

Super D. S 3011

Chapter 3011: Family evacuation

First-order satellite?

Ye Xuan opened his eyes and flashed a ecstasy of ecstasy, subconsciously holding a pair of fists!

Finally the third realm!

As long as you cross this in the realm, once you enter the fourth world of the border, then even in the human race, his cultivation is not a low-level existence.

Among the human races, the strongest person in the fourth realm of the planetary world has become a entrant in the starry environment!

Ordinary people and strong people, if they want to enter the planetary environment, at least for a hundred years, they are the descendants of some big family powers. They have a lot of cultivation resources, and it takes twenty or thirty years, and Ye Xuan enters the starry environment. How long?

Not a year!

Enough to be proud!

Although he is also a large number of cultivation resources, but these cultivation resources, is it not his own efforts to obtain?

"It's a little bit swaying, it's gonna be..."

Shaking his head and screaming, Ye Xuan sneered at himself, and then stood up from the ground. A breakthrough in a big realm made him clearly feel the growth of his body. At this moment, he has an unprecedented sense of power. .

But now is not the time to indulge this joy, the black mosquito star crisis is approaching, there is a horrible energy light column that may be hit by the sky at any time, in a certain area, a hole in the abyss-like bottomless hole is still hit. Leave as early as possible!

Although the whole black mosquito star is very big, but Ye Xuan is here, there is really nothing to worry about.

If you must say that there are at most, those who have also received the demon slaves, after all, it took a lot of effort to consolidate the slaves and succeed in conquering them. It is really a waste.

But in fact, among the dozens of demon slaves he has received in the black mosquitoes, there are not many black mosquitoes.

There are only a few high-level black star stars, such as Zuofengtai and Greyhedler. As for the other nine superstars of the Black Mosquito, the next day in his Son's ceremony, they return to their respective devils. Stars.

Even Hao Fangfang was taken away by his father Hao De and returned to the Black Comet.

Nowadays, the black mosquito star is a bit unspeakable. The earliest of Howard's double walk, even a little haste, clearly does not want to smash the rhythm of this pool!

The black mosquitoes are all high-level, whether it is Zuofengtai, Greyhedler or a few others. Others don't say it, it's just repaired, all in the black hole, so Ye Xuan really uses it. Don't worry about their safety.

I really want to say who needs him to remember to leave this black mosquito star with the shackles. It is estimated that there is only a wretched mosquito, but he is almost inseparable to follow Ye Xuan, and it is like a candy, Ye Xuan. Even if you want to forget him, it is basically impossible!

When Ye Xuan walked out of the temple, he looked around and was within the reach of the sights. He was busy!

There are many cities in the whole black mosquito star, there are dozens of cities, but at the moment, standing on the top of the black mosquito peak located in the temple, he can only see it with the naked eye. The main city is black mosquito city.

At the moment, the low-altitude of the black mosquito city is densely packed with warships of all sizes.

Although the devil is not as passionate about science and technology as the immortal dynasty of the human race, but because they are attached to the heavenly family, a singularity that is even more unique than human beings in terms of scientific research and development and creativity. The race is based on the strong people in the demonic group. After so many years of assimilation, although they are not proficient in the power of science and technology, they have long been used to it.

At this moment, the warships suspended in the low altitude of the black mosquito city are large and small. In addition to the official warships, many are even private possessions of some magical strongmen, or private warships.

At this critical moment of the tribe's survival, few people will continue to hide and sneak, and it is good to take away more of a tribe and some important resources!

Soon, in Ye Xuan's silent gaze, some of the warships were fully loaded and were continually hoisted, and soon they rushed to the atmosphere of the night sky.

Of course, it is the atmosphere in the opposite direction of the Terracotta Warriors!

In just half an hour or so, the entire black mosquito city was almost empty.

All the magical strongmen, all taken away by the warships, they will rush to the other nine monsters of the Black Mosquito tribe, where they will be a little relieved, and then make a more comprehensive arrangement.

The main city of black mosquitoes, the other demonic cities on the black mosquito star, basically the same.

In general, except for some stubborn people who would rather die than leave, the black mosquitoes of the entire black mosquito star were all transferred and left.

Although it is because of the rush of time, many important materials have not been able to take it away, but those are all foreign bodies. At this time, it does not matter, and it does not matter?

The high-rises of the black mosquitoes that had been accepted as the slaves by Ye Xuan existed, and they all left. Only the gray bones and the left Fengtai, each with more than a dozen confidants left.

After everything was arranged properly, and after the completion of the project, the two of them, with more than a dozen confidants behind them, all rushed to the top of the black mosquito peak where the ancestral temple was located.

Because Ye Xuan has been carrying his hands all the time, standing quietly here.

The whole black mosquito star is getting more and more empty, even if he stretches out with the spirit of the devil, and scans a circle, whether it is the black mosquito city or a few devil cities closer to here, within There are only a few dozen sporadic temperament of the devil.

This is obviously a demon person who is seriously ill or waiting to be slandered. Anyway, he is going to die. It is better to go anywhere, but it is better to die in the homeland!

All this, let Ye Xuan inexplicably have some feelings.

He is not really a demon, and even at some point, he will kill the devil and take his brain...

But at this moment, Ye Xuan really has a little sympathy for the black mosquito star, and even the entire demonic group.

In the end, they are nothing but a mournful enslaved ethnic group. Even if you are like a demon emperor, you must send a warship to your warship before you inherit it from generation to generation. Tianji, as a hostage, will not return to their homeland for the rest of their lives...

Perhaps, the devil family is also involuntarily.

If there is no celestial family, they may not necessarily have a Terran as a deadly enemy. After all, the shape is exactly the same, maybe there is still some kind of blood source before the endless years.

This idea is very against the sky, I don't know if anyone has thought about it before, but Ye Xuan suddenly remembered it at the moment, but it was a heart move, and it was recorded in the heart.

Decided, if there is a chance in the future, this matter must be explored!

"The celestial family? It's a cool way, I'm really looking forward to it. Speaking... I've never seen a real celestial family!"

In the muttering to himself, Ye Xuanzhen couldn't help but flash a touch of fine mans. At this moment, he suddenly became interested in the so-called first cosmic hegemonic celestial family.

Chapter 3012: Lying gun

"The Son, all the tribes have been settled, except for some days, not willing to leave, everyone else has basically left..."

"The black mosquito star of today is no longer worried, the Son, we... Should we leave?"

Just as Ye Xuan was a little distracted, Zuo Fengtai and Gray Bone had already plucked and flew around, and they fell on his left and right. After the two, they followed each other with more than a dozen confidants, and their strength was also extraordinary. The great realm is between the starry world and the seventh largest realm.

Perhaps it was because Ye Xuan had let the two of them feel quite surprised about the safety of the tribes of the black mosquitoes. Therefore, letting Zuofengtai and the gray bones properly settle down, they virtually dissolved them. In the heart of the two people's pains and entanglements, at this moment, Zuo Fengtai and the gray bones of the two people's tone, clearly revealed an unprecedented respect.

They are two, one is the big commander of the black mosquito, the other is the high priest, and the whole black mosquito is the supreme being, and Ye Xuan, a new son, even in the tribe The status is extraordinary, but in front of them, they are still a bit worse, only a younger generation.

But at this moment, everything is reversed. The tribal leaders and the high priests are so respectful to the tribes who have just taken office, not only the ceremonies, but also the tone from the heart.

All this, so that the dozens of confidants behind the two are all in vain.

They have already heard about the rumors about the origin of the new sage, but they didn't believe it. At the moment, they saw the performance of Zuofengtai and 灰骨勒, and they as confidants, Zuofengtai Naturally, it is most familiar with ash bones.

Whether this kind of respect is true or false, it is simply not their perception.

Therefore, they will be so shocked at this moment. Is it true that the Zhang Shengzi is really the illegitimate child of the Emperor? Otherwise, how can the strength of the left-handed and gray priests be so humiliated in front of him?

In other words, even the black mosquitoes and the big commanders and the high priests are so in front of this person, then what about them?

When I think of this, the twenty-year-old devils are not swaying at the same time. Unconsciously, the waist that was originally slightly stunned, at this moment, it is even more powerful...

"It's time to leave, I..."

"Booming..."

Ye Xuan nodded, and the words in his mouth were just halfway through, and they were interrupted by a shocking sound of the sky.

The sound of the blast was too fierce, like a catastrophe, Ye Xuan, Zuo Fengtai, Ashes, and the confident entourage of the two, all looking back at the sky.

In the next moment, all the people, their faces changed abruptly, revealing a touch of extreme shock and sorrow.

In the sight, the sky is deep in the night sky. At this moment, a huge splendid fireworks is being blown up. It is clearly a giant fireworks that a warship has completely exploded. A large sky is illuminated, even the piece The atmosphere of the area was soaked by the blasted fireworks, so that the scene outside the atmosphere was reflected in the sight of Ye Xuan and others.

Obviously, this is the flagship of the elite fleet of the Terran Immortal Legion, that is, the 50,000-meter-diameter small-caliber gun was fired, and it was caused by the energy beam of the main gun super-killing gun, because the explosion at this moment is clearly A 10,000-meter-diameter large fortress of a royal fleet.

A large fortress with a diameter of 10,000 meters was completely smashed into a smashing fireworks, and after the bonfire was finally bloomed, it was quickly extinguished at this moment, clearly the whole hull including everything inside. In a short period of time, the violent high temperature moments of the horror light column of the super annihilation guns were all burned out, nothing was flammable, so they quickly went into extinction.

This kind of power is the annihilation of the comet gun on the 20,000-meter-diameter Xingyu-class space fortress. It is absolutely impossible to reach the fire. It must be a super-annihilation cannon of the small fortress.

"Rely! Is it finally ruined?"

Looking at the sky, the canopy is rapidly moving toward the extinction of the huge fireworks, Ye Xuan's face is dull, because it is too shocking to the gorgeousness of this scene, even the mouth can not help but burst into a foul mouth.

At the same time, there was a sudden flash of aura in my mind. One thought that seemed ridiculous to him to be unbelievable in his mind was also rushed out at this moment.

"This... this 10,000-meter-diameter fortress is exactly the one that Wenxing's old ghosts chose to sit in?"

After swallowing and swallowing, Ye Xuan whispered again, and his face was also very strange when he blinked. "If this is the case, then it is too sad to be destroyed. It is the most innocent lying in history." Guns! The Terran Fleet is really picking. Just pick a big fortress to kill the chickens and monkeys for deterrence. It just happened to pick the head of Wenxing's old ghosts. I think this is unlikely."

And just as Ye Xuan looked eccentrically, looking at the sky, muttering to himself, the flagship of the royal fleet outside the atmosphere of the black mosquito star in the sky, that is, the 20,000-meter-diameter master command cabin, The horror power of this super-killing cannon scared the big jump of Chanas, and now it is a dull color.

"Hey..."

After a long time, Chanas also swallowed his throat subconsciously. Then, the look on his face quickly became eccentric, not absolutely weaker than Ye Xuan, and even had it.

Until then, the vagueness of a little return to him, only to restore the ability of speech, as if muttering to himself finally said: "This is really a dog, no, this is clearly the dog day The road of the old ghosts of Wenxing is too bad. It has just entered the big fortress, and it will not be half an hour before and after. Actually... has it been so bombarded by others?"

"Let's lie down in the grass! Laozi just groaned back and once he got up, he had to find a chance as soon as possible to chaos and smash his fortress. The thoughts are still in his mind, and the old ghosts are actually Is it finished?"

"Ha ha ha..."

"This is clearly the rhythm of God's help! It seems that Zhang Wuji's kid is really a blessing, just come up with an idea, and ultimately it is such a result. It is really a good idea to call him back. Hey, this blessing will grow once. Get up, the value of future use will be even more amazing!"

Whether it is Ye Xuan or Chanas, at this moment, I still don't know the secret identity of Wen Xing.

If they let them know that Wen Xing was actually bought by the Terran, they have been inserted in the magical field of the Devil, and at this moment, they are incomprehensibly defeated by the flagship of the fleet of the Terran Immortal Legion. Weird, I am afraid that it will be ten times more intense!

And just as Chanas was ecstatic, there was another message from the Terran fleet outside the 10,000 miles...

Chapter 3013: Naples bun

Naples, the Terran Science and Technology camp immortal dynasty military admiral, the immortal army of a subordinate army commander, a shape from the face of the Pentecostal face, the face of the cold and solemn old man's top strong.

As for its cultivation, the details are unknown, but one thing is certain, absolutely beyond the hole, that is to say, at least it is the eleventh realm. As for this realm, at present, Ye Xuan is still unknown.

The highest realm he knows is the hole in the tenth realm.

Even in the immortal dynasty military, which is a behemoth, the number of generals is not a lot. In total, there are only twenty or thirty. In this, Naples is definitely one of the best, and it is hard to kill and hard.

Therefore, it is obviously unrealistic for Chanas to imagine the idea of obtaining a life through procrastination.

With the second fire of the Little Fortress, the 10,000-meter-diameter fortress was blown into a ball of fire, and it was turned into a sacred priest. Kill the ground.

At this time, the staff of the distribution team of the Fahrenheit, according to the command of the general commander of the fleet, General Napoli, issued a new spy to the flagship of the royal fleet opposite the Wanli.

Unfortunately, the response given by Chanas is as tough: Xuan Huangzi is indeed in our hands, and once I get back, I caught it, but handed him over? impossible!

At the end of this response, Chanus even reversed the threat to the elite fleet of the Terran, warning that the Emperor Xuanzi was in the flagship demon, and had the ability to fire at the Demon.

If you don't have the ability, you will turn around and go out. Otherwise, once the powerful fleet of the celestial and the first universe of slaves comes, you will not be able to walk away, and so on!

This is why Chanas dares to say this, obviously it is also emboldened!

As long as the other party is not sure whether the Emperor Xuanzi is really in the Fortress, then they will not dare to act rashly, even if all the other warships and fortresses of the entire Royal Fleet are smashed into slag, as long as the demon Can be safe and sound, then, he has nothing to worry about.

For this, the commander of the Terran Fleet, General Napoli, is also well aware. He does doubt that the other side said that the Emperor Xuanzi is in the Devil's cabin, but it is an empty city plan, but because of the safety of the Emperor Xuanzi The implementation is too important, and Naples does not dare to gamble.

At this moment, in the top command cabin of the Fortress of the Sky, the flagship commanders of the elite elite fleet were all contemplative, thinking and flying, thinking about the countermeasures.

In this huge, square-like top-level command cabin, there are at least a thousand people at a glance.

Surrounded by the command hall hall, it is a variety of precision instruments. The 50,000-meter-diameter small fortress is not only in the basic performance, but also over a 10,000-meter-diameter fortress and a 20,000-meter-diameter giant fortress. .

It also has many features that were not available in the first two types of space bastions, so the various instruments and equipment will be so complex.

Among the thousands of people in the top command cabin, more than half of them are armed with excellent military uniforms in the immortal regiment. This is only seven or eight hundred people, but it controls the normal operation of the entire Fortress. This kind of elite technical literacy is far from comparable to the average legion.

Perhaps it is second only to the Tianzu ethnic group who is born with a superior advantage in mechanical control.

In addition, there are about a hundred people in the command center area in the center of the hall. They are basically senior military officers of the Immortal Legion. They are all think tanks of Naples.

Among them, there are also a few figures dressed in casual clothes, and Xuanyuan Ziyang is one.

Although Xuanyuan Zijiang is one of the three empires under the imperial dynasty, the Tianming empire, the descendants of the top family Xuanyuan family on the Emperor of Heaven, but only this identity, it is still far from the direct army of the immortal dynasty. The immortal army high-level climbed the relationship.

And the reason why she appeared in the top command cabin of this small fortress is now very simple.

On the same day, after realizing that the immortal dynasty would definitely act, Xuanyuan Ziyang left Tiandi Emperor for the first time, paid a great price, and rushed to the Tianchen country with the interstellar transmission array, and then from Tianchen Star rushed to Tianhe Star.

If the fleet of the Terran imperial dynasty wants to go to the First Universe, it must pass through here to enter the natural wormhole of the funeral star.

Soon after, the elite fleet of the Immortal Legion came, and as the fleet waited for Tianhe to make a replenishment, Xuanyuan Zizhen took the initiative to find the fleet and asked him to accompany him. He said that he and his son were friends. Before the accident, Xuan Huangzi was in trouble. Just with her.

And her maid is now with the Emperor Xuan, who was missing because of an accident.

More importantly, she has some understanding of Xuan Huangzi. At least, Xuan Huangzi has the power of refining equipment, and it is extremely powerful, but because his private warship seems to be integrated into a superb that belongs to Xuanyuan Ziyang and later eliminated. The private small warship is that even if the Emperor Xuanzi has followed the refining of its private warship, as long as it retains a

little bit of the characteristics of the battleship with Xuanyuan Ziyan, she will be able to see it at a glance.

Therefore, bringing her, perhaps to find the Emperor Xuan in the first universe, will be extremely important.

This is not Xuanyuan Ziyan's intention to lie. It is Ye Xuan who has long been recognized as the emperor of the immortal dynasty. Even if she tells the truth, she will not be recruited. In order to follow the fleet to the first universe, she can only take advantage of the trend, will be wrong, but also Ye Xuan as the so-called Xuan Zizi.

As for the return of Ye Xuan in the future, how to resolve this misunderstanding is not the question that Xuanyuan Zizhen needs to consider now. For her, finding Ye Xuan and Green Luo is the most important thing at present!

At this moment, with the tough response of Chanas being received by the Fortress, the general commander of the Terran fleet, Napoleon, was immediately provoked, and he was on the spot.

"Chanas is it? The demon emperor's demon emperor commander, although it is still the first contact, but its name is heard, in the face of the small fortress's super annihilation cannon, but dare to be so tough, but it is called some generals Looked at it!"

In the sneer, Napoli raised his hand and pointed it at the black mosquito star in the sky outside the 10,000 miles away. He screamed: "The squad is a small fortress and the annihilation cannon bombardment command! Target: Black mosquito star! Full fire, ten consecutive shots, to the general to wipe this magic star directly!"

Upon hearing this, more than a hundred of the immortal corps think tanks of the immortal army suddenly stunned and stunned.

Black mosquito star is the main star of the black mosquito part of one of the top ten tribes of the devil. The admiral of Naples is a ten-and-a-half bomb, and it is necessary to completely destroy it. This is clearly a policy of end-users, a rhythm of complete screaming...

Chapter 3014: Jing Xuan Huangzi

"boom....."

"boom!"

The huge beam of light, like the rainbow, is 20,000 meters in diameter, and the interval between them is only about ten seconds.

Ten energy beams, but a hundred seconds, less than two minutes, they have all rushed out!

This super-annihilation cannon light beam, which was shot from a 50,000-meter-diameter small fortress, is too horrible. Even a small meteor with a diameter of 20,000 meters will be blown out and the stream stars covered by the energy beam will be instantly disappeared by gasification.

At this moment, the ten energy beams collided in a short period of time, and the speed reached its peak. The blink of an eye had already blasted into the atmosphere of the black mosquito star and blew toward the land of the star.

Prior to this, among the demonic royal fleets that had hovered outside the atmosphere of the Black Mosquito, there were six three-kilometer captains of star-rated battleships, three small five-kilometer fortresses, and one million. The big fort of the diameter of the rice, the energy light column that was whizzed away, turned into a huge fireball, and the eyes burned out and disappeared.

This is clearly intentional, not to mention the three-kilometer captain's star-rated battleship and the five-meter, 10,000-meter-old fortress. It is a giant fortress of 20,000 meters in diameter. Under the horror energy light column, the only ending can only be destroyed by a gun.

"Rely! Insane, who is the commander of the Terran fleet? Is it crazy? The means is too strong, and among the hundreds of the immortal army, you can't find this iron-clad hawk. Could it be that a general is not a success?"

Inside the giant fort of the Magic Royal, Chanas's face turned pale, and in amazement, immediately issued a series of instructions.

"What are you still damn? You guys, this idiot, flee immediately, and immediately escape..."

"If the commander of the opposing fleet is really an immortal admiral, it is definitely more than a hole in the heavens, let alone this super-annihilation cannon, as long as the other party is willing, only one person can break into the magic demon!"

"Looking at the other side, I am still worried that our fish will die, and I have not reacted. I must escape immediately!"

"Damn, start at full speed, the entire fleet, scattered and fled..."

"boom!"

"boom!"

As the Devil's Royal Fleet immediately began to disperse and escape, the atmosphere of the black mosquitoes in the atmosphere below the entire fleet also heard an earth-shattering sound.

The 20,000-meter-diameter super-annihilation gun energy beam is so horrible, and it is not randomly scattered and bombarded. The instructions of Naples are very clear. The ultimate goal is to completely wipe out the devil's tribal master. .

Although it is only a 20,000-meter-diameter energy light column, it is absolutely impossible to completely blacken the black mosquito star as if it were a gasification of a small meteor.

After all, its huge star is here.

However, the artillery controllers on the Fortress of the Tiantian are all the most elite technical elites. The ten energy beams are in accordance with certain calculations and deductions, facing the giant monsters of the black mosquitoes, causing them to fall apart, or completely no problem.

At this moment, with the explosion of ten energy beams, the whole black mosquito star was in the dust of the sky, and finally failed to escape the fate of being annihilated.

The huge star, falling apart, turned into three huge cosmic dusts with irregular shapes, no natural star shape, even the atmosphere that originally covered the whole black mosquito star, in this huge explosion, It also dissipated completely and was messy.

At this point, the black mosquito star has fallen, and one of the top ten tribes of the devil has forever disappeared into the long river of history...

Although almost all the tribes on the black mosquito star have been evacuated in advance, the big mosquitoes of the black mosquitoes, Zuo Fengtai, the high priest, the gray ribs, and the dozens of confidants they follow, as well as Ye Xuan and the wretched mosquitoes. Still still stuck.

The moment when the energy beam of the ten super annihilation guns came from, a group of people were gathering together, and seeing this horrible energy light column whistling, his face changed all the time, and his voice was exclaimed.

"So hard and fierce? Who is the commander of the Terran fleet? This is too vigorous!"

Ye Xuan, all of them were shocked and jumped. They didn't think about it when they changed their face. They raised the hand and sent the purple hole shuttle out. The doorway that opened was opened between the minds: "All Go in, my small warship is an epic treasure of the stars, and the speed is not weaker than the giant fortress of 20,000 meters in diameter. If you don't say anything, escape is no problem..."

One of the small private battleships that were actually epic-level stars, including Zuo Fengtai and Ashley, accidentally stumbled.

They had previously seen the extraordinary of Ye Xuan's warship, but in any case, they never thought that there was such a perversion. The devil's group is not good at technological innovation. In terms of warships, let alone the starry epic, even the starry sky. Legendary warships are rarely seen.

Only the heavenly people who are born with unique advantages in technological production capacity, and the amazing human races can have this kind of thing!

Soon, all the people, including the wretched mosquitoes, all entered the hole shuttle, the gray bones and the left Fengtai two and their confidants are all the same, although they also have small private battleships, but this hole with Ye Xuan Compared with the virtual shuttle, it is really not a bad two or two grades.

At this time, the large warships are too eye-catching and will become the target of the Terran fleet. Only such small warships of several hundred meters in length are the best means of escape.

Ye Xuan is the last one to enter the hole. As his body shape enters into it, the hull is a purple-eyed hole, and immediately whistling away, rushing out like a heavenly scene, a violent explosion scene Black mosquito star!

And because the energy of the super annihilation cannon is too horrible, not only the black mosquito star body is smashed, but even this emptiness has oscillated. Therefore, the hole snail does not open the occult method, and the whole hull is at a speed. Next, turned into a beautiful purple long rainbow, traversing the void.

This speed, even even the small fortress on the cutting sky, staring at the huge holographic stereo screen, the general of Naples, was a little scared, and whispered: "Well? This speed... I can't think of the devil's group, but With such a stunning small warship, this is at least the epic level of the stars."

I have to say that as a military admiral of the immortal dynasty, this vision is not a general sinister.

Hearing this remark, the Xuanyuan Ziyan on the side couldn't help but jump suddenly. The line of sight subconsciously gathered the past toward the warship. Then, the look changed and he exclaimed: "This warship... clearly has The shadow of the purple electric shuttle I used to be, the hull and the color are almost the same, it is him, Xuan Huangzi appeared..."

In the top command cabin of the entire cutting day, the moment was awkward, and all the people, at this moment, were all excited!

Xuan Huangzi, finally appeared!

Chapter 3015: How did you do it?

"you sure?"

In the top command cabin of the Little Fortress, there is a thrilling thunder in the surrounding area. As the chief commander of the fleet, it is the strictest under normal circumstances. Generally, when this situation is met, the Neapolitan Admiral will definitely scream, but this time I didn't pay any attention to it. Everyone was excited and happy from the heart. It was also his own.

At this moment, the whole body of the excitement of the Admiral of Naples was slightly trembled, and his face was full of surprises. Looking around, he realized a word like this, which was like a stone that stirred up the effects of a thousand waves. Purple, the language is ecstatic: "Shantou, this is not a joke, you can confirm it carefully!"

"No need to confirm, it is my own purple electric shuttle, can I still know? At the beginning of the Tianhe Star, Xuan Huangzi took it away, and then refining himself into his private battleship, and later in I have seen the Tianhe Star Field. Although it has changed now, it is almost the same, and will never admit it..."

At this moment, Xuanyuan Ziyang was equally excited. He looked at the small private warship that turned into a stunning purple rainbow in front of her screen. In her eyes, she was full of stars, and later, the words in her mouth were already It's almost self-talking: "Looking at the appearance of this warship, it's obvious that it has undergone at least one refining process. I didn't expect it to be an epic in the sky. I didn't guess at the beginning, his ability in refining, At least master level, even beyond!"

On the side, many legion officers, including the Admiral Napoli, were shocked. The former whispered: "What? You said that this star-space epic-class small private battleship was actually refining itself? "

You must know that in the immortal dynasty of the Terran Science and Technology camp, any master of the tactics and master of refining is absolutely a detached position. It can achieve master-level strength in these two fields, and it can hardly be achieved by effort. Related to talent.

"The refiner who is able to refine the star-level epic battleship is not the master level? At least it is the master class. Xuan Huangzi, it is amazing! It is not worth mentioning this personally to come to the first universe!" "

It was determined that the small private warship that turned into a purple rainbow and the speed was amazing was the Emperor Xuanzi, and this warship was clearly determined by his own refining, only after the fact that the starry epic grade was reached today, on Naples. It will be even more exciting.

When even the order was issued: "The whole fleet immediately followed up, and immediately connected the communication system of the purple warship, indicating our identity to the Emperor Xuan..."

"As for the escaped demon royal family fleet, I don't need to pay attention to it for the time being. It is imperative to join the Emperor Xuanzi!"

The order was quickly conveyed, and the eleven space bastions of the entire elite elite fleet were all started at full speed, chasing the past toward a purple-red hole.

Since the last fusion was completed and the starry epic level has been reached in terms of quality, the speed of the hole shuttle is indeed amazing. After all the kinetic energy is devoted to speed, even the 10,000-meter-diameter fortress Can't compete with it.

It can even reach the full speed of the 20,000-meter-diameter giant fortress.

In this case, it is the demon royal fleet of Chanas. It is really impossible for all the members to bite behind the hole. At most, the flagship demon can not be lost.

The eleven fortresses of this elite elite fleet are all mega-fortresses with a diameter of 20,000 meters or more, and even a small fortress of 50,000 meters.

In the face of this kind of pursuit, it is a hole in the shuttle, and there is no way to get rid of it.

The eleven Terran fortresses were always tightly bitten behind the hole, and the contact information from the flagship Harvester was also received by the hole in the first time.

The other party's meaning is very simple and clear, indicating the identity and the purpose of entering the first universe of the devil's star field, asking Xuan Huangzi to go back with them, as a trial prince of the immortal dynasty of the Terran technology camp, and now at the whole The voices of the Terran and even the Federation of the Vultures are so high, and the Emperor Xuan is no longer suitable to stay here again.

In this message, Naples also showed the identity of his immortal army general, and at the same time conveyed the instructions of the imperial emperor's high-level emperor: Xuan Huangzi's ultimate trial, successfully completed, ordered, immediately returned to the royal family, accept the dynasty arrangement!

This clearly means that we must entrust a heavy responsibility and vigorously cultivate the rhythm.

The prestige of the Emperor Xuanzi in the entire Terran and the Federation of Wanluo, together with this not only completed the ultimate trial of the royal family, and even achieved such impressive results, once he returned to the immortal dynasty of the Terran, almost doomed Will fly to the top.

From then on, it is no longer an obscure descendant of the royal family, but will be the one who has become one of the few immortal dynasty dynasties who have come to the forefront.

It is officially embarked on the glorious road of vying for the heirs of the dynasty!

However, all of this, in Ye Xuan's case, has one of the biggest flaws, that is, he is not the real Xuan prince at all, although knowing that following this elite elite fleet back, there must be a promising future, but that belongs to Xuan Huangzi's, and Ye Xuan, have nothing to do with.

Even once he really followed Naples back, the result would be extremely bad. It was a big crime to pretend to be a prince, and Ye Xuan could not afford it.

Listening to this tone of the Admiral Napoli, it seems that he has already identified Ye Xuan's identity, and he is determined to bring him back to the immortal dynasty.

And Ye Xuan's Dong Xuan Shuttle couldn't get rid of the other side for a time. As a result, if a dead knot has been formed, Ye Xuan has no choice but to find a way to let the other party take the initiative.

The best way to let the other party give up is to deny the identity of the Emperor. In this way, the other party will naturally not chase it anymore.

In light of this, Ye Xuan even sent a response message to the Fortress, and, because of the rush, he sent even a few voice messages.

The content is also very simple: Lao Tzu is not a prince, the old son is the new son of the black mosquito Mosquito Zhang Wuji, you admit the wrong person, don't chase it again?

Under normal circumstances, after such a response is issued, the Terran Fleet will obviously not chase it again, because the Emperor Xuan has no need to deny his identity.

But what Ye Xuan didn't expect was that in the top command cabin of the Fortress, there was a presence that could hear his voice, and that was Xuanyuan Ziyan.

At this moment, with Ye Xuan's voice message appearing in the command cabin, Xuanyuan Zijing even exclaimed: "Ye Big Brother, it really is his voice! But... why does he deny his identity, actually claiming to be a devil? The tribe's Son?"

Upon hearing this, the Naples on the side was sluggish for a moment, and then the face was weird, muttering to himself: "How did he do it?"

Chapter 3016: Stunning means

"He...how did it do it?"

As he muttered in his mouth, the face of General Napoli was more and more eccentric: "Since it is really him, then... has become the Son of the Devil's Tribe? It seems that he is purposeful. So it is inconvenient to admit it, but it is too ridiculous. A human being has become the Son of the Devil?"

As the Admiral Napoleon whispered to himself, the military think tanks of the hundreds of immortal regiments around him all looked at each other and their faces became extremely strange.

Among the demonics, there are indeed spies of the Terran, but these spies are all the demons that are bought, not the human beings.

Although the devil and the human being have the same shape, and because the devil's spiritual strength can block the exploration of human knowledge, it is extremely easy for the devil to mix into the human race. If you do not carefully examine it, you can't easily see it.

But it is almost impossible for human beings to get into the demonic group.

Without the spiritual source of the devil, there is no spiritual power unique to the devil. In this case, any human power can be distinguished almost immediately as soon as it enters the group of devils, like the firefly in the night. Generally, it is so eye-catching.

It can be said that before the Emperor Xuanzi, there have never been any human powerhouses who can successfully enter the devil's group, let alone climb to the high position of the saint in one of the ten devils.

This is the same status as the tribe's ten-star leader. Among the top ten tribes of the devil, it is second only to the tribal leader and the high priest.

In the face of Ye Xuan's unexpected response, at this moment, all the immortal corps think tank staff present at the scene had no idea. After some shock, the sights all gathered toward the Admiral Napoli, waiting for his next instruction.

This is also true of Xuanyuan Zijing. Although she has confirmed the identity of Ye Xuan, the other party has made such a response, then there must be his reason. In the face of all this, Xuanyuan Ziyang has no idea.

"Follow it first, and occasionally carry out a fake bombardment. Since the Emperor Xuan has a new identity in the Devil's group, then before we can figure out his purpose, we must at least guarantee that it will not attract the devil's suspicion..."

With a sigh, when General Naples came to this place, he suddenly thought of something. The words then went on and said: "In addition, all the stars of the Star Network technology teamed up immediately

to try to connect the Devil's Star Network. See if you can connect and invade. If you succeed, immediately download all the information and information about the black mosquitoes, and remember that the premise is that you must ensure that nothing is lost and you can't leave any traces. Otherwise, the devil will Suspicion, at that time, Xuan Huangzi's plan will be affected!"

The order was quickly implemented, and the eleven space bastions were still chasing afterwards, and from time to time there was an energy beam that annihilated the scorpion guns, which was shot from the ten giant bastions of 20,000 meters in diameter.

However, all of them were dangerously and dangerously passing by the cave shuttle body, and did not really cause any harm to them.

The information required by the Admiral of Naples to be related to the black mosquito Mosquito Zhang Wuji was also quickly arrived. At this moment, the information has been publicly screened in the top-level command module of the Fortress. The sight of the moment, all at the moment, looked at the giant holographic stereo screen over the center of the command cabin.

What is displayed on the screen is the bust of Ye Xuan, as well as information on strength and some simple experiences.

When I saw the bust, Xuanyuan Ziyang immediately smirked with a smile, full of bright sunshine, muttering: "Ye Big Brother, it really is you, how can the purple scorpion admit the wrong battleship, hear you wrong What about the voice?"

This is obviously waiting for the final determination.

Hearing this sentence, both the Admiral of Naples and the other immortal corps think tanks around him, all sighed with relief, and the last string of the original heart was completely loosened.

At least, the identity of Xuan Huangzi is certain, at least, Xuan Huangzi is still safe, free...

Since the development of the human race, the descendants of the big family or the royal family, as in the period of feudal backwardness, have been arrogant and arrogant, and the situation of their desire has long since disappeared.

The more the descendants of the royal family, the more generally they are low-key. If they want to go to the front desk, be recognized by the public, and be recognized by the royal family, then the more they need to go through it, the more they need to go through it. To prove their ability to be qualified to appear in the royal family.

Take the immortal dynasty as an example. There are many descendants of the royal family, and there are many shackles. In fact, in the dynasty, the princes known to the public are actually only a few. All of them have been tested before. The existence of one's own ability.

A few of them were allowed to go to the front desk by the royal family, and they officially launched competition for the succession of the throne.

And this one does not include Xuan Huangzi, at least not before.

Therefore, for the appearance of the Emperor Xuanzi, it is said that other people, even the Admiral Napoli does not know, he has never seen Xuan Huangzi, even if he is also the emperor star.

What's more, the immortal dynasty's emperor went out to carry out the ultimate trial, and it will change the original appearance. For the strong people in the background of the stars, this is really not too difficult.

It was the real Emperor Xuan, who was still trapped in the bottom of the Black Wind, and he was always showing what he was.

But at this moment, with the bust of Ye Xuan being collected as intelligence, and soon brought back to the Terran by the Little Fortress, the image of the famous Emperor Xuan, who has long been known throughout the Terran, has been frozen. It is.

Fear that Ye Xuan himself could not have imagined that he would, at this moment, represent the real Emperor Xuan, becoming the entire Terran or even the entire Wanluo Federation, the prince of countless citizens.

This misunderstanding has gradually become a reality, and it is moving towards a path that no one can imagine.

In addition to the bust, on the big screen, it is also listed that Ye Xuan has gained great gains when he first entered the Forbidden City forbidden land. He even got a spiritual power inheritance and became the second among the top ten sons of the Devils. There is news of everything and so on.

All this, let Naples and others stunned.

As a human being, it is enough to be able to successfully merge into the demon people's group. This Xuan prince is good, not only has not been low-key, but also mixed with the wind, high-profile.

This kind of means is simply amazing!

After a long time, Naples shook his head and smiled: "Even the royals who have allowed the royal family to go to the front desk for open competition, there seems to be no such awesome means and high-profile behavior. It seems that The battle for the throne of the immortal dynasty will soon be overwhelmed..."

Chapter 3017: Slave and hundreds of people

With the general experience of Ye Xuan entering the Devil's Star Field, all the characters appeared on the big screen, and all the Terran immortal regiments in the top command post of the Fortress of the Fortress were in the eyes. The entire command hall was very It was soon smashed, and everyone whispered and whispered. From time to time, there was a sound of coolness.

The elites of these immortal regiments are naturally well aware of the emperors who were allowed to enter the front desk to carry out the dispute over the succession of the throne.

However, according to their understanding, the emperors and the prince of the prince are inferior, but the difference is really not a little bit.

There is no need to say about the prestige. Today, the Emperor Xuanzi has made a name for himself in the entire Federation of the Vulcan. Like the idol, I don't know how many fans have won the loyal support.

In addition, when it comes to federal contributions, Xuan Huangzi has already rushed into the list, and the few emperors are still struggling.

What's more, after Xuan Huangzi entered the Devil's Star Field, he feared that as soon as he returned, his ranking would rise again in an instant, and maybe it would be possible to rush into the Sky List.

In addition, the Emperor Xuan is daring and careful, not only has the courage to enter the Devil's Star Field, but also mixed up so much, this is not only a courage to do it, no deep wisdom and delicate calculations, fundamentally impossible.

Combine all this, enough to see the stunning of the Emperor Xuan.

If he is allowed to return to the Terran and return to the immortal dynasty, then the few emperors who have been allowed to go to the front desk are afraid that they will still fight.

That is to say, if there is no accident, the emperor's right to inherit the emperor's throne, fearing that it will fall into the hands of Xuan's son!

At the thought of this possibility, all the think tank staff suddenly became excited and excited.

If the Emperor Xuanzi won the right to inherit the throne of the immortal dynasty, then they used to be the top of the immortal regiment who had helped the first cosmic demonics to help, when they were most in need of assistance. Look, it is considered a good relationship with Xuan Huangzi.

Once the Emperor Xuanzi succeeds Dabao, they will certainly be important, at least, they will have more capital than other legislators.

All of this made all the people feel a little bit sloppy, even the Admiral Napoleon.

He can't ignore this.

Throughout the immortal dynasty, there were dozens of people, including one of the most, one of the top two, twenty-eight of the two stars, twelve of the four generals, four of the four stars, and five of them. Will be eight stars.

But the marshal, but only one!

Naples is nothing more than a Samsung general.

All said that soldiers who do not want to become generals are not a good soldier.

Similarly, the general who does not want to be a marshal is not a good general.

And Naples is now only Samsung Admiral. If he wants to become a Marshal, he must first go to the four stars, five stars, and then have the opportunity to climb the supreme position of the immortal army!

This opportunity, only once during the reign of each new emperor.

A new emperor, within his term of office, it is impossible to appoint two marshals in succession. After all, if you want to be the marshal of the immortal army, personal cultivation is also a requirement, so the immortal army's unskilled almost all It is the kind of supreme power, and the possibility of corruption does not exist at all.

The only possibility for them to dismantle the position of the marshal is to accompany the emperor, so that in order to give the stage to the new emperor, he has the opportunity to cultivate his own strength and to appoint a new marshal, so the old marshal, He also retired as the emperor stepped down, and sat behind the town, becoming a member of the veteran regiment of the immortal army.

Therefore, almost every four-star and five-star admiral in the dynasty will secretly observe the princes who have been allowed by the dynasty to go to the front to compete for the throne, and pick a support object from them.

As a general of Samsung, there is basically no such thought. They have to go the way, longer, and think about it now, a little far away.

But nowadays, with the birth of the Emperor Xuanzi, especially his ability is so amazing, Naples, which was not considered too much in this matter, is not alive and active.

The same heart is eager to move, and there are more than a hundred confident think tanks gathered around him. At this moment, all of them are a little bit sullen, and their sights are coming to Naples, and they all speak out...

"General, what do we do?"

"Xuan Huangzi's method is amazing. The reason why he climbed all the way to the top of the Devil's group, he must have a big plan."

"Unfortunately, our accident has already had an impact on him. The top of the devil is not a fool. If you think about it, you will be suspicious of Xuan Huangzi."

"Yeah, Xuan Huangzi is not suitable for staying here again, even if his plan is shocking, and even the possibility of success, but now... it is also a good thing that we have inadvertently broken the Xuan Zizi. Looking back, I will personally sin, but now, everything must be based on the safety of the prince."

"General, order it, the emperor is stubborn, but we can't let him stubborn. After all, if something goes wrong, this is definitely a big loss for the dynasty. With the amazing means of Xuan Huangzi, even if this plan fails, he can fly like the sky! "

.....

With the spread of these words, Lieutenant General Naples suddenly fell into sinking.

The same is true of what he thinks at the moment.

Undoubtedly, the arrival of the Terran Fleet has indeed brought trouble and influence to Xuan Huangzi. This is unexpectedly unexpected. It can only be regarded as unintentional loss. You don't have to worry about what is the punishment. Xuan Huangzi So amazing, it is impossible to account for these.

In fact, even if they don't come, the suspicion of the devil's group may not necessarily fall on the body of the Emperor Xuan.

But all this is not important now.

The most crucial point at the moment is whether the next step is to retreat, or continue to chase the Emperor Xuan, to find ways to bring him back to the first universe, even if it is forcible!

After some thoughts, the general of Naples finally made a decision to bite his teeth. In the middle of the sink, he immediately issued a command: "I will follow up immediately. Even if it is forced, I must bring the Emperor Xuan to the first universe!"

"In addition, Xuanyuantou, he may not know that you have come, indicating the identity, persuade two sentences, and directly use voice to communicate..."

Aside, Xuanyuan Zijing just nodded, and a few think tanks not far away were eclipsed, and the voice was exclaimed.

"not good!"

"General, the slaves of the first universe, the servants of the Baizu fleet, arrived, and all of them arrived in all directions. The situation we faced was instantly worsened..."

Upon hearing these words, the face of Xuanyuan Ziyang changed immediately, a sense of crisis that has never been seen before, hit the heart!

Chapter 3018: Chaotic black mosquito

In the first universe, although the Tianji nationality is a well-deserved hegemon, there are not many people of the Tianji nationality. After all, the so-called Tianji nationality is all true intelligent robots who have born self-consciousness, and far from the ordinary meaning. Kind of intelligent robot.

The birth of every intelligent robot requires a certain chance and probability.

Of course, this is not to say that the number of robots of the Tianji nationality is scarce. In fact, although there are not many intelligent robots who have truly produced self-consciousness in the Tianji nationality, they are semi-intelligent robots or purely intelligent robots. The number is still very large, but they are still not really a true ethnic group.

In addition to this semi-smart robotic army, in the first universe, there are more slaves under the celestial family, including the devil's group, which also belong to a servant race attached to the celestial family.

Among these servant races, it is not necessarily true that they are sincerely attached to the celestial family and are willing to be enslaved by them. Many servant races are limited by the general trend and reluctantly give in.

For example, the devil's group is one of them. From the attitude of the emperor Mo Wentian and Mo Qigong and other caves, the supreme existence of the heavenly family can be seen, they are not willing to be enslaved.

There are still many such servant races. Of course, there are still some who are willing to be enslaved by the celestial beings. They must distinguish all of them. Only when they are in close contact with them, they will not be seen at all.

And with the first universe of the Tianzu people issued this time, in the entire first universe, all the servants and hunters, whether or not they really surrender to the celestial family, at least on the surface, must make a certain posture, come Respond to the first cosmic wanted order.

Therefore, all ethnic groups, more or less, have sent some powers of search and arrest, which is plain, that is, the fleet.

The slaves and servants of the first universe have various forms and forms of life, and the group of demons with the same shape as human beings is actually the most normal, most like the human and mechanical.

Here is a point that must be explained, that is, the shape of the mechanical family, although their essence is a self-conscious robot, but in appearance, all the mechanical people are actually the same as the human race, including the leader of the heavenly family. Inside.

After all, when Emperor Yi was first created by the pioneer of human science and technology, it was a high-level intelligent robot. This kind of advanced robot, in appearance, could not be the kind of steel body, the body used. The material has already been biochemically developed.

Today's mechanical families, the materials used in their bodies, and even the treasures of some refiners, can be self-evolving, but in appearance, almost all mechanical people are the same as humans.

In addition to the devil, the other slaves and servants of the First Universe have different forms and what they have.

More common are orcs, half-orcs, zergs, etc., and more strange, and even some energy forms of life, strange.

These servants of the celestial family have the same battleships in their hands.

Perhaps some of them are inherently suitable to act naked in the universe, such as some energy life, some crystal life, etc., but after touching the battleship, they also fell in love with the crystallization of this human and technological wisdom.

The prosperity of science and technology and the birth of warships naturally have their own reasons. The existence of all things makes sense. The three major universes of warships can be so popular. Even among the Terran camps, there are many monks and warships. As a blueprint, refining all kinds of strange and different magic weapons, we can see its great significance.

After all, once you have a super battleship like the Little Fortress, even if you are only a meteor, you can quickly cross the universe, without fear of the pursuit of the strongest, or even the other side. Killing, this, in addition to the Terran warships, is the magic weapon of the cultivation camp, can not do.

High-level magic weapons, in order to sacrifice, must have a certain strength.

Only then can you see the advantages of the warship.

The warships of the first cosmic servants and hundreds of tribes were all given by the Heavenly Machines. At this moment, from all sides of this black mosquito star field, over 100 large and small fleets have arrived.

The slaves and the sects are just a general statement. In fact, in the first universe, the various ethnic groups attached to the celestial family are more than one hundred.

Among the hundreds of fleets, there are a few of the more than ten three-kilometer captains of the star-rated warships. This is clearly to be done and deal with it.

Some are more than a dozen 10,000-meter-diameter bastions. This kind of team must be the loyal slave of the celestial family. With such a large battle, this is the true heart to help the search for the Terran Xuanzi.

With the arrival of the slave fleet of Baiye, the entire black mosquito star field was suddenly alive and confusing.

Some fleets are still in the distance, and some have discovered the elite fleet of the Terran. However, because there are no small fortresses of 50,000 meters in diameter in the hundreds of slave servants, at most, there are several fleets. One or two giant bastions with a diameter of 20,000 meters can be said that even though the elite fleet of the Terran has already fallen into the encirclement, the superiority of the combat power has not been lost.

There are hundreds of slave servants around, who dare to look far and not dare to rely too close.

But for this reason, the scene of the elite elite fleet chasing after a small purple private battleship was clearly seen by all the hundred-fleet fleets.

Even because these squadrons came, they no longer fled, and quietly returned, and Chanas, who came to the emptiness of the edge of the emptiness, saw this scene.

His face immediately became eccentric, and his mouth was muttering to himself: "It's strange, this is clearly the battleship of Zhang Wuji's kid. Why did the Terran fleet bite him?"

"Who is it, Zhang Wuji is the Xuan prince of the Terran?"

This bold guess made Chanas a big jump, but he quickly fell asleep and shook his head and threw the guess behind his head: "No, this is too ridiculous, how can a nobleman of the Terran have a magic The spiritual strength of human beings, but also the talent is so amazing, even have the sixth level of spiritual strength, if he is the Xuanhuangzi of the Terran, the geniuses of the devil's ethnic group, I am afraid that they can all go up and hang..."

This is the biggest bug, and Ye Xuan's biggest reliance. It is because of this that he is not worried about revealing his identity in the Magician.

Just like the current Chanas, even if I can't see the strange scene in front of me, but in the end, he still attributed the reason to the fact that most of the gray bones and the left Fengtai two are also in the battleship of Ye Xuan, the Terran fleet. The reason why I bite it is that I want to catch a tribe of the devil, used to force intelligence...

Chapter 3019: Second-order satellite

Unfortunately, Naples is not a demon, so he does not have the pride of the devil in the level of spiritual power, and it is impossible to produce inertial thinking like Chanas.

In fact, even if he thought of this, Naples would not let go again. Things have already reached this point. He must bring the Emperor Xuan to the third universe anyway.

Otherwise, if the prince of Xuanxuan encounters any dangers here afterwards, some accidents have occurred, and he is hard to redeem.

They have already found the Emperor Xuan, but they don't bring it back. In the end, the Emperor Xuan's fallen into the first universe... This kind of thing, Naples can't afford it, the responsibility is too great, and there are countless fans of the entire Emperor of Wanluo. , will condemn him.

That kind of scene, Naples thinks that the back is cold.

Therefore, even though the slaves and squadrons of the first universe have arrived, the entire elite elite fleet has been biting the leaves of Ye Xuan under his command, and has never relaxed, even because of the opening. Horsepower, the distance between the two has begun to slowly shrink!

"The fleet on the right seems to be too close. Is it because we have seen us blasting to the Emperor Xuan, and we have never hit it. Is this a rhythm that doubts that our Terran fleet is not ready?"

Perhaps it was because all the way has been chasing for so long, but the entire Terran fleet has always been run around like Xuan Huangzi with no head flies. The fire of Nebrais's heart has also come out. At this time, his face has been thoroughly Gloomy.

He naturally did not dare to ignite the Xuan prince, but there is no lack of deflated barrels around the left and right sides, and the slave servant he selected is only unlucky, the distance is a little closer, and it is just in front of the right side of the void, bombardment The best angle position.

The next words, Admiral Napoli, did not continue to say more, and if the staff of the confidant thinkers who followed him could not hear this, then they could basically be laid off.

Soon, the energy light column of the annihilation of the comet gun with a diameter of five kilometers and five meters, and the energy light column of a super annihilator with a diameter of 20,000 meters, ignited almost simultaneously.

This time, the small fortress of the felling sky also opened fire, because the fleet in front of the void on the right side has 17 or eight warships and space fortress.

At this moment, with the volley of the entire Terran fleet, the seventeen and eight warships and the space bastion were almost at the same time, and they suddenly exploded in the void without any suspense, turning into a huge fireball, and then Thoroughly burned out, the fly was gone.

Only the energy light column of the 20,000-meter-diameter super annihilation cannon that was shot from the small fortress of the felling sky solved the two 10,000-meter-diameter large fortress and four three-kilometer-diameter star-rated battleships at one time.

As if it was ruined, there is no suspense.

A small fortress, in this chaotic black mosquito field, can sweep everything.

Don't look at the slaves of the first universe, almost all of the fleets, but as long as the fleet of the Celestials has not arrived, this elite fleet of only 11 space bastions is enough to slam, with despicable, completely fearless. Everything is there!

These seventeen and eight warships should come from a certain slave servant group, but at this moment, the blink of an eye was completely wiped out, and the hair did not leave one. As the blasted fire group gradually went out, it completely disappeared into the universe. In the void.

Such a scene is really chilling, and the strongest of all the first cosmic slaves in the fleet are clearly aware of such a small fortress of 50,000 meters in diameter and ten stars of 20,000 meters in diameter. The elite fleet of the Yu-level giant fort, how terrible it is for the power of a round of firing.

With such shock and stunnedness, the servants and hundreds of fleets that had already been in the air in the surrounding world had finally retreated some of them because of fear. However, they still followed the central position tightly in the distance. Chasing the escape of the virtual shuttle and the elite elite fleet.

At this moment, Ye Xuan in the hole in the shuttle, said that it is going crazy, it is not too much!

He is really crazy, and he is driving crazy by Naples!

If you don't know that the smashing guns of the caves are slammed into the solid hulls of the eleven Terran space bastions in the rear, it is estimated that they are like a mosquito licking a bit. It is not harmful to others. Ye Xuan is afraid of early. It was bombarded.

The two nephews of this group of people are really too arrogant. I have not said that it is not a **** prince. Isn't it so interesting to bite?

At this moment, he almost always determined that the commander of this Terran fleet must have a problem with his brain, or that his mental state is doubtful. Perhaps it is a paranoia.

Otherwise why?

At this time, in the communication system of Dongxuan Shuttle, Xuanyuan Ziyan passed the surprise and eager voice, letting Ye Xuan suddenly stay asleep, and finally realized in the brain, understand why the other side is so dead and bite. Let it go!

"Ye Big Brother, I am Zi Yan, don't you run? Napoli is going to be anxious. It is very dangerous. Let's go back with us and say that the fleet of the Celestials is about to arrive. At that time, we will be immortal. The superiority of the elite fleet will be lost, and the situation will instantly deteriorate to the extreme..."

"Ye Big Brother, have you heard it? Don't run, you..."

Listening to these familiar words, Ye Xuan is not good for the whole person, completely stunned!

No wonder!

It seems that I just used the voice to return a sentence, and the other party has already determined his identity. However, who can think of Xuanyuan Ziyan's **** is also in the Terran fleet?

Mistakes!

It's just too mistake!

Fortunately, the dozens of confidants of the ash and the left Fengtai have all been slain by themselves and become their own people. Otherwise, just the words that Xuanyuan's head shouted just now, they exposed themselves.

Of course, they were not afraid of being exposed in Ye Xuan's battleship.

And now the key issue is not this, but since the other party has already determined his identity, and one bite that he is the cockerel, then what should be done next?

It is really a headache!

Just as Ye Xuan was depressed, his familiar system sounds in his mind, but it sounded at this moment.

"Hey, congratulations to the host, the breakthrough of the realm! The current realm: satellite second-order!"

this is okay too?

Actually broke through again?

Ye Xuan was on the spot!

He has been running all the way, he is always trying to control the hole shuttle, the energy consumption is extremely huge, in order to maintain the best state, Ye Xuan had to throw a large number of star nuclear source to the phagocytic system, as its own complement, among which There is even a nine-level nine-color star-class legendary star.

Presumably, that is the violent amount of the nucleus of the star, so that he once again unexpectedly broke through at this moment...

Chapter 3020: Ten Jedi

After figuring out the reason, Ye Xuan couldn't help but shake his head and smile. Although the unexpected breakthrough is a good thing, the situation in front of him is so complicated. The tail biting behind him does not fall off. He is afraid that he can't relax anyway, and he can't feel happy. As a mountain is pressed on top, it is extremely heavy.

"Ye Big Brother, can you hear it?"

"Ye Big Brother, don't run..."

"Can you tell me the green radish?"

"Ye Big Brother, isn't it a bad thing for you to do green radish, guilty? Or I know you are still running..."

In the communication system, Xuanyuan Ziyang's shouting voices have been continuing. Not only did Ye Xuan listen to a real cut, but even at this moment, Zuofengtai and Greyhedler in the top control hall of Dongxu Shuttle and the number of them Ten confidants, as well as wretched mosquitoes and so on, have also heard a real deal.

Ye Xuan subconsciously glanced at the guys in a circle, it is now Xuanyuan Ziyang's shouting makes him a little dim, even if these guys are his magic slaves, Ye Xuan is not a bit embarrassed.

Fortunately, the dozens of Zuofengtai and Greyhedler's confidant devils have all the faces on their faces. Even if they hear these words, because the slave prints have already taken effect, their loyalty to Ye Xuan is always ranked. First place, so no associations will appear in the brain.

But the wretched mosquito-killing guy is clearly a bit wrong, and the eyeballs have been whispering, especially when I heard Xuanyuan Ziyang's words and asked if Ye Xuan did something about the green radish, so when the guilty ran, this guy was actually a thief. I sneered at the side and sneered.

Seeing Ye Xuan suddenly burst into a big fire, if not at this moment is not appropriate, it is necessary to pack him on the spot.

Obviously, this kind of performance alone can explain that there is a problem with the wretched mosquito, but it does not mean that the slaves planted in his mind have no effect, but this effect is different from other magic slaves. With amazement.

When these thoughts flashed in my mind, Ye Xuan couldn't help but see the faces of Zuo Fengtai and Gray Muller. What surprised him was that the faces of these two guys were distinct and strange.

Although not as obvious as the wretched mosquitoes, it is clearly the rhythm that has been influenced by the words of Xuanyuan Ziyang.

This is not right. Before the black mosquito star, the gray bones and the left Fengtai were good. The news of the blockbuster was heard by them. The reaction was the same as other magic slaves. The old well did not even, even Any excess associations will not appear.

But now, there is clearly a sign of development towards the wretched mosquito.

This discovery suddenly made Ye Xuan vigilant, and made up his mind to let the wretched mosquitoes and other magic slaves come into contact with each other. This guy is a poison, maybe it is really contagious!

These thoughts just flashed through my mind and were quickly abandoned by Ye Xuan. After all, it is not the time to consider them.

His attention returned to the predicament of the present.

After a little sinking, he raised his hand and turned off the communication system of the virtual shuttle. At this point, the shouting of Xuanyuan Ziyang finally disappeared completely.

Throughout the process, Ye Xuan never returned a word. He didn't think about how to answer it before. Later, when he heard about the green radish, he immediately became completely guilty.

It is not that he did not intend to give a confession to Xuanyuan Ziyang, but this occasion is really inappropriate.

I will have the opportunity to sin on the spot. I really want to say it. The death of the green radish, Ye Xuan, does have certain responsibilities!

It is a pity that it is obviously useless to just turn off the communication system. Since the Naval Admiral of Naples is now determined to be his own identity, then the situation has become more and more

troublesome. In the case of a large number of the first universe slaves and hundreds of powerful fleets who searched for the Emperor Xuanzi, it is absolutely impossible for him to let go.

In any case, you have to bring yourself back.

Ye Xuan is this, I don't need it, you have to take it for granted, what is the difference between this and *!

As soon as I read this, Ye Xuan's face suddenly became dark, and he shook his head and smiled: "Look at it, you have to go around and you have to find your own way. In any case, you must take this elite elite fleet off, otherwise, follow-up Everything can be completely ruined."

"I finally became the Son of the Devil, and the main star of the Black Mosquito is gone. I can finally run around in a proper way."

"Even even the two people in the gray bones and the left Fengtai are in the hole, if there is a need, then they will let go, saying that both of them are killed in the collapse of the black mosquito star. By then, this holy The son is the boss of the black mosquito, and temporarily serves as the three positions of the great commander, the high priest, and the saint."

"Oh, this way, like the other nine generals, the high priests, at least on the table, it is already equal."

"In this case, if you are looking for the source of devouring in the area of their nine, how convenient it is on the bright side!"

"This is a good situation, I want to give up now suddenly, how is it possible? How reconciled?"

"What's more, I am not really a royal prince. I really have to go back. Once I have exposed the stuffing, the trouble is even bigger... Even if I have to go back after finishing things, it can only be slipped back by myself! "

So self-speaking like this, Ye Xuan's heart has been completely determined. In any case, it is necessary to get rid of the elite elite fleet that is bitten behind him like a cowhide candy. Not so, this is really not going to happen!

However, the speed of the hole shuttle is less than the small fortress of the 50,000-meter-diameter human race behind it. This is a bad injury, and it can't be avoided anyway.

Of course, Ye Xuan can also re-integrate the hole shuttle, focusing on speed, or similar other capabilities.

But this is not going to happen now, it is a matter of the future.

At present, since the speed is not as good as the other side's hard wounds, then the only way to get rid of this elite elite fleet is to use the terrain.

As soon as I read this, Ye Xuan's brain flashed, and immediately remembered the top ten Jedi of the Devil's Star.

The so-called Ten Great Jedi refers to the magical star field and the ten extremely dangerous starry sky areas around it. For example, the life black hole is one of them. There, Ye Xuan has already been there, and the harvest is huge, and the whole body returns.

But if other existences enter it, it may not be the case.

It is a pity that the black hole of life is now too far away from this black mosquito field. As the human fleet is getting closer and closer, I am afraid that it has not yet arrived. Ye Xuan's hole shuttle has to be surrounded by them. .

Therefore, the black hole of life can only give up.

On the edge of the black mosquito star, in the starry sky that intersects with the star domain ruled by another demonic tribe, there is another ten major Jedi, which may be used by Ye Xuan to take advantage of it. The location of the elite fleet behind the people.
