Nowadays, among the black magicians on the peak of the black mosquito ancestral temple, it is clearly dominated by Ye Xuan. All other people are all just the only ones who look forward to it.

In this way, if you change the angle, this clearly represents the entire black mosquito tribe. Nowadays, it is already a remark of Ye Xuan. After all, at this moment, the black hole strongmen on the peak of the black mosquito main temple are completely It includes all the core tops of the Black Mosquito's Top 10 Devil's Stars!

In this regard, the unclear situation of Haofangfang and his father Haode have long been stunned, they also followed the flow, and stood behind Ye Xuan, but the heart of the waves but the wave is higher than a wave, for a long time can not calm.

Both father and son realized that Ye Xuan must have done something last night, but the truth of it, but they can not touch everything in any way, everything is too strange...

At the same time, the sky of the black mosquito star is at a high altitude.

The entire royal fleet from the Magic City still hovered outside the atmosphere of the Black Mosquito Star, but the energy consumption of the Battlestars of all the warships was reduced by entering the hovering state.

Therefore, the vast and turbulent ups and downs of the sky have been gradually stopped, and it will soon be restored as soon as possible.

However, just the tumbling of the atmosphere has led to a large number of cosmic rays entering the black mosquito star through the gaps in the atmosphere being stirred.

These cosmic rays will have a certain impact on the plants of the black mosquito star and some ordinary magic people who have not cultivated strength.

This is clearly a warning and shock to the whole black mosquito part of the demon emperor, and it can be seen that the black mosquito rebel fortress was determined to have fallen and fell into the hands of the human race in the third universe. How is the earthquake on the other side of the city!

Soon, with the tumbling of the upper atmosphere, the fleet of the imperial city that hovered outside the atmosphere finally could not be seen. More than ten small-scale martial arts military small patrol warships were At this moment, it rushed through the atmosphere, pointing to the black mosquito peaks that Ye Xuan and a group of black mosquitoes in the top ten.

This type of military patrol ship and small private warship are almost the same size, only a few hundred meters, but at the same time more than a dozen ships are coming at the same time, and it is obvious that there are not many people coming.

"Ha ha ha..."

"Look at this battle, is it today that Zhang Wuji's Son of the Son?" So, the priest is coming to be clever..."

Soon, these dozen small patrol boats stopped at the low altitude in front of the black mosquito peak. The figure of the imperial priest Wen Xing took out from the ship and reflected into the sight of Ye Xuan and others. Before it has arrived, its voice has been heard.

In addition to Wen Xing, he led the entire royal fleet, and at the same time, responsible for the thorough investigation of the black mosquito squad, the demon lord Chanas also appeared, and walked side by side with Wen Xing, toward the black mosquito peak. Fallen down.

Then, in more than a dozen patrol ships, there was a branch of the Imperial City of the Emperor, and they quickly entered the array. At first glance, at least a thousand of them were suspended in the low sky in front of the small patrol fleet. Zhong Mi sheds a fierce and incomparable iron and blood to kill.

"It turned out that it was the Wenzhou priest and the governor of the Imperial City. Didn't it mean that it would take a few days to arrive? I didn't notice a few days in advance. I thought I came to the Terran Fleet. The enemy attack came..."

Looking at the air, the figure has arrived, and Wenxing and Chanas, who are falling to the black mosquito peak, Ye Xuan and Zuofengtai, who are not waiting for the left and right, responded with puns. It's up.

This is clearly a hint that the gray bones and Zuo Fengtai two were originally trying to make a sound, but at the same time they closed their mouths at the same time, and they did not squint. It was a matter of this place. attitude.

Seeing this scene, both Wenxing and Chanas were stunned, and there was a strong suspicion in the middle.

In fact, the words of Wen Xing's words seem to mention Ye Xuan, but in his original intention, these words were said to the big commander of the black mosquito, Zuo Fengtai, and the high priest, Greyheller.

There are more devils in the whole black mosquito star, but in this formal welcoming occasion, the existence of being able to face the direct confrontation with his imperial priest is only Zuofengtai and Greyhate.

But the situation at the moment is clearly different, but it has just become a grand ceremony, and Zhang Wuji, who has officially become the new son of the Black Mosquito, has surprisingly expressed an attitude above Zuofengtai and Greyhate. The latter two people still have a low-browed eye and a willing look.

Even the dozens of black-moisted ten-star high-level people who were repaired by the three black caves were all without exception.

The significance of this scene, Wen Xing and Chanas are naturally bright, but this is too ridiculous!

So fast to accept the entire black mosquito?

Zhang Wuji, the kid... What does he rely on?

Chapter 2996: Intrigue

Originally, Wen Xing was planning to sing a few words with Zuo Fengtai and Shiglinger, and then he found a loophole to turn the topic to Ye Xuan, and he was lazy, not practicing, and publicly Reprimanding, it can be regarded as a small pave the first thing for Ye Xuan to shoot.

But at the moment, with this strange scene in front of him, his heart suddenly stunned, and Wen Xing even dispelled this idea!

There must be a demon in the abnormal situation!

In his view, relying on Ye Xuan's strength and means, it's already a fact that has become a reality. It's not supposed to happen anyway. It's enough to show that Ye Xuan must have something he didn't know before. Great means.

Before all of this can be explored clearly, it is obviously impossible for him to act arbitrarily and arbitrarily with the old fox style of Wen Xing.

After some chills, Wen Xing's fascinating flash of speed flashed, and finally brought up the business, and began to test Ye Xuan in words...

"Zhang Wuji, it seems that you are still very popular in this black mosquito tribe, not only the great commander and the high priest are fully supportive of you, even the top ten stars of the entire black mosquito are all without exception, all so... ..."

The smile on his face is still the same, and Wen Xing seems to mention it with his mouth. As he talks, his eyes move slowly. The black mosquitoes mentioned in his words swept across his face, clearly with one meaning of the kind of examination. :

Unfortunately, the end result is nothing to discover!

Not to mention the way of visually examining the face with the naked eye, it is to let him exert his spiritual strength and conduct detailed investigations on the spiritual core of the demon slaves present. Wen Xing is absolutely unable to solve any problems.

Ye Xuan's spiritual strength has reached the sixth level, just like him, and the slave print is so mysterious, Wen Xun has no chance.

Unless the spiritual power exceeds Ye Xuan, the magical emperor who has reached the seventh level, Mo Wentian, is almost the same.

At this moment, with Wen Xing's presence, the top ten of the black mosquitoes and the top of the group of people were quickly examined. The result was that nothing was found. The feeling of his heart was suddenly three cents. A touch of disappointment, even in the words, faintly reveals a sense of unhappiness: "When the priest was in the black mosquito as a tribal high priest, the entire tribe's ten-star high-rankings were far away. Haven't been so harmonious and harmonious, you're a kid, and you're awesome..."

"It's a slap in the face, it's still a good thing. In fact, it's nothing to wear, just..."

Ye Xuan's heart sneered, but on the surface, he did not show it. When the words were half, the seller suddenly stopped.

It's completely subconscious. Even if Wendeng took the call, he asked: "How is it?"

When this sentence was exported, he suddenly reacted. It seems that he is a bit too naive. This kid is so strange, how can he tell the truth and explain for himself?

Ye Xuan's heart was dark, and he quickly filled the pit. He took the big hand and waved: "It's just that the character is too good, no way, I have always been like this, to serve people with morality!"

Between the words, this is clearly in the dark irons of the poor people, can not be ethical.

The strong players on the scene, without exception, all heard it.

The gray slaves of Ye Xuan and Zuo Fengtai and other Ye Xuan are not bad, no matter how the heart is thinking, at least there is no reaction in the face.

Hao Fangfang and Haode's father and son, as well as some black mosquitoes and ancestors guarding the ordinary temples, were stunned by Ye Xuan's eyelids.

Dare to face the imperial priests in such a face, and in the current situation where the other party has a lot to ask for sin, this is really amazing. Hao Fangfang and his son only think that today's Ye Xuan is getting more and more surprised. The more you come, the more you can't see it.

And those ancestral temple guards and rituals, but the shock is soon to realize, it seems that rumors are quite true, if the identity of the illegitimate child of the emperor is the qi, the new son of the saint, He Zhiyu Dare so arrogant!

As for Wen Xing himself and his side, Chanas, obviously all of them were shocked by Ye Xuan's words, and they were speechless and their faces were very incomparable.

Although the heart was angry, but after the two exchanged a look, they eventually suppressed the anger. The more abnormal Ye Xuan's performance, the more intense the suspicions in Wen Xing and Chanas's heart. Now, the facts are unknown. Before, there was no possibility of rushing to face!

The verbal temptations were fruitless, and they were scorned by the other side. This result made Wen Xing feel awkward and realized that Ye Xuan's bad deal, to be wise, even if he is not as good as him, can be regarded as A little fox.

From this point of view, the follow-up temptations are obviously meaningless. Fortunately, this matter is not urgent. In the following period, the entire royal fleet will use the black mosquito star as the temporary base camp, and it has been stuck in this star field, and search and Investigate and explore this matter, some are opportunities!

As soon as I read this, Wen Xing's fine flashes, and he took a haha and pulled the topic away. Ye Xuan didn't have much interest in it and then yelled at him, even when it was through the slain. In the meantime, a reminder signal was sent to the left Fengtai and the gray bones.

Soon, the two took the initiative to take the voice, and took the words of Wen Xing. While seemingly chatting, they led Wen Xing and Chanas to the left temple of the Ancestral Temple as their place to stay. place.

The luncheon was very grand. Chanas and Wenxing were the commanders of the royal fleet and the imperial priests of the Imperial City. It was rare to have a black mosquito. Naturally, they could not lose the number of gifts.

However, all of this was caused by Zuo Fengtai and Ashesler. Ye Xuan did not have such an interest in entertainment. Even at the luncheon, his words were not much, and he was left alone. Eat and drink!

On the surface, it seems to be a small role, but sitting on a large table to accompany the black mosquitoes, ten stars, the line of sight will always look at him from time to time, the atmosphere of the entire banquet hall, clearly maintained in Ye Xuan alone On the body.

Wenxing and Chanas exchanged their eyes, and the doubts in their hearts have become more and more intense...

After the luncheon, Chanas left the black mosquito star and entered the flagship demon that hovered outside the atmosphere, even if he took away part of the fleet power.

In addition to the 20,000-meter-diameter Demon, there are two 10,000-meter-diameter star-level bastions and five five-meter-diameter nebula-class bastions.

A total of eight space fortresses, large and small, started at the same time and quickly screamed away. The blink of an eye disappeared into the void of the comet river outside the atmosphere of the black mosquito.

Surprisingly, the front of the eight space fortress whizzing away is clearly the place where the entrance to the cosmic wormhole connecting the third universe funeral star field.

Realizing this, Ye Xuan's heart suddenly burst into a sudden, and suddenly gave birth to a kind of unpredictable feeling...

Chapter 2997: Funeral funeral

The reason why the royal fleet came is the black mosquito space fortress. Therefore, at this moment, Chanas has quietly left with eight space fortresses of different sizes, and the direction is directed to the third universe. The natural cosmic wormhole in the burial star field.

Its purpose has no suspense!

Chanus clearly intends to enter the natural cosmic wormhole, and rushes to the third cosmic funeral field at the other end of the wormhole, looking for other space bastions of the Demon Scouts and thoroughly checking the black mosquitoes!

At that time, not only will the fall of the black mosquito number be finally determined, but even the disappearance of the black wind will be discovered by Chanas.

But these are not the main points.

The point is that as soon as Chanas arrives at the funeral domain, the general truth will soon be mastered by him.

Before Ye Xuan left the funeral star field, the deeds of the Emperor Xuanzi had been widely spread. At least the Tianhe Star was like this. Almost everyone knows that Xuan Huangzi was able to seize again and again in a short period of time. Such a large amount of federal contribution points, everything, is related to the devil's scout fortress.

This is definitely not a secret.

At the beginning, Ye Xuan released thousands of federal powerhouses from the bottom of the two scouts of the Black and Black Wind. These guys, in general, never divulged the leaves because of the oath. Xuan's identity, but if it's just to confirm that they are indeed saved by a human powerhouse, this is perfectly fine.

With regard to all these rumors, Chanas will be informed immediately after he has arrived at the funeral star field.

Therefore, he will infer that the fall of the two scouts of the Black and Black Winds is not the official of the Terran, but a guy named Xuan Zizi.

Moreover, this Emperor Xuanzi not only abducted the two space bastions of the Demon Scouts, but even took them into the cosmic wormhole, and came to the first cosmic horoscope in the wormhole...

In this way, once Chanas is returned, most of the entire demonic domain will have to turn over the sky. In addition to the demonic group that occupies this star field, the power of the servant ethnic group in other regions of the first universe will most likely Also sent to assist in the search.

This kind of big event, the devil is absolutely afraid to privately report it!

What's more, Ye Xuan is still extremely suspicious of the guys in Chanas. It is the genius of the celestial family. The prince of the prince, even if the emperor does not report, Chanas will definitely go up.

Considering that the Emperor Xuanzi is the immortal dynasty of the Terran Science and Technology camp, the emperor who is conducting a trial of the outside is absolutely amazing. At that time, in order to find out the Emperor of the Emperor, it is very likely that the Celestial family will be there. Will send some of their own strength to rush to the Devil's Star!

In a word, once the Xuan prince's affairs are exposed, the devil's star field must be chaotic, and the eyes of the entire first universe will come together.

In this case, even if Ye Xuan hides well, the possibility of final exposure will increase as much!

Realizing this, a strong sense of crisis immediately enveloped Ye Xuan's whole mind. Unfortunately, he couldn't stop it, and he couldn't change anything. The only thing he could do was just in Chanas. After returning, try to be cautious, avoid mistakes, and actively expose yourself!

For this reason, Ye Xuan had to change his strategy even in dealing with the case of the Imperial City High Priest Wenxing.

His original intention was to anger the Wenxing step by step, forcing him to impersonate himself in public, and then, at this time, Ye Xuan would be the slaves of the top ten black-stars. It provoked the resistance of all the tribal powers of the entire Black Mosquito.

In this way, the contradiction between Wen Xing and him will be completely clear, and the secret conspiracy calculation will be meaningless.

On the surface, Ye Xuan's small new son seems to be insignificant, but the black mosquito is one of the top ten tribes of the demon group. It's not a small thing. Once things are big, and Ye Xuan has no serious faults, then In addition, Wenxing will vote for the rats and take the initiative to seek ways to keep things quiet.

But now, this method is obviously not suitable.

If you do that, the movement is too big. A new saint, after the conflict with the high priest of the Imperial City, can lead all the tribes of the entire tribe to come forward and support them. This is a bit too enchanting. There are countless unnecessary attentions.

The Xuan Huangzi incident does not end one day, Ye Xuan can only keep low-key as much as possible, too eye-catching, is asking for trouble!

Of course, he did not even think about killing him or using slave prints, but after a little pondering, these two methods were quickly denied.

It is impossible for the slave to accept the service. The other party is not only the supreme existence of the hole, but also has a six-level source core, the same as Ye Xuan.

Even if you get a ninth or even twelve slaves, you can successfully implant into the body, and successfully complete the refining and enslaving process of its source nucleus, but it will not be difficult for a long time.

After all, the spiritual power that Ye Xuan used to condense the slavery is exactly the same as the spiritual power of Wenxing itself.

And Wenxing itself is a high priest of the imperial city with a hole in the sky, and the mastery of the mysterious law, even the magical powers in his hands is absolutely indispensable.

In Ye Xuan's spiritual source nuclear completion of the sixth metamorphosis, the evolution to the seven-level source nucleus, the use of slave printing to deflate Wenxing, basically do not have to consider!

The risk is too great!

As for killing, it is even worse. The prominent identity of the people is there. This time it is for Ye Xuan. Once the accident has fallen, the first suspected and examined target, except Ye Xuan, will not have anyone else. !

"If you kill, you can't kill it. If you can't accept it, can you still only be keen on him, and you can't beat it?"

As these thoughts flashed from the brain, Ye Xuanton felt awkwardly. He twisted his brow and shook his head and smiled: "Wen is not difficult to kill, it is difficult to find a one and can not fight with his eight poles. The way and the way, this guy is old and savage, the general scheme can not be counted, it is really speechless..."

"It must be done before Chanas returns, otherwise... um? Chanas?"

When it was halfway through, Ye Xuan's mind suddenly flashed a touch of aura, and suddenly he grasped what was in general. His eyes were brightened in an instant, and then he patted the big music: "Walk around and finally discover that it was against this. The best strategy for the old goods is what he brought himself, hahaha..."

"A debt..."

At the same time that Ye Xuan smiled and smiled, the left temple of the Ancestral Temple was in the interior. Just the poor people called the black worms and the high priests. The Wenxing, who had not yet had time to ask questions, suddenly sneezed. .

After licking his nose, Wen Xing frowned and said: "Weird, how did the right eyelid suddenly jump up? The \*\*\*\* Zhang Wuji must have been this man who is cursing the old man..."

Chapter 2998: First Universe Order

The third universe, the territory of the vast universe of the eternal empire of the Vulcan Federal People's Science and Technology camp!

Since Ye Xuan left the third universe, he entered the natural wormhole leading to the first cosmic plane deep in the core of the funeral star, and went to the magical star field on the edge of the first universe.

The rumors about Xuan Zizi have spread throughout the star field in a short period of time.

Nowadays, not only the two universes of the Terran technology and comprehension of the Third Universe, but even other federal groups in the Second Universe are aware of this matter, and they are constantly talking about it.

In particular, in this extreme trial, Xuan Huangzi, in the Tianhe Star selected when registering the federal interstellar mercenary, all kinds of rumors about the Emperor Xuanzi have already formed an almost overwhelming trend.

Here, if you don't know who Xuan Zizi is, and what he has done... Exaggerated points, it is estimated that I am embarrassed to say hello to people!

Although the three lists of the world's contributors in the federal contributor list can be viewed at almost any administrative star in the Federal Republic of Venezuela, there are still a large number of federal powerhouses coming here. Enter Tianhe Star, go to the federal affairs platform of Tianhe Star, walk into the hall where the interstellar mercenary affairs are handled, and look up at the list of the list.

The list of the land, the 101-1000 strong individual in the federal federal contribution points, and Ye Xuan, in a short period of time, was pushed to the end of the list.

Today, his ranking on the list is still the same as before, even a punctuation has not changed.

The list: the 999th!

Ye Xuan: Eight steps of the meteor!

Interstellar Mercenary Number: tha13148080!

Current federal contribution points: 176878943 (30000000)!

This string of information and data, in today's Wanluo Federation, many strong people can close their eyes to write, but every day, there are still a large number of federal powerhouses from the funeral star field.

I don't know just to see what the place where the Emperor's name registered the interstellar mercenary is, or to confirm it with his own eyes. Xuan's contribution rankings and other data are really as rumored as the realm has not existed for a long time. Too much change!

Slowly, all kinds of rumors began to spread...

Some people say that the Emperor Xuan has fallen, and everything about his contribution points and repairs to the data, etc., are all fixed in the moment before the fall.

It has also been said that even if the Emperor Xuanzi has not fallen, it will certainly be involuntarily lost. Most of them are captured by the Demon Scouts sent by the Tianji people to the depths of the funeral horoscope, and they are imprisoned.

There are even people who say it is that he was rescued from a sorcerer's scout in the fortress. At the same time, there are a large number of federal powerhouses saved. To tell the truth, the huge amount that Xuan Huangzi earned in a short period of time. Federal contribution points, each of them has a contribution...

The person also said that at the time he was clearly the last one to escape from the bottom of the space fortress, Wan Luo Prison, just stepped out of the door of a black light curtain, and the passage of the Wanluo prison was completely closed. .

In the moment before he entered the door of space, in the Wanluo prison behind him, the shout of Xuan Huangzi is still in the ear!

In a word, Xuan Huangzi, absolutely can not escape, but also closed!

The last statement can be said to be eloquent, but perhaps because of too detailed reasons, there are not many people who initiated the letter, and the immortal dynasty did not pay attention to it, but later, with the appearance of other sounds, this piece Things have gradually been confirmed, but the emperor of the immortal dynasty is still immortal, but still silent...

Just at this time, Chanas came, and in the first time in the core area of the funeral star, he was contacted and summoned by the other eight space fortresses of the Demon Scouts.

Then, with the arrival of the eight devils scouting for the fortress, all the rumors about the Emperor Xuan were immediately introduced to Chanas.

As Ye Xuan guessed, after Chanuss stunned the gods, even if he was ecstatic, he thought that the Terran had won the black mosquito and successfully infiltrated into the first universe.

It seems that the black mosquito and the black wind are clearly only taken away by a descendant of the Terran dynasty, and this person is now in the Devil's Star Field, which is isolated and helpless!

This is the descendant of the imperial dynasty of the Terran Science and Technology camp, and seeing his prestige among the strong people of the human race, it is clear that it is not the same thing, if it can produce oysters... It is definitely a great achievement!

With this ecstasy, Chanas embarked on his return journey the next day, turning around and screaming, rushing into the cosmic wormhole, and leaving, there are even four Devils scouting the Battle of the Space Fortress.

It is necessary to give credit to the master and son of the celestial family, and the evidence of the person's evidence must be complete!

However, Chanas had just left, and the immortal dynasty of the Terran Science and Technology camp had already passed through a certain person who had already been bought. Since then, he has been inserted in the Devils' traitor inside the Demon Scouts and learned that Chanas had Falling into the funeral star field, but the next day, he hurriedly turned around and turned back the information.

Even the ins and outs of Chanas's sudden arrival, the devil's spies, all of them have been heard, and they are detailed in the intelligence...

On the afternoon of the same day, in the depths of the immortal imperial city on the imperial star, in a palace, there was a sudden mournful voice of a woman.

"Xuaner! For her mother's Xuaner..."

"It turns out that everything is true. You are really trapped in the magical universe of the first universe... isolated!"

"Hey..."

"Xuan Er, support one more, for the mother will not care about you, with your prestige, plus the efforts of the mother, even if it is the ultimate trial? One person alone to grab two demons fortress, then And suddenly fell into the first universe, this is a heroic battle, that is, when your father was not succeeded, he never had..."

"Your trials should have passed long ago. This time, I see who dares to use the excuse of trials to stop me from fighting!"

.....

The first universe, near the entrance to the natural universe wormhole that connects the third cosmic plane!

"call out!"

"call out....."

A rush of sound broke through the air, and a total of twelve different sizes of the Devil's Space Fortress spurred from the wormhole, descending on the edge of the first universe. At the office.

Chanus, come back!

"Return the black mosquito star immediately, and at the same time, open the power of the star network of the magic squad to the ultimate, do not hesitate to consume energy, and search for the signal of the celestial star network. Once found, immediately connect!"

In the top-level main hall of the giant bastion of the Demon, with the search and the command of the celestial celestial network signal, Chanas was stunned and whispered even if he fell into some kind of good reverie. .

"It should be possible to get in touch with the Tianzu people before returning to the black mosquito star, so as not to be Wen...the old guy, sharing the credit of Laozi!"

"Hey, this big event of the level should be enough to ask for the first universe to pass through the full plane. I can't think of Chanus, but I can have such a big day..."

Chapter 2999: Three major planes

The first cosmic wanted order, only the first universe of the hegemonic celestial family, is eligible to issue.

Moreover, it is also the most wanted order that will be issued by the leader of the Tianji family.

Once issued, the entire universe of the first universe can be passed, and countless slaves and servants of the celestial family must actively and unconditionally cooperate!

From the celestial emperor of the Heavenly Kingdom, he killed the Terran technology pioneer who created it, and thus betrayed the human race. Until today, this kind of deliberately added the first four words of the universe as a predecessor, Only appeared ten times less!

The horizontal prominence of each of the first universes, representing a turmoil that swept the entire first universe, is about to come.

Even the Terran, which occupies the third universe, and the ethnic groups of the Second Universe, which together with the Terran, form the Federation of the Vatican, are sometimes involved.

Among the first cosmic wanted orders that have appeared in history, the wanted people on the list are all important figures of the human race or the Federation of the Vulcan, and this person is known as the name or the nameless before the issuance of the wanted order. Once his name appears on the first cosmic wanted order issued by the Tianji nationality, then this person must eventually be: the name of the cross-cosmic plane before the birth, the dark ink after the death!

This is by no means a boastful word, but a fact!

It is said that among the several powerful ethnic groups in the Second Universe of the Second Universe, there are several old monsters, and there was a gamble before many years ago. Several old geeks all entered the first universe, and they were free to toss. Look at who is the most capable in the end, can let the leader of the Tianzu tribe, in a rage, issue a first cosmic wanted order.

The end result was very embarrassing. All the old geeks failed, and they quit the first universe. It is said that there is an old blame and even a murderous extinction of an entire slave group under the celestial family.

However, after the news reached the ear of Emperor Yi, the people put their hands on the back of the head and left it without thinking about it...

If not, Chanas would not be so excited.

Although he is not the wanted person on the list, if this time he can successfully invite a first universe, the first black hand born as the wanted order, his name can be resounded throughout the whole. A cosmic plane!

At that time, there may be many people who do not know who the demon emperor of the Emperor City is, but the first cosmic command of the Emperor of the People's Republic of China is caused by the black hand, but absolutely no one knows!

It is said that luck can't stop the block, and now Chanas is the feeling.

As the hegemon of the first universe, the Tianji clan, the star network signal from its base camp, can basically cover the entire universe, but the devil's star field is at the edge of the first universe, so here The main network signal of Tianji is not very strong. In many cases, it is not searchable.

But this time, Chanas's order was issued shortly, and the giant bastion of the magic squad searched for the star network signal of the main network of Tianji, and immediately completed the splicing!

Then, Chanas rushed to launch a flamboyant report that was almost ups and downs. At the end of the day, even he himself had some doubts about the Xuan prince he described. Would it be too much too deified? In case it happens to be awkward...

With this kind of embarrassment, Chanas led the eleven space fortresses in the rear. After a long time, he finally arrived at the black mosquito star.

It is also at this time that the final result of the matter of the celestial family has finally arrived!

There are two messages for returning to the Magic No., a confidential award, which is not open, and is destroyed after reading. Even the star network signal that transmits this secret order will be completely annihilated, only in the Star Network Center of the Tianji National Base Camp. Archive.

The other is that Chanas is the only behind-the-scenes black hand, and under the impetus of operation, he successfully issued a first cosmic wanted order. The wanted ones listed above are from the Emperor's Emperor!

Since it is the top command for the entire universe, it is naturally impossible to receive only the Battlestar Fortress, where Chanas is located.

At the same time, all the servant ethnic groups in the First Universe plane, including the Magic Emperor, all received an identical order, even the Terran and the other ethnic groups of the Union of Venero, During the half-day period, all of them continued to use the special channels and seized the news.

Less than half a day, the three cosmic planes were completely sensational. Almost every place has a star field where the stars of the monks exist. From this moment on, the names of the hot talks are almost all of the horrible princes.

Ye Xuan, overnight, the name of the three major universe planes!

However, it is an embarrassing identity that he is depressed and not recognized by him!

Just after the all-night command of the Tianji nationality was issued to the entire first universe, only about three or four hours passed, and some high-level people of the third universe had already learned about it.

This kind of existence, just the emperor's science and technology camp, the emperor's emperor's emperor is immortal, there are several people!

Through them, the news quickly spread, no one to cover up anything, one is not necessary, the second is to cover up, can not hide, like this level of secret secret, spread all over the three universe is sooner or later!

.....

Immortal dynasty, the emperor of the Emperor of Heaven, the heavenly star!

Since Ye Xuan disappeared completely in the funeral star field, and no clues appeared, Xuanyuan Ziyan was resentful and returned to the Emperor Tianxing Star. This time, he has been in the Xuanyuan family. Even rarely go out.

She also learned about the plane plane's wanted order for Ye Xuan. At this moment, the whole person was completely shocked, and his mouth was silly in the same place, just like being petrified.

After a long time, Xuanyuan Ziyan was sighing and sighing, shaking his head and laughing: "This misunderstanding is getting more and more serious. Actually, it has reached the level of shocking the three universes. I really don't know what the situation will be after the truth." ..."

"However, at least the fate of Ye Big Brother and Green Luo Natou, there is always a clue!"

"In addition, the name of the Emperor Xuanzi is now in the prestige of the entire Vatican Federation. Whether or not the Emperor's immortal star believes that Ye Big Brother is the Emperor of the Emperor, with the wanted order of the heavenly family spread throughout the three universes, The immortal royal family will definitely have some action, otherwise they will not be able to convince the public, causing criticism and eventually shaking the foundation of the emperor!"

"It seems that this lady is also the time to leave, just waiting in the funeral star field. If there is no accident, the fleet of the imperial star will soon start again!"

After the decision, Xuanyuan Zijing, even if she left the Xuanyuan family, plunged into the distant galaxies of the Emperor's official hands, and from there, she will pay a lot of money after the delivery fee. In the first time, I can rush to the dusty country of the dusty country. At that time, it is not far from Tianhe Star...

## Chapter 3000: Slow down

“Is it really just that simple? The kid, who only used a lot of chanting crystals, bought all the black hole high-levels of the black mosquito tribes?”

In the temple of the ancestral temple, the high priest of the Imperial City priests frowned and looked at the priests of the black mosquitoes who were respectful in front of them. The words in their mouths were not inquiring about the gray skele, or talking to themselves, but clearly It reveals a thick suspicion, which is clearly a rhythm that is not believed.

It was night, but it was the night of the Ye Xuan Shengzi Grand Ceremony, but the fourth day. The demon emperor's demon lord led Chanas to take eight space fortresses and left for three days. .

During these three days, the high priest Wenshi of the Imperial City will summon the high priest of the black mosquitoes every night.

Gray Mue was originally the time when he was still in the black mosquito department as the tribe of high priests. He gave support and raised the Son of the Sun. He grew up to this day and succeeded Wen Xing as the high priest of the whole black mosquito. It can be said that during these years, both Greyhedler and Wenxing have always had close secret connections.

Therefore, for Ye Xuan's surprise, Wen Xun does not need to ask others, and even does not need to investigate, just call the gray bones to know everything.

On the night of Ye Xuan's sacred ceremony, he called the gray bones to see him, and even if he explored his spiritual power, the result was as Gu Xun had guessed, no clue!

Ye Xuan's slave print is condensed with six levels of spiritual strength, and the gray bones are also six-level source nuclear, with the mystery of slavery, he can't see any traces of pearls.

Later, Wen Xun made an inquiry on Gray's bones in words. However, before the latter came, he had already obtained the instructions of Ye Xuan. In terms of response, he was even in the attitude of treating Wen Xing. Gray Muller is also the same as before. When it is private, it is the ritual of the disciple, which is completely different from the attitude of Wen Xing when he first came.

Today, Wenxing once again called the gray bones and once again raised the old things. It was because of the reply to the gray bones that he was always suspicious and not completely convinced.

It's just that there is no reason to deceive him. It's just that even Wen's line has been hesitant, wondering if he can start Zhang Xiaoji's kid...

"It is true!"

Gray's face is respectful, and the reply is exactly the same as yesterday: "The kid is very vigilant. The high priest just told me to stare at him, and urged him to practice, but he clearly captured what he had, the eve of the ceremony. I came to find me and Zuofengtai. On the spot, I took out four gossip silver crystals. You know that this holy thing is for us..."

"I was hesitant at the time, because after knowing that the high priest was here, once the boy was picked up, these gossip silver crystals would fall into our hands."

"But Zuo Fengtai is overjoyed, and he is also there in the Imperial City, so I am also jealous..."

"What is even more speechless is that Zhang Wuji's kid is still not at ease. It is actually asking us to come all over the black mosquitoes and nine-star black hole high-level people who come to see the ceremony. All of them have met and sent gifts!"

"For this goal, this kid has also pulled out a small box of space, there are actually four things in the gossip, in addition to hundreds of six and six."

"The four gossips were given to me and Zuofengtai. The latter had four gossip sacred objects, and the eyes were bright. Although I was worried about the big priest, you couldn't be too persistent. In order to avoid Zuo Fengtai's suspicion, he can only summon the black caves of the ceremonies along with the meaning of the two of them."

"You should be able to guess the next thing. Although the kid didn't pick up the gossip, but the black hole was built by the black hole, everyone received him three or four." And the Seven Miles, for them, the effect of buying people's hearts, and I and Zuo Fengtai two received a few gossip, exactly the same!"

"And this kid will also send a lot of mourning crystals to the Emperor and the priests in the Emperor City on the same day, and said that the uncle Mo Qigong looked at him differently, and wanted to accept it as The disciple's business, however, he is worried that the high priest will come to the black mosquito, and he will be too harsh on him in the cultivation, so he will ask us to help him perform in the future when you arrive..."

"This is what happened when you came down on the same day. We all waited for the sake of his life. It was really short-handed. In addition, everyone also thought that even the Emperor of the Emperor took his hand short and more The uncle Mo Qi was covered, so this kid is promising in the future. Therefore, anyway, he took advantage of him, and he pushed the boat in the water. The right to let him owe his personal feelings, and later he will be developed, in case he is called. Going to the Magic City, I will wait... there will always be benefits!"

This discourse is exactly what Ye Xuan confessed to Gray Bale, but it was Ye Xuan's plan to slow down after he learned that Chanas had gone to the third universe.

At this moment, the gray bones have been rehearsed for the second time in front of Wenxing, and the latter after three days of observation, it is found that this is indeed the case, unconsciously has already put the heart down, it is not waiting for the gray bones to say Finish, even when you waved your hand.

Some said with impatience: "I have done it. These words have already been said before. This priest does not believe you, why do you need to repeat this too much?"

"I didn't expect that the son of Zhang, who is a good surname, was really a lot of eyes. So he was seen by him, and he thought about the countermeasures around the bend. So, it was not convenient to clean him up immediately. After all, this Whether it is Zuofengtai or black mosquitoes, the black hole high-level people have already known..."

Speaking of this, Wen Xing's eyes flashed a fine mans, and he sighed a little unwillingly: "Oh, it's gone, let him live a few more days, and everything will be said after the return of the referee."

"But one thing is completely certain, that is, this kid has really intercepted a lot of mourning crystals, I am afraid that even the number of gossip crystals is amazing, otherwise how will you be willing to send you and Zuofengtai four It's really a dog's luck, and I don't know what he encountered in the ban on the day, and he's got so big..."

"Hey!"

"Not good, the big priest, something big..."

Just said that here, the door of the partial hall suddenly rushed into the heart of a gray bone, thinking that because of the close relationship between the gray bones and Wen Xing, there is no need to go too far, and this thing is really amazing. Shocked, it was a big thorn that fell and ran straight in.

The face was full of shocking colors. Seeing both Wen Xing and Shi Gu Le at the same time, they turned their heads and looked at it. When even with a panic, they said: "I just received the signal from the main network of Tianji, the base of the Tianji Nationality. Throughout the first universe, a first cosmic wanted order was issued, just about... it's related to our black mosquitoes, all night, a man named Xuan Zizi!"

"It turns out that our black mosquitoes are actually in the hands of the imperial empire of the Terran empire..."
