

Super D. S 303

Chapter 303: How come?

"Fast, back!"

Zheng Shuohai hurriedly said that his figure quickly retreated.

The same is true of the Yangling City Lord not far away, leaving quickly.

But they are doing a big fuss, this is probably because the buttocks are sitting and they are standing up and activities.

"What happened? It has been sitting for so long. The first time I stood up, there should be something to happen."

Ye Xuan on the back of the Tengyun bird is also frowning.

He felt that there would be big things happening next, so he reminded Zheng Shuohai to let the Tengyun bird fly a little further.

Zheng Shuohai also felt that he was careful. After picking up the warriors of Dacheng, Dacheng, he retreated to 10,000 meters.

"Roar!"

The giants of Luyuan made another dull buzz.

Everyone is nervous, and sure enough, something big is going to happen.

"It won't be, will it break out again?"

Ye Xuan's eyes are bright, and every time the green giants erupt, there will be a lot of mysterious beasts coming out. This is all money.

But this time, he guessed wrong.

After the whispering of a few low-pitched cymbals, the Luyuan giant of Tiandan Dacheng began to tremble violently, and there was a tendency for volcanic eruptions.

"It may be erupting again, everyone will go on."

Ye Xuan reminded me.

On the ground, it is much safer than in the air. After all, this Tengyun bird is only entering the Tiandan environment. Ye Xuan still believes in his legs.

Everyone fell to the ground and then dispersed to avoid accidents when there were too many people at the critical time.

"boom!"

Sure enough, after everyone stood in the position, the giant giant of the green source outside the 10,000 meters suddenly exploded.

Yes, this time it was bursting open, and the body of more than 60 meters high cracked directly and then erupted.

"I rub, blew?"

Ye Xuan was eclipsed, and when he reacted, there were countless gravels that were hit by the sky. Even if they stand outside 10,000 meters, I am afraid they will be affected.

"Everyone is careful, pay attention to avoiding!"

Zheng Shuohai's face was gloomy and shouted loudly.

But at this time, Ye Xuan was an instant rushing out, rushing toward the Luyuan giant.

The Luyuan giant suddenly broke out. The reason may be indigestion. If it is eaten, then there may be residual lapis lazuli in its body. No longer, there is also a mysterious beast.

Therefore, Ye Xuan must rush to the place before the Yangling City Lord.

"Dali, I swallow!"

Ye Xuan directly exchanged a giant Dan of the Didan level, and the power suddenly doubled up and directly hit a meteorite in the sky.

But the next moment, he just stumbled.

The countless meteorites that flew out of the air actually began to disintegrate in the sky, and then fell into countless fist-sized burning stones, instantly igniting the entire forest.

Ye Xuan, who was running wildly, was accidentally hit by a stone. This stone was suddenly embedded in his body. The blue flame burned him.

"Hey!"

Ye Xuan came out of a body of Dan Yuan, and the stone was shaken.

"Mom, the power is so big!"

He didn't dare to let go, but if the stone hit his head, it would be headshot.

At the moment, he is to unravel the Eight-Dangerous Sword and directly display the Eight Winds.

Eight sharp-edged swords began to madly smash and smash the stones burning with blue flames, opening up a safe area with a radius of ten meters.

However, the eight wild winds killing is huge, even if it is the peak of Ye Xuan, it can only last for five seconds, so he can only rush while consuming a little bit of phagocytosis.

He estimated that the big bang must have brought huge obstacles to other people. Even if it is the city of Yangling City, which is a big day in Tiandan, it may take some time to arrive.

Half a minute later, Ye Xuan was finally about to arrive at the position where the giant green giant was in the position, but before him, he sensed that someone had arrived first.

"Damn, it must be the owner of the city of Yangling, who was led!"

Ye Xuan roared, and it took him two or three seconds before he could get there.

If he dares to drill out of the forest, then the city of Yangling City may fear to attack him directly.

In the case of Xiaodan in the Didan, Ye Xuan was able to kill the strongman who first entered the Tiandan situation. Now he has broken through to Dadan, and it is not a problem to kill the general Tiandan.

However, this Yangling city owner is a great success in Tiandan. If it is hard-headed, he will definitely lose in ten rounds.

Just when Ye Xuan was hesitating to go out, he only heard the Yangling City owner shouting: "How come?"

No?

What is it?

Is it lapis lazuli, or is it a mysterious beast?

Ye Xuan looked strangely close and found that the Yangling City owner swam around, like a mad dog.

High-level treasures such as lapis lazuli and mysterious benevolent will exude aura, and most people can come up with it.

And Ye Xuan also has a high-level treasure hunt deer blood, which is very strong in the sense of Tiancai.

"What happened? There was no reaction in that area. Was it the lapis lazuli and the mysterious beast, and it was also sprayed out?"

Ye Xuan frowned, turned away and began to wander around the burning forest.

He didn't have much hope. After all, the death of the giant of the green source was enormous, and the tens of thousands of meters were smashed. For the average person, it was impossible to walk, and even he could barely walk through.

"If you let me find lapis lazuli, I am afraid I can break through to the heavens. By then, the whole Zhongzhou will follow me!"

In the heart of Ye Xuan's heart, he runs all the way. Although the blood of his treasure hunt is not large, it is also about a kilometer.

Like the mysterious inner dragon, celestite, he can capture it instantly.

Half a minute passed, and he found nothing. At the same time, the trees around him were burned to ashes by the flame of blue, and the horizon began to broaden.

at this time.

"Ok?"

Ye Xuan's flash of light flashed, his blood of the treasure hunt deer finally reacted, and the reaction was very strong!

"Twelve o'clock direction, kilometers!"

He ran wildly, and he only needed two to three seconds for the distance of kilometers.

Two hundred meters!

One hundred meters!

Sixty meters!

Twenty meters!

Ten meters!

Two seconds later, Ye Xuan finally saw the treasure, a green stone.

Celestite!

Baby fist size lapis lazuli!

"Haha!"

Ye Xuan couldn't help but laugh aloud and rushed straight to collect the piece of lapis lazuli, and then silently read:

"Devouring!"

However, what surprised him was that the system sounded a sound that was unexpected.

"Oh, devour defeat!"

"What, swallowed failed?"

Ye Xuan's whole person stunned, why can't he swallow lapis lazuli?

It's hard to be done, is it not enough?
