

## Super D. S 3051

Chapter 3051: presumptuous

Seeing the first moment of Ye Xuan, Xuanyuan Zixiao laughed, but although the latter's face was as usual, his heart was a moment of mourning, and this day finally came.

For the death of the green radish, Ye Xuan has always been worried about it, although it is not his fault, but the fact that the green radish died in front of him is not to be erased.

Especially before she died, Ye Xuan deceived the fact that it was still the black wind screaming for the big-headed squad, showing the magical power of the devil, proving that he was a demon person, and that Ye Xuan's heart was not swaying. A sigh of relief.

At that time, the green radish was smashed, and in the desperation that was revealed in the shackles, there was a sorrowful meaning of being deceived by a trusted person. She took this regretful emotion and made a punch in the tyrant. Down, turned into a \*\*\*\* fog, since then annihilated...

In this matter, he did not want to evade or shirk his responsibilities in the past. He always intended to explain clearly to Xuanyuan Zizhen in the future, and he would only ask for a peace of mind if he disposes of it.

But that can only be private, because this matter will reveal many secrets of Ye Xuan, for example, he has the power of the devil.

Even if she decides to return to the human race of the third world, Ye Xuan does not intend to expose this to the immortal dynasty.

Therefore, at this moment in the environment with a large number of other idlers, Ye Xuan is really inconvenient to tell.

If Xuanyuan Ziyun suddenly asks, then he can only temporarily delay the delay, and when the two are alone, they will be spared.

The problem was that Xuanyuan Ziyang had already mentioned this matter when he yelled at him, and he also asked with suspicion that Ye Xuan had done something ulterior to the green radish, otherwise he was guilty and shouted. run?

I have met you now. If Ye Xuan still delays in this matter, the suspicion of Xuanyuan Ziyang's heart must be more intense. If there is a lot of trouble on the spot, it will be troublesome...

However, what I did not think of Ye Xuan was that he was suffering from his heart. I wonder if this would really happen. I wonder if I have to quickly think of a way to transfer the attention of Xuanyuan Ziyang and temporarily avoid this. At the time, there was actually one person who took the initiative to jump out and help him solve the problem!

"You are not Long Xuan!"

With a scared face, Huang Shulong Tianba smashed the middle of the eye, and his eyes locked on Ye Xuan's face, and suddenly he said such a sentence.

In an instant, all the people were glanced, and the look on the face changed rapidly. Some of them were suspicious, some were stunned. As for Xuanyuan Ziyang, even the sputum revealed a strong uneasiness.

It was only then that she suddenly realized that as the uncle of the Emperor Xuanzi, Long Tianba must have seen the Emperor of Xuan, so, as soon as Ye Xuan appeared, he could immediately discover the truth.

At this moment, Xuanyuan Zi's heart suddenly anxious.

On the other side, the immortal army of Samsung, the general of Samsung, was stunned, but it was slightly frowned, but he did not speak. If his eyes were swept away on Ye Xuan's body, it was clearly a pair. I don't want to intervene in this matter, and I will temporarily assume the attitude of the wall.

Ye Xuan immediately sneered, and instantly transferred information related to this person from the phagocytic system.

For the scene that suddenly happened at the moment, he actually expected it. After all, his appearance is not the one that is closed in the bottom of the Black Wind, and he is eaten by a seven-star.

In fact, the Longxuan at that time was the original appearance of the real Xuan zizi. This is also difficult to determine. After all, people are still in the process of the ultimate trial of the immortal royal family.

It is also possible to change the appearance, and this possibility is extremely great.

Therefore, Ye Xuan gave up the idea of changing his appearance into his appearance, and simply showed his own face with his own face.

For this reason, he made a command to the devouring system at the first moment of his entry into the flagship fortress, so that the personal star communication system attached to the system immediately connected the flagship control center and secretly stolen it. All the necessary information.

For example, the appearance of the members of the imperial royal family, the cultivation of the realm, and the basic situation of the camp!

Therefore, at this moment, he directly read it and immediately knew the identity of Long Tianba, including his support for the two emperors, Long Sui, and the Emperor Xuanzi in the immortal dynasty's ancestors, ranking 18, weekdays. Everything that does not deal with this Tianba Emperor.

Of course, some information is not directly recorded in the database of the flagship fortress, but the system has the ability of data analysis, to swallow the power of the system, through some relevant information, to analyze these results, obviously easy Very incomparable.

In this way, Ye Xuan suddenly decided.

There was a sneer with a sarcasm on his face, and he squinted at the dragon tyrant who was suspicious, and laughed and said: "Hey, isn't this the Emperor of Heaven?"

"Seeing you here is much less likely than seeing a living ghost!"

"Isn't the second emperor's brother hung up, the uncle, you didn't pick it up, actually looked at my old eighteen? That's really a joy of heaven..."

A few simple words, I pointed out that the support of Long Tianba is the second emperor's dragon must be honoured. This is a matter of the emperor's high-level dynasty. The struggles and competitions between such royal family factions are generally carried out in secret and cannot be made public.

Even Naples, an admiral of the immortal army, was once again leading the team into the first universe. After a chance to temporarily command such a 100,000-meter-diameter starry fortress, it was only half a day before the ship. A top secret document in the data center, knowing this secret.

Therefore, when Ye Xuan said such a discourse, the faint suspicion in Naples was disappeared in an instant.

If you are not a real Xuan prince, how can you know this?

The Dragon Emperor Dragon Emperor must have thought that because Xuan Huangzi changed his appearance, he would have the question just now. It's really a brain, and it's a trial. Is it true that people still use the original appearance?

The old guy took the initiative to ask the royal family to come to the first universe together. I was afraid that there was no good intention at all. After all, the sacred emperor of the present day became famous and threatened the two emperors he supported.

Thinking of this, the face of Naples was gloomy in an instant.

The other side has to deal with the Emperor Xuan, that is to be an enemy of him, he also counted on the Ba Jie Shang Xuanzi, from now on.

At the moment, the opportunity to express a good attitude to the Emperor Xuan is clearly coming...

Just as Napoli's heart was smug, I would like to take this opportunity to say something, whether or not to offend the Dragon Emperor, it is necessary to let Xuan Huangzi feel his good intentions.

On the side of the Dragon Tianba, it was a sinking face, suddenly drunk up: "Long Xuan, you are so bold, just let go!"

Chapter 3052: What exactly is repaired as

"presumptuous!"

As this violent drink came out, the dragon's body, a majestic atmosphere was also instantly dispersed, and it was actually the first level of cultivation of the original point under the wrath, which was revealed at this moment.

This is clearly the spectrum of the elders, want to give Ye Xuan a Mawei as a warning rhythm!

Previously, the reason why Long Tianba said the phrase "You are not Long Xuan" is actually just a kind of intuition. For Long Xuan in the extreme trial, most of them will change their looks. Long Tian How can you not think of the tyrant?

Only the old 18 Longxuan in the 18 imperial royal family's 皇皇,, has always been the most temperament of the temperament, timid, because of this, among the 18 emperors, he became the only One does not have any support from other members of the royal family.

There is only one old mother and one old servant who always keeps on him.

On weekdays, when the emperor was immortal, Long Xuan saw him as the uncle, but he nodded and bowed, respecting the aunt's don't want it, but just after Ye Xuan's arrival, the line of sight clearly swept the entire top command. The cabin, which has taken everyone's figure into the eye, is directly ignored by his uncle, and there is no reaction at all.

It is this point, and the appearance of Ye Xuan at this moment is not what Long Xuan originally looked like, so that Long Tianba gave birth to suspicion.

But this kind of suspicion, after the words of Ye Xuan Shicai appeared, but dissipated in an instant, the idea of Long Tianba is the same as that of Naples. If the person in front of him is not the real dragon Xuan, how could he know all this?

But it is precisely because it is determined that Ye Xuan is the Xuan zizi, and the anger of his heart suddenly surged in an instant.

This kid had seen him nod his head before, and now he has a bit of a name for his dog. Even if he blinks, the villain is ambiguous, and his eyes are higher than the top. Even his uncle is not in his eyes, but he is arrogant in public.

I have long been accustomed to the weakness of Long Xuan and the aunt, how can Long Tianba suddenly adapt to this change? Then I will be furious, and even the original point of cultivation will be revealed. The purpose is to intimidate each other.

At the same time, it is also a kind of temptation, which is exactly what he took the initiative to represent, the original intention of the immortal royal family to come to the first universe with the fortress fleet.

If Xuan Huangzi was scared by himself and immediately stunned, then this person's reputation is even greater, and he's got people's hearts. It's also not enough to worry about helping the wall. It doesn't matter.

But if the other party is other performances, whether it is tough or not, the virtual and the snakes are good... At least one problem can be explained: This is a trial, and it really makes Xuan Huangzi change!

Regardless of whether the change is good or bad, after going back, it must be treated with caution. After all, the reputation of Xuan Huangzi is placed there, and it has already threatened all other princes.

All of this, Ye Xuan did not know, but also lazy to ponder, he only knows one thing: he is now a prince, and is also a popular prince.

Since it is a prince, then it's a matter of arrogance and arrogance. Naturally, this is the uncle, but from the perspective of potential, the so-called dynasty, the weight may not be able to have a legitimate emperor. Heavy.

It is impossible for him to have the opportunity to sit on the position of the Emperor, and he lost his battle in the original battle of the throne.

But a well-being emperor is different. Who dares to say that he is absolutely impossible to be the next immortal emperor?

A well-being prince, even if it is a conflict with an uncle, the former is definitely the one with more emboldenedness. It is really necessary to make things big. In addition to the spectrum of the elders, the other farts are not.

Of course, if you want to do it, you can't do it right, you have to have real strength, and this is not bad.

For this reason, when he saw that Long Tianba showed his temperament, and he seemed to be tempted to repair him, Ye Xuan immediately sneered, and he said with a sigh of relief: "Hey, I said Tianba Huangshu. How can I hang it like this? It's a breakthrough for a long time. Remember to leave the Emperor before, do you have a black hole and a 9th-order grand perfection? Now it's all in the original order!"

"It's no wonder that it's sorrowful, oh... this is the first order of the origin, it's very powerful, and it's quite similar to the prince's pet!"

"Hey..."

Not to wait for Ye Xuan's words to fall, a sharp and fierce, full of fierce and brutal atmosphere, resounded in the vast space of the top control room of the Star Fortress.

Under the sway of the talented person, Ye Xuan directly called out the \*\*\*\* emperor in the pet beast ring, and secretly issued a command to repair it to open the whole, revealing the breath, but could not launch any attack.

At this moment, the \*\*\*\* prince issued this fierce whistle, while the figure was also suspended in the front of Ye Xuan under the vibration of the \*\*\*\* scorpion, and the savage and brutal \*\*\*\* sorrow in the eyes, clearly A posture that can be rushed out at any time.

And from the madness and brutality that is emitted from his body, as long as he starts, it must be an endless situation...

"Blood mosquitoes? Is this a mosquito and beast? Is it still the original point? How is this possible?"

As a Samsung general of the immortal army, Naples still has the right to access some secret information and information materials of the legion. The immortal army has repeatedly entered the first universe and the celestial family and its slaves. Some of the situations here are obviously quite Have an understanding.

For example, regarding the mosquito star, there are some important information messages archived in the confidential database of the Immortal Legion.

Therefore, Naples at a glance saw the origin of bloody, although I do not know the identity of its mosquito and prince, but at least know the \*\*\*\* mosquitoes that the original point is repaired, the body, how many streams of mosquitoes and royals flow.

As his exclamation sounds into his ears, whether it is Dragon Tianba or Xuanyuan Ziyang, or other military officers in the top command post of this Star Fortress, the look on his face is no exception, all The upheaval has changed.

Mosquito royal family?

Has become the pet beast of Xuan Huangzi?

Actually still the original point of cultivation?

All of this, even if it happened in front of us, made them feel unbelievable, too dreamy.

Xuan Huangzi's pet beast is the same as the Tianba Emperor who was beaten on the spot. He has cultivated the realm of the original point of horror, then his own cultivation?

This pet beast of the royal family is clearly conquered by him.

So it seems that today's Xuan Huangzi, can not at least the second order of the origin?

"This is impossible! When you left the dynasty, it was clear that it was a star..."

At this moment, the entire face of Long Tianba is red, and even the neck has been thickened for a large circle. Ye Xuan has already concealed the cultivation with the spirit of the devil, not to mention him, it is eleven. Naples, in the realm of the realm of the realm, could not be explored. Therefore, at this moment, he is actually inclined to think that Ye Xuan's cultivation is already above him.

But this is too abnormal, and Long Tianba's heart is in horrible. Even though he believes, he still subconsciously exclaims his voice...

Chapter 3053: Napoli's show

"The stellar environment? That is the fifth realm. Oh, my uncle, can you not bury your nephew? I am only the eighth-order satellite, the third realm, you are clearly ridiculing the prince!"

In the yin and yang swear words, Ye Xuan removed the spiritual power of the hidden cultivation and the power of the gods. The real eight-step of the internal satellite was breathed out and instantly revealed.

This is clearly intentional!

All the people around, the faces are all weird.

Ye Xuan is indeed deliberate, but the meaning of the intentional word used in addition to him is completely different from the meaning of others.

Ye Xuan's intention is real and empty.

His cultivation is indeed the eighth order of the satellite. This is his biggest flaw. Xuan Huangzi is not this cultivation. With this kind of low-level cultivation, Xuan Huangzi is absolutely impossible to do such a shocking thing. The achievement comes.

At that time, I will return to the immortal star. Even if Ye Xuan is concealed again, it will not be possible to show up for a while. But now, deliberately come here, the matter will definitely spread when it goes back. At that time, it is the leaf. On some occasions, Xuan revealed the true cultivation of the atmosphere, fearing that no one believed.

Just like now, with the \*\*\*\* prince in front as a foreshadowing, at this moment, Ye Xuan's mouth said the eighth order of the satellite, including the real refinement that he revealed at the moment, falling in the eyes of everyone including Naples, suddenly It became a deliberate sarcasm and a face, clearly directed at the Dragon Tianba.

In short, no one believes that the realm of his realm at this moment is real.

Even Xuanyuan Zixiao was confused, and she had shaken everything she had determined before.

At this moment, she began to wonder if she was cheated by Ye Xuan at the beginning. Is this guy really a prince? And also hidden in the repair...

Otherwise, why does he know the secrets of the royal family that he has no way of knowing?

And by what way, a mosquito queen with the original level of horror repair? The fierce breath of this mosquito is clear at a glance, plus the pride of the mosquito and the royal family. If it is not forced to suppress it with crushing strength, there is absolutely no possibility of conquering.

It seems that the second-order fear of the original point is not enough, at least it must be stronger than three or four small steps, so that the opposite, this Xuan prince, is not at least the fourth order of origin?

When the thought flashed through my mind, even Xuanyuan Zijing was shocked. She was only a black hole. In all cases, her face was red.

At the same time, Xuanyuan Ziyan's heart has a touch of resentment quietly floating up, looking at Ye Xuan's eyes, the meaning of badness also revealed.

The bad guy, the young lady who deceived is so bitter, obviously it is really a prince, and it is so strong, but the lady who is hurting is worried about you for so long, it is so bad!

I thought about it, Xuanyuan Zi's pair of small powder punches could not help but hold it up, and my mind decided a thought: This matter, I must calculate the general ledger with him!

Just at this time, the emperor's dragon Tianba on the side was once again angry...

"A good dragon!"

"A good prince!"

"I have to admit that this time's extreme trials really made you reborn!"

"It's really gratifying..."

"Now you, I dare to treat your uncle like this, very good, really good!"

"Besides my dragon Tianba, I think your emperors and other royals, even the entire immortal royal family, will be very happy after seeing your great changes. Long Xuan, they can all be in the immortal star. Waiting for you, hahaha..."

In the big laughter, the dragon's double-bottomed bottom flashed a cold and sullen gaze, and his nose was cold, and he turned and walked toward his cabin.

He has decided that he will never meet this guy again before returning to the immortal star. Since he can't force him by his own cultivation, and the other party has changed the character of being weak and deceivable in the past, why bother to find it again? What?

Anyway, after returning to the immortal star, several other elite princes will deal with him. They will not sit and watch such a strong prince who is sitting tall.

With the departure of Long Tianba, his two confidants quickly followed up. There are no more people in the top command cabin of the entire flagship fortress. Except Xuanyuan Ziyan, the other hundred officers are all Neapolitan confidants.

"General, the wormhole has arrived, do we enter immediately, start the wormhole jump, return to the funeral star!"

Just at this time, a confidant who was carrying the rank of the university on the shoulder quickly came to the near, and reported the situation to the Admiral Napoli. At the same time, he took the opportunity to look at Ye Xuan and smiled.

Since Ye Xuan stepped into the flagship fortress, all the five Terran Star Fortresses have simultaneously launched a continuous space jump, and they are fully unfolding, heading for the wormhole that leads to the depths of the first universe. Come, now, it's already here.

As for the Fortress Legion that was dispatched by the Emperor's Star, although it was also pursued, it was just a bluff, and it was like this. It was already unknown where it was.

"Immediately enter the wormhole, expand the plane level space jump, and return to the first universe as soon as possible."

The Admiral of Naples immediately issued a new order: "After reaching the end of the funeral star field, it immediately ditched the star network of the Tianhe Star, and asked the netting ditch to connect to the Tianming National Star Network, and the layers went up until the contact. To the immortal star, the first time the news of the return of the Emperor Xuanzi was on the dynasty."

"Then, we rushed to Tianhe Star, where we stayed a little, and the fans of the entire Federation were all looking forward to it. Since the prince returned, it is natural to go to Tianhe and comfort the federal fans."

"This is also good for the reputation of the emperor..."

These latter words, Naples is clearly said to Ye Xuan, he has turned to look at the latter, his face is full of smiles, the tone has become softer, clearly showing the strong meaning of the good: "The Prince The adult, the old minister of Naples, was the old minister who brought the fleet into the devil's field.

"Fortunately, I don't want to be insulted. This time, I finally brought the emperor's adult back to the first universe safely. Otherwise, if this time fails again, the old minister will no longer see Jiangdong's father, and there is only one death to thank the world!"

"Oh... I don't know what the Emperor's adult can add to the appointment of the veteran?"

"The reason why I went to Tianhe Star is to reserve some time to prepare for the imperial star's dynasty. Hey, the prestige of the emperor's adult in the Federation, this time, there will be a huge welcoming glory on the dynasty. Ceremony, the Emperor of the Emperor, also needs a buffer time, do the necessary preparations..."

"Is Napoli upstairs? Good! You are very good, this prince is very satisfied!"

Ye Xuan is really satisfied with the obvious intention of Naples, but the more the other party, the bigger his prince's style is. At this time, no matter whether it is a demeanor or a tone, it is not inconsistent with a real popular prince. Up...

Chapter 3054: Lao Na

The star fortresses of the five Terran Immortal Legions all entered the cosmic wormhole, and launched a plane-level space jump. After about a day, they reached the edge of the third universe of the Terran, that is, the funeral star field.

At this point, all the soldiers of the entire fortress fleet, all put their hearts down, this time into the first universe, they originally came with the intention of a dead war, I did not expect the final result is like coming over to lead the merits I have not seen the enemy and put a shot at random, and then I saw the Emperor Xuan.

Bring him, and start the return journey directly.

With the return of the Emperor Xuan's Enron, they will all become heroes and must have military merit.

The immortal regiment of the Terran Science and Technology camp has repeatedly entered the First Universe and the Tianzu and its slaves, and this time, fear is the most comfortable and the most comfortable one.

For this reason, all the officers and men in the five fleets of the entire fleet of the entire fleet are grateful to Ye Xuan, the prince of the sacred prince. In this era of star wars, it is not easy to get a military exercise, the first time. When I met Xuan Huangzi, I encountered this kind of good thing.

This made them recognize that Xuan Huangzi must be Fuxing, and that the previous Ye Xuan and Emperor Long Tianba in the top-level command cabin of the flagship fortress were relatively fast, and they also communicated with each other through several Star Fortress. All the fleet officers and soldiers are aware of it.

Almost all of them realized the rising of the Emperor Xuanzi. Therefore, almost all of them have the same embarrassment as Naples. At this time, the team is loyal to a well-behaved emperor. The future benefits are obviously self-evident.

At this time, Ye Xuan did not know that he had already harvested all the commanding officers in the five Star Fortresses and the loyalists of the following fighting soldiers.

This situation is more obvious in the flagship top command cabin where Ye Xuan is located at the moment.

Hundreds of immortal army officers and men who control the fortress are each in their own positions. However, since they are not in a state of combat at this time, and they are expanding their space at the plane level, there are not many things that they need to manually control. While these soldiers are sticking to their respective positions, their sights are also coming from time to time to the rest area in the center of the command module.

In the middle of it, it is full of heat.

This kind of feeling of being noticed by Ye Xuan is not without it. For example, after becoming the Son of the Black Mosquito, this is the case when the Son of the Son is performed.

But at that time it was behind the enemy, and the fleet of the Devil's Royal Family soon came, Ye Xuan naturally could not completely relax, so there was really nothing too strong feeling at the time.

But at the moment it is different.

All the dangers went away, and his whole body and mind were relaxed. At this moment, he felt the enthusiasm of the surrounding projections, and he immediately felt his emotions.

Power is really a good thing. Since entering the starry environment, he has always been tight-shouldered, and this time, taking advantage of the opportunity to play the prince of the singer, it should be a good time.

Anyway, as a dynasty of the dynasty, it is too low-key, but it is suspicious, and it is a slap in the face, but also for the role of the role.

Thinking so, Ye Xuanyi made a peace of mind, and the arrogance on his face has never retreated. It is clear that he has found the rhythm of feeling.

It's just that this appearance is taken for granted in the eyes of everyone else. It's not so boring, but it's in the eyes of Xuanyuan's purple eyes, but it's itching her teeth. At this time, she has already determined the leaves. Xuan is indeed the real Xuan prince, this guy is cheating on himself.

Looking back, I have to find a chance to pack him up.

"The prince of the emperor, there is one thing the veteran must ask you for sin..."

At this time, because I had already embarked on the way home, there was no accident, so even Naples was relaxed. The soul was taken and the spirits were taken. After sitting in the central rest area of the command cabin with Ye Xuan, be careful. I poured a few cups, and in addition to Ye Xuan, he also had a share with Xuanyuan Ziyun.

In addition, several of the confessions of the colonel and even the generals of the ranks were not even qualified to sit, all accompanied by careful standing behind Naples.

"Hey? Why are you standing up? Other brothers have a duty to be in, and they can't get away, you are fine, sit down, drink together..."

Ye Xuan waved his hand and interrupted the words of Naples. He looked up at the colonel and the generals who stood behind the Napoleon General of Naples. At the same time, his right hand was also circled, pointing to the positions around him. The ship control the soldiers.

brothers?

All the people were stunned and then excited.

The emperor is really friendly, too approachable, and so rare, there are countless fans in the entire federation, which is clearly convinced by virtue!

For a moment, some of the more easily moved soldiers even reddened their eyes, and the colonels and majors who stood behind Naples were even more excited.

Looked at Naples, seeing the latter dumbly nodded, they just sat down with excitement, each took a glass of wine, but did not drink, all eyes looked at Ye Xuan with enthusiasm, the light is full The color of admiration.

At this point, Ye Xuan had turned to look at Naples: "Yes, Admiral, you haven't finished yet, sorry, I didn't mean to interrupt..."

The latter was scared in an instant, and almost got up: "How can the emperor of the emperor dare to let you use the honorific words? You can't make it impossible, do you still call me old?"

"Lao Na? By... with you."

Ye Xuan almost smiled and smacked, and turned a blind eye. He nodded and asked the matter to come down: "That line, don't call me any emperor in the future, I don't have you big, just call me Xuan Huangzi, everyone is I am close to myself."

This is still the first time that Ye Xuan's first public statement was to treat him as his own person. In the struggle of the dynasty faction, such a discourse is equivalent to accepting the sincerity of Naples and others.

The latter is very excited, and the color of his face is also thicker: "Xuan Huangzi, Lao Nawei, the last time chasing you around, but then there is no way, actually escaped into the starry sky. At that time, I was scared not to be frightened by Lao Na. Only then did I realize that you must have a very important plan to start, and it is not convenient to contact us. Fortunately, you can take advantage of it. Please sin, please princess!"

"What about that?"

When mentioning that, Ye Xuan did have a smoldering gas, but things have passed. He is even more blessed in disguise, but there is no need to care too much.

Therefore, when he waved his hand, he said casually: "Nothing, in fact, you still have to cooperate with my plan. If not, I am afraid that there is no way to introduce the starry fortress of the Tianzu people into the starry sky grave." Come, the Emperor finally couldn't get rid of it. Fortunately, everything was done..."

"Hey?"

All people are dumbfounded!

Chapter 3055: Satellite nine-order grand perfection

"Emperor, you...you said that your plan was to introduce the starry fortress of the Tianzu people into the starry grave, and then kill it?"

After a few moments of dumbfoundation, Naples swallowed and finally said something, and the corner of his eye twitched more and more: "And, have you succeeded?"

In fact, it's not just him, but also a few colonels who are also sitting next to the ranks of the generals, and their expressions are similar.

This is really too ridiculous, it is impossible, they suddenly have a feeling, looks like the front of the Xuan Huangzi, a bit like bragging.

Xuanyuan Ziyang has turned up his eyes directly, and he has no faith at all.

For all of this, Ye Xuan looked at it, but he didn't care, and he disclosed the news at this time, which was also intentional.

With the headless baby corpse and the remaining nine Leiyuan beads as the cards, the starry fortress of the Tianzu nationality, the role of Ye Xuan has been small, at least has lost the qualification as a card.

This time, returning to the Terran is bound to fall into the factional struggle between the imperial royal family. In case of any danger, Ye Xuan will not hesitate to sacrifice this cheap Sky Star Fortress if necessary. .

Therefore, now he mentions this matter, it can be regarded as a vaccination first, so as not to suddenly take out a starry sky fortress in the future, causing doubt.

In fact, it's not just the starry fortress, even the army of mosquitoes and beasts, and he's not planning to hide. At this moment, as a preventive in the future, the first bones and brains are all said. Anyway, no one believes at the moment. Ye Xuan really used it, but they were able to recall the words that Ye Xuan had said at the moment.

By then, there will be less disguise.

These forces, he did not intend to cover up too much, after all, not a card.

His real card is now a headless baby corpse and Lei Yuanzhu, as well as a sacred bow magic, Lei Diyin and so on.

Oh, yes, there is the Dragon Field to the Battleship, but unfortunately it has not yet grown up.

Of course, there is also a final card, which is the interstellar coordinate jump, but in the first cosmic plane, Ye Xuan has not branded his own plane coordinates, but it can be used to escape, find the right one. The location, first solve this matter.

At the moment, with the fall of the words of Naples, Ye Xuan is a big hand and waves. He cares: "Yes, there is only one Tianzu people in the starry fortress of the Tianji nationality. It is a guy in the darkness, out of the fortress. It took me less than a minute to get rid of it, and then I took the fortress."

"Now, the Emperor's hands not only have two 10,000-meter-diameter devils scouting the fortress, but also a 100,000-meter star fortress in the Tianzu nationality. They are all private troops. They have nothing to do with the dynasty. You can rest assured, follow the Laozi, I am A few emperors, in the future, must be like a leek, and sooner or later I will be all packed up..."

"In addition, there is a mosquito army in the hands of the emperor, a million mosquitoes, who can resist?"

"There is a squadron of 10,000-skinned beasts. When a fleet comes, you can get a glimpse of it..."

"In addition, the servant of the devil is a lot of me. There are several squadrons of thousands of people, all in the two demons scouting the fortress, loyal..."

"In one sentence, there is no shortage of manpower and material resources. You only need to do well with Lao Tzu!"

When Ye Xuan said that, Naples and others had cramped their faces.

Mosquitoes know that the emptied beast is more like a thunder.

Ye Xuan said that he has a million army of mosquitoes and beasts. Even the kind of horrible worms that can erode the universe's voids, the warships and the leeks have 10,000 heads?

This cow is too big to blow.

In addition, what is the devil's slave?

Actually, I also used the word "Gen slave", and it is a thousand-man-class demon slave brigade, or several...

The fact that the devil is a slave has never appeared in history. It is true that the devil who is bought by the Terran is indeed there, but it is whimsical to say that the devil is a slave.

Xuan Huangzi did have some powerful means, such as being able to mix into the demon community, and climbed to the high position of a large foreign tribe, and blackened two scouts in the enemy's back, and used it for their own use.

These things are facts, and they believe that after all, it is not too difficult to accept.

But all that is said at the moment is a bit too exaggerated.

All the people have decided that Ye Xuan is bragging.

If you let them know, the data given by Ye Xuan is still quite a result of the reservation, I am afraid that I have to scare a bunch of people on the spot.

The army of mosquitoes, he is not a million in his hands, but millions.

The emptiness of the beast, that is, the army of soldiers, is not a thousand in his hands, but 100,000.

The Devil's Thousand People's Brigade, he is not a few in his hand, but ten...

All of this, I am afraid that Ye Xuan will show it face to face. For a moment, I am afraid that few people dare to believe it.

This is precisely the reason why he deliberately said it at the moment. Anyway, no one believes, and he can set aside the time for the future use of these forces that should not belong to a human being. Why not What?

The next day, Ye Xuan has been hiding in his own cabin. No way, he has not yet prepared the psychological preparation for explaining the green radish to Xuanyuan Ziyan. The key is that the occasion is not suitable. It's really noisy when it's noisy and people's eyes are mixed.

Therefore, I can only hide in the cabin by reason, and my death is not out of the way.

Even if it is a starry sky fortress, it takes a long time to carry out this wormhole jump. In order to be safe, a whole day will be spent on the way. Ye Xuan is alone in his cabin, idle. When I was idle, I began to practice.

It is about to start a struggle between the royalist factions in the Terran sect of the Terran Science and Technology. Although all this has nothing to do with him, in order to use the convenience of the identity of the Emperor Xuanzi to carry out a search for the source of engulfing, Ye Xuan can only helplessly Was involved in it.

Therefore, he urgently needs to raise his personal cultivation as a realm.

With this kind of thinking, Ye Xuan once again took out a large number of star nuclear sources and started practicing.

Perhaps this time it was thrown into the source of a nine-level nine-color star nuclear. In just one day, he was promoted to a small step again.

When this cultivation was over, Ye Xuan's mind once again sounded the familiar tone of the phagocytic system, which immediately shocked his heart.

"Hey, congratulations to the host, the realm of the realm! The current realm: the satellite is the 9th stage of the great perfection!"

The 9th order is perfect!

There is another small step of improvement, you can enter the fourth world of the planet, Ye Xuan heart excited.

It was also at this time that the hull suddenly shocked, and Ye Xuanfu went to the heart. He knew that the fortress had already rushed out of the wormhole, and the third universe finally arrived...

Chapter 3056: Thousands of people

After Napoli's first return from the first universe, the Emperor Xuan's son was still alive, and he was reported to the emperor in the news of the devil's battle in the first universe.

In order to appease the emotions of the fans of the emperor, the immortal dynasty was the first official propaganda of the news, and the entire immortal dynasty was sensational.

There are a large number of princes who have come from other stars in the first universe. Even the other ethnic groups in the second universe have many strong people coming. After all, the federal contribution standings can be seen everywhere. As long as it is the Alliance Executive Star of the Federal Republic of China, there is a federal affairs platform.

I learned that Xuan Huangzi is still alive, and like a real lonely hero, deep into the enemy's back, fighting in the first universe of the devil's star field, these emperor fans all flocked to the Tianhe domain, the wave of solidarity is higher than one wave wave.

To say the best quality idol of this era, under the current situation, I am afraid that no one dares to compete with Xuan Huangzi again.

Then, with the star fortress of the five Terran immortal dynasties coming to the funeral star field and entering the cosmic wormhole leading to the first universe, all the prince fans of the entire funeral star field cheered.

The entire Tianhe star was soon exploding after this.

Five Star Fortresses, if this is the case, the Emperor of the Emperor will not be able to pick up the face from the first universe.

Therefore, almost everyone has identified a fact that even if it comes, it is not long after, the Emperor Xuan will be able to smoothly return to the Terran with these five star fortresses.

More and more fans of the Emperor heard the news, the Tianhe Star in the crowds, the military and political commanders of the two Tianhe Stars, Bai Zhengjun and Zhao Long, are both excited and trembled.

I can't tell what it is like.

Excited and excited, because the Emperor Xuanzi finally lived up to expectations, and today the Filipinos of the entire Wanluo Federation, the first universe of the heavenly family even because he released the first cosmic wanted order, if the Emperor Xuanzi can return safely this time, then, He will be the first man in history to successfully return to the third universe under the first cosmic command of the Heavenly Family.

That's right, every previous wanted object of the first universe wanted to fall in the first universe.

The first cosmic command of the Tianji nationality does not mean that the important figures of the Terran who were not in the first universe at that time. Otherwise, the importance of today's immortal emperor is far from the Emperor Xuan, but he did not attract the first cosmic order. Wanted.

Every important person who is wanted by the wanted people is wanted in the first universe. In this case, it is obviously difficult to come back alive.

There is no success in history. They are all after the fall, and they are the three universes.

As the only hero who lives and returns to the Terran in the first universe, Xuan Huangzi, how his career will be brilliant, there is almost no suspense.

Before this, Bai Zhengjun and Zhao Long showed up in front of Xuan Huangzi. It was a bit of a sentiment. For them, this is a chance to take off and it is already in front of you.

The reason why the two were trembled was naturally because of the existence of Xuanyuan Ziyang. When the Emperor Xuanzi fell into the hand of the Devil's Scouting Legion, they tried to prevent the news from leaking and even tired of themselves. Xuanyuan Ziyang got down, but later the other side escaped with the Xuanyuan family's bodyguard secret treasure.

Not long ago, the fleet of Naples came for the first time, Xuanyuan Ziyang appeared, almost did not scare Bai Zhengjun and Zhao Long on the spot.

As a result, Xuanyuan Zijing may be the heart of the Emperor and the safety, did not pay attention to the two of them, since then, Xuanyuan Ziyang has been with the Admiral of Naples, this time is the second time into the first universe.

In case she and Xuan Huangzi return together, it will take time to revisit the old things, and they will calculate the old account with them. In this regard, Bai Zhengjun and Zhao Long are really in the bottom.

At this point, the two gathered in the official residence of Bai Zhengjun's star, and remembered this incident, sighing and sighing.

It was also at this time that an old housekeeper of the Star's official residence rushed in with excitement. The people's cheers had already passed into the hall: "Xingchang, Xuan Huangzi is back, General of Naples" The fleet has just sent a message requesting the use of the star network of the Tianhe Star, the ditch connected to the network of the upper heavens, and they have already come out of the wormhole and are coming here..."

"What? Great..."

"I will release the news immediately. I hope that the next 10,000 people will meet the scene of Xuan Huangzi. It will be able to transfer the attention of the Xuanyuan family. It is a rush to the sky or a glimpse of it, just look at today!"

Both Bai Zhengjun and Zhao Long immediately stood up, even when the instructions were issued.

At the same time, the two men immediately rushed out of the official residence of Bai Zhengjun, began to organize personnel, went to the outside of the Stars array, arranged to meet the team.

The return of such characters as Xuan Huangzi is a major event for the entire Wanluo Federation. Bai Zhengjun and Zhao Long are the first battles for the Emperor to return to the Terran. All the official preparations have been stared at by countless eyes. In any case, no one can be criticized.

What's more, they are also squatting in their own hearts, only looking forward to the next best, hope to resolve a life-and-death crisis that may come at any time.

In a word, this time the welcoming ceremony, Bai Zhengjun and Zhao Long are jumping up and down, making a solution to the whole body and thoroughly fighting.

The news quickly came out, and the entire Tianhe star field was sensational. A large number of federal powerhouses in the nearby star field rushed to the side, and the fans of the princes who were originally in the Tianhe Star went to some. Beyond the Stars, I want to see the hero who emerged from the Star Fortress in the first place.

And more, it is left in the Tianhe Star, eagerly looking forward to it, after all, since the return of the Emperor Xuanzi, to the Tianhe Star, it is definitely to enter the interior of the stars.

Stay here, you can see Xuan Huangzi himself.

It is also in this moment, including the entire military network of all the administrative stars of the Federal Republic of China, including the Tianhe, which shows the list of the federal contribution points of the world, and once again has produced crazy changes.

All the people who saw this scene were thoroughly petrified.

This time, the list data changes, compared to the original Emperor Xuanzi easily rushed into the list twice, more crazy and embarrassing, this time, Xuan Huangzi actually rushed forward one hundred.

And it's still in less than a minute!

Nothing will be believed in everything else.

In fact, even if you see it with your own eyes, all the people are still feeling like being in a dream. It is too abnormal!

In the countless administrative stars of the entire Federation of the Vatican, at this moment, all the sounds of the cool air sounded...

Chapter 3057: Crazy points

The list: the 999th!

Ye Xuan: Eight steps of the meteor!

Interstellar Mercenary Number: tha13148080!

Current federal contribution points: 176878943 (30000000)!

.....

Above, after Ye Xuan left the third universe, he has always shown the contribution point data of his personal federal interstellar mercenary at the end of the federal contribution points list.

This data has not changed for a long time.

Collecting this data is a virtual interstellar mercenary card, bundled with a federal citizen virtual ID card, and branded in the spirit of every federal citizen.

Once the star mercenary has been captured, the virtual interstellar mercenary brand imprinted in its metaphysical will be identified, and after calculating the contribution points, a certain signal will be sent and received by the Venus's main star network. Then, the main star network will feed back the data to the database.

If the amount of data has reached the level that can lead to a change in the rankings of the contributors, then the Federal Main Star Network will also issue the first time to the Federal Affairs Hall in all administrative stars of the entire Federation. Signal, adjust the list data.

However, the main network signal of the Federal Star Network can only cover the third universe. It is the second universe that belongs to the Federation of the Venezuelan. In terms of data transmission, it must be slower.

As for the first universe controlled by the celestial family, let alone, for the Federal Star Network, there is a blank area, and the celestial family cannot allow the main network of the Venus, which extends the tentacles. Go on the side.

Therefore, once the interstellar mercenary enters the first universe, the federal citizen virtual ID card imprinted in its gods, and the interstellar mercenary virtual card, will temporarily fall into a sleep.

Although the data has been collected and identified, it can only be temporarily stored. After it returns to the third universe or the second universe, the data will be fed back to the Federal Star Network.

This is the case with Ye Xuan.

This time he went to the first universe where the Tianji people were, but he did a lot of great things in the Magician.

Killing a large number of devils and conquering a large number of devils to become the demon slaves are just some of the income items.

Entering the magical star's sacred forbidden land is a big income item. After all, the large number of mourning crystals obtained is a resource that the human race does not have.

Although it falls in the hands of Ye Xuan, isn't the growth of Ye Xuan not the power of the Terran?

Therefore, these are also included in the federal contribution points.

There are also the army of mosquitoes and soldiers and the army of soldiers.

And the acquisition of the Son and the points earned by the killing of a large number of evil spirits.

It is even more alarming that the Tianji family issued the first cosmic wanted order, but the great record of returning to the Terran safely brought inspirational intangible points to all the powerful members of the Federation.

In addition, the return of the life fortress of the Hoshino, the legacy of the Terran Science and Technology Pioneer.

There is also the capture of the butterfly, as well as the killing of a high-level score of a high-level celestial family, and so on...

All of this, when Ye Xuan succeeded in the first universe, was recorded by the federal interstellar mercenary brand branded in his god, and the points were counted, but they were always stored.

But at the moment, with Ye Xuan returning to the third universe.

The federal virtual interstellar mercenary brand imprinted in his gods once again contacted the main network of the federal starry sky. Therefore, all the points of contribution of the points were all feedback at one time.

This directly led to Ye Xuan's contribution points and basic data, and instantly took the rocket and went straight up.

Of course, the federal interstellar mercenary card will only feedback the point contribution points and some basic data, such as the improvement of Ye Xuan's repairs.

But how do these contribution points come from, who killed them, what they got, and the federal interstellar mercenaries will not give feedback. This is also a means of confidentiality. Otherwise, any federal powerhouse will not do anything. As if it was being monitored?

Even if these things are only fed back to the Federal Star Network, they will not be disclosed publicly, but some people still have permission to access the confidential information and information of the Federal Star Network.

If you record these things, it is obviously disturbing, so all the federal virtual interstellar mercenary cards will not feedback this information. This is already a consensus!

From the next moment when Ye Xuan's flagship fortress rushed out of the cosmic wormhole, the virtual federal mercenary brand branded in his gods reconnected with the federal star network, and his interstellar mercenary data instantly Jumped a bit and made a change.

The first change data is as follows:

The list: the 899th!

Ye Xuan: The satellite is nine steps!

Interstellar Mercenary Number: tha13148080!

Current federal contribution points: 376878482 (30000000)!

In the first change, his repairs were refreshed, from the first level of the first meteor to the eighth order, to the current third largest real-time satellite.

But this data is not taken seriously, how can the satellite environment be so rampant in the first universe?

Besides, how long does it take for Xuan Zizi to leave the third universe? Two or three months, how can it directly rise from the first realm to the third realm?

This is clearly hidden and repaired!

In addition, the original 999th place, but also soared to the 899th, suddenly soared in the list of 100, this kind of thing, not in history.

As for the federal contribution points, it is more than 200 million points. All of this people have been numb. Before this, the Emperor Xuanzi was divided into two times, and his contribution points were raised from zero to more than 100 million. Now add 200 million, it is nothing.

The 30 million behind the brackets is the value that he used to exchange the three-tube and nine-stage gene culture fluids. Compared with the existing 300 million contribution points, one-tenth of them are not.

It can be said that in terms of the federal contribution points, today's Xuan Huangzi is definitely a super local tyrant.

Although there are more than 800 federal powerhouses in front of him, which one did not climb to this ranking after hundreds or even thousands of years? Basically, how many federal points have been earned, and they all consume almost the same amount.

Even if there are people like Ye Xuan, there are hundreds of millions of points, but this kind of existence is absolutely rare.

However, just as everyone is amazed at this, thinking that when this is over, Ye Xuan's points and ranking data will once again jump wildly...

The following changes have not been moved to the realm of the realm. It is always the ninth order of the satellite. However, the change in the ranking and contribution points of the land list has never stopped. It will change almost every minute or so.

The list: the 799th!

Current federal contribution points: 576878943 (30000000)!

.....

The list: the 599th!

Current federal contribution points: 1376789493 (30000000)!

.....

The list: the 399th!

Current federal contribution points: 2768687493 (30000000)!

At the beginning, there were still one hundred and one hundred people jumping. In the end, it was actually two hundred and two hundred people who went up, and the points were even more than 2.6 billion points. So crazy contribution points, let the entire Wanluo Federation, A dead silence...

Chapter 3058: The only one in the millennium

"Oh my God, I have already broken into the top three hundred. This is clearly the rhythm of the list." This is a complete rebellion. After that, he is my brother. In any case, I must follow Xuan. Behind the emperor, this point earns you simply don't want it!"

"Play is a yes, more than 4 billion federal contribution points, I have never seen so much in my life, with the boss of Xuan Huangzi, it is difficult to think of not making money. Maybe you have the opportunity to enter the list!"

"I am! What if you can enter the list in this life, even if it is the thousandth, I will give you shoes..."

"Where to look, I have already reached the top two hundred. I bet that whoever takes a thousand points and gambles me, I will sneak into the 100th place and enter the list."

"Rely! You grab the money? Bet can, we change, I will gamble the prince of the prince can enter the list of the world? Really shameless, want to point points, crazy, you..."

.....

Tianxing River, the federal affairs platform!

A large number of fans of the Emperor gathered here, surrounded by a leak, all looking forward, the sights are gathered on a huge display.

This display was originally divided into three parts, three showing the list, one showing the list, and one showing the list.

But now, the one-third of the screen that displays the list of people, the data of the list of people has not been displayed, and it has become the data display of Ye Xuan alone, the oversized font is shocking.

What's more shocking is that the rankings and points data about Ye Xuan on this display have been changing all the time. Just as countless fans of the princes are talking about it, Ye Xuan's ranking and points data are at this moment. Temporarily fixed.

List: No. 199!

Current federal contribution points: 6676878943 (30000000)!

Ranked 199th in the list, the federal contribution points, more than 6.6 billion!

This data has already numbed countless people.

But everyone knows that it will change!

This time, if Xuan Huangzi failed to rush into the list, that is, the top 100, all people will not be willing!

In fact, Xuan Huangzi did not live up to expectations, and the data on the list changed again.

Celestial: 99th!

Current federal contribution points: 9767687493 (30000000)!

Another hundred jumps in the rankings, the points are more than three billion at a time, reaching more than nine billion, almost one billion.

Celestial list: 1-100!

List: 101-1000!

People list: 1001-10000!

There are countless strong people in the whole of the Vatican Federation. Only the Terran has a camp of science and technology and a camp of comprehension. In addition to the Terran, there are many other federal groups in the Second Universe.

Countless strong, on the list, is the first 10,000.

Although the data of the 100 strongest people in the list are still changing, after all, they are still earning federal contribution points, but the ranking has not changed for thousands of years.

Today, it is the first time in the ranking of the list, a former strong leader of the list, was squeezed by Ye Xuan.

The strong man, originally ranked at the end of the list, the 100th, but now, has become the first in the list, the 101st.

When this data change appeared, in a dark starry sky of the Second Universe, a whisper of sorrow and gloom came out: "Is the empire of the immortal dynasty? Good! Enough! The deity spent thousands I only rushed to the list of the year, but today it is squeezed down by you, waiting..."

If Ye Xuan is the only leader on the list in the millennium, and this existence is obviously the only one on the list of the top of the list, the former is glory, and he is a shame, no wonder so resentful.

Listening to its voice, it is stagnant and blunt, and it is clearly not a human race.

In fact, the hundred strong people on the list of the heavens, only about half of the Terran, and the other half are the strongest of other federal groups in the Second Universe.

This time, Ye Xuan squeezed out a federal powerhouse other than a Terran, and the number of people on the list was one more. For the entire Terran, it was a matter of face.

After all, the rankings of the list have not changed for thousands of years. Suddenly, one person who has been on the list for the past thousand years is actually a human race. Anyone will feel proud and excited.

This moment, Ye Xuan rushed into the list of the moment, the entire third universe of countless people of the administrative star, countless emperor fans cheered in unison.

Even a lot of guys who were not fans of the emperor have become fans of the real prince since this moment, and they are still hardcore.

After all, the human celestial arrogance like this, another millennium, for thousands of years, may not be able to see one.

At the same time, in the immortal star of the immortal imperial dynasty of the First Universe Science and Technology camp, there were some sounds in different corners of the Imperial Palace.

Although all were shocked, the other meanings of the shock were not the same.

Excited, excited, resentful, desperate and angry...

"God! The old eighteen him... actually broke into the list?"

"This is impossible! The Great Emperor and the Second Emperor are the most promising to have the existence of an immortal throne. They have been struggling for so many years, and they are only listed in the list. What is the old 18?"

"Oh! Mother!" Oh, this time, can your father not dare to marry you? Hahaha..."

"Giggle... a good guy, this time I went to the first universe, it turned out to be robbed! But such a person is only suitable to start a love of the butterfly with Yingtai, and it must come back soon. God, I have to completely get his old mother, and recognize the wife of Yingtai!"

"Damn! Damn! Old 18, is he not playing chicken blood every day? Is this the first time? Let not let people live..."

Among them, there is even the voice of the immortal emperor: "God list? Old eighteen, is this really you? But, yes and no... really not important!"

A simple sentence, but revealed too much information, just this whisper, but no one heard it!

Just as the words of the immortal emperor fell, the ranking data of Ye Xuan on the entire administrative star of the entire Vatican Federation changed again.

This time, it was ten people who went to the top, but the degree of thrilling was far more than the previous one hundred and two hundred people jumped up.

After all, there are only one hundred in the entire list of days. Ye Xuan is now the ninety-ninth, and ten are once. As long as he jumps nine times, he enters the top ten.

That would have completely convinced the three universes. This kind of thing has never happened before.

Celestial: 89th!

Current federal contribution points: 12267878843 (30000000)!

.....

Celestial: 79th!

Current federal contribution points: 17676878943 (30000000)!

.....

Celestial: 59th!

Current federal contribution points: 23676878943 (30000000)!

.....

Celestial: 49th!

Current federal contribution points: 29267789843 (30000000)!

After several jumps, in just three minutes, they rushed into the top 50, and the federal points reached nearly 30 billion points. This horrible number is some real federal core executives. I couldn't help but feel that my heart was stagnation, I couldn't slow myself down, and I was scared on the spot...

Chapter 3059: Tianbang eleven

With Ye Xuan rushing into the forefront of the list, they all entered the top 50. The entire Wanluo Federation, even including the first cosmic celestial family who had been secretly peeked at all of this, actually fell into a dead silence. .

All the people are already numb at the moment. They are now holding their breath and paying attention to the list. The only thing they think about is the Xuan prince, who can rush into the top ten in the list.

In the top ten of the list, there are only five strong people, and the other five are the other powerful members of the second universe.

These ten people, on the list of the world, have occupied the top ten years of tens of thousands of years, each one is the supremacy of the entire Wanluo Federation, many people, even for thousands of years have not met.

If their list of points data occasionally beats and changes, the entire federation even wonders if they have fallen.

It can be said that if Ye Xuan can rush into the top ten, then the next emperor of the immortal dynasty is absolutely not his, the top ten only five people, more than one, in the whole human race, it is great No contribution.

Only this point is enough for the immortal dynasty to choose him as the next heir to the throne.

After all, the invisible appeal is extremely horrible. This kind of giant scorpion, like the pillars of the ethnic spirit, can sometimes reach a thousand horses in one sentence!

This is why the top of the universe of the first universe, and all the high-level federal groups in the second universe, are paying close attention to this matter.

The Federation of Varo, composed of the Terran and a large number of other ethnic groups in the Second Universe, although in the first cosmic heavenly family, the entire federation is unanimous, but within the Federation, the third universe of the Terran and the Second Universe The other ethnic groups in the federation are still secretly competing with each other.

The top ten changes in the Celestial List can indeed have a subtle impact on this kind of competition...

In the eyes of the public, Ye Xuan's contribution points ranking has changed again.

Celestial: 39th!

Current federal contribution points: 35,768,789,743 (30000000)!

Then, again!

Celestial: 29th!

Current federal contribution points: 42676878943 (30000000)!

Finally, I have come again...

Celestial: 19th place!

Current federal contribution points: 52768878843 (30000000)!

Three changes in succession, each time only about 20 seconds, after three changes, Ye Xuan's ranking has entered the top 20, the federal contribution points have reached more than 50 billion.

If you jump forward once again, if you still jump in ten places, then only one time, Ye Xuan can enter the top ten of the list.

These three changes in the data, which are the heartstrings of the three universes, are in no way overdone.

In fact, the third data change was completed, and Ye Xuan's Tianbang ranking was fixed at the 19th place. In the depths of the Second Universe, the upper level of a certain federal group was too tight for a moment, and it was unbearable for a while. It was really fainting on the spot.

This incident is unlikely to come out. Maybe Ye Xuan could not know it all his life, but for the federal ethnic group, the name of the Renren Science and Technology Camp Xuan Huangzi, from this moment, is almost equal to the devil.

Their patriarchs, stunned on the spot, were scared!

In fact, although this guy is the first to be faint, if Ye Xuan jumps up again with such a ten-point, then the person who is scared to faint will definitely appear.

Even if there are only one more people entering the top ten list, the impact on the internal affairs of the Faroese Federation is extremely important. Some existences with important interests in this relationship can't help this kind of stimulation!

The relationship is too big.

However, even if those people are scared and trembled, they will come.

Ye Xuan's list of rankings has changed again. This may be the last time, but that's not important, because this time, it's still a ten-time jump. Xuan Huangzi finally entered the top ten.

Celestial: 9th place!

Current federal contribution points: 76676878943 (30000000)!

The ninth place in the list!

The federal contribution points are more than 464 billion!

The latter's contribution of more than 7.6 billion has been ignored by anyone, and it has been numb.

Everyone's line of sight is all staring at the ninth place, the 9th, and the 19th, the gap between each other, not to mention the difference between heaven and earth, in fact, it is almost the same.

But Xuan Huangzi, he still did it, and rushed into the top ten!

unprecedented!

The ages of the ages... are just one example!

At this moment, the core high-level members of a certain federal group in the Second Universe turned white and fainted.

It is not that they are vulnerable, but that they know that the list of the World List may not be able to change for a thousand years. The top ten is not necessarily able to move for a long time. Nowadays, the Terran arrogance is born, and another one has rushed into the top ten of the list.

Then, in the next million years, the top ten in the list will be six people who have always been human races. The entire Wanluo Federation and the human race are no longer able to change.

So, they will be dizzy!

After all, the competition within the Federation has never stopped. The many federal groups in the Second Universe have been able to unite together. In the top ten of the Tianbang and the Terran, they each took up five, but now, for thousands of years. Work hard and destroy it all at once.

It is a pity that the top leaders of these second universes, this time, are really white.

Because Ye Xuan's list of rankings has changed again.

When the data starts to beat again, countless exclamations sound.

"What? Still changing? This is already ninth, my yo!"

"Is it necessary for the prince to rush to the top three?"

"My little heart, shouldn't it be the first? Oh, twitching, I have a cramped heart..."

With these exclamations, the beating of the list data stopped, which is indeed the last time, but the result is that everyone is stupid.

It is almost suspected that this is the problem of the immortal starry sky super brain of the Federal Star Network.

Because this time the ranking of the list, Xuan Huangzi is not rising and falling.

This kind of thing, though not not, has been the only unlucky one who has fallen out of the list for a thousand years.

The Emperor Xuan has been rising all the time, never falling down, so suddenly this situation, all the people, can not really accept it.

"The situation is wrong. Generally speaking, the ranking is down. It can only be that other people suddenly rise and squeezed down, but you find that there is no, Xuan Huangzi fell to the eleventh, but replaced the ninth he just got. Bit, there is the tenth bit behind, clearly the same data before!"

"Yes, their contribution points data has not changed, it is the Xuan Huangzi himself fell..."

"I rely on! What is the situation? Is it a drop of two, deducting 10 billion contribution points, what did the Emperor of the Emperor do? What is the punishment of the main network hub?"

Looking at the list in sight, all the people are dumbfounded.

Celestial: 11th place!

Current federal contribution points: 66667789843 (30000000)!

The eleventh! !

Points: 66.6 billion! !

Behind the fraction, lazy forget it...

Chapter 3060: Federal supervision institute

The three universes, at this moment, are like a time-stopping, completely dead.

It is really too much to do, attracting too many supreme strong people to pay attention to this matter, and at the same time, it is really because everything that happened next is too bizarre, so the strong people who attracted too many are sluggish.

First, under the eyes of the public, from the 999th place on the list, it rushed to the ninth place in the list. In just one hour, it rose by 990 in the contribution list of the entire Federation.

Then, suddenly dropped two more and retired to the eleventh.

However, this decline was not squeezed by the growth of other people's points, but his own points fell and automatically retreated.

All of this is even more \*\*\*\* than the dog-blood plot in the film and television drama.

Even if you see it with your own eyes, it gives you the illusion of being in a dream.

At this moment, in the face of stagnation, there is only one thing that everyone thinks about, that is, between the eyes of the Emperor Xuan, the 10 billion federal contribution points have been deducted, ranking two in the forefront of the list. So, what did he do?

Such a raging anger, led to the main control center of the main network of the Federal Star, that is, the immortal star of the immortal star super brain, so angry.

This is also the Xuan prince, originally had more than 7.6 billion points, and deducted 10 billion and 66.6 billion. In exchange for other people, this billions of deductions, it is estimated that today's students can only work for the Wanluo Federation to pay debts, never have a day of turning over.

However, this ranking retrogression and deaf person's point deduction, from one side also reflects the fairness of the Federal Star Network, so that the original Emperor Xuanzi earned more than 70 billion points in an hour, rising nearly a thousand, thus Unhappy, some people who are going to criticize, wisely closed their mouths before they even said anything.

However, what Xuan Huangzi did in the end, this incident has become a forever mystery, just like how he did it so quickly and earned points so quickly, only three times, he rushed to the top nine In the same way, it has become the knot that cannot be solved in the hearts of countless powerful people in the three universes.

And with his ranking in the top of the list, he retired from the first nine moments to the eleventh. In the ninth place, the time spent in the ninth place was not enough. It was completely negligible. The tension in the second universe was finally moderate. The ground has been alleviated.

Although the eleventh is the same as the top ten, it is not the top ten.

In the top ten of the list, the Terran still has only five strong players on the list, while the other five are the strongest of the second universe.

The weak balance between the two major camps of the Federation of Varo was maintained.

This situation is what many people are willing to see!

But because of all this, it has directly led to countless two great cosmic powers. From then on, I remembered the Emperor Xuanzi, remembering the younger generation who made them scared and even fainted...

Just as the countless powers of the three great universes have made various speculations about the mistakes made by the Emperor Xuanzi, the imperial star of the immortal dynasty, the Federal Supervisory Academy of the Federal Republic of Venezuela, launched the matter in the first time. The investigation.

What must be mentioned here is the headquarters of the Federal Republic of Venezuela.

The Federation of Van Loo is formed by an alliance with a large number of other ethnic groups in the Second Universe of the Third Universe.

The forces included the third and second largest universe.

However, its headquarters, but in the third universe of the Terran technology camp, the immortal star, the reason is because the star of the star network of the immortal star, is an immortal starry sky super brain.

This is the only one of the three universes. It is said that the base camp of the Tianji people also has an immortal starry sky, but this matter has not been confirmed.

The reason why the headquarters of the Vatican Federation is based on the immortal star is not to say how strong the immortal dynasty is. In fact, the immortal dynasty is only the sole overlord of the Terran science and technology camp. On the human race side, there is also a hegemony of the comprehension camp. It is on an equal footing with it.

But as a federation, the forces contain two major cosmic planes, what is the most important thing? It is the accessibility of communication. This is the ability of science and technology. Although the Ten Heavenly Palace is strong, it is impossible to achieve the degree of immortality in this respect.

The same is true of the other federal groups in the Second Universe, so immortality became the headquarters of the Federation of the Vatican.

In the immortal star, a special area was set up as the federal headquarters.

There, there are not only the tech camp strongmen of the immortal dynasty, but also the ten-day martial arts camp strong, and other representatives of the federal community from the second universe.

Basically, this headquarters is equivalent to the United Nations of Ye Xuan's previous earth. The general meaning is quite right!

Ye Xuan rushed into the list of heavens as the prince of Xuan, and the strongest members of the Venezuelan headquarters of the immortal star were also concerned. Until the end, when Ye Xuan returned from the ninth to the eleventh, the Federal Supervision Institute immediately The investigation process was initiated.

Although the situation of the federal points deducting is not without, but in the history of the Federation, it is just a few, and the last check of each is a big event.

The fact that the central system of the Federal Star Network can be used to reverse points is generally an event that caused extreme losses in the United States. For this reason, although the central system of the Federal Star Network has already deducted points, the Federation The Supervisory Academy does not think that this is the end and will continue to investigate.

Once the reason for the inversion of the points is found, it is because the person has committed a terrible loss to the Federation, then the Federal Institute will continue to pursue responsibility.

What's more, the Federal Inspectorate is an independent monitoring body. Although it is said that both the Terran and the Second Universe have strong powers, this incumbent is the great emperor who has always supported the great emperor in the immortal dynasty. It is the eldest brother of the immortal emperor today, Long Yao.

Therefore, after he saw the Xuanhuangzi's points being deducted, and the one-button was a horror amount of 10 billion, the so-called secret investigation immediately started, and it was not an accident at all.

There are many other reasons for this, and the top leaders of the Federation and the immortal dynasty executives know this well, but no one will talk more.

Even the immortal emperor remained silent.

No one knows what he thinks.

But all of them know that even if the emperor's emperor turned out to be born, the immortal emperor had a different look at him, and even included him as the next heir to the imperial emperor's heir, but this investigation event The immortal emperor still does not go cross-intervention.

In order to become a qualified immortal emperor, in addition to being able to rise in the enemy's back, in his own interior, it also needs means.

If Xuan Huangzi's test is not overwhelming and falls into the hands of the Supervisory Academy, then he does not have the qualification to inherit the immortal emperor!

Ye Xuan still does not know, a storm, when he just returned to the third universe, and on the surface looks like the scenery is infinite, has begun to brew quickly...
