Chapter 3001: Digging a pit

"What? The first universe wanted? Even the Tianzu people were alarmed. It's a big event to make such a battle..."

"Xuan Huangzi? The emperor of the immortal dynasty? Robbery of our black mosquitoes, actually dare to stay in the magician star field, this person is not three heads and six arms? The courage is too big!"

Suddenly heard the news, Wen Xing and Gray Muscle immediately changed their face, all of them lost their voices, of course, the latter is loaded, he had a general knowledge of this matter from Ye Xuan.

Ye Xuan told him that he and Zuo Fengtai were both pre-prepared for prevention. However, for his identity, Ye Xuan naturally could not say more, yes, now Zuofengtai and Grey-Grey Two people, it is estimated that they all regard him as the prince.

It was also at this time that there was another ancestral temple ritual that came in and sneaked in, and said that it was the fortress fleet of the Emperor Weichao who had just returned. This is also the case of Wen Xing's confession. As soon as he came back, he was informed.

In fact, Chanus returned for a while, but since several space fortresses are outside the atmosphere of the black mosquito star, they were not detected by the black mosquito city for the first time.

At the moment, it was also because Chanas took some guards and spurred several small patrol boats into the black mosquito star and came to the top of the black mosquito peak. It was only known as the sacrifice in the temple.

The sacred remarks of the rituals were just finished, and Chanas, who was full of spring, had stepped into the partial hall, and several martial arts guards behind him stayed outside the hall.

"Ha ha ha..."

"The high priest, this time the third universe's front line funeral star field is really not gone, not thinking that it was actually an important news that I explored a big day, this is enough to let the Tianji people release the first universe wanted. The secret..."

Stepping into the hall of the hall, Chanas stepped on the side, and already had a hearty laughter, and it seemed to be very good.

Even if Wen Xing frowned, there was a flash of light in his mind. He guessed the cause and effect of it in an instant. It seems that the first cosmic order issued by the Tianji family is clearly Chanas. For the sake of it.

As the demon emperor's commander, the cronies around the demon emperor, such an important thing, did not go to the top of the demon emperor, privately directly contact the Tianji clan, this is clearly the rhythm of the upward invitation, is it... this person is really like himself As guessed, has it been bought by the Celestials?

If this is the case, he is clearly the eyeliner and spies of the Tianzu people who are placed next to the Emperor!

"Imagine that the high priest is already aware of this matter. The demon squad is also the first cosmic wanted to receive the celestial family just recently..."

When it came to this, Chanas was keenly aware of the unpleasant color that flashed on the face of Wen Xing. He couldn't help but stagnate, and the words turned sharply: "However, this matter seems to be a bit too reckless at the time. Because of the seriousness of the matter, I was worried that the Xuan prince of the Terran would be a pity if she took the opportunity to sneak out. So I didn't think much about it in an emergency. I directly reported this news to the Tianzu people, and then I remembered that I forgot to report it. The emperor is..."

"The high priest, you have to help me to say a few more things about this matter. I haven't dared to report to the Emperor of the Emperor until now. I was surprised when I came over and regretted it!"

"This is a trivial matter. It doesn't matter. When I look back, I will talk to the Emperor of the Emperor. It is also a matter of thinking about this task. I am worried that the so-called Emperor Xuan will escape."

The heart sneered, but Wen's face did not show any points. He took care of Chanas, and then turned to the black worm priest, Gray's priest, behind him: "Okay, you hurry. Arrange, it is estimated that Zuo Fengtai is looking for you at this moment..."

"The first universe is very different, and all the dependent groups in the vast territory of the first universe are obliged to send out fleets to actively share the search tasks. Therefore, soon after, there will be some ethnic strongmen and official fleets entering the devil. Starfield."

"In addition, among the two scouts robbed by the Emperor Xuan, the black wind is one, and the other is the black mosquito. Therefore, the search power of these extra-territorial groups will mostly focus on the black wind star and black. Mosquito star field."

"Hurry up and arrange, you must not have other troubles anymore. This time, the black mosquito number is in the third universe of the front line, and it is the horror of the devil, but there is no black mosquito. The meaning, if you have other scorpions in the subsequent search, it is hard to say..."

In this regard, the gray bones show a sense of fear and extreme anxiety in a timely manner. When even leaving the hurried leave, after leaving the temple, it is not the official command of the black mosquito city, but directly I went to the right side of the house of Ye Xuan.

At this moment, Zuofengtai was also in the right hall of the Son. He also rushed over to report to Ye Xuan after receiving the first cosmic wanted order.

"So, the goods in Chanas have come back?"

For the first cosmic wanted order, Ye Xuan did not know it before, but also after consulting the left Fengtai, I realized how amazing this kind of ghost thing.

During the speech, the high priest of the black mosquito, Ashley, has stepped in and took the words: "Chanas is indeed back, just went to Wenxing!"

Then, the gray bones will bypass the magical star, and report to the celestial family about the information he learned from the funeral star field in the front of the third space battlefield. This led to

the launch of the first time. The inside story of the cosmic wanted order was reported to Ye Xuan truthfully.

"So, it is no wonder that the reaction of the Celestial family is so swift, and Chanas has just returned. They are all connected with the order. It turned out to be the ghost of Chanas..."

As soon as I heard the situation, it was like this. Ye Xuan's face immediately showed the color of enlightenment, and then the slap in the middle of the eye, the corner of the mouth is slowly sketching a sly smile that is quite interesting: "So, This guy in Chanas really has problems. This is because of the suspicion from this incident, whether it is the Emperor Mo, or the Imperial City High Priest Wenxing."

"I don't know how to clean up Wenxing. This is good, it's a godsend!"

Having said that, Ye Xuan turned to the gray bones and said: "Oh, all the orders have been down. What are you busy with? If there is no important change, don't always run to me." In order to avoid being suspected of being attacked by Chanas and Wenxing."

"In addition, when you go out, you will be notified of the mosquito traps in the outer hall, and let him go to the right side of the side of the bank to stay in the distance. Once Chanas leaves, immediately return to me..."

Zuo Fengtai and Ashes were immediately promised and turned away.

And Ye Xuan, the secret smile of the mouth, is more and more clear, muttering: "Wen Da priest, everything is what you are looking for, don't blame me for burying you buried..."

Chapter 3002: Crashed out of the wormhole

As the inferior hegemon of the first universe, the Tianji clan, with the first cosmic wanted order issued by the first emperor of the Tianji nationality, was fully issued, and the entire first universe was attached to the servant group of the Tianji nationality, more or less , will send a certain search force to respond to this matter.

The only record of the black mosquitoes found in the first cosmic plane is in the devil's field. Therefore, these slaves respond to the search force dispatched by the wanted order, and all of them will lock the target of the search. A vast expanse of the Devil's Star.

In addition, when the black mosquito was discovered at that time, it was a trial team that went to the Mosquito to conduct a test of the Holy Spirit. When it returned to the black mosquito, it was shot in the entire magical field. The black mosquito star field will become the top priority of the search area.

Although there is another scouting fortress, the Black Wind, which has fallen into the hands of the Emperor's imperial dynasty, is the black wind star associated with the Black Wind Fortress. Search for the focus of the action expansion.

But the real top priority is obviously the black mosquito star!

At this point, almost everyone knows that, after all, the black mosquitoes could not be used for the trial team of the black mosquitoes for no reason at all. In order to investigate this matter, the strong servants of the major servants are basically the main force. Both will be locked in the black mosquito!

The royal fleet led by Chanas was originally intended to thoroughly investigate the matter, and now that today's machine has been issued with the first cosmic wanted order, as the master of the incident, the devil's group must Will become the main force of this search operation.

Therefore, in the following days, Chanas will have to go all out to carry out the search. As for Wen Xing, he is the imperial priest of the devil's group, and this time comes with him, but it is just a supervision. The role, equivalent to the overseer, is that there is no need to follow the battleship full star field, run directly on the black mosquito star!

The truth is true!

After discussing with Wenxing, Chanas walked out of the right-handed temple of the black mosquito ancestral temple, entered the patrol ship with the defensive ship behind him, and flew into the sky, returning to the atmosphere of the black mosquito star. The royal fleet.

He will draft the detailed plan for the search task as soon as possible and start the search as soon as possible.

As a warlord, Wen Xing is left in the temple of the black mosquitoes regardless of these specific matters.

This is exactly what Ye Xuan hopes to see. Therefore, after the return of the wretched mosquitoes and the report that Chanas has left, Ye Xuan grinned, even if he went out of the temple.

Immediately afterwards, he sacrificed a hole in the night, rushing to the sky, out of the atmosphere, and straight to the flagship of the royal fleet suspended outside the atmosphere of the black mosquito star, which is the 20,000-meter-diameter star-class The giant fortress galloped away.

In the near future, Ye Xuan stepped out of the hole, and raised his hand to earn it into the immortal world. He crossed the void with the flesh and went to the channel where the Demon King just opened, and a patrolling Demon Guard.

Politely smiled, Ye Xuan handed the road: "Black mosquitoes, the son of Zhang Wuji, there are important things to report the command, please inform me!"

.....

At the same time, on the edge of the Devil's Star Field, the natural mosquito wormhole is not too far away from the black mosquito field in the Black Mosquito tribe. At this moment, a giant space fortress whizzes out of the wormhole.

The size of this giant space fortress is even more than 20,000 meters.

It has reached 50,000 meters of terror.

The diameter of 50,000 meters is the limit of the space fortress, and it is a star-level grand base.

And because it is more than 50,000 meters in diameter, it can no longer be called the space fortress. Instead, it has already entered the category of the Star Fortress. Therefore, the 50,000-meter star-level giant base, also known as the Little Fortress. .

Today, this rushing out of the wormhole is a small fortress.

The one connected from the wormhole is the third cosmic plane in which the Terran is located. This small fortress of 50,000 meters in diameter, in all likelihood, should be related to the Terran.

In fact, it is true. This large, hull-shaped hull is covered with numerous giant forts like small honeycombs. It is the immortal dynasty from the Terran, named the ruling day!

Cutting is the purpose of crusade.

Heaven, refers to the heavenly family, not the heavens and the earth!

The cutting of the sky is the meaning of crusade against the heavenly family!

In the third universe, the two camps of the Terran, the science and technology camp here is the only hegemon by the immortal dynasty. Under the imperial star of the emperor, there is an empire, and there is a small country under the empire.

Although this 50,000-meter-diameter star-studded giant base, there is basically one in a small country under the empire, not to mention the three empire, the 50,000-meter-diameter star-shaped giant bastion Not a few, even 100,000 meters in diameter, the real star Fortress.

However, the ruined sky that rushed out of the wormhole has nothing to do with the three empires under the imperial dynasty and countless small countries. Its compilation belongs to the immortal star. The generals and soldiers inside the ruins are all immortal. The dynasty soldiers of the Stars, even if they were only a small squad, went to the three great empires, especially the small ones under the three empires, fearing that even a major general would not dare to despise!

In the immortal dynasty, no matter the three major empires below, or the countless small countries in the respective territories of the three empires, they are independent in the official army.

Although the ranks are similar, for example, the soldiers are all soldiers, second-class soldiers, first-class soldiers, as well as corporals, sergeants and sergeants!

The officers started from the Warrant Officer, and then the Lieutenant, Lieutenant, Captain, Major, Lieutenant Colonel, Colonel, and Brigadier General, Major General, Lieutenant General, One Star to Five Star Admiral, and the Last Marshal!

However, many countries in the science and technology camp, although unified, are the military rank system, but the ranks of each country are not universal.

The admiral of any small country is only a general of the small country's military. It has nothing to do with other small countries, and it is even less likely to compare with the upper empire or the dynasty. The commander of the fleet under his command, after the immortal dynasty, may not be comparable to a small major in the dynasty military.

It can be said that in the entire scientific and technological camp, the imperial star of the imperial military generals, no matter where they go, whether in the empire or under the empire, is definitely a pivotal figure.

The gold content of the rank is too high!

A major general of the immortal star, to the emperor of the three great empires, is the guest of the imperial commander, and if it is a small country under the empire, the monarch can only nod and bow in front of him.

The highest commander of the small fortress in the sky was actually a general from the immortal army. Only then, it can be seen how much the immortal dynasty was holding on to Xuan Huangzi.

The admiral of the immortal army, even to the three emperors, is to cause a sensation!

At this moment, with the first rushing out of the slashing sky, followed by ten 20,000-meter-diameter Xingyu-class space bastions, they rushed out one after another, with the momentum of iron and blood to kill the first universe...

Chapter 3003: Kikikijin star region

There are many cosmic planes!

In this way, some natural cosmic wormholes in the three cosmic planes are connected to some unknown voids and planes, which can be inferred in general.

However, there are only three cosmic planes that have been identified as safe, stable, and have stable natural cosmic wormhole connections.

They are the first universe, the second universe, and the third universe.

The former was occupied by many servant groups under the celestial genius, and the second group of the universe and the people who occupied the third universe joined forces to form the Federation of Wanluo and resist the celestial family!

The war between the Celestial and the Vatican Federations broke out every few decades, sometimes in the funeral star field of the Third Universe, and sometimes in the Second Universe.

But sometimes, the coalition forces of the Federal Republic of Varo will also enter the first universe.

The second universe leads to the wormhole exit of the first universe, in another star field, but the third universe leads to the wormhole exit of the first universe, in the magical star field.

Therefore, once the Terran empire of the Terran empire broke out with the celestial family, and also voluntarily rushed from the third universe to the first cosmic plane of the enemy's position, the war was all started from this magical star.

If it is said that the funeral star field is the front line of the third universe.

Then, the Devil's Star Field is the front line of the first universe.

Just as the Devils have a great understanding of the funeral universe of the Third Universe, the army of the immortal dynasty, who is also very knowledgeable about the Devil's Stars, has led the team into the immortal regiment of the Devil's Star in front of the First Space Front. Will Naples, even can not tell you this is the first time to come to the Devil's Star!

But the most recent one, more than 50 years ago, was the last battle between the Tianzu and the Terran.

Today, after 50 years, because of the battle between Xuan Huangzi, the Tianji and the Terran technology camp, it has finally started again!

With the arrival of the fortress fleet led by the Admiral Napoli, the Devil's Star Field will soon reignite!

There are eleven space bastions, ten of which are the same as the demon sacred by Chanas, which are mega-fortresses with a diameter of 20,000 meters. In addition, there is a flagship 50,000-meter-diameter small fortress.

This force, not to say sweeping the entire magician star field, but the black mosquito star area that is crushed from the wormhole exit is still completely no problem.

At least, because of the first cosmic squad that was issued by the celestial family, and the rushing corps of the celestial servants who came to the arrival, the team was absolutely absolutely!

At this moment, the eleven immortal regiments from the imperial empire of the Terran empire, rushing out of the wormhole and descending outside the demon's horoscope, all of them opened the occult method in the first time, and immediately caught the traces. Then he whispered quietly.

Goal, pointing to the black mosquito star...

.....

At this moment, Ye Xuan is in the flagship of the royal fleet where Chanas is located.

Neither he nor Chanas, or all the magical powerhouses of the entire Royal Fleet, do not know, at the moment, there is a powerful immortal army from the Terran empire, and after the advent of the Devil's Star, it is still hiding. The state, at a very fast speed, is coming towards this side!

"Is this true?"

After listening to Ye Xuan's confession, he usually showed his words to him. Chanas's glimpse of the brilliance, although he strongly suppressed the anger in his heart, but the face of the moment was clearly sold out at the moment. Thinking of what you think!

"Is this kind of thing still a joke? Besides, if I don't have this, I can't make it out. It's really awaiting. I have to check my own analysis. Is there still no answer?"

Seeing Chanas's reaction, Ye Xuan's heart was dark, but his face was quite aggrieved, and he was questioned by his heart.

After a short period of time, this seems to have figured out something, and then continued to pick up: "This is also a coincidence. I used to see Wenxing when I was in the forbidden valley of the inner city of the emperor. The old goods are not in the right direction, saying that I care about my cultivation, let me go back to the black mosquito star and don't leave. He will come over and check my diligence results soon... I am really a fool? I clearly doubt me. There is still a lot of jingjing in my hand. I was remembered by the thief."

"I am afraid that he will make a fortune, and the key is to kill him. In order to prevent the news from leaking, I will kill me. I will finally sit on the position of the black mosquito. I haven't enjoyed it yet. I am not worried. Ah I?"

"So, as soon as he heard that he would come over with the fleet of Chadeng, I immediately panicked. In order to save my life, the point that I had privately intercepted, I was thrown out more than half, all used to buy people's hearts, gray bones And Zuo Fengtai two people are the Eight Diagrams of the Holy Crystal, one person took me four..."

"There are black holes in the black hole of the top ten black mosquitoes. Which one doesn't have any blood and sweat in my hand? Well, this guy is also interesting enough, but most of it is because I deliberately revealed the appreciation of the seven males, and The Emperor of the Emperor also received a lot of benefits for me. The investigation and the arrival of Wen Xing together, they still played with me, and finally let Wen Xing suspicious, these days have not been to me. Shoot!"

"Coincidentally, it is precisely because of the benefits of receiving me, plus that I will be called to the Magic Emperor in the future, and then the people at the foot of the Imperial City, so the black mosquito star is responsible for the Star Network. Black hole, I will only report to me secretly, saying that it is the gray bones with Wen Xing, through the star network center of the black mosquito star, quietly contacted the upper level of the star network, sent a secret message to the devil !"

"This matter is just now, the investigation leader has just left, he has a small report behind him, saying that the investigation is the spy of the Tianji nationality, has been bought by the Tianzu people, and such words, this is clearly a careful heart, I am really can not watch anymore....."

Speaking of this, Ye Xuan deliberately put on a smile, and then turned out a space box, and then put it into the pocket of Chanas.

At the same time, the voice was depressed, and the tone was nervously said: "Inspect the commander, you also know that I have offended this old goods. Now I have such a good opportunity and naturally hope that he will be finished."

"But this thing can't make you hard work. Hey, there are still some of the crystals I have at hand, but there are not many, and the gossip is also nine. After I left three, I used the head office myself? The remaining six , all here..."

"Inspected the leader, can you go to this heart, but you can count on you, in addition, the gray bones over there, there will be opportunities in the future, check the commander also have to help me back. I ... I will sit in the future The position of the high priest of the black mosquito, there must be a return!"

"It's a bit of a ambition for your kid! Just sitting on the seat of the Son, is this eyeing the high priest of the gray bones?"

Chanus apparently believed in Ye Xuan's words and smiled happily. For Ye Xuan's face, his heart was disdainful, but he thought it would be good for himself. If there is a chance in the future, he will be easy. It's not a big deal.

More crucially, today, Wenxing actually came with him. In any case, this person must not stay any longer, lest he always blow in the ear of the devil, so no one can stand it...

Chapter 3004: Fell a target

I have to say that Ye Xuan's image of himself in the impression of Chanas is actually quite successful.

From a certain degree of solution, this is clearly the result of unintentional.

First of all, at the beginning of the inner city of the Emperor, Ye Xuan took time to leave as soon as possible, in order to resolve the crisis, deliberately revealing a enthusiasm and even obsessed attitude towards the position of the black mosquito, and even bribe Mo Qi in public. Public.

Subsequently, in the selection of the magic emperor Mo Qiaotian personally approved, is the supply of the space fortress to the black mosquito, Ye Xuan in order to get the treasure to the fortress, deliberately use the roster to select the way, and pick a boat After the dilapidated goods, facing the opposition of Zuo Licheng and Zuo Hongwu's uncle, the identity of the Son was arrogant on the spot, and he was rather angry and would rather lose his face than to lose his face.

Finally, after he returned to the Black Mosquito Star, in order to save his life, he spent more time in the position of the Son, and even planned to plot a high-priest priest.

All of this has succeeded in shaping the image of a real villain in the mind of Chanas.

For this kind of existence, although Chanas was despised, he did not feel any threat to himself.

On the contrary, he is the guardian of the Magic City, the close-knit person around the Emperor, he believes that even if Ye Xuan has any ambitions, he will not dare to do the dream of replacing the Emperor?

Therefore, in his own heart, he also understands how to fly in the future, and when he tops the sky, he will go to the Emperor City to mix and match, and get a decent official.

In this case, on the side of Chanas, he will only please, only meet, and there is no possibility of calculating.

In fact, if non-Wenhang actively counts him, it is too late to think about it.

Just as Chanas was bought by the celestial family, he was placed in the sorcerer's side of the demon emperor's side. Here, he also needs to cultivate his own cronies. Ye Xuan's impression of him is obviously not a true confidant. But it can be fostered and can be used.

And Chanas, now it is this kind of thinking.

For this reason, right now, after believing in Ye Xuan's words, he is no longer evasive in words. Anyway, the relationship between Wen Xing and Ye Xuan is, in his opinion, a deadly enemy, no matter what, There is no need to evade him any more.

"It is not difficult to kill the Wenxing. Although he is a high priest, he is good at the secrets of spiritual strength and the magical powers. But I have the magic squad and the whole fleet in my hand. It is not a big hit, so he only entered the first day. The cultivation of the order is the strength, and the secret of the spiritual power is stronger. Can you still resist the annihilation of the Star Wars?"

As he said, Chanas seems to have fallen into sinking, and even the words in his mouth are a bit like talking to himself.

The so-called annihilation of the comet gun, Ye Xuan naturally knows.

In general, the star-rated warships of the Captain of the Km and the star-rated warships of the 30,000-strong captain are all ordinary star guns.

Only the small fortress of five kilometers in diameter and the large fortress of 10,000 meters in diameter are equipped with naval guns.

Even if it is a star-killing cannon, it can't really kill a small meteor bombardment.

Previously, Ye Xuan used the black mosquito number and the black wind to simultaneously bombard the Fengteng of the three-kilometer captain of Hong Hongwu. After a round of bombing, it was just a demonstration that the Fengteng was smashed into three pieces of debris.

However, the 20,000-meter-diameter Xingyu-class giant fort, although there are many kinds of ship-borne energy cannons, the most powerful one is the upgraded version of the annihilation gun on the big fort and the small fortress. .

If the energy is fully open, the energy beam of the Xingyu-class giant fort, which is annihilated by the Xingyu-class giant fort, can reach a height of five kilometers.

With a full blow, the front of the five-kilometer diameter will be completely annihilated!

It can be said that the use of the smashing comet of the giant bastion of the defensive squad to kill the tyrants such as Wen Xing, the effect of the strong, and Ye Xuan to drive the soul of the blood to kill, basically no difference, no suspense!

Even the drawbacks of these two methods are present at the same time!

The **** corner of the soul is inconvenient to follow.

And if you use the Demon's annihilation of the comet to kill the Wenxing, it is difficult to explain afterwards!

"what a pity....."

Chanus seems to have just thought of this at the moment, and he sighed with a sigh of resentment: "Hey! The use of the Demon's annihilation of the comet to kill the Wenxing is convenient, and there is almost no possibility of failure. The hapless will be a bit more, but there must be a reason to explain the past, it seems that I can only find a way to secretly remove him!"

Upon hearing this, Ye Xuan suddenly rushed, can secretly remove Laozi and still look for you?

If you really want that, Wenxing will die, I am afraid that there will be a lot of skeptical eyes to come to him immediately!

And if Wen Xing is bombarded by the annihilation of the defensive comet under the eyes of the public, Ye Xuan can rest easy!

Therefore, it is necessary to correct the notion of such a mistake by Chanas, and the idea of being afraid of things is unacceptable!

As soon as I read this, Ye Xuan even tried to say: "Inspecting the commander, the old ghost of Wenxing is the supreme existence of the cave, even if you are the same, even stronger than him, but it is you, I am afraid that there will be no Will he grasp the crush and kill?"

"If you secretly start, if you let him escape, then our situation will be even more embarrassing, but it will be swept away by the bright and the right, then as long as the reason can barely pass, the credibility is higher, after all, if Nothing, who dares to kill the Imperial City priest!"

"He doesn't mean that you are a spy of the celestial family? You can't take a bite and swear, and then say that he is a spy?"

"In any case, there is no evidence of death. Besides, after all, the group of the devils is still a subsidiary group of the celestial family. Even if it is a demon emperor, it will certainly not be too big. Therefore, even if his heart is suspicious, it must be a major event. Small... For a long time, I believe that Chadeng has his own way to resolve all of them. What's the matter? If you have a big living, can you still fight but he can't do it?"

"Yeah, this is a conspiracy! As long as Wenxing is dead, everything is not said by the commander? The emperor's paste... the grown-up, even if you don't believe it, would you dare to make this happen?"

"Ha ha ha..."

Chanas's eyes lit up in an instant, and he smiled and looked up at Ye Xuan. He couldn't help but reveal a sense of appreciation: "You kid, although wretched, but the mind actually It's quite a clever thing, this commander hasn't bypassed this bend for a while..."

Wretched?

Suddenly I heard the word, and it was used to describe myself. Ye Xuan stunned, and I couldn't help but think of a wretched mosquito, and the black line on my head immediately climbed out. It's a bit unacceptable...

Chapter 3005: Human race

"Booming..."

"Boom!"

.....

Just at this time, the huge roar of the road like a catastrophe suddenly rang, and the giant fortress of Ye Xuan and Chanas at the moment was also shaking violently!

This is clearly the rhythm of being attacked!

Ye Xuan and Chanas sneaked at the same time, and then they changed their minds. All of them had a bad feeling in the brain. After all, it was a black mosquito star, and it was clearly a large fleet of troops. In this case, there are still people who dare to launch a raid on the flagship demon of the entire fleet. The fool knows that things are never simple.

At least, the other side must be extremely emboldened. I think that in terms of strength or strength, it is by no means weaker than this royal fleet from the Magic Emperor. Otherwise, can he not wait for death?

If this is the case, in Chanas and Ye Xuan, the trouble is obviously big.

"Black mosquito number? It must be the black mosquito number and the black wind number. Damn, the Xuan prince appeared..."

After a few moments, Chanas didn't know what to think. His face changed again and again. In the end, it was a ecstasy of ecstasy, and he gnashed his teeth: "The madman! The guy dare to go alone from the third universe to the heavenly family. The first universe that is in control is clearly a madman!"

"It seems that he can understand the fact that he is actively attacking the royal fleet at the moment."

"Ha ha ha... This is really a help for me. As long as I caught this Xuan prince, the credit is great. It is far from the news that I heard him from the third universe. It is comparable to the heavenly family. This is the king of the eight kings. It's really a good fortune, can you leave the Devil's field and be sent to the base of the Tianji Nationality, all of them fall on him, hahaha..."

Aside, Ye Xuan has been stunned by the thoughts and words that Chanas took for granted. The black line on his head has once again climbed out, and his look is gradually weird.

However, from the words of Chanas, he was at least unexpectedly informed of an important intelligence, that is, not only is Chanas a true spouse in the magic king, but the purpose of this person seems to leave the devil as soon as possible. Huang Xing, went to the base camp of the day.

This seems to be useless now, but it may not be known in the future.

"Greatly... the big leader is not good!"

Just at this time, the two Emperors Wei rushed in and stumbled into the face, all face is full of horror, and when they came to the near future, they did not wait for Chanas to scream, one of them has already said: "The enemy attack Let's meet the enemy..."

"Snapped!"

"When you lick your dog's eyes, where is Laozi's bad? Besides, the magic squad is swaying like this. This is an enemy attack. When I don't know? Is this commander stupid?"

The whole face of Chanas was red. When he raised his hand, he took the big emperor and took a big ear scraper. He gasped and still couldn't get angry. He pointed at his nose and shouted: "But it is two. Scouting the fortress, the whole fleet is so huge, so that you are panicked like this? The face of the commander has been defeated by you!"

"No, no... not like this, the other is not a scout for the fortress, not just two..."

The demon eagerly cried, and his face was still flustered, but at least the situation was clearly stated: "There are a total of eleven space bastions, ten of which are the same as their devils. The 20,000-meter-diameter star-class, and the other flagship is even more fierce. It is a 50,000-meter-diameter star-class. We don't have this level of fortress. It's a small fortress."

"What? Ten Stars? A small fortress? How could it be that the Emperor is not..."

Chanas's face was white, and he was exclaimed. When he said half of it, he was shocked. He realized that the existence of the raid fleet was not the so-called Xuanzizi.

Under the words, his face could not be changed again. This time, he was really scared. He had a vibrato in his tone: "Is it... Is it the immortal army of the Terran? This is finished, five The small fortress of 10,000 meters in diameter, even the battle of fifty years ago, the Terran has dispatched more than 10,000 warships, but only four small fortresses. This time, there are eleven fortresses, one of which is a small fortress. It is clearly an elite team, it must be the high-level seat of the immortal army!"

"Damn, this small fortress in the town will not be a lieutenant of an immortal army. It must be like this. In addition to this small fortress, the lieutenant who sits in the small fortress is even more terrible. At least it is also the demon. The same as the adult, the ninth stage of the hole is perfect. Once he shoots, he can smash the demon squad with only one pair of meat fists..."

Obviously, Chanas is clearly scared. The small fleet of eleven space battalions is so high-end. The ordinary fleet is composed of the same 20,000-meter-diameter star-class as the Magic. The flagship is even more terrifying, it is a 50,000-meter-diameter star-class fortress.

In this case, even Chanas, who has had several wars with the immortal regiment of the Terran, has never encountered it before, and it is inevitable that some of them have been panicked by shock.

And on the side of Ye Xuan, after listening to these words, but in the middle of the scorpion, it was a kind of fascinating color.

Is the immortal regiment of the immortal dynasty?

It's really prestige. Not only can we lead a terrorist fleet of such a high standard, but even the characters at the level of Chanas are almost a bit fascinating. This majesty, oh, in addition to the amazing word, the leaf at the moment Xuan has not found any other words to describe his mood at the moment!

However, this feeling was quickly thrown into the back of his mind, those fascinating and envious are out of date, the most important thing at the moment is everything in front of you!

There is no doubt that this fleet must have come from the Terran.

If there is no accident, it should be that Chanas's previous trip to the third universe of the Terran has been leaked, even including his roots in the third universe.

This is not an accident. How could the immortal dynasty in the demon community not have any internal spies? That is totally unreasonable.

The reason why the dynasty's fleet came, in all likelihood, was to save the Emperor Xuanzi.

After all, today's Emperor Xuanzi is absolutely famous in the human race and even in the entire Wanluo Federation. In a short period of time, it has rushed into the list of federal contribution points. This kind of thing has never been seen before. .

If the immortal dynasty knew that the Emperor Xuanzi had robbed the two space bastions of the Demon Scouts, and actually directly entered the first universe controlled by the Celestials, it must be extremely shocked. This kind of achievement is absolutely enough to complete the so-called Extremely trial.

All this is enough to prove the excellence of the Emperor Xuanzi, this strength and mind, especially the daring, but the future of the next dynasty, the best successor candidate, no matter the strength or prestige, there is no choice... ..

Chapter 3006: Hand over Xuan Huangzi

This is not Ye Xuan himself boasting himself, he knows his own family, the reason why he came to the first universe of the devil's star field, which can only be said to be wrong.

But he knows it's one thing, the key immortal dynasty and all the citizens of the entire Federation of the Vulture don't know.

If such a sacred emperor is an excellent descendant of the immortal dynasty, the whole royal family has a face to face, then, for the countless federal citizens of the entire Federation of the Vatican, there is such a brave and daring The emperor is definitely the best quality idol of the new generation.

The power of idols is endless, and the power of fans is endless. For their own idols, the entire Wanluo Federation, especially the countless citizens on the side of the Terran Science and Technology camp, only need to know that Xuan Huangzi is a horse, and they have entered the first universe. Then their reaction must be a sensation. The voice of the rescued Emperor Xuanzi will be heard in the entire Terran Science and Technology camp...

In this case, even if the immortal star did not intend to come, forced by the pressure of public opinion, I was afraid that I had to send a fleet to rush.

All of this, although it is only Ye Xuan's speculation, but I am afraid that even he did not realize it. This speculation is so accurate, it can be said that it is almost a fact!

But these are not really important.

The most crucial point now is that the situation has evolved to such a degree, the situation is obviously getting more and more serious, almost all of them have reached the point of being unable to clean up, and the follow-up will be more deteriorated. In this case, the whole thing How to close this question, Ye Xuan had to consider in advance.

At present, the elite small fleet of the Terran Immortal Legion has an absolute crushing advantage over the royal fleet of Chanas, even if it is added to the entire black mosquito, it is definitely not its opponent. But if this man-made immortal elite fleet consisting of only 11 space fortresses can sweep the entire universe, it is obviously an idiotic dream.

Don't say that one day the machine family received the news and dispatched the real ace of the first universe to come. It was the servant group of the first universe who was flocked by the first universe. If the power is brought together to a certain extent, then it will surely have the strength to compete with this elite elite fleet and even suppress it.

As a result, there are only two extremes in the development of the next situation.

Once the fleet power that comes from the first universe reaches the level of the overall strength of this elite elite fleet, then the fleet of the Terran will withdraw, leave the Devil's domain, and retreat to the cosmic wormhole. .

Either they sent a space fortress back to summon the reinforcements.

Obviously, the latter possibility will be even bigger. Then, as soon as the follow-up reinforcements of the Terran are arrived, the whole incident will really enter a fierce conflict stage. At that time, everything will be difficult to end, and even a It is not impossible to spread the entire war of the entire Federation of the Faro and the Celestial Family.

When I thought of it, even Ye Xuan couldn't give birth to a feeling of horror, but also gave birth to a strong sense of guilt. After all, all of this can be caused by him, although it is really unintentional. However, if it really led to the ultimate warfare that swept the three cosmic planes, which led to the burning of life, it was said that Ye Xuan had no responsibility, so discourse, I was afraid that even he himself would be embarrassed to say it!

Even so, Ye Xuan can never just release the Xuan Huangzi, who is still locked in the Battle of the Black Wind, just to resolve or stop this battle.

That guy is not caught by Ye Xuan. The one who caught him is the demon of the Black Wind, and Ye Xuan has no obligation to let him go. This is true, even if Ye Xuan is a member of the human race, he will not Any guilt or uneasiness.

As for saying that Ye Xuan himself came forward and took the initiative to make this misunderstanding clear, it is even more impossible.

Although he is a member of the human race, he is not a savior or a saint of the saints. Moreover, the wars of the Terran and the Celestials are often there. Almost every tens of hundred years, a large war will erupt. This time, at most, even if it is coming in advance.

As these thoughts flashed from my mind, Ye Xuan's originally flustered mood gradually calmed down. At this time, not only did the original violent shaking of the magic squad that he was at the moment stopped, and rushed to issue a series of instructions. Chanas, finally finally understood the specific situation.

In general, the round of attacks on the elite fleet of the Terran is clearly a threat and a warning. It is not intended to put the demon to death. Otherwise, the other party's 50,000 meters. The terrorist ship with a small diameter fortress, plus the ten 20,000-meter-diameter star-sized giant fort like the Devil.

I am afraid that if I have a few rounds of bombing, the entire royal fleet of Chanas will have to be completely smashed!

In fact, the elite fleet of the immortal army from the Terran, at this moment, is only a thousand kilometers away from the Devil's Royal Fleet hovering outside the atmosphere of the Black Mosquito, hovering in the void in front of thousands of miles.

And the energy beam that bombarded the demon squad was not the full bombardment of the other 50,000-meter-diameter small fortress. After the other side slammed the still-restrained attack, it also sent a message to the demon. The content is also very simple: hand over the Emperor Xuanzi, otherwise, death!

This is clearly the rhythm of the rat trapping device. Although the commander of the elite fleet of the Terran knew the fact that Xuan Huangzi was in the first universe of the Celestial family, he did not know whether the Emperor Xuan had fallen into the devil or the heavenly family. In the hands, the purpose of this visit was originally just to rescue them, even if they have relatively compact strength, but they did not intend to kill them without any consequences.

"Is it wrong! Actually it was for the Emperor Xuanzi? How could they receive the news so soon? This commander has just returned from the funeral star field of the Third Universe, even though the first universe of the Tianzu people has been ordered by them. I was informed, but to be sure of this, the immortal dynasty, at least a little time to investigate..."

At this moment, Chanas clearly realized that the other party's rodent was used. Therefore, although the message from the other party was tough, he calmed down as long as the other party could not determine the whereabouts of the Emperor's son, or even if the two sides were going to fight. It is absolutely impossible to be the kind of unstoppable full fire.

At most, it is a tentative mutual bombardment with various purposes.

After calming down, Chanas finally began to review the situation and analyze the current situation. The eyebrows were tightly twisted and whispered: "Is it... Is it that the devil is scouting out of the corps?"

Chapter 3007: Terran

Thinking of this possibility, Chanas could not help but also depressed: "The **** spies, actually leaked the command to the funeral star field? If so, it is enough for the immortal dynasty to immediately determine the matter, no longer need to Too much verification, so it seems that the truth of the matter must be like this!"

"Hey? This is a godsend!"

The speaker is unintentional, the listener is interested, Ye Xuan's eyes are bright in an instant, even the tone is a little excited, and turned to Chanas grinning: "Check the collar, you really are Wonderful, hahaha... The old guy in Wenxing reported to the Emperor that you are a spy of the Celestial family, and you will give him the big hat of the Terran!"

"This time the people of the family came to the hustle and bustle, and they were afraid that it would be a suspicion that the Emperor of the Emperor would be suspicious. The investigation of the commander was really powerful. This kind of wonderful plan would come if you don't accept it."

As he spoke, Ye Xuan's face had already floated a touch of admiration, with admiration, and the light and hot, even Chanas could not help but hold it.

"Hey? Wonderful plan? You mean this system... Of course, what is this head of this command? Can you even have this kind of contingency? Just kidding!"

In the middle of it, Chanas subconsciously returned a sentence. When he said that he was half-time, he slowly understood the meaning of Ye Xuan's words. After the slightest change, even if his look changed, he proudly raised his finger and pointed to his own brain. .

Such a scene, almost let Ye Xuan laughed, and finally managed to hold it, his neck was thick, but fortunately he was deliberately pretending to be excited and excited at the moment, but it did not reveal the stuffing!

"So, the matter of Wenxing has been settled. Since the Terran has come to an elite fleet, then it is feared that it will start the war immediately. In this case, the whole black mosquito star field will fall into chaos. By then, the chances of murdering Wen Xing will be a big deal. You can do it by looking at it. In short, I am relieved that I have a share of this matter, and I must keep my mouth shut..."

The reason why Ye Xuan deliberately said this was to make Chanas feel relieved. The other party really stunned, and then he looked at Ye Xuan with great depth.

After confirming that Chanas had broken the thought of taking the opportunity to destroy himself, Ye Xuan once again said: "If this is the case, I will return to the black mosquito star first. On the one hand, the estimate is also chaotic, and I will be ready for it. On the other hand, the scene that I appeared here is not convenient to be seen. If it is transmitted to Wen Xing's ear, I am afraid that it will be alive!"

In this regard, Chanas nodded, but did not say much, compared to killing Ye Xuan, he felt that this kid will have the opportunity to make a call in the future, and then use it to grow up and use it. It will be bigger.

Anyway, as Ye Xuan said, he is also a participant in this matter, and it is impossible to disclose the news.

Immediately, Ye Xuan left the Mo Yu, and did not sacrifice the hole, directly concealed his body shape, crossed by the flesh, through the atmosphere of the black mosquito star, toward the depths of the black mosquito city in front of the land. Black mosquito peaks fall...

At the same time that Ye Xuan returned to the temple, the elite fleet of the immortal dynasty came, and the news of the bombing of the demon squad was finally launched from the royal fleet outside the atmosphere to the atmosphere. Black mosquito city.

The entire black mosquito city was in a state of chaos, and countless devil strong people looked up at the sky, but unfortunately, because of the atmosphere, they could not see anything.

At this point, the Devils in the Black Mosquito City are glad that the fleet of the royal family is coming. Otherwise, no one is blocking them. The black mosquitoes are going to fight themselves. It is definitely faster.

At least this royal fleet also has a 20,000-meter-diameter star-sized giant fortress, and black mosquito stars? It is now even a big fortress with a diameter of 10,000 meters.

Although there are many strong players, this kind of fleet warfare in the sky of the comet, unless the individual strength reaches a certain level, such as at least the hole in the sky, etc., otherwise, it will only be reduced to cannon fodder.

And just as the whole black mosquito city is in chaos, and is rapidly spreading toward the black mosquito star area occupied by the whole black mosquito star or even the whole black mosquito tribe, the right priest of the tribe of the tribe of the black mosquito peak, the Imperial High Priest After receiving the news from the royal fleet outside the atmosphere, Wenxing was suddenly in ruins.

Although he knew that he couldn't see anything, he still looked through the window and looked up at the sky and night sky. His face was full of shock and dissatisfaction: "Damn, ten stars, one star-class?" This is at least the lieutenant of the immortal army. Who will come here? The old guy is too impulsive, so important action, without prior notice, so rushed, how can I deal with it?"

At this time, if Ye Xuan is here, and heard the words of Wen Xun's own words, I am afraid that I will be shocked by the chin on the spot.

This old guy is actually a spy of the Terran immortal empire inserted in the devil's group. This matter was actually unintentionally blinded by Ye Xuan!

Of course, even if Wen Xing is a spoiler of the Terran, it is only bought for some interests or other reasons. It is similar to the situation of Chanas. It is not that they are not the devil.

Whether it is Wenxing or Chanas, they are still genuine devils. After all, the unique qualities of the devil's spiritual power are really not fake. For many years, Ye Xuan has been the only exception. Only.

Can actually use the human body, hard to live in the brain to condense a spiritual source of a magical talent!

"It seems that this so-called Emperor Xuan is really important to the immortal dynasty. Otherwise, the Immortal Legion will never come so fast..."

After shouting dissatisfiedly, Wen Xing still whispered to himself, but his emotions quickly calmed down, his eyebrows tightened, and he began to think about the countermeasures in front of this situation: "The other party is only warning the nature of the bombardment. Just a note, although the attitude is tough, and if you do not hand over the Emperor Xuanzi, then it will definitely be fully bombarded, but at least revealed a message, that is, even if they are, they can not get with the Emperor contact....."

"Damn, what is the so-called Xuan Huangzi in the end? Actually, he was led by such a big evil, and it was not good. This time, the comprehensive battle between the first universe and the third universe is extremely Maybe it will break out in advance!"

"In any case, let's leave here and say, enter the battleship, this black mosquito star can no longer stay, the dead one place, if the other side is forced to rush, the energy light column of the super annihilation cannon blows down a few times, the whole black mosquito The stars are all in the sky, but it is a small fortress of 50,000 meters in diameter. The energy beam of the super annihilation cannon, if it is opened to the maximum, it can reach 20,000 meters, and the speed is fast, it is going straight to the ground. I am afraid that the speed of this priest may not be able to escape its coverage..."

Chapter 3008: War

I thought about it. Even if Wen Xing went out of the temple, he raised his hand and called a ancestral temple to worship him. He told him to pay attention to the high priest, and said that he was supervising the war and returning to the royal fleet. The whole team should also be ready for the battle immediately. The energy beam of the naval fleet's naval guns may come at any time...

After confessing all this, Wen Xing left the black mosquito star even if he was accompanied by some accompanying confidants, and took two small patrol boats and rushed to the atmosphere.

And he decided on the way, to the royal fleet outside the atmosphere, and never go to the flagship demon number where Chanas is located, but to pick a 10,000-meter-diameter big fortress to sit in the town.

After all, the elite fleet of the immortal army brought by this time is too horrible. The small fortress of 50,000 meters will not appear in some small-scale wars of the Terran and the Celestial. The 20,000-meter-diameter Super annihilation cannons, if you really want to run out of energy, you can kill the demon squad with one shot.

After all, the diameter of the demon is only 20,000 meters!

At the moment, in this royal fleet, there is only a 20,000-meter-diameter Xingyu-class fortress, which is too eye-catching. Even if the other party is a fool, it can be seen that the demon is the entire fleet. Flagship.

I really want to go there. It is clear that I have to be the first target of the other party anytime and anywhere.

.....

The news that Wenxing's hastily left was quickly passed to Ye Xuan's ear. Although the old guy said good things and pulled out the excuse of supervising the war, Ye Xuan saw it at a glance. He clearly did not want to stay in the black. The mosquito star is the target of death. After all, this time, the Terran is definitely not a joke, and it is a small fortress with a diameter of 50,000 meters. The 280-meter-diameter energy beam is terrible.

In the past battles between the Tianji and the Wanluo Federation, this small fortress of 50,000 meters in diameter has not appeared, but it is absolutely rare, and it is basically used as the decisive force in the later period of the war.

When the war was just started, it was basically sitting in the back. Like this time, it was forced to go to the door by people, and it was a small fortress.

This is absolutely for human life, that is, the level of the caves of Wenxing has to be scared!

Of course, the immortal dynasty of the Terran has a 100,000-meter-diameter, or 100-kilometer, genuine starry fortress. In the base camp of the Tianji nationality, there are several star fortresses with a diameter of 100,000 meters. This is a lot of going to the sky. The first cosmic powerhouse of the National Base Camp saw it with its own eyes.

Even the Tianji is said to have a size of one million meters in diameter, that is, a super fortress with a diameter of one thousand kilometers.

It is the immortal dynasty of the Terran, and I have never heard of such a million-meter-high super fortress!

Perhaps, the super fort of a million-meter-diameter scale, only the Tianji ethnic group, which was originally a robotic group, can be built. The scale is already a steel artificial star, although the immortal dynasty is The leader of the Terran science and technology camp, but the ability in this area is obviously inferior to the mechanical ethnic group.

Even if the Tianji family really owns this million meters, that is, a thousand-kilometer-diameter super fortress, it is estimated that their entire ethnic group is almost the ultimate card of the old nest, and it is easy to use.

Therefore, the true fortress of 100,000 meters in diameter, which is called the existence of the Great Fortress, can be regarded as the ultimate strength of the ultimate dynasty in both the Tianji and the Terran technology camp.

This ultimate power, unless it is a comprehensive life-and-death battle between the Terran and the Celestials, will generally be restrained and will not be easily used. Just like the nuclear weapons of Ye Xuan's past earth, whoever moves first will become passive, and The development of the follow-up battle will be difficult to control.

That is to say, in the first battle between the Terran and the Celestial, this small fortress of 50,000 meters in diameter is already the most powerful force that can occur under normal circumstances.

From this, it is not difficult to understand that Wen Xing is a noble priest of the Emperor City. In the face of the sudden emergence of a small fortress, he will be so flustered.

"The old guy is afraid of leaving the black mosquito star. If it is not an accident, he will probably not go to the flagship demon, but will choose to go to a 10,000-meter-diameter fortress."

In the middle of the glory, Ye Xuan thought that suddenly he grinned and laughed, and he was so happy that he would like to caress: "It's really a good thing to do so. It's clear that it's a proactive approach. Then, as soon as the war is over, under chaos, check At any time, Nass can use the annihilation of the smashing guns of the defensive giants. If the two cannons go down, they can smash the old ghosts into scum..."

"The old guy is afraid that he can't think of it anyway. Because of the choice he made for fear of death, at the end, he really became his own digging grave! Hahaha..."

Was smirking, and the rushing gray bones and Zuo Fengtai had walked side by side into the temple, which was clearly for the arrival of the human fleet.

Even if Ye Xuan put away the laughter, he raised his hand and said that they sat down, and at the same time, his mind was running fast, and began to think about his own countermeasures in this matter.

Obviously, the black mosquito star is absolutely unstoppable. The 20,000-meter-diameter super-annihilation gun on the small fortress is even shocked by Wen's line. He does not have the ability to fight hard.

The other party wants Xuan Huangzi, and Chanas is obviously unable to pay it out. Not only can it not be handed over, the guy will deliberately add * to confuse the other person in order to create a kind of person in my hand. However, it does not give you the illusion, thereby increasing the psychology of the other party's rodent.

This point, the other party can obviously guess, but the key is that they can not be sure, but the Emperor Xuan is so important, they can only believe that they have, so, not to the point of extinction, the elite fleet of the immortal army, absolutely not It will open fire to the demon squad, which is the flagship, because once it is, it will completely tear the face, waiting for the death and death of the prince.

From this point of view, in fact, the devil is the most safest, but unfortunately, the old ghost of Wenxing was flustered for a while, but he could not see through this. He really wanted to be killed by Chanas, and he should be deserved!

However, although the Terran Fleet will not easily annihilate the Demon, but in order to deter, the commander who talks with them on the flagship of the Demon is always unwilling to pay, even without giving a definitive statement, the only case of the Terran Fleet What can be done is obviously to fire at other warships or fortresses for deterrence.

After trying this situation several times, if it is still fruitless, in the end, they must aim the muzzle at the black mosquito star. After all, compared with those warships and space fortress that can be rebuilt, the black mosquito star is suitable for the devil to survive. The star, if it is to be bombarded, it will be completely gone.

It will always be a memory, and the Rentian machine will be even more powerful, and it is impossible to restore it...

Chapter 3009: struggle

Therefore, in order to achieve the greatest deterrence, the only choice for the Terran fleet can only be to ruin the black mosquito star.

Therefore, the black mosquito star, in all likelihood, can not be saved.

For this, Ye Xuan naturally has no feeling. Although he is the saint of the black mosquito, but when the saint is also purposeful, it is true to say that when the black mosquito star is destroyed, he becomes homeless. It's more convenient to return to the saints in exile. Just use a public means to get a space fortress, and then you can smash the name of the black mosquito, and use the space fortress as the base camp. Convenient to find the source of devouring!

From this point of view, in fact, Ye Xuan still hopes that the black mosquito star will be destroyed, so that he will be able to run around in the same way, even if the magic king has a command to come over, can completely pretend not to receive it, put the interior of the space fortress Star network communication system will make a little trouble...

These thoughts flashed in my mind. Ye Xuan thought more and more. This is a once-in-a-lifetime opportunity. Otherwise, even if he is the saint of the black mosquito, in order to find the source of engulfing, there is nothing to run outside, sooner or later. Have to be suspicious.

One thought of this, Ye Xuan made a decision even if he bit his teeth, and turned to the left Fengtai and the gray bones two people, Shen Sheng: "According to my analysis, the black mosquito number can not be saved, the Terran This time is the star-level of Yishui, the flagship is a small fortress, although the Tianji people have the same combat power, they can't catch up in a short time..."

"The commander of the Terran Fleet understands this too. Their purpose is to achieve the ultimate goal of this great force before the celestial forces of the Celestials arrive."

"The chasing of Chanas is not a man, and he is also playing Tai Chi. The commander of the Terran Fleet can only choose to destroy some warships and fortresses to force the Nass to submit. In the end, the black mosquitoes, Must be their target of locking!"

Having said that, Ye Xuan spoke a word, and his eyes swept over several tribe scouts who followed Zuo Fengtai and Greyhedler and then took the lead: "Tell these, not to analyze the situation with you, but to I want you to convey these situations to all the cities of the entire black mosquito star as soon as possible, and strive to make every master star know, so that they will take the initiative to cooperate with them and then resent the high-level of our tribes. There are also fewer, after all, who is willing to give up their homeland..."

In this case, Ye Xuan is not a contrived, but a sentimental one. He remembers the earth that has been named as a nine-star by the Federal Republic of Van Rou. Although nominally, the earth is now his planet, but I haven't been back in such a long time, and I don't know how everyone in the planet is living.

Although some important old people have been moved into the immortal world of the body, but the immortal world is still growing, in order to let the group of people not be affected, Ye Xuan requested that the engulfing system set the continent in which they lived. Absolutely closed.

Although quiet and peaceful, but before Ye Xuan grew to a certain extent, or until the immortal world grew to a certain extent, it was Ye Xuan, and there was no way to meet them.

All of this, before he was in the bottom of his heart, or because of the changes and opportunities of experience one after another, there is almost no free time to feel, to ponder all this.

But at this moment, with the black mosquito star suddenly unexpectedly suffering this kind of change, Ye Xuan is also a touch of the scene, will be more in the heart of these thoughts.

At the same time, it is these inexplicable feelings like illness-free, which makes him more firmly convinced that he will grow up as soon as possible and become stronger as soon as possible. This is a kind of sublimation in the state of mind, and this feeling is no stranger to him. Not long ago It was because of this sublimation in the state of mind that it broke through two small steps.

Therefore, at this moment, when he feels his own state of mind with the sudden inexplicable feelings, and once again has the mysterious feeling of meditation and meditation, Ye Xuan's first reaction is surprise. Is it another chance to break through again?

The opportunity of this kind of state of mind breakthrough has always been met and can not be sought, the general strong people have to worship Buddha once in a lifetime, did not expect that they can meet twice in succession?

God is so kind, this kind of opportunity, can you waste?

Thinking like this, Ye Xuan had no intention to pay attention to the break of the black mosquito star. He just had a heart of sorrow. After all, there are many innocent ordinary black mosquitoes on the black mosquito star, but now he is This kind of confession is also a lot of effort. Then, whether they can escape this robbery can only look at their own creations.

As a human being, you can do this to the extent that you have done it right!

"Okay, it's not too late, don't bother you, don't rush, arrange all the battleships of the entire black mosquito star, try to take every tribe away..."

Having said that, Ye Xuan waved his hand and turned to walk in his own room.

At this moment, after listening to his words, whether it is ash or Lefeng, there is a bit of blasphemy, although they have become the magic slave of Ye Xuan, but the power of the magic slave is here, it is in your brain The spiritual source of nuclear nucleation at the same time does not affect any of your previous memories and thinking habits.

In this way, the demon slaves who have been planted with slavery can perfect the infernal affairs.

But in the same way, this also directly led to the devils who became the magic slaves. Although they had been slavish and slavish because of their source nucleus, they had a kind of obedience and loyalty to Ye Xuan, but at the same time The most profound attachments of their original consciousness will still be preserved and still exist.

It's just that it's now what you want to be after loyalty to Ye Xuan.

Zuofengtai and Ashuda are the great commanders and high priests of the black mosquitoes. Although they are intrigued, their feelings about the black mosquitoes are still unquestionable.

For this reason, in the face of the crisis of survival of the black mosquitoes, their sense of loyalty to Ye Xuan in their hearts, although impossible to change, at least until they have the ability to break free from the power of slavery.

But in the same way, under this kind of loyalty to Ye Xuan, they are worried about the black mosquito star at the moment.

However, this kind of worry for the tribes, even they themselves have been powerless, the suppression of slavery is like nature, and their anxiety about the tribe is like the emotion of the day after tomorrow, the nature suppresses the emotions, making them inexplicably painful. feel.

Just like struggling!

Now, what Ye Xuan said is exactly what they expected. It can be said that Ye Xuan's simple words completely solved the innate instinct of Zuo Fengtai and Gray Guru. The painful entanglement between the emotions of the day after tomorrow, let them whole body and mind, at this moment, in an instant, they will completely relax...

Chapter 3010: First-order satellite

And this kind of heart will change from the extreme tension to the sudden change of complete relaxation. Sometimes, there will be accidents. The so-called emotional ups and downs mean this.

Ye Xuan, who turned away, did not notice that at this moment, Zuo Fengtai and Gray Muller had a clear red-faced pair of eyes. It seemed that there was a fascination of accidental flashing, and it was not a flash. And died, but stayed for about two or three seconds.

Then it disappeared again, and it was restored again.

All of this, although Ye Xuan did not notice, but the wretched mosquitoes who had been standing next to them, but they were clearly and clearly seen in the eyes.

Just as Zuo Fengtai and the Grey Muscle were accidentally fascinated, the eyes of the wretched mosquito were sharply bright, revealing a sense of surprise, but soon they were again taken away by him.

It was not until Zuofengtai and Greyhedler took the same eye-catching eyes behind them that some of the red-faced devils turned around and the eyes of the wretched mosquitoes were smashed again. His eyes, with a touch of fascinating charm, have always locked the back of Zuo Fengtai and Grey Muller.

The corner of the mouth, also slowly outlines a secret smile... unpredictable!

.....

When Zuofengtai and Greyhedler left, Ye Xuan had already entered his own room, and sat down on the knees and entered the state of cultivation.

The breakthrough of the state of mind can be met and not demanded, but the breakthrough of the state of mind does not mean that the cultivation will certainly break through together.

His last state of mind breakthrough, the reason for the repair of the realm has naturally broken through, because at that time is in the state of full condensed slavery.

The power of the spirit is being learned from a large number of sacred beasts!

Although the spiritual power is the way the devil cultivates and enhances his strength, and has nothing to do with the human monk, but Ye Xuan is now a human monk, but he has the spiritual core of the devil, and he has clearly become a history. The alienation, whether it is the spiritual power of the devil or the way the human monk improves his cultivation, in fact, has been able to make his realm and influence.

It is only the most common and mainstream power growth mode of the human monk, which is the most common and mainstream force of the human being. The influence of the spiritual source in the democrat group and the influence of his cultivation on the realm are More concealed.

At this moment, he once again unexpectedly encountered a rare state of sublimation. If Ye Xuan did nothing, then the improvement of this state of mind breakthrough will ultimately not be reflected in the realm of cultivation.

At most, the next time it hits the bottleneck of the realm, it is extremely easy.

But this is not what Ye Xuan wants. For him, the immediate priority is to upgrade as much as possible as soon as possible. After all, in addition to the crisis that has been faced before, the sudden arrival of the Terran Immortal Legion is for Ye Xuan. In fact, it is also a sudden increase in pressure.

In this case, every improvement in the realm of the realm, his emboldened, can be a little more.

Therefore, such an opportunity, he is absolutely impossible to give up, in any case, must seize the opportunity of this accident, let their own cultivation as a realm, once again break through the promotion!

With this kind of thinking, Ye Xuan has devoted almost all his mind to this cultivation. Even if he has collected it beforehand, he is not willing to use it, but intends to use it in the future. In the six metamorphosis, the thousands of demonic brains that were used to assist the impact were taken out by a thousand of his teeth and thrown directly into the swallowing system. At the same time, instructions were issued to let the system immediately capture the spirit of it. The power of the source.

As for the origin of the star nuclear, this time he is even more bloody. When he is practicing, he is basically trying to take advantage of low-order star nuclear sources, such as first-order white, because he can't raise his own mouth. Star nucleus or second-order pink star nucleus and so on.

But this time, in order to grasp the opportunity to sublimate as much as possible, Ye Xuan threw the star nuclear source of the phagocytic system, all of which are of high quality.

In the inventory in his hand, the seven-level purple star nuclear source has twenty-one cubics, eight-level black is two cubics, and the top-level nine-level nine color, fist size and volume, a total of one hundred and seven!

He is not willing to use the nine-level nine-color, but it is a treasure that can't be found in the legend. Don't look at the current one-hundred seven. After that, the realm is high. When you break through, use one piece at a time. I am afraid that it is not enough. It can't be wasted.

But the eight-level black doesn't matter.

Therefore, this time, Ye Xuan threw the star nuclear source of the phagocytic system, which is a cubic seven-level purple, and one-foot square eight-level black!

Don't look at only one meter square and one foot square. It's just these. Among the human race monks, the black hole is the strongest, and Ye Xuan is only used for one-time cultivation and consumption. In exchange for the existence of a black hole in the human race, you can only sigh with your wrist!

Once a cultivation, but broke through two orders, this kind of unexpected joy, Ye Xuan often before entering the starry environment, but after entering the starry environment, only twice.

Once in the corpse of the Forbidden City, the second time, it was the last breakthrough of the state of mind, the accident came.

This time, what Ye Xuan is looking forward to is also the second consecutive Jin!

It is not that he has had the first two experiences, so his appetite has become bigger, but because his current level of hierarchy is just at the eighth level of the meteor, which is extremely critical.

If you only advance to the first stage, then he is still in the meteor, although it is the nine-order great perfection, but the degree of improvement of the strength, it is like that.

But if the two stages of the Jin Dynasty are different, then he will step into the first-order satellite!

The meteor's ninth-order grand perfection is the second largest realm, but the satellite first-order, although it is only the initial stage of this environment, is actually the third realm.

The span of a big realm, the change in strength, is not so simple as a breakthrough between a small step in the same realm.

Therefore, Ye Xuan will look forward to it.

But the same, this also means that to achieve this successfully, the difficulty is also extraordinary.

It is precisely because of this point that Ye Xuan will have such a heavy blood, and it is still the spiritual strength of the devil, and the cultivation of the human monk as a force, while working hard to promote.

This is a two-pronged approach, coupled with the ambition of the state of mind, even this time, even the second stage of Jin, is a leap of a big realm... In Ye Xuan's view, the possibility of success is not completely absent!

Hard work pays off!

Or, the opportunity is only for those who are prepared!

It is precisely because Ye Xuan's preparations are sufficient, whether it is to enhance the spiritual core of the devil's brain, or to enhance the origin of the human core, he has been prepared.

Coupled with the opportunity to sublimate the mood, this time, three-pronged, Ye Xuan, after all, still have the wish.

"Hey, congratulations to the host, the realm of the realm! The current realm: the first level of the satellite!"
