

## Super D. S 3031

### Chapter 3031: Leihai Fortress

The first Leiyuanzhu's condensing took a full three days, but it was because Ye Xuan first condensed, slightly oysters, according to his estimation, the follow-up nine, because Ye Xuan Yue The more mature you are, the more time you will need to condense, and it will surely be shortened!

The fact is also true. The time spent on the next nine Lei Yuanzhu and Ye Xuan's successful condensing is indeed shorter than once. When the last one is completed, it will be completed in less than two days.

A total of ten Leiyuan beads were completed, only took more than two months, three months of system exploration time limit, one week left!

When the last Leiyuan bead was successfully condensed and was collected by Lei Di, Ya Xuan's mind finally sounded the familiar system sound of the phagocytic system...

"Hey, congratulations to the Lord! The mission of making Leiyuan exploration is completed, the title is upgraded! The current title: Interstellar Explorer!"

"Hey, congratulations to the host! Interstellar explorer with the ability to activate! Do you immediately start the interstellar coordinate jump?"

With the two systems prompting to sound, Ye Xuan only felt that the whole person was physically and mentally comfortable, and the light fluttering almost flew up...

I finally completed this system exploration mission.

The system title finally reached the third-level interstellar explorer.

Finally, I have the ability to expand the interstellar coordinates.

That is to say, now Ye Xuan, even if he meets the supremacy of the tenth boundary of the realm of heaven, he has no fear, and between one turn, he can start the interstellar coordinate jump and instantly enter the black hole of life.

And there is not only Ye Xuan's secret escape place, but also his territory. There are countless star-shaped scoops stationed there, and there is a supreme presence of a cave, and Ye Xuan can also direct the star-studded army to crush it. !

For a time, Ye Xuan was in a good mood, and the whole person had a feeling of exulting.

From this moment, in this magical star field, he finally has no need to be careful everywhere, and he is forbearing everywhere.

Even in the face of crisis, he does not dare to say that he has to reinvent the enemy without using the \*\*\*\* corner and the headless baby. At least, the power of self-protection is there!

During the meditation, the original Emperor Yin, which was suspended from the top of Ye Xuan, was hidden in Ye Xuan's body in an instant, and returned to his knowledge of the sea, suspended in the center of the sea.

Because there are ten more Leiyuan beads in it, even Ye Xuan clearly feels the difference between Lei Diyin and the previous ones, and with the return of Lei Diyin, the spiritual source hanging around him and the sea. The four treasures and crystals, such as the nuclear, are clearly quieter.

There is a feeling of being shocked.

Even Ye Xuan's left chest turned into a headless baby corpse with a headless corpse tattoo. At this moment, it seems to be slightly faint.

But it's just a slight move.

This feeling is like having the ten Leiyuan beads as the foundation. This Leidi Yin finally has the qualification to let the headless baby corpse glance at it!

This is Ye Xuan's intuition, but he is convinced that the headless baby body is too mysterious and powerful!

However, although Lei Diyin has in the body, but Ye Xuan's body surface, the thickness of the three-inch-thickness of the green mist, still exists, this layer of green mist from the Lei Diyin, and today's Lei Diyin There are more than ten Raytheon beads of power and horror inside, and Diwei has risen greatly. This point is directly reflected in Ye Xuan's body.

Previously, in the depths of this starry sky, the thunderstorms of the starry sky, the power of a lot of Qinglei and Jindian, only close to it, unlike the existence of the same kind of external, will be retreat because of terror.

But now, with the increase in the power of Lei Diyin, perhaps some of the factors that have previously consumed countless Qinglei and Jindian into ten Leiyuan beads have directly led to this starry sky. In the deep hinterland of Leifen, a lot of power is far better than the surrounding Qinglei and Jindian. In the face of the Thunder Deviation from the body of Ye Xuan, it also shows the kind of fear and far. A scene of far back.

At this moment, Ye Xuan stood with his hands on his back, but his body was within ten feet, but there was no green thunder. There was no gold power, and the invisible rich emperor radiated, and the whole piece of innocent thunder was released. There is no momentum in the moment!

With the completion of this system exploration mission, after Ye Xuan had a surprise, the mood quickly subsided.

He began to think about the next move.

According to his wishes, it is clear that he continues to condense Leiyuanzhu.

On the one hand, this starry sky is here, and it will not run away. When the time is right, or when it is boring, you can come over at any time, and you are not in a hurry.

What's more, he has been condensing here for more than two months, and it is really a bit greasy. Therefore, Ye Xuan is not particularly inclined to continue to spend it here, and still carry out the refinement of Lei Yuanzhu.

On the other hand, for the safety of the elite elite fleet, he was always worried about it. Although it was supposed that they should have escaped, if he did not get the exact news, his heart was always unstable.

What's more, the black mosquito star collapsed for nearly three months. As a saint, he is not convenient for too long. Otherwise, in the case where there is no high-rise in the whole black mosquito, in case the magic star A large commander, a high priest, or a saint is coming over to control the overall situation.

Then, at that time, Ye Xuan wants to be in the position of the Son, and even serves as the general commander and the high priest. He is also the identity of the three major tribes of the tribe. He is swaying and swindling, and he is justifiably looking for a plan to devour the source. It is.

With all of this in mind, for him, it is indeed time to leave the Starry Thunder and go out for a lap and reveal a face.

After the decision, Ye Xuan's body shape shook, and from the depths of this starry sky, the graveyard rushed to the peripheral area.

After a short while, when he had just arrived in the outer area of the Starry Thunder, he met a starry fortress that had just rushed into the Leifen.

It is the butterfly!

It is also said that the road is narrow. In the past three months, the Huadian has only entered the Starry Thunder grave four times. It was only three times before, and now it is the fourth time.

Each time, it stayed in the Leifen star field for a day, searching for a forty-five degree fan-shaped corner area around Leifen.

Originally, the last time I entered, I was able to search all the outer parts of the Leifen area. If I did not find the figure of the purple warship, the butterfly would leave after one day and return to the Tianzu.

But at this critical juncture, the two actually ran into the face.

And this time, not only did Ye Xuan see the Huadie, but the high-level members of Shanbo and Yingtai, who are in the Butterfly, also saw Ye Xuan.

At this point, Ye Xuan was determined by intuition, so his face was completely gloomy.

For the sake of this, in addition to using the power of this Thunder Sea to trap the star of the planet family, he has no other choice.

The other party, saw his big secret...

Chapter 3032: Raytheon

The two sides ran into the head, and Ye Xuan was too late to prevent it from escaping or hiding.

The other star's huge starry fortress reflected in the same moment in his sight, Ye Xuan knew that he had already been exposed. If he was in the battleship at this time, the matter still had a little room for change, but Ye Xuan now it is only in the flesh and in the grave of the starry sky, and its shape is surrounded by even a green mine with no gold.

All fled with fear to the distance.

How shocked this scene, Ye Xuan refining the Lei Di Yin, and condensed over ten Lei Yuanzhu, after more understanding of the power of this starry sky grave, has long been more aware of it.

Undoubtedly, this scene is absolutely shocking to the celestial people in the starry sky fortress in front of them. They are unlikely to be seen as unseen, and they must go deeper.

By then, the situation will be extremely unfavorable to Ye Xuan.

Therefore, his killing, almost in the first moment has already stirred up.

If it is in other places, Ye Xuan's thoughts at the moment will definitely be other countermeasures, but since it is in this starry sky, he refines the Leidi seal, and all the green in this area. Ray and Jindian have a full range of control capabilities, then there is a possibility of killing each other, Ye Xuan can not go far.

It is the most direct and convenient way to dispose of the starry fortress of this celestial family.

Since it is possible, why not?

What's more, it is very likely that this will harvest a starry fortress of the Tianji family.

Ye Xuan has only two large fortresses and a small fortress of five kilometers in diameter. Not to mention the true starry sky fortress of 100,000 meters in diameter. He even has a small fortress of 50,000 meters in diameter or 20,000 meters in diameter. There are no stars in the Stars.

If you can harvest the starry fortress of this celestial family, his heritage will suddenly rise innumerable times.

With this thought rising in the heart, Ye Xuan is suddenly stunned, and the killing machine has sprouted!

At the same time, in the front of the star-studded fortress called the Butterfly, in the top command post, two high-level Shanbo and Yingtai of the Tianji family also opened their eyes at the same time.

Show it all in front of you, let them have a sense of dreams in a dream!

A demon person, a person who looks at his body and cultivated a breath, only the demon of the satellite, can walk in the grave of the starry sky.

What is even more bizarre is that people still carry their hands, just like walking in their own courtyard. It is very pleasant to go!

Within a hundred meters of his body shape, there was no Qing Lei and Jin Dian. It seemed that all of them were afraid of fear and they avoided it...

Even if this scene is seen at the moment, they are absolutely unbelievable, too embarrassing!

"How do I feel that there is an invisible emperor in this kid? It has nothing to do with everything else. It only works against these thunders and lightning. Is this the rhythm of the thunder of the world? How did he do it? This person Body... there is a big secret!"

"Xuan Huangzi? This identity is basically certain. The saint of a demon tribe, even if it is amazing, can not have such a terrible ability, but the emperor of the Terran immortal dynasty, if you can do this A little, but not surprising!"

"Giggle..."

"I seem to have smelled the breath of love. The empire of the Terran, such an identity, although it is weaker, can be worthy of me. Shan Bo, you will change your name later, since I am Yingtai, your name will make him misunderstand, the little guys generally prefer to eat flying vinegar..."

In the face of sluggishness, Shan Bo also said the sentence in front of him, but after a moment of smashing, Yingtai, who had his eyes blinking in an instant, excitedly said a few words in a row, but the content was so hurtful.

In an instant, Shan Bo's face was completely sagged.

In this moment, his shackles smashed the cold and sorrowful, and the heart had already given Ye Xuan a death verdict in advance!

Even if the means are different, it is a hard injury to repair too weak. In Shan Bo's opinion, as long as he takes a shot, he will erase the existence of the other party.

Nowadays, he obviously has not realized that in such a world with only endless thunder and lightning, the imperial power that commands the thunder of the world represents what is terrible!

But he soon learned it!

A green-gold print of only the size of a fist, floating from the top of Ye Xuan's head, the whole body is entwined with green thunder, and there are endless golden lightnings that are swallowing and exploding, pouring a blue brilliance. Ye Xuan's body is shrouded and changed.

At the same time, the invisible Thunder Devil, at this moment, was suddenly soaring and was rendered to the extreme.

"Booming..."

"Card!"

"Card!"

.....

As Lei Di Yin was sacrificed, and Wei Neng was fully motivated by Ye Xuan, this whole starry sky grave was like a riot, and it surged.

It is true that the entire starry sky is really vast, like a corner of a broad galaxy. It is a battleship to cross, it takes a certain amount of time.

However, this kind of Thunder Deviation ignored the distance. When it was released, it was the very long distance between Qinglei and Jindian. They immediately felt this powerful Diwei and responded.

At this moment, the entire vast starry sky and the graves seemed to be completely alive.

Numerous blue mines are rolling, and countless golden powers are tumbling, turning this entire vast area into a heaven and earth cage made up of thunder and lightning.

On the outer edge of the entire starry sky, a myriad of green thunder and lightning are densely packed together, leaving almost no gaps, forming a wide range of Thunder barriers, blocking any existing entry, while also blocking any existence. Leave.

All of this is all the will of Ye Xuan. It is necessary to trap the starry fortress of this celestial family. Or, the first thing to do is to cut off its escape route.

In the same way, all of this can only be done by him, and if he does not borrow and the power of Lei Diyin, Ye Xuan can't do it.

At the same moment that the Thunder barrier formed, Ye Xuan suddenly flashed a touch of aura, can you also brand an interstellar coordinate here?

After all, here, he is the supreme emperor. If he encounters a powerful enemy in the future, he can clearly bring the other party into the place and use the land to kill him.

Unfortunately, he is not sure about the system's interplanetary coordinate jumping ability. Can he drive other strong players besides Ye Xuan to jump together? Therefore, this thought can only be passed by, and soon it will be thrown by Ye Xuan. Got behind the head.

Go back and verify it, then make a decision.

Then, hanging in the top of Ye Xuan's head in the Lei Di Yin, a Lei Yuanzhu slowly emerged, this time, Ye Xuan intends to try the power of Lei Yuanzhu.

This is clearly the rhythm of a source of pearls, which is about to begin...

Chapter 3033: Source beads

"Booming..."

"Card!"

"Card!"

.....

With the formation of thunder barriers in the outer edge of the entire starry sky, in the interior, a large number of Qinglei and Jindian also launched a bombardment, sweeping over the Fortress Star Wars.

Although the Huadie had previously rushed into this starry sky, the same attack would be encountered by the Thunder, but the previous battle was completely different.

It is now clearly a kind of extreme bombardment under artificial control. The power has increased the number, so that it exceeds the speed of the anti-material black dead light produced by the dead light generator inside the butterfly.

The layer of black antimatter dead light shield outside the ship is rapidly weakening.

This is no longer a problem of huge energy consumption, but a problem that cannot be resisted at all. Soon after, when this layer of black antimatter dead light shield is completely offset, the hull of the butterfly will face these blues. The horror power of Ray and Gold, and the final end will be the destruction of the ship...

In the blink of an eye, the state of affairs evolved into this kind of seriousness of life. Whether it was Shanbo or Yingtai, it was suddenly awkward and there was a feeling of panic.

At present, the whole starry sky and graves have become cages. Escapes can't escape. Once they rush to the thunder barrier at the edge of the outer area of Leifen, they fear that the hull of the entire Star Fortress will explode.

The thunders there were too dense, gathered together, almost no gaps were seen, and the real barriers were completely formed.

In the inside of this cage, the attack of Qinglei and Jindian has also soared. In this way, once the butterfly's dead light shield is completely suppressed, they can only be like each other. It is directly exposed to this piece of grave in the flesh.

Although they are based on the supreme cultivation of their two people, even if the flesh is placed in this kind of thunder environment, in a short period of time, the same can be guaranteed, but the time is absolutely not long, but there is no way to escape, the final end Still a dead...

As soon as I read this, Shan Bo's face changed wildly, and his face could not help but show a remorse.

self-mumbling!

"Damn, how can it be so careless, it is trapped in this environment!"

"The other side is so weak, but in this piece of mine, it is almost invincible. All the thunders listen to their orders. This is the temperament of crushing our rhythm by the power of heaven and earth. It is too wrong!"

"If there is no such ability, he is a small satellite, in front of me, it's not even an ant..."

Speaking of this, Shan Bo seems to think of something suddenly, the fine mangling flashes in his face, and his face suddenly floats a touch of flushing, which is an expression of excitement and excitement.

Its sight, also locked in the Lei Di Yin suspended in the top of Ye Xuan.

"The reason why this son can be respected by the emperor in this starry sky grave is that the thunder is ordered by the world. It is obviously related to the green gold seal on the top of the head."

"That must be a source of treasure, and it is the origin of the property of Ray. Once this treasure is seized, then this starry sky will be the grave, and I will honor my life from then on. Can kill, it's not as good as an ant!"

"There has been no room for change, or it will be degraded, or take him Leiyuan to treasure, Yingtai, you stay behind the fortress, I will go there, a satellite ant ant only, can use this Fang Leifen \*\*\*\* What about the Thunder? The height of the realm of the realm is, after all, a hard injury..."

"Once I take the shot, I will take a Leiyuan to the treasure, and I will come!"

The more I come to my mouth, the more I feel that Shan Bo is so rational.

The most important thing is that now he has no other way to do this, so even if he is embarrassed, he can only speak like this and cheer himself up.

With the final step, the figure is also taken one step. It disappears in the top control cabin of the Star Fortress, and appears outside the hull. It surrounds a circle of mysterious brilliance and quickly faces the front. The thunder gathered around the crowd and spurred away.

In the face of all this, Yingtai, who stayed in the Star Fortress of Huadie, first stunned, and then smashed his head, slowly shook his head and sighed.

"That's good, anyway, there is no spark with you. Since the new Shanbo has already appeared, then this old, best ending is naturally annihilated..."

"This is why you are looking for death yourself, no wonder me!"

"In addition, if you can die in the hands of Johor Bahru, then it will just give the English and Taiwanese justified reasons to find his theory. This is the theory put into the high-level negotiating meeting of the Terran and the Celestials. Yingtai also accounts for The reason. You killed my Shanbo, since I can't pay it, then I have to be my new mountain!"

"Giggle..."

"If you say so, Laoshan Bo will be looking for death. This is the case, Yingtai is also a jade!"

It's really a bit of a sensation to say this in a cold voice, but the ruthless meaning of the words in the lines is called the whole body.

This is what is going to be the Yingtai of Shanbo Butterfly, which is clearly the poisonous mother-in-law of the husband!

At the same time, outside the hull of the butterfly.

As a supreme being of a mysterious light, Shan Bo does have the terror ability of being temporarily physically detained in this horrible thunder environment.

This can be done without the help of Raytheon's power, and the mysterious strength of the mysterious light can be seen!

At this moment, Shan Bo's body is surrounded by a mysterious mysterious light filled with mysterious atmosphere. The body is shaped into a fast-moving flow, and it quickly blasts the past toward Ye Xuan, and blinks across half the distance. I am afraid that there will be another suffocation, and I will be able to reach Ye Xuan.

Once he was close to him, it was obvious that Ye Xuan was only the fourth-order micro-end of the satellite, and it was obviously impossible to keep the Lei Di Yin.

Realizing this, Ye Xuan felt a sharp eyelid jump in a moment, and the huge sense of crisis was approaching. He didn't even think about it, even when he sent an attack command to the Lei Di, which was hanging overhead.

And very clear, directly use a Leiyuan beads.

"call out!"

"Booming..."

The faint and sharp sound of breaking the air suddenly sounded, and it was already spit out by Lei Di, and it was revolving around the body. The thundering source of the thunderbolt was instantly turned into a micro-invisible Tiny Jin Mang, rushing toward the swiftly rushing Shan Bo.

On the way, clearly, there was a burst of rushing sounds.

After all, it is Lei Yuanzhu, which represents the power of the Thunder. It is a normal thing to scream.

"boom!"

In the blink of an eye, this incomprehensible golden glory smashed into the face of the mountain, and the latter was in this environment. There were golden lightnings everywhere, so it was impossible to see the micro, so it was fundamental. I have never evaded.

The shocking explosion came out, and the canopy shrouded the mysterious light of Shanbo's figure, instantly annihilating...

Chapter 3034: reward

The mysterious light, the eleventh big realm under the background of the starry sky, the so-called mysterious light, is the sacred light that Shan Bo used to protect the body.

It is said that this kind of mysterious light is related to some kind of starry sky law. The supreme existence of the tenth largest boundary hole heaven and earth, after entering the cave to the ninth order, successfully condensed a faint light, can be regarded as a breakthrough to the first light .

In the entire territory of Xuanguang, the only thing a monk did was to make himself condense the mysterious light and continue to grow.

After reaching a certain level, the quantity changes lead to quality, in order to break through and enter the next big realm.

In this sense, this mysterious mysterious light is said to be the repair of the life of the mysterious light.

Xuanguang Ning, then life exists.

If the mysterious light collapses, then everything will disappear, and even if it doesn't, it will hit back.

In this desperate environment full of endless thunder, Xuanguang's defeat, the only result of returning to the original shape and retreating to the cave, is the fall!

"boom!"

A blast, a very monotonous explosion.

There is no endless stream, no subsequent echoes and turbulence, just a monotonous one.

Its power, but shocked the entire vast expanse of the starry sky, the grave, so that this star field is empty, seems to have cracked.

As the explosion came out, a fierce golden mangling was swiftly spread out like a tidal wave. The degree of violentness was that Ye Xuan, like the emperor in this starry sky, could not look directly at it. Subconsciously squinting at the eyes and sideways.

When he turned his head again, the golden tide that spread out was completely dissipated, and he was once again integrated into the thunderstorm of this starry sky, turning into the power of countless Qinglei and Jindian's evolution and constant interest.

And the top of the Tianji clan, who has a clear atmosphere and is far superior to the heavenly environment, has completely disappeared from his body shape, and Mao has not left one!

So powerful, I immediately saw Ye Xuan stunned.

Although he did not know that after the cave was a dark light, but just the horror that he had just felt from Shan Bo, he could be sure that the other side is definitely beyond the cave.

That is the eleventh major realm of cultivation.

But this Leiyuanzhu, is actually wiped out in an instant, does not leave one hair?

At the beginning of the \*\*\*\* corner of the soul, it was just a nine-star sculptor who crushed the heavens and the earth. Now, this Leiyuanzhu can even surpass the eleventh major realm of the cave world. Wipe it!

Even if it's just a one-time consumable, it's definitely a big deal.

More importantly, if you want to ask for a \*\*\*\* corner, Ye Xuan has to squat in advance with the headless baby, but now the remaining nine Leiyuanzhu, he has absolute complete control.

Who wants to blow up who will blow up, how do you want to blow up, how to fry, freely, how happy?

And don't worry about the \*\*\*\* corners that will expose some hidden situations, it is a must-have for home travel, killing people!

Only by this point, this time into this starry sky, the grave has already made a big profit.

Of course, the current crisis has obviously not been lifted. Although the top of a Tianji nationality has been killed, the 100,000-meter-diameter starry sky fortress in front of it still exists. If it is not solved, this matter will not be finished!

With the horrible power of the talented Leiyuanzhu, Ye Xuan has no doubt that if he throws another one out, the 100,000-meter-diameter starry sky fortress on the opposite side will be blown into fly ash in an instant.

But this matter, he hesitated in an instant.

After all, it is a real star fortress.

Even when a war broke out between the Federation of the Varo and the Celestial Family, such a starry fortress was generally located behind the town. As a strategic deterrent weapon, the real battlefield against the stifling is generally the kind of small fortress. The 50,000-meter star class is only.

In the history of the Federation of Varo, it seems that it has never been seized a starry fortress of the Tianzu nationality. Similarly, the Tianji nationality has not seized one from here.

If this bright silver starry fortress can fall into its own hands, not to mention its important significance, it is a real benefit that can't be missed.

If there is no phagocytic system, if there is no fragment of the starry sky and super brain, Ye Xuan does not have the ability to refine the intelligent central system of this starry fortress. Then, he may not really do this kind of spring and autumn dream. .

But all of Ye Xuan has a clear distinction. That is to say, as long as he is properly operated, he has the opportunity to refine the starry fortress, and then he will be able to reap the immortal world.

In this case, Ye Xuan gave birth to this idea at this moment, it is completely understandable, because this idea is amazing, but it is not a dream!

However, the difficulty is still there. If you want to refine, then Ye Xuan must be in close contact with it. This is extremely dangerous. Just arbitrarily from this starry fortress, a Tianji strongman They are all surviving beyond the cave, and there are still several levels of this existence.

Even if it is only the existence of a few caves, it is extremely dangerous for him!

At this time, he did not know that there was only one left in the star-studded fortress opposite the real sky, and the other semi-opening robots and intelligent robots, although many in number, did not give birth. Self-awareness can not be regarded as a true Tianji tribe. Once the intelligent master control center of the Star Fortress is refining, they will also change their courtship and become a slave to the robot who is loyal to Ye Xuan!

Just as Ye Xuan fell into sinking, his mind was flying and wondering how to find a way to spy on the number of the Tianzu ethnic group in the starry fortress.

Then I would like to find a way to force them all out, and it is convenient for me to start refining the starry sky fortress. In front of the thunder cemetery, a bright light flashes, and a woman's figure has quietly appeared.

This time, naturally, this is the last Tianzu ethnic group in the Star Fortress of the Butterfly, the high-ranking elite who claimed to be the British and Taiwanese.

That is to say, with its appearance, in the starry fortress behind its figure, there is no longer a Tianzu ethnic group, only a few semi-opening robots and intelligent robots.

It's just that Ye Xuan still doesn't know it, otherwise I'm afraid he will start the action in an instant.

This is a once-in-a-lifetime opportunity.

But at the moment, with the strong celestial tribes appearing suddenly in the ray of graves in front of them, the strong breath exuded is not slightly weaker than the one just now, and Ye Xuan's heartbeat is suddenly on the verge of a moment. I really threw the idea of a starry fortress.

During the meditation, he urged the Lei Di Yin hanging over his head and spit out a pigeon-sized Lei Yuanzhu.

This is clearly the rhythm that wants to be shot again. The face of Yingtai has changed in an instant, and then it is not smiling...

Chapter 3035: Refining and chemical fortress

"Giggle..."

"You are a little family, but you are really worried. Can you even kill like a guy just like that? Just killing your wife, are you human empire, are you so ruthless?"

With the death of Shan Bo, Yingtai has automatically treated Ye Xuan, who killed Shan Bo, as the object of his own feelings of human love. This is what he owes to himself.

Therefore, at this moment, her words are spoken from the mouth, it is simply incomparable, and even Ye Xuan can not help but stunned.

The other party is talking about the human royal family. Obviously, I think of myself as the prince.

And she is the wife of Xuan Huangzi, is this person not a Tianji? But human?

This possibility is not without it. Just like the devil's royal family, there is a generation of emperors who are being held hostage in the heavenly family.

It is also possible that a prince's wife of the immortal dynasty was trapped in the camp of the heavenly family.

It is not that he is stupid. The key point is that the robots of the Tianzu nationality are completely different from human beings in appearance. The devil and the spiritual power can be used as a distinction. Once the spiritual power is used, the non-human identity can be determined, but the Tianji But there is no such feature.

In addition, the realm of Yingtai is more than a few times better than Ye Xuan's ignorance. He is even less able to probe. It's so natural that the other party said at the moment... calmly, therefore, Ye Xuan's suspicion is not complete. Can't understand!

In this case, it is really not suitable to kill the other side!

At least, this is not appropriate until it is determined that it is a Tianzu nationality.

Of course, Ye Xuan's heart is not without suspiciousness. This beautiful and glamorous woman's cultivation is too high. Like the famous Tianzu ethnic group, she has the supreme cultivation that transcends the hole and the heavens.

The same is true of the cultivation of the Emperor Xuanzi. How can his wife be so powerful?

However, this is not entirely impossible. After all, the identity of the other party's emperor is there, and it is very likely that it is the arrogant woman of a certain family. Seeing the identity of his emperor, he is committed to marry.

Thinking about it, Ye Xuan was really not sure.

After the eyeball turned a circle, he tentatively asked: "Since you are the wife of the Emperor Xuanzi, the hostages that fall into the hands of the Tianzu people, why do they let you out? You are obviously fooling me! "

As he said, Ye Xuan raised his finger and pointed to the starry sky fortress behind Yingtai, which was self-evident.

When I heard Ye Xuan's words, Yingtai's embarrassment suddenly showed a good man's heart, and his heart slammed, and then hijacked.

She naturally heard the meaning of Ye Xuan's words. For a long time, the Xuan prince actually regarded himself as a human being, and, on the other side of the human race, he probably had such a wife. It is estimated that he did not pass the door. I have never met, Xuan Huangzi tossed in the first universe during this time, and he just said this, he mistakenly regarded himself as the unmanned man who had never met his wife!

This is also good!

Let him regard himself as a human being, or even his unmarried wife, then, then, can he better enjoy this piece of human love.

By the way, I have to invest in myself. It is better to even think of myself as a human being. As the wife of the Emperor Xuanzi, you can not reveal the flaws, and you can fully devote yourself to finding the feeling as soon as possible!

Will the love of Yingdie and Shanbo's butterfly be reappeared on their own body? It's exciting to think about it!

As for his temptations, it's really too simple, and one sentence can be solved!

Thinking like this, Yingtai immediately made a decision. As a strong person with a mysterious vision, he was hypnotized by himself, and there was no problem at all.

Even if she did this, of course, she was only superficial, and did not have deep hypnosis. If she wanted to wake up, she could do her own mindfulness.

But now, with a strong person in the darkness of the realm to self-hypnosis, telling himself that he is a human being, is the unseen wife who had never met before, but broke into the hands of the heavenly family... Yingtai face The look of the moment has become mournful.

Even the eyes glimmered with crystal tears.

She choked and said: "Shan Bo, you and I have never met, but at least there have been two Star Network communications, you have not always called me Yingtai? Now I can't even hear my voice?"

"People have heard that you are in the first universe, chasing after the danger, but I was caught by the Celestials. I almost couldn't see you. You actually... still doubt me?"

"You just used this golden little bead to kill the top of the heavenly family. Now there is another one in the seal, which is clearly the rhythm of killing me."

"Hey..."

"Shan Bo, if you have a good relationship in this first universe, even if it is a demon, even if it is a robot of the Tianzu nationality, as long as you tell me, I will cover my face and tears, and returning to the human race will be a haircut." Why are you so ruthless, do you have to sin me to death?"

"As for the suspicion that your words are untenable, this is too self-deception. Do you not know the top of the Tianji clan, is it usually a person sitting on a space fortress or a star fortress? Everything else is a robot. This, you have been mixing in the first universe for so long, how can you not know?"

"The ethnic group of the Tianzu people has been killed by you. I have only some intelligent robots in this starry fortress. How can they trap me?"

"This kind of naive reason, you also used to smother me, this is too perfunctory, Shan Bo, you have changed your heart! Hehe..."

As I said, Yingtai seems to be gradually plunging in, but I cried directly, the delicate appearance of the pear flower, and the cover-up and weeping, I saw the feeling of pity, and I immediately let Ye Xuan was stupid.

At the same time, the scalp is also followed by numbness.

Shan Bo?

Yingtai?

I have a grass!

I really didn't see it. The Xuan prince who was still trapped in the bottom of the Black Wind, Wan Xuan, was so sour, and both of them had not seen it yet. They were all called Shan Boying.

Now all this depends on my own body, it is a pothole!

In addition, after listening to the other party's words, he also floated a smattering of consciousness. Indeed, as the woman who claimed to be the British Taiwanese said, the top of the Tianji nationality is indeed sitting alone. Battlestar.

After all, it is a robot, mechanical intelligence control, compared to the advantages of the human race is too big, there is no need for more people, it is a waste of resources.

However, for the woman's words in front of her eyes, although Ye Xuan mostly believed, she did not believe in it.

His mind immediately had a plan to prepare for the final temptation.

That is the refinery of this starry fortress, and it is in front of this woman. If the other party is really a celestial family, then she will have a reaction to this matter. On the contrary, she can basically determine her ethnic identity...

Chapter 3036: Satellite fifth order

In Ye Xuan's view, if the other party is a Tianzhu ethnic group, then her current performance of the performance, the ultimate goal is obviously to paralyze herself, and then take the opportunity to count.

In order to achieve this goal, if you want to hand over a whole star fortress, it is obviously not worthwhile.

Therefore, using the refinery and starry fortress as a test method, according to Ye Xuan's speculation and analysis, it is still extremely sharp, and you can know the result when you try it. The real gold is not afraid of fire, and the fire is not real gold.

It is a pity that although he guessed a part of it, he guessed the other party's purpose. This is fundamental. Even if there are mistakes and omissions at all, what is the significance of the follow-up that is based on this?

It can be described as a mistake, all wrong!

Yingtai is trying to pursue the feeling of being in love with the humanity Yingtai and Shanbohua, which is always infatuated. Under this premise, a starry fortress is really not in her eyes.

As a high-ranking person, as long as she is safe and sound, even if the butterfly is lost, then after returning to the Tianzu, she will soon have a new butterfly.

In fact, in her storage space, there is a 100,000-meter star fortress in the same level. That is the exclusive fortress of Yingtai, and this butterfly is nothing but the ghost.

If Ye Xuan wants to refine, then in the case of Ying Ying, it is just a matter of blaming others, it is not painful!

For this reason, when Ye Xuan's temptation meant that he would refine the starless fortress of the owner, and then take it for himself, the British and Taiwan not only did not have any abnormal performance, but also looked face-to-face. Surprise, whispered and shouted: "God, do you have such a means? This is the starry fortress of the high-level people of the heavenly family. As the center of intelligence control, the starry sky is not the general thing. If you want to refine, You need an immortal starry sky to achieve it. Dear, you are too unexpected. You have an immortal starry sky..."

This discourse is extremely real. Even if Yingtai does not have a shallow hypnosis for herself, her performance can be so perfect, because at this moment, she really feels this kind of emotion.

Full of shock!

This is the immortal starry sky super brain! As far as she knows, apart from the immortal empire of the Terran Science and Technology camp, there is only one base of the Tianji nationality. I did not expect the immortal dynasty of the Terran to hide so deeply, the second prince's hand, and the second An immortal starry sky super brain.

The value of an immortal starry sky super brain is incomparable to ten starry fortresses.

It seems that I have to feel the beautiful feeling of the love between Yingtai and Shanbo in the perfection of the Emperor Xuanzi. I feel awkward and feel a little tired. Then I will kill it and harvest it. huge.

All of this is the thought of Yingtai's heart, and Ye Xuan naturally has no way of knowing it.

What he saw was only the perfect performance of Yingtai under this temptation. It was this perfect performance that made Ye Xuan sigh and determined his human identity.

Not only humans, but also the Yingtai of Shan Xuan's Yingbo!

It's just that the ghosts are making a difference, all of this is wrapped up in yourself...

At the thought of this, Ye Xuan felt that the whole brain was swollen and had a headache. But at this moment, he couldn't care about it. In any case, an undefended star fortress is in front of you. After dealing with it, it's not a good thing to have a starry fortress every day.

It is estimated that this is the first time since the first few years have passed.

In this way, Ye Xuan left a few points of consciousness to sacrifice the Lei Di Yin, and at any time prevented the change of the opposite Yingtai. At the first time, he issued a command to refine the butterfly starry sky fortress to the body's engulfing system. .

This kind of refining is actually very simple. To put it bluntly, it is to use the center of Ye Xuan's personal starry-sky communication system, that is, the fragment of the starry sky super-brain that emits a star brain wave frequency, and the control center of the starry sky fortress. On the grid, and then like a hacker, it will be compromised, and finally branded this corner of the immortal level of super-brain, even if it is completed.

Of course, all this is simple, but the whole process of operation is complicated to the extreme. Think of the hackers in ancient times who just broke through a firewall, and they need to face a lot of long and complicated monotonous data to imagine. It is.

Therefore, it is the power and spiritual strength of the fourth-order satellite of Ye Xuan, and if you want to control the matter personally, I am afraid that it is also a very headache.

The best solution is to take the hands of the treasurer, direct the intelligent center of the personal space communication system, to expand the means, to complete the whole process of this, all to the devouring system to implement!

"Hey, I found the starry fortress, and according to the instructions of the host, I immediately started refining!"

"Progress 1... Progress 2..."

With Xingxuan's personal starry communication system successfully spliced into the main control center of the Star Fortress, which is no longer fortified, the familiar tone of the phagocytic system soon sounded in Ye Xuan's mind, which is clearly the first time. It started the rhythm of invading refining, and even began to read the progress.

This from one side also confirms that the words of Yingtai really belong. If there is a second Tianzuo in this starry fortress, how can they let this happen?

It should be known that the starry sky super-brain used by the Star Fortress as the central control center is not immortal, but it is not the ordinary ordinary starry sky.

The intelligent master control center of Ye Xuan's personal starry-sky communication system is nothing more than a super-dead piece of immortal starry sky. Although it is swallowed by a large number of sacred crystals, it is estimated that it will soon be promoted and removed from the residual film level.

But it is still a fragment after all.

If the intelligent master control center of this starry sky fortress has the active control of the people of the celestial family, Ye Xuan's personal starry communication system will not be so fast and simple if it is so easy to complete the splicing and integration.

Thinking of this, Ye Xuan's wariness against Yingtai suddenly faded again. After all, everything that the other party showed showed that she was the identity of her human race. Even Ye Xuan had a kind of thorns. It feels coming.

This process of reading progress does not last long. After all, the other party's intelligent master control center is no longer guarded, and there is no pressure on refining.

About half an hour later, in Ye Xuan's mind, the sound of the phagocytic system sounded again.

"Hey, congratulations to the host, refining and success!"

"Hey, congratulations to the host, the realm is elevated! The current realm: satellite fifth-order!"

"Hey, congratulations to the host, super brain fragments advanced! Current level: younger class!"

Upon hearing these prompts, Ye Xuan was ecstatic, refining a starry fortress, and it was expected that a small step would be promoted, but the fragment of the starry sky super brain as the intelligent center of his personal starry communication system actually Advance at this time, but it is really an unexpected joy...

Chapter 3037: I want to fall in love with you.

"Hey, congratulations to the host! Personal Star Communication System has been successfully promoted!"

"The current level of the astrology center: younger class!"

"Current level star brain wave frequency coverage: diameter one light year!"

"Current level network communication capability: After the access, in addition to the level of the ditch connection, in addition to the level, the level of intrusion can be launched at a single level!"

"Hey, congratulations to the host! Found the star brain center wave! Type: Micro LAN. Star brain level: normal level! Is it immediately connected?"

"Hey, congratulations to the host! Found the star brain center wave! Type: Micro LAN..."

.....

Without waiting for Ye Xuan to return to God, in his mind, a series of system prompts have been heard again!

Obviously, this is because the debris of the starry sky super brain as the master of his personal starry-sky communication system has been promoted, which triggers the upgrade of the personal starry sky system, and thus the tone of discovery.

After the upgrade, Ye Xuan's personal star-light communication system's active search diameter, which has soared to the present one-year light, has definitely increased to the present one-year light. This is definitely a huge improvement, and it is important for him to look for the source of engulfment in the future. The meaning.

As for the last two prompts, the astronomical brainwave frequency, if there is no accident, should be the astrolabic wave signal sent by some of the first cosmic slaves and squadrons wandering outside the starry sky.

Ye Xuan directly ignored it!

At this moment, he did not have to think about the small fish and shrimp, and all his attention has been poured into the bright silver starry sky fortress.

Although the Star Fortress of the Butterfly is belonging to Shan Bo, but Yingtai can be regarded as a half master, so her control is not small.

Before the British version stepped out of the Huadie, it had completely erased some important sensitive information, including everything related to her, including some important information related to the Tianzu.

As a high-level celestial person who was cultivated as a celestial light, it is also the half owner of this butterfly. It is obviously easy for Yingtai to do all of this. It is not even traced, even if it is the devour

system and Ye Xuan. The personal starry sky communication system, the star of the intelligent master control center, is incapable of detecting the slightest.

For this reason, even though this starry fortress has been fully refining and being turned into a private property by Ye Xuan, Ye Xuan's original number of the Star Fortress and other important information related to the Celestial family, He didn't have any gains at all, he didn't know it.

At this point, the phagocytic system gave him feedback at the first time. Although Ye Xuan felt a little regret, he quickly threw it behind his head.

After all, this refining not only got a starry sky fortress of 100,000 meters in diameter, but also broke through the cultivation. The intelligent center of the personal starry communication system has also been upgraded. All this is already a huge surprise.

Even if it is slightly regrettable, it is acceptable!

Since refining has become its own starry fortress, then the number naturally needs to be taken immediately. Otherwise, such a big fortress, even if it has no number, is really not like it.

When Ye Xuan fell into indulging, after a few moments, his mind flashed in his mind, remembering that he was the starry fortress that was harvested in this graveyard. If so, what better than the Thunder is its number? ?

The Thunder, domineering, is more in line with his ability to command the thunder of the world. It's perfect, Ye Xuan has a lot of income, and he almost laughs.

"Ha ha ha..."

"Since then, this starry fortress belongs to my Ye Xuan, and I gave it the name Thunder!"

In the big laughter, Ye Xuanxin waved his hand and instantly threw the Thunder into the immortal world.

From the Star Fortress of the Thunder, although Ye Xuan did not get much information about the Tianzu people, but for some of its basic conditions, at the moment of refining, Ye Xuan still fully understands. .

In the entire Star Fortress, there are now 9,999 intelligent robots with different functions and models. If you classify them, there are maintenance robots, mechanics, technicians and so on.

All the robots, their intelligent systems are tied to the intelligent center of the Thunder, and when Ye Xuan refines the intelligent center of the Thunder, it is branded by his personal star communication system. The intelligent robots have all been dominated by him, and the effect is better than slavery.

But of course, among these intelligent robots, it is also possible to create a true self-awareness. From that moment on, they will be separated from the category of intelligent robots and become a new mechanical family.

All the mechanical tribes come from this.

In the base camp of the machine family, they even have a special function system designed to induce robots to generate self-awareness.

Only those who can get the benefits of that system are some special types of intelligent robots with great potential and value. Such ordinary maintenance robots and sophisticated robots obviously do not have this opportunity.

But even in this way of stocking, there are occasional smart robots that hit the big game, giving birth to self-awareness and evolving into real mechanical tribes.

This requires Ye Xuan to observe and pay attention in the future, otherwise, once there is a heterogeneity in the self-consciousness of his own robotic servant, this matter is undoubtedly equivalent to burying a \*, which is not a good thing.

But all this is not something that needs to be considered now. The birth of a real robot is not so simple and casual.

After Ye Xuan took up the Thunder Star Fortress, his sight was swept away. Even if he fell on the opposite Yingtai, this woman is the crux of his current headache!

"First of all, I have to explain, this, I am not the prince, I am just a demon, so you better not follow me, or sooner or later, one day will fall into the hands of the celestial family!"

After some indulgence, Ye Xuan tried to use words to persuade Yingtai to leave: "This piece of grave grave is a distance from the cosmic wormhole leading to the third universe, but it is necessary to be in the sky. Before the follow-up force of the family came, no one could stop you, so go quickly, it's too late to be late!"

"Giggle..."

"You are a little family, although I still use words to swear at me, but at least I also know that I am worried about it. At last, I haven't found it here in the billions of miles."

For Ye Xuan's persuasion, Yingtai did not go to the heart. Instead, he smiled again and smiled. "Dear, your concern made me suddenly find the sweetness of the love of the butterfly. Feeling, look at this point, the one that you have changed before, I will not mention it, we can start again."

"I decided, follow you, you don't go back, I am here to accompany you."

"I... I want to talk to you again about a passionate love!"

Chapter 3038: Stop and rob

fall in love?

Butterfly love?

Still vigorous?

Chewing on these words, Ye Xuan suddenly felt that the scalp was a little numb.

At this moment, he felt that this woman was definitely a big trouble in front of him, but the other side was a human being. Ye Xuan was not good at killing, and his cultivation was so high that if he was bent on Ye Xuan. It is estimated that there is no possibility of being freed at all.

This is really a dog, and somehow it's a big trouble. The Xuan prince is really not a thing. Is there nothing to provoke this kind of existence?

With all this in my heart, Ye Xuan's mind also turned quickly.

In any case, this woman must be smashed. Otherwise, let her follow her. Even if there are some idiot robots on the other side of the celestial family, they will know that they must be related to the so-called Emperor Xuan.

They can not care whether this woman is the wrong person, but the family is the fiancée of the Emperor Xuanzi, how can you admit your future husband?

Although this matter can be explained, the key is that even if it is explained, those concerns that should not have been brought are still attracted to it. In Ye Xuan, it is always unfavorable.

After listening to this woman twice, now Ye Xuan has already known the eleventh state of the starry sky after the cave, originally called the black light.

And this woman as a supreme existence of a mysterious light, in the case of not being able to do it, Ye Xuan wants to get rid of her, there is no chance and possible.

But that was only the past. As for now, with Ye Xuan's system title being promoted to the third-level interstellar explorer, he has the ability to jump in interstellar coordinates and get rid of a supreme being, even if he has a mysterious reality. There is no difficulty at all.

Thinking of this, the feeling of depression of Ye Xuan's heart suddenly dissipated.

Just getting this ability, I am going to try the effect!

"It is still the same sentence, I am not a prince, you admit the wrong person, so don't follow me, you can't keep up. If you don't believe it, I will go out of the grave now, lest you think that I am relying on the grave. Only take you off..."

In order to let the other party die, Ye Xuan at this time is also a painstaking effort.

During the speech, he turned to look at Yingtai, and then stepped out, only one step, it has already been out of the grave, the figure appeared in the universe under the edge of the Jedi.

At the same time as the stepping out, the thunder barrier in the outer edge of the entire Lei Grave has also been lifted by Ye Xuan between the minds.

Therefore, Yingtai also stepped out in the same step, slightly looking at his head and looking at Ye Xuan with a provocative expression. It seems to be saying: OK, can't you get rid of me? See how you can do it.

It seems extremely confident.

Unfortunately, Ye Xuan is obviously more confident than her.

"I said, it's easy to get rid of you!"

Feeling the provocative meaning of the other party, Ye Xuan's ambition was also stimulated, and being looked at by a woman is not a pleasant feeling, at least he does not like it.

This kind of self-righteous mother, they have to smack their ears and smack them, and they will face their faces and naturally become acquainted.

In this way, Ye Xuan smirked at the same time, even when the phagocytic system was issued, the instruction to immediately start the interstellar coordinate jump.

In the next moment, the familiar system prompt sounds in Ye Xuan's mind...

"Hey, the system confirms! Interstellar coordinates jump preparation, countdown starts: 3...2...1!"

"Hey, congratulations to the host, jump start!"

"call out!"

A faint sound of broken air rang, and from the top of Ye Xuan's head, the void suddenly broke a small crack, and the same breath as Ye Xuan's own blood \*\*\*\* was immediately poured into it. Pulling, turning into a faint awn, did not enter.

Then, before the British and Taiwan returned, the crack in the space was instantly closed, and everything was restored. Even with her supreme cultivation, she could not capture even a trace of traces.

In the blink of an eye, Ye Xuan's figure has completely disappeared...

All of this is obviously beyond the expectations of Yingtai. She has been steadfast in her face, and she has finally changed her color.

The voice broke out and exclaimed: "It has nothing to do with Lei Tomb! It is not a teleport! It is not a transmission! What is the way? How did he do it? Why, I have a kind of moment that he has gone to the other side of the universe. illusion?"

"Across a cosmic plane? How is this possible?"

"The people of the immortal dynasty's ultimate trial of the emperor, it really is not simple..."

"However, if you want to get rid of me, it is too naive. What is the meaning of the gap between the black light and the satellite? You are afraid that you haven't fully figured it out yet..."

At the end of the day, the shock on the face of Yingtai slowly dissipated. Instead, it was a touch of calm and more interesting, and the body shape swiftly went in one direction: "It should be this direction, it is hard to find a little feeling." , Miss's love of the butterfly, you can't run away..."

.....

"call out!"

The sound of the empty sound, Ye Xuan's body shape, fell from a space crack.

Surrounded by a deep darkness, this piece of void is exactly where he first branded the first interstellar coordinates. That is to say, at this moment, he has reached the black hole of life.

The crack in the space at the top of the head was closed again, and Ye Xuan tried to explore it, and he could not find the breath related to his blood and the god.

Sure enough.

It is estimated that the woman who is arbitrarily arguing to the self-proclaimed Yingtai is arresting at the moment.

Grinning and laughing, Ye Xuan even swept away in the direction of the exit of the black hole of life.

After all, the other party is the supreme existence of Xuanguangjing. Ye Xuan is not sure whether she can capture some traces of pearls and determine the general direction of her jump. Therefore, Ye Xuan must leave here as soon as possible to prevent the other party from catching up. , exposed the escape jump coordinates that he kept as a card.

After all, the distance between the black hole of life and the grave of the starry sky is not too far away, especially for the supreme being of a sacred light.

Along the way, some hollow squad scoops and scoops caught Ye Xuan's breath, all surrounded by joy, Ye Xuan paused for a while, and they played for a while, but did not dare to delay too much, and soon came out of life The black hole, in one direction, swept away.

At the same time, his mind quickly turned and thought about the next step.

According to his previous plan, the black mosquito main star collapsed, plus the gray bones and Zuo Fengtai two people were also hidden by him. This situation is just convenient for Ye Xuan to wander around, to find the source of devouring, and Longye The energy needed for the life fortress.

But it's not enough to walk around alone, at least there is a space fortress, or it's too shabby.

Although the Longye of his hand can be made public, it is too run-down. The black mosquito and the black wind can't see the light at all, not to mention the Thunder.

From this point of view, the best way is to rob a person. Anyway, the black mosquitoes are now chaotic. The servants of the first universe have a fleet of wanderers here. Just find a weak hand.

Chapter 3039: Blood wash

Stop and rob!

At the thought of this domineering side, Ye Xuan was inexplicably excited.

In the underground sacred cave of the Montenegro star, Ye Xuan robbed the space tower of the devil's strong, and seized the soul-eating beast, almost rushed to become addicted. I didn't expect to be able to return to the old business today. People are inexplicably excited!

It is worth mentioning that the battleships of the first cosmic slaves, including the space fortress, are basically all from the celestial family, so the scouts of the Scouts, such as the Black Mosquito and the Black Wind, are it's the same.

Only some space fortresses have some logos on the outer wall of the fort as a difference. This type of space fortress is obviously not suitable for robbery. Otherwise, it will sneak out and swindle, and inadvertently offend the entire slave servant group.

Although Ye Xuan does not care about this, it is not always good to rob his brothers.

There are some space fortresses on the outer wall of the fort, but there is no distinguishing logo. These fortresses look exactly the same. This type of space fortress can be listed as a robbery object.

Anyway, after robbing, the inside of the fortress control personnel will be replaced and replaced by their own magic slaves. No one can see anything.

As for the black mosquitoes, there is no space fortune, and Ye Xuan, as a tribe of the tribe, is inexplicably incapable of getting this one thing. Then he will find an excuse to smother the past.

Nowadays, the black mosquito star field is so chaotic, the elite fleet of the Terran has just been ravaged here, and it has also eliminated some of the slaves and the Battlestars of the servants. At that time, it was said that it was unintentionally found in the void. The fortress of the Lord will do.

The people inside are gone, it is estimated that it is an escape, but the object of the Lord is not, can't you still fail?

As long as the slave servant who originally owned the fortress did not see the clues, and there was no suffering, who would care too much about it?

As for the success rate of robbery, it is even more a problem.

In the first universe, the hegemonic celestial family is a natural mechanical control hand. They only need one formal tribe to control a big starry fortress. This is the most powerful scientific and technological talent of the Terran. Not enough.

But that's it.

Among the other servants and hundreds of ethnic groups, there is almost no ethnic group in the warship control or scientific and technological ability. Compared with the human race, it is a demon person. It is not too concerned about the power of science and technology. Other semi-opening ethnic groups such as bulls and horses are naturally Needless to say.

The intelligent center of Ye Xuan's personal starry-sky communication system, that is, the fragment of the immortal starry sky super brain, has grown to a young age, and it can be said that the power is too much.

Under this circumstance, Ye Xuan did not need to enter the space fortress listed as the target of robbery, and he was able to successfully refine the intelligent center of the target fortress through his personal star communication system.

At that time, it is possible to remotely approve and control the target bastion, temporarily imprison all the internal existence, and then bring people to kill, and it is only the Nestlé.

All this, he carefully calculated a circle in his mind, has long been concerned, can be described as full of confidence.

Concealed body shape and breath in the void, Ye Xuan did not dare to go to the side of the black mosquito star, but in the edge of the devil's star field to find the target.

Although the servants of the first universe in the black mosquito field have the largest number of slaves, but because they are too dense, it also leads to inconvenient to start. After all, it is robbery, it is still necessary to find black alleys and remote areas.

These areas also have a fleet of slaves and hundreds of people, but they are missing a little, but because of this, it is more suitable for Ye Xuan.

Soon, a fleet entered his sight.

This fleet is not huge, only two stars and a 10,000-meter-diameter fortress.

The appearance of the Big Fortress looks exactly the same as that of the Black Mosquito and the Black Wind. It is the big fortress that was docked in the Star Wars, and it is exactly the same.

This big fortress is obviously the great bastion of the first universe, which is allotted by the celestial family. The key is that there is no logo on the outside, no one knows the source of its origin.

It is it!

Ye Xuan went far away, and after a certain distance, he gave instructions to the phagocytic system, activated the personal starry communication system, and connected and invaded the internal LAN of the big fortress in front. The first time refining, branding the immortality immortality The level of the starry sky super-brain, to obtain full control.

The system responded quickly and continued to follow the instructions of Ye Xuan.

All of this is silent, the biological wave of the starry sky and super brain is invisible and inferior. Except for the super brain of the same kind, it is the existence of a strong and powerful, and it is impossible to capture this wave frequency fluctuation from the air.

Otherwise, in the background of the starry sky, the strong ones are like the cross of the river, and the starry sky super brain will not be suitable as the star network intelligent master control center of the three universes.

The whole process is silent and extremely fast!

In less than half an hour, Ye Xuan received a systematic feedback, and everything has been completed. The entire fortress is now refining and becoming a private property of Ye Xuan. If he is willing, now he will wave between them. Can be absorbed into the immortal world.

However, he did not do so. Instead, he passed the devouring system and directly issued instructions to the big fortress to kill the two three-kilometer star-rated battleships on both sides.

People are a group of people, grabbed the big fortress, and did not destroy the two escorted star-rated battleships. This matter must be leaking.

Soon, the super-star-killing gun on the big fort was launched, and the huge energy light column was bombarded with one left and one right. Because of the close distance, the two star-rated battleships were instantly transformed into two huge ones. Fireball.

This momentary change, not only the existence of the two star-rated battleships failed to come back, it is estimated that the slaves and servants in the big fortress are also in the Debbie.

"Remove the permission to activate all the space doors at once, and block all the enemies in a fixed area. After your own people have passed, open them again and unfold them!"

With the annihilation of the two star-rated warships, Ye Xuan immediately issued a new order. Then, under the big hand, the hole in the immortal world has been sacrificed, and a large number of strong people from it The inside came out and rushed into the big fortress that had opened the main passage.

Gray bones, Zuofengtai, eight-star king scoop, and a thousand mosquitoes and a thousand powerful soldiers scoop!

In fact, just the supremacy of the first three original points is enough to crush the slaves in this great fortress. Ye Xuan does not even need to use the power of the black mosquito and the black wind.

As the people rushed into the big fort, the smuggling began in an instant. After fifteen minutes, when Ye Xuan stepped into it, the entire fortress was washed away. The slaves in the fortress were the corpses of the servants. The two-story wide hall is piled up into a hill...

Chapter 3040: Evil Slim

The interior of the big fort is also divided into four layers, like the black mosquitoes. The interior also uses space folding technology. The interior space is extremely empty. The only difference is that the bottom compartment is not a million prison, but a huge one. Worm nest only.

The space folding technique has matured for many years in the hands of the first universe, so even this kind of space bastion that was distributed to the first cosmic slaves has used this advanced technology.

In the immortal dynasty of the Terran, only the military warships were used.

The big fort was originally called the evil spirit, but the name Ye Xuan did not like it. When the big hand waved, it changed to the Son.

Later, he will mainly use the name of the black mosquito, driving the space fortress to swindle and swindle. The name of the Son is the most appropriate.

At this moment, in the center of the Grand Plaza on the second floor of the Son of the Son, there are a large number of black and green corpses piled up, like a mountain, at first glance, at least 10,000 bodies.

What makes Ye Xuan unexpected is that these bodies are not only the devil, but also the life of a humanoid form, but it is still a bug.

Its body is about the same size as humans, but it is a kind of soft reptile like caterpillar. It is black and green, with a face like a demon. It looks very incomparable.

This Zerg life has a very strange name, called the evil spirit Slime.

Perhaps it is because the appearance is too ugly, and the body surface also secretes a kind of blue-black toxin liquid. Even in the celestial slaves of the first universe, this evil spirit Slime is extremely unappealing. see.

As for their master and son, they obviously don't like them any more.

This may also be the reason why the fleet of the evil spirits of the Slim group is so lonely that they are alone in the edge of this magician, even a companion.

Now, the evil spirit Slime inside the entire fortress of the Great Son has been killed and destroyed, and it has been turned into a corpse.

In fact, there is no shortage of strong people. It is said that the strongest existence is the two black hole ninth-order evil spirit Slime, but in the face of this powerful army sent by Ye Xuan, they are easily killed.

However, in the bottom compartment of the Son, there is still a worm nest, which is like a hive. It is the egg of the evil spirit Slim. This group is also a speechless enough to actually breed the ethnic group. The old nest is built on the space fortress.

According to Ye Xuan's estimation, there are at least tens of millions or even hundreds of millions of snails in the bottom compartment. They are all only one size, crowded together, and they are not hatched now. If there is intensive phobia The bottom cabin, seeing that scene, it is estimated that you will be crazy on the spot.

Just as Ye Xuan wanted to order, all the slime eggs in the bottom cabin were all burned, and the sound of the phagocytic system, at this moment, suddenly resounded in his mind.

The content of this reminder completely shocked Ye Xuan, and the surprise came so fast that he could not believe it!

"Hey, congratulations to the host, find the crystal of the elves!"

"The Crystal of the Elf: The crystallization of the power of the evil spirit Slime, one of the natural life energy that can be absorbed by the self-proliferation group of the world!"

"Is it collected immediately?"

Elf Crystal?

The power of the evil spirits slime?

Such an ugly soft reptile, a crystal in the body, is actually a good name to use the name of the elf crystal?

This is the first thought in Ye Xuan's mind. Although it is a bit ridiculous, it was quickly thrown behind him.

All of this is not important. The most important thing is that this time, I have no intention of breaking through, and finally found the source of energy that will allow the world's self-propagating population to continue to multiply and evolve.

It seems that the eggs of the billions of evil spirits in the bottom compartment of the Son of God can never be burned. The bodies of these evil spirits, Slim, are only about 10,000, and the number of crystals of the elves that can be harvested. Limited, with the huge nest of the bottom cabin, in the future, with the birth of a large number of evil spirits slime, the crystal of the elf that Ye Xuan needs can be continuously supplied.

As a result, as the world's self-proliferation group continues to grow, I believe that the evolution of the life fortress Longye will slowly enter the fast lane.

When, when the Longye grew into a 100,000-meter-diameter starry fortress, Ye Xuan could drive it across the three cosmic planes.

A life fortress that can quickly repair itself at any time and place, the same level of the Star Fortress and it is a weak blow!

With such excitement, Ye Xuan even gave orders to collect the power crystals of these evil spirits, and this scene was indeed too bloody. He could not bear to look at it and turned into a passage in the square, half a After an hour, more than 10,000 crystals of the elves were brought together and handed to Ye Xuan's hands.

The so-called Elf Crystal is just a small red crystal, and the head is very small, crystal clear, looks like a pomegranate grain, the biggest is smaller than the small fingernail.

More than 10,000 pieces are added together, only a small bag, it is not very eye-catching.

Ye Xuan did not pay attention to it, except that he left the ten largest samples as a sample, and put it in a small box and threw it into the immortal world. The other whole bags were thrown to the phagocytic

system, and the system was transferred. To the Longye, for the world's insect self-proliferation group to absorb.

I believe that in the near future, the world's insect self-revolutionary group will be able to recover again, and then evolve again.

As for the flesh and blood of the pile of evil spirits, Ye Xuan was not wasted. He directly sacrificed his own soldier, the blood star, and the tear sword.

After five rounds of integration, the Devil's Blood Tears not only reached the epic level of the starry sky, but also gave birth to the magic blood sword spirit. This flesh and blood energy is the great complement of the magic blood sword spirit.

As soon as he was sacrificed, Ye Xuan heard the sound of the \*\*\*\* swordsman's cheerful screaming in the sword body of the Demon Star, and then the warrior was controlled by it to become a \*\*\*\* man, one end. Into the pile of flesh and blood corpses of the evil spirit of the hill.

The whole corpse hill was dying at a speed visible to the naked eye.

Before and after calculation, this level of a large amount of flesh and blood energy extraction, for the Devil Star tears sword, there are several times, according to Ye Xuan's estimate, if there is no accident, the promotion of the Devil's Blood Tears is not far away. It is.

Nowadays, it is already an epic grade of the starry sky. Further, it is the starry sky to the treasure level. It has a star-to-treaty warrior. It is definitely a dream of any strongman, but it is precisely because of this. Time will be so long, the starry sky to the treasure level, can not be achieved casually.

After finishing everything, Ye Xuan will take back the body of the Demon Blood Star Tears, and the wave will be turned into a fly ash for the dead flesh of the dead body. Then he will wave his hand: "It is time to go back and see, the Son, start! Goal , black mosquito star field..."
