Chapter 3071: Talented person

When I saw Ye Xuan's meeting, the young man was obviously surprised, but after a moment of squatting, he still picked up his hand and picked it up.

Moreover, he did not seem to care about the words Congratulations in Ye Xuankou, subconsciously opened the space box, and then exclaimed, the entire face was reflected in the dreamy nine colors, screaming at the leaves Laughed: "Brother, thank you..."

After that, the young man turned and ran to the group of people waiting in front of the Xuanyuan family's house. He presented the space box in his hand to an old man in his hand. His face was full of excitement and excitement: Hey, look, my brother-in-law sent me, ten nine-level nine colors!"

The eyes of a group of people all looked at the space box that had been opened in his hand. The dreamy nine colors reflected on everyone's face, even the old man who was suspected of the Xuanyuan family chiefs was instantly revealed. A shocking color.

Obviously it was scared by Ye Xuan's big hand.

Then everyone was excited.

I have already sent the bridegroom just before, and it is very expensive. Now, people are ten ninth-grade nine-color pleadings. It seems that Xuan Huangzi's head is really not the heart of Zizhutou.

I thought about it, all the faces of the Xuanyuan family's faces all showed their heartfelt smiles. Although the ten nine-level nine colors were collected on the spot by the old masters, it is estimated that they did not have them. Share, but as long as Xuan Huangzi became a family member, then all the people present at the scene, the benefits in the future are all big, I don't want to do it!

At this time, after turning over the space box in the hands of the young people, the old man has already led a group of Xuanyuan family members to greet them. With a smile on his face, he looked at Ye Xuan

and said: "Oh, oh, oh Sure enough, there is a talent, but the number of rituals is too comprehensive, so it is obvious that they are self-family, why bother..."

Brother-in-law?

Yinxian?

Are you family members?

As these words were drilled into the ears one after another, Naples was laughing and the mouth went to the ear. The wretched mosquitoes were almost the same. Only the party Ye Xuan and Xuanyuan Zizi were just like the appointment. They all have their mouths wide open and their faces are dull.

The brain is like lightning and thunder, and the rumbling sounds loudly, and the whole brain is numb in an instant!

.....

At the same time, the emperor's emperor is immortal, the Federal Supervisory Academy!

After some investigations, the root cause of the 10 billion federal contribution points that Xuan Huangzi had overturned, the current task force of the Supervisory School has already had a rough result. A survey report was submitted to the Dean of the Institute of Supervision. At the desk.

Although Long Yu is a great emperor, but the appearance of the age seems to be younger than the two emperors, the dragon and the tyrants. In the early forties, the white face is not needed, but the fine mans in the sly are flashing, sometimes the whole person It is shocking to exude a breath of a long-standing person.

At Ye Xuan, the tracking of this 10 billion inductive contribution points is extremely rapid, because he only needs to recall what he has done.

But it is obviously not that simple in the supervision of the hospital.

Some things, that is, Naples does not know, he is only a Samsung general in the immortal regiment of the immortal dynasty, and this time, Ye Xuan's depreciated 10 billion contribution points are related to the interests of the entire Wanluo Federation. .

Therefore, after the investigation is launched, there are many aspects that need to be considered.

The entire Wanluo Federation is in the first universe, even if it is only in the Devil's Star Field, the secret hand behind it, and the fact that some of the bought demons are so simple?

In fact, for so many years, the Federation of Viro has used a similar method of encroaching, and even arranged a few emptiness in the first universe. In the future, when it launched a major battle with the first cosmic tyrants, these few empties were killed. The array will have an unimaginable horror effect.

It can be said that any of the formations that make up these few empty squads is extremely important, and it is absolutely enough that the federal interstellar mercenaries of the last day list are deducted to the extent of contributing points.

Therefore, this time the Federal Supervisory Authority launched an investigation into Ye Xuan's 10 billion contribution points, which took a lot of time. This took a certain amount of time. Until now, the results have been achieved.

On the desk of the director of the Superintendent's Office, Long Long's desk, the information displayed on the investigation report that he was pinched in his hand was.

All the emptiness of the squad is innocent.

Other arrangements and hidden secrets are also completely normal or still in contact.

Only the first priest of the Imperial City, the demon priest, has been confirmed. He died not long ago, and the cause of death is unknown!

As the first priest of the imperial city of the demon group, Wen Xing is of great value. His death in the Wanluo Federation is definitely a big loss. It is indeed enough to deduct 10 billion points, and even more than.

Originally, on the side of the Magic Emperor, Chanas had already reported the details of the death of Wen Xing to the Emperor, but was blocked by the latter. After all, the imperial priest died so badly. This is also a thing that is detrimental to the face.

Therefore, for the real reason of Wen Xing, the Federal Institute of Supervision has not obtained real information at all.

"It turned out that Wen Xing was killed, and from the intelligence information back from there, no one knows how the high priest of Wen Xing died. Was it assassinated by him?"

Putting down the investigation report in his hand, Long Hao gradually tightened his brow in his own words: "This is only a very trial, is it so reborn? From the previous weakness, you can grow up to the three universes of today. Even the mystery of the realm of being cultivated has become a mystery. Even Wenhao can kill it?"

"What is even more terrible is his mind!"

"Whether it is in Tianhe Star to kill Bai Zhengjun, Zhao Long and his party, or the impression of deliberately leaving a benevolent house during Tianchen, all this means that this is no longer the case. The old eighteen dragons."

"If the second child follows the fleet, he has already confirmed his identity. On my side, I am going to doubt whether he is the real Xuan prince. How can a person change in a short period of time?"

"Unfortunately, Long Xuan, Long Xuan, even if you are now in the middle of the day, but after all, it still leaves a mistake, the death of Wen Xing, enough for the Federal Inspectorate to investigate you, in addition, a human being, in the devil group The mix is so windy, even reaching the height of the black mosquito, even if it is not greasy, this is enough, I am enough to do some articles."

Speaking of this, the dragon's mouth and the corner outline a sly smile: "Growing and framing this kind of thing, has always been the master of the Federal Supervision Institute, Long Xuan, this time see how you turn around, really people Be deceived, hahaha..."

Chapter 3072: Unexpected marriage

Immortal star, deep in the Imperial City!

Just in the confession of the Federal Inspector General Long Hao, the Ye Xuan is a traitor of the devil, and has been trapped by the devil. At the same time, the deep part of the imperial city belongs to the red rose palace of Longxuan's mother, and it's at this moment. Sitting in the back garden, talking with a young beautiful woman, surrounded by a lot of prostitutes, low-browed and pleasing to the eye, looks respectful!

In fact, as long as Ye Xuan followed the Neapolitan fortress fleet and truly returned to the third universe, and before getting in touch with the immortal dynasty, Mei has always been hanging in the eyes of the blind, and has been completely put down.

Because of the prospective daughter-in-law who made her very like, she took the news that Ye Xuan had successfully merged with the Admiral of Naples back in time to the immortal dynasty.

Right now, the so-called prospective daughter-in-law who is sitting opposite the rose is exactly Yingtai.

Although she is a mechanical tribe, but because it is a high-level of the mechanical family, it has been cultivated to be powerful and has reached the mysterious light. Together with some secrets of the mechanical family, she is completely different from her appearance, even if it is A human power who surpasses one or two big realms in the realm of Xuanguang can't easily see her true identity.

On the same day, after the British and Taiwan took the lead to leave the Devil's Star Field, the first time came to the third universe of the Terran rule, and went straight to the immortal star of the immortal dynasty.

After some twists and turns, Yingtai and Meijing got in touch and claimed that they were the confidantes that Xuan Huangzi had met this time when they were practicing the royal family. When she came back earlier, it was the meaning of Xuan's son. Yingtai came over to report her peace to her mother.

It's just the news of the peace of Xuan's emperor, it's enough to make the beautiful and beautifully believe in the words of Yingtai, and the latter's deliberate appreciation. In just a few days, it's already a complete I accepted the British and Taiwanese daughter-in-law, and even privately, I have already hinted that the Zheng Palace's future palace can only be her.

For this so-called Zhenggong identity, Yingtai does not care. She came to the Terran and came to the immortal dynasty. The only purpose was to launch a vigorous love of the butterfly with the Emperor Xuan.

Huadie, originally a beautiful love story of the Terran, has been fascinated by this beautiful story since it was born into a sense of self and became a true mechanical tribe.

Since then, she has named herself Yingtai. Over the years, her cultivation has gradually improved her strength. Now she has the supreme cultivation of Xuanguangjing, and she has become the top of the mechanical family, but she The dream of the love of the butterfly has never been realized.

This time, when her last mountain boy died in Ye Xuan's hand, Yingtai finally realized it.

Butterfly is a love story of the Terran. In this case, if her Shan Bo is a mechanical family, how can she let her feel the real butterfly concept?

Therefore, she decided to find a human being to develop the love of the butterfly, and Xuan Huangzi as the popular emperor of the Terran Science and Technology camp, the dragon of the younger generation of the human race, he is obviously the best choice for Yingtai.

Yingtai does not care about the name of the Emperor's Palace, but she cares about the Emperor Xuan, so she has no objection to all the arrangements of Mei, even in the heart.

Xuan Huangzi has been avoiding her. This time, I am afraid that I can't escape if I want to escape.

Just at this time, a woman in the palace looked into the back garden in a hurry, and looked at Yingtai after a strange look, and then whispered a few words in the ear of Mei.

Although these prostitutes and women's palaces in the palace are actually monks, including Mei Mei, but their cultivation is still indistinguishable from the Yingtai of Xuanguangjing. Therefore, the female officer's voice is small. But Yingtai has listened to the truth without a word.

"Rose maiden, things are a bit uncomfortable, the emperor he ... now has arrived at the Emperor of Heaven, and just went to the Xuanyuan family, prepared a gift, one shot is ten nine-level nine color, Xuanyuan home is more than Zhang Cai Red, now outside is passing, Xuan Huangzi wants to return the Xuanyuan family's **** to the palace."

As soon as I heard these words, Yingtai's face was a bit unnatural.

There is a touch of anger in the faint.

She is here to please the mother of Xuan Huangzi, but the latter is in the same place, the so-called Xuanyuan's girl, she heard it for the first time. If she knew that this woman was infected with Xuanzizi, Before coming to Taiwan, the entire Xuanyuan family must be destroyed.

Of course, it is one thing to be able to get rid of it. After all, Xuanyuan's family could not even have the existence of Xuanguangjing, but at the moment, under the slight anger, it is indeed such an idea.

After listening to the female official's words, Mei Wei slightly frowned, and then her eyebrows squinted, and glanced at the opposite Yingtai. The look on the other's face made her understand that the British and Taiwanese had heard the words of the female official.

As the mother-in-law of Xuan Huangzi, she has to consider more aspects in all aspects.

Yingtai is really good, but after all, there is no foundation background, just a female repair that is still quite good.

In Mei Yan's view, there is a deep love of Yingtai as the main palace. She is a powerful woman. She can deter the entire harem, and the Xuanyuan family's **** is born in the famous door. Not only is it with the Xuan zizi, but more importantly, the sky. The Xuanyuan family of the imperial empire is one of the few families in the entire dynasty that holds the eighth-grade gene culture fluid.

With the support of Xuanyuan, the opportunity for Xuan Huangzi to become a big treasure in the future will increase greatly.

Only from this point of view, there is no way to reject Xuanyuan Ziyan!

"Shantou, Xuan Er is mostly going to be a big treasure in the future. You know, the royal thing, is the mother who is me, isn't it just one of the main sons of the harem? The Xuanyuan's family is actually not bad, but more importantly, Xuanyuan's family has a lot to do with Xuan's great cause, so..."

Speaking of this, Mei Mei seems to suddenly think of something, turned to the side of the female officer to see the past, the tone suddenly became serious, then said: "The notice goes on, let Xuaner immediately return to the emperor, said this Bian Yingtai is waiting for him. After he returns, he will get married soon!"

After that, Mei Hao turned to the opposite Yingtai and looked at it. Cihe smiled and said softly: "Shantou, marrying the royal family is such a life. However, although the mother is not guaranteed, but you The position of the main palace, the mother is not guaranteed, it must be for you!"

For all of this, Yingtai still doesn't care, but the words of the sensation of the singer's princes immediately return to the marriage, but the English and Taiwanese hearts are very happy, even when they get up and look forward to the rose, a blessing: Mother-in-law is the master!"

An hour later, the call from the immortal star was conveyed from the Emperor of Heaven to the Xuanyuan family. When the emperor's communications officer read the contents of the maid's call, all the people in the feast were shocked on the spot.

Chapter 3073: Escape from marriage

"Sister, do you still have one in the immortal star? In fact, this is normal, even if you can't get into the big treasure in the future, it's normal to be a prince, it's normal, but my sister can't hold it here, her temper. You also know that this thing I want to be yellow..."

"Yin... Hey, the emperor, why didn't you listen to what you said before? The woman named Yingtai..."

"Listen to the meaning of Meisang Niangniang, this is to ask you to go back to the palace immediately to marry, then, then the Yingtai will not become a formal room? Oh, so, this old man can not give you a ticket!"

"Smelly, big paper! I don't want to see you anymore..."

"Hey..."

.....

With the advent of the immortal star, the entire banquet hall was completely chaotic, Xuanyuan Zixiao almost cried his nose, angered and got up, leaving the room.

It was Neapolitan and the wretched mosquito and insects who were stupid about this battle, and all of them were stunned for a while.

And Ye Xuan, for all this, at this moment, I have no intention to pay attention to it. At this moment, the whole brain is occupied by the two words of Yingtai.

Yingtai?

Is there a flower girl who has a mysterious vision and is not a master, but her mind is distinct and a bit dysfunctional?

She actually returned to the third universe one step ahead, and also found the mother-in-law of the Emperor Xuanzi to go there?

Moreover, judging from the sudden announcement between Mei Mei, Yingtai apparently mixed in the wind, fearing that the family of Xuan Huangzi, the entire immortal royalty, has been fixed by the woman.

In this case, if you really return to the immortal star, it is clearly the rhythm of self-investment.

Although it is not a terrible thing to marry, Ye Xuan never thought about forming a Taoist with a strange woman.

Even if this woman is replaced by Xuanyuan Ziyan, he is not completely unacceptable. Maybe he will be from the other side if he pushes halfway, but if it is replaced by Yingtai, Ye Xuan is absolutely impossible to compromise anyway.

That woman is sick in her mind.

Nothing to say about starting a love with the butterfly. Listening to the good, but the story of Zhu Yingbo's Zhu Yingtai is clearly a tragedy?

Silly lacks to accompany her to play this sick game!

It seems that the immortal star can't go, at least not for the time being, otherwise it will be forced to get married once, and then everything will be finished.

In any case, let's say that the bottom of the foot is smeared, this is the rhythm of the escape marriage. If the woman named Yingtai still has a few faces, then she will take the initiative to leave the immortal star soon.

Ye Xuan will go back soon!

One thought of this, Ye Xuan even gave birth to the idea of leaving the heavenly star, anyway, has returned to the third universe of the Terran, wherever you can go.

Moreover, this matter can not let Naples come in. After all, it is a command from the immortal star. If it is found that Naples and Ye Xuan's rebellion are not involved, then Ye Xuan is innocent, but Napoli is an immortal army. The senior generals will not be severely punished if they are disobedient.

He has now been seen as a shackle by Ye Xuan. From any angle, Ye Xuan must protect him.

Therefore, in order to be on the safe side, it is best not to disclose the matter to the soles of the feet at the moment, and do not disclose it to Naples!

After all, Naples is already the equivalent of the Emperor of the Emperor, and the dynasty must have been well known. In order to suppress the Emperor Xuan, his emperors will not let go of any chance. Napoli has definitely entered them. Sight, they are included in the suppression object!

At this time, Ye Xuan must be careful, no chance to leave to the other side!

Including the Xuanyuan family, Ye Xuan can not stay too much, otherwise, once the fact that Xuan Huangzi's rebellion is not established, it will inevitably lead some people to pull the Xuanyuan home.

I thought about it, and I originally intended to explain to Xuanyuan Ziyang, even if I dismissed the idea of continuing to stay here.

"Okay, we should also go, Uncle Xuanyuan, Zi Yan over there is still trouble you to persuade, this is a misunderstanding, I will have an explanation back!"

After the decision, Ye Xuan even turned up and went to the Xuanyuan Zi's father, the owner Xuanyuanbo arched, and then turned around with Naples and the wretched mosquitoes and left Xuanyuan.

"The prince is an adult..."

Out of the Xuanyuan family, on the way back to the emperor's house, Naples did not hold back, want to speak out.

Regarding this edict, he was caught off guard. The key is not to know how Ye Xuan thought. This point, as Ye Xuan's relationship, he must figure out in the first time, and then make a follow-up calculation.

"Don't ask anything, don't say anything, this prince has his own care..."

Not waiting for Neapolitan to finish the words, Ye Xuan interrupted the first time, and turned to look at Naples with a deep look.

Here is the imperial capital of the Tianming Empire, and it is in the Imperial City area. It can be said that each of the Qijiao horns is under the supervision of the main network of Tiandi Emperor.

It is not that some people are monitoring them now. After all, the identity of the Emperor Xuanzi is here. If you dare to do this, Tiandi Emperor estimates that there is still no, and there is absolutely no need.

But afterwards, Ye Xuan once disobeyed, several emperors on the dynasty, if you want to attack Naples, then if there is any dialogue between Ye Xuan and Naples at the moment, then they can Find it out and become the evidence to suppress Naples.

This point Ye Xuan must be prevented.

At this moment, as he turned his head, he gave a deep look to Naples. The latter almost immediately understood the purpose of Ye Xuan avoiding dialogue with him. At the same time, he naturally guessed that Ye Xuan was planning to escape. Original intentions.

A bitter smile appeared on the face of Naples.

Since it has become the shackles of the Emperor Xuanzi, then regardless of any decision made by Xuan Huangzi, he must fully comply without any doubt.

In fact, Ye Xuan stopped his question at the moment and represented the protection of Naples. This made him feel very moved. Only then, he felt that it was worthwhile to follow the Xuan Huangzi even if it was a black road.

At this time, he can also consider his safety, can follow this kind of master, how can he ask for it!

In the thought of this, Naples made a decision to support Ye Xuan in an instant. He said, "The emperor will return to the immortal star tomorrow. This star is far away and cannot be lost. The old minister still

does not go at night. The emperor's pavilion went to the fortress fleet and let the sergeants below check the fortress again and again, so as not to delay the big event of the emperor's return to the DPRK..."

Finished, nodded to Ye Xuan, turned and rushed to a nearby Imperial Palace contact point, where there is a patrol ship of the Emperor of Heaven, can send Naples to the Star Dock...

Chapter 3074: The emperor is gone.

"I will immediately check with me a woman named Yingtai, who is the fiancée of Xuan Huangzi..."

After the departure of Naples, Ye Xuan returned to the room of the emperor's hall, and when he gave instructions to the body's engulfing system, he inquired about the background of Yingtai.

At this time, the more he thinks, the more he feels that this thing is very strange. It is reasonable to say that he has already returned to the emperor's immortal star, and he has already reached the Emperor Tianxingxing of the Tianming Empire, and after entering the space wormhole, In a few days, I will be able to reach the immortal star. The mother-in-law of the Emperor Xuan's mother will never be so anxious. Suddenly, such a decree will be made, and it is still in the order of the marriage of Yingtai and Yingtai.

All of this is clearly that Yingtai is secretly engaging in ghosts. As a result, Ye Xuan remembers that the other party's contact with him once and for all, and his heart is doubtful.

With the release of Ye Xuan's instructions, the swallowing system immediately launched the affiliated communication system and conducted an inquiry, but the result was nothing.

This result makes Ye Xuan even more suspicious. How can the English-language self-proclaimed Xuanzi's fiancée have no information at all? This is absolutely not normal.

Unwilling to do so, Ye Xuan narrowed the scope of the search conditions and gave the only search condition, that is, Xuan Zizi's fiancée.

The result is the same blank, Xuan Huangzi has no so-called fiancée.

This result is actually in his expectation.

"There is a problem, it seems, only the system can be analyzed!"

Wrinkled, Ye Xuan even passed the encounter between himself and the British and Taiwan as an analysis element, and conveyed it to the phagocytic system, requesting the system to analyze.

The final result surprised him.

Yingtai: Eighty percent is a Tianzu ethnic group! Fifteen percent are human beings, and the attempt is bad! Five percent is the third race, and the attempt is bad!

The three possibilities, the latter two are all bad intentions, not to mention the previous one. If it is a Tianji tribe, then it is an attempt to be bad, it is simply a speculation!

Moreover, the possibility of the other party being a celestial tribe is as high as 80%. This is the result of the analysis of the phagocytic system, and basically waits for the facts.

"Is it a heavenly family?"

Ye Xuan's look was gloomy, and his mind was quickly calculated.

Since this is the result, then, no accident, this Yingtai is clearly a high-ranking star in the silver sky star fortress.

Unexpectedly, there are two ethnic groups in the starry fortress of this celestial family. They were killed and killed by themselves. The other one must be because they saw the horror power of Lei Yuanzhu, and they knew that they were not opponents. This kind of strategy has confuses oneself.

The other side is willing to give up a starry fortress, indicating that her plot must be great, at least more than the value of a star fortress.

But this is not the point. The point is that the other party has now stepped into the immortal dynasty of the immortal dynasty, and has successfully contacted the mother of the prince, and it seems that the relationship is still good, at least, Mei Hao has already promised Xuan Huangzi and her marriage.

This point also makes Ye Xuan quite doubtful. Although the repair of Yingtai is good, it has reached the mysterious light, but in the immortal dynasty, the imperial star is immortal, and the existence of strength under the black light is afraid of a lot?

Even the existence of several great realms than the mysterious light is absolutely there.

Naples is only a general of Samsung, only in the immortal army of the empire, or a four-star general, five-star general and the highest marshal.

Their cultivation is absolutely above Naples.

This is only the military. In fact, apart from the military, other departments of the immortal dynasty can not have such a real power to sit down?

Under this circumstance, the existence of a mysterious light, even if her appearance is no different from that of human beings, and must have some secret means of the celestial family, but after all, it is the imperial empire of the imperial dynasty. There, how can anyone discover the true identity of Yingtai?

Is the analysis of the phagocytic system wrong?

This thought came out of his mind and was immediately shaken by Ye Xuan. Although this is not unreasonable, he would rather choose to believe in the phagocytic system!

Well, now that Yingtai is treated as a Tianzu ethnic group, facing the situation at hand, what Ye Xuan needs to do is obviously not just what he thought before, just not going to the immortal star, temporarily It's so simple to escape from the limelight.

Since the other party is not the fiancée of the Emperor Xuanzi, then if she wants to deceive her, she will definitely have a different excuse from what she said to Ye Xuan.

Most of the time she would say that she was the singer of the singer's singer's temperament, and she did not know how to confuse her.

In a word, the British and Taiwan enter the immortal star, contact with the rose, the excuse to find, must be related to Xuan Huangzi.

In this way, once her identity is revealed by the Tianzu ethnic group, then Ye Xuan will be extremely unfavorable. The dynasty's struggle is fierce. I wonder how many people are waiting for such an opportunity.

What's more, Ye Xuan has been deducted 10 billion federal contribution points has not been resolved yet?

What's more, Xuan Huangzi also has a big uncle who is a singer, and holds the important position of the Federal Inspector General of the Vatican?

"It seems that the identity of the British Taiwan is to be exposed. It is still up to you. Otherwise, this will definitely become the handle of the guys!"

In the muttering, Ye Xuan couldn't help but feel a headache. If the identity of this Xuan prince has become an established fact, and after the immortal star, using the star network of the immortal star, searching for the source of engulfing will do more with less. He has some desire to give up. This identity is gone.

This kind of struggle between the royal family is extremely unpleasant, and the intrigue is really trouble!

After sighing, Ye Xuan even waved his hand to pay for the virtual shuttle. The Emperor Pavilion is the top VIP pavilion of Emperor Tiandi. The interior space is very large. It is a small private battleship. Out.

Then, after the wretched mosquito stalk entered the hole shuttle, Ye Xuan quickly waved again, and then put the hole in the hole and put it back. After doing all this, he started a perfect oscillation, physique and breath, and so on. Concentrated, quietly left the emperor.

After the emperor's pavilion, Ye Xuan stalked up, and the star-shaped passage leading to the sky outside the sky, after a few moments, went to the atmosphere of the sky.

Not far from the official Star of the Stars, the five star-studded fortresses of Naples are in the eye, but Ye Xuan is no longer able to pass.

In order to protect Naples, he can only choose to leave alone.

Once again, Ye Xuan began to repair, and in this state of hiding the body shape and all the breath into the starry sky, the body crossed and soon went away.

Until it was far enough to make sure that the sky star had not been able to sense it, he waved his hand to sacrifice the hole and stepped into it...

Chapter 3075: Third order

It was night. Before Ye Xuan entered the independent pavilion in the emperor's pavilion, he had already explained it. If there is no summoning, don't enter and disturb yourself, because he wants to retreat.

Therefore, even if Ye Xuan left at night, but the next day, the whole Tiandi Emperor, but no one knows.

It is Naples, although I know that Ye Xuan will definitely leave quietly, but it is equally uncertain, whether he has left.

Since Xuan Huangzi has a confession and is still retreating, then naturally no one will bother to disturb, and even Naples is pretending to stay in the flagship fortress in the Starry Sky outside the sky.

As for the diet, it is common for the monks to drip for a few days or even longer. Since it is a retreat, the appetite of the appetite obviously has to stand by, so this day, there is not even a meal, no any at all. People come to bother.

On the other side of the Xuanyuan family, they also kept silent, and did not come over to contact Xuan Huangzi!

The next day, the third day... until the sixth day, still the same!

Finally, the emperor couldn't sit still there. The second command of Mei Sheng arrived at Tiandi Emperor and asked Xuan Huangzi to end the retreat immediately. Today, he must leave.

It is obvious that Mei Mei is also seen. In fact, some bystanders, including Xuanyuan's family, have also seen it.

I didn't close the night before, but I ended up in the order of Mei's reign. After the marriage, I closed down and chose to return to the emperor's immortal star. This is intentionally delayed.

Maybe Xuan Huangzi is in the independent pavilion every day for a few days, and there is no retreat at all!

The second command of Mei Mei has been obviously a little angry, and this second order is not issued to the Emperor Xuan, but also the Emperor of Heaven.

This is clearly to let Tian Ming Emperor come out, in any case, even if it is in disguise to catch people, you have to put Xuan Huangzi on the fortress fleet, set off to the rhythm of the immortal star.

Emperor Tianming did not come out, but the general manager of the Imperial Palace came, but after the imperial palace general manager entered the emperor's pavilion, he had not yet entered the independent pavilion of Ye Xuan, but it was already changed and sighed. Get up: "The prince has left, and, after a long absence, I am afraid that there are five or six days!"

The officials of the imperial palaces behind them stunned and then changed. This is not a trivial matter. It is clearly against the command of the emperor. Although the decree is not immortal, the emperor is now in the harem. The gains, her orders, can not defy!

The pro-sons are not guilty of returning. This is a matter of Mei Yan, it is tantamount to face.

Under the anger of the rose, many people in the Emperor of Heaven will suffer. After all, the Emperor Xuan is lost here, and some people cannot escape their responsibilities.

"What is the big manager?"

An imperial official turned pale and asked questions to the emperor's general manager who represented the Emperor of Heaven, and suddenly this happened. They were really confused.

"What can I do? People are gone, are you still trying to sneak up? If that's the case, then you really have to lose your head!"

The general manager faintly returned a sentence, and then he turned and went. He must report to the Emperor of Heaven, the emperor of a dynasty, although it is red, like the sun, but in the eyes of Emperor Tiandi, it is not really What, but the other side has stirred up a lot of trouble, this matter, I am afraid that Tiandi Emperor will be annoyed.

With the departure of the Imperial Palace, the follow-up work quickly began.

On the one hand, the reply of the emperor's immortal star, the first time he went up.

On the other hand, on the disappearance of the Emperor Xuanzi, Tiandi Emperor also launched a comprehensive investigation. After all, as the emperor of the Tianming Empire, Tianxingxing's star defense system is not comparable to the average small country administrative star. People disappeared and disappeared, and they couldn't say it.

The common method of concealing the body shape is to escape the induction and exploration of the Tianming Stars defense system!

If you don't find out that this is ugly, there is definitely no way to explain it.

However, when Ye Xuan left, it was the perfect vibration of the magical power of the devil. The star defense system of Tian Mingxing could not be sensed. Therefore, the final result of this investigation directly made all the people Stupid.

Xuan Huangzi is indeed missing, but when did he go, how to go, even in the end is his own initiative to leave, or was taken away by people... All this, no one knows.

The results of the investigation are blank!

There are no traces of any beads.

The result is that everyone is in a sluggish state.

The star defense system of the Heavenly Star is a supreme existence of a mysterious light. For example, the Admiral of Naples, such as the hidden practice, it is absolutely impossible to leave from here without leaving any traces.

However, Xuan Huangzi has done it. Although his cultivation is still a mystery, no one knows it, but what about it, isn't it strong enough to be in Xuanguang?

Could it be that someone who has been repaired to surpass the supreme existence of the mysterious light has left?

When I think about this possibility, the whole Emperor of Heaven is suddenly stunned. If this matter is verified, I don't know how many people will lose their heads.

The Emperor Xuanzi returned in a lonely battle in the Devil's Star Field of the First Universe, but he was guilty of this crime on his own site. Life and death are unpredictable. This matter is not pursued by the immortal dynasty. Countless emperor fans will never give up.

Because of this, the emperors of the entire Tianming empire were heart-wrenching, and even the Emperor of Heaven could not sit still.

Only the fortress fleet commander in Naples, anchored in Naples, was anxious on the surface, but his heart was determined, and he still lamented.

For the Emperor Xuanzi to leave Tianxingxing so unconsciously, he is so stunned, at least, the same thing, he can't do it.

In addition, Xuanyuan Ziyang knows what is going on, all of which is very mysterious to outsiders, but she knows that Ye Xuan has the power of the devil's spirit, so it is really not difficult.

Tiandi Emperor is the deep hinterland of the third universe science and technology camp. The magical scouts of the Tianji nationality cannot penetrate here. Therefore, the star defense system of Tianmingxing does not make too many targets for the magical spirit. Sexual defense measures, otherwise, Ye Xuan may not leave so easily.

This point, Xuanyuan Zizhen knows well.

Moreover, Ye Xuan did not hesitate to anger and anger, but also let her realize that in this matter, perhaps she really misunderstood, so the dissatisfaction of Xuanyuan Ziyang disappeared, and my heart began to worry about the leaves. Xuan.

It was also at this time that the third command from the emperor's immortal star finally arrived.

Unlike the previous two orders, the third command of this time was not from the immortal dynasty, but the federal headquarters in Varo.

To be precise, it is the Federal Supervisory Office at the Federal headquarters in Varo...

Chapter 3076: Monitoring team is coming

The third command, the Federal Inspectorate from the Federal headquarters of Varo, was issued by the Federal Inspector General, the Grand Emperor Long Hao.

Therefore, the amount of gold in this order has actually surpassed the two orders of the previous one.

Rose is only a favorite of the immortal emperor, but the dragon is different. He has an official identity. Among the royals of the immortal dynasty, he is the great emperor, the brother of the immortal emperor, and the important figure of the royal family.

In the Federation of Viro, he is the dean of the Federal Supervisory Academy and is a high-ranking power.

The content of the third decree is also very simple, but the deep meaning of it is fascinating and even meticulous. The order is that the Federal Supervisory Authority of the Immortal Star has sent an investigation team and is coming to the sky. The story of the disappearance of the Chashang Xuanzi, and the request of the Xuanyuan family's Neapolitan fortress fleet to stand by, no one can leave, waiting for the arrival of the investigation team of the Federal Inspectorate, in conjunction with the investigation of the emperor's depreciation of the 10 billion federal contribution points .

It seems quite normal that this order is seemingly cold on the surface, but if you look carefully, you can see that there is something wrong with it.

First of all, Xuan Huangzi's disappearance should be sent to the investigation team by the immortal dynasty, not the Federal Supervision Institute.

The Federal Inspectorate is an inspectorate of the Federal Republic of Varo, which is equivalent to the discipline inspection. The nature of this incident, whether it is the emperor's defiance of the command of the emperor, the private escape from marriage, or the emperor's accident, was taken away, not The Federal Supervisory Authority should be alarmed to investigate, which is an internal matter of the imperial royal family.

In addition, if it is really to investigate the disappearance of the Emperor Xuanzi, then the object of investigation mentioned in the decree should be the official of the Tianming Empire. Not the Xuanyuan family and the fortress fleet of Naples.

Moreover, behind this decree, it is also specifically mentioned that Xuan Huangzi was deducted from the 10 billion federal contribution points.

This is even more unusual. It is clearly suggesting that Xuan Huangzi was deducted from the 10 billion federal contribution points, and this time the Xuan Huangzi suddenly disappeared and tied together.

To be straightforward, the hidden meaning of this order is clearly that the Federal Inspectorate has doubts about the Emperor Xuanzi. Even his sudden disappearance in Tianxingxing has been incorporated into this point. He is skeptical that he is afraid of sin.

What is against the obscenity of Mei, the anti-marriage, these things, is just an excuse for Xuan Huangzi to receive the wind, on the surface to cover up their fear of sin.

All of this, the general federal citizen may not be able to see it, but as long as there is a little bit of experience in the officialdom, a little bit of temper can be realized.

Of course, in view of the special status of the Superintendent, he has always supported the great emperor. Therefore, this time, for the investigation of the Imperial Court's supervision, there is a bit of personal grievance. Ming, but no one dares to talk about it easily.

However, due to the arrival of this decree, the original Emperor of Heaven and the Emperor of Heaven, but gradually settled down, the official officials of the meditation are all fine, naturally it is obvious that the nature of the matter has changed. It is.

On the other side of the rose, after the big emperor and the dragon scorpion blended in and came into trouble, attention and resentment will also be attracted to the past, removed from the celestial empire, and transferred to the head of the great emperor.

They all said that the gods fought and the little devils suffered.

The usual struggle is indeed true, but this is the battle for the succession of the royal family within the royal family. It is impossible to be too vigorous. At least it is impossible to reveal the obvious on the bright side. Therefore, both sides will exercise restraint. In this case, the gods fight Up, the little devil has become a lively one.

In a word, the crisis of the Heavenly Empire is basically solved.

But for Naples and Xuanyuan, it was instantly tense.

One is the big family of the Imperial Capital, and the other is the senior general who has been mingling in the military of the dynasty for a long time. Their investigation order for the Great Emperor Long Yao is naturally very thorough.

It's just that the mind is clear, but it's daring to speak.

The great emperor Long Hao has the reasons and excuses of the past on the table. Even if the essence of this investigation is indeed the dispute of the imperial power, this layer of window paper is not easy to smash.

Even the immortal emperor will remain silent.

On the one hand, it is related to the face of the royal family. On the other hand, the dragon is his emperor, and he is in the high place in the Federation of the Viro. Even if the immortal emperor does not like this overly fierce battle of the imperial power, in this matter, He is also not likely to take the initiative to express his attitude.

Whenever the dispute of the imperial power appeared, as the imperial power in the position at that time, it was generally to maintain a detached wait-and-see attitude. Unless the situation evolved into a situation that was difficult to end, the imperial powers would only come forward. , calm and unrest.

In fact, such a dispute over the imperial power, in the eyes of the immortal emperor, is not an excellent opportunity for the great emperor and the sudden appearance of the sacred prince who was born like a black horse?

For this, the Great Emperor Long Yao is also well-informed, so he is extremely emboldened, as long as he masters a degree, don't make the situation too serious, make the royal face too embarrassing, immortal dynasty over there, it is impossible Stand up and intervene in this matter.

This point, Naples and the Xuanyuan family know the same, so the people of Naples and Xuanyuan at the moment, seemingly calm, but the heart, but already not calm.

In addition to anger, more, in fact, still worry.

The methods of the Federal Supervisory Academy are not ordinary. If the Emperor's uncle is awkward, this time, when the Emperor Xuan's son is severely photographed, they will also suffer and even be buried.

In addition to the immortal dynasty, the headquarters of the Faro, the immortal emperor, did not have any position on the dragon's power for this time.

The Federation of Varo, the Third Cosmic Terran and the Commonwealth of the Second Universe, the Commonwealth of the Second World, in addition to the Terran Powerhouse, there are a large number of other high-level members of the Second Universe.

Even in some important departments, it is not the strongest of the Terran, but the strongest of the other groups in the Second Universe. The Terran and other ethnic groups basically maintain a relative balance.

Moreover, the Terran and these federal ethnic groups are consistent in the matter of the Tianji nationality, but within the Federation, competition and even struggle have never stopped.

This point, from the top ten of the list of the world is sensitive enough to be able to touch the heart of the two universes, you can see one or two.

This time, although the president of the Federal Institute of Supervision, Long Hao, has a suspicion of power and personal gain, it is, after all, a struggle within the Terran itself. The federal community of the Second Universe is naturally sitting on the wall.

It was in this case that Long Yu's federal investigation team, very conveniently, went out from the immortal star, and one day later, he arrived at Tian Mingxing...

Chapter 3077: Second order of the planet

For this third investigation order from the Federal headquarters of Varo, Ye Xuan still does not know at this moment.

He is actually in the void near the sky, not far away.

After leaving the sky and the stars quietly that night, Ye Xuan crossed the void with the flesh and reached a position far enough away, and then the cave was sacrificed and stepped into it.

Then, the occult method of opening the virtual shuttle was opened, and it was always in the void near the sky.

The reason for this is because Ye Xuan is waiting for the follow-up reaction of the immortal star Mei Mei, and a smashing down, Xuan Huangzi not only did not return to the immortal star immediately, but also escaped from the marriage and quietly left, this kind of thing is no different Hit the face of Rose, the immortal star can not have no follow-up reaction.

And Ye Xuan, through the follow-up reaction from the immortal star, can analyze the purpose and trend of the woman who is suspected of the Tianzu ethnic group, and then make the next countermeasures in a targeted manner.

For this reason, he can't leave Tianjingxing too far, because he needs to activate the personal starry communication system at any time, and connect with Tianxingxing's star network to search for intelligence information.

Moreover, because he thought that he had to retreat before entering the emperor's hall, he had no choice but to come over and harass. Therefore, according to Ye Xuan's estimation, it is only a matter of one or two days that he suddenly disappears inexplicably. It will pass to the immortal star, and the Rose will wait for it to react to it, maybe three or four days later.

For this reason, under the boring, Ye Xuan transferred the virtual shuttle to the self-propelled mode, and he took out the star nuclear source and took advantage of this opportunity to start a retreat in the cave.

Although he is now a strong player in the planetary environment, it is obviously not enough. Xuan Huangzi can't just be the fourth realm of cultivation. He is afraid that he left the immortal star and started the trial of the imperial family. It is far more than this repair.

Although everyone now thinks that Ye Xuan is concealed and cultivated, it will be deliberately controlled in the planetary environment. In the next imperial imperial power struggle, Ye Xuan is likely to encounter the kind of forced to have to The reality of the real repair is revealed.

In this case, if Ye Xuan can't reveal a stronger cultivation, it is still only the first step of the planet. I am afraid that it will be suspicious immediately.

Therefore, whenever he is free, he will take time to cultivate.

Fortunately, he has a phagocytic system to help collect the energy in the source of the star. The speed in this area is very fast. Coupled with several previous mood changes, so in a short period of time, it is a breakthrough, and there is no need to worry about that. Because the realm is rising too fast, which leads to unstable foundations.

This time in the void retreat, Ye Xuan still used the nine-level nine-color star nuclear source, and two, after a short eight days, when he took out all the star nuclear sources thrown to the phagocytic system were all confiscated When I finished the practice, the familiar system sounds in Ye Xuan's mind will ring again in the first time.

"Hey, congratulations to the host, the realm of the realm! The current realm: the third level of the planet!"

Hearing this prompt tone, Ye Xuan's heart was happy, and the smashing flashed the fine mans and shook his fist hard.

Sure enough, after using two nine-level nine colors, this time the retreat cultivation finally realized the two consecutive Jin, from the previous planetary first-order, to the current third-order planet.

However, this situation is afraid that it will not last long. The planetary environment is still not very strong. In the case of using two nine-level nine-color star nuclear sources, it is still possible to break through two small steps.

However, with the improvement of his realm, it was later that he was afraid to use four or five nine-color nine-color one-time, and it would be nice to be able to raise a small stage.

For this reason, taking advantage of the fact that the foundation is still shallow, the effect of the nine-level nine-color is still very obvious. He decided to improve the repair as quickly as possible during this period until the mentality reached the bottleneck and had to stop.

In fact, this kind of thing can only be achieved by him.

In exchange for any other person, even if there is a large number of nine-level nine-color star nuclear source in hand, there is no way to do this, because it takes time to extract the energy of the star.

The higher the source of the star nucleus, the slower and more difficult it is to extract the star's nuclear energy. Ye Xuan is because of the phagocytic system, and the starry sky engulfs the blood of the beast, so there is no fear of this. Absorbed, fast and incomparable.

With the breakthrough of the realm, Ye Xuan's mood is also very good. Counting the time, when I saw this retreat, I spent a total of eight days, which made him scared.

Eight days, enough for the immortal dynasty to respond to his sudden disappearance, it is estimated that Mei Hao was angry early, Xuan Huangzi is her only son, Rose has always been proud of Xuan Huangzi.

This time, the Emperor Xuan's grandfather started the trial of the royal family, and she has always been extremely worried.

Even when Ye Xuan used the federal contribution points to exchange three tubes and nine grades of genetic culture fluids, he also took advantage of the opportunity at that time to ask for a drop of immortal ancestral blood from the immortal emperor. Slightly violated the rules and sent it to Ye Xuan's hands...

This time, Mei Hao was worried about the lifelong events of Xuan Huangzi, and came down with an order to let him return to the immortal star and marry him.

However, the Emperor Xuanzi did not take into account the feelings of the mother-in-law, and immediately went to the middle of the class. In the face of all this, it was absolutely impossible for Rose to be angry.

Maybe the whole day, the stars have already fallen into the sky, and I don't know if Naples and Xuanyuan's family are embarrassed. I thought about the protection of them at the first time. I believe that even if the anger is angry again, it's impossible to anger. They are on their heads.

After all, everyone sees that Naples and Xuanyuan's family have basically been branded with Xuan's son. This is the relationship between the sons and sons, and the anger is angry. It's impossible to ignore it because it's completely turned over. The son's future strength, all in one go?

If you really want that, you are definitely not a mother!

Thinking of this, Ye Xuan, who was just worried, even fell back to the chest.

Immediately afterwards, he issued instructions to the phagocytic system, immediately launched a personal starry communication system, and connected with the starry network of the planet, to see the subsequent evolution of the event.

With the release of the order, the phagocytic system immediately launched the Star Network, and after the success, it began intelligence gathering.

After a short period of time, the collection process was over, and a series of information was feedback back, turned into words, and reflected in Ye Xuan's mind.

Ye Xuan browsed the first time. Without looking at a few lines, the whole heart had already sunk to the valley.

In the next moment, his face was also instantly mad, and he was angered and even subconsciously uttered an exclamation: "What? How could this be?"

When the exclamation sounded, Ye Xuan's eyes were round and round, and a raging anger, from his body, rushed out...

Chapter 3078: Isolation review

Nowadays, the Emperor Xuanzi, in the midst of the day, finally found a chance to deal with him and suppress him. The great emperor, Long Wei, who is the Federal Inspector General, cannot easily be treated easily.

This time, the investigation team of the Federal Inspectorate from the Federal Headquarters of the Immortal Star Wanro was personally led by his deputy, taking a starry fortress and descending into the sky.

Long Hao's deputy is also a royal family of immortal dynasty, so he is also named Long, named Long Kui, but this person is only a royal family, belonging to the dragon 槐,, but in the generation, like the dragon,, If Ye Xuan is in contact with Xuan Zizi, face to face, it is also called a son.

However, compared with the uncles such as Long Yu and Long Tianba, this uncle is obviously much worse. After all, it is only a sideline.

Longkui, like Longyan, is a radical and strong hawkish figure. From the time of the Emperor's uncle, he sent him to be the head of the investigation team of the Inspectorate. It can also be seen that Long Hao's ambition is certain, and this is clearly a slap in the air. If you want to take a look at the prince of Xuan, you must at least smash the rhythm of the limelight.

As soon as the investigation team arrived at the day, they conducted a comprehensive survey of Naples and Xuanyuan.

As for the disappearance of the Emperor Xuanzi, they did not go to the waste of time. The Emperor Tiandi has thoroughly investigated it. Since there is no fruit, even if the Federal Supervision Institute conducts another investigation, there will be no new discoveries.

Although this is a fact, they are lazy to walk in a form. Once they have investigated the Neapolitan and Xuanyuan homes that are closely related to the Emperor Xuanzi, Sima Zhao's heart has long been known.

The entire Emperor of Heaven is quiet on this day, and all the people are closely watching the progress of this matter...

At the first time, Naples was temporarily unloaded from the position of the commander of the fortress fleet. The entire fortress fleet was temporarily commanded by Emperor Yulong, and returned to the immortal star. The purpose of this was obviously to facilitate the subsequent investigation of Naples. Expand and tie it to the army and separate it from the commander.

As the fortress fleet was forced to leave and returned to the Immortal Legion, both Naples and Xuanyuan Ziyang were taken to the federal fortress of the investigation team by the ombudsman of the Federal Supervisory Authority for isolation and censorship.

Naples was very well-matched, but when the Ombudsman of the Superintendent went to Xuanyuan to ask Xuanyuan Ziyang to cooperate with the investigation, he was somewhat hindered and almost broke out.

In the end, Xuanyuan's owner, Xuan Zhebo, was created and suffered a bit of injury. An ancestor of Xuanyuan's family also came forward and ordered the clan to exercise restraint. This allowed the officials of the Federal Supervision Institute to successfully take Xuanyuan Ziyang away.

This incident, in the Tiandi Emperor also caused a lot of trouble, originally, because of the relationship between the Emperor Xuanzi, Xuanyuan family in the entire top of the Emperor of Heaven, the top of the big family, can be described as heaven and earth.

But the changes in the world are so fast, the blink of an eye, the suppression of the Emperor Xuanzi on the dynasty has already begun, and the Xuanyuan family has also been squashed. This matter has become a joke in Tiandi, saying that they have not had the heat on their thighs.

.....

In the Federal Fortress of the Supervisory Institute, the edge area of the top-level command module, Naples and Xuanyuan Zijiang were held in two distant compartments for separation and examination.

All the reviews were personally handled by the team leader Long Kui.

At this point, the Federal Fortress has left the Heavenly Star and is returning to the immortal star.

However, when the star-studded fortress came, it leaped into the wormhole and rushed at the fastest speed, but at the moment, it was not at all anxious.

Because the interrogation work will be completed on the way, in accordance with the instructions of the Superintendent Long Yao, it is necessary to obtain the confession of Naples and Xuanyuan Zijing on the way, and to sit down on the crime of deliberately killing Wen Xing.

It is best to be able to make progress in other areas, such as the collusion between the Emperor and the Devil, and it is already a traitor.

If you can get this kind of crime, then the downfall of the Emperor Xuanzi will almost be nailed, and there will be no change.

Because of the lack of physical skills, the questioning of Xuanyuan Ziyang has not yet begun. At this moment, Long Hao, with several officials of the Supervisory Academy, is interrogating Naples.

"Now I can tell you that the imperial priest Wenshi of the Devil's group is a huge price paid by our federation. I have won it for many years. I haven't dared to use this line for many years. I have been training almost all the time. The state, the purpose, is to hope that his line will play a key role in the overall battle in the final battle with the Tianji people in the future!"

Looking at the opposite side of Naples, Long Kui said, the look on his face was gradually cold.

After a short pause, the nose blew a cold, and then he said: "But now, Wen Xing is dead, and the death is unknown!"

"After our investigation, it has been determined that before you went to the first universe, Wenxing happened to be in the black mosquito field, and together with Longxuan, but then, Longxuan was picked up by you, and Wenxing was inexplicably Fallen..."

"Yuanxuan Xuan has been deducted from the 10 billion federal contribution points. You are also the top of the immortal army. For the reward and punishment of military merit, you should know better than me. What is the meaning of the 10 billion federal contribution points? What is so significant? The loss will be reversed so many points, I don't think I have to say more."

"This thing, what do you want to explain?"

When I heard this, when I was in Brescia, I frowned. My heart sighed even more. He knew that this thing would not be easily let go. It is absolutely necessary to take the opportunity.

It's just that Naples didn't even think about it. The other's troubles came so fast.

The only thing he can do now is to try to help Xuan Huangzi to excuse himself. After all, the real goal of the other party is Xuan Huangzi. Napoli has now been branded with the Emperor Xuanzi, and Xuan Huangzi is fine, he will be fine. Xuan Huangzi really wants to be stunned in the end, fell in this fierce battle of imperial power, then, his Naples, must not fall into a good ending.

In the thought of this, Napoli secretly bite his teeth and turned over his eyes to make a reply that he had already thought of well: "The death of Wen Xing has nothing to do with the Emperor of the Emperor. At that time, we did not meet with the Emperor Xuan, in order to force the Mosquito to be stationed at that time. The Star's Devil's Royal Fleet handed over the Emperor Xuan, I ordered the bombardment of several Devil's Great Fortress, and Wen Xing happened to be there, so his death can only be regarded as an accident."

"Moreover, the identity of Wen Xing, before the departure of the fleet, no one told me, that is, knowing that he is in the big fortress, I will order the fire. I really want to say, the responsibility of this matter. It should be the top level of the federal party responsible for contacting Wendeng!"

"boom!"

"presumptuous!"

After listening to Naples, a few words to clean up his own choices, and even blame the head of the federal high-level, Long Kui suddenly furious...

Chapter 3079: Grab people

"Long Kui? Long Kui? Good arrogance! Good tyrants!"

After the end of the retreat, with Ye Xuan's order to the phagocytic system, the personal starry communication system was launched, and the starry network of Tianmingxing was connected to search for the follow-up development of this incident. He knew the following two in the first time. The order came, and the Federal Inspector General Long Hao sent an investigation team to the celestial star, vacated Naples, arrested Xuanyuan Ziyan, wounded Xuanyuan's owner, and so on...

A sigh of resentment, suddenly bursting from the chest of Ye Xuan, this time, he is completely angry!

For the identity of Xuan Huangzi, Ye Xuan does not really catch a cold!

In the Devil's Star Field of the First Universe, after he fell in the real Emperor Xuanzi and got his **** brand, Ye Xuan decided to replace his identity, on the one hand, because he is about to return to the Third Universe, On the side of the Terran, it is hard to change the fact that he is misunderstood that he is the Emperor of Xuan.

Even if Ye Xuan explained it is absolutely useless, it will cause more trouble for himself.

In addition, the identity of Xuan Huangzi is indeed very convenient for him to search for the source of engulfment in the third universe, including the second universe.

Therefore, Ye Xuan will eventually make a mistake when he is half-pushing and half-placed, and biting his teeth will harden the identity of Xuan Huangzi.

It is a pity that this identity has brought him great convenience. At the same time, obviously there will be a lot of troubles coming along, and nothing else, as the emperor of the immortal dynasty, but also a prestige, it is a well-being emperor, the interior of the royal family. In the battle of imperial power, he can't avoid it anyway.

Ye Xuan has a foundation, he is not afraid, just a little trouble.

But you have no reason to just take advantage of it, but you are too troublesome!

Therefore, he is already psychologically prepared for such an annoying battle of imperial power.

But Ye Xuan has a bottom line in this matter.

Since it is convenient, Laozi is annoyed again, and can't help but play with you, but I can't touch Laozi's bottom line. Otherwise, I won't be able to play it. I don't play.

The identity of this Xuan prince is not worth mentioning. Anyway, as a fragment of the starry sky and super brain of his personal starry communication system, it has already entered a young age, and the search scope and capabilities have greatly increased. Sooner or later, it will grow into a real starry sky. At that time, Ye Xuan does not need to rely on the starry sky of the immortal star to get the convenience and search for the source of the devour.

As for personal strength and heritage.

His cultivation has been a breakthrough for the times, and now it is not a weak one. As long as this high-speed growth state is maintained, Ye Xuan will soon become a true star power.

And to maintain this high-speed growth of hardware and software, he is not lacking, devouring the system, and various cultivation resources, Ye Xuan.

This is just the foundation of personal strength. In the end, it is the comprehensive strength. There are Lei Yuanzhu and the headless baby corpse in hand. Even in this third universe, who is he afraid of?

It can be said that the identity of Xuan Huangzi is convenient for Ye Xuan. At the same time, although he also bears the intolerance to deal with some troubles, it is absolutely not enough for him to be called a bondage.

Still, the words are provoked, and it's not a big deal. I'm not picking it up.

Therefore, this time, Mei suddenly suddenly ordered that Yan Xuan immediately return to the immortal star and Yingtai to marry, and he would walk without any pressure, leaving no face at all, because there is no need to go to force himself to grievance.

Similarly, since Naples and Xuanyuan Ziyu have been regarded as their own ties and friends by Ye Xuan, then they are the bottom line of Ye Xuan.

Because of his own affairs, he was tired of Naples and Xuanyuan, and Ye Xuan could not accept this. The seriousness of this matter is enough for him to turn his face.

At least on Ye Xuan, he thinks this way!

Longkui, a half-Naples and Xuanyuan Ziyu arrested, and not only injured the old father of Xuanyuan Ziyu, but even prepared to take the Federal Supervisory Academy of the immortal star. This is clearly in any case, even if it is a trap, they should take them. The rhythm.

This matter, Ye Xuan can't bear it!

As the imperial prince of the dynasty, Long Hao is also the federal inspector of the federal headquarters of Varo. It is indeed a big force, but the other party has already put aside the oppression. If Ye Xuan does not show his sword, he will retreat and let Napoleon and Xuanyuan Ziyu be him. The deputy Long Kui took away.

Who will dare to move closer to Xuan Huangzi in the future?

Ask the reputation of Xuan Huangzi, after this time, what kind of valley will be suppressed?

In fact, these factors, Ye Xuan did not consider, the only thing he thought at the moment was that Laozi was unhappy, and Laozi was extremely unhappy.

Laozi... I have to worry!

Are you not bullying me? That line, it's a big deal to hurt each other. The foundation and strength of Laozi's surface is really not as good as you, but isn't it just a fight?

How big is it?

If you don't win, Lao Tzu will dare to be hard with you, not to mention... I still have the confidence to win!

With this in mind, Ye Xuan immediately issued instructions to the phagocytic system, and immediately analyzed to see the federal fortress belonging to the Federal Base of Varo, not the immortal dynasty. Now the approximate starry sky position.

The results of the analysis are coming out soon!

The federal fortress was not long after leaving the planet, only a small half day, and watching them leave the sky, it seems that they did not intend to go straight to the nearest cosmic wormhole, quickly wormhole jumping Return to the immortal star.

In this case, it is naturally impossible to sail at full speed!

As a result, the distance of this federal fortress from the sky, is not far away.

"It is clear that I want to fix all the confession on the way. Once I reach the immortal star, I will immediately sue the crime of framing. I will thoroughly sit down on the rhythm of this matter. It's a good calculation. It's really a heartfelt heart. !"

Ye Xuan slightly pondered, and guessed the calculations of Long Yao and Long Kui. Under the anger and laughter, he whispered a few words, and then he urged the hole to go to the direction of the immortal star. The nearest cosmic wormhole in the front rushed over.

Although he was a little late than the other party, but since the other party is not in a hurry, then Ye Xuan can enter the space wormhole to get closer.

In fact, according to his estimation, when the hole shuttle rushes out from the other side of the cosmic wormhole, if there is no accident, it should have already arrived in front of the federal fortress.

In this way, he can make him make some necessary arrangements on the way to the immortal star of the immortal star in advance.

Since it is robbing people, then obviously there is no need to be polite. This time, Ye Xuan even made a good use of the psychological budget of the Sky Star Fortress.

When Laozi was a flat-headed person, he was still not afraid of power. The devil's scouts were dare to provoke, not to mention the identity of a prince on the bright side.

Just hit it, afraid of a wool...

Chapter 3080: Full preparation

Although the heart is angry, but Ye Xuan is not as stunned by anger.

The target of this shot is a starry fortress. If you want to take back Naples and Xuanyuan Ziyan, it is obviously not good to use the original.

But what can be used, what can not be used, Ye Xuan must be considered clearly.

Of course, the use of this place does not mean that it can never be used, but it is not the extent that it is forced to do so. It is best not to use it.

For example, headless baby corpses, such as Lei Yuanzhu, both of which exist, can be used to solve this federal fortress, but then, the fruit is a bit unbearable.

On the one hand, Ye Xuan's cards will be exposed.

On the other hand, once the headless baby body or Lei Yuanzhu is dispatched, it is feared that this federal fortress, which is located by Longkui, will eventually be unable to survive, and it will be a big event.

In addition, Naples and Xuanyuan Zizhen are also in this federal fortress, really want to ignore it, in case of hurting them, Ye Xuan is also unwilling.

As the hole rushed into the cosmic wormhole, these problems were also rapidly turned in Ye Xuan's mind, causing him to sink into sinking and think about it.

After some indulgence, Ye Xuan quickly set the main base of this action.

Since it is to save people, it can also be said to be robbing people. Then, this action will be a robbery.

The purpose of robbery is to rob, not to kill or destroy. Therefore, in terms of strength, there must be deterrence and means, and the same is also deterrent.

Set this master tone, then how to arrange it next, it is simple.

Nothing more than a word: showing a powerful enough deterrent force, forcing Longkui to surrender Napoli and Xuanyuan Ziyan!

There is only one warship on the other side, but it is a 100,000-meter-diameter starry fortress. To have enough deterrent power against this level of force, Ye Xuan must have at least one star fortress, that is, the seat. The fortress of the bank's celestial family, this time, afraid that it will not show up will not work.

This point Ye Xuan does not care, this starry fortress, in the foundation of his hands, originally does not belong to the existence of such a trump card, sooner or later is intended to be exposed!

This time, it is only a little ahead of time!

In addition, the black mosquito number, the black wind number, and the three 10,000-meter-diameter large fortresses of the Holy Son can be used. The fact that he has these three great forts in his hands is no secret in the Federation of the Faro and the immortal dynasty.

In addition, the army of millions of mosquitoes and the army of the 100,000 emptiness and small army, which can not be killed or killed, can also be placed in the void.

It is the high-end combat power of the **** prince, the eight-star king scoop, but there is no need to take it out again.

Like Longkui is the supreme existence of the mysterious light, the **** prince is only the original point, the eight-star king scoop is the same, the original point is only the ninth realm, the black light is the eleventh realm, and the two realms are worse. It is useless to dispatch them, and it may even be used by the other party as a means of combating Ye Xuan.

In addition, the hands of Ye Xuan in the hands of Nebo Mountain, Ba Gua, Li Mo, etc. are only the eighth realm black hole, the strongest one is the anger of the left Fengtai is also the ninth largest realm of the original point of origin, only This same can not be used.

It is also a death, not to mention that they are devils, and it is not convenient for such occasions to be exposed.

It is the tens of millions of mosquitoes and 100,000 emptiness soldiers, although the individual weakness is weak, but the victory is in a large number, as a cooperation, spread in the void, the visual deterrent effect, there are still.

What's more, Long Kui even wants to rely on killing these mosquitoes and soldiers, but it has a blow to Ye Xuan, and he does have this ability, but as a supreme powerhouse with a mysterious light, how is he? Can you lay down your body and start with these mosquitoes and soldiers?

In short, the use of mosquitoes and soldiers to scout the army, can achieve the deterrent effect, but also can basically avoid the consequences of too much damage, how to calculate is absolutely cost-effective.

Of course, these alone are not enough.

Although the headless baby corpse and Leiyuanzhu can not be used, but for Ye Xuan, the **** corner of the soul can be used.

The original nine-star scooping emperor was the supreme being of the cave, and the tenth realm was crushed by the blood of the soul, and even the rebellious thoughts did not.

Based on this alone, it can be inferred that the **** corner of the soul should be able to suppress the dark light and even the more powerful existence.

In addition, Ye Xuan himself must also show some powerful means, so that he can take advantage of this opportunity to form a deterrent that is more beneficial to him.

However, the mystery and magical powers of the devil's spiritual power, such as the annihilation spear, the whirlpool of destruction, the spirit of lightning, the spirit of crushing, the charm of the spirit, etc., are not suitable for unfolding, with Ye Xuan in these spiritual secrets and magical powers. The degree of cultivation is not enough to pose a threat to a strong person.

The primary enchanting is only the effect of glimpsing the source, and it is the same as the auxiliary magical power.

As for the blood quenching of the Golden Dragon, it is not a means of attack, but a technique of quenching, which is the dragon's roaring dragon and the magical dragon's eye, which is obtained after the mutation. Xuan's own strength is limited, and today's power is not very strong, and it is inconvenient to expose it too early.

Although Lei Diyin, which is suspended in the center of the sea, contains a lot of Qinglei and Jindian, but once this method is launched, Ye Xuan is also difficult to control, even if the power of Leiyuanzhu is so horrible, fear that it is that It is impossible for the Star Fortress to be damaged, and there is the possibility of accidentally injuring Naples and Xuanyuan.

Only the 陨天弓 is an exception!

陨天弓神通, originated from the ancient night yoke, this is a brand of a ridiculous ancient magical power, staying in the sea of Ye Xuan. This kind of ancient magical power is not like the black gold dragon scales that represent the dragons and dragons in the sea, and other magical powers and magic powers. There are also grades of elementary and intermediate grades.

From the beginning, Hao Tian bow did not have any grade.

Once it is displayed, it will encroach on a large amount of power, including the power of cultivation, spiritual strength, vitality, the power of flesh and blood, and even the mysterious force of the hollow crystal. All this will be turned into For a golden energy arrow, rushing toward the opponent.

Of course, the more powerful Ye Xuan itself is, the more energy that this magical brand can absorb, the greater the power of the golden energy arrow that lasing away.

But even with Ye Xuan's current strength, as long as he controls a degree and pays a lot of power for cultivation, spiritual strength, strength of flesh and blood, etc., the arrow that is shot may not be all for the strong black spot. No threats.

The only inconvenience is that if this degree is not sure, the power drawn by the golden arrow is too much. Ye Xuan is afraid to be like the previous two times, and fainted on the spot.

But if you accumulate power in advance, throw a lot of plague crystals and star nucleus source for the arrow to recharge, this drawback can be resolved.

With this in mind, Ye Xuan's singer is bright... just do it!
